

## MEMORANDUM

**To:** Planning, Land Use, and Zoning (PLUZ) Committee members  
**From:** Ketil Freeman and Eric McConaghy, Council Central Staff  
**Date:** February 20, 2017  
**Subject:** Council Bill (CB) 118893 -- Land Use Omnibus Legislation

---

Approximately biennially the Seattle Department of Construction and Inspections (SDCI) develops an omnibus bill amending the Land Use Code (Code). Generally, the omnibus bill corrects typographical errors, corrects cross-references, clarifies existing regulations, and makes other minor amendments identified by SDCI in the course of Code administration.

The omnibus bill is not intended to be a vehicle for addressing significant policy issues. Inevitably, some proposed changes are substantive and represent modest policy choices for the Council. As with every omnibus bill, the Council can defer consideration of more substantive amendments to legislation that is either currently at Council, anticipated to come to Council, or developed specifically to address the issue. Anticipated or already introduced legislation to which issues could be deferred include (1) Council Bill (CB) 118753 related to State Environmental Policy Act (SEPA) categorical exemption thresholds for infill development, (2) CB 118885 related to implementing the Mandatory Housing Affordability (MHA) Program Downtown and in South Lake Union, (3) a bill anticipated this summer modifying the Design Review, and (4) a bill or bills anticipated in early 2018 implementing the MHA Program citywide.

This memo describes the contents of a proposed substitute bill, shown on Attachment A, and sets out potential amendments related to five issues outlined in Table 1 and shown on Attachment B.

### **Substitute Bill (Attachment A)**

The substitute bill amends the bill as introduced to correct references in the section lead-ins, also called “jingles” to identify CB 118914, the University District rezone bill, as the bill which most recently amended the section.

While CB 118914 amends some of the same sections as CB 118893, the bills do not modify language in the same subsections. An example of a changed jingle in the substitute is set out below:

Section 32. Section 23.48.025 of the Seattle Municipal Code, last amended by the ordinance introduced as Council Bill [118914](#) ~~118862~~, is amended as follows:

**Table 1: Potential Amendments**

Issue	Options	Discussion
<p><b>1. <i>Should live-work units be eligible for unit lot subdivision?</i></b></p> <p>Attachment B, pages 1-4</p>	<p>a. Do nothing - Amend the Code as proposed by SDCI to authorize unit-lot subdivision of development with live work units.</p>	<p>CB 118893 would authorize subdivision of live-work units to allow individual sale through a unit lot subdivision process. Live-work units combine commercial and residential living space in a single unit and satisfy development standards for ground-level commercial space in commercial zones. As a practical matter, many live-work units function exclusively as townhouse-style residences.</p> <p>A unit lot subdivision is a process whereby land is divided to allow for individual fee ownership. Development on the land must meet development standards applied to the parent lot, i.e., the lot as it is configured prior to the subdivision, not the lots on which individual units may be located after the subdivision. Unit lot subdivisions are allowed for townhouses, rowhouses and other types of ground-related single family and multifamily development where no portion of one unit is located above or below another. Live-work units are currently eligible for subdivision under a standard, but not unit-lot, subdivision process.</p> <p>Allowing unit lot subdivisions for live-work units may encourage development of mixed-use projects in commercial zones that are <i>de facto</i> townhouse-style projects without any apartments above. While that may not always be a problem, in some areas, such as urban centers and villages and light rail station areas, a lower-density townhouse development type in commercial zones may frustrate planning objectives for increased density.</p> <p>Staff has reviewed subdivision applications since 2013 in commercial zones and zones with a Residential Commercial suffix in Urban Centers, Hub Urban Villages, and light rail station-area overlays. In those geographies, policies and regulations establish a preference for denser residential development and employment growth. Of the 31 subdivision applications in these areas in that period, 24 appeared to be for live-work units. See Attachment C for a map showing the location of the applications.</p> <p>Amending CB 118893 to make live-work units ineligible for unit-lot subdivision would not preclude ongoing development of live-work units in these areas. It would not create an incentive for development that could be viewed as inconsistent with other planning policies and objectives.</p>
	<p>b. Amend CB 118893 to remove proposed changes authorizing unit-lot subdivisions for live-work units and defer consideration of the proposal to another piece of legislation.</p>	

**Table 1: Potential Amendments**

Issue	Options	Discussion
<p><b>2. <i>Should bill be amended to clarify development standards for rowhouse separations and setbacks?</i></b></p> <p>Attachment B, pages 1-4</p>	<p>a. Do nothing.</p>	<p>Constituents have brought to the Council’s attention the potential for additional amendments. Specifically, application of development standards for rowhouses have led to circumstances where minimal separations have been provided between existing structures and new rowhouse developments.</p> <p>Rowhouse development is a multifamily development type where each unit shares one or more common wall and has pedestrian access directly to the street from each unit. Unlike townhouses, no portion of a principal rowhouse structure may be located between another dwelling unit and the street. The intent of the rowhouse development type is to create a continuous frontage of ground-related multifamily development in less intense multifamily zones.</p> <p>That intent can be frustrated when rowhouses are not developed to the rowhouse lot line. In those circumstances, Council may want to consider providing side setback standard to ensure some amount of light and air and to provide access for structure maintenance.</p>
	<p>b. Amend CB 118893 to clarify rowhouse side setbacks are measured from the “rowhouse development” not the rowhouse lot-line.</p>	
	<p>c. Amend CB 118893 by adding a footnote to establish a minimum side setback of 3.5 feet where a rowhouse development is not built to the side lot line.</p>	
	<p>d. Amend CB 118893 as described for both options b. and c.</p>	

**Table 1: Potential Amendments**

Issue	Options	Discussion
<p><b>3. <i>Should mechanical equipment on the roofs of structures exceeding 85 feet in height in Seattle Mixed (SM) zones be allowed to exceed the height limit by 45 feet, if the rooftop is designed to include open space or a common recreation area?</i></b></p> <p>Attachment B, pages 4-5</p>	<p>a. Do nothing – allow mechanical equipment for buildings over 85 feet in height to exceed height limit by 45 feet to provide access to a rooftop open space or common recreation areas.</p> <p>b. Amend CB 118893 to raise the height of qualifying structure to 125 feet and establish a rooftop coverage limit not to exceed 25%.</p>	<p>CB 118893 would allow mechanical equipment on buildings exceeding 85 feet in height in SM zones to extend up to 45 feet above the height limit, without any limit on rooftop coverage, to provide usable open space or a common amenity area. Currently, the land use code permits elevator penthouses to extend 25 feet above the height limit for structures greater than 85 feet. If the elevator provides access to a rooftop designed to provide usable open space or common recreation area, elevator penthouses up to 45 feet above the height limit are permitted.</p> <p>Increased height and bulk associated with over-height mechanical equipment could increase shadow impacts on nearby properties and rights-of way. To help mitigate the potential for shadow impacts, Council could raise the height of qualifying structures to 125 feet, which is a height limit used for other height exceptions in the same subsection, and establish maximum rooftop coverage limits for over-height elements, also based on other maximums established in the same subsection.</p>

**Table 1: Potential Amendments**

Issue	Options	Discussion
<p><b>4. <i>What criteria should be met for a non-discretionary waiver of structure width and depth development standards in Downtown Mixed Residential areas of the International Special Review District?</i></b></p> <p>Attachment B, pages 5-8</p>	<p>a. Do nothing. Allow non-discretionary waiver by SDCI Director of structure width, depth and separation requirements for development in DMR-zoned areas of the International Special Review District when <b>either</b> the development provides affordable housing meeting a minimum standard or when the waiver would better meet the goals and objectives of the Special Review District.</p> <p>b. Amend CB 118893 to authorize the SDCI Director to waive specified development standards when <b>both</b> the development provides affordable housing meeting a minimum standard and when the waiver would better meet the goals and objectives of the Special Review District</p>	<p>CB 118893 would authorize the SDCI Director to waive structure width and depth for development in a limited area of the Chinatown / International District east of Interstate 5, if the development provides affordable housing <b>or</b> better meets the goals and objectives of the International Special Review District.</p> <p>To meet affordable housing standards for the waiver, at least 40% of units in a project would be restricted to households earning no more than 60% of area median income for a period 40 years. In 2016, 60% of area median annual income for a two-person household was \$43,380.</p> <p>Use of the conjunction “or,” instead of “and,” in the proposed code language would provide the SDCI Director with discretion to waive certain development standards for a project when that project does not provide affordable housing. Council may want to limit the SDCI Director’s discretion for the proposed waiver.</p>

**Table 1: Potential Amendments**

Issue	Options	Discussion
<p><b>5. <i>Should there be no opportunity for appeal to the Hearing Examiner for State Environmental Policy Act (SEPA) decisions that do not have another discretionary permitting decision associated with them?</i></b></p> <p>Attachment B, pages 9-12</p>	<p>a. Do nothing – remove appeal opportunities to the Hearing Examiner for stand-alone SEPA decisions.</p>	<p>CB 118893 would eliminate appeals to the Hearing Examiner for SEPA decisions that do not include another discretionary component, such as Design Review.</p> <p>Staff has reviewed the history of land use permit applications coded by SDCI as including SEPA review. Since 2012, of approximately 1,450 applications including SEPA review as a component, 38% were for projects requiring SEPA review and no other discretionary review. Many of these were for small projects, such as grading in a critical area. Others were for substantial development in industrial areas.</p> <p>Council may want to defer action on this proposed change to ensure that there are no unintended consequences. Preliminary communications with SDCI staff and Law indicate that the proposed change could be deferred.</p>
	<p>b. Amend CB 118893 to remove proposed changes and defer consideration of the proposal to another piece of legislation.</p>

1           B. No member of the Commission, during his or her term of office and for six ~~((6))~~  
2 months thereafter, shall be individually eligible for employment by, or to contract with, the  
3 City in connection with any capital improvement project reviewed by this Commission, and  
4 no member shall be involved in such capital improvement project work during such time. If a  
5 member’s employer, or a firm in which a member is a partner or has an ownership interest, is  
6 under contract or under consideration for a contract with the City during his or her term of  
7 office, the member shall divulge this information in a meeting of the Commission, and shall  
8 recuse himself or herself from any and all deliberations regarding such project until project  
9 completion or until the member’s employer or firm is no longer under consideration for  
10 contract on such project.

11           Section 2. Section 3.58.060 of the Seattle Municipal Code, last amended by Ordinance  
12 96977, is amended as follows:

13 **3.58.060 Organization—Quorum—Support staff ~~((:))~~**

14           The Chairman of the Commission shall be designated by the Mayor, subject to  
15 confirmation by the City Council, to serve ~~((from October 1st of each year))~~ for a period of

9 Section 4. Section 23.22.062 of the Seattle Municipal Code, last amended by  
10 Ordinance 124475, is amended as follows:

11 **23.22.062 Unit lot subdivisions**

12 A. The provisions of this Section 23.22.062 apply exclusively to the unit subdivision  
13 of land for:

14 1. Residential development including single-family dwelling units, townhouse,  
15 rowhouse, and cottage housing developments, and existing apartment structures built prior to  
16 January 1, 2013, but not individual apartment units, in all zones in which these uses are  
17 permitted, or any combination of the above types of residential development as permitted in  
18 the applicable zones.

19 2. Live-work units that occupy space from the ground to the roof of the  
20 structure in which they are located, do not occupy space above or below another live-work  
21 unit or dwelling unit, and are attached along at least one common wall to at least one other  
22 live-work unit or dwelling unit, with habitable interior space on both sides of the common  
23 wall, or abut another live-work unit or dwelling unit on a common lot line, in all zones in

1 which these uses are permitted, or any combination of the above types of development as  
2 permitted in the applicable zones.

3 B. Except for any site for which a permit has been issued pursuant to Sections  
4 23.44.041 or 23.45.545 for a detached accessory dwelling unit, lots developed or proposed to  
5 be developed with uses described in subsection 23.22.062.A above may be subdivided into  
6 individual unit lots. The development as a whole shall meet development standards applicable  
7 at the time the permit application is vested. As a result of the subdivision, development on  
8 individual unit lots may be nonconforming as to some or all of the development standards  
9 based on analysis of the individual unit lot, except that any private usable open space or  
10 private amenity area for each dwelling unit or live-work unit shall be provided on the same  
11 unit lot as the dwelling unit or live-work unit it serves.

12 C. Subsequent platting actions, additions or modifications to the structure(s) may not  
13 create or increase any nonconformity of the parent lot.

14 D. Access easements and joint use and maintenance agreements shall be executed for  
15 use of common garage or parking areas, common open space (such as common courtyard  
16 open spaces for cottage housing), and other similar features, as recorded with the King County  
17 Recorder.

18 E. Within the parent lot, required parking for a dwelling unit or live-work unit may be  
19 provided on a different unit lot than the lot with the dwelling unit or live-work unit, as long as  
20 the right to use that parking is formalized by an easement on the plat, as recorded with the  
21 King County Recorder.

22 F. The fact that the unit lot is not a separate buildable lot and that additional  
23 development of the individual unit lots may be limited as a result of the application of

1 development standards to the parent lot shall be noted on the plat, as recorded with the King  
2 County Recorder.

3 Section 5. Section 23.24.040 of the Seattle Municipal Code, last amended by  
4 Ordinance 124378, is amended as follows:

5 **23.24.040 Criteria for approval**

6 A. The Director shall, after conferring with appropriate officials, use the following  
7 criteria to determine whether to grant, condition, or deny a short plat:

8 1. Conformance to the applicable Land Use Code provisions, as modified by  
9 this ~~((chapter))~~ Chapter 23.24;

10 2. Adequacy of access for pedestrians, vehicles, utilities, and fire protection as  
11 provided in Section 23.53.005, Access to lots, and Section 23.53.006, Pedestrian access and  
12 circulation;

13 3. Adequacy of drainage, water supply, and sanitary sewage disposal;

14 4. Whether the public use and interests are served by permitting the proposed  
15 division of land;

16 5. Conformance to the applicable provisions of Section 25.09.240, Short  
17 subdivisions and subdivisions, in environmentally critical areas;

18 6. Whether the proposed division of land is designed to maximize the retention  
19 of existing trees;

20 7. Conformance to the provisions of Section 23.24.045, Unit lot subdivisions,  
21 when the short subdivision is for the purpose of creating separate lots of record for the  
22 construction and/or transfer of title of single-family dwelling units, townhouse, rowhouse, and  
23 cottage housing developments, ~~((as permitted in Single Family, Residential Small Lot, and~~

10 live-work units in zones where live-work units are permitted, shall conform to the following  
11 standards for lot configuration, unless a special exception is authorized under subsection  
12 23.24.040.B:

13 a. If a lot is proposed with street frontage, then one lot line shall abut  
14 the street for at least 10 feet; and

15 b. No lot shall be less than 10 feet wide for a distance of more than 10  
16 feet as measured at any point; and

17 c. No proposed lot shall have more than six separate lot lines. The lot  
18 lines shall be straight lines, unless the irregularly shaped lot line is caused by an existing right-  
19 of-way or an existing lot line; and

20 d. If the property proposed for subdivision is adjacent to an alley, and  
21 the adjacent alley is either improved or required to be improved according to the standards of  
22 Section 23.53.030, then no new lot shall be proposed that does not provide alley access,  
23 except that access from a street to an existing use or structure is not required to be changed to

1 alley access. Proposed new lots shall either have sufficient frontage on the alley to meet  
2 access standards for the zone in which the property is located or provide an access easement  
3 from the proposed new lot or lots to the alley that meets access standards for the zone in  
4 which the property is located.

5 B. Special Exception. The Director may modify the standards of subsection  
6 ((~~23.24.040.A.9~~)) 23.24.040.A.8, as a Type II special exception decision, if the applicant  
7 demonstrates that the proposed plat meets the following criteria:

8 1. The property has one of the following conditions not created by the  
9 applicant:

10 a. Natural topographic features or natural obstructions prevent the  
11 platting of one or more lots according to the standards of subsection ((~~23.24.040.A.9~~))  
12 23.24.040.A.8;

13 b. Location of existing principal structures that are retained on lots  
14 existing prior to the proposed platting require a platting configuration of one or more lots that  
15 cannot reasonably meet the standards of subsection ((~~23.24.040.A.9~~)) 23.24.040.A.8;

16 c. Location of existing easements or feasibility of access to portions of  
17 the property prevents the configuration of proposed plat lines that meet the standards of  
18 subsection ((~~23.24.040.A.9~~)) 23.24.040.A.8.

19 2. Modification of the standards of subsection ((~~23.24.040.A.9~~)) 23.24.040.A.8  
20 shall be the minimum necessary to allow platting of lots that each contain a building area for  
21 development meeting the development standards of the zone in which the proposed plat is  
22 located.

1           B. Except for any lot for which a permit has been issued pursuant to Section ((s))  
2 23.44.041 or 23.45.545 for a detached accessory dwelling unit, lots developed or proposed to  
3 be developed with uses described in subsection 23.24.045.A above may be subdivided into  
4 individual unit lots. The development as a whole shall meet development standards applicable  
5 at the time the permit application is vested. As a result of the subdivision, development on  
6 individual unit lots may be nonconforming as to some or all of the development standards  
7 based on analysis of the individual unit lot, except that any private, usable open space or  
8 private amenity area for each dwelling unit or live-work unit shall be provided on the same

Section 10. Section 23.41.014 of the Seattle Municipal Code, last amended by Ordinance 123392, is amended as follows:

**23.41.014 Design review process**

\* \* \*

C. Guidelines (~~(Priorities.)~~) priorities

1. Based on the concerns expressed at the early design guidance public meeting or in writing to the Design Review Board, (~~(the Board shall identify any guidelines that may not be applicable to the site and identify those)~~) the applicable guidelines of highest priority to the neighborhood, referred to as the “guideline priorities,” shall be identified. The Board shall incorporate any community consensus regarding design (~~(;)~~) expressed at the meeting into its guideline priorities, to the extent the consensus is consistent with the design guidelines and reasonable in light of the facts of the proposed development.

2. The Director shall distribute a copy of the guideline priorities applicable to the development to all those who attended the early design guidance public meeting, to those who sent in comments or otherwise requested notification, and to the project proponent.

3. The project proponent is encouraged to meet with the Board and the public for early resolution of design issues, and may hold additional optional meetings with the public or the Board. The Director may require the proponent to meet with the Board if the Director believes that such a meeting may help to resolve design issues.

\* \* \*

F. Director’s (~~(Decision.)~~) decision

1                   1. A decision on an application for a permit subject to design review shall be  
 2 made by the Director. The Director may condition a proposed project to achieve compliance  
 3 with design guidelines and to achieve the purpose and intent of this ~~((chapter))~~ Chapter 23.41.  
 4 For applications accepted into the Living Building Pilot Program established under Section  
 5 23.40.060, the Director may also condition a proposed project to achieve the purpose and  
 6 intent of the Living Building Pilot Program.

7                   2. ~~((Projects Subject To Design Review Must Meet All Codes And Regulatory  
 8 requirements applicable to the subject site, except as provided in Section 23.41.012.~~

9                   3.)) The Director’s design review decision shall be made as part of the overall  
 10 Master Use Permit decision for the project. The Director’s decision shall consider the  
 11 recommendation of the Design Review Board. Except for projects accepted in the Living  
 12 Building Pilot Program established in Section 23.40.060, if four or more members of the  
 13 Design Review Board are in agreement in their recommendation to the Director, the Director  
 14 shall issue a decision that makes compliance with the recommendation of the Design Review  
 15 Board a condition of permit approval, unless the Director concludes that the recommendation  
 16 of the Design Review Board:

- a. Reflects inconsistent application of the design review guidelines; or
  - b. Exceeds the authority of the Design Review Board; or
  - c. Conflicts with SEPA conditions or other regulatory requirements
- applicable to the site; or
- d. Conflicts with the requirements of state or federal law.

8 less than 3,200 square feet in area:

9 1. A lot that does not satisfy the minimum lot area requirements of its zone  
10 may be developed or redeveloped under one of the following circumstances:

11 a. “The Seventy-Five/Eighty Rule.” The Seventy-Five/Eighty Rule  
12 exception may be applied to allow separate development of lots already in existence in their  
13 current configuration, or new lots resulting from a full subdivision, short subdivision or lot  
14 boundary adjustment. In order to qualify for this exception, the lot must have an area at least  
15 75 percent of the minimum required for the zone and also at least 80 percent of the mean area  
16 of the lots within the same block front, subject to the following provisions:

17 \* \* \*

18 7) New lots created pursuant to subsection 23.44.010.B.1.a shall  
19 comply with the following standards:

20 a) For a lot that is subdivided or short platted, the  
21 configuration requirements of subsections 23.22.100.C.3 and (~~23.24.040.A.9~~) 23.24.040.A.8  
22 or with the modification provisions of subsections 23.22.100.D and 23.24.040.B, as  
23 applicable; or

3 with the modification provisions of subsection 23.28.030.A.4.

4 \* \* \*

5 d. “The Historic Lot Exception.” The historic lot exception may be  
6 applied to allow separate development of lots already in existence if the lot has an area of at  
7 least 2,500 square feet, and was established as a separate building site in the public records of  
8 the county or City prior to July 24, 1957, by deed, platting, or building permit. The qualifying  
9 lot shall be subject to the following provisions:

10 1) A lot is considered to have been established as a separate  
11 building site by deed if the lot was held under separate ownership from all abutting lots for at  
12 least one year after the date the recorded deed transferred ownership.

13 2) If two contiguous lots have been held in common ownership  
14 at any time after January 18, 1987, and a principal structure extends onto or over both lots,  
15 neither lot qualifies for the exception. If the principal structure does not extend onto or over  
16 both lots, but both lots were required to meet development standards other than parking  
17 requirements in effect at the time the structure was built or expanded, neither lot qualifies for  
18 the exception unless the vacant lot is not needed to meet current development standards other  
19 than parking requirements. If the combined property fronts on multiple streets, the orientation  
20 of the principal structure shall not be considered when determining if it could have been built  
21 to the same configuration without using the vacant lot or lots as part of the principal  
22 structure’s building site.

2 special exception Type II review as provided for in Section 23.76.004 is required for separate  
3 development of any lot with an area less than 3,200 square feet that qualifies for any lot area  
4 exception in subsection 23.44.010.B.1. The special exception application shall be subject to  
5 the following provisions:

6                    a. The depth of any structure on the lot shall not exceed two times the  
7 width of the lot. If a side yard easement is provided according to subsection 23.44.014.D.3,  
8 the portion of the easement within 5 feet of the structure on the lot qualifying under this  
9 provision may be treated as a part of that lot solely for the purpose of determining the lot

11                    \* \* \*

12                    D. Lot coverage exceptions

13                    1. Lots abutting alleys. For purposes of computing the lot coverage only:

14                    a. The area of a lot with an alley or alleys abutting any lot line may be  
15 increased by one-half of the width of the abutting alley or alleys.

16                    b. The total lot area for any lot may not be increased by the provisions  
17 of this Section 23.44.010 by more than (~~((40))~~) ten percent.

18                    2. Special structures and portions of structures. The following structures and  
19 portions of structures are not counted in lot coverage calculations:

20                    a. Access bridges.

21                    1) Uncovered, unenclosed pedestrian bridges 5 feet or less in

4 b. Barrier-free access. Ramps or other access for the disabled or elderly  
5 that comply with Washington State Building Code, Chapter 11;

6 c. Decks. Decks or parts of a deck that are 36 inches or less above  
7 existing grade;

8 d. Freestanding structures and bulkheads. Fences, freestanding walls,  
9 bulkheads, signs and other similar structures;

10 e. Underground structures. An underground structure, or underground  
11 portion of a structure;

12 f. Eaves and gutters. The first 36 inches of eaves and gutters that project  
13 from principal and accessory structures;

14 g. Solar collectors and swimming pools. Solar collectors that comply  
15 with Section 23.44.046 and swimming pools that comply with Section 23.44.044.

16 Section 12. Section 23.44.012 of the Seattle Municipal Code, last amended by

d. The alley is used for loading or unloading by an existing nonresidential use; or

e. Due to the relationship of the alley to the street system, use of the alley for parking access would create a significant safety hazard; ~~((or))~~

f. Parking access must be from the street in order to provide access to a parking space that complies with the Washington State Building Code, Chapter 11 ~~((or))~~ ; or

g. Providing alley access would require removal of a tree on private property that is an exceptional tree or a tree greater than 2 feet in diameter measured 4.5 feet above the ground, provided that a permanent covenant meeting the standard in subsection 25.11.050.C is recorded and all other applicable criteria for tree protection in Chapter 25.11 are met.

H. Projections permitted in required setbacks and separations

1. Cornices, eaves, gutters, roofs, and other forms of weather protection may project into required setbacks and separations a maximum of 4 feet if they are no closer than 3 feet to any lot line.

2. Garden windows and other features that do not provide floor area may project a maximum of 18 inches into required setbacks and separations if they ~~((are))~~ :

a. are a minimum of 30 inches above the finished floor;

b. are no more than 6 feet in height and 8 feet wide; and

c. combined with bay windows and other features with floor area, make up no more than 30 percent of the area of the facade.

3. Bay windows and other features that provide floor area may project a maximum of 2 feet into required setbacks and separations if they ~~((are))~~ :

a. are no closer than 5 feet to any lot line;

b. are no more than 10 feet in width; and

c. combined with garden windows and other features included in subsection 23.45.518.H.2, make up no more than 30 percent of the area of the facade.

4. Unenclosed decks up to 18 inches above existing or finished grade, whichever is lower, may project into required setbacks or separations to the lot line.

5. Unenclosed porches or steps

2 use of drought-tolerant plants, and access to light and air for plants.

3 2. Green Factor requirement

4 a. Landscaping that achieves a Green Factor score of 0.6 or greater,  
5 determined as set forth in Section 23.86.019, is required for any lot within an LR zone if  
6 ~~((development is proposed that has more than one dwelling unit, or a congregate residence))~~  
7 construction of more than one new dwelling unit or a congregate residence is proposed on the  
8 site. The addition of any new dwelling unit that does not increase the floor area on the site is  
9 exempt from the Green Factor requirement. Vegetated walls may not count towards more than  
10 25 percent of a lot’s Green Factor score.

11 b. Landscaping that achieves a Green Factor score of 0.5 or greater,

**23.47A.005 Street-level uses**

\* \* \*

C. Residential uses at street level

1. In all NC and C zones, residential uses may occupy, in the aggregate, no more than 20 percent of the street-level street-facing facade in the following circumstances or locations:

a. In a pedestrian-designated zone, facing a designated principal pedestrian street; or

b. In all NC and C1 zones within the Bitter Lake Village Hub Urban Village, except lots abutting Linden Avenue North, north of North 135th Street; or

c. Within a zone that has a height limit of 85 feet or higher, except as provided in subsection 23.47A.005.C.2; or

d. Within an NC1 zone, except as provided in subsection 23.47A.005.C.2; or

2 as provided in Section 23.71.044; or

3 f. In all NC and C1 zones within the areas shown on Maps A through D  
4 for 23.47A.005 at the end of this Chapter 23.47A when facing an arterial street.

5 2. Subsection 23.47A.005.C.1 notwithstanding, there is no restriction on the  
6 location of residential uses in the following circumstances:

7 a. Within a very low-income housing project existing as of May 1,  
8 2006, or within a very low-income housing project replacing a very low-income housing  
9 project existing as of May 1, 2006, on the same site; or

10 b. The residential use is an assisted living facility or nursing home and  
11 private living units are not located at street level; or

12 c. Within the Pike/Pine Conservation Overlay District, for street-facing  
13 facades that do not face a designated principal pedestrian street, as shown on Map A for  
14 23.73.008; or

15 d. In a structure existing on January 1, 2012, that is within an NC1 zone  
16 but not located in an area defined in Maps A through D for 23.47A.005, at the end of this  
17 Chapter 23.47A, a live-work space may be converted to an accessory dwelling unit if the

8                                    Section 27. Section 23.47A.009 of the Seattle Municipal Code, last amended by the  
9 ordinance introduced as Council Bill ~~118914-118862~~, is amended as follows:

10 **23.47A.009 Standards applicable to specific areas**

11                                    A. Resolution of standards conflicts. To the extent there is a conflict between this  
12 Section 23.47A.009 and other sections of Title 23, the provisions of this Section 23.47A.009  
13 apply.

14                                    B. West Seattle Junction Hub Urban Village. The following provisions apply to  
15 development in the NC3 85(4.75) zone ((-)) :

16                                    1. Lot coverage limit. The maximum lot coverage permitted for principal and  
17 accessory structures shall not exceed 80 percent on lots 40,000 square feet in size or greater.

18                                    2. The total permitted FAR is as identified in subsection 23.47A.013.E.

19                                    3. Maximum width of structures. The maximum width of all portions of a  
20 structure measured parallel to a north-south street lot line is 275 feet.

21                                    4. Setback and separation requirements

22                                    a. The following standards apply to structures greater than 250 feet in

9 addition:

10 a) Decks with open railings may project up to 5 feet into  
11 the required setback or separation area if they are no lower than 20 feet above existing or  
12 finished grade. Decks may cover no more than 20 percent of the total setback or separation  
13 area.

14 b) Unenclosed porches or steps for residential units no  
15 higher than 4 feet above the grade at the street lot line closest to the porch are permitted.

16 b. A setback of at least 10 feet from the street lot line is required along  
17 non-arterial north-south avenues for at least 25 percent of the lot frontage or 100 feet of the lot  
18 frontage, whichever is less.

19 c. Required setback and areas separating structures identified in  
20 subsections 23.47A.009.B.4.a and 23.47A.009.B.4.b shall include landscaping, paving, and  
21 lighting. Sidewalks for pedestrian access, plazas, or other approved amenity or landscaped

5   \* \* \*

6           D. Parking and loading access. If a lot abuts more than one right-of-way, the location  
7 of access for parking and loading shall be determined by the Director, depending on the  
8 classification of rights-of-way, according to the following:

9                           1. Access to parking and loading shall be from the alley when the lot abuts an  
10 alley improved to the standards of subsection 23.53.030.C and use of the alley for parking and  
11 loading access would not create a significant safety hazard as determined by the Director.

12                           2. If the lot does not abut an improved alley, or use of the alley for parking and  
13 loading access would create a significant safety hazard as determined by the Director, parking  
14 and loading access may be permitted from the street. If the lot abuts more than one street, the  
15 location of access is determined by the Director, as a Type I decision, after consulting with the  
16 Director of Transportation. For SM zone designations in the SM-SLU, SM-NR, and SM-U  
17 geographic areas with pedestrian street classifications, unless the Director otherwise

19 category preferred among the categories of rights-of-way abutting the lot, according to the  
20 ranking set forth below, from most to least preferred (a portion of a street that is included in  
21 more than one category is considered as belonging only to the least preferred of the categories  
22 in which it is included):

5 indicated as the preferred category in this subsection 23.48.085.D if, after consulting with the  
6 Director of Transportation, the Director finds that an exception to the access requirement is  
7 warranted. The Director shall base the decision on granting an exception on any of the  
8 following: whether and to what extent alternative locations of access would enhance  
9 pedestrian safety and comfort, facilitate transit operations, facilitate the movement of vehicles,  
10 minimize the on-street queuing of vehicles, enhance vehicular safety, or minimize hazards.  
11 Curb cut controls on designated Neighborhood Green Streets shall be evaluated on a case-by-  
12 case basis, but generally access from Neighborhood Green Streets is not allowed if access  
13 from any other right-of-way is possible.

14 4. If a street or alley vacation is proposed, the Director shall consult with the  
15 Seattle Design Commission on how the location and extent of proposed curb cuts affects or  
16 impacts the public realm and how those impacts have been reduced.

14 floor area of any story in the portion of the tower permitted above the base residential height  
15 limit do not exceed the limits prescribed in subsection 23.49.058.E.1;

16                              d. Any residential floor area allowed above the base residential height  
17 limit under this provision is gained through voluntary agreements to provide low-income or  
18 moderate-income housing according to Section 23.49.015;

19                              e. At least 35 percent of the lot area, or a minimum of 25,000 square

1 from streets abutting the open space, and allow convenient pedestrian circulation through all  
2 portions of the open space. The open space shall be entirely contiguous and physically  
3 accessible. To offset the impact of the taller structure allowed, the open space shall have  
4 frontage at grade abutting sidewalks, and be visible from sidewalks, on at least two streets.  
5 The elevation of the space may vary, especially on sloping lots where terracing the space  
6 facilitates connections to abutting streets, provided that grade changes are gradual and do not  
7 significantly disrupt the continuity of the space, and no part of the open space is significantly  
8 above the grade of the nearest abutting street. The Director may allow greater grade changes,  
9 as necessary, to facilitate access to transit tunnel stations.

10 2) Up to 20 percent of the area used to satisfy the open space  
11 condition to allowing additional height may be covered by the following features: permanent,  
12 freestanding structures, such as retail kiosks, pavilions, or pedestrian shelters; structural  
13 overhangs; overhead arcades or other forms of overhead weather protection; and any other  
14 features approved by the Director that contribute to pedestrian comfort and active use of the  
15 space. The following features within the open space area may count as open space and are not  
16 subject to the percentage coverage limit: temporary kiosks and pavilions, public art,  
17 permanent seating that is not reserved for any commercial use, exterior stairs and mechanical  
18 assists that provide access to public areas and are available for public use, and any similar  
19 features approved by the Director.

20 f. Open space used to satisfy the condition to allowing additional height  
21 in this Section 23.49.008 is not eligible for a bonus under Section 23.49.013.

22 g. Open space used to satisfy the condition to allowing additional

3 h. No increase in height shall be granted to any proposed development  
4 that would result in significant alteration to any designated feature of a (~~landmark~~)  
5 Landmark structure, unless a certificate of approval for the alteration is granted by the  
6 Landmarks Preservation Board.

7 5. In a DRC zone, the base height limit is 85 feet, except that, subject to the  
8 conditions in subsection 23.49.008.A.6:

9 a. The base height limit is 150 feet if any of the following conditions is  
10 satisfied:

11 1) all portions of a structure above 85 feet contain only  
12 residential use; or

13 2) at least 25 percent of the gross floor area of all structures on a  
14 lot is in residential use; or

15 3) a minimum of 1.5 FAR of eating and drinking  
16 establishments, retail sales, and service or entertainment uses, or any combination thereof, is  
17 provided on the lot.

18 b. For residential floor area created by infill of a light well on a  
19 Landmark structure, the base height limit is the lesser of 150 feet or the highest level at which  
20 the light well is enclosed by the full length of walls of the structure on at least three sides. For  
21 the purpose of this subsection 23.49.008.A.5.b a light well is defined as an inward modulation  
22 on a non-street facing facade that is enclosed on at least three sides by walls of the same

1           B. Voluntary agreements for housing

2                   1. The voluntary agreement shall commit the applicant to provide or contribute  
3 to low-income housing or moderate-income housing, or both, in an amount as set forth in this  
4 subsection 23.49.015.B. The quantities in this subsection 23.49.015.B are based on findings of  
5 an analysis that quantifies the linkages between new market-rate units in high-rise residential  
6 structures in DOC1, DOC2, and DMC zones and the demand that residents of such units  
7 generate for low-income housing and moderate-income housing. The amount of such housing  
8 and income levels served, and the amount of any cash payment, shall be determined as  
9 follows:

10                           a. For the performance option, the applicant shall provide, as low-  
11 income housing or moderate-income housing, net rentable floor area equal to 11 percent of the  
12 net residential floor area sought as bonus development, computed by multiplying the  
13 following sum by an efficiency factor of 80 percent: (i) the total square footage of gross  
14 residential floor area to be developed on the lot above the base height limit for residential use  
15 under Section 23.49.008, plus (ii) the excess, if any, in each tower to be developed on the lot,  
16 of (X) the total number of square feet of gross residential floor area between the height of 85  
17 feet and the base height limit, over (Y) the product of the “average residential gross floor area  
18 limit of stories above 85 feet if height does not exceed the base height limit for residential  
19 use” as provided in Table B for 23.49.058, column 2, multiplied by the number of stories with  
20 residential use in each tower above 85 feet and below the base height limit. All low-income  
21 housing or moderate-income housing provided under the performance option shall be on the  
22 lot where the bonus development is used or an adjacent lot. The adjacent lot must be within

3 4. At all levels above 45 feet and up to 85 feet in height, structures separated

2. On streets designated on Map A for 23.50.016, sidewalks are required if new lots are created through the platting process, including full and short subdivisions (~~and unit lot subdivisions, and~~) or if development is proposed. Sidewalks are required only for the portion of the lot that abuts the designated street.

3. 3 Director, in consultation with the Director of Transportation, may waive or modify the  
4 requirements for paving and drainage, dedication, setbacks, grading, no-protest agreements,  
5 landscaping, and curb installation if one or more of the following conditions are met. The  
6 waiver or modification shall provide the minimum relief necessary to accommodate site  
7 conditions while maximizing access and circulation.

8                   a. Location in an environmentally critical area or buffer, disruption of  
9 existing drainage patterns, or removal of natural features such as significant trees or other  
10 valuable and character-defining mature vegetation makes widening and/or improving the  
11 right-of-way impractical or undesirable.

12                   b. The existence of a bridge, viaduct, or structure such as a substantial  
13 retaining wall in proximity to the project site makes widening and/or improving the right-of-  
14 way impractical or undesirable.

15                   c. Widening the right-of-way and/or improving the street would  
16 adversely affect the character of the street, as it is defined in an adopted neighborhood plan or  
17 adopted City plan for green streets, boulevards, or other special rights-of-way, or would  
18 otherwise conflict with the stated goals of such a plan.

19                   d. Widening and/or improving the right-of-way would preclude  
20 vehicular access to an existing lot.

21                   e. Widening and/or improving the right-of-way would make building  
22 on a lot infeasible by reducing it to dimensions where development standards cannot  
23 reasonably be met.

1 f. One or more substantial principal structures on the same side of the  
2 block as the proposed project are located in the area needed for future expansion of the right-  
3 of-way and the structure(s)' condition and size make future widening of the remainder of the  
4 right-of-way unlikely.

5 g. Widening and/or improving the right-of-way is impractical because  
6 topography would preclude the use of the street for vehicular access to the lot, for example  
7 due to an inability to meet the required ~~((20))~~ 15 percent maximum driveway slope.

8 h. Widening and/or improving the right-of-way is not necessary  
9 because it is adequate for current and potential vehicular traffic, for example, due to the  
10 limited number of lots served by the development or because the development on the street is  
11 at zoned capacity.

12 Section 47. Section 23.53.030 of the Seattle Municipal Code, last amended by

14 Transportation, allowing adequate clearance for bicycles and their riders. Directional signage  
15 shall be installed when bike parking facilities are not clearly visible from the street or  
16 sidewalk. If any covered automobile parking is provided, all required long-term bicycle

7 on the lot or in a shared bicycle parking facility within 100 feet of the lot, except as provided  
8 in subsection 23.54.015.K.8.

9           8. Bicycle parking may be located in a facility within 100 feet of the lot that is  
10 not a shared bicycle parking facility, or public bicycle parking may be provided in the right-  
11 of-way, subject to approval by the Director of Transportation, in lieu of providing required  
12 on-site bicycle parking, if the Director determines that:

13           a. Safe, accessible, and convenient bicycle parking accessory to a non-  
14 residential use cannot be provided on-site or in a shared bicycle parking facility within 100  
15 feet of the lot, without extraordinary physical or financial difficulty;

16           b. The bicycle parking in the right-of-way is equivalent to bicycle  
17 parking that would otherwise be required on-site, and takes into consideration the cost of  
18 materials, equipment and labor for installation;

19           c. The bicycle parking in the right-of-way is located within sufficient  
20 proximity to serve the bicycle parking demand generated by the project; and

<sup>1</sup>If a use is not shown on this Table D for 23.54.015, there is no minimum bicycle parking requirement.

2 Ordinance 123913, is amended as follows:

3 **23.76.060 Expiration and extension of Council land use decisions**

4 \* \* \*

5 E. Extensions. The Council may extend the time limits on Type IV land use decisions  
6 for ~~((no more than))~~ two years or such other time as the Council may determine appropriate,  
7 upon an applicant’s filing an application to the Department at least 120 days before the  
8 approval’s expiration. The Council may request a recommendation on the extension  
9 application from the Director, but the Hearing Examiner hearing and recommendation  
10 requirements of Section 23.76.052 do not apply. Notice of applications for extensions of Type  
11 IV land use decisions and an opportunity to comment shall be provided pursuant to  
12 subsections 23.76.012.B.1 or B.2, and subsection 23.76.012.B.3, and notice and an  
13 opportunity to comment shall also be provided to the parties of record in the Council’s  
14 original Type IV land use proceeding and to those persons who were provided written notice  
15 of the Hearing Examiner’s recommendation on the original Type IV application to the extent  
16 reasonably practicable.

17 1. The Council may not extend the time limit for a Type IV land use decision  
18 for a project that is not in conformance with applicable regulations, including land use and  
19 environmentally critical areas regulations, in effect at the time application for an extension is  
20 made.

21 2. In deciding whether to grant an extension, the Council shall consider:

22 a. The reason or basis for the application for the extension and whether  
23 it is reasonable under the circumstances;

8 \* \* \*

9 “Lot line, front” means, in the case of a lot with frontage on a single street, the lot line  
10 separating the lot from the street, and in the case of a lot with frontage on more than one street  
11 other than a through lot, the lot line separating the lot from any abutting street, provided the  
12 other lot line(s) that abut streets are considered to be either side street lot line(s) or the rear lot  
13 line according to the definitions of those terms. In the case of a through lot, the lot lines  
14 separating the lot from the streets that are parallel or within 15 degrees of parallel to each  
15 other are both front lines. For new development on a lot with no street frontage, the front lot  
16 line shall be the lot line designated by the project applicant in accordance with Section  
17 23.86.010. If the area of the front yard based on a front lot line determined according to this  
18 definition is less than 20 percent of the total lot area and is less than 1,000 square feet in area,  
19 the Director may designate a different lot line as the front lot line in order to provide structural  
20 setbacks, building separations, and open space that are more consistent with those of other lots  
21 that are within 100 feet of the property.

**Amendment 3** – Modify a proposed height limit exception for mechanical equipment on taller buildings to establish limits on rooftop coverage and location of the equipment.

**23.48.025 Structure height**

\* \* \*

C. Rooftop features

\* \* \*

**Attachment B – Potential Amendments to CB 119993**

4. The following rooftop features may extend up to 15 feet above the maximum height limit, so long as the combined total coverage of all features listed in this subsection 23.48.025.C.4, including weather protection such as eaves or canopies extending from rooftop features, does not exceed 20 percent of the roof area, or 25 percent of the roof area if the total includes stair or elevator penthouses or screened mechanical equipment:

- a. Solar collectors;
- b. Stair penthouses;
- c. Mechanical equipment;
- d. Atriums, greenhouses, and solariums;
- e. Play equipment and open-mesh fencing that encloses it, as long as the fencing is at least 15 feet from the roof edge;
- f. Minor communication utilities and accessory communication devices, except that height is regulated according to the provisions of Section 23.57.012; and
- g. Covered or enclosed common amenity area for structures exceeding a height of 125 feet.

5. For structures greater than 85 feet in height, elevator penthouses up to 25 feet above the height limit are permitted. If the elevator provides access to a rooftop designed to provide usable open space or common recreation area, elevator penthouses and mechanical equipment up to 45 feet above the height limit are permitted, provided that all of the following are satisfied:

- a. The structure must be greater than 125 feet in height; and

**Attachment B – Potential Amendments to CB 119993**

b. The combined total coverage of all features gaining additional height listed in this subsection 23.48.025.C does not exceed limits listed in 23.48.025.C.4.

6. Greenhouses that are dedicated to food production are permitted to extend 15 feet above the applicable height limit, as long as the combined total coverage of all features gaining additional height listed in this subsection 23.48.025.C does not exceed 50 percent of the roof area.

7. At the applicant's option, the combined total coverage of all features listed in subsections 23.48.025.C.4 ~~and 23.48.025.C.5~~ may be increased to 65 percent of the roof area, provided that all of the following are satisfied:

- a. All mechanical equipment is screened; and
- b. No rooftop features are located closer than 10 feet to the roof edge.

8. In order to protect solar access for property to the north, the applicant shall either locate the rooftop features listed in this subsection 23.48.025.C.8 at least 10 feet from the north (~~(edge of the roof)~~) lot line, or provide shadow diagrams to demonstrate that the proposed location of such rooftop features would shade property to the north on January 21 (~~(st)~~) at noon no more than would a structure built to maximum permitted bulk:

- a. Solar collectors;
- b. Planters;
- c. Clerestories;
- d. Atriums, greenhouses, and solariums;

**Attachment B – Potential Amendments to CB 119993**

e. Minor communication utilities and accessory communication devices according to the provisions of Section 23.57.012;

f. Nonfirewall parapets; and

g. Play equipment.

9. Screening. Rooftop mechanical equipment and elevator penthouses shall be screened with fencing, wall enclosures, or other structures.

10. For height limits and exceptions for communication utilities and accessory communication devices, see Section 23.57.012.

**Amendment 4** – Clarify that the SDCI Director may only waive certain development standards for affordable housing project in areas of the International Special Review District that are zoned Downtown Mixed Residential when it is determined that both criteria for (1) affordable housing and (2) consistency with the goals and objectives of the special review district are met.

Section 43. Section 23.49.164 of the Seattle Municipal Code, last amended by Ordinance 123589, is amended as follows:

**23.49.164 Downtown Mixed Residential, maximum width, depth, and separation requirements**

\* \* \*

D. (~~Facade Width Limits and Separation Requirements~~) Facade width limits and separation requirements in South Downtown. On a lot in a DMR/C zone in South Downtown, the following standards apply:

\*\*\*

7. Waiver or modification of requirements, limits, and standards

**Attachment B – Potential Amendments to CB 119993**

a. For developments in the International Special Review District, the Director may waive or modify the requirements, limits and standards referred to in subsection 23.49.164.D.2 and 23.49.164.D.3 as a Type I decision if, upon consultation with the Director of Neighborhoods, the Director determines that waiving or modifying a requirement, limit or standard will increase availability of affordable housing meeting the provisions of subsection 23.49.164.D.7.b ~~or~~and will better meet the goals and objectives of Section 23.66.302.

b. For purposes of this subsection 23.49.164.D.7, housing is affordable if it receives public funding and/or an allocation of federal low-income housing tax credits, and is subject to a regulatory agreement, covenant or other legal instrument recorded on the property title and enforceable by The City of Seattle, Washington State Housing Finance Commission, State of Washington, King County, U.S. Department of Housing and Urban Development, or other similar entity as approved by the Director of Housing, which restricts at least 40 percent of the units to occupancy by households earning no greater than 60 percent of median income, and controls the rents that may be charged, for a minimum period of 40 years.

**Amendment 5** – Remove language related to the appealability of certain decisions that include review under the State Environmental Policy Act.

Section 61. Section 23.76.004 of the Seattle Municipal Code, last amended by Ordinance 124747, is amended as follows:
