21 22	body WHEREAS the Council finds that street vacation decisions are regulated pursuant to Chapter
23	15.62 and not by the City's Land Use Code, Title 23; and
24	WHEREAS RCW 36.70B.140 authorizes the City to exempt street vacations from the
25	consolidated permit review process prescribed by Chapter 23.76; and
26	WHEREAS the Council wishes to ratify the existing regulatory structure for street vacation
27	decisions as a special circumstance authorized by RCW 36.70B.140; NOW
28	THEREFORE,
29	BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:
30	Section 1. Section 3.58.070 of the Seattle Municipal Code, enacted by Ordinance 96897,
31	is amended as follows:
32	3.58.070 Purpose of Commission((-,))

1	The Commission shall serve in an advisory capacity. Its function ((shall be))is to advise
2	and assist the City in the development and execution of capital improvement projects. Its role
3	((shall be))is that of recommending such aesthetic, environmental and design principles, and
4	policies that it considers appropriate and advantageous in guiding the development of such
5	projects. No City capital improvement project shall be designed, placed under contract for design
6	or constructed without first being referred to the Commission for its review and
7	recommendation. Minor interior remodeling projects and private structures shall not be reviewed
8	by the Commission unless such structures are specifically referred to the Commission by the
9	City. The Commission shall either make its recommendations on any matter submitted to it
10	within ((thirty ())30(())) days after submission or provide a statement within 30 days after
11	submission indicating the date by which it intends to make the recommendation((unless an
12	extension is authorized by the City). If it fails to do so, it shall be considered to have
13	recommended approval.
14	Section 2. Section 3.58.090 of the Seattle Municipal Code, last amended by Ordinance
15	123361, is amended as follows:
16	3.58.090 Fees and charges for Design Commission review((,))
17	A. The Commission is authorized to charge ((the following ))fees ((to applicants for
18	review of capital improvement projects other than City departments' capital improvement
19	projects))pursuant to Section 22.900D.170((+
20	1. When review is by the entire Commission, \$700 per hour;
21	2. When review is by a committee or subcommittee of the Commission, \$100 per
22	Commission member participating in the review per hour)).

1 B. The Commission in its discretion, with the concurrence of the City Budget Director, 2 may waive its fee under subsection 3.58.090.A((-of this section)), in whole or in part, in the 3 following circumstances: 4 1. Whenever Commission fees, if charged, would be disproportionate to the sums 5 available and could cause abandonment for the following types of projects: artworks, projects 6 funded by grants and donations, neighborhood self-help projects undertaken by volunteers and 7 nonprofit organizations, and for small capital improvements. 8 2. For Low-income and Special Needs Housing Projects Subject to Design 9 Commission Review. The Commission may require a deposit of its fee before reviewing a 10 project or giving its advice. 11 C. The Commission shall charge fees for its review of City departments' capital improvement projects as set forth in ((subsections A through D of ))Section 22.900D.170. 12 13 Section 3. Section 23.22.024 of the Seattle Municipal Code, last amended by Ordinance 14 124167, is amended as follows: 23.22.024 Distribution of preliminary plans((-,)) 15 16 If the Director determines that the subdivider has met all the application requirements for 17 the preliminary plat and that the preliminary plat contains sufficient elements and data to furnish 18 a basis for its approval or disapproval, the Director shall affix a file number and date of receipt to 19 the application and promptly forward three (((3))) copies of the plat and the subdivider's 20 preliminary plans for streets and other improvements to the Director of Transportation. The 21 Director shall also forward a copy of the preliminary plat to each of the following: 22 A. Director of Public Health;

	Bill Mills, Eric McConaghy DPD 2014 Omnibus ORD July 1, 2015 #D2
1	B. General Manager and Chief Executive Officer of City Light;
2	C. Director of Housing;
3	D. Superintendent of Parks and Recreation;
4	E. Director of Seattle Public Utilities;
5	F. Chief, Fire Department;
6	G. ((Metropolitan Services Department))King County Metro Transit Division;
7	H. Sound Transit;
8	I. King County Wastewater Treatment Division;
9	Who shall review the preliminary plat and, within ((thirty ())30(())) days, furnish the
10	Director with a report as to the effect of the proposed subdivision upon the public health, safety,
11	and general welfare, and containing their recommendations for approval or disapproval of the
12	preliminary plat. The reports of the Director of Transportation and the Director of Seattle Public
13	Utilities shall also include a recommendation as to the extent and type of improvements to be
14	provided in dedicated areas and a preliminary estimate of the cost of these improvements.
15	Section 4. Section 23.24.020 of the Seattle Municipal Code, last amended by Ordinance
16	124378, is amended as follows:
17	23.24.020 Content of application
18	Applications for approval of a short subdivision shall include the following:
19	A. A plat of the proposed short subdivision containing standard survey data;
20	((B. A vicinity map on which shall be indicated the property to be subdivided;))
21	$((\mathbf{C}))\underline{\mathbf{B}}$ . A plot plan, as appropriate, showing the location and dimensions of existing
22	buildings in relation to the proposed short subdivision;

((Đ))<u>C</u>. Legal descriptions of the property to be subdivided and of all proposed lots or
 divisions;
 ((E))D. Name and address of owner(s) of the tract;

4 ((F))<u>E</u>. Location of existing roadways, sidewalks and/or pedestrian walkways, sanitary
5 sewer, storm drain and watermains, if any, together with proposed street improvements; and
6 ((G))<u>F</u>. Specific location and description of all trees at least 6 inches in diameter
7 measured 4.5 feet above the ground, with complete scientific and common names of species
8 indicated.

9 Section 5. Section 23.28.030 of the Seattle Municipal Code, last amended by Ordinance
10 124378, is amended as follows:

## 11 **23.28.030** Criteria for approval

12

13

A. The Director shall approve an application for a lot boundary adjustment if it is determined that:

14 1. No additional lot, tract, parcel, site, or division is created by the proposed
15 adjustment;

2. No lot contains insufficient area and dimensions to meet the minimum
 requirements for development as calculated under the development standards of the zone in
 which the lots affected are situated, except as provided in Section 23.44.010, and under any
 applicable regulations for siting development on parcels with riparian corridors, shoreline
 habitat, shoreline habitat buffers, wetlands, wetland buffers, or steep slopes in Chapter 25.09.
 Adjusted lots shall continue to be regarded as existing lots for purposes of Chapter 25.09. Any
 required nondisturbance area shall be legibly shown and described on the site plan, and a

	#D2
1	covenant shall be required as set out in Section 25.09.335;
2	3. Every proposed adjusted lot shall conform to the following standards for lot
3	configuration, unless a modification is authorized under subsection 23.28.030.A.4:
4	a. If an adjusted lot is proposed with street frontage, then one lot line shall
5	abut the street for at least 10 feet; and
6	b. No adjusted lot shall be less than 10 feet wide for a distance of more
7	than 10 feet as measured at any point; and
8	c. No adjusted lot shall have more than six separate lot lines. The lot lines
9	shall be straight lines unless the irregularly shaped lot line is caused by an existing right-of-way
10	or existing lot line; and
11	d. If $a((\mathbf{n}))$ lot to be adjusted ((lot is adjacent to))abuts upon an alley, and
12	((the adjacent))that alley is either improved or required to be improved according to the
13	standards of Section 23.53.030, then no adjusted lot shall be proposed that does not provide alley
14	access, except that access from a street to an existing use or structure is not required to be
15	changed to alley access. Either the proposed adjusted lots shall have sufficient frontage on the
16	alley to meet access standards for the zone in which the property is located or ((provide-))an
17	access easement from the adjusted lot or lots shall be provided to the alley that meets access
18	standards for the zone in which the property is located.

20	Section 6. Section 23.34.009 of the Seattle Municipal Code, last amended by Ordinance
21	121476, is amended as follows:
22	23.34.009 Height limits of the proposed rezone((-,))

	#D2
1	((Where))If a decision to designate height limits in commercial or industrial zones is
2	independent of the designation of a specific zone, in addition to the general rezone criteria of
3	Section 23.34.008, the following shall apply:
4	A. Function of the $((\mathbf{Z}))\underline{z}$ one. Height limits shall be consistent with the type and scale of
5	development intended for each zone classification. The demand for permitted goods and services
6	and the potential for displacement of preferred uses shall be considered.
7	B. Topography of the $((A))$ <u>a</u> rea and its $((S))$ <u>s</u> urroundings. Height limits shall reinforce
8	the natural topography of the area and its surroundings, and the likelihood of view blockage shall
9	be considered.
10	C. Height and $((S))$ <u>s</u> cale of the $((A))$ <u>a</u> rea $((\cdot))$
11	1. The height limits established by current zoning in the area shall be given
12	consideration.
13	2. In general, permitted height limits shall be compatible with the predominant
14	height and scale of existing development, particularly where existing ((development))development
15	is a good measure of the area's overall development potential.
16	D. Compatibility with $((S))$ <u>s</u> urrounding $((A))$ <u>a</u> rea $((-))$
17	1. Height limits for an area shall be compatible with actual and zoned heights in
18	surrounding areas excluding buildings developed under Major Institution height limits; height
19	limits permitted by the underlying zone, rather than heights permitted by the Major Institution
20	designation, shall be used for the rezone analysis.

1	2. A gradual transition in height and scale and level of activity between zones
2	shall be provided unless major physical buffers, as described in $((S))$ <u>s</u> ubsection
3	23.34.008 <u>.((</u> <b>Đ</b> )) <u>E.</u> 2, are present.
4	E. Neighborhood $((P))\underline{p}lans((-))$
5	1. Particular attention shall be given to height recommendations in business
6	district plans or neighborhood plans adopted by the City Council subsequent to the adoption of
7	the 1985 Land Use Map.
8	2. Neighborhood plans adopted or amended by the City Council after January 1,
9	1995, may require height limits different than those that would otherwise be established pursuant
10	to the provisions of this ((s))Section 23.34.009 and Section 23.34.008.
11	Section 7. Section 23.40.050 of the Seattle Municipal Code, enacted by Ordinance
12	123566 and that currently reads as follows, is repealed:
13	((23.40.050 Pilot program for vacant and underused lots
14	A. Purpose. The purpose of the Vacant and Underused Lot Pilot Program is to provide
15	for the location of uses on vacant and underused lots that encourage pedestrian activity and to
16	allow parking on an interim basis on lots that incorporate uses that encourage pedestrian activity.
17	The Director shall determine qualifying uses and appropriate standards, and shall report to the
18	City Council at the close of the pilot program whether the pilot program should be made
19	effective for a longer time period, or provisions for active use of vacant and underused lots
20	should be made permanent additions to the Land Use Code.
21	B. Program qualification.

1	1. Eligible projects. Uses of vacant and underused lots that meet the standards of
2	Section 23.42.038 qualify for the Vacant and Underused Lot Pilot Program.
3	2. Enrollment. Enrollment in the Vacant and Underused Lot Pilot Program is
4	required prior to filing an application for a use permit pursuant to Section 23.42.038. The
5	enrollment period is limited to two years from the effective date of this ordinance or when 20
6	projects have successfully qualified, whichever comes first.
7	3. Application requirements. In order to qualify for the Vacant and Underused
8	Lot Pilot Program, applicants must submit an application for a Type I Master Use Permit
9	demonstrating compliance with Section 23.42.038 as determined by the Director.
10	4. Qualification process. A project is eligible for the Vacant and Underused Lot
11	Pilot Program upon determination by the Director that a complete project application has been
12	submitted pursuant to Section 23.76.010 and is in compliance with the application requirements
13	in Section 23.40.050.B.3.))
14	Section 8. Section 23.40.060 of the Seattle Municipal Code, last amended by Ordinance
15	124535, is amended as follows:

5	A. Accessory dwelling units, general provisions. The Director may authorize an		
6	accessory dwelling unit, and that dwelling unit may be used as a residence, only under the		
7	following conditions:		
8	1. A lot with or proposed for a single-family dwelling may have no more than		
9	one accessory dwelling unit.		
10	2. The owner(s) of the lot shall comply with the owner occupancy requirements		
11	of subsection 23.44.041.C.		
12	3. Any number of related persons may occupy each unit in a single-family		
13	dwelling unit with an accessory dwelling unit; provided that, if unrelated persons occupy either		
14	unit, the total number of persons occupying both units may not altogether exceed eight.		
15	4. All accessory dwelling units are required to meet the development standards in		
16	Table A for 23.44.041, unless modified in subsection 23.44.041.B:

### Development ((s))<u>S</u>tandards for ((a))<u>A</u>ll ((a))<u>A</u>ccessory ((d))<u>D</u>welling ((u))<u>U</u>nits

Footnotes to Table A for 23.44.041:

<sup>1</sup> The gross floor area of an attached accessory dwelling unit may exceed 1,000 square feet only if the portion of the structure in which the accessory dwelling unit is located was in existence as of June 1, 1999, and if the entire accessory dwelling unit is located on one level, except that a garage for the accessory dwelling unit may be located on a different level.

<sup>2</sup> More than one entrance may be allowed if: a) two entrances on the street-facing facade existed on January 1, 1993; or b) the Director determines that topography, screening, or another design solution is effective in de-emphasizing the presence of a second entrance.

2 5. Except on lots located within areas that are defined as either an urban center or 3 urban village in the City's Comprehensive Plan, one off-street parking space is required for the 4 accessory dwelling unit and may be provided as tandem parking with the parking space provided 5 for the principal dwelling unit. An existing required parking space may not be eliminated to 6 accommodate an accessory dwelling unit unless it is replaced elsewhere on the lot. Except for 7 lots located in either Map A for 23.54.015, University District Parking Overlay Area or Map B 8 for 23.54.015, Alki Area Parking Overlay Area, the Director may waive the off-street parking 9 space requirement for an accessory dwelling unit if: 10 a. The topography or location of existing principal or accessory structures 11 on the lot makes provision of an off-street parking space physically infeasible; or

b. The lot is located in a restricted parking zone (RPZ) and a current
parking study is submitted showing a utilization rate of less than 75 percent for on-street parking
within 400 feet of all property lines of the site.

B. Accessory dwelling units, detached, additional provisions. A detached accessory
dwelling unit is also known as a backyard cottage. The Director may authorize a detached
accessory dwelling unit, and that unit may be used as a residence, only under the conditions set

forth in subsection 23.44.041.A and the following additional conditions:

3 3. Conversion of accessory structures. An existing accessory structure that is not 4 located in a required front yard, or that is located in a front yard where Section 23.40.030 or 5 23.40.035 applies, may be converted into a detached accessory dwelling unit if the structure 6 complies with the minimum standards set forth in Sections 22.206.010 through 22.206.140 of the 7 Housing and Building Maintenance Code and with the Seattle Residential Code, if work 8 requiring a permit is performed on the structure or has previously been performed without a 9 permit. The Director may allow an exception to one or more of the development standards for 10 accessory dwelling units contained in subsection 23.44.041.A.4 and standards a through f, h, i, 11 and j listed in Table B for 23.44.041, provided the conversion does not increase the structure's 12 nonconformity with the standard and the applicant can demonstrate that the accessory structure 13 was constructed prior to June 1, 1999, as an accessory structure. If an accessory structure 14 constructed prior to June 1, 1999, was replaced to the same configuration in accordance with the 15 standards of Section 23.42.112, then the replacement structure also qualifies for conversion 16 under this subsection 23.44.041.B.3. For purposes of this subsection 23.44.041.B.3, the term "conversion" means either keeping the accessory structure intact or removing and rebuilding the 17 18 accessory structure, provided that any expansion or relocation of the accessory structure 19 complies with the development standards for detached accessory dwelling units. \* \* \* 20 21 Section 17. The standards referred to in this 5 subsection 23.45.510.C.1.a are those identified in Section 23.45.526, and Section 23.45.526 shall 6 apply as if the application were for new development gaining extra residential floor area. 7 8 applicable to the site if new buildings and additions to existing buildings meet green building 9 performance standards. Existing buildings built prior to January 1, 2013 are not required to be 10 upgraded to current green building performance standards for the higher FAR to apply to the 11 site.))If a site contains existing structures that were developed under the Land Use Code in place 12 prior to April 19, 2011, the existing structures and any additions to those structures are not 13 required to be upgraded to current green building performance standards for the higher FAR 14 limits to apply to those structures. Any entirely new structure proposed to be built on the lot shall 15 meet current green building performance standards to gain the higher FAR limit. If a structure is 16 developed under the Land Use Code in place as of or after April 19, 2011, and was not built to 17 the higher FAR, then in order for the structure or addition to gain the higher FAR, the structure 18 shall be updated to current green building performance standards. 19 20 21 22

3	124378, is amended as follows:	
4	23.45.529 Design standards	
5	A. Intent. The intent of the design standards in this Section 23.45.529 is to:	
6	1. Enhance street-facing facades to provide visual interest, promote new	
7	development that contributes to an attractive streetscape, and avoid the appearance of blank walls	
8	along a street;	
9	2. Foster a sense of community by integrating new pedestrian-oriented	
10	multifamily development with the neighborhood street environment and promoting designs that	
11	allow easy surveillance of the street by area residents;	
12	3. Promote livability in multifamily areas by providing a sense of openness and	
13	access to light and air; and	
14	4. Encourage the compatibility of a variety of housing types with the scale and	
15	character of neighborhoods where new multifamily development occurs.	
16	B. Application of provisions. The provisions of this Section 23.45.529 apply to all	
17	residential uses that do not undergo any type of design review pursuant to Chapter 23.41, except	
18	single-family dwelling units.	
19	C. Treatment of street-facing facades. For the purposes of this subsection 23.45.529.C, a	
20	street-facing facade includes all vertical surfaces enclosing interior space, including gables and	
21	dormers, as shown in Exhibit A for 23.45.529.	
		1

#### Exhibit A for 23.45.529

#### Measurement of ((s))Street-facing ((f))Facades

1	1. Facade openings
2	a. At least 20 percent of the area of each street-facing facade shall consist
3	of windows and/or doors, except as provided in subsection 23.45.529.C.1.b. If a front and side
4	facade are street-facing, the two facades may be ((averaged to meet the 20 percent standard of
5	this subsection 23.45.529.C.1))combined for the purpose of this calculation.
6	b. For any rowhouse or townhouse dwelling unit that has a both a front
7	and a side facade that are street-facing, the percentage of the side street-facing facade required to
8	consist of windows and/or doors is reduced to 10 percent for the portion of the facade associated
9	with that dwelling unit. This reduction to 10 percent is not allowed if the facades are combined
10	for the purpose of this standard pursuant to subsection 23.45.529.C.1.a or if any of the exceptions
11	in subsection 23.45.529.C.3 are applied.
12	<u>c.</u> ((Only transparent w)) W indows count toward the requirement for
13	facade openings in this subsection 23.45.529.C.1 only if they are transparent. Windows
14	composed of glass blocks or opaque glass, garage doors, and doors to utility and service areas,
15	do not count.
16	2. Facade articulation
17	a. If a street-facing facade or portion of a street-facing facade is not
18	vertical, the Director shall determine whether the facade is substantially vertical and required to
19	comply with this subsection 23.45.529.C.
20	b. If the street-facing facade of a structure exceeds 750 square feet in area,
21	division of the facade into separate facade planes is required (see Exhibit B for 23.45.529).

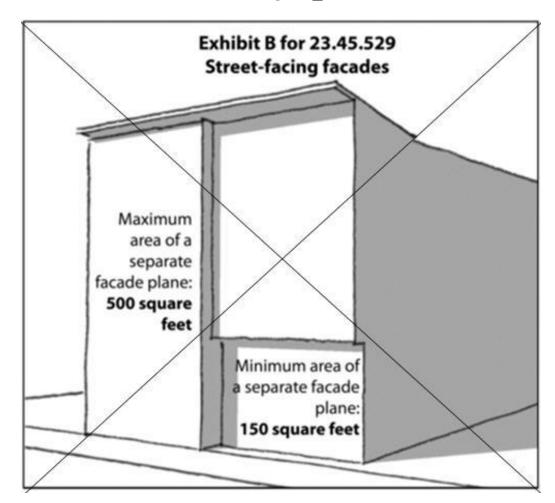

c. In order to be considered a separate facade plane for the purposes of this subsection 23.45.529.C.2, a portion of the street-facing facade shall have a minimum area of 150 square feet and a maximum area of 500 square feet, and shall project or be recessed from abutting facade planes by a minimum depth of 18 inches.

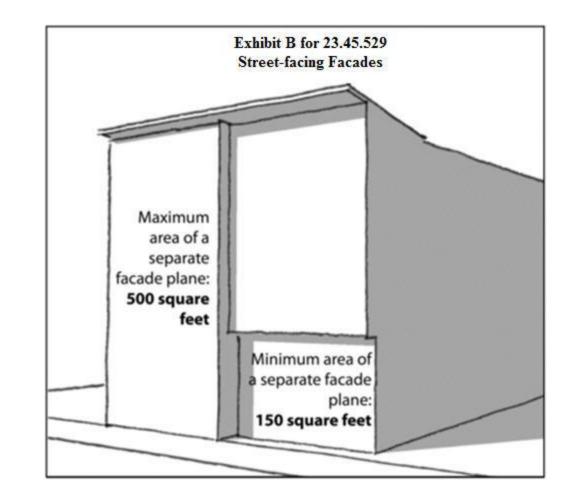

d. Trim that is a minimum of 0.75 inches deep and 3.5 inches wide is

required to mark roof lines, porches, windows, and doors on all street-facing facades.

13	A. All ground-floor commercial uses permitted pursuant to Section 23.45.504, except
14	medical service uses permitted pursuant to Section 23.45.506, shall meet the following
15	conditions:
16	1. Structures with ground floor commercial uses in zones that include an RC
17	designation shall comply with Chapter 23.46.
18	2. The commercial use is permitted only on the ground floor of a structure that
19	contains at least one dwelling unit. On sloping lots, the commercial use may be located at more
20	than one level within the structure as long as the floor area in commercial use does not exceed
21	the area of the structure's footprint.

1	((2))3. The maximum size of use of any one business establishment is 4,000

C. Assisted living facilities

9 1. ((In addition to the requirements of subsection 23.49.010.B, a))<u>A</u>ssisted living
10 facilities are subject to the development standards of the zone where they are located, except that
11 common recreation area requirements do not apply to assisted living facilities.

2. Other requirements

a. Minimum unit size. Assisted living units shall be designed to meet the
minimum square footage required by WAC 388-110-140.

b. Facility kitchen. An on-site kitchen that serves the entire assisted living
facility is required.

c. Communal area. Communal areas that are either interior or exterior
spaces, such as solariums, decks and porches, recreation rooms, dining rooms, living rooms,
foyers and lobbies, and gardens or other outdoor landscaped areas shall be provided as follows:
1) The total amount of communal area shall equal at least 20
percent of the total floor area in assisted living units. In calculating the total floor area in assisted

living units, all of the area of each unit, excluding the bathroom, shall be counted, including
 counters, closets and built-ins;

3 2) Service areas, including, but not limited to, the facility kitchen,
4 laundry, hallways and corridors, supply closets, operations and maintenance areas, staff areas
5 and offices, and rooms used only for counseling or medical services, shall not be counted as
6 required communal area; ((and))

3) A minimum of 400 square feet of the required communal area
shall be provided as an outdoor area with a minimum dimension of 10 feet. Outdoor areas
provided as required communal area shall be accessible to people with disabilities((-)); and

10 4) Adequate seating for residents and guests shall be provided for11 required communal area.

Section 39. Section 23.49.012 of the Seattle Municipal Code, last amended by Ordinance
124388, is amended as follows:

14 **23.49.012** Bonus floor area for voluntary agreements for housing and child care((,))

A. General ((P))provisions

1. The purpose of this ((s))Section 23.49.012 is to encourage development in
 addition to that authorized by basic zoning regulations ("bonus development"), provided that
 certain adverse impacts from the bonus development are mitigated. Two impacts from additional
 development are an increased need for low-income housing to house the families of downtown
 workers having lower-paid jobs and an increased need for child care for downtown workers.

2. If an applicant elects to seek approval of bonus development pursuant to this
((s))Section 23.49.012, the applicant must execute a voluntary agreement with the City in which

1 the applicant agrees to provide mitigation for the impacts identified in subsection 23.49.012.A.1. 2 In the absence of a signed voluntary agreement, acceptance of a permit for any bonus 3 development allowed under this ((s))Section 23.49.012 shall constitute a voluntary agreement on 4 the terms set forth in this ((s))Section 23.49.012. The mitigation may be provided by building the 5 requisite low-income housing or child care facilities (the "performance option"), by making a contribution to be used by the City to build or provide the housing and child care facilities (the 6 7 "payment option"), or by a combination of the performance and payment options. 8 3. For purposes of this Section 23.49.012, a housing unit serves low-income 9 households only if either: 10 a) For a period of 50 years beginning upon the issuance of a final 11 certificate of occupancy by the Department for the project using the bonus development, the 12 housing unit is used as rental housing solely for low-income households, at rent limited so that 13 annual housing costs, including rent and basic utilities, do not exceed 30 percent of 80 percent of 14 median income, and the housing unit and the structure in which it is located are maintained in 15 decent and habitable condition, including adequate basic appliances in the housing unit; or 16 b) The unit is sold for owner-occupancy to a low-income household at an 17 initial sale price limited so that the annual housing costs, including mortgage principal and 18 interest, real estate taxes, and insurance plus homeowner dues if applicable, are not expected to 19 exceed 35 percent of 80 percent of median income, according to a calculation based on 20 reasonable assumptions and approved by the Director of Housing, and the unit is subject to a 21 recorded instrument satisfactory to the Director of Housing with a term of 50 years beginning 22 upon the issuance of a final certificate of occupancy by the Department for the project using the

bonus development, providing for sales prices on any resale consistent with affordability on the 1 2 same basis as the initial sale, allowing resales only to low-income households, and requiring that 3 upon any resale the housing unit be in decent and habitable condition, including adequate basic 4 appliances, for such 50 year period. 5 B. Voluntary ((A)) agreements for ((H)) housing and ((C)) child ((C)) care. The voluntary

6 agreement shall commit the developer to provide or contribute to the following facilities in the 7 following amounts:

8

1. Housing(( $\frac{1}{2}$ ))

9 a. Housing serving low-income households equal to at least 15.6 percent 10 of each gross square foot of bonus floor area obtained through the performance option must be 11 provided. A cash contribution for each gross square foot of bonus floor area obtained through the 12 payment option, as an alternative to the performance option, for housing to serve low-income 13 households must be provided. The alternative cash contribution is \$18.75 per gross square foot of 14 bonus floor area obtained through the payment option, subject to adjustment under this 15 ((S))subsection 23.49.012.B.1.a. From the effective date of the ordinance introduced as Council 16 Bill 117908 to June 30, 2014, the alternative cash contribution is \$22.88 per gross square foot of 17 bonus floor area obtained through the payment option. From July 1, 2014 to June 30, 2015, the 18 alternative cash contribution is \$24.95 per gross square foot of bonus floor area obtained through 19 the payment option plus the product of \$24.95 times the 2013 annual average change in the 20 Consumer Price Index, All Urban Consumers, Seattle-Tacoma metropolitan area, All Items 21 (1982-84 = 100), as determined by the U.S. Department of Labor, Bureau of Labor Statistics, or 22 successor index. On July 1, 2015, and on the same day annually thereafter the alternative cash

	#D2
1	contribution amount in this subsection 23.49.012.B.1.a shall automatically adjust in proportion to
2	the change in the Consumer Price Index, All Urban Consumers, Seattle-Tacoma metropolitan
3	area, All Items (1982-84 = 100), as determined by the U.S. Department of Labor, Bureau of
4	Labor Statistics, or successor index, from January 1, 2014, or the time the alternative cash
5	contribution was last adjusted, whichever is later.
6	b. For the performance option, housing serving low-income households
7	must be provided within the project using the bonus development unless the Director, after
8	consultation with the Director of Housing, approves an alternate location, as a Type I decision. In
9	determining whether to approve an alternate location, the Director shall consider the extent to
10	which low-income housing at that location would mitigate the impact of the development on the
11	need for low-income housing serving downtown workers. The alternate location must be in one
12	of the following areas, prioritized in the following order:
13	1) within the Downtown Urban Center;
14	2) within an Urban Center adjacent to the Downtown Urban
15	Center;
16	3) in the City within 0.5 mile of a light rail or bus rapid transit
17	station on a route serving the Downtown Urban Center;
18	4) in the City within 0.25 mile of a bus or streetcar stop on a route
19	serving the Downtown Urban Center.
20	In determining whether to approve an alternate location, the Director shall consider the
21	extent to which low-income housing at that location would mitigate the impact of the

1	development on the need for low-income housing serving downtown workers. For purposes of
2	this subsection 23.49.012.B.1, a housing unit serves low income households only if either:
3	1) For a period of 50 years beginning upon the issuance of a final
4	certificate of occupancy by the Department for the project using the bonus development, the
5	housing unit is used as rental housing solely for low-income households, at rent limited so that
6	annual housing costs, including rent and basic utilities, do not exceed 30 percent of 80 percent of
7	median income, and the housing unit and the structure in which it is located are maintained in
8	decent and habitable condition, including adequate basic appliances in the housing unit; or
9	2) The unit is sold for owner occupancy to a low-income
10	household at an initial sale price limited so that the annual housing costs, including mortgage
11	principal and interest, real estate taxes, and insurance plus homeowner dues if applicable, are not
12	expected to exceed 35 percent of 80 percent of median income, according to a calculation based
13	on reasonable assumptions and approved by the Director of Housing, and the unit is subject to a
14	recorded instrument satisfactory to the Director of Housing with a term of 50 years beginning
15	upon the issuance of a final certificate of occupancy by the Department for the project using the
16	bonus development, providing for sales prices on any resale consistent with affordability on the
17	same basis as the initial sale, allowing resales only to low-income households, and requiring that
18	upon any resale the housing unit be in decent and habitable condition, including adequate basic

If housing is developed in advance of a linkage agreement, payments by the applicant used to retire or reduce interim financing may be considered necessary and adequate support for the development of the housing.

d. Housing that is not yet constructed, or is not ready for occupancy, at
the time of the issuance of a building permit for the project intending to use bonus floor area,
may be considered to be provided by the applicant if, within three years of the issuance of the

#D2 1 first building permit for that project, the Department issues a final certificate of occupancy for 2 such housing. Any applicant seeking to qualify for bonus floor area based on housing that is not 3 ready for occupancy shall provide to the City, prior to the date when a contribution would be due 4 for the cash option under subsection 23.49.012.C, an irrevocable bank letter of credit or other 5 sufficient security approved by the Director of Housing, and a related voluntary agreement, so 6 that at the end of the three year period, if the housing does not qualify or is not provided in a 7 sufficient amount to satisfy the terms of this ((s))Section 23.49.012, the City shall receive: 8 (((i))) a cash contribution for housing in the amount determined 9 pursuant to this ((s))Section 23.49.012 after credit for any qualifying housing then provided;((s))10 plus 11 (((ii))2) an amount equal to interest on the contribution, at the rate 12 equal to the prime rate quoted from time to time by Bank of America, or its successor, plus three 13 percent per annum, from the date of issuance of the first building permit for the project using the 14 bonus. 15 If and when the City becomes entitled to realize on any security, the 16 Director of Housing shall take appropriate steps to do so, and the amounts realized, net of any 17 costs to the City, shall be used in the same manner as cash contributions for housing made under 18 this ((s))Section 23.49.012. In the case of any project proposing to use bonus floor area for which 19 no building permit is required, references to the building permit in ((this-))subsection 20 23.49.012.B.1 shall mean the  $((\underline{m}))Master ((\underline{u}))Use ((\underline{p}))Permit allowing establishment or$ 21 expansion of the use for which bonus floor area is sought.

1	e. Nothing in this ((e)) <u>C</u> hapter <u>23.49</u> shall be construed to confer on any

8	not grant any vested rights, nor guarantee that any bonus floor area will be permitted based on

If housing is provided for owner occupancy pursuant to an agreement under subsection 23.49.012.B.1, the owner of any project using the bonus floor area shall be in violation of this ((t))<u>T</u>itle <u>23</u> if the first sale or other transfer of a housing unit after it becomes subject to that agreement is not made to a low-income household or is not made on the terms and subject to the recorded instrument provided in subsection 23.49.012.B.1.b.2, which shall be a continuing violation until that unit or another unit accepted by the Director of Housing in substitution for it is sold to a low-income household on those terms, and subject to a recorded instrument as described in that subsection <u>23.49.012.B.1.b.2</u>.

i. Housing units provided to qualify for a bonus, or produced with
voluntary contributions made under this ((s))Section 23.49.012, should include a range of unit
sizes, including units suitable for families with children. The Director of Housing is authorized to
prescribe by rule minimum requirements for the range of unit sizes, by numbers of bedrooms, in
housing provided to qualify for a bonus. The Director of Housing shall take into account, in any
such rule, estimated distributions of household sizes among low-income households. The
Director of Housing is further authorized to adopt policies for distribution of unit sizes in
housing developments funded by contributions received under this ((s))Section 23.49.012.

1	j. Any failure of the low-income housing to satisfy the requirements of
2	subsection 23.49.012.B.1 shall not affect the right to maintain or occupy the bonus floor area if
3	the Director of Housing certifies to the Director that either:
4	1) The applicant has provided the City with a letter of credit or
5	other sufficient security pursuant to subsection 23.49.012.B.1.d; or

10	different lot from the bonus floor area or is in one or more condominium units separate from the
11	bonus development under condominium documents acceptable to the Director of Housing.
12	k. Unless and until the Director of Housing certifies as set forth in
13	subsection 23.49.012.B.1.j, it shall be a continuing permit condition, whether or not expressly
14	stated, for each development obtaining bonus floor area based on the provision of low-income
15	housing to which this Section 23.49.012 applies, that the low-income housing shall be

D. The Director shall allow combined lot development only to the extent that the Director determines, in a Type ((I)) II land use decision, that permitting more chargeable floor area than would otherwise be allowed on a lot shall result in a significant public benefit. In addition to features for which floor area bonuses are granted, the Director may also consider the following as public benefits that could satisfy this condition when provided for as a result of the lot combination:

1. preservation of a landmark structure located on the block or adjacent blocks;

2. uses serving the downtown residential community, such as a grocery store, at appropriate locations;

16 3. public facilities serving the Downtown population, including schools, parks, 17 community centers, human service facilities, and clinics;

12	123649, is amended as follows:
13	23.53.015 Improvement requirements for existing streets in residential and commercial
14	zones
15	A. General requirements((-))
16	1. If new lots are proposed to be created, or if any type of development is
17	proposed in residential or commercial zones, existing streets abutting the lot(s) are required to be
18	improved in accordance with this Section 23.53.015 and Section 23.53.006, Pedestrian access
19	and circulation. A setback from the lot line, or dedication of right-of-way, may be required to
20	accommodate the improvements. One or more of the following types of improvements may be
21	required under this Section 23.53.015:
22	a. Pavement;

	Bill Mills, Eric McConaghy DPD 2014 Omnibus ORD July 1, 2015 #D2
1	b. Curb installation;
2	c. Drainage;
3	d. Grading to future right-of-way grade;
4	e. Design of structures to accommodate future right-of-way grade;
5	f. No-protest agreements; and
6	g. Planting of street trees and other landscaping.
7	2. Subsection 23.53.015.D contains exceptions from the standard requirements
8	for street improvements, including exceptions for streets that already have curbs, projects that are
9	smaller than a certain size, and for special circumstances, such as location in an environmentally
10	critical area or buffer.
11	* * *
12	D. Exceptions((-))
13	1. Streets with existing curbs((-))
14	a. Streets with right-of-way greater than or equal to the minimum right-
15	of-way width. If a street with existing curbs abuts a lot and the existing right-of-way is greater
16	than or equal to the minimum width established in subsection 23.53.015.A.6, but the roadway
17	width is less than the minimum established in the Right-of-Way Improvements Manual, the
18	following requirements shall be met:
19	1) All structures on the lot shall be designed and built to
20	accommodate the grade of the future street improvements.

4

5

2) A no-protest agreement to future street improvements is
 required, as authorized by ((<del>RCW-C</del>))<u>c</u>hapter 35.43<u>RCW</u>. The agreement shall be recorded with
 the King County Recorder.

3) Pedestrian access and circulation is required as specified in Section 23.53.006.

6 b. Streets with less than the minimum right-of-way width. If a street with 7 existing curbs abuts a lot and the existing right-of-way is less than the minimum width 8 established in subsection 23.53.015.A.6, the following requirements shall be met: 9 1) Setback  $((\mathbf{R}))$  requirement. A setback equal to half the 10 difference between the current right-of-way width and the minimum right-of-way width 11 established in subsection 23.53.015.A.6 is required; provided, however, that if a setback has been 12 provided under this provision, other lots on the block shall provide the same setback. In all 13 residential zones except Highrise zones, an additional 3 foot setback is also required. The area of 14 the setback may be used to meet any development standard, except that required parking may not 15 be located in the setback. Underground structures that would not prevent the future widening and 16 improvement of the right-of-way may be permitted in the required setback by the Director after 17 consulting with the Director of Transportation. Encroachments into this setback shall not be 18 considered structural building overhangs, but the encroachment is limited to the standards set 19 forth in Section 23.53.035. 20 2) Grading requirement. If a setback is required, all structures on

the lot shall be designed and built to accommodate the grade of the future street, as specified inthe Right-of-Way Improvements Manual.

Bill Mills, Eric McConaghy DPD 2014 Omnibus ORD July 1, 2015 #D2 1 3) No-protest agreement requirement. A no-protest agreement to 2 future street improvements is required, as authorized by ((RCW-C))chapter 35.43 RCW. The 3 agreement shall be recorded with the King County Recorder. 4 4) Pedestrian access and circulation is required as specified in 5 Section 23.53.006. \* \* \* 6 7 Section 48. Section 23.54.015 of the Seattle Municipal Code, last amended by Ordinance 8 124608, is amended as follows: 9 23.54.015 Required parking \* \* \* 10 11 K. Bicycle parking. The minimum number of off-street parking spaces for bicycles 12 required for specified uses is set forth in Table E for 23.54.015. In the case of a use not shown on 13 Table E for 23.54.015, there is no minimum bicycle parking requirement. The minimum 14 requirements are based upon gross floor area of the use in a structure, or the square footage of 15 the use when located outside of an enclosed structure, or as otherwise specified. 16 1. After the first  $\left(\frac{\text{fifty}}{(1)}\right)$  spaces for bicycles are provided, additional 17 spaces are required at ((one half ()) 1/2(())) the ratio shown in Table E for 23.54.015, except for 18 rail transit facilities; passenger terminals; and park and ride lots. Spaces within dwelling units or 19 on balconies do not count toward the bicycle parking requirement. 20 2. Required bicycle parking shall be provided in a safe, accessible and convenient 21 location. Bicycle parking hardware shall be installed so that it can perform to its manufacturer's 22 specifications and any design criteria promulgated by the Director of Transportation, allowing

adequate clearance for bicycles and their riders. Directional signage shall be installed when bike 1 2 parking facilities are not clearly visible from the street or sidewalk. ((When))If any covered 3 automobile parking is provided, all required long-term bicycle parking shall be covered. 4 ((When))If located off-street, bicycle and automobile parking areas ((must))shall be separated by 5 a barrier or painted lines. 6 3. Long-term parking for bicycles shall be for bicycles parked four (((4))) hours 7 or more. Short-term parking for bicycles shall be for bicycles parked less than four (((4))) hours. 8 4. Bicycle parking required for residential uses ((must))shall be located on-site. 9 5. Bicycle parking required for small efficiency dwelling units and congregate 10 residence sleeping rooms is required to be covered for weather protection. If the required, 11 covered bicycle parking is located inside the building that contains small efficiency dwelling 12 units or congregate residence sleeping rooms, the space required to provide the required bicycle parking shall be exempt from Floor Area Ration (FAR) limits. Covered bicycle parking that is 13 14 provided beyond the required bicycle parking shall not be exempt from FAR limits. 15 6. Bicycle parking facilities shared by more than one use are encouraged. 16 7. Bicycle parking facilities required for non-residential uses shall be located on 17 the lot or in a shared bicycle parking facility within ((one hundred ())100(())) feet of the lot, 18 except as provided in subsection ((7))23.54.015.K.8((below)). 19 8. Bicycle parking may be located in a facility within ((one hundred ())100(()))20 feet of the lot that is not a shared bicycle parking facility, or ((the applicant may make a payment 21 to the City to fund ))public bicycle parking may be provided in the right-of-way, subject to 22 approval by the Director of Transportation, in lieu of providing required on-site bicycle parking,

1 if the Director determines that: 2 a. Safe, accessible, and convenient bicycle parking accessory to a non-3 residential use cannot be provided on-site or in a shared bicycle parking facility within ((one-4 hundred ())100(())) feet of the lot, without extraordinary physical or financial difficulty; 5 b. The ((payment is comparable to the cost of providing the))bicycle 6 parking in the right-of-way is equivalent to bicycle parking that would otherwise be required on-7 site, and takes into consideration the cost of materials, equipment and labor for installation; 8 c. The bicycle parking ((funded by the payment))in the right-of-way is 9 located within sufficient proximity to serve the bicycle parking demand generated by the project; 10 and 11 d. 13	3. "Small vehicle" means the minimum size of a small vehicle parking space
14	shall be 7.5 feet in width and 15 feet in length.
15	4. "Barrier-free parking" means a parking space meeting the following standards:
16	a. Parking spaces shall not be less than 8 feet in width and shall have an
17	adjacent access aisle not less than 5 feet in width. Van-accessible parking spaces shall have an
18	adjacent access aisle not less than 8 feet in width. Where two adjacent spaces are provided, the
19	access aisle may be shared between the two spaces. Boundaries of access aisles shall be marked
20	so that aisles will not be used as parking space.
21	b. A minimum length of 19 feet or when more than one barrier-free
22	parking space is provided, at least one shall have a minimum length of 19 feet, and other spaces

1 may be the lengths of small, medium, or large spaces in approximate proportion to the number of
2 each size space provided on the lot.

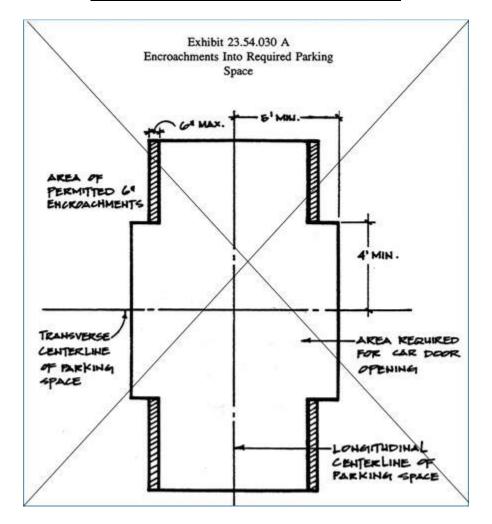

5. "Tandem parking" means a parking space equal to the width and 2 times the
length of the vehicle size standards in subsections 23.54.030.A.1, <u>23.54.030.</u>A.2, and
<u>23.54.030.</u>A.3 for the size of the vehicle to be accommodated.
6. Columns or other structural elements may encroach into the parking space a
maximum of 6 inches on a side, except in the area for car door opening, 5 feet from the

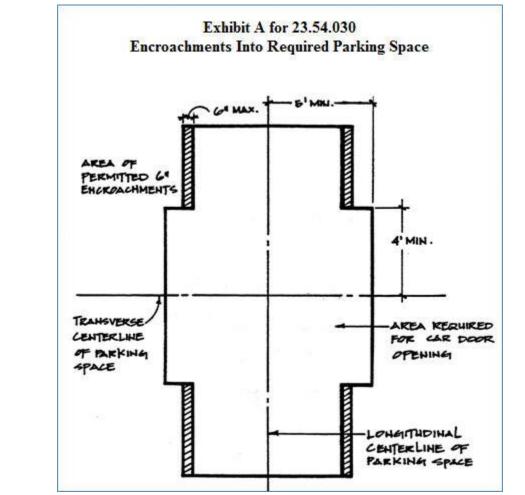

8 longitudinal centerline or 4 feet from the transverse centerline of a parking space (see Exhibit A

9 for 23.54.030). No wall, post, guardrail, or other obstruction, or lot line, is permitted within the
10 area for car door opening.

Section 23.76.032 of the Seattle Municipal Code, last amended by Ordinance 124378, is amended as follows: 23.76.032 Expiration and renewal of Type I and II Master Use Permits A. Type I and Type II Master Use Permit expiration 1. An issued Type I or II Master Use Permit expires three years from the date a permit is approved for issuance as described in Section 23.76.028, except as follows: a. A Master Use Permit with a shoreline component expires pursuant to WAC 173-27-090. 22 b. A variance component of a Master Use Permit expires as follows:

1	1) Variances for access, yards, setback, open space, or lot area
2	minimums granted as part of a short plat or lot boundary adjustment run with the land in
3	perpetuity as recorded with the King County Recorder.
4	2) Variances granted as separate Master Use Permits pursuant to
5	subsection 23.76.004.G expire three years from the date the permit is approved for issuance as
6	described in Section 23.76.028 or on the effective date of any text amendment making more
7	stringent the development standard from which the variance was granted, whichever is sooner. If
8	a Master Use Permit to establish the use is issued prior to the earlier of the dates specified in the
9	preceding sentence, the variance expires on the expiration date of the Master Use Permit.
10	c. The time during which pending litigation related to the Master Use
11	Permit or the property subject to the permit made it reasonable not to submit an application for a
12	building permit, or to establish a use if a building permit is not required, is not included in
13	determining the expiration date of the Master Use Permit.
14	d. Master Use Permits with a Major Phased Development or Planned
15	Community Development component under Sections 23.47A.007, 23.49.036, or 23.50.015
16	expire as follows:
17	1) For the first phase, the expiration date shall be three years from
18	the date the permit is approved for issuance;
19	2) For subsequent phases, the expiration date shall be determined
20	at the time of permit issuance for each phase, and the date shall be stated in the permit.

1	e. Permits for uses allowed under Section 23.42.038, and temporary,
2	interim, or intermittent use permits issued pursuant to Section 23.42.040, expire on the date

4	f. Except as otherwise provided in this subsection 23.76.032.A.1.f, Master
5	Use Permits for development pursuant to Sections 23.49.180 and 23.49.181 expire on the date set
6	by the Director in the Master Use Permit decision, which date may be a maximum of 15 years
7	from the date the Master Use Permit is approved for issuance. The Director shall consider the
8	complexity of the project, economic conditions of the area in which the project is located, and
9	the construction schedule proposed by the applicant in setting the expiration date. If no
10	expiration date is set in the Master Use Permit decision, the expiration date is three years from
11	the date a permit is approved for issuance.
12	1) In order for the Director to set the Master Use Permit expiration
13	date, the applicant shall:
14	a) Submit with the application a site plan showing a level
15	of detail sufficient to assess anticipated impacts of the completed project; and
16	b) Submit a proposed schedule for complying with the
17	conditions necessary to gain the amount of extra floor area and the extra height sought for the
18	project.
19	2) The expiration date of the Master Use Permit may be extended
20	past the expiration date set in the Master Use Permit decision or the date established in this
21	subsection 23.76.032.A.1.f if:

1 a) On the expiration date stated in the Master Use Permit 2 decision, a building permit for the entire development has been issued, in which case the Master 3 Use Permit is extended for the life of the building permit if the Master Use Permit would 4 otherwise expire earlier, or 5 b) A complete application for a building permit that either 6 is for the entire development proposed pursuant to Section 23.49.180, or is for construction to 7 complete the entire development proposed pursuant to Section 23.49.180 is: 8 i((-)) submitted before the expiration date of the 9 Master Use Permit; and 10 ii(())). made sufficiently complete to constitute a fully complete building permit application as defined in the Seattle Building Code<sup>2</sup>, or for a 11 12 highrise structure regulated under Section 403 of the Seattle Building Code, made to include the 13 complete structural frame of the building and schematic plans for the exterior shell of the 14 building, in either case before the expiration date of the Master Use Permit, in which case the 15 Master Use Permit is extended for the life of the building permit issued pursuant to the 16 application if the Master Use Permit would otherwise expire earlier. 17 ((g. 11	Section 65. Section 23.86.006 of the Seattle Municipal Code, last amended by Ordinance
12	124172, is amended as follows:
13	23.86.006 Structure height measurement
14	A. In all zones except downtown zones, and except for the Living Building Pilot
15	Program authorized by Section 23.40.060, unless otherwise specified, the height of structures
16	shall be measured according to this subsection 23.86.006.A.
17	1. General rule. Except as otherwise specified, the height of a structure is the
18	difference between the elevation of the highest point of the structure not excepted from
19	applicable height limits and the average grade level. In this subsection 23.86.006.A, "average
20	grade level" means the average of the elevation of existing lot grades. Except as provided in
21	subsection 23.86.006.A.2, average grade level is calculated, at the discretion of the applicant, as
22	follows:

a. at the midpoint, measured horizontally, of each exterior wall of the
 structure, or

b. at the midpoint of each side of the smallest rectangle that can be drawn
to enclose the structure.

5 2. Option for calculating average grade level to measure height. The calculation 6 of structure height in subsection 23.86.006.A.1 may be modified, at the discretion of the 7 applicant, as follows to permit the structure to respond to the topography of the lot: 8 a. Draw the smallest rectangle that encloses the principal structure. 9 b. Divide one side of the rectangle, chosen by the applicant, into sections 10 at least 15 feet in length using lines that are perpendicular to the chosen side of the rectangle. 11 c. The sections delineated in subsection 23.86.006.A.2.b are considered to 12 extend vertically from the ground to the sky. 13 d. The maximum height for each section of the structure is measured from 14 the average grade level for that section of the structure, which is calculated as the average 15 elevation of existing lot grades at the midpoints of the two opposing exterior sides of the

16 rectangle for each section of the structure.

B. Within the South Lake Union Urban Center, at the applicant's option, structure height
shall be measured either as provided for in subsection 23.86.006.A, 23.86.006.E, or under
provisions of this subsection 23.86.006.B. Structure height shall be measured for all portions of
the structure. All measurements shall be taken vertically from existing or finished grade,
whichever is lower, to the highest point of the structure located directly above each point of
measurement. Existing or finished grade shall be established by drawing straight lines between

the corresponding elevations at the perimeter of the structure. The straight lines will be existing 1 2 or finished grade for the purpose of height measurement. When a contour line crosses a 3 ((façade))facade more than once, that contour line will be disregarded when establishing existing 4 or finished grade. 5 C. Height averaging for single-family zones. In a single-family zone, when expanding an 6 existing structure occupied by a nonconforming residential use per Section 23.42.106, the 7 following measurement shall be used to determine the average height of the closest principal 8 structures on either side: 9 1. Each structure used for averaging shall be on the same block front as the lot for 10 which a height limit is being established. The structures used shall be the nearest single-family 11 structure on each side of the lot, and shall be within 100 feet of the side lot lines of the lot. 12 2. The height limit for the lot shall be established by averaging the elevations of 13 the structures on either side in the following manner: 14 a. If the nearest structure on either side has a roof with at least a 4:12 15 pitch, the elevation to be used for averaging shall be the highest point of that structure's roof 16 minus 5 feet. 17 b. If the nearest structure on either side has a flat roof, or a roof with a 18 pitch of less than 4:12, the elevation of the highest point of the structure's roof shall be used for 19 averaging. 20 c. Rooftop features which are otherwise exempt from height limitations 21 according to subsection 23.44.012.C, shall not be included in elevation calculations.

1	d. The two elevations obtained from subsection 23.86.006.B.2.a and/or
2	subsection 23.86.006.B.2.b shall be averaged to derive the height limit for the lot. This height
3	limit shall be the difference in elevation between the midpoint of a line parallel to the front lot
4	line at the required front setback and the average elevation derived from subsection
5	23.86.006.B.2.a and/or subsection 23.86.006.B.2.b.
6	e. The height measurement technique used for the lot shall then be the
7	City's standard measurement technique, subsection 23.86.006.A.
8	3. If there is no single-family structure within 100 feet of a side lot line, or if the
9	nearest single-family structure within 100 feet of a side lot line is not on the same block front,
10	the elevation used for averaging on that side shall be 30 feet plus the elevation of the midpoint of
11	the front lot line of the abutting vacant lot.
12	4. If the lot is a corner lot, the height limit may be the highest elevation of the
13	nearest structure on the same block front, provided that the structure is within 100 feet of the side
14	lot line of the lot and that both front yards face the same street.
15	5. In no case shall the height limit established according to these height averaging
16	provisions be greater than 40 feet.
17	6. Lots using height averaging to establish a height limit shall be eligible for the
18	pitched roof provisions of subsection 23.44.012.B.
19	(({}))D. ((Reserved})Stories or portions of stories of a structure that are underground are
20	not analyzed for purposes of structure height measurement.
21	* * *

G. Height measurement technique for structures located partially within the Shoreline
District. When any portion of the structure falls within the Shoreline District, structure height for
the entire structure shall be measured according to Section 23.60((A)).952, Height.

### 23.86.010 Yards

C. Rear  $((\mathcal{Y}))$ <u>v</u>ards. Rear yard requirements are presented in the standard development requirements for each zone. In determining how to apply these requirements, the following provisions shall apply:

The rear yard shall be measured horizontally from the rear lot line ((when))<u>if</u>
 the lot has a rear lot line ((which))<u>that</u> is essentially parallel to the front lot line for its entire
 length.

2. ((When))<u>If</u> the front lot line is essentially parallel to portions of the rear
property line, as with a stepped rear property line, each portion of the rear property line
((which))<u>that</u> is opposite and essentially parallel to the front lot line ((shall be))<u>is</u> considered to
be a rear lot line for the purpose of establishing a rear yard.

3. On a lot with a rear property line, part of which is not essentially parallel to
any part of the front lot line, the rear yard ((shall be))is measured from a line or lines drawn from
side lot line(s) to side lot line(s), at least ((ten ())10(())) feet in length, parallel to and at a
maximum distance from the front lot line. ((Where))If an alley abuts the rear of the property,
((one half ())1/2(())) the width of the alley, between the side lot lines extended, ((shall be))is

#D2 considered to be part of the lot for drawing this line. For those portions of the rear lot line 1 2 ((which))that are essentially parallel to the front lot line, subsection 23.86.010.C.2 above shall 3 apply. The lot depth is then measured perpendicularly from this 10 foot long line extended as 4 needed to the point on the actual front lot line that is the furthest distance away. This establishes 5 lot depth, which then may be used to determine the required rear yard depth. 6 4. For a lot with a curved front lot line, the rear yard ((shall be)) is measured from 7 a line at least ((ten - (t))10((t))) feet in length, parallel to and at a maximum distance from a line 8 drawn between the endpoints of the curve. The lot depth is then measured perpendicularly from 9 this ((ten ())10(())) foot long line extended as needed to the point on the actual front lot line 10 ((which))that is the furthest distance away. This establishes lot depth, which then may be used to 11 determine the required rear yard depth. 12 5. For a lot with an irregular shape or with an irregular front lot line not meeting 13 conditions of <u>subsections 23.86.010.C.1</u> through 23.86.010.C.4((-above)), the Director shall 14 determine the measurement of the rear yard. \* \* \* 15 16 Section 67. Section 23.86.012 of the Seattle Municipal Code, last amended by Ordinance 17 123495, is amended as follows: 18 23.86.012 Multifamily zone setback measurement

A. Setback ((A))<u>a</u>veraging. In multifamily zones, certain required setbacks may be
averaged. In such cases the following provisions apply:

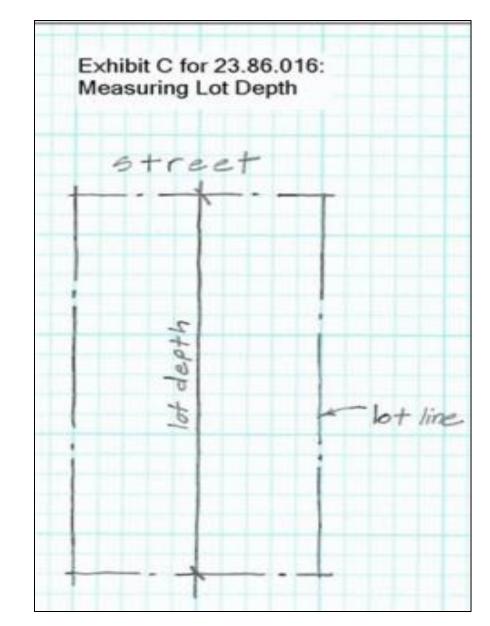

21 ((a))<u>1</u>. The average front and rear setbacks are calculated based on the entire
22 width of the structure;

1	((b))2. The average side setbacks are calculated based on the entire depth of the
2	structure;
3	((e)) <u>3</u> . Setbacks are measured horizontally from the lot line to the facade of the
4	structure((, at the point that the structure meets the ground)). The facade(s) used in calculating
5	the average and minimum setback requirements shall be those facades that are nearest to that lot
6	line except that any features allowed to project into the setback are excluded.

11	* * *
12	D. Determining lot depth. ((In certain zones,))If development standards are based on lot
13	depth,((-which is))lot depth is determined as follows:
14	1. If the lot is essentially rectangular and has a rear lot line within 15 degrees of
15	parallel to the front lot line, the lot depth is the horizontal distance between the midpoints of the
16	front and rear lot lines (Exhibit C for 23.86.016).
17	2. If the lot is triangular or wedge-shaped, lot depth shall be the horizontal
18	distance between the midpoint of the front lot line and the rear point of the lot. If the lot does not
19	actually come to a point, lot depth is measured from midpoint of the front lot line to the midpoint
20	of the rear lot line (( <del>(Exhibit C for 23.86.016)</del> )).
21	3. In the case of a through lot, lot depth is measured between the midpoint of
22	each front lot line.

4. When lot shape is so irregular that subsections 23.86.016.D.1, <u>23.86.016.D.2</u> or <u>23.86.016.D.3</u> cannot be used, lot depth is the distance equal to the result of lot area divided by length of front lot line, provided that in no case is the depth permitted to be greater than the distance from front lot line to the furthest point on the perimeter of the lot (((Exhibit D for <u>23.86.016)</u>)).

1	Section 77. Section 25.05.960 of the Seattle Municipal Code, last amended by Ordinance
2	119096, is amended as follows:
3	Subchapter XI Forms
4	25.05.960 Environmental checklist((-))
5	City departments shall use an environmental checklist substantially in the form set forth
6	<u>in WAC 197-11-960.</u>
7	((ENVIRONMENTAL CHECKLIST
8	
9	Purpose of Checklist:
10	
11	The State Environmental Policy Act(SEPA), Chapter 43.21C RCW, requires all governmental
12	agencies to consider the environmental impacts of a proposal before making decisions. An
13	environmental impact statement (EIS) must be prepared for all proposals with probable
14	significant adverse impacts on the quality of the environment. The purpose of this checklist is to
15	provide information to help you and the agency identify impacts from your proposal (and to
16	reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide
17	whether an EIS is required.
18	
19	Instructions for Applicants:
20	
21	This environmental checklist asks you to describe some basic information about your proposal.
22	Governmental agencies use this checklist to determine whether the environmental impacts of

	#D2
1	your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with
2	the most precise information known, or give the best description you can.
3	
4	You must answer each question accurately and carefully, to the best of your knowledge. In most
5	cases, you should be able to answer the questions from your own observations or project plans
6	without the need to hire experts. If you really do not know the answer, or if a question does not
7	apply to your proposal, write "do not know" or "does not apply." Complete answers to the
8	questions now may avoid unnecessary delays later.
9	
10	Some questions ask about government regulations, such as zoning, shoreline, and landmark
11	designations. Answer these questions if you can. If you have problems, the governmental
12	agencies can assist you.
13	
14	The checklist questions apply to all parts of your proposal, even if you plan to do them over a
15	period of time or on different parcels of land. Attach any additional information that will help
16	describe your proposal or its environmental effects. The agency to which you submit this
17	checklist may ask you to explain your answers or provide additional information reasonably
18	related to determining if there may be significant adverse impact.
19	
20	Use of Checklist for Nonproject Proposals:
21	

	Bill Mills, Eric McConaghy DPD 2014 Omnibus ORD July 1, 2015 #D2
1	Complete this checklist for nonproject proposals, even though questions may be answered "does
2	not apply." In addition, complete the SUPPLEMENTAL SHEET FOR NONPROJECT
3	ACTIONS (part D).
4	
5	For nonproject actions, the references in the checklist to the words "project," "applicant," and
6	"property or site" should be read as "proposal," "proposer," and "affected geographic area,"
7	respectively.
8	A. BACKGROUND
9	1. Name of proposed project, if applicable:
10	
11	2. Name of applicant:
12	3. Address and phone number of applicant and contact person:
13	
14	4. Date checklist prepared:
15	5. Agency requesting checklist:
16	6. Proposed timing or schedule (include phasing if applicable):
17	
18	7. Do you have any plans for future additions, expansions, or further activities related to or
19	connected with this proposal? If yes, explain.

1	
2	8. List any environmental information you know about that has been prepared, or will be
3	prepared, directly related to this proposal.
4	
5	9. Do you know whether applications are pending for governmental approvals of other proposals
6	directly affecting the property covered by your proposal? If yes, explain.
7	
8	10. List any governmental approvals or permits that will be needed for your proposal, if known.
9	
10	11. Give brief, complete description of your proposal, including the proposed uses and the size
11	of the project and site. There are several questions later in this checklist that ask you to describe
12	certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead
13	agencies may modify this form to include additional specific information on project description.)
14	
15	12. Location of the Proposal. Give sufficient information for a person to understand the precise
16	location of your proposed project, including a street address, if any, and section, township, and
17	range, if known. If a proposal would occur over a range of area, provide the range or boundaries
18	of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if
19	reasonably available. While you should submit any plans required by the agency, you are not
20	required to duplicate maps or detailed plans submitted with any permit applications related to
21	this checklist.

5	1. Earth	
6	a. General description of the site: (circle one) Flat, rolling, hilly, steep	slopes, mountainous,
7	other	
8	b. What is the steepest slope on the site (approximate percent slope)?	
9		
10	c. What general types of soils are found on the site (for example, clay	, sand, gravel, peat,
11	muck)? If you know the classification of agricultural soils, specify the	m and note any prime
12	farmland.	
13		
14	d. Are there surface indications or history of unstable soils in the imm	ediate vicinity?
15	If so, describe.	
16		
17	e. Describe the purpose, type, and approximate quantities of any fillin	g or grading proposed.
18	Indicate source of fill.	
19		
20	f. Could erosion occur as a result of clearing, construction, or use? If	so, generally describe.
21		
22	g. About what percent of the site will be covered with impervious sur	faces after project

1	construction (for example, asphalt or buildings)?
2	
3	h. Proposed measures to reduce or control erosion, other impacts to the earth, if any:
4	
5	<del>2. Air</del>
6	a. What types of emissions to the air would result from the proposal (i.e., dust, automobile,
7	odors, industrial wood smoke) during construction and when the project is completed? If any,
8	generally describe and give approximate quantities if known.
9	
10	b. Are there any off-site sources of emissions or odor that may affect your proposal? If so,
11	generally describe.
12	
13	c. Proposed measures to reduce or control emissions or other impacts to air, if any:
14	
15	3. Water
16	
17	a. Surface:
18	
19	(1) Is there any surface water body on or in the immediate vicinity of the site (including
20	year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type
21	and provide names. If appropriate, state what stream or river it flows into.
22	

	#D2
1	(2) Will the project require any work over, in, or adjacent to (within two hundred (200)
2	feet) the described waters? If yes, please describe and attach available plans.
3	
4	(3) Estimate the amount of fill and dredge material that would be placed in or removed
5	from surface water or wetlands and indicate the area of the site that would be affected.
6	Indicate the source of fill material.
7	
8	(4) Will the proposal require surface water withdrawals or diversions? Give general
9	description, purpose, and approximate quantities if known.
10	
11	(5) Does the proposal lie within a one hundred (100) year floodplain? If so, note location
12	on the site plan.
13	
14	6) Does the proposal involve any discharges of waste materials to surface waters? If so,
15	describe the type of waste and anticipated volume of discharge.
16	
17	b. Ground:
18	
19	(1) Will ground water be withdrawn, or will water be discharged to ground water? Give
20	general description, purpose, and approximate quantities if known.
21	
22	(2) Describe waste material that will be discharged into the ground from septic tanks or

	#D2
1	other sources, if any (for example: domestic sewage; industrial, containing the following
2	chemicals; agricultural; etc.). Describe the general size of the system, the number of
3	such systems, the number of houses to be served (if applicable), or the number of animals
4	or humans the system(s) are expected to serve.
5	
6	c. Water Runoff (including storm water):
7	
8	(1) Describe the source of runoff (including storm water) and method of collection and
9	disposal, if any (include quantities, if known). Where will this water flow? Will this
10	water flow into other waters? If so, describe.
11	
12	(2) Could waste materials enter ground or surface waters? If so, generally describe.
13	
14	d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:
15	
16	4. Plants
17	
18	a. Check or circle types of vegetation found on the site:

4	<u>— water plants; water lily, eelgrass, milfoil, other</u>
5	<u>— other types of vegetation</u>
6	b. What kind and amount of vegetation will be removed or altered?
7	
8	c. List threatened or endangered species known to be on or near the site.
9	
10	d. Proposed landscaping, use of native plants, or other measures to preserve or enhance
11	vegetation on the site, if any:
12	
13	5. Animals
14	
15	a. Circle any birds and animals which have been observed on or near the site or are known to be
16	on or near the site:
17	
18	birds: hawk, heron, eagle, songbirds, other:
19	mammals: deer, bear, elk, beaver, other:
20	fish: bass, salmon, trout, herring, shellfish, other:
21	b. List any threatened or endangerd species known to be on or near the site.
22	

	Bill Mills, Eric McConaghy DPD 2014 Omnibus ORD July 1, 2015 #D2
1	c. Is the site part of a migration route? If so, explain.
2	
3	d. Proposed measures to preserve or enhance wildlife, if any:
4	
5	6. Energy and Natural Resources
6	
7	a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the
8	completed project's energy needs? Describe whether it will be used for heating, manufacturing,
9	<del>etc.</del>
10	
11	b. Would your project affect the potential use of solar energy by adjacent properties? If so,
12	generally describe.
13	
14	c. What kinds of energy conservation features are included in the plans of this proposal? List
15	other proposed measures to reduce or control energy impacts, if any:
16	
17	7. Environmental Health
18	
19	a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of
20	fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so,
21	<del>describe.</del>
22	

	Bill Mills, Eric McConaghy DPD 2014 Omnibus ORD July 1, 2015 #D2
1	(1) Describe special emergency services that might be required.
2	
3	(2) Proposed measures to reduce or control environmental health hazards, if any:
4	
5	b. Noise:
6	
7	(1) What types of noise exist in the area which may affect your project (for example:
8	traffic, equipment, operation, other)?
9	
10	(2) What types and levels of noise would be created by or associated with the project on
11	a short-term or a long-term basis (for example: traffic, construction, operation, other)?
12	Indicate what hours noise would come from the site.
13	
14	(3) Proposed measures to reduce or control noise impacts, if any:
15	
16	8. Land Shoreline Use
17	
18	a. What is the current use of the site and adjacent properties?
19	
20	b. Has the site been used for agriculture? If so, describe.
21	
22	c. Describe any structures on the site.

	Bill Mills, Eric McConaghy DPD 2014 Omnibus ORD July 1, 2015 #D2
1	
2	d. Will any structures be demolished? If so, what?
3	
4	e. What is the current zoning classification of the site?
5	
6	f. What is the current comprehensive plan designation of the site?
7	
8	g. If applicable, what is the current shoreline master program designation of the site?
9	
10	h. Has any part of the site been classified as an "environmentally critical" area? If so, specify.
11	
12	i. Approximately how many people would reside or work in the completed project?
13	
14	j. Approximately how many people would the completed project displace?
15	
16	k. Proposed measures to avoid or reduce displacement impacts, if any:
17	
18	1. Proposed measures to ensure the proposal is compatible with existing and projected land uses
19	and plans, if any:
20	
21	9. Housing
22	

	Bill Mills, Eric McConaghy DPD 2014 Omnibus ORD July 1, 2015 #D2

2	low-income housing.
3	
4	b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle,
5	or low-income housing.
6	
7	c. Proposed measures to reduce or control housing impacts, if any:
8	
9	10. Aesthetics
10	
11	a. What is the tallest height of any proposed structure(s), not including antennas; what is the
12	principal exterior building material(s) proposed?
13	
14	b. What views in the immediate vicinity would be altered or obstructed?
15	
16	c. Proposed measures to reduce or control aesthetic impacts, if any:
17	
18	11. Light and Glare
19	
20	a. What type of light or glare will the proposal produce? What time of day would it mainly
21	occur?
22	

	Bill Mills, Eric McConaghy DPD 2014 Omnibus ORD July 1, 2015 #D2
1	b. Could light or glare from the finished project be a safety hazard or interfere with views?
2	
3	c. What existing off-site sources of light or glare may affect your proposal?
4	
5	d. Proposed measures to reduce or control light and glare impacts, if any:
6	
7	12. Recreation
8	
9	a. What designated and informal recreational opportunities are in the immediate vicinity?
10	
11	b. Would the proposed project displace any existing recreational uses? If so, describe.
12	
13	c. Proposed measures to reduce or control impacts on recreation, including recreation
14	opportunities to be provided by the project or applicant, if any:
15	
16	13. Historic and Cultural Preservation
17	
18	<b>a</b> . Are there any places or objects listed on, or proposed for, national, state, or local preservation
19	registers known to be on or next to the site? If so, generally describe.

4	14. Transportation
5	
6	a. Identify public streets and highways serving the site, and describe proposed access to the
7	existing street system. Show on site plans, if any.
8	
9	b. Is site currently served by public transit? If not, what is the approximate distance to the
10	nearest transit stop?
11	
12	c. How many parking spaces would the completed project have? How many would the project
13	eliminate?
14	
15	d. Will the proposal require any new roads or streets, or improvements to existing roads or
16	streets, not including driveways? If so, generally describe (indicate whether public or private).
17	
18	e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If
19	so, generally describe.
20	
21	f. How many vehicular trips per day would be generated by the completed project? If known,
22	indicate when peak volumes would occur.

	Bill Mills, Eric McConaghy DPD 2014 Omnibus ORD July 1, 2015 #D2
1	
2	g. Proposed measures to reduce or control transportation impacts, if any:
3	
4	15. Public Services
5	
6	a. Would the project result in an increased need for public services (for example: fire protection,
7	police protection, health care, schools, other)? If so, generally describe.
8	
9	b. Proposed measures to reduce or control direct impacts on public services, if any.
10	
11	16. Utilities
12	
13	a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service,
14	telephone sanitary sewer, septic system, other.
15	
16	b. Describe the utilities that are proposed for the project, the utility providing the service, and
17	the general construction activities on the site or in the immediate vicinity which might be needed.

Section 81. Section 25.08.590 of the Seattle Municipal Code, last amended by Ordinance 122923, is amended as follows:

3 **25.08.590** Granting of variance

A. No variance shall be granted until the Administrator has considered the relative
interests of the applicant, other owners or possessors of property likely to be affected by the
noise, and the general public.

B. A technical, economic, or major public project construction variance may be granted
only after notice and an opportunity for public comment. For technical or economic variances
proposed for more than two weeks and for major public project construction variances, a public
meeting is also required, in accordance with rules adopted by the Administrator.

C. The Administrator may grant a variance if the Administrator finds that:

12 1. The noise occurring or proposed to occur does not endanger public health or
 13 safety; and

14 2. The applicant demonstrates that the criteria required for the variance are met;15 and

3. For temporary variances, if the scale and duration of the requested relief is
more appropriate for a temporary variance than a technical, economic, or major public project
construction variance.

D. Noise Management and Mitigation Plan. As part of the application for a variance, an
applicant ((must))shall submit a Noise Management and Mitigation Plan to be approved by the
Administrator. A Noise Management and Mitigation Plan ((must))shall contain the following
components, except that the Administrator may modify the required components for a temporary

1 noise variance as the Administrator determines appropriate to fit the circumstances surrounding the requested temporary variance: 2 3 1. A description of the exterior sound level limits of ((the c))Chapter 25.08 4 expected to be exceeded, estimates of the amount(s) by which these levels are expected to be 5 exceeded and by what equipment, the exterior sound level limits that will be in effect during the 6 variance, the time periods during which the pre-variance exterior sound level limits may be 7 exceeded, and the expected sources of the sound during each of the time periods (e.g., types of 8 equipment or activity causing the exterior sound level limits to be exceeded); 9 2. Measures and provisions to be taken to avoid exceeding the exterior sound

10 level limits of this ((e))<u>Chapter 25.08;</u>

11 3. Provisions to mitigate sounds that exceed the exterior sound level limits and12 that cannot otherwise be avoided.

4. A process for informing the public in the affected areas about the provisions ofthe variance.

## E. Variance conditions

<u>1.</u> The Administrator may impose conditions, including but not limited to
 conditions relating to types of equipment, hours of use, and duration, to mitigate the adverse
 impacts of granting the variance. The Administrator may also include conditions proposed by the
 applicant as part of the variance application. Compliance with the Noise Management and
 Mitigation Plan approved by the Administrator is a condition of every variance.

21 <u>2. Failure to comply with the conditions of a noise variance or with any permit</u>
 22 conditions relating to noise may be subject to issuance of a citation under Section 25.08.900 and

	#D2		
1	to the penalties of Section 25.08.960, at the discretion of the Administrator, for a single		
2	incidence of non-compliance. This remedy is an alternative to, but not in lieu of, the procedures		
3	in Sections 25.08.720 and 25.08.730. The procedures of Sections 25.08.720 and 25.08.730 shall		
4	apply to continuing failure to comply.		
5	F. A temporary variance shall be effective on the effective date stated on the variance		
6	form. Any other variance shall be effective 30 days following the mailing of the decision		
7	granting the variance, unless it is appealed to the Hearing Examiner, in which case the effective		
8	date is the date of the Hearing Examiner's written decision on the appeal.

Be unreasonable in light of public or worker safety or cause the applicant to</li> </ul>		

2. Render the project economically or functionally unreasonable due to factors such as the financial cost of compliance or the impact of complying for the duration of the construction or reconstruction of the major public project.

B. A major public project construction variance shall set forth the period or periods during which the variance is effective, which period or periods shall be the minimum reasonably necessary in light of the standard set forth in subsection 25.08.655.A, and the exterior sound level limits that will be in effect during the period of the variance. Different major public project construction variances may be issued for distinct phases of a construction project, or one major public project construction variance may be issued for the entire major public project. The period or periods during which a major public project construction variance is effective may be stated in terms of calendar dates or in terms of the duration of a construction project or a phase or phases of a construction project.

C. The Administrator shall condition a major public project construction variance as necessary to provide reasonable control or mitigation of the construction noise that may be expected to occur pursuant to the variance.

D. One-year review and decision((-))

1. No later than one year after the start of construction to which a major public project construction variance applies, the Administrator shall review((, and provide opportunity for public comment on,)) the operation of the variance during the first year, including the provisions of the Noise Management and Mitigation Plan, and the conditions of the variance. For purposes of determining the date of the start of the project's construction work, site exploration work is excluded.

2. ((After considering the public comments received, t))<u>T</u>he Administrator may modify the terms and conditions of the variance or the Noise Management and Mitigation
((<del>p</del>))<u>P</u>lan as needed, or revoke the variance, if the Administrator determines that the current variance, the conditions of the variance, or the Noise Management and Mitigation Plan are not adequately protecting the public health and safety or reasonably controlling or mitigating the construction noise, or that there are more reasonable methods of doing so.

3. The Administrator shall make a decision whether to modify <u>or revoke</u> a variance pursuant to this review within one year and 90 days after the start of construction work as provided in subsection 25.08.655.D.1.

4. Appeal. Any person aggrieved by the decision of the Administrator whether to modify a variance pursuant to this subsection 25.08.655.D may appeal such decision by filing an appeal in writing with the Hearing Examiner by 5 p.m. of the tenth day following the date of the issuance of the decision. When the last day of the appeal period is a Saturday, Sunday, or federal or City holiday, the appeal may be filed until 5 p.m. on the next business day. The Hearing Examiner appeal shall be conducted pursuant to ((s))Section 25.08.610.

5. Effective date. The decision of the Administrator whether to modify a variance
pursuant to this subsection 25.08.655.D is effective 30 days following the decision unless it is
appealed to the Hearing Examiner. If the Administrator's decision is appealed to the Hearing
Examiner, the Administrator's decision does not take effect and the original terms and conditions
of the variance remain in effect until the effective date of the Hearing Examiner decision. The
Hearing Examiner decision is a final decision of the City for purposes of ((RCW))chapter
36.70C RCW, and is effective 30 days from the date of the decision, unless otherwise ordered by

a court. If a court stays the effective date of the decision, the original unmodified variance shall
 remain in effect during the stay.

Section 83. The Wallingford Design Guidelines, enacted by Ordinance 124389, are
