NYC 1966 | SEATTLE 2016
EXPLORING ART + SCIENCE

On October 21-29, 2016, in Seattle's King Street Station, 9e² will commemorate a half century since "9 Evenings: Theatre & Engineering" was held in New York. At the same time, we'll explore the interplay between art, science, and technology in the 21st century. Presale tickets will go on sale in late Spring.
