MEMORANDUM

To: Councilmembers
From: Ketil Freeman, Council Central Staff
Subject: Aurora-Licton Residential Urban Village – Temporary Moratorium on Certain Uses

On October 2, the Council will act on an emergency bill that would temporarily prohibit applications for new permits for specified uses in the Aurora Licton Residential Urban Village until the City has time to evaluate and modify zoning to be more aligned with the development envisioned by neighborhood plan goals and policies adopted into the Comprehensive Plan.

This memo (1) provides background on planning in the Aurora-Licton Residential Urban Village, (2) sets out an analysis of recent permitting trends, and (3) describes the content of the bill.

Planning Background

Parts of the Aurora-Licton Springs neighborhood includes a Residential Urban Village (RUV) designation. The RUV designation establishes that the area is a planning geography, for the purposes of the City's strategy for accommodating residential and employment growth, that is primarily intended for more intense residential uses with neighborhood-serving commercial uses. For urban villages, which include RUVs, the Comprehensive Plan establishes as a goal, "[a]ccomodat[ing] a majority of the city's expected household growth..."¹ There are 24 urban villages in the City.

The Aurora-Licton RUV was initially established in 1999, and goals and policies from the neighborhood plan were concurrently incorporated into the Comprehensive Plan.² Generally, adopted goals and policies contemplate a future development pattern informed by transit proximity with, "a core of multifamily housing, pedestrian-oriented neighborhood retail shops and services, and open space clustered immediately east of Aurora Avenue North."³ The boundaries of the Aurora-Licton RUV are shown on Attachment A and excerpted neighborhood plan goals and policies are shown on Attachment B. AL-G5 sets a goal of creating a "vibrant, safe, and attractive mixed-use commercial area that provides the immediate neighborhood with convenient access to retail goods and services, and that minimizes impacts, such as parking, traffic, crime, and noise, to adjacent residential areas." The Aurora-Licton RUV is approximately 5.1 square miles in area. Approximately 31 percent of the RUV is zoned for commercial and mixed-use development with the remainder zoned for residential development.

Permitting Trends

In the last several years there has been a proliferation and concentration of future development activity in commercially zoned areas in the Aurora-Licton RUV that prevents the type of development and uses that comport with the adopted Aurora-Licton neighborhood plan goals and policies. Specifically, from 2014 through the first quarter of 2017, four out of a total of eight permit applications for new development in Commercial 1 and Commercial 2 zones in the RUV included uses that are incompatible

¹ Seattle 2035 – Comprehensive Plan, Growth Strategy, Goal GS G2.

² [Ordinance 119538](#).

³ Seattle 2035 – Comprehensive Plan, Neighborhood Plans, Goal AL-G1.

with the goals and policies set forth for the Aurora-Licton RUV. The locations of these permits are shown on Attachment C. These include:

- Two applications for stand-alone mini-warehouse storage facilities,
- An application to establish a heavy equipment rental yard and outdoor storage facility, and
- An application for a mixed-use building that includes warehouse space.

In the same period and for the same zones in urban villages throughout the City, there were only two other applications for storage facilities. Both are associated with local government uses. Permit applications for C1 and C2 zones in urban villages from 2014 through the first quarter of 2017 are shown on Attachment D.

Content of the Emergency Bill

The bill would temporarily preclude the Seattle Department of Construction and Inspections (SDCI) from accepting new applications in the Aurora-Licton RUV that allow uses that are incompatible with the neighborhood plan goals and policies. Those uses are listed below.

- Drive-in businesses;
- Dry boat storage;*
- General manufacturing;
- Heavy commercial services, except laundry facilities existing as of April 1, 2001;
- Sales and rental of large boats;*
- Vessel repair (major or minor);*
- Mini-warehouse;*
- Principal use, nonresidential long-term parking;*
- Outdoor storage;
- Heavy commercial sales;*
- Sales and rental of motorized vehicles, except within an enclosed structure;*
- Solid waste management;
- Recycling uses;
- Towing services;
- Principal use vehicle repair (major or minor);*
- Wholesale showroom;* and
- Warehouse.*

These uses could be established in C1 and C2 zones. Uses identified with an asterisk could also be established in NC3 zones. As a matter of policy, the City had determined that these uses can be incompatible with areas that are well served by transit for which there is planned residential growth. The listed uses are currently prohibited in most light rail station areas.¹ Concerned residents and neighbors of the RUV are concerned about the new permits authorizing uses that are incompatible with the goals of the RUV and that are not pedestrian-oriented, neighborhood-serving uses. The limitation on applications for the above uses would only apply in the Aurora-Licton RUV, and the listed uses could be developed elsewhere in the City. Existing applications would continue to be processed and reviewed.

Unless extended by Council, the moratorium would expire a year after the proposed bill becomes effective. The bill sets out a work program for establishing new regulations. That work program contemplates Council consideration of new regulations in July 2018. The bill would become effective immediately on passage by a three-fourths vote of the Council and signature by the Mayor.

Attachment B – Excerpted Comprehensive Plan Goals and Policies for Aurora-Licton

AL-G1 An Aurora-Licton Residential Urban Village that is a vibrant residential community, with a core of multifamily housing, pedestrian-oriented neighborhood retail shops and services, and open space clustered immediately east of Aurora Avenue North.

AL-P1 Maintain the current balance of residential and commercial areas within the urban village boundaries. Consider future zoning changes that would reduce conflicts between adjacent areas; promote the development of a neighborhood-serving and pedestrian-oriented commercial core and promote transitions between single family areas and commercial areas.

AL-G5 One or more vibrant, safe, and attractive mixed-use commercial area that provides the immediate neighborhood with convenient access to retail goods and services, and that minimizes impacts, such as parking, traffic, crime, and noise, to adjacent residential areas.

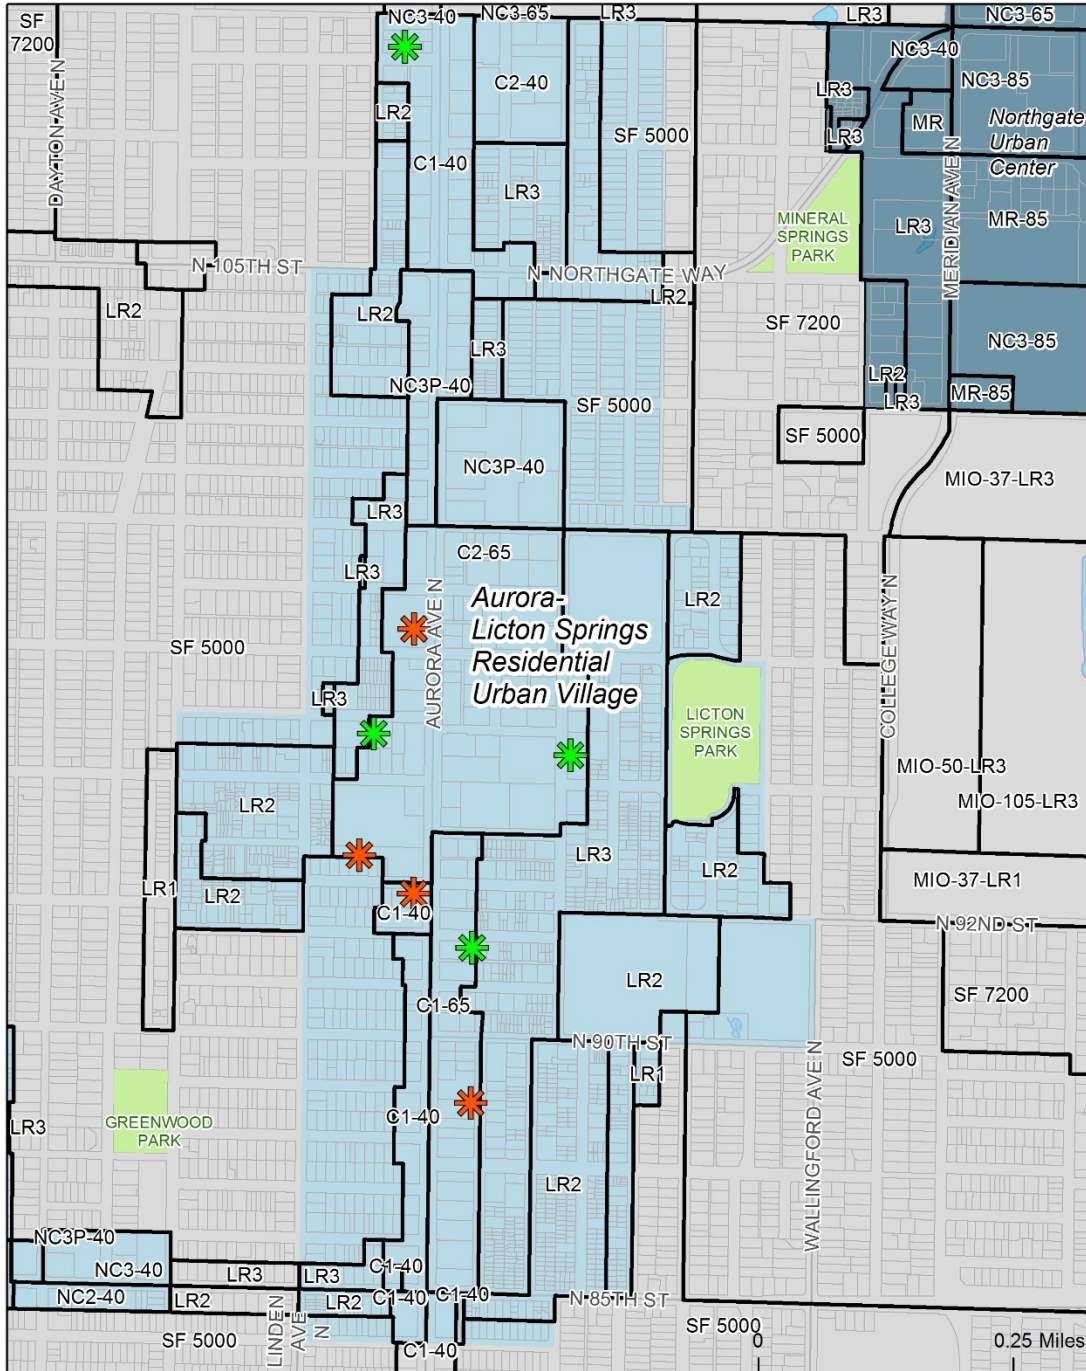

AL-P12 Encourage neighborhood-oriented retail stores and services in the urban village that are attractive and accessible to the surrounding community. Recognize the importance of and support existing businesses in the community.

AL-P13 Encourage the development of pedestrian-friendly pathways, which will enhance and support new pedestrian-oriented commercial activity and maximize pedestrian access to public facilities.

AL-P14 Encourage new pedestrian-oriented commercial activity to locate near pedestrian crossings, transit facilities, and along pedestrian routes. New development should provide safe and attractive pedestrian access.

AL-P18 Work with the community toward providing safe and attractive pedestrian and bicycle access, including sidewalks, on all streets throughout the urban village, providing connections to destinations such as the future Northgate Sound Transit Station, Northgate Mall, the future Northgate library, the Greenwood Library, Green Lake Park, and Bitter Lake Community Center.
