 12 percent of these funds may be used for expenditures incurred by the department to  
 13 administer the investments. The Council intends that this funding will be allocated as  
 14 follows:

21 ~~have been economically impacted by the COVID-19 crisis and for whom~~  
22 ~~such assistance will provide economic benefits to the public by saving or~~  
23 ~~creating jobs, moderating impacts to local tax revenue by supporting~~  
24 ~~continue operations of small businesses and ensuring that businesses can~~  
25 ~~modify operations as necessary to comply with public health guidance.~~  
26 ~~Criteria should include consideration of equitably distributing financial~~

30 F. Of the funding appropriated to the Office of Immigrant and Refugee Affairs' (BO-IA-  
31 X1N00) Budget Summary Level in the 2020 Adopted Budget, \$11.3 million shall be  
32 for (1) direct financial assistance to Seattle's low-income immigrant and refugee  
33 workers and households who have experienced the economic impacts caused by the  
34 COVID-19 crisis, and (2) to advise potential recipients of this temporary financial  
35 assistance to ensure it will not impact the recipients eligibility for, or result in loss of,  
36 any other income-tested benefits; and may be used for no other purpose. Furthermore,  
37 \$0.7 million shall be for programs and services that provide language access support  
38 for low-income people who need help accessing and understanding federal, state and  
39 local assistance programs and may be spent for no other purpose. Up to 7.3 percent of  
40 these funds may be used for expenditures incurred by the department to administer the  
41 investments. The Council intends the following:

- 42 1. Prior to the expenditure of any funds for direct financial assistance, the  
43 Executive will partner with CBOs who have a history of trust and success in  
44 reaching immigrant and refugee communities to provide such assistance,

1                   such as the organizations who worked with the City to distribute emergency  
2                   grocery vouchers.

3                   2. Assistance should include direct cash assistance, including pre-paid debit or  
4                   credit cards, or other services to assist with basic living expenses. The  
5                   maximum amount of financial assistance provided per individual will not  
6                   exceed \$1,000.

7                   3. CBOs will determine the eligibility, including criteria to confirm income  
8                   eligibility, prioritizing those who experience structural or institutional  
9                   barriers to accessing support from the government (e.g. language barriers,  
10                  risk of deportation), are ineligible for other federal or state emergency  
11                  assistance, or are receiving such assistance in a limited or delayed manner  
12                  that does not meet their needs, or those who have had or whose families have  
13                  had adverse health impacts from COVID. Requests for documentation of  
14                  eligibility should comply with Seattle Municipal Code Section 4.18.015,  
15                  should not impose an unnecessary burden on those applying for assistance,  
16                  and should not unnecessarily delay the approval and distribution process.

23                  Existing City programs include, but are not limited to: Fresh Bucks, Utility Discount

25                  Program, and the portion of the Seattle Preschool Program and the Pathway to Seattle

27                  to 1.3 percent of these funds may be used for expenditures incurred by the department  
28                  or the CBOs to administer the investments.

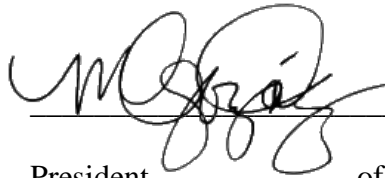

29                  The Council intends that vouchers will be made available for use at grocery stores  
30                  participating in the existing Emergency Grocery Voucher program and expanded to  
31                  include other community grocers and farmers markets. The Council intends that the  
32                  Executive will work with CBOs that currently enroll people in the Fresh Bucks  
33                  program to expand the use of vouchers by identifying culturally appropriate  
34                  neighborhood grocers to participate in the voucher program.

35  
36                  H. Of the funding appropriated to the Department of Finance and Administrative Services  
37                  (FAS) City Finance (BO-FA-CITYFINAN) Budget Summary Level in the 2020

40                  are collected and available to extend funding in 2021 for the COVID relief programs  
41                  and services described in this ordinance and to replenish the Emergency Fund and

1           Section 3. This ordinance authorizes spending \$57 million in 2020 to provide critical  
2 services and direct relief to low-income individuals, workers, and businesses impacted by the  
3 COVID-19 crisis. The Council acknowledges that the administration of this program will require  
4 new contracts and systems to distribute these critical services and direct relief to the community  
5 may take time and could result in not expending the full \$57 million in 2020. If the full amount is  
6 not expended in 2020, the Council is committed to working with the Executive to continue  
7 funding these critical COVID-19 relief programs in 2021 and to address newly identified 2020  
8 revenue shortfalls.

1 Section 4. This ordinance shall take effect and be in force 30 days after its approval by  
2 the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it
