1. BILL SUMMARY

- a. Legislation Title:** A RESOLUTION relating to Seattle Public Utilities; adopting a 2018-2023 Strategic Business Plan Update for Seattle Public Utilities and endorsing a six-year rate path required to support the Strategic Business Plan Update.
- b. Summary and background of the Legislation:** This legislation adopts a six-year Strategic Business Plan Update (Plan Update) for Seattle Public Utilities (SPU), endorses an average annual rate increase of 5.5% across all lines of business from 2018-2023 required to support the Strategic Business Plan.

In 2012, the Council passed a Statement of Legislative Intent directing Seattle Public Utilities to develop a six-year Strategic Business Plan (the Plan). A subsequent resolution (Resolution 31429) clarified the primary goal of the Plan, which is to set a transparent and integrated direction for all of SPU's business lines that reflects customer values, provides rate predictability for utility customers, and results in best value for customer dollars. This resolution also established a nine-member Customer Review Panel to provide input to the Plan Update during its development, and provide to the Mayor and City Council comments on the Plan Update concurrent with delivery of the final proposed Plan to Council.

The Strategic Business Plan provides a forum for discussion between the utility, elected officials, and customer stakeholders and provides more transparency and accountability for decision-making within the utility.

Per Resolution 31429, the 2018-2023 Strategic Business Plan Update is the first update for the 2015-2020 Strategic Business Plan and contains an updated six-year endorsed rate path for water, drainage, wastewater and solid waste rates.

There are no revenues or reimbursements as a direct result of this legislation, nor does it directly impact spending or cash flow. Revenues, spending, and cash flow related to the Plan Update will be submitted with the 2018 budget legislation and subsequent rate study legislation.
