

## SPU-Drainage & Wastewater

### GSI for Protection of Beneficial Uses

<b>Project Type:</b>	Ongoing	<b>Project No.:</b>	C3316
<b>Start/End Date:</b>	N/A	<b>BCL/Program Code:</b>	C333B
<b>Project Category:</b>	Improved Facility	<b>BCL/Program Name:</b>	Protection of Beneficial Uses
		<b>Location:</b>	Various
<b>Neighborhood District:</b>	Multiple	<b>Council District:</b>	Multiple
<b>Total Project Cost:</b>	N/A	<b>Urban Village:</b>	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) within the separated stormwater system. Work includes right-of-way retrofits with bioretention and/or biofiltration for water quality treatment and flow control, as well as potential expansion of private property incentives for construction of properly sized and installed rain gardens or cisterns (RainWise program) into creek watersheds. The Natural Drainage Systems Projects within this program will achieve the water quality goals for the NDS Partnering Program identified in Seattle’s Plan to Protect Seattle’s Waterways (the Long Term Control Plan requirement within our Consent Decree) while coordinating with SDOT and community groups to deliver co-benefits such as sidewalks.
