Legal Description (abbreviated).....	Portion of The City of Seattle Cedar River Transmission Pipeline right of way in the E ½ of Section 18, Twp. 23 North, Range 5 East, W.M., King County, WA
Assessor’s Tax Parcel ID#.....	Portion of 1823059208

Rainier Avenue Road Easement SPU R/W File # 327-605

THIS EASEMENT AGREEMENT, made this ____ day of _____, 2022 by and between THE CITY OF SEATTLE, a municipal corporation of the State of Washington, acting by and through Seattle Public Utilities, hereinafter called “Seattle,” and City of Renton, a political subdivision of the State of Washington, hereinafter called “Renton,” WITNESSETH:

That for and in consideration of ONE and NO/100 Dollar (\$1.00), the mutual covenants and agreements hereinafter set forth, and other valuable consideration, it is agreed by and between the parties hereto as follows:

1. Seattle hereby grants to Renton, and to such municipal corporations as may become its successor by reason of incorporation or annexation of territory, including all or any part of the area below described, a non-exclusive easement for public roadway, Renton-owned utilities, storm drainage, and devices for traffic control purposes, over, under and across a portion of Seattle's Cedar River Pipeline right of way, as legally described in Exhibit A, attached hereto (the “Easement Area”).
2. Seattle retains, in its ownership of the underlying fee, the right to grant or deny permission to use or occupy the Easement Area for any other purpose, including use by public utility agencies; provided that such use or occupancy shall not unreasonably or permanently conflict with the purposes herein granted; and provided that such permitted users shall be required to restore roadway in accordance with Renton standards.
3. Any use or occupancy of the Easement Area is subject to all rules, regulations and laws governing the construction, operation and maintenance of such use, and shall not be construed to replace or to be used in lieu of any permit or licenses which may be required, granted or supervised by any other agency or subdivision of government.

4. Renton shall be responsible for the design, construction, maintenance and safety of a public roadway, Renton-owned utilities, storm drainage, and devices for traffic control purposes, within the Easement Area, which shall be at no cost or expense to Seattle. The use of the Easement Area by Renton shall in no way interfere with present or future use of said property by Seattle for water supply lines, overhead or underground electrical transmission or distribution facilities, or for other Seattle purposes.
5. a. Seattle shall have the right to install, repair, replace, maintain, operate and make lateral connections to any of its water supply lines and appurtenances, electrical transmission and distribution facilities, or other Seattle improvements within said easement area, provided that Renton shall be notified in advance of any such work, except when an emergency exists.

b. Seattle shall immediately notify Renton of any direct interference or damage to roadway, storm drainage facilities or other Renton improvements caused by or resulting from any Seattle work or operation within the Easement Area. Renton shall proceed to take such action(s) as may be necessary to ensure the integrity of Renton improvements and the safety of the public.

c. Seattle shall not be liable for the relocation or repair of said roadway, or other Renton improvements within the Easement Area by reason of such work or operations or for damage to roadway, storm drainage facilities or other Renton improvements within said easement area, except where such damage is caused by the sole or comparative negligence of Seattle, its agents, or employees.
6. It is expressly understood and agreed that before any construction, improvement, maintenance, or substantial repair of roadway and/or other improvements within the Easement Area is made by Renton or its agents, plans shall be supplied to Seattle (Seattle Public Utilities) for approval prior to the commencement of work except when an emergency exists. Such plans shall indicate the permanent grade established and depth of cover over any existing pipelines and other existing utilities, and shall show the drainage pattern within the vicinity. No such construction or improvements for roadway and/or storm drainage purposes shall be undertaken without the approval, in writing, from the GM/CEO of Seattle Public Utilities. Forty-eight (48) hours' notice shall be given to Seattle Public Utilities prior to performance of such construction or improvements. If an emergency arises, Renton or its agents shall immediately phone the SPU Operations Response Center at (206) 386-1800.
7. A minimum of three (3) feet of cover to the finished roadway grade shall be established over the pipelines at the final grade. If there is to be less than three (3) feet of cover, Renton shall install bridging over the pipelines as approved by Seattle. Maximum cover shall not exceed six (6) feet unless approved, in writing, by SPU.
8. There will be no construction traffic within 10 feet of the pipelines without adequate cover or bridging as approved in advance by Seattle.

9. All alterations, moving or adjusting of pipelines and/or other Seattle facilities required by the construction of the roadway and other Renton improvements shall be at no cost to Seattle.
10. Renton shall be liable for, and pay throughout the term of this use, any taxes, fees or assessments on the improvements of Renton installed, operated and maintained on the Seattle's property, and on any property interest deemed by the King County Assessor, other official of the State of Washington, or other entity responsible thereof, created by this easement and shall otherwise fulfill all fiscal obligations required by law. This provision specifically includes Surface Water Management Fees.
11. Renton shall defend, indemnify and hold harmless Seattle, its officials, employees, agents, and representatives from and against any and all claims liens, demands, actions costs, losses, expenses, harm, damages, and liability of any kind or character asserted or arising from, on account of, or in connection with: (a) Renton's exercise of its rights and obligations under this Agreement, (b) the acts or omissions of Renton (and Renton's officials, employees, agents, consultants, contractors, representatives, licensees, invitees, or visitors) in or upon the Easement Area, (c) any damage to or failure of the roadway, storm drain or other Renton improvements resulting in any damage or injury to any person or property, or any interest of any person or entity whatsoever or (d) the use of the Easement Area by members of the general public; provided however, nothing herein shall require Renton to so indemnify and hold harmless Seattle to the extent of the negligence or other fault on the part of Seattle, its officials, employees, agents, consultants, contractors, representatives or licensees.
12. Renton agrees to maintain compliance with any and all environmental laws and not to cause or permit the Easement Area to become contaminated with any hazardous substances in violation of such environmental laws. In the event that any property becomes contaminated as a result of the use of the Easement Area by Renton, its officials, employees, agents, consultants, contractors, representatives, licensees, invitees or visitors, Renton agrees to clean up and remediate damage to such property and to bring it into compliance with the environmental laws. Renton agrees to indemnify, release and hold harmless the Seattle from any environmental liability which may arise out of, result from, or be related to the past, present, or future contamination of the Easement Area by Renton, its officials, employees, agents, consultants, contractors, representatives, licensees, invitees or visitors. For purposes of this section 12, "environmental laws" shall mean any local, state or federal law, regulation, ordinance, order or other source of law, now or hereafter in effect relating to the protection of human health or the environment including, but not limited to: the Federal Clean Air Act; the Federal Water Pollution Control Act; the Federal Safe Drinking Water Act; the Federal Comprehensive Environmental Response Compensation and Liability Act, as amended by the Superfund Amendments and Reauthorization Act of 1986; the Federal Resource Conservation and Recovery Act, as amended by the Solid and Hazardous Waste Amendments of 1984; the Federal Occupational Safety and Health Act; the Federal Emergency Planning and Right-to-Know Act of 1986; the Federal Hazardous Materials Transportation Control Act of 1980; the Federal Water Act of 1977; the Federal Insecticide, Fungicide and Rodenticide Act; the Federal Waste Management Recovery and Recycling Act; the Washington Hazardous Waste Management Act; the Washington Hazardous Waste

Fees Act; Washington Model Toxics Control Act; the Washington Nuclear Energy and Radiation Act; the Washington Radioactive Waste Storage and Transportation Act; the Washington Underground Petroleum Storage Tanks Act; and any regulations promulgated thereunder from time to time.

13. This Agreement and each of the terms, provisions, conditions and covenants herein shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.

-----Remainder of this page deliberately left blank-----

14. In the event Renton, or such other municipal corporation as may have become its successor with respect to the subject property, ceases to use said described area for roadway, Renton-owned utilities, storm drainage, and devices for traffic control purposes, as evidenced by abandonment, vacation or in another manner, the easement granted herein shall forthwith terminate.

IN WITNESS WHEREOF, the parties have caused this instrument to be executed.
