**1. BILL SUMMARY**

**Legislation Title:** AN ORDINANCE relating to Washington Hall; authorizing the Director of the Department of Neighborhoods to enter into a memorandum of understanding with Historic Seattle Preservation and Development Authority to provide funds for improvements to Washington Hall.

**Summary and background of the Legislation:** As part of the 2014 Adopted Budget, the Department of Neighborhoods was provided \$300,000 for the purchase and installation of an elevator and other seismic upgrades at the historic Washington Hall building in the Central Area. At the time that funding was provided for the project, the elevator and stair tower were proposed to be built on the exterior north side of the building, providing accessibility and adding structural stability to the building.

As the project progressed, a solution to locate the elevator in the interior of the building, with no adverse impact to historic features, that would provide better access to and within the building was conceived and implemented. In addition to design and user experience efficiencies, the redesign also ultimately reduced the cost of the elevator installation project and the project was completed using other available funding.

Now entering the final phase of the project, Historic Seattle is requesting to use the \$300,000 to complete the rehabilitation of Washington Hall including exterior restoration and interior build-out. This legislation provides DON the authority to enter into a new memorandum of understanding with Historic Seattle to use the funding for this purpose.
