

Yesler Terrace Planned Action Exhibit C to Ordinance: Tree Protection Plan

INTRODUCTION

In preparing the Yesler Terrace Environmental Impact Statement, Seattle Housing Authority and the City of Seattle conducted a thorough inventory and analysis of trees at the Yesler Terrace Planned Action Site (Planned Action Ordinance Exhibit A). The City has used this analysis, together with the redevelopment plan adopted by the Seattle Housing Authority Board of Commissioners, to develop a tree protection plan requiring protection of certain existing trees over the course of redevelopment at Yesler Terrace.

The inventory included an evaluation of health for each tree, and a determination of exceptional tree status, pursuant to Department of Planning and Development's Director's Rule 16-2008. In addition to classification of each tree as an exceptional or non-exceptional tree, the inventory included consideration of a third category: "valuable trees" are non-exceptional trees that have preservation value, either as a result of their size and vigor, or because of their proximity to exceptional trees.

For each tree existing on the Planned Action Site as of January 1, 2012, this document either designates preservation during redevelopment or authorizes removal. In addition to the tree preservation requirements stated here, development at Yesler Terrace shall provide new trees and landscape features consistent with the Seattle Green Factor and street tree requirements in Chapter 23.75 of the Land Use Code. Land Use Code requirements and Street Improvement Permit conditions may require more trees than the preserved and replacement trees provided pursuant to this document.

REQUIREMENTS

In the following figures and table, each existing tree within the Yesler Terrace Planned Action Site is assigned to one of the following tiers:

Tier 1: Exceptional or valuable trees in good health, and in locations where preservation can clearly be achieved within the planned street vacation/rededication and redevelopment plan. Trees in this category shall be preserved through protection in place or relocation (where specifically approved for relocation). If a tree in this category is lost during or before development due to accidental damage, disease, or other causes, it shall be replaced within the Yesler Terrace Planned Action Site (Exhibit A to the Yesler Planned Action Ordinance) by 10 replacement trees. Each replacement tree shall be of a size and species determined by DPD to have a canopy cover potential at least equal to the tree that was lost.

Tier 2: Trees authorized for removal. Trees in this category either are not viable in the long term due to disease, topping, or other health problems, or are in locations where disturbances during construction will make preservation infeasible. This includes exceptional trees in locations where anticipated grading or construction preclude tree retention. Each removed tree shall be replaced by one replacement tree. Each replacement tree shall be of a size and species determined by DPD to have a canopy cover potential at least equal to the tree that was removed. Replacement trees shall be located within the Yesler Terrace Planned Action Site, except that if a planting and maintenance plan is approved by WSDOT, the applicant may elect to plant replacement trees on WSDOT property between the Planned Action Site and Interstate 5. During the course of redevelopment, Tier 2 trees may be preserved if site conditions allow and the applicant so chooses.

Replacement trees provided pursuant to this plan may include plantings on lots or in abutting rights-of-way, if approved by the Director of Transportation. All tree plantings shall conform to provisions in DPD Director's Rule 10-2011, including but not limited to soil amendments and tree spacing. For trees that will

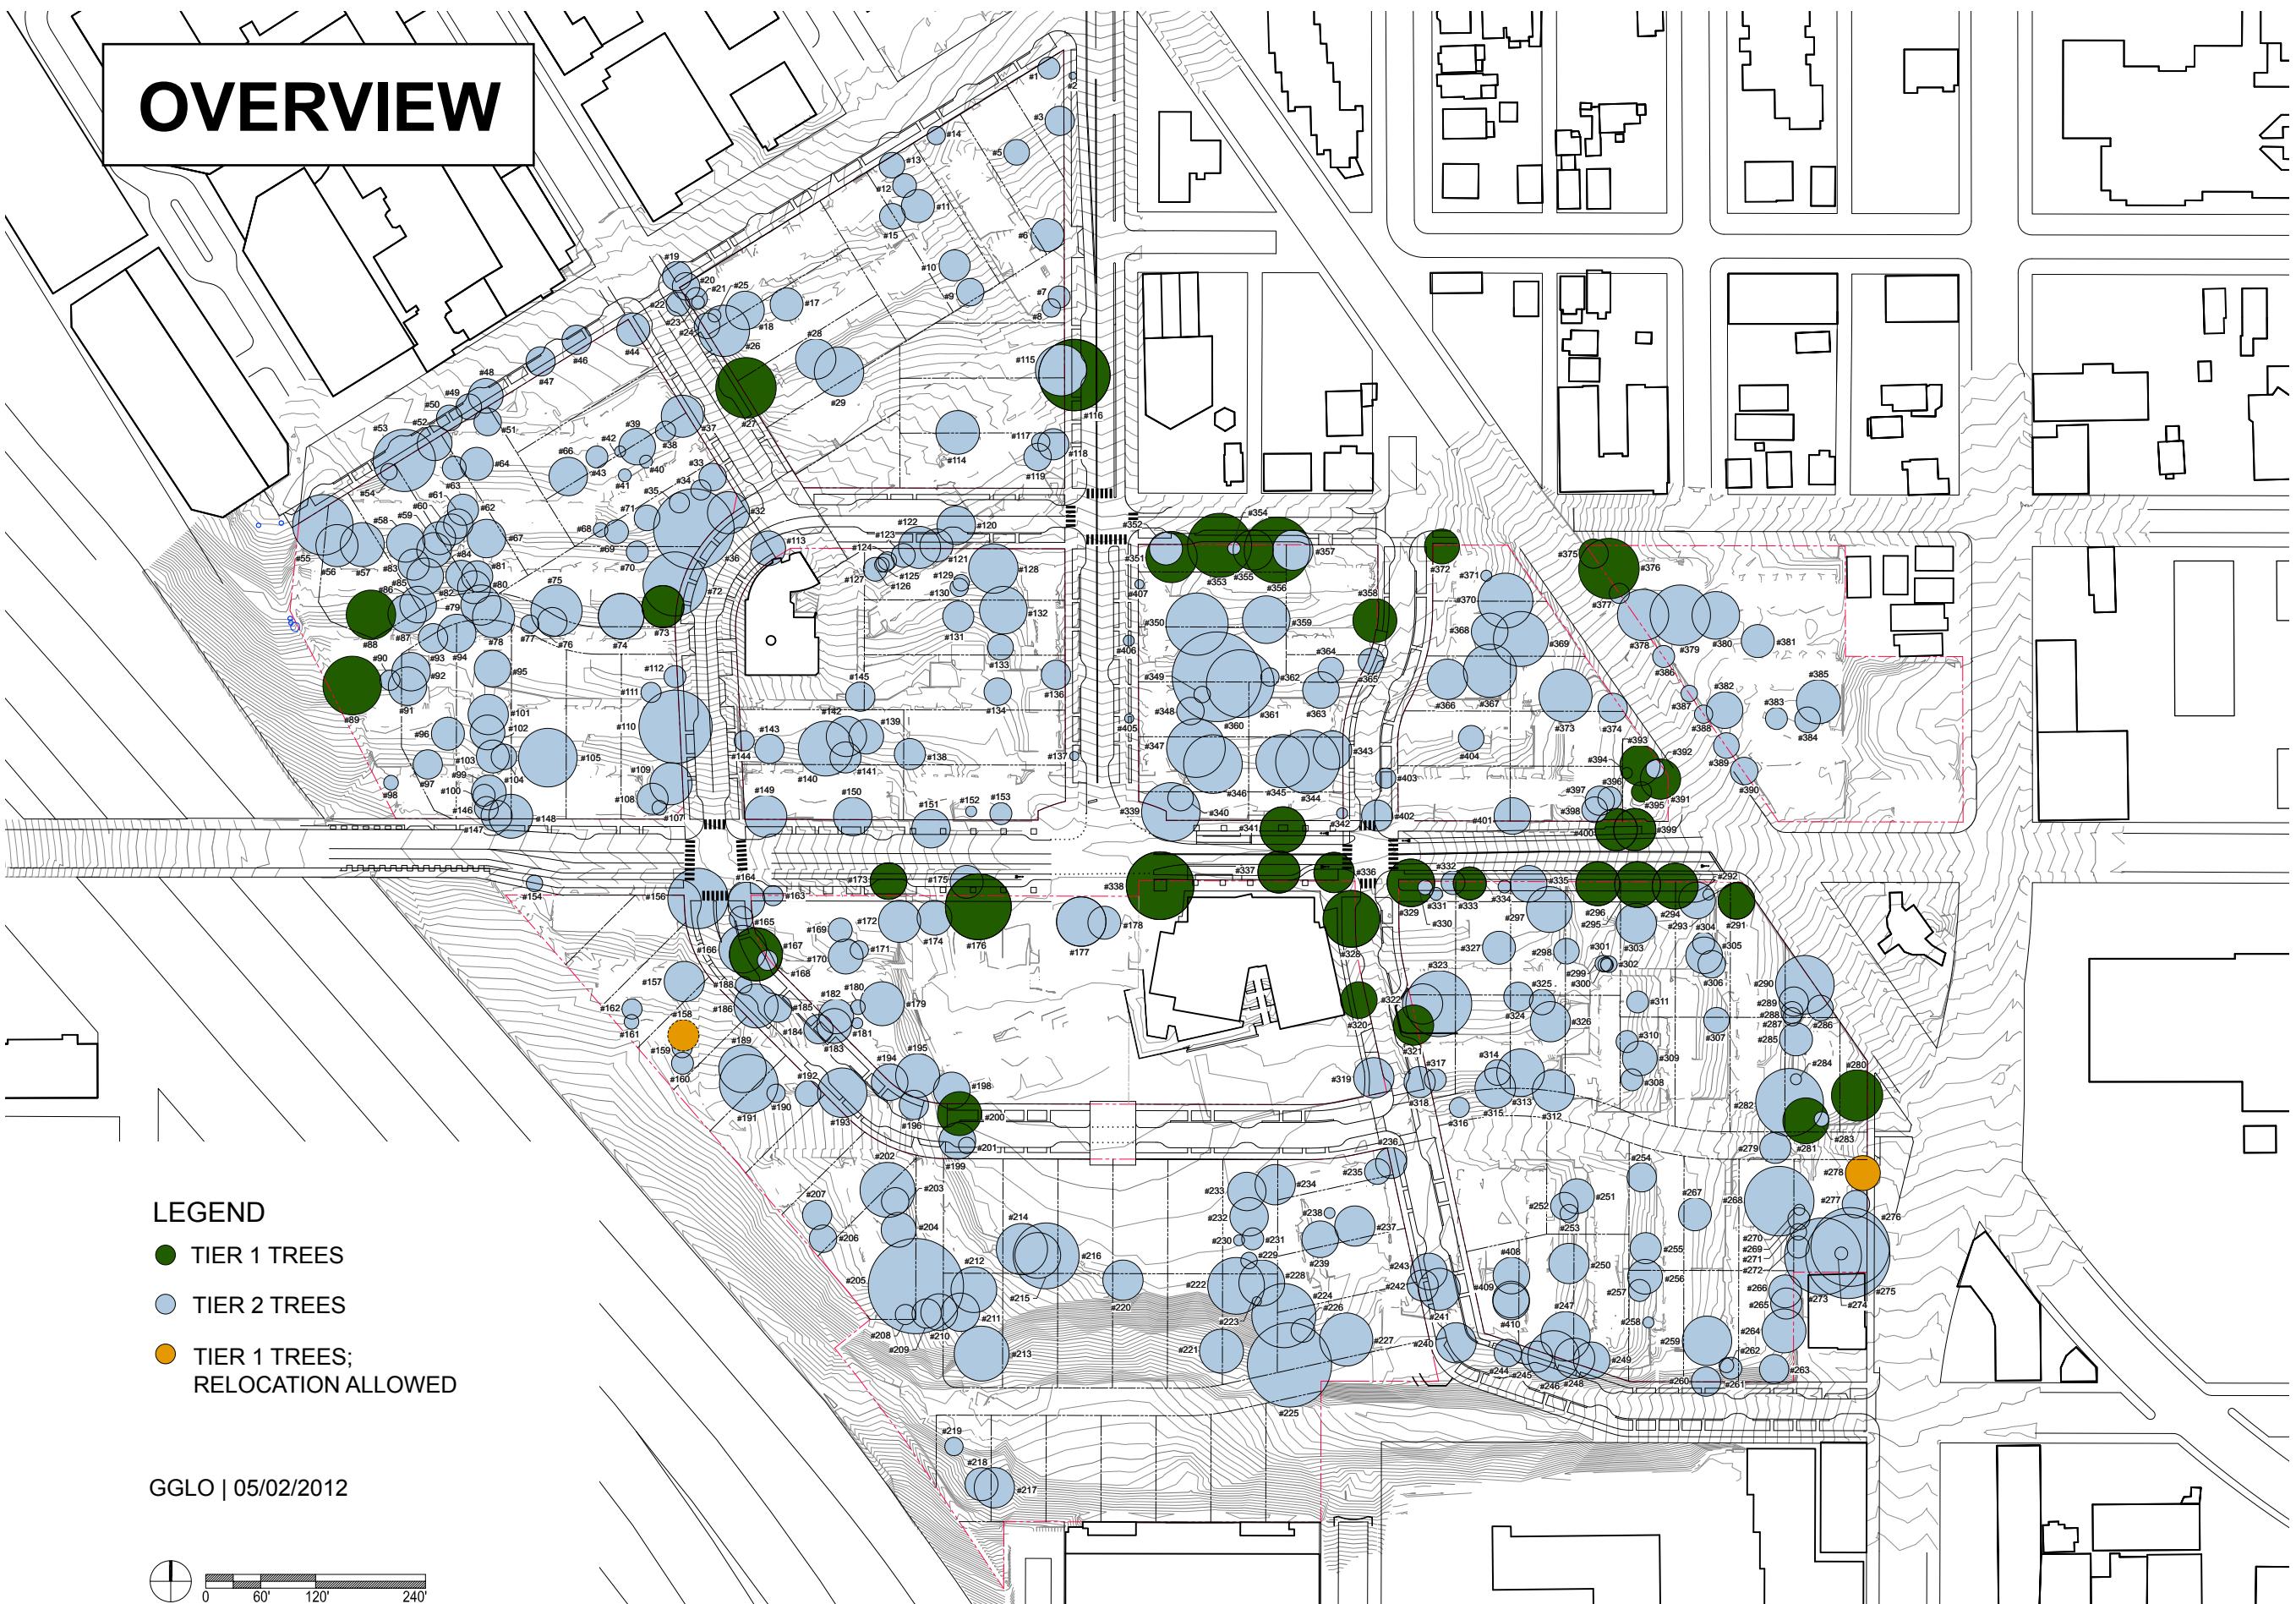

be preserved, protection techniques shall be identified in Master Use Permit, demolition, and building permit applications.

At a minimum, project proposals for lots that include or are adjacent to Tier 1 trees shall:

- Use fences and signage to protect trees and their critical root zones (CRZs, as defined in City of Seattle 2011 Standard Plan #133) during construction, consistent with DPD Director's Rule 10-2011.
- Design buildings, underground structures, sidewalks, roads, and other hardscape elements to avoid disturbance of trees and their CRZs.
- Install new trees and other landscape features in a manner that does not negatively affect the health of preserved trees, consistent with DPD Director's Rule 10-2011.
- Comply with any other specific arboricultural techniques that DPD or SDOT deems necessary for preservation given specific site conditions.

The figures and table show trees in the portion of the Yesler Terrace Redevelopment Area east of Boren Avenue, which is outside the Planned Action Site. The information in this Tree Protection Plan will be taken into account by DPD in reviewing permit applications in the area east of Boren. However, the Planned Action Ordinance and its Exhibit C Tree Protection Plan do not apply as requirements to permit applications or development outside the Planned Action Site.

313	2	Western red cedar	Thuja plicata	
314	2	Sycamore maple	Acer pseudoplatanus	
315	2	Sawara falsecypress	Chamaecyparis pisifera	
316	2	Sycamore maple	Acer pseudoplatanus	
317	2	Scots pine	Pinus sylvestris	
318	2	Norway spruce	Picea abies	
319	2	Norway maple	Acer platanoides	
320	1	Norway maple	Acer platanoides	
321	1	Purple-leaf sycamore maple	Acer pseudoplatanus 'Atropurpureum'	
322	2	Silver maple	Acer saccharinum	
323	2	Silver maple	Acer saccharinum	
324	2	Western red cedar	Thuja plicata	
325	2	Fruit Cherry	Prunus sp.	
326	2	Norway maple	Acer platanoides	
327	2	Honey locust	Gleditsia triacanthos	
328	1	Sweet gum	Liquidambar styraciflua	
329	1	Port Orford Cedar	Chamaecyparis lawsoniana	
330	2	Flowering plum	Prunus sp.	
331	2	Purple-leaf plum	Prunus cerasifera 'Atropurpurea'	
332	2	European white birch	Betula pendula	
333	1	Scots pine	Pinus sylvestris	
334	2	English holly	Ilex aquifolium	
335	2	Scots pine	Pinus sylvestris	
336	1	Red oak	Quercus rubra	
337	1	Red oak	Quercus rubra	
338	1	Red oak	Quercus rubra	
339	2	American elm	Ulmus americana	
340	2	Green ash	Fraxinus pennsylvanica	
341	1	Red oak	Quercus rubra	
342	2	Flowering cherry	Prunus serrulata	
343	2	Black locust	Robinia pseudoacacia	
344	2	Siberian elm	Ulmus pumila	
345	2	Norway maple	Acer platanoides	
346	2	Scots pine	Pinus sylvestris	
347	2	Norway maple	Acer platanoides	
348	2	Norway maple	Acer platanoides	

Tree Tag #	Tier #	Botanical Name	Common Name	Notes
349	2	Norway spruce	<i>Picea abies</i>	
350	2	Norway maple	<i>Acer platanoides</i>	
351	1	Western red cedar	<i>Thuja plicata</i>	
352	2	Scots pine	<i>Pinus sylvestris</i>	
353	1	Monterey cypress	<i>Cupressus macrocarpa</i>	
354	2	English holly	<i>Ilex aquifolium</i>	
355	1	Norway maple	<i>Acer platanoides</i>	
356	1	Siberian elm	<i>Ulmus pumila</i>
