Re: Proposed changes to SMC Chapter 2.04

On May 2, 2018, the Commission voted 6-0 to recommend a package of changes to the provisions of the Elections Code added by voters in November 2015 when they passed I-122. Most of the changes are to better organize the sections, and to bring the language added into line with current drafting standards. Attached to this memo is a chart showing the substantive changes the Commission endorsed.
