

Amendment #8b to CB 119833
Councilmember Herbold

Full Council
July 27, 2020, v1

Revise Section 2, item C to increase the emerging needs funding limit from \$6 million to \$9 million (proportional to a proposed 0.15% sales tax rate) as follows:

Section 2. Use of revenues. The funds raised by this proposition (“Proposition 1 revenues”) will be used solely for the transit and transportation purposes as described in this ordinance and associated administrative costs. Proposition 1 revenues will first be used to pay any required administrative costs to the state Department of Revenue and elections costs.

Remaining Proposition 1 revenues will be used to fund:

A. Service hours on King County Metro operated services with more than 65 percent of stops within Seattle, consistent with the Seattle Transit Master Plan and King County Metro Transit’s Service Guidelines, or any King County Metro operated route serving historically low-income communities in Seattle; and

B. King County Metro transit service hours on current and future RapidRide lines serving Seattle, identified in the Seattle Transit Master Plan and King County Metro’s long-range plan (Metro CONNECTS); and

C. Up to 10 million dollars of the Proposition 1 revenues may be used annually to support the implementation, management, and administration of programs to support transit access by low income residents, seniors and youth, including the ORCA Opportunity program, which provides transit passes for Seattle Public Schools students in grades K-12, as well as students participating in the Seattle Promise scholarship or other similar programs at Seattle colleges and universities, along with programs targeted to seniors and public housing residents; and

D. Up to 9 million dollars of the Proposition 1 revenues may be used in 2021, and up to 3 million dollars annually in the following years, to support infrastructure maintenance and capital improvements to maximize the efficiency of transit operations, including enhancements to transit speed, passenger amenities, transit street pavement maintenance, and reliability of transit service operated by King County Metro within the City of Seattle; and

E. Up to ~~6 million~~ 9 million dollars of the Proposition 1 revenues may be used annually to support emerging mobility needs related to COVID-19 response and recovery, and closure of the West Seattle High Bridge. Such investments could include transit service, speed and reliability improvements, first-last mile transit connections, and Transportation Demand Management strategies described in the community-driven Reconnect West Seattle plan. These funds may also be used throughout the four-year term to support or pilot innovative partnerships with King County Metro.
