This could cost between \$25,000 and \$50,000. Depending on how compliance develops, an additional staff person may also be needed to manage the workload of effectively enforcing this law.

Is there financial cost or other impacts of *not* implementing the legislation?

People with disabilities have ben historically marginalized and denied equal access to public accommodations. Though turning on closed captioning is already required by law if a person asks for them to be turned on, this legislation will shift the burden of effort from a person with disabilities to the business with a television capable of closed captioning.
