# Wetlands Stewardship Project

23rd Ave SW & SW Findlay  
Seattle, 98106

## Main Goals

1

Restore, preserve and protect the natural wetland and surrounding habitat.

2

Develop a children's teaching garden and a larger community garden that will teach community members permaculture techniques and best practices in their own gardens.

3

Develop community stewards with k-8 Stem students, family members, and faculty to ensure that local youth are learning environmental science, wetlands ecology, and applied mathematics.
