The Committee recommends that Full Council pass the Council Bill (CB).

In Favor: 3 - Bagshaw, Sawant, Harrell

Opposed: None

ACTION 1:

Motion was made by Councilmember Licata, duly seconded and carried, to amend Council Bill 118481, Attachment 1, "What is the Proposed Herbicide and How Will It Be Applied?" section, third paragraph, as shown in the underlined and strike through language below:

Only Washington-State certified pesticide applicators and those under their direct supervision are allowed to apply the chemicals. They all work under supervision of SPU staff, who are also state certified. An annual application is made over the entire dispersed 18 acres of infestation ~~between early August and mid-September~~ during the pre-bud stage, which has been demonstrated to be the most effective growth stage for herbicide application. Prior to application, visual inspection is made to verify that the plants are 1) in the pre-bud stage at the time of application; and 2) are not actively being worked by pollinators on days conducive to such activity. An estimated 64 ounces of Imazapyr per acre of knotweed will be applied to any knotweed patches that have not yet received any treatment. We currently do not know of any patches with no treatment, but there is a small chance that additional patches will be found. An estimated 20 to 25 ounces of Imazapyr per acre of knotweed will be applied for the second annual application. An estimated ten ounces per acre will be applied for the third annual application, and four to six ounces per acre for subsequent applications.

ACTION 2:

Motion was made by Councilmember Licata and duly seconded to amend Council Bill 118481, Section 1, the second to last sentence, with the following language in the underlined and strike through language below:

Section 1. The Secondary Use Policy number 6-13 relating to Vegetation Management, as amended by Ordinance 124191, is hereby

further amended to read as follows:

6-13: Seattle Public Utilities will continue the herbicide moratorium, controlling undesirable vegetation with hand or mechanical methods, except that the following exemption for the use of Imazapyr shall apply through December 31, 2018. The Director of Seattle Public Utilities is hereby authorized to apply Imazapyr for the purpose of controlling or eradicating knotweed species within the Cedar River Municipal Watershed in accordance with the methods and procedures established in this section and all applicable state and federal drinking water source protection standards. Seattle Public Utilities will adhere to the application method and monitoring described in Attachment 1: A Proposal to Continue to Use Herbicide to Manage the Knotweed Infestation in the Cedar River Municipal Watershed, April 21, 2015. Seattle Public Utilities will provide the Seattle Public Utilities and Neighborhoods Committee of the City Council an annual report on the knotweed treatment program in the Cedar River Municipal Watershed, summarizing the effectiveness of the knotweed treatment program, evaluating the long-term financial and environmental implications for knotweed control beyond 2018, evaluating the water quality monitoring results, summarizing the latest available science on the environmental and human health effects of Imazapyr, and describing any plans for the future application of Imazapyr within the Watershed, including maps of proposed treatment areas, estimated quantities of Imazapyr to be applied, application methods and schedules, and plans for water quality monitoring. The Director of Seattle Public Utilities may authorize application of Imazapyr to newly-discovered areas of knotweed infestation, but the use of Imazapyr on newly-discovered areas located within the hydrographic boundary may not exceed five acres in size.
