Budget Action description:

This green sheet would pass Council Bill (CB) XXXXXX, which would amend the Housing and Building Maintenance Code (HBMC) to modify standards for monitoring vacant buildings.

Under the modified standards the Seattle Department of Construction and Inspections (SDCI) would be required to monitor vacant buildings, which: (1) have received three or more violations within any 365-day period of HBMC requirements for maintaining and securing vacant buildings, (2) are located on lots for which there is an active development permit, or (3) are included on a list maintained by the Seattle Police Department or Seattle Fire Department of vacant buildings that have generated calls for dispatch. Under the enhanced program, vacant buildings would be inspected on a monthly basis. Currently, inspections are authorized to occur on a quarterly basis.

Substantive provisions of CB XXXXXX would take effect on April 1, 2019 to allow SDCI time to hire additional staff and procure vehicles to implement the program. SDCI estimates that it would require three additional inspectors and three vehicles to implement the program. There may also be other costs associated with changes to business processes and software purchases for initial start up.
