### ~~((Capital Facilities Appendix~~

#### ~~A — Inventory of Fire, Police & School Facilities, Supplemental Capacity Information & Future Facility Needs~~

~~The following sections contain the inventory, planning goals and future needs for Fire, Police and Schools. Information for Seattle Public Utilities (Water, Drainage and Wastewater, and Solid Waste) and Seattle City Light is included in the Utilities Appendix.~~

~~The following matrix summarizes the information found in this Appendix, including a summary of the planning goals, existing facilities, and identified six and 20 year needs.~~

~~fire department: inventory~~

~~The Seattle Fire Department provides fire protection and emergency medical services throughout the city from 33 fire stations and Harborview Medical Center. Headquarters for the department are located at Fire Station 10 in Pioneer Square. Fire Department facilities and capacities are shown in Capital Facilities Figure A-1 and the location list provided below.~~

Facility	Planning Goal	Existing Facilities	Six Year Needs	Anticipated 20 Year Needs
	Facilities planning is based on guidelines for public safety office space.			
Schools	Elementary School - 380-535 students, 4 ac. site size Middle School - 600-800 students, 12 ac. site size High School - 1,000-1,600 students, 17 ac. site size	62 Elementary Schools, 10 Middle Schools, 11 High Schools, 16 Alternative Schools, Admin. Buildings, Memorial Stadium, Closed schools	Current Building Excellence Program Phase II (a Capital Improvement Plan) will renovate, replace, and/or add to 17 schools	The District's Facility Master Plan calls for all schools built before 1973 to be modernized or replaced over the next 20 years.

~~Each station provides a full range of fire protective services including fire suppression, emergency medical, rescue and salvage. While each station is equipped with at least one fire engine (except Fire Station 14), other equipment varies by facility. The Fire Department has 33 engine companies, 11 ladder truck companies, two fire boats, four aid units, seven paramedic units and other specialized units including heavy rescue, hazardous materials, and marine fire fighting that provide a broad range of emergency services to existing development.~~

~~fire department: planning goals~~

~~In 2002, the Seattle Fire Department responded to all EMS related calls in four minutes or less 77.5 percent of the time and to all fire related calls in four minutes or less 79.56 percent of the time. The fire-fighting industry has set four minutes 90 percent of the time as a desirable response time.~~

~~Response time is influenced directly by the availability of fire personnel, equipment, traffic conditions, and the number and location of fire stations. Further, firefighter and equipment requirements indirectly affect station requirements. Buildings and associated densities are critical factors in estimating fire fighter requirements. These requirements are estimated on an annual basis through the City's budget process.~~

~~fire department: existing capacity & anticipated future needs~~

The current facilities and their distribution are inadequate to maintain the desired response time to existing development and the amount of new development expected over the next six years in the Urban Centers and throughout the city. Additional EMS capabilities will be needed downtown near South Lake Union, SODO, Northgate, and the Central District. A new Fire Alarm Center is needed to replace the current facility, and all 33 stations need major upgrades, renovation or replacement in order to continue to provide service. In order to serve expected growth over the next 20 years, the Fire Department will need a new station in the Northgate area and most likely one in the downtown area. A new command and control center will also be needed.

In 2003, Seattle voters approved the Fire Facilities and Emergency Response Levy Under, which will provide about \$167 million to: upgrade, renovate, or replace 32 neighborhood fire stations; construct a new training facility and upgrade the Department's Fire Alarm Center; establish emergency preparedness facilities and disaster response equipment that includes a seismically safe Emergency Operations Center, emergency community supplies, emergency shelter power generators, and emergency water supply capacity for fire fighting in the event the City's fire hydrants are disabled; and a new, large platform fire boat, a rehabilitated and enhanced Chief Seattle fireboat, and a new fast attack small fire rescue boat.

The Department is exploring relocation and renovation/rebuilding options to promote service efficiencies and to address space needs for larger equipment. In addition, the Department is currently evaluating its emergency medical capabilities and staffing or equipment additions that may be desirable to improve emergency medical service. Additionally, the Department is reviewing its capabilities for providing enhanced services related to homeland security and natural disasters.

~~((Police department: inventory~~

~~The Seattle Police Department currently provides law enforcement patrol services to the city from five precincts. The locations and capacities of these precincts are shown in Figure A-2 and the list below:~~

- ~~1. North Precinct, at 10049 College Way North, serves the area north of the Ship Canal to the City limits and has a capacity of 16,779 square feet (sq. ft.).~~
- ~~2. West Precinct, located at 810 Virginia Street serves Queen Anne, Magnolia, the downtown core, and the area west of I-5 and north of Spokane Street, and has a capacity of 50,960 sq. ft. (including the 9-1-1 center).~~
- ~~3. East Precinct, located at 1519 12<sup>th</sup> Avenue, serves the area north of I-90 to the Ship Canal and east of I-5, including the Eastlake Community and has a capacity of 40,000 sq. ft.~~
- ~~4. South Precinct, at 3001 S Myrtle Street, serves Southeast Seattle, the area south of I-90 to the city limits and has a capacity of 13,688 sq. ft.~~
- ~~5. The Southwest Precinct, at 2300 SW Webster, serves West Seattle and the Duwamish Waterway and has a capacity of 28,150 sq. ft.~~

~~Other Police facilities owned and/or operated by SPD include:~~

- ~~1. The facility for Mounted Patrol Unit at 9200 8<sup>th</sup> SW has 18,890 sq. ft. for offices and a horse arena, and a capacity of 12 full-time stalls and space for housing related equipment and supplies.~~
- ~~2. The kennel for the K-9 Unit of Police dogs, located at the SPD pistol range in South Seattle near Boeing Field, has a capacity of 6,464 sq. ft., housing 6 dogs and 2 pups and related equipment and supplies.~~
- ~~3. The Harbor Unit facility on the north shore of Lake Union has a capacity of 3,706 sq. ft. for offices, shop, dock, and two boat sheds, plus docks which moor nine Patrol boats. The facility also has extra dock areas for temporary moorage.~~
- ~~4. The Seattle Police Headquarters, located at 610 5<sup>th</sup> Avenue, houses the administrative units of the police department along with a number of detective units.~~
- ~~5. The Public Safety Building, located at 610 3<sup>rd</sup> Avenue contains the SPD Traffic Section, a~~

~~number of detective units, and warehouse functions that are scheduled to move into a new facility in 2004.~~

~~The SPD Seattle Center component handles events at the Center, as well as the Police Reserves. In addition to these permanent facilities, the Police Department has two mobile mini-precincts that they locate in various areas as activities dictate. One of the mobile mini-precincts is permanently assigned to West Seattle.~~

#### ~~police department planning goals~~

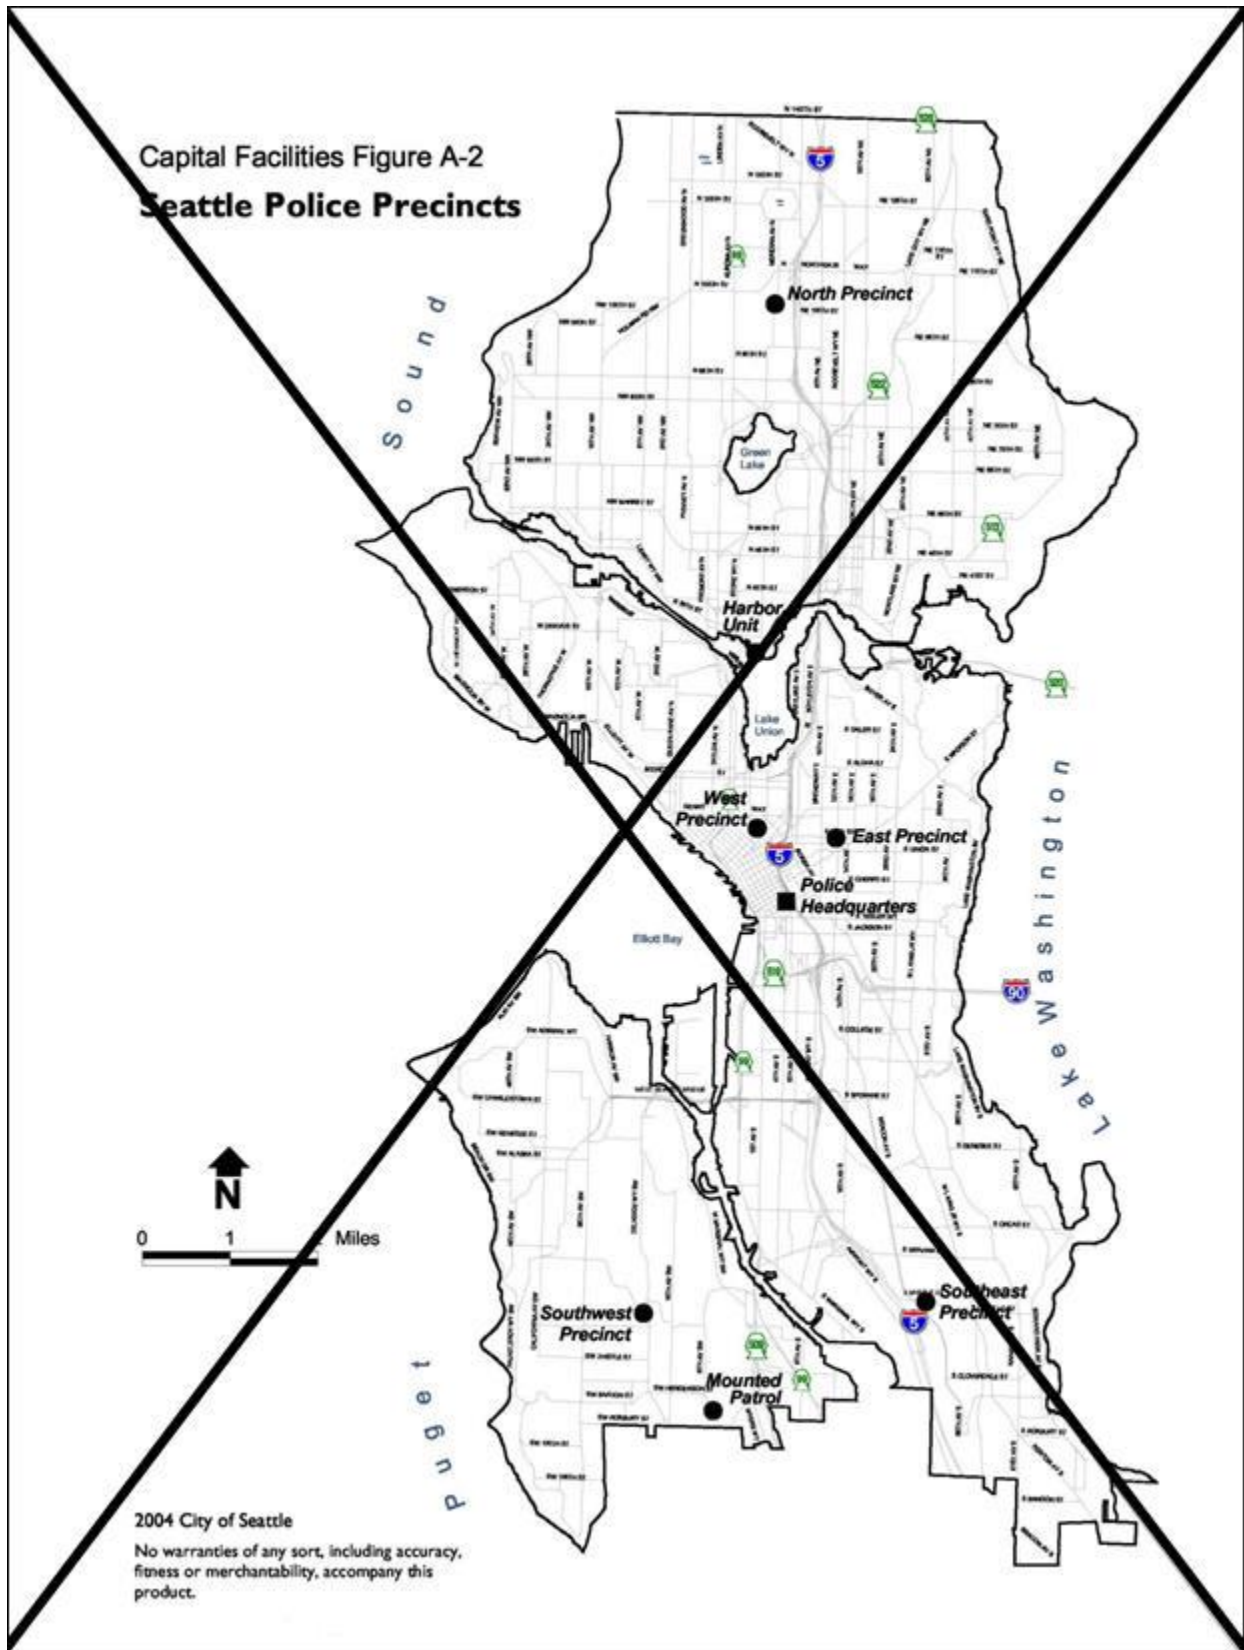

~~Uniform patrol law enforcement services are generally allocated based on workload, time and location. The exact location of facilities is usually not critical to the provision of uniform patrol services, since police officers are on patrol in the various sectors and calls for service are dispatched by radio or officers handle situations "on view." However, the location of facilities can be important because of distance traveled at shift change time and because good locations can enhance Police/community interaction and communication.~~

~~Because of the many and changing factors that affect staffing and space objectives of police departments, there are no universally accepted planning goals for police facilities related to performance measures. The forecast of future needs is therefore based on guidelines for office space that incorporate special space requirements related to public safety, using the East Precinct as a model.~~

#### ~~police department existing capacity & anticipated future needs~~

~~The North Precinct is currently overcrowded and does not meet the needs of precinct personnel. In order to serve the growth forecast under the Comprehensive Plan over the next 20 years in the Urban Centers and throughout the City, it is anticipated that additional space may be required in the North Precinct. At this time the exact space requirements are not known and will depend on a variety of factors, as discussed under Planning Goals. As the City further considers neighborhood-based policing options, the long-range plans for police facilities may change.))~~

~~((public schools: inventory~~

~~District facilities include 11 high schools, 10 middle schools, 62 elementary schools, 16 alternative schools and Memorial Stadium. In addition, the District has a number of closed schools. Many of the school closures occurred during the 1970's and 1980s as a result of low enrollments. The closed schools are used for temporary schools during remodeling construction, leased to other organizations on a short or long-term basis or remain unused. In September 2002 the District opened a newly renovated administrative headquarters in SODO area, John Stanford Center for Educational Excellence. School locations are shown in Capital Facilities Figure A-3.~~

~~The capacity for school facilities varies by school type as follows: 380-535 students for elementary schools; 600-800 students for middle schools; and 1,000-1,600 students for high schools. Memorial Stadium has a seating capacity of 12,000.~~

~~public schools: planning goals~~

~~The School District has established the following planning goals for new or modernized school facilities:~~

	<b>School Size</b>	<b>Site Size (Minimum)</b>
<del>Elementary School</del>	<del>380, 445 or 535 students</del>	<del>4 acres</del>
<del>Middle School</del>	<del>600 to 800 students, except for alternative programs, which could be smaller</del>	<del>12 acres</del>
<del>High School</del>	<del>1,000 to 1,600 students, except for alternative programs, which could be smaller</del>	<del>17 acres</del>

~~The District plans facilities based on where growth is expected in school age populations of children that would be expected to attend public school. Through the current "choice" student assignment plan, about 75 percent of the children that attend public schools choose and attend the school in their neighborhood and 25 percent choose other schools.~~

~~public schools: existing capacity & anticipated future needs~~

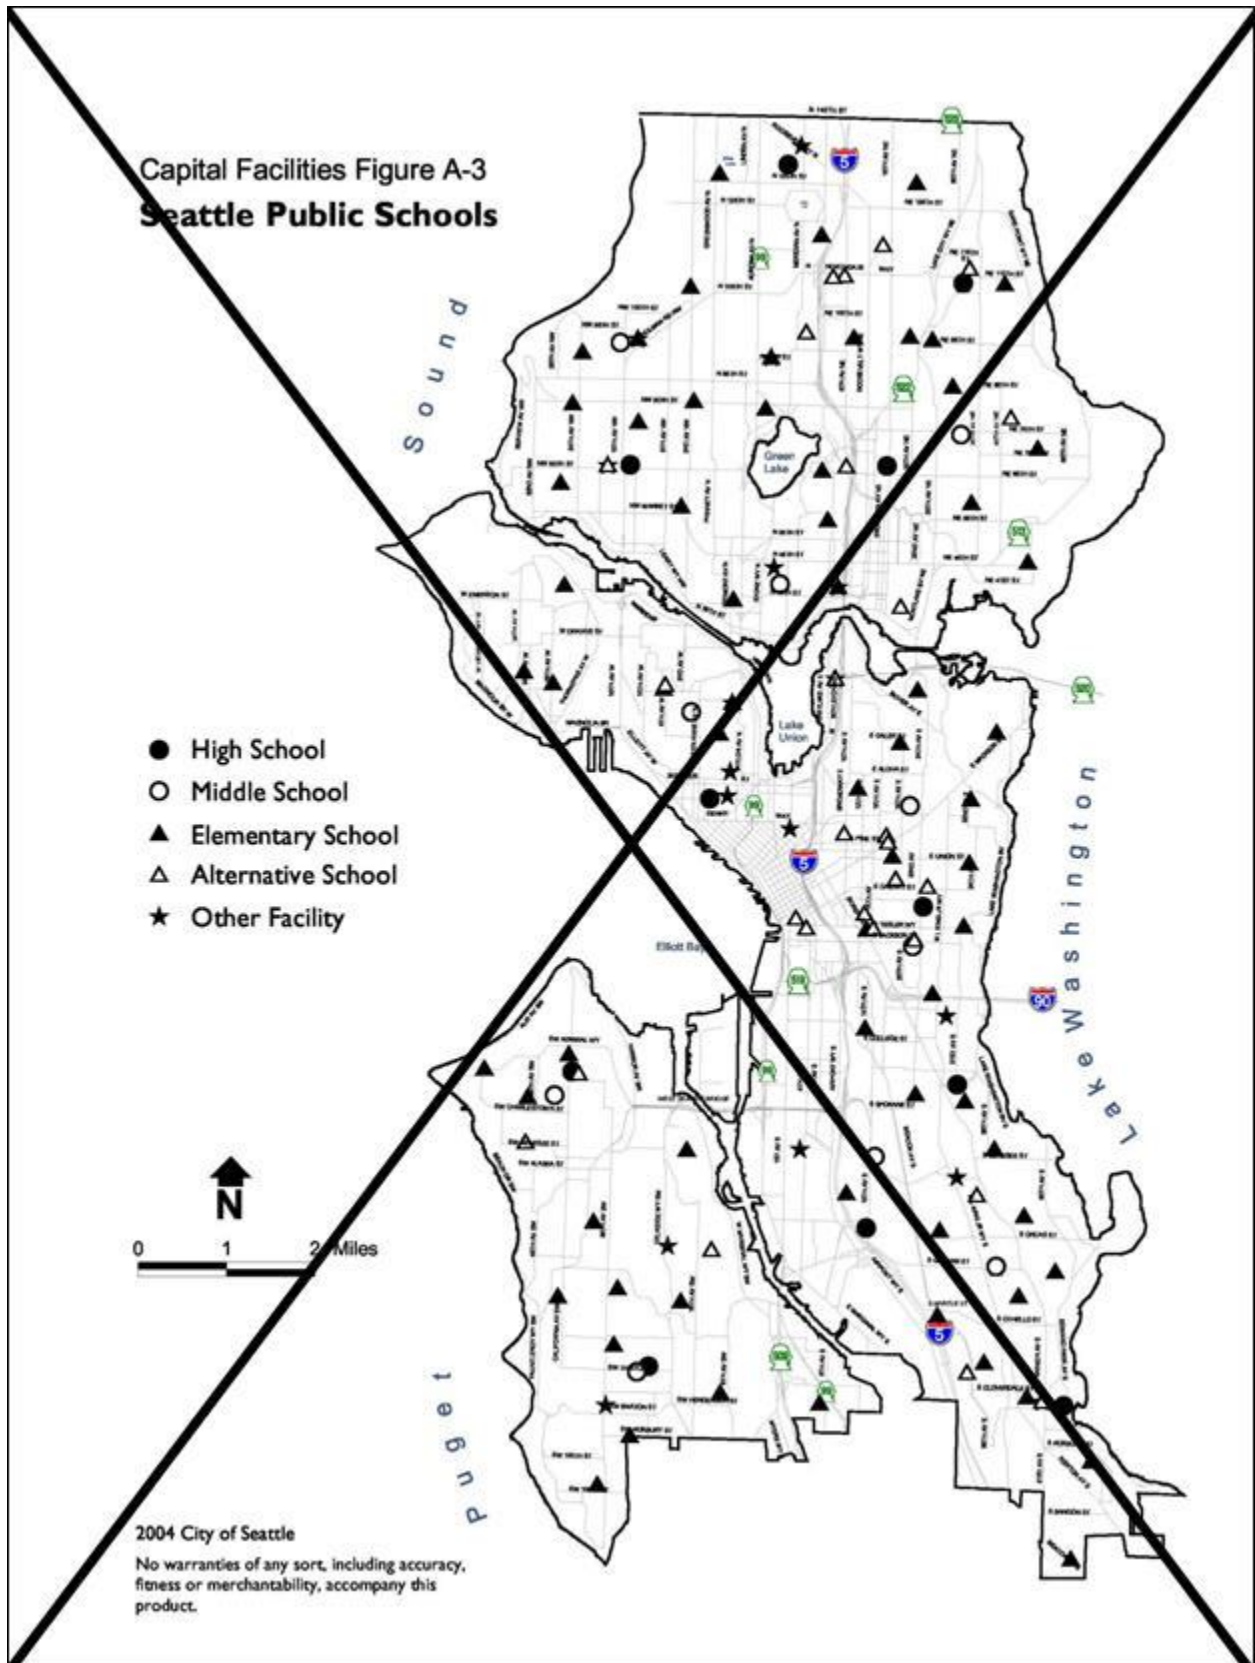

~~In 1991, the School District completed a six-year capital improvement program, known as CIP I. In preparation for the next CIP, the School Board adopted the long-range Facilities Master Plan and Capital Improvement Program. The Capital Improvement Program was divided into several phases. Funding for the CIP, known as Building Excellence I Program (BEX I), was approved by the voters in February 1995.~~

~~The BEX I program covered six years, 1995-2000, and contained 19 projects. The projects included modernization, historic renovation, replacement and/or expansion of elementary and secondary schools, to meet existing requirements. These improvements added some capacity which reduced portable buildings and eased crowding in South Seattle.~~

~~The most recent capital levy program, known as the Building Excellence II Program (BEX II), covers new construction, renovation, or additions at 17 school facilities. BEX II, approved by voters in February 2001, continues BEX I with \$398 million over the next six years.~~

~~The School District's Facilities Master Plan (FMP) guides facilities decisions through the year 2010. Over the course of the two capital improvement programs, BEX I and BEX II capacity will be added to eliminate the need for portable buildings.~~

~~The schools outlined in the FMP are in locations that can serve Urban Centers, Urban Villages and the remainder of the city. The FMP recognizes that the shift in trends, as Urban Centers and Villages develop, could be gradual or rapid and will vary throughout the city. The District is committed to reviewing and adjusting its FMP every five years, to be responsive to changing conditions.)~~

~~((B—Inventory of Parks & Recreation, Library, General Government, Seattle Center, Public Health & Publicly Assisted Housing Facilities & Supplemental Capacity Information~~

~~Parks & recreation facilities~~

~~The City maintains a system of parks and open areas that includes 6,074 acres, or about 10 percent of the City’s total land area. This includes 4,562 developed acres. Over 6,000 acres of parks and open space are deemed adequate capacity to serve a population of at least 600,000. More than 35 sites are being acquired through the 2000 Pro Parks Levy, including 16 Neighborhood Park projects, 12 Opportunity Fund projects, and 13 Green Spaces. Many of these sites are small properties in densely developed urban villages, but their acquisition will make a significant difference to the lives of the people in these under-served urban neighborhoods. Parks and open areas owned by the City and their capacities are summarized below:~~

Parks & Open Space		Size of Facility
61	Local parks	834 acres
18	Major urban or regional parks	2,560 acres
62	Squares, places, triangles	27 acres
33	Playfields	413 acres
38	Neighborhood playgrounds	135 acres
8	Shorelines (including 11 swimming beaches)	24 miles
	Biking and pedestrian trails	8 miles

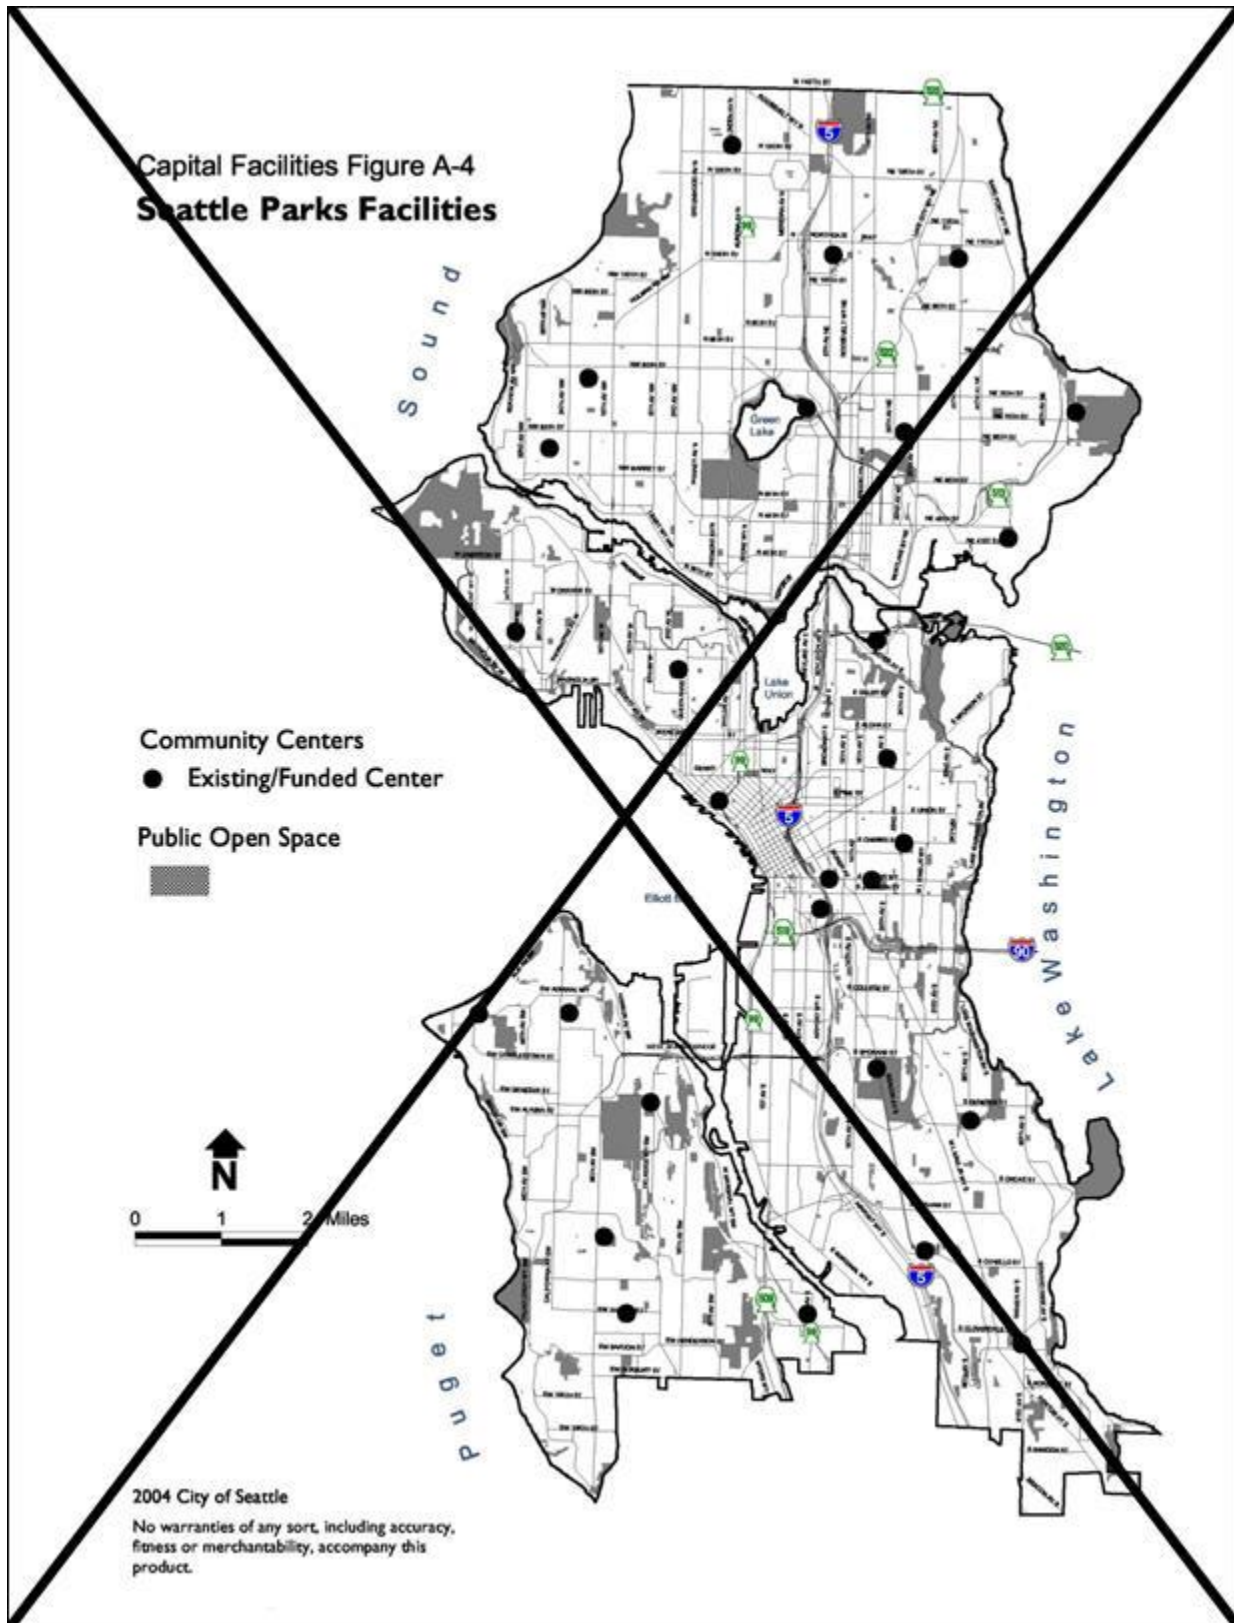

18	Boulevards	22 miles (396 acres)
26	Green spaces	637 acres
18	Natural areas	69 acres

The City also owns a number of recreational facilities within the parks system. These structures total more than a million square feet of building space. Five new community centers will expand the capacity by more than 70,000 sq. ft. Following is a list of park system structures:

#### Park System Structures

24	Community centers
40	Swimming pools (including 2 outdoor), 27 wading pools
4	Waterfront aquarium

~~((Seattle Public Library~~

~~The Seattle Public Library (SPL) operates the downtown library, 23 neighborhood libraries and a fleet of four bookmobiles. The State-funded Washington Talking Book and Braille Library (WTBBL) is also administered by the SPL. The SPL rents space for three of the facilities it does not own. Locations of library facilities and their capacities are shown in Capital Facilities Figure A-5 and in the location list of library facilities provided below.~~

~~((general government~~

~~The City of Seattle is in the process of revitalizing its downtown civic campus. Currently five city-owned buildings comprise the civic campus, with a capacity of 1.7 million square feet (sq. ft.) in the downtown core: New City Hall (186,000 sq. ft.), Justice Center (272,000 sq. ft.), Arctic Building (101,000 sq. ft.), Alaska Building (147,000 sq. ft.) and the Seattle Municipal Tower (1 million sq. ft., of which approximately 920,000 sq. ft. are currently used for City office space). The City also leases about 24,000 sq. ft. in nearby buildings downtown. The City's Sea-Park Garage provides parking for city vehicles and visitor parking within the civic campus.~~

~~The Public Safety Building (291,000 sq. ft.) is mostly vacant, and scheduled for demolition in 2004. Current plans are to sell the Arctic and Alaska Buildings in 2004-2006. The City sold the Dexter-Horton Building (350,000 sq. ft.) in 2001.~~

~~Exclusive of fire stations and police precincts, the City owns more than 30 other general government facilities located outside of downtown, and leases an average of 50,000 sq. ft. These provide a wide variety of services, primarily to other city departments, and include maintenance shops, warehouses, and support facilities for the public safety functions.~~

~~In addition, the City also operates 13 storefront Neighborhood Service Centers located throughout the city. These offices range in size from 750—2,100 square feet and serve as City information and community contact points, as well as bill payment depositories. Eight are located in leased space, while five are co-located with other city facilities such as libraries, fire stations and community centers. These are shown in Capital Facilities Figure A-6.~~

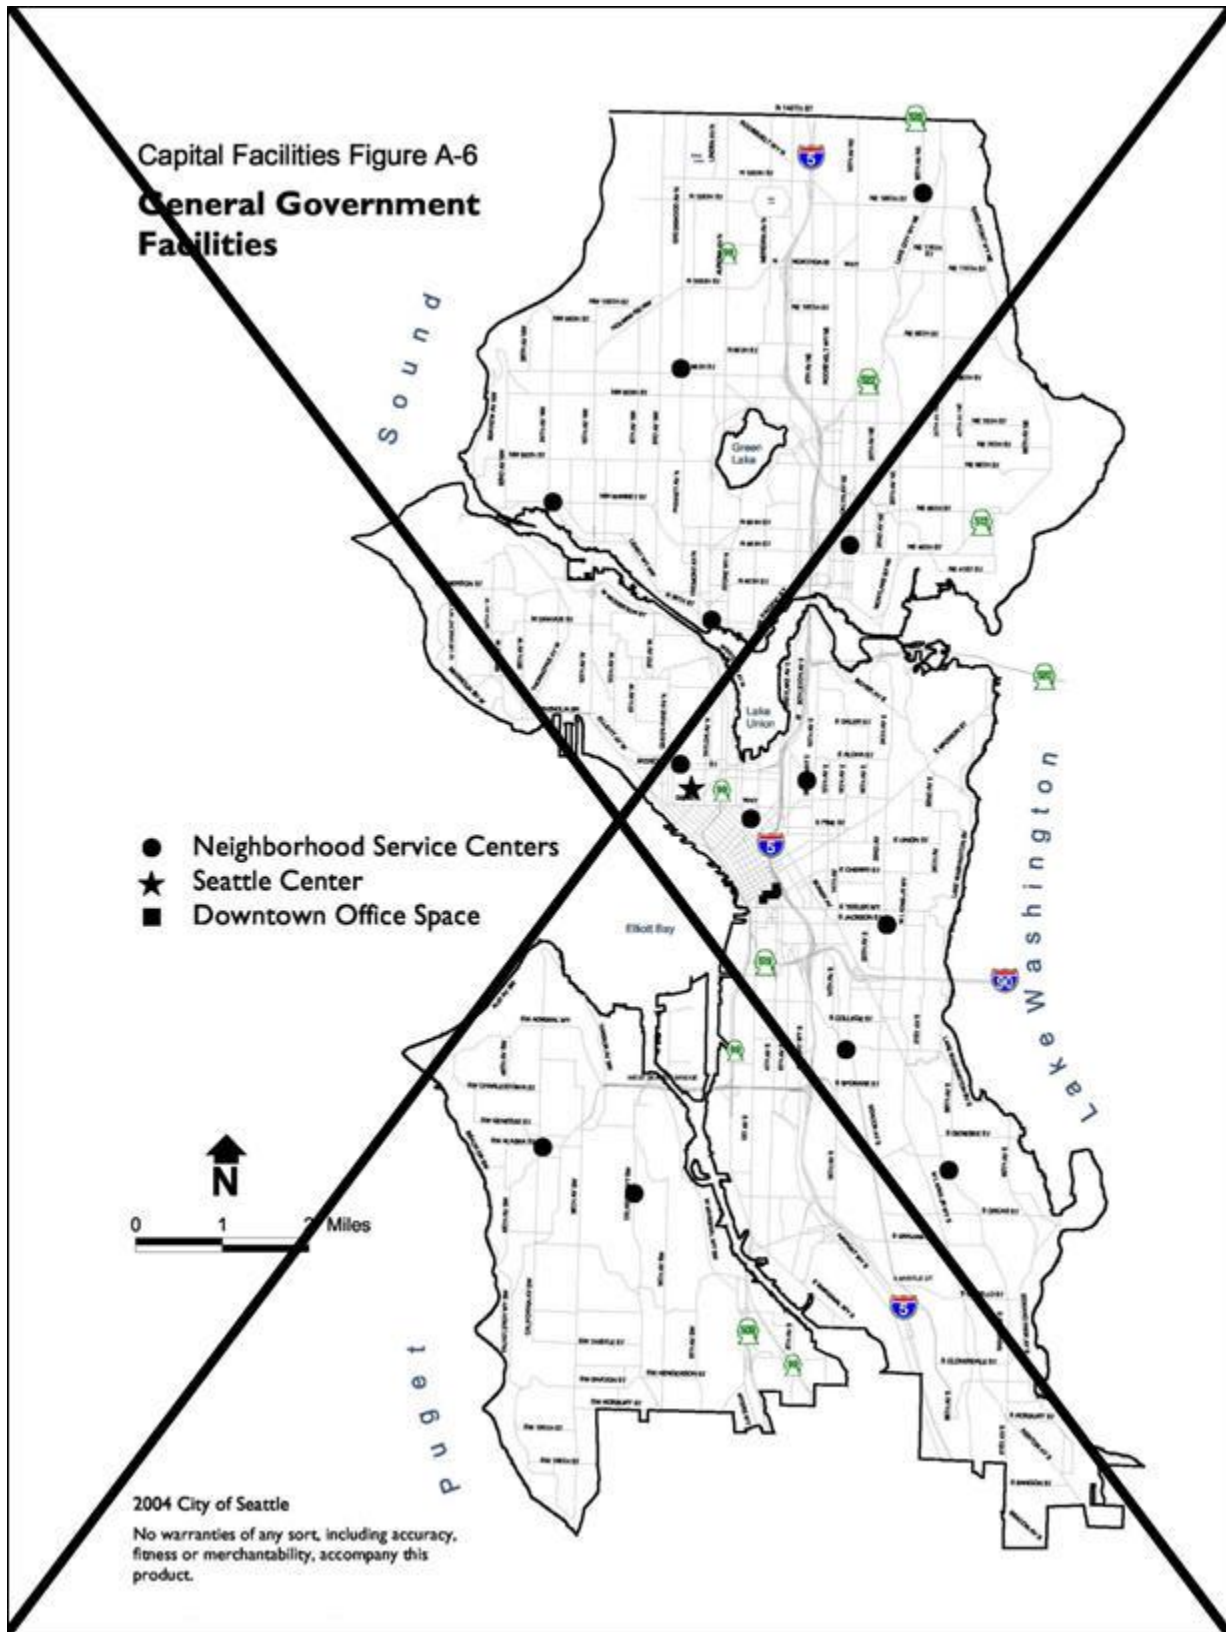

~~Seattle Center~~

~~There are 37 buildings on the 87-acre Seattle Center campus totally in excess of over 2.5 million square feet. These facilities serve more than 10 million visitors a year and present over 5,000 performances or events annually. The campus meeting, performance, educational, exhibition, sports, recreational, gathering spaces and open space are dedicated to meeting the cultural, artistic, educational, recreational, and entertainment needs of the region.~~

~~The Center is home to 12 theater spaces ranging in capacity from 100 seats in the Center House Theater to 2,800 at Marion Oliver McCaw Hall and totaling nearly 6,000 seats for theatrical performances. Sports facilities include the Key Arena with a capacity of 17,000 and Memorial Stadium with a capacity of 12,000 for field events. There are two schools on the campus—a ballet school and a public high school. There are 10 fountains on the grounds and approximately 39 acres of landscaped and green open space and pedestrian ways. There are also active outdoor spaces, including the Fun Forest amusements, a basketball court, and a skate park. Seattle Center's outdoor open spaces, gardens, and fountains are a major urban oasis for active or passive and individual or group enjoyment.~~

~~The Center owns and manages four surface parking lots and two parking garages totaling 3,517 spaces. The Seattle Center is also served by the Seattle Center Monorail between downtown and the Center. The Monorail carries more than 2 million riders a year over the mile-long route.~~

~~Notable buildings and facilities on the Seattle Center campus include: Center House; Key Arena; the Space Needle; Experience Music Project; Memorial Stadium; Pacific Science Center; McCaw Hall; Phelps Center and Ballet School; Seattle Children's Theatre; Bagley Wright Theatre; Intiman Theatre; Seattle Children's Museum; Fisher Pavilion; the Northwest Rooms; Mercer Arena; and the Seattle Center Pavilion.)~~

~~((public health~~

~~Public Health—Seattle & King County (Public Health) is a joint enterprise of the City of Seattle and King County and is responsible for the supervision and control of all public health and sanitation affairs in Seattle and King County. Public Health maintains a system of personal health, environmental health, health promotion and disease prevention services through 19 health centers/clinics and other service sites located in Seattle. These health facilities have a total capacity of 229,464 sq. ft. The capacity and ownership of individual facilities are listed below.~~

publicly subsidized rental housing

As of May 2004, the City's Office of Housing database showed 20,277 affordable rental units with capital subsidies in Seattle. As of the end of 2003, 7,793 of these units were in 238 City-funded projects. The remaining units have capital subsidies from federal, state, or county programs but are not City-funded. ## **Capital Facilities Appendix**

The following sections contain the inventory and anticipated needs for various capital facilities. Information for utilities, such as drinking water, drainage and sewer, solid waste, and electricity, is included in the Utilities Appendix. Information for transportation facilities is included in the Transportation Appendix.

### A. Fire Department

#### inventory

The Seattle Fire Department (SFD) provides fire protection and emergency medical services throughout the City from 33 fire stations, marine facilities, and Harborview Medical Center. Headquarters for the department is located in a historic building in Pioneer Square. The department shares the Joint Training Facility with Seattle Public Utilities. Each station provides a full range of fire protective services including fire suppression, emergency medical, and rescue. Each station is equipped with at least one fire engine. Many stations include other equipment and special units. The Fire Department has 33 engine companies, 12 ladder truck companies, four fire boats, five aid units, eight paramedic units and other specialized units including heavy rescue, hazardous materials, and tunnel rescue that provide a broad range of emergency services. Information on existing fire facilities is shown in Capital Facilities Figure A-1 and A-2.

#### planning goals

The Department evaluates emergency medical capabilities and staffing or equipment additions and institutes operation changes each year as a part of the budget process. State law requires that fire departments report yearly on established emergency response standards. The Seattle Fire Department reports response time for fire response and emergency medical services (EMS), which includes basic life support (BLS) and advance life support (ALS). SFD response standards are:

- Call Processing Time: 60 seconds for phone answered to first unit assigned, for 90% of calls.

- Fire Response Time: Arrival within 4 minutes for first arriving engine at a fire for 90% of calls, and arrival within 8 minutes of the full first alarm assignment of 15 fire fighters, for 90% of calls
- Basic Life Support: Arrival within 4 minutes of the first medical unit with 2 EMT, for 90% of calls.
- Advanced Life Support: Arrival within 8 minutes with 8 minutes, for 90% of calls

Response time is influenced directly by the availability of fire personnel, equipment, traffic conditions, and the number and location of fire stations. Firefighter and equipment requirements indirectly affect station requirements.

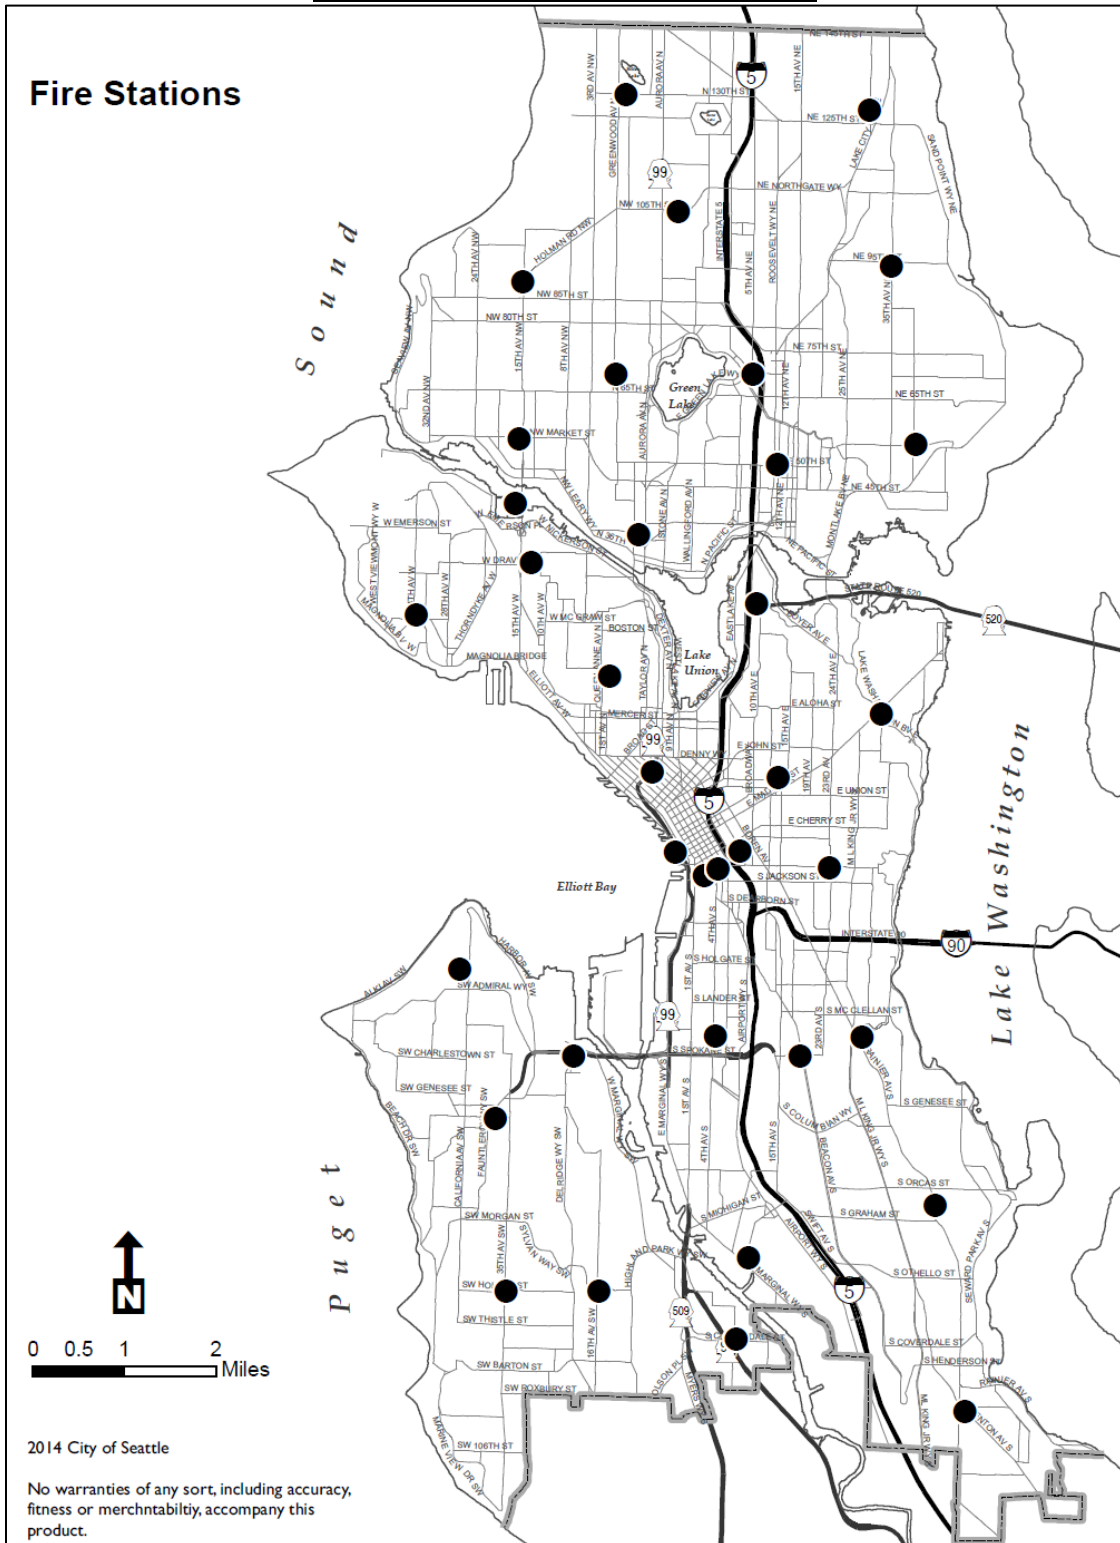

The City plans for asset preservation through a capital maintenance program. Minor and major capital facility projects are included in the City's six-year Capital improvement program.

#### forecast of future needs

The City has added capacity and renovated or replaced many of the fire stations in the past ten years as part of the 2003 Fire Facilities levy, which provided about \$167 million to upgrade, renovate or replace 32 neighborhood fire stations, construct a new training facility and upgrade the Department's Fire Alarm Center among other things. The new facilities have been built with excess physical capacity.

The City anticipates it will need to replace Fire Station No. 3 and the Fire Marshall office, and replace or expand the commissary and fire garage, as well as continue maintenance on the remaining existing buildings. To support existing operations, a new fire administration building and expanded training facilities are needed. To support the SFD's desired goal of timely emergency response in all areas of the city, a new South Lake Union fire station and a freshwater marine fire suppression facility are desired under existing conditions.

## B. Police Department

### inventory

The Seattle Police Department currently provides law enforcement patrol services to the city from five precincts and the Harbor Patrol Unit which covers 59 square miles of waterways. The SPD also provides for parking and traffic enforcement as well as specialized units including SWAT, gang unit, mounted patrol, and canine. Information on these precincts and facilities is shown in Capital Facilities Figures A-3 and A-4.

### planning goals

Uniform patrol law enforcement services are generally allocated based on workload, time, and location. The exact location of facilities is usually not critical to the provision of uniform patrol services since police officers are on patrol in the various sectors and calls for service are dispatched by radio. The location of facilities can be important because the distance traveled at shift change time impacts the availability of officers and because locations can enhance interaction with the community. Because of the many, changing factors that affect staffing and space objectives of police departments, there are no universally accepted planning goals for the location and distribution of police facilities.

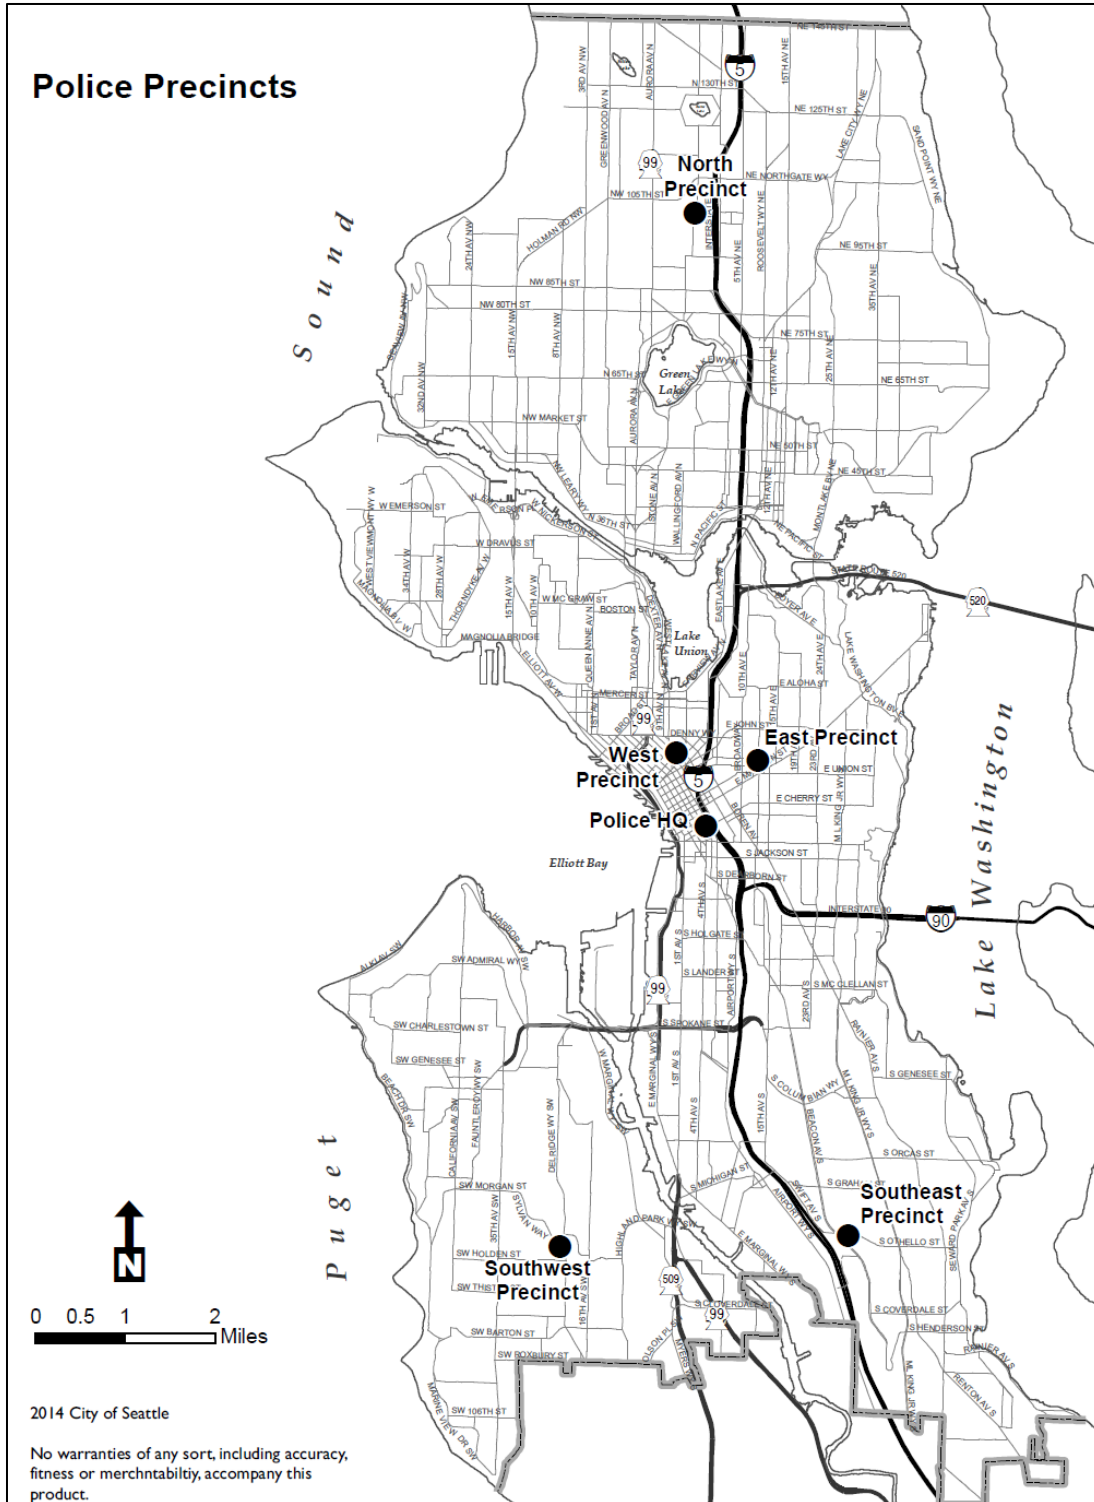

The City plans for asset preservation through a capital maintenance program. Minor and major capital facility projects are programed in the City's six-year capital improvement program.

### forecast of future needs

The City is expected to maintain, replace, or expand some police facilities as shown in Capital Facilities Figure A-4. To support existing police operations citywide, SPD expects that it may upgrade, expand, or replace Harbor Patrol, rifle range, and training facilities. The existing North Precinct is currently overcrowded and does not meet the needs of precinct personnel; therefore, a new consolidated facility is proposed to be built. The City has purchased property for a new North Precinct. In the next 20 year period, the City may also elect to build its own correctional facility, rather than to continue leasing space from King County at its jail.

### C. Parks and Recreation

#### inventory

Seattle Parks and Recreation (Parks) manages a 6,200-acre park system, including 465 parks and extensive natural areas. Parks provides athletic fields, tennis courts, play areas, specialty gardens, and more than 25 miles of boulevards and 120 miles of trails. The system comprises about 11% of the City of Seattle's land area. Parks also manages many facilities, including community centers, swimming pools, environmental education centers, small craft centers, golf courses, an outdoor stadium, skateparks, and more. Parks and open areas owned by the City and their capacities are summarized below in Capital Facilities Figures A-5 through A-7.

### Capital Facilities Figure A-7 Map of Parks and Recreation Facilities

forecast of future needs

The City of Seattle has a robust citywide park system which is available and accessible for use by all of the City's residents. To enhance Seattle's quality of life, the City seeks to add parks and open space to the City's system as additional amenities for all of the City's residents. To that end, the City continues to fund Park's acquisition with the primary goals of:

1. pursuing usable open space acquisition in areas where the acreage and distribution of parks is lowest on a per capita basis. These are mostly found within urban centers and villages; and
2. acquiring properties that can complete or expand existing parks.

Parks acquisitions are opportunity-driven, but are informed by UV 46 and Urban Village Appendix Figures A-1 and A-2. Additions to the park facilities would enhance the City's quality of life. However, such additions are not necessary to accommodate new households in urban centers or citywide.

Planned investments in the maintenance of existing facilities are provided in the Capital Improvement Program and are updated on an annual basis according to asset management priorities and available funds.

## D. General Government

### inventory

The Department of Finance and Administrative Services provides facility management and planning for general government facilities. These facilities include vehicle repair shops, office space, warehouses, communication facilities, social services facilities, and the animal shelter. The City also owns property which is leased to social service organizations. Capital Facilities Figures A-8 and A-9 inventory existing General Government capital facilities.

### planning goals

The City does not have general planning goals for general government facilities, which are instead driven by the needs of specific departments and programs. These governmental facilities are not related or necessary for future growth. The City plans for asset preservation through a capital maintenance program. Minor and major capital facility projects are programed in the City's six year Capital improvement program.

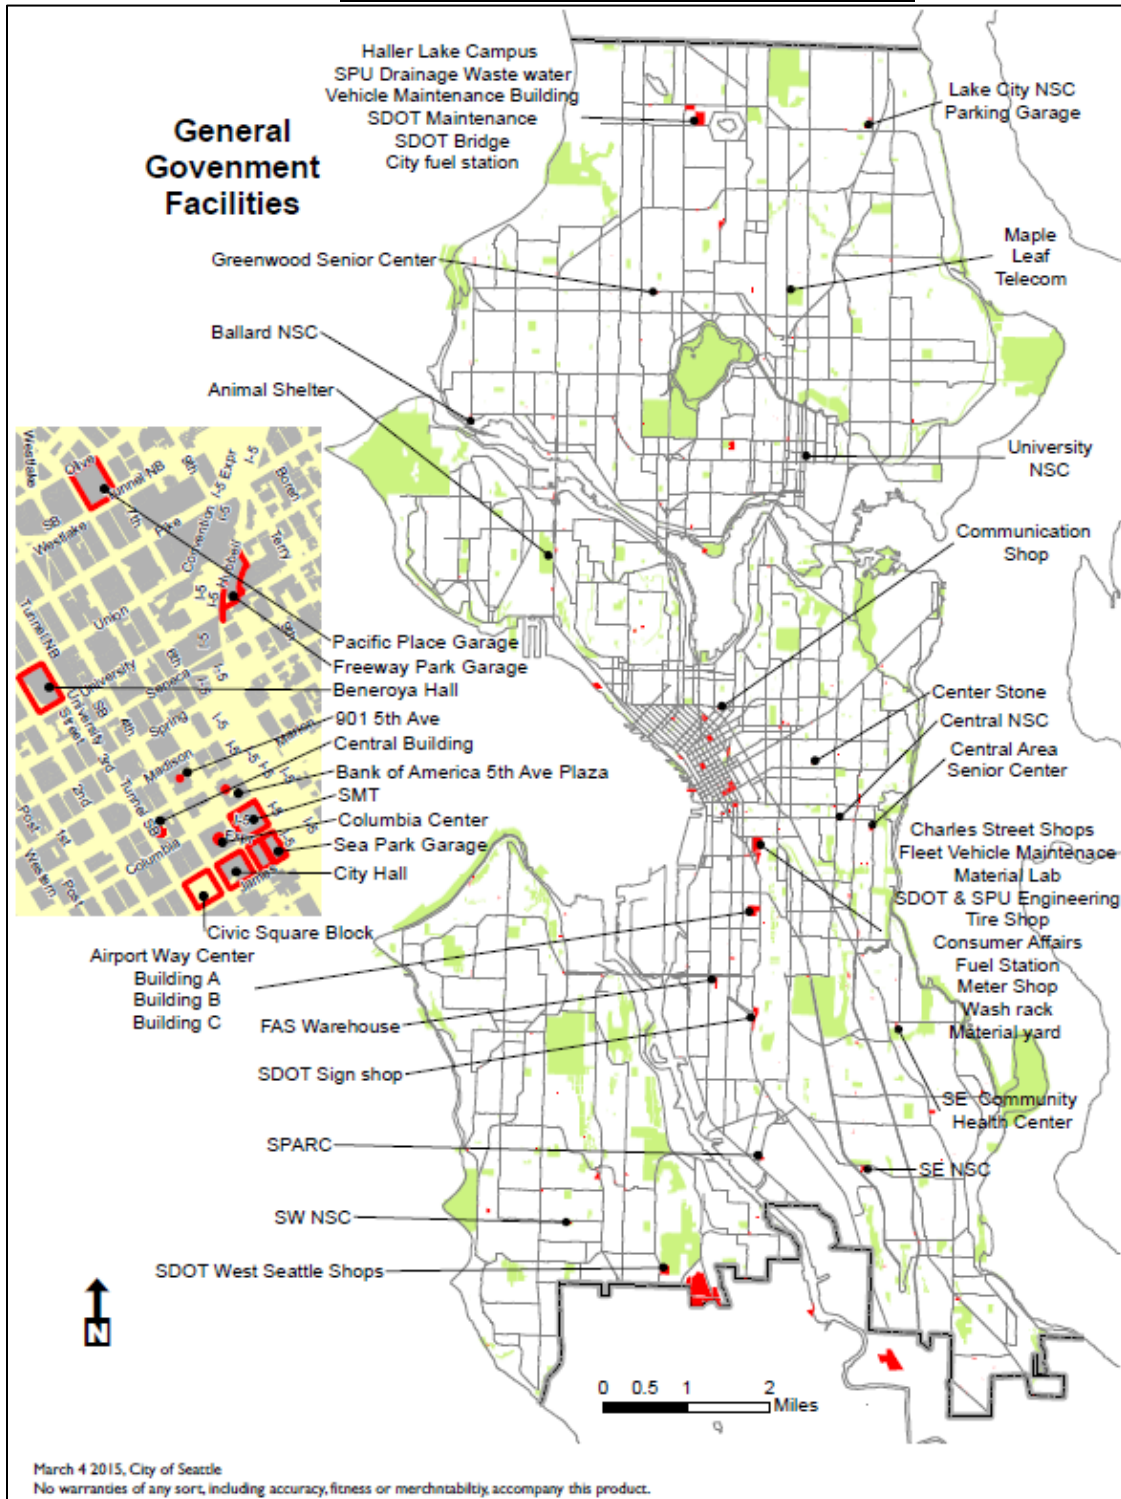

### forecast of future needs

The Department of Finance and Administrative Services Department has identified a need for expanded facilities that support vehicle maintenance and department operations over the 20 year planning horizon. Additional warehouse and office space may be needed as the City grows, however, this need will be driven primarily by budget revenue and departmental priorities. Additional space needs can be accommodated through leasing as well as building new space. General facilities that support citywide

functions such as the Animal Shelter and Consumer Affairs are in need of new and expanded facilities to enhance the quality of life in the community.

## E. Public Library

### inventory

The Seattle Public Library (SPL) operates the Central Downtown Library, 26 neighborhood libraries, and a fleet of four book mobiles. The State-funded Washington Talking Book and Braille Library (WTBBL) is also administered by the SPL. The SPL rents space for three of the facilities it does not own. Information on library facilities is shown in Capital Facilities Figures A-10 and A-11.

### planning goals

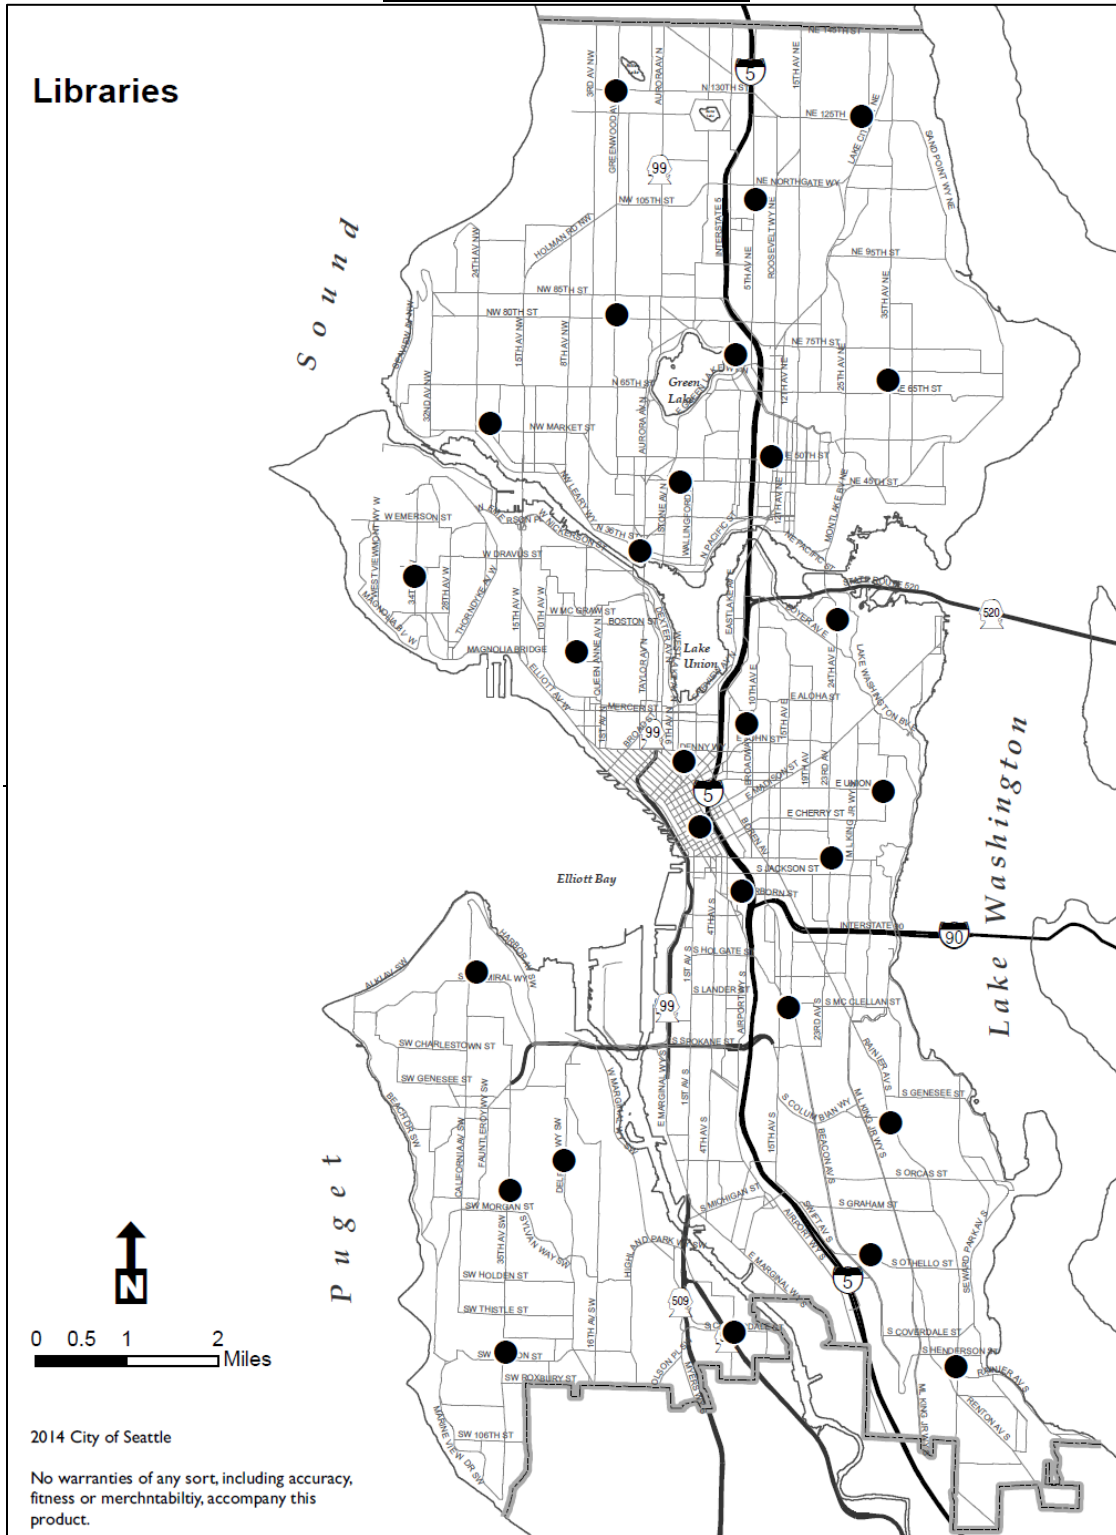

In 2009, SPL completed a decade of building renewal and expansion. The voter-approved "Libraries for All" capital program renovated or replaced all 22 branches that were in the system as of 1998, added four new branch libraries, and built the new Central Library. The expansion also allowed for an increase in the number of public access computers, large community meeting areas, and study rooms. The focus now shifts from buildings to services as was adopted in the 2011 Library Strategic Plan.

### forecast of future needs

The Seattle Public Library will need maintenance and support facilities to support the existing library facilities.

**F. Seattle Center**

### Inventory (see Figure A-12)

Seattle Center serves as an extraordinary arts, civic, and public family gathering place for our region, located on a 74-acre campus in the middle of the Seattle urban core. The more than 30 cultural, educational, sports and entertainment resident organizations at Seattle Center, together with a broad range of public and community programs, offer 5,000 events attracting 12 million visits each year. Seattle Center's Purpose is "to create exceptional events, experiences, and environments that delight and inspire the human spirit to build stronger communities". Activities at Seattle Center generate \$1.15 billion in business activity and \$387 million in labor income annually.

The Center is home to 12 theater spaces ranging in capacity from 200 seats in the Center Theatre to 2,900 at Marion Oliver McCaw Hall and totaling nearly 6,000 seats for theatrical performances. Sports facilities include the Key Arena with a capacity of 17,000 and Memorial Stadium with a capacity of 12,000 for field events. There are three schools on the campus – a ballet school, a school for 3-D animation and gaming, and a public high school. There are 10 fountains on the grounds and approximately 40 acres of landscaped and green open space and pedestrian ways. There are also active outdoor spaces, including a children's playground and a skate park. Seattle Center's outdoor open spaces, gardens, and fountains are a major urban oasis for active or passive and individual or group enjoyment.

The Center owns and manages two surface parking lots and three parking garages totaling more than 3,500 spaces. The Seattle Center is also served by multiple King County/METRO bus routes and also the Seattle Center Monorail which runs between downtown and Seattle Center. The Monorail carries more than 2 million riders a year over a 0.9 mile route.

Notable buildings and facilities on the Seattle Center campus include: Seattle Center Armory; Key Arena; the Space Needle; International Fountain; Chihuly Garden and Glass; Experience Music Project; Memorial Stadium; Pacific Science Center; KCTS; McCaw Hall; Phelps Center and Ballet School; Seattle Children's Theatre; Seattle Repertory Theatre; Cornish Playhouse ; Seattle Children's Museum; Fisher Pavilion; SIFF Film Center; The VERA Project; Pottery Northwest; the Northwest Rooms; Center Playground; Mercer Arena; and the Seattle Center Pavilion.

## G. Public Schools

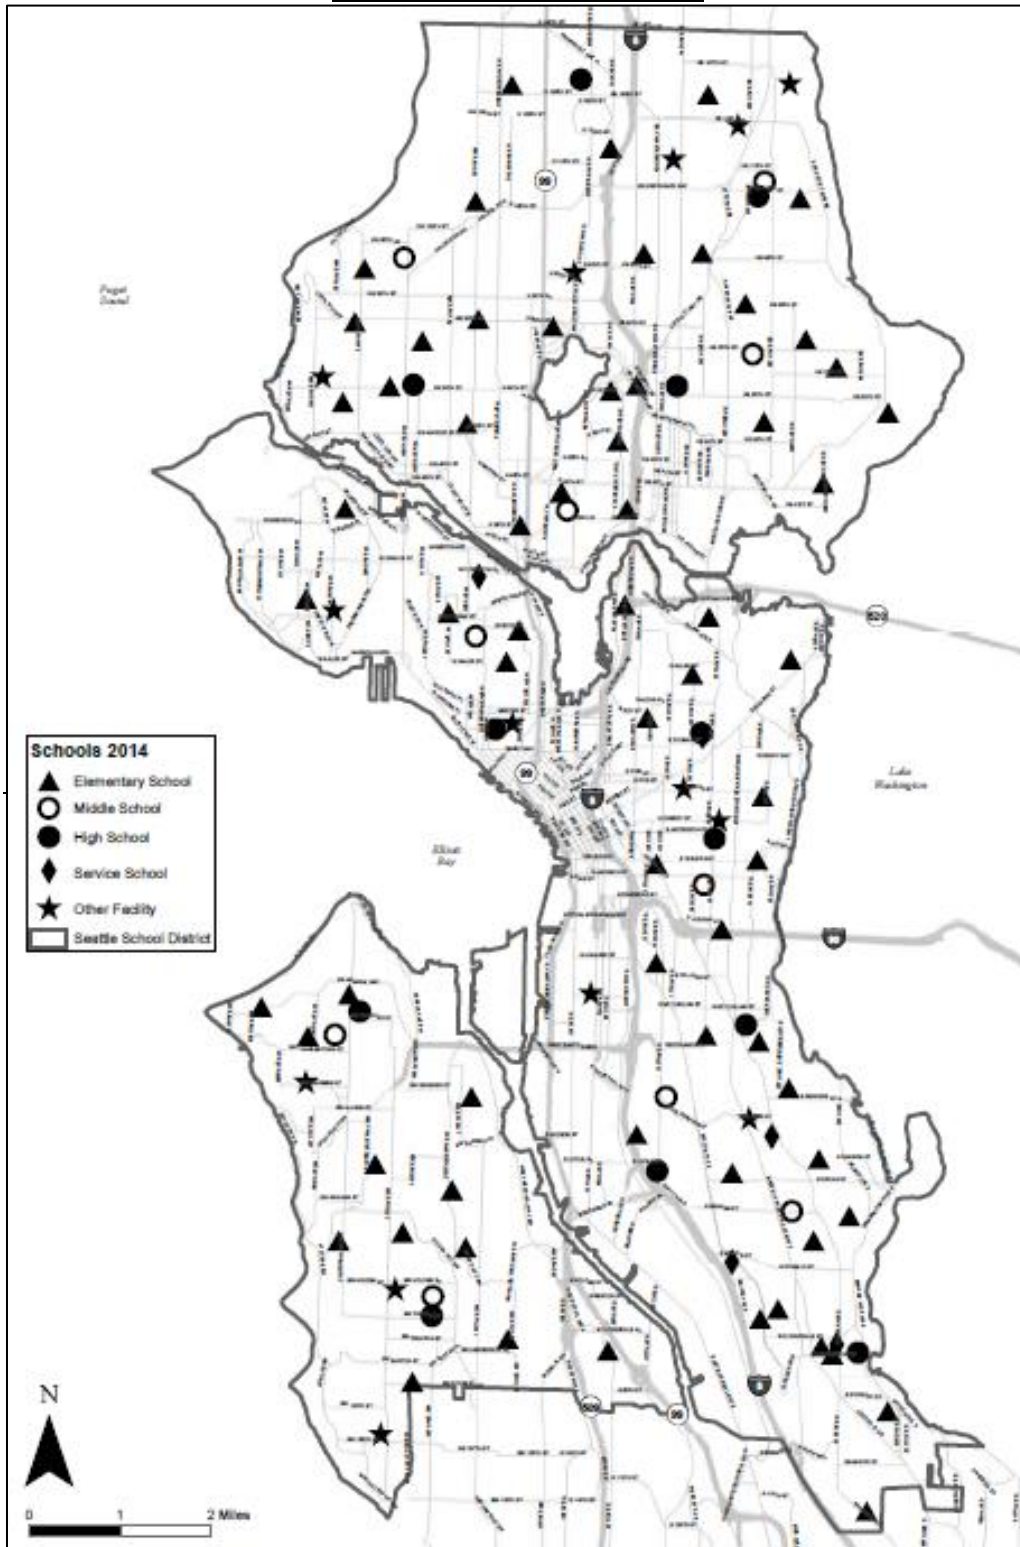

### inventory

Seattle Public Schools include 12 high schools, 9 middle schools, 10 K-8 schools, and 57 elementary schools. In addition, Seattle Public Schools has a number of closed or vacated schools sites that could potentially be reactivated as well as various athletic, administrative, and support buildings. All in all, the District owns 119 schools and sites. School locations are shown in Capital Facilities Figure A-14.

### planning goals

Capital Facility planning is driven by projected student population as well as curriculum goals, educational specification (including class room size and types of room facilities need), and the need for facilities to address specialized needs of specific students and administration of the district overall. The goals are detailed in the Seattle Public School's Facilities Master Plan which is updated periodically (most recently in 2012) and has a ten year time horizon.

**Capital Facilities Figure A-13**  
**Public School Locations**

forecast of future needs

The School District's Facilities Master Plan (FMP) provides planning information for a period of 10 years, to school year 2021 including detailed analysis of needs by individual school service area. Overall, student enrollment is projected to grow to over 57,000 students by 2022. This would exceed the estimated 2012 capacity of approximately 51,700.

The Building Excellence (BEX) IV levy provides the funding necessary to address existing capacity needs through 2021. It includes the following projects, which along with portable classrooms, are anticipated to accommodate the projected students population:

- Fairmount Park Elementary improvements
- Schmitz Park Elementary replacement
- North East School development (new school)
- Jane Addams K-8 replacement
- Olympic Hills Elementary replacement
- Wilson Pacific K-8 development (new school)
- Loyal Heights Elementary addition
- Arbor Heights Elementary replacement
- Queen Anne Elementary addition
- Wing Luke Elementary replacement
- Bagley Elementary addition
- Meany Middle reconfiguration
- Mann High addition
- World School modernization
- Lincoln High modernization
- Interim downtown elementary school
- Support of various interim schools

Seattle Public Schools does not forecast student populations beyond a 10-year horizon due to the challenges of predicting demographic trends over a longer period and the historic lack of relationship between population and employment numbers and student population (since 1960 the student population has fallen by half while overall population and employment have grown).

The Seattle Public School District is currently planning for their BEX V levy, which is planned to start in 2021 and run for 6 years. This levy will seek to make investments to ensure that sufficient capacity is available in the future.

## H. Public Health

Public Health – Seattle & King County (Public Health) is a joint enterprise of the City of Seattle and King County and is responsible for the supervision and control of all public health and sanitation affairs in Seattle and King County. Public Health maintains a system of personal health, environmental health, health promotion, and disease prevention services through health centers/clinics and other service sites located in Seattle. The capacity and ownership of individual facilities are listed below.

<u>Schools</u>	<u>Gatzert and Lowell Elementary Schools</u>	
	<u>McClure and Washington Middle Schools</u>	
	<u>Garfield High School</u>	

Overall, fire, police, library facilities, parks and schools are sufficient to accommodate expected 20 year growth.

A replacement of the Fire Department's headquarters building is expected for reasons other than as a result of development (the SFD headquarters is located in the urban center).

The City may seek to increase park space in the urban center to meet desired goals. While additions to the park facilities would enhance the City's quality of life, such additions are not necessary to accommodate new households in urban centers or citywide.

Some of the schools serving this urban center are projected to exceed their capacity, given existing attendance area boundaries. Given that Seattle Public Schools has planned investments to meet citywide capacity needs, capacity issues could potentially be solved by modifying attendance area boundaries or allowing more students to transfer to other schools. Seattle Public Schools is also evaluating the creation of a

downtown elementary school. This school could help create a local school option as well as assist with capacity issues.

Overall, fire, police, library facilities, parks and schools are sufficient to accommodate expected 20 year growth.

The City may seek to increase park space in the urban center to meet desired goals. While additions to the park facilities would enhance the City's quality of life, such additions are not necessary to accommodate new households in urban centers or citywide.

Some of the schools serving this urban center are projected to exceed their capacity, given existing attendance area boundaries. Meany Middle School is proposed to be reconfigured to accommodate more students. Given that Seattle Public Schools has planned investments to meet citywide capacity needs, capacity issues could potentially be solved by the Meany reconfiguration and modifying attendance area boundaries or allowing more students to transfer to other schools. Seattle Public Schools is also evaluating the creation of a downtown elementary school. This school could help create a local school option as well as assisting with capacity issues.

### **University Community Urban Center**

<u>Facility Type</u>	<u>Name</u>	<u>Location</u>
<u>Fire Station</u>	<u>SFD 17</u>	<u>1050 NE 50th St.</u>
<u>Fire Station</u>	<u>SFD 38</u>	<u>5503 33rd Ave. NE</u>

<u>Library</u>	<u>University Branch</u>	<u>5009 Roosevelt Way NE</u>
<u>Parks</u>	<u>17th Ave NE Centerstrip</u>	<u>17th Ave. NE from NE 45th St. to NE Ravenna Blvd.</u>
<u>Parks</u>	<u>Burke-Gilman Trail</u>	<u>8th Ave. NW to NE 145th St.</u>

<u>Facility Type</u>	<u>Name</u>	<u>Location</u>
<u>Parks</u>	<u>Christie Park</u>	<u>NE 43rd St. &amp; 9th Ave. NE</u>
	<u>Cowen Park</u>	<u>5849 15th Ave. NE</u>
<u>Parks</u>	<u>North Passage Point Park</u>	<u>600 NE Northlake Way</u>
<u>Parks</u>	<u>Ravenna Boulevard</u>	<u>NE Ravenna Blvd. from E Green Lake Way N to 20th Ave. NE</u>
<u>Parks</u>	<u>Ravenna Park</u>	<u>5520 Ravenna Ave. NE</u>
<u>Parks</u>	<u>University Heights</u>	<u>University Way NE and NE 50th St.</u>
<u>Parks</u>	<u>University Playground</u>	<u>9th Ave. NE &amp; NE 50th St.</u>
<u>Police Station</u>	<u>North Precinct</u>	<u>10049 College Way N</u>
<u>Schools</u>	<u>Greenlake and Bryant Elementary Schools</u>	
	<u>Eckstein and Hamilton Middle Schools</u>	
	<u>Roosevelt High School</u>	

Overall, fire, police, library facilities, parks and schools are sufficient to accommodate expected 20 year growth. Construction of a new north precinct is planned to deal with existing overcrowding.

Some of the schools serving this urban center are projected to exceed their capacity given existing attendance area boundaries. Given that Seattle Public Schools has planned investments to meet citywide capacity needs, capacity issues could potentially be solved by modifying attendance area boundaries or allowing more students to transfer to other schools.

### Northgate Urban Center

<u>Facility Type</u>	<u>Name</u>	<u>Location</u>
<u>Fire Station</u>	<u>Fire Station 31</u>	<u>1319 N Northgate Way</u>
<u>Police Station</u>	<u>North Precinct</u>	<u>10049 College Way N</u>
<u>Schools</u>	<u>Olympic View Elementary</u>	
	<u>Jane Addams Middle School</u>	
	<u>Nathan Hale High School</u>	
<u>Library</u>	<u>Lake City Branch</u>	<u>12501 28th Ave. NE</u>
<u>Parks</u>	<u>Hubbard Homestead Park</u>	<u>11203 5th Ave. NE</u>

<u>Parks</u>	<u>Mineral Springs Park</u>	<u>10556 Meridian Ave. N</u>
<u>Parks</u>	<u>Northgate Park</u>	<u>10510 5th Ave. NE</u>
<u>Parks</u>	<u>Thornton Creek Park #6</u>	<u>5th Ave. NE &amp; NE 103rd St. &amp; Roosevelt Way NE &amp; NE 107th St.</u>
<u>Parks</u>	<u>Victory Creek Park</u>	<u>1059 Northgate Way</u>

Overall, fire, police, library facilities, parks and schools are sufficient to accommodate expected 20 year growth. Construction of a new north precinct is planned to deal with existing overcrowding.

Some of the schools serving this urban center are projected to exceed their capacity given existing attendance area boundaries. Seattle Public Schools is developing a new Wilson Pacific Elementary school nearby this area. While the school is not planned to serve this urban center directly, its development will directly increase local capacity. Given that Seattle Public Schools has planned investments to meet citywide capacity needs, capacity issues could potentially be solved by modifying attendance area boundaries or allowing more students to transfer to other schools.

### **South Lake Union Urban Center**

<b><u>Facility Type</u></b>	<b><u>Name</u></b>	<b><u>Location</u></b>
<u>Fire Station</u>	<u>Fire Station 2</u>	<u>2334 4th Ave.</u>
<u>Fire Station</u>	<u>Fire Station 22</u>	<u>901 E Roanoke St.</u>
<u>Police Station</u>	<u>East Precinct</u>	<u>1519 12th Ave.</u>
<u>Police Station</u>	<u>West Precinct</u>	<u>810 Virginia St.</u>

<u>Parks</u>	<u>NE Queen Anne Greenbelt</u>	<u>1920 Taylor Ave. N</u>
<u>Schools</u>	<u>Lowell Elementary School</u>	
	<u>McClure Middle School</u>	
	<u>Garfield and Ballard High Schools</u>	

Overall, fire, police, library facilities, parks and schools are sufficient to accommodate expected 20 year growth. To support the SFD’s desired goal of timely emergency response in all areas of the city, a new South Lake Union fire station is needed under existing conditions.

Some of the schools serving this urban center are projected to exceed their capacity given existing attendance area boundaries. Given that Seattle Public Schools has planned investments to meet citywide capacity needs, capacity issues could potentially be solved by modifying attendance area boundaries or allowing more students to transfer to other schools. Seattle Public Schools is also evaluating the creation of a downtown elementary school. This school could help create a local school option as well as assisting with capacity issues.
