1. BILL SUMMARY

- a. **Legislation Title**: AN ORDINANCE relating to the Department of Parks and Recreation; authorizing the execution of a Use, Occupancy and Maintenance Agreement with the Seward Park Clay Studio, Inc. for the provision of visual arts programming, education, and services at the Department of Parks and Recreation's Seward Park Bathhouse.
- b. **Summary and background of the Legislation**: This legislation authorizes the Department of Parks and Recreation (DPR) to execute an eight-year use and occupancy agreement for the operation of clay and visual arts programs for the public at the Seward Park Bathhouse facility.

Seward Park Art Studio began operating at the Seward Park Bathhouse facility under a City use permit in 1982. Following a significant budget cut in 1981, DPR established exclusive operating permits with Seward Park Art Studio and various other performing and visual arts organizations at DPR facilities. This included the Madrona Bathhouse (Spectrum Dance Studio), Green Lake Bathhouse (Seattle Public Theater), and Pratt Park (Pratt Fine Arts Center). Seward Park Clay Studio (SPCS) has been the facility operator at the Seward Park Bathhouse facility since that time. Over that time period, SPCS evolved from an advisory council established by DPR into a premier provider of feebased ceramic and visual arts education and instruction to diverse segments of the public, including young people. The proposed agreement will allow these public programs to continue to be provided by SPCS at the Seward Park Bathhouse facility.

SPCS brings unique art opportunities to the Seattle community. The studio provides classes, camps, lectures, shows and exhibitions, and workshops for individuals to experience working with, appreciating and learning about clay. SPCS has been a good steward of the facility, an asset to the community, and has consistently met the terms of the agreement. Public benefits are provided through discounts, scholarships and free events. Below is a table summarizing the public benefits provided by SPCS:
