

Battery Street Portal Improvements

Project No:	MC-TR-C116	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Battery St/1 st Ave
Current Project Stage:	n/a	Council District:	Council District 7
Start/End Date:	2022 - 2023	Neighborhood District:	Downtown
Total Project Cost:	\$500	Urban Village:	Downtown

The Battery Street Portal Improvements project provides for the design and construction of public space amenities at the former portal site of the now decommissioned Battery Street tunnel. Public space amenities may include, but are not limited to: a deck, benches and tables, lighting, waste receptacles, sidewalk improvements, and physical improvements to facilitate the hosting of food trucks on site. The intent of this project is to promote public use of the site until the long-term use of the site is determined. These improvements are not intended to preclude the potential development of a school or other public facility on the site in the future.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.
