

Amendment 1: Public health, climate change and fossil fuel storage and production

Sponsor: O'Brien

Proposal: The Comprehensive Plan includes a goal related to reducing greenhouse gas emissions in order to reduce the City's contribution to climate change and protect the public health and welfare. Policies that implement the climate goals talk about transportation, development, energy efficiency, waste, and the food system as components of the City's strategy to meeting that goal. The City's approach to protecting public health from the impacts of greenhouse gas emissions and pollutants at a policy level could be strengthened by clearly stating the City's intent to limit the production and storage of fuels that contribute to climate change and result in emissions of greenhouse gasses and pollutants.

Amend Resolution XXXXXX to add a new section 6, as follows:

* * *

Section 5. Amendments to Delridge Neighborhood Plan. Consistent with Resolution 31880, the Council requests that OPCD review the draft Comprehensive Plan amendments included as Attachment A to this resolution, complete environmental review of the proposed amendments, and recommend amendments to the Delridge Neighborhood Plan goals and policies in the Seattle 2035 Comprehensive Plan to implement the North Delridge Action Plan alongside any other Comprehensive Plan amendments docketed for consideration in 2020.

Section 6. Amendments to the Environment Element. The Council requests that OPCD, in consultation with the Seattle Department of Construction and Inspections, the Office of Sustainability, and the Environmental Justice Committee, draft, evaluate, undertake environmental review and provide recommendations for potential amendments to the Environment, Land Use or Utilities Elements that would clarify the City's intent to protect the public health and meet its climate goals by limiting fossil fuel production and storage.

Section ~~6~~7. Request for review and recommendations. The Council requests that OPCD review the amendments described and listed in Sections 1, 2, 3, 4, ~~and~~ 5, and 6 of this resolution;

Amendment 2: Public health, climate change and fossil fuel storage and production

conduct public and environmental reviews of the amendments listed in Sections 1, 2, 3, 4, ~~and 5~~, and 6; and present its analyses and the Mayor's recommendations to the Planning Commission and to the City Council on the schedule set by Resolution 31807 for review and consideration in 2020.

Section ~~7~~8. Comprehensive Plan amendments that will not be considered in 2020.

The Council rejects the following proposed amendments, the full texts of which proposals are contained in Clerk File 321272:
