Office of Sustainability & Environment
Sandra Mallory, Interim Climate Director

City of Seattle

Trump Administration's Draft Proposed Oil and Gas Leasing Program* for 2019-2024 would open 90% of U.S. waters — including Washington's coast — to oil and gas drilling.

**Bureau of Ocean Energy Management, 2019-2024 National Outer Continental Shelf Oil and Gas Leasing Draft Proposed Program, January 2018*

A healthy Washington coastal environment provides economic, ecological and recreational benefits that would all be at risk.
