WHEREAS, allowing taxicab, transportation network company, and for-hire vehicle drivers (“for-hire drivers”) to modify specific agreements collectively with the entities that hire, direct, arrange, or manage their work will better ensure that they can perform their services in a safe, reliable, stable, cost-effective, and economically viable manner and thereby promote the welfare of the people; and

WHEREAS, The new responsibilities for the Department of Finance and Administrative Services (FAS) contemplated in this legislation will require additional resources; and

WHEREAS, The Director of FAS has authority to adjust fees to cover the cost of the regulatory functions FAS performs on behalf of the public; and

WHEREAS, Should this legislation go into effect the Director will exercise that authority to raise additional revenue through fees to cover the additional costs;

1 NOW, THEREFORE,

2 **BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

3 ~~Section 1. Findings~~

4 ~~A. Driving taxis, for hire, and transportation network company (TNC) endorsed vehicles~~
5 ~~can be a viable path to steady, reliable, and regular work for historically disadvantaged~~
6 ~~communities, including new immigrants to the United States.~~

7 ~~B. For hire drivers can be at the mercy of sudden changes in their working conditions~~
8 ~~imposed by taxi, for hire vehicle, and TNCs that contract with them. These changes can severely~~
9 ~~impact the ability of a for hire driver to work in a safe, reliable, cost effective, and economically~~
10 ~~viable manner. Such changes could include, but are not limited to: a reduction in fares, changes~~
11 ~~in the company's commissions charged to the driver, and deactivation from dispatch services.~~

12 ~~C. There is currently no mechanism for for hire drivers to address the issues in subsection~~
13 ~~1.B of this ordinance with their employer directly, without fear of retaliation.~~

14 ~~D. Business models wherein companies control aspects of their drivers' work, but rely on~~
15 ~~the drivers being classified as independent contractors, undermine Seattle's efforts to address~~
16 ~~income inequality and create opportunities for all workers in Seattle to earn a living wage.~~

17 ~~E. Allowing taxicab, TNC, and for hire vehicle drivers to modify specific agreements~~
18 ~~collectively with the entities that hire, contract with, or partner with these drivers will better~~
19 ~~ensure that the drivers can perform their services in a safe, reliable, cost effective, and~~
20 ~~economically viable manner, and thereby promote the welfare of the people.~~

21 Section 1. Findings

22 A. In order to protect the public health, safety and welfare, the City of Seattle is granted
23 express authority to regulate for hire and taxicab transportation services pursuant to RCW

1 Chapters 46.72 and 81.72. This authority includes regulating entry, requiring a license,
2 controlling rates, establishing safety requirements, and any other requirement to ensure safe and
3 reliable transportation services.

4 B. Seattle Municipal Code Chapter (SMC) 6.310 is an exercise of the City of Seattle's
5 power to regulate the for hire and taxicab transportation industry. The purpose of SMC Chapter
6 6.310, in pertinent part states: "Some of its regulatory purposes are to increase the safety,
7 reliability, cost-effectiveness, and the economic viability and stability of privately-operated for-
8 hire vehicle and taxicab services within The City of Seattle." SMC 6.310.100(A).

9 C. The purpose of this ordinance is to ensure safe and reliable for hire and taxicab
10 transportation service pursuant to RCW 46.72.160 and RCW 81.72.210, respectively, and to
11 meet the state's authorization to regulate for hire transportation pursuant to RCW 46.76.001,
12 which states: "The legislature finds and declares that privately operated for hire transportation
13 service is a vital part of the transportation system within the state. Consequently, the safety,
14 reliability, and stability of privately operated for hire transportation services are matters of
15 statewide importance. The regulation of privately operated for hire transportation services is thus
16 an essential governmental function. Therefore, it is the intent of the legislature to permit political
17 subdivisions of the state to regulate for hire transportation services without liability under federal
18 antitrust laws." RCW 81.72.200 governing taxicab transportation has a similar statement of
19 legislative intent.

20 D. As the City is acting under specific state statutory authority, it is immune from
21 liability under antitrust laws.

22 E. Entities that hire, contract with, or partner with for-hire drivers for the purpose of
23 assisting them with, or facilitating them in, providing for-hire services to the public establish the

1 terms and conditions of their contract with their drivers, including changes in driver
2 compensation rates and deactivation from dispatch services. Sudden contract changes may
3 adversely impact the ability of a for-hire driver to provide transportation services in a safe,
4 reliable, stable, cost-effective, and economically viable manner.

5 F. Sudden changes in contract terms and working conditions unilaterally imposed by
6 entities that hire, contract with, or partner with for-hire drivers have resulted in driver unrest and
7 transportation service disruptions around the country.

8 G. There is currently no effective mechanism for for-hire drivers to directly address
9 working conditions collectively with the entity that hires, contracts with, or partners with them.

10 H. Business models wherein companies control aspects of their drivers' work, but rely on
11 the drivers being classified as independent contractors, render for-hire drivers exempt from
12 minimum labor requirements that the City of Seattle has deemed in the interest of public health
13 and welfare, and undermine Seattle's efforts to create opportunities for all workers in Seattle to
14 earn a living wage.

15 I. Collective bargaining in other industries has achieved public health and safety
16 outcomes for the general public including, but not limited to: job security provisions, scheduling
17 predictability, job training, and methods of communicating health and safety information.

18 J. Leveling the bargaining power between for-hire drivers and the entities that control
19 many aspects of their working conditions will enable more stable working conditions and better
20 ensure that drivers can perform their services in a safe, reliable, stable, cost-effective, and
21 economically viable manner, and thereby promote the welfare of the people who rely on safe and
22 reliable for hire transportation to meet their transportation needs.

19 the majority threshold and reaffirm that the EDR shall continue representing all drivers for that
20 particular driver coordinator.
