# Han Beh, AIA, LEED AP

SENIOR DESIGNER, MG2

Han Beh has nearly 15 years of design experience in hospitality and commercial mixed-use projects around the world. Most recently, his work focuses on the Puget Sound region where he is instrumental in helping clients navigate opportunities related to the city's Housing and Livability Initiatives. Other notable local projects include Fifth and Stewart, which is slated to be one of the tallest mixed use buildings in Seattle and has required significant interfacing with the design review board. Passionate about the role that technology can play as a tool to improve the design process, Han begins each project with a blank slate, designing in 3D to create more complex forms that push the boundaries of design. Building a virtual model also allows him to better conceptualize each space to maximize each project's potential, providing optimal design solutions to the client.
