	workshops to support very beginning learners in the evenings at the Center and throughout the year with Ready to Work partners, Neighborhood House in West Seattle and ACRS in the Rainier Valley.	
Millionair Club Charity (District 7)	Computer Lab Expansion/Update Expand and update a heavily-used computer lab in order to stay in pace with the growing needs of the Supportive Employment Program. Provide job readiness programs, resume help, certifications, and other employment support to adult men and women, who are low- income, unskilled, homeless, and needing work.	\$30,000
PROVAIL (District 5)	Adaptive Technology for Children with Disabilities Establish an Assistive Technology Lab, specifically designed to meet the needs of children and youth with disabilities under age 18. Additionally, create a mobile Assistive Technology lab that will include laptops, tablets, portable gaming systems, and adaptive hardware to provide therapeutic support and adaptive solutions to children who receive services out in the community. Host provider trainings.	\$26,982
Seattle Neighborhood Group (District 3)	Building Our Bridge: Crossing the Digital Divide Implement a resident-led initiative to increase access to technology resources, computer skills and digital literacy for residents in Seattle Housing Authority's large family communities. The project will mirror other mobile lab projects conducted in Seattle Housing Authority communities for persons who are elderly and/or disabled that have been successful.	\$25,168
Somali Family Safety Task Force (District 2, 1)	2018 Digital Literacy in West Seattle Expand the current digital literacy program in New Holly to offer training for East African	\$25,200
