Budget Action description:

This green sheet recommends passage of C.B. 118538, the Department of Planning and Development's (DPD's) 2016 Fee Ordinance. This C.B. raises the hourly rate for land use review by 12% to help support direct and indirect program costs (from \$250 to \$280/hour).

The land use hourly rate has not been increased since 2001, when it was raised from \$175 to \$250. The fee adjustments proposed by this legislation will result in an estimated net increase in DPD's 2016 fee-based revenue of \$632,132, equivalent to 9.5% of projected land use permit fee revenue; 1.15% of the total projected permit fee revenues. Fee revenues are designed to cover the costs of DPD's permitting, inspection and enforcement functions and are used for those activities. The proposed change follows the principles set forth in Resolution 29502, which resulted from the 1996 Program and Funding Study of the then Department of Construction and Land Use.
