# Budget Overview

Since 2014, SPD has seen a **25%** decrease in the total number of deployable police officers.

Mayor Harrell's 2025-2026 Proposed Budget includes ongoing investments in officer recruitment and retention programs plus a sizable appropriation for police officer wage increases authorized by contract in 2024.

SPD is seeing an uptick in police job applications and a decline in officer separations. However, we know a full recovery could take years.

## 1. SPD General Fund Reduction

- The Proposed Budget includes a budget reduction for sworn salary savings associated with vacant police officer positions that cannot be filled in 2025 and 2026.
- This reduction does not directly impact any programs or services but does limit the amount of salary savings that can be reallocated to overtime or other needs.

## 1. Real Time Crime Center

- The Proposed Budget includes ongoing funding to establish a fully staffed 24/7 Real Time Crime Center (RTCC) that will integrate dispatch, camera, officer location, 911 calls, and records management systems into a single view to provide situational awareness to increase officer and community safety and reactively investigate incidents.
- The 2024 Adopted Budget includes funding for a CCTV Crime Prevention Pilot to combat increased gun violence and felony crime. The pilot program can only be successful when integrated with a RTCC, which will use information from the pilot technologies to triage and coordinate patrol/emergency responses to crime events.

This adversely impacted SPD's ability to conduct follow-up investigations of serious criminal offenses.

- A Seattle City Auditor Report from July 2024 cites a study that found between 4 and 5 percent of street segments accounted for 50 percent of annual reported crime incidents over a 14-year period. The City Auditor recommends using a place-based problem-solving methodology to address issues in these locations.
