Footnotes to Table D-2 for 22.900D.010:

<sup>1</sup>The minimum permit fee or plan review fee for value-based fees is (~~(\$216)~~) \$222.

<sup>2</sup>The minimum plan review fee for subject-to-field-inspection (STFI) value-based plan review is (~~(\$86.30)~~) \$89.

<sup>3</sup>This fee is applicable only to those initial tenants that reflect the use and occupancy established in the shell and core permit. The value used shall be the new construction value used in calculating value for the shell and core permit.

<sup>4</sup>If a swimming pool is located within an enclosed building and is included in the building plans for that building, a separate fee shall not be charged for the swimming pool. The swimming pool area will be considered as floor area of the principal occupancy of the building.

<sup>5</sup>This fee shall not apply to any on-site, temporary construction office where a valid building permit is in force.

<sup>6</sup>Master use permit fees for such temporary uses shall be charged according to Table C-1 for 22.900C.010.

1 F. Blanket permits

2 1. The application fee for a blanket permit to cover initial nonstructural  
3 tenant alterations within the first three years of the first tenant alteration permit shall be charged  
4 at the rate of (~~(\$5.80)~~) \$6 per 100 square feet of space to be improved within the life of the  
5 permit. A deposit based on the estimated value of the work to be completed during the life of the  
6 permit shall be collected at the time of application. As individual tenant spaces are reviewed, the  
7 amount of the fee equivalent to the floor space examined shall be deducted from the deposit per  
8 Table D-2 for 22.900D.010.

9 2. The application fee for a blanket permit to cover nonstructural tenant alterations  
10 in previously ((-)) occupied space, or to cover initial nonstructural tenant alterations after three  
11 years of the first tenant alteration permit, is one times the base fee. A deposit based on the  
12 estimated value of the proposed work within 18 months shall be collected at the time of  
13 application. As individual tenant spaces are reviewed, the fee for the work to be done shall be  
14 calculated according to Table D-2 for 22.900D.010 and deducted from the deposit.

15 3. If the estimated blanket fee deposit is used up in less time than the life of the  
16 permit and work remains to be done, an additional deposit shall be paid based on the estimated  
17 floor area remaining to be improved during the remaining life of the permit. If a portion of the  
18 deposit is unused at the end of the life of the permit and work remains to be done, credit for the  
19 balance of the deposit may be transferred from the expiring permit to a new blanket permit. To  
20 minimize additional accounting costs associated with blanket permits, if more than two deposits  
21 are made during the life of the blanket permit, the minimum amount of each subsequent deposit  
22 shall be \$2,000.

23 \* \* \*

1 H. Certificate of Occupancy. The issuance of a Certificate of Occupancy for existing  
2 buildings, either if no Certificate of Occupancy has previously been issued or if a change of  
3 occupancy is requested, requires a building permit. If there is no construction valuation (there is  
4 no work which would require a building permit), the minimum building permit fee shall be  
5 assessed. In addition to the minimum building permit fee, if records research, plan examination,  
6 or inspection is required, charges shall be assessed at the SDCI hourly rate. If work is being done  
7 as authorized by a permit, the permanent Certificate of Occupancy fee is not assessed in addition  
8 to the building permit fee. The fee for a temporary Certificate of Occupancy shall be charged at  
9 the rate of 1/2 the base fee. The fee for the duplication of a Certificate of Occupancy is  
10 ~~((\$36.10))~~ \$37.20 unless records research, plan examination, or inspection is required, in which  
11 case charges shall be assessed at the SDCI hourly rate.
