Position Allocation	(1.00)

This item transfers 1.0 FTE (IT Programmer Analyst) from Seattle IT to Seattle City Light (SCL) to support departmental operational GIS needs. Due to the specialized nature of SCL's GIS need, this position is best resourced within SCL.

Seattle Information Technology Department

Transfer Operational Technology to SCL

Expenditures	\$(1,987,335)
Revenues	\$(1,987,335)
Position Allocation	(7.00)

This item transfers technology deemed operational to Seattle City Light (SCL). This includes the transfer of 7.0 FTE (7 Information Technology Professional B) and non-labor budget for the Outage Management (OMS), Asset Suite and Work and Asset Management system (WAMS). This system is proprietary to SCL.

Business Systems Analyst for Utility Customer Applications

Expenditures	\$171,599
Revenues	\$171,599
Position Allocation	1.00

This item adds 1.0 FTE (Information Technology Professional B) and the associated budget to support the ongoing maintenance and testing needs for the Seattle City Light (SCL) and Seattle Public Utilities (SPU) Customer Information Systems (CIS).

Developer for Utility Customer Applications

Expenditures	\$171,599
Revenues	\$150,265
Position Allocation	1.00

This item adds 1.0 FTE (Information Technology Professional B) and the associated budget for on-going support, enhancements, and maintenance for the Seattle City Light (SCL) and Seattle Public Utilities (SPU) Customer Self Service Portal.

FAS Online Business Directory Replacement

Expenditures	\$581,000
Revenues	\$581,000

This item will fund the replacement of the existing Online Business Directory (OBD), which is used to display companies, including self-identified minority-owned, women-owned and LGBTQ business, who have expressed interest in doing business with the City.

FAS Risk/Envision System Replacement

Expenditures	\$505,000
Revenues	\$505,000

This item will replace the existing Risk Management Information System (RMIS) by potentially utilizing a system similar currently being used by the Seattle Department of Human Resources (SDHR). The current system requires manual processes that are manual and time-consuming, and the new system will provide a more streamlined system that will enable FAS to process claims more efficiently.

FAS Investment Portfolio Management Software Replacement

Expenditures	\$250,000
Revenues	\$250,000

Seattle Information Technology Department

This item funds the procurement and implementation a new software for managing the City's investments. The current system is no longer supported by the vendor.

FAS Capital Asset Management Software Implementation

Expenditures	\$175,000
Revenues	\$175,000

This item implements AssetWorks' Capital Asset Management (CAM) with integration to the current fleet information management system, Fleet Anywhere (FA). CAM would enable FAS to model and compare different possible future fleet procurement plans to project future fleet capital costs and to help make policy decisions on fleet life cycles, electrification, maintenance operations staffing needs, and whether and how much to incorporate renewable fuels, etc. CAM integrates maintenance cost analysis and projections which would enhance FAS's ability to project citywide maintenance costs, improve rate calculations and methodology, and right-size fleet staffing to meet the demands of the fleet.

FAS Lease Accounting System

Expenditures	\$75,000
Revenues	\$75,000

This item funds a system to support the City's GASB Statement 87 reporting requirements in recognition of certain lease assets and liabilities for leases in 2022. These were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract.

RecordPoint Implementation

Expenditures	\$478,800
Revenues	\$478,800

This item funds the planning and implementation of a Citywide electronic records management system. Seattle IT has partnered with the City Clerk's office to pilot the use of RecordPoint for this purpose and this proposal will begin the work to turn this pilot into an enterprise system for all City departments to use.

SDCI Labor Collection System (LCS) Replacement

Expenditures	\$802,000
Revenues	\$802,000

This project will replace SDCI's aging Labor Collection System (LCS), which is nearing the end of its life, with an application that uses up-to-date development technology and can be more easily maintained.

SFD National Fire Incident Reporting System Modernization

Expenditures	\$499,000
Revenues	\$499,000

This project will fund the modernization of the Seattle Fire Department (SFD) National Fire Incident Reporting System (NFIRS). NFIRS captures fire incident data that is required to be reported to the State and Federal governments. Modernizing NFIRS will allow SFD to entire fire incident data more quickly, eliminate time-consuming manual processes, and increase the information quality of reports.

Seattle Information Technology Department

SFD Safety and Training System

Expenditures	\$318,100
Revenues	\$318,100

This project funds a new Safety and Training system for Seattle Fire Department (SFD). SFD seeks a vendor hosted SaaS solution to replace the current 22-year-old, inhouse developed application. The solution will enhance SFD's ability to track, record, and report on safety standards and training across the department.

CSCC 911 Logging Recorder CAD Integration

Expenditures	\$107,000
Revenues	\$107,000

This item implements a connection between the NICE 911 logging recorder and the Versaterm Computer Aided Dispatch (CAD) system. This will allow CSCC to collect additional information on 911 calls to monitor and improve the call taking process.

CSCC Employee File Repository System

Expenditures	\$59,000
Revenues	\$59,000

This project will fund an employee file repository system. As a new department, the Community Safety and Communications Center (CSCC) does not have a tool to formally document employee information and performance. This system will allow CSCC to capture this information and operationalize it to identify areas of improvement and inform positive feedback.

DAP Cloud Expenses

Expenditures	\$76,076
Revenues	\$76,076

This item adds the estimated budget needed to fund the cloud usage costs associated with the Seattle Police Department's (SPD) Data Analytics Platform. These costs will be direct billed to SPD based on actuals usage.

Add Staff for Department GIS Needs

Expenditures	\$153,016
Revenues	\$131,682
Position Allocation	1.00

This item adds one 1.0 FTE (Information Technology Professional C) to provide dedicated GIS support currently being performed by a term limited employee that is expiring. This position would reside in Seattle IT's GIS & CADD team

Radio Communications Shop Sunset Positions

Position Allocation	2.00
---------------------	------

This item adds two sunset positions to the Radio Communications Shop to complete the installation of Seattle Police Department (SPD) and Seattle Fire Department (SFD) mobile device terminals. This proposal requests position authority only, as project funding for this body of work is already in place. These positions will sunset at the end of 2022.

Seattle Information Technology Department

General Fund Backfill for Cable Fund

Revenues -

This item provides \$400,000 of ongoing General Fund support for the Digital Equity program in the Seattle Information Technology Department which was supported by Cable Franchise Fees prior to 2020. Cable Television Fund revenues are steadily declining, and these funds enable continuation of the program.

Proposed Capital

Work Schedule and Timekeeping Program

Expenditures	\$1,500,000
Revenues	\$1,500,000

This item adds \$1.5M to support the Seattle Police Department (SPD) implementation of the Work, Schedule, and Timekeeping (WST) Project. This funding is needed to fund consultant, software, and backfill costs needed to complete the project.

Technology Infrastructure CIP Adjustment

Expenditures	\$1,100,000
Revenues	\$1,100,000

This funding supports the City's IT infrastructure lifecycle replacements and invest in newer, more secure technology. There are telephony upgrades to support the Seattle Police Department's (SPD) 911 functionality will be required. In addition, there are also some purchases needed to support the new Unified Communications backbone.

Proposed Technical

Baseline Adjustments for Personnel Costs

Expenditures	\$879,771
--------------	-----------

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

SPD Count Update

This change represents the update to Seattle IT's cost recovery data to reflect the separation of Parking Enforcement Officers and the Community Safety Communication Center from Seattle Police Department.

Healthcare Adjustment

Expenditures	\$820,633
Revenues	\$820,633

This change aligns Seattle IT's healthcare budget with the anticipated 2022 need.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$667,047
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget

Seattle Information Technology Department

process.

Cable Fund Technical Adjustments

Expenditures	\$(756,793)
Revenues	\$(756,793)

This item adjusts the Cable Television Franchise Fee Fund (10101) budget to reflect the impact of changes with the Seattle Information Technology Operating Fund (50410) involving the use of Franchise Fee revenue. This change reflects budget changes as well as changes in cost allocation methodologies that have shifted where cost allocations away from the Cable Fund.

Indirect Cost Adjustment

Expenditures	\$612,636
Revenues	\$612,636

This item represents the impacts of 2022 proposed budget changes on Seattle IT's indirect cost model.

Customer Engagement Applications Dissolution

Expenditures	\$50,380
Revenues	\$50,380

This item moves budget out of the Customer Engagement Applications detail project to reflect the impact of a recent management reorganization in Seattle IT. Beginning in 2021 this service is no longer offered, and the associated budget and resources have shifted under other IT cost pools.

Operating Impacts of Technology Infrastructure CIP Adjustment

Expenditures	\$41,250
Revenues	\$41,250

This item reflects the operating impacts of CIP changes. As a result of the Technology Infrastructure CIP adjustment, this funding request is to cover the first year of interest costs on the proposed bond issuance.

GIS Small Department Billable Correction

Expenditures	\$30,000
Revenues	\$30,000

This item adds funding for GIS billable work for various small departments.

Decrease in External Lease Costs

Expenditures	\$(42,131)
--------------	------------

This item decreases appropriation authority to pay for decreases in Seattle IT's external lease costs.

MCIS Technical

Expenditures	\$3,000,000
Revenues	\$3,000,000

This change adds \$3 million of bond funding to the MCIS Replacement project in 2022. Early in 2021, based on the

Seattle Information Technology Department

updated MCIS project spending plan, legal appropriation and the associated bond issuance was reduced from \$10 million to \$7 million. The \$3 million of legal appropriation was submitted for abandonment in the Q2 2021 Supplemental Ordinance, with the plan to then shift that appropriation and associated bond issuance into 2022 to better align with projected spending.

SPU's CIP Technology Adjustment

Expenditures	\$(2,150,000)
Revenues	\$(2,150,000)

This item reduces appropriation authority in the Applications BSL to align with the anticipated Seattle Public Utilities (SPU) CIP budget changes for technology projects in 2022.

SDCI's Technology Budget Adjustment

Expenditures	\$830,007
Revenues	\$830,007

This item revises appropriation authority in the Applications BSL to align with the anticipated SDCI budget for technology projects in 2022.

Inflation Adjustment

Expenditures	\$1,111,243
Revenues	\$1,111,243

This change updates Seattle IT's personnel budget to reflect the most current inflation guidance provided by the City Budget Office.

Changes to Seattle IT's Funding Methodologies

Expenditures	\$(8,282)
Revenues	\$(8,282)

This technical item adjusts Seattle IT's budget to reflect a change in two rate allocation mechanisms. These rate pools have changed due to internal departmental consolidations or transfers to Seattle City Light (SCL) and Seattle Public Utilities (SPU). It also implements a new mechanism to provide departments with an estimate for their GIS direct bill needs.

SCL's CIP Technology Adjustment

Expenditures	\$(8,669,040)
Revenues	\$(8,669,040)

This item reduces appropriation authority in the Applications BSL to align with the anticipated Seattle City Light (SCL) CIP budget changes for technology projects in 2022.

Continuation of 2021 CLFR Positions

Position Allocation	23.00
---------------------	-------

This technical change request recognizes CLFR-backed sunset positions that were added as part of the 2021 2Q Supplemental Process. 3.0 FTE will continue supporting the Affordable Seattle program, and the remaining 20.0 FTE will continue supporting Critical IT infrastructure needs that have arisen due to increased demand for IT services.

Seattle Information Technology Department

Seattle Information Technology Department

Appropriations by Budget Summary Level and Program

ITD - BC-IT-C0700 - Capital Improvement Projects

The Capital Improvement Projects Budget Summary Level provides support for citywide or department-specific IT projects and initiatives within Seattle IT's Capital Improvement Program (CIP).

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Application Services CIP	13,508,480	11,679,600	14,576,000
Application Services CIP	142,065	-	-
Citywide IT Initiatives CIP	5,547,932	-	-
Communications CIP	11,416,653	12,875,262	5,690,670
Enterprise Compute Services CIP	2,815,168	7,484,983	2,182,188
Fiber Enterprise Initiatives CIP	2,448,089	4,356,485	4,468,011
Programmatic Initiatives CIP	252,158	-	-
Radio Communications CIP	542,831	705,049	723,098
Seattle Channel CIP	190,867	336,759	345,380
Total	36,864,241	37,438,137	27,985,346

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Capital Improvement Projects Budget Summary Level:

Application Services CIP

This budget program contains Capital Improvement Program (CIP) funding associated with developing, implementing and enhancing various software applications used by City departments.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Application Services CIP	13,650,545	11,679,600	14,576,000

Citywide IT Initiatives CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with a portfolio of capital IT initiatives. Projects in this program may support multiple departments.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Citywide IT Initiatives CIP	5,547,932	-	-

Communications CIP

Seattle Information Technology Department

This budget program contains the Capital Improvement Program (CIP) funding associated with ongoing design, acquisition, replacement and upgrading of software, infrastructure and major hardware for the City's data, communications and telephonic systems which may include switches, and or connectivity infrastructure.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Communications CIP	11,416,653	12,875,262	5,690,670

Enterprise Compute Services CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement, and upgrading of server and storage systems.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Enterprise Compute Services CIP	2,815,168	7,484,983	2,182,188

Fiber Enterprise Initiatives CIP

This budget program (formerly Technology Engineering & Project Management CIP) contains the Capital Improvement Program (CIP) funding associated with major maintenance and installation of a high-speed fiber-optic communication network for the City and its external fiber partners.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Fiber Enterprise Initiatives CIP	2,448,089	4,356,485	4,468,011

Programmatic Initiatives CIP

This budget program contains the Capital Improvement Program (CIP) funding for one-time Seattle IT Programmatic Initiatives including the acquisition and development of a new data center, the remodeling of Seattle IT space in the Seattle Municipal Tower, and the acquisition of new technology management tools.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Programmatic Initiatives CIP	252,158	-	-

Radio Communications CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement and upgrading of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Radio Communications CIP	542,831	705,049	723,098

Seattle Channel CIP

Seattle Information Technology Department

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement and upgrading of the cablecasting and production systems for the Seattle Channel.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Seattle Channel CIP	190,867	336,759	345,380

ITD - BO-IT-D0100 - Leadership and Administration

The Leadership and Administration Budget Summary Level provides executive, community, financial, human resource, and business support to Seattle IT.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Chief of Staff	14,990,524	-	-
Chief Privacy Office	761,670	-	-
Citywide Indirect Costs	11,321,390	6,850,652	6,757,575
CTO / Executive Team	2,943,938	-	-
Departmental Indirect Costs	-	18,306,629	22,166,763
Executive Advisor	1,562,551	-	-
Indirect Cost Recovery Offset	(5,428,988)	-	-
Pooled Benefits and PTO	455,448	(28,468)	115,281
Total	26,606,532	25,128,813	29,039,619
Full-time Equivalents Total*	84.00	82.00	81.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Chief of Staff

This budget program contains the funding associated with the leadership and accountability of core administrative support to ITD's divisions. These efforts include the oversight of ITD's talent, workforce planning and training, communications, finance, corporate performance, and organizational change management.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Chief of Staff	14,990,524	-	-
Full Time Equivalents Total	60.00	-	-

Chief Privacy Office

Seattle Information Technology Department

This budget program provides oversight and guidance required for City Departments to incorporate appropriate privacy and surveillance ordinance compliance practices into City operations with the objective of building public trust and confidence in how we collect and manage the public's personal information.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Chief Privacy Office	761,670	-	-
Full Time Equivalents Total	2.00	-	-

Citywide Indirect Costs

This budget program contains the funding associated with the various overhead costs charged to Seattle IT, including budget and expenses that have been allocated from other City departments.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Citywide Indirect Costs	11,321,390	6,850,652	6,757,575

CTO / Executive Team

This budget program contains the funding associated with the Chief Technology Officer (CTO) and the Seattle IT Executive Team. The CTO sets technology standards and strategies to ensure the City's technology investments are used efficiently and effectively.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
CTO / Executive Team	2,943,938	-	-
Full Time Equivalents Total	13.00	-	-

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department including executive, financial, communications, human resources, business support, and strategic planning and analysis services. It also includes the costs for the City's Privacy and Surveillance program.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Departmental Indirect Costs	-	18,306,629	22,166,763
Full Time Equivalents Total	-	82.00	81.50

Executive Advisor

This budget program contains funding for key administrative support functions including process improvement, governance, interdepartmental service delivery, support for ITD's Racial Social Justice Initiative and community focused technology strategies.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed

Seattle Information Technology Department

Executive Advisor	1,562,551	-	-
Full Time Equivalents Total	9.00	-	-

Indirect Cost Recovery Offset

This budget program is used for the indirect cost recovery of Citywide and Departmental indirect costs incurred by Seattle IT.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Indirect Cost Recovery Offset	(5,428,988)	-	-

Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs for Seattle IT staff.

	2020 Actuals	2021 Adopted	2022 Proposed
Expenditures/FTE			
Pooled Benefits and PTO	455,448	(28,468)	115,281

ITD - BO-IT-D0200 - Cable Franchise

The purpose of the Cable Fee Support to Information Technology Fund Budget Control Level is to authorize the transfer of resources from the Cable Television Franchise Fund to the Seattle Information Technology Department's Information Technology Fund. These resources are used by the department for a variety of programs consistent with Resolution 30379.

Program Expenditures	2020 Actuals	2021 Adopted	2022 Proposed
Cable Franchise for Info Tech	6,199,140	7,171,058	6,414,265
Total	6,199,140	7,171,058	6,414,265

Office of Intergovernmental Relations

Lily Wilson-Codega, Director

(206) 684-0213

<http://www.seattle.gov/oir>

Department Overview

The Office of Intergovernmental Relations (OIR) provides advice and information to, and on behalf of, City elected officials, City departments, and external partners. The primary goal of these efforts is to ensure the City's interests are advanced with regional, state, federal, tribal, and international entities to enable the City to better serve the Seattle community.

OIR is also responsible for engaging with other jurisdictions and governmental entities to collaborate and advocate for outcomes that are in the interest of the City and region. OIR implements and manages lobbying contracts and ensures the City's lobbying resources align with the City's strategic advocacy priorities.

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed
Department Support			
General Fund Support	3,074,834	2,810,942	3,059,062
Total Operations	3,074,834	2,810,942	3,059,062
Total Appropriations	3,074,834	2,810,942	3,059,062
Full-Time Equivalents Total*	10.00	9.00	10.00

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here.*

Budget Overview

The 2022 Proposed Budget restores funding to the Office of Intergovernmental Relations (OIR) after the 2021 Adopted Budget reduced funding in the following areas: state lobbying contracts, membership dues to the Association of Washington Cities (AWC), and travel and conference costs. Additionally, the proposed budget provides OIR with an additional pocket for the department's state lobbying body of work. There is no new increase in appropriation authority proposed. Finally, the proposed budget includes Citywide technical adjustments related to internal services costs and personnel costs.

Office of Intergovernmental Relations

Incremental Budget Changes

Office of Intergovernmental Relations

	Dollars	FTE
2021 Adopted Budget	2,810,942	9.00
Baseline		
Citywide Adjustments for Standard Cost Changes	19,503	-
Baseline Adjustments for Personnel Costs	43,117	-
State Lobbying Contracts Restoration	118,000	-
Association of Washington Cities Membership Restoration	57,500	-
Travel and Conference Budget Restoration	10,000	-
Proposed Operating		
State Lobbyist Pocket Add	-	1.00
Total Incremental Changes	\$248,120	1.00
Total 2022 Proposed Budget	\$3,059,062	10.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$19,503

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures \$43,117

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

State Lobbying Contracts Restoration

Expenditures \$118,000

This item is a restoration of appropriation authority of \$118,000 to the Office of Intergovernmental Relations (OIR). In 2021, OIR took a one-time reduction in appropriation authority of \$118,000, due to significant revenue losses from the COVID-19 economic and public health crises. This reduction was associated with reduced department resources for representation and lobbying abilities in Olympia, WA, and one-time resources were identified to temporarily fill this need in 2021. This item restores the one-time reduction on an ongoing basis.

Office of Intergovernmental Relations

Association of Washington Cities Membership Restoration

Expenditures	\$57,500
--------------	----------

This item is a restoration of appropriation authority of \$57,500 to the Office of Intergovernmental Relations (OIR). In 2021, OIR took a one-time reduction in appropriation authority of \$57,500, due to significant revenue losses from the COVID-19 economic and public health crises. This reduction was associated with a 50% reduction of 2021 membership dues to the Association of Washington Cities (AWC). This item restores the one-time reduction.

Travel and Conference Budget Restoration

Expenditures	\$10,000
--------------	----------

This item is a restoration of appropriation authority of \$10,000 to the Office of Intergovernmental Relations (OIR). In 2021, OIR took a one-time reduction in appropriation authority of \$10,000, due to significant revenue losses from the COVID-19 economic and public health crises. This reduction was associated with reduced travel and conference expenses in 2020 and 2021, which expect to return in 2022. This item restores the one-time reduction.

Proposed Operating

State Lobbyist Pocket Add

Position Allocation	1.00
---------------------	------

This item creates a 1.0 FTE Strategic Advisor 2, Exempt pocket in the Office of Intergovernmental Relations (OIR). This add will help to ensure that all regular OIR positions can be filled with qualified candidates. No increase in appropriation authority is needed to fund this position.

Office of Intergovernmental Relations

Expenditure Overview

Legislative Department

M. Lorena González, Council President

(206) 684-8888 TTY: (206) 233-0025

<http://www.seattle.gov/council/>

Department Overview

The Legislative Department is comprised of the Seattle City Council, as well as two primary divisions: Central Staff and the Office of the City Clerk. Each division supports various aspects of the Council and works with members of the public and City departments to facilitate and develop effective and responsive public policy. The Council and Legislative Department are part of the legislative branch of government, which also includes the Office of City Auditor, the Office of Hearing Examiner, and the Office of Inspector General for Public Safety.

The Council is composed of two at-large and seven district-elected seats for a total of nine, nonpartisan, elected Councilmembers. In November 2019, seven district Councilmembers were elected to a four-year term beginning in 2020. Two at-large Councilmembers are elected to align with the election for a four-year term with the Mayor and City Attorney election in 2021. This approach staggers the district and at-large elections two years apart.

The City Council establishes city laws; creates, evaluates and approves policies, legislation, and regulations; approves the City's annual operating and capital improvement budgets; and provides oversight to the City's executive departments. Each Councilmember has a staff of legislative assistants who assist in this work.

Central Staff provides policy and budget analysis for Councilmembers and their staffs, as well as consultant contract services for the Legislative Department. The Office of the City Clerk advances principles of open government and inclusive access through effective facilitation of the legislative process and transparent, accountable stewardship of public information and the official record, including City Council proceedings and legislation. The City Clerk serves as ex-officio elections administrator and filing officer. The office manages the City's Boards and Commissions Registry Program; coordinates public records disclosure requests; and provides information technology, administrative and operational support to the Legislative Department.

Communications and Human Resources/Finance teams are also a part of the Legislative Department. Communications staff assist Councilmembers and the Council as a whole in communicating values, goals and issues to the public by providing marketing and public relations services, including website and social media management, strategic media relations and public affairs work. Human Resources/Finance staff provide employee relations, talent acquisition, employee development, performance management, benefits administration services, finance, budget, accounting, and payroll for the Legislative Department and Office of City Auditor.

Legislative Department

Budget Snapshot

	2020 Actuals	2021 Adopted	2022 Proposed
Department Support			
General Fund Support	18,559,193	18,441,784	19,060,165
Total Operations	18,559,193	18,441,784	19,060,165

Full-Time Equivalents Total*	100.50	100.50	100.50

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The 2022 Proposed Budget includes technical adjustments to bring the department's baseline budget into alignment with internal service cost changes and the removal of one-time items added in prior year budgets. In addition, the proposed budget restores General Fund that had been cut following COVID-19 related revenue losses in 2020 and 2021; this funding will support ongoing personnel and operating expenses.

Legislative Department

Incremental Budget Changes

Legislative Department

	Dollars	FTE
2021 Adopted Budget	18,441,784	100.50
Baseline		
Citywide Adjustments for Standard Cost Changes	328,381	-
One-Time Items	(210,000)	-
Proposed Operating		
Restore General Fund	500,000	-
Total Incremental Changes	\$618,381	-
Total 2022 Proposed Budget	\$19,060,165	100.50

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$328,381

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for Judgement and Claims, healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

One-Time Items

Expenditures \$(210,000)

This item includes budget adjustments for one-time changes in the 2021 Adopted Budget including:

- (\$60,000) added to supplement funding for a King County survey on human service wage inequities; and
- (\$150,000) to fund a Transportation Impact Fee Study.

Proposed Operating

Restore General Fund

Expenditures \$500,000

This item restores \$500,000 of General Fund reductions that were taken in the 2021 Adopted Budget due to COVID-19 related revenue losses.

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Legislative Department Budget Summary Level:

Central Staff

The purpose of the Central Staff Program is to provide high-quality, objective research and analysis to the Council and its individual members on a variety of policy and budget issues, as well as consultant contract services for the Legislative department.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
Central Staff	3,365,180	3,560,685	3,577,027
Full Time Equivalents Total	19.00	19.00	19.00

City Clerk

The purpose of the City Clerk Program is to support and facilitate the City's legislative process in compliance with the Open Public Meetings Act; manage the City's Records Management Program and ensure public access to the City's records; preserve the City's official and historical records in compliance with the Public Records Acts; manage the City's Boards and Commissions Registry; serve as the City's ex officio elections officer; and provide information technology, administrative and operational support to the Legislative Department.

Expenditures/FTE	2020 Actuals	2021 Adopted	2022 Proposed
City Clerk	4,010,941	3,821,245	3,845,327
Full Time Equivalents Total	27.50	27.50	27.50

City Council

Legislative Department

The purpose of the City Council Program is to set policy; review, consider and determine legislative action; approve the City's budget; and provide oversight of City departments. The goal of the City Council is to be transparent, effective and accountable, as well as to promote diversity and health of all neighborhoods. This program consists of the nine Councilmembers, their Legislative Assistants and the Communications staff.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
City Council	7,103,118	6,363,620	6,692,324
Full Time Equivalents Total	49.00	49.00	49.00

LEG - BO-LG-G2000 - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the department.

Program Expenditures	2020	2021	2022
	Actuals	Adopted	Proposed
Citywide Indirect Costs	2,842,721	2,897,642	3,099,241
Departmental Indirect Costs	1,237,234	1,798,592	1,846,246
Total	4,079,955	4,696,234	4,945,487
Full-time Equivalents Total*	5.00	5.00	5.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Citywide Indirect Costs	2,842,721	2,897,642	3,099,241

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

	2020	2021	2022
Expenditures/FTE	Actuals	Adopted	Proposed
Departmental Indirect Costs	1,237,234	1,798,592	1,846,246
Full Time Equivalents Total	5.00	5.00	5.00

Office of the Mayor

Jenny A. Durkan, Mayor

(206) 684-4000

<http://www.seattle.gov/mayor/>

Department Overview

The Office of the Mayor works to provide leadership to the residents, employees, and regional neighbors of the City of Seattle and to create an environment that encourages ideas, civic discourse, and inclusion for the City's entire diverse population.

In the municipality of Seattle, the Mayor governs the Executive Branch as its chief executive officer. The many legal roles and responsibilities of the Mayor, and those working directly for the Mayor, are prescribed in the City Charter, state statutes and municipal ordinances. Elections for this nonpartisan office are held every four years.

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The 2022 Proposed Budget for the Office of the Mayor's budget has no significant changes and continues existing staffing and services, with technical adjustments made to Citywide charges and personnel costs.

Office of the Mayor

Incremental Budget Changes

Office of the Mayor

	Dollars	FTE
2021 Adopted Budget	7,440,359	39.50
Baseline		
Citywide Adjustments for Standard Cost Changes	89,101	-
Baseline Adjustments for Personnel Costs	108,814	-
Revenue Adjustments	-	-
Total Incremental Changes	\$197,915	-
Total 2022 Proposed Budget	\$7,638,274	39.50

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$89,101

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Baseline Adjustments for Personnel Costs

Expenditures \$108,814

This centrally administered change adjusts appropriations to restore the annual wage increase for non-represented Executives, Managers and Strategic Advisors, which was forgone in 2021 due to financial constraints.

Revenue Adjustments

Revenues \$(142,803)

This item adjusts the Mayor's Office budget by removing revenue associated with salary donation back to the City.

<i>Ending Unreserved Budgetary Fund Balance</i>	848	741	1,097	574	0	0	0

Assumptions

¹ Revenue projections reflect a continuing decline in Franchise Fees and associated PEG revenues. In addition, one of the three Cable providers, CenturyLink, ended its Cable service as of 12/31/20, with only a modest amount of Nov/Dec franchise fee revenue from CenturyLink arriving in 2021.

² 2021 Revenues came from a \$150,000 settlement with CenturyLink to wrap up that franchise agreement plus one-time corrective payments from Comcast for prior year shortfalls for Franchise Fees & PEG.

³ This represents a transfer from ITD fund 50410. The refund shown for 2020 is estimated and still being reviewed.

⁴ Seattle IT has no outstanding Interfund loans affecting cable fund. This is the interest paid on interfund loans made from the [Information Technology Fund (50410)] to the [Cable TV Franchise Fund (10101)] that were open in 2020. The loans and the interest were both paid in December 2020.

⁵ Placeholder for potential impacts of FCC Order 621; franchise fees and in-kind donations.

Footnotes

SPR will evaluate options to address increased base operating costs due to inflation as part of its next MPD 6-year planning cycle.

The outyears of the financial plan do not make any assumptions regarding increases to SPR's fees and charges. Once the City emerges from the COVID-19 pandemic and decision are made regarding the next MPD spending plan, SPR will assess its fees & charges to consider inflationary and/or other changes.

Move Seattle Levy (10398)

Notes

1. For the design and construction of specific tenant improvement projects at approved sites to bring classrooms up to licensable status
2. Primm will be expanding the center to add three classrooms in addition to remodeling and renovating their building. This award is a legacy SPP Levy Grant.
3. Summer Extension is a program to help address the learning loss caused by COVID-19 and to better prepare current preschoolers, especially rising kindergarteners, for the fall
4. Funding for three additional SPP classrooms, serving an additional 55 students, until the 2025-26 SY

Notes:

1. Outyear property tax growth estimated at 1% based on CBO forecast.
2. 2021 Supplemental Changes through June 2, 2021
3. 2021 Property Tax matches FAS correction for 2020 error
4. 2022 labor cost reserves set aside for pending wage changes (excluded from expenditures; ties to FEPP I&E Plan totals)
5. 2023-2025 expenditure growth rate matches the FEPP implementation plan
6. 2021 K-12 projected underspend is primarily in Policy and Program Support due to high personnel vacancy rates
7. 2021 Early Learning projected underspend is primarily due to lower than anticipated utilization of preschool slots and low utilization of quality teaching programming
8. Reserves against fund balance provides resources to continue FEPP programming in 2026 and was anticipated in the levy
9. Reserves to Sustain Programming use prior year underspend to sustain increased programming and costs not anticipated in the original levy

1 - Per CBO, 2012 levy estimated to collect 99.6% of total levied amount. Revenues collected in 2020 and beyond are delinquent payments of prior year taxes.

2 - Per CWA, 2020 revenues were overstated by \$59.2k. These revenues have been adjusted in 2021.

3 - SPL has set aside remaining fund balance from the 2012 levy for its capital program to address construction inflation and unforeseen emergent projects

Footnotes

The first cycle of the Park District ended in 2020 (2015-2020). Due to the COVID-19 pandemic, development of the next cycle was delayed until 2022. 2022 property taxes will be held to 2021 collection levels plus inflation. SPR will begin development of the next cycle of the Park District Financial Plan in 2022 for 2023-2028. Numbers for the 2023-2028 outyears are for illustrative purposes only.

Notes:

¹ 2020 beginning fund balance is the cash balance on January 1, 2020.

² 2020 actual revenues do not include fair market value (non-cash) or RSA surcharge revenues and will differ from total revenues in Peoplesoft.

³ A portion of the legislated 2021 adjustments are spread into various revenue and expenditure categories. Revised revenues include bond sales.

⁴ Out year assumptions represent forecasted cash flows in the utility's Financial Planning Model which is used to evaluate City Light rate impacts, potential bond offerings, and the overall financial performance of the utility.

(1) Please note that SPU's 2020 ending fund balance / 2021 starting fund balance reflects the current assets (operating cash and equity in pooled investments) and includes cash on hand, petty cash, revolving funds, change funds, and the net increase or decrease in the value of investments.

(2) Water Fund Total Budgetary Revenues (Row 38) includes transfers from the construction fund, a transaction that is not recorded in the Budget Book tables and is otherwise considered a form of contribution from fund balance.

(3) Please note that SPU revenues are determined assuming that the capital improvement program will only achieve approximately 85% of the budgeted expenditures. SPU applies this assumption in order to keep rates as low as possible for ratepayers. SPU is including the underspending assumption in the "Planning Reserves" line above to reflect that we are projected to end the year with positive fund balance.

(4) SPU is providing the 2021-2026 SBP assumptions for the 2023 to 2025 out-year projections because that is the currently endorsed path. However, the rate forecast is based on the adopted rate study that used slightly revised projections for taxes, debt service, and major service contracts. Including the revised forecast would show higher positive year-end fund balances.

(1) Please note that SPU's 2020 ending fund balance / 2021 starting fund balance reflects the current assets (operating cash and equity in pooled investments) and includes cash on hand, petty cash, revolving funds, change funds, and the net increase or decrease in the value of investments.

(2) Drainage and Wastewater Total Budgetary Revenues (Row 35) includes: transfers from the Construction Fund, King County reimbursements, and contributions from the Public Works Transfer Fund. These transactions are not recorded in the Budget Book tables and are otherwise considered contributions from fund balance.

(4) Please note that SPU revenues are determined assuming that the capital improvement program will only achieve approximately 85% of the budgeted expenditures - 95% on the Ship Canal Water Quality Project. SPU applies this assumption in order to keep rates as low as possible for ratepayers. SPU is including the underspending assumption in the "Ending Balance Sheet" line above to reflect that we are projected to end the year with positive budgetary fund balance.

(3) SPU is providing the 2021-2026 SBP assumptions for the 2023 to 2025 out-year projections because that is the currently endorsed path. However, the rate forecast is based on the adopted rate study that used slightly revised projections for taxes, debt service, and major service contracts, which are higher in the SBP projections shown above. Including the revised, lower forecast would show positive year-end fund balances.

¹ Assumes annual increases of 2% for revenues and 2.5% for expenditures.

² Assume full collection of external revenue projections.

³ Assumes emergency expenditures recovered in full from FEMA and/or CRF. Assumes \$4.9 million of net CRF distributed to the FAS Fund in 2021.

⁴ Assumes FEMA/emergency reimbursement of \$2.8M in 2021, \$3M in 2022, and \$3M in 2023.

⁵ Vaccine Center costs and revenue in Q2 2021 supplemental.

⁶ CBO is requesting that City Council authorize an interfund loan of up to \$10 million (\$8 million from the Fleet Capital Fund and \$2 million from the Wheelchair Accessible Fund) to the Finance and Administrative Services Fund, to be repaid within three years to avoid a permanent diversion of funds in compliance with BARS Section 3.9.1.

Assumptions:

¹Rates: Allocated: Revenues in the out years include revenues to be collected for un-funded items added late in the 2022 budget and for CPRA Transfer from FAS in addition to standard inflation per CBO.

²Billable Project Revenues: Double budget appropriation for IT Project Management resources that are not assigned to specific Projects.

³ITD's Cost of Technology Consumption: ITD's consumption of ITD projects and services. Represents intra-fund (50410) revenue.

⁴Non-City Agency Revenues: Revenue collected from Agencies outside of the City of Seattle (e.g., King County).

⁵Rates Direct Billed (2020 CIP Carryforward Items): Unspent CIP budget, carried forward from FY 2020 to FY 2021, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).

⁶Rates Direct Billed (2020 Operating Carryforward Items): Unspent operating budget, carried forward from FY 2020 to FY 2021, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).

⁷Rates: Direct Billed (2020 Grants Carryforward): Unspent Rainier Beach Grant budget, carried forward from FY 2020 to FY 2021, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).

⁸Q2 Supplemental includes MCIS bond proceeds from 2020 and un-collected Direct Billed revenues from abandoned CIP budget.

⁹One-Time Projects: Reserves for various one-time ITD projects.

¹⁰Expenditures in the out years are reflecting the real debt service schedule in the out years instead of standard inflation per CBO.

¹¹Current Year Grant/Svc Contract/Capital CFD Revenues: Includes the direct billed revenues to be collected in FY 2021 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), Encumbrances, Grants, and Special Carryforward budgets.

¹²Current Year Grant/Svc Contract/Capital Expenditure CFD's: Includes the allocated revenues collected in FY 2020 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), and Special Carryforward budgets.

¹³Computer Replacement: PC replacements for various departments, including the Law Department which replaces all of its PCs every five years, versus a portion each year.

¹⁴CIP Delayed Revenue Collection: Revenues Seattle IT was unable to collect in 2020 that will be collected in 2021.

¹⁵Revenue for Un-funded Items Added Late in the 2022 Budget: These items were added late in the budget process and did not include revenue for 2022. Revenue collection is reflected in the out years.

Note:

ORD 126227 authorized an interfund loan of \$25 million from the Information Technology Fund (54010) to the Transportation Fund (13000), to be repaid within four years to avoid a permanent diversion of funds in compliance with BARS Section 3.9.1.

Cost Allocation Tables:

These tables provide information about how the City allocates internal service costs (i.e. overhead provided by City agencies to other City agencies) to customer agencies.

Cost Allocation

Central Service Departments and Commissions - 2022 Cost Allocation Factors

Central Service Department	Cost Allocation Factor
City Auditor	Audit hours spent on direct department projects averaged over prior two-year period.
City Budget Office	Percent of FTE time spent on cost allocation departments/funds.
Civil Service Commission	Five-year average number of cases by department.
Office of Civil Rights	Enforcement: 3-year average number of cases filed by department. RSJI: Percent of Department Trainings Policy: 100% General Fund
Office of Employee Ombud	Budgeted FTE by department.
Office of Intergovernmental Relations	Staff time and assignments by department.
Office of Sustainability and Environment	Management assessment of FTE time on work programs.
Department of Finance and Administrative Services	Various factors and allocations. See Appendix B(1) for details on services, rates, and methodologies.
Seattle Information Technology	Various factors and allocations. See Appendix B(2) for details on services, rates, and methodologies.
Law Department	Two-year average of civil attorney and paralegal service hours by department (excludes hours that are covered by direct billing via MOAs), including proportionate amount of overhead.
Legislative Department	City Clerk's Office based on number of Legislative items; Central Staff and Legislative Assistants on assignments; City Council 100% General Fund or by MOA* and City Clerk based on workload.
Seattle Department of Human Resources	Various factors and allocations. See Appendix B(3) for details on services, factors, and methodologies.
State Examiner (State Auditor)	75% by PeopleSoft data points; 25% by budgeted FTEs.
Emergency Management	Actual expenditure dollar spread.

*Memorandum of Agreement (MOA) on charges

Glossary

Appropriation: A legal authorization granted by the City Council, the City's legislative authority, to make expenditures and incur obligations for specific purposes.

Biennial Budget: A budget covering a two-year period. Under state law, a biennium begins with an odd-numbered year.

Budget - Adopted and Proposed: The Mayor submits to the City Council a recommended expenditure and revenue level for all City operations for the coming fiscal year as the Proposed Budget. When the City Council agrees upon the revenue and expenditure levels, the Proposed Budget becomes the Adopted Budget, funds are appropriated, and legal expenditure limits are established.

Budget - Endorsed: The City of Seattle implements biennial budgeting through the sequential adoption of two one-year budgets. When adopting the budget for the first year of the biennium, the Council endorses a budget for the second year. The Endorsed Budget is the basis for a Proposed Budget for the second year of the biennium, and is reviewed and adopted in the fall of the first year of the biennium.

Budget Control Level: The level at which expenditures are controlled to meet State and City budget law provisions.

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City's budget for certain capital purposes such as street improvements, building construction, and some kinds of facility maintenance. These appropriations are supported by a six-year allocation plan detailing all projects, fund sources, and expenditure amounts, including many multi-year projects that require funding beyond the one-year period of the annual budget. The allocation plan covers a six-year period and is produced as a separate document from the budget document.

Chart of Accounts: A list of expenditure, revenue, and other accounts describing and categorizing financial transactions.

Community Development Block Grant (CDBG): A U.S. Department of Housing and Urban Development (HUD) annual grant to Seattle and other local governments to support economic development projects, human services, low-income housing, and services in low-income neighborhoods.

Comprehensive Annual Financial Report of the City (CAFR): The City's annual financial statement prepared by the Department of Finance & Administration.

Cost Allocation: Distribution of costs based on some proxy for costs incurred or benefits received.

Cumulative Reserve Subfund (CRS): A significant source of ongoing local funding to support capital projects in general government departments. The CRS consists of two accounts: the Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has six subaccounts: REET I, REET II, Unrestricted, South Lake Union Property Proceeds, Asset Preservation Subaccount - Fleets and Facilities, and the Street Vacation Subaccount. The Real Estate Excise Tax (REET) is levied on all sales of real estate, with the first .25% of the locally imposed tax going to REET I and the second .25% to REET II. State law specifies how each REET can be spent.

Debt Service: Annual principal and interest payments the City owes on money it has borrowed.

Errata: Adjustments, corrections, and new information sent by departments through the City Budget Office to the City Council during the Council's budget review as an adjunct to the Mayor's Proposed Budget. The purpose is to adjust the Proposed Budget to reflect information not available upon submittal and to correct inadvertent errors.

Glossary

Full-Time Equivalent (FTE): A term expressing the amount of time for which a position has been budgeted in relation to the amount of time a regular, full-time employee normally works in a year. Most full-time employees (1.00 FTE) are paid for 2,088 hours in a year (or 2,096 in a leap year). A position budgeted to work half-time for a full year, or full-time for only six months, is 0.50 FTE.

Fund: An accounting entity with a set of self-balancing revenue and expenditure accounts used to record the financial affairs of a governmental organization.

Fund Balance: The difference between the assets and liabilities of a particular fund. This incorporates the accumulated difference between the revenues and expenditures each year.

General Fund: A central fund into which most of the City's general tax revenues and discretionary resources are pooled, and which is allocated to support many of the operations of City government. Beginning with the 1997 Adopted Budget, the General Fund was restructured to encompass a number of subfunds, including the General Fund Subfund (comparable to the "General Fund" in prior years) and other subfunds designated for a variety of specific purposes. These subfunds are listed and explained in more detail in department chapters, as well as in the Funds, Subfunds, and Other section of the budget document.

Grant-Funded Position: A position funded 50% or more by a categorical grant to carry out a specific project or goal. Seattle Municipal Code 4.04.030 specifies that "categorical grant" does not include Community Development Block Grant funds, nor any funds provided under a statutory entitlement or distribution on the basis of a fixed formula including, but not limited to, relative population.

Neighborhood Matching Subfund (NMF): A fund supporting partnerships between the City and neighborhood groups to produce neighborhood-initiated planning, organizing, and improvement projects. The City provides a cash match to the community's contribution of volunteer labor, materials, professional services, or cash. The NMF is administered by the Department of Neighborhoods.

Operating Budget: That portion of a budget dealing with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

Position/Pocket Number: A term referring to the title and unique position identification number assigned to each position authorized by the City Council through the budget or other ordinances. Positions may have a common title name, but each position has its own unique identification number assigned by the Records Information Management Unit of the Seattle Department of Human Resources at the time position authority is approved by the City Council. Only one person at a time can fill a regularly budgeted position. An exception is in the case of job-sharing, where two people work part-time in one full-time position.

Program: A group of services within a department, aligned by common purpose.

Reclassification Request: A request to change the job title or classification for an existing position. Reclassifications are subject to review and approval by the Classification/Compensation Unit of the Seattle Department of Human Resources and are implemented upon the signature of the Director of Human Resources, as long as position authority has been established by ordinance.

Reorganization: Reorganization refers to changes in the budget and reporting structure within departments.

SUMMIT: The City's central accounting system managed by the Department of Finance & Administration.

Sunsetting Position: A position funded for only a specified length of time by the budget or enabling ordinance.

TES (Temporary Employment Service): A program managed by the Seattle Department of Human Resources. TES places temporary workers in departments for purposes of filling unanticipated, short-term staffing needs, such as vacation coverage, positions vacant until a regularly-appointed hire is made, and special projects.

Type of Position: There are two types of budgeted positions. They are identified by one of the following characters: **F** for Full-Time or **P** for Part-Time.

Glossary

- **Regular Full-Time** is defined as a position budgeted for 2,088 compensated hours per year, 40 hours per week, 80 hours per pay period, and is also known as one full-time equivalent (FTE).
- **Regular Part-Time** is defined as a position designated as part time, and requiring an average of 20 hours or more, but less than 40 hours of work per week during the year. This equates to an FTE value of at least 0.50 and no more than 0.99.

Reader's Guide to the 2022-2027 Proposed Capital Improvement Program

The City of Seattle's 2022-2027 Proposed Capital Improvement Program (CIP) includes an overview, departmental sections, appendices, and a glossary. The overview provides information on the CIP, allocations, funding sources for capital projects, significant initiatives, support for neighborhoods and neighborhood plan projects, and policies guiding the City's capital investments.

Departmental sections comprise most of the CIP document and contain detailed information on each of the capital projects. The following departments have sections in this book: Seattle Parks and Recreation, Seattle Center, Seattle Public Library, Seattle Department of Transportation, Seattle City Light, Seattle Public Utilities, Seattle Information Technology, and Finance and Administrative Services. Appendix A lists new or expanded capital facilities as required by the Growth Management Act. Appendix B lists all projects that will exceed \$5 million with their 2022 appropriation as required by Resolution 31203.

Reading CIP Project Pages

CIP project pages, located in the departmental sections of the CIP, provide the most detailed information about a project. The project pages contain the following information:

Project Type: Projects will have one of three project types: Discrete, Ongoing, or Debt Service. Discrete projects are those with a distinct start and end date and build an individual asset. Ongoing CIP projects are departmental CIP programs that build or maintain a group of similar assets. Debt Service projects show the dedicated funding stream to pay the debt service for a project or group of projects.

Project No.: Unique number identifying a project in the City's financial management system.

Start/End Date: Estimated Start and End year of a discrete project. Projects without a determined start or end date may show as "TBD" or "On Hold." Projects categorized as "Ongoing" in the Project Type field are programmatic and continue year after year, therefore they do not display a Start/End Date.

BCL (Budget Control Level)/Program Code, BCL/Program Name: A grouping of similar projects into department-specific programs. Also reflects the level at which expenditures are controlled to meet state budget law provisions.

Current Project Stage: The current stage of a discrete CIP project during budget planning (August of the budget development year).

Stage 1—Pre-project Development: All master planning, asset planning, and needs identification. Rough order of magnitude cost estimate¹ for CIP budget established at the end of Stage 1.

¹ The City's budget ordinance requires that a project be assigned a CIP ID number before spending may occur on a project. As a result, Stage 1 project cost estimates/budgets are "Rough Order of Magnitude" estimates based on previously constructed projects or high-level cost estimates which use generic assumptions. Departments refine cost estimates at the end of Stage 2.

Stage 2—Initiation, Project Definition & Planning: Define project and create Project Management Plan (or pre-design package) which sets the project baseline (scope, schedule and budget) from which a department measures variance.

Stage 3—Design: 30%-100% design work.

Stage 4—Procurement/Bid: Advertisement, bid review, bid award, and Notice to Proceed.

Stage 5—Construction: All construction activities. (Note: The term *Execution* is used for Seattle Information Technology).

Stage 6—Closeout: Final project closeout items, includes financial closeout.

Project Category: Projects are identified as New Facilities, Improvements to Existing Facilities, or Rehabilitation or Restoration of Existing Facilities. Technology projects, or those that do not fit into the categories above, are identified as New Investments.

Location: Street address, intersection, or general location of a project.

Neighborhood District: The City is divided into 13 neighborhood districts. This field indicates in which (if any) neighborhood district(s), a project is located. Some projects are located in more than one neighborhood district or outside the city and are noted as such.

Council District: The City is divided into seven Council districts. This field indicates in which (if any) council district(s), a project is located. Some projects are located in more than one council district or outside the city and are noted as such.

Total Project Cost: The expected total project cost estimate of a Discrete project. The Total Project Cost includes any “out year” spending (spending outside the current six-year CIP).

Urban Village: This field indicates whether a project is located in an Urban Village, a designated geographic area expected to accommodate future population and job growth, as defined by the Comprehensive Plan’s growth management strategy.

Project Description: Information about the purpose, scope, and history of the project.

Resources: The Resources are sources of money supporting a particular project such as grants, private donations, debt, Real Estate Excise Taxes, etc. The Resources Table lists the project’s revenue sources, life-to-date (LTD) expenditures through the prior year; the current year revised budget (including Adopted Budget, carry-forward balances, abandonments, and supplemental appropriations); proposed/adopted appropriations; and estimated appropriation requests for the remaining five years of the CIP period.

Fund Appropriations/Allocations: This table lists the appropriating funds and the annual appropriation total for that specific project for the current year and adopted budget year.

Financial Planning Strategy: The financial planning strategy section appears on CIP Project Pages for discrete projects that are large enough to be part of the Project Cost Estimate Review and Validation

Process, as described in the CIP Overview. The financial planning strategy discusses the overall funding plan for the life of the project.

Unsecured Funding: The “Unsecured Funding” table shows the portion of the project cost that does not have committed funding. The “Unsecured Funding Strategy” discusses the department’s plan to secure funding for that portion of the project.

O&M Costs (Savings): Description of estimated increases or decreases in operations and maintenance costs as a result of a capital project. “NA” denotes that operations and maintenance costs are not calculated.

Capital Improvement Program

Overview

Capital Improvement Program Purpose

The Capital Improvement Program (CIP) is a six-year financial planning tool that identifies future capital investments and potential strategies for funding those investments. The CIP also satisfies various requirements of cities planning under Washington State's Growth Management Act.

Introduction

The City of Seattle owns and operates a variety of physical assets, ranging from community parks, roadways, bridges, office buildings, libraries, open space, fire stations, maintenance yards, facilities at Seattle Center, and more. The City must properly maintain these assets in order to ensure they are safe, lasting, and provide a welcoming and usable space to serve their intended purposes. The City's utility infrastructure is also included in the CIP, including electric, solid waste, water and wastewater utility assets. The City's capital infrastructure supports City operations, direct public services and programs, and in some cases, provides direct public benefits themselves.

Every year during the annual budget process, the City adopts a six-year CIP, which outlines anticipated investments over that timeframe. The 2022-2027 Proposed CIP totals \$6.98 billion over six years, with approximately \$1.4 billion of that amount designated for the 2022 budget year.

The 2022-2027 Proposed CIP document is a compilation of all legislative CIP adjustments made during 2021. This includes all legislative action that occurred in the following periods:

- Adjustments made prior to the transmission of the 2022-2027 Proposed CIP from the Mayor to the City Council including:
 - 2021 Midyear Supplemental budget adjustments,
 - 2021 Year-end Supplemental budget adjustments (proposed),
 - Stand alone legislation and administrative adjustments made prior to the year-end Supplemental.

All allocation totals listed in this document are the sum total of the project adjustments made in the periods listed above.

Capital Planning Policies

The City has historically based capital planning efforts on a set of criteria that help set priorities among potential capital programs. [Resolution 31203](#), adopted in June 2010, set out the following policies to guide the City's capital spending:

- preserve and maintain existing capital assets;
- support the goals of the City's plans;
- support economic development;
- consider external funding possibilities;
- consider revenue-generating possibilities;
- seek regional funding for regional projects;
- pursue cost-saving commitments; and,
- pursue conservation and sustainability investments.

Additional specific considerations include:

- compliance with regulatory requirements;
- coordination between departments and with other jurisdictions; and
- public safety and health.

Project Cost Estimate Review and Validation Process

The 2022-2027 Proposed CIP continues to incorporate the process that was developed in 2019 through the work of the capital departments Directors group. This process reflects an improved approach to budgeting for large, discrete CIP projects in early stages of development and provides Council and the public with a better understanding of the risk and uncertainty associated with each of the projects.

The key elements of the process are:

- Discrete projects with an initial rough order of magnitude total project cost estimate over \$10 million will show a range of possible costs rather than an exact dollar estimate.
- Departments will appropriate and budget the estimated cost to reach 100% design, as shown on the CIP Project Page. They will also plan for, and communicate the remaining construction costs by using a midrange “Financial Planning Estimate” for six-year financial planning purposes.
- At the 30% design milestone, the project will be baselined and a total project cost and project schedule will be established. During the next budget cycle (or any subsequent Council action) the department will budget the full total project cost on the CIP Project Page.
- If the baseline total project cost estimate is under \$50 million the project will proceed through capital project delivery process according to historic practice.
- If the 30% baseline total project cost is over \$50 million, the department will initiate a third-party review of the baseline total project cost estimate. The department will bring the results of the third-party cost estimate review to the Project Delivery Executive Committee and/or the Directors’ Capital Committee to determine the next steps.

The Cost Estimate Review and Validation process will be modified according to the findings of the initial pilot projects being used to improve the concept.

Capital Improvement Program Funding

Like all large municipalities, Seattle relies on a variety of sources to pay for capital projects. These include locally generated revenues (taxes, fees, voter-approved levies, utility rates, and user fees), intergovernmental revenues (including state and federal grants), private funding (franchise utilities, philanthropy) and debt issuance. These traditional sources continue to provide the majority of funding for capital facility investments. The City’s level of capital investment is based on the mix and amount of financial resources available to the City.

Debt Financing

The City uses multiple forms of debt to finance large capital projects such as Limited Tax General Obligation Bonds (LTGO) also known as councilmanic bonds, Unlimited Tax General Obligation Bonds (UTGO) or voter-approved bonds, and revenue bonds. Unlike pay-as-you-go sources of funding, the issuance of debt requires revenues in future years to repay the principal and interest expenses. Councilmanic debt is a common financing tool used by the City, but those obligations must be repaid from the same set of limited resources including Real Estate Excise Tax (REET), commercial parking tax

(CPT) and General Fund revenues. See the “City Bond Issuance and Debt Service” in the Introduction section of the 2022 Proposed Budget for more information on debt financing.

In 2022, the City will issue approximately \$130 million in LTGO bonds to fund significant IT, Transportation, and city facility related projects. The 2022 LTGO bond issuance includes \$44.5 million to finance a substantial portion of the West Seattle Bridge repair work. The West Seattle Bridge bond debt service will be paid for with Real Estate Excise Tax.

Public Utility Funding

Both Seattle City Light and Seattle Public Utilities fund utility projects with revenues from utility rates. Each utility has adopted financial policies that determine what share of their capital investments are funded through cash, and what share from debt. These policies are designed to balance the portion of current investments that are paid by today’s ratepayers, versus future ratepayers who will also benefit from long-term capital investments.

Real Estate Excise Tax (REET)

Funding of the City’s general government capital program is highly dependent on revenue from Real Estate Excise Tax, which is an excise tax imposed on the sale of real property. REET is a relatively volatile revenue source that generally tracks closely to local economic activity.

REET revenue declined in 2021 due to the COVID-19 pandemic, but not quite as severely as expected. The final 2021 year end REET revenue that the City collected was higher than forecasted in the fall of 2021. The 2022-2027 Proposed CIP allocates the additional REET collected in 2021 and partially restores some of the project reductions that were made in anticipation of a significant fall off in revenue due to the pandemic. A continuing pressure on the REET budget is the cost of debt service for the West Seattle Bridge Immediate Repair CIP project.

Historically the City has maintained a \$10 million REET reserve for precisely these types of economic situations. The City used \$4 million of the REET cash reserve to blunt the impact of a reduction in revenue in 2021. The 2022 Proposed Budget includes the replenishment of the REET cash reserves over the next three years.

The 2022 Proposed Budget maintains the commitment made in the 2020 budget to use \$25 million of the City’s REET revenue for capital investments in new affordable housing. While additional funding for affordable housing is clearly a priority for the City, ongoing investments in our existing facilities is necessary to support the provision of other City services and to avoid costly projects that result from neglect and deferred maintenance.

Seattle’s Recent History – Major Voter-Approved Levies and Capital Projects

In addition to reliance upon general tax sources, Seattle undertook several major capital projects during the last two decades using voter-approved funds and councilmanic debt. Voter-approved capital projects include improvements to Seattle Center and construction of new or expanded community centers and parks, new or remodeled downtown and branch libraries, new or remodeled fire facilities, parks improvements, transportation infrastructure improvements and replacement of the Elliott Bay Seawall. The following is a list recent property tax levies that are still actively funding projects:

- *The Move Seattle Transportation Levy:* The Move Seattle Levy, a nine-year \$930 million levy was approved by voters in 2015. The adopted budget appropriates \$110 million in 2021. Levy

proceeds will be used to support safe routes, congestion relief, and maintenance and repairs of the City's bridges and arterial roadways. A major financing strategy in the Move Seattle Levy is the dependence on partnerships—leveraging external resources such as state and federal grants to accomplish transportation projects such as the Madison Bus Rapid Transit (BRT) – RapidRide G Line.

- *Seattle Park District:* The passage of the Park District is the culmination of the Parks Legacy Plan project, led by the Parks Legacy Plan Citizens' Advisory Committee. The goal of the Park District is to provide long term, stable funding to support recreation programming, parks projects and the critical needs for investment in major and ongoing maintenance. In 2016, the Parks District began collecting property tax revenue, accumulating the first year of full funding for Park District projects. The Park District will provide over \$21 million in 2022 for major maintenance and capital projects.
- *The 2019 Library Levy:* A seven-year, \$219 million levy to support, maintain and improve core Library services. Included as part of the levy were resources for the preservation and maintenance of library facilities. The City Librarian and the Library Board of Trustees prepare annual progress reports that show how levy proceeds have been used each year. The levy provides an average of \$3.1 million annually for major maintenance and asset preservation projects; including maintenance necessary for building components such as roofs, floors, finishes, HVAC and mechanical systems. The levy also includes funding for earthquake retrofits at three Carnegie branches.
- *The 2008 Parks and Green Spaces Levy:* A six-year, \$146 million levy to acquire, develop, or restore, existing or new, parks, recreation facilities, cultural facilities, green spaces, playfields, trails, community gardens, and shoreline areas. This levy expired at the end of 2014, and the Seattle Park District is now providing on-going funding to help address major maintenance needs, as well as park development, at the Department of Parks and Recreation (Parks). As of the beginning of 2021 the 2008 Parks and Green Spaces Levy Fund carried a balance of \$11 million. Parks will continue to spend down existing budget authority on project identified in the Levy throughout the biennium.

Funding Dynamics for Significant Future Capital Projects

Given general resource funding challenges, the City will continue to rely on mix of general government resources and voter-approved funding packages to complete major capital projects and to secure needed funding for basic asset preservation. The City has identified several major priority areas for which significant capital investments will be needed. The following sections describe these priority areas at a high level.

Public Safety Facilities

Planning for the future of Seattle's public safety facilities is critical to maintaining the high level of service expected of Seattle Fire Department (SFD) and Seattle Police Department (SPD). Both departments have a number of large capital facility needs, such as a new Fire Station Headquarters and neighborhood precinct projects that will accommodate anticipated police staffing growth. This CIP provides funding for a new Fire Station 31 in North Seattle, as well as the replacement of the existing dock at Fire Station 5 on the downtown waterfront. A new project is established to fund seismic assessments of five public safety facilities.

Transportation

The City's existing transportation network faces an extensive backlog of major maintenance. Current funding is insufficient to maintain the City's road, bridges, signs, etc. In addition, through a series of long-term planning efforts the City has completed "Master Plans" that identify large potential investments in a transit network, bicycle facilities, freight projects and pedestrian-oriented infrastructure. The \$930 million Move Seattle Levy will address critical transportation programs such as safe routes, relief of congested roadways and maintenance and repair programs.

Waterfront

The City has developed a comprehensive plan for the improvement of Seattle's central waterfront. The removal of the Alaskan Way Viaduct provides an opportunity to reconnect the City to the waterfront and develop new open space to support the growth and economic development of central Seattle. There are five main capital projects encompassed in the Waterfront program for a total of \$737 million (not including utility costs).

Projects

The largest project—the Alaskan Way Main Corridor project—will construct a new surface street and an adjoining pedestrian promenade, providing access to the waterfront from Pioneer Square to Belltown. The Overlook Walk and East-West Connections project constructs the Overlook Walk, a new accessible connection between the Pike Place Market and the waterfront, and improvements to east-west streets connecting the waterfront and the rest of downtown Seattle. The program also includes projects to reconstruct parks located on piers along the waterfront (Waterfront Park and Pier 62) expand the Seattle Aquarium and expand the Pike Place Market.

Funding

The 2022-2027 Proposed CIP contains a mix of resources to fund these projects and other elements of the overall Waterfront redevelopment. In addition to general government resources in the form of REET, commercial parking tax, and general fund-supported debt, the funding plan calls for significant contributions from a Local Improvement District (LID), philanthropy, and WSDOT. The LID provides that property owners who benefit from the project pay a share of its cost. LID formation was approved in 2019 and will provide \$160 million of funding for the waterfront improvements.

Protecting and Creating Opportunities for Workers

The City considers not only what capital projects to fund, but also how to deliver them and achieve broader goals for fairness, equity and opportunity in the community. The Department of Finance and Administrative Services (FAS) leads several policy initiatives to ensure social responsibility and equity in the spending of City capital dollars.

Fair and equitable treatment of workers: FAS monitors and enforces fair and equitable treatment of workers in City construction contracts. In 2013, FAS increased its monitoring and enforcement of wage and labor conditions on City-contracted construction projects, including Office of Housing-financed projects. Funding was provided in 2019 to allow FAS to continue this program, including compliance monitoring for wage and labor violations for relevant projects. It also includes funding to support the Acceptable Worksite program, which trains, teaches and enforce anti-harassment and anti-bullying interventions on City-funded construction projects.

Reduce barriers to construction jobs: The City’s spending on major capital investments can help drive employment within the local economy. Construction jobs and related positions offer living-wage jobs that can support individuals and families. The City’s Priority Hire program provides training and opportunities for City residents to work on City-funded capital projects. For major capital projects, City contractors are bound by the City’s Community Workforce Agreement, which is intended to increase employment for women, people of color and those living in economically distressed areas of the City through establishment of aspirational and mandatory labor hours for the respective groups. In 2017, the Priority Hire program was expanded to include application on public-private partnership projects with significant City investment such as the Climate Pledge Arena project and the Ocean Pavilion (Seattle Aquarium Expansion) project. Again in 2022, the Priority Hire program will be expanded with \$1 million of funding awarded through the Equitable Communities Initiative Taskforce and \$500,000 of the total investments in workforce development.

Women and Minority Owned Business (WMBE): The City continues to successfully address contracting equity for minority- and women- owned businesses. In 2011, FAS implemented a Citywide requirement on all public work bids and contracts above \$300,000 called the “Public Works WMBE Inclusion Plan” that continues to effectively encourage and enforce commitments by contractors to use WMBE firms. In 2014, FAS launched prompt pay initiatives which our WMBE firms report as very significant and meaningful for their business cash flow. The 2022 Proposed Budget further adds funding added in the 2019 Adopted Budget for FAS to procure technical assistance services for firms interested in doing business with the City, emphasizing assistance to WMBE firms. The objective is to provide WMBE firms with business and technical guidance that helps them compete more successfully for public projects, including better equipping them to participate on Priority Hire projects.

2022-2027 Proposed Capital Improvement Program Summary

The 2022-2027 Proposed CIP totals \$6.98 billion for six years and includes approximately 517 projects¹. Approximately \$4.7 billion of the six-year total, or 68%, are utility projects managed by Seattle City Light (SCL) and Seattle Public Utilities (SPU), and mostly funded by utility rates. The Seattle Department of Transportation’s CIP totals \$1.4 billion (20%) over the six-year period, while the remaining departments (Parks and Recreation, Finance and Administrative Services, Seattle Center, Seattle Public Library, and Seattle Information Technology Department) account for approximately \$822 million, or 12%, of the six-year CIP.

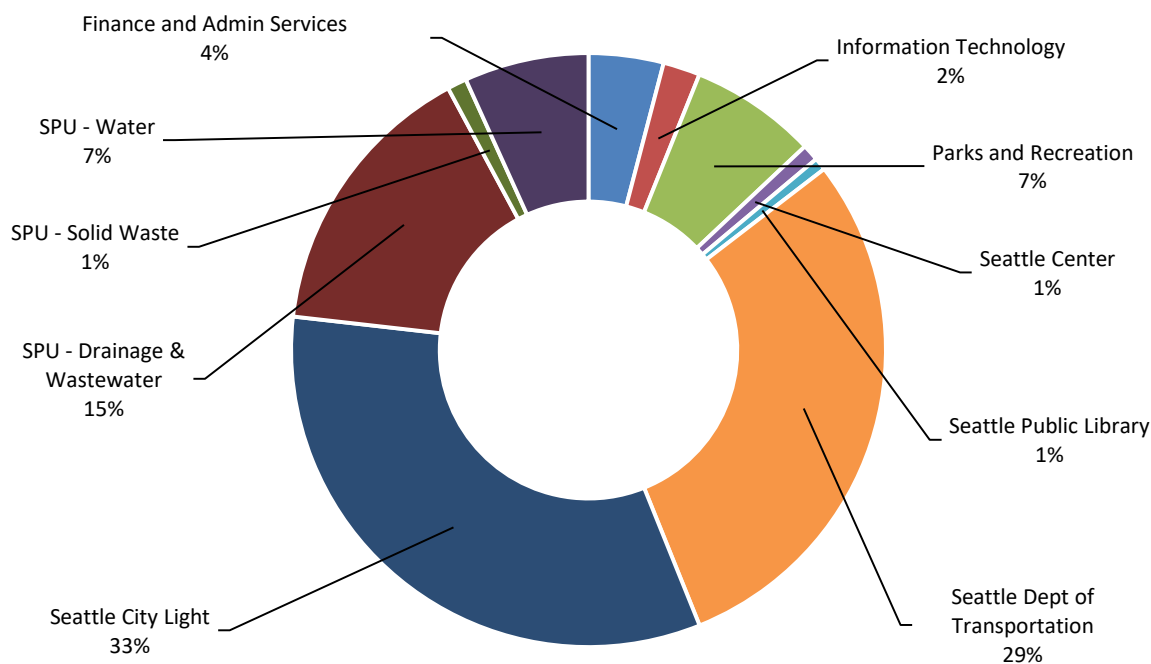

¹ The project total includes all projects with a CIP Project Page in the 2022-2027 Proposed CIP.

2022-2027 Proposed CIP by Department (000s)

Department	2021 Adopted	2022 Proposed	2023-2027 Proposed CIP	2022-2027 Proposed CIP Total
Finance and Admin Services	38,198	56,655	169,855	226,509
Information Technology	37,438	27,985	79,701	107,687
Parks and Recreation	52,970	95,831	296,684	392,514
Seattle Center	7,381	12,651	41,587	54,238
Seattle Public Library	9,237	9,502	31,928	41,430
Seattle Dept of Transportation	364,757	408,254	1,004,389	1,412,643
Subtotal	509,982	610,877	1,624,144	2,235,021
City-owned Utilities				
Seattle City Light	361,815	457,696	2,203,637	2,661,333
SPU - Drainage & Wastewater	278,390	213,919	1,022,721	1,236,639
SPU - Solid Waste	25,299	14,675	51,706	66,381
SPU - Water	116,778	94,154	686,174	780,329
Subtotal	782,282	780,443	3,964,238	4,744,682
City Total	1,292,265	1,391,321	5,588,382	6,979,703

Note: 2021 Adopted totals are based on the 2021-2026 Adopted CIP. Not all funds above are appropriated; see the 2022 Proposed Budget for a list of capital appropriations by department.

2022 Proposed CIP by Department - \$1,391 Million

2022-2027 Proposed Capital Improvement Program

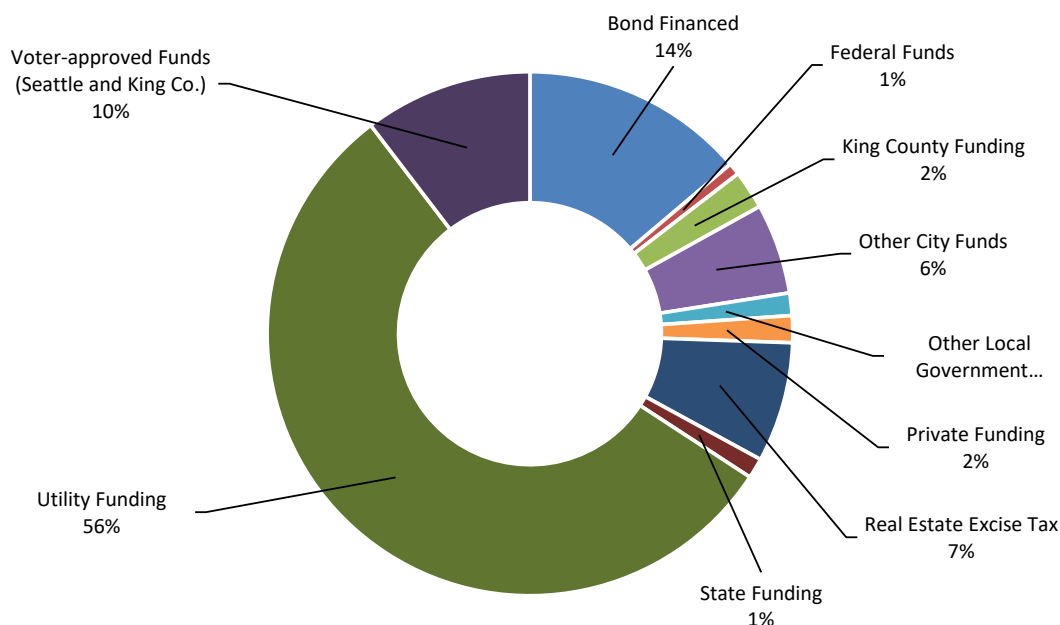

The table below identifies funding sources for the 2022-2027 Proposed CIP by Revenue Source Group

2022-2027 Proposed CIP Revenues (000s)

Revenue Source Group	2021 Adopted	2022 Proposed	2023-2027 Proposed CIP	2022-2027 Proposed CIP Total
Bond Financed	122,393	191,965	175,781	367,746
Federal Funds	56,305	10,348	88,457	98,805
King County Funding	50,833	33,182	42,968	76,151

State Funding	52,939	17,369	43,813	61,182
Utility Funding	752,230	771,095	3,959,349	4,730,444
Voter-approved Funds (Seattle and King Co.)	112,815	144,137	288,089	432,226
To Be Determined	-	0	387,979	387,979
Grand Total	1,292,265	1,391,321	5,588,382	6,979,703

Note: 2021 Adopted totals are based on the 2021-2026 Adopted CIP.

2022 Proposed CIP by Revenue Source - \$1,391 million

Asset Preservation

A 2002 Asset Preservation Study found that, despite achieving targets recommended by the 1994 Citizens' Capital Investment Committee, the City still lagged behind industry-recommended levels of

investment in asset preservation. The four general government departments involved in the study (Finance and Administrative Services, Seattle Public Library, Seattle Parks and Recreation, and Seattle Center) are responsible for approximately 6.9 million square feet of building space, 2.6 million square feet of parking space, and 240 million square feet of grounds (primarily green space) and multiple work yards. These assets have a replacement value of approximately \$5 billion. Assuming an annual asset preservation funding target of 1.0% of the replacement value for buildings and 0.5% of the replacement value for other assets, the City should be investing about \$58 million per year in asset preservation. These percentage targets are consistent with those used by other jurisdictions that were polled as part of this study's review of best practices.

For 2022, the City will spend a total of \$51 million from the two Real Estate Excise Tax Funds and an additional \$66 million from various other resources on asset preservation for general government infrastructure in parks, libraries, civic buildings, and on the Seattle Center campus. The Department of Transportation will spend an additional \$20 million of REET resources and \$71 million of other transportation resources on infrastructure asset preservation during the 2022 budget period.

Neighborhood Projects

As the City adapts to the impacts of unprecedented growth, and plans for yet further development, a focus on the livability of neighborhoods is essential. The 2022-2027 Proposed CIP reflects this focus, and as highlighted below, supports neighborhood-scale capital investments in several different ways.

Neighborhood Matching Fund

The 2022 Proposed Budget maintains funding to Neighborhood Matching Fund (NMF) grant programs. A number of CIP projects, particularly in the Department of Parks and Recreation, include funding from NMF.

The City created the NMF in 1988 to provide funding to Seattle neighborhood groups and organizations for a broad array of neighborhood-initiated improvement, organizing, or planning projects. Many of these projects also support citywide initiatives such as Race and Social Justice, Youth Violence Prevention, Environment and Sustainability, and Neighborhood Planning. Awards range from a few thousand dollars (Small Sparks projects are up to \$5,000, and the Community Partnership Fund projects range from \$5,001 to \$50,000), and NMF funds can cover all phases of a capital project except property acquisition. The NMF program requires a 1:2 match for capital projects, which means all awards leverage other private and public contributions. Matches consist of volunteer labor, donated materials, professional services, or money. The Department of Neighborhoods administers the granting process.

Art and Design Funding for City Capital Projects - 1% for Art Program

The [1% for Art program](#), established by Seattle Municipal Code Chapter 20.32, requires the City deposit 1% of eligible CIP project budgets in the Municipal Arts Fund for the commission, purchase, and installation of artworks throughout Seattle. The Office of Arts and Culture (ARTS) manages the 1% for Art program and the Municipal Arts Fund.

Municipal Art Fund revenues from the 1% for Art program can fluctuate significantly from year-to-year depending on changes in City capital investments. In 2022, the Municipal Art Fund is estimated to receive approximately \$3.2 million from capital departments for the 1% for Art program, as described below. Actual receipts may vary because of project timing, prior year credits, actual CIP expenditures, and City Council changes to the CIP.

1% for Art Revenues (Estimated)	2022 Proposed
City Light	\$540,000
Seattle Public Utilities	\$1,800,000
Seattle Center	\$10,000
Parks & Recreation	\$20,519
Transportation	\$790,000
Total	\$3,160,519

Design Commission

Established in 1968, the [Seattle Design Commission](#) advises the Mayor, the City Council and appropriate City departments on design and environmental aspects of the City's CIP. Commission members are appointed by the Mayor for a renewable two-year term. Membership is comprised of two licensed architects, one professional fine artist, one appointee from the Get Engaged program, one lay member, and at least one and no more than two from each of the following categories, for a maximum total of five: professional urban planner, professional environmental or urban designer, landscape architect, and licensed professional engineer. The Design Commission is fully funded with funds from the Cumulative Reserve Fund.

Projects eligible for review include any on-or above-grade structure, including buildings and additions to buildings, bridges, park developments, street furniture, and all similar installations. The Commission reviews below-grade structures such as tunnels, arcades and underground passageways that are regularly visible to the public. Projects reviewed by the Commission must be financed in-whole or in-part with City funds, be on land belonging to the City, or be subject to approval by the City. Commission involvement in capital improvement projects begins as early in the planning process as possible, starting with participation in the consultant selection process and continuing through the many stages of project development. This includes project reviews at the scope briefing or pre-design stage, conceptual design, schematic design, design development, and sometimes construction documents stages.

Background of Capital Improvement Program Policy Drivers

As described above, City investments in capital projects are guided by a set of key policies reflecting the City's values and priorities. These policies shape how the City takes care of buildings and infrastructure, invests in capital projects in areas that have accepted growth as envisioned in the City's Comprehensive Plan, preserves the City's historic buildings, supports sustainable building practices, and ensures that all members of the community have access to the economic opportunities capital projects create. The following section details some of these key policies.

Sustainable Building Policy

In February 2000, the City Council adopted a Sustainable Building Policy for the City of Seattle ([Resolution 30121](#)) which articulated the City's commitment to environmental, economic and social stewardship and set the expectation that new municipal facilities meet established green building standards. Specifically, it called for all new construction and major remodel projects over 5,000 square feet to achieve a LEED Silver rating. When adopted, this policy was the first of its kind in the nation and

represented a groundbreaking approach to demonstrating City leadership and transforming the marketplace.

Since 2000, the green building community has experienced exceptional growth in expertise and capacity. Recognizing this change, in 2011 the City passed an updated Sustainable Building Policy ([Resolution 31326](#)). The update represents a comprehensive approach that reflects advances in the green building industry, aligns the policy with the City's increased attention to climate change, addresses a greater range of project types, and ensures that Seattle continues to provide leadership that advances sustainable development in both the public and private sectors. The updated policies include the following requirements.

- For new construction, additions and major renovation projects 5,000 square feet or greater
 - The minimum required green building rating is LEED Gold.
 - There are minimum requirements for energy and water efficiency, construction waste reductions, and bicycle amenities.
- For tenant improvement projects 5,000 square feet or greater, where the scope includes mechanical, electrical, and plumbing:
 - The minimum required green building rating is LEED Gold.
 - There are minimum requirements for water efficiency and construction waste reductions.
- Completion of a Capital Green checklist is required for projects smaller than 5,000 square feet or those otherwise not eligible for a LEED rating.
- City departments are encouraged to test new approaches and standards, such as the Living Building Challenge and the Sustainable Sites Initiative.
- Annual reporting of performance under the policy is required by March 31st of each year.

Additionally, the resolution directs City departments to evaluate and improve existing standards and processes that relate to tenant improvements, leasing, and site management.

City of Seattle Comprehensive Plan

The Comprehensive Plan is a 20-year vision and roadmap for Seattle's future. The plan guides City decisions on where to focus development for new jobs and households, how to improve our transportation system, and where to make capital investments such as utilities, sidewalks, and libraries. The Plan is the framework for most of Seattle's big-picture decisions on how to grow. The latest update of the City's Comprehensive Plan "[Seattle 2035](#)" was passed by the City in October 2016. The City began the process of updating its Comprehensive Plan in 2021 and the work is scheduled to be complete in 2023.

The Comprehensive Plan helped inform the development of the 2022-2027 Proposed CIP as departments have taken special note of capital projects in neighborhoods targeted for substantial growth in the future or that have received substantial growth in the last few years. This effort is intended to make sure areas receiving growth have the appropriate physical infrastructure to accommodate such growth, while balancing the major maintenance of existing facilities, such as power distribution systems, pipes, community centers, swimming pools, libraries, and streets that are located throughout the City, not just in targeted growth areas.

Federal and State Regulatory Requirements

The City's utilities have several facility projects in their Capital Improvement Programs to meet federal and state regulatory requirements. The City of Seattle must abide by the City's two National Pollutant Discharge Elimination System (NPDES) permits, one for storm water and one for combined sewer system. The City is required, for example, to invest hundreds of millions of dollars in the combined sewer/storm water system over the next several years to control the number of combined sewer overflows (CSOs) into receiving bodies of water, including Lake Washington and Puget Sound. This is per a CSO Consent Decree with the Environmental Protection Agency (EPA) and the Department of Ecology (DOE), which outlines how the City will become compliant with EPA and DOE regulatory requirements regarding sewage releases from the city conveyance system.

City Light operates its hydroelectric dams and powerhouses under licenses from the Federal Energy Regulatory Commission. Licenses include Settlement Agreements that require City Light to perform protection, mitigation and enhancement activities. City Light is currently completing mitigation under the current Skagit license (expires in 2025); is well under way with Boundary License implementation; and began the process for obtaining a new Skagit license in 2019.

City Light also complies with a wide range of permitting requirements and environmental regulations. Examples include the mitigation of soil contamination at former substations, and ongoing environmental mitigation in the Endangered Species Act project. Street-use permits and regulations are a major part of City Light projects that expand and repair the electric distribution system.

Endangered Species Compliance

The Cedar River Watershed Habitat Conservation Plan (HCP) is a 50-year, ecosystem-based plan that was prepared to address the declining populations of salmon, steelhead and other species of fish and wildlife in the Cedar River basin. The HCP was prepared under the Endangered Species Act and is designed both to provide certainty for the City of Seattle's drinking water supply and to protect and restore habitats of 83 species of fish and wildlife that may be affected by the City of Seattle's water supply and hydroelectric operations on the Cedar River. Seattle Public Utilities is continuing to implement its commitments under the HCP, which include downstream habitat protection and restoration, upland forest restoration, logging road decommissioning, and ongoing monitoring. City Light is also acquiring salmon habitat in the Green/Duwamish, Skagit, and Snohomish watersheds.

Americans with Disabilities Act

The United States Department of Justice (DOJ) conducted an audit of select City of Seattle facilities, practices and procedures, in order to assess City compliance with the Americans with Disabilities Act (ADA), and reported its findings to the City. While the City is largely in compliance, there are some elements within facilities that the DOJ has requested that the City update or alter to improve accessibility for individuals with disabilities. The City is working on an update to its ADA Transition Plan that will guide the development of a long-term strategy that manages the City's most critical public-facing ADA deficiencies first and maximizes accessibility to the greatest extent possible.

A project manager in FAS coordinates and oversee implementation of ADA improvements in certain City facilities, determines and reports compliance to DOJ, and reviews and modifies as needed the facilities design and construction process with regard to the ADA. The City is in the process of moving towards a new approach to ADA improvements in which these improvements are included in ongoing maintenance and other remodeling work.

In order to provide additional proactive monitoring of compliance with ADA standards for new capital projects, the City added staffing dedicated to monitoring ADA compliance of new projects. All capital departments have a specific ADA coordinator and large departments such as Department of Parks and Recreation, SDOT, FAS have dedicated ADA staffing.

Historic Preservation

Seattle's commitment to historic preservation began with citizen efforts in the 1960s to block the demolition of two of Seattle's oldest neighborhoods—Pike Place Market and Pioneer Square. Both neighborhoods were threatened with proposals that would have irreversibly changed the character of the districts. The Pike Place Market was faced with an Urban Renewal Plan that would have demolished it, while Pioneer Square was threatened with a major roadway project. In 1970, the City Council created the Pioneer Square Preservation District, Seattle's first historic district. Then, in 1971, voters approved an initiative to create the Pike Place Market Historical District. In 1973, the City Council adopted a Landmarks Preservation Ordinance to safeguard properties of historic and architectural significance throughout the City. Today, Seattle's Historic Preservation Program encompasses eight historic districts located across the City and more than 400 designated landmarks. The City currently owns or maintains many of those landmarks, including libraries, park buildings, and fire stations.

Parks and Recreation

Overview

Seattle Parks and Recreation (SPR) manages more than 6,400+ acres of park land, extensive natural areas, and over 485 parks. SPR provides athletic fields, tennis courts, play areas, specialty gardens, and more than 25 miles of boulevards and 120 miles of trails. The system comprises about 12% of the city's land area. SPR also manages many facilities, including 26 community centers, eight indoor swimming pools, two outdoor (summer) swimming pools, three environmental education centers, two small craft centers, four golf courses, an outdoor stadium, and much more.

Seattle's parks and recreation system provides numerous benefits to the people of Seattle—healthy people, a healthy environment, and strong communities. These benefits are grounded in SPR's values of access, opportunity, sustainability and equity and underlie the outcomes SPR aims to achieve. For Seattle to remain a vibrant city that is attractive to residents, visitors and businesses, it needs to maintain a great park system with healthy open spaces and meaningful recreational opportunities—which is why supporting Seattle's parks and recreation system is so vital.

Thematic Priorities

SPR's Capital Improvement Program (CIP) is focused on promoting healthy people, a healthy environment, and strong communities by preserving, enhancing, and expanding the physical assets where all of the people of Seattle can play, learn, contemplate, and build community. As described in the Project Selection Criteria section, SPR uses an Asset Management Plan which measures each identified capital project by criteria including safety, asset preservation, race and social justice, legal obligation, and improvements in efficiency to set priorities for capital projects. Each of these criteria is a direct reflection of SPR's core values of access, opportunity, sustainability, and equity.

Aligning Capital Investments with Growth and/or Community Planning

Seattle's Comprehensive Plan, "Seattle 2035," is a 20-year vision and roadmap for Seattle's future that guides City decisions on where to build new jobs and housing, how to improve the transportation system and where to make capital investments such as utilities, sidewalks, parks and open space and libraries. The Comprehensive Plan is the framework for most of Seattle's big-picture decisions on how to grow while preserving and improving our neighborhoods. The plan brings forward **race and social equity** as foundational core value which SPR also leverages in our capital planning efforts.

SPR updated the six-year **Parks and Open Space Plan** in 2017 to be consistent with Seattle 2035 among other planning efforts. The Plan is required by the Washington State Recreation and Conservation Office (RCO) to maintain the City's eligibility for state grants and funding programs supporting outdoor recreation development and open space acquisition. The next update of the plan will be due in 2023 with work starting in 2022 which will also align with SPR's Strategic Plan and CAPRA efforts. The planning efforts will continue to focus on developing an accessible and integrated open space and recreation system in Seattle in tandem with any amendments to the City's Comprehensive Plan.

Light Rail Station Planning, SPR's Planning and Development staff are involved in regional planning for new high capacity transit to North Seattle. Sound Transit's Lynwood Link Extension will extend service north to Lynnwood including light rail stations at NE 130th Street and NE 148th Street (recently renamed the Shoreline South/148th Station). Bus rapid transit service, connecting the Shoreline South/148th Station to Bothell, will include several stations in Seattle along NE 145th Street. SPR will be considering impacts like the growing population in the station area in the design of Lake City Community Center; potential parking restrictions needed at public spaces near light rail stations (Jackson Park Golf Course, Northacres Park, Helene Madison Pool) to increase parking

availability for visitors and ensure parking is not used by all-day commuters; Sound Transit's reforestation plans, among others.

SPR is also engaged in Citywide planning for ST3 as most alignments under discussion impact SPR land.

Seattle's Climate Action Plan provides a framework for meeting Seattle's climate protection goals, including the overarching goal of becoming carbon neutral by 2050. SPR's role involves maximizing the benefits of the bicycle and pedestrian master plans, meeting building energy plan goals, such as LEED compliance, and working towards urban forest restoration goals, such as those outlined in the Green Seattle Partnership.

SPR is also committed to developing and managing an environmentally sustainable park system. This means using energy and utilities with conservation in mind in all facilities, effectively managing the use of water for irrigation and other purposes, creating efficiently maintained landscapes, and operating clean and safe park facilities.

SPR Strategic Plan/Park District/Lines of Business

In March 2020, SPR completed a long-range Strategic Plan identifying goals to guide our work in 2020-2032. Since this plan was completed, the department's priority has been on pandemic response and recovery. To make this plan relevant to our day-to-day work going forward, SPR is identifying near-term priorities that focus on pandemic and economic recovery for BIPOC communities experiencing disproportionate impact. In 2022, SPR will generate a 3-5-year action plan with specific goals and targets to focus current capital and operating resources and services and identify funding gaps. This work will inform 2023 capital and operating Park District investments which may shift the department's capital and programmatic budgets to better serve current community needs through an equity lens.

CAPRA Accreditation

The Commission for Accreditation of Park and Recreation Agencies (CAPRA) is a parks and recreation agency accreditation process that helps departments throughout the nation understand and meet NRPA's industry standards for a high-quality department. CAPRA requires a deep evaluation of all policies, plans, processes, procedures, programs, and services in SPR's portfolio to center equity, healthy people, healthy environment, and strong communities.

A multi-year effort, the first tasks include an equity analysis of SPR lines of business, an inventory of existing policies, plans, processes, procedures, programs, and services, and the creation of an action plan for the official CAPRA process included in the strategic planning effort described above.

For the line of business equity analysis, the department is researching the historical harm parks and recreation systems (including SPR) have done to marginalized communities. During the Strategic Plan outreach, the department will share lessons learned with marginalized communities and ask them what SPR can change to avoid doing harm in the future. CAPRA-related work will continue beyond 2022 and will include a two-year formal accreditation process.

Project Selection Criteria

SPR uses an Asset Management Plan (AMP) to identify and rank necessary major maintenance projects.

The AMP is a set of projects to address facility needs. SPR identifies projects through ongoing condition assessments, consultant studies, work order analyses (to identify key problem areas), and intradepartmental information sharing of facility maintenance issues and needs. Every two years, SPR reviews and updates the

AMP. While SPR's planning staff prepares and coordinates the AMP planning process and documents development, the process involves a collaborative approach throughout the department to develop project scopes and budget estimates.

Typically, department staff score and rank all of the projects included in the asset management plan using the following six criteria:

Code Requirements: The project brings a facility or element up to federal, state, and Seattle code requirements (such as ADA, water quality, or fire suppression) or meets other legal requirements.

Life Safety: The project will eliminate a condition that poses an imminent threat of injury. Examples of safety hazards are lack of seismic elements, failing piling, outdated play equipment, emergency management elements, or a documented environmental health hazard.

Facility Integrity: The project will help keep the facility operational and extend its life cycle by repairing, replacing, and renovating systems and elements of the facility, including building envelope (roof, walls, windows), electrical, plumbing, storm and sewer line replacement, and synthetic turf replacement.

Improve Operating Efficiency: The project will result in reduction of operating and maintenance costs including energy and water savings and climate mitigation strategies.

Equity: The project will preserve or enhance an asset which serves low income and racially diverse communities.

Other: Projects that have a unique element (e.g. leverage other funds) and/or are known needs that do not fit the other priorities.

Projects are prioritized based on the criteria above and are budgeted based on their projected spend. Many of our projects last at least two years. Less money is required in the first year/or years of a discretionary project during the Planning and Design phases than for Construction in the later years, and the budget is planned accordingly. When project timelines shift; due to a variety of factors; funding is adjusted to align with the revised spending projections.

2022-2027 CIP Highlights

SPR's 2022-2027 CIP budget is \$95.8 million in 2022 and reflects a wide range of discrete projects and ongoing programs with a mix of funding sources. The 2022 Proposed CIP begins to restore funding to SPR's 6-year plan following significant reductions in 2020 and 2021 resulting from the COVID-19 pandemic.

Due to the magnitude of the reductions to SPR's CIP in both 2020 and 2021, not all projects that were cut will be restored and some projects are still delayed. SPR prioritized projects with a focus on BIPOC communities resulting in the realignment of some funds. See below for details.

2022: Key Changes by Fund

Real Estate Excise Tax (REET): In the 2021 Adopted CIP, SPR's REET funding was reduced by 46.5%, amounting to \$19.3 million, with the total 2021-2026 6-year reduction totaling \$51M. The reductions impacted major maintenance, athletic field conversions, acquisitions, community center rehabilitation and development, comfort station and play area renovations, ADA, and urban forestry. Additionally, such deep cuts led to the full

Seattle Parks and Recreation

or partial elimination of funding for many of SPR's ongoing programs (i.e., boilers, ballfield lighting, play area safety, electrical systems, landscape renovation, trails, irrigation systems, etc.)

In recognition of these unsustainable reductions, the proposed CIP invests nearly \$22.9 million of REET in 2022 as described below:

CIP Project / Sub Project	Census Tract RSEI Value	2022 REET
Fund Restoration		
Major Maintenance Backlog & Asset Management	Citywide	700,000
Parks & Open Space Plan	Citywide	120,000
Siemens HVAC Monitoring System Upgrade	Citywide	250,000
Rainier CC Play Area Renovation	Highest Need/Disadvantage	400,000
Emergency Management Projects	Highest Need/Disadvantage	459,000
Magnuson Park Junior League Play Area	Middle Need/Disadvantage	600,000
Mount Baker Comfort Station Renovation	Highest Need/Disadvantage	720,000
Boat Ramps Renovations (Don Armeni and Stan Sayres)	Disadvantage Citywide	1,600,000
Maple Wood Playfield Renovations	Highest Need/Disadvantage	1,000,000
Be'er Sheva Park Renovation	Highest Need/Disadvantage	250,000
Outdoor Sport Court Renovation Program	Citywide	50,000
Roof & Building Envelope Program	Multiple	600,000
Boiler and Mechanical System Replacement Program	Citywide	200,000
Mt Baker Bathhouse and Accessible Beach Renovation	Second Highest Need/Disadvantage	2,000,000
Garfield Playfield Renovation	Second Highest Need/Disadvantage	1,000,000
South Park Campus Improvements	Highest Need/Disadvantage	1,000,000
Community Center Rehabilitation & Development		
South Park Community Center	Highest Need/Disadvantage	1,000,000
Soundview Athletic Field Conversion	Second Lowest Need/Disadvantage	(2,314,000)
Boat Moorage Restoration	Second Lowest Need/Disadvantage	2,314,000
Carkeek Park Pedestrian Bridge Replacement	Second Highest Need/Disadvantage	2,214,000
Neighborhood Response Program	Citywide	50,000
ADA Program	Multiple	2,500,000
Other/Partnerships		
Major Projects Challenge Fund	Multiple	500,000
Green Lake Small Craft Center	Lowest Disadvantage	750,000
Major Maintenance Backlog & Asset Management		
Outdoors For All	Middle Need/Disadvantage	1,500,000
Municipal Energy Efficiency Projects	Citywide	847,000
Pier 58 Replacement	Second Highest Disadvantage	3,000,000
Technical Adjustments for Debt-Service Payments	N/A	-411,000
Total REET Restoration		22,899,000

Seattle Parks and Recreation

SPR prioritized their restored REET funding with a focus on equity¹. 60% of the restored funding in 2022 will be used for projects in census tracts identified as 'Highest or Second Highest Need/Disadvantaged' by OPCD's Race and Social Equity Index. Approximately 36% are citywide programs, and the remaining 4% will be used for projects in the Middle Need/Disadvantaged tracts.

Seattle Park District (MPD): In the 2021 Adopted CIP, \$11 million of Park District capital funds were used to offset losses in Parks' operating fund and the General Fund, resulting in capital project delays and a \$7.7 million ongoing reduction to Parks' budget for major maintenance (-\$4.4 million), major projects challenge fund (\$-1.8 million), and acquisitions (-\$1.5 million). The 2022 Proposed CIP restores MPD funding to these projects and then realigns \$5.4 million to cover inflation-based operating costs and fund new equity investments. See the table below and the 2022 Proposed Operating budget for more details on these changes:

Capital Project / Operating Initiative	2022 MPD Amount	Realignment
Major Maintenance Backlog & Asset Management	4,400,000	(4,100,000)
Central Costs/AWI		3,100,000
Utilities		1,000,000
Major Projects Challenge Fund	1,800,000	(300,000)
MPCF to Equity Fund Transition		300,000
Acquisitions	1,500,000	(1,000,000)
Workforce Equity Investments		1,000,000
Total	7,700,000	(5,400,000)

In addition to these changes, the 2022 Proposed CIP makes technical adjustments to the Park District capital budget to align with the 2022 MPD spending plan; these changes primarily impact the Lake City Community Center Improvements and the Parks Central Waterfront Piers Rehabilitation projects. See Key Changes by Project section for more details.

Cumulative Reserve Subfund (CRS-U) and Park Fund (10200): The 2022 Proposed CIP also includes \$5 million of CRS-U and \$6 million of Park Fund appropriations for various projects as described below.

2022: Key Changes by Project

Capital Project	2022 Changes	2022 Total Budget	Notes
ADA Compliance	+\$2.5M REET	\$4,000,000	To address citations at multiple locations.
Boat Moorage Restoration	+\$2.3M REET	\$2,314,000	Funds needed for construction at Leschi.
Community Center Rehabilitation & Development	+\$1M REET	\$2,678,013	Part of a package of investments in SPR's CIP for South Park Community Center and Campus.
Develop 14 New Parks at Land-Banked Sites	+\$3.5M Park Fund	\$3,500,000	Partial restoration of COVID-related cut using one-time Park Fund balance.

¹ These numbers exclude the \$1.5 million commitment to Outdoors For All which is not considered part of SPR's "restored REET funding".

Seattle Parks and Recreation

Lake City Community Center Improvements	-\$5M MPD +5M Park Fund Reserve	-	Shifts MPD funding to 2023 to align with MPD spend plan and adds a reserve in the Park Fund for future appropriation to align with project timeline.
Major Maintenance Backlog and Asset Management	+\$11.5M REET; +\$2M CRS-U; +\$160,000 MPD	\$28,632,086	REET funds multiple projects as described above including \$1M for Outdoors for All; CRS-U funding for site-restoration; MPD supplements base funding for projects.
Major Projects Challenge Fund	+\$1.25M REET; +\$1.5M MPD	\$2,760,253	Funds will be distributed to Green Lake Small Craft Center and South Park Community Center and Campus and potentially new Equity Fund.
Municipal Energy Efficiency Program	+\$847,000 REET	\$847,000	Funds multiple projects in coordination with OSE and FAS
Neighborhood Response Program	+\$50,000 REET	\$250,000	Restores COVID-related cut.
Park Land Acquisition and Leverage Fund	+\$1M Park Fund; +\$500,000 MPD	\$2,581,566	\$1.5 million MPD funding was restored following budget cuts in 2020 and 2021. \$1 million is proposed to be realigned to support SPR equity initiatives. One-time Park Fund balance is appropriated to offset that realignment and replenish SPR's fund for acquisitions.
Parks Central Waterfront Piers Rehabilitation	+\$1.5M Park Fund; +\$3M REET; +\$3M CRS-U; +\$936,000 MPD	\$15,213,192	Includes funding for Pier 58 and Pier 63 as well as updates to align with the waterfront and MPD spend plans. The \$1.5 million Park Fund add is backed by grant revenue.
Soundview Athletic Field Conversion	- \$2.3M REET	-	Shifts funding to 2023 and 2024 to align with project timing.
South Park Campus Improvements	+\$1M REET	\$1,000,000	Part of a package of investments in SPR's CIP for South Park Community Center and Campus.
Carkeek Park Bridge Replacement Project	+\$2.2M REET	\$2,214,000	Emergent need before current bridge has to close.

2022: Other Changes

The 2022-2027 Proposed Capital Improvement Program includes other technical and/or budget neutral adjustments including:

- Aligning debt service payments with the actual debt service schedule; and
- Balancing the Park District capital budget by initiative to align with the 2022 MPD spending plan.

2022-2027 Proposed Capital Improvement Program

CIP Revenue Sources

Funds for the development of the system and for ongoing asset management come from a variety of sources. The two largest funding sources for Park's capital work are typically the Park District and REET. The majority of the remaining funding comes from Community Development Block Grants, the Central Waterfront Improvement Fund, King County, and General Fund to pay debt service. Other funding includes the 2008 Parks and Green Spaces Levy, the Cumulative Reserve Subfund, and other special fund sources, grants, and private donations.

Seattle Park District

In August 2014, the voters of Seattle passed a ballot measure creating the Seattle Park District (a metropolitan park district). The Park District is a taxing authority and provides an ongoing revenue source to fund increased parks and recreation services and capital projects. The Park District has the same boundaries as the City of Seattle. The City Council members, acting *ex officio* and independently, comprise the governing board (the District Board). The first cycle of the Park District spanned from 2015-2020 (and then was extended through 2022). Planning for the second cycle is delayed due to the COVID-19 pandemic. In 2021, the Park District maintained its 2020 funding level but with a greater proportion of the budget going towards SPR's operating costs. Capital projects that continue to be delayed or deferred due to this change will be reevaluated for future funding as part of the next 6-year Park District planning process set to begin in 2022 for the 2023-2028 cycle.

Real Estate Excise Taxes (REET)

REET funding is used for asset preservation purposes. In addition to the key investments highlighted above, REET is used to address various ongoing capital programs, such as boiler replacement, electrical system upgrades, small irrigation upgrades, trail maintenance, athletic field and ballfield turf maintenance and improvements, small roofing replacement, paving restoration, landscape and forest restoration, and others. It also funds replacement of aging field lighting systems and certain aquarium infrastructure projects. Due to significant revenue losses in the REET fund resulting from the COVID-19 pandemic, SPR's REET allocation was reduced across the 2020-2026 CIP. Priorities for restoration of REET funding is described above. Project funding may be further reinstated in future years when REET revenues recover, or as part of the next 6-year planning process for the Park District.

2008 Parks and Green Spaces Levy

The 2008 Parks and Green Spaces Levy was a six-year \$145.5 million levy intended to acquire, develop, or restore, existing or new, parks, recreation facilities, cultural facilities, green spaces, playfields, trails, community gardens, and shoreline areas. This levy ended in 2014 but continues to collect revenues on delinquent property taxes. The capital budget does not include any new appropriations of levy funds, but SPR continues to spend down existing appropriations.

Summary of Upcoming Budget Issues and Challenges

Waterfront

Pier 63 is one of two historic piers that make up Pier 62/63 Park on the Waterfront. This is the park that used to host the Concerts on the Pier. It was originally slated to be replaced as part of the Waterfront program with Pier 62, however, due to a lack of funding was removed from the program several years ago. In addition, due to continued structural deterioration, Pier 63 was closed to the public during Pier 62 replacement and emergency shoring was added to the Pier to keep it from having a catastrophic failure.

This change request adds \$3 million of CRS-U funds and \$1.5 million reimbursable funding authority for a state grant provided in the 2023-2025 State Capital Budget to demolish Pier 63 without replacement. Replacing the Pier is expected to cost over \$30 million. Demolishing the pier without replacement is recommended as the

most cost-effective path for the Pier and maintaining public safety. In addition, demolishing the pier provides environmental benefits by reducing overwater coverage on Elliott Bay and removing creosote treated wooden piles. An additional benefit is that SPR and the Office of the Waterfront and Civic Projects are working with permitting agencies to develop a process for 'banking' mitigation credits for removal of overwater coverage that could be used for other City projects at waterfront projects throughout Seattle.

Replacement of Pier 58 is another goal of the Waterfront Seattle program. Replacement of this SPR facility is funded primarily through funds from the Waterfront Local Improvement District (LID) and Friends of Waterfront Seattle. In 2020, the Office of the Waterfront and Civic Projects worked with SPR and SDOT to conduct an emergency removal of the pier. This change request adds \$3 million of additional REET funds to partially address a 7.5% increase (\$5 million) in the estimated project cost.

Gas Works Park

Additional in-water remediation work at Gas Works Park is still being planned with the project costs split between SPR and SPU. While this issue does not impact the 2022 budget, this is a future liability which SPR will continue to monitor.

ADA Barrier Removal Schedule

Addressing identified access issues in alignment with the ADA Barrier Removal Schedule (BRS) coupled with SPR's ongoing ADA work far exceeds the historic annual funding. Based on a conceptual level planning estimate, to address the BRS, SPR would need \$3.8 million annually over the next 20 years; this only addresses the BRS issues, not the total ADA needs across the entire parks and recreation system. A long-term solution to this issue will be considered as part of the next Park District cycle.

Park District

Restoring the REET and Park District cuts across SPR's CIP will place a significant burden on the next cycle of the Park District, which already has a number of commitments and unfunded needs. The Seattle Park District 6-year planning cycle was put on hold for two years due to the COVID-19 pandemic, with funding maintained at 2021 levels in the 2022 Proposed Budget. Planning for the next cycle (2023-2028) is set to begin in 2022.

Seattle Asian Art Museum Renovation

Project No:	MC-PR-11002	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Rehabilitation or Restoration	Location:	1400 Prospect ST
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 3
Start/End Date:	2011 - 2022	Neighborhood District:	East District
Total Project Cost:	\$19,000	Urban Village:	Not in an Urban Village

This project provides REET funds to support the renovation of the city-owned Seattle Asian Art Museum in Volunteer Park in partnership with the Seattle Art Museum and other related work.

Green Space Acquisitions- 2008 Parks Levy

Project No:	MC-PR-12001	BSL Code:	BC-PR-10000
Project Type:	Ongoing	BSL Name:	2008 Parks Levy
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for acquisition of properties to fill gaps in existing public ownership and preserve continuity in existing public ownership. The project scope targets acquisitions in the following designated green spaces: Arroyos Natural Area, East Duwamish Greenbelt, Northeast Queen Anne Greenbelt, Ravenna Woods, Thornton Creek Watershed, and West Duwamish Greenbelt. These acquisitions will enhance livability and increase opportunities for the public to enjoy nature. They also implement the Parks Strategic Action Plan by encouraging long-term stewardship of natural resources. Levy funds are expected to be supplemented by grants and funds from other sources for these acquisitions. This project is part of the 2008 Parks Levy.

Neighborhood Park Acquisitions- 2008 Parks Levy

Project No:	MC-PR-14001	BSL Code:	BC-PR-10000
Project Type:	Ongoing	BSL Name:	2008 Parks Levy
Project Category:	New Facility	Location:	Multiple Locations
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for acquisition of property to create new urban parklands in Seattle's most densely-developed neighborhoods as identified in Seattle Parks and Recreation's 2006 Gap Analysis. New park land acquisition enhances livability and increases opportunities for the public to enjoy the outdoors. The acquisitions also implement the Parks Strategic Action Plan. Levy funds are expected to be supplemented by grants and funds from other sources and are not expected to be sufficient to complete acquisitions in all the targeted areas. This project is part of the 2008 Parks Levy.

Northwest Native Canoe Center Development

Project No:	MC-PR-15010	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Improved Facility	Location:	860 Terry AVE N
Current Project Stage:	Stage 3 - Design	Council District:	Council District 3
Start/End Date:	2014 - 2022	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$750	Urban Village:	South Lake Union

This project, part of the 2008 Parks Levy Opportunity Fund, develops a carving shed which includes a living roof, and installs a carved "Welcome" figure on the beach. The project provides insight into distinctive varieties of Native American culture in a location at Lake Union where Native carvers are safe, and the public is welcome. This is the first phase of a two building development.

Comfort Station Renovations-2008 Levy Phase 2

Project No:	MC-PR-16007	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2014 - 2022	Neighborhood District:	Multiple
Total Project Cost:	\$2,347	Urban Village:	Multiple

This project, funded with 2008 Parks Levy funds redirected from the Seattle Asian Art Museum renovation project , renovates selected comfort station sites for improved ADA access, ventilation and finishes (walls and floors) and security. The renovations may include reconfigured stalls, new toilets and urinals, ADA compliance improvements, paint and finishes, and related work, depending on the needs of a particular site. More park users will have access to the facility, and the improvements will make it more inviting and comfortable. Specific sites in 2014 to be determined.

Magnuson Park Building #406 Roof Replacement-2008 Levy

Project No:	MC-PR-16012	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Rehabilitation or Restoration	Location:	7400 Sand Point WAY NE
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 4
Start/End Date:	2014 - 2021	Neighborhood District:	Northeast
Total Project Cost:	\$2,152	Urban Village:	Not in an Urban Village

This project, funded with 2008 Parks Levy funds redirected from the Seattle Asian Art Museum renovation project, replaces the Built Up Roofing (BUR) system with a rubberized/EPDM roofing system with 20KW photovoltaic panels, and performs other related work. The system will supply power into the electrical system for the building, which will reduce the amount of utility power used. At certain times, the system may produce more power than is being used by the building, resulting in a credit for power used. This project eliminates a leaky roof and will make the facility more energy efficient.

Pratt Park Water Feature Renovation-2008 Levy

Project No:	MC-PR-16013	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Rehabilitation or Restoration	Location:	1800 S Main ST
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 3
Start/End Date:	2014 - 2022	Neighborhood District:	Central
Total Project Cost:	\$1,314	Urban Village:	23rd & Union-Jackson

This project, funded with 2008 Parks Levy funds redirected from the Seattle Asian Art Museum renovation project , repairs or replaces the surface at the water play feature, installs a recirculating system for it, and performs related improvements. It is anticipated that these elements will improve water conservation, safety, and water play value at this busy park.

Bobby Morris Playfield Turf Replacement-2008 Levy

Project No:	MC-PR-16014	BSL Code:	BC-PR-10000
Project Type:	Discrete	BSL Name:	2008 Parks Levy
Project Category:	Rehabilitation or Restoration	Location:	1635 11th AVE
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 3
Start/End Date:	2014 - 2022	Neighborhood District:	East District
Total Project Cost:	\$1,069	Urban Village:	Capitol Hill

This project, funded with 2008 Parks Levy funds redirected from the Seattle Asian Art Museum renovation project , replaces the synthetic turf field surfacing which was installed in 2005, and performs related work. The surfacing material is near the end of its lifecycle. This improvement allows the continued use and scheduling of the playfield for soccer, baseball, and other activities.

Park Land Acquisition and Leverage Fund

Project No:	MC-PR-21001	BSL Code:	BC-PR-20000
Project Type:	Ongoing	BSL Name:	Building For The Future
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funds for land acquisition, leveraging capital projects, pre-acquisition activities (including planning, title searches, appraisals, negotiations, and community involvement), associated with acquisitions of specified real property, and related work. The project also serves as a match to leverage other funding sources such as King County Conservation Futures. The City is growing and there is a need to add parkland to meet park and open space goals and improve the quality of life for Seattle residents. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Major Projects Challenge Fund

Project No:	MC-PR-21002	BSL Code:	BC-PR-20000
Project Type:	Ongoing	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding to leverage community-generated funding for renovation or development of large projects of Parks' facilities where other City funding is unavailable, often times due to the magnitude of the project. These projects will require matching funds, so the leveraging will stretch the City's funding, and more great community-generated projects can be accomplished. The community will benefit from new and/or improved facilities that can better accommodate current and projected park and recreation needs and demands. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Develop 14 New Parks at Land-Banked Sites

Project No:	MC-PR-21003	BSL Code:	BC-PR-20000
Project Type:	Ongoing	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops 14 new parks on land-banked sites that were acquired under prior levies. Depending on the size, location, and type of park, new elements could include trees and landscaping, paths, plazas, a play area, site furniture, lighting, and related improvements. Each newly developed park will improve the neighborhood and contribute to improved health for park users, and will have environmental benefits. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Activating and Connecting to Greenways

Project No:	MC-PR-21004	BSL Code:	BC-PR-20000
Project Type:	Ongoing	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops safe, inviting connections between parks and greenways which are residential streets that are dedicated connectors for pedestrians, cyclists, and other non-motorized travel, as identified in the Bicycle and Pedestrian Master Plan documents. Typical improvements include crosswalks, benches, greenway park entrance improvements, non-motorized paths and loops within parks, and related work. Parks will work with the Seattle Department of Transportation (SDOT) to activate and enhance connection points between parks. This project improves safety and access to and from the parks, encourages partnerships with neighborhood and community groups, business, and other stakeholders. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Smith Cove Park Development

Project No:	MC-PR-21005	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	W Galer ST
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:		Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$4,166	Urban Village:	Not in an Urban Village

This project, funded by the MPD, develops the 4.9 acre waterfront portion of Smith Cove Park located just west of Pier 91 on Elliott Bay. The park will be developed following a planning and design process for the site. These amenities may include paths, landscaping, waterfront access points, a play area, and related improvements. Some improvements will also be made to the existing part of Smith Cove Park (west of this site), currently used for sports such as soccer. The improved park will provide waterfront access and ADA accessibility, provide enhanced opportunities for active recreation, increase environmental-sensitivity, and make the park inviting and usable for more people.

Project Category:	Rehabilitation or Restoration	Location:	1483 Alaskan WAY
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2015 - 2023	Neighborhood District:	Downtown
Total Project Cost:	\$34,290	Urban Village:	Downtown

The Seattle Aquarium is owned by Seattle Parks and Recreation and operated by the non-profit Seattle Aquarium Society (SEAS). SEAS is planning a major expansion to the Aquarium's existing footprint to add new programming and visitor capacity. This project will provide a new Ocean Pavilion that will integrate with improvements made by The Office of the Waterfront along the Central Waterfront. SEAS also intends to make improvements to piers 59 and 60 to improve exhibit space and operations efficiency. Design and construction of the project is led by SEAS and coordinated with City investments by the Parks Department and Office of the Waterfront. This project is part of the overall waterfront improvement program and appropriates City matching funds for SEAS' project. Funding depicted in the table below represents committed funding for design. The City has committed to provide up to \$34 million to SEAS for design and construction. (Interfund Loan repaid with REET and shown as double budgeted in appropriation table.)

Parks Central Waterfront Piers Rehabilitation

Project No:	MC-PR-21007	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Rehabilitation or Restoration	Location:	Alaskan Way
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2016 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$111,017	Urban Village:	Downtown

The Waterfront Park and Pier 62/63 are public park facilities that provide public access to Elliott Bay and host a range of public events, markets and performances. Both piers need a full seismic upgrade to meet current life safety codes, and Waterfront Park needs significant access improvements. Waterfront Park is envisioned as a flexible public recreation and open space. Pier 62/63 is anticipated to be more heavily programmed, with a flexible activity rink, events, and performances. The Department of Parks and Recreation (DPR) owns the piers, but the Office of the Waterfront will lead the rehabilitation. The Pier 62/63 Phase 1 Rebuild was substantially complete in July 2020. This project is part of the overall Central Waterfront program. (Interfund Loan will be repaid with Local Improvement District Bonds.)

Total Project Cost:	\$10,000	Urban Village:	First Hill/Capitol Hill

This project will make major improvements to Freeway Park, including renovation and upgrades to its electrical and lighting systems, utilities, and storm-water infrastructure. Related work may also include enhancements to entries, renovation of the comfort station, site furnishings, wayfinding, programming and activation. This project is part of the Building for the Future Budget Summary Level, and using mitigation funds allocated from the convention center expansion public benefits package.

This project will create improvements to City Hall Park that enhance circulation and focus on park activation and preservation. Potential improvements may include pathway renovation, furnishing replacement, lighting upgrades, irrigation renovation and related work. This project is part of the Building for the Future Budget Summary Level, and uses REET funding only for planning and design at this time. Potential rebuilding or renovation of the Prefontaine fountain and plaza will also be assessed in the planning process.

South Park Campus Improvements

Project No:	MC-PR-21013	BSL Code:	BC-PR-20000
Project Type:	Discrete	BSL Name:	Building For The Future
Project Category:	Improved Facility	Location:	8319 8th AVE S
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2019 - 2024	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$7,870	Urban Village:	South Park

This project will implement the South Park Site Plan approved by Seattle Parks and Recreation in March 2018, by renovating and relocating numerous park elements. The site plan calls for the existing play area and wading pool to be demolished and replaced with a new play area and spray park in new locations within the site. The existing grass playfield will be renovated and upgraded with synthetic turf and lighting. The project may also include the replacement of the existing sport courts, installation of a loop trail and planted buffer, new fencing and related work. Partial funding for this project is anticipated from various public and private sources in the forms of grants and donations. Once the project is completed, these improvements will increase safety and site capacity, support more active uses and types of healthy outdoor play, and provide opportunities for programming throughout the year. The total estimated cost for this project is \$9.8 million. This project will be funded by public and private sources. With the addition of the Real Estate Excise Tax (REET) funding in 2019, the project is expected to be fully funded.

Aquarium - Pier 59 Piling Replacement and Aquarium Redevelopment Debt Service

Project No:	MC-PR-31002	BSL Code:	BC-PR-30000
Project Type:	Debt Service	BSL Name:	Debt and Special Funding
Project Category:	Rehabilitation or Restoration	Location:	1483 Alaskan Wy
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	2005 - 2025	Neighborhood District:	Downtown
Total Project Cost:	\$37,154	Urban Village:	Downtown

This project supports debt service payments on 20-year Limited Tax General Obligation (LTGO) bonds that were issued in 2005 to pay for the replacement of the entire pier piling system of Pier 59, interior infrastructure improvements, and development of portions of the Aquarium by the Seattle Aquarium Society. The pier and Aquarium work was part of an overall plan to repair and redevelop the Aquarium and the Central Waterfront area, and to construct a new Aquarium entrance, exhibits, and visitor services on a portion of the pier. This work enhanced and extended the useful life of Pier 59 and the Aquarium.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides ongoing monitoring efforts to ensure the measures constructed for remediation of soils at Gas Works Park were effective. Monitoring activities include maintenance and operation of the air sparging, SVE systems, soil cap, and other institutional controls; groundwater testing; quarterly reports; and other related work. The project also provides for ongoing monitoring for as long as 20 years from installation, effectively until 2021. All measures of the Compliance Monitoring Project must be executed in accordance with the Consent Decree established in 1998, requiring the Seattle Department of Parks and Recreation, Puget Sound Energy, and the Department of Ecology to implement a Cleanup Action Plan.

The Seattle Aquarium is owned by Seattle Parks and Recreation and operated by the non-profit Seattle Aquarium Society (SEAS). SEAS is planning a major expansion to the Aquarium's existing footprint to add new programming and visitor capacity. This project supports debt service payments on 20-year Limited Tax General Obligation (LTGO) bonds issued in 2021 to pay for the Aquarium Expansion project (MC-PR-21006). The Aquarium Expansion project is part of the overall plan to repair and redevelop the Aquarium and the Central Waterfront area. The final total debt service cost over the course of the bond will be determined upon bond issuance in 2021.

Major Maintenance Backlog and Asset Management

Project No:	MC-PR-41001	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for major maintenance projects for assets in all of the city parks and recreation facilities, including athletic fields, play areas, swimming pools, trails, buildings, accessibility elements, outdoor infrastructure, and related work. This project also funds a new integrated asset management and work order system to better track and forecast long-term asset and maintenance needs. The project also increases Parks' ability to remove property encroachments. Typical major maintenance improvements may include, but are not limited to renovating buildings, Americans with Disabilities (ADA) access improvements, replacing play area structures, forest, landscape, trail maintenance and improvements, swimming pool repairs, athletic field refurbishment, and installation of energy efficient lighting, and related major maintenance work. These projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, reclaim Parks property, and improve the overall park experience for the public. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Community Center Rehabilitation & Development

Project No:	MC-PR-41002	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for improvements at 26 community centers, the oldest of which is 103 years old. Typical improvements include renovation, upgrades, or replacement of major building systems, roof and building envelopes, seismic upgrades, painting, energy efficient lighting and other environmentally sustainable building components, Americans with Disabilities (ADA) access improvements, and related work. In some instances, facilities will be replaced or remodeled to improve programming space. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, improve the overall community center experience for the public, and meet today's and future recreation needs. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Saving our City Forests

Project No:	MC-PR-41003	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project restores and maintains Seattle's 2,500 acres of urban forests. Seattle's trees are aging and inundated with invasive plants, including English ivy, Himalayan blackberry, Scot's broom, and knotweed. This project expands Parks' capacity to restore forest land, and to provide the ongoing monitoring and maintenance work necessary to keep restored areas from being overrun by invasive plants. A healthy urban forest contributes significantly to the health of the environment by cleaning air and water, filtering and retaining storm water, and providing a respite from the built environment. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Aquarium Major Maintenance

Project No:	MC-PR-41004	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	1483 Alaskan WAY
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing project provides funds for major maintenance at the Aquarium and other related items. Typical projects include seawater pump replacement, tank repairs, energy efficient systems upgrades, exterior decking repairs, Americans with Disabilities (ADA) access improvements, roofing and seismic upgrades, and related work. The facility was constructed in 1980, and a partial addition was installed on Pier 59 portion of the building in 2006. Due to the harsh saltwater environment, Aquarium facilities have a shorter lifespan than similar facilities not located over saltwater. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, and improve the overall Aquarium experience for the public. This project is part of the Seattle Park District measure put before voters in 2014.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project preserves the Zoo facilities to enable it to operate efficiently, and to offer a world-class experience to the patrons. Typical projects include exhibit renovation or replacement, water, electrical, irrigation, and sewer systems replacement, energy efficient improvements, pavement and grounds restoration, Americans with Disabilities (ADA) access improvements, and related work. The oldest buildings at the Zoo were constructed in the 1930s and others have been built in subsequent decades. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, and improve the overall Zoo experience for the public. This project is part of the Metropolitan Parks District measure put before voters in 2014.

This project provides funding to conduct core testing of wood light poles at various ballfields, replace deteriorated wooden poles with metal poles, install new electrical systems, and perform other related work. The new lighting systems will reduce light spillover and energy efficient. This is a long-term program to replace all deteriorated wood light poles over the next several years. Future funding for this program depends on available resources.

Utility Conservation Program

Project No:	MC-PR-41010	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project implements energy conservation projects in collaboration with Seattle City Light, Seattle Public Utilities, and Puget Sound Energy. Projects may include lighting, heating, and water use renovations at various facilities throughout the Parks system. These projects result in energy savings and better air and water quality, and support the Climate Protection Initiative by reducing greenhouse gas emissions. The cost of these projects is expected to be recovered within approximately five years through reduced utility costs and rebates from the three utilities. Rebates and other additional resources will be pursued to fund future conservation projects.

Seward Park Forest Restoration

Project No:	MC-PR-41013	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	5900 Lake Washington Blvd S
Current Project Stage:	N/A	Council District:	Council District 2
Start/End Date:	2008 - 2024	Neighborhood District:	Southeast
Total Project Cost:	\$1,101	Urban Village:	Not in an Urban Village

This project provides for the restoration of old growth forest in Seward Park as part of the Green Seattle Partnership. The restoration work will be guided by the established vegetation management plan for Seward Park. This additional work is being funded by a private donation of \$1 million. The donation will be made to the Seattle Foundation over the course of 3 to 4 years and dispersed to Parks over a period of 10 to 11 years.

Play Area Safety Program

Project No:	MC-PR-41018	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program renovates play areas, makes ADA improvements, installs safety upgrades, and performs other related work. The program focuses on addressing safety issues at two to four play areas per year. Primarily, the program is focused on installing proper safety surfacing at children's play areas throughout the parks system. Future funding for this program depends on specific projects and available resources, including grants. This program extends the useful life and improves the safety of the play areas.

Irrigation Replacement and Outdoor Infrastructure Program

Project No:	MC-PR-41020	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds engineering and other studies of the Department's park irrigation and outdoor infrastructure systems (e.g., water mains, irrigation and drainage lines, sanitary and storm sewers, electrical utilities, roads, paths, trails, retaining walls, bridges, saltwater piers, and related infrastructure); associated cost estimating; related staff and consultant support for developing and prioritizing projects within the Department's Asset Management Plan; and implements replacement projects at various sites. Specific projects are determined by the study and operational considerations. This project provides conservation benefits by reducing water loss due to leaking systems, allocating water flow more efficiently through improved technology, and implementing other related work. It also extends the useful life of the infrastructure.

Urban Forestry - Forest Restoration Program

Project No:	MC-PR-41022	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program develops forest and vegetation management plans, implements restoration projects at sites throughout the City's park system, removes hazardous trees, and performs other related work. Restoration projects, with much of the work being performed by citizen volunteers, may include removal of invasive plants, such as English ivy and Himalayan blackberry, followed by replanting with native plants. Future funding for this program depends on available resources. This project enhances Seattle's urban forest and supports the Green Seattle Partnership to increase overall City tree canopy and the Restore Our Waters Strategy to improve Seattle's aquatic environments.

Neighborhood Response Program

Project No:	MC-PR-41024	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides funding for small projects identified by citizens, neighborhood groups, or other community organizations. Projects address requests which are typically under \$50,000, and may be used for major maintenance activities performed in conjunction with development-oriented Neighborhood Matching Fund (NMF) projects. This program enables the Department to respond quickly to community requests for repairs in neighborhood parks.

HVAC System Duct Cleaning Program - Large Buildings

Project No:	MC-PR-41028	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides periodic (every two to five years) cleaning of the air ducts in the heating, ventilation, and air conditioning (HVAC) systems in pool natatoriums, community centers, and other Department-owned buildings. This maintenance increases the lifespan of these systems and reduces potential future major maintenance projects.

Parks Upgrade Program

Project No:	MC-PR-41029	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides minor capital improvements to low-income area parks throughout the City. Conservation Corps Program staff perform this work, providing training opportunities for low-income, homeless, and other at-risk community members. Program elements include provision of ADA improvements to parks and park restrooms, accessible drinking fountain installation, basketball court construction, bench and picnic table installation, tree purchase and planting, and other small-scale capital projects. Funding is also targeted to projects that can be integrated with other community-identified amenities.

Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides for investment in more energy efficient building systems and other facility efficiency improvements. By making these investments the City expects future savings in utility and labor costs, and significant progress toward carbon neutrality. This program is intended to fund facility retrofit projects identified by energy audits conducted in 2010 (funded by the City's Energy Efficiency and Conservation Block Grant) and similar projects identified by the department. Depending on project demand and available funding, additional resources may be added in the future.

This project provides for ADA improvements at a number of parks facilities. Work will be focused on selected community centers (e.g., Bitter Lake, Delridge, Garfield, Jefferson, Meadowbrook, Miller and others) and will consist of adjustments to signage, door closures, restroom fixtures, and other features. Signage will be added where needed as well. Similar work will be undertaken at Discovery Park Environmental Learning Center and other facilities to the degree that funding allows.

Start/End Date:	2013 - 2022	Neighborhood District:	Northwest
Total Project Cost:	\$1,672	Urban Village:	Green Lake

This project demolishes the existing 15,130 square foot Evans Pool roof and the 13,625 Community Center roof and replaces them with a rubberized membrane roofing/EPDM system and solar panels to supplement the pool hot water system, seismic improvements, and related work. The flat roof section of the roof will accommodate a 1,000,000 Btu/day system and will help to reduce pool heating costs.

Comfort Station Renovations

Project No:	MC-PR-41036	BSL Code:	BC-PR-40000
Project Type:	Ongoing	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project renovates selected comfort stations for improved ADA access, ventilation and finishes (walls and floors), and security. The renovations also may include reconfigured stalls, new toilets, urinals, and sinks, ADA accessories, paint and finishes, and related work, depending on the needs of a particular site. In some cases, a comfort station may be replaced with a prefabricated unit. More park users will have access to these facilities, and the improvements will make them more inviting and comfortable.

Lake City Community Center Improvements

Project No:	MC-PR-41040	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Improved Facility	Location:	12531 28th Avenue NE
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 5
Start/End Date:		Neighborhood District:	North
Total Project Cost:	\$16,500	Urban Village:	Lake City

This project will replace the current Lake City Community Center with a new facility and perform other related work. The new Lake City Community Center will be more accessible for all users, more inviting and comfortable, and include improved recreation spaces. The project will begin with a feasibility study that will identify the probable costs associated with a variety of options such as underground parking, gym size, possible childcare rooms and facilities, and number of floors and other recreation spaces. Funding for construction of this project will be considered in the next cycle of the Seattle Park District spending plan which has been delayed by one year and will now be developed for 2022-2027.

Victor Steinbrueck Parking Envelope

Project No:	MC-PR-41044	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	2001 Western Ave
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2017 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$5,000	Urban Village:	Downtown

This project will replace the existing membrane between the westerly portion of Victor Steinbrueck Park and the Unico parking garage below, and other related items. The membrane is a waterproofing layer that keeps stormwater and irrigation that falls on the park from entering the garage below and damaging the concrete structure. The membrane was installed in 1981 when the park was originally constructed on top of the parking garage. These membranes typically last no more than 30 years; the existing membrane has failed and no longer prevents water from entering the garage below. The membrane replacement requires the removal and subsequent replacement of all the park improvements above and the installation of a new drainage system. The new membrane will provide a waterproofed foundation for the associated park renovation project.

Loyal Heights Playfield Turf Replacement

Project No:	MC-PR-41048	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Rehabilitation or Restoration	Location:	2101 N 77th ST
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 6
Start/End Date:	2018 - 2022	Neighborhood District:	Ballard
Total Project Cost:	\$2,385	Urban Village:	Not in an Urban Village

This project replaces the synthetic turf field surfacing (134,000 square feet) which was installed in 2006, and is near the end of its lifecycle. This improvement allows the continued use and scheduling of the playfield for soccer, baseball, and other activities.

Magnuson Park Athletic Field 12 Conversion

Project No:	MC-PR-41064	BSL Code:	BC-PR-40000
Project Type:	Discrete	BSL Name:	Fix It First
Project Category:	Improved Facility	Location:	7400 Sand Point Way NE
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 4
Start/End Date:	2027 - 2028	Neighborhood District:	Northeast
Total Project Cost:	\$3,730	Urban Village:	Not in an Urban Village

This project converts approximately 100,000 square feet of an existing grass to synthetic turf, installs lighting, drainage improvements, and performs related work. Per the Magnuson Park Master Plan, the field is located south of the existing field 6 and west of the existing field 7 and will be reconfigured into field 12. This improvement allows for greater use and scheduling of the playfield for soccer, lacrosse, and other activities. Funding for this project was eliminated from the 6-year CIP in the 2021 Proposed Budget.

Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project revitalizes the City's 82 P-Patch Community Gardens. Typical projects will improve the paths, improve the planting beds and common areas, improve Americans with Disabilities (ADA) access, update aging infrastructure, and related work. The first P-Patch was constructed in 1973, and more have been added in the past 40 years. The individual projects will address safety and code requirements, extend the life of the asset, improve accessibility, and contribute to better air quality. This project is part of the Metropolitan Parks District measure put before voters in 2014.

Improve Dog Off-Leash Areas

Project No:	MC-PR-51002	BSL Code:	BC-PR-50000
Project Type:	Ongoing	BSL Name:	Maintaining Parks and Facilities
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project improves the City's 14 existing off-leash areas, most of which have aging infrastructure. In 1996, seven sites were selected as pilot off-leash areas. In 1997, four of them (Blue Dog Pond, Genesee, Golden Gardens, and Westcrest) were selected as the first permanent sites. By 2011, there were a total of 11 off-leash areas, and three more have been added since then (Magnolia Manor, Kinnear, and Denny). Typical projects will improve Americans with Disabilities (ADA) access, address drainage and erosion issues, update aging infrastructure, and related work. This project is part of the Seattle Park District measure put before voters in 2014.

Seattle Center

Overview

Seattle Center's ("Center") Capital Improvement Plan (CIP) is at the heart of Center's purpose "to create exceptional events, experiences and environments that delight and inspire the human spirit to build stronger communities." The department's CIP repairs, renews, and redevelops the facilities and grounds of Seattle Center to provide a safe and welcoming place for millions of annual visitors.

Seattle Center is a 74-acre campus in the middle of the City. It is the largest visitor destination in Washington state, attracting an estimated 12 million visits each year to attend arts, sporting, educational, and cultural events and festivals, and to enjoy the grounds and open spaces. There are 24 buildings and three parking garages on the campus. Seattle Center is also a major urban park with lawns, gardens, fountains, a children's play area, and a variety of plazas and open spaces. The Seattle Center Monorail runs between the Seattle Center campus and downtown Seattle. The City owns the Monorail, which is operated by Seattle Monorail Services on behalf of the City. The Space Needle, the Pacific Science Center, the Museum of Pop Culture, the Chihuly Garden and Glass Exhibition, and Seattle Public Schools' Memorial Stadium and an adjacent parking lot are also part of the campus but are privately owned and operated.

The origins of a civic campus at Seattle Center go back to the 1920s, with Mayor Bertha Landes presiding over the groundbreaking for the Civic Auditorium, Civic Ice Arena, and Civic Field. In the 1930s the Washington State Armory was built. Memorial Stadium was constructed in the 1940s. In the late 1950s and early 1960s the site for the 1962 Seattle World's Fair was created, expanding the size of the campus to roughly what we know today. One result of this long history as a civic gathering place is aging infrastructure. Some facilities have been significantly renovated (e.g., Civic Auditorium into the Opera House for the World's Fair, and into McCaw Hall in 2003, the Civic Ice Arena/Mercer Arena site into the new Seattle Opera at the Center facility in 2018, and the Arena in 2020-21), while others remain in need of major renovation and redevelopment (e.g., Memorial Stadium).

In 2008, following a two-year community process, the City Council adopted the Seattle Center Century 21 Master Plan. The Master Plan provides a roadmap for the redevelopment of Seattle Center around a set of design and planning principles including increased open space; sustainable design and operations; opening the edges of the campus to the surrounding community; enlivening the campus throughout the day; being pedestrian friendly and accessible to all; and continuing to provide a diversity of programming and attractions for all parts of our community. The master plan is expected to be supported, as Seattle Center redevelopment has in the past, by a mix of public and private funding.

In 2015, Seattle Center began a multi-year facility condition assessment (FCA) program to identify current and future capital investment needs. Seattle Center's Proposed 2022-2027 CIP is in part driven by the FCA program, with funds allocated for renovation of campus infrastructure, including roofs, elevators, sewer lines, parking structures, and the International Fountain.

In 2019, the City entered into an agreement with private partner Seattle Arena Company (ArenaCo) to lease and redevelop the historic KeyArena and several supporting structures to create a world-class arena for professional sports and entertainment. The new Climate Pledge Arena was completed in fall 2021 and has transformed the largest single facility on campus, flanked by public plazas with new artwork, signage, lighting, and landscaping on all sides. Seattle Center has answered this remarkable private investment by upgrading several of its most prominent public attractions, including the International Fountain, the Armory, and the landmarked north courtyards.

Despite the many hurdles of 2020 and 2021, Seattle Center has successfully leaned into its Strategic Business Plan objective of leveraging the momentum of Climate Pledge Arena to lift the entire campus. In 2021, the City issued bonds providing Seattle Center \$8 million in funding to make upgrades in our campus-wide signage. The new signage package will not only improve wayfinding resources for our visitors, but also will allow for increased revenue generation through improved sponsorship capabilities.

Seattle Center's 2022-2027 CIP plan will focus heavily on continuing phases of major projects like campus-wide lighting and network upgrades, and major maintenance priorities highlighted in our FCA. In 2021, Seattle Center received accelerated funds for the Seattle Children's Theatre roof replacement and an additional allocation of \$750,000 in the 2021 2nd Quarter Supplemental to address emergent mechanical infrastructure needs. The list of deferred major maintenance priorities on the campus, however, will require significant investment in the coming decade as the 1962 World's Fair infrastructure – originally designed for a temporary event – celebrates its 60th anniversary.

The 2022 CIP budget includes \$11 million in REET funds. In 2022, Center will accelerate the schedule for certain projects, including window replacements for the Armory and renovation of the first floor Armory restrooms to better meet ADA guidelines and expand capacity of the women's restroom. Funding will also support Center in addressing of mechanical system leaks in buildings across the campus; making the next phase of programmatic improvements to the International Fountain; and investing in three high-priority projects: completing the DuPen Fountain renovation, upgrading pedestrian lighting, and replacing the Fisher Pavilion roof, a popular space for outdoor events and activities.

Thematic Priorities

Seattle Center's Adopted 2022-2027 CIP focuses on four primary themes:

- Multi-phase investments in Seattle Center
- FCA Phase 2 and Deferred Major Maintenance
- Long range planning (ST3, Memorial Stadium, KCTS, PNB)
- Additional investment opportunities for 2022 and 2023

Multi-phase investments in Seattle Center

By the end of 2021, Center will have delivered the largest scope of improvements on the campus in 20 years, including an exterior refresh of the Armory, a new skate plaza, a revitalized International Fountain, uplifted North Courtyards and major investments in the parking garages and the Monorail. Center also kicked off several projects that will take multiple phases to complete and will continue to prioritize these projects in the coming years until they are completed:

- Renovation of the beloved DuPen Fountain phased between 2021 and 2022;
- Delivering on the vision of the Seattle Center Campus Pedestrian Lighting Concept Plan, with the first phase on Thomas St. occurring in 2021 and 2022;
- Completing the final phase of the Armory Exterior Renovation project with new exterior lighting to highlight the historic architecture planned for 2023;
- Continuous improvement of the visitor parking experience, building on the arena-related Parking Access and Revenue Control (PARC) upgrades being installed in 2022;
- Updating the wireless network infrastructure across the campus to 5G standards, in partnership with Seattle IT and third-party private carriers; and

- Electrification of the Central Utility Plant and decentralization of campus systems which, once designed, will require additional dedicated funding to complete by the target 2024 deadline.

Facility Condition Assessment Phase 2 and Deferred Major Maintenance

As Center welcomes crowds back to the campus in the post-pandemic reopening, the changing expectations around events – outdoors and indoors, community and commercial – mean there is more reason than ever before to invest in bringing aging assets up to a modern standard. Seattle Center is working within compounding constraints of aging infrastructure and limited capital and major maintenance budgets. Unplanned emergency work costs more and distracts staff from performing scheduled preventative maintenance, which in turn, increases the likelihood of emergency repairs. Condition assessments and a capital asset management program are key components of an effective maintenance and repair program.

In 2021, Center will complete the second phase of the campus FCA, identifying and prioritizing major maintenance and replacement needs throughout the campus buildings and grounds. The analysis will systematically evaluate Seattle Center’s capital assets to project repair, renewal, or replacement needs that will preserve the ability to support our mission. It will result in an action plan for addressing urgent issues including electrical, plumbing, roofing, building envelope, landscaping, irrigation, and HVAC. In the coming years, Center anticipates significant investments in design and construction to complete this necessary work.

Long-range planning priorities

While it is hard to imagine more change on campus than what has been experienced between 2018 and 2021, the coming decade contains prospects that could be equally transformative. Center is investing effort now in long-term planning and strategy for the following emerging opportunities:

- Championing an inspiring vision for integrating a light rail station at Seattle Center that promotes transit mobility and complements the identity of the campus in the future;
- Continuing to advance Memorial Stadium design and redevelopment in partnership with Seattle Public Schools (SPS), Seattle Center Foundation, philanthropy, and other stakeholders;
- Exploring opportunities for the Cascade Public Media (KCTS) site in anticipation of its lease conclusion in 2024, including potential synergies with Memorial Stadium and the SPS parking lot;
- Continuing the conversation with Pacific Northwest Ballet about their space use planning on campus in the coming years;
- Evaluating options to relocate the skilled trades shops from the Colorcraft (5.5) Building to a new location, in anticipation of its lease conclusion on July 31, 2025.

Project Selection Criteria

For each budget cycle, a broad cross-section of Seattle Center staff members engages in the process of identifying the highest priority asset preservation and improvement needs on the campus. This includes staff members who maintain facilities, rent facilities to clients, provide technical support for events, manage parking and public assembly facilities, and manage capital projects. Projects are prioritized around a set of criteria, including public and staff safety, regulatory requirements, failing building systems, asset preservation, master plan implementation, reducing operating costs and/or increasing revenue potential, leveraging non-City funds, and race and social justice. Center’s Campus & Armory Operating Board and the McCaw Hall Operating Board have played central roles in identifying and prioritizing capital needs in the facilities they oversee. The Seattle Center Executive Team takes all of this

information and prioritizes projects across the entire Seattle Center campus within funding targets provided. Seattle Center's program of facility condition assessments, utilizing a number of specialty consultants, is a key source of information for identifying current and future capital needs at Seattle Center to inform capital investment priorities.

2022-2027 Proposed CIP Highlights

The Center's CIP prioritizes funding to address needs identified in the latest phase of facility condition assessments, including roofs, mechanical infrastructure, and the International Fountain. The CIP also includes funding for asset preservation investments in McCaw Hall and the Monorail, guided by the McCaw Hall Capital Renewal/Major Maintenance Plan and the Seattle Center Monorail Transit Asset Management (TAM) Plan and Capital and Major Maintenance Program (CMMP) Plan. Asset preservation investments in 2022 will include:

Armory – In early 2022, exterior renovation of this 1939 building will continue with the installation of new awnings and doors. Additional maintenance priorities include HVAC upgrades and window replacements and renovating the first floor Armory restrooms to better meet ADA guidelines and expand capacity of the women's restroom

General Site Improvements – In 2022, REET I funding is allocated for a next phase of programmatic improvements to the International Fountain, and for campus technology infrastructure improvements.

McCaw Hall – Annual REET I allocations for McCaw Hall asset preservation are matched 100 percent by the resident tenants of McCaw Hall, the Seattle Opera and Pacific Northwest Ballet, to carry out the McCaw Hall Capital Renewal/Major Maintenance Plan, under the direction of the McCaw Hall Operating Board.

Monorail Renovation – Federal Transit Administration grant funds and local matching funds are allocated to continue implementation of the Seattle Center Monorail Transit Asset Management Plan and Capital and Major Maintenance Program Plan for renovation of the Monorail trains, guideways, and stations.

Open Space Restoration and Repair – Renovation of public open spaces in 2022 include upgrading pedestrian lighting on Thomas Street, restoring the DuPen Fountain, and planning to replace the roof of the Fisher Pavilion, a popular outdoor event space.

Parking Repairs and Improvements – The City's Lease with ArenaCo for the Climate Pledge Arena commits to operation of the Mercer Garage until 2035. Installation of a new Parking Access and Revenue Control (PARC) system in both the Mercer and 5th Avenue North garages in conjunction with ArenaCo installing a compatible system in the First Avenue North garage will be a priority to complete in 2022. An ongoing program of major maintenance on the garages will continue with repairs to elevators and water intrusion issues in the 5th Ave N. Garage.

Roof Replacements – Phase 2 of roof replacements for Seattle Children's Theatre buildings will be completed in 2022. A temporary repair to the International Fountain Pavilion roof that was made in 2020 is expected to stabilize it until replacement in 2024.

Utility Infrastructure – Renovation of campus utility infrastructure in 2022 includes campus-wide mechanical and electrical system improvements prioritized in the FCA, and re-lining the sewer below 2nd Ave. N.

CIP Revenue Sources

Seattle Center's Proposed 2022-2027 CIP is funded from a combination of revenue sources including Real Estate Excise Tax (REET, the primary funding source for 2022-2027), federal grants, and private funds. Over the years other key funding sources for Seattle Center included voter-approved property tax levies, Washington State and King County funds, and proceeds from property sales, in addition to private funds. Following the adoption of the 1990 Seattle Center Master Plan, two voter-approved levies raised \$62 million for implementing the master plan. This amount in turn leveraged \$500 million in non-City funds, including \$440 million from private sources. The Seattle Center campus is currently experiencing another wave of private investment including KEXP, the Opera at the Center, Space Needle renovation, and Climate Pledge Arena.

Summary of Upcoming Budget Issues and Challenges

The biggest challenges facing Seattle Center's CIP are aging infrastructure and funding constraints. Seattle Center buildings date from the 1930s and some underground sewer lines within the campus are over 100 years old. While some facilities have been significantly renovated, others remain in need of major renovation. Seattle Center is carrying out a program of facility condition assessments to identify current and future needs for capital renovation and replacement. The 2022-2027 Proposed CIP addresses priority needs identified in these condition assessments. Significant additional funding will need to be identified to address future needed asset preservation investments in Seattle Center facilities.

In 2008, following a two-year community process, the City Council adopted the Seattle Center Century 21 Master Plan. The Master Plan provides a roadmap for the redevelopment of Seattle Center around a set of design and planning principles. Implementation of the plan is expected to be supported by a mix of public and private funding. A challenge in the coming years is how to fund the remaining vision of the Master Plan as well as maintain existing capital assets.

Future Projects/What is on the Horizon

The announcement of the Climate Pledge Arena name and philosophy of environmental leadership has brought fresh energy to Seattle Center's commitment to environmental sustainability on its campus. Seattle Center's most fundamentally sustainable premise is its successful stewardship of historic urban fabric; however, the age of the campus also poses challenges. Seattle Center has infrastructure dating to the 1930s. The 2022-27 CIP addresses some of the highest priorities identified in Seattle Center's initial FCA, including the Seattle Children's Theatre Phase 2 and International Fountain Pavilion roof replacements, renovation of selected sewer lines, and replacing of pedestrian lighting fixtures. Seattle Center will need to address other major maintenance needs on the campus – including the conversion of the Central Utility Plant to electric power – in future CIPs.

Seattle Center skilled trades staff are based in a leased facility located just off the campus. Following a significant rent increase in 2019, Seattle Center decided to phase its staff out of this space within five years as the cost has become unjustifiable in the long term. The department is now looking to relocate its skilled trades staff within the Seattle Center campus, perhaps as part of development of the Memorial Stadium site.

A light rail station will be located on or adjacent to the Seattle Center campus as part of Sound Transit 3. Seattle Center is participating in Sound Transit's efforts to identify a preferred site for the Seattle Center station and is providing suggestions regarding where station ingress and egress could potentially occur on the Seattle Center campus. Seattle Center is collaborating with other City departments and engaging with neighbors and resident organizations in providing feedback to Sound Transit.

In 2021, after a necessary pause due to COVID-19, Center was able to advance the proposed redevelopment of Memorial Stadium in partnership with Seattle Public Schools and the Seattle Center Foundation. The 73-year-old Memorial Stadium is owned by Seattle Public Schools (SPS) on land deeded by the City and is outdated and deteriorated. Over several decades, the City and SPS have negotiated various proposals to replace Memorial Stadium and now are close to an agreement. Center and the Foundation have been working to build support for it with the SPS Board members. The City's and Foundation's vision for a new Memorial Stadium would be to transform the heart of Seattle Center with a state-of-the-art facility that would serve SPS' needs for athletics and graduations, and to also be a very desirable venue for arts, cultural, sports and community events. The City and SPS have negotiated a draft Letter of Intent (LOI) and among its provisions is that if SPS' proposed levy funding for Memorial Stadium is approved in February 2022, the City would have the option for a long-term lease and would operate and maintain the new facility. In 2022, SPS and the City would negotiate a Memorandum of Understanding that would implement detailed terms of this LOI and require approval by the SPS Board and City Council.

ADA Improvements

Project No:	MC-SC-S9302	BSL Code:	BC-SC-S03P01

Start/End Date:	N/A	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	N/A	Urban Village:	Uptown

This ongoing project provides for the renovation, repair and the planning for the future renovation of open spaces, green spaces, hard surfaces, and fountains throughout the 74-acre Seattle Center campus. Typical improvements may include, but are not limited to, International Fountain mechanical and hard surface renovation, pedestrian and landscape improvements, hard surface repairs in heavily-trafficked areas, lighting upgrades, and tree replacement.

Skatepark Relocation

Project No:	MC-SC-S1901	BSL Code:	BC-SC-S03P01
Project Type:	Discrete	BSL Name:	Building and Campus Improvements
Project Category:	Rehabilitation or Restoration	Location:	Seattle Center Campus
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2018 - 2020	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$2,200	Urban Village:	Uptown

This project provides for the replacement of the former Seattle Center Skatepark at a new location on a closed portion of Broad Street, just east of the main Seattle Center campus. The former skatepark was within the footprint of the Arena construction project. ArenaCo, the developer of the Arena, is contributing to the cost of the skatepark replacement.

Seattle Public Library

Overview

The Seattle Public Library's facilities include 26 branch libraries and the Central Library, as well as leased storage and shops space. In 2008, the Library completed the final building projects of an extensive, system-wide capital program known as "Libraries for All" (LFA). The LFA program increased the amount of physical space by 80% to a total of over 600,000 square feet, greatly increasing the demands on the Library's major maintenance program.

The subsequent 2012 Library Levy provided an essential seven-year funding stream to maintain the five new and 22 updated libraries that had been renovated, expanded or replaced during LFA. The 2012 levy concluded at the end of 2019, and with passage of the 2019 Library Levy, the Library embarked in 2020 on its current seven-year asset preservation program which includes seismic retrofits at three century-old Carnegie-era branches.

Library buildings can be divided into four major categories:

1. There are ten buildings designated as historic landmarks, including seven Carnegie-era libraries (built in the early 1900s) and three modern buildings.
2. Eleven branch libraries are either LFA new construction (eight buildings) or non-landmarked buildings developed between the 1950s and the 1970s (three buildings).
3. Five small library branches are essentially storefronts, four of which are part of larger buildings.
4. The Central Library is a 12-story 363,000 square foot building that serves as headquarters and hub of the library system. It houses the materials distribution system, Library administration, a 375-seat auditorium and public meeting rooms, large public areas for reading and access to 330 public computers, a data center housing system-wide servers, and the Central Library collection of books and materials.

The Library Major Maintenance program provides ongoing funding for work that preserves or improves building integrity, efficiency and functionality.

Thematic Priorities

The Library's Capital Improvement Program (CIP) projects generally fall into one or more categories: asset preservation, operational efficiency, environmental stability, public service improvements, and safety and security.

Asset Preservation

The overriding priority of the Library's capital program is to extend the useful life of its buildings. As the Library's buildings have all surpassed the ten-year mark since the conclusion of the final Libraries for All bond projects, the buildings require attention to flooring, casework, finishes and restroom fixtures. Major repairs and replacement to roofs, building envelopes, HVAC and other critical building systems, doors, windows, flooring and casework are also examples of asset preservation items funded through the Library's CIP budget. The 2019 Levy also included additional funding for three Carnegie-era branch seismic retrofits.

2022-2027 Proposed Capital Improvement Program

Nearly all of the Library's non-IT \$5 million 2022 Proposed CIP Levy budget can be predominantly classified as asset preservation work. There are also elements of enhanced safety, improved access, energy efficiency and environmental sustainability. Approximately \$2 million is budgeted for the Green Lake branch seismic retrofit project as promised in the 2019 voter-approved levy; additional planning/design costs may be incurred for either or both of the University and Columbia branch seismic projects as well. The balance of Levy CIP funding will pay for mechanical systems replacement at multiple branches (tentatively Greenwood, Northgate, Southwest and West Seattle); fire panel upgrades at several branches (to be determined by an upcoming assessment), and any additional urgent ADA accessibility issues system wide.

Some multi-year branch initiatives have been slowed due to the COVID-19 pandemic and will likely carry into 2022. The major projects may include necessary improvements at the Library's newly-acquired maintenance shop and storage site, exterior work/access improvements at the Douglass-Truth branch, roof and mechanical systems replacement at Capitol Hill branch, mechanical systems replacement at Broadview branch and roof repairs at Queen Anne and Lake City branches.

The iconic Central Library often requires a significant portion of CIP funds, usually distributed over multi-year projects. Historically, larger, complex and challenging projects have been planned and staged sequentially to minimize the impact on Library services to patrons. While there are no new scheduled 2022 projects at the Central Library, it's possible ongoing major sewer repair and repair to the damaged southwest corner of Central's Level 1 could extend into 2022, depending upon availability of contractors and materials.

While these projects are essential for preserving the Library's physical assets, many of them also contribute to the Library system's other essential themes: operational efficiency, environmental sustainability, and improved service to the public.

Library Operational Efficiency; Environmental Sustainability; Safety and Security of Public/Staff

The Library delivers direct services to Seattle residents, who expect highly functional and welcoming library buildings. Major maintenance work carried out under these priorities supports:

- upgrades to help the Library reduce operating costs while minimizing impact to the public;
- renovations to enhance the environmental sustainability of Library buildings; and
- repairs and improvements that augment the safety of library facilities (immediate safety concerns and building integrity are highest priority).

It should also be noted that major Levy-funded IT projects, which can be categorized under operational efficiency and service to the public, were moved to the Library's CIP in 2021. The 2022-2027 Proposed CIP budget includes \$3.2 million in 2022 for upgrading Library enterprise equipment and beginning the replacement of SPL's Integrated Library System for processing and tracking books and materials.

Public Service Improvements

There are no projects solely dedicated to public service improvements scheduled for 2022. Public service improvements mostly encompass work that enhances the library patron experience, such as Reimagining projects that have been completed over the past few years (Rainier Beach, Lake City,

Ballard, Beacon Hill, Highpoint, South Park and Northeast). These projects typically entail increased meeting room space; better connectivity for devices; lowered shelving and improved layout for enhanced sightlines/security/accessibility; and updated carpet, paint and restrooms. Public service improvements are being considered concurrent with the three projects to improve seismic stability (Green Lake, University and Columbia branches), scheduled over the life of the seven-year levy. Construction at the Green Lake branch is scheduled to begin in late 2022. Ultimately, funding will determine whether the scope of these three seismic retrofit projects includes public service improvements.

Project Selection Criteria

In selecting major maintenance work to accomplish each year, the Library evaluates the preservation of building integrity, impact on safety to the public and staff, importance of the work to core library building functions, operational efficiency gains (both economic and environmental), and opportunities to improve or preserve service to the public.

The Library conducts condition assessments and updates information based on inspection by the capital program manager and facilities maintenance staff. The Library obtains professional evaluations of roofs, mechanical, HVAC and lighting systems to flag deficiencies and identify areas where the capital program may be able to reduce operating costs. Library public services managers develop proposals to change the functional use of library space. These proposals are evaluated for feasibility, cost and urgency, and capital program staff works with Library services managers to scope alternatives. Public input also plays a role in project planning. The Library senior management team has ultimate responsibility for authorizing and prioritizing functional building modifications.

Many library facilities are open seven days per week during normal operations, which requires careful planning and staging of projects to keep libraries open as much as possible while capital improvement work is underway. Flexibility is critical to respond to building issues as they emerge.

CIP Highlights

The Library's 2022-2027 Proposed CIP provides a base level of support for asset management during the period when all buildings have surpassed the ten-year mark from their LFA construction or renovation. The 2019 Library Levy provides a total of \$8.2 million (including Seismic/URM and IT Capital allocations) in 2022. The total 2022 REET allocation to the Library is \$1,287,000. The Library will receive \$862,000 in base Real Estate Excise Tax (REET) funding, which is budgeted toward initial planning/design for the Columbia and University branch seismic projects. There is an additional \$425,000 from the Municipal Energy Efficiency Project, which includes \$300,000 for Green Lake electrical/HVAC upgrades concurrent with the seismic retrofit project, and \$125,000 toward Broadview HVAC repairs/electrification.

As mentioned above, the major effort for the Library's CIP in 2022 will be the continued design and then initial construction for the Green Lake branch seismic retrofit. The ultimate aim of this project is to complete seismic and ADA upgrades; with the recent approval of a \$1.8 million Washington State Department of Commerce grant, the project scope has been expanded to include air-conditioning, electrification, additional ADA access improvements, and a reconfigured elevator.

2022-2027 Proposed Capital Improvement Program

CIP Revenue Sources

Historically, Real Estate Excise Tax (REET) was the primary source of funding for the Library's CIP, with an additional smaller allocation from the General Fund. In 2012, the Library worked with the Mayor and City Council to develop a Library levy proposal that voters approved in August of that year. One of the core areas the levy funds is major maintenance. Upon passage of the 2012 Library Levy, the City shifted most major maintenance funding from REET/General Fund to the levy, which provided a significant increase in major maintenance funding for major maintenance projects. The 2019 Library Levy continues support to preserve the Library's capital assets including significant investments in seismic upgrades for three branches.

Levy funding is insufficient to fully cover costs associated with patron and programmatically-driven renovation projects, significant building infrastructure renovations and adjustments, or replacement of major building systems at the Central Library and larger branches. Since passage of the 2012 Library Levy, REET revenue has continued to provide additional funding for targeted efforts, such as the Library's Reimagining Spaces initiative (which sought to enhance Library physical spaces to better address changing patron and community needs) or large-scale major maintenance requirements not anticipated during the planning of the levy.

REET revenue plays a vital role in supporting projects that are beyond the scope of the Library's levy-funded major maintenance program. For example, while the levy remains the primary funding source for the seismic retrofit projects at Green Lake, Columbia and University branches, additional funding is necessary to pursue building upgrades that would be considerably less expensive if performed concurrent with the seismic work. Contingent upon funding, those upgrades could include the addition of air-conditioning; elevator additions/improvements to increase access for patrons with mobility challenges; mechanical system modernization and electrification for increased energy efficiency and reduced reliance on fossil fuels; and other interior enhancements.

As mentioned above, the Library, with significant assistance from Office of Sustainability and Environment, recently received approval for a \$1.8 million Washington State Department of Commerce grant for the Green Lake branch seismic retrofit. The project scope has been expanded to include air-conditioning, electrification (to eliminate reliance on fossil fuels), additional ADA access improvements, and a reconfigured elevator. The Library will continue to seek outside resources to augment the scope of both University and Columbia branch seismic project as well.

Summary of Upcoming Budget Issues and Challenges

COVID-19 Pandemic

One challenge that was certainly not foreseen prior to 2020 – and affecting most of 2020 and 2021 – was the adversity posed by the COVID-19 pandemic. While the pandemic hit Library operations hardest, Library capital projects also felt the impact as contractors and vendors experienced staff shortages due to illness and layoffs, and social distancing and other efforts to reduce viral transmission have slowed the progress of many projects at various stages (planning, design and construction). Funding reductions also prompted reexamination of project scope in some of the larger Library projects. As the impact of the pandemic persisted, adaptation of library spaces to maintain the safety of both public and staff were

required and implemented. It is unknown how long that impact of the pandemic will linger into the future.

The following issues and challenges will need to be addressed in the coming months and years:

Aging Buildings and Infrastructure

Library buildings are among the most intensively-used City facilities in Seattle. Prior to the pandemic, the Central Library hosted over 1.2 million visitors annually, with library branches serving over 3.6 million visitors. The Library's historic landmark buildings have unique features such as brick facades, slate roofs and other details. When undertaking maintenance and repair work, it is essential to use designs and materials consistent with their landmark status – all factors that increase major maintenance costs. The Central Library poses a different set of challenges; a building of its size, complexity and intensity of use requires significant annual major maintenance to preserve core functionality and continually improve building efficiency. All of these factors are considered in establishing the major maintenance component of the Library's ongoing major maintenance program.

Seismic Preparedness

A 2016 survey conducted by the Seattle Department of Construction and Inspection identified seven unreinforced masonry (URM) facilities in the Library's property portfolio requiring seismic retrofit to reduce the risk of injury and loss of life during an earthquake. The survey classified buildings into three categories of vulnerability (critical, high, and medium) with regard to life safety impacts. Three of the seven Library facilities - Green Lake, University and Columbia branches - fell within the high-vulnerability category (with the remainder in the medium-vulnerability category) and the Library Board of Trustees identified those branches as a critical issue to be addressed. The 2019 Library Levy funded seismic retrofits for those three Carnegie-era branches for the period between 2020 and 2026.

As the URM projects will necessitate closure of the branches for a year or more, other needed building improvements will also be scheduled concurrently. Contingent upon available funding, work may entail roof and envelope restoration; elevator and mechanical system upgrades; interior renovation (including electrical, carpeting, furniture and finishes); and efforts to ensure ADA compliance and equitable access.

Adjusting to a Changing Climate

The Library is also adapting to a changing climate, often working with the Office of Sustainability and Environment to identify potential areas for improved energy efficiency and, per mayoral directive, to lessen the Library's reliance on fossil fuels. Several branches – including most of the landmarked branches – are not air-conditioned, and rising summer temperatures can lead to closures which impact patrons and Library operations. The Library is exploring logistics and funding options to add air conditioning to high-use branches that currently lack air-conditioning, which would increase branch comfort year-round and also allow those branches to serve as cooling centers during extreme heat events.

Future Projects / What is on the Horizon

Maintenance and Operations Center

For several years, the Library sought a permanent location for its off-site maintenance shop, storage and Library delivery vehicle parking. In March 2021, the Library acquired a building and parking lot at 5910 Corson Ave S, which replaced its leased maintenance shop and storage space at 6345 6th Ave S. Work is

necessary at the Corson site to upgrade the electrical service for increased HVAC power requirements, along with future conversion from fossil fuels. The space also requires workshop ventilation improvements, better insulation and eventual roof replacement.

ADA Improvements - Library

Project No:	MC-PL-B3012	BSL Code:	BC-PL-B3000
Project Type:	Ongoing	BSL Name:	Capital Improvements

Central Library Infrastructure Improvements

Project No:	MC-PL-B3013	BSL Code:	BC-PL-B3000
Project Type:	Ongoing	BSL Name:	Capital Improvements
Project Category:	Improved Facility	Location:	Central Library 1000 4th Ave
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides for improved infrastructure at the 363,000 square foot Central Library. Central requires substantial infrastructure work to achieve operational efficiency and set the stage for its eventual programmatic re-imagining. Changes to Central also require additional lead time for planning and design, due both to its unique physical configuration/infrastructure and iconic architectural status. Typical improvements may include, but are not limited to, structural and mechanical repairs or improvements, safety and security upgrades, lighting and signage enhancements, and wall and floor surface repairs.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides for major maintenance to Library facilities, which include the 363,000 square foot Central Library and 26 branch libraries as well as storage/shops facilities. Typical improvements may include, but are not limited to, structural and mechanical repairs or improvements, safety and security upgrades, lighting and signage improvements, wall and floor surface repairs, landscape and exterior hard surface repairs, and projects that enhance service delivery or facilitate operational cost-savings at our libraries. This project preserves building integrity and improves functionality, and provides responsible management of the Library's building assets to ensure their long-term operational use. The project was created in 2009 in connection with midyear budget reductions to facilitate efficient asset management.

Seattle Department of Transportation

Overview

The Seattle Department of Transportation (SDOT) is responsible for building and maintaining a safe, reliable, efficient, and socially equitable transportation network. In addition, SDOT maintains and improves critical transportation infrastructure of regional, statewide, and national significance in cooperation with external partners. Achieving transportation excellence helps support businesses, improves access to services and opportunity, enhances quality of life, and builds a more sustainable community. This is accomplished by:

- preserving existing transportation infrastructure and using it to its fullest capabilities;
- moving people and goods efficiently and safely, using technology wherever possible to overcome transportation challenges;
- making transit, bicycling, and walking convenient and attractive and reducing reliance on the automobile;
- shaping future transportation improvements that reflect Seattle's role and connections to the region;
- building community trust through engagement and accountability;
- working to eliminate racial disparities and advance equity goals;
- incorporating environmental excellence and climate protection into every decision, project, and program;
- promoting the livability of our neighborhoods and communities;
- guiding investments that contribute to the economic vitality of neighborhood businesses and industries in Seattle and the surrounding region; and
- managing resources wisely with performance measures.

The replacement value of the City's transportation infrastructure is estimated to be approximately \$28.6 billion. Major system assets include:

- 1,548 lane-miles of arterial streets;
- 2,396 lane-miles of non-arterial streets;
- 124 bridges;
- 497 stairways;
- 581 retaining walls;
- 2.2 miles of seawalls;
- 1,118 signalized intersections;
- 47 miles of multi-purpose trails;
- 2,293 miles of improved sidewalks and median pathways;
- 142 miles of on-street bicycle facilities;
- 38,000 street trees;
- 1,512 pay stations;
- 31,823 curb ramps; and
- more than 194,000 signs.

Seattle continues to experience population growth and increasing density. The 2022 Proposed Budget and the 2022-2027 Proposed Capital Improvement Program (CIP) emphasize transportation safety, efficient mobility of goods, and reliable, socially equitable mobility for people of all ages and abilities.

Transit projects are at the forefront of sustainable transportation solutions. SDOT has numerous projects underway, including: a new pedestrian bridge to facilitate walking, rolling, and biking to the new Northgate Light Rail Station. The RapidRide along Roosevelt Way will enhance bus speed, reliability, transit stations, paving, add protected bike lanes, and improve accessibility. Madison Street Bus Rapid Transit line will connect people to hospitals, schools and universities, and businesses as well as to dozens of bus routes, the First Hill Streetcar, and ferry service at the Colman Dock Ferry Terminal. In addition, planning continues on the Sound Transit Light Rail alignment between West Seattle, Downtown, the Seattle Center, Interbay, and Ballard.

Freight movement improved with the new South Lander Street Grade Separation, and will continue with a rebuilt Alaskan Way, and citywide spot improvements. Additional bridge investments include: repairing the West Seattle Bridge; replacing mechanical or electrical components for three movable bridges (University Bridge, Ballard Bridge, and Spokane Swing Bridge); supporting rehabilitation work on the 4th Avenue South bridge; and studying improvements needed for 10 additional bridges. SDOT continues to invest in pedestrian and bicycle infrastructure to increase safety for pedestrians, people biking, and people driving, through new protected bike lanes, new sidewalks, and improved street crossings.

In November 2018, SDOT published the Move Seattle Levy Workplan, which documented deliverable commitments, delivery plans, schedule assumptions, risk considerations, and spending plans for all 30 Levy subprograms. Due to COVID-19, SDOT experienced local revenue declines throughout 2020. The decrease in local revenue required SDOT to pause projects mid-year, do an assessment at the end of 2020, and to write and publish a report in early 2021 detailing the impacts on individual programs in the Levy to Move Seattle portfolio. The report provided a list of priority projects to be restored should local revenue resources recover or new revenues become available. The 2022-2027 Proposed CIP incorporates both the Workplan and COVID-19 Assessment strategies, and applies updated schedule, risk, and spending assumptions for new developments that have occurred since November 2018.

The 2022-2027 Proposed CIP includes a major change in budgeting of SDOT's capital projects, aligning the capital budget with the department's spending plan for capital projects. This results in much tighter coordination between the budget and anticipated spending. The main benefit of the new approach is an anticipated reduction in the amount of annual underspend and corresponding carryforward of capital budget appropriations. Right sizing the capital budget to what the department expects to spend presents a better alignment between the funding stream and our anticipated project delivery.

This change involves two interconnected actions. SDOT has identified \$73.6 million current year (2021) resources on ongoing projects that will not be used prior to year-end. The budget authority to spend these resources will be abandoned before the end of 2021 and will become part of the available project funding for the proposed 2022-2027 CIP. While this change does not free up resources for emerging budget needs, it does provide greater transparency and accountability in the SDOT proposed CIP. Other City departments, including Seattle Public Utilities and Seattle City Light, have implemented similar capital budgeting practices.

Grants and partnerships are an exception to this approach. Those funding sources will still represent the full amount of our awards or agreements and will automatically carryforward as they do currently.

The 2022 Proposed Budget and the 2022-2027 Proposed CIP outline investments in critical transportation infrastructure needs and include planned spending of \$1.6 billion during the six-year planning period. Key work includes street paving and resurfacing; building new sidewalks and curb ramps; school safety improvements; implementation of the Bike, Pedestrian, Freight, and Transit Master

Seattle Department of Transportation

Plans; investments to facilitate freight mobility; traffic cameras and signals; bridge projects such as bridge replacement, maintenance, and seismic retrofitting; and support for the Waterfront Program. For details, please see the associated explanations below.

Street Paving and Resurfacing: The proposed CIP includes funding for the following projects:

- \$5.3 million in 2022 for Arterial Major Maintenance;
- \$10.0 million in 2022 for Arterial Asphalt & Concrete Program Phase II; and
- \$1.8 million in 2022 for Non-Arterial Street Resurfacing and Restoration.

In 2022, the Arterial Asphalt & Concrete Program Phase II (AAC) does not have any new projects scheduled to start construction. The AAC program will continue construction on 15th Ave S (from S Angeline St to S Spokane St, S Spokane St from S Columbian Way to 18th Ave S, and S Columbian Way from 15th Ave S to the I-5 West Seattle Bridge Ramps) and Delridge Multimodal Corridor. The program will reach completion on 5.8 lane miles of paving in 2022 but could be completed as early as late 2021 if we have warm dry weather this Fall.

Several AAC projects will be in close out in 2022 including 15th Ave. NE, N 40th St., N 50th St., Greenlake Loop, and N 80th St. Design work will start or will continue in 2022 on the following projects 11th/12th Ave. NE, 15th Ave. NW/Ballard Bridge Deck, and Denny Way.

In addition to major contract paving, SDOT crews have planned to undertake 4 to 6 lane-miles of paving on Arterial Major Maintenance (AMM) and another 2 to 3 lane-miles on Non-Arterial Street Resurfacing and Restoration (NASRR).

Pedestrian Master Plan Investments: The 2022-2027 Proposed CIP includes five projects that are solely dedicated to advancing the recommendations of the Pedestrian Master Plan (PMP).

- The Pedestrian Master Plan Crossing Improvements project funds pedestrian crossing improvements, primarily focused on crossings near transit stops and on walking routes to school. The proposed CIP includes \$5.8 million for this project in 2022.
- The Pedestrian Master Plan New Sidewalks project includes \$5.4 million in 2022 to design and construct new sidewalks. Of the total, \$3.1 million funding is provided by the School Safety Traffic and Pedestrian Improvement Fund (SSTPIF), which collects ticket revenue from fixed automated cameras located near school zones. This fund was created for school safety infrastructure improvements, school zone camera installation and operation, school zone warning beacon maintenance, school safety program administration, and bicycle and pedestrian safety education. These SSTPIF monies will be used to construct sidewalks within Seattle Public Schools walk zones. The remaining funding (Move Seattle Levy and Real Estate Excise Tax revenue) focuses on connections to frequent transit stops.
- The Pedestrian Master Plan School Safety project includes \$2.7 million in 2022 for pedestrian improvements in school zones. The project is mainly funded by the SSTPIF. These capital improvements may include school zone signing, crosswalk maintenance, curb bulb and curb ramp replacement and maintenance, sidewalk maintenance, and changes to traffic circulation around schools.

Seattle Department of Transportation

- The Pedestrian Master Plan–Stairway Rehabilitation program totals \$1.5 million from various local funding sources. Stairways provide pedestrian connections to streets throughout Seattle’s hilly neighborhoods. The program rebuilds and rehabilitates stairways to the latest standards, adding proper width, step height, grip rail, landings, and other features required by the Americans with Disabilities Act.
- The SDOT ADA Program includes almost \$13.8 million of local funding to deliver ADA compliant curb ramps and accessible pedestrian signals. This funding supports the City in meeting the annual ADA curb ramp requirement of 1,250 ramps per year. Of the 2022 funding, \$2.2 million is funded by SSTPIF and will support the installation of curb ramps near Seattle Public Schools.

The table below shows a summary of the Pedestrian Master Plan investments:

Pedestrian Master Plan Projects	2022
PMP - Crossing Improvements	\$5,802,448
PMP - New Sidewalks	\$5,435,025
PMP - School Safety	\$2,746,020
PMP - Stairway Rehabilitation	\$1,493,638
SDOT ADA Program	\$13,767,773
Total	\$29,244,904

Bicycle Master Plan Investments: The Bicycle Master Plan includes three projects specifically focused on advancing the Bike Master Plan recommendations and supporting the Bicycle Master Plan goals of safety, connectivity, ridership, equity, and livability.

- The Bike Master Plan Greenways project includes \$3.4 million in 2022 for Neighborhood Greenways to create safer, calmer residential streets by making people walking and biking the priority. Neighborhood Greenways can include speed humps, crosswalks, flashing beacons, signs and pavement markings, and speed limit signs.
- The Bike Master Plan Protected Bike Lanes project includes \$9.2 million in 2022 to provide a space used for bicycles separated from motor vehicles, parking lanes, and sidewalks. Improvements include installing bike lanes separated from general traffic with paint or barriers, bicycle route signing, bike/pedestrian signals, and restructuring trails.
- Bike Master Plan Urban Trails and Bikeways project supports the City’s Urban Trails and Bikeways. Activities include spot improvements, bike parking, and programs that promote safety and encourage riding. The proposed CIP includes \$1.0 million for this project in 2022.

The table below shows a summary of the Bicycle Master Plan investments:

Bike Master Plan Projects	2022
BMP - Greenways	\$3,412,000
BMP - Protected Bike Lanes	\$9,187,773

Seattle Department of Transportation

BMP - Urban Trails and Bikeways	\$1,000,999
Total	\$13,600,772

In addition to the projects solely dedicated to delivering the Pedestrian and Bicycle Master Plans, there are many SDOT capital projects that indirectly contribute improvements that advance the plans. The table below shows projects that support both the Bike and Pedestrian Master Plans; note that dollars shown are for 2022 estimated costs and not the entire capital projects.

Projects that Support the Bike & Pedestrian Master Plan	2022
23rd Avenue Corridor Improvements	\$3,289,552
Burke-Gilman Trail Extension	\$2,028,694
Delridge Way SW - RapidRide H Line	\$10,586,793
Georgetown to South Park Trail	\$4,289,131
Heavy Haul Network Program - East Marginal Way	\$2,250,000
Highland Park Intersection Improvements	\$2,478,868
Madison BRT - RapidRide G Line	\$15,522,888
NE 43rd Street Improvements	\$9,619
Neighborhood Large Projects	\$887,296
Neighborhood Parks Street Fund - Your Voice, Your Choice	\$1,001,357
North of Downtown Mobility Action Plan	\$1,026,489
Northgate Bridge and Cycle Track	\$6,064,032
Overlook Walk and East-West Connections Project	\$75,592,001
RapidRide Roosevelt	\$21,132,734
Route 40 Transit-Plus Multimodal Corridor	\$8,132,998
Route 44 Transit-Plus Multimodal Corridor	\$3,700,480
Route 7 Transit-Plus Multimodal Corridor Project	\$1,885,564
Sidewalk Safety Repair	\$5,015,939
SPU Drainage Partnership - Broadview Pedestrian Improvements	\$1,873,597
Thomas Street Redesign	\$3,849,649
Transit Corridor Improvements	\$3,270,731
Vision Zero	\$6,242,559
West Marginal Way Safe Street and Accessibility Improvements	\$1,650,000
Total	\$181,780,971

Transit Projects:

The 2022 Proposed CIP contains 15 transit projects, including seven Transit-Plus Multimodal Corridor projects as part of the Move Seattle Levy program. These projects include redesigning major streets with more frequent and reliable buses; and upgrading paving, signals, and other improvements to improve connectivity and safety for all travelers, whether walking, biking, driving, or taking transit.

Seattle Department of Transportation

The Transit-Plus Multimodal Corridor projects include (in order of scheduled delivery): Delridge Way SW – RapidRide H Line, Madison BRT – RapidRide G Line, Route 7 Transit-Plus Multimodal Corridor (Rainier), Route 44 Transit-Plus Multimodal Corridor (Market/45th), RapidRide Roosevelt, and Route 40 Transit-Plus Multimodal Corridor (Fremont/Northgate). These projects rely on a variety of Levy, local, and grant funding. The seventh project, Route 48 Transit-Plus Multimodal Corridor, was added in the 2021 CIP. In addition to the large capital Transit-Plus Multimodal Corridor projects, the CIP contains budget for transit spot improvements throughout Seattle. These spot improvements focus on operational efficiencies (which help reduce travel time and therefore operational costs), safety, and access enhancements (which improve the rider experience while enhancing safe conditions for riders of all abilities). Investments include installing queue jumps, bus-only lanes, in-lane stops/bus bulbs, and bus stop and station access amenities. SDOT also provides support for Sound Transit projects through public engagement, design review, permitting and construction support for transit stations. As well as constructing pedestrian and bicycle enhancements and implementing Restricted Parking Zones adjacent to new stations.

The 2022 CIP budget also proposes to restart the Center City Connector (C3) project to capture unique timing and opportunities. The C3 project was put on hold in 2018 while an independent review and engineering analysis was performed. The project was subsequently restarted in 2019 with the understanding that additional scope elements to accommodate a larger and heavier vehicle specification would be needed. In March 2020 the C3 project was put on hold again as part of the Citywide effort to respond to financial shortfalls resulting from COVID-19 and SDOT did not advance work on the project.

With improved revenue recovery, the 2022 Proposed Budget provides \$2.4 million of Transportation Network Company (TNC) tax revenues for updating the C3 project development plan and conducting the analysis necessary to support collaboration between the City and Sound Transit for the planning of the West Seattle to Ballard Link Extension (WSLBE) Project.

The table below shows a summary of transit related investments:

Transit Projects	2022
23rd Avenue Corridor Improvements	\$3,289,552
Center City Streetcar Connector	\$2,400,000
Delridge Way SW - RapidRide H Line	\$10,586,793
Lynnwood Link Extension	\$69,928
Madison BRT - RapidRide G Line	\$15,522,888
RapidRide C & D Line Improvements	\$6,000,000
RapidRide Roosevelt	\$21,132,734
Route 40 Transit-Plus Multimodal Corridor	\$8,132,998
Route 44 Transit-Plus Multimodal Corridor	\$3,700,480
Route 48 Transit-Plus Multimodal Corridor	\$645,000
Route 7 Transit-Plus Multimodal Corridor Project	\$1,885,564
Seattle Transportation Benefit District - Transit Improvements	\$1,000,000
Sound Transit - East Link	\$70,054
Sound Transit 3	\$2,151,083
Transit Corridor Improvements	\$3,270,731

Total	\$79,857,803
-------	--------------

Freight Projects:

The Heavy Haul Network Program—East Marginal Way project is currently segmented into at least two phases to maximize grant utilization and deliver safety improvements as quickly as possible. The first phase (through 2023) will create separation between freight and bicycle traffic and make signal improvements aimed at increasing safety for people using both modes. Both 100% design for Phase 2 and the Central Segment are occurring concurrently with design of Phase 1 due to a \$4 million Federal Highway Administration grant. Phase 2 reconstructs the North Segment of the street to heavy haul pavement standards supporting freight traffic, while the future Central Segment makes a non-motorized connection south to S Alaska St. The project is not fully funded and SDOT continues to pursue additional funding options, including federal grants, contributions from the Port of Seattle, and potential reallocation of project savings from completed Move Seattle Levy projects. Scope adjustments are also under consideration.

The 2022-2027 Proposed CIP also includes \$5.1 million of Move Seattle Levy funds (\$1.6 million in 2022) for the Freight Spot Improvement project. These smaller-scale vital freight spot improvements include pavement repairs in industrial areas, turning radius adjustments, and other sign and operational improvements to facilitate movement of freight throughout the city. Funding allocation varies year to year based on planned projects.

The table below shows a summary of the Freight Master Plan investments, including all funds supporting these projects:

Freight Master Plan Projects	2022
Freight Spot Improvement Program	\$1,634,438
Heavy Haul Network Program - East Marginal Way	\$2,250,000
Total	\$3,884,438

Bridge & Structures Projects:

The City owns 124 bridges and maintaining all of them in appropriate condition is a major challenge. The Bridge Rehabilitation program in the 2022-2027 Proposed CIP explores the feasible rehabilitation and replacement options for the long-term future of 10 bridges, including: the Ballard, Magnolia, and Thornton Creek bridges, rehabilitation of the 39th/Pine Pedestrian Bridge and 90% Design for the 33rd Ave/RR Pedestrian Bridge. There is also funding set aside for the improvement of pedestrian and bicycle safety on or near City-owned bridges. The Move Seattle Levy also provides funding for the next phase in the Bridge Seismic program. Eleven bridges are being evaluated as part of the current bridge seismic retrofit program; these bridges are located throughout the city. The Proposed CIP also includes an average of \$4.3 million annually for the Bridge Painting program, which is a critical asset preservation project for the City's 20 structural steel bridges.

Another investment in the 2022-2027 Proposed CIP relates to bridge load rating, which is a procedure to evaluate the adequacy of various structural components to carry predetermined live loads (vehicular weights). The standards were revised by the Federal Highway Administration in November 2013 and

require SDOT to re-evaluate the load ratings for 69 bridges by 2022 for two new vehicle types. The new vehicle types are: 1) two configurations of emergency vehicles (Type EV2 and Type EV3), which are used primarily by fire departments and are equipped for firefighting; and 2) Special Haul Vehicles (SHV), which are trucks that have multi-axle configuration. The proposed CIP includes \$1,088,000 funding in 2022 to complete this mandate.

Lastly, the proposed CIP provides funding to continue the stream mitigation work for the Northgate Bridge and Multi-Use Path project. The Northgate Bridge project is a cornerstone of the Move Seattle Levy; it provides a new accessible, all ages and abilities pedestrian and bike bridge over Interstate 5 (I-5) in Northgate. The spans over I-5 are in place and the bridge is set to open in Fall 2021. The Northgate Bridge project also requires stream mitigation work (to be completed by 2024). The Willow Creek Stream Mitigation project will serve as off-site fish passage restoration and the mitigation project site at NE 100th would provide better access to suitable quality habitat.

In addition to bridges, SDOT also maintains more than 600 retaining walls throughout Seattle. The 2022-2027 Proposed CIP includes \$2 million funding to reach 100% design on a new Northlake Retaining Wall. This critical structure is a 452-foot-long lake front timber structure that was constructed in 1951 and is located along the north shoreline of Lake Union adjacent to North Northlake Way. The wall currently shows signs of advanced deterioration, overstress, and some sections of structural failure. The current calculated capacity/demand ratio is 0.1 where 1.0 represents stability. This presents a significant risk to public safety given the right-of-way supported by the wall, the private structures directly offshore and adjacent to the wall, and the close proximity (immediately adjacent and up to 50 feet onshore) of overhead power lines and subsurface gas, sewer, drainage, and water utility infrastructure. This project is part of a pilot project where funding will be appropriated by stage, with a milestone-based review from City Council.

Seattle Waterfront Capital Projects: There are four major capital projects in the SDOT budget related to the downtown waterfront. These projects were created in response to the 2001 Nisqually Earthquake that damaged the WSDOT SR 99 Viaduct on the Seattle Waterfront and made the structure vulnerable to failure in a future seismic event. Subsequent analysis of the viaduct showed the Elliott Bay Seawall timbers were deteriorating and could similarly fail during a seismic event. A decision to replace the viaduct with a tunnel for SR 99 was subsequently made by WSDOT, and Seattle voters approved funding to replace the Elliott Bay Seawall. Since both projects would dramatically affect the waterfront, in 2012, the City Council adopted the Waterfront Concept Design, Framework Plan and Strategic plan to guide restoration of a surface street along the waterfront and a number of public improvements aimed at both improving transportation and creating new public spaces for residents and visitors to enjoy.

The Elliott Bay Seawall Project (MC-TR-C014) was completed in 2017. The Alaskan Way Viaduct Replacement Project (MC-TR-C066) includes SDOT's costs related to design review, permitting issuance and administration, and construction support and acceptance of WSDOT funded projects. The WSDOT-funded improvements include the SR-99 Bored Tunnel (which opened to traffic in February 2019), demolition of the Viaduct structure, improvements to reconnect the street grid at the north and south tunnel portals, and the Battery Street Tunnel Decommissioning. Work remains to finish the decommissioning of the Battery Street Tunnel and reconnect the street grid.

The Alaskan Way Main Corridor (MC-TR-C072) and the Overlook Walk and East-West Connection projects (MC-TR-C073) are led by the Office of the Waterfront and Civic Projects. The Alaskan Way Main Corridor project began work in 2019, following Viaduct demolition by WSDOT, and includes the design

and construction of the Alaskan Way/Elliott Way surface street, the adjoining pedestrian promenade along the waterfront and several east-west connections that are primarily funded by WSDOT. Substantial completion is slated for early 2024.

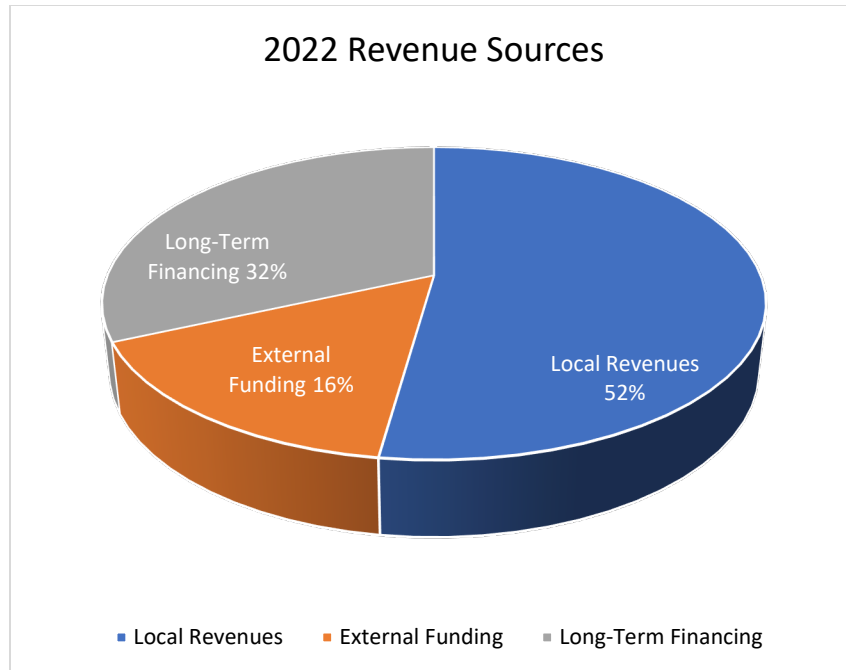

The Overlook Walk and East-West Connections projects include the Overlook Walk that provides pedestrian connections between the waterfront and the Aquarium and Pike Place Market. Construction of the East-West Connection projects began in 2021 with the start of the Union Street Pedestrian Bridge project. The Overlook Walk will begin construction in 2022, with substantial completion in 2024.

CIP Revenue Sources

Multiple funding sources support the Transportation CIP, including:

- Move Seattle Levy;
- Gas Tax;
- Multimodal funds;
- Real Estate Excise Tax;
- Commercial Parking Tax;
- Vehicle License Fees;
- Long-term financing (general obligation bonds);
- Public Works Trust Fund Loans;
- Street vacation revenues;
- School Zone Safety and red light camera revenues ;
- Street use fees;
- Property sale proceeds;
- Federal and state grants; and
- Funds from various funding partners, such as Sound Transit, the Port of Seattle and the Washington State Department of Transportation.

In 2022 the SDOT proposed CIP budget is \$422.3 million from the following sources:

Local Revenues

Local funding sources for the Transportation CIP include Move Seattle Levy proceeds, Gas Tax, Multimodal funds, Cumulative Reserve Real Estate Excise Tax (REET) I & II, Commercial Parking Tax, Vehicle License Fees, and School Safety Traffic and Pedestrian Improvement funds. These revenues are for programs that improve or maintain the City's transportation system or to provide local matching funds to SDOT's funding partners on large capital projects.

Thematic Priorities

SDOT's vision for Seattle is a thriving, equitable community powered by dependable transportation. The organization's mission is to deliver a transportation system that provides safe and affordable access to places and opportunities. To accomplish this, SDOT prioritizes services and capital projects based on the core principles in the City's 10-Year Strategic Vision for Transportation - Move Seattle. The goal of the strategic vision is to organize actions around SDOT's core values:

- 1. Equity** – We believe transportation must meet the needs of communities of color and those of all incomes, abilities, and ages. Our goal is to partner with our communities to build a racially equitable and socially just transportation system.
- 2. Safety** – We believe everyone should be able to move safely throughout the City. Our goal is to create safe transportation environments and eliminate serious and fatal crashes in Seattle.
- 3. Mobility** – We believe transportation choices are critical to access opportunity. Our goal is to build, operate, and maintain an accessible transportation system that reliably connects people, places, and goods.

Seattle Department of Transportation

4. **Sustainability** – We believe environmental health should be improved for future generations through sustainable transportation. Our goal is to address the climate crisis through a sustainable, resilient transportation system.
5. **Livability** – We believe transportation is essential to support daily life. Our goal is to manage our streets and sidewalks to enrich public life and improve community health.
6. **Excellence** – We believe in exceeding the expectations of the communities we serve. Our goal is to build an SDOT team committed to excellence and equipped with skills to meet the challenges of today and tomorrow.

Transportation projects are initiated through a number of methods including planning processes (modal, subarea, neighborhood planning), preservation, operations and safety needs assessment, regulatory requirements, elected official direction and, in some instances, from neighborhood input such as the Neighborhood Street Fund (Your Voice, Your Choice) program.

Community members have significant input in the development of all SDOT plans through public engagement processes. Seattle's Pedestrian, Bicycle, Transit and Freight Advisory Boards are also consulted regularly to provide input on project/program needs. Since 2016, the Move Seattle Levy Oversight Committee has reviewed SDOT's program and project priorities and financial plans, and made recommendations to the Department, the Mayor, and City Council on the allocation of resources. Representatives from SDOT regularly meet with the Oversight Committee, to provide updates and solicit input on the allocation of resources. Prior to 2016, the Bridging the Gap Oversight Committee performed the same advisory function. Starting in 2022, a Transportation Equity Framework being codeveloped with a Transportation Equity Workgroup will influence decisions and investments as well.

Many factors can affect SDOT's project and funding decisions, including regulatory requirements, state, and federal law (such as the Americans with Disabilities Act), and construction seasons. Opportunities to leverage the City's limited funding with grants or coordinating projects with other agencies can also affect SDOT's decisions on project prioritization and schedule.

In every case, SDOT strives to implement the City's policy goals laid out in Seattle's Comprehensive Plan and individual policy initiatives such as Complete Streets, the Race and Social Justice Initiative, Vision Zero, and the Climate Action Plan. SDOT's 10 Year Strategic Transportation Plan, modal plans, and subarea plans provide an overall framework for implementing these goals.

23rd Avenue Corridor Improvements

Project No:	MC-TR-C037	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	23rd AVE S/E John ST/Rainier AVE S
Current Project Stage:	Stage 3 - Design	Council District:	Council District 3
Start/End Date:	2013 - 2022	Neighborhood District:	Central
Total Project Cost:	\$62,396	Urban Village:	23rd & Union-Jackson

This multi-phase project will reconstruct sidewalks, enhance the pedestrian environment, reconstruct pavement, upgrade signalized intersections, upgrade controller cabinets to meet transit signal priority (TSP) needs, and accommodate Intelligent Transportation Systems (ITS) upgrades. Activities include the following: install ITS to provide travel time information; install fiber communication as needed along the corridor to relay information back to the Traffic Management Center; and install poles for support of future trolley wires in two gap segments of the trolley network. The project will also include design and construction of a 3-lane cross section (with 4 lanes at isolated intersections) between John Street and Rainier Ave South, as well as a greenway facility on a parallel street to facilitate north-south bicycle travel. Phases 1 and 2 are complete. Phase 3 of the project which completes the improvements between John St. and State Route 520 remains on indefinite hold due to funding constraints. An interim Vision Zero project will construct new traffic signals, parking modifications, new curb ramps, traffic calming, speed reduction, pedestrian safety, and transit stop improvements in the Phase 3 project area.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

35th Avenue SW Paving

Project No:	MC-TR-C099	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	35th Ave. SW from SW Morgan St to SW Roxbury
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 1
Start/End Date:	2023 - 2025	Neighborhood District:	Delridge
Total Project Cost:	\$35,000	Urban Village:	West Seattle Junction

This project will resurface and reconstruct 35th Ave. SW from SW Morgan St. to SW Roxbury St.

Unsecured Funding:	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total
To Be Determined	-	-	-	35,000	-	-	-	-	35,000
Total:	-	-	-	35,000	-	-	-	-	35,000

Unsecured Funding Strategy: Funding for this project was not included as part of the Levy to Move Seattle paving commitments; the project is also not likely to rank highly for grant funding. Funding for this project may depend upon identification of new/incremental revenue sources.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by bringing assets to a new or like new condition.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

3rd Avenue Corridor Improvements

Project No:	MC-TR-C034	BSL Code:	BC-TR-19003

Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project makes multimodal improvements for the Third Avenue transit corridor in downtown Seattle, specifically focused on bus stop, streetscape, and transit streetpriority improvements, e.g. installation of Third Avenue and Denny Way transit only signal, on Third Avenue between S. Jackson Street and Denny Way.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

Accela Permitting System

Project No:	MC-TR-C001	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project will migrate SDOT permitting operations from the Hansen 7 system to the new Citywide Accela permitting platform. The vision for Accela is to create a fully integrated permitting system that provides an online, all in one place experience for Seattle customers and staff. Once the initial migration is complete, this project will provide ongoing funding for routine system improvements as well as periodic major upgrades needed to stay current with changing technology.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total
Street Use Fees	-	(4,251)	-	-	-	-	-	-	(4,251)
Street Vacations - SVF	-	400	-	-	-	-	-	-	400
User Fees	15,186	7,291	3,560	1,691	1,000	1,000	-	-	29,728
Total:	15,186	3,440	3,560	1,691	1,000	1,000	-	-	25,877
Fund Appropriations / Allocations¹	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total
Transportation Fund	15,186	3,440	3,560	1,691	1,000	1,000	-	-	25,877
Total:	15,186	3,440	3,560	1,691	1,000	1,000	-	-	25,877

O&M Impacts: Maintenance for the permitting system is paid for via a central cost allocation from Seattle IT and then recovered against SDOT projects through overhead allocations. The \$1M annual budget after 2021 represents a sinking fund for eventual system replacement.

Accessible Mt. Baker Implementation

Project No:	MC-TR-C002	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 3
Start/End Date:	2017 - 2023	Neighborhood District:	East District
Total Project Cost:	\$2,900	Urban Village:	Madison-Miller

The project will transform the Mt. Baker station area into a safer and comfortable place for people to walk, bike, and make transit connections; and for the Mt. Baker Town Center to take root and flourish. In addition to prioritizing walking and biking, the project will maintain transit and freight reliability and create more predictable conditions for people driving.

Alaskan Way Main Corridor

Project No:	MC-TR-C072	BSL Code:	BC-TR-16000
Project Type:	Discrete	BSL Name:	Central Waterfront
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2013 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$372,208	Urban Village:	Multiple

This project designs and constructs the rebuilt Alaskan Way/Elliott Way surface streets and the adjoining pedestrian promenade along the Seattle waterfront following the demolition of the Alaskan Way Viaduct. The State of Washington has built a deep bore tunnel to replace the Alaskan Way Viaduct (Viaduct) and has relocated State Route (SR) 99 into the tunnel. The City of Seattle is responsible for the Alaskan Way/Elliott Way surface street and the promenade. The project also includes replacement of and improvements to four key connections impacted by the Viaduct removal, namely Seneca Street, Columbia Street, and the Marion Street and Lenora pedestrian bridges. This project is part of the overall waterfront improvement program. Construction of these improvements began in 2019.

Previous versions of the CIP showed the use of interfund loan resources as part of this project's budget. Following repayment of the interfund loans used, this resource no longer shows as part of the CIP.

Total:	-	-	-	9,000	-	-	-	-	9,000

Unsecured Funding Strategy: The demolition of the Alaskan Way Viaduct was delayed from its original timeline. This delayed the Alaskan Way Main Corridor project and increased costs for the Waterfront program. WSDOT and the City worked together last year to make a request of the Legislature for an additional \$9m from the liquidated damages settlement from the Tunnel contractor to cover part of these costs. While the request was not included biennial budget, the City and State are working together to include the funding in the Governor's budget proposal and request the funds in the upcoming legislative session. This \$9 million is being shown in the Proposed 2022-2027 CIP as To Be Determined funding.

O&M Impacts: This project replaces aging infrastructure along the Central Waterfront providing an O&M benefit. It also builds new infrastructure for several City departments. The maintenance of the new public open space and pedestrian promenade will be funded primarily with Metropolitan Park District funds set-aside for this purpose. Transportation infrastructure capital elements are planned to be maintained through the proposed Waterfront Transportation Infrastructure Maintenance project, MC-TR-109.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Alaskan Way Viaduct Replacement

Project No:	MC-TR-C066	BSL Code:	BC-TR-19002
Project Type:	Discrete	BSL Name:	Major Projects
Project Category:	New Facility	Location:	ALASKAN WY VI SB
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2001 - 2019	Neighborhood District:	Multiple
Total Project Cost:	\$99,864	Urban Village:	Multiple

This project funds the City's involvement in the replacement of the Alaskan Way Viaduct with the bored tunnel hybrid alternative. Replacement of this structure will enhance overall safety, as this structure is seismically vulnerable. In prior years, this project included design of the Central Seawall and Waterfront Improvements. For transparency purposes, the Seawall and Waterfront work was reflected in three new capital projects, Elliott Bay Seawall Project (MC-TR-C014), Alaskan Way Main Corridor Program (MC-TR-C066), and the Overlook Walk and East-West Connections Program (MC-TR-C073).

Arterial Asphalt & Concrete Program Phase II

Project No:	MC-TR-C033	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

The Arterial Asphalt and Concrete Program maintains Seattle's 1,581 lane miles of arterial streets through resurfacing and reconstruction projects. The Department uses a pavement management system to track the condition of arterial street pavement, to develop maintenance needs and establish priorities, and to select the streets to be rehabilitated each year. This project improves the quality and condition of the City's arterials.

Arterial Major Maintenance

Project No:	MC-TR-C071	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project repairs and/or replaces deteriorated pavement on arterial streets. Arterial Major Maintenance paving work typically spans one to three city blocks. It allows the City to respond quickly and cost effectively to pavement issues that are too large to be addressed with a pothole repair but too small to be efficiently contracted. Project prioritization is based on pavement condition; cost; transit, bicycle, pedestrian and freight use; traffic volume; coordination opportunities; complaints and claims; and geographic balance across the city. The work extends the service life of existing pavement structures.

Ballard to Downtown High Capacity Transit and Ship Canal Crossing Project

Project No:	MC-TR-C080	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Downtown Ballard
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2013 - 2017	Neighborhood District:	Multiple
Total Project Cost:	\$800	Urban Village:	Multiple

This project will develop recommendations for implementation of high capacity transit alternatives between Ballard and Downtown Seattle. The project will build on the Ballard-Fremont-South Lake Union-Downtown corridor identified in the Transit Master Plan. The work will be done in conjunction with Sound Transit. The project will also develop conceptual designs and cost estimates for a new ship canal crossing for transit, pedestrians, and bicycles.

Bike Master Plan - Greenways

Project No:	MC-TR-C063	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program creates routes on residential streets that are optimized for safer and more comfortable walking and biking for people of all ages and abilities. Typical improvements include curb ramps, speed humps, crosswalks, median islands, shared lane markings, stop signs, traffic signals, pavement and sidewalk repair, and wayfinding signs. The goals of the program are to design streets with lower vehicle speeds and volumes; to increase the number of people walking and biking on residential streets; and to improve walking and biking access to schools, trails, parks, transit and neighborhood businesses.

Unsecured Funding Strategy: SDOT will evaluate deliverables, prioritize and scale projects to the extent feasible, and continue to pursue grant and partnership opportunities to resolve potential funding deficits. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Bike Master Plan - Protected Bike Lanes

Project No:	MC-TR-C062	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements the Seattle Bicycle Master Plan. Typical improvements may include installing protected bike lanes, bike lanes and sharrows, bicycle route signing, completing key links in the urban trails network, adding bicycle/pedestrian signals to complete the network, and reconstructing key sections of the trails. The goals of the program are to increase bicycle safety and access while reducing bicycle crashes. This program includes funding for street improvement and trail construction and is consistent with the focus in the City's Transportation Strategic Plan (TSP) on encouraging walking and biking. The Accelerated Move Seattle Levy - Lid Lift Revenues represent spending that is in excess of available levy funds; consequently, Move Seattle appropriations are reduced in future years so that the total Move Seattle funding and expenditures are balanced over the nine years of the levy. LTD actuals may include the BMP spot improvements, Urban Trails, and Neighborhood Greenways, which were previously combined with this project's budget.

Bridge Load Rating

Project No:	MC-TR-C006	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This program rates bridges for safe load-carry capacity as part of a federally mandated program. The work on this project, performed by both City staff and consultants, ensures public safety. Due to new load rating standards issued by the FHA on November 13, 2013 for Specialized Hauling Vehicles (SHV), additional funding was added to the program as part of the 2015-2020 Proposed CIP. The requested funding needed to meet these new standards was provided in 2019; however, shortly after signing the FAST ACT in 2015, FHWA submitted a 2016 memo that required bridge load ratings to consider Emergency Vehicles if they are at least one road-mile access to and from the National Network of highways. The program is currently assessing whether additional funding beyond 2021 will be needed to meet this mandate.

This ongoing asset preservation program provides for the periodic painting of the City's steel structures that are maintained by the Roadway Structures Division. The painting cycle is initially determined by applying Federal Highway Administration standards for coating life and is supplemented by annual physical inspections to assess the rate of deterioration.

Bridge Rehabilitation and Replacement Phase II

Project No:	MC-TR-C039	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This asset preservation program funds major bridge rehabilitation or bridge replacement. The current program, funded by the Levy to Move Seattle, is focused on planning studies. The objective of these bridge planning studies is to identify if the bridge should be rehabilitated or replaced and provided planning level costs to allow for the City and the Program Owner to develop a funding plan for the future rehabilitation or replacement of these bridges.

Bridge Seismic - Phase III

Project No:	MC-TR-C008	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

The program prioritizes and implements seismic retrofits to bridges based seismic vulnerability. Concept level analysis and evaluation is performed to develop a retrofit strategy and cost estimate. As funding allows, retrofit design and construction phases are implemented. If full funding is not available, seismic retrofits are scaled to the appropriate funding level that would still provide improvements in the seismic resiliency to the bridge structure. As part of the evaluation process a cost-benefit assessment is made to determine if replacing the structure is a more appropriate course of action then seismically retrofitting the structure. 16 bridges are part of the current phase of the program which is funded by the Levy to Move Seattle.

This project will advance the concept designs for Seattle's RapidRide and Transit-Plus Multimodal Corridor Expansion program. In order to deliver the corridor improvements, this work includes assessment and development of corridor design, detailed line and network ridership forecasting, capital cost estimates, traffic and environmental analysis, modal integration, and funding plans.

Burke Gilman Trail Improvements - UW Campus

Project No:	MC-TR-C086	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 4
Start/End Date:	2017 - 2019	Neighborhood District:	Northeast
Total Project Cost:	\$750	Urban Village:	University District

The project will implement spot improvements to the Burke-Gilman Trail north of the campus including pavement repair and crossing upgrades. If needed, a portion of the funding will be available to help the University complete design of the second phase of upgrades to the campus portion of the trail.

Burke-Gilman Trail Extension

Project No:	MC-TR-C044	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 6
Start/End Date:	1995 - 2022	Neighborhood District:	Ballard
Total Project Cost:	\$37,172	Urban Village:	Ballard

This project extends the Burke-Gilman Trail from its current terminus at Eighth Avenue NW to Golden Gardens Park. The segment from Eighth Avenue NW to 11th Avenue NW was constructed in 2001. The Ballard Locks to NW 60th Street segment was constructed in 2005. The NW 60th Street to Golden Gardens segment was constructed in 2008. The "Missing Link" segment from 11th Avenue NW to the Ballard Locks was planned for construction in 2011 and 2012 but has been delayed due to ongoing litigation. Project completion is anticipated in 2024.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Center City Gateway and South Michigan Street Intelligent Transportation Systems (ITS)

Project No:	MC-TR-C012	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	S Spokane ST/Western Ave/E Marginal Way/Stewart
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2015 - 2022	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$15,210	Urban Village:	Not in an Urban Village

The project will install traffic cameras, upgraded signals, vehicle detection devices and fiber communication in the Center City Gateway ITS and South Michigan Street ITS projects. The project will also construct an ITS corridor along Denny Way between Western Ave and Stewart including traffic signal modifications and closed-circuit television cameras, a dynamic message sign and ADA compliant ramps. A robust and reliable Intelligent Transportation System ensures that all modes of transportation can move through the City in a safe and sustainable manner.

Center City Streetcar Connector

Project No:	MC-TR-C040	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2012 - 2026	Neighborhood District:	Multiple
Total Project Cost:	\$237,369	Urban Village:	Multiple

The Center City Connector is a 1.27-mile segment of the Seattle Streetcar that will link the South Lake Union and First Hill Streetcar lines, creating a system that will connect over a dozen Seattle neighborhoods in Seattle's Center City. The project includes procurement of up to ten additional streetcars and design and construction of track and guideway; station shelters and platforms; overhead contact system; traction power substation; storage facility expansion; roadway and drainage; ADA curb ramps; curb space management; and urban streetscape.

An interfund loan of \$9,000,000 was passed in August 2019, allowing the project to progress to 30% design. In June 2020, the project was paused as part of the Citywide effort to mitigate revenue losses due to Covid-19

The project was put on indefinite pause in July 2020 in response to Citywide budget shortfalls caused by Covid-19

Unsecured Funding Strategy: SDOT will continue to work with the Mayor's office and City Council to determine the future of the project.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars
207

O&M Impacts: The Center City Connector would combine the two existing lines into a single Streetcar network. SDOT is currently working in collaboration with King County Metro on an operation plan for a single line. We expect to have an estimate of annual operating costs when the Center City Connector project reaches 30% design.

Debt Service - REET II

Total Project Cost:	\$51,116	Urban Village:	Not in an Urban Village

This project improves pavement conditions, enhances safety, and improves traffic operation for all modes. The project will add transit lanes and improve transit speed and reliability. It includes protected bike lanes, sidewalk improvements, and amenities for walkers and transit riders along the corridor. It will streamline traffic operations and improve Multimodal connections between transit, freight, pedestrians and general-purpose vehicles.

Elliott Bay Seawall Project

Project No:	MC-TR-C014	BSL Code:	BC-TR-19002
Project Type:	Discrete	BSL Name:	Major Projects
Project Category:	Rehabilitation or Restoration	Location:	Alaskan WAY
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 7
Start/End Date:	2013 - 2017	Neighborhood District:	Downtown
Total Project Cost:	\$369,408	Urban Village:	Multiple

This project, created in 2013, is a critical public safety project to replace the existing seawall from S. Washington Street to Virginia Street with a structure that meets current safety and design standards. The project will also improve the nearshore ecosystem of Elliott Bay and provide opportunities for recreation and shoreline access. Costs incurred prior to 2013 are included in the Alaskan Way Viaduct Replacement project (MC-TR-C066).

Fauntleroy Way SW Boulevard

Project No:	MC-TR-C046	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Fauntleroy WAY SW/35th AVE SW/SW Alaska ST
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2012 - 2022	Neighborhood District:	Southwest
Total Project Cost:	\$3,009	Urban Village:	West Seattle Junction

This project transforms Fauntleroy Way SW into a boulevard. The project elements include: a planted median, signature lighting fixtures, a protected bicycle facility, a pedestrian zone with sidewalks and planting areas including street trees, pedestrian lighting, potential stormwater infrastructure and art, as well as safety improvements for crossing movements for all modes. These safety improvements include bicycle and pedestrian crossings, signals, reconfigured intersections and bulbs, and pavement improvements. This project is on-hold pending Sound Transit decision on the West Seattle Extension alignment and does not have an expected Completion Date as a result.

Start/End Date:	2009 - 2019	Neighborhood District:	Multiple
Total Project Cost:	\$140,701	Urban Village:	Multiple

This project constructs a modern, low-floor streetcar system connecting First Hill employment centers to the regional Link light rail system, including but not limited to the International District/Chinatown Station and the Capitol Hill Station (at Broadway and John Street). The system will provide reliable, frequent service with headways of approximately 10 minutes during peak periods.

O&M Impacts: This project provides SDOT support to Sound Transit, who will own the light rail asset. SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Hazard Mitigation Program - Areaways

Project No:	MC-TR-C035	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Pioneer Square

This ongoing asset preservation program funds ongoing inspection and repair/reconstruction of areaways to reduce risks to City facilities and the general public. Areaways are usable space, generally in the street right-of-way, constructed under sidewalks between the building foundation and street wall. Typical improvements may include, but are not limited to, repairs to the existing areaway and/or filling the areaway in order to eliminate the asset. Currently the program is conducting a comprehensive evaluation of areaways, specifically within the Pioneer Square District, where load restrictions are currently put in place along the curb lane in order to manage the public risk associated with collapse of the areaway retaining walls.

Hazard Mitigation Program - Landslide Mitigation Projects

Project No:	MC-TR-C015	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project enables SDOT to address and repair landslide concerns that affect the right-of-way. The Landslide Mitigation Program provides SDOT with staff and resources to identify and prioritize landslide concerns, to undertake reconnaissance engineering and geotechnical studies of problem areas, and to make repairs at the highest priority locations, usually where landslide concerns have caused the roadway to be partially or completely closed.

Heavy Haul Network Program - East Marginal Way

Project No:	MC-TR-C090	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	E Marginal WAY
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2016 - 2027	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$60,237	Urban Village:	Not in an Urban Village

This program supports freight mobility by funding roadway improvements on the Heavy Haul Network (Ordinance 124890) to meet the needs of freight transported on our streets between Port facilities, rail yards, and industrial businesses. The initial project under this Program is the E Marginal Way Corridor Improvement project, which will be a multi-phase project. Phase I constructs a separated bicycle/pedestrian facility between S Atlantic St and Spokane St. Phase II includes roadway reconstruction, signal and ITS enhancements and safety measures to reduce conflicts between freight and non-motorized users. The Port of Seattle, through Memorandum of Understanding, is to provide partnership funding.

Note: The project title changed from "Heavy Haul Network Program" to "Heavy Haul Network Program - East Marginal Way"

Unsecured Funding Strategy: SDOT plans to pursue a \$20M federal RAISE grant and anticipates a \$5.5M contribution from the Port of Seattle. SDOT is reviewing funding options for the remaining.

O&M Impacts: This is a capital maintenance project that reduces the need for O&M by improving asset condition. Since it also builds new assets, SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Highland Park Intersection Improvements

Project No:	MC-TR-C100	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Highland Park Way SW and SW Holden ST
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 1
Start/End Date:	2019 - 2022	Neighborhood District:	Southwest
Total Project Cost:	\$4,100	Urban Village:	Not in an Urban Village

This project would mitigate collision and congestion issues at the intersection of Highland Park Way SW and SW Holden St. There are currently two alternatives being considered for this work. One alternative would be installing a new traffic signals, sidewalks, curb ramps and marked crosswalks. SDOT estimates the cost of this alternative at \$3M. The other alternative would install a roundabout at this intersection. After advancing design of the roundabout, we now know that significant grading is needed to accommodate the roundabout and avoid new safety issues. This has pushed the cost estimate to \$7.3M. The name of this project has been changed from Highland Park Roundabout to Highland Park Intersection Improvements. The name change occurred as part of the second quarter 2019 Supplemental Amendment-Attachment A.

King Street Station Tenant Improvements

Project No:	MC-TR-C049	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	301 S Jackson ST
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 2
Start/End Date:	2016 - 2019	Neighborhood District:	Downtown
Total Project Cost:	\$5,478	Urban Village:	Pioneer Square

This project will make tenant improvements to King Street Station to make uninhabited spaces ready for occupation. Tenant improvements will include installation of HVAC and electrical connections, bathrooms, office space, finishes, and restoration of historic areas. The tenant improvements will incorporate features consistent with the City's Sustainable Building Policy and the full restoration and rehabilitation of the building, which was completed by SDOT in 2013.

O&M Impacts: This project provides SDOT support to Sound Transit, who will own the light rail asset. SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Madison BRT - RapidRide G Line

Project No:	MC-TR-C051	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Madison ST/Alaskan Way/Martin Luther King Junior W
Current Project Stage:	Stage 3 - Design	Council District:	Council District 3
Start/End Date:	2013 - 2024	Neighborhood District:	Multiple
Total Project Cost:	\$134,724	Urban Village:	Multiple

This project will include concept design and environmental review of high-capacity transit and multimodal improvements in the Madison corridor between Alaskan Way and Martin Luther King Jr. Way, connecting the Central Area with the First Hill, Downtown, and Waterfront neighborhoods. The project is identified as a priority in the Transit Master Plan. The purpose is to improve transit capacity, travel time, reliability, connectivity, comfort, visibility, and legibility in the Madison corridor.

Note: The project title is changing from "Madison Street Bus Rapid Transit" to "Madison BRT - RapidRide G Line"

Magnolia Bridge Replacement Project

Project No:	MC-TR-C083	BSL Code:	BC-TR-19002
Project Type:	Discrete	BSL Name:	Major Projects
Project Category:	New Facility	Location:	15th Ave NW and Magnolia Way W.
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:		Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$10,030	Urban Village:	Ballard-Interbay Northend

The environmental analysis for replacing this bridge evaluated several possible alternatives including rehabilitation of the existing structure. In 2007, an environmental assessment was published and described the preferred alternative, a new bridge south of and adjacent to the existing bridge. The Type, Size, and Location (TS&L) Report was completed in 2007, selecting a concrete box girder supported on flared columns as the appropriate structure type for this new bridge. The Levy to Move Seattle provided limited funds to conduct a plan study that would evaluate a more cost effective alternative than a "1-to-1" replacement. Even with the reduced cost for pursuing an alternative option than a full replacement, total project cost and a funding strategy to move the project forward is unclear. The project is currently on hold.

Start/End Date:	2010 - 2020	Neighborhood District:	Multiple
Total Project Cost:	\$88,610	Urban Village:	Multiple

This project converts Mercer Street to a two-way street between Dexter Ave and Elliott Ave West. The Mercer underpass at Aurora Ave will be widened to allow for six travel lanes and a bicycle/pedestrian shared use path between Dexter Ave and 5th Ave North. Roy Street, between Fifth Ave N and Queen Anne Ave, will also be converted to a two-way street with on-road bicycle lanes.

NE 43rd Street Improvements

Project No:	MC-TR-C074	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	NE 43rd ST
Current Project Stage:	Stage 4 - Procurement/Bid	Council District:	Council District 4
Start/End Date:	2017 - 2020	Neighborhood District:	Northeast
Total Project Cost:	\$5,084	Urban Village:	University District

This project will implement streetscape and pedestrian improvements on NE 43rd Street between Brooklyn Ave NE and 15th Ave NE to improve access to the Link Light Rail station, which is scheduled to open in 2021. The project will transform the operation of NE 43rd St between Brooklyn Ave NE and University Way NE to one-way westbound transit-only travel and between University Way NE and 15th Ave NE to one-way westbound, all vehicle travel. The roadway will be optimized for pedestrians with a curb-less roadway section, widened sidewalks, pedestrian illumination, bio retention, and rain gardens. A protected bike lane will be provided for eastbound bike traffic and westbound bicycle traffic will share the travel lane with westbound traffic. The project is scheduled to begin construction in the summer of 2020.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Neighborhood Large Projects

Project No:	MC-TR-C018	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This program enhances the safety, quality and condition of the pedestrian and neighborhood environments. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The projects are funded by the Move Seattle transportation levy and it is a triennial program. The projects funded are identified by the community and the Move Seattle Oversight Committee.

Neighborhood Parks Street Fund - Your Voice, Your Choice

Project No:	MC-TR-C022	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program identifies projects estimated less than \$100,000 that are prioritized through participatory budgeting in each of the 7 council districts. Typical improvements may include, but are not limited to, sidewalk construction, repairs and replacement, installation of curb bulbs or other traffic calming devices, and improvements to crosswalks. The program enhances the safety, quality, and condition of the pedestrian and neighborhood environments. This project was formerly known as "NPSF Neighborhood Parks Street Fund" and "NSF/CRS Neighborhood Program."

New Traffic Signals

Project No:	MC-TR-C020	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project installs new traffic signals or significant capital improvements to existing signals to improve traffic flow, reduce the frequency and severity of traffic collisions, and support pedestrian, bicycle or transit activity. Location choices are based upon pedestrian, bicycle, and vehicle volumes; school, senior citizen, and handicapped accessible crossing requirements; transit speed and reliability; and collisions frequency criteria.

Non-Arterial Street Resurfacing and Restoration

Project No:	MC-TR-C041	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project repairs and/or replaces deteriorated asphalt pavement and/or concrete panels on non-arterial streets. Project locations are chosen annually based upon the degree of deterioration as confirmed by Department staff field observations, citizen service requests, claims, and potential City liability. High priority is given to non-arterial streets used by transit, in areas with heavy pedestrian and bicycle traffic, and which serve business and industry.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Northgate Bridge and Cycle Track

Project No:	MC-TR-C030	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 4
Start/End Date:	2013 - 2021	Neighborhood District:	North
Total Project Cost:	\$56,154	Urban Village:	Northgate

This project will construct pedestrian and bicycle improvements to enhance access to the planned Sound Transit Light Rail station at Northgate. The improvements include a pedestrian and bike bridge over I-5 and a multi-use path along 1st Avenue NE.

Northlake Retaining Wall

Project No:	MC-TR-C102	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Northlake Way @ Stone Way
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 4
Start/End Date:	2019 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost Range:	27,500 - 35,000	Urban Village:	Fremont

This project will repair the Northlake Retaining Wall, which is a 452-foot-long lake front timber structure that was constructed in 1951 and is located at the north end of Lake Union adjacent to North Northlake Avenue. The wall currently shows signs of advanced deterioration, overstress, and some sections of structural failure. The current calculated capacity/demand ratio is 0.1 where 1.0 represents stability. This presents a significant risk to public safety given the right-of-way supported by the wall, the private structures directly outshore and adjacent to the wall, and the close proximity (immediately adjacent and up to 50 feet inshore) of overhead power lines and subsurface gas, sewer, drainage, and water utility infrastructure.

Total:	-	-	-	13,648	9,750	-	-	-	23,398

Financial Planning Strategy: The estimated cost to reach the 100% design level is \$4,000,000, \$2,000,000 of which will be funded by LTGO bonds. The remaining \$2,000,000 needed to reach 100% of design will be funded with Street Vacations proceeds.

At 30% design, SDOT will reevaluate the total project cost and the financial planning strategy for the remaining costs of the project, which will include local funding, debt financing, and grant funding.

O&M Impacts: There will be ongoing operations and maintenance (O&M) costs for SDOT to maintain the retaining wall after full replacement. The estimate is \$50,000/year over the 75-year design life of the structure which includes labor (maintenance, engineering, and inspection) and non-labor (materials). This would be added to the Bridge/Structures Maintenance O&M budget. An O&M BIP will be submitted along with subsequent BIPs for the final design phases in the future.

Overlook Walk and East-West Connections Project

Project No:	MC-TR-C073	BSL Code:	BC-TR-16000
Project Type:	Discrete	BSL Name:	Central Waterfront
Project Category:	New Investment	Location:	Multiple
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2013 - 2024	Neighborhood District:	Downtown
Total Project Cost:	\$199,339	Urban Village:	Downtown

Removing the Alaskan Way Viaduct provides the opportunity for the City to improve key connections between the downtown core and the waterfront. The specific east/west streets targeted for improving connections include: Bell Street, King Street, Main Street, Pike Street, Pine Street, Railroad Way, Union Street, Washington Street, and Yesler Way. In addition to these east/west street connections, the waterfront improvement program also includes Overlook Walk, which will provide a pedestrian oriented connection between the waterfront, the Aquarium and Pike Place Market with ADA access, views, and public open spaces. This project is part of the overall waterfront improvement program. This project includes funding from the Waterfront Local Improvement District (LID #7651) formed by City Council via Ordinance 125760 in January 2019. (Interfund Loan shown in 2023 will be repaid with philanthropic funds in 2024 and 2025.)

Pay Stations

Project No:	MC-TR-C024	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Investment	Location:	Various
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2004 - 2019	Neighborhood District:	Multiple
Total Project Cost:	\$30,550	Urban Village:	Multiple

This project funds the installation of parking pay stations to manage on-street parking and improve access for visitors and customers in commercial and retail areas. From 2015 through 2019, SDOT replaced its aging pay stations through a new vendor with a combination of brand-new pay stations and retrofit pay stations (keeping the older stainless-steel housing where possible but installing new technology and software.) SDOT has adopted an "Asset Lite" strategy, replacing 15%-20% fewer pay stations, while keeping at least one pay station on every block. Through the end of 2019, SDOT installed 1,030 new pay stations and 580 retrofit pay stations. The project includes the transition from pay and display payment to pay-by-plate payment, which was accomplished at the end of 2019. As other neighborhood parking plans are completed through SDOT's Community Access and Parking Program, and paid parking is otherwise expanded to new areas, supplemental budget may be requested for this project to purchase and install parking pay stations in these new areas.

Pedestrian Master Plan - Crossing Improvements

Project No:	MC-TR-C061	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements the Pedestrian Master Plan. Typical improvements may include the installation of new marked crosswalks, curb bulbs, pedestrian signals, curb ramps, and pedestrian lighting. The goals of the program are to reduce the number and severity of crashes involving pedestrians; make Seattle a more walkable city for all through equity in public engagement, service delivery, accessibility, and capital investments; develop a pedestrian environment that sustains healthy communities and supports a vibrant economy; and raise awareness of the important role of walking in promoting health and preventing disease.

Unsecured Funding Strategy: SDOT will evaluate deliverables, prioritize and scale projects to the extent feasible, and continue to pursue grant and partnership opportunities to resolve potential funding deficits. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Pedestrian Master Plan - New Sidewalks

Project No:	MC-TR-C058	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project enhances the pedestrian environment in Seattle's neighborhoods by dedicating funding to construct new sidewalks. The New Sidewalk Program draws funding from the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund to improve sidewalks and the pedestrian environment near schools. Additional funding is drawn from other sources to pay for new sidewalk construction near frequent transit routes.

Pedestrian Master Plan - School Safety

Project No:	MC-TR-C059	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project improves pedestrian and bicycle safety around schools. The work typically includes school zone signing and 20mph flashing beacons; new crosswalks; curb bulbs; crossing beacons and pedestrian signals; new sidewalks and maintenance; traffic calming; changes to traffic circulation around schools; installation of school zone cameras; and school walking route maps. The base level of transportation funding provides improvements at approximately three to four schools per year. The project also funds safe biking and walking education and traffic safety outreach campaigns. Operation of school zone cameras is directly funded from the Seattle Police Department budget.

Pedestrian Master Plan - Stairway Rehabilitation

Project No:	MC-TR-C031	BSL Code:	BC-TR-19003
Project Type:	Ongoing	BSL Name:	Mobility-Capital
Project Category:	Rehabilitation or Restoration	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements the Pedestrian Master Plan. The primary goals of the Pedestrian Master Plan is to reduce the number of crashes involving pedestrians; make Seattle a more walkable city for all through equity in public engagement, service delivery, accessibility, and capital investments; develop a pedestrian environment that sustains healthy communities and supports a vibrant economy; and raise awareness of the important role of walking in promoting health and preventing disease. The sub-program, Stairway Rehabilitation, funds projects to rebuild and/or rehabilitate stairways to the current standards, that includes but not limited to adding proper width, step height, grip rail, landings, and other features required by the Americans with Disabilities Act. The historical LTD amount for the Stairway Rehabilitation is in project TC367150.

RapidRide C & D Line Improvements

Project No:	MC-TR-C106	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Investment	Location:	Various
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Multiple
Start/End Date:	2021 - 2022	Neighborhood District:	Multiple
Total Project Cost:	\$12,000	Urban Village:	Multiple

This project will deliver additional transit spot improvements aimed at improving travel time and reliability along RapidRide C&D lines, in preparation for Light Rail extensions into the West Seattle and Ballard neighborhoods. These projects make changes to SDOT-owned infrastructure, including streets and signals, and will result in adjustments to signal and street operations.

Retaining Wall Repair and Restoration

Project No:	MC-TR-C032	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing asset preservation program provides funding for City crews to repair or reconstruct retaining walls owned and maintained by SDOT. The repairs/reconstruction are crucial to preserving the adjoining sidewalks and roadways within the public right-of-way. The repair and/or replacement of more expensive retaining walls, such as the seawall, within the program is currently underfunded.

Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2018 - 2019	Neighborhood District:	Multiple
Total Project Cost:	\$42	Urban Village:	Multiple

This project will begin design of transit-related elements from Rainier Avenue South to NE 50th Street. The project includes two elements: 1) electrification of two gaps in the electric trolley network in order to convert King County Metro's Route 48 South to electric trolley bus operation and 2) transit operational, facility and access improvements along the two segments of Route 48 South. Elements could include bus stop improvements, thicker pavement at bus stops, upgrades to passenger amenities, and access improvements for pedestrians and cyclists connecting to bus stops.

Seawall Maintenance

Project No:	MC-TR-C098	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Alaskan WAY
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Multiple

This project will provide critical ongoing structural maintenance of the Elliott Bay Seawall, which is nearing completion. Replacement of existing assets, such as the Seawall, generally require minor maintenance, especially in the early years after the project is complete. However, the Seawall project is an exception as the asset has new features to maintain and the City, as part of its permit obligations, has committed to monitoring the performance of the habitat features over the next ten years and taking adaptive measures if performance goals are not met.

Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project will maintain and improve Seattle’s designated shoreline street ends. There are currently 142 shoreline street ends throughout Seattle. Shoreline street ends are community assets, which provide the opportunity for residents and visitors to experience and enjoy Seattle’s shorelines. This project improves public access, protects unique views, and enhances habitat to create long-lasting assets.

Sidewalk Safety Repair

Project No:	MC-TR-C025	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project rehabilitates sidewalks damaged by street trees or where there are serious safety concerns as evidenced by claims, service requests, and potential City liability. The project includes opportunities for public/private partnerships with citizens, property owners, and businesses. Asset management principles are used to guide repair needs and establish priorities for maintaining the sidewalk (or walkway), curbs, curb ramps, and in some cases, a filler strip between the sidewalk and curb.

Signal Major Maintenance

Project No:	MC-TR-C026	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project addresses major work related to the basic infrastructure at traffic signals such as poles, span wires, mast arms, wiring, equipment interconnectivity, video equipment and cabinets to improve and upgrade the traffic signal system. The project also is used for replacement of signal cabinets. The expected life of a signal is 30 years; currently there are more than 1,100 signals within the City.

O&M Impacts: This project provides SDOT support to Sound Transit, who will own the light rail asset. SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

Sound Transit North Link

Project No:	MC-TR-C027	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	New Facility	Location:	Various
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2011 - 2022	Neighborhood District:	Multiple
Total Project Cost:	\$2,025	Urban Village:	Multiple

This project provides design review, permitting, and construction support services for the Sound Transit North Link project (University District to Northgate). The 4.3-mile line includes stations at Northgate, the Roosevelt neighborhood, and the University District.

SPU Drainage Partnership - Broadview Pedestrian Improvements

Project No:	MC-TR-C036	BSL Code:	BC-TR-19003
Project Type:	Discrete	BSL Name:	Mobility-Capital
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	Stage 3 - Design	Council District:	Council District 5
Start/End Date:	2016 - 2022	Neighborhood District:	Northwest
Total Project Cost:	\$7,160	Urban Village:	Bitter Lake Village

This project funding will be used to install pedestrian improvements as part of SPU's larger Broadview Sewer and Drainage Improvement project. The Broadview sewer system was built in the 1950's and cannot handle the combination of additional flow from the homes and business that have developed since then and the additional storm water that is entering the system from downspouts directly connected to the sewer system as well as additional storm water entering through deteriorated pipes. This area is also lacking conventional sidewalks and would benefit from pedestrian improvements. The overall project goal is to reduce the potential for sewer backups and surface flooding for the Broadview neighborhood while improving the pedestrian environments.

SPU Drainage Partnership - South Park

Project No:	MC-TR-C054	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	TBD
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Council District 1
Start/End Date:	2016 - 2022	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$9,999	Urban Village:	South Park

This funding will be used to partner with SPU's South Park Drainage Improvement projects. SPU is planning to install a pump station to control flooding in the South Park area. However, that alone will not control flooding. Many streets in the area are in poor condition and don't have a street drainage collection system. This funding will allow SPU and SDOT to partner to install the needed collection systems and repair the deteriorated roads.

SR-520 Project

Project No:	MC-TR-C087	BSL Code:	BC-TR-19002
Project Type:	Ongoing	BSL Name:	Major Projects
Project Category:	New Investment	Location:	SR520 WB
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides policy, planning, and technical analysis support to the Seattle Department of Transportation Director and elected officials to review and comment on the Environmental Impact Statement and the design for SR-520. This regional project included the work associated with the replacement of the SR-520 bridge with a six-lane bridge, new freeway interchanges at Montlake Boulevard and Lake Washington Boulevard, and other improvements.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges. For SDOT, the annual O&M cost to support new City-owned and maintained infrastructure built by the next major phase of the SR-520 program is estimated at \$56,000. The SR-520 program will also replace existing City infrastructure, such as new street and sidewalk pavement, which will reduce SDOT annual O&M costs in the near term.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Street Lighting Program

Project No:	MC-TR-C076	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides funding for the right of way (ROW) lighting components of transportation projects, where the cost of those components will ultimately be borne by the City's General Subfund. The project enables the Seattle Department of Transportation, the Department of Finance, and Seattle City Light to plan for these costs. Funding is provided from the Light Fund, which recovers these costs through streetlight rates charged by Seattle City Light to the City's General Subfund. SDOT develops project specific estimates of the cost of lighting components in the year prior to construction. No projects are budgeted for 2019 and 2020. For 2021 through 2025, the funds displayed below have not yet been allocated to specific projects but will be allocated once detailed project cost estimates are developed.

O&M Impacts: Not applicable - does not create new assets.

Structures Major Maintenance

Project No:	MC-TR-C112	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This program provides for major maintenance and rehabilitation of the City's bridges and structural assets that are maintained by the Roadway Structures Division. Examples of improvements that could be funded by this project include: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of cracks and maintenance of concrete and steel structures, and site protection of bridge facilities.

Total Project Cost:	N/A	Urban Village:	Multiple

Vision Zero is an approach to traffic safety, with the goal of ending traffic deaths and serious injuries. At the core of Vision Zero is the belief that death and injury on city streets is preventable. Collisions are often the result of poor behaviors and unforgiving roadway designs. This project approaches the problem from the angle of creating street designs that emphasize safety, predictability, and the potential for human error, and will complete 12-15 corridor safety projects over 9 years to improve safety for all travelers on our highest-crash streets. Corridors identified as part of the Move Seattle Levy include: 65th St., Rainier Ave S, 35th Ave SW, SW Roxbury St, Greenwood/Phinney, 1st Ave/1st Ave S, 12th Ave/12th Ave E, Aurora Ave N, Lake City Way, Sand Point Way, E Marginal Way, Airport Way, 35th Ave NE, 15th Ave NE, MLK Jr. Way S, and 5th Ave NE.

Unsecured Funding Strategy: SDOT will evaluate deliverables, prioritize and scale projects to the extent feasible, and continue to pursue grant and partnership opportunities to resolve potential funding deficits. Funding for this program beyond 2024 is dependent upon a future voter approved levy.

O&M Impacts: SDOT has individual project budgets for the maintenance of painted markings, signage, signals, bridges and roadway structures, urban forestry, and sidewalks and pavement; these budgets are constrained by the availability of transportation specific and general funds. The SDOT Asset Management website (<https://www.seattle.gov/transportation/about-sdot/asset-management>) provides unconstrained operational cost forecasting by asset type, typical lifecycle and average maintenance cost ranges.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Water Structures

Project No:	MC-TR-C111	BSL Code:	BC-TR-19001
Project Type:	Ongoing	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	Various
Current Project Stage:	N/A	Council District:	Council District 6
Start/End Date:	N/A	Neighborhood District:	Ballard
Total Project Cost:	N/A	Urban Village:	Ballard

This project funds SDOT's water structures rehabilitation and replacement efforts. SDOT's water structures are limited, totaling 3 piers (Washington Street on Elliot Bay in Pioneer Square, Madison Street on Elliott Bay in the Downtown Core and 24th Ave NW on the Lake Washington Ship Canal in Ballard). SDOT's structural expertise may also be used by other departments with piers and other water structures upon request.

Waterfront Transportation Infrastructure Maintenance

Project No:	MC-TR-C109	BSL Code:	BC-TR-16000
Project Type:	Ongoing	BSL Name:	Central Waterfront
Project Category:	Rehabilitation or Restoration	Location:	Central Waterfront
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

The Waterfront Seattle program is reconstructing existing transportation infrastructure, Alaskan Way and Elliott Way as well as other streets and bridges. It is also building new transportation infrastructure, the Union Street Pedestrian Bridge, Overlook Walk and Pine Street connector. Each of these program elements includes transportation assets such as; pavement, sidewalks, ADA ramps, signs, signals, markings and landscapes that will need on-going maintenance to remain safe and in a state of good repair.

This program is a capital infrastructure maintenance program to keep the new or rebuilt assets in a state of good repair, consistent with the long-term maintenance commitments made by the City in the Protest Waiver Agreement for the Waterfront LID, approved by City Council in January 2019. In the long-term it is also intended that this program set aside funds for future asset replacement or rehabilitation as necessary.

West Seattle Bridge Immediate Response

Project No:	MC-TR-C110	BSL Code:	BC-TR-19001
Project Type:	Discrete	BSL Name:	Major Maintenance/Replacement
Project Category:	Rehabilitation or Restoration	Location:	West Seattle Bridge Spanning the Duwamish
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Multiple
Start/End Date:	2020 - 2022	Neighborhood District:	Greater Duwamish
Total Project Cost Range:	159,170 - 224,711	Urban Village:	Not in an Urban Village

This CIP funds the first few years of work for the West Seattle Bridge Program, including broad community engagement efforts and early work on the Reconnect West Seattle multimodal strategy. The capital delivery components include emergency repairs and bridge stabilization work that may include shoring and/or controlled removal, bridge replacement options analysis and design, and Spokane Swing (Low) Bridge repairs and enhancements. In parallel, this CIP funds a broad multimodal strategy (Reconnect West Seattle) to accommodate cross-Duwamish travel that formerly used the high-rise bridge in partnership with King County Metro, Sound Transit, WSDOT, Washington State Ferries, BNSF, the Port of Seattle, other state and federal agencies, private mobility providers, large employers, and the general public. In 2020/2021, SDOT will implement improvements developed from this process. The 2020 Appropriations are supported by an Interfund Loan to be repaid by the 2021 LTGO Bond Issuance.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

Total:	29,429	82,785	44,634	-	-	-	-	-	156,848

Financial Planning Strategy: SDOT and CBO continue to evaluate the funding strategy for the repair and replacement of the West Seattle Bridge. The initial funding will be LTGO bonds, with the debt service paid for by Real Estate Excise Tax. SDOT will work to identify potential partnership funding.

O&M Impacts: O&M Costs are still being evaluated.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Seattle City Light

Overview

Seattle City Light (City Light) is a municipally owned electric utility that operates as a department of the City of Seattle. The utility serves a population of approximately 955,000 people living in a 131 square-mile area, which includes the City of Seattle and several adjoining jurisdictions. To serve these customers, City Light owns, maintains, and operates a multi-billion-dollar physical plant. The physical plant includes:

- A power generation system consisting of seven hydroelectric plants on the Pend Oreille, Skagit, Cedar, and Tolt rivers with a combined capacity of approximately 2,000 megawatts.
- 667 miles of high-voltage transmission lines.
- A distribution system with 16 major substations and more than 2,500 miles of overhead and underground cable.
- A state-of-the-art System Operations Center coordinating the City's electric system.
- Billing and metering technology tracking over 481,000 accounts.

City Light's Capital Improvement Program (CIP) is the vehicle for repairing, upgrading, and expanding this infrastructure. With planned spending of \$2.6 billion over the 2022-2027 timeframe, the CIP funds a variety of safety improvements, mitigation activities, and licensing requirements. Funding for the CIP comes primarily from retail electricity sales, sales of surplus power on the wholesale market, and the sale of revenue bonds. Federal and state grant funding is also an expected source in this timeframe.

Thematic Priorities

The foundational goal of the CIP is to support City Light's mission of providing customers with affordable, reliable, and environmentally responsible energy services. The CIP reflects ongoing operational priorities as well as new business strategies identified in the utility's 2022-2026 Strategic Plan, adopted in July 2021 via Resolution 32007. The five strategic plan business strategies are:

1. Improve the Customer Experience

Objective: Consistently meet customers' needs by providing employees with the opportunities and training required to deliver targeted and responsive solutions.

2. Create our Energy Future

Objectives: Build and maintain a smart, resilient, flexible, dynamic, and reliable grid infrastructure. Prepare for the increased integration of distributed energy resources and more customer options. Work to reverse historic inequities and avoid collateral harm to underserved populations by intentionally prioritizing their needs as we create our energy future.

3. Develop Workforce and Organizational Agility

Objective: Foster an organization that is nimble, adaptive, and responsive and cultivate a workforce with the skills and knowledge to advance social justice.

4. Ensure Financial Stewardship and Affordability

Objective: Support long-term affordability in Seattle by offering rates that are transparent, understandable, reasonable, equitable, and consistent for all customers, including vulnerable populations. This commitment includes developing a sustainable and predictable approach to setting rates over time.

2022-2027 Proposed Capital Improvement Program

5. We Power

Objectives: Continue to advance our mission to provide our customers with affordable, reliable, and environmentally responsible energy services. Prioritize diversity, equity, and inclusion in all that we do. Actively manage and mitigate the constraints, risks, and uncertainty of operating in a COVID-adjusted environment.

Notable CIP areas that advance our strategic plan business strategies and support our core mission and values are:

Investments to Create our Energy Future

The CIP includes significant new funding for projects to support advancement toward Seattle’s objective of transitioning away from fossil fuels and achieving a zero-carbon city. Grid modernization investments will update and modernize the distribution system to improve resiliency, add flexibility, and maintain reliability. Projects supporting electrification include pursuing electrification of a local steam franchise utility, large-scale maritime electrification projects, as well as continuing to expand electric vehicle charging infrastructure. Green energy resource growth will entail projects to develop distributed generation (solar, wind, etc.), energy storage, demand-side management, and other distributed energy resource (DER) technology. Finally grant matching funds to support pursuit of federal and state stimulus dollars to accelerate various new energy technologies will comprise a new project called ‘Utility Next.’

Technology and Cyber Security

Improvements are planned for various foundational technology systems that underpin our system operations and customer interactions. Investments include an expanded customer self-service portal, upgraded advanced meter infrastructure, and improved and connected customer metering and billing systems to provide a better service experience for customers. Upgrades to the Geospatial Information System (GIS) and the Outage Management System (OMS) support progress to grid transformation. A major upgrade of the Work and Asset Management System (WAMS) is also planned. In tandem with our technology investments, hardening our assets against cyber threats requires advanced developments in cyber security programs, technology governance, and operations.

Hydroelectric Project Relicensing

The federal license for the Skagit River Hydroelectric Project, a series of three dams that produces approximately 20% of City Light’s owned generation capacity, expires in 2025. Renewing the license with the Federal Energy Regulatory Commission (FERC) also means reviewing the safety, cost, environmental, and cultural impacts of the continued operation of the project. Between 2020 and 2023, City Light will collaborate with local partners to develop an application for a new license that will last for the next 30-50 years. The license will include requirements around protecting the environment and the culture of the watershed. In addition, the South Fork Tolt Hydroelectric Project is also up for FERC license renewal in 2027. For the Boundary Hydroelectric Project, various protection, mitigation, and enhancement activities are needed to fulfill requirements mandated by its 2014 FERC license and settlement agreement.

Transmission & Distribution Infrastructure Maintenance

Reliable energy delivery requires systematic maintenance of transmission and distribution assets. Pole replacements are a major capital effort; we have accelerated the pace of replacements due to a critical need to replace poles that have deteriorated. Other major program investments include expansion of the network distribution system in the north downtown area to realize systemwide benefits from the

new Denny Substation, as well as replacement of failing underground cables.

Preserving Hydroelectric Generation Assets

Preservation of Seattle's legacy hydroelectric generation facilities is accomplished through prudent and systematic investments and maintenance. Planned enhancements include a wide range of dam safety investments; an improved outage management system; long-term planning for small legacy hydroelectric projects such as Cedar Falls; improvements of ancillary systems and facilities including powerhouse systems; plant automation; and cyber security investments.

Workforce, Facilities and Fleets

Part of supporting an agile workforce entails providing a work environment that is conducive to productivity, collaboration, and innovation. A major restacking project will fund renovation of office space in the Seattle Municipal Tower to improve ergonomics, modify workspaces to accommodate modern technology, and reduce the utility's footprint in downtown core. Similarly, strategic fleet investments will replace aging vehicles with electric-powered alternatives that are greener and more efficient.

Race and Social Justice

Recent events have made clear the need for all organizations to examine their role in the structures that uphold systemic racism and City Light is no exception. The utility is actively engaged in the Citywide effort to rebuild Seattle as a city that is racially just, equitable, and inclusive. In developing and executing the CIP, City Light will work to prioritize positive outcomes and reverse historic inequities for underserved communities, including Black, Indigenous, and people of color as well as immigrants, refugees, persons experiencing low incomes, English language learners, youth, and seniors. This includes prioritizing the electrification of public transit with resulting air quality and other health benefits accruing to historically underserved communities, and a focus on job creation and economic activity with an emphasis on historically excluded populations.

Project Selection Criteria

City Light's planning process is designed to ensure project funding best meets customers' current and future needs, and to position the utility to meet current and future strategic and operational challenges. Project ideas to accomplish baseline service delivery come from throughout City Light. Staff members in the operational divisions are responsible for creating official proposals. Members of each of the utility's organizational lines of business (e.g., power supply, transmission and distribution, fleets and facilities, technology, and customer service) prioritize capital spending within their divisions and then submit recommended projects through a centralized capital budgeting system.

Discrete projects are prioritized using a scoring tool with six criteria: Safety, System Reliability, Improved Level of Service, Environmental Stewardship, Financial Cost-Benefit, and Community Interest. Programs with ongoing funding are prioritized using three criteria: Criticality, Need (Urgency), and Safety. The process gives priority to mandatory requirements and existing projects before considering future projects and new initiatives. City Light's staff-level Capital Planning Team and executive-level Capital Asset Review and Evaluation Committee (CARE) review the scored and prioritized list of projects to develop City Light's six-year CIP.

For any capital project with a total cost exceeding \$1.0 million, utility staff develop a business case to document the project expectations and rationale and provide a cost-benefit analysis of alternatives. Availability of funding and labor resources limits the CIP, and to balance overall needs

2022-2027 Proposed Capital Improvement Program

within these constraints, City Light may rescope, reschedule, or defer projects in the six-year CIP.

2022-2027 Proposed CIP Highlights

The 2022-2027 Proposed CIP outlines \$2.6 billion in capital spending over six years for power supply, transmission, distribution, external projects, and central utility needs.

2022-2027 Proposed CIP Summary of Allocations by Program (in 1,000s)

Program/SubProgram	2022	2023	2024	2025	2026	2027

Grand Total	457,696	467,755	430,838	433,479	434,197	437,368

A selection of projects from each program follows.

Central Utility Projects

Projects in this program provide for centralized billing and customer service systems, financial and information technology systems, and vehicle fleets and facilities that are not part of the power generating plant (e.g., equipment shops, service centers, and maintenance yards) and includes City Light's work on transportation electrification.

For 2022, there is \$36.4 million in funding for 22 Central Utility Projects including \$8,220,000 in additional new funding for Office Furniture and Equipment (MC-CL-XF9103). Highlights include:

- Office Furniture and Equipment Replacement (MC-CL-XF9103): \$8,520,500
This ongoing project funds renovations of office space and capital replacement of office equipment, including modular office workstations, conference room ensemble furniture, flexible group workspaces, and major office machines. Improvements will enhance worker safety, with improved light, airflow, and ergonomics, as well as enhance productivity and team collaboration. This project also supports the City's Space Reduction Pilot, which aims to reduce the utility's footprint in the downtown core by 25% to achieve cost efficiencies.

2022-2027 Proposed Capital Improvement Program

- Equipment Fleet Replacement (MC-CL-XF9101): \$7,714,581
This ongoing project funds the purchase of light-duty and heavy-duty mobile equipment fleet vehicles. This includes replacement of specialized fleet vehicles for electric utility use, as well as enhancements and additions of green alternatives such as electric powered vehicles.
- Service Center Facility Improvements (MC-CL-XF9107): \$5,685,690
This ongoing project improves office, shop, storage, and exterior areas in the North and South Service Centers. The projects may include improvements to building envelopes, interior renovations and upgrades, such as office redesign and restroom upgrades, and exterior improvements such as parking lot modifications to increase efficiency, productivity, safety and optimize use of space.
- Transportation Electrification (MC-CL-XF9239): \$3,180,004
This ongoing project develops electrification infrastructure to support light-duty, medium-duty, and heavy-duty electric vehicles as well as ferry and port systems. Improvements will be developed based on feedback from customer engagement. Efforts are expected to support areas including electrified public transit, fleet electrification, and electric vehicle charging.
- Customer Information System (MC-CL-ZC9937): \$3,108,611
This project funds upgrades to the Customer Information System known as the Utility Self Service Portal that serves customers of both Seattle Public Utilities and City Light. This project empowers the customer to utilize real-time, self-serve options that improves engagement between the utilities and customers, enhances web presence, and enables both customer-facing and internal process efficiencies.
- Safety Modifications (MC-CL-XF9006): \$1,700,577
This ongoing project funds facility modifications and equipment to address imminent and critical safety needs. The project includes physical upgrades and revisions to systems, equipment, properties, and facilities, as needed to comply with safety regulations and best practices for a safe, efficient, and secure work environment.
- Georgetown Steam Plant Access Road (MC-CL-XF9233): \$1,478,001
This project will design and construct a road and associated infrastructure for public access to the Georgetown Steam Plant. This work will be partially funded by King County, who initiated street development in 2000 that cut off access to the steam plant.

Distribution

Projects in this program include improvements to City Light's distribution substations, relays, feeders, network distribution systems, overhead and underground radial distribution systems, service connections, customer meters, operational technology, and other facilities and assets related to the distribution system.

For 2022, there is \$235.0 million included for 57 projects in Distribution, including \$15,793,000 in increased funding for the Accelerated Pole Replacement Program under MC-CL-YR8351 and \$8,000,000 for Pole Attachments under MC-CL-YR8452. In addition, there are four new Master Projects added to the CIP: CenTrio Electrification Program (MC-CL-ZS8510) for \$2,000,000, Grid Modernization (MC-CL-YD9510) for \$1,719,000, Utility Next (MC-CL-YD9520) for \$1,000,000, and Maritime Transportation Electrification Program (MC-CL-ZS8520) for \$300,000. Highlights include:

- Overhead Equipment Replacements (MC-CL-YR8351): \$48,718,369

2022-2027 Proposed Capital Improvement Program

This ongoing project replaces overhead distribution equipment nearing the end of its usable life, is overloaded, or no longer has an available supply of spare parts. These items include, but are not limited to, poles, cross-arms, transformers, and open-wire secondaries.

- Medium Overhead and Underground Services (MC-CL-ZS8366): \$19,507,725

This ongoing project funds engineering and installation of radial electric power service connections with medium-sized power requirements of 50 KVA to 2.5 MVA and 26 kV. The cost of this work is generally reimbursed by the requesting customer.

- Underground Equipment Replacements (MC-CL-YR8353): \$17,045,237

This ongoing project replaces and improves underground electrical system equipment that is failing or approaching the end of its useful life. This project enhances distribution system reliability, avoiding unplanned outages or interruption of service due to equipment failure.

- Pole Attachments (MC-CL-YR8452): \$16,056,725

This ongoing project funds preparing poles for the attachment of communication infrastructure owned by other entities. The construction costs associated with this work are typically fully reimbursable and attachments generate ongoing revenues through pole attachment rental fees.

- Software Replacement Strategy (MC-CL-YD9969): \$11,082,225

This project funds the upgrade or replacement of components of the Utility Technology Portfolio. Timely upgrades and replacements ensure that technology and enterprise level software resources are kept up to date and fully functional.

- Network Additions and Services – Broad Street Substation (MC-CL-ZS8363): \$10,901,335

This ongoing project funds electrical service connections, capacity additions, and related improvements in response to customer service requests within the Broad Street network area. The project also funds replacement or installation of network transformers, network protectors and specialty transformers, or in-building vault retrofits or other short duration system improvement needs that may be identified during construction.

- Denny Substation – Network (MC-CL-YN8404): \$10,646,669

This ongoing project funds network system work in the Denny Substation network area. Work may include design and construction, engineering design at the substation network interface, and underground conversion of streetlights, traffic signals, and telecom and fiber optic systems.

- Substation Equipment Improvements (MC-CL-YS7752): \$6,117,098

This ongoing project adds, replaces, and upgrades substation equipment, particularly substation electrical and control equipment. The project also funds installation of remote control and monitoring of substation equipment from the System Control Center, which facilitates faster response time to correct system instability or outages. This work maintains and improves system reliability, permits compliance with high voltage and environmental regulations, and ensures safe work sites.

- Network Additions and Services – Denny (MC-CL-ZS8405): \$6,057,448

This ongoing project provides electrical service connections and related improvements in response to customer service needs within the North Downtown network area. The project provides civil and electrical design assistance to customers to connect existing and proposed buildings to the North Downtown network system. This project also performs capacity addition work associated with

service connections, and replaces or installs network transformers, network protectors, and bus tie-switches.

- Small Overhead and Underground Services (MC-CL-ZS8367): \$6,020,267
This ongoing project funds engineering and installation of radial electric power service connections with small size power requirements of less than 50 KVA and 26 kV. The cost of this work is generally reimbursed by the requesting customer.
- Grid Modernization (MC-CL-YD9510): \$1,719,000
This project funds installation of technology and equipment to modernize the distribution grid, including distribution system sensors, automated and remote switches, and demand response systems. This project implements the Grid Modernization Plan and Roadmap, which describes the work needed to build a next-generation electric grid that can flexibly and cost-effectively absorb demand growth from electrification of buildings and transportation.
- Utility Next (MC-CL-YD9520): \$1,000,000.
This project funds grant matching for the Utility Next portfolio, which aims to leverage stimulus and grant funding to augment and accelerate progress in grid modernization, renewable energy, electrification, and workforce development.

External Projects

Projects in this program respond to requests from local jurisdictions to relocate distribution services from overhead to underground systems per the terms of franchise agreements; maintain and upgrade the streetlight system; relocate utility infrastructure in response to major transportation projects; and provide capital improvements in response to other customer-requested service needs.

For 2022, the CIP includes \$41.6 million in funding for 10 external projects. Highlights include:

- SR 520 Bridge Relocations (MC-CL-ZT8435): \$7,477,982
This project funds relocation and installation of power service infrastructure, such as feeder extensions, to support WSDOT's replacement of the State Route 520 Bridge from Montlake to I-5. This project is projected to be fully reimbursable by WSDOT.
- Transportation Streetlights (MC-CL-ZL8377): \$6,783,952
This ongoing project funds relocation of streetlights that are displaced by City of Seattle transportation projects.
- Alaskan Way Viaduct and Seawall Replacement - Utility Relocations (MC-CL-ZT8307): \$6,408,043
This project funds relocation of electric distribution infrastructure associated with the replacement of the Alaskan Way Viaduct and improvements to the Seawall and Central Waterfront.
- Seattle Waterfront Streetlights (MC-CL-ZL8481): \$6,384,633
This project funds new streetlights in the Seattle Waterfront area. The redevelopment of the Seattle Waterfront follows the Alaskan Way Viaduct replacement and is led by the Office of the Waterfront.
- Streetlight Arterial, Residential and Flood (MC-CL-ZL8378): \$4,334,416
This ongoing project funds streetlights and floodlights requested by various taxing jurisdictions and other customers. Lights may be provided in public right of way and on private property, for either public or private benefit.

- Local Transportation Driven Relocations (MC-CL-ZT8369): \$4,079,846

This ongoing project funds relocation of electrical lines to accommodate or take advantage of transportation-related projects, street vacations, or other projects initiated by outside agencies such as SDOT, WSDOT, or suburban municipalities. Work includes modifications to the distribution system, including replacement or modifications of line segments, poles, and underground facilities. Some costs may be reimbursable by the requesting outside agencies.

Power Supply

Projects in this program include improvements to dams, generators, powerhouses, as well as compliance work to meet federal licensing and environmental mitigation requirements for hydroelectric dams. Rebuilds or replacements of major power production equipment is sequenced to reduce the impact to power generation and to minimize fluctuations in the annual amount of capital spending.

For 2022, the CIP includes \$137.8 million in funding for 58 projects in Power Supply. Four new CIP projects are conversions from Deferred O&M projects and together add \$42.7 million to this program. Highlights include:

- Skagit – Relicensing (MC-CL-XS6986): \$41,521,787

This ongoing project provides support of the relicensing activities for the Skagit River Hydroelectric Project including support of staff, environmental studies, documentation, and consultation. Relicensing work began in 2019. The current FERC license for the Skagit Project expires in 2025, and the license application is due for submission to FERC in May 2023.

- Boundary – Licensing Mitigation (MC-CL-XB6987): \$16,926,739

This ongoing project implements protection, mitigation, and enhancement measures (PMEs) required by the terms and conditions of the license issued by FERC in 2013. The license allows for the continued operation of the Boundary Hydroelectric Project, City Light's largest generating station producing approximately 25% to 40% of its power supply.

- Boundary Powerhouse Generator Step-up Transformer Replacement (MC-CL-XB6493): \$7,182,959

This project replaces six existing step-up transformers at Boundary Dam and funds the purchase of a seventh transformer to keep as a spare in inventory due to long lead times for these specialized parts. This project helps avoid prolonged loss of generation due to forced outage.

- Boundary Powerhouse – Unit 54 Generator Rebuild (MC-CL-XB6353): \$6,452,372

This project funds rewinding and refurbishing of the Boundary Powerhouse Unit 54 generator and upgrades the fire-suppression system. Work may also include mechanical upgrades or installations of seal rings, wicket gates, and diagnostic equipment. This programmatic maintenance helps extend the useful life of the generator.

- Boundary Powerhouse – Unit 52 Generator Rebuild (MC-CL-XB6535): \$5,480,422

This project funds rewinding and refurbishing of the Boundary Powerhouse Unit 52 generator and upgrades its fire-suppression system. Work may also include mechanical upgrades or installations of seal rings, wicket gates, and diagnostic equipment. This programmatic maintenance helps extend the useful life of the generator.

- Skagit Facility – Minor Improvements Program (MC-CL-XS6405): \$2,468,365

2022-2027 Proposed Capital Improvement Program

This ongoing project provides funding for emergent capital improvement needs for various facilities at the Skagit Project. This project also funds small scheduled capital projects with cost estimates of less than \$25,000.

- Cedar Falls Bank 6 Replacement (MC-CL-XC6573): \$1,886,575

This project replaces the 60-year-old Bank 6 power step-up transformer at Cedar Falls. Bank 6 provides the connection between Cedar Falls Generating Units 5 and 6 and the transmission system. The transformer is approaching the end of its useful life and the goal of this project is to replace it during a planned outage before it fails.

Transmission

Projects in this program fund refurbishment and expansion of utility-owned high-voltage transmission infrastructure that transports electricity from generation facilities to City Light's service territory, as well as within the service territory.

For 2022, the CIP budget includes \$6.7 million for six projects. Highlights include:

- Transmission Reliability (MC-CL-YT7104): \$3,064,313

This ongoing project funds replacement and improvement of transmission structures and conductors. This work may include engineering, construction, and related work, as well as minor improvements to overhead or underground transmission system assets to improve reliability.

- Denny Substation Transmission Lines (MC-CL-YT7125): \$1,001,274

This project funds work associated with the design and construction of new transmission lines to support the new Denny Substation. This expansion would divide the existing Pine to Broad Street transmission line into two transmission lines to improve system reliability and resiliency.

- Transmission Tower Refurbishment (MC-CL-YT7130): \$1,800,000

This ongoing project funds programmatic painting and refurbishment of approximately 1,700 steel transmission tower structures. Metal transmission towers have a long life if properly maintained, while replacements are disruptive and can cost more than \$2 million per tower.

CIP Revenue Sources

Approximately 60% of the CIP is funded through the sale of revenue bonds, based on financial policies set forth in Resolution 31187. The remaining 40% is funded by revenues from retail electric rates, wholesale sales, direct customer billings for service connections and other customer requested work, and assorted fees. Federal and state grant funding are also anticipated funding sources in this six-year timeframe; these funds will be added to the CIP as the grants are approved.

Summary of Upcoming Budget Issues and Challenges

Budget Issues

The COVID-19 pandemic and the associated economic slowdown have contributed to a loss of demand for electricity from commercial customers, reducing revenues available for capital work. In addition, City Light's strategic plan commitment to hold rate increases to levels resembling inflation limits CIP spending to the amounts previously identified in the adopted six-year plan. This means that change requests with new funding needs must be offset with reductions elsewhere in the CIP.

2022-2027 Proposed Capital Improvement Program

Challenges

There are several challenges that will transform our business over the next decade:

- *New technologies are transforming how people use electricity.* Commercialization of energy technologies poses a potential risk to City Light. New options and products for controlling consumption, generating, and storing electricity will impact how customers interact with their local utility. Utilities must continue to evolve and to develop their products and services to best serve shifting customer needs and expectations. Additionally, the utility's viability is expected to remain an important component to ensure that the transforming landscape results in an equitable energy future that does not leave disadvantaged communities behind.
- *Declining retail energy consumption and electrification.* Advances in energy efficiency have reduced consumer energy demand, particularly for those with access to modern energy efficient technology and dwellings. Due in part to energy efficient building codes and new technologies, today's multifamily units consume approximately half as much energy as older single-family homes. At the same time, electrification of buildings and transportation promises to increase demand for electricity, reinforcing the critical need for grid investments that will be required to effectively serve this new demand. This changing landscape calls for managing impacts to rates while also understanding and compensating for inequities in access to green, cost-saving technologies.
- *Impact of retirements and legacy practices.* As more employees become eligible for retirement and workflows are not documented or digitized, City Light risks the loss of institutional memory, costly service interruptions, and a potential impact to service delivery.
- *Climate change continues, and clean energy is more valuable than ever.* Weather pattern changes affect reservoir levels and seasonal energy consumption, leading to increasing volatility of energy supply and demand.

Future Projects/What is on the Horizon

- Demand for transportation and building electrification is growing and will support the Mayor's Drive Clean Seattle and City Council Green New Deal priorities. Prospects for large scale commercial electrification include steam utility CenTrio (formerly EnWave) and maritime applications, including ferries, the port, and various types of commercial ships.
- The transition to the new 5G network is driving a large number of requests for attachment space on poles. The impact of 5G deployment will touch nearly every pole in City Light's distribution system and will provide a growing stream of rental revenue.

Advanced Metering Infrastructure

Project No:	MC-CL-ZS8426	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2015 - 2025	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$101,947	Urban Village:	Not in an Urban Village

The first phase of this project replaced approximately 400,000 meters with Smart Meters. The second phase of this project funds the replacement of approximately 25,000 remaining meters with Smart Meters allowing two-way communication between Seattle City Light and its customers, residential or commercial. Smart Meters continuously record and transmit consumption data to the utility. They also automate meter reading, increase customer service, heighten billing capacity, reduce energy consumption, improve outage restoration efficiency, and support rate structure flexibility. Implementation of the project positions the utility to comply with North American Electric Reliability Corporation (NERC) and Federal Energy Regulatory Commission (FERC) programs and requirements.

BO Lead and Asbestos

Project No:	MC-CL-XF9231	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Bothell Receiving Substation
Current Project Stage:	Stage 6 - Closeout	Council District:	Citywide
Start/End Date:	2013 - 2022	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$1,201	Urban Village:	Outside City of Seattle

This project provides funding for the removal of contaminants, sewer remediation, and decommissioning of the water tower at the Bothell Substation. Removal of lead and asbestos in the Craneway Area is necessary in order to make the area space useable. The existing septic system does not meet code and needs to be removed or abandoned in place. The sanitary system then needs to be connected with services out to the street. The water tower needs to be deconstructed and removed as it is no longer used or needed and represents a risk to the substation if it deteriorates to the point of collapsing.

Boundary - Access Road Stability Improvements

Project No:	MC-CL-XB6615	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Outside City of Seattle
Start/End Date:	2017 - 2028	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$7,630	Urban Village:	Outside City of Seattle

This project constructs a substantial slope stabilization in the area of the West Access Road cut to limit maintenance inputs, ensure continued access to the powerhouse, and improve safety (present debris flows occasionally contain larger sized rocks). The relocated portions of the West Access Road's slopes have continued to ravel since relocation occurred in the early 00's. There is a risk that the slope could fail in a more conclusive fashion and block access to the powerhouse. Additionally, the upslope interceptor ditch (a concrete channel) suffered undermining erosion causing the concrete to subside and not perform well at channelizing and conveying sheet flow away from the slope face.

Start/End Date:	2017 - 2024	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$3,131	Urban Village:	Not in an Urban Village

This project installs a new system of rock bolts and other forms of rock anchors to improve the structural stability of the Level 6 Deck on Boundary Dam. This portion of the dam is attached to and supported by the adjacent rock. Inspections revealed a weakness in the current attachments and use of the deck by heavy equipment is restricted until these improvements are made. This project also includes stabilization of rock blocks in the powerhouse machine hall.

Boundary DC Panel Upgrade

Project No:	MC-CL-XB6628	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 6 - Closeout	Council District:	Outside City of Seattle
Start/End Date:	2017 - 2022	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$1,098	Urban Village:	Not in an Urban Village

This project replaces and upgrades DC panels at Boundary. The panel capacity has been maxed out from the addition of many control circuits, resulting in multiple circuits being connected to the same breaker. The work will include a load study, design of new main and sub panels, and construction. These panels provide back-up service to critical equipment via batteries in the event of a power failure in the powerhouse.

Boundary Powerhouse - Unit 51 Generator Rebuild

Project No:	MC-CL-XB6351	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	10382 Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2017 - 2024	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$40,008	Urban Village:	Not in an Urban Village

This project provides the rewinding and refurbishing of the Unit 51 generator to extend its useful life, which is part of a programmatic series of projects to maintain the Utility's aging generators. It also replaces the carbon dioxide fire-suppression system with a water sprinkler system to enhance worker safety. If technology is sufficiently advanced, it may also include a rotor-mounted scanner or other diagnostic equipment.

Boundary Station Service Transformer Replacement

Project No:	MC-CL-XB6627	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Outside City of Seattle
Start/End Date:	2019 - 2025	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$6,238	Urban Village:	Not in an Urban Village

This project replaces two aging station service transformers at Boundary. It is assumed that they will be specified and procured together but installed in two sequential years. Station service transformers provide power to the powerhouse, dam and service area. It is likely that the rating of the transformers will need to be increased to accommodate load increases associated with the addition of new circuits in the powerhouse for automation, controls and machine monitoring.

Boundary Sump Pump Drive Replacement

Project No:	MC-CL-XB6633	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Boundary Rd, Metaline, WA 99153
Current Project Stage:	Stage 2 - Initiation, Project Definition, & Planning	Council District:	Outside City of Seattle
Start/End Date:	2019 - 2025	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$1,322	Urban Village:	Not in an Urban Village

This project replaces and modernizes drive systems for sump pump at Boundary powerhouse. Portions of Boundary powerhouse are below the level of the tailrace and there is a reliance on a series of sump pumps to keep the powerhouse dry. Projects to replace the sump pumps are completed, and now the drive systems for each pump need to be replaced and modernized. One drive system will be replaced per year with the final one in service in 2024.

Building Envelope Upgrades

Project No:	MC-CL-XF9072	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	500 Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project replaces or restores exterior moisture and thermal barrier components of buildings such as roofing and insulation systems, exterior siding and cladding systems, windows and exterior doors. This project allows for the proactive replacement of building exteriors in order to avert costly structural damage and prevent the growth of toxic mold inside wall cavities and ceiling spaces that can easily render a building uninhabitable. The project also enhances operational efficiency by mitigating emergency repairs which disrupt utility operations.

Cedar Falls Powerhouse - Unit 5/6 Generator Protective Relay

Project No:	MC-CL-XC6450	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	19901 Cedar Falls Rd SE, North Bend, WA 98045
Current Project Stage:	Stage 3 - Design	Council District:	Outside City of Seattle
Start/End Date:	2007 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$2,939	Urban Village:	Not in an Urban Village

This project upgrades the present generator protection for Units 5 and 6, which lacks some basic protection elements to protect it from abnormal frequency and voltages. Upgrading and reconfiguring the protective relays is critical to preparing the new Cedar Falls substation for operation. This project replaces existing protective relays, upgrades the generator protection packages, and replaces the electrical and mechanical lockout relays. The project permits City Light to comply with the North American Electric Reliability Council (NERC) and the Western Electricity Coordinating Council (WECC) regional requirements for maintaining the generator in-service during system disturbances.

Center City Connector Streetcar City Light

Project No:	MC-CL-ZT8470	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2015 - 2021	Neighborhood District:	Multiple
Total Project Cost:	\$1,001	Urban Village:	Multiple

This project provides power relocations & service for the proposed SDOT Center City Connector Streetcar project. City Light has buried primary distribution power cables, some of which are encased in old clay tile ducts, which do not meet current standards, and are unlikely to be able to withstand the forces generated by the streetcar's operation. Any streetcar alignment to be built across such old facilities would likely need a reinforced roadbed for SCL facilities to withstand the additional weight.

CenTrio Electrification

Project No:	MC-CL-ZS8510	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	New Investment	Location:	System Wide
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 2
Start/End Date:	2022 - 2023	Neighborhood District:	Downtown
Total Project Cost:	\$7,000	Urban Village:	Downtown

This project funds the plan, design, procurement, construction, and commission of large City Light capital investment projects to deliver infrastructure required to meet electrification of CenTrio, a franchise utility that delivers steam for heating of multiple downtown buildings in Seattle.

Communications Improvements

Project No:	MC-CL-YD9009	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides funding for unforeseen emergent and critical work on City Light's communications systems to replace communications components due to failure, changing regulatory and security requirements, and requests from customers or other agencies. This project enhances flexibility to address emergent communication systems problems.

Dam Safety Part 12 Improvements

Project No:	MC-CL-XB6626	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Improved Facility	Location:	System Wide
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the support analysis and data required to meet FERC regulations. City Light must demonstrate that the dams are monitored and engineering improvements are based on current climate conditions, most current engineering standards, and the appropriate devices, instrumentation, and tools. Activities may include Skagit bulkhead, Boundary new instrumentation, Diablo & Gorge GPS System, Boundary instrumentation, Boundary Part 12 Implementation and Skagit Part 12 Implementation.

Start/End Date:	2011 - 2021	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$6,664	Urban Village:	Not in an Urban Village

This project provides updated line protection schemes on the Diablo Facility D1, D2, & D3, R1 and R2 Lines, utilizing electro-mechanical relays. The project also replaces existing relays, which are approaching the reasonable service life and lack essential fault location capability. The project replacements include microprocessor based digital relays, fault location and event reporting, lockout and test switching capabilities, and communication assisted transfer trip utilizing the mirrored bits function of the digital relays.

Distribution Automation

Project No:	MC-CL-YR8425	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project automates radial distribution feeders, which includes installation of equipment to provide remote control of operations of switches on power lines and gather real time data on conditions in distribution power lines. The installation of strategically placed switches provides the ability to automatically perform outage restoration, shift blocks of load to maximize efficiencies of feeders, and reconfigure the feeder grid. Typical operation involves remotely detecting that a feeder fault has occurred, locating the damaged portion of the feeder between two remote controlled line switches, isolating the damaged portion of the feeder by opening appropriate remote controlled line switches, and re-energizing undamaged portions of the feeder via the primary feeder source and one or more backup sources using automatically controlled tie switches.

Distribution Management System

Project No:	MC-CL-YD9966	BSL Code:	BC-CL-Y
Project Type:	Discrete	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Citywide
Start/End Date:	2027 - 2028	Neighborhood District:	Multiple
Total Project Cost:	\$6,829	Urban Village:	Multiple

This project provides installation of the Distribution Management System (DMS) beginning in 2019. This comprehensive software application enables Power Dispatchers to operate automated distribution devices more effectively by interfacing with the Utility's Energy Management System (EMS), Outage Management System (OMS), Customer Information System, and the Geospatial Information System. The DMS will improve planning, coordination, and operations by enabling dispatchers to improve their switching operations for planned shutdowns. It will also make it easier to prepare planned outages and reduce the area needed for an outage.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project plans, builds, deploys, and provides ongoing management of an enterprise document management system that effectively and efficiently captures, secures, shares, and distributes digital and paper based documents and reports. The project streamlines collaboration, automates routine tasks, and lowers costs related to creation, management, and storage of business documents. The project provides the governance and audit capabilities needed to minimize the risks and costs associated with regulatory and legal compliance.

Project Category:	New Investment	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds the implementation of City Light's public electric vehicle charging pilot project. This project will deploy 26 public EV fast chargers within the service area, at both City-owned property and private sites. City Light owns and installs the charging infrastructure. This program allows customers access to carbon-neutral electricity that customers are demanding, better utilize current utility assets, and contribute to the Clean, Renewable-Powered City initiative and the aggressive goals of the Drive Clean Seattle Initiative.

Endangered Species Act Mitigation

Project No:	MC-CL-XP6990	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Outside City of Seattle
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project funds work that protects and restores fisheries habitat in the Skagit and Tolt river basins. It implements the Endangered Species Act (ESA) Program for recovery of listed fish species that are potentially affected by City Light projects. The project includes land purchase, restoration, assessment, and management. The project reduces the likelihood of third party lawsuits under ESA and the reopening of claims by Federal agencies, e.g. the U.S. Fish and Wildlife Service, seeking additional measures to protect and restore the listed species.

Georgetown Steamplant Access Road

Project No:	MC-CL-XF9233	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Off Wa 99 At King County Airport
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 2
Start/End Date:	2015 - 2022	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$3,235	Urban Village:	Greater Duwamish

This project will design and construct a road and associated infrastructure for public access to the Georgetown Steam Plant. This work will be partially funded by King County, who initiated street development in 2000 that cut off access to the steam plant.

Gorge - 240V AC Station Service Switchgear Replacement

Project No:	MC-CL-XS6581	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 121 Stte Highway 20
Current Project Stage:	Stage 6 - Closeout	Council District:	Outside City of Seattle
Start/End Date:	2017 - 2021	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$2,230	Urban Village:	Outside City of Seattle

This project mitigates safety hazards at the Gorge and Diablo Powerhouses by replacing the 240V circuit breakers with new breakers that allow for remote operation. Recent policy and regulation changes related to electrical Arc Flash hazards have highlighted safety issues related to this equipment.

Gorge Crane Rehabilitation

Project No:	MC-CL-XS6639	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 121 State Highway 20
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Outside City of Seattle
Start/End Date:	2021 - 2024	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$4,857	Urban Village:	Not in an Urban Village

This project refurbishes or replaces mechanical and electrical systems for the Gorge powerhouse cranes and will provide safety upgrades to comply with current code. The Gorge powerhouse crane has never undergone a major refurbishment. The three Gorge generating units are planned for overhauls within the next ten years, and will require a reliable crane. The crane control system is being modernized to allow for better control and accuracy.

Gorge U21-24 overhauls

Project No:	MC-CL-XS6640	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 121 State Highway 20
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Outside City of Seattle
Start/End Date:	2023 - 2027	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$27,877	Urban Village:	Not in an Urban Village

This project overhauls Gorge units 21 - 24. The final scope of work will be determined during project chartering, but is expected to include replacing the stator winding, stator core, and excitation system. Refurbishment is expected for rotor components and other mechanical components. Planning is currently forecast to start in 2022 which would mean construction on the first unit would likely begin in 2025.

Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This ongoing project funds upgrades to generating plants that will either prevent oil spills through process improvements and equipment replacement, or provide additional containment capacity for accidental spills. These upgrades will include replacing oil filled transformers with dry-type transformers, building larger containment basins around oil filled equipment, reconfiguring powerhouse sumps, installing oil/water separators, and replacing greased valve bushings with greaseless bushings.

Interbay Substation - Development

Project No:	MC-CL-YS7756	BSL Code:	BC-CL-Y
Project Type:	Discrete	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	17th Ave West
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:	2019 - 2027	Neighborhood District:	Magnolia/Queen Anne
Total Project Cost:	\$2,274	Urban Village:	Ballard-Interbay Northend

This project plans, designs, and constructs a 26 kV substation in the Interbay area. This project installs 2-100 MVA transformers into a facility large enough to accommodate a third transformer at the site if required in the future. The project adds to the distribution network and provides a new path for power to the area. It provides assurance to the developers who are interested in projects in the South Lake Union district that City Light will be able to serve their needs reliably.

This ongoing project funds replacement and improvement of the Utility's information technology infrastructure. This infrastructure provides applications, data storage, and print services to the utility, and supports activities and applications including Microsoft Outlook, remote connectivity, electronic communications and recording of power marketing transactions (E-tagging), the City InWeb and network, common and City Light applications, UNIX services, and infrastructure change management. Components purchased by this project include servers, network and communications equipment, disk storage, and application and operating system software. Infrastructure is upgraded or replaced based upon a combination of factors, such as maintenance schedules, equipment warranties, availability of vendor support, Gartner recommendations, application growth, and security demands.

Current Project Stage:	N/A	Council District:	Council District 7, Council District 1
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

The ongoing program will plan, design, procure, construct, and commission large City Light capital investment projects to deliver infrastructure required to meet electrification, environmental justice, and/or sustainability goals and mandates and customer demand associated with Maritime Transportation (MARTEP). MARTEP Projects stem from public and private maritime transportation efforts to transition from emission-based energy sources to City Light electrical service and that requires City Light to design and construct new infrastructure.

Massachusetts Street Substation - Networks

Project No:	MC-CL-YN8202	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	1555 Utah Ave S
Current Project Stage:	N/A	Council District:	Council District 2
Start/End Date:	N/A	Neighborhood District:	Greater Duwamish
Total Project Cost:	N/A	Urban Village:	Greater Duwamish

The ongoing project increases Massachusetts Street Substation network capacity. It funds a programmatic approach for comprehensive management of underground network assets serving customers in Pioneer Square and the area bounded by University Street, Third Avenue, Terrace Street, and the Freeway. The project funds completion of engineering design and analysis and construction work required to improve and enhance the network system supporting existing and neat future network customers in the areas. This project defers the need date for a new network substation until no further capacity is available from Union Street and the other network substations. It provides sufficient and reliable electrical capacity for the growing power needs of City Light customers.

Network Hazeltine Upgrade

Project No:	MC-CL-YN8129	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project upgrades City Light's remote vault monitoring capability for the Digital Grid system (formerly Hazeltine system). The project consists of substation receivers, workstations, applications, server pairs and alarm PCs. The project provides remote monitoring of network transformers, protectors, vaults, and supports daily utility operations. The project enhances the network monitoring capability by allowing a real time alarm and an event generated from the field to be processed and sent to the alarm PCs of an abnormal electrical component or environmental condition occurrence. The most crucial alarm PC is situated in the System Control Center where it is monitored by with Power Dispatchers 24/7.

Outage Management System Phase II Implementation

Project No:	MC-CL-YD9967	BSL Code:	BC-CL-Y
Project Type:	Discrete	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2017 - 2023	Neighborhood District:	Multiple
Total Project Cost:	\$11,678	Urban Village:	Multiple

This project funds City Light's Outage Management System (OMS) upgrade in order to maintain its availability to be available 100% of the time. However, its application, operating system, and database have aged to the point where OMS' availability is at risk. It was fielded in 2011 and has not been significantly modified since. The upgrade of OMS will bring it to a currently supported product version (application, OS, database, physical infrastructure, etc.). The scope of this project is to cover as much as possible of the as-is system, with an additional change to integrate with the ongoing deployment of the Advanced Metering Infrastructure (AMI) initiative.

Overhead Customer Driven Capacity Additions

Project No:	MC-CL-YR8355	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old line segments, relocates lines for construction clearances and may replace rotten and damaged poles in the distribution system. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are affected before the new load from those projects comes online. City Light is reimbursed by the customers for this work.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project supports the capitalized portion of work resulting from unplanned, non-emergency, overhead outages. These outages result from events, such as storms, accidents, and equipment failures. The project funds permanent storm repairs and construction of new infrastructure to bypass failing equipment. The project ensures that customers' electric power is restored as quickly as possible.

This project provides the infrastructure required to install the basic control network and integrate existing, major control systems for a Skagit wide network controls program, to be located at each of the Skagit facilities. This project improves monitoring and control of the Skagit facilities, reduces maintenance and potential outages, and reduces cost and time of maintenance and outages. This project incorporates features that lead to enhanced data acquisition that is part of the NERC requirements.

Ross Dam - AC/DC Distribution System Upgrade

Project No:	MC-CL-XS6373	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 128 State Highway 20
Current Project Stage:	Stage 3 - Design	Council District:	Outside City of Seattle
Start/End Date:	2005 - 2028	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$17,164	Urban Village:	Not in an Urban Village

This project upgrades aging AC electrical distribution system at Ross Dam with a new electrical distribution system. It installs conduit, ducting, distribution panels and wire. It improves the 4 kV system, improves lighting, and provides improvements on top of the dam including a center substation room, emergency generator, valve houses, and a 130-volt battery bank. New conduit and conductors improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting allow staff greater operational flexibility, safety, and efficiency.

Security Improvements

Project No:	MC-CL-YD9202	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project plans, designs and implements projects, improving the physical security of City Light critical facilities, in order to mitigate unauthorized access and criminal activities that could cause significant system damage, power outages, and other related disruptions to the electrical system. The project reduces the risk of sabotage, vandalism, theft, and terrorism that can result in the loss of valuable infrastructure for generation and distribution of power. The project also reduces risk of noncompliance with North American Reliability Council (NERC) 1200 Standards to improve security at critical facilities that house command and control systems. It enhances reliability of the power system, reduces the risk of lost revenues, and reduces the jeopardy to public safety and emergency response due to loss of lifeline services such as medical services, water and wastewater systems, communications, law enforcement, banking, transportation system, etc.

Seismic Mitigation

Project No:	MC-CL-XF9134	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Outside City of Seattle
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project funds structural upgrades to buildings. This project is for miscellaneous, unidentified seismic issues other than the Georgetown Steam Plant, Service Centers and Substations, which are funded through other projects. The project protects City Light's assets, employees, customers, visitors, equipment, and materials.

Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This project provides design and construction of several new structures to support industrial and recreational boat operations on our Skagit reservoirs. Structures include a new tour dock, new dry dock, additions to the existing boat houses and a new barge landing in Diablo. The project provides improved visitor access for the Skagit Boat Tour, safer boat fueling facilities, reduced impact of snowfall on boats, consolidated barge landings, and improved dry docks.

This ongoing project provides support of the relicensing activities for the Skagit River Hydroelectric Project including support of staff, environmental studies, documentation, and consultation needed to submit an application to relicense the project. Relicensing work will begin in 2019. The current Federal Energy Regulatory Commission (FERC) license for the Skagit Project expires in 2025, and the license application is due for submission to FERC in May 2023.

Skagit - Sewer System Rehabilitation

Project No:	MC-CL-XS6232	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Milepost 126 State Highway 20
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2015 - 2023	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$5,685	Urban Village:	Not in an Urban Village

This project funds the replacement or repairs of numerous sewer pipe breaks, leaks, and sags in the combined Skagit River sewer/drainage collection system, located at the Diablo Dam site and also provides major renovations to the aging Newhalem wastewater treatment plant. This project eliminates potential overloads in the sewage treatment plant that can cause pollution of the Skagit River and surrounding soil contamination.

Start/End Date:	2010 - 2021	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This project implements a comprehensive facility plan to optimize buildings and structures at two Skagit town sites. The project preserves essential facilities that support SCL's power production needs, and retains important civic, cultural, and historic features in keeping with the historic preservation requirements of the Skagit FERC Licensing agreement. The project will reduce operational costs by dismantling and removing surplus facilities that require significant on-going maintenance.

Skagit Facility Conservation

Project No:	MC-CL-XS6515	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Newhalem Creek Rd, Marblemount WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides funding for structural improvements to existing facilities at Skagit, both residential and commercial. It replaces lights, windows, and HVAC systems, insulates buildings, and performs related work. The project dramatically reduces the amount of energy expended to keep structures warm or cool depending upon the season.

Skagit Powerhouses - Install Protection Relays

Project No:	MC-CL-XS6415	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	500 Newhalem Creek Rd, Marblemount, WA 98267
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project enhances generating reliability by adding protective relays to generating systems at the Ross, Diablo, and Gorge plants, whose generator protective relays do not meet present IEEE Standards. The project funds the addition of microprocessor relays to the existing system, certain auxiliary protective equipment, and modifies the design of the existing protection system to upgrade functionality. This will limit the potential for damage when surges and faults occur in transmission lines due to lightning strikes, load rejections, and other unexpected events.

SMT AutoLab

Project No:	MC-CL-XP6600	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Improved Facility	Location:	System Wide
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Outside City of Seattle
Start/End Date:	2019 - 2022	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$114	Urban Village:	Not in an Urban Village

This project provides expansion of the AutoLab in the Seattle Municipal Tower to what is now the Central Files Room. The extra space will be used as an equipment lab for Power Production electrical engineers to conduct necessary testing of cyber security, remote monitoring and automation equipment in a simulation environment. The testing will be conducted prior to installing and activating the equipment at our generation sites. This project also provides required HVAC upgrades as well as the installation of equipment racks, wire ways, and access security.

Solar Microgrid for Resilience

Project No:	MC-CL-XF9238	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	New Investment	Location:	TBD
Current Project Stage:	Stage 6 - Closeout	Council District:	TBD
Start/End Date:	2016 - 2022	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$5,148	Urban Village:	Not in an Urban Village

This project provides construction of an islandable microgrid located at a City of Seattle designated emergency shelter such as a community center, where a solar photovoltaic (PV) system coupled with an appropriately-sized battery energy storage system will be installed. The project provides backup power to support critical emergency facilities and services during extended power outages when electricity distribution facilities are down due to a catastrophic event, such as an earthquake, severe windstorm (or associated flooding), fire or landslide. The Washington State Dept. of Commerce will grant the utility approximately half of the funding to cover the costs for this project.

Sound Transit - City Light System Upgrades

Project No:	MC-CL-ZT8475	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	Improved Facility	Location:	City Wide
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2017 - 2021	Neighborhood District:	Multiple
Total Project Cost:	\$1,075	Urban Village:	Multiple

This project increases the capacity of City Light power distribution systems to serve increased power requirements projected for Sound Transit's Link system. Initial upgrades will be in the Capitol Hill Sound Transit Station area. Construction there may be underway in 2017. Other areas projected to need power distribution system upgrades include area between the International District Station and Lake Washington, the University of Washington Station area, areas in the Rainier valley, and some areas along the proposed Lynnwood Link line.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the engineering and construction of relocated and/or new Seattle City Light facilities required for two new light rail lines and related transit facilities from downtown Seattle to Ballard and West Seattle, approved in November 2017 as part of the Sound Transit 3 initiative. City Light activities include engineering and construction of electric power feeder relocations and upgrades, power services for the planned light rail lines, and various other tasks. Sound Transit's plans will require City Light work through several future budget cycles.

Sound Transit Light Rail East Link - City Light

Project No:	MC-CL-ZT8450	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	New Facility	Location:	I-90
Current Project Stage:	Stage 6 - Closeout	Council District:	Outside City of Seattle
Start/End Date:	2011 - 2021	Neighborhood District:	Central
Total Project Cost:	\$2,169	Urban Village:	Not in an Urban Village

This project plans for and relocates City Light's electrical facilities, as required by state law, enabling Sound Transit's construction of the East LINK light rail line from Seattle's International District Station to the Bellevue Redmond area. The department also plans to work with Sound Transit on a memorandum of agreement regarding cost reimbursement for its work, which is expected to be 100% reimbursable in keeping with past work with Sound Transit.

Sound Transit Lynnwood - City Light

Project No:	MC-CL-ZT8471	BSL Code:	BC-CL-Z
Project Type:	Discrete	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2015 - 2025	Neighborhood District:	Outside City of Seattle
Total Project Cost:	\$13,875	Urban Village:	Outside City of Seattle

This project supports Sound Transit's Lynnwood Link, which will extend from the Northgate Transit Center at 5th Ave NE & NE 100th Street to our service area boundary at NE 200th Street, near the I-5 Right of Way. This project will include 100 blocks of relocations, a significant fraction of which will convert lines from overhead to underground. The project will install two feeders for each of the light rail line's traction power stations and upgrade the radial system's capacity where needed to serve the new load. The low and medium power service connections for the line's stations will be handled through the existing service projects, ?business as usual.?

Stormwater Compliance

Project No:	MC-CL-YD9236	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	City Wide
Current Project Stage:	N/A	Council District:	
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds the installation of lighted canopies and the associated drainage improvements that are necessary to bring City Light into compliance with the current rules and regulations. As a result of a City wide storm water audit and several surprise inspections from the Department of Ecology, it was discovered that there are several areas where measures are needed to bring City Light’s storm water protection program into compliance. Some of our facilities drain directly to Superfund sites and the successful implementation of a compliant storm water system not only reduces our liability in the short term, but it has a direct impact on the amount of funding we may be ordered to provide for the cleanup of current and future Superfund sites. Currently, City Light stores raw materials (gravel, cold mix, backfill material, vegetative matter), salvage material (wire, metal products, electronics, transformers, poles) and warehouse materials (timbers, unfinished metal, galvanized poles) outside, where product can leach into the drainage systems.

Streetlight LED Conversion Program

Project No:	MC-CL-ZL8441	BSL Code:	BC-CL-Z
Project Type:	Ongoing	BSL Name:	Customer Focused - CIP
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project upgrades streetlights with LED fixtures, which will reduce annual energy consumption by 40% (for those lights replaced), provide Greenhouse Gas avoidance of 5,446 metric tons of carbon per year, and reduce maintenance cost of the Utility's streetlight system. With a total system conversion, it is estimated that annual operating costs will be reduced \$3.7 Million per year. The savings in energy and maintenance costs will pay for the initial investment within the life of the new system.

Substation Automation

Project No:	MC-CL-YS8424	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project replaces and upgrades substation automation systems, including Remote Terminal Units (RTU) and annunciators, in each of City Light's fourteen substations, and upgrades equipment at two substations annually. The project reduces the likelihood and length of system outages due to failure as the current equipment is wearing out and cannot be replaced in kind because the equipment is no longer manufactured. The project also enhances energy efficiency, and reduces the probability of fines from appropriate governing bodies if loss of a substation, due to equipment failure, causes instability of the western interconnection grid and/or loss of load.

Substation Comprehensive Improvements

Project No:	MC-CL-XF9161	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Improved Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project funds substation improvements identified in City Light's Comprehensive Facilities Plan, seismic fitness reports, and periodic inspections targeting transmission and distribution buildings. The project implements items necessary to support assigned personnel, such as lunchroom and locker room facilities required by the union contracts, as well as structural and mechanical corrections and enhancements at substation facilities.

Substation Equipment Improvements

Project No:	MC-CL-YS7752	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project adds, replaces, and upgrades substation equipment, particularly substation electrical and control equipment. The project also funds installation of remote control and monitoring of substation equipment from the System Control Center, which facilitates faster response time to correct system instability or outages. This work maintains and improves system reliability, permits compliance with high voltage and environmental regulations, and ensures safe work sites.

Substation Transformer Replacements

Project No:	MC-CL-YS7776	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	2136 N 163rd St, Shoreline
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the review of power transformers at substations and determines dissolved gas concentration, insulation aging, oil leaks, maintenance cost, service stress, and fault interrupting history. The project replaces transformers prioritized by those with the highest risk of failure, or those presenting substation capacity limits. The project enhances system reliability by replacing aging substation transformers before they fail in service.

Tolt Relicensing

Project No:	MC-CL-XC6985	BSL Code:	BC-CL-X
Project Type:	Ongoing	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	Tolt River Dam
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project provides the necessary documentation with the FERC by June 2027 to either acquire a new operating license for the Project or decommission it. South Fork Tolt Hydroelectric Project (the Project) FERC License expires in July 2029. Without a license the Project cannot be legally operated. The FERC relicensing process will require preparing and filing a Notice of Intent (NOi), Preliminary Application Document (PAD), and Preliminary and Final License Applications. The PAD, which is due in 2024, will be a substantial document requiring consultant assistance and additional City Light staff resources. Work began in 2021 to prepare the PAD and start the relicensing process. The main study phase of relicensing will occur in 2025 and 2026, which will require consultant and agency support for studies, reporting, and preparation of the license application which is due in 2027. If City Light were to decide to cease operating the Project instead of relicensing it, a Decommissioning Application would need to be filed, which requires many of the same elements and funding to complete this work.

Project Category:	Rehabilitation or Restoration	Location:	Multiple
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides the costs to refurbish and to extend the life of over 1,700 of steel transmission tower structures. This funding eThis ongoing project funds programmatic painting and refurbishment of approximately 1,700 steel transmission tower structures. Metal transmission towers have a long life if properly maintained, while replacements are disruptive and can cost more than \$2 million per tower. establishes and implements a new, ongoing, systematic approach to repair and refurbish these critical assets for as long as we can before needing to perform a tower replacement project which would cost more than \$2.0 million per tower.

Underground 26kV Conversion

Project No:	MC-CL-YR8362	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project replaces the 4 kV electrical equipment remaining in the electrical distribution system with new, efficient and reliable 26 kV distribution equipment. This project increases capacity to deliver power to City Light customers, rebuilds and maintains the backbone of the system, saves energy by reducing transformer and line losses, improves quality and reliability of service to customers, and releases unit substation properties for better neighborhood uses.

Underground Customer Driven Capacity Additions

Project No:	MC-CL-YR8360	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	New Facility	Location:	System wide
Current Project Stage:	N/A	Council District:	Citywide
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides electrical lines from substations to customers' property lines. This project builds new and replaces old underground line segments, and may replace rotten and damaged poles in the distribution system that have underground facilities beneath them. This work is driven by specific customer projects, for their direct benefit, to identify and upgrade feeders that are impacted before the new load from those projects comes online. City Light is reimbursed by the customers for this work.

University Substation - Network

Project No:	MC-CL-YN8464	BSL Code:	BC-CL-Y
Project Type:	Ongoing	BSL Name:	Transmission and Distribution - CIP
Project Category:	Rehabilitation or Restoration	Location:	645 NW 45Th
Current Project Stage:	N/A	Council District:	Council District 4
Start/End Date:	N/A	Neighborhood District:	Northeast
Total Project Cost:	N/A	Urban Village:	University District

This ongoing project funds a programmatic approach for comprehensive management of underground network assets serving customers in the University area. This project funds annual work required, such as feeder balancing, engineering analysis to determine system feeder assignments for new services, and replacement of cables that fail while in service. It reduces the probability of cable failures and long costly customer outages.

Western Energy Imbalance Market

Project No:	MC-CL-XP9976	BSL Code:	BC-CL-X
Project Type:	Discrete	BSL Name:	Power Supply - CIP
Project Category:	Rehabilitation or Restoration	Location:	System Wide
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2017 - 2021	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$13,993	Urban Village:	Not in an Urban Village

This project provides funding to allow City Light to participate in the Western energy imbalance market (EIM) run by the California Independent System Operator (CAISO). City Light will need IT systems, an implementation agreement with CAISO, possible additional staff and training to participate in the market. Participation will allow City Light to more efficiently use generation and transmission assets, buy and sell energy in shorter term increments, and use pricing to match loads and resources across more buyers and sellers than existing markets currently permit. By doing this, City Light will more effectively integrate renewable energy across the West due to its flexible hydro capacity. City Light is planning to begin participating in the market in the spring of 2019.

Seattle Public Utilities

Drainage and Wastewater

Overview

Seattle Public Utilities (SPU) maintains the network of sewer and drainage systems throughout the City of Seattle. These systems include approximately:

- 448 miles of sanitary sewers
- 968 miles of combined sewers
- 68 Pump Stations
- 5.5 miles of wastewater force mains
- 84 City-owned and permitted Combined Sewer Overflow points
- 38 Combined Sewer Overflow control detention tanks/pipes
- 481 miles of storm drains / 290 storm drain outfalls
- 33,750 catch basins
- 65 miles of ditches, 128 miles of culverts
- 30 miles of stream channel (49 creeks, 6 of which are salmon bearing)
- 9 acres of green stormwater infrastructure
- 17 detention/treatment ponds
- 295 drainage flow control facilities
- 578 water quality structures

The Drainage and Wastewater (DWF) Capital Improvement Program (CIP) is the vehicle for rehabilitating, replacing, improving, and expanding this infrastructure, as well as constructing projects that protect and enhance our City's public health and environmental resources. Planned spending in the DWF CIP is approximately \$1.24 billion over the next six years, from 2022 to 2027.

Thematic Priorities/Project Selection Criteria

The goal of the DWF CIP is to construct facilities that reduce the frequency of flooding and sewer backups for customers and improve water quality and habitat in the environment by reducing sewage overflows and the impacts of flooding and stormwater pollution. Projects in the DWF CIP are guided by various Federal regulations, City policies, long-term plan documents, the Drainage Systems Analysis, the Wastewater System Analysis, and the SPU Asset Management Committee (AMC) benefit criteria. Many DWF CIP projects are outlined in the Plan to Protect Seattle's Waterways and Asset Management Plans. In addition to candidate capital projects identified from these planning documents, projects are identified from external projects and opportunities and emergencies or other unexpected events. All potential capital projects are prioritized for consideration into the CIP budget. Priority rankings are based on the following set of criteria:

- **Public Health, Safety & Environment:** The overriding priority for the DWF is protecting public health and safety, improving services to customers and decreasing our impact on the environment. Examples of highly ranked projects in this category include the South Park Pump Station, Localized Flood Control program, Sanitary Sewer Overflow Capacity program, South Park Water Quality Facility, and NDS Partnering.
- **Infrastructure Reliability & Risk:** How a project addresses infrastructure conditions or vulnerabilities, based on an understanding of the consequence of a risk occurring and its likelihood. Examples of highly ranked projects in this category include the Pipe Rehabilitation and Pump Station improvement programs.

2022-2027 Proposed Capital Improvement Program

- **Regulatory, Mandates, Legal Agreements:** The City of Seattle/SPU must meet State and Federal regulatory requirements to comply with the Clean Water Act (CWA) and the Consent Decree that was entered in court on July 3, 2013, between the City, the U.S. Environmental Protection Agency (EPA), and the U.S. Department of Justice (DOJ). The two most significant regulatory drivers associated with the CWA are the National Pollutant Discharge Elimination System (NPDES) Waste Discharge Permit (aka NPDES CSO Permit) and the NPDES Phase I Municipal Stormwater Permit (aka NPDES MS4 Permit). This ranking category considers the degree to which the project is driven by Federal, State, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include the Ship Canal Water Quality Project, CSO Retrofits, South Park Water Quality Facility, and Natural Drainage System (NDS) Partnering.
- **External Drivers and Opportunities:** SPU's responsiveness to, or engagement with, the projects of other Departments or jurisdictions, or opportunities to provide multiple benefits, address service equity, or reduce ratepayer costs through outside funding opportunities. Examples of highly ranked projects in this category include the Seattle Department of Transportation's Move Seattle projects.
- **Service Equity:** Factors in service equity are incorporated into the prioritization of potential projects in any program based on amalgamated data from the Office of Sustainability and Environment, including race, education, language and median income. Known disparities of historical service levels are also considered within racial equity planning tools such as stakeholder analyses and inclusive outreach planning.

Every project is rated against each criterion. Criteria ratings are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each LOB, with reviews by key internal stakeholders. Project priority rankings are used to clarify and document which projects are most important and why, to help determine which projects at the margin will be included, excluded or deferred from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

To aid SPU in making responsible decisions on behalf of ratepayers prioritized projects must then be justified through a business case process that establishes that a problem or opportunity is timely and important and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life-cycle benefits and costs. The process also recognizes that a project may be a "must-do" project (e.g. required by regulations). Business Cases must be approved by the SPU CEO/General Manager and Asset Management Committee.

DWW Priorities that are also Mayor/Council Priorities

Improvements to DWW infrastructure result in safer communities, a healthier environment, and regulatory compliance which are goals inherent within the Mayor's key values (safe, affordable, vibrant and interconnected City that fosters innovation).

- **Aligning Capital Investments with Community Planning.** SPU has aligned planning for the South Park Water Quality Facility with the Office of Planning and Community Development's Open Space planning in the S. Park Urban Village area and the Duwamish Valley Action Plan.

2022-2027 Proposed Capital Improvement Program

- **Aligning Capital Investments with Seattle Department of Transportation’s modal plan.** SPU has several projects to facilitate citywide interconnectivity efforts:
 - Primary investments are around supporting transportation led projects as part of the Move Seattle Levy, described below within the shared costs projects Budget Control Level (BCL).
 - SPU is also leading a joint SPU/SDOT project in the South Park industrial area providing long desired Drainage Conveyance and Roadway infrastructure.
 - The NDS Program, described below, collaborates with SDOT and has identified numerous joint sidewalk/bioretention project locations.
- **Expand use of Green Stormwater Infrastructure** has been identified by Mayor and Council as a priority. Projects that will help achieve the Citywide stretch goal to manage 700MG of stormwater annually with GSI by 2025, include the following:
 - The Natural Drainage Systems (NDS) Partnering program will use bioretention to reduce storm water pollution in creeks and to improve neighborhoods. The NDS Partnering Program will build natural drainage systems along approximately 66 blocks (330’ block equivalents) in the Longfellow, Thornton, and Pipers Creek watersheds. The first of these projects was 30th Ave NE, with construction led by SDOT, which was completed in 2019.
 - GSI in Urban Villages Program. SPU and Council created the GSI in Urban Villages Program to complement proposed up zones through HALA, as well as the City’s overall growth strategy. This new program has flexibility to address a variety of system problems within urban villages and urban centers, including flooding, sewer backups, water quality, and creek protection. Early Green Infrastructure in Urban Villages projects include Cloverdale Bioretention (South Park neighborhood, construction 2021), Crown Hill GSI and Lake City Floodplain Park (Options Analysis in progress), and a variety of development partnerships.
 - RainWise Program fights water pollution by offering rebates to property owners for controlling stormwater at residences, schools, and businesses. This program was developed by SPU but is now delivered jointly with King County Wastewater Treatment Division. Over 1,500 Seattle residents and businesses have installed voluntary rain gardens or cisterns through this program, managing over 26 million gallons of runoff every year.

CIP Highlights

2022-2027 Proposed Drainage and Wastewater Fund CIP by BCL (In ‘000s; total may not sum due to rounding)

BCL	2022	2023	2024	2025	2026	2027	Total

2022-2027 Proposed Capital Improvement Program

Protection of Beneficial Uses: This program makes improvements to the City’s drainage system to reduce the harmful effects of stormwater runoff on creeks and receiving water bodies and preserves the storm water conveyance function of our creeks through stream culvert repair and rehabilitation. The program includes projects to meet regulatory requirements, primarily NDS Partnering Projects (a key component of Seattle’s Plan to Protect Seattle’s Waterways) which improves water quality with GSI approaches while partnering with SDOT to provide streetscape enhancements. The program also includes projects that are part of the SPU and Council-created GSI in Urban Villages Program. Funding in the DWF CIP is focused on cost effective stormwater and water quality projects such as NDS Partnering, GSI in Urban Villages projects, Capitol Hill Water Quality project, and the Taylor Creek Culvert Replacement project.

Sediments: The City of Seattle is a Potentially Responsible Party (PRP) for cleanup liabilities for contaminated sediments at the Lower Duwamish Waterway Superfund Site, the Harbor Island Superfund Site, and Gas Works Park because of alleged historic contributions from Combined Sewer Overflows (CSO) and storm drain discharges, or other City-owned facilities. The City continues to work with EPA, the Washington State Department of Ecology, King County, and other PRPs on an assessment of contaminants and sources. The Sediments program provides funding for studies and analysis for cleanup of contaminated sediment sites in which the City is a participant, for engineering design and construction of actual cleanup of contaminated sites, and for liability allocation negotiations. The study phase of sediment remediation projects often requires multiple years before specific cleanup actions are defined. Current projections reflect cleanup construction adjacent to Gasworks Park, the Duwamish Waterway Sediment Remediation, and East Waterway Remediation projects beginning in 2024 based on preliminary schedules.

Combined Sewer Overflows: This program consists of projects that are mandated by State and Federal regulations to control combined sewer overflows (CSOs) into the City's receiving waters. During heavy rainfall events, the combination of stormwater (about 90 percent of the volume) and sewage may exceed the capacity of the combined sewer system (CSS) and overflow into our waterways – causing a combined sewer overflow (CSO). CSOs spill a mixture of raw sewage and stormwater into local waterways at 85 outfalls throughout the City. In some instances, these spills may violate water quality standards, create unacceptable risk to public health, contaminate sediment and habitat for endangered species and pollute the Puget Sound.

Annual CSOs have been reduced from 20-30 billion gallons per year by both the City and the County in 1970 to about 1 billion gallons per year, today. The City’s overflows account for 100-200 million gallons per year. SPU currently does not meet regulatory mandates that limit CSOs to one untreated overflow per outfall location per year. SPU is required by State and Federal law to achieve control of CSOs by 2030. The CSO Long Term Control Plan (LTCP), also called the Plan to Protect Seattle’s Waterways, was approved by regulators in May 2015. Ultimately the Consent Decree requires completion of construction of all CSO reduction projects by December 2030. CSOs must be proven to be controlled one year after completion of construction. Continuing investments in CSO control will enable SPU to achieve compliance with the 2030 milestone.

Projects in the CSO Program include large infrastructure projects (e.g. storage structures, pipes, tunnels, wet weather treatment plants, stormwater separation, pump stations, etc.), smaller retrofits, construction of Green Stormwater Infrastructure (GSI) for CSO control, and development and

2022-2027 Proposed Capital Improvement Program

implementation of regulatory required plans such as the Plan to Protect Seattle’s Waterways. The largest project in the DWF CIP is the Ship Canal Water Quality Project (SCWQP). The SCWQP consists of a 2.7-mile-long, approximately 18-foot-diameter tunnel that, when completed, will capture and store approximately 75 million gallons of sewage and stormwater flows from Ballard, Fremont, Wallingford and Queen Anne.

Other key efforts in the program include Pump Station 13 Upgrade and Force Main Rehabilitation and Pump Station 22 Retrofit and Force Main Upgrade. Planning work is underway and will continue through the coming years for additional CSO reduction efforts to meet CSO Consent Decree compliance date requirements. SPU currently expects to spend approximately \$350 million over the next six years on CSO reduction projects. The majority of this spending is associated with the SCWQP.

Rehabilitation: This program consists of projects that repair, rehabilitate or replace existing drainage and wastewater assets to maintain or improve the current functionality level of the system. Assets that are addressed include:

- pump station structures, airlift conversions, major mechanical, ventilation and electrical components;
- drainage facilities including water quality structures, flow control structures and large surface water facilities; and
- drainage and wastewater conveyance pipes and structures (catch basins, maintenance holes and sandboxes).

Work within this program is a critical component to achieving SPU’s Consent Decree target of four sanitary sewer overflows per 100 miles of sewer pipe annually. Individual projects are defined by the type and method of rehabilitation and/or replacement and include emergency rehabilitation, no-dig pipe lining rehabilitation by crews or contract, full mainline dig pipe replacement by contract, dig point sewer pipe and structure rehabilitation by crews or contract, and pump station repairs or replacement by crew or contractor.

This proposed budget will include a new drainage facility master project to rehabilitate or replace water quality structures, flow control structures and large surface water facilities by crew or contractor.

Flooding, Sewer Back-up, and Landslides: This program is responsible for preventing and alleviating flooding and sewer backups in the City of Seattle, with a primary focus on the protection of public health, safety, and property. The program area is focused on planning, design, and construction of new pipes, ditches, culverts, detention facilities, and GSI that control and/or convey storm runoff to the ultimate discharge locations of creeks, lakes, and the Puget Sound. This program also involves protecting SPU drainage and wastewater infrastructure in landslide prone areas, both from impending small landslides, and providing drainage improvements where surface water generated from the City right-of way is contributing to small landslides. Lastly, this program also includes sewer capacity projects that reduce sewer backups and helps lower the risk of exceeding the Consent Decree target of four sanitary sewer overflows per 100 miles of sewer pipe per year. Major projects in this program include the Pearl Street SSO reduction project, the 12th Avenue drainage project, and the South Park Water Quality and Pump Station project. The South Park Water Quality Facility is a regulatory commitment within the Plan to Protect Seattle’s Waterways.

Shared Cost Projects: This program includes individual capital improvement projects which typically benefit multiple Lines of Business (LOB) (e.g. the Water LOB and the Drainage and Wastewater LOB) and whose costs are "shared," or paid for by more than one of SPU's utility funds.

The Proposed Budget for the Shared Cost program includes budgets for a number of interdepartmental projects including the Alaskan Way Viaduct and Seawall Replacement, Move Seattle, Center City Streetcar, and Sound Transit Link Light Rail. This BCL also includes funding for SPU Facility Improvements such as the South Operations Center, the North Operations Center, and a new dewatering facility near the South Transfer Station. Other programs in this BCL include DWW Heavy Equipment Purchases, 1% for the Arts, and several smaller projects.

Technology: The Technology CIP is managed in six program areas that provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing;
- Enterprise Information Management;
- IT Infrastructure;
- Project Delivery & Performance;
- Science & System Performance; and
- Asset Information Management.

Investments in 2021 address several of SPU's key initiatives, including:

- Financial Management and Internal Controls;
- Operational Excellence and Performance Management;
- An Easy and Engaged Customer Experience;
- Data-driven Decision Support; and
- Project Delivery/Project Controls.

In 2022, SPU will continue focusing its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, Project Delivery and Performance Program, as well as the Asset Information Management Program.

With the new Customer Information System (CIS) already in place, the next major projects for SPU within the Customer Contact and Billing Program include the Utilities Customer Self-Service Portal project, the Customer Contact and Billing Upgrade, CIS Workflow, and the CIS Reporting. Other projects slated would be enhancements to SPU's Enterprise Project Management System and the Development Systems Integration project, and the Maximo Business Intelligence upgrade along with other projects that have been deferred in previous years.

CIP Revenue Sources

Historically, the DWF CIP has been funded primarily by revenue bonds serviced by ratepayers. However, DWF financial policies adopted in 2003 gradually increase cash contributions from SPU to fund the CIP. By 2007, a 3-year average of 25 percent of total CIP costs were funded by a cash contribution, with the remaining capital needs being debt financed.

2022-2027 Proposed Capital Improvement Program

SPU's DWF CIP is funded largely by Drainage and Sewer ratepayers. SPU issues bonds, serviced by ratepayers that cover approximately 75 percent of the CIP, with the remainder funded by cash. DWF rates were approved by the Mayor and City Council in 2021 for the three-year period of 2022-2025.

SPU also actively seeks grants and low-interest loans. Loans like this offer a lower interest rate than what SPU can borrow/issue debt and offset the need to draw down extra dollars from the construction fund. SPU also receives Remedial Action Grants from the Washington State Department of Ecology for up to 50 percent of sediments cleanup project costs.

Summary of Upcoming Budget Issues and Challenges

The biggest challenge for DWF will be continuing to manage priority projects while still complying with regulatory requirements from the EPA, and Washington State Department of Ecology (DOE) - all within the financial limitations of the Fund.

The City negotiated a Consent Decree between the City, the EPA, and the DOJ for compliance with the CWA and State regulations. The Consent Decree was entered in court on July 3, 2013, and includes deadlines for development and implementation of the LTCP and will drive spending in the CSO Reduction Program over the next several years. The Consent Decree also includes requirements to implement a Capacity Management, Operations and Maintenance (CMOM) Program, which drives operations and maintenance spending and CIP spending in the Rehabilitation Program. Additionally, an NPDES permit for stormwater includes requirements to help protect local waterways and the Puget Sound from damaging pollutants and excessive runoff. This increased regulatory emphasis on protecting and improving water quality has resulted in the need for the City to make substantial investments in detention, water quality treatment (e.g., GSI), CSO retrofits, pipe and pump station rehabilitation, and inflow/infiltration reduction.

- Detention: This focuses on storing stormwater and/or sewage during a rainfall event and can be accomplished through detention ponds (for stormwater), GSI (for stormwater) or underground tanks or tunnels (for both wastewater and stormwater). Detention can be added to the drainage system to offset the impacts of larger storms that overwhelm the conveyance capacity of the combined sewer system and can result in backups of sewage, localized flooding and releases of untreated sewage.
- Water Quality Treatment: This focuses on removing pollutants and can be accomplished through GSI or the use of technology such as specialized media filters. GSI is the use of green solutions to help reduce untreated overflows by allowing stormwater to infiltrate slowly into the ground, cutting the volume of stormwater entering the system, and providing water quality treatment through natural processes as the polluted runoff comes in contact with the soil and vegetation. The use of GSI is required as part of development through Seattle's NPDES permit and Stormwater Code.
- CSO Retrofits: This focuses on optimizing the existing collection, pumping and storage systems, using low-cost repairs and modifications to reduce overflows to waterways.
- Pipe and Pump Station Rehabilitation: This consists of repairing, rehabilitating, or replacing existing gravity sewer pipes, wastewater pump stations, and/or force mains that have deficiencies or have reached the end of their useful life.

2022-2027 Proposed Capital Improvement Program

- Inflow/Infiltration Reduction: This focuses on filling in cracks in sewer lines that allow groundwater to enter the system. It also addresses parts of the system where there are direct stormwater connections to the sanitary sewer system which can/should be directed to a separated stormwater system. By reducing inflow/infiltration, it is possible to reduce the frequency and volume of SSOs and sewer backups.

Other challenges DWF faces in meeting its obligations:

- 1) Addressing public expectations: it is challenging to address public expectations around our basic service level programs, such as flooding and system capacity. SPU is unable to prioritize these programs at this time due to rate pressure caused by the significant costs of the federally mandated consent decree. The separated drainage and wastewater systems are at capacity during storm events, or lacking the fundamental infrastructure at various locations across the City. The impacts can range from very serious (basement sewer back-ups) to nuisance (limited street or yard flooding) issues.
- 2) Construction Costs: due to market conditions and building large infrastructure in dense urban areas costs to construct drainage and wastewater infrastructure have increased significantly putting additional pressure on the portfolio.
- 3) Climate Change: increasing rainfall intensities resulting from climate change are increasing pressure on drainage and wastewater infrastructure leading to increased CSOs and driving the need for larger solutions and additional system improvements.

Future Projects/What is on the Horizon

Over the next 10 years, the DWF CIP will be driven largely by regulatory requirements, major transportation projects, and Operations Crew Facilities. Major projects include the completion of the Ship Canal Water Quality Project, sediment remediation, and other projects necessary under the LTCP/Plan to Protect Seattle's waterways, and localized flooding reduction in Broadview, and flood reduction and water quality improvements in South Park.

SPU is moving forward with a comprehensive planning effort within the [Shape Our Water](#) plan. The result of this effort will be an integrated system plan, to better identify the highest priority locations and potential funding and financing strategies. The Shape Our Water project will provide a 50-year plan for managing and improving Seattle's drainage and wastewater systems and increasing our water resilience. Through this planning effort, SPU will identify the partnerships, programs, and projects that will improve the performance and resilience of our drainage and wastewater systems while optimizing social and environmental co-benefits for the City. We are developing our plan through technical analysis, robust community engagement and an integrated approach to planning. By the end of 2023, SPU will have near- and long-term plans for drainage and wastewater programs, partnerships, and infrastructure investments over the next 50 years. This planning is part of building a better Seattle by providing drainage and wastewater services that are affordable, safe, green, and just in a climate uncertain future.

Beneficial Uses Program

Project No:	MC-SU-C3317	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project develops drainage related projects to improve the water quality, stream function and habitat in the streams and receiving waters of Seattle. Projects include stream and habitat restoration to reduce flooding, culvert repair and replacements to protect public safety, and green stormwater infrastructure projects to address flooding and control and clean runoff to streams.

Broadview Long-Term Plan

Project No:	MC-SU-C3812	BSL Code:	BC-SU-C380B
Project Type:	Ongoing	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Broadview
Current Project Stage:	N/A	Council District:	Council District 5
Start/End Date:	N/A	Neighborhood District:	Northwest
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

The Broadview Long-Term Plan had been an ongoing program to address longstanding drainage and wastewater problems. The current funded capital project within that program is the 12th Avenue NW Drainage Basin project, which addresses public and private flooding problems in that area by providing stormwater detention and green infrastructure.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

Creek Culvert Replacement Program

Project No:	MC-SU-C3314	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides for the repair and replacement of stream culverts that are part of SPU's critical drainage infrastructure. Culverts are prioritized for repair or replacement based on structural condition. Projects are then sequenced based on prioritization and other factors such as readiness to proceed, ability to address other drainage needs (e.g., flooding, maintenance), potential partnerships, synergies with other projects and availability of funding.

CSO Facility Retrofit

Project No:	MC-SU-C3611	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project retrofits, upgrades, and modifies existing Combined Sewer Overflows (CSO) reduction facilities in Seattle CSO basins. Retrofit projects cost-effectively optimize and maximize existing system operation to minimize CSOs to the greatest extent possible, reducing long term CSO storage needs. This project assists in achieving State Department of Ecology's requirement of an average of no more than one CSO event per outfall per year.

Drainage Capacity Program

Project No:	MC-SU-C3802	BSL Code:	BC-SU-C380B
Project Type:	Ongoing	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides flood control and local drainage and wastewater projects to improve system capacity or increase the existing level of service. Candidate projects are identified through DWW investigations, claims, complaints, studies, and prior planning. Drainage “spot” projects and small landslides prevention projects are also included within this program. The Localized Flood Control Program improves Drainage and Wastewater levels of service.

This project is for future combined sewer overflow (CSO) reduction projects that will be identified through the CSO Long-Term Control Plan (LTCP) Update. Future projects are most likely to include underground storage projects, wastewater lift station improvements, and/or wastewater conveyance system improvements. Planning for the projects began in 2018, and the projects should complete their construction by 2030.

Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) as a component of combined sewer overflow (CSO) reduction within the uncontrolled CSO basins. Work includes roadside bioretention and the RainWise program. RainWise provides financial incentives to private property owners within our uncontrolled CSO basins for construction of properly sized and installed raingardens or cisterns. The program supports the City's current regulatory strategy for compliance with CSO National Pollutant Discharge Elimination System (NPDES) permit.

GSI for Protection of Beneficial Uses

Project No:	MC-SU-C3316	BSL Code:	BC-SU-C333B
Project Type:	Ongoing	BSL Name:	Protection of Beneficial Uses
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides construction of Green Stormwater Infrastructure (GSI) within the separated stormwater system. Work includes right-of-way retrofits with bioretention and/or biofiltration for water quality treatment and flow control, as well as potential expansion of private property incentives for construction of properly sized and installed rain gardens or cisterns (RainWise program) into creek watersheds. The Natural Drainage Systems Projects within this program will achieve the water quality goals for the NDS Partnering Program identified in Seattle’s Plan to Protect Seattle’s Waterways (the Long Term Control Plan requirement within our Consent Decree) while coordinating with SDOT and community groups to deliver co-benefits such as sidewalks. The program also includes projects that are part of the SPU and Council created GSI in Urban Villages Program which will deliver multi-purpose green infrastructure projects in urban villages and urban centers through community partnerships and development synergies.

Long Term Control Plan

Project No:	MC-SU-C3604	BSL Code:	BC-SU-C360B
Project Type:	Ongoing	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This project supports the ongoing implementation of SPU's Combined Sewer Overflow (CSO) Reduction Long Term Control Plan (LTCP) in accordance with SPU's National Pollutant Discharge Elimination System (NPDES) permit and the Federal CSO Control Policy. On May 1, 2012, the Environmental Protection Agency/Department of Justice issued a draft Consent Decree to the City of Seattle which requires the development and submission of a Long-Term Control Plan for approval by May 30, 2015. It further stipulates that all CSO Control Measures are to be constructed as expeditiously as practicable, and in no event later than December 31, 2030. The Consent Decree also allows the City to propose storm water control project(s) as part of an Integrated Plan, in addition to the CSO Control Measures. The LTCP identified projects and programs to reduce the number and volume of CSOs, meet receiving water quality standards, and protect designated beneficial uses. The LTCP includes flow characterization, monitoring, and hydraulic modeling; development of CSO control alternatives; development of control alternatives that takes into consideration costs and performance; operational plan revisions; public participation; implementation schedule; and post-construction monitoring.

Pipe Renewal Program

Project No:	MC-SU-C3710	BSL Code:	BC-SU-C370B
Project Type:	Ongoing	BSL Name:	Rehabilitation
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

SPU operates and maintains approximately 1,423 miles of wastewater conveyance (combined and separated) pipe. The age of this infrastructure varies; however, significant portions of the system were constructed prior to 1950. This ongoing program repairs, replaces, rehabilitates and renews the conveyance system by SPU crews and various contracting construction projects.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides for improvements and upgrades to the 68 SPU-owned wastewater pump stations and force mains. Typical improvements may include, but are not limited to, replacement of existing pump station assets including pumps, motors, and valves, and installation of new assets such as SCADA systems, generators, and emergency plugs. This project enhances and extends the useful life of the existing pump stations which protects water quality.

Sanitary Sewer Overflow Capacity

Project No:	MC-SU-C3804	BSL Code:	BC-SU-C380B
Project Type:	Ongoing	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program is designed to improve sanitary sewer service to Seattle customers by addressing current and projected capacity limitations of the wastewater system through capital project improvements. Such improvements may include demand management measures such as infiltration and inflow (I/I) reduction, increased conveyance capacity, and individual customer measures such as installation of backflow preventers or grinder pumps to reduce the risk that customers will experience backups of sewage into their homes and businesses during storm events.

Sediment Remediation

Project No:	MC-SU-C3503	BSL Code:	BC-SU-C350B
Project Type:	Ongoing	BSL Name:	Sediments
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides for City of Seattle participation in cleanup of contaminated sediment sites at multiple locations across Seattle for which the City's drainage and wastewater utilities may have some liability. Typical phases of such projects include preliminary studies and analyses, preliminary engineering for actual cleanup efforts, and liability allocation negotiations. This program enhances the natural environment of Seattle and addresses both State and Federal regulatory agency requirements.

Ship Canal Water Quality Project

Project No:	MC-SU-C3614	BSL Code:	BC-SU-C360B
Project Type:	Discrete	BSL Name:	Combined Sewer Overflows
Project Category:	Improved Facility	Location:	West Ship Canal
Current Project Stage:	Stage 5 - Construction	Council District:	Multiple
Start/End Date:	2014 - 2027	Neighborhood District:	Multiple
Total Project Cost:	\$570,000	Urban Village:	Multiple

The City of Seattle (the City) has prepared a comprehensive strategy, called The Plan to Protect Seattle's Waterways (the Plan) to reduce overflows and discharge of pollutants from combined sewers and the storm drain system. The City must control sewer discharges to protect public health, the environment, to comply with the Clean Water Act, the United States District Court Consent Decree, and State regulations. On May 29, 2015, the City submitted the plan to EPA and Ecology for approval. The largest project identified in the Plan is the Ship Canal Water Quality Project. This project is a joint project between SPU and King County to design and construct a storage tunnel to capture Combined Sewer Overflows for 5 SPU outfalls and two King County outfalls. The tunnel will be 2.7 miles long and run from Wallingford to Ballard. The tunnel will be approximately 18 feet in diameter and have a storage volume of about 30 million gallons. The purpose of the project is to bring all seven outfalls into compliance with the State's control standard of one untreated overflow per year per outfall on a 20-year moving average. Note all City/County funding allocations are for informational purposes, only. Actual resource allocations will be determined through ongoing project governance agreements and interagency coordination between the City and King County.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

South Park Stormwater Program

Project No:	MC-SU-C3806	BSL Code:	BC-SU-C380B
Project Type:	Discrete	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	698 S Riverside DR
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2006 - 2025	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$134,876	Urban Village:	Greater Duwamish

This program constructs a pump station (PS), a water quality facility (WQF), and additional drainage conveyance in South Park. The PS will allow the existing storm drain outfall to drain the system when the tide is high and will support future drainage projects. The WQF will treat most stormwater flows from the basin, reducing pollutant loading to the Duwamish. Excessive flows will bypass the WQF and be pumped directly to the river. This program was formerly titled "South Park Pump Station."

Thornton Confluence Improvement

Project No:	MC-SU-C3811	BSL Code:	BC-SU-C380B
Project Type:	Discrete	BSL Name:	Flooding, Sewer Backup & Landslide
Project Category:	Improved Facility	Location:	Thornton Creek
Current Project Stage:	Stage 6 - Closeout	Council District:	Multiple
Start/End Date:	2008 - 2019	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$7,907	Urban Village:	Not in an Urban Village

This project provides creek realignment, floodplain excavation, culvert replacement, and riparian plantings at the confluence of the north and south branches of Thornton Creek. SPU has acquired a number of flood prone properties in this area over the last decade. Using these properties, this project increases culvert capacity, floodplain area and flood storage, and provides stream habitat benefits. The project will help alleviate flooding and reduce maintenance at Meadowbrook Pond.

Seattle Public Utilities

Solid Waste

Overview

Seattle Public Utilities (SPU) collects and disposes of solid waste generated within the City of Seattle. To fulfill this responsibility, the City owns and manages the following significant infrastructure:

- Two transfer stations;
- One recycling and re-use facility;
- Two household hazardous waste facilities;
- A fleet of trucks and heavy equipment; and
- Three closed landfills previously used by the City.

The Solid Waste Fund (SWF) Capital Improvement Plan (CIP) is the planning tool for rehabilitating, replacing, improving, and expanding infrastructure, as well as constructing projects that protect, conserve, and enhance our region's environmental resources. Planned spending in the SWF CIP is approximately \$85 million over the next six years, from 2022 through 2027.

Major anticipated projects include:

- Cleanup of the historic South Park Landfill (2023-2025) at the South Park Development Project.
- Minimum operational improvements prior to the full redevelopment of the old South Transfer Station campus (2023-2025).

These projects comprise approximately 62% of the SWF CIP. Other significant projects include the Waste Removal project at the Midway Landfill, replacing two compactors, major repair to the South transfer Station tipping floor, drainage improvements at both Transfer Stations, and SPU's annual equipment investment.

Thematic Priorities

The SWF places a high priority on managing environmental issues and addressing regulatory requirements related to current and historic solid waste facilities while protecting employees and customer health and safety and extending the useful life of the two transfer stations.

- Managing environmental issues and regulations: SPU is required to improve former landfill sites and act as necessary when conditions change. For example, underground gas levels at these sites are monitored. When increasing gas levels are detected, SPU implements improvements to extract the excess gas or otherwise mitigate the environmental impacts of the gas increase. Landfill projects are also triggered by Washington State Department of Transportation improvements to Interstate-5 that require modification to landfill infrastructure in the right-of-way and support of Sound Transit projects that impact the Midway Landfill. Additionally, the new transfer stations are designed to reduce the environmental impacts of the existing stations on neighboring communities.

Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans, program plans), external projects and opportunities, and emergencies or other unexpected events. Under SPU's Asset Management System, projects must be justified through a business case process that

2022-2027 Proposed Capital Improvement Program

establishes that a problem or opportunity is timely and important and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental, and social) of life-cycle benefits and costs. The process also recognizes that a project may be a “must do” project (e.g. required by regulations or Consent Decrees).

Prioritization of SPU projects are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which the project is driven by Federal, State, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the South Park Development project and Kent Highlands and Midway Landfills programs.
- **External Drivers:** SPU’s responsiveness to, or engagement with, the projects of other departments or jurisdictions, and the specific mandates of the City Council and Mayor. An example of a project in this category is the 1% for Arts program.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. An example of a highly ranked project in this category is the operational improvements at the South Transfer Station.
- **Level of Service:** The importance of this project in providing or improving services to customers. An example of a highly ranked project in this category is the replacement of two compactors at the transfer stations.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits that were not otherwise recognized, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, or outside funding.

Every project is rated against each criterion. Criteria are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each LOB, with reviews by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU General Manager/CEO and Asset Management Committee. Project priority rankings are used to clarify and document which projects are most important and why, to help determine which projects at the margin will be included, excluded or deferred from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

CIP Highlights

2022-2027 Proposed Solid Waste Fund CIP by BCL

(In '000s; total may not sum due to rounding)

BCL	2022	2023	2024	2025	2026	2027	Total
New Facilities	6,156	13,009	14,988	4,147	1,503	300	40,102
Rehabilitation & Heavy Eqpt	2,450	550	1,850	350	250	200	5,650
Shared Cost Projects	4,561	2,550	2,517	795	823	338	11,584
Technology	1,508	1,508	1,508	1,507	1,508	1,508	9,045
Total	14,675	17,616	20,862	6,800	4,084	2,345	66,381

New Facilities: This program includes the planning, design, and construction of new facilities to enhance solid waste operations. In 2022, SPU will continue to implement its Solid Waste Facilities Master Plan. The key project drivers of the New Facilities budget are the South Park Development (landfill cleanup) and the South Transfer Station operational improvements projects.

Rehabilitation and Heavy Equipment: This program includes design and construction of projects that repair and/or upgrade solid waste facilities other than the transfer stations. In 2022, the key drivers of this budget level are the Midway projects and new funding for the Solid Waste Plan Update as required by the Washington State Department of Ecology.

Shared Cost Projects: This program includes individual capital improvement projects that typically benefit multiple Lines of Business (LOB) (e.g., the Water LOB and the Drainage and Wastewater LOB) and which costs are "shared," or paid for by more than one of SPU's utility funds. For 2022, the key driver for this budget includes heavy equipment purchases, which reflects the best estimate of the required fleet of trucks and heavy equipment for the transfer stations.

Technology: The Technology CIP is managed in six program areas that provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing;
- Enterprise Information Management;
- IT Infrastructure;
- Project Delivery & Performance;
- Science & System Performance; and
- Asset Information Management.

Investments in 2022 address several of SPU's key initiatives, including:

- Financial Management and Internal Controls;
- Operational Excellence and Performance Management;
- Easy and Engaged Customer Experience;
- Data-driven Decision Support; and
- Project Delivery/Project Controls.

2022-2027 Proposed Capital Improvement Program

In 2022, SPU will continue focusing its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, Project Delivery and Performance Program, as well as the Asset Information Management Program.

With the new Customer Information System (CIS) already in place, the next major projects for SPU within the Customer Contact and Billing Program include the Utilities Customer Self-Service Portal project, the Customer Contact and Billing Upgrade, CIS Workflow, and the CIS Reporting. Other projects slated would be enhancements to SPU's Enterprise Project Management System and the Development Systems Integration Project, and the Maximo Business Intelligence upgrade, along with other projects that have been deferred in previous years.

CIP Revenue Sources

Much of the SWF CIP is funded through bond proceeds and current cash contributions, the mix of which is determined by SWF financial policies, the overall financial health of the SWF, and the best value and equity to ratepayers. SPU last issued debt in 2014, 2015, and 2016, and refunded 2011 bond debt in 2021. SPU is not planning any SWF bond issuances and will use current cash contributions and existing cash on hand to pay for the CIP. Cash contributions to construction and repayment of debt come from rate-based charges to customers whose solid waste services are handled by the City's solid waste infrastructure and programs.

SPU also actively seeks grants, low-interest loans, and other funding sources whenever possible and prudent. The Solid Waste Utility is currently in the middle of a capital-intensive historic landfill remediation process and operational improvements at the old South Transfer Station. These projects are the primary drivers of CIP spending and have required rate increases for financing.

Summary of Upcoming Budget Issues and Challenges

Solid Waste faces logistical and financial issues as it reconstructs its primary facilities and addresses site cleanup efforts.

- Logistics: SWF is focusing on remediating the South Park Landfill and must continue to use the site for trailer parking and household hazardous waste collection during construction.
- Financial Challenges: Operational improvements at the old South Transfer Station along with site remediation efforts puts considerable short-term financial strain on the SWF. While the SWF is funding and building these major projects, it is working to address environmental stewardship by encouraging waste reduction and recycling, which results in declining demand for disposal services.

Future Projects/What is on the Horizon

Once the South Park Landfill cleanup work and South Transfer Station operational improvements are completed, SPU will begin a thorough planning process to guide the future redevelopment of the South Transfer Station campus. The planning will take broader City needs into consideration before selecting a redevelopment scenario. Spending for the future development will be better defined over the next 3-5 years.

2022-2027 Proposed Capital Improvement Program

Kent Highlands

Project No:	MC-SU-C2402	BSL Code:	BC-SU-C240B
Project Type:	Ongoing	BSL Name:	Rehabilitation & Heavy Equipment
Project Category:	Improved Facility	Location:	Kent Highlands
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program funds compliance activities related to the Kent Highlands landfill closure project. These activities include environmental studies to demonstrate the effectiveness of the Kent Highlands landfill closure project, as well as various landfill improvements. The environmental studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The landfill improvements include replacement of existing flares, drainage improvements, groundwater protection, water treatment and mitigating earthquake risks associated with steep slopes.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Midway Landfill

Project No:	MC-SU-C2403	BSL Code:	BC-SU-C240B
Project Type:	Ongoing	BSL Name:	Rehabilitation & Heavy Equipment
Project Category:	Improved Facility	Location:	Kent
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program funds compliance activities related to the Midway landfill closure project. These activities include environmental studies to demonstrate the effectiveness of the Midway landfill closure project. The studies are required under the existing Consent Decree with the State Department of Ecology and validate that current environmental controls are effective and reduce the likelihood of additional capital or O&M expenditures. The flare improvements are also a regulatory requirement. To ensure that SPU maintains regulatory compliance, a smaller flare or new technology will be required. The current telemetry used to monitor the environmental control systems at the Kent Highlands Landfill and the Midway Landfill, both Superfund sites, are nearly obsolete and the equipment is no longer supported. In addition, the current system only transmits alarm conditions and does not have any data acquisition functionality. This program funds a replacement system that will allow remote data acquisition as well as alarm functionality. The largest effort under this program is the Midway landfill improvement project that funds removal of waste in the WSDOT Right of Way to allow construction of two additional lanes on I-5 and the Sound Transit Federal Way Link project. This is a joint project involving Sound Transit, WSDOT and SPU it is regulated by the Department of Ecology under a Consent Decree Amendment.

Miscellaneous Station Improvement

Project No:	MC-SU-C2303	BSL Code:	BC-SU-C230B
Project Type:	Ongoing	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides modifications, upgrades, and wear replacement for the two new City Transfer Stations. The new facilities will require periodic capital upgrades and replacement to extend the useful life of these assets. Examples of this work include replacement of the wear surface on the STS tipping floor, replacement of the large refuse compactors and replacement of HVAC/Life Safety components.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

O&M Impacts: This is an ongoing program and any O&M needed as a result of this program is included in SPU's Operating Budget.

North Transfer Station Rebuild

Project No:	MC-SU-C2306	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	N. 34th St.
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 4
Start/End Date:		Neighborhood District:	Lake Union
Total Project Cost:	\$111,015	Urban Village:	Not in an Urban Village

The project constructs a new North Recycling and Disposal Station to replace the existing, aging facility. The new facility will meet customer and employee needs, regulatory requirements, and waste management goals for at least the next 50 years. Safety, operational, and capacity concerns at the existing transfer station necessitate building a new facility. The new facility will benefit the public by providing reliable transfer of solid waste from the City and preventing the accumulation of waste and unsanitary conditions within the City.

South Park Development

Project No:	MC-SU-C2304	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	8100 2nd Ave S
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2007 - 2026	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$22,377	Urban Village:	Greater Duwamish

This project studies, plans, designs and constructs remediation of the historic South Park Landfill site to minimize environmental impacts. SPU owns a portion of the site on which the landfill once operated, and was a historic operator of the landfill at one time. This project will meet the requirements of a Consent Decree with the Washington Department of Ecology for remediation of the historic South Park Landfill. This project is tied to the STS 2 project and some redesign of remedial elements will be required and construction has been delayed three years to 2023.

Resources	LTD Actuals	2021 Revised	2022	2023	2024	2025	2026	2027	Total

South Recycling Center

Project No:	MC-SU-C2302	BSL Code:	BC-SU-C230B
Project Type:	Discrete	BSL Name:	New Facilities
Project Category:	Improved Facility	Location:	8100 2nd AVE S
Current Project Stage:	Stage 3 - Design	Council District:	Council District 1
Start/End Date:	2006 - 2025	Neighborhood District:	Greater Duwamish
Total Project Cost:	\$43,202	Urban Village:	Greater Duwamish

SPU postponed South Transfer Station phase construction and a smaller project is proceeding to complete cleanup work at the old South Park Landfill. SPU decided to postpone development plans (including the construction of the recycling facility) to allow a more holistic evaluation of future needs and job opportunities that best support our zero-waste vision. A recycling facility may still be included in the future plans, but partial development of the site at this time could severely limit what we can do in the future. The scope of the project has been reduced to only include the remediation of the South Park Landfill (required under a Consent Decree), minimal operational improvements, and a path along 5th Avenue to mitigate the street vacation at the new South Transfer Station. The reduced STS2 project will be designed during 2021-2022 and constructed in 2023.

Future site development plans will happen over the next 5 years in a parallel process.

Seattle Public Utilities

Water

Overview

SPU delivers an average of approximately 124 million gallons of drinking water per day to 1.5 million people and businesses in Seattle and 21 suburban water districts and municipalities, plus the Cascade Water Alliance. The water system infrastructure includes:

- The Cedar and South Fork Tolt supply sources (dams, reservoirs, etc.);
- Three groundwater wells;
- Two primary water treatment plants;
- 11 booster chlorination facilities;
- 325 million gallons of treated water storage;
- 30 pump stations;
- 1,823 miles of transmission and distribution system pipelines;
- Almost 200,000 meters and service connections;
- More than 17,000 distribution system valves;
- About 19,000 hydrants;
- Monitoring and control systems; and,
- Various buildings and other related facilities.

In addition to replacing and improving the supply, treatment, transmission and distribution systems, the capital program includes investments in watershed stewardship projects, Cedar River Watershed Habitat Conservation Plan implementation, water conservation programs, vehicles, heavy equipment, and technology.

Planned spending in the Water Capital Improvement Program (CIP) is \$757 million over the next six years. Major projects include:

- Water system improvements associated with transportation projects, including Move Seattle; Madison Street Bus Rapid Transit; East Marginal Way Heavy Haul Corridor; Roosevelt Eastlake Rapid Ride;
- Operational and Regional Facility construction;
- Replacement of the Bitter Lake and Lake Forest Park Reservoirs covers;
- Seismic upgrades of the Eastside and Riverton Reservoirs, Magnolia Tank, and the Cedar River Transmission Pipeline near Renton;
- Pump station improvements at Spokane Pump Station;
- Addressing a slide area through which the Tolt Pipelines pass, upstream of the Tolt Treatment Plant.

The 2022-2027 Proposed CIP also includes many ongoing programs, such as improving the distribution and transmission system water mains, valves, steel storage tanks, and pump stations; watershed stewardship and conservation projects and programs; and facilities, vehicles, and heavy equipment investments. In addition, it includes continued funding for the water system seismic improvement program and funding for dam safety studies and upgrade projects.

SPU funds Water capital projects through a combination of cash and the issuance of bonds. The primary source of cash and debt repayment funds come from sale of water charged to retail and wholesale customers in the region. SPU's approved 2019 Water System Plan, a Washington Department of Health (WDOH) regulatory requirement, describes how SPU meets current and future water demands, ensures

2022-2027 Proposed Capital Improvement Program

high quality drinking water, and invests in and maintains its water system at the lowest life-cycle cost for the next 20 years.

Thematic Priorities

The overarching goal of the Water CIP is to ensure that the water system is properly maintained, upgraded, and expanded to reliably deliver high-quality, safe drinking water to customers, protect the environment, and comply with regulations. The primary themes driving the CIP in the next six years are asset preservation, health and human safety, environmental sustainability, and race and social justice.

- SPU is committed to making **asset preservation** investments to create or enhance operational efficiency. SPU uses asset management principles to determine the timing of rehabilitation or replacement of its infrastructure. Projects that fall into this category vary, ranging from water main replacement related to transportation projects to rehabilitation of steel storage facilities.
- SPU’s commitment to **health and human safety** is also addressed through SPU’s reservoir covering projects. Consistent with Ordinance 120899 and required by state regulators, SPU has finished replacing its open finished drinking water reservoirs with underground structures that will improve water quality and system security. Additionally, SPU will begin constructing new covers on the Lake Forest Park and Bitter Lake reservoirs to replace the existing floating covers that will have reached the end of their useful life. Finally, as a result of a recently completed seismic study, two reservoirs will remain uncovered – Roosevelt and Volunteer – and are disconnected from the drinking water system, filled with treated water and available for emergency storage needs after major emergencies such as earthquakes.
- SPU is committed to **environmental sustainability**. This can best be seen in SPU’s responsibilities as outlined in the 50-year Habitat Conservation Plan (HCP), an agreement between local, state and federal agencies. The HCP seeks to ensure the long-term ecological integrity of the Cedar River Watershed, which supplies the majority of the City’s drinking water. It simultaneously addresses the needs of protected wildlife species in and along the Cedar River. Investments in the regional conservation and low-income conservation programs also help in management of our natural resources, while helping customers reduce their utility bills.
- SPU is also committed to **race and social justice**. One example of this commitment is the Low-Income Water Conservation Program. This ongoing program provides water use efficiency resources to the City’s low-income customers to implement water conservation measures. Typical improvements consist of installing water-efficient fixtures, primarily low water use toilets, but also faucet aerators and common-area efficient clothes washers.

Project Selection Criteria

SPU identifies candidate capital projects from several sources – planning (e.g., comprehensive plans, program plans), external projects and opportunities, and emergencies or other unexpected events. Under SPU’s Asset Management system, projects must be justified through a business case process that

establishes that a problem or opportunity is timely and important, and that the proposed solution is superior to alternatives based on a triple bottom line analysis (economic, environmental and social) of life cycle costs and benefits. The process also recognizes that a project may be a “must do” project (e.g., required by regulation).

SPU prioritizes its capital projects into three categories – Priorities 1, 2 and 3, with 1 being the most important and critical. Some projects are part of an externally driven project. Typically, SPU lacks control over the timing of externally driven projects.

Priority rankings are based on the following set of criteria:

- **Regulatory Mandates, Legal Agreements:** The degree to which a project is driven by federal, state, and local laws, permit and regulatory requirements, and consent decrees; as well as by legal agreements with public and private parties. Examples of highly ranked projects in this category include the dam safety upgrades and the Habitat Conservation Program.
- **External Drivers:** SPU’s responsiveness to, or engagement with, projects of other Departments or Jurisdictions, and the specific mandates of the City Council and Mayor. Examples of highly ranked projects in this category include SR 520 Rest of the West phase and the Bitter Lake Reservoir improvement project.
- **Infrastructure:** How a project addresses infrastructure conditions or vulnerabilities. Examples of highly ranked projects in this category include watermain Rehabilitation, seismic upgrades and Tank Improvements programs.
- **Level of Service:** The importance of a project in providing or improving services to customers. Examples of highly ranked projects in this category include the Water Infrastructure – New Taps and Service Renewals programs.
- **Other Factors:** Other important factors include high net present value or cost-effectiveness, social or environmental benefits not otherwise captured, a project already in progress or near completion, limited time opportunity, demonstration projects, community visibility, outside funding.

Every project is rated against each criterion. Criteria ratings are then considered in determining an overall project priority ranking, using expert judgment (rather than a formula). Priority rankings for the CIP are determined by the leads for each Line of Business (LOB), with review by key internal stakeholders. The ranking scheme and criteria are the same for all LOBs and are approved by the SPU GM/CEO and Asset Management Committee. Project priority rankings are used to clarify and document which projects are most important (and why), to help determine which projects at the margin will be included or excluded (or deferred) from the CIP, and which projects should receive priority attention if a staff or financial resource constraint should arise.

In addition to SPU’s internal review process described above, most of SPU’s wholesale customers participate in an Operating Board, and through that Board, conduct an annual review of a subset of SPU’s CIP projects, particularly those involving regional assets and impacting wholesale rates.

CIP Spending by Major Category

(In '000s; total may not sum due to rounding)

Water Fund	2022	2023	2024	2025	2026	2027	Total
Distribution	35,688	44,375	50,675	51,248	59,406	70,448	311,840
Transmission	16,514	12,604	17,623	22,368	9,407	7,639	90,430

Technology	4,244	4,244	4,244	4,243	4,244	4,244	25,439
Grand Total	95,966	103,745	132,529	166,205	139,958	139,246	756,850

Distribution: Projects and programs in this category relate to rehabilitation and improvements to the City's water mains and appurtenances, water storage tanks, pump stations, and other facilities that are part of the system that distributes treated water throughout the City of Seattle and to retail customers outside of the City.

Decreases in the **Distribution BCL** in 2022 are primarily due to shifting seismic improvements and pump station improvements to later years in the 6-year CIP. These decreases are offset by increased investments in water main extension projects at multiple worksites across Seattle's retail area. In 2022 to 2027, the budget increases to rehabilitate and replace water mains because more of this large asset class is reaching the end of its service life.

Transmission: The purpose of this program category is to rehabilitate and improve the City's large transmission pipelines that bring untreated water to the treatment facilities and convey treated water from the treatment facilities to Seattle and to our wholesale customers that purchase a portion of SPU's supply for their retail customers.

Increases in the **Transmission BCL** in 2022 are primarily due to construction of an approximately 2550-foot-long section of rehabilitated raw water pipeline to re-establish functionality and dependability of this raw water transmission supply line through an area of historic slope instability and seismic vulnerability,

2022-2027 Proposed Capital Improvement Program

and scope changes for 430 Pipeline Improvement project that includes more pipeline length and mortar repairs after pipeline inspection.

Watershed Stewardship: Projects and programs in this category improve protection of our sources of drinking water, provide habitat protection and restoration, sustain the environment, and enhance environmental quality, both locally and regionally. Most of the projects in this program category are located within the Cedar and Tolt River municipal watersheds.

- The Cedar River Municipal Watershed is 90,638 acres of land owned by the City of Seattle and provides about 65% of the drinking water used by 1.5 million people in the greater Seattle area supplied by SPU. The City of Seattle is required by law to maintain a clean drinking water supply. To that end, the City restricts public access and management is guided by a Habitat Conservation Plan. The Cedar River Watershed is an unfiltered surface water supply which produces some of the best water in the world.
- The South Fork Tolt River Watershed is the second supply watershed in SPU’s freshwater supply system, providing roughly 35% of SPU’s drinking water supply. Located in the foothills of the Cascades in east King County, it first came on-line in 1964, and since 1989 has also supported a small Seattle City Light hydro-electric facility. The Tolt Treatment Facilities, which includes filtration, can provide up to 120 million gallons of drinking water per day.

Increases in the **Watershed Stewardship BCL** in 2022 are due largely to the S. Fork Tolt River Watershed, which is required to satisfy State regulatory requirements. In addition to providing fish passage, this program will reduce the potential for excessive sedimentation, catastrophic infrastructure (i.e. forest road) failure, and impacts to drinking water quality. The increase of \$425K in 2027 is for anticipated bridge replacement project and road work.

Water Quality and Treatment: The purpose of this program category is to construct, rehabilitate or improve water treatment facilities, and cover the remaining open water reservoirs. State and federal drinking water regulations and public health protection are key drivers of investments in this program category. To comply with regulations, SPU has invested hundreds of millions of dollars in building two new primary treatment facilities and covering two and burying five reservoirs that contain treated water that is distributed directly to Seattle retail and wholesale customers for drinking purposes.

The shift in the **Water Quality & Treatment BCL** in 2022-2024 to 2025-2027 is due to an updated cashflow projection for the Lake Forest Park Reservoir Covering Project and Bitter Lake Reservoir Covering Project. The plan is for another floating cover at Lake Forest Park instead of the aluminum roof previously considered. Construction of the Lake Forest Park Reservoir replacement cover began in 2021 and will be completed in 2022. The Bitter Lake Reservoir improvement is anticipated to start towards the end of 2023.

Water Resources: The purpose of this program category is to manage our water resources to meet anticipated demands and in-stream flow requirements – the amount of water provided to the river to support aquatic habitat, wetlands, riparian vegetation, and water quality – and to promote residential and commercial water conservation. The requirements for in-stream flows are detailed in agreements with state and federal agencies and include provisions for minimum stream flows in the Cedar and South Fork Tolt Rivers. Examples of the types of programs/projects in this category include the Dam Safety Program and Sockeye Broodstock Weir and other improvements associated with the hatchery and fish ladder.

Decreases in the **Water Resources BCL** in 2022 are due to the Broodstock Collection Facility Retrofit being delayed. The increase in 2023-27 are due to dam safety projects such as the Tolt Early Warning System Upgrade and Tolt Debris Boom, which are both to comply with Federal Energy Regulatory Commission (FERC) requirements. The \$25M increase in 2025 and 2026 are a result of projects under development in the Dam Safety program, one of which is also a FERC requirement.

Habitat Conservation Program: This program category includes projects and programs directly related to implementation of the Cedar River Watershed Habitat Conservation Plan. The Habitat Conservation Plan benefits the utility and the ratepayers it serves by providing legal certainty under the Endangered Species Act for the City's continued operations within the Cedar River Watershed, which supplies 65% of the SPU's drinking water. The Habitat Conservation Program requires SPU to invest \$100 million over 50 years, with \$60 million in the first decade, on approximately 30 capital projects and 60 O&M activities in three areas: management of in-stream flows for people and fish, forest and land conservation activities, and mitigation for the blockage of salmon and steelhead fish as they return to the Cedar River to spawn. The Water Fund's CIP projects in this area are grouped into eight categories: road improvements and decommissioning, stream and riparian restoration, upland forest restoration, Landsburg fish passage, Cedar River sockeye hatchery, improvements to the Ballard Locks for fish passage and water conservation, fish habitat protection and restoration in the lower Cedar River below the municipal watershed boundary, and evaluation of Cedar permanent dead storage in Chester Morse Lake.

Increases in the **Habitat Conservation Program BCL** in 2022 are due to the Downstream Fish Habitat program. These funds will be expended on land acquisition and restoration to improve salmon habitat as part of the Cedar River HCP commitments. All expenditures except for those offset by grant revenue are HCP mitigation requirements.

Shared Cost Projects: This program includes individual capital improvement projects which typically benefit multiple lines of business (e.g., the water line of business and the drainage and wastewater line of business) and whose costs are "shared," or paid for, by more than one of SPU's utility funds. For the next six years, the Shared Cost program includes funding for several interdepartmental programs and projects including Move Seattle, SR520 Rest of the West and the Roosevelt Eastlake Rapid Ride. Funding is also included for SPU's Heavy Equipment Purchases and several smaller projects.

Decrease in the **Shared Cost Projects BCL** in 2022 is primarily due to delays in the Center City Streetcar. Projects in the Move Seattle Levy, heavy equipment purchases and other facility construction projects such as retrofits/upgrades to older operational buildings are continued in the out-years.

Technology: The Technology capital portfolio is managed in six program areas, which provide a department-wide view of technology investments to address SPU's strategic, business, and City-wide priorities. These areas are:

- Customer Contact and Billing
- Enterprise Information Management
- IT Infrastructure
- Project Delivery & Performance
- Science & System Performance
- Asset Information Management

Investments in 2022 address several of SPU’s key initiatives, including:

- Financial Management and Internal Controls
- Operational Excellence and Performance Management
- An Easy and Engaged Customer Experience
- Data-driven Decision Support
- Project Delivery/Project Controls

In 2022, SPU will focus its technology spending on the highest priority business needs. These projects would primarily be within the Customer Contact and Billing Program, Project Delivery and Performance Program, as well as the Asset Information Management Program.

With the New Customer Information System already in place, the next major projects for SPU within the Customer Contact and Billing Program would be the Utilities CSS Portal project as well as other projects such as CIS Workflow and the CIS Reporting. Other projects slated would be enhancements to SPU’s Enterprise Project Management System (EPMS) as well as the Development Systems Integration project, along with other projects that have been deferred in previous years

CIP Revenue Sources

SPU’s Water CIP is funded largely by Water ratepayers. About 75% of the Water Fund’s Operating revenues come from retail ratepayers, split approximately evenly between residential and commercial customers. Another 20% of the Water Fund’s overall revenues come from wholesale purveyors who serve surrounding jurisdictions. The remaining 5% consists of non-rate revenue, which include such items as tap fees received. SPU issues bonds, serviced by ratepayers, which in the current period covers 70% of the CIP, with the remainder funded by cash, i.e.: directly by ratepayer revenue.

SPU actively seeks grants, low interest loans, and other funding sources whenever possible. And, as mentioned above, SPU also receives payments from developers that are intended to offset the cost of installing new taps when they connect newly constructed buildings to SPU watermain. These “tap fees” are a volatile revenue source, trending with the construction-related sectors of the economy.

Summary of Upcoming Budget Issues and Challenges

These important issues create financial challenges and opportunities for the Water Fund in the future.

Water Conservation: The City of Seattle, Seattle residents and businesses, and Seattle’s wholesale water partners have worked together to reduce water consumption. As a result, consumption has declined since the 1980’s and is projected to flatten out. In 2018, consumption was 30% below the peak of 1984, despite serving a larger population. Seattle currently has some of the lowest per capita water consumption in the nation. While this accomplishment helps contribute to a sustainable future for the region, it puts financial pressure on the utility because fixed costs, including the costs of the CIP, need to be distributed across fewer units of water sold. This trend also puts pressure on SPU management and employees to deliver services as efficiently as possible. In the future, it may also influence water rate design.

Transitioning from Major Projects toward Asset Management: The Water Fund continues its transition from a period of building large capital projects to a time of physical infrastructure rehabilitation including

2022-2027 Proposed Capital Improvement Program

those driven by dam safety regulations and seismic upgrades. Past investments include water treatment facilities for the Tolt and Cedar water supplies, coverings for seven open reservoirs in response to federal/state regulations, construction of a second pipeline for the Tolt system, and investments to meet federal requirements embodied in the Cedar River Watershed Habitat Conservation Plan. These investments helped secure the supply and distribution of high-quality drinking water and provide appropriate stewardship of the watersheds consistent with federal and state requirements.

The City of Seattle is now better positioned than many water utilities in the nation in terms of regulatory compliance. Residents, businesses and rate payers will benefit from these investments for years to come. Although the focus will shift from major projects to physical infrastructure rehabilitation, the utility will be paying debt service over the next several budget cycles on the bonds that were issued for these major projects. Against the backdrop of these trends, the 2022-2027 Water CIP has been developed to:

- Provide for water system modifications associated with various Seattle and regional transportation projects;
- Recognize the need to look harder at the water system’s resiliency in a major earthquake event and begin to make strategic investments to reduce risk;
- Preserve the transmission and distribution systems through careful investment in aging infrastructure renewal;
- Provide stewardship of the watersheds, to ensure a reliable source of high-quality drinking water;
- Comply with federal and state regulations governing water quality, system reliability, and habitat protection in the watersheds in which SPU operates; and
- Prioritize projects to deliver on infrastructure and regulatory requirements within the limited resources of the Water Fund.

Future Projects/What is on the Horizon

The Water CIP has completed a multi-decade period of investments in major infrastructure projects. These projects have positioned SPU to meet drinking water quality and environmental regulations. Projects have included the Tolt and Cedar Water Treatment Facilities, Tolt Pipeline 2, Reservoir Covering Program, the Cedar River Watershed HCP, and a new Water Quality Laboratory. SPU has also made a major reinvestment in the Supervisory Control and Data Acquisition System which is used to monitor and control the regional and retail water system. However, these investments have also led to increasing debt service payments that constrain future budgets.

The 6-year CIP funds the work to replace covers at the Lake Forest Park and Bitter Lake reservoirs, address the Tolt Pipelines slide area, and construct Operational and Regional Facilities. Beyond these projects, emphasis will be on asset management-based rehabilitation and replacement of distribution system infrastructure (e.g., mains, valves, hydrants, meters), as well as water system infrastructure improvements related to transportation projects, such as the Move Seattle Levy.

Additionally, SPU recognizes the need to look harder at the water system’s resiliency in a major earthquake event and begin to make strategic investments to reduce risk. SPU completed a seismic analysis in 2018 that defined recovery time to agreed levels of service and developed a prioritized list of recommended investments to improve resiliency. Initial funding to begin implementation of those improvements is included in this capital program (Eastside and Riverton Reservoirs, Magnolia Tank, and the Cedar River Transmission Pipeline near Renton) while others will be developed over the course of the

next several decades. Likewise, initial funding to plan and begin implementation of Dam Safety programs, including those tied to regulatory requirements and seismic risk, are included in this capital program.

Ballard Locks Improvements

Project No:	MC-SU-C1606	BSL Code:	BC-SU-C160B
Project Type:	Discrete	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	NW 54th St 30th Ave NW
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 6
Start/End Date:	2000 - 2025	Neighborhood District:	Ballard
Total Project Cost:	\$1,302	Urban Village:	Ballard-Interbay Northend

This project provides improvements at the Ballard Locks to upgrade conditions for salmon. Improvements are focused on conserving the amount of freshwater needed to operate the locks to reduce the demand for freshwater from the Cedar River and increase the availability of freshwater for salmon. This project is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Cedar Bridges

Project No:	MC-SU-C1307	BSL Code:	BC-SU-C130B
Project Type:	Ongoing	BSL Name:	Watershed Stewardship
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. This project improves aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this program area also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, and Washington Department of Health (DOH) Watershed Protection Plan regulations.

Dam Safety

Project No:	MC-SU-C1506	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program maintains the safety of SPU's water supply dams in the Cedar River and South Fork Tolt River Municipal Watersheds and the in-town reservoir dams. Typical improvements may include, but are not limited to, upgrades to the dams' failure warning systems, spillways, outlet works, piping, and other civil, mechanical, and structural systems. This program ensures the continuing safe functioning, operation and monitoring of SPU's water supply dams and associated facilities per Federal Energy Regulatory Commission (FERC), state and local regulations, and SPU requirements to prevent loss of life and/or property damage and loss of SPU's ability to deliver reliable drinking water supply to its customers.

Distribution Infrastructure

Project No:	MC-SU-C1138	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides funding for modifications and relocations of existing Distribution System assets resulting from third party project impacts to Distribution System infrastructure located in the right-of-way or on public property. The costs are recovered from third parties and primarily other public utilities and agencies through Memorandums of Agreement and standard charges. This program covers all Distribution System modifications and relocations that are funded by third parties excluding Water main Extension project projects. The benefit of this project is accommodation of third party development by relocating or modifying existing Distribution System infrastructure, while retaining a Distribution System that continues to provide cost effective service to the ratepayer.

Distribution System Improvements

Project No:	MC-SU-C1128	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program improves service reliability, pressure, capacity, and fire flow in the City's water distribution system. Typical improvements may include, but are not limited to, booster pump station installation, creation of new service zones, and tank elevation or replacement, as well as additional water main pipelines and pressure reducing valves. These improvements to service levels meet Washington Department of Health (DOH) regulations and SPU's Distribution System Pressure Policy to provide greater than 20 psi service pressure. These improvements provide higher flow of water for fire protection which improves public safety and results in smaller and shorter fires.

Distribution System In-Line Gate Valve

Project No:	MC-SU-C1136	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program replaces line valves in the water distribution system throughout the City of Seattle that fail or are obsolete due to age or lack of replacement parts. The replacement of these gate valves extends the useful life of the water main and restores the performance of the water distribution system. This ongoing program also adds valves within the system to enhance system performance, enhance operational control, and reduce the number of customers whose service is interrupted during a water main shut down.

Distribution System Seismic Improvements

Project No:	MC-SU-C1139	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program upgrade critical distribution facilities that are seismically vulnerable and will remain functional after a major earthquake. Facilities that will be upgraded include water storage reservoirs and tanks, pump stations, pipelines and support facilities. The upgrades are scheduled to occur over a 50-year plus time frame.

Downstream Fish Habitat

Project No:	MC-SU-C1607	BSL Code:	BC-SU-C160B
Project Type:	Discrete	BSL Name:	Habitat Conservation Program
Project Category:	Improved Facility	Location:	Cedar River Watershed
Current Project Stage:	Stage 5 - Construction	Council District:	Outside City of Seattle
Start/End Date:	2008 - 2024	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$17,456	Urban Village:	Not in an Urban Village

This project provides protection and restoration of fish habitat along the lower Cedar River, below the City's municipal watershed boundary at the Landsburg Dam and includes both acquisition of habitat lands and habitat restoration on the main stem of the Cedar River. This project is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program provides research and monitoring to examine the effects of instream flows on salmon species in the Cedar River. This ongoing program monitors flow compliance, verifies accretion flows downstream of Landsburg, improves flow-switching criteria, and develops a better understanding of relationships between stream flow and aquatic habitat. This ongoing program is a requirement of the Cedar River Habitat Conservation Plan (HCP).

Regional Water Conservation

Project No:	MC-SU-C1504	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	Improved Facility	Location:	Citywide and Regional
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides customer incentives for residential, commercial, institutional, and industrial water efficiency capital improvements. Typical examples include, but are not limited to, water efficient toilets and urinals, clothes washers, landscape irrigation devices, upgrades in industrial process water, and replacing water-cooled equipment with air-cooled versions. The program benefits both existing and future ratepayers. Water conservation provides low-cost options for meeting potential challenges from climate change, managing Seattle's drinking water resources, and customer efficiency and potential cost savings on water bills.

Tank Improvements

Project No:	MC-SU-C1134	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Improved Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program implements water quality, seismic, and other improvements to steel water tanks in Seattle. Functional water tanks are essential to public health protection as they assure that the distribution system is under pressure at all times, even when pump stations or control valves malfunction. Depressurization of the water system may result in siphoning back contaminants from faulty private systems and from the ground into the water pipes.

Total Project Cost:	\$1	Urban Village:	Not in an Urban Village

This project replaces aging bridges and related structures, such as abutments, asphalt approaches, and guardrails in the Cedar River Watershed. This project improves aging bridge assets on priority roads in the watershed transportation system to provide City employees, City contractors, and visitors with safe and adequate access to City water supply and hydroelectric assets while minimizing and reducing environmental impacts over time. Work in this project also maintains compliance with state laws, safety and environmental regulations, and tribal access agreements including Washington Department of Natural Resources (WDNR) forest practice regulations, and Washington Department of Health (DOH) Watershed Protection Plan regulations.

Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing program rehabilitates and upgrades water pipes and associated structures in the City of Seattle's transmission system. It assists SPU in providing agreed-upon pressure and flow for wholesale customers, limiting drinking water supply outages, and meeting applicable regulatory requirements of the Washington Department of Health.

Water Infrastructure-Hydrant Replace/Relocate

Project No:	MC-SU-C1110	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	Rehabilitation or Restoration	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program renews or replaces existing hydrants in the City's water distribution system. In general, hydrant renewal or replacement may occur as a result of hydrant malfunction, catastrophic failure due to vehicle damage, or to meet SPU criticality criteria such as spacing, location, cost, opportunity projects, or flow and pressure problems. This program improves access to fire hydrants for the Seattle Fire Department (SFD) and helps to reduce the damage as a result of fire by locating fire hydrants in alternate or additional locations.

Water Infrastructure-New Hydrants

Project No:	MC-SU-C1112	BSL Code:	BC-SU-C110B
Project Type:	Ongoing	BSL Name:	Distribution
Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program installs new hydrants in the City's water distribution system. In general, new hydrants are installed to meet service requests made by private property owners and to comply with Washington Administrative Code (WAC) or Seattle Fire Department (SFD) requirements. This program also helps to reduce the damage as a result of fire by locating new fire hydrants throughout the City's direct service area.

Project Category:	New Facility	Location:	Citywide
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program installs new drinking water services throughout the City of Seattle. This project provides new connections to existing water mains with no interruption of service to adjacent existing customers, and the installation of metered water service lines from the new tap to the new customer's property lines. This program meets City responsibility for new service connections in the Seattle Municipal Code (SMC) to provide reliable drinking water supply to customers.

This ongoing program replaces existing plastic or galvanized water services in the City's water distribution system. Service replacement may occur as a result of leaking, failing, or to reduce damage in case of failure of the water service. This program improves Seattle's water system and extends the life of the water distribution system.

Water Supply Flexibility Program

Project No:	MC-SU-C1507	BSL Code:	BC-SU-C150B
Project Type:	Ongoing	BSL Name:	Water Resources
Project Category:	New Investment	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This program improves water system performance, reliability, and flexibility during severe weather events, supply and infrastructure emergencies, as well as enhancing environmental performance for fish and supporting regulatory and policy compliance in these areas. Project improvements include Tolt Reservoir Temperature and the Overflow Dike in Chester Morse Lake, and may include but are not limited to, dam integrity and alternatives to improved crest control, reservoir water temperature, and water quality management. In addition, the S. Fork Tolt Dam is up for relicensing under the Federal Energy Regulatory Commission (FERC), which expires July 19, 2029. The relicensing process will take 5-7 years depending on the relicensing approach taken with Seattle City Light and FERC. Seattle City Light is the Tolt Dam license holder and will lead the relicensing effort but significant support from SPU is anticipated. Both utilities (SPU/SCL) are establishing CIP numbers budgeted for the relicensing process.

This ongoing program replaces or rehabilitates existing water mains in Seattle. Replacements occur when leaks and breaks become too frequent and the cost of ongoing repairs is no longer cost effective. The benefits of this program can include improved service reliability, fire flow, water quality and lower maintenance costs. These benefits vary depending on the specific water main and site conditions.

Seattle Public Utilities

Shared & Technology Projects

1% for Arts

Project No:	MC-SU-C4118	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	New Investment	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project provides funding for Seattle Public Utilities' 1% for Arts contribution. Eligibility is determined at the individual project level with payment occurring from this project. Funds contributed to the 1% for Arts project allow for the commission, purchase, and installation of art on City-owned properties that is accessible to the public. The Municipal Arts Plan, which is prepared annually, describes the status of ongoing art projects and establishes the scope of work and allocations for new art projects.

Total Project Cost:	\$87,522	Urban Village:	Multiple

This project relocates, replaces, and protects water infrastructure affected by the replacement of the Alaskan Way Viaduct and Seawall. This project encompasses many sub-projects which are collectively known as the Alaskan Way Viaduct and Seawall Replacement project (AWVSR project). The Washington State Department of Transportation (WSDOT) is the lead for the SR-99 replacement, while the City of Seattle is the lead on development of the waterfront public space, implementation of the new surface Alaskan Way, and design and construction of the seawall.

This ongoing project provides applications, upgrades and data management tools in support of SPU's work and asset management projects. Several new and updated technology solutions designed to enhance the efficiency and effectiveness of drinking water, sewer, drainage, and solid waste operations are planned. Activities within this project aim to further enhance safety and improve responsiveness of SPU's utility operations.

Emergency Storms Program

Project No:	MC-SU-C4120	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds water and drainage & wastewater infrastructure capital improvement projects resulting from previous and possible future storm events. Projects within this project are potentially Federal Emergency Management Agency (FEMA) reimbursable and need to be separated for tracking and reimbursement purposes. Typical improvements include but are not limited to repairing and improving roads, bridges, and other stream crossing structures in the City's Municipal Watersheds, as well as replacing damaged equipment, such as pumps and security gates, and stabilizing debris slide areas and stream banks.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project provides SPU staff with new and replacement heavy equipment that is used throughout Seattle and King County. Typical purchases include backhoes, graders, loaders, dozers, service trucks, and dump trucks. This equipment transports work crews and tools to job sites and supports the safe and efficient replacement, repair, and maintenance of infrastructure that delivers high quality drinking water to 1.5 million customers in King County.

This ongoing project provides for electronic and mechanical system upgrades as required at various City facilities. The drinking water Supervisory Control and Data Acquisition (SCADA) system was installed in 2005 throughout King County. System components include, but is not limited to, treatment/flow/pressure sensors, remote control pumps/valves used in the conveyance and quality of drinking water and the delivery of water to fire hydrants, also known as "fire flow".

Meter Replacement

Project No:	MC-SU-C4101	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Various
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds replacement of existing water meters when they fail or become obsolete. Meters measuring up to two inches are replaced when they stop running. Meters measuring three inches or more are repaired when possible, but are replaced when repair costs exceed replacement costs. Accurate water meters ensure that customers are billed fairly for the water they use. Since water meters also are used to bill customers for their wastewater discharges, 48 percent of the funding is allocated to the Drainage and Wastewater line of business.

Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing project funds projects that mitigate undesirable impacts and take advantage of opportunities generated by the capital transportation projects of the Washington State Department of Transportation (WSDOT) and the Seattle Department of Transportation (SDOT) throughout the City. Work may include, but is not limited to, physically protecting the infrastructure during the transportation construction process, repairing and replacing damaged infrastructure, and improving existing infrastructure to meet higher standards. Project sites may include, but are not limited to, State Route 520, Interstate 5, and Interstate 90.

This ongoing project provides technology applications and application upgrades in support of improvements to project delivery and performance. Planned projects include continued development of an Enterprise Project Management System, replacement of the Engineering Support Contract Payments system, and SPU's share of costs for the City's central financial system upgrades. Future projects may include development of new Enterprise Resource Planning systems such as HR provisioning and financial reporting. This project will result in an improved ability to plan and deliver projects on schedule and within budget.

Regional Facility - Other

Project No:	MC-SU-C4107	BSL Code:	BC-SU-C410B
Project Type:	Ongoing	BSL Name:	Shared Cost Projects
Project Category:	Improved Facility	Location:	Regional
Current Project Stage:	N/A	Council District:	Outside City of Seattle
Start/End Date:	N/A	Neighborhood District:	Outside City of Seattle
Total Project Cost:	N/A	Urban Village:	Outside City of Seattle

This ongoing facilities project renovates, rehabilitates, replaces existing buildings, and constructs new facilities at various locations outside of City limits to address deficiencies, failures, and functional changes in the drinking water system. These improvements increase the useful life of the facilities, preserve the value of the assets, and provide a safe working environment.

Total Project Cost:	N/A	Urban Village:	Not in an Urban Village

This ongoing project will provide new and improved technology applications and accompanying data management tools to support the gathering, monitoring, tracking and analysis of science and engineering information. Several planned projects include replacement of obsolete regulatory compliance tracking applications, upgrades to field monitoring equipment, and the integration of SCADA data with other data systems. This project enhances SPU's ability to control water quality and comply with environmental and health regulations.

Finance and Administrative Services

Overview

The Finance and Administrative Services (FAS) Capital Improvement Program (CIP) is the department's blueprint for planning, replacing, maintaining, remodeling and upgrading FAS-managed facilities and IT infrastructure. These assets are used by City departments, as well as certain nonprofit organizations that serve the public, to deliver critical services to Seattle residents.

FAS' proposed CIP includes appropriations for ongoing capital programs and discrete, one-time capital projects with multi-year durations. Multi-year projects are identified by multiple priorities, including City goals (e.g., greenhouse gas reduction, public safety, improved ADA access), code compliance and severity of system deficiencies, and importance to tenant department operations. Planned schedules and funding commitments for these types of multi-year projects are typically made every year in conjunction with the annual budget process. The six-year FAS 2022-2027 CIP includes approximately \$217.7 million in funding for new and existing projects and programs.

Thematic Priorities

FAS is responsible for the operation and maintenance of approximately 3.2 million square feet of building space throughout the city, including municipal courts, police and fire facilities, shops and fleet maintenance facilities, high-rise office space in the civic core, parking garages and some of the City's community-based public service facilities. FAS' capital investments either improve or enhance the operational capacity of these mission-critical facilities and systems. FAS' CIP addresses the following priorities:

- **Life and safety issues** – High priority is given to projects intended to ensure continuity of service at facilities that provide emergency or other essential services (e.g., replacing generators near the end of their useful lives at essential facilities, such as police or fire stations). Projects that mitigate potential threats to human life and safety, such as mold and lead abatement and other hazardous conditions in building interiors and structural failures, also receive priority.
- **Federal, state and local requirements** – FAS must consider regulatory requirements in assessing capital needs when replacing existing, failing systems in FAS-managed facilities. One example is the Washington Administrative Code requirement to upgrade fire alarm panels and install fire sprinklers when substantial alterations are made in the course of upgrading or modernizing an existing building. Substantial alterations may also require facility improvements mandated by the Americans with Disabilities Act (ADA), which meet the City's dual goals of compliance with federal requirements and provision of equitable access.
- **Race and Social Justice Initiative (RSJI)** – FAS integrates the City's social equity contracting requirements into all aspects of the execution of CIP projects. Women and minority-owned business (WMBE) vendors, construction contractors and subcontractors may be contracted for design and construction work, furthering the City's goal to promote contracting with WMBE businesses. FAS works within the inclusion plan guidelines published by City Purchasing and Contracting for consultant, contracting and purchasing work. Additionally, Priority Hire, a community workforce agreement (CWA) and apprenticeship rules for construction contracts over \$5 million to further FAS' compliance with the City's community workforce goals and RSJI objectives.
- **Sustainability** – Several City sustainability policies and the Seattle building code guide FAS, as a building owner, to focus on meeting the energy-efficiency requirements of the Seattle Energy Code. Efforts focus on achieving cost-effective measures to reduce energy use and incorporating other sustainability strategies required by regulations. FAS will continue to address new sustainability

efforts, such as the “Green Fleet Action Plan” and the “2030 Challenge,” by proposing additional projects to reduce energy use and greenhouse gas emissions.

- **Asset preservation** – As authorized in Ordinance [121642](#), FAS dedicates annual funding in the CIP to support the replacement of existing building systems, guided by strict policies to ensure those funds are used exclusively to preserve, extend or replace failing and existing components such as roofs, windows, structures, electrical capacity, boilers or other systems at the end of their useful lives.

Aligning Capital Investments with Growth and/or Community Planning

FAS’ 2022-2027 Proposed CIP focuses primarily on preserving existing City assets and infrastructure. FAS’ commitment to support the operational growth and capacity challenges of our public safety departments is also demonstrated in the CIP investments to build and expand existing public safety facilities. Examples are seen in the rebuild of Fire Station 31 and the replacement of the Fire Station 5 dock. The FAS CIP Asset Preservation programs span across city districts to preserve the real property assets on FAS properties within the communities we serve.

Project Selection Criteria

Projects to be considered for inclusion in the FAS CIP fit the priority themes above and adhere to the capital and asset preservation policies adopted in Resolution [31203](#). They typically fall into two categories: Projects that improve or enhance operational effectiveness or projects that preserve the City’s capital assets. FAS solicits requests from its tenant departments for facilities-related projects that create or enhance operational effectiveness, vets them for timeliness and appropriateness and evaluates each request on its own merit. FAS also seeks Executive direction regarding projects that increase departments’ operational capacity and other areas of opportunity to consider when planning the City’s CIP priorities.

Asset preservation work is planned on a six-year cycle and evaluated for specific project development and execution. Department staff uses a custom database known as the Unifier Asset Management and Preservation System (Unifier), to maintain building-specific facilities condition indices and known building deficiencies in the more than 100 FAS-managed buildings.

Every year, FAS revises the list of facility asset preservation projects that need to be addressed. This list is compiled from annually updated asset management data generated by building condition assessments, energy audits, performance metrics and other capital planning studies. Elements that extend the useful life of improvements, increase tenant comfort and reduce utility bills are integrated into existing projects where feasible. The recent Facility Condition Assessment report supports the needed investments in asset preservation.

2022-2027 CIP Highlights:

FAS’ 2022-2027 Proposed CIP includes new critical investments and the endorsed ongoing programs and funding adjustments over six years, focusing on asset preservation of FAS properties and infrastructure, space consolidations supporting a key mayoral initiative, and improvements to public safety facilities. Below are specific programs and discrete capital projects with funding adjustments:

- **FAS SMT Tenant Improvement** – This project includes the continued implementation of the SMT FAS Consolidated Master Space Plan. This multiphase project will improve staff equity in work spaces, customer access to FAS public service counters and accommodate additional department staff while reducing FAS’ SMT footprint.

- **Seismic Retrofit Assessment** – This item adds funding for the Seismic Retrofit Facilities Improvements program. FAS facilities house important City services, many of which will be critical in the event of an earthquake. The Seismic Retrofit Facilities Improvements program will perform a preliminary engineering evaluation of the current portfolio and develop an implementation plan for seismic retrofits in FAS facilities to increase the City’s resiliency, reduce life safety issues due to a catastrophic event and reduce the risk of downtime or impacts to critical City services.
- **Animal Shelter** – The Seattle Animal Shelter continues to require substantial improvements to its infrastructure needs. Prioritizing safety projects, a seismic study and a backup generator installation will be completed in 2022. The remaining improvements will be developed into a proposed program for execution in 2023 and 2024.
- **Fire Station 31 Replacement** – This project provides funding for the design and construction of a new Fire Station 31 to replace the existing facility. This budget cycle proposes an adjusted spend plan to reflect current conditions but does not change the total project cost.
- **City Tax System (SLIM) Replacement** – This project provides funding to begin evaluating and planning for the replacement of the Seattle Licensing and Information Management (SLIM). Future funding will need to be allocated.

CIP Revenue Sources

The 2022-2027 Proposed CIP is supported by funding sources including Limited Tax General Obligation (LTGO) bonds, REET I and space rent charges by FAS to City departments. LTGO bond funding is used to fund projects such as SMT Elevator Rehab and HCM Replacement. The related debt service is funded by the rates charged by FAS to City departments. Endorsed REET I funds are focused on specific facility improvement needs, such as Earthquake Preparedness, Animal Shelter, and Fire Station 31 debt service.

Summary of Upcoming Budget Issues and Challenges

FAS’ most pressing long term CIP budget issues continue to involve the age and condition of many City-owned buildings and responding to federal, state and local code requirements and City sustainability goals, among other challenges. Below are specific programs and projects related to FAS budget challenges:

- **Asset Preservation** – The FAS Asset Preservation Program, created by Ordinance [121642](#), dedicates funds derived from space rent to replace building systems in 100 City buildings inside and outside of the downtown core. The Asset Preservation (AP) Program has historically been funded at a level of \$4 million annually from space rent charges. This funding level is short of the annual funding level of \$12 million that FAS’ current models suggest to adequately address deficiencies and deferred major maintenance work, estimated at more than \$100 million. Therefore, additional REET 1 is proposed for this purpose in the 2022-2027 Proposed CIP.
- **Building, Energy and Land Use Codes and City Sustainability Goals** – FAS’ efforts will play a major role in the City’s achievement of its sustainability and environmental goals. FAS must continue to provide reliable, compliant and structurally sound facilities that City departments use and that the public accesses. These investments require that FAS be diligent in evaluating and incorporating strategies and methods that achieve code compliance, energy efficiency and accessibility in the operations, maintenance and infrastructure improvements of its buildings, all in a cost-effective manner. How best to educate, inform and involve the public with regard to accomplishing these various goals is an on-going challenge.

Future Projects/What Is on the Horizon

City facilities must be accessible, reliable, well maintained and responsive to the needs of operating departments to ensure public safety and the delivery of critical services to customers. FAS will utilize the Facility Condition Assessment report to help in prioritizing the major maintenance and infrastructure project needs. However, FAS faces an ongoing challenge in adequately funding these needed asset preservation and major maintenance requirements at the City's aging facilities, including the 31-year-old Seattle Municipal Tower, Seattle Fire Department (SFD) Headquarters and multiple FAS' shops and yards.

Another issue is ensuring that capital projects are accurately budgeted and fully funded in the face of continued rising costs of construction. Furthermore, the City's public works requirements on capital projects have brought unique challenges to contractors bidding on public work, and these requirements have also impacted project costs and administration. Understanding how policies (including CWA, sustainability, energy efficiency, ADA, and RSII) and regulatory requirements influence and impact the City's capital programs and project costs needs to be a continuing conversation between CBO, FAS and capital departments.

Lastly, there are numerous Mayoral initiatives, from decarbonization and sustainability-driven projects, to electrification of vehicles and ongoing support of homelessness strategies that FAS stands ready to execute when funding opportunities become available.

ADA Improvements - Citywide

Project No:	MC-FA-ADAIMPCTY	BSL Code:	BC-FA-GOVTFAC
Project Type:	Discrete	BSL Name:	General Government Facilities - General
Project Category:	Improved Facility	Location:	Multiple City facilities
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2012 - 2022	Neighborhood District:	Multiple
Total Project Cost:	\$1,335	Urban Village:	Multiple

ADA Improvements Citywide Project provides FAS technical assistance, consultant engagement and City policy work. Policy guidance from FAS will provide the necessary support to the departments prioritization and implementation of ADA improvements as identified in the Citywide Transition Plan.

Project Category:	Improved Facility	Location:	FAS facilities
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project is the FAS American with Disabilities Act (ADA) ongoing program that will address specific ADA improvements and upgrades at various FAS-owned and operated facilities. Past work has included reconfiguration of restrooms, meeting rooms and other spaces, reconfiguration of facility amenities such as drinking fountains and various public access routes to sites, buildings and public spaces. Future funding allows FAS to implement its long-term strategy that resolves the most critical public-facing ADA deficiencies first and maximizes accessibility to the greatest extent possible.

This ongoing program provides for long term preservation and major maintenance to the FAS schedule 1 facilities. Schedule 1 facilities are comprised of existing and future office buildings located in downtown Seattle, including but not limited to City Hall, the Seattle Municipal Tower and the Justice Center. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides for long term preservation and major maintenance to the FAS schedule 2 facilities. Schedule 2 facilities are comprised of existing and future structures, shops and yards located throughout Seattle, including but not limited to City vehicle maintenance facilities at Haller Lake and Charles Street, FAS shops located at Airport Way S., fire stations, police precincts including the animal shelter, and other FAS managed facilities used for City Services. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

City Facilities Project Delivery Services

Project No:	MC-FA-CTYPDS	BSL Code:	BC-FA-FASPDs
Project Type:	Ongoing	BSL Name:	FAS Project Delivery Services
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This ongoing program provides pass-through budget authority for FAS to provide design and construction management services, as requested by City departments, at facilities that are neither managed nor leased by FAS. Typical work may include, but is not limited to, the following services: predesign, programming, master planning, conceptual planning, architectural and engineering design and construction administration. FAS proposes to use the second and fourth quarterly supplemental budget process to "right size" the pass-through budget authority for this project. This approach allows FAS to meet the present needs of departments that have funding for their projects and is consistent with year-end accounting and budgetary requirements.

This project provides predesign, design, and construction services for developing or reconfiguring space and other adjacent functions in the Downtown Civic Campus. Work may include, but is not limited to, working with project sponsors to catalog space and equipment needs, energy efficiency improvements, developing planning options, developing project cost estimates, and construction. Work may also include analysis of how vacated space in other facilities might be utilized for other city uses.

Drive Clean Seattle Fleet Electric Vehicle Infrastructure

Project No:	MC-FA-DRVCLNFLT	BSL Code:	BC-FA-GOVTFAC
Project Type:	Discrete	BSL Name:	General Government Facilities - General
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	Stage 3 - Design	Council District:	Multiple
Start/End Date:	2016 - 2020	Neighborhood District:	Multiple
Total Project Cost:	\$7,970	Urban Village:	Multiple

This project funds FAS's capital work efforts towards meeting the Drive Clean Seattle (DCS) initiative, a comprehensive transportation electrification strategy to transition Seattle's transportation sector from reliance on fossil fuels to the maximal use of clean, carbon-neutral electricity. Work will include but is not limited to, the design, permitting, and construction of 150 electric vehicle charging stations in the Seattle Municipal Tower to provide capacity for the conversion of City fleet to electric vehicles. Future work may include the installation of charging stations at additional sites.

Energy Efficiency for Municipal Buildings

Project No:	MC-FA-ENEFFMBLD	BSL Code:	BC-FA-EXTPROJ
Project Type:	Ongoing	BSL Name:	FAS Oversight-External Projects
Project Category:	Improved Facility	Location:	Multiple City facilities
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project funds energy efficiency work across City facilities, managed by the Office of Sustainability and Environment (OSE), in support the City's goal to achieve a 20% reduction in building energy use by the year 2020. OSE will implement a package of energy efficiency projects, as well as continue a suite of O&M improvements, program management, measurement and tracking, and building assessments. The energy efficiency upgrades are expected to generate utility rebates paid by Seattle City Light and Puget Sound Energy, to be deposited into the General Subfund and shown here as future General Subfund revenue. Work may include but is not limited to, building tune-ups, facility improvements, building energy upgrades, and energy efficiency measures.

Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides funding for FAS to implement information technology (IT) proposals, to replace existing FAS IT systems that are at the end of their useful lives, accommodate new programmatic and operational needs, and allow the department to function efficiently. FAS coordinates development and implementation of these proposals with the Seattle Information Technology Department. Specific projects include replacing FAS' department-wide budget system, developing a new risk management information system, and assessing and replacing FAS' Capital Projects Information Management System.

Fire Facilities South Lake Union

Project No:	MC-FA-PSFSSLU	BSL Code:	BC-FA-PSFACFIRE
Project Type:	Discrete	BSL Name:	Public Safety Facilities Fire
Project Category:	New Facility	Location:	TBD
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Multiple
Start/End Date:	2017 - 2019	Neighborhood District:	Lake Union
Total Project Cost:	\$300	Urban Village:	Multiple

This project provides for site evaluation and acquisition (and potential future design and construction) for a new Marine Emergency Response facility for a freshwater and land-based fire apparatus in the vicinity of the South Lake Union and Denny Triangle neighborhoods. Due to recent population growth in these neighborhoods, there is an ever-increasing need to site a new facility. Initial funding supports the City's site evaluation work and/or design and pre-planning costs. The total cost of developing the facility has not yet been determined.

Financial Planning Strategy: The estimated cost to reach 100% design, including land acquisition and demolition of the old structure is \$11.3m. Once the project reaches the 30% design milestone it will be baselined and FAS will establish a total project cost. The financial planning estimate above is based on the midpoint of the Total Project Cost range. The expenditures per year are based on typical design, bidding and construction durations of similar projects. The current financial strategy is to finance acquisition, design, and construction with REET backed LTGO bonds.

O&M Impacts: O&M impacts will be evaluated as the project advances through the design process.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Fire Station 31 Temporary Station

Project No:	MC-FA-FS31IMP	BSL Code:	BC-FA-PSFACFIRE

Fire Station 32

Project No:	MC-FA-FFERPFS32	BSL Code:	BC-FA-NBHFIRES
Project Type:	Discrete	BSL Name:	Neighborhood Fire Stations
Project Category:	Improved Facility	Location:	3715 SW Alaska St
Current Project Stage:	Stage 6 - Closeout	Council District:	Council District 1
Start/End Date:	2010 - 2019	Neighborhood District:	Southwest
Total Project Cost:	\$11,908	Urban Village:	West Seattle Junction

This project, part of the 2003 Fire Facilities and Emergency Response Levy Program, rebuilds Fire Station 32 in a three-story structure at its existing site. It also provides temporary quarters for firefighters while the fire station is under construction. The existing Fire Station 32 is seismically vulnerable and cannot feasibly be renovated to provide the space necessary to support modern firefighting equipment and emergency functions. The project supports firefighters in the provision of high-quality emergency services to the West Seattle community and will protect them in the event of an earthquake.

Fire Station 5

Project No:	MC-FA-FS5	BSL Code:	BC-FA-PSFACFIRE
Project Type:	Discrete	BSL Name:	Public Safety Facilities Fire
Project Category:	Improved Facility	Location:	925 Alaskan Way
Current Project Stage:	Stage 5 - Construction	Council District:	Council District 7
Start/End Date:	2014 - 2023	Neighborhood District:	Downtown
Total Project Cost:	\$14,391	Urban Village:	Downtown

This project, located on the downtown Seattle waterfront, provides a seismic and safety upgrade for Fire Station 5 and makes functional improvements to the facility and building systems. The project renovates the fire station and replaces the existing dock to protect fire fighters in the event of an earthquake and allows them to provide high-quality marine and land-based emergency service. The project was originally timed to coincide with the Seawall replacement project as this facility is physically attached to the Seawall structure, and dock replacement work was timed to align with Washington State Ferries (WSF) projects along the Waterfront.

Fire Station Improvement Debt Service

Project No:	MC-FA-FSDEBTSV	BSL Code:	BC-FA-NBHFIRE
Project Type:	Debt Service	BSL Name:	Neighborhood Fire Stations
Project Category:	Improved Facility	Location:	N/A
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	2008 - 2037	Neighborhood District:	Not in a Neighborhood District
Total Project Cost:	\$79,682	Urban Village:	Not in an Urban Village

This project provides for the payment of debt service on bonds issued to cover a portion of the costs associated with the 2003 Fire Facilities and Emergency Response Levy and associated asset preservation expenses.

Garden of Remembrance

Project No:	MC-FA-GARDENREM	BSL Code:	BC-FA-GARDENREM
Project Type:	Ongoing	BSL Name:	Garden of Remembrance
Project Category:	Rehabilitation or Restoration	Location:	1301 3rd Ave.
Current Project Stage:	N/A	Council District:	Council District 7
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing project provides an annual contribution (including increases for inflation) to a capital renewal fund for the Garden of Remembrance, located next to Benaroya Hall, per an agreement with Benaroya Hall Music Center (BHMC), a private, non-profit affiliate of the Seattle Symphony. This project pays for major maintenance and replaces garden installations including, but not limited to, irrigation equipment, landscaping, electrical/lighting fixtures, and mechanical water features. The project is managed by the BHMC and is displayed within FAS' CIP for informational purposes only.

Human Capital Management System

Project No:	MC-FA-HCMSYS	BSL Code:	BC-FA-A11T
Project Type:	Discrete	BSL Name:	Information Technology
Project Category:	New Investment	Location:	700 5th Ave
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:	2021 - 2026	Neighborhood District:	
Total Project Cost:	\$60,936	Urban Village:	Downtown

This technology project funds the planning, design and replacement of the aging Human Resource Information System (HRIS), which includes the citywide payroll and benefit system, with a new Human Capital Management (HCM) system. The timing of this project is critical for the citywide HR, timekeeping and payroll system, which will no longer be supported after 2023. The project was approved by the Enterprise Oversight Board (EOB) in February 2020 and will be managed out of the FAS Business Systems division, with funding and partnership from Seattle Department of Human Resources (SDHR) and Seattle IT (ITD)

O&M Impacts: To begin the strategic planning for implementing a new system, both FAS Business Systems and Seattle Department of Human Resources (SDHR) will hire 1.0 FTE and 2.0 FTEs respectively in 2020. Additional funding from ITD will allow for a strategic consulting firm to assist with this body of work and finalize the implementation budget and schedule. Additional staffing and services will be required in 2021 and 2022 for the life of the project.

North Seattle Public Safety Facilities

Project No:	MC-FA-SPSFDEBT	BSL Code:	BC-FA- SPSFDEBT
Project Type:	Ongoing	BSL Name:	Seattle Public Safety Facilities Debt Service
Project Category:	Improved Facility	Location:	Multiple
Current Project Stage:	N/A	Council District:	Multiple
Start/End Date:	N/A	Neighborhood District:	Multiple
Total Project Cost:	N/A	Urban Village:	Multiple

This project provides funding for long term public safety facility needs in North Seattle. These funds are for planning, design, and possible construction of facilities, as well as potential debt service for larger bond funded projects. Due to the current age of both police and fire facilities, along with expected growth in Northgate and other areas in North Seattle, planning for future improvements is critical to maintaining emergency response.

Seattle Municipal Tower Chiller Plant Replacement

Project No:	MC-FA-SMTCHLRPL	BSL Code:	BC-FA-APSCH1FAC
Project Type:	Discrete	BSL Name:	Asset Preservation - Schedule 1 Facilities
Project Category:	Rehabilitation or Restoration	Location:	700 Fifth AVE
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2018 - 2020	Neighborhood District:	Downtown
Total Project Cost:	\$18,000	Urban Village:	Downtown

This project replaces the chiller plant in the Seattle Municipal Tower (SMT). The project will require a multi-year execution plan to allow for permitting, design, procurement and construction to occur during the windows of opportunity when cooling is not required. This highly technical, complex construction effort is a once-in-a generation endeavor. With a dwindling supply of spare parts for maintenance and repairs, it is no longer feasible to defer this critical work, and delaying the project would put FAS at risk of not being able to provide essential cooling to City of Seattle offices and other building tenants. Project costs shown here are exclusive of \$1 million expended on preliminary work on this project in 2018. Those funds are included in the Asset Preservation - Schedule 1 Facilities project (MC-FA-APSCH1FAC).

Seattle Municipal Tower Elevator Rehab

Project No:	MC-FA-SMTELVHRB	BSL Code:	BC-FA-APSCH1FAC
Project Type:	Discrete	BSL Name:	Asset Preservation - Schedule 1 Facilities
Project Category:	Rehabilitation or Restoration	Location:	700 Fifth AVE
Current Project Stage:	Stage 1 - Pre-Project Development	Council District:	Council District 7
Start/End Date:	2019 - 2022	Neighborhood District:	Downtown
Total Project Cost Range:	28,000 - 32,000	Urban Village:	Downtown

This project will improve the operation, reliability, and system performance of the Seattle Municipal Tower (SMT) elevators. The work will bring the SMT elevators to current building codes and into compliance with Americans with Disabilities Act (ADA) requirements. This project is envisioned to be a multi-year effort that must be phased to minimize impacts on SMT ongoing building operations, and on the approximately 4,000 city staff who work in the building and the public who visit the SMT to access City services.

Seattle Municipal Tower IDF Infrastructure Upgrades

Project No:	MC-FA-SMTIDFINF	BSL Code:	BC-FA-GOVTFAC
Project Type:	Discrete	BSL Name:	General Government Facilities - General
Project Category:	Improved Facility	Location:	700 Fifth AVE
Current Project Stage:	Stage 3 - Design	Council District:	Council District 7
Start/End Date:	2015 - 2020	Neighborhood District:	Downtown
Total Project Cost:	\$2,500	Urban Village:	Downtown

This project provides electrical, cooling, and fire separation upgrades for 15 existing Intermediate Distribution Frame (IDF) rooms in the Seattle Municipal Tower (SMT) that house network, telephone and security systems. The resultant electrical and cooling capacity increases will allow the systems in the room to be upgraded now (in the case of Voice over IP phones) and in the future. In addition to these capacity infrastructure upgrades, fire separations will be established for the rooms. This project will enhance the reliability of the systems housed in the IDF rooms by improving the infrastructure that serves them and protecting the rooms from potential damage caused by events outside of the rooms.

SLIM Replacement

Project No:	MC-FA-SLIMREPL	BSL Code:	BC-FA-A11T
Project Type:	Discrete	BSL Name:	Information Technology
Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	Stage 5 - Execution (IT Only)	Council District:	Multiple
Start/End Date:	2015 - 2018	Neighborhood District:	Multiple
Total Project Cost:	\$4,700	Urban Village:	Multiple

The Seattle License Information System (SLIM) manages the issuance and renewal of business licenses and the collection of revenue from fees and taxes. SLIM is now outdated and can no longer adequately meet the needs of expanding business license, tax collection, and enforcement processes and needs to be upgraded. Recommendations for a SLIM replacement will be considered as the Multi-City Business License and Tax Portal project is implemented.

Information Technology

Seattle Information Technology Department

Overview

The Seattle Information Technology Department (Seattle IT) aims to be a best-in-class digital service delivery team for City of Seattle departments and the residents we serve. Seattle IT provides powerful technology solutions to the City and public; including, data, telephone, and radio networks; applications and application infrastructure; desktop, mobile and printing devices; cloud services; website and internet connections; television channel; data centers, servers, storage, and backup. Seattle IT also manages designated projects on behalf of the City, other departments, and regional partners.

Seattle IT's Capital Improvement Program (CIP) supports major maintenance, improvements, replacements, and upgrades to the City's existing technology systems, as well as the development and implementation of new projects. Seattle IT's 2022-2027 Proposed CIP budget is \$107.7 million. Details for 2022 are provided in the following table.

CIP Program Name	2022 Proposed	Planned Spending
Discrete Projects		
Criminal Justice Information System Projects	\$13,076,000	Implement case management systems for agencies including Seattle Municipal Court, the Hearing Examiner, and the City Attorney.
Ongoing CIP Programs		
800 MHz Radio Network Program	\$723,000	Maintain radio network infrastructure and public safety radios.
Applications Development - Public Safety	\$1,500,000	Implement work, schedule, and timekeeping system for Seattle Police Department
Computing Services Architecture	\$2,182,000	Computer equipment related to a new Unified Communication System (to replace the City's current telephone system) as well as routine equipment replacement and upgrades for servers, storage, and facility infrastructure.
Data & Telephone Infrastructure	\$5,691,000	Network equipment related to Unified Communication System, and routine equipment replacement and upgrades.
Fiber-Optic Communication Installation & Maintenance	\$4,468,000	Fiber installation and maintenance.
Seattle Channel Maintenance & Upgrade	\$345,000	Equipment replacement and maintenance.
Department Total	\$27,985,346	

CIP Revenue Sources

Seattle IT's CIP has been funded through a variety of revenue sources, including:

- **Rates and Allocations:** There are multiple services within the department that are cost-allocated based on a percentage of use for the service provided or billed directly to a department based on the actual cost of time and labor or quantity of materials provided. Seattle IT's budget also includes some projects that are funded using proceeds from general obligation bonds. Rates and allocations provide the funds to repay the debt service on these bonds.
- **State and Federal Grants:** Federal and state grants have been used to finance system replacements and new capabilities. In some cases, Seattle IT has been the direct recipient of the funds; in others, Seattle IT has managed grant-funded projects for customers. The use of grant funding for the Seattle IT CIP has been intermittent.
- **Cable Franchise Fees:** Seattle IT collects Cable Franchise Fee revenues that are set in franchise agreements with the cable providers. Some of this revenue has been used to fund the CIP Program which supports the Seattle Channel. Cable Fees have historically provided less than 1% of Seattle IT's CIP program.
- **Reserves:** In some instances, Seattle IT's rates and allocations include the collection of funds which are accumulated and held in a reserve in Seattle IT's Fund Balance. Currently, this is only done for the 800 MHz radio system, although it has been considered for other areas. Expenditures of these reserve funds appear Seattle IT's CIP program. Historically, there is a low level of spending for ongoing Operations & Maintenance items, with intermittent large expenditures associated with major replacements and upgrades.
- **Private Dollars:** In the past, Seattle IT projects have occasionally included funding from external non-public sources. Such instances are highly intermittent, usually for relatively small dollar value and not projected to continue at any appreciable level.
- **Levy:** In the past, Seattle IT received some CIP funding from a levy for the development, acquisition and installation of the 800 MHz emergency radio communication system. Going forward, the future replacement and upgrade of the county-wide radio system is funded by the Puget Sound Emergency Radio Network levy. Outside of that, no additional levy funding is anticipated.
- **Bonds & Future Bond Proceeds:** Seattle IT utilizes funding from City bond sale proceeds to implement significant capital projects in the CIP. Rates and allocations typically provide the funds to repay the debt service on these bonds.
- **Use of Fund Balance:** Seattle IT may use existing fund balance or planned carryforward to implement some projects in its CIP.
- **To Be Determined:** Occasionally, Seattle IT's CIP includes future projects for which a specific funding source has yet to be specified. These projects will not go forward unless and until funding is secured.

2022-2027 CIP Highlights

Seattle IT's 2022-2027 Proposed CIP Budget includes the following transfers and modifications to CIP programs:

- Computing Services Architecture (\$33,697,000) includes funding to replace hardware relating to the Next Generation Datacenter (NGDC). Seattle IT's 6-year capital plan requires lifecycle replacement of existing aging equipment that is no longer effective or secure. The 2022-2027 Proposed CIP includes new funding to support the City's IT infrastructure lifecycle replacements and invest in newer, more secure technology.
- Data & Telephone Infrastructure (\$6,341,000) includes funding for the Unified Communications (UC) project as well as the Data Network Hardware project. Within the Unified Communications project, the legacy telephony system has planned replacements and software updates as support expires. Seattle IT's 6-year capital plan encompasses end of life equipment replacement and the purchase of new technology for increased security and continued support within the Data Network Hardware project. The 2022-2027 Proposed CIP includes new funding to support software and major hardware for the City's data and telephone systems.
- Criminal Justice Information System Projects (\$3,000,000) project includes bond funded budget to support the Municipal Court Information System (MCIS) replacement. As the MCIS project has progressed, the updated spend plan reflects a shift in the timing of expenditures, which resulted in the transfer of \$3,000,000 of bond funding from 2021 to 2022 to better align with the projected spending timeline. The 2022-2027 Proposed CIP reflects the additional appropriation and associated bond issuance transferring to 2022.
- Applications Development - Public Safety (\$1,500,000) includes funding to implement a work, schedule, and timekeeping solution for the Seattle Police Department.

Thematic Priorities

Seattle IT's priorities are:

Priority 1: Connective and Collaborative

Enable collaboration by providing tools and information anytime, anywhere, from any device.

Priority 2: Efficient and Flexible

Provide business process and operations efficiencies that enable rapid response and technology changes while upholding fiscal responsibility.

Priority 3: Talent and Capabilities

Continuous investment in an inclusive and supportive workforce that keeps pace with a dynamic technology and business landscape.

Priority 4: Modern and Innovative

Further City priorities, including social justice and equity goals, through the acquisition and implementation of leading-edge technology solutions and practices.

Priority 5: Reliable and Sustainable

Provide clients with ongoing practical, security and modern infrastructure, platforms and tools to support their business needs.

Priority 6: Privacy and Transparency

Respect privacy guidelines that apply to every part of the IT workplan, as well as provide a clear picture of IT resources to stakeholders.

Project Selection Criteria

STEP 1: Identification of Technology Needs and Opportunities

In this step, needs and opportunities for technology investments are identified. This happens on a rolling basis throughout the year, as well as during the budget planning process. Input comes from multiple places, including:

- customer department requests and requirements (including technology plan alignment to department strategic plans)
- Seattle IT Strategic Agenda
- technology roadmaps (updated annually)
- asset replacement schedules
- coordination with partners (regional efforts, vendor partners, etc.)

This step includes development of initial cost estimates and other resource requirements, potential timing, and dependencies. At the completion of this step, potential projects are added to the Citywide IT Project Portfolio for tracking and consideration through Seattle IT's Project Gate Review process.

STEP 2: Identification of CIP and Non-Discretionary Projects

As part of the Gate Review process, items identified in Step 1 are filtered to determine if they are (1) CIP-appropriate or not and (2) discretionary or not. Criteria for determining if they are CIP appropriate or not include:

- overall dollar value
- timeframe of implementation (e.g., multi-year project)
- lifespan of investment
- investment in/preservation of long-term infrastructure
- the nature of the acquisition (e.g., goods, services, etc.)

Criteria for determining if they are non-discretionary include:

- legally mandated (e.g., debt service, federal or state law/regulation changes, court orders, etc.)
- urgent security or risk mitigation needs (e.g., major system failure, major security breach)
- reimbursable services to others (e.g., Seattle IT manages a regional fiber consortium where the partners contract with/through us to get work done).

Projects which are determined to be non-discretionary are automatically moved forward for inclusion in Seattle IT's initial CIP and budget proposal. Discretionary projects proceed to Step 3. Regardless of discretionary status, project requests complete the Gate Review process to validate projects are established with the appropriate governance, value proposition and risk mitigation planning.

STEP 3: Prioritization of CIP-Appropriate Discretionary Projects:

In this step, proposed investments are screened to determine if they are a match for Seattle IT's normal maintenance/upgrade/replacement programs within the CIP. Investments such as these tend to be smaller in scale (less than \$250,000), "like for like" replacements (e.g., old equipment replaced by new equipment with little to no functionality change), etc. These projects are rated by program managers based on criteria tailored to each program and implemented as annual funding allows.

Larger capital investments which are best implemented on a stand-alone basis due to the size and complexity of the project are evaluated and ranked separately based on the following criteria:

- asset preservation/replacement/maintenance
- product lifecycles
- legal requirements/mandates
- security/risk mitigation
- reimbursable from other sources (other depts. or outside entities, grants, reserves)
- dependencies (on other products, equipment, etc.; also on staff/resource availability/long-term supportability)
- internal customer demands (including capacity) – including Mayoral/Council/Mayor's IT Subcabinet priority
- external customer demands – public, businesses, etc.
- external drivers (vendor changes, regional commitments, etc.)
- efficiency/effectiveness improvements/resource savings and return on investment
- key future trend/forward-looking/pro-active

Summary of Upcoming Budget Issues and Challenges

- **Hybrid Workforce.** The shift of the City's workforce to a hybrid-remote model will continue to put pressure on the IT infrastructure and resources necessary to secure our more distributed technology environment and continue to provide efficient services to employees. For example, the City's Virtual Private Network infrastructure was enhanced during the pandemic but will require ongoing financial and technical support to continue to serve the larger remote population of City staff. Similarly, the majority of City employees are not equipped to be mobile, flexible, and resilient. Most employees do not have laptops, and logistics related to asset management, device support, and equipment deployment will continue to be challenging unless additional

Seattle Information Technology Department

investments are made to support remote employees. Finally, some previous and in-flight capital IT projects, such as the Unified Communications system, were designed based on a pre-pandemic set of assumptions and use cases; some of those decisions concerning, for example, conference room technology, mobility, and fixed telephone sets will likely be in flux over the next 12-24 months, which may result in additional expenses. Funding from the Coronavirus Local Recovery Fund (CLRF) appropriated to Seattle IT will help cover upfront costs in these investments needed to shift to a hybrid-remote model.

- **Disaster Recovery/Preparedness** - A future consideration as we invest in new programs and technologies is the need for disaster recovery and business continuity capabilities. Our reliance on systems continues to grow and, while our capital investment projects deliver new functionality, this work typically does not account for the redundancy or infrastructure needs to support an expedient disaster recovery scenario. The additional costs that come when planning that work are usually deemed cost prohibitive when sizing a Capital Improvement Project. As we continue to plan our capital program, we will need to account for a more robust disaster recovery investment or be prepared to accept the risks.
- **Rapid and major changes in technology.** The continued rapid rate of change in technology presents a major challenge for the City. User demands (both internal staff and constituents) around technology continue to grow as available functionality expands exponentially. New technologies provide new solutions and new opportunities, but at the same time they can initially disrupt productivity, require upfront costs, and impact security, privacy, and the governance landscape. Vendors regularly “de-certify” and stop supporting products the City relies upon, leaving the choice of spending significant amounts of money to upgrade to supported products or risk running important/critical City functions on unsupported platforms. At the same time, the method by which vendors deliver technology solutions is rapidly changing. Many vendors have moved or are moving away from delivering a software product to the City for installations on City servers; instead, they are offering cloud-based and hosted solutions that the City can access on a subscription basis. While offering many benefits, this changing delivery approach requires increased City investments in identity management, data integration, and contract management.
- **Planning for future investments and lifecycle management.** Departments want to move fast to leverage new technologies before Seattle IT has developed the platforms, teams, or culture to make this happen. Seattle IT balances the competing objectives of doing things right and doing them right now.
- **Platform First.** Similar to all large enterprises, where technology has overtaken the organization’s operations organically and over a long period of time, the City of Seattle also sits on hundreds of legacy technology solutions. A fragmented technology footprint is a major cyber security concern but in today’s challenging economic climate, it is also a financial liability. A key factor in achieving reductions in the City’s technology investment is directly dependent on a Platform First approach where 80% of the City’s technology business is performed on 20% of technology solutions. Seattle IT continues to promote the platform first approach but will have limited success without a formal City-Wide commitment to address this as an enterprise issue versus a tactical IT problem.

Seattle Information Technology Department

- **Privacy.** The data privacy risks associated with technology continue to grow - the variety of threats from malware, ransomware, social media, compromised web sites, and other sources continues to multiply, as does our continued reliance on connected devices through telework. Cloud services like Office 365 and the increased use of mobile devices offer a new set of security and privacy-related challenges. At the same time, the City collects and uses a vast and expanding amount of data on a regular basis. Some of this data contains personally identifiable information or may otherwise pose a privacy concern if exposed or if used in a manner inconsistent with public expectations. Emphasis is shifting away from end-point security to risk management of critical assets and assurance of identity. Preventive controls are no longer reliable, requiring a greater emphasis on the ability to locate and quickly remediate compromised technology.
- **Public Expectation.** The public has high expectations for how government performs, including how technology is used to deliver efficient and accessible government services. Some Seattle residents are tech savvy while others still lack internet access. Generational differences also create different expectations regarding services. Investments in new technology-enabled government services must balance many audiences.

Future Projects/What is on the Horizon

Seattle IT has identified several initiatives and issues which will need to be addressed at some point in the future.

- **Software systems which require replacement/upgrades.** Prior to IT consolidation, the Department of Information Technology CIP did not include funds to cover replacement of large applications owned and operated by individual departments. Since consolidation, Seattle IT has “inherited” responsibility for many such systems, most of which did not come with any long-term replacement funding. Replacement and upgrades for systems owned and operating by Seattle Public Utilities and Seattle City Light are generally being funded out of the utilities’ CIPs with Seattle IT acting as the service provider. However, funds for other large applications and systems needing replacement are not comprehensively programmed into Seattle IT’s CIP. Seattle IT will continue to address these needs on a case-by-case basis as the need arises.
- **Long-term major upgrades to the Regional Radio System.** The City is part of a regional public safety radio system (Puget Sound Emergency Radio Network). The current technology platform is approaching phased obsolescence and needs to be replaced or upgraded in the next few years. The four co-owners of the existing system, including the City of Seattle and King County, are working together to implement a replacement radio system. A levy to fund this important initiative was passed in spring 2015, and a formal governance structure for the effort was adopted via an Inter-Local Agreement signed by the 12 participating jurisdictions. The current CIP does not reflect the results of any potential changes related to the new system, as discussions regarding the long-term governance and operational support are still ongoing.
- **Infrastructure systems which require replacement/upgrades.** Seattle IT’s CIP contains sufficient funding to cover routine replacement of lesser value items, especially those which occur every year (e.g., switches, mid-range servers, etc.) However, larger value, intermittent replacements

Seattle Information Technology Department

are more difficult to fund within existing budget. These needs will continue to be addressed on a case-by-case basis as the need arises.

800 MHz Radio Network Program

Project No:	MC-IT-C3550	BSL Code:	BC-IT-C0700
Project Type:	Ongoing	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th Ave / Various
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project funds the upgrades and replacement of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system. The 800 MHz radio system provides the communication infrastructure required for public safety operations such as 911, Medic One, Fire and Police.

O&M Impacts: This CIP project represents ongoing capital purchases to support our operating shared services projects. Ongoing impacts are built into Seattle IT's budget.

Applications Development - Public Safety

Project No:	MC-IT-C6307	BSL Code:	BC-IT-C0700
Project Type:	Ongoing	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This project provides funds to develop and implement software applications used by the Seattle Police Department (SPD) and the Seattle Fire Department (SFD). The applications will improve personnel oversight and deployment, in addition to enhancing the accessibility and quality of SPD and SFD data. These applications will support ongoing efforts to achieve improved transparency and compliance.

Fiber-Optic Communication Installation and Maintenance

Project No:	MC-IT-C3600	BSL Code:	BC-IT-C0700
Project Type:	Ongoing	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	VARIOUS
Current Project Stage:	N/A	Council District:	Council District 3
Start/End Date:	N/A	Neighborhood District:	Downtown
Total Project Cost:	N/A	Urban Village:	Downtown

This ongoing project provides for the installation and maintenance of a high-speed fiber-optic communication network for the City and its external fiber partners. The fiber network includes, but is not limited to, sites such as libraries, public schools, fire and police stations, community centers, and other City facilities.

Permit System Integration

Project No:	MC-IT-C6305	BSL Code:	BC-IT-C7000
Project Type:	Discrete	BSL Name:	Capital Improvement Projects
Project Category:	New Investment	Location:	700 5th AVE
Current Project Stage:	Stage 5 - Execution (IT Only)	Council District:	Council District 3
Start/End Date:	2017 - 2021	Neighborhood District:	Downtown
Total Project Cost:	\$7,956	Urban Village:	Downtown

This project provides funding to develop, implement, support a cross-department platform for the City’s regulatory oversight. The platform will provide internal and external stakeholders with streamlined processes and accessibility. In addition, the project seeks to automate labor-intensive processes while establishing tracking and reporting of performance metrics.

¹Funds are appropriated through the Adopted Budget at the Budget Summary Level. All Amounts shown above are in thousands of dollars

Appendices

Appendix A: New or Expanded Capital Facilities

Seattle City Light

Project Name	Project ID	Project Capacity	Project Location	2021 Budget*
MC-CL-XB6351	Boundary Powerhouse - Unit 51 Generator Rebuild	Rationale: The Unit 51 generator at Boundary is the original installation and its typical 30-year life expectancy has expired. It has accelerated deterioration of its windings caused by thermocycling (frequent startup and shutdowns of the generator, resulting in more pronounced temperature fluctuations). Failure of a generator can cause lost revenue, which during runoff could be many millions of dollars. Additionally, a failure may cause a fire and set off the fire extinguishing system, which would expose the powerhouse and its personnel to safety risks inherent with fire, smoke, and carbon dioxide (CO2) discharge for fire suppression. A rewind also allows for an updated insulation design that will permit the use of water as a fire protection system, providing an improvement in worker safety. Also, if the technology is advanced sufficiently by the time of the rewind, we may add a rotor mounted scanner or other diagnostic equipment. Alternative(s): Defer work indefinitely.	10382 Boundary Rd, Metaline, WA 99153	\$19

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL- XB6353	Boundary Powerhouse - Unit 54 Generator Rebuild	Rationale: The Unit 54 generator at Boundary is the original installation and its typical 30-year life expectancy has expired. It has accelerated deterioration of its windings caused by thermocycling (frequent startup and shutdowns of the generator, resulting in more pronounced temperature fluctuations). Failure of a generator can cause lost revenue, which during runoff could be many millions of dollars. Additionally, a failure may cause a fire and set off the fire extinguishing system, which would expose the powerhouse and its personnel to safety risks inherent with fire, smoke, and carbon dioxide (CO2) discharge for fire suppression. A rewind also allows for an updated insulation design that will permit the use of water as a fire protection system, providing an improvement in worker safety. Also, if the technology is advanced sufficiently by the time of the rewind, we may add a rotor mounted scanner or other diagnostic equipment. Alternative(s): Defer work indefinitely.	10382 Boundary Rd, Metaline, WA 99153	\$6,452
MC-CL- XB6401	Boundary Facility - Minor Improvement s Program	Rationale: Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is a FERC requirement for a mobile emergency generator as a redundant source of power to open spill and sluice gates. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million dollar projects.	10382 Boundary Rd, Metaline, WA 99153	\$202

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XB6493	Boundary Powerhouse Generator Step-up Transformer Replacement	Rationale: Design to begin in 2010. Closeout in 2017. First transformer delivered in 2012. Alternative(s): An alternative approach would be to repair or replace units as they fail from deferred maintenance. This approach would eventually result in a significant loss of revenue and/or fines from a regulatory agency. Accepting the risk of failure would not be in the best interest of the utility. Having a spare unit onsite would prevent such failures.	10382 Boundary Rd, Metaline, WA 99153	\$7,183
MC-CL- XB6535	Boundary Powerhouse - Unit 52 Generator Rebuild	Rationale: This project is part of the Utility's Generator Rebuild Program, a series of projects to maintain and extend the useful life of the Utility's aging generators. The program rebuilds ten generators, accounting for 70 percent of City Light's generating capability. Alternative(s): No Alternatives Provided.	Boundary Rd, Metaline, WA 99153	\$5,480
MC-CL- XB6565	Landis and Gyr RTU Modernizatio n Boundary, Cedar Falls and Skagit	Rationale: Replace failing gear with new. Alternative(s): No Alternatives Provided.	Boundary, Skagit and Cedar Falls power facilities	\$520
MC-CL- XB6566	Boundary - DC Battery System & Charge Modernizatio n	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	Boundary Rd, Metaline, WA 99153	\$78
MC-CL- XB6987	Boundary - Licensing Mitigation	Rationale: In order to continue to operate the facility, the City must obtain a new FERC license. The decision to apply for a new license has been made and we have embarked on the default FERC licensing process, the Integrated License Process (ILP). While the cost of attaining a new license to operate Boundary Dam is very significant, Boundary provides anywhere from 25% to 40% of SCL's power requirements and produces power at a cost significantly below the market rate. The plant's operations are shaped to deliver power during peak-load hours, an operating regime that allows the City to meet continued service area load growth and provide regional system reliability. For these reasons, the Utility has determined that obtaining a new license is a priority and we are confident that it will continue to be a cost effective source of renewable power for the City. Alternative(s): No Alternatives Provided.	10382 Boundary Rd, Metaline, WA 99153	\$16,927

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XC6406	Cedar Falls/South Fork Tolt - Minor Improvements Program	Rationale: Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is the replacement of an Oil-filled Transformer. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million dollar projects.	19901 Cedar Falls Rd SE, North Bend, WA 98045	\$746
MC-CL- XC6450	Cedar Falls Powerhouse - Unit 5/6 Generator Protective Relay	Rationale: The present generator protection is outdated and lacks some basic protection elements to protect it from abnormal frequency and voltages. The existing relay does not meet the North American Electric Reliability Council (NERC) and the Western Electricity Coordinating Council (WECC) regional requirements for maintaining the generator in-service during system disturbances. This deficiency was identified as part of the NERC/WECC compliance program, and has been scheduled for replacement as part of a prioritized program along with other outmoded technology present in SCL's aging infrastructure. Alternative(s): 1. Do the project described. 2. Do Nothing. This is not considered to be a viable approach since the present generator protection scheme does not meet the ANSI/IEEE Standard or the WECC/NERC regional requirements for the protection of generators.	19901 Cedar Falls Rd SE, North Bend, WA 98045	\$1,183
MC-CL- XC6573	Cedar Falls - Bank 6 Replacement	Rationale: This project improves generation reliability by replacing this critical transformer prior to failure. It will also enhance overall operational performance since new transformers are more efficient, have more environmental protections, and require less maintenance. Alternative(s): The only alternative to this project is to run the transformer to failure which would necessitate an emergency project to replace it.	Cedar Falls	\$1,887
MC-CL- XC6625	Cedar Falls Rehabilitation	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	Cedar Falls	\$150

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XF8389	Special Work Equipment - Shops	<p>Rationale: This project provides new tools and work equipment to replace outdated equipment. The project updates technical systems to current standards, as our current transformer test equipment relies on out dated computer equipment and programming that is no longer supported. Some equipment does not meet latest safety standards. Other equipment is no longer supported by replacement parts or can no longer be repaired to provide accurate cutting, bending, etc. Some equipment needs to be updated to provide for increased production or size of stock material worked. Other equipment needs updated programming to provide for the latest technology advancements. The project ensures the transformers CL purchases and installs are safe and will last up to and beyond the average life span. It also ensures that we receive what we paid for, as specified, and that it will fit our system without problems such as oil leaks, incorrect voltage, and non-functional safety interlocks, etc. Replacing shop special tools and equipment will allow customer service enhancements by providing newer technology for more accurate fabrication of parts and other shop made items, safer tools to use, and newer equipment with more safeguards built in. Alternative(s): The recommended alternative would be to fully fund the special tool requests. This option would allow for the stated goals to be realized. Alternatives to funding special tools budget for shops are to not fund it or to fund at a lower level. Both of these options would slow production and would impact the opportunity to effectively serve the shops customers. It could also impact safety and injury rates where older equipment is less efficient and less ergonomic, requiring more repetitive motion and more labor with less automation.</p>	System wide	\$292
MC-CL- XF9006	Safety Modification s	<p>Rationale: Project 9006 was established to correct imminent and critical safety hazards not covered by divisional budgets. Investments will lower the risk of WA State compliance penalties and possible costs related to employee or customer injuries. Alternative(s): 1. Complete the projects as they emerge within established budget. Proactive response reduces the risk of employee and customer injuries, and related costs, as well as potential non-compliance penalties. 2. Do not fund project. This may leave significant safety problems unresolved, leading to increased compliance penalties. 3. Defer the project. The impact is similar to alternative 2 above, and also results in a continual growth of open and unfunded safety projects.</p>	Citywide	\$1,701

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XF9101	Equipment Fleet Replacement	<p>Rationale: As mobile equipment ages, it reaches a point where it becomes more economical to replace the equipment than to continue to repair it. In the past, the mobile equipment fleet coordinator used a twenty year replacement plan to maintain City Light's vehicle pool. Due to replacement deferrals starting in the mid 90's and the budget cuts which began in 2000, that replacement plan by necessity was revised. We are now faced with replacing fleet on an as needed basis. That priority is to replace the most often used, specialized, or critical equipment to the Utility, or the most costly to maintain and least reliable vehicles first. To get back to an established plan will require seven plus years of enhanced financing. A seven year recovery plan requires \$10 million annually. That plan has been underfunded for 15 years. The planned annual purchases, per the twenty year plan for the heavy fleet equates to approximately \$8 million per year. That \$10 million replaces the equipment that normally needs to be replaced every year and addresses some of the equipment that has been deferred. The proposed \$10 million will not fully cover inflation and the increasing cost of materials as many purchases now have a steel surcharge added. There are also added emissions requirements for the coming years starting in 2007. This will require about \$10,000 per diesel engine along with design changes to accommodate space for higher heat and larger exhaust pipes. The Memorandum of Understanding between the Fleet Management Department (FMD) and Seattle City Light (SCL) regarding financing and management of the City Light Fleet states on June 22, 1998, the City Council adopted Resolution 29771. In that resolution is reference to Timely Replacement of Vehicles. The recommendation is to replace vehicles in a timely manner, when fully depreciated.</p> <p>Alternative(s): The recommended alternative is to address the backlog of City Light vehicles, heavy and light fleet, on a plan spread over 7 or more years (a \$30 million backlog currently on a \$130 million fleet) A second plan would be to not purchase fleet vehicles. This option would result in paying both higher maintenance costs for worn out vehicles and higher rental costs both for specialized vehicles and daily use vehicles currently at \$2 million annually. It also has safety ramifications when considering malfunctions and inopportune breakdowns. A third plan would be to continue to not address the back log but replace on an as needed basis. This plan requires more rental costs and time loss due to equipment down time. It also does not address the need to be more fuel efficient and environmentally friendly. This plan to replace only as needed would be less</p>	System wide	\$7,715
------------------	-----------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

		reliable for tracking or budgeting. Address the back log through a seven year or longer plan.		
MC-CL- XF9103	Office Furniture and Equipment Purchase	Rationale: Workplace and process improvements completed under program 9159, plus ongoing organizational change, require the purchase of office furniture and equipment in order to achieve the project objectives. Each year Utility Support Services completes approximately 450 service requests requiring furniture reconfiguration, at least a third of which involve ergonomic corrections. Alternative(s): 1. Fund program 9103. 2. Don't fund program 9103 and purchase all office furnishings and equipment from the O&M budget. 3. Maintain office furniture until it can no longer be sustained in acceptable condition and then replace in total with a future ad hoc program.	System wide	\$8,521
MC-CL- XF9107	North and South Service Center Improvement s	Rationale: The purpose of the proposed subprojects, SSC locker room remodeling, NSC building on the main site, and the SSC yard study, is to improve each facility in support of the assigned staff/crews. Results include improved efficiency and reduced maintenance. Planning in the employee parking lot is necessary since an off-ramp will be constructed over a portion of the lot. The SSC yard study subproject includes planning for the revisions needed when the off ramp is built from the Spokane Street Viaduct to 4th Avenue South. The off ramp is to be placed over the employee parking lot. Alternative(s): 1. Continue the improvements as proposed. 2. Defer improvements. 3. Replace the service centers with state-of-the-art facilities. 4. Do no improvements until the service center is unusable and then replace the asset.	Outside City of Seattle	\$5,686
MC-CL- XF9134	Seismic Mitigation	Rationale: Several seismic surveys of City Light facilities have been done in past years. Some of the deficiencies were corrected; usually as part of a major construction program, however many of the deficiencies remain. Our structural engineering unit has an unscheduled plan to review prior surveys and release a prioritized corrective action plan. Plan implementation funding will be considered at the next budget cycle, or earlier, by special appropriation. Alternative(s): 1. Budget for emergent projects is recommended until the above action plan is in place. 2. Take no corrective action. 3. Contract for a comprehensive seismic study. Include cost estimates and a firm schedule requirement in the study results. Initiate a program of projects to make corrections.	Outside City of Seattle	\$1,364

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XF9151	Facilities Regulatory Compliance	Rationale: Before City Light property is sold the area must be evaluated for any contamination. This project allows each property to be thoroughly investigated for contamination. Alternative(s): The alternative is to pass on contaminated properties to new owners and therefore incur long standing environmental liability.	500 Newhalem Creek Rd, Marblemoun t, WA 98267	\$348
MC-CL- XF9152	Environment al Safeguarding and Remediation of Facilities	Rationale: Statutory fines for mishandling or releasing hazardous and dangerous materials can reach tens of thousands of dollars per day and civil liability claims for damages stemming from a release or spill can reach into the millions. More important is City Light's position, as a responsible member of the community, to safeguard the environment. Alternative(s): 1. Fund Program 9152. 2. Don't fund Program 9152 and address environmental issues as directed by environmental agencies using O&M funds. 3. Incorporate money in other capital projects to address environmental issues. 4. Shift risk by outsourcing or by purchasing environmental insurance.	Outside City of Seattle	\$72
MC-CL- XF9159	Workplace and Process Improvement	Rationale: This program defines a separate workplace improvement element devoted specifically to integrate people and processes within the built environment as opposed to the long term strategic asset management focus of other facilities programs. Projects proposed under this program are justified based on an asset life cycle that is typically shorter than that used for replacement or improvement of building elements serving multiple and varied work groups and processes. Implement properly authorized process improvement projects within one month of the agreed upon completion date. Alternative(s): 1. Fund Program 9159. 2. Eliminate Program 9159 and expense business function support projects. 3. Force individual business units to budget for their own improvements and institute a charge back system to bill them for materials and outsourced labor.	System wide	\$451
MC-CL- XF9161	Substation Comprehensi ve Improvement s	Rationale: 1. Reduce the risk to communications equipment and power network controls in order to sustain City Light's historically high system reliability. 2. Reduce workplace complaints among substation staff so that City Light maintains its harmonious relationship with electrical workers. Alternative(s): 1. Fund Program 9161. 2. Eliminate Program 9161 and make limited scope improvements in reaction to critical situations. 3. Eliminate Program 9161 and fund substation improvements out of other programs. 4. Make no improvements and finance increasing risk through insurance. 5. Eliminate Program 9161 and complete substation improvements as an O&M expense.	System wide	\$1,311

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XF9233	Georgetown Steamplant Access Road	Rationale: The Georgetown Steamplant is a National Historic building of great interest to the public and one of the cultural sites of Gerogetown itself. As an environmental justice community, it is important that the City provide access to residents and visitors to be able to show their rich history. Tours are provided to the public and we plan on operating the building as a museum in the future. Alternative(s): Several alternatives for an access route have been reviewed together with King County, and the current agreement includes the chosen alternative.	Off Wa 99 At King County Airport	\$1,478
MC-CL- XF9235	Denny Substation Tenant Improvement s	Rationale: The Seattle Design Commission operating under the guidelines set forth by the Urban Design Merit program unanimously approved the construction of the Denny Substation Project with the condition that the two shell spaces be developed as neighborhood enhancements. As stipulated by the Design Commission, the spaces shall be funded by the Capital Improvement Program, be fully programmed as part of the Denny Substation project and address any mitigation associated with vacating Pontius street. Alternative(s): Altenatives to not moving forward with this project would impact the overall Denny Substation Project - as it would impact the ability to vacate Pontius Street - which is critical to developing the planned Denny Substation for efficient layout of the yard and substation equipment. Options for the community center and the learning center are being explored through best value and benefit to the community and neighborhood, and City Light customers.	Valley Street	\$38
MC-CL- XF9320	Energy Conservation	Rationale: Energy reduction is a Department and City goal. SCL Conservation Unit's energy audits of our facilities will identify a program of projects to accomplish these goals. With documented savings, there will be recovery of some of the costs from BPA. Alternative(s): Do nothing. Continue to consume energy at existing levels.	System wide	\$1,100

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-XP6102	Special Work Equipment - Generation Plant	<p>Rationale: Special equipment needs and new tooling frequently arise on an unpredictable basis. Technology obsolescence and evolution, which are not easily predicted, also play a part in replacement. This project provides some financial coverage for meeting these needs on a first-come, first serve basis. Without this authority, funding for special tooling and equipment would not be readily available and could take months to acquire. This category of acquisition often provides rapid payoff in terms of the efficiency of work execution. Alternative(s): The only alternative is to find some other way to fund special equipment needs that arise. For capital projects, this usually involves emergency appropriations involving the passage of special City ordinances. The time required for special appropriations could be prohibitively long when needs can not always be predicted or arise sometimes from an emergency nature.</p>	Outside City of Seattle	\$922
MC-CL-XP6385	Power Production - Network Controls	<p>Rationale: A 2003 Report from Westin Engineering identified limits to our automation, remote control and supervisory control capabilities at Skagit. Among other things, the report found that there are protocol issues within and between the facilities and between the facilities and the System Control Center. Improvements are necessary before supervisory control, such as remote start stop and remote loading can be achieved. The consequence of not coordinating all the individual controls and monitoring projects is that we will not resolve our protocol issues, and that we will continue to limit our ability to remotely control and operate the plants. This leads to reduced efficiencies and higher production costs. Project Weighted Rating-26.8, Primary Rationale-Reliability Alternative(s): Do nothing. This is not advisable as it can lead to higher maintenance costs and to unscheduled outages due to unforeseen catastrophic bearing failures. Do partial replacements. This has been the approach. However, there are incompatible pieces that cannot be replaced or replicated as some components are no longer in production. This results in greater potential of system failures due to outdated electronic components being run past their life or not updatable.</p>	500 Newhalem Creek Rd, Marblemount, WA 98267	\$158

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XP6530	Hydro Project Spill Containment	Rationale: The project will implement upgrades that will either prevent spills, from oils, greases, fuels and other petroleum products, through process improvements and equipment replacement, or provide additional containment capacity for accidental spills. Options for reducing spills include replacing oil filled transformers with dry type transformers, building larger containment basins around oil filled equipment, reconfiguring powerhouse sumps to separate potentially oily water from non-oily water, installing oil/water separators on transformer and generator cooling water systems, and replacing greased valve bushings with greaseless bushings. Because each powerhouse is unique, different solutions will be designed and implemented at each facility. Alternative(s): No Alternatives Provided.	Outside City of Seattle	\$215
MC-CL- XP6600	SMT AutoLab	Rationale: This project supports continued new cyber security and automation projects. The existing equipment lab is too small and the HVAC system doesn't adequately cool existing equipment. Alternative(s): The project will also look at enlarging the existing lab on SMT 35, as well as looking at alternate spaces to create a new lab. Existing IT labs will be considered.	System Wide	\$114

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-XP6990	Endangered Species Act Mitigation	<p>Rationale: This project protects and restores fisheries habitat in the Skagit and Tolt basins by implementing the Endangered Species Program for recovery of listed fish species that are potentially affected by City Light projects. The project scope includes land purchase, restoration, assessment, and management. The ESA prohibits harming listed species and their habitat. SCL's facilities impact these species since the dams have changed the downstream hydrology, affecting the rearing and spawning habitat for Chinook, and rearing habitat for bull trout and steelhead. When SCL lowers the flow to reduce generation (load following), thousands of chinook juveniles may be adversely affected. In addition, the Skagit Project separates the bull trout population into four distinct populations. Concerns have also been expressed about interference with access to spawning areas resulting from lower reservoir levels and the potential of entraining bull trout. Since SCL's licenses for the Skagit and Tolt were issued prior to the listing, they provide no protection for third party lawsuits under ESA. We have no "take" permit. SCL licenses can also be reopened by Federal agencies, e.g. the U.S. Fish and Wildlife Service, seeking additional measures to protect and restore the listed species. Alternative(s): 1. Complete the projects envisaged by the City Council and incorporated into the Recovery Plans for each basin and work to obtain legal protection. 2. Complete projects as budgeted, extending the timeframe. 3. Terminate the project at current expenditure levels. This would result in failure to carry out a Council and Executive mandate and increase the Department's liability under the ESA. We would not be able to obtain legal protection.</p>	Outside City of Seattle	\$1,154
--------------	-----------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6232	Skagit - Sewer System Rehabilitatio n	<p>Rationale: Sewer pipes in the Town of Diablo are so badly cracked and broken that high flows in the river raise the groundwater level above the sewer pipes. The sewage system attempts to drain high levels of ground water (a phenomenon called "infiltration") from the Skagit River through our sewage plant. The excessive plant flow upsets the delicate balance of bacteria in the sewage treatment plant that process the sewage, "washing out" the plant, causing it to stop functioning properly and releasing raw sewage into the Skagit River. This project will provide a design for a sewer pipe rehabilitation, which will eliminate the "washout" problem caused by groundwater infiltration. During heavy storms, the ground becomes saturated and groundwater enters sewer lines via breaks in the pipes, resulting in pipe flows that exceed the capacity of the treatment plant. When this happens, the sewage overflow is passed directly into the Skagit River without treatment. This sort of situation happens once every three to four years. Such sewage overflows, in addition to being a source of pollution affecting downstream users, causes a violation of our sewage discharge permit. When this situation occurs, we are required to contact appropriate authorities and are at risk of being fined. Alternative(s): 1. Do the project described. Replace all broken and deteriorated pipe lengths. Clean pipes with root penetration but no major breaks. This option provides maximum design life. 2. Do nothing: Sewage overflows, permit violations and sewer systems breakdown will result. 3. Pipe liners: Use an alternative pipe rehabilitation method in which a liner is placed inside the original pipe, leaving the existing pipe in place. Eliminates pipe cracks and leaking joints, but is a non-structural solution. 4. Perform a project that supports only the Reflector Bar infrastructure. The rationale is that Hollywood improvements would not be needed pending the outcome of the housing evaluation.</p>	Milepost 126 State Highway 20	\$161
------------------	---------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6373	Ross Dam - AC/DC Distribution System Upgrade	Rationale: The operation of critical components of the dam, such as gates, valves, and lighting, depend on the power distribution system. The electrical system is 50 years old and has been in service beyond its normal life expectancy. Extra space for breakers is not available, cable insulation is starting to strip, and the existing gear is not approved for lockout/tagout requirements. Presently there is a risk of losing power to the dam spillgates. New conduit and conductors will improve reliability of spillgate operations and other dam operations requiring electric power. New electrical equipment, new lighting, and the addition of emergency lighting will allow staff greater operational flexibility, safety, and efficiency. Alternative(s): Doing nothing will result in eventual loss of control of motors and valves used for water spill control and could cause the dam to be overtopped. Maintaining power to operational components on the dam (for instance the spillgate) is needed to ensure the operation of Ross, which provides an average of 100 megawatts.	Milepost 128 State Highway 20	\$776
MC-CL- XS6405	Skagit Facility - Minor Improvement s Program	Rationale: Emergent capital projects are, by definition, unpredictable. This project provides some financial coverage for such projects on a first-come, first serve basis. Without this authority, funding for emergency work would not be readily available, and could take months to acquire. Setting up and monitoring separate capital projects entails considerable administrative costs which may unreasonably increase the cost of small projects, even when identified in advance. Covering such projects under the emergent project program allows for accountability and tracking at the subproject level, with minimal overhead costs. A recent example is Emergency Generators for the Wastewater Treatment Plants. Project Weighted Rating-40.8, Primary Rationale-Varies Alternative(s): The only alternative for emergent projects is to find some other way to fund emergency needs that arise. Usually, for capital projects, this involves emergency appropriations involving the passage of special City ordinances, among other things. The time required to cut through the red tape of special appropriations could be prohibitively long, given that the needs that arise are either of an emergency nature or cannot be predicted. The only alternative for planned small capital projects is to secure separate budgeting for each one by putting each small project into the same administrative league as multi-million dollar projects.	500 Newhalem Creek Rd, Marblemoun t, WA 98267	\$2,468

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6415	Skagit Powerhouses - Install Protection Relays	Rationale: Generator protective relaying at the Ross, Diablo, and Gorge plants does not meet present IEEE Standards. Protective relaying allows the system to automatically and instantaneously respond to surges and faults that may occur in transmission lines due to lightning strikes, load rejections, and other unexpected events, limiting the potential for damage when these events occur. Protection is currently inadequate for some equipment faults, which could lead to fire or additional equipment damage. Such damage can cause generator outages, lost revenues due to loss of generation, longer time to repair, and in some cases causing personnel injury. Project Weighted Rating-38.1, Primary Rationale-Reliability Alternative(s): No Alternatives Provided.	500 Newhalem Creek Rd, Marblemoun t, WA 98267	\$107
MC-CL- XS6515	Skagit Facility Conservation	Rationale: No Rationale Provided. Alternative(s): 1. Do nothing. 2. Perform work as detailed.	Newhalem Creek Rd, Marblemoun t WA 98267	\$484
MC-CL- XS6520	Skagit Facilities Plan	Rationale: The Skagit FERC Licensing agreement requires SCL to meet Section 106 of the National Historic Preservation Act of 1966, to take into account the effects of SCL's undertakings on historic properties. Additionally, the Skagit Licensing Agreement requires SCL to implement a historic resource mitigation and management plan demonstrating proper management of these resources. The Skagit Facilities Plan is SCL's commitment to meeting this licensing agreement requirement and results in better management of the overall resources and better operations and maintenance of the overall assets. Alternative(s): See the separate Skagit Facilities Plan that addresses alternatives. The alternatives include doing nothing, which does not conform to the FERC licensing requirements, and compromises our facilities as an asset to our power production operations and our civic and cultural stewardship responsibilities. The alternative to increase O&M resources (labor and budgets) is another option. This option improves facilities that are not required to meet program needs (improvements to vacant buildings).	Newhalem Creek Rd, Marblemoun t, WA 98267	\$817
MC-CL- XS6540	Skagit - Boat Facility Improvement s	Rationale: Design and construct several new structures to support industrial and recreational boat operations on our Skagit reservoirs. Structures to include a new tour dock, new dry dock, additions to the existing boat houses and a new barge landing in Diablo. Alternative(s): No Alternatives Provided.	Newhalem Creek Rd, Marblemoun t, WA 98267	\$290
MC-CL- XS6562	Ross - Governors	Rationale: The project will be best coordinated with the Bank 44 and 42 replacement projects in order to take advantage of the same outage. Alternative(s): No Alternatives Provided.	Ross Powerhouse	\$95

**Amounts in thousands of dollars.*

MC-CL- XS6564	Ross - Exciters 41- 44	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	Ross Powerhouse	\$756
------------------	------------------------------	-----------------------------------------------------------------------------	--------------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- XS6610	Diablo Dam - Spill Gate Trunnion Upgrades	<p>Rationale: FERC requires the floodgates on the dams be demonstrated regularly. Gates 2, 3, 14 and 15 at Diablo Dam were tested per FERC requirements in July 2013. Gate 2 trunnion had the highest friction of those tested. Along with the high numeric values there was mechanical noise from the trunnion when the gate was operated. Gate 2 was LOTO'd, and in 2014 the trunnion was disassembled, inspected and found to be deteriorated. The trunnion pins were cleaned of corrosion, the bronze bushing was replaced with like-kind new materials, and the unit was reassembled and tested successfully. After repairs to gate 2, Mechanical Engineering studied why gate 2 failed, establishing requirements for testing the other gates, and identifying a repair method. During this program, it was identified that: ? all the other gates (being of similar design) were at risk of failing by this method, ? the other gates tested at the same time were better than gate 2, but none met the standard of a coefficient of friction of 0.3 or less, ? replacement with like-kind materials offered only a renewal of the time. Maintenance inputs would remain the same (annual lubrication of 20 gates at approx. 3 hr/gate for a two-person crew) ? replacement with a permanent sealed bushing was the preferred method of rehabilitation. The project will rehabilitate all Tainter gate arms' trunnion bushings with new synthetic bushings that are permanently sealed and lubricated. Alternative(s): Do nothing and the Trunnions could seize up, causing a failure of the gate in the open position. This is considered a Dam Failure by FERC standards, and would be extremely costly to ratepayers. Replace with like-kind materials was performed for Gate 2. However there is no significant savings in labor to replace with like-kind (bronze), vs permanently lubricated, sealed, synthetic bushings. Materials savings only with this option, and maintenance continues as in the past which amounts to 2 persons @ 3 hrs/ea per gate, so for 20 gates about 120 person-hours for annual maintenance. Over the expected 75 year life, this amounts to a total of 9,000 hours @\$100/hr (total loaded rate) this amounts to \$900,000 in maintenance in 2014 dollars. Replace with new permanently sealed and lubricated synthetic bushings, labor is the same as for like-kind option, but materials are significantly more expensive than replacement with bronze bushings. However SCL can then avoid the maintenance cost of 120 person-hours annually and the \$900k in 2014 dollars for maintenance over the life of the improvement. The increased material cost for the new bushing type is \$2,660 per gate. That amounts to an upcharge of 53,200 for all 20 gates. As noted previously there is no labor difference between replace in kind vs these new bushings. The labor</p>	Milepost 126 Stte Highway 20	\$306
------------------	----------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

		savings in maintenance alone pays for the new bushing type.		
MC-CL-XS6986	Skagit - Relicensing	Rationale: Procurement of a new license for the Skagit River Hydroelectric Project from the Federal Energy Regulatory Commission (FERC) is required to continue operations. Alternative(s): No Alternatives Provided.	Newhalem Creek Rd, Marblemount, WA 98267	\$41,522
MC-CL-XS6991	Skagit Licensing Mitigation	Rationale: As part of the relicensing of the Skagit River Hydroelectric Project, City Light is required to provide mitigation for 30 years of continued project operation between 1995 and 2024. The license incorporates the Wildlife Settlement Agreement signed in 1991 by the City of Seattle and numerous interveners (Federal and State agencies, tribes, and environmental groups). This stipulates that the City shall make available a total of \$17,000,000 (in 1990\$) to secure and preserve valuable wildlife habitat. The charges to this CIP project will be credited towards the \$17,000,000 total. Alternative(s): 1. Perform work as scheduled in the Settlement Agreements and required by the license. This is the preferred approach to meeting our license obligations. 2. Delay implementation. This increases our liability since the bridge is falling down and poses a safety hazard which will only increase in future years. 3. Do not undertake some mitigation. This would have severe repercussions as the agencies and tribes are carefully monitoring our progress and participating as partners on many projects. They would likely contest our license should we not fulfill our commitments.	500 Newhalem Creek Rd	\$82

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9009	Communicati ons Improvement s	Rationale: Project 9009 provides the necessary flexibility to address emergent communication system problems that arise between biennial budget requests. These tend to be smaller projects costing less than \$10K per incident. During any given year there are a variety of requests requiring immediate attention. In addition, this program includes small specific improvement projects that are too small to warrant uniquely assigned project numbers. Each of these small projects has a separate scope of work, schedule, budget, and tracking mechanisms. An example is the project to monitor tower movement on our transmission towers near Oso, WA. Alternative(s): Option 1: Respond to customer requests for emergent and critical work in a timely manner. This approach preserves operational reliability, safety and security. This project provides flexibility to respond to these unknown communications problems or requirements. The alternative to having PE 9009 is to make special requests to the City Council for budget appropriations when emergencies occur. This is time consuming and limits the department's flexibility to react to emergent communications problems. Option 2: Fund the project at a reduced level and incur the risk that emergent trouble cannot be met and worker safety, security and system reliability is compromised.	System Wide	\$700
------------------	----------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9102	Special Work Equipment - Other Plant	<p>Rationale: This project is a roll up of requests from individual work units in the Electrical Services Branch and other units in the department except for Generation Division (see CIP 6102) and Power Stations (see CIP 7902). All tools and work equipment over \$5,000 dollars must be capitalized. The purpose of this project is to collect these requests into a project to allow better tracking and review of the expenditures throughout the year. Requests have been reviewed and prioritized during the 2003-04 budget cycle and purchases deferred. The proper funding of tools for high voltage electrical and related work supports the department's goals of safety, productivity and employee morale. Alternative(s): 1. See description. 2. Do nothing. Do not allow units to purchase new tools or equipment valued at over \$5,000. This alternative is not acceptable as the department would be unable to meet the needs and expectations of our customers. 3. Prioritize and review the individual units' requests and adjust CIP to budgeted targets. This would be a new way to budget for this CIP. Individual units may need to defer equipment purchases and in some cases work may be deferred. Risks include the possibility that unplanned equipment failures in deferred equipment will delay work completion. Option 3 has been selected and only the highest priorities for equipment have been funded. This project is being funded at approximately one third the level that historically has been required.</p>	System Wide	\$794
------------------	--------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9108	Transmission & Generation Radio Systems	Rationale: This project builds or replaces communications infrastructure consisting of fiber optic rings, digital microwave, telephone networks and two-way radio systems. This project provides City Light with command and control capabilities for the operation of the electrical system. This project ensures the safe, reliable and efficient operation of the system and positions SCL to meet the Federal Energy Regulatory Commission's vital communications systems requirements. Alternative(s): Option 1 Proceed as proposed. Option 2 Do nothing and continue to have systems that are incompatible with each other, require a high degree of maintenance, at greater cost, and in some cases, rely on commercial carriers for service and system protection; and/or face the loss of capability, capacity, coverage, licenses, and electrical system reliability. This alternative maintains the inadequate data exchange between sites, switches, feeders, meters, and communications systems and networks. Option 3 Install digital microwave instead of fiber systems at all substations and facilities. This is not cost effective, very difficult to locate land or space, design the system, acquire the land or space, provide power and get permits for adequate sites. Future upgrades are very difficult and expensive, and increases maintenance costs.	System Wide	\$630
------------------	--------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YD9202	Security Improvements	<p>Rationale: If Seattle City Light's Security Improvements Program is underfunded, its critical facilities face increased risk to sabotage, vandalism, theft, and terrorism that can result in the loss of valuable infrastructure for generation and distribution of power, as well as noncompliance with North American Reliability Council (NERC) 1200 Standards, adopted May 2, 2006, to improve security at critical facilities that house command and control systems. Curtailment of Seattle City Light's electric operations would impact reliability of the power system in the Pacific Northwest, create lost revenues, and jeopardize public safety and emergency response due to loss of lifeline services such as medical services, water and wastewater systems, communications, law enforcement, banking, transportation system, etc. Alternative(s): Option 1, Status Quo: No centralized security system. Operate local security systems in place and use local law enforcement and private security companies to address security on a limited basis. Use private security services and/or request additional assistance from local law enforcement during times when the Federal government has raised the alert level for the nation or region, or for a situation that has occurred requiring additional security services. Option 2, Centralized Security System: Seattle City Light installs security enhancements to delay, detect, and respond to security intrusions at its critical facilities that are connected to a central security monitoring center that will be staffed by trained security guards on a 24/7 basis to monitor and respond to security incidents. Department wide response procedures will be established and coordination with local law enforcement will be established for responding to security incidents.</p>	System Wide	\$2,326
--------------	-----------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9307	Distribution Area Communications Networks	Rationale: The communication systems now employed are in need increased capacity, better security, faster speeds, and increased reliability to meet new regulatory requirements. This will meet our ever increasing data and voice communication needs and take us twenty years or more into the future. Maintenance costs are lower because increased redundancy and reliability as well as better system alarms and the capability to remotely troubleshoot and reprogram the system. Traffic on the network is easily rerouted until major failures can be repaired. The new requirements of security, relaying, Automated Meter Reading, Automated Distribution and other automated systems will be easier to implement at lower cost once this project is completed. The system is easily upgraded to increase capacity or take advantage of new technology as it becomes available. Alternative(s): Option 1 Proceed as proposed. Install/complete fiber optic rings. Option 2 Do nothing. Have an inadequate communications network, with a high expense O&M component.	Citywide	\$2,396
------------------	----------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YD9957	Enterprise Geographic Information System	<p>Rationale: MOVED FROM DESCRIPTION, 7/10/2013, WYKPIISJ UPDATED AS OF 4/13/2012, HIBNESM: The Enterprise GIS Initiative will support the Seattle City Light 2013-2018 Strategic Plan in these objectives: 1. Improve customer experience and rate predictability. 2. Increase workforce performance and safety practices. 3. Enhance organizational performance. 4. Continue conservation and environmental stewardship. Replacing our multiple, incompatible GIS systems with a single enterprise level GIS will eliminate redundant data entry into GIS and other systems, increase data quality and put information into the hands of the people who need it, when they need it, including engineering, operations, asset management and environmental affairs. An enterprise GIS will improve field worker safety and reduce the occurrence of expensive project changes in the field resulting from inaccurate or incomplete information. It will also streamline software maintenance and support requirements and ease integration to other future utility systems requiring access to GIS data. This new system will provide: 1. A centralized geospatial data store improving data access and interoperability to support other enterprise systems such as Outage Management (OMS), Work and Asset Management (WAMS), Mobile Workforce, System Planning/Analysis, Automated Utility Engineering Design (AUD), Advanced Metering Infrastructure (AMI) and Business Intelligence (BI). 2. Electronic and web based access to distribution, transmission, streetlight, joint use and fiber optics/communications infrastructure information. 3. A flexible, configurable system that can accommodate evolving business information needs. The additional transmission, streetlight, joint use and fiber optics information that the utility needs to maintain as we move to an asset centric maintenance and planning model essentially doubles the size of the GIS dataset. The number of staff supporting GIS needs has seen an overall reduction in the last decade. Alternative(s): This business case and proposal presents 3 options for dealing with the problem: A. Do Nothing B. Replace the current DAMS editor and convert TLM Services C. Install a new unified GIS system A. Do nothing. Do not fund the work. Continue to leave our Radial Distribution System's GIS data at risk, and by extension, baseline OMS functionalities. Apply additional resources to manually maintain systems using current tools. Write and support multiple custom interfaces and procedures to provide base line GIS data required by OMS & WAMS. Do not take advantage of new business processes and functionality of automation between GIS, OMS and WAM. B. Replace the current DAMS editor and convert TLM</p>	System Wide	\$790
------------------	---------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

Services. The current DAMS editor was originally implemented in 1994 as a suite of custom applications using Environmental Systems Research Institute (ESRI) Arc/INFO GIS products. DAMS tools are so obsolete that SCL is no longer backward compatible with our City partners in the Common Geographic Data Base (CGDB). To begin addressing these issues, the existing DAMS editor needs to be replaced. This project would incorporate into the DAMS GIS the final piece of connectivity data, between the customer meter and the transformer that is currently stored in the separate Transformer Load Management (TLM) database. This work will position City Light to begin working toward a unified GIS and to better leverage our GIS investment through new and improved integration to other major IT systems. Examples might include: 1. The ability to replace obsolete engineering analysis and planning systems, such as TLM and NLM/Loadflow, with modern GIS based applications. 2. The ability to more robustly model the underground portions of our Radial distribution system. 3. The ability to move closer to a unified GIS, including both our Radial and Network distribution systems in a single GIS data store, at City Light. C. Install a new unified GIS system. This option would install a new unified

MC-CL-YD9967	Outage Management System Phase II Implementation	Rationale: See attachments Alternative(s): See attachments	Citywide	\$2,203
MC-CL-YD9969	Enterprise Software Solution Replacement Strategy	Rationale: This project is an ongoing commitment to provide a sustainable funding stream to keep enterprise level resources up to date and fully functional. Software systems today are as critical to operate City Lights business as poles and wires. The Utility can no longer afford to delay regular required upgrades and or replacements to the system. Alternative(s): City Light could decide not to upgrade the systems, as prescribed, but that could create a significant risk if the system goes unsupported by the vendor or if something were to happen with the software. Operations and Maintenance costs could rise significantly while attempting to maintain the software on our own.	City Wide	\$11,082

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8129	Network Hazeltine Upgrade	<p>Rationale: Using the Network Hazeltine system provides reliable power by remotely monitoring the electrical vaults and electrical equipment within the entire downtown service area. The Power Dispatchers constantly monitor the real time status of the network using the Hazeltine system. This program costs \$304K per year and avoids problems that can easily exceed twice that amount for Seattle City Light and its customers. The utility's cost for one such problem can range from \$200K up to as much as \$3M. Aggregated customer costs can range from \$100K up to \$5M. The benefit cost ratio for any one problem can range from 0.99 $(\\$200k + \\$100k) / \\$304k$ to be as high as 26.3 $(\\$3M + \\$5M) / \\$304k$. We usually avoid 4 to 5 smaller problems each year and a larger problem, with combined costs of \$1.53M, every 5 years. The yearly benefit cost is then $[4 * 0.99 + 1.53M / (304k * 5)] = 5.0$. Alternative(s): 1. Do nothing. Do not change existing Hazeltine system. Hazeltine has changed the production of their transmitters, forcing utilities to pay a premium for the transformers that is a fraction of the cost of upgrading to their Next Generation equipment. 2. Upgrade to Hazeltine's Next Generation system, changing station receivers and transmitters on each transformer. Total cost is about \$2.2 million. 3. Develop SCL proprietary network EMS system, capable of monitoring plus a new function of control of NP's, BTS's, and primary switches if they are added. Total cost ranges from \$7 million to \$17 million, depending on communications option selected. This excludes developmental costs. 4. Buy any upgrades from vendors only. Wait for Hazeltine or other vendors, to develop network EMS systems with the desired control and monitoring features. No products or competitors to Hazeltine are available at this time for cost estimates. 5. Add sensors to existing or future Hazeltine system to enhance the monitoring of the network environment. This would enable system operators to detect and respond to abnormal field condition and thereby improve customer reliability. 6. Continue existing program of upgrading the sensors to match the current SCL standard. In 2007 and 2008, review the Hazeltine program and determine if more significant upgrades are feasible. Presently, this is the recommended action and funding level for 2007 and 2008. The 2009 and beyond dollars are expected expenditures for the significant Hazeltine upgrades, if approved.</p>	System Wide	\$539

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8130	Network Maintenance Hole and Vault Rebuild	<p>Rationale: The Network Maintenance Hole (MH) & Vault Rebuild project provides reliable electric service by repairing or replacing damaged electrical maintenance holes/vaults and ducts located within the network. This project also reduces unsafe working conditions for our workers and potential hazards to the public. In the 1990s, licensed engineering consultants conducted a series of structural surveys on approximately 1,200 underground maintenance holes and vaults. Based on the survey, 38 MH/vaults have been repaired or replaced at a cost of \$14.1Million. Subsequent additional surveys have been done. Our prioritized list of facilities requiring major repairs or replacements includes replacing 78 MH/vaults and 350 vault roofs. The vaults that we are replacing for the 2007-2008 period have exceeded their expected lifetime. These are among the oldest facilities and include brick structures in Pioneer Square that are approximately 100 years old. Replacing now provides an opportunity to construct a route for bringing main stem feeder service cables through the Pioneer Square area and to a significant portion of the Downtown core area (City Hall, Justice Center, Seattle Municipal Tower) rather than using the Alaskan Way Viaduct structure. By repairing or replacing six manholes/vaults, rebuilding at least 10 vault/manhole roofs and 2,800 feet of old clay tile duct banks. Surveys performed by licensed civil engineering consultants have identified 78 maintenance holes/vaults requiring replacement as well as roofs for an additional 350 underground right-of-way facilities. Alternative(s):</p> <p>Alternative 1 - No Action: Vaults and maintenance holes with failing structures and grates would be left in place until catastrophic failure. Problems associated with deferring repair work include reduced worker and public safety, increased City liability, increased City paving expense, negative impacts on traffic flow through downtown when repairs are not coordinated with SDOT's paving operations, and loss of use of City Light facilities for customer service needs. The no action alternative is never an option as too many facilities are in states of failure that require at least temporary shoring and loss of use, and many require immediate repair. Alternative 2: Perform temporary fixes to the highest risk facilities until permanent repairs are made at some unspecified future date. Without a specific project to repair vaults and maintenance holes, temporary shoring systems installed in failed facilities has the following challenges: a) Electric crews cannot perform electric work in the failed facility with shoring left in place, effectively resulting in loss of use of the facility. b) Placement and removal of temporary shoring reduces productivity of field</p>	System Wide	\$1,852
------------------	-----------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

personnel. c) Wood shoring rots from continuous exposure to moisture has limited life in wet network environments. d) Temporary fixes using steel beams can be applied in facilities with few cables or obstructions from temporary supports. Such repairs require costly custom designs from Civil Engineers and could be applied only where manhole access is not needed for several years. Alternative 3 (Preferred): Make permanent repairs to those facilities in need and continually monitor condition of civil facilities. Work would be prioritized to those facilities in highest need of repair, those associated with new customer load additions and those affected by public right of way projects, such as street paving. Benefits of this approach are improved worker and public safety, reduced City liability, improved tr

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8201	Union Street Substation Networks	<p>Rationale: The Union Street Substation Networks project provides sufficient and reliable electrical capacity for the growing power needs of our customers. It is a programmatic approach for comprehensive management of underground network assets (electrical and in some cases civil) serving customers in the area bounded by Yesler Street, Alaska Way, Pike Street, 6th Avenue, Union Street, the Freeway, University Street, 3rd Avenue and the Waterfront area from Denny to Yesler. The project goal is to increase the capacity of present Union Street Substation network feeder cables to their ultimate service build out limit (an overall increase of 128 MVA) as determined by Union Substations transformer capacity, with allowances for feeder imbalances, feeder diversity and diversity among sub-networks. We will re-conductor and re-route four targeted service feeders by the end of 2008 and perform associated work such as feeder balancing. This includes the work in support of finishing the main stem build out and to address capacity issues in the branch portion of the feeder service cables as needed in response to specific service requests, as well as analyses of branch cable congested areas. Work in 2007 and 2008 as well as successive years is necessary to be able to pick up loads that will likely be transferred from Broad Street sub-networks in 5 years. To meet the projected new loads on the Waterfront and at specific downtown core sites we need to complete re-conductoring and re-routing of four targeted service feeders by the end of 2008 and perform associated work such as feeder balancing that will be transferred from Broad Street, and may be transferred from Massachusetts Street; build and energize a new network substation at least six years before all Downtown network capacity is used so that service cutovers can be done with minimal impact to our customers. This work is essential to meet near term load requirements of the SAM/WaMu and Four Seasons projects. This critical project Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the reliability of the network system from its present level, subjecting it to more lengthy outages. 2. Reduce customer demand for more load with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little</p>	1312 Western AV	\$2,015
------------------	----------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------	---------

MC-CL- YN8202	Massachusetts Street Substation - Networks	<p>as possible and as close to near-term load requirements as possible. This is no longer feasible as the next increment of feeder capacity additions reach their final capacity targets. 4. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 5. Add measures that improve system reliability to mitigate the severity of any network event. 6. Add measures that improve customer reliability by preventing the chain of events leading to major customer impacts.</p> <p>Rationale: The rationale for this project is to increase the capacity and reliability of present Massachusetts Street Substation network feeder cables to their ultimate service build out limit (an overall increase of 69 MVA), as determined by Massachusetts Street Substation's transformer capacity, with allowance for feeder imbalances, feeder diversity and diversity among sub-networks. The Alaska Way Viaduct project will require the relocation of all 13kV distribution feeders that are suspended from the viaduct. These include feeders serving Pioneer Square and the downtown core. Additional duct banks and electrical vaults must be built throughout the Pioneer Square area to accommodate the feeder relocations. Doing the engineering for this relocation during 2007 will ensure that timely civil construction can be done in order to avoid many conflicts with other utilities and mitigate some of the traffic impacts that will occur during the Viaduct and Seawall construction. Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the customer reliability of the network systems from its present level, subjecting it to infrequent but lengthier outages. 2. Reduce customer demand for more load with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 4. Add measures that improve system reliability to mitigate the severity of any network event. 5. Add measures that improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	1555 Utah Ave S	\$3,164

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8203	Broad Street Substation - Network	<p>Rationale: Customer demand for higher loads continues. Capacity of the cables serving two sub-networks is near overload, requiring immediate attention to avoid cable failure and customer outages. In the next five years, customers are projected to exceed the capacity of cables in another five network subareas. This capital project addresses the means to serve customer demand for higher capacity. Reliability measures identified in the Network Strategic System Plan are incorporated into this capacity driven work. Without this critical project it is very likely that there will be insufficient reliable electrical capacity in the very near future to hook up new customers and to serve present customers such as the Westin building. hernanju (7/29/21010): The project goal increases capacity of present Broad Street Substation network feeder cables to their ultimate service build-out limit (an overall increase of just under 100 MVA) as determined by Broad Street Substation's transformer capacity. This project constructs ten vaults and ten blocks of duct banks, re-conductors and relocates three primary feeders per year, upgrades/optimizes network transformers as needed, reduces secondary bus ties (reduce the size of the secondary grid resulting in greater reliability), and performs ancillary work. Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without commensurate additions to capacity of feeders serving this area, ultimately leading to multiple cable failures and extended customer outages. This would reduce the customer reliability of the network systems from its present level, subjecting it to infrequent but lengthier outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic Systems Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near-term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substations capability to deliver power. 5. Add measures that improve system reliability to mitigate the severity of any network event. 6. Appendix A: New or Expanded Capital Facilities

MC-CL- YN8301	First Hill - Network	<p>Rationale: At present, capacity of the cables serving the First Hill network is exceeded in several areas, requiring operation restrictions to avoid cable failure and customer outages. In the next few years, four or more large customer loads are expected to be added, exceeding the capacity of cables. Based on projected new loads within the First Hill area (Harborview and Swedish Medical Centers), the electrical capacity of the cables serving the sub-network will be exceeded, requiring immediate action to avoid cable failures and long costly customer outages. This project will provide and overall electrical capacity increase of 32.4 MVA for First Hill Substation customers. Alternative(s): Alternatives include: 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without the department making commensurate additions to capacity of feeders serving this area. This would ultimately lead to multiple cable failures and extended customer outages. This would also leave the customer reliability of network systems at its present level, subject to infrequent but lengthy outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic System Plan and found to have a negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near-term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substation's capability to deliver power. 5. Add measures which improve system reliability to mitigate the severity of any network event. 6. Add measures which improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	1100 Madison St	\$3,620

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8404	Denny Substation - Network	<p>Rationale: This project is a result of a four years of advocacy by customers to make sure that the electrical distribution system has sufficient capacity to meet the projected loads in the rapidly growing area of North Downtown, and that the system has the reliability and voltage stability to support the research activities of the emerging biotech industry there. The principal stakeholders are the Fred Hutchinson Cancer Research Center, the UW School of Medicine, the Seattle Biomedical Research Institute, Rosetta Inpharmatics, ZymoGenetics, Children's Hospital and Medical Center, and the startups at the Accelerator Project. This five to seven year infrastructure project is specifically tailored and designed to the core needs of this business sector in the North Downtown area. The research activities and the laboratory equipment are so sensitive to system reliability and voltage stability that this area requires an extraordinary level of service from the utility. The motto is "World class research requires world class facilities.". The utility through this project is a partner in that effort. Because existing City Light substations cannot accommodate the new network feeders, this project requires the construction of a new North Downtown substation in a three to five year period, proposed as project 7757, North Downtown Substation Development. This network project cannot exist without the new substation. Alternative(s): 1. Enhance the service using non-network feeders from other substations. 2. Have individual customers invest in private reliability improvements. 3. Install network system in core service area, including the biotech industries. 4. Install network system throughout North Downtown area. Option 1 is not feasible because the availability of feeders from adjacent substations is limited and in question over time. Option 2 has been tried recently, but did not meet the reliability needs of this set of customers. Option 3 is the recommended option, as it is effective in meeting the need and cost effective. Option 4 includes all customers in the area, which is not necessary and expensive.</p>	Valley Street	\$10,647
------------------	----------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------	----------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YN8464	University Substation - Network	<p>Rationale: This project increases electrical capacity and reliability for University Substation customers in response to increased customer demand. At present, capacity of the cables serving the University network is exceeded in several areas, requiring operation restrictions to avoid cable failure and customer outages. In the next few years, larger customer loads are expected to be added, exceeding the capacity of cables. Based on projected new loads within the University area (University of Washington, Sound Transit) the electrical capacity of the cables serving the sub network will be exceeded, requiring immediate action to avoid cable failures and long costly customer outages. Alternative(s): 1. Do nothing. Make no improvements to system reliability or additions to feeder capacity. This would allow customer load to continue growing without the department making commensurate additions to capacity of feeders serving this area. This would ultimately lead to multiple cable failures and extended customer outages. This would also leave the customer reliability of the network system at its present level, subject to infrequent but lengthy outages. 2. Reduce customer demand for more loads with demand side management measures. This alternative was evaluated in the Network Strategic System Plan and found to have negligible ability to reduce customer demand in the network area. 3. Increase capacity of network feeders incrementally, as little as possible and as close to near term load requirements as possible. 4. Increase capacity of network feeders to the full limit of the substation's capability to deliver power. 5. Add measures which improve system reliability to mitigate the severity of any network event. 6. Add measures which improve customer reliability by preventing the chain of events leading to major customer impacts.</p>	645 NW 45Th	\$366
MC-CL- YR8322	Dallas Ave. 26 kV Crossing	<p>Rationale: Boeing and the other industrial customers in this area have critical facilities (e.g., Boeing wind tunnels) that depend on reliable power. The additional feeders assure reliable power supply to Boeing's operations and local industrial plants and residences. The Boeing Company has lobbied our management and the City Council to ensure that this line is replaced. Alternative(s): The do nothing alternative would leave Boeing and others with reduced reliability and in violation of previous SCL commitment.</p>	Dallas Ave S	\$206

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YR8351	Overhead Equipment Replacements	<p>Rationale: Equipment that is aging, overloaded, or of an outdated design poses a risk to the reliability of the system and could lead to unplanned outages and additional restoration expenses. By replacing the oldest and failing parts of our system, and those parts that are not made anymore, and we have no spare parts. We will replace items such as rotten and damaged cross-arms, transformers, hardware, old lead cable, PCB transformers, etc. By doing so, the system will be more maintainable and customer outages will be fewer and not as long.</p> <p>Alternative(s): The do nothing alternative leaves the existing system in place. As the aging and outdated equipment fail they will cause unplanned outages. This necessitates the immediate, unplanned replacement of these facilities. This causes hardship for the customers that are impacted and increased expense for City Light, especially if overtime is required to get the customers re-energized.</p>	System Wide	\$48,718
MC-CL-YR8353	Underground Equipment Replacements	<p>Rationale: Avoid unplanned outages or interruption of service due to equipment failure. Alternative(s): The do nothing alternative would allow the equipment to deteriorate beyond its useful life and result in increased outages to customers.</p>	System Wide	\$17,045
MC-CL-YR8355	Overhead Customer Driven Capacity Additions	<p>Rationale: This project adds capacity to the distribution system to accommodate increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.</p>	System Wide	\$2,579
MC-CL-YR8356	Overhead System Capacity Additions	<p>Rationale: This project adds capacity to the distribution system to maintain the reliability level for the existing customers on the system and accommodate the increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.</p>	System Wide	\$2,260

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YR8358	Overhead 26kV Conversion	Rationale: The existing 4kV equipment has lasted beyond its useful life and is no longer supported by manufacturers. In some places, the 4kV system no longer has the capacity to carry the system loads we are now experiencing. The system also demands ever increasing O&M resources. Alternative(s): The do nothing alternative leaves the 4kV system in place. The capacity concerns will remain and grow worse as more loads are added to the system. Obtaining 4kV equipment will become increasingly difficult and O&M will increase as the system continues to age.	System Wide	\$1,053
MC-CL-YR8360	Underground Customer Driven Capacity Additions	Rationale: This project adds capacity to the distribution system to accommodate increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System Wide	\$3,079
MC-CL-YR8361	Underground System Capacity Additions	Rationale: This project adds capacity to the distribution system to maintain the reliability level for the existing customers and accommodate the increased load from new services. Alternative(s): The do nothing alternative leaves the existing system in place. New loads added to the system will adversely impact system reliability and voltage stability. It may be necessary, if the load increase is significant, to deny new service connections if the feeder capacity is inadequate.	System Wide	\$2,551
MC-CL-YR8362	Underground 26kV Conversion	Rationale: This project increases capacity to deliver power to City Light customers, rebuilds and maintains the backbone of the system, saves energy by reducing transformer and line losses, improves quality and reliability of service to customers, and releases unit substation properties for better neighborhood uses. Alternative(s): The do nothing alternative leaves the 4kV system in place. The capacity concerns will remain and grow worse as more loads are added to the system. Obtaining 4kV equipment will become increasingly difficult and O&M will increase as the system continues to age. Operations and maintenance costs are not expected to change as a result of this project. The Capitol Hill Underground Ordinance area does not have capacity at 4 kV to serve the load growth in the area, thus requiring City Light to install vaults, ducts and underground at 26 kV.	System Wide	\$1,005

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YR8425	Distribution Automation	<p>Rationale: The new distribution switching equipment is capable of intelligent controls. The integration of this equipment into the Seattle's distribution system will provide significant benefits and will set the stage for a Smart Distribution System that will become one of the main components of a Smart Grid. S&C Electric offers first generation switching equipment with compatible intelligence built in. Through this CIP, the Smart Distribution infrastructure can be designed, constructed, and operated until fully built out. With SMART GRID in place, operators of the distribution system can optimize the operation of our distribution system, reducing time for outage restoration and preventing some outages in the first place. A smart distribution system can also provide real time data of the system, maximizing the capability of the system, and may allow for deferment of capital expenditure. A fiber cable system that can support this operation has been partially constructed. This fiber ring project can continue and be expanded to provide adequate coverage for Smart Grid and other communication needs of Seattle City Light in the future. Fiber optics communication allows secure communications and meets NERC Cyber Security requirements. As the power system is changed or redesigned through usual needs to serve customers, automated switches can be installed in consonance with the integrated DA plan. Eventually the whole distribution system in Seattle Service Area would have a capability to become a Distribution Automation system. Alternative(s): 1. Business as Usual. Automatic switches will be installed as need arises. Power system switching will be done through manually operated switches. Outage restoration will depend on feeder patrols. 2. Expand pilot projects. Candidates are SODO, which is highly congested with power lines and serves the industrial customers, White Center & Burien areas, which have potential for growth, and south Duwamish commercial area. Include the South Lake Union area when the City decides to proceed with the development. Required? Yes. Distribution Automation needs to be a properly funded project. City Light will have a distribution system ready to deliver automation as part of a SMART GRID initiative.</p>	Citywide	\$2,998
------------------	----------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YR8452	Pole Attachments	<p>Rationale: City Light is legally and contractually obligated to make space available on its facilities to government and private entities for communication and other purposes. Customers wishing to utilize space on City Light facilities are required to pay in advance for any necessary work required to provide the necessary space and minimum clearances to the electrical equipment. This ensures that the attachments meet all applicable federal, state and local safety codes. Customers are not allowed to make any attachments until all make ready work, including tree trimming, has been completed and the system made safe for the communication worker. Speed to market in the communications industry is critical for them to maintain their competitive advantage. Customers pay in advance for City Light crews to complete this work on overtime, without interrupting the normal assignments of the crews. All construction charges are deposited into the Light Fund. New wireless facilities and pole attachments generate an additional \$100,000 in rental revenue annually. Currently \$3.3 million in annual rental revenue is being generated and will continue to increase as construction and make ready work is completed. All rental revenue is deposited into the Light Fund. The communications industry and associated technology are growing at an astounding rate. City Light has experienced a 375 percent increase in pole attachment applications since 2007. All trends indicate that this growth will increase by an average of 24 percent annually. This does not take into account major initiatives such as fiber to the home, Advanced Metering Infrastructure (AMI), or vast expansion of existing networks and Distributed Antenna Systems (DAS). Completing the construction for make ready work and wireless facilities will enable City Light to fulfill its legal and contractual obligations to our customers. Customers will be provided a small measure of rate relief through increased revenue streams from these additi</p> <p>Alternative(s): It is possible that some or all of this construction work could be outsourced to electrical utility construction companies. This alternative presents obstacles like logistics, compatible parts, quality control, and required electrical reviewers. These challenges negate any cost savings and sometimes take longer to construct.</p>	System Wide	\$16,057
MC-CL-YR9974	PCB Tracking and Condition Assessment Project	<p>Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.</p>	System Wide	\$300

Appendix A: New or Expanded Capital Facilities

MC-CL-YS7121	Replace Breakers BPA Covington and Maple Valley Substations	Rationale: City Light's interconnection agreement with Bonneville Power makes City Light the owner of the breakers in the Maple Valley Yard. City Light is required by this agreement to make upgrades as required. The breakers are currently over capacity due to the addition of another 500 kV line into the area. Alternative(s): If SCL does not replace the breakers, they may be forced to do so through legal means due to a breach of contract.	Kent	\$11
MC-CL-YS7750	Substation Plant Improvements	Rationale: The Power Stations CIP Review Committee evaluates subprojects for this category based on cost benefit ratios and departmental policies. Proposed work includes seismic improvements to old buildings, refurbishment of concrete buildings, upgrades to potable water systems, and construction of storage facilities for materials and tools. Incidental work that Power Stations do to improve station security is also funded in this project. Alternative(s): The water system at the North Substation is old, deteriorating, and becoming unreliable for drinking and for fire protection. Allowing the present systems to deteriorate may endanger employees and further put the safety and reliability of key system resources at risk. Additional seismic improvements are planned at Broad Street substation. Refurbishment of concrete structures is planned at North Substation. Storage facilities for tools and safety protective ground cables are planned for Delridge and East Pine substations. There are several levels of alternatives for improving security at Seattle City Light's fourteen substations. They range from installing more effective perimeter fencing, to adding remote monitoring systems, to catch intruders.	System Wide	\$1,108
MC-CL-YS7751	Substation Capacity Additions	Rationale: We plan to design the feeder get-aways to carry power from substations as needed. Alternative(s): The alternatives to making capacity additions to existing substations are: 1. Accepting limitations on service to customers. 2. Successfully promoting voluntary power demand reductions. 3. Meeting capacity demand increases by new substations and transmission lines.	System Wide	\$2,199

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YS7752	Substation Equipment Improvements	Rationale: The project includes a regular program of critical electrical equipment replacements at the substations, because this equipment becomes less reliable as it ages. The 2005-2006 plans continue a program to provide supervisory control of breaker functions. This allows remote control and monitoring of substation equipment from the System Control Center, which allows the System Control Center to diagnose the seriousness of an equipment malfunction or switch equipment more quickly. This allows a faster response time to correct system instability or outages. Alternative(s): This project is where the utility funds work on equipment that the maintenance review process identifies as being more cost effective to replace or refurbish than to continue to maintain. A review team prioritizes replacements by their criticality rating. This is a figure provided by the System Control Center that identifies the components of Seattle's distribution infrastructure that are especially important to the system as a whole. For example, an equipment failure at Broad Street Substation may cause more of a problem than one at Canal Substation because it is not as easy to switch loads into the network grid.	System Wide	\$6,117
MC-CL-YS7753	Relaying Improvements	Rationale: Relays are protective devices that guard system components when electrical equipment fails. When a relay senses a problem with a major piece of equipment, it opens the circuit flowing to that component and isolates it from the rest of the electrical system. This protects the rest of the distribution system from potentially cascading effects if one part fails to operate properly. Recent technological advances in relay and protection equipment and software allow remote control and documentation of system events. The work plan includes installing digital fault recorder (DFR) equipment and software at the substations. City Light is changing electro-mechanical relay components to electronic, programmable devices. This will make it easier to detect and manage equipment problems. Alternative(s): Almost every change out of high voltage substation equipment requires that its relay and metering be reset and modified. Not continuing to have a significant relay improvement program would keep us using old technology that is not maintained by its manufacturers.	System Wide	\$5,105
MC-CL-YS7755	Substations Demand Driven Improvements	Rationale: Requests from other agencies typically occur without enough notice to be included in the biennial budgeting process. The Power Stations Division budgets a nominal sum for each year to cover requests and to request spending authority. Alternative(s): The alternative to implementing regional demands is failing to meet City commitments to regional agreements.	System Wide	\$5

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YS7756	Interbay Substation - Development	<p>Rationale: The Broad Street Substation is reaching its capacity to serve the network and the growing South Lake Union neighborhood. The limiting factor is an inability to construct additional underground feeders to carry electrical current in to the area. The existing 26 kV distribution system and substations are becoming overloaded and a new 26-kV substation will feed the areas load growth. The 115 kV ring bus work at Broad Street and Canal Substations will provide the connections to the transmission system. The new substations will provide 10 to 15 new 26 kV getaways, adding to the distribution network and providing a new path for power to the area. Because City Light already owns property for a station in Interbay, it is the nearest opportunity we have to add capacity in the western part of the service area that will off-load demand from the Broad Street Substation for the South Lake Union district. Developers who are interested in projects in the SLU district want to know that City Light will be able to serve their needs reliably. Alternative(s): 1. Not build the new substation. 2. Option one build: Contract out the design and construction 3. Option two build: Have City Light design and integrate the facility into the distribution system, and construct the facility. It requires at least 36 months to site, contract for design, construct, and energize a distribution substation. There are several alternatives such as installing distributed generation facilities to meet load growth. City Light has considered constructing additional transmission corridors from the University Substation and/or Canal Substation. Both alternatives require crossing a body of water, which are expensive options even if environmental challenges do not delay or halt progress. Given the recognized growth in South Lake Union, City Light selected the most cost effective and achievable option - constructing a station at Interbay to serve the growing load in that part of the service territory.</p>	17th Ave West	\$247
MC-CL-YS7776	Substation Transformer Replacements	<p>Rationale: To replace aging substation transformers before they fail in service. Alternative(s): The alternative is to accept the risk of a transformer failure and the consequent added cost and time for emergency replacement.</p>	2136 N 163rd St, Shoreline	\$5,050
MC-CL-YS7779	Substation Breaker Replacements and Reliability Additions	<p>Rationale: To replace aging substation circuit breakers before they fail in service. Alternative(s): The alternative is to accept the risk of a transformer failure and the consequent added cost and time for emergency replacement..</p>	System Wide	\$4,181

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YS7783	Substations Oil Containment	<p>Rationale: The rationale of this project is to get City Light into compliance with the Clean Water Act regulations (Title 40, Code of Federal Regulations, Part 112) which require that oil containment measures be taken that will prevent oil spills into any streams or open bodies of water. During preparation of the Oil Spill Plans required by the regulations, a comparison of existing oil containment facilities was made with the recently revised (August 2002) regulations, which resulted in discovery of instances at 11 of our substations of design problems or capacity problems that should be resolved to fully meet the regulations.</p> <p>Substation Scope of Recommended Oil Containment: (Scott McLean's project estimates) Duwamish Sub - Add oil containment at the bus bays and potential transformers. Major issues are proximity to the Duwamish River, which with porous soils raises the prospect of an oil spill finding its way to groundwater and into the river in a short period of time. Broad Sub - Remedy the insufficient capacity of the oil containment system and lack of impervious sumps. Major issue with the existing system is that spilled oil can overflow the undersized unlined sumps into the combined yard drain sys (i.e. combined drainage and oil containment system) and from there into City drains. There is no oil containment in the E yard. Improve the system or set up a contingency plan. Bothell Sub 1. Provide lining for the currently unlined sumps at transformers and OCBs, and provide for separating the oil containment system from the drainage system. Major issues include unlined sumps; no oil containment for oil tanks at west side next to wetland, combined drainage/oil containment system can spread an oil spill into the yard gravel. 2. Retrofit with impervious sumps at bulk storage tanks with normally closed valve. 3. Pipe 3 CBs at SW yard to MH with OSV. East Pine Sub - Remedy the undersized combined oil containment system, which has the potential of overflowing i</p> <p>Alternative(s): 1. Implement improvements recommended by Oil Spill Plans as soon as possible, to obtain compliance with the applicable federal regulations (Title 40, Code of Federal Regulations, Part 112). 2. Implement recommended improvements over a phased period of time, to obtain compliance with the applicable federal regulations (Title 40, Code of Federal Regulations, Part 112), giving priority to the sites of highest environmental risk. This is the selected alternative. 3. Do nothing.</p>	System Wide	\$548
--------------	-----------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YS8424	Substation Automation	<p>Rationale: Seattle City Light's (SCL) remote monitoring and control of critical substation equipment from our system control center dates from the 1970s, when SCL led the industry's development. The basic configuration in each substation is unchanged since those early days. The configuration consists of a Remote Terminal Unit (RTU), which collects electric system measurements and status; forwards them promptly to the control center; conveys power dispatcher commands back to the substation to operate high voltage switches and circuit breakers for electric system reconfiguration in real time. Industry developments and the toll of decades have made necessary the upgrade of this system. The existing Remote Terminal Unit equipment is 40 years old, wearing out and cannot be replaced in kind because the equipment is no longer manufactured. It has insufficient capacity to address the needs of added substation sensors and controls, cannot offer the computerized capabilities of new technology, cannot support automation of the distribution system feeders radiating from the substations, is too slow to meet the speed requirements of new control applications, is energy inefficient and cannot support modern demands of sophisticated asset management of expensive high-voltage equipment, and it doesn't provide the insight into the operation of the substation that today's staff could be using to improve operation and maintenance practices. Further, an RTU failure will significantly affect the operation of the Automatic Generation Control (AGC) at the EMS. The AGC relies heavily on the RTU for accurate data acquisition of real time power flow on transmission lines to neighboring utilities, comprising the Western Interconnection governed by the Western Electricity Coordinating Council (WECC). The AGC enables the proper allocation of a pool of power generation to the appropriate load required by each utility customer. Loss of AGC due to RTU failure will in turn cause fines from the appropriat Alternative(s): Option I - Replace at Failure: This strategy poses significant business risk that will grow as the equipment ages. Currently, the average age is about 40 years old. This analysis assumes that this equipment will fail at an increasing rate at or before reaching 60 years old. The current technology can no longer be replaced or maintained because it is no longer manufactured. When the RTU fails, it will take one year to replace and require one year of manual operation, which adds approximately \$1Million of additional labor costs above the \$1.3 Million planned cost of replacement. Should SCL lose more than 2 RTUs in one year, it would take longer to replace and require more labor to manually operate the substations. However, replacing this equipment with</p>	System Wide	\$1,275
--------------	-----------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	---------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

modern technology will set the foundation to support future smart grid applications like AMI (Advanced Metering Infrastructure), OMS(Outage Management System), Asset Management applications, Distribution Automation, and reactive power management, to name a few. It will also allow SCL to meet future NERC compliance requirements for substation equipment and install intrusion control measures for substation security. Option II - Preferred Option: Planned RTU Replacement over 7 Years at a rate of 2 per year. This option will: Remove existing RTU. Install new server systems in every substation. Install supervisory control of feeders (30 feeders for each station) that serve network loads to allow remote control of feeder breakers from the EMS. Install group control of network feeders to enable load restoration in case of a sub-network or total substation outages. Install new annunciators and monitors for productive operator interfaces. Two other options were discussed but not pursued for this analysis. One alternative considered adding a server to each substation over 7 years, but did not propose to connect it. This option didn't return sufficient benefit and resulted in the disadvantage of prolonging the peri

MC-CL-YT7011	Transmission Capacity	Rationale: The capacity of the system is based on winter and summer peaks, weather conditions, and N-1 criteria. Additional capacity shall be added to meet the planning criteria for power delivery of new load demand. Alternative(s): If transmission lines are overloaded, overhead wires could sag beyond National Electric Safety Code clearances causing an unsafe condition, and underground lines could exceed the insulation's temperature rating causing damage to the cable. In order to avoid these situations from overload, which could cause long term outages; shorter term load shedding would be used.	System Wide	\$24
MC-CL-YT7104	Transmission Reliability	Rationale: As structures, insulators and conductors reach their end of life expectancy and need to be replaced to maintain existing systems. To meet the National Electric Reliability Council and Western Electricity Coordinating Council reliability criteria, it is necessary to add additional transmission lines that are not capacity driven. Wood poles will have a shorter replacement life of approximately 40-60 years depending on condition assessment. Alternative(s): Allow the lines to fail before replacing them. This can cause a dangerous safety issue and will reduce the availability of the system at unscheduled and inopportune times. The August 2003 East Coast blackout has shown that inattention to the transmission system has large implications.	System Wide	\$3,064

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-YT7105	Transmission Inter-Agency	Rationale: Seattle City Light is required to relocate facilities at the request of other agencies. Drivers for the relocations are road realignments, construction of facilities, regional upgrades, and changes in lighting. Inter-agency projects may or may not be reimbursable depending on real estate drivers. Alternative(s): Do not meet other agencies needs and potentially delay local, state, or regional construction programs. If interagency agreements are not met, there are usually contractual, permit, or franchise rights involved, which could lead to litigation.	System Wide	\$567
MC-CL-YT7125	Denny Substation Transmission Lines	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	System Wide	\$1,001

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL- YT8461	Transmission Line Inductor Installation	<p>Rationale: Rationale: This project is based upon a Memorandum of Agreement (MOA) between Bonneville Power Administration (BPA), Puget Sound Energy (PSE), and Seattle City Light (SCL), aimed at improving the reliability of the regional electric grid in the Puget Sound Area Northern Intertie (PSANI). Since the early 2000's, BPA has limited energy transfers between the Puget Sound area and Canada due to congestion in the Puget Sound Area. This project will reduce congestion and upgrade the reliability of the transmission system, reducing the risk of region-wide customer power outages in the future. Objectives for this project include: 1. Install series inductors on the Massachusetts to Union to Broad (MA-US-BR) and Denny to Broad (DN-BR) 115kV Underground Transmission Cable Lines in the downtown Seattle Transmission System by 2017. 2. Complete all Transmission System Improvements within the 2013 - 2018 CIP Forecast and Budget. 3. Complete all agreed upon Transmission System Improvements per the MOA by the end of 2017. 4. Complete necessary upgrades to existing substation and transmission equipment or structures to support Seattle City Light's 2013 - 2018 Strategic Plan Initiative for Transmission System Improvements. Project Goals: 1. Enhance customer experience and service reliability for SCL customers. 2. Reinforce transmission interties and interconnections with PSE and BPA. 3. Improve SCL asset strengths and load capacity on existing transmission systems. 4. Reduce the risk of region-wide customer power.</p> <p>Alternative(s): City Light belongs to the Columbia Grid, a regional transmission planning organization. SCL and other Columbia Grid members considered alternatives such as new phase shifting transformers, 500kV transmission lines, and additional underground cables. The goal of the regional analysis was to minimize costs and impacts using a one-utility approach for solving the transmission congestion issues. The selected projects were chosen after two years of transmission system studies and analysis. The 2011 report can be found in City of Seattle Ordinance 123779, as an attachment with a table of the alternatives considered.</p>	System Wide	\$285
------------------	-----------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------	-------

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-ZC9937	New Customer Information System	<p>Rationale: A Customer Information System (CIS) is a key information asset for all utilities. The CIS needs to support the business model and directions of the utilities. Products in the CIS market become less viable over time while others become more viable as they mature and evolve. The current billing system, Consolidated Customer Service System (CCSS), that supports customer billing and call center operations of SCL and SPU was implemented originally in 2000 and was upgraded in 2006. This mission critical system supports SPU and SCL call center utility billing functions. As such, it bills over \$900 million in annual retail revenues for both utilities and issues more than 5 million bills per year. The underlying technologies that support the CCSS system are obsolete and no longer supported by the vendor. Replacing CCSS with a new or revised customer care and billing system enables high priority business capabilities that are not currently supported within the existing or upgraded Banner product. Implementation is expected to take 30 months with the assistance of a systems integrator and/or a team of new and dedicated FTEs who will be responsible for the delivery of all project deliverables. Alternative(s): 1. Do nothing. This alternative will have Seattle maintain its business relationship with the current vendor and plan for future upgrades on a periodic basis, about every four years. 2. Contract for customization of the current version to enhance capabilities and functions. 3. Purchase an upgraded version of the application from the same vendor. 4. Replace the CCSS with a different CIS. This alternative will involve developing a strategic plan, a business plan, and procurement plan. This alternative will require a sizable upfront cost for implementation. The utility plans to conduct a business requirements study in 2012 to identify the benefits and costs associated with each option and assist in making the best choice.</p>	700 5th Avenue	\$3,109
MC-CL-ZC9972	Call Center Improvements - City Light	Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.	University District / Roosevelt / Northgate	\$45
MC-CL-ZL8377	Transportation Streetlights	<p>Rationale: 2010 EMS Streetlighting that SCL owns may need to be relocated for transportation purposes, just as other SCL facilities. Often SCL will pay to move all types of its facilities if a project is deemed a Transportation Project. Utilizing SDOT as the design and construction management consultant allows SCL to avoid being in the critical path of transportation projects. It also allows for leveraging engineering staff. Alternative(s): The do nothing alternative would hamper transportation projects and cause delays to the public.</p>	System Wide	\$6,784

*Amounts in thousands of dollars.

Appendix A: New or Expanded Capital Facilities

MC-CL-ZL8378	Streetlights: Arterial, Residential and Floodlights	<p>Rationale: Streetlights and floodlights are provided in public right of way, and on private property, for either public or private benefit. Often these lights are attached on existing City Light wood poles, but they may also be installed on separate metal poles, depending on the application. City Light owns the arterial and non-arterial lighting systems throughout the City of Seattle per Ordinance 119497. In other jurisdictions, franchise agreements may dictate City Light's requirement to support lighting needs. City Light has historically provided the resources to install street lighting. These capital costs are then reimbursed by the requesting party through monthly billing according to Seattle Municipal Code 21.49.060, Schedule T, Option C.</p> <p>Alternative(s): The do nothing alternative would deny new lighting, a service authorized by ordinance. In residential areas, public safety would remain at present levels. Along arterials, the existing aging system would deteriorate beyond usefulness and lag behind improved lighting standards.</p>	System Wide	\$4,334
MC-CL-ZL8441	Streetlight LED Conversion Program	<p>Rationale: 2010 EMS - This project will reduce annually energy consumption by 40% (for those lights replaced), provide Greenhouse Gas Avoidance of 5,446 metric tons of carbon per year, and reduce maintenance cost of the Utility's streetlight system. The savings in energy and maintenance costs will pay for the initial investment within the life of the new system. The overall goal of this project is to improve customer service and reduce cost. With a total system conversion, it is estimated that annual operating costs will be reduced from \$10,180,213.59 per year to \$6,510,231.31 per year. Debt service for system conversion capital cost may be made with these savings. Through 2011, 20,000 cobrahead residential fixtures have been installed. In 2012, residential conversion will take place from the southern border of City Light's service area to Brandon St. The 2013 conversion effort includes residential and minor collector arterials in Zone 2 (250 watt High Pressure Sodium replacements), from Brandon St to Denny Way. Complete conversion of the residential streetlights completion anticipated by the end of 2014. Arterial cobrahead luminaire conversion will continue through 2017. Ornamental LED conversion anticipated through 2021.</p> <p>Alternative(s): No Alternatives Provided.</p>	Citywide	\$2,983
MC-CL-ZL8481	Seattle Waterfront Streetlight Installation	<p>Rationale: No Rationale Provided. Alternative(s): No Alternatives Provided.</p>	1312 Western AVE	\$6,385

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8054	Meter Additions	<p>Rationale: Background: Of the 400,000 meters in City Light's metering system, approximately 80,000 are older than 30 years. City Light's Rates Unit estimates that replacing the meters would result in an increase in revenues of more than \$450,000 annually. City Light has a fiduciary responsibility to continually update the metering system. Due to continuous budget constraints, both in labor and material, targets of 10,000 obsolete meter exchanges were reduced in 2000, 2006 and 2008 to our current level of 5300, thus the backlog of older meters continues to increase. Methodology: New Service Installations: Over the past 9 years, new or upgraded services have averaged 5,500 a year. Material budgeting was based on a 2006 to 2008 average and current labor figures. These project funds support the demands of new construction and upgraded services. Obsolete Meter Exchange: The life cycle of a meter is 30 years based on the electro-mechanical meter. However, current and future electronic technology may reduce this life-span up to 50%. Older meters slow with age, resulting in a loss of revenue to the Department. Obsolete meters can account for up to 3 percent loss in department revenue. The Technical Metering Unit expects to exchange 10,000 obsolete meters annually starting in 2013 through 2016. Alternative(s): 1. Continue to replace obsolete meters at current level of 5,300 annually. City Light could not accurately bill for electrical consumption. Incur loss of City Light revenue due to slow meters. Results in increasing backlog of meters over 30 years old. Increased future utility costs due to replacing obsolete meters at an accelerated pace with higher labor and material costs. 2. Continue to replace obsolete meters at higher level of 10,000 annually. Increase number of customers who receive accurate and timely bills. Reduce loss of utility revenues due to slow meters. Avoid higher cost of meter replacement when meters fail.</p>	System Wide	\$3,830
MC-CL-ZS8350	Overhead Outage Replacements	<p>Rationale: During unplanned outages, work often must be done that requires the complete replacement, rather than repair just one piece of equipment that is normally capitalized. This includes poles and transformers. This project is intended to capture those expenditures. Alternative(s): During an unplanned outage, feeder switching will restore most, if not all of the affected customers. The do nothing alternative possibly leaves the few affected customers without power. The system also remains in its damaged condition which severely limits the flexibility to switch the feeders to allow for other outages, both planned and unplanned. Planned outages are needed to accommodate line moves and other system work.</p>	System Wide	\$1,043

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8352	Underground Outage Replacements	Rationale: During unplanned outages, work often must be done that requires the complete replacement rather than repair just one piece of equipment that is normally capitalized. This includes cable and transformers. When there are no customer outages, the goal is to restore the system to its normal configuration within two months, unless customer driven construction mandates an earlier deadline or the magnitude of the scope of the outage makes this impractical. Alternative(s): During an unplanned outage, feeder switching will restore most, if not all, of the affected customers. The do nothing alternative possibly leaves the few affected customers without power. The system also remains in its damaged condition which severely limits the flexibility to switch the feeders to allow for other outages, both planned and unplanned.	System Wide	\$1,350
MC-CL-ZS8363	Network Additions and Services: Broad Street Substation	Rationale: The Broad Street Substation Network Additions and Services project connects approximately five small, four medium, and five large properties costing \$4.6 million and performs capacity additions work associated with service connections. These connections include condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): No Alternatives Provided.	319 6th AV N	\$10,901
MC-CL-ZS8364	Network Additions and Services: First Hill, Massachusetts, Union & University	Rationale: This Network Additions and Services project for the customers in the First Hill, Massachusetts, Union, and University District network areas provides service connections to approximately nine small, five medium, and four large properties costing \$3.5 million. These connections include condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): No Alternatives Provided.	1555 Utah AV S	\$3,903
MC-CL-ZS8365	Large Overhead and Underground Services	Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost effective manner as a means to fulfill its commitment to be a customer and community focused organization. Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.	System Wide	\$3,371

**Amounts in thousands of dollars.*

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8366	Medium Overhead and Underground Services	<p>Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost effective manner as a means to fulfill its commitment to be a customer and community focused organization.</p> <p>Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.</p>	System Wide	\$19,508
MC-CL-ZS8367	Small Overhead and Underground Services	<p>Rationale: There is a continuous demand for additional electric power services as new construction and renovation work occurs. Seattle City Light provides service to new customers in a safe, reliable, timely, and cost effective manner as a means to fulfill its commitment to be a customer and community focused organization.</p> <p>Alternative(s): Each service connection may have unique aspects that would require or facilitate design, construction, and financing alternatives. Seattle City Light will fully consider alternatives as a means to fulfill its commitment to be a customer and community-focused organization.</p>	System Wide	\$6,020
MC-CL-ZS8379	Normal Emergency	<p>Rationale: This project will collect costs related to the annual storm invoked work orders, which results in more accurate accounting for weather related and other emergency outage situations and leads to better planning for similar future events. SCL traditionally has budgeted for these events in the Outage capital project. This did not allow us to easily account for emergencies versus billed work, such as car and pole accidents. Separating these charges will allow us to track costs and feasibly plan for future emergency situations. Alternative(s): To continue to mix emergency and non emergency work in the Outage capital project. This project does not add a body of work but clarifies the accounting for it.</p>	System Wide	\$687
MC-CL-ZS8380	Major Emergency	<p>Rationale: This project will collect costs related to emergency work. This will result in more accurate accounting for weather related and other emergency outage situations. This project does not add a body of work, but clarifies the accounting for it. SCL traditionally has budgeted for these events in the Outage capital projects. This did not allow us to easily account for emergencies versus billed work such as car and pole accidents. Separating these charges will allow us to track costs and feasibly plan for future emergency situations. Alternative(s): To continue to mix emergency and non emergency work in the Outage capital projects.</p>	System Wide	\$2,885

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8405	Network Additions and Services - Denny	Rationale: This is a mandated project that provides electrical service connections and related improvements in response to requests for service from customers. The project provides targeted civil and electrical design assistance to customers to connect existing and proposed buildings to the North Downtown network system. The conversion effort is quite large since we are installing a new network in this area. It is imperative to participate in early design discussions with customers building in the area. For existing buildings, the conversions to network service are complicated and require expert assistance. This project provides service connections to biotech industry, condominiums, office buildings, medical facilities, hotels, and commercial and apartment buildings. Alternative(s): 1. Do nothing. 2. Hook up customers as they request. Option 2 is recommended as it is most compatible with our mission of customer service.	Valley Street	\$6,057

Appendix A: New or Expanded Capital Facilities

MC-CL-ZS8426	Advanced Metering Infrastructure	<p>Rationale: City Light is at a point where replacement is unavoidable and needed in the short term due to the age and condition of its meters, meter reading equipment, and software. Approximately 50% of 350,000 residential meters in the field are at least 30 years old, which is outside the estimated lifespan for electro-mechanical meters. As of February 2009, residential electro-mechanical meters are no longer being manufactured. The software and handheld devices currently used by City Light meter readers to manually capture and record reads will no longer be supported after 2012. In addition, City Light currently employs 57 FTEs in Customer Billing and 44 FTE Meter Readers, of which 43%, or 25 FTE and 19 FTE respectively, are eligible to retire by 2014. This presents an opportunity for SCL to make operational changes that move the utility from a manual to an automated system at a time when it is needed. Alternative(s): Option 1 - Recommended solution: Full AMI implementation as entered. This option's up front capital costs result in significant net savings due primarily to reduced labor costs and increased revenue. In addition, it establishes the infrastructure, technology, and capabilities for improved customer service and support for future plans and operations. Option 2 - Status quo: Continue current meter replacement cycle using current commercially available digital meters without communication capabilities. At the current expenditure rate, between 5,000 and 7,000 meters are installed annually (replacement of failed meters, new meter growth, service changes, etc.). This option minimizes current annual capital costs, but does not provide for timely replacement of all electro-mechanical meters. In the event of accelerated failure rates from the aging meter population, capital costs would escalate. Other options previously screened out: A. Replace failed electro-mechanical meters with working electro-mechanical meters. The cost of purchasing electro-mechanical meters is currently lower than digital units but they are no longer being manufactured. SCL would have to acquire used or refurbished replacement meters from other utilities or companies, with the risk that availability will be reduced over time. B. Replace current electro-mechanical meters on an accelerated schedule using commercially available digital meters without communication capabilities. This option carries significant capital costs for meters, although it does not require the communications and IT infrastructure. It provides limited benefits, primarily through increased meter accuracy, but provides severely limited benefits compared to AMI deployment. C. Deploy AMI on a limited basis to Commercial and Industrial customers, plus a limited number of small services with</p>	Citywide	\$410
--------------	----------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------	-------

Appendix A: New or Expanded Capital Facilities

MC-CL-ZT8307	Alaskan Way Viaduct and Seawall Replacement - Utility Relocations	<p>access problems. Partial implementation would require reduced capital costs but substantially the same investment.</p> <p>Rationale: The Alaskan Way Viaduct replacement includes a complex transmission and network/non-network relocation, design and construction, and is on a fast track. This work is integrated and required by the broader transportation project. The externally generated project and schedule includes significant electrical relocation work in the near term that will extend for over a decade. The utility is required to relocate for transportation relocated projects. The City's overall plan for the Alaskan Way Viaduct project includes utility funded relocations for the viaduct replacement and for rebuilding the Seawall. The series of subprojects that make up the Alaskan Way Viaduct replacement have opportunities for system improvements that will also be funded under this program. For most of the subprojects in the Alaskan Way Viaduct project, utility relocations will lead the construction. Therefore any delay in accomplishing SCL work will result in delays along the overall projects critical path. While the designs & construction schedules for the various subprojects in the Alaskan Way Viaduct program are being sequenced and detail design is underway for the immediate projects, the central waterfront elements of the overall project are beyond this budget cycle and are still in the preliminary design phases. Alternative(s): The Alaskan Way Viaduct program provides the utility with a combination of obligations and opportunities for system improvements over the next 6 years. The Alaskan Way Viaduct program will likely be the City's primary construction focus as its various projects impact traffic and roadway construction, seawall stabilization, and urban design on the waterfront. Seattle City Light facility relocations will be a part of each of these projects. The global nature of the Viaduct Program also provides the opportunity to make system improvements that will provide for increased reliability and capacity for our customers. For example, work in the south end will include system improvements that will increase feeder capacity and reliability for Port customers. Undergrounding of transmission lines near Broad Sub are being done as part of an overall SDOT street improvement with costs shared based on a negotiated MOA with SDOT. The return of Aurora, north of Harrison Street to a city street, and the decommissioning of the Battery Street Tunnel provides an opportunity to extend ducts and vault across Aurora to help provide system capability to the NODO area.</p>	SR 99 / Battery St	\$6,408

Appendix A: New or Expanded Capital Facilities

MC-CL-ZT8369	Overhead and Underground Relocations	<p>Rationale: This project provides the means to move City Light system infrastructure, located in the public right-of-way for transportation projects, including street widening and street vacation projects. This means moving distribution lines to make way for construction of buildings, bridges, airport runways, tunnels, and for other utilities. This project moves electrical lines to accommodate or take advantage of transportation-related projects being constructed by other agencies. The project builds new and replaces old line segments, installs and replaces poles, and adds or renovates underground facilities to the distribution system, as necessary, to relocate distribution systems for transportation projects, street vacations, or other projects proposed by outside (non-City Light) agencies. Some projects are paid for by City Light and some are paid for by the requesting agencies. This project provides the means to move the system for transportation projects in the public right of way, including street widening and street vacation projects. Alternative(s): The do nothing alternative leaves the distribution of facilities in their current location, which would interfere with the projects of the other agencies.</p>	System Wide	\$4,080
MC-CL-ZT8435	State Route 520 Bridge Relocations	<p>Rationale: SCL is legally required to relocate its infrastructure to support transportation driven projects. Alternative(s): No Alternatives Provided.</p>	SR 520 / Lake Washington	\$7,478
MC-CL-ZT8471	Sound Transit Lynnwood - City Light	<p>Rationale: See alternatives. This is a legally required relocations project for SCL. Alternative(s): The Sound Transit Lynnwood Link project is a mandatory distribution system relocations project for SCL. Pursuant to SCL's status as a utility operating in the public transportation right-of-way, SCL is required by Washington State law to facilitate construction of new transportation projects by other agencies, such as Sound Transit. Therefore, this is not an optional project for SCL.</p>	City Wide	\$2,794

Seattle Department of Transportation

Project Name	Project ID	Project Capacity	Project Location	2021 Budget*
MC-TR-C004	Sound Transit - East Link	This project will provide design review, permitting, and construction support services for the Sound Transit - East Link project.	Citywide	\$70
MC-TR-C013	RapidRide Roosevelt	This project will increase the person-carrying capacity of Seattle transportation network and of the regional transit network.	VARIOUS	\$21,133
MC-TR-C019	Neighborhood Traffic Control Program	This program will install traffic calming devices on neighborhood streets.	Citywide	\$354
MC-TR-C020	New Traffic Signals	This project will install new traffic signals to improve traffic flow, reduce the frequency and severity of traffic accidents, and support pedestrian activity.	Citywide	\$1,867
MC-TR-C021	Next Generation Intelligent Transportation Systems (ITS)	This project will install new Intelligent Transportation System equipment to improve traffic flow.	Citywide	\$1,005
MC-TR-C029	Transit Corridor Improvements	This program implements projects that improve transit speed, reliability, access, and convenience, consistent with the Transit Master Plan.	Citywide	\$3,271
MC-TR-C030	Northgate Bridge and Cycle Track	This program will design and build pedestrian and bicycle improvements in order to increase safety and improve access to transit modes.	Multiple	\$6,064
MC-TR-C037	23rd Avenue Corridor Improvements	This project will install road improvements and improve the efficiency of Seattle transportation network and of the regional transit network.	23rd AVE S/E John ST/Rainier AVE S	\$3,290
MC-TR-C041	Non-Arterial Street Resurfacing and Restoration	This project is consistent with the priority placed on basic services and asset preservation, and protects the City's capital investment in non-arterial asphalt and concrete streets. City crews budgeted against this work are also those who respond to emergency events.	Citywide	\$1,797
MC-TR-C044	Burke-Gilman Trail Extension	This project will construct three miles of new multi-use trail.	VARIOUS	\$2,029
MC-TR-C047	Freight Spot Improvement Program	This project will improve mobility. Specific projects and the corresponding impacts on capacity are still to be determined.	Citywide	\$1,634
MC-TR-C050	Urban Forestry Capital Establishment	The initial estimate for establishment provided by SDOT Urban Forestry as a component of the Org Based Budget is subject to confirmation near the end of construction to ensure support to complete the 3 year establishment for trees and associated planting installed by the project. This coordination between SDOT Urban Forestry and CP&RS supports the close out capital projects in timely manner.	Citywide	\$9

MC-SU-C4107	Regional Facility - Other	This program will improve facilities at SPU's regional sites.	Regional	\$2,700

**Amounts in thousands of dollars.*

DEPARTMENT OF FINANCE AND ADMINSTRATIVE SERVICES

Project ID:	MC-FA-ADAIMPFAS
Project Title:	ADA Improvements - FAS
Location:	FAS facilities
2022 Proposed Budget:	5,267,714
Description:	This project is the FAS American with Disabilities Act (ADA) ongoing program that will address specific ADA improvements and upgrades at various FAS-owned and operated facilities. Past work has included reconfiguration of restrooms, meeting rooms and other spaces, reconfiguration of facility amenities such as drinking fountains and various public access routes to sites, buildings and public spaces. Future funding allows FAS to implement its long-term strategy that resolves the most critical public-facing ADA deficiencies first and maximizes accessibility to the greatest extent possible.

DEPARTMENT OF PARKS AND RECREATION

Project ID:	MC-PR-31008
Project Title:	Rainier Beach CC Debt Service
Location:	8825 Rainier AVE S
2022 Proposed Budget:	985,533
Description:	This project funds the 20-year debt service payment on bonds issued from 2019 -2033 to pay for the renovation of Rainier Beach Community Center.

Project ID:	MC-PR-41004
Project Title:	Aquarium Major Maintenance
Location:	1483 Alaskan WAY
2022 Proposed Budget:	1,252,000
Description:	This ongoing project provides funds for major maintenance at the Aquarium and other related items. Typical projects include seawater pump replacement, tank repairs, energy efficient systems upgrades, exterior decking repairs, Americans with Disabilities (ADA) access improvements, roofing and seismic upgrades, and related work. The facility was constructed in 1980, and a partial addition was installed on Pier 59 portion of the building in 2006. Due to the harsh saltwater environment, Aquarium facilities have a shorter lifespan than similar facilities no located over saltwater. The individual projects will address health and safety codes, extend the life of the asset, improve access for all, reduce energy costs, and improve the overall Aquarium experience for the public. This project is part of the Seattle Park District measure put before voters in 2014.

Project ID:	MC-PR-41017
Project Title:	Landscape Restoration Program
Location:	Citywide

2022-2027 Proposed Capital Improvement Program

Appendix B: Capital Projects passing the \$5 million threshold with the 2022 Proposed allocation.

2022 Proposed Budget: 305,000

Description: This ongoing program restores developed landscape areas by replacing and installing shrubbery, trees, turf, structural elements, and other elements in parks throughout the City. The program also includes a monitoring and plant establishment project, which provides necessary labor and materials to ensure that each restoration site is checked twice a year for the first three years after planting.

SEATTLE CITY LIGHT

Project ID: MC-CL-WC2250

Project Title: Energy Efficiency

Location: NA

2022 Proposed Budget: 28,393,643

Description: This ongoing project funds energy efficiency programs at City Light.

Project ID: MC-CL-WC3133

Project Title: Environmental Claims

Location: System Wide

2022 Proposed Budget: 11,636,595

Description: This ongoing project funds all environmental liability clean-up and remediation work on City Light owned and non-owned properties, whether voluntary or ordered by State or Federal environmental regulating agencies.

Project ID: MC-CL-XF9103

Project Title: Office Furniture and Equipment Replacement

Location: System wide

2022 Proposed Budget: 8,520,500

Description: This ongoing project provides renovations of office space and capital replacement of office equipment, including modular office workstations, conference room ensemble furniture, flexible group workspaces, and major office machines. Improvements will enhance worker safety, with improved light, airflow, and ergonomics, as well as enhance productivity and team collaboration. This project also supports the City's Space Reduction Pilot, which aims to reduce the utility's footprint in the downtown core by 25% to achieve cost efficiencies.

Project ID: MC-CL-XF9161

Project Title: Substation Comprehensive Improvements

Location: System wide

2022 Proposed Budget: 1,310,867

2022-2027 Proposed Capital Improvement Program

Appendix B: Capital Projects passing the \$5 million threshold with the 2022 Proposed allocation.

Description:	This ongoing project funds substation improvements identified in City Light's Comprehensive Facilities Plan, seismic fitness reports, and periodic inspections targeting transmission and distribution buildings. The project implements items necessary to support assigned personnel, such as lunchroom and locker room facilities required by the union contracts, as well as structural and mechanical corrections and enhancements at substation facilities.
Project ID:	MC-CL-XS6232
Project Title:	Skagit - Sewer System Rehabilitation
Location:	Milepost 126 State Highway 20
2022 Proposed Budget:	161,097
Description:	This project funds the replacement or repairs of numerous sewer pipe breaks, leaks, and sags in the combined Skagit River sewer/drainage collection system, located at the Diablo Dam site and also provides major renovations to the aging Newhalem wastewater treatment plant. This project eliminates potential overloads in the sewage treatment plant that can cause pollution of the Skagit River and surrounding soil contamination.
Project ID:	MC-CL-ZS8350
Project Title:	Overhead Outage Replacements
Location:	System wide
2022 Proposed Budget:	1,042,904
Description:	This ongoing project supports the capitalized portion of work resulting from unplanned, non-emergency, overhead outages. These outages result from events, such as storms, accidents, and equipment failures. The project funds permanent storm repairs and construction of new infrastructure to bypass failing equipment. The project ensures that customers' electric power is restored as quickly as possible.
Project ID:	MC-CL-ZT8435
Project Title:	State Route 520 Bridge Relocations
Location:	SR 520 / Lake Washington
2022 Proposed Budget:	7,477,982
Description:	This project provides relocation and installation of power service infrastructure, such as feeder extensions, to support WSDOT's replacement of the State Route 520 Bridge from Montlake to I-5. This project is projected to be fully reimbursable by WSDOT.

SEATTLE DEPARTMENT OF TRANSPORTATION

Project ID:	MC-TR-C020
Project Title:	New Traffic Signals
Location:	Citywide

2022-2027 Proposed Capital Improvement Program

Appendix B: Capital Projects passing the \$5 million threshold with the 2022 Proposed allocation.

2022 Proposed Budget: 1,867,000

Description: This ongoing project installs new traffic signals or significant capital improvements to existing signals to improve traffic flow, reduce the frequency and severity of traffic collisions, and support pedestrian, bicycle or transit activity. Location choices are based upon pedestrian, bicycle, and vehicle volumes; school, senior citizen, and handicapped accessible crossing requirements; transit speed and reliability; and collisions frequency criteria.

Project ID: MC-TR-C054

Project Title: SPU Drainage Partnership - Broadview Pedestrian Improvements

Location: Various

2022 Proposed Budget: 8,099,889

Description: This funding will be used to partner with SPU's South Park Drainage Improvement projects. SPU is planning to install a pump station to control flooding in the South Park area. However, that alone will not control flooding. Many streets in the area are in poor condition and don't have a street drainage collection system. This funding will allow SPU and SDOT to partner to install the needed collection systems and repair the deteriorated roads.

Project ID: MC-TR-C060

Project Title: Bike Master Plan - Urban Trails and Bikeways

Location: Multiple

2022 Proposed Budget: 1,000,999

Description: This program supports the City's Urban Trails and Bikeways. Activities include spot improvements, bike facility safety improvements, bike parking, education & outreach as well as planning & research.

Project ID: MC-TR-C096

Project Title: Georgetown to South Park Trail

Location: Various

2022 Proposed Budget: 4,289,131

Description: This project will create a walkable, bikeable path uniting the Georgetown and South Park neighborhoods. The path will enhance walkability between Georgetown and South Park's historic Main Streets. Funding covers preliminary engineering, design, and outreach.

Project ID: MC-TR-C105

Project Title: Thomas Street Redesigned

Location: Thomas St. from 5th Ave N to Dexter Ave N

2022 Proposed Budget: 3,849,649

Description: The project makes improvements to Thomas St from 5th Ave N to Dexter Ave N, including, but not limited to: (1) a half block closure of 5th Ave N and Thomas St to create a public plaza adjacent to the Seattle Center skate park, (2) a 36' wide pedestrian and bicycle promenade from 5th Ave N to Dexter Ave N, and (3) a protected intersection at Dexter Ave N and Thomas St.

Project ID: MC-TR-C112

2022-2027 Proposed Capital Improvement Program

Appendix B: Capital Projects passing the \$5 million threshold with the 2022 Proposed allocation.

Project Title:	Structures Major Maintenance
Location:	Citywide
2022 Proposed Budget:	3,659,999
Description:	This program provides for major maintenance and rehabilitation of the City's bridges and structural assets that are maintained by the Roadway Structures Division. Examples of improvements that could be funded by this project include: electrical and mechanical upgrades of moveable bridge operating and control systems, repair of cracks and maintenance of concrete and steel structures, and site protection of bridge facilities.

SEATTLE PUBLIC UTILITIES

Project ID:	MC-SU-C1128
Project Title:	Distribution System Improvements
Location:	Citywide
2022 Proposed Budget:	2,498,183
Description:	This ongoing program improves service reliability, pressure, capacity, and fire flow in the City's water distribution system. Typical improvements may include, but are not limited to, booster pump station installation, creation of new service zones, and tank elevation or replacement, as well as additional water main pipelines and pressure reducing valves. These improvements to service levels meet Washington Department of Health (DOH) regulations and SPU's Distribution System Pressure Policy to provide greater than 20 psi service pressure. These improvements provide higher flow of water for fire protection which improves public safety and results in smaller and shorter fires.

Project ID:	MC-SU-C3708
Project Title:	Outfall Rehabilitation Program
Location:	Various
2022 Proposed Budget:	500,000
Description:	This ongoing project provides rehabilitation of outfalls throughout Seattle Public Utilities service area. Typical improvements may include, but are not limited to, repair, rehabilitation or replacement of outfall structures. This project will investigate the condition of each of the outfalls and complete an options analysis, followed by design, construction, and closeout activities.

Project ID:	MC-SU-C5404
Project Title:	IT Infrastructure
Location:	N/A
2022 Proposed Budget:	1,750,000

2022-2027 Proposed Capital Improvement Program

Appendix B: Capital Projects passing the \$5 million threshold with the 2022 Proposed allocation.

Description: This ongoing IT asset management project ensures the availability, reliability, and security of SPU's corporate computing infrastructure. The project acquires and maintains SPU-owned and managed servers, local networks, shared storage and backup systems, operating software, and communications infrastructure.

SEATTLE PUBLIC LIBRARY

Project ID: MC-PL-B3100
Project Title: IT Infrastructure
Location: Various Locations
2022 Proposed Budget: 6,382,000
Description: This project represents system-wide Information Technology (IT) Infrastructure improvements for The Seattle Public Library, including enterprise equipment upgrades and integrated library system (ILS) replacement.

1% for Art: A program administered by the Office of Arts and Culture (ARTS) that sets aside one percent of eligible City capital improvement project funds for the commission, purchase, and installation of artworks.

2000 Parks Levy (“Neighborhood Parks, Green Spaces, Trails, and Zoo Levy”): A \$198.2 million, eight-year levy lid lift passed by Seattle voters in November 2000. The levy is designed to fund more than 100 park, open space, and recreation projects throughout the city.

2008 Parks Levy (“Parks and Green Spaces Levy”): A \$145.5 million, six-year levy lid lift passed by Seattle voters in November 2008. The levy was designed to fund park and green space acquisition, capital expansion and renovation of parks, and park facilities throughout the city.

Americans with Disabilities Act (ADA): A comprehensive civil rights law for people with disabilities passed by the federal government in 1990.

Allocation: The expenditure amount planned for a project or service that requires additional legislative action, or “appropriation,” before expenditures are authorized.

Appropriation: A legal authorization granted by the City’s legislative authority (the City Council) to make expenditures and incur obligations for specific purposes.

Asset Preservation (also known as Major Maintenance): Capital improvement projects that involve major repairs or rehabilitation of existing City facilities.

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City’s budget for certain capital purposes, such as street improvements, building construction, and some types of facility maintenance. The CIP is a six-year allocation plan presented as a document separate from the Budget that details all projects, fund sources, and expenditure amounts including many multi-year projects that require funding beyond the one-year period of the annual Budget.

Capital Projects Funds: Funds with resources set aside to acquire or construct major capital facilities that allow the monitoring of revenues and expenditures of authorized voter approved and Councilmanic bonds and levies.

Capital Projects Passing the \$5 million threshold (Appendix B): Pursuant to the 1999 settlement agreement in *CLEAN, et. al v. City of Seattle*, the City has adopted policies regarding public notification when capital projects cross certain spending thresholds. Resolution 31203 updated those policies to require a list of all Capital Projects for which the City has cumulatively spent more than \$5 million with the adoption of the current annual Budget be published as an appendix to the Capital Improvement Program.

Community Development Block Grant (CDBG): An annual grant to Seattle and other local governments from the U.S. Department of Housing and Urban Development to support economic development projects, housing and services in low-income neighborhoods.

Comprehensive Drainage Plan: A Citywide drainage management program for capital improvements and ongoing maintenance. It establishes a monitoring program and identifies measures to control flooding and pollution, such as regulatory controls and public education.

Cumulative Reserve Fund (CRF): A source of ongoing local funding to support capital projects in general government departments. The CRF consists of two accounts: The Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has three Funds: REET I Capital Projects Fund, REET II Capital Projects Fund, and the Unrestricted Cumulative Reserve Fund.

Design Build Operate (DBO): A non-conventional approach to implementation of major capital projects, wherein a single vendor is responsible for design, construction, and long-term operation of a facility.

Debt Service: Annual principal and interest payments that local government owes on money that it has borrowed.

Endangered Species Act (ESA): Legislation passed by the federal government in 1973 to conserve the ecosystems upon which endangered species depend upon and to conserve and recover listed species.

Fire Facilities and Emergency Response Levy: A \$167 million, eight-year levy lid lift, approved by voters in November 2003. The Levy includes funds for more than 40 projects to upgrade, renovate, or replace most of the City's fire stations, construct new support facilities for the Fire Department, construct a new Emergency Operations Center and Fire Alarm Center, procure two new fireboats and rehabilitate an existing one.

Fund Balance: The difference between the assets and liabilities of a fund. This incorporates the difference between the revenues and expenditures each year.

General Fund: A central fund into which most of the City's general tax revenues and discretionary resources are pooled and allocated to support many of the operations of City government. General Fund dollars appear in the CIP in two places: the General Fund contribution to the Cumulative Reserve Fund (if any) and appropriations to capital projects from a department's operating budget.

Geographic Information System (GIS): A tool that enables users to analyze and understand the spatial relationships among things that exist and occur in a location. The results of geographic analysis can be communicated with maps and/or reports.

Growth Management Act (GMA): Passed by the state legislature in 1990, the Growth Management Act encourages strategic land use planning and provides protection for environmentally sensitive areas.

Habitat Conservation Plan (HCP): A 50-year commitment by the City and Seattle Public Utilities to protect and restore the Cedar River Watershed.

Leadership in Energy and Environmental Design (LEED): A green building rating system for new and existing commercial, institutional, and multi-family residential buildings that evaluates environmental performance from a "whole building" perspective. There are four rating levels: Bronze, Silver, Gold, and Platinum.

Levy Lid Lift: An increase in regular property taxes for a general or designated purpose—for example, the 2008 Parks Levy.

Levy to Move Seattle: A nine-year, \$930 million-dollar levy passed by voters in November 2015. The levy provides funding to improve safety for all travelers, maintain streets and bridges, and invest in reliable, affordable travel options.

Limited Tax General Obligation (“LTGO” or “Councilmanic”) Bonds: Bonds that are issued by the City Council without voter approval. The debt service on these bonds is typically repaid from existing general government revenues or from revenues generated by the project(s) financed with the bonds.

Major Maintenance: See “Asset Preservation” above.

Municipal Art Plan: A plan prepared by the Office of Arts and Culture that establishes budgets for new 1% for Art program projects and describes the status of existing projects.

Neighborhood Matching Subfund (NMF): A fund administered by the Department of Neighborhoods to provide money to Seattle neighborhood groups and organizations for neighborhood-initiated improvement, organizing, or planning projects. The community’s contribution of volunteer labor, materials, professional services or cash is “matched” by cash from the fund.

Operating Budget: The portion of a budget that deals with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

Public Works Trust Fund: A low-interest state revolving loan fund designed to help local governments with the repair, replacement, and rehabilitation of public works infrastructure.

REET I and REET II: The Real Estate Excise Tax (REET) is levied on all sales of real estate with the first 0.25% of the locally imposed tax going to REET I and the second 0.25% for REET II.

Seattle Metropolitan Park District: In August 2014, voters passed a ballot measure creating the Seattle Metropolitan Park District. The goal of the park district is to provide long-term, stable funding to support recreation programming, parks projects and the critical needs for investment in major and ongoing maintenance.

Unlimited Tax General Obligation (“UTGO” or “voted”) Bonds: Bonds issued after receiving approval by 60% of the voters in an election with at least 40% voter turnout. The debt service on these bonds is repaid from additional (“excess”) property tax revenues that voters approve as part of the bond measure.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the 2022 Budget; authorizing Department directors to accept anticipated future grants and enter into revenue-backed service contracts to support appropriations in the 2022 Budget. WHEREAS, most grants to City departments are accepted in the quarterly supplemental budget ordinances, but

several are recurring and are assumed to be renewed in the annual budget; and

WHEREAS, grant appropriations typically carry forward unspent appropriation, backed by the revenue previously received; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Attachment A to this ordinance lists approximate appropriation amounts in the 2022 Budget (introduced as Council Bill [REDACTED]) that are backed by anticipated future grants and service contracts. The Directors of City Departments listed in Attachment A are authorized to accept grants or revenue-backed service contracts consistent with the appropriations listed. Unspent funds so appropriated shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved by me this _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

Monica Martinez Simmons, City Clerk

(Seal)

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the 2022 Budget; authorizing Department directors to accept anticipated future grants and enter into revenue-backed service contracts to support appropriations in the 2022 Budget.

Summary and background of the Legislation: This bill authorizes City Department directors to accept grants and enter into revenue-backed service contracts anticipated as part of the 2022 Budget. Several departments routinely receive reliable funds from federal and state governments and other sources. The 2022 Budget relies on these revenues to back appropriations. Additionally, the appropriations backed by these sources will carry forward to subsequent budget years until exhausted.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No.

Is there financial cost or other impacts of *not* implementing the legislation?
Not authorizing directors to accept these grants would impact the resources available to the City in 2022.

3.a. Appropriations

☐ **This legislation adds, changes, or deletes appropriations.**

Appropriations Notes: The 2022 Budget contains appropriations backed by the anticipated grants authorized in this bill.

3.b. Revenues/Reimbursements

X This legislation adds, changes, or deletes revenues or reimbursements.

Revenue/Reimbursement Notes: See Attachment A to the ordinance for a list of all of the revenues anticipated as a result of this legislation.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
Several City Departments are authorized to accept future revenue as a result of this legislation.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. **Does this legislation affect a piece of property?**
No.
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
The revenues anticipated in this bill support a wide variety of City programs.
- f. **Climate Change Implications**
1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
N/A

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION adopting revised financial policies for the Emergency Fund.

WHEREAS, the Mayor and City Council are committed to maintaining high standards of financial management; and

WHEREAS, adopting and periodically updating financial policies are important actions that help to ensure consistent and rational financial planning and management; and

WHEREAS, Resolution 31717 revised financial policies for the Emergency Subfund; and

WHEREAS, as part of the City's conversion from SUMMIT to PeopleSoft 9.2, the Emergency Subfund was renamed the Emergency Fund; and

WHEREAS, the World Health Organization (WHO) has declared that the Coronavirus Disease 2019 (COVID-19) is a global pandemic; and

WHEREAS, on February 29, 2020, the Washington Governor issued Proclamation 20-05, proclaiming a state of emergency for all counties throughout the state of Washington in response to new cases of COVID-19; and

WHEREAS, in response to outbreaks of COVID-19 in Seattle, Mayor Jenny Durkan proclaimed a civil emergency exists in Seattle in the Mayoral Proclamation of Civil Emergency dated March 3, 2020; and

WHEREAS, on March 5, 2020, the City Council adopted Resolution 31937 affirming the civil emergency, modifying orders transmitted by the Mayor related to the emergency, and establishing Council's expectations related to future orders and reporting by the Mayor during the civil emergency; and

WHEREAS, on March 13, 2020, the President of the United States declared a national state of emergency in response to the COVID-19 pandemic; and

WHEREAS, on March 23, 2020, the Governor issued a “Stay Home, Stay Healthy” order, which, combined with other measures taken to prevent the transmission of COVID-19, effectively closed many businesses in the state of Washington; and

WHEREAS, the immediate economic impacts from the COVID-19 emergency have been drastic and are expected to last much longer than the civil emergency itself; and

WHEREAS, these impacts are being felt across all industry sectors, including retail, restaurant, hospitality, transportation, logistics, arts, and culture; and

WHEREAS, at the end of August 2020, over 3,000 businesses in the Seattle metropolitan area were closed, with an estimated 59 percent of those closures being permanent, and over 32,700 people in Seattle were unemployed; and

WHEREAS, the impacts of the COVID-19 emergency include a severe local, state, national, and global economic recession, all of which impact the City’s revenue streams; and

WHEREAS, the Mayor and City Council used some of the resources contained in the Emergency Fund to address the City’s response to the COVID-19 emergency in 2020 and 2021; and

WHEREAS, the City will not be able to restore the balance of the Emergency Fund according to the policy adopted in 2016 for several years; and

WHEREAS, the Mayor and City Council have reviewed the financial policies for the Emergency Fund and wish to revise and update those policies; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR CONCURRING, THAT:

Section 1. Attachment A to this resolution is adopted as the Financial Policies for the Emergency Fund,

which were last amended by Resolution 31717.

Adopted by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its adoption this _____ day of _____, 2021.

President _____ of the City Council

The Mayor concurred the _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

Attachment A - Emergency Fund Financial Policies

FINANCIAL POLICIES FOR THE CITY OF SEATTLE EMERGENCY FUND

Introduction

The Emergency Fund is the City's main reserve fund and is available to pay for unanticipated or unplanned expenditures that occur during the course of the fiscal year.

Fund Structure

Policy 1. Fund structure. The City shall maintain in the City Treasury an Emergency Fund as described in RCW 35.32A.060. [Ord 125492]

Expenditures

Policy 2. Emergency expenditures. By an ordinance approved by three-fourths of all of its members, the City Council may authorize the expenditure of sufficient money from the Emergency Fund to meet the expenses or obligations:

1. Caused by fire, flood, explosion, storm, earthquake, epidemic, riot, insurrection, act of God, act of the public enemy or any other such happening that could not have been anticipated; or
2. For the immediate preservation of order or public health, or for the restoration to a condition of usefulness of public property the usefulness of which has been destroyed by accident; or
3. In settlement of approved claims for personal injuries or property damages, exclusive of claims arising from the operation of a public utility owned by the city; or
4. To meet mandatory expenditures required by laws enacted since the last budget was adopted. [RCW 35.32A.060, Ord 120489]

Policy 3. Other expenditures with insufficient or no appropriations. By an ordinance approved by three-fourths of all its members, the City Council may appropriate from the Emergency Fund an amount sufficient to meet the actual and necessary expenditures of the City for which insufficient or no appropriations have been made due to causes which could not reasonably have been foreseen at the time of the making of the budget. [RCW 35.32A.060, Ord 120489] Expenditures of this type need not be appropriated from the Emergency Fund, but can be appropriated from other City funds whose purposes are consistent with the intended expenditure, provided sufficient balances are available and provided an ordinance approving the expenditure is passed by three-fourths of all the members of the City Council. [Res 30379]

Revenues/Fund Balances

Policy 4. Fund balance requirements. At the beginning of each year, sufficient funds shall be appropriated to the Emergency Fund so that its balance shall not be less than \$60,000,000 as measured in 2016 dollars and adjusted to current nominal dollars by the Seattle Consumer Price Index for All Urban Consumers (CPI-U) (per the Washington Economic Forecast Summary as prepared by the State of Washington), and, per state law, shall not exceed thirty-seven and one-half cents per thousand dollars of taxable assessed value in the city. [Res 28953, Res 31717], unless a severe or long-lasting event has resulted in a significant depletion of the Fund's resources, consistent with the purposes identified in Policy 2. [New Policy]

If such circumstances lead to deep or multiple years of spending from the fund, the City shall make contributions to satisfy the target balance within a period of five years, and sooner if practically possible. [New policy]

The City may also choose to reimburse the Emergency Fund during the year for any expenditures incurred, by transferring unexpended and unencumbered balances from another City fund, or from other reimbursements the City may receive. [Res 30379]

Planning/Reporting Requirements

Policy 5. Year-to-date appropriations. The City Council will receive with every appropriation request for emergency or other expenditures with insufficient or no appropriation a list of all such year-to-date appropriations, the fund from which they were appropriated, and the cumulative dollar total for the year. [Res 30379, Revised from Res 27206]

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
City Budget Office		Chloe Wilkes

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: A RESOLUTION adopting revised financial policies for the Emergency Fund.

Summary and background of the Legislation: Due to the COVID-19 pandemic and related economic downturn, the City's revenues have been and will continue to be significantly reduced from estimates established prior to the pandemic. Simultaneously, the City has realized and continues to realize significant, previously unforeseen expenses to address the emergency.

The Emergency Fund exists for City expenses during an emergency or expenses that could not have been anticipated during the annual budget adoption. The COVID-19 emergency has presented both challenges; accordingly, the 2020 Revised and the 2021 Adopted leverage some of the balance of the Emergency Fund to address emergency expenses and reduced revenues.

The existing financial policies for the Emergency Fund, last adopted in 2016 during a much different economic scenario, require that the City make contributions to maintain the Emergency Fund at \$60 million in 2016 dollars, inflated annually by CPI-U. The policy does not define a process for rebuilding the reserve after a significant drawdown of funds.

Due to the severe and prolonged revenue shortfall, increased expenses, and anticipated length of the COVID-19 emergency, it is not realistic for the City to meet the fund balance requirements for the Emergency Fund in the immediate future. This legislation calls for the replenishment of the Emergency Fund to satisfy the target balance within a period of five years, sooner if practically possible.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

If the City were to follow the Emergency Fund policies as currently written, it would never be able to use the balance without replenishing it in less than a year. This does not reflect the reality of a longer-term or more significant emergency such as the COVID-19 pandemic.

Is there financial cost or other impacts of *not* implementing the legislation?

No.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Not directly.

b. Is a public hearing required for this legislation?

No.

c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?

No.

d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times*

No.

e. Does this legislation affect a piece of property?

No.

f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

Not applicable.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

Not applicable.

Summary Attachment A – Emergency Fund Financial Policies, as revised since adoption of Resolution 31717 in 2016

FINANCIAL POLICIES FOR THE CITY OF SEATTLE EMERGENCY FUND

Introduction

The Emergency Fund is the City's main reserve fund and is available to pay for unanticipated or unplanned expenditures that occur during the course of the fiscal year.

Fund Structure

Policy 1. Fund structure. The City shall maintain in the City Treasury an Emergency Fund as described in RCW 35.32A.060. [Ord 125492]

Expenditures

Policy 2. Emergency expenditures. By an ordinance approved by three-fourths of all of its members, the City Council may authorize the expenditure of sufficient money from the Emergency Fund to meet the expenses or obligations:

1. Caused by fire, flood, explosion, storm, earthquake, epidemic, riot, insurrection, act of God, act of the public enemy or any other such happening that could not have been anticipated; or
2. For the immediate preservation of order or public health, or for the restoration to a condition of usefulness of public property the usefulness of which has been destroyed by accident; or
3. In settlement of approved claims for personal injuries or property damages, exclusive of claims arising from the operation of a public utility owned by the city; or
4. To meet mandatory expenditures required by laws enacted since the last budget was adopted. [RCW 35.32A.060, Ord 120489]

Policy 3. Other expenditures with insufficient or no appropriations. By an ordinance approved by three-fourths of all its members, the City Council may appropriate from the Emergency Fund an amount sufficient to meet the actual and necessary expenditures of the City for which insufficient or no appropriations have been made due to causes which could not reasonably have been foreseen at the time of the making of the budget. [RCW 35.32A.060, Ord 120489] Expenditures of this type need not be appropriated from the Emergency Fund, but can be appropriated from other City funds whose purposes are consistent with the intended expenditure, provided sufficient balances are available and provided an ordinance approving the expenditure is passed by three-fourths of all the members of the City Council. [Res 30379]

Revenues/Fund Balances

Policy 4. Fund balance requirements. At the beginning of each year, sufficient funds shall be appropriated to the Emergency Fund so that its balance shall not be less than \$60,000,000 as measured in 2016 dollars and adjusted to current nominal dollars by the Seattle Consumer Price Index for All Urban Consumers (CPI-U) (per the Washington Economic Forecast Summary as prepared by the State of Washington), and, per state law, shall not exceed thirty-seven and one-half cents per thousand dollars of taxable assessed value in the city. [Res 28953, Res 31717], unless a severe or long-lasting event has resulted in a significant depletion of the Fund's resources, consistent with the purposes identified in Policy 2. [New Policy]

If such circumstances lead to deep or multiple years of spending from the fund, the City shall make contributions to satisfy the target balance within a period of five years, and sooner if practically possible. [New policy]

The City may also choose to reimburse the Emergency Fund during the year for any expenditures incurred, by transferring unexpended and unencumbered balances from another City fund, or from other reimbursements the City may receive. [Res 30379]

Planning/Reporting Requirements

Policy 5. Year-to-date appropriations. The City Council will receive with every appropriation request for emergency or other expenditures with insufficient or no appropriation a list of all such year-to-date appropriations, the fund from which they were appropriated, and the cumulative dollar total for the year. [Res 30379, Revised from Res 27206]

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to fees and charges for permits and activities of the Seattle Department of Construction and Inspections, related fees by other departments, and technical corrections; amending Sections 22.900D.090, 22.900D.100, and 22.900D.150 of the Seattle Municipal Code (SMC).

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 22.900D.090 of the Seattle Municipal Code, last amended by Ordinance 126213, is amended as follows:

22.900D.090 Permit fees for mechanical equipment and systems, other than boilers and pressure vessels and refrigeration systems

* * *

Table D-8 for 22.900D.090-Permit Fees for Mechanical Equipment	
Type of Installation	Fee
Forced air, gravity-type, or floor furnace, gas or oil heater, heat pump, recessed wall heater or floor-heater, wall furnace, circulating heater, or wood insert including ducts and burners attached thereto	(\$118.55) \$79.43 per unit
New gas or oil burners and newly installed used burners ¹	(\$148.20) \$99.29 per unit
Appliance vents Class A, B, BW, or L if installed separately	(\$117.50) \$78.73 per unit
Mechanical air-moving systems	See Table D-2 for 22.900D.010
Appliances or equipment or other work not classified in other categories, or for which no other fee is listed	Hourly at the SDCI hourly rate. Minimum of 1/2 hour.
Footnote to Table D-8 for 22.900D.090 ¹ See Table D-12 for 22.900D.110 for rates for burners in	

* * *

Section 2. Section 22.900D.100 of the Seattle Municipal Code, last amended by Ordinance 126213, is amended as follows:

22.900D.100 Refrigeration equipment and systems

* * *

Table D-10 for 22.900D.100-Refrigeration Permit Fees ¹	
Type or Size of System/Equipment	Fee
Basic fee ²	(((\$55.90)) <u>\$37.45</u>
Additional installation fee per compressor	
0 - 5 tons	(((\$69.85)) <u>\$46.80</u>
6 - 25 tons	(((\$141.85)) <u>\$95.04</u>
26 - 100 tons	(((\$265.65)) <u>\$177.99</u>
101 - 500 tons	(((\$374.65)) <u>\$251.02</u>
Over 500 tons	(((\$455.10)) <u>\$304.92</u>
Repair and alteration (value of work)	
\$0 - \$1,000	(((\$69.85)) <u>\$46.80</u>
\$1,001 - \$5,000	(((\$101.60)) <u>\$68.07</u>
\$5,001 - \$10,000	(((\$175.70)) <u>\$117.72</u>
Over \$10,000	(((\$173.55)) <u>\$116.28</u> plus (((\$69.85)) <u>\$46.80</u> each \$5,000 or fraction thereof of valuation above \$10,000
Footnotes to Table D-10 for 22.900D.100 ¹ Where the application for permit shows horsepower rather than cooling tonnage, the fees of this table shall apply at a rate of one horsepower equals one ton of cooling capacity. ² The basic fee applies to new installations, repairs, and alterations.	

* * *

Section 3. Section 22.900D.150 of the Seattle Municipal Code, last amended by Ordinance 126213, is amended as follows:

22.900D.150 Electrical permit fees

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
SDCI	Shane Muchow/206-684-7396	Christie Parker/206-684-5211

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to fees and charges for permits and activities of the Seattle Department of Construction and Inspections, related fees by other departments, and technical corrections; amending Sections 22.900D.090, 22.900D.100, and 22.900D.150 of the Seattle Municipal Code (SMC).

Summary and background of the Legislation:

This legislation revises a portion of SDCI's fees and charges beginning on January 1, 2022. The majority of SDCI's fees and charges were last revised in Ordinance 125982 effective January 1, 2020, which provided an inflationary adjustment of 4%. Ordinance 126213, which adjusted fees effective January 1, 2021, made only minor adjustments to electrical, refrigeration and furnace fees. The proposed 2022 fee revisions include changes to electrical, refrigeration and mechanical equipment fees. SDCI has determined these cost centers have sufficient revenue streams warranting a decrease in fee levels.

SDCI is primarily fee-supported, and its fees and charges are necessary to support SDCI's permitting operations. All fees collected by SDCI for processing SDCI's permits are used for that purpose, and the fee structure is reflective of the Seattle Municipal Code requirements to recover the cost of providing the permitting service. This legislation will help ensure that the fees that SDCI collects are in line with the services provided.

Attachment A to this Summary and Fiscal Note, "SDCI Permit Fee and Charges proposed for 2022" provides a summary of all SDCI fees affected by this proposed ordinance, and proposed changes for 2022. Prior to proposing this legislation, these fees were reviewed to determine whether the cost of providing the service warrants a fee change, if improvements to the fee structure are necessary, or if new fees are required.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Appropriation change (\$):	General Fund \$		Other \$	
		2022		2022
	\$0	\$0	\$0	\$0
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
		2022		2022
	\$0	\$0		(\$865,994)
Positions affected:	No. of Positions		Total FTE Change	
		2022		2022
		0		0.0

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
No

Is there financial cost or other impacts of *not* implementing the legislation?
Not implementing this legislation as proposed would create a situation where the revenues SDCI collects through fees would exceed the cost of providing permitting services.

3.a. Appropriations

☐ This legislation adds, changes, or deletes appropriations.

3.b. Revenues/Reimbursements

☒ This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2022 Estimated change in Revenue
Construction and Inspections Fund (48100)	SDCI	Electrical	(\$355,516)
Construction and Inspections Fund (48100)	SDCI	Refrigeration & Mechanical	(\$510,478)
TOTAL			(\$865,994)

Is this change one-time or ongoing?
Ongoing

Revenue/Reimbursement Notes:
None

3.c. Positions

— This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?
No
- b. Is a public hearing required for this legislation?
No
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?
No
- d. Does this legislation affect a piece of property?
No
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?
By regularly reviewing fees, SDCI is able to ensure that the fees it sets appropriately cover the costs of the services it provides. After a thorough review and discovery of efficiencies in processes, SDCI is able to reduce fees in the proposed programs, making the application and permitting process more affordable to the community. Reducing fees for electrical, refrigeration and mechanical permits will positively impact communities of color and historically disadvantaged communities, many of whom are small business owners.
- f. Climate Change Implications
1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?
No
2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.
There is no anticipated impact on Seattle's ability to adapt to climate change.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?
This legislation does not include a new initiative or major programmatic expansion.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to street and sidewalk use; amending the Street Use Fee Schedule authorized by Section 15.04.074 of the Seattle Municipal Code; and ratifying and confirming certain prior acts.

WHEREAS, Section 15.04.074 of the Seattle Municipal Code authorizes and directs the Director of

Transportation to prepare and recommend to the City Council, for passage by ordinance, a schedule of fees applicable to all street and sidewalk use permits (“Street Use Fee Schedule” or “fee schedule”), which may take into consideration the desirability or undesirability of the use of occupation relative to the rights of the public; and

WHEREAS, street use permits must fully recover their cost to comply with the Seattle Municipal Code; and

WHEREAS, the Street Use Division has analyzed the Seattle Department of Transportation’s (SDOT) rates and

fees to ensure cost recovery, including creating specific fees for Street Improvement Permit Lite and Council Term permits, modifying and updating the Street Vacation filing fee to an issuance fee, and updating issuance fees and rates for street use permits based on this analysis; and

WHEREAS, SDOT is clarifying that the hourly review and inspection rate applies for reviews and inspections completed by SDOT and other City Departments; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The Seattle Department of Transportation (SDOT) Street Use Fee Schedule, last amended by Ordinance 126339, is replaced by the SDOT Street Use Fee Schedule attached as Attachment A to this ordinance.

Section 2. Effective January 1, 2022, the SDOT Street Use Fee Schedule is replaced by Attachment A to this ordinance. Otherwise, authority to adjust rates and fees as authorized in Ordinances 125945, 125706, and 125185 remains in effect.

Section 3. Any act consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 4. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

Monica Martinez Simmons, City Clerk

***“Snow and ice removal” references Seattle Municipal Code Section 15.48.010

Definitions

<u>Factor/Term</u>	<u>Description</u>
ROW Simple	A simple permit is a permit that requires minimal review, such as a dumpster or storage container.
ROW Complex	A complex permit requires technical review and coordination, such as a 50-foot utility trench, a tower crane or other construction staging.
PSM	Public Space Management (PSM) issues permits ranging from short-term activation of the right of way (e.g., neighborhood block parties) to long-term renewing permits for private encroachments like retaining walls and sidewalk cafes. This includes term permits and shoreline street ends, as well as pilot projects. This applies to the following short-term use codes: 3AA, 3A, 3B, 3C, 19B-19K, 52A, 54B. This applies to the following long-term use codes: 2A, 3D, 6, 7, 7A, 7C, 8, 11, 12, 14, 16, 18A, 18B, 18D, 18E, 19A, 21, 22B, 29A, 52, 62, WW100, WW150.
Short-Term	Permits that are not renewed and are generally less than one year in duration.
Long-Term	Permits that are scheduled to renew on an annual basis.

Land value	<p>For Term permits, the value of the use area in the right-of-way shall be based on the abutting parcel's current per-square-foot land value as determined by the King County Assessor. If the use area extends beyond the right-of-way centerline or abuts multiple parcels, the permit fee shall be calculated by averaging the abutting parcels' current land values.</p> <p>For Shoreline Street End permits, the value of the use area in the right-of-way shall be based on the abutting parcel's current per-square-foot land value as determined by the King County Assessor. If the use area extends beyond the centerline of the right-of-way or abuts multiple parcels, the permit fee shall be calculated for each portion of the use area according to the current per-square-foot land value of the abutting parcels.</p> <p>If all parcels abutting the Term or Shoreline Street End permitted use area are government-owned and the parcels are not tax assessed in whole or in part by King County, the parcels shall be excluded when establishing the Term or Shoreline Street End permit fee. To determine the permit fee, the current per-square-foot land value as determined by the King County Assessor of the closest privately-owned parcel or parcels with the same zoning or shoreline designation of the Term or Shoreline Street End permitted use area shall be averaged. If the next closest privately-owned parcel or parcels do not have the same underlying zoning or shoreline designation as the abutting government-owned parcel, the Seattle Department of Transportation shall consult with the City Appraiser. The City Appraiser shall determine if the next closest parcel or parcels with similar zoning or shoreline designation reasonably establishes the current per-square-foot land value of the use area in the right of way for fee calculation purposes.</p>
Use area	<p>Square footage of the permitted encroachment in the right-of-way, as authorized by Seattle Department of Transportation.</p>
Transit/Bike/Ped Impacted	<p>When a transit lane, bike lane or pedestrian sidewalk or pathway is partially closed, but mobility for the traveling public is maintained.</p>
Transit/Bike/Ped Blocked	<p>When a transit lane, bike lane or pedestrian sidewalk or pathway is closed to the traveling public.</p>
Rate of return	<p>Annualized rate of return on market value of the right-of-way, as established by the City Appraiser or a State of Washington Certified General Real Estate Appraiser retained by the Director of Transportation.</p>
Degree of alienation	<p>For Term permits, the degree of impact on the public, utilities, right-of-way, and other potential uses of the right-of-way based on City policy, as established by Seattle Department of Transportation.</p>

Demand probability	For Shoreline Street End permits, the estimated demand of probable use shall be based on factors that include, but are not limited to, location, access, size, view, and topography; as established by the City Appraiser or a State of Washington Certified General Real Estate Appraiser retained by the Director of Transportation. Refer to Ordinance 123611, Attachment A: Demand Probability Factor. The Director of Transportation is authorized to update Attachment A based upon the recommendations of the City Appraiser or a State of Washington Certified General Real Estate Appraiser. The new Demand Probability Factor shall become effective when the updated Demand Probability Factor is adopted by rule.
Maritime Industrial Use Discount Factor	To support the City's policies of protecting its maritime uses, a 50 percent discount factor shall apply to that portion of the Shoreline Street End occupied by a legally established water-dependent or water-related use as defined in Seattle Municipal Code Section 23.60.944.

The Department of Transportation is directed to use the shoreline street end permit fees credited to the Transportation Fund for the following purposes:

- (a) Notifying property owners that abut shoreline street ends of the need for permits for private use of the street end and of the fee schedule;
- (b) Administering and inspecting shoreline street end use;
- (c) Verifying property boundaries and area of use;
- (d) Matching funds for neighborhood improvements of shoreline street ends for public use;
- (e) Signing, demarcating, and maintaining shoreline street ends;
- (f) Funding street and sidewalk improvements within a half-block radius of any of the shoreline street ends identified in Exhibit A to Resolution 29370 that directly contribute to public access to the shoreline street end.

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to street and sidewalk use; amending the Street Use Fee Schedule authorized by Section 15.04.074 of the Seattle Municipal Code; and ratifying and confirming certain prior acts.

Summary and background of the Legislation:

This legislation updates and adjusts SDOT's street use hourly service rates and permit fees. As authorized in SMC 15.04.074, the proposed changes advance the goal of full cost recovery for permitting while continuing existing free permit programs for businesses and homeowners. This legislation updates the hourly service rates and permit fees to improve cost recovery, adds new permit fees for Street Improvement Lite and Council Term permits, and changes the Street Vacation filing fee to a permit fee to standardize the fee collection process in SDOT's permit system.

This legislation will also transition Public Space Management permits from charging separately for review and issuance fees and instead incorporate the cost of review into the permit fee. This means that while public space management permit fees are increasing, overall costs to most applicants will go down and will also be more predictable and transparent.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Appropriation change (\$):	General Fund \$		Other \$	
	2022	2023	2022	2023
	N/A	N/A	N/A	N/A
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2022	2023	2022	2023
	N/A	N/A	\$3.3 million	\$3.3 million

Positions affected:	No. of Positions		Total FTE Change	
	2022	2023	2022	2023
	N/A	N/A	N/A	N/A

Revenue Notes: The revenues and appropriations associated with this legislation are included in the Mayor's 2022 Proposed Budget. These revenues and appropriations are in the Transportation Fund.

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
City of Seattle Departments, e.g. SPU and SCL, may pay increased fees, depending on the nature and sequencing of their work in the right-of-way. These increases will be minimal overall.

Is there financial cost or other impacts of *not* implementing the legislation?
Not implementing this legislation would require Street Use staffing costs to be substantially subsidized by use fees that are intended to fund transportation projects.

3.d. Appropriations

 This legislation adds, changes, or deletes appropriations.

Appropriations Notes: Appropriations associated with this legislation are included in the Mayor's 2022 Proposed Budget.

3.e. Revenues/Reimbursements

X This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2022 Revenue	2023 Estimated Revenue
13000 Transportation Fund	SDOT	Hourly Service Rates and Permit Issuance Fees	\$3.3 million	\$3.3 million
TOTAL			\$3.3 million	\$3.3 million

Is this change one-time or ongoing?
This change is ongoing, although the revenue will fluctuate with the development cycle.

Revenue/Reimbursement Notes:

3.f. Positions

 This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
As noted above, City of Seattle Departments, e.g. SPU and SCL, may pay increased fees, depending on the nature and sequencing of their work in the right-of-way. These increases will be minimal overall.
- b. Is a public hearing required for this legislation?**
No
- c. Does this legislation require landlords or sellers of real property to provide information regarding the property to a buyer or tenant?**
No
- d. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No
- e. Does this legislation affect a piece of property?**
No
- f. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?**
This legislation will provide Street Use revenues that will be used to provide resources to manage the right-of-way and reduce impacts to the traveling public, ensure access to transit is maintained during construction, and promote positive uses of the right-of-way.

The increase to complex permit fees will impact developers, contractors, and utilities and help mitigate impacts to BIPOC communities during construction. Applicants for simple permits that have minimal impact to the right-of-way are typically homeowners and businesses; this legislation keeps those fees low. Permits that are currently free will continue to be free to support the goals of improved livability and economic recovery.

There are no identified impacts to historically disadvantaged communities.
- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**
N/A

List attachments/exhibits below:
None.

Legislation Text

File #: CB 120192, **Version:** 1

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the Department of Parks and Recreation; establishing the 2022 fee schedule for the use of park properties and other park and recreation facilities and services; and superseding previous park and recreation fee schedules.

WHEREAS, on November 23, 2020, the Seattle City Council approved Ordinance 126214, which established the 2021-2022 fee schedule for the use of park properties and other park and recreation facilities and services and superseded previous park and recreation fee schedules; and

WHEREAS, the City Council wishes to adopt a 2022 Seattle Parks and Recreation Fee Schedule effective January 1, 2022; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Effective January 1, 2022, the Superintendent of the Department of Parks and Recreation is authorized to charge the fees substantially in the form set forth in the 2022 “Seattle Parks and Recreation Fee Schedule,” attached as Attachment 1 to this ordinance. All prior Seattle Parks and Recreation fee schedules are superseded.

Section 2. The provisions of this ordinance and of Attachment 1 to this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by

Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

Monica Martinez Simmons, City Clerk

(Seal)

SEATTLE PARKS AND RECREATION FEES AND CHARGES

AUTHORITY AND GENERAL PROVISIONS

- **Authority**

Fees and charges are necessary to provide financial support to the Seattle Parks and Recreation (the Department) for the operation and maintenance of programs, facilities, and park grounds. The revenue generated by these fees constitutes only a portion of funds required for operating and maintaining the Park System. All fees collected from park and recreation activities and concessions are used exclusively for the Park System, as these funds are deposited in the Park and Recreation Fund, not the City General Fund. Fees and charges are proposed each year by the Department as a part of the annual budget process. Both the Mayor and City Council review and, by ordinance, authorize the Department to collect these fees and charges.

- **General Provisions**

The Superintendent of the Seattle Parks and Recreation is authorized to establish a fee for requested uses not included in this schedule, keeping the Mayor and the City Council advised thereof. The Superintendent of the Seattle Parks and Recreation is authorized, as provided in Seattle Municipal Code (SMC) Chapter 18.28, to waive or reduce any fees in this Schedule.

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC Chapter 18.28, to establish experimental rates, and to engage in special promotional and marketing activities to enhance Departmental programs. These include, but are not limited to, use of 2 for 1 coupons, 50% discount coupons and free admission days for children. Discounts for Senior Adults (age 65 and over) vary per program. These types of activities may occur at various Department facilities throughout the year.

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC Section 18.24.010, to operate for fee parking without recourse to commercial or private operators such parking lots under the Department's jurisdiction as are deemed desirable with the concurrence of the City Council by resolution as to location and fee schedule, consistent with provisions of RCW 35.86.010 and 35.86.040 which so permit such owner operation.

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC Chapters 18.04 and 18.28, to approve the free use of Department facilities by the Associated Recreation Council, recognized recreation advisory councils, and other organizations that are open to the public, that further Department goals and programs, and that apply any proceeds to Park and Recreation services.

In addition to the fees and charges identified herein, the user may be required to pay any additional Department costs resulting from such use, and to pay a reasonable portion of the City's costs for traffic control and police services when the user's event requires them. Cancellation of reservations for Parks and Recreation facilities or services may result in loss of payment or a service charge (see Appendix D). For further information, contact Seattle Parks and Recreation at (206) 684-4075.

Fees contained in this Fee Schedule shall not apply to permits issued pursuant to SMC Chapter 15.35 "Filming."

STAFFING FEES

Rentals are required to have at least one staff in attendance. If additional staff are required due to the nature of the event or the anticipated attendance, a fee of \$30.00 will be multiplied by the number of staff required for the event. Additionally, staff rates increase 1½ times per hour on holidays.

Staffing fees are applicable at:

- Tateuchi Community Room
- Shoseian Tea House
- West Seattle Stadium
- Interbay Stadium
- Lower Woodland #1 Field, when using scoreboard
- Gymnasium rentals
- Boathouse, Bathhouse, Shelterhouse, and Pumphouse Rentals
- Magnuson Park (Event attendants)
- Park Area Ceremonies (Ceremony attendants) – Additional staff fees will be charged when wedding or ceremony is large and/or complex

ADMISSION FEES

QUICK CARDS

- **Seattle Parks and Recreation “Quick Cards”**

This reusable card features a barcode and photo of the participant. It allows fast, easy, self-service access to a variety of selected fee-based or free programs (recreational swims, fitness swims, weight room access, teen centers, etc.) at various facilities. This non-refundable, non-transferrable card can be reloaded, renewed, or added with new features/programs as desired or as they become available. There is a \$5.00 replacement fee for lost or stolen cards. For further information, call the Business Service Center at (206) 684-5177.

GOLF COURSES

- **Interbay, Jackson, Jefferson and West Seattle Golf Courses**

The Superintendent of the Seattle Parks and Recreation is authorized to establish all greens fees and all other golf facility or service fees (including, but not limited to, driving range, carts, cars, play cards, lessons, and room rentals) consistent with and subject to the contract entered into with Premier Golf Centers, LLC (Premier), as authorized by separate ordinance. Golf program fees will be prominently posted at all times in each clubhouse. Call the following for further information:

Interbay	(206) 285-2200
Jackson	(206) 363-4747
Jefferson	(206) 762-4513
West Seattle	(206) 935-5187

- **Green Lake Pitch & Putt**

Green Lake Pitch & Putt is operated through a concessions contract. Therefore, fees for participation at this facility are not governed by City Ordinance. You may contact Green Lake Pitch & Putt directly at (206) 632-2280, or the Business Resources Unit of the Seattle Parks and Recreation at (206) 684-8008, to obtain specific information related to this facility.

SEATTLE AQUARIUM

- **Aquarium Fees**

All admissions, services rendered or sales made to the public or otherwise at the Aquarium (including, but not limited to, admission fees, annual memberships, rentals, education program fees, and discounts/other programs) will be established by the Seattle Aquarium Society (“SEAS”), consistent with and subject to City Ordinance 123205 and Article 13 of the Seattle Aquarium Operations and Management Agreement. You may contact the Seattle Aquarium directly at (206) 386-4300 to obtain further information or by visiting their web page at “seattleaquarium.org”.

VOLUNTEER PARK CONSERVATORY

- **Weddings / Photography Permits**

Weddings and special ceremonies may be scheduled (see page 32) and/or Photography Permits (to be used outside of public hours) may be obtained (see page 36) through the Parks Event Scheduling unit by calling (206) 684-4081.

- **Admissions Fee**

	2022	<i>Note: Classroom sessions scheduled during open hours <u>must</u> be scheduled in advance. Contact the Conservatory for scheduling and fee information.</i>
	\$4.00	Adult/Senior Admission Fee
	\$2.00	Youth Admission Fee (6-17 years)
	Free	Children (0-5 years)

- **Annual Passes**

	2022	<i>Note: *A \$5.00 service fee will be retained by the “Friends of the Conservatory” group</i>
	\$20.00*	Individual Annual Pass
	\$30.00*	Family Annual Pass

- **Group Rates**

	2022	
	\$25.00 per group	Group rate for pre-registered educational K-12 groups of 25 students; includes up to 5 adults chaperoning the group
	\$25.00 per group	Group guided tours, limited to 20 persons per group

JAPANESE GARDEN (Arboretum)

- **Admission Fees**

	2022	
	\$6.00	Adult Resident (18-64)
	\$8.00	Adult Non-Resident (18-64)
	\$4.00	Youth (6-17 years)
	\$4.00	College/University students (with valid ID) Senior Adult (65 & over)
	FREE	Children (0-5 years)

- **Public/Private School Group Rate for Grades K through 12**

Organized groups of children attending an educational institution with grades K through 12 are entitled to this group fee during the regular school year, if advance reservations are made (a minimum of two weeks’ notice is required for advanced reservations). Group rates are not extended to colleges, universities, or day-care facilities.

One responsible adult is required for every group of students, as indicated in the following ratios:

1:5 for grades K – 2 2:24 for grades 7 – 8
1:10 for grades 3 – 6 1:24 for grades 9 - 12

	2022	
	\$25.00	Group rate for pre-registered educational K-12 groups of 25 students; includes up to 5 adults chaperoning the group
	\$12.50	Add for each additional group size of 1 to 12 students

• Annual Pass

Annual family/dual passes include unlimited admission, during regular operating hours, for all members of an immediate family living in the same household, defined as two adults (guardians) and their children. The Dual pass also allows a parent pass holder to bring an adult guest, when the second parent pass holder is not present. Individual, Student, and Photographer annual passes include unlimited admission, during regular operating hours, for the person whose name appears on the pass. ID may be required upon entry.

	2022	Annual passes are valid for 12 months from date of purchase
	\$20.00	Annual Pass, Individual
	\$30.00	Family/Dual Annual Pass
	\$15.00	Annual Pass, Student (with current ID)
	\$75.00	Annual Pass, Photographer

• Guided Tours

The Japanese Garden Advisory Council, in cooperation with Unit 86 of the Arboretum Foundation, provides sponsor-guided tours of the Garden. Fees are established by the Advisory Council and may be obtained by calling (206) 684-4725.

• Meeting Rooms

NOTE: Rentals of the Tateuchi Community Room and the Shoseian Tea House are located within and administered through the Seattle Japanese Garden. There are use restrictions due to the quiet contemplative nature of the garden as well culture considerations in the Tateuchi Community Room.

Rentals of the Tateuchi Community Room and the Shoseian Tea House do not include access to the garden; therefore, admission fees are required for garden access.

Tateuchi Community Room

	2022	
	\$35.00	Small Room
	\$75.00	Alcohol fee
	\$500.00	Damage deposit for events with alcohol
	\$250.00	Damage deposit for events without alcohol

Shoseian Tea House

The Shoseian Tea House is available for rent only to approved groups practiced in the way of tea. Groups must have a signed Use Agreement on file with the Parks Department. Rentals will only be approved for tea ceremonies or classes. No other use is permitted.

	2022	
	\$35.00	Small Room
	\$500.00	Damage deposit for all events

AMY YEE TENNIS CENTER (Seattle Tennis Center)

SPECIAL NOTE to PARTICIPANTS: Residents may qualify for the resident fee listed below with proof of residency when booking courts or registering for programs. Persons not qualifying for residency will pay the non-resident fee listed.

	\$40.00 to \$300.00	A variety of Red Cross water safety courses, including Lifeguard Training, First Aid, CPR, Water Safety Instructor and others. Prices and course titles correspond to curriculum requirements and operating expenses to offer these programs. Prices include pool admission and instruction only.

- **Aquatic Facility Rental Fees**

General Swimming Pool Rentals (other than Competitive Sports)

	2022	
	\$30.25	Non-refundable booking fee required for all rentals in addition to hourly rates.
	\$200.00	Damage deposit for all rentals where equipment is brought into the facility.
	\$31.00	Hourly lifeguard staff costs (per lifeguard), in addition to pool rental fee (staff rates increase 1½ times per hour on holidays)

	\$94.75	Indoor pool or half of Rainier Beach Pool (either the lap pool or the leisure pool) rental cost per hour when pool is scheduled to be closed to the public, plus staff costs. <i>Calculation for a per lane rental rate when entire pool is used = dividing the cost per hour by the number of lanes and rounding up to the next whole dollar.</i>
	\$47.50	Hourly indoor pool rate for shallow end only in bulkhead pools when deep end is in use. This fee applies to Madison and Medgar Evers aquatic facilities.
	\$315.25	Indoor Pool rental, per hour, when pool is scheduled to be open to the public, plus staff costs
	\$147.25	Colman Pool rental, per hour, plus staff costs (exclusive use) Note: Colman Pool is an 8 lane, 50-meter pool with a slide
	\$157.75	Mounger Pool or Rainier Beach Pool rental, per hour, plus staff costs (exclusive use, including all pools & slide)

Swimming Pools – Competitive Sports Rentals

	2022	<i>(see notes on following page for more information)</i>
	\$30.25	Non-refundable booking fee required for all rentals in addition to hourly rates.
	\$200.00	Damage deposit for all rentals where equipment is brought into the facility.
	\$31.00	Hourly lifeguard staff costs (per lifeguard), in addition to pool rental fee (staff rates increase 1½ times per hour on holidays)
	\$89.50	Beginning Swim Team for youth – introductory beginning level, per hour for all lanes, offered at a reduced price to encourage use by new youth competitive sports programs. <i>Pricing offered on a quarterly basis at which time swimmers advance to standard rates.^A</i>
	\$115.75	Indoor competitive sports rental (between 6am-8pm) cost per hour when pool is scheduled to be closed to the public, plus staff costs. ^{A,B}
	\$58.00	Hourly indoor competitive sports (between 6am-8pm) rate for shallow end only in bulkhead pools when deep end is in use, plus staff costs. This fee applies to Madison and Medgar Evers aquatic facilities. ^B
	\$105.25	Indoor competitive sports rental (between 8pm-6am) cost per hour when pool is scheduled to be closed to the public, plus staff costs. ^{A,B}
	\$49.25	Hourly indoor competitive sports (between 8pm-6am) rate for shallow end only in bulkhead pools when deep end is in use, plus staff costs. This fee applies to Madison and Medgar Evers aquatic facilities. ^B
	\$231.25	Indoor pool competitive sports rental or Swim Meet, per hour, when pool is scheduled to be open to the public, plus staff costs. ^B

	\$200.25	Colman Pool competitive sports rental, per hour, plus staff costs (exclusive use) Note: Colman Pool is an 8 lane, 50-meter pool with a slide. ^B
--	----------	------------------------------------------------------------------------------------------------------------------------------------------------------------

^A NOTE: Calculation for a “per lane” rental rate when entire pool is used = dividing the cost per hour by the number of lanes and rounding up to the next whole dollar.

^B NOTE: “Competitive sports” rates apply to swim teams, masters, and water polo.

NOTE: Individuals and groups desiring to use swimming pools will be expected to pay the cost of staffing in addition to program rates established. Staff rates increase 1½ times per hour on holidays.

NOTE: Rates also apply to Metro or King County League swim meets for events that do not include a Seattle Public School. Events that include a team from a Seattle Public School are covered under the Joint Use Agreement and are not charged a swim meet fee. Staff fees are additional (staff rates increase 1½ times per hour on holidays).

NOTE: There is an hourly flat-rate charge for competitive meets, with no additional percentage charges for the event (no percentage collected for entry fees and heat sheet sales).

NOTE: Swim meet entry fees and sale of heat sheets are included in base fee for each event.

NOTE: Permit Application Fee as established in **Use Permits** section of Fees and Charges ordinance will apply plus 10% of gross revenue for **all Admissions and Swim Meet Concessions** (food/drink, t-shirts, goggles, etc). Additional insurance and/or permits may be required.

NOTE: Deck or lobby rentals priced as small room under Class C room rentals.

NOTE: Bulkhead pool rentals during public hours are limited to lap pool or shallow pool, not both, unless specific fees are charged.

Timing System Rental

	2022	
	\$400.00	Minimum 4-hour use
	\$100.00	Each additional hour
	\$31.00/hr	Additional staff charge for delivery, set up, operation and clean-up (staff rates increase 1½ times per hour on holidays).

Note: The timing system is available for rentals at most Seattle Parks and Recreation swimming pools. Some limitations may apply.

Special Use Fees

	2022	
	10% of gross sales on Parks property	If, in the course of the activity/event, charges are levied for admission, sales, concessions, or entry fees, the user will be subject to a minimum charge of 10% of the gross receipts.
	\$1.00	Water Slide Use Fee per person for recreation swims over one hour in length; no charge if one hour or less.
	\$2.00 – 50.00	Supplemental Special Event fee (indoor or outdoor), depending on event, such as open water swim, dive-in movies, jazz night, etc.

	\$15.00	Dog Swim Special Event – <i>scheduled immediately prior to preventative maintenance closure. Limited to dogs only in the pool. No charge for spectators.</i>
	\$0.25	Coin Operated Locker
	\$0.50	Towel use, each
	Market Value	All merchandise sold at Mounger Pool will be at market value. Merchandise may vary throughout the season. NOTE: While this is a “City fee” at Mounger Pool, this fee is collected by the Associated Recreation Council at all other pools.

Special Provisions

Colman and Mounger Pools:

Admission fees to these facilities are charged to all persons entering pool area, even if not swimming (except parents watching children in lesson programs). Use of the pools, decks and picnic areas is part of the overall recreation opportunity; pool capacity is based on use of this area.

- **Special Programs**

Super Deluxe Birthday Party Package

A complete birthday party package at pools includes one-hour shared use in a section or portion of the pool, a one-hour party immediately following your water time in a designated party space (room, deck, or lobby), lifeguards, one pre-packaged juice, paper products and party goodie bags for each enrolled child. (Food items not included.) NOTE: Booking Fee does not apply to this program when operated during public business hours, and is not for exclusive use nor rental). Maximum party size is 20 children and 20 adults. Adults are included in the party package without charge as spectators and/or as in-water assistants for children who are weak swimmers, under height, or below age requirement. Adult in charge of party is responsible for all clean-up of party areas at the end of the program.

	2022	
	\$273.25	Minimum package fee – for a party of 10 children
	\$13.25	Additional fee – per child

Wading Pool Rental

	2022	
	\$500.00	Minimum 4 hours of operation (includes 5½ staff hours)
	\$50.00	Each additional hour

Wading pool rentals are only available at sites scheduled for summer use. All wading pool operating time under this rental rate is available for public use; no exclusive rental use is allowed.

Aquatic Special Events

NOTE: This category is for special events that result in the cancellation of scheduled programs or closure of a small craft center, swimming beach, or other public program. This fee is in addition to other fees.

	2022	
	\$300.00	Special events, per day

ATHLETIC FACILITIES

See Appendix C for the Athletics Field Inventory.

• **West Seattle Stadium and Interbay Stadium Usage Fees**

	2022	
	10% of gross revenues	Admissions/Sales. This includes admissions or donations, and excludes entry fees.
	\$79.00/ hr	Athletic Stadium Games, Meets and Events *
	\$58.75/hr	Practice Fee** adult and youth practices
	\$15.00/ hr	West Seattle Stadium only – youth fee
	\$15.00/ hr	Rental of the West fenced Field Event area for shotput, discus, hammer throw, long jump and javelin only (West Seattle Stadium only); users must also pay staff fee.
	\$31.50/ hr	Light Fee - this fee is charged for all uses requiring lights.

*Event fees are charged for adult and youth special events, games and meets. West Seattle Stadium fee provides exclusive use of the facility and includes use of equipment, the press box and PA system, ticket booth, locker rooms and grandstands. Interbay Stadium fee provides exclusive use of the facility and includes use of equipment, the press box, locker rooms and grandstands. A staff person is required to be in attendance, and the staff fee must be paid in addition to the use fee. This fee does not include Lights or 10% charge on all admissions/sales.

** Practice Fees provide use of the facility and includes use of equipment, the press box and PA system, ticket booth, locker rooms and grandstands. A staff person is required to be in attendance and the staff fee must be paid in addition to the use fee. This fee does not include lights or the ten percent (10%) charge on all admissions/sales. Facility use may not be exclusive – multiple users' activities will be organized through the Seattle Parks and Recreation scheduling office.

NOTES for Department Sponsored Activities:

- See following page for synthetic and non-synthetic field fees for practices/games.
- All rentals are a minimum of one hour.
- Additional staff may be required due to nature of event and anticipated attendance.
- A damage deposit may be charged depending on nature of event and anticipated attendance.

- **Adult Sports Fees**

	2022	
	\$25.00	Indoor Sports League Fee, per hour
	\$30.00	Adult Sports Team Administration fee/team

	\$60.00	Adult Outdoor Use, per hour – non-synthetic field
	\$31.50/ hr	Outdoor Field Lighting Fee, per hour

- **Youth Sports Fees**

	2022	
	\$16.00	Youth Outdoor Use, per hour – synthetic field
	\$10.50	Youth Outdoor Use, per hour – non-synthetic field
	\$81.00	Private School Outdoor Use, per hour – synthetic field
	\$60.00	Private School Outdoor Use, per hour – non-synthetic field
	\$81.00	Outdoor youth Sports Camps, per hour – all field surfaces
	\$31.50	Outdoor Field Lighting Fee, per hour

- **Sports Organizations’ Use Permits**

Sports organizations’ events, such as jamborees and tournaments, shall be subject to regular Use Permit charges. *See permit fee details on pages 31-33.*

- **Seattle Parks and Recreation Outdoor Tennis Courts**

Where a participant entry fee for tournaments or a fee for lessons is charged, 10% of gross receipts are to be paid to the Department in addition to the charges noted below. All persons who instruct tennis for a fee on Department courts must schedule according to court availability with the Scheduling Office, obtain the appropriate permit and pay the required fees. They must also successfully complete the Department’s Tennis Instructor’s Certification program and show proof of certification before a permit will be issued.

Tennis Reservations (4 or less players)

	2022	Scheduled based on availability.
	\$8.00	1 hour, court rental, Adult play
	\$13.00	1 hour, court rental, Private School
	\$6.00	1 hour, court rental, Youth play

NOTE: *See “Amy Yee Tennis Center” on page 6 for Indoor Tennis fee rates.*

- **Outdoor Volleyball Courts**

Outdoor Volleyball Reservations

	2022	Scheduled based on availability.
--	-------------	-----------------------------------------

	\$8.00	1 hour, court rental, Adult play
	\$8.00	1 hour, court rental, Private School

Facility Rentals

COMMUNITY MEETING ROOMS AND GYMNASIUMS

- Locations and Sizes**

Meeting room and gymnasium space is available only during times Department and Advisory Council programs are not scheduled. Uses are determined by classification A or C as defined below:

Class A Use: Non-Commercial Use, for the general public, scheduled during operating hours. No admission fee, vendor fee and/or donation is requested or received.

Class A use is reserved for advertised, non-commercial, public events/meetings that are for the general public and are scheduled during hours of operation. (If scheduled outside normal facility operating hours, see Class C use.)

Class C Use: All other rentals and Class A rentals scheduled outside of regular operating hours

NOTE: *An event will be considered advertised if it has been announced in the local paper, through mass mailing, radio or social media announcements, posters throughout the community, posted in or distributed through the community center*

• Hourly Room and Gymnasium Rental Fees

NOTE: A non-refundable \$30.25 booking fee per site is required for ALL rentals in addition to the hourly rates. An additional charge is required for staff and the use of certain types of equipment, subject to availability at the facility. (See page 19 for definitions of “Class A” & “Class C”)

Rooms

	Class A 2022		Class C 2022	
	21.25		\$42.25	Small Rooms (1-400 square feet), per hr
	\$27.25		\$54.25	Medium Rooms (401-1,500 square feet), per hr
	\$36.25		\$72.25	Large Rooms (1,500+ square feet), per hr
	\$15.25		\$30.25	Small Kitchen ^A (minimum of 2 hours), per hr
	\$29.00		\$58.00	Large Kitchen ^A (minimum of 2 hours), per hr
	10% of gross sales on Parks property		10% of gross sales on Parks property	If, in the course of the activity/event, charges are levied for admission, sales, concessions, or entry fees, the user will be subject to a minimum charge of 10% of the gross receipts.
	N/A		\$75.00	Additional fee for events with ALCOHOL (insurance also required) ^B
	\$250.00		\$250.00	Refundable rental and cleaning deposit (no alcohol)

LAKE UNION PARK HISTORIC SHIPS WHARF

- **Center for Wooden Boats Fees**

Temporary use by vessels of the wharf and north seawall at Lake Union Park is managed by the Center for Wooden Boats under contract with Seattle Parks and Recreation. Fees are established by the Center for Wooden Boats consistent with and subject to the contract between Center for Wooden Boats and Seattle Parks and Recreation. For information, call 206-382-2628.

PARTICIPATION FEES

RECREATION PARTICIPATION FEES

As a service to the public, the Seattle Parks and Recreation may contract with Advisory Councils, or the Associated Recreation Council to collect fee payments. The contract shall require the Advisory Council or Associated Recreation Council to remit the participation fee to the City.

- **Community Center and Outdoor Recreation Class Fee**

	2022	
	4.0%	Percent of fee for all Advisory Council sponsored classes, programs, and sessions at community centers and for outdoor recreation programs.

- **Lifelong Recreation Program Participation Fees**

NOTE: These fees only apply to programs offered through the Department's Senior Adult Section. Senior adult fees for participation in other programs are listed elsewhere in this Fees and Charges Schedule. Where there is no senior adult fee listed for the activity, the adult fee will apply.

	2022	
	4.0%	Percent of Senior Adult Advisory Council class fee paid by registrants for all advisory council sponsored classes, programs and field trips.

- **Small Craft Center Class Participation Fees**

	2022	
	\$41,500	Rowing Advisory Council fee (paid in quarterly installments)
	\$14,000	Seattle Canoe Club (paid in quarterly installments)
	\$45,000	Mt Baker Boating Advisory Council (paid in quarterly installments)

- **Day Camps Booking Fee**

	2022	
	50% discount of Shelter and/or Table fees	Discount of “Picnic Reservation Fees” and Camp Long Shelters as found in Fees and Charges, plus \$75 use permit application fee.

PERMITS

USE PERMITS

Use Permits authorize non-department groups to utilize Seattle Parks and Recreation property for special events (i.e., runs, boating, concerts, day camps, community festivals, rallies, commercials, etc.). Additional charges may apply to cover direct cost of special services/requests.

- **General Provisions**

NOTE: Insurance shall be required when the planned event or any structure, activity or feature thereof presents a significant risk of liability or loss for the City, its officers, or for the applicant, due to personal injury or property damage. The insurance requirement shall not apply to events where the sole activity consists of expression protected by the First Amendment and does not involve the use of any structures, vehicles, equipment, apparatus or machinery that creates a significant risk of personal injury or property damage. In addition, an application fee will be collected upon formal written application. This fee is non-refundable, except when the Department denies a request.

	2022	
	\$50.00	Application fee – First Amendment Events, including political activities.
	\$75.00	Standard Application fee – Use Permits (i.e., runs, boating, concerts, day camps, community festivals, rallies, seasonal concession permits, etc.)
	\$30.00	Booth fee – As part of a special event, a charge of \$30.00 per booth or 10% of gross sales, whichever is greater.
	10% of gross sales on Parks property	<u>For events OPEN to the general public without restriction:</u> If, in the course of the activity/event, charges are levied for admission, entry fees, sales of goods or services, food or beverages, the user will be subject to a percentage of sales fee. For an activity/event open to the general public without restriction and without ticket or fee required for admission, this percentage of sales will equal 10% of the gross receipts for those items not free. 10% fees are due within 10 days of the expiration of the permit.
	The greater of 10% of gross sales on Parks property or \$5,000	<u>For events that RESTRICT general public access:</u> For events that restrict or limit access to the general public through the use of controlled entry points the percentage of sales fee shall be set at \$5,000.00 per day minimum or 10% of the gross receipts for those items not free, whichever is greater. In these cases, the percentage of sales applies to all admissions, registration fees or tickets, including those not purchased on Parks property collected before during or after the event. This minimum percentage of sales fee will be added to the park use reservation and must be paid in advance with all fees due prior to permitting. When sales generate additional fees, those fees are due within 10 days of the expiration of the permit.

	The greater of 10% of gross sales on Parks property or \$10,000	<p><u>For events that EXCLUDE general public access:</u></p> <p>For events that exclude the general public because the event is private in nature and restricted to a specific group or invited attendees, the percentage of sales fee shall be set at \$10,000.00 per day minimum or 10%, whichever is greater. In these cases, the percentage of sales fee applies to all admissions, registration fees or tickets, including those not purchased on Parks property collected before during or after the event. These fees apply to all days of event set up, event execution and event break down while the event area is restricted to the general public.</p> <p>This minimum will be added to the park use reservation and must be paid in advance with all fees due prior to permitting. When sales generate additional fees, those fees are due within 10 days of the expiration of the permit.</p>
	\$25.00	Load/Unload fee, per vehicle – for short-term access into non-parking areas or those areas accessed through a locked gate or bollard.
	\$95.00	Utility hook-up fee – for any utility hook-up performed by Department personnel.
	\$75.00	Alcohol use permit fee
	\$75.00	Supplemental Late Application Fee – for requests submitted less than 6 working days before event. (Fee does not apply to First Amendment events)
	\$100.00	Per surface (advertising banner, canopy/tent wall, sign, vehicle surface, inflatables, other) per day – for posting signage (including signage that contains both commercial and non-commercial elements) in a park in conjunction with a park use permit.
	\$15.00	*Hourly use fee for Triangles, Circles, Squares, Pocket parks, Boulevards, and the Burke Gilman Trail
	\$25.00	*Hourly use fee for Downtown & Neighborhood parks
	\$35.00	*Hourly use fee for Community, Natural, Special Use and Recreation Area parks
	\$175.00	**Parking area use fee – 25 or fewer spaces blocked per day
	\$225.00	**Parking area use fee – 26-50 spaces blocked per day
	\$575.00	**Parking area use fee – 51 or more spaces blocked per day

* Hourly use fee for Park Use Permits for all events except those constitutionally protected or those events covered under separate agreement. Contact Event Management office at 684-4081 for further information.

** Parking area use fees apply to designated parking areas in some parks that the Parks Department deems necessary to reserve for events.

- Permits and Agreements for Activity Permits

In order to provide positive activation to parks, needed amenities for park users and services that enhance the park experience or provide applicable opportunities that the Department does not provide, agreements and permits are periodically issued to interested parties and organizations and small businesses. Permits are mandatory for doing business in a park. NOTE: Rating criteria emphasis is put on WMBE businesses and those businesses are encouraged to register in the City’s WMBE database. Activities must align with the Department mission and goals. Activity (Fitness and Nature Education) opportunities are advertised on the Department website year-round.

	2022	<i>All fees are payable in advance at the time the permit is purchased.</i>
	\$75.00	Permit Administrative fee – Activities (Fitness & Education classes) operating less than ten (10) hours per week with fewer than 35 participants at any time.
	\$75.00	Monthly (per park) Permit fee – Activities (Fitness or Education) operating, but not vending in the Parks with fewer than 35 participants and less than ten (10) hours per week operating in a park.

• Use of Park Facilities for Filming/Photography

NOTE: Regular permit fees apply to below charges, including late permit fee.

Commercial filming and photography for advertising within the City of Seattle is covered under the Seattle Filming Ordinance. All of the information that you need about filming in Seattle can be found in the Seattle Film Manual, located online at <http://www.seattle.gov/filmandmusic/film/film-permits>

	2022	
	\$30.00	Per 4-hour block of time, per park, for commercial filming/photography (wedding photos, graduation photos, etc.). NOTE: Fees for Garden Sites may be higher, depending upon time of year and/or days requested.

• First Amendment Vending

Persons may apply for a permit to vend merchandise that is inherently expressive or in which a political, religious, philosophical or ideological message is inextricably intertwined. Such “First Amendment Vending” is governed by regulations adopted by the Seattle Parks and Recreation. When conducted on a park drive or boulevard, First Amendment Vending is subject to a base permit fee of seventy-five dollars (\$75.00) for a monthly site permit. When conducted within a park, First Amendment Vending is subject to a monthly base permit fee of seventy-five dollars (\$75.00). Questions concerning the First Amendment Vending Regulations may be directed to the Parks Concessions Coordinator at 233-0063.

• Construction Plan Review

The Seattle Parks and Recreation (SPR) charges a fee of \$128 per hour for our cost of construction plan reviews, including review of development plans from both private and public entities that affect park property. This SPR fee is in addition to the fee currently charged by the Department of Planning and Development (DPD), excluding Public Works projects which are requested for review outside the DPD review process. The DPD fee includes elements to reimburse DPD, Seattle Public Utilities (SPU), the Department of Health, and Seattle Department of Transportation (SDOT), for the plan review work done by their staff. For further information, please contact the Parks Planning & Development section at 206-684-4860.

PERMITS FOR NON-PARK USES of PARK PROPERTY (Revocable Use Permits or RUPs)

• General Provisions & Fees

Revocable Permits to Use or Occupy Park Property, commonly called Revocable Use Permits, are issued by the Superintendent of Parks and Recreation, under authority of Seattle Municipal Code (SMC) 18.12.042, 18.12.045, and 18.12.275, for various short-term or on-going (i.e., Limited Term or Continuing Use, respectively) **non-park uses** of public land under the control of the Seattle Parks and Recreation. **Permits are revocable upon thirty (30) days' notice** or immediately upon failure of the Permittee to comply with the terms and conditions of the Permit. **Unauthorized use of park property**, including failure to apply for and obtain a Revocable Use Permit, **is unlawful and subject to enforcement** actions or other remedies as specified in SMC 18.30 or other applicable law.

In accordance with the Policy on Non-Park Uses of Park Lands, as endorsed by City Council Resolution 29475, it is the policy of the Seattle Parks and Recreation to **limit authorized non-park uses of park land to the fullest extent practicable**. Fees and conditions set for Revocable Use Permits **are intended to discourage private, non-park uses of park lands**; encourage the elimination of encroachments; and promote private and public cooperation in maintenance of park lands in a manner consistent with a public park-like character.

Consideration of any permit application requires payment of an Application Fee, unless City action to a public right-of-way resulted in inaccessibility from other than park property. The **Application Fee is non-refundable**. Issuance of a permit requires payment of a Permit Fee which is:

- a **fixed daily fee** (i.e., **Limited Term permit fee**); and/or
- calculated in accordance with a **formula (Continuing Use permit fee)**; or
- a **minimum** permit fee.

Application Fees and Permit Fees are set periodically by ordinance. Under exceptional circumstances, the Superintendent of Parks and Recreation may waive or reduce the Revocable Use Permit Fee, in accordance with criteria established by SMC 18.28.030 or SMC 18.28.040. Creek restoration projects proposed by other City departments are specifically exempted from permit fees of any kind as the City recognizes these projects as valuable enhancements to its parks and recreation assets. In determining whether the Permit Fee should be **waived or reduced**, the Superintendent shall be guided by:

- The benefit to the public and the direct benefit to the park system;
- The frequency and/or amount of usage requested;
- The effect on and fairness to other park users;
- Consistency with policies underlying the fee schedule and SMC Chapter 18; and
- The consequences of denying the request.

The Superintendent may authorize the **acceptance of permanent physical improvements**, such as constructed improvements or landscaping, as compensation in lieu of the Permit Fee in those circumstances where the proposed in lieu compensation can be shown to be equal to, or greater, in value than the calculated or set amount of the Permit Fee, provided that the Superintendent shall not accept such in lieu compensation where the improvement is inconsistent with the City's health,

safety or aesthetic standards, the mission or policy of the Parks Department, or conveys any message that is not adopted by the City.

Waiver or reduction of the Permit Fee **does not necessarily waive or reduce other fees, charges, requirements, or obligations** in connection with issuance of a Revocable Use Permit including Application Fee, Inspection Fee, processing charges, insurance or indemnity requirements, or restoration requirements.

Limited Term Permit Fee

Limited Term permits may be issued for necessary uses of park property for brief periods of time, generally expected to be **limited to ninety (90) days or less**; however, Limited Term permits may be issued for uses expected to continue beyond ninety (90) days. **Examples of activities** for which Limited Term permits may be issued include removal of encroachments, installation of landscaping consistent with Department guidelines, utility installations, and temporary access.

The Limited Term permit fee will be **charged at a daily rate from the date the permit is issued or the date the use or occupancy of park property began, whichever is earlier**, until the activity is completed and all conditions of the permit, including restoration of any damage to park land, have been satisfied. If seasonal factors, such as planting conditions or construction prohibitions, warrant a delay between the time the use or occupancy of park property is completed and the time the restoration is completed, no Permit Fee shall be charged for the interim period, unless the park land is unavailable for the use or enjoyment of the public.

If a Revocable Use Permit is issued for a use of park land that is expected to continue for a limited period of time, such as a Limited Term permit, but for a **period exceeding ninety (90) days**, the fee shall be the daily rate set for Limited Term permits for the first ninety (90) days; the fee for the period exceeding ninety (90) days shall be calculated in accordance with the Continuing Use permit fee.

Under no circumstances shall a Limited Term permit fee be converted to a lesser fee due to extension of the anticipated completion date of the permitted activity. If upon inspection it is determined that the permit conditions have not been satisfied, charges for additional daily fees at the same rate shall accrue until conditions have been satisfied.

Continuing Use Permit Fee

Continuing Use permit fees shall be charged for **uses expected to continue for an extended period of time, generally beyond ninety (90) days (e.g., encroachments or other non-park uses that will not be corrected or eliminated within a ninety (90) day period)**. Continuing Use permit fees shall be calculated using a **formula** based on land **Value**, **Area** of use, a **Barrier** factor, and a **Rate** of return (**V x A x B x R**).

The **Value** of the park land used shall be determined by calculating the average of the **assessed value** per square foot of the benefited property and the assessed values per square foot of **comparable** (i.e., similarly zoned, having similar amenities such as waterfront or view), nearby (within a distance not to exceed 1,000 feet) **non-park properties**.

The **Area** shall be the total of the square footage of park land actually used or occupied for non-park purposes and/or the square footage of park land that is subject to a barrier to public use and/or enjoyment.

The **Barrier Factor** is a multiplier of 1 or less than 1, representing the extent of barrier to public use and enjoyment, as set by the following scale. If two or more Barrier Factors may apply, the greater factor shall apply.

Factor: **1.00** Full use and/or occupancy of area, preventing public use or occupancy of the area (e.g., a private structure); or creation of a physical barrier denying public use or access to the area (e.g., a fence or hedge);

.70 Creation of a perceptual barrier by improvements or actions that capture the public space for private use (e.g., paving, shrubbery, other plantings);

.35 Private landscaping or other improvements on park land that violate, exceed, or are inconsistent with established design guidelines or reasonable standards intended to preserve the public park-like character of park lands (e.g., private access drive or walkway in excess of standard; private lighting or safety railings that exceed a security function).

The **Rate** of return (i.e., land capitalization rate) is set at 10%.

Continuing Use permit fees for permit **periods of less than twelve (12) months are payable in full prior to permit issuance**. Continuing use permit fees for permit periods anticipated to continue for twelve (12) months or more may be pro-rated and annualized and payable in advance for such annualized date as the Department shall establish. If the permit period is shorter than anticipated, the permit fees paid in advance shall be prorated for the time used and over-payment shall be refunded, except in the case of revocation due to Permittee's failure to comply with the terms and conditions of the permit, in which case no refund shall be given. **Permits for utility installations, such as electrical, natural gas, or telephone service, shall be charged as Limited Term permits**, based on the permit period necessary for installation.

There is no Permit Fee charged for Limited Term permits of ninety (90) days or less issued expressly to allow the removal or elimination of an encroachment onto park land.

There is no Permit Fee charged for certain non-park uses of park land which may be allowable by property right, such as driveway access from the roadway portion of a park boulevard if access is not available from any other right-of-way, or pedestrian walkway from a public sidewalk to the abutting private property, if such uses comply with established design guidelines or reasonable standards intended to preserve the public park-like character of park lands.

Revocable Use Permit FEE SCHEDULE

	2022	
	\$200	Application Fee (non-refundable; includes one (1) on-site inspection and two (2) hours of staff time for reviewing and processing application)
	\$200	Inspection and/or Monitoring, per hour (Application fee includes one on-site inspection. Additional on-site charges at \$200.00 per hour may be assessed, for on-site inspections and/or monitoring, if specified in the Permit or if necessary in the Department's judgment, due to Applicant's or Permittee's action(s), or failure to comply with the terms and conditions of the permit.)
	\$250	Limited Term Permit, per day, OR \$325.00 minimum, whichever is greater
	Formula	Continuing Use Permit, determined by formula (V x A x B x R) OR \$650.00 minimum, whichever is greater
	\$130	Processing Charges, per hour (costs of staff time in excess of two (2) hours to review and process permit applications; payable prior to permit issuance.)

PROMOTIONAL & MARKETING FEE WAIVERS & REDUCTIONS

The Superintendent of the Seattle Parks and Recreation is authorized, as provided in SMC 18.28.020, to waive or reduce entry or use fees from those contained in an approved fee schedule in conjunction with the promotion and marketing of Park and Recreation programs.

EXAMPLES OF FEE WAIVERS & REDUCTIONS

Authorized activities include, but are not limited to, the following arrangements:

1. **Sponsored days:** A sponsored day or activity for which a sponsor pays the Department a fixed fee, a matching amount, or supplies advertising, service, or other benefit. In exchange, the Department provides free public entry use of the facility, or free or reduced entry for a certain segment of the public (e.g., children under 12, senior citizens, anyone donating clothing or food for a drive for those in need); for a special group of the public (e.g., participants in a community parade); or to the first entrants up to a specified number.
2. **Bonus and prizes:** The Department may distribute to users or entrants an item supplied by the sponsor (e.g., a button, a balloon, literature, an item of apparel, or a donated prize for an achievement).
3. **Combination tickets:** The Superintendent may issue a combination ticket for use of multiple City facilities or participation in multiple City events. A combination ticket may also take the form of a reciprocal discount or credit. For example, presentation of a ticket stub or coupon from an aquarium in another city may entitle the holder to a credit on admission to the Seattle Aquarium when a receipt for paid entry to Seattle's Aquarium entitles the holder to like privileges in the facility of the other city. In those cases, where a combination ticket is authorized, combining multiple events and facilities:
 - o The combined ticket price may be less than the amount that would be paid for each entry or event singly;
 - o The combined ticket shall expire within a time period after the ticket's sale or first usage, with said period to be determined by the Superintendent of the Seattle Parks and Recreation or his or her designee; and
 - o The City and any other participant organizations shall apportion the revenue from the combined sale by a ratio or formula.
4. **Discount Coupons:** A coupon allowing two people to enter for the price of one person, or the coupon holder to enter at a reduced rate. Coupons may be offered through a sponsor who makes a payment to the City or who provides special advertising in return. For example, the coupon may accompany an advertisement in a widely distributed publication for tourists, which contains similar coupons for other attractions. The Department may also use coupons as a way of reaching out to a group or segment of the citizenry, who would not attend or use the facility at the established fee.

5. Prepaid Passes: During special hours or otherwise, admission may be sold to a tour company, the organizer of a convention, or an association at an aggregate fee for all members and the participants may be granted entry, either as a group or individually, at the hours or on the days authorized by presenting a ticket or other indication of pre-payment.
6. Departmental Free or Half-Price Days: “Senior citizens’ days” may be offered during which time people over a minimum age are admitted free; a free day may be provided for the public to see and enjoy an exhibit financed through a bond issue or by a public fund-raising drive; on a “Kids’ Day” or “Neighborhood Day,” admission may be free for children and low income adults; a free golf lesson day for kids may be provided; or free swimming day at our pools may be provided.
7. Promotional Purposes: The Department may offer extended evening hours or special discounts during specific periods in the year to encourage high attendance at our park facilities. Some examples include, but are not limited to, the following:
 - (a) Extended Aquarium hours and special discounts during the summer.
 - (b) Extended special discount for swimming fees during the summer.

		Effective 1/9/2013
		Supersedes 3/15/2001
Approved: A <u>current</u> , approved, signed copy of this policy can be found on the Seattle Parks web site, located at: http://www.seattle.gov/parks/reservations/feesandcharges/refunds.htm	Department: Parks and Recreation & The Associated Recreation Council	Page 1 of 3

SUMMARY

For community centers, swimming pools, small craft centers, outdoor spaces, sports fields and other recreation providers, it is the policy of Seattle Parks and Recreation and the Associated Recreation Council that:

- *A full refund will be issued for any program, activity, or reservation that is cancelled for any reason by the Department or the Associated Recreation Council.*
- *Any person who registers for a PROGRAM and who requests a refund before the second class session may receive a prorated refund minus a service charge.*
- *Any person who registers for an ACTIVITY and who requests a refund 14 days or more before its start, may receive a refund minus a service charge.*
- *Any person who schedules a STANDARD RENTAL of a recreation facility and who cancels at least 15 days in advance is entitled to a partial refund.*
- *Any person who schedules a rental of a SPECIAL AMENITY FACILITY and who cancels at least 90 days in advance is entitled to a partial refund.*
- *Any person who reserves a SPORTS FIELD must provide 14 days advance notice of cancellation to be entitled to a full refund.*
- *ADULT SPORTS LEAGUES may receive a partial refund if the cancellation notice is received prior to the league starting and if a replacement team is found.*

Portions of this summary will be included in printed materials where applicable with reference to encourage customers to read the entire policy for specific information. This policy is Appendix D to the adopted Fees and Charges Ordinance for Seattle Parks and Recreation.

1.0 DEFINITIONS:

“Activity” is the term applied to a day camp, school-age or preschool care, trip, overnight camp or special event operated by Seattle Parks and Recreation or Associated Recreation Council or other authorized providers.

“Booking Fee” is an established fee found in the adopted Fees and Charges Ordinance for Seattle Parks and Recreation as a requirement when requesting a facility rental.

“ARC” is the Associated Recreation Council operating programs at Seattle Parks and Recreation facilities under a Master Use Agreement with the City of Seattle.

“Cancellation” is a case in which the Department does not operate a program as originally planned and/or scheduled and results in a refund to the customer without a service charge applied.

“Damage Deposit” is an established fee found in the adopted Fees and Charges Ordinance for Seattle Parks and Recreation usually required as a deposit for facility rentals.

“Fees and Charges” are City fees adopted by City Council as a City of Seattle Ordinance establishing fees and charges for Seattle Parks and Recreation.

“Program” is the term for a series of classes which may include swimming instruction, youth sports, ARC recreation classes or other similar recreation class series.

“Refund” is the direct payment of money or a credit to a customer account. If payment was made by cash or check, a refund will be processed through the Accounting office and may take approximately three weeks. If payment is made through credit card, the refund will be processed within 48 hours of the request.

“Transfer” is the process of withdrawing from one program and enrolling in a different program.

2.0 PROGRAM

2.1 CANCELLATION: It is the policy of Seattle Parks and Recreation and Associated Recreation Council to make a full refund to participants who register for a class, camp, special event or program that is canceled by the Department or Advisory Council for any reason.

2.2 CANCELLATION OF ONE SESSION: In the event of an unplanned cancellation of a single session of a program, that class will be rescheduled whenever possible. If it cannot be rescheduled, the participant will receive a refund.

2.3 DROPPING A PROGRAM BEFORE SECOND SESSION: A participant may be issued a refund if he/she withdraws from a program, and notifies the program coordinator, prior to the second class session. The facility will retain the pro-rated class fee plus a service charge of \$5.00 or 10% of the fee, whichever is greater.

2.4 DROPPING A PROGRAM AFTER SECOND SESSION: If a participant withdraws from a program after the second session of a series, no refund will be given.

3.0 ACTIVITY

3.1 BEFORE, AFTERSCHOOL, AND PRESCHOOL CHILD CARE PROGRAMS: A participant may be issued a refund, less the deposit amount for the activity, if he/she withdraws from a before and/or after school, or preschool child care program if he/she notifies the program coordinator at least fourteen (14) days prior to the beginning date of the program. No refunds will be made for requests received less than fourteen (14) days prior to the beginning of the program. For School Aged Care and preschool program days canceled by the Department due to weather related circumstances, NO credit/refund will be issued for the first two canceled days over the course of the school year. A credit will be issued for the 3rd or additional canceled days.

3.2 DAY CAMPS, OVERNIGHT CAMPS, TRIPS AND EVENTS REFUND: A participant may be issued a refund, less the deposit amount, if he/she withdraws from a youth or teen camp, an overnight camp, trip or event, and notifies the program coordinator at least fourteen (14) days prior to the beginning date of the camp. No refunds will be made for

D APPENDIX

requests received within fourteen (14) days prior to the beginning of the camp. No refunds will be made for food, supplies, or materials fees.

4.0 STANDARD RENTAL

- 4.1 FACILITY RENTALS: Standard Recreation Facility Rental to include Community Centers, Pools, Environmental Learning Centers.
- 4.2 A renter may be issued a refund for a cancelled rental, minus the application booking fee and a cancellation service charge using the following timetable:

31+ days notice of cancellation	Booking Fee, plus \$50 fee is retained by Dept
15-30 days notice of cancellation	Booking Fee, plus 50% of the rental fee is retained by Dept. Damage deposit is refunded.
14 days or less notice of cancellation	No refund given

5.0 SPECIAL AMENITY FACILITIES

- 5.1 FACILITY RENTALS: Special Amenity Facilities include Alki Bathhouse, Golden Gardens Bathhouse, Mount Baker Rowing and Sailing Center, Dakota Place Park Building, Pritchard Bathhouse, Ward Springs Pumphouse, Cal Anderson Shelterhouse and other identified facilities.
- 5.2 A renter may be issued a refund for a cancelled rental, minus the application booking fee and a cancellation service charge using the following timetable:

181+ days notice of cancellation	Booking Fee, plus \$50 fee is retained by Dept
180-91 days notice of cancellation	Booking Fee, plus Damage Deposit is retained by Dept
90 days or less notice of cancellation	No refund given

6.0 SPORTS FIELDS

- 6.1 Field cancellations must be made at least 14 days in advance of usage to get a full refund or credit.
- 6.2 If the Department closes a field for any reason, or if lights do not operate as expected, or if there is a conflict in the scheduled use of a field, a full refund or credit for the missed use will be provided.

7.0 ADULT SPORTS LEAGUES

If a team drops from league play after the deposit is paid and before the final payment is due, a refund will be issued only if a team is found to take the place of the team that wishes to drop from league play. Parks will retain a service charge of the greater of the deposit or 10% of the league fee. No refunds will be issued after the final payment is made and/or final schedules are drawn.

8.0 MERCHANDISE AND FOOD

We are unable to issue refunds for clothing, personal items, supplies or food items, unless there is a product defect. Exchanges may be made for defective products.

D APPENDIX

9.0 EXCEPTIONS

No refund is available for some designated programs, activities or services, which may include deposits for registration, regattas, rentals, outdoor events, ceremonies or picnics. Information on any specific exception is available from Parks and Recreation staff prior to payment or purchase.

SUMMARY and FISCAL NOTE*

Seattle Parks and Recreation	Amy Williams/684-4135	Anna Hurst/733-9317

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to Seattle Parks and Recreation; establishing the 2022 fee schedule for the use of park properties and other park and recreation facilities and services; and superseding previous park and recreation fee schedules.

Summary and background of the Legislation: SPR's fees and charges provide financial support for SPR programs, facilities, and park grounds. The SPR Fee Schedule transmitted by this legislation includes administrative changes to certain sections of the fee schedule summarized below and included in the accompanying legislation as Attachment 2. There are no financial impacts related to these changes.

- Removed 2021 fees in all applicable sections.
- Streamlined tables and chairs rental fees at Magnuson Park.
- Updated language for artist studios to memorialize current rental policy.
- Removed outdated language on view tree pruning permits.
- Updated Appendix C to reflect current field inventory.
- Corrected various typos and formatting errors.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes ☒ No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
This legislation does not have any other indirect financial impacts.

Is there financial cost or other impacts of *not* implementing the legislation?
The legislation is required to allow the department to assess program and facility fees in order to generate the revenues necessary to support a portion of Park Fund expenses.

If there are no changes to appropriations, revenues, or positions, please delete sections 3.a., 3.b., and 3.c. and answer the questions in Section 4.

3.a. Appropriations

☐ This legislation adds, changes, or deletes appropriations.

3.b. Revenues/Reimbursements

☒ This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2021 Existing Revenue	2022 Estimated Revenue
Park Fund: 10200	SPR	Use Fees	\$29,196,276	\$33,749,655
TOTAL				

Is this change one-time or ongoing?

There are no revenue changes associated with the legislation.

Revenue/Reimbursement Notes:

3.c. Positions

☐ This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

No, this legislation does not directly affect any other department.

b. Is a public hearing required for this legislation?

A public hearing is not required.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No, a notice in either publication is not required.

d. Does this legislation affect a piece of property?

This legislation does not affect a piece of property.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

An approach for all park programs and facilities has been developed that ranges from free (high community value) to varying recoveries of costs (high personal value). Social equity is built into that pricing to ensure that there is access to a range of programs and activities. SPR

also prioritizes recreational scholarships in Park District planning which supplement fee pricing at pools and fields.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

This legislation is administrative in nature and does have impacts on carbon emissions.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

This legislation is administrative in nature and does not increase or decrease resiliency to climate change.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

This legislation is not proposing a new initiative or major programmatic expansion.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to Seattle Parks and Recreation (SPR); authorizing an administrative amendment to Ordinance 115859, which established the Beach Maintenance Trust Fund (70200) as a subsidiary fund of the Shoreline Park Improvement Fund (SPIF) (33110), which fund was established by Ordinance 115496 as part of the settlement agreement with the Municipality of Metropolitan Seattle (“Metro”) for the construction of the West Point and Alki secondary sewage projects, and which expired in January 2011.

WHEREAS, Ordinance 115496 established the Shoreline Park Improvement Fund (SPIF) (33110) in January 1991 to receive \$30,000,000 in local improvement funds from the Municipality of Metropolitan Seattle (“Metro”) together with any accrued interest to mitigate the loss of potential shoreline recreation, access, and other unavoidable impacts at West Point; and

WHEREAS, the principal use of the fund was to enhance public use of, access to, and access along bodies of water, including the acquisition, construction, expansion, and rehabilitation of saltwater beaches; and

WHEREAS, Ordinance 115496 referenced a \$2,000,000 allocation of the local improvement funds to a permanent trust fund intended to maintain beaches in their original or restored condition; and

WHEREAS, Ordinance 115859 established the Beach Maintenance Trust Fund (70200) and appropriated \$2,000,000 from the Shoreline Park Improvement Fund (SPIF) (33110) to be held in permanent trust with expenditures made only from the interest earnings on the fund; and

WHEREAS, the Shoreline Park Improvement Fund (33110) was set to expire 20 years after it was established or by January 2011; and

WHEREAS, proceeds in the Shoreline Park Improvement Fund (33110) have been fully spent down; and

WHEREAS, Ordinance 125895 appropriated \$325,000 from the Beach Maintenance Trust Fund (70200) to the Building For the Future budget summary level (BC-PR-20000), to purchase waterfront property at NE 130th Street in Seattle; and

WHEREAS, Ordinance 126210 appropriated \$250,000 from the Beach Maintenance Trust Fund (70200) to the Fix It First budget summary level (BC-PR-40000), to support the Be'er Sheva Park Improvement Project; and

WHEREAS, Ordinance 126237 appropriated the remaining \$1,520,000 from the Beach Maintenance Trust Fund (70200) to the Building For The Future budget summary level (BC-PR-20000), to support the Waterfront Development Project; and

WHEREAS, Ordinance 115859 must be administratively amended to remove the requirement to hold funds in a permanent trust commensurate with the expiration of the Shoreline Park Improvement Fund (33110) in January 2011; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 3 of Ordinance 115859 is amended as follows:

Section 3. The sum of Two Million Dollars (\$2,000,000) is hereby appropriated from the Shoreline Park Improvement Fund and deposited in the Beach Maintenance Trust Fund and the ((City Comptroller)) Director of Finance and Administrative Services is authorized to draw and the city Treasurer to pay the necessary warrants and make the necessary transfers. ~~((The principal sum shall be held in permanent trust and expenditures from the Beach Maintenance Trust Fund shall be made only from the earnings thereon, as contemplated in Section 2 hereof.))~~

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

Monica Martinez Simmons, City Clerk

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Seattle Parks and Recreation	Amy Williams/684-4135	Anna Hurst/733-9137

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to Seattle Parks and Recreation (SPR); authorizing an administrative amendment to Ordinance 115859, which established the Beach Maintenance Trust Fund as a subsidiary fund of the Shoreline Park Improvement Fund (SPIF) (33110), which fund was established by Ordinance 115496 as part of the settlement agreement with the Municipality of Metropolitan Seattle (“Metro”) for the construction of the West Point and Alki secondary sewage projects, and which expired in January 2011.

Summary and background of the Legislation: In January 1991, the City entered into a mitigation agreement with, at the time, the Municipality of Metropolitan Seattle (now King County Metro) for the construction of West Point (Discovery Park) and Alki sewage treatment plants. Per Ordinance 115496, the city established the Shoreline Park Improvement Fund (SPIF) to receive and spend mitigation funds which was set to expire 20 years later, or by January 2011 (Section 2 of the Shoreline Improvement Fund Agreement).

The principal use of the SPIF Fund was to enhance public use of, access to, and access along bodies of water. It was to be used for projects that compensate for the impact of the sewage plants by replacing, enhancing, or providing substitute resources for environments. Within that category of use, the first priority was for the acquisition, construction, expansion, and rehabilitation of saltwater beaches. Acquisitions and improvements that provide or increase public access to bodies of fresh water was also eligible. Proceeds in the SPIF fund (33110) have been fully spent down.

In September 1991, as part of the settlement agreement, the City also created a permanent Beach Maintenance Trust Fund (70200) and appropriated \$2 Million to it from the Shoreline Park Improvement Fund (SPIF) (Ordinance 115859). The mitigation fund balance was to remain at \$2 Million; with the intent interest earned on this principal would be used for beach restoration projects throughout the city.

The Beach Maintenance Trust Fund has been fully appropriated to various projects in accordance with the allowable uses of the funds as described below. However, at the time, Ordinance 115859 which established the Beach Maintenance Trust Fund in 1991 was not simultaneously amended to remove the language stating the fund was to remain as a permanent trust fund. Therefore, this administrative amendment to Section 3 of Ordinance 115859 is needed to eliminate the restriction in accordance with the expiration of the SPIF Settlement Agreement.

- As part of the 2019 supplemental budget process, Ordinance 125895 appropriated \$325,000 to support a shoreline acquisition at NE 130th St.

- As part of the 2020 supplement budget process Ordinance 126210 appropriated \$250,000 to support the Be'er Sheva Park Improvement project.
- As part of the 2021 budget process, Ordinance 126237 appropriated \$1.52M in remaining funds to the Waterfront Piers Rehabilitation project.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

The legislation reflects a technical change to an outdated ordinance and does not have financial impacts.

Is there financial cost or other impacts of *not* implementing the legislation?

If this legislation is not implemented, the City may be at risk of audit findings on the Beach Maintenance Trust Fund.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

This legislation was developed in partnership with the Finance and Administrative Services Department's Citywide Accounting Division.

b. Is a public hearing required for this legislation?

No, a public hearing is not required.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

A notice is not required.

d. Does this legislation affect a piece of property?

No, this legislation does not affect a piece of property.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

This legislation is administrative in nature and does not have RSJI implications.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

This legislation is administrative in nature and does not have climate change implications.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

This legislation is administrative in nature and does not have climate change implications

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

This legislation does not include a new initiative or programmatic expansion.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to King County Conservation Futures Levy proceeds; authorizing the Mayor to enter into a new Interlocal Cooperation Agreement between The City of Seattle and King County to allow for the acceptance of Conservation Futures Levy funds; authorizing the deposit of 2020 and 2021 allocations from King County Conservation Futures Levy proceeds into The City of Seattle's Parks Fund.

WHEREAS, King County Conservation Futures Levy (CFL) funds are collected throughout King County as a dedicated portion of property taxes for the acquisition of open space and natural resource lands; and

WHEREAS, in 1990, City Ordinance 114978 authorized the CFL Interlocal Cooperation Agreement ("CFL Interlocal") with King County to govern the receipt and use of CFL proceeds, and to define the specific projects ("Projects") approved by King County for acquisition using CFL proceeds; and

WHEREAS, each year the City and King County amended the CFL Interlocal to add Projects and to provide for additional allocations of CFL proceeds; and

WHEREAS, in order to add language for the use of bond proceeds, make consistent with King County Code, and other technical details, on November 13, 2018, the King County Council passed Ordinance 18827, which authorizes the County Executive to execute a new CFL Interlocal (Attachment A to this ordinance); and

WHEREAS, on November 20, 2019, the King County Council passed Ordinance 19021, which appropriated a total of \$3,225,000 in 2020 Conservation Futures Levy proceeds to The City of Seattle for the Bitter Lake Urban Village Park, Duwamish River Shoreline Acquisition: Unity Electric award, Duwamish River Shoreline Acquisition: Silver Bay award, Terry Pettus Park Addition, Thornton Creek: North

Branch, and Thornton Creek: South Branch projects; and

WHEREAS, on November 20, 2019, the King County Council passed Ordinance 19021, which reallocated \$558,076 to The City of Seattle for the South Park Plaza and the North Rainier Town Center Park projects; and

WHEREAS, on November 17, 2020, the King County Council passed Ordinance 19210, which appropriated a total of \$2,937,700 in 2021 Conservation Futures Levy proceeds to The City of Seattle for the East Duwamish Greenbelt: Brick Pits, Lakeridge Park Addition, and East Duwamish Greenbelt: South Chicago Street projects, and the Turner-Koepp House and Garden Conservation Easement; and

WHEREAS, on November 17, 2020, the King County Council passed Ordinance 19210, which reallocated \$265,000 to The City of Seattle for the Duwamish River Shoreline Acquisition: Unity Electric Award, and North Beach Natural Area Projects; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The Mayor or the Mayor's designee is authorized to execute a new Conservation Futures Interlocal Agreement ("Interlocal") with King County, substantially in the form of Attachment A to this ordinance, to provide for the City's receipt and use of up to \$3,225,000 from the 2020 allocations of King County CFL proceeds and the reallocation of up to \$558,076; and up to \$2,937,700 from the 2021 allocations of King County CFL proceeds and the reallocation of up to \$265,000.

Section 2. Funds received pursuant to the Interlocal shall be deposited as follows:

Fund	Department	Budget Control Level/ Capital Improvement Program	Amount (Up To)
Parks Fund (33860)	Seattle Parks and Recreation	Metropolitan Park District (PRK730306)	\$6,985,776

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

**INTERLOCAL COOPERATION AGREEMENT
BETWEEN KING COUNTY AND THE CITY OF SEATTLE
FOR CONSERVATION FUTURES-FUNDED
OPEN SPACE ACQUISITION PROJECTS**

THIS INTERLOCAL COOPERATION AGREEMENT is a grant agreement entered into between the CITY OF SEATTLE (“City”) and KING COUNTY (“County”).

Article I. Recitals

On February 27, 1989, the King County Council passed Ordinance 8867, which established a process to allocate the proceeds of the Conservation Futures Fund.

On September 21, 1989, the King County Council passed Ordinance 9128, which established a Conservation Futures Levy Fund to provide for the receipt and disbursement of Conservation Futures tax levy proceeds and established conditions for use of the Fund, including conditions covering allowable cost and expenses.

On July 21, 2003, the King County Council passed Ordinance 14714, authorizing funding allocation procedures for King County Conservation Futures tax levy collections and amending Ordinance 8867, Section 2, as amended.

The Conservation Futures Advisory Committee has recommended an allocation of Conservation Futures proceeds to specific projects from the Conservation Futures Levy Fund following notification to the cities that proceeds were available, provision of an opportunity for the cities to respond and receipt by the committee of requests for funding, all pursuant to Ordinance 8867, as amended by Ordinance 14714.

Starting in 1990 and through 2017, the King County Executive, as authorized by the King County Council, executed Interlocal Cooperation Agreements with the cities of Auburn,

Bellevue, Black Diamond, Bothell, Burien, Carnation, Covington, Des Moines, Duvall, Enumclaw, Federal Way, Issaquah, Kenmore, Kent, Kirkland, Lake Forest Park, Mercer Island, Milton, Newcastle, Normandy Park, North Bend, Pacific, Redmond, Renton, Sammamish, Seattle, Shoreline, Snoqualmie and Tukwila, and Vashon Park District. Many of these agreements were amended over time to add new projects.

The existing Interlocal Cooperation Agreements remain in place with an indefinite term for the projects for which Conservation Futures proceeds were disbursed. The agreements require the properties to be maintained as open space in perpetuity.

The King County Council, by Ordinance 18978, has approved a new Interlocal Cooperation Agreement for future projects in order to add terms for the use of bond proceeds for certain projects, achieve consistency between the agreement and the King County Code, and make other technical changes.

Pursuant to chapter 39.34 RCW, the parties agree to the following:

Article II. Definitions

1. Open Space

The term “open space” or “open space land” means: (a) any land area so designated by an official comprehensive land use plan adopted by any city or county and zoned accordingly; or (b) any land area, the preservation of which in its present use would (i) conserve and enhance natural or scenic resources, or (ii) protect streams or water supply, or (iii) promote conservation of soils, wetlands, beaches or tidal marshes, or (iv) enhance the value to the public of abutting or neighboring parks, forests, wildlife reserves, natural reservations or sanctuaries or other open space, or (v) enhance recreational activities, or (vi) preserve historic sites, or (vii) preserve visual quality along highway, road, and street corridors or scenic vistas, or (viii) retain

in its natural state tracts of land of not less than one acre situated in an urban area and open to public use on such conditions as may be reasonably required by the legislative body granting the open space classification, or (c) any land meeting the definition of farms and agricultural conservation under subsection (8) of RCW 84.34.020. As a condition of granting open space classification, the legislative body may not require public access on land classified under (b) (iii) of this subsection for the purpose of promoting conservation of wetlands.

2. Project

The term “Project” means the specific projects described in Exhibit A or added by follow-on amendments to disburse proceeds pursuant to Section 8.2 of this agreement.

3. Conservation Futures

The term “Conservation Futures” means developmental rights which may be acquired by purchase, gift, grant, bequest, devise, lease or otherwise, except by eminent domain, and may consist of fee simple or any lesser interest, development right, easement, covenant, or other contractual right necessary to protect, preserve, maintain, improve restore, limit future use of, or otherwise conserve open space land, all in accordance with chapter 84.34 RCW and K.C.C. chapter 26.12.

Article III. Purpose of the Agreement

The purpose of this agreement is to create a cooperative arrangement between the City and the County relating to the Project and to define the terms and conditions governing both parties’ obligations created by this agreement.

Article IV. Term of Agreement

This agreement shall be continued in full force and effect and binding upon the parties hereto upon execution of the agreement by both parties. The terms of the agreement shall be

indefinite. The agreement will be terminated if the City is unable or unwilling: 1) to expend the proceeds provided through this agreement; 2) to satisfy the matching requirements contained in this agreement; and 3) upon reimbursement by the City to the County of all unexpended proceeds provided by the County pursuant to this agreement in the manner and amounts described below and payment of all amounts due pursuant to Section 8.1.

Article V. Conditions of Agreement

Section 5.1 -- Project Descriptions. Proceeds available pursuant to this agreement may be used only for the Projects listed in Exhibit A, such substituted Projects as may be approved by the County as set forth below, or Projects added by follow-on amendments to disburse proceeds pursuant to Section 8.2 of this agreement. All County funded Projects must meet open space criteria as described in chapter 84.34 RCW and K.C.C. chapter 26.12.

Section 5.2 -- Use of Proceeds. Proceeds provided to the City pursuant to this agreement as well as moneys provided by the City as match pursuant to this agreement may be used only to pay capital costs related to property acquisition. Those costs include appraisals, title searches, negotiations, administrative overhead, and the cost of actual acquisition or purchase options, and all other costs meeting the requirements of K.C.C. 26.12.010. The City shall have the property valued by an appraisal performed by an independent state-certified real estate appraiser with a current general real estate appraiser license, and reviewed by an independent state-certified general real estate appraiser. In requesting reimbursement of proceeds for the Project, the City shall demonstrate to the County compliance with this Section 5.2. Proceeds utilized pursuant to this agreement may not be used to purchase land obtained through the exercise of eminent domain.

Section 5.3 -- Completion/Substitution/Deletion of Projects. The City shall complete the Project described in Section 5.1 of this Agreement within a two year period from the effective date of the County ordinance appropriating funding for the Project. If the City does not meet this two year requirement, unless the City demonstrates to the Advisory Committee a compelling reason for continuance of CFT funding for the Project beyond the two-year limit or a reprogramming request is timely approved as provided for below, the County shall be released from any obligation to fund the Project, and the County in its sole discretion may reallocate such proceeds for other projects in other jurisdictions. The City may submit specific requests for project reprogramming to the County for its approval within the two year period. All projects proposed for reprogramming must meet open space criteria as described in chapter 84.34 RCW and K.C.C. chapter 26.12, be submitted for recommendation by the County's Advisory Committee or its successor, and be approved by action of the King County Council. All reprogramming requests shall be submitted to the County's Department of Natural Resources and Parks, Open Space Acquisitions Unit, or its successor.

Section 5.4 -- Eminent Domain. If any Project requires the exercise of eminent domain to acquire the property, all proceeds provided pursuant to this agreement plus accrued interest on such proceeds shall be reprogrammed as provided in this agreement or repaid to the County.

Article VI. Responsibilities of the City

Section 6.1 -- Matching Requirements. Except for acquisitions of property interests in opportunity areas, as defined by K.C.C. 26.12.003, any Project funded by Conservation Futures Levy proceeds shall be supported by the City in which the Project is located with a matching contribution, which is no less than the amount of Conservation Futures Levy proceeds allocated to the Project. This contribution may be in the form of cash, land match with a valuation verified

by an appraisal by an independent state-certified real estate appraiser with a current general real estate appraiser license, or the cash value, excluding King County conservation futures contributions, of other open spaces acquired within the previous two years from the date of submittal of the application by the City. The appraisal, to be reviewed, shall have been performed within two years of the application deadline set for the annual allocation of conservation futures tax levy proceeds under which the Property received funding. Properties considered as land match or cash value of other open space acquisitions should be directly linked to the property under application. Any City match, other than cash, shall require County approval. County approval and County acceptance of the City's match will be transmitted in writing to the City by the County's Designated Representative.

Section 6.2 -- Reporting. All proceeds received pursuant to this agreement and accrued interest therefrom will be accounted for separately from all other City moneys, accounts and moneys. Until the property described in the Project is acquired and all proceeds provided pursuant to this agreement have been expended, the City shall provide the reports required by K.C.C. 26.12.035.

Section 6.3 -- Disposition of Remaining Proceeds. If the City does not expend all proceeds obligated to be provided through this agreement and no substitute project is requested or approved as to the excess proceeds, such proceeds, if held by the City, shall be refunded to the County. For purposes of this section, "proceeds" shall include all moneys obligated to be provided by the County plus interest accrued by the City on such moneys. Any proceeds in excess of those required to be provided by the County for the actual costs of the Project shall remain with the County for use in its sole discretion.

Section 6.4 -- Maintenance in Perpetuity. Except as provided in this Section 6.4, the City, and any successor in interest, agree to maintain properties acquired with proceeds provided pursuant to this agreement as open space in perpetuity and, as required by the County, to include in the real property records notice of this restriction. Projects carried out by the City in whole or in part with funds provided for under the terms of this agreement shall not be transferred or conveyed except by agreement with an agency or nonprofit organization as defined in K.C.C. 26.12.003, which shall provide that the land or interest in land shall be continued to be used for the purposes of K.C.C. chapter 26.12, and in strict conformance with the uses authorized under chapter 84.34 RCW.

The City shall not change the status or use of properties acquired with proceeds provided pursuant to this agreement unless the City provides equivalent lands or cash in exchange for the land to be changed to a different use. The land shall be valued in its changed status or use, and not based upon its value as open space, and the replacement land or payment amount must be approved by the County. If requested by the County, at its own cost the City will provide the County an appraisal performed within the previous year by an independent state-certified real estate appraiser with a current general real estate appraiser license. The value established by the appraisal will not be binding on the County. If the County approves replacement land, the City shall complete the replacement within one year of approval. If the County approves cash reimbursement, the City shall pay the County within 90 days of approval.

Section 6.5 – Tax Covenants. The City acknowledges that proceeds provided by the County for a Project may be proceeds of tax-exempt bonds (the “Bonds”) subject to certain requirements of the Internal Revenue Code of 1986, as amended (the “Tax Code”), including any implementing regulations and any administrative or judicial interpretations. The City will

comply with Tax Code requirements, including those set forth in Exhibit B, which is incorporated herein, applicable to Bond-financed Projects identified in Exhibit A, which is incorporated herein, as well as Bond-financed Projects identified in subsequent amendments to this agreement.

Article VII. Responsibilities of the County

Subject to the terms of this agreement, the County will provide Conservation Futures Tax Levy proceeds in the amounts and for the Projects identified in Exhibit A as well as in those amounts and for those Projects identified in subsequent amendments to this agreement. The City may request additional proceeds; however, the County has no obligation to provide proceeds to the City in excess of the amount shown in Exhibit A. The County assumes no obligation for future support of the Project described herein except as expressly set forth in this agreement.

Article VIII. Other Provisions

Section 8.1 -- Hold Harmless and Indemnification.

A. The County assumes no responsibility for the payment of any compensation, fees, wages, benefits or taxes to or on behalf of the City, its employees, contractors or others by reason of this agreement. The City shall protect, indemnify and save harmless the County, its officers, agents and employees from any and all claims, cost and whatsoever occurring or resulting from: 1) the City's failure to pay any compensation, fees, wages, benefits or taxes; and 2) the supplying to the City of work, services, materials or supplies by City employees or agents or other contractors or suppliers in connection with or in support of performance of this agreement.

B. The City further agrees that it is financially responsible for and will repay the County all indicated amounts following an audit exception, which occurs due to the negligent or

intentional acts of this agreement by the City, its officer, employees, agent or representatives arising out of the performance of the terms of this agreement.

C. The City shall protect, indemnify and save harmless the County from any and all costs, claims, judgments, or awards of damages, arising out of or in any way resulting from the negligent acts or omissions of the City, its officers, employees or agents in the performance of its obligations under the terms of this agreement. For the purposes of this agreement only, the City agrees to waive the immunity granted it for industrial insurance claims pursuant to Title 51 RCW to the extent necessary to extend its obligations under this paragraph to any claim, demand, or cause of action brought by or on behalf of any employee, including judgments, awards and costs arising therefrom including attorney's fees.

D. To the extent permitted by law, and except to the extent caused by the sole negligence of the County, the City agrees, at its expense, to pay, and to indemnify and hold the County, its officers, employees or agents harmless of, from and against, any and all claims, damages, demands, losses, liens, liabilities, penalties, fines, taxes, lawsuits and other proceedings and costs and expenses (including attorneys' fees) of every conceivable kind, character or nature whatsoever, arising directly or indirectly from or out of, or in any way connected with any examination or audit of any Bond issued to finance or refinance costs of any Bond-financed Project identified in Exhibit A as well as Bond-financed Projects identified in subsequent amendments to this agreement by the Internal Revenue Service, or any determination by the Internal Revenue Service or a court of competent jurisdiction that the interest on any such Bond is or should be subject to federal income taxation; provided, however, that the City shall not be liable for any payment made by the County with respect to any settlement of any such

examination or audit, or of any other proceeding related thereto, entered into without the consent of the City.

Section 8.2 -- Amendment. The parties reserve the right to amend or modify this agreement. Amendments or modifications to disburse proceeds approved by the County Council must be by written instrument signed by the parties substantially in the form of Exhibit C. Other amendments also must be approved by the respective City and County Councils.

Section 8.3 -- Contract Waiver. No waiver by either party of any term or condition of this agreement shall be deemed or construed to be a waiver of any other term or condition, nor shall a waiver of any breach be deemed to constitute a waiver of any subsequent breach whether of the same or different provision of this agreement. No waiver shall be effective unless made in writing.

Section 8.4 -- Entirety. This agreement is the complete expression of the terms hereto and any oral representations or understandings not incorporated are excluded. This agreement merges and supersedes all prior negotiations, representations and agreements between the parties relating to the Project and constitutes the entire agreement between the parties. The parties recognize that time is of the essence in the performance of the provisions of this agreement.

TOTAL		\$6,985,776

2019 REALLOCATION PROJECT DESCRIPTIONS:

Project # 1122040: Seattle – South Park Plaza (\$200,000)

This project will establish a 1.3-acre passive use greenspace within a larger park that is being created on 14th Avenue South, in the South Park community. It is located adjacent to the South Park replacement bridge on the western shore of the Duwamish Waterway. The park is intended to help tie together the bridge, the local commercial center, and the Duwamish Waterway to help create an improved urban center for South Park. Matching funds are provided by the 2008 Parks and Green Spaces Levy. Seattle is in discussions with King County Roads on parcel 218500-0895, and additional funds are needed for the transaction. The project receives a 2019 reallocation of \$200,000. Project funding was authorized in King County Ordinance 19021.

Is this a Bond-financed Project? No

Project # 1126739: Seattle – North Rainier Town Center (\$358,076)

This project seeks to acquire 0.25 acres of open space in the North Rainier Hub Urban Village, adjacent or close to the Mount Baker light rail station at the intersection of Martin Luther King Boulevard and North Rainier Avenue, across from Franklin High School. The light rail station is situated in a community that is underserved with open space, and locating an open space site at the transit center link could help make it more pedestrian-friendly. The City is working with the community, other city agencies, and stakeholders to identify an appropriate location. The project receives reallocation of \$358,076. Project funding was authorized in King County Ordinance 19021.

Is this a Bond-financed Project? No

2020 ALLOCATION PROJECT DESCRIPTIONS:

Project # 1136838: Seattle – Bitter Lake Urban Village Park (\$350,000)

The City of Seattle is exploring the use of a 7-acre property as an affordable housing development on Aurora Avenue North, where up to 1 acre of associated park land would be purchased with CFT funding. The award was granted with a conditional match waiver (i.e., associated only with this year's funding award, not guaranteed for future years' requests). The Conservation Futures Advisory Committee requested that the City work to advance the vision, carry out additional planning and community engagement, and return in the future with a more specific, defined proposal for additional CFT funding and match waiver determination. Project funding was authorized in King County Ordinance 19021.

Is this a Bond-financed Project? No

Project # 1136849: Seattle - Duwamish River Shoreline Acquisition, Unity Electric Award (\$1,000,000)

Seattle Parks and Recreation seeks to acquire the “Unity Electric” property located immediately east of 1.26-acre Duwamish Waterway Park, part of a broader “South Park Riverwalk” project. The City is still determining how the property will be used, and whether it will be eligible for CFT funding. The award is granted a match waiver. The Committee understands that SPR has capacity to purchase the property, and may return in the future if there is need for more CFT funding toward this specific parcel (and such award will be eligible for a match waiver). Project funding was authorized in King County Ordinance 19021.

Is this a Bond-financed Project? No

Project # 1136850: Seattle – Duwamish River Shoreline Acquisition, Silver Bay Award (\$500,000)

Seattle Public Utilities (SPU) proposes to integrate a trail along the river into a larger stormwater infrastructure site on the “Silver Bay” property that lies north of the 1.26-acre Duwamish Waterway Park, part of a broader “South Park Riverwalk” project. The award is granted with a conditional match waiver (i.e., associated only with this year’s funding award, not guaranteed for future years’ requests). The Conservation Futures Advisory Committee requested that SPU further clarify costs, the footprint of a dedicated trail, and merits of a match waiver if they return for further funding and match waiver determination. Project funding was authorized in King County Ordinance 19021.

Is this a Bond-financed Project? No

Project # 1136839: Seattle – Terry Pettus Park Addition (\$375,000)

The City of Seattle seeks to acquire 0.14 acres as an addition to Terry Pettus Park, a small, street-end waterfront park on Lake Union. This community-supported expansion will provide additional park space in a developing urban village and double available access to Lake Union shoreline at this location. The City plans to use donations from the nearby neighborhood and City park funds as match, and will need to complete a boundary line adjustment and property clean-up as it purchases the site. Project funding was authorized in King County Ordinance 19021.

Is this a Bond-financed Project? No

Project # 1136982: Seattle – Thornton Creek, North Branch (\$600,000)

This project is a partnership between SPR and Seattle Public Utilities. Acquisition of 0.9 acres along the north fork of Thornton Creek on NE 125th Street will provide an opportunity to reconnect the floodplain to create additional habitat and increase flood storage capacity. The City

will use Park District funds as match. Project funding was authorized in King County Ordinance 18987.

Is this a Bond-financed Project? Yes

Project # 1136940: Seattle – Thornton Creek, South Branch (\$400,000)

The City of Seattle seeks to acquire two parcels, 0.7 acres, along the south fork of Thornton Creek, completing public ownership along this stretch of the creek. Acquisition of this property will allow the City to prevent the spread of invasive plants and restore a highly visible hillside above public lands, and will complement the large floodplain reconnection project performed by SPU in 2016. Project funding was authorized in King County Ordinance 19021.

Is this a Bond-financed Project? No

2020 REALLOCATION PROJECT DESCRIPTIONS:

Project # 1136849: Seattle - Duwamish River Shoreline Acquisition, Unity Electric Award (\$15,000)

Refer to project description under 2019 award projects. This reallocation moved funding from an adjacent Duwamish Waterway Park to this project. The project has a match waiver. Project funding was authorized in King County Ordinance 19210.

Is this a Bond-financed Project? No

Project #1129238: Seattle – North Beach Natural Area (\$250,000)

This project goal is acquiring a small, 0.26-acre woodland ravine inholding parcel in the North Beach Natural Area. It is located on the mapped NW 91st Street right-of-way, east of 30th Avenue NW in northwest Seattle. The property is adjacent to a road right of way in a steep ravine that will not be developed for a road. Since the original award to this project in 2017, the property has sold twice and additional funding is needed to cover an increase in acquisition costs. Project funding was authorized in King County Ordinance 19210.

Is this a Bond-financed Project? No

2021 ALLOCATION PROJECT DESCRIPTIONS:

Project #1137238 Master (Award #1138985): Seattle – Turner-Koepf House and Garden (\$1,512,700)

This partnership between Historic Seattle Preservation and Development Authority (PDA) and Seattle Parks and Recreation will preserve the historic Turner-Koepf House and Garden, a 0.41-

acre parcel, in the Beacon Hill neighborhood of Seattle. Historic Seattle would use its own funding to purchase the home and the underlying fee. SPR would use CFT funding to purchase a conservation easement on much of the open space on the parcel (on a footprint which meets the 15% limit on non-vegetated impervious surfaces). This project received a match waiver. Project funding was authorized in King County Ordinance 19210.

Is this a Bond-financed Project? Yes

Project #1138972: Seattle – East Duwamish Greenbelt, Brick Pits (\$1,000,000)

This project will preserve a 21-acre forested inholding in the East Duwamish Greenbelt along Beacon Hill, in a highly visible stretch along I-5 between South Columbian Way and South Dakota Street. Successful acquisition would preserve tree canopy and wildlife habitat connecting other Parks-owned properties in the greenbelt. The project received a match waiver. SPR may return for additional funding on this project in the future and such award will be eligible for a match waiver. Project funding was authorized in King County Ordinance 19210.

Is this a Bond-financed Project? No

Project #1137238 Master (Award #1138973): Seattle – East Duwamish Greenbelt, S. Chicago Street (\$150,000)

This project will acquire a 1.2-acre inholding within SPR ownership, on a wooded hillside above I-5 near Military Road S. This acquisition prevents development of this site, allowing contiguous City ownership in this portion of the greenbelt. Project funding was authorized in King County Ordinance 19210.

Is this a Bond-financed Project? Yes

Project #1138974: Seattle – Lakeridge Park Addition (\$275,000)

The City seeks to acquire several frequently flooded properties along Taylor Creek within Lakeridge Park to connect public ownership in the greenspace and aid restoration efforts of Taylor Creek by Seattle Public Utilities (SPU). The award will allow the City to purchase one 0.25-acre parcel, out of four inholding properties that total 1 acre. Project funding was authorized in King County Ordinance 19210.

Is this a Bond-financed Project? No

EXHIBIT B

Tax Covenants

The City acknowledges that proceeds provided by the County for the Project may be proceeds of Bonds subject to certain requirements of the Tax Code. The City will take all actions with respect to the Project, and proceeds received for the Project, necessary to assure the exclusion of interest on the Bonds from the gross income of the owners of the Bonds, including but not limited to the following:

- (a) Expenditure of Proceeds. The City will expend proceeds of the Bonds received from the County for capital expenditures for federal income tax purposes within the meaning of Section 1.150-1(b) of the Tax Code. Bond proceeds may be expended to pay, or reimburse the City for, Project capital expenditures or to repay interim indebtedness incurred for capital expenditures of the Project.
- (b) Notice. The City will provide notice of action taken or planned to issue any tax-exempt indebtedness, including bonds, bank loans, or other tax-exempt indebtedness, to finance Project costs.
- (c) Treatment as Grant.
 - (1) The City is a governmental entity possessing substantial taxing, eminent domain and police powers and constituting a political subdivision of the State.
 - (2) The City is not acting as an agent of the County.
 - (3) The grant of proceeds for the Project does not impose any obligation or condition to directly or indirectly repay any amount to the County (excluding obligations or conditions intended solely to assure expenditure of the transferred moneys in accordance with the governmental purpose of the transfer).
 - (4) The grant is required to be used for open space as required under Article II but does not impose any conditions relating to the use of the Project or other property of the City by the County or any of its agencies or authorities.
 - (5) This agreement is a grant agreement.
- (d) Limitations on Disposition of Project. The City will not sell or otherwise dispose of any components of the Project without prior approval by the County and in compliance with timeframes for completion of land replacement or cash reimbursement as provided in Section 6.4.
- (e) Record Retention. The City will retain its records of all accounting and monitoring it carries out with respect to the Bond proceeds received and with respect to

the Project for at least three years after the Bonds mature or are redeemed as provided in the amendment granting such Bond proceeds to the City.

(f) Cooperation. The City will provide tax certificates when and as requested by the County or County's bond counsel in order to establish or maintain the tax-exempt status of the Bonds. The City will cooperate in any audit of the Bonds by the Internal Revenue Service, including disclosure of any record, contracts and other materials relating to the Bond proceeds received by the City and the Project.

EXHIBIT C

AMENDMENT TO THE CONSERVATION FUTURES INTERLOCAL COOPERATION AGREEMENT BETWEEN KING COUNTY AND THE CITY OF _____ FOR OPEN SPACE ACQUISITION PROJECTS

Preamble

The King County Council, through Ordinance 9128, has established a Conservation Futures Levy Fund and appropriated proceeds to King County and certain cities. This amendment is entered into to provide for the allocation of additional proceeds made available for open space acquisition.

THIS AMENDMENT is entered into between the CITY OF _____ and KING COUNTY, and amends and attaches to and is part thereof of the existing Interlocal Cooperation Agreement entered into between the parties on the _____ day of (Month), (Year), as previously amended.

The parties agree to the following amendment:

The Interlocal Cooperation Agreement is hereby amended by adding Exhibit 1, attached hereto.

In all other respects, the terms, conditions, duties and obligations of both parties shall remain the same as agreed to in the Interlocal Cooperation Agreement as previously amended.

Once fully executed, this Amendment shall be incorporated into the existing Interlocal Cooperation Agreement as if fully set forth, and shall become Amendment ____.

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to King County Conservation Futures Levy proceeds; authorizing the Mayor to enter into a new Interlocal Cooperation Agreement between The City of Seattle and King County to allow for the acceptance of Conservation Futures Levy funds; authorizing the deposit of 2020 and 2021 allocations from King County Conservation Futures Levy proceeds into The City of Seattle's Parks Fund.

Summary and background of the Legislation:

The proposed ordinance will authorize the Mayor to enter into a new Interlocal Cooperation Agreement between the City of Seattle and King County to allow for the acceptance of Conservation Futures Levy funds. Conservation Futures funding is used to match City funding for the acquisition of parks and open space.

King County has proposed this new Conservation Futures tax levy (CFT) Interlocal Cooperation Agreement (ILA) to use for future projects for the following reasons:

1. Add language for use of bond proceeds

- a. Language that funds are for capital costs.
- b. Indemnification language specific to use of bond proceeds.
- c. City's requirements under the federal Tax Code for bond-financed projects.
- d. Exhibit B developed specifically for bond projects

2. Changes for consistency with the King County Code

- a. New match waiver language related to projects in opportunity areas.
- b. Technical name changes adopted in code.
- c. Clarification of requirements for conversions in use of property.
- d. Clarification of acceptable forms of land match.
- e. Description of appraiser qualifications for land match.

3. Other technical changes

- a. Requirement to record the conservation restriction on title.
- b. Technical changes to format of legal citations.
- c. Deletion of unnecessary section about applying for CFT funds.

The older CFT ILAs with the County will remain in place, with the "Maintenance in Perpetuity" requirements as the key provision that affects long-term property management.

This legislation allows for the acceptance up to a total of Three Million Two Hundred Twenty-Five Thousand Dollars (\$3,225,000) in 2020 Conservation Futures Levy proceeds for: the Bitter Lake Urban Village Park (\$350,000), Duwamish River Shoreline Acq: Unity Electric award (\$1,000,000), Duwamish River Shoreline Acq: Silver Bay award (\$500,000), Terry Pettus Park Addition (\$375,000), Thornton Creek: North Branch (\$600,000), and Thornton Creek: South Branch projects (\$400,000); and the reallocation of Two Hundred Thousand Dollars (\$200,000) to South Park Plaza and Three Hundred Fifty-Eight Thousand Seventy-Six Dollars (\$358,076) to North Rainier Town Center Park.

This legislation also allows for the acceptance of up to a total of Two Million Nine Hundred Thirty-Seven Thousand Seven Hundred Dollars (\$2,937,700) in 2021 Conservation Futures Levy proceeds for: Turner-Koepf House and Garden (conservation easement in partnership with Historic Seattle, \$1,512,700), East Duwamish Greenbelt: Brick Pits (\$1,000,000), East Duwamish Greenbelt: S. Chicago Street (\$150,000), Lakeridge Park Addition (\$275,000); and the reallocation of Fifteen Thousand Dollars (\$15,000) to Duwamish River Shoreline Acquisition: Unity Electric Award, and Two Hundred Fifty Thousand Dollars (\$250,000) to the North Beach Natural Area.

The Conservation Futures Levy is a county-wide property tax collected by King County for the acquisition of open space, agricultural or timber lands.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?
NA

Is there financial cost or other impacts of *not* implementing the legislation?

The City will not be able to request reimbursement for CFT funds and lose a valuable source of park, recreation and open space funding.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?
No.

b. Is a public hearing required for this legislation?
No.

- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**

No.

- d. Does this legislation affect a piece of property?**

Yes.

- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?**

Conservation Futures funding is used to match City funding for the acquisition of parks and open space. One of the priorities for the use of these funds is the acquisition of property in areas of the city lacking parks and open space, which tend to be high-density, low-income areas. The new Interlocal Agreement allows for no match “equity” funding targeted to areas of low income, poor health outcomes and lack of adequate open space.

- f. Climate Change Implications**

- 1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**

No, this bill is about funding mechanisms.

- 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle’s resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

No, this bill is about funding mechanisms.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program’s desired goal(s)?**

N/A

- h. Other Issues:**

None.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the financing of the Finance and Administrative Services Fund; authorizing interfund loans up to a total of \$8,000,000 from the Fleet Capital Fund and \$2,000,000 from the Wheelchair Accessible Fund to the Finance and Administrative Services Fund for financing of FEMA-eligible COVID-19 response expenses.

WHEREAS, the Department of Finance and Administrative Services used the Finance and Administrative Services Fund to pay for COVID-19 mass vaccine sites expenses, COVID-19 testing centers expenses, and other COVID-19 related expenses that are eligible for FEMA reimbursement; and

WHEREAS, while reimbursement is guaranteed by the federal government, the exact timing of when the City will receive federal funds is not certain due to the scope of the COVID-19 public health emergency and federal review requirements - including a new 'desk audit' implemented by FEMA for state-level spending;" and

WHEREAS, Seattle Municipal Code subsection 5.06.030.C requires City Council approval by ordinance of any interfund loan for a duration of 90 days or more; and

WHEREAS, in the normal course of business the City may temporarily lend cash between funds to maintain required balances; and

WHEREAS, regarding use of the proceeds of this interfund loan for operating costs, the Finance and Budget Directors have determined that there is no viable alternative available for advancing a core City objective; and

WHEREAS, the Director of Finance and the City Budget Director have determined that this interfund loan

request is consistent with the Debt Management Policies adopted by Resolution 31553; and

WHEREAS, there is sufficient cash in the Fleet Capital Fund to support a primary interfund loan of up to

\$8,000,000 through December 31, 2023 and still meet regular budgeted operating needs; and

WHEREAS, there is sufficient cash in the Wheelchair Accessible Fund to support a secondary interfund loan of

up to \$2,000,000 through December 31, 2023 and still meet regular budgeted operating needs; and

WHEREAS, funds loaned by the Fleet Capital Fund and the Wheelchair Accessible Fund to the Finance and

Administrative Services Fund for financing of COVID-19 response expenses are anticipated to be repaid

from the FEMA reimbursements; and

WHEREAS, the Debt Management Policy Advisory Committee approved the execution of this interfund loan

at its October 2022 meeting; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The City Council finds that there is no viable alternative to meet a core City objective, and therefore the Director of Finance is authorized to make a revolving loan of up to \$8,000,000 principal and interest outstanding from the Fleet Capital Fund to the Finance and Administrative Services Fund, to provide financing for COVID-19 response expenses. The loan is to be repaid no later than December 31, 2023, with interest on the loan at the rate of return of the City's Consolidated Cash Pool. The entire principal and interest amount of the loan drawn is intended to be repaid with FEMA reimbursements and other FEMA-eligible vaccine costs (Seattle-King County Public Health) funds.

Section 2. The Director of Finance may effectuate the loan authorized in Section 1 of this ordinance by transferring cash from the Fleet Capital Fund to the Finance and Administrative Services Fund, or by carrying the Finance and Administrative Services Fund in a negative cash position, in an amount not to exceed \$8,000,000 until no later than December 31, 2023. The Director of Finance is further authorized to establish, and modify if necessary, from time to time, a repayment plan and schedule.

Section 3. The City Council finds that there is no viable alternative to meet a core City objective, and

therefore the Director of Finance is authorized to make a revolving loan of up to \$2,000,000 principal and interest outstanding from the Wheelchair Accessible Fund to the Finance and Administrative Services Fund, to provide financing for COVID-19 response expenses. The loan is to be repaid no later than December 31, 2023, with interest on the loan at the rate of return of the City's Consolidated Cash Pool. The entire principal and interest amount of the loan drawn is intended to be repaid with FEMA reimbursements and other FEMA-eligible vaccine costs (Seattle-King County Public Health) funds.

Section 4. The Director of Finance may effectuate the loan authorized in Section 3 of this ordinance by transferring cash from the Wheelchair Accessible Fund to the Finance and Administrative Services Fund, or by carrying the Finance and Administrative Services Fund in a negative cash position, in an amount not to exceed \$2,000,000 until no later than December 31, 2023. The Director of Finance is further authorized to establish, and modify if necessary, from time to time, a repayment plan and schedule.

Section 5. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
FAS	Cameron Findlay 4-3972	Jennifer Breeze

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the financing of the Finance and Administrative Services Fund; authorizing interfund loans up to a total of \$8,000,000 from the Fleet Capital Fund and \$2,000,000 from the Wheelchair Accessible Fund to the Finance and Administrative Services Fund for financing of FEMA-eligible COVID-19 response expenses.

Summary and background of the Legislation: In 2020 and 2021, the Finance and Administrative Services Fund (50300) incurred significant operating expenses for the City of Seattle's COVID-19 response. These expenses include but are not limited to the implementation of a centralized warehouse for COVID-19 supplies, purchases of personal protective equipment used by City personnel, and the implementation and operation of the mass vaccination clinic sites at Lumen Field and various other locations in the City. The City expects to be reimbursed for many of these expenditures through multiple funding sources: direct reimbursements from the Federal Emergency Management Agency (FEMA) and indirect FEMA payments through the Public Health – Seattle and King County agency.

At this time, the City anticipates it will take up to 24 months for the City to receive the anticipated reimbursements for eligible COVID-19 expenses. The Finance and Administrative Services Fund requires an interfund loan of up to \$10 million for the period of time that it carries the unreimbursed City-wide expenditures on its balance sheet.

This ordinance grants the Director of Finance, or his designee, the authority to transfer cash to the Finance and Administrative Services Fund from one or more of these designated Lending Funds. The Funds were selected as capable Lending Funds based upon analysis of cash balance histories, fund financial plans, and other considerations. Through the life of the requested interfund loan authority, FAS will closely monitor the balance sheets and income statements of the Lending Funds to ensure that interfund loan obligations do not affect the Fund's operations or program planning.

The designated Lending Funds are:

- Fleet Capital Fund (50321)
- Wheelchair Accessible Fund (12100)

These Funds will receive the same interest earnings on all cash loaned to the Finance and Administrative Services Fund as they would have earned if the cash had not been loaned. It is estimated that the Finance and Administrative Services Fund will pay approximately \$200,000 in interest charges to the Lending Funds during the life of the interfund loan.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation addresses accounting and audit concerns, but does not affect programs or services funded by the Finance and Administrative Services Fund.

Is there financial cost or other impacts of not implementing the legislation?

Yes. The City would potentially be in conflict with legal accounting and financial reporting requirements.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?
No.
- b. Is a public hearing required for this legislation?
No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?
No.
- d. Does this legislation affect a piece of property?
No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

None. This legislation addresses accounting and audit requirements but does not impact programs or services funded through the Finance and Administrative Services Fund.

- f. Climate Change Implications

1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**

No.

2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

No.

- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

Not applicable.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay all or part of the costs of various elements of the City's capital improvement program and for other City purposes approved by ordinance, to provide loans to one or more public development authorities of the City for certain eligible capital purposes, and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; creating the 2022 Multipurpose LTGO Bond Fund; amending Ordinance 126219; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle, Washington (the "City"), has determined that it is in its best interest that the capital projects described in this ordinance (the "Projects") be financed by the issuance of limited tax general obligation bonds of the City in a principal amount not to exceed \$127.3 million; and

WHEREAS, the Historic Seattle Public Development Authority ("Historic Seattle PDA") has requested assistance from the City in the form of one or more loans in aggregate amount not to exceed \$1.8 million (the "Historic Seattle PDA Loan"), to finance a portion of the cost of a seismic retrofit of the Good Shepherd Center, an unreinforced masonry ("URM") building that has been deemed "Critical Risk" in the City's URM assessment. The City has determined that it is consistent with the City's Debt Management Policies set forth in Resolution 31553 that this loan be financed through the issuance of the City's limited tax general obligation bonds, proceeds of which will be loaned to the Historic Seattle PDA pursuant to one or more written loan agreements to be negotiated and executed upon issuance of the associated bonds; and

WHEREAS, RCW 39.36.020 authorizes the City to incur indebtedness without the assent of the voters of the City so long as such indebtedness does not result in a total nonvoted indebtedness of the City in excess

of 1.5 percent of the value of taxable property within the City as computed in accordance with RCW 39.36.030; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** In this ordinance, the following capitalized terms shall have the meanings set forth in this section.

“Authorized Denomination” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond Documents.

“Beneficial Owner” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“Bond” means one of the limited tax general obligation bonds issued pursuant to this ordinance.

“Bond Counsel” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“Bond Documents” means, with respect to any Series of the Bonds, (a) this ordinance (including any amendatory or supplemental ordinances); (b) the authenticated bond form; and (c) the written agreement(s) setting forth the Bond Sale Terms and additional terms, conditions, or covenants pursuant to which such Bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture, fiscal agent or paying agent agreement, or the State fiscal agency contract, and (iv) a direct purchase or continuing covenant agreement.

“Bond Purchase Contract” means a written offer to purchase a Series of the Bonds pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“Bond Redemption Fund” means the City’s General Bond Interest and Redemption Fund, previously

created by Ordinance 112112 and established and to be used for the payment of the principal of, premium, if any, and interest on the Bonds.

“Bond Register” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“Bond Registrar” means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the Registration Ordinance.

“Bond Sale Terms” means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 4 of this ordinance, including the maximum principal amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in a Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

“Book-Entry Form” means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and immobilized in the custody of the Securities Depository (or its designee), where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

“City” means The City of Seattle, Washington, a municipal corporation duly organized and existing under the laws of the State.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as it has been and may be amended from time to time, and regulations thereunder.

“Continuing Disclosure Agreement” means, for each Series sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 14 of this ordinance, in substantially the form attached to this ordinance as Exhibit B.

“DTC” means The Depository Trust Company, New York, New York.

“Director of Finance” or **“Director”** means the Director of the Finance Division of the Department of Finance and Administrative Services, or any other officer who succeeds to substantially all of the responsibilities of that office.

“Fiscal Agent” means the fiscal agent of the State, as the same may be designated by the State from time to time, or such other fiscal agent as the City may later appoint.

“Government Obligations” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as now in effect or as may hereafter be amended.

“Historic Seattle PDA” means the Historic Seattle Public Development Authority, a public development authority of the City formed and operating under RCW 35.21.730 through 35.21.759.

“Historic Seattle PDA Loan(s)” means one or more loans to the Historic Seattle PDA for the purpose of undertaking certain capital improvements to the Good Shepherd Center.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as amended at any time, or an agreement with a substitute or successor Securities Depository.

“MSRB” means the Municipal Securities Rulemaking Board.

“Omnibus Refunding Ordinance” means Ordinance 125457, as amended at any time, authorizing the

issuance of general obligation refunding bonds, or any future ordinance pursuant to which the Bonds (or any Series of the Bonds) are designated as “refundable bonds.”

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of Bonds to the Purchaser in a competitive sale, in accordance with the parameters set forth in Section 4 of this ordinance.

“Projects” means the various elements of the City’s capital improvement program identified in Exhibit A to this ordinance.

“Purchaser” means the entity or entities selected by the Director of Finance in accordance with this ordinance to serve as underwriter, purchaser or successful bidder in a sale of any Series.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a Series of the Bonds at the request of the City.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding such interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“Registered Owner” means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under a Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“Registration Ordinance” means Ordinance 111724, establishing a system of registration for the City’s bonds and other obligations pursuant to Seattle Municipal Code Chapter 5.10 as amended.

“Rule 15c2-12” means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934 as amended.

“SEC” means the United States Securities and Exchange Commission.

“Securities Depository” means DTC, any successor thereto, any substitute securities depository selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

“Series” means a series of the Bonds issued pursuant to this ordinance.

“State” means the State of Washington.

“Tax Credit Subsidy Bond” means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a “qualified bond” under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

“Tax Credit Subsidy Payment” means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

“Tax-Exempt Bond” means any Bond the interest on which is intended on the Issue Date to be excludable from gross income for federal income tax purposes.

“Taxable Bond” means any Bond the interest on which is not intended on the Issue Date to be excludable from gross income for federal income tax purposes.

“Term Bond” means any Bond that is issued subject to mandatory redemption prior to its maturity in periodic mandatory redemption payments in accordance with Section 7(b) of this ordinance.

Section 2. **Authorization of Bonds.** The City is authorized to borrow money on the credit of the City and issue limited tax general obligation bonds evidencing indebtedness in the maximum principal amount stated in Section 4 of this ordinance to pay all or part of the costs of the Projects (which costs may include capitalized interest, if necessary); to make the Historic Seattle PDA Loan(s) described in this ordinance; for other City purposes approved by ordinance; and to pay the costs of issuance of the Bonds. The Bonds may be issued in one or more Series and may be combined with other general obligation bonds (including refunding bonds) authorized separately. The Bonds shall be designated limited tax general obligation bonds, shall be

numbered separately, and shall have any name, year and Series or other label as deemed necessary or appropriate by the Director of Finance.

Section 3. **Manner of Sale of the Bonds.** The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director of Finance is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements and to provide for the use of an electronic bidding mechanism; to provide for and determine matters relating to the forward or delayed delivery of the Bonds, if deemed desirable; and to specify other matters that the Director determines are necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 4 of this ordinance.

Section 4. **Appointment of Designated Representative; Bond Sale Terms.**

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve on behalf of the City Bond Sale Terms for the sale of the Bonds in one or more Series and, in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series of the Bonds authorized by this ordinance may not exceed \$127.3 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance, which Issue Date may not be later than December 31, 2024.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, unless otherwise provided in the applicable Bond Documents. One or more rates of interest shall be established for each maturity of each Series of the Bonds, which rate or rates may be fixed or variable. The net interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond, in mandatory redemption installments applicable to Term Bonds, and otherwise in accordance with any redemption or tender provisions set forth in the Bond Documents.

(vi) **Final Maturity.** Each Bond shall mature no later than 31 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption provisions, as determined by the Director of Finance, consistent with Section 7 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as being subject to optional redemption prior to its maturity. Any Tax-Exempt Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10½ years after the Issue Date, consistent with subsection 7(a) of this ordinance.

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity in mandatory redemption installment payments of principal, consistent with subsection 7(b) of this ordinance.

(C) **Extraordinary Redemption.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent

with subsection 7(c) of this ordinance.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City for that Series consistent with the parameters set forth herein and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Debt Capacity and Limitations.** A Series of the Bonds may not be issued in an amount that would cause the indebtedness of the City to exceed the City's legal debt capacity on the Issue Date of such Series.

(B) **Reasonably Expected Life.** As of the Issue Date of each Series, the Director of Finance must find to the Director's satisfaction that the average expected life of the capital facilities or assets to be financed with the proceeds (or allocable share of proceeds) of that Series exceeds the weighted average maturity of such Series (or share thereof allocated to financing those capital facilities).

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for bond insurance or for any other credit enhancement as the Director of Finance may find necessary or desirable. The Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of any of the Bonds); provisions for the conversion of interest rate modes; provisions for the reimbursement of a credit enhancement provider; and requirements to give notice to or obtain the consent of a credit enhancement provider. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Tax Status of the Bonds.** The Director of Finance may designate any Series of the Bonds as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 13 of this

ordinance.

Section 5. **Bond Registrar; Registration and Transfer of Bonds.**

(a) **Registration and Bond Registrar.** The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds and to carry out all of the Bond Registrar's powers and duties under this ordinance and the Registration Ordinance.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, interest rate, and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment or principal redemption date.

(c) Securities Depository; Book-Entry Form. Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository (or the persons for whom they act as nominees) with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository (or its participants) of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director of Finance determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided herein.

Nothing herein shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided herein.

(d) Lost or Stolen Bonds. In case any Bond shall be lost, stolen or destroyed, the Bond Registrar may authenticate and deliver a new bond or bonds of like amount, date, tenor, and effect to the Registered Owner(s)

thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith, and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such bond or bonds were actually lost, stolen or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both.

Section 6. Payment of Bonds.

(a) **Payment.** Principal of and interest on each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents applicable to that Series. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held In Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held In Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the Record Date. The City, however, shall not be required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 7. Redemption and Purchase of Bonds.

(a) **Optional Redemption.** All or some of the Bonds of any Series may be subject to redemption prior to their stated maturity dates at the option of the City at the times and on the terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in principal installment payments, as set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be

redeemed, at a price equal to one hundred percent of the principal amount to be redeemed plus accrued interest, on the dates and in the years and principal amounts set forth in the applicable Bond Documents.

If the City optionally redeems or purchases a Term Bond prior to its maturity, the principal amount of that Term Bond so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining mandatory redemption installment payments in the manner directed by the Director of Finance. In the absence of direction by the Director of Finance, credit shall be allocated to each mandatory redemption installment payment for that Bond on a pro rata basis.

(c) Extraordinary Redemption. All or some of the Bonds of any Series may be subject to extraordinary optional or extraordinary mandatory redemption prior to maturity, upon the occurrence of an extraordinary event, at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) Selection of Bonds for Redemption; Partial Redemption. If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed, if such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the Series is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar using such method of random selection as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) Purchase. The City reserves the right and option to purchase any or all of the Bonds at any time at

any price acceptable to the City plus accrued interest to the date of purchase.

Section 8. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not less than 20 nor more than 60 days prior to the date fixed for redemption by first-class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled redemption date. Any notice of redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of redemption has been rescinded shall remain outstanding.

Section 9. **Failure to Pay Bonds.** If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, including principal, redemption premium (if any), and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Bond Redemption Fund and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond.

Section 10. **Form and Execution of Bonds.** The Bonds shall be typed, printed, or reproduced in a form consistent with the provisions of this ordinance and State law and shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile. The seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series of the Bonds adjusted consistent with this ordinance), manually signed by the Bond Registrar, shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, [Limited Tax General Obligation Bonds], [Year] [Series], described in [this ordinance].” The authorized signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits of this ordinance.

If any officer whose manual or facsimile signature appears on a Bond ceases to be an officer of the City authorized to sign bonds before the Bond bearing that officer’s manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, delivered, and issued and, when authenticated, issued, and delivered, shall be as binding on the City as though that person had continued to be an officer of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an officer of the City authorized to sign bonds, although that person did not hold the required office on the Issue Date of that Series of the Bonds.

Section 11. **Pledge of Taxes.** For so long as any of the Bonds are outstanding, the City irrevocably pledges to include in its budget and levy taxes annually within the constitutional and statutory tax limitations provided by law without a vote of the electors of the City on all of the taxable property within the City in an amount sufficient, together with other money legally available and to be used therefor, to pay when due the principal of and interest on the Bonds. The full faith, credit, and resources of the City are pledged irrevocably for the annual levy and collection of those taxes and the prompt payment of that principal and interest.

Section 12. **Refunding or Defeasance of Bonds.**

(a) **Bonds Designated as Refundable Bonds.** Each Series of the Bonds is designated as a Series of “Refundable Bonds” for purposes of the Omnibus Refunding Ordinance.

(b) **Refunding; Defeasance.** The City may issue refunding bonds pursuant to the laws of the State or

use money available from any other lawful source (i) to pay when due the principal of (including premium, if any) and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement, or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal of and interest or redemption price on the Defeased Bonds from the Trust Account. After establishing and fully funding such a Trust Account, the Defeased Bonds shall be deemed to be no longer outstanding, and the Director of Finance may then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the applicable Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

Section 13. **Federal Tax Matters.** The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions consistent with the terms of such Series, as set forth in this ordinance and the applicable Bond Documents, that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it

will neither take any action nor make or permit any use of gross proceeds of such Series (or other funds of the City treated as gross proceeds of such Series) at any time during the term of such Series that will cause interest on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Series from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the City, all as he or she may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreements may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Series otherwise becomes and remains eligible for tax benefits under the Code.

Section 14. **Official Statement; Continuing Disclosure.**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12.

The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that has been deemed final in accordance with this subsection.

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each sale of one or more Series of the Bonds to be sold to the public in the form of the preliminary official statement with such additions, modifications, and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director of Finance to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached to this ordinance as Exhibit B.

Section 15. **2022 Multipurpose LTGO Bond Funds Created; Deposit and Use of Proceeds.** The 2022 Multipurpose LTGO Bond Fund (Tax-Exempt) and the 2022 Multipurpose LTGO Bond Fund (Taxable) are created in the City Treasury. For purposes of distinguishing among various Series of the Bonds, the Director of Finance may, if necessary or convenient, may create such subfunds, accounts, or subaccounts within such funds for purposes of maintaining separate records for each Series. Unless otherwise provided in the Bond Sale Terms, the principal proceeds and net premium, if any, received from the sale and delivery of any Series of the Bonds shall be paid into or allocated to the 2022 Multipurpose LTGO Bond Funds, or to such funds, subfunds, accounts, or subaccounts of the City Treasury as the Director of Finance may designate for that Series, and used for the purposes described in Section 2 of this ordinance. The Director of Finance may use the principal proceeds and net premium, if any, of any Series to pay for costs of issuance of that Series, and the Director of Finance also may incur and account for costs of issuance that are not included as part of the bond proceeds and net premium, including but not limited to any underwriter's discount.

The Director of Finance may (i) establish and transfer proceeds of the Bonds among funds, subfunds, accounts, or subaccounts in the City Treasury, or (ii) make interfund loans pursuant to Seattle Municipal Code Section 5.06.030 to or from other City accounts or funds, all on terms that the Director of Finance may deem necessary, appropriate, or desirable to carry out the purposes of this ordinance and consistent with the Bond Sale Terms. Enactment of this ordinance authorizes the transfer of amounts from the 2022 Multipurpose LTGO Bond Fund (and such other funds, subfunds, accounts, or subaccounts created for the purpose described in this Section 15 of this ordinance) to other funds in order to carry out the purposes of this ordinance.

There has previously been created and established in the City Treasury the Bond Redemption Fund. Net premium and accrued interest received from the sale and delivery of a Series of the Bonds that is not necessary for the purposes described in Section 2 of this ordinance, if any, shall be paid or allocated into the Bond Redemption Fund prior to the first debt service payment date with respect to that Series.

Until needed to pay the Project expenses and the costs described in this ordinance, the City may invest the proceeds of any Series of the Bonds temporarily in any authorized investment, and the investment earnings shall be deposited in such funds, subfunds, accounts and subaccounts as may be designated by the Director of Finance. Earnings subject to a federal tax or rebate requirement may be withdrawn from any such fund or account and used for those tax or rebate purposes.

The Director of Finance may pay principal of and interest on a Series of the Bonds with any proceeds of that Series (including interest earnings thereon) remaining after applying such proceeds to the purposes set forth in Section 2 of this ordinance, or after the City Council has determined that the expenditure of such Bond proceeds for those purposes is no longer necessary or appropriate.

Section 16. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City is each authorized and directed to do everything as in such official or officer's judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In

particular and without limiting the foregoing:

(a) The Director of Finance, exercising discretion and without requiring further action by the City Council, (i) may issue requests for proposals to provide underwriting services or financing facilities (including liquidity or credit support), and may execute engagement letters with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests, (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; and (iii) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and Director of Finance are independently authorized (i) to execute and deliver any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is necessary or to which the City is a party (including but not limited to agreements with escrow agents; refunding or defeasance trustees; liquidity or credit support providers; bond insurers; underwriters; lenders or other financial institutions; the Bond Registrar and any other fiscal or paying agents; counterparties to interest rate swap, cap, floor, or similar agreements; and custodians); and (ii) to negotiate, execute, and deliver such other contracts or documents incidental to the issuance and sale of a Series of the Bonds; the establishment of the initial interest rate or rates on a Bond; or the tender, purchase, remarketing, or redemption of a Bond, as may in such official's judgment be necessary or appropriate.

(c) In addition and without limiting the foregoing, the Mayor and Director of Finance are independently authorized to negotiate, execute, and deliver any and all contracts or other documents in form and substance acceptable to the Mayor and Director of Finance, that are necessary or desirable to effectuate the making of one or more loans to the Historic Seattle PDA for the sole purpose of undertaking capital improvements to the Good

Shepherd Center and related capital facilities and to otherwise ensure that the proceeds of the Bonds are applied to the purposes set forth in a written loan agreement to be executed in connection with each such loan in such form as may be agreed upon by the parties, consistent with this ordinance. This authorization expressly includes the authority to set interest rates and other terms of such loans (which may be different than the interest rates and corresponding terms of the bonds) and to include such additional terms, conditions, or covenants as may be necessary or desirable, in the judgment of the Mayor or Director of Finance, to protect the taxpayers of the City and to provide assistance to support the public purposes of the Historic Seattle PDA.

Section 17. **Amendment of Ordinance 126219.** Ordinance 126219 authorized issuance of the City's Limited Tax General Obligation Improvement and Refunding Bonds, 2021, Series A, and Limited Tax General Obligation Improvement Bonds, 2021, Series B (Taxable) (together, the "2021 Bonds"), and provided that proceeds of the 2021 Bonds would be used to carry out the costs of projects specified in Exhibit A to that ordinance, as well as other projects authorized by ordinance. Exhibit A to Ordinance 126219 is amended to read as set forth in Exhibit C, attached to this ordinance and incorporated by reference. All other terms of Ordinance 126219, including without limitations the authorizations relating to making one or more loans to the Pike Place Market Preservation and Development Authority for the purposes described therein, remain in effect and are ratified and confirmed in all respects.

Section 18. **Severability.** The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 19. **Ratification of Prior Acts.** Any action consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 20. **Headings.** Section headings in this ordinance are nonsubstantive.

Section 21. **Effective Date.** This ordinance shall take effect and be in force 30 days after its approval by

the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

Total	\$ 127,259,952

EXHIBIT B

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”) makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Limited Tax General Obligation Bonds, [Year][Series] (the “Bonds”), for the sole purpose of assisting the underwriter in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of

1 proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB)
2 or other material notices or determinations with respect to the tax status of the Bonds, or other
3 material events affecting the tax status of the Bonds; (7) modifications to rights of holders of the
4 Bonds, if material; (8) Bond calls (other than scheduled mandatory redemptions of Term Bonds),
5 if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property
6 securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency,
7 receivership or similar event of the City, as such “Bankruptcy Events” are defined in the Rule;
8 (13) the consummation of a merger, consolidation, or acquisition involving the City or the sale of
9 all or substantially all of the assets of the City other than in the ordinary course of business, the
10 entry into a definitive agreement to undertake such an action or the termination of a definitive
11 agreement relating to any such actions, other than pursuant to its terms, if material; (14)
12 appointment of a successor or additional trustee or the change of name of a trustee, if material;
13 (15) incurrence of a financial obligation of the City, if material, or agreement to covenants, events
14 of default, remedies, priority rights, or other similar terms of a financial obligation of the City, any
15 of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
16 termination event, modification of terms, or other similar event under the terms of a financial
17 obligation of the City, any of which reflect financial difficulties.

18 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
19 obligation; derivative instrument entered into in connection with, or pledged as security or a source
20 of payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation
21 or a derivative instrument entered into in connection with, or pledged as security or a source of
22 payment for, an existing or planned debt obligation. The term “financial obligation” does not

1 include municipal securities as to which a final official statement has been provided to the MSRB
2 consistent with the Rule.

3 (iii) Timely notice of a failure by the City to provide required annual financial
4 information on or before the date specified in subsection (b) of this section.

5 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
6 financial information that the City undertakes to provide in subsection (a) of this section:

7 (i) Shall consist of (1) annual financial statements of the City prepared in
8 accordance with applicable generally accepted accounting principles applicable to governmental
9 units (except as otherwise noted therein), as such principles may be changed from time to time and
10 as permitted by applicable state law; (2) a statement of outstanding general obligation debt of the
11 City; (3) the assessed value of the property within the City subject to ad valorem taxation; and
12 (4) ad valorem tax levy rates and amounts and percentages of taxes collected;

13 (ii) Shall be provided not later than the last day of the ninth month after the end
14 of each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year
15 may be changed as required or permitted by state law, commencing with the City's fiscal year
16 ending December 31, 20__; and

17 (iii) May be provided in a single document or multiple documents, and may be
18 incorporated by specific reference to documents available to the public on the Internet website of
19 the MSRB or filed with the Securities and Exchange Commission.

20 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
21 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any
22 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
23 under the circumstances and in the manner permitted by the Rule, including:

1 (i) The amendment may only be made in connection with a change in
2 circumstances that arises from a change in legal requirements, change in law, or change in the
3 identity, nature, or status of the City, or type of business conducted by the City;

4 (ii) The Undertaking, as amended, would have complied with the requirements
5 of the Rule at the time of the primary offering, after taking into account any amendments or
6 interpretations of the Rule, as well as any change in circumstances; and

7 (iii) The amendment does not materially impair the interests of holders, as
8 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
9 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the
10 Bond Ordinance at the time of the amendment.

11 The City will give notice to the MSRB of the substance (or provide a copy) of any
12 amendment to this Undertaking and a brief statement of the reasons for the amendment. If the
13 amendment changes the type of annual financial information to be provided, the annual financial
14 information containing the amended financial information will include a narrative explanation of
15 the effect of that change on the type of information to be provided.

16 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any
17 Owner of Bonds, and shall not inure to the benefit of or create any rights in any other person.

18 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
19 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
20 addition, the City's obligations under this Undertaking shall terminate if those provisions of the
21 Rule that require the City to comply with this Undertaking become legally inapplicable in respect
22 of the Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or

1 other counsel familiar with federal securities laws delivered to the City, and the City provides
2 timely notice of such termination to the MSRB.

3 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the
4 City learns of any material failure to comply with this Undertaking, the City will proceed with due
5 diligence to cause such noncompliance to be corrected. No failure by the City or other obligated
6 person to comply with this Undertaking shall constitute a default in respect of the Bonds. The sole
7 remedy of any Owner of a Bond shall be to take such actions as that Owner deems necessary,
8 including seeking an order of specific performance from an appropriate court, to compel the City
9 or other obligated person to comply with this Undertaking.

10 (g) Designation of Official Responsible to Administer Undertaking. The Director of
11 Finance of the City (or such other officer of the City who may in the future perform the duties of
12 that office) or his or her designee is the person designated, in accordance with the Bond Ordinance,
13 to carry out this Undertaking of the City in respect of the Bonds set forth in this section and in
14 accordance with the Rule, including, without limitation, the following actions:

15 (i) Preparing and filing the annual financial information undertaken to be
16 provided;

17 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
18 assessing its materiality, where necessary, with respect to the Bonds, and preparing and
19 disseminating any required notice of its occurrence;

20 (iii) Determining whether any person other than the City is an “obligated
21 person” within the meaning of the Rule with respect to the Bonds, and obtaining from such person
22 an undertaking to provide any annual financial information and notice of listed events for that
23 person in accordance with the Rule;

- 1 (iv) Selecting, engaging and compensating designated agents and consultants,
2 including but not limited to financial advisors and legal counsel, to assist and advise the City in
3 carrying out this Undertaking; and
4 (v) Effecting any necessary amendment of the Undertaking.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay all or part of the costs of various elements of the City’s capital improvement program and for other City purposes approved by ordinance, to provide loans to one or more public development authorities of the City for certain eligible capital purposes, and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; creating the 2022 Multipurpose LTGO Bond Fund; amending Ordinance 126219; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: This legislation provides the legal authorization to issue up to \$127.3 million of Limited Tax General Obligation Bonds, as assumed in the 2022 Proposed Budget and the Proposed 2022-2027 Capital Improvement Program (CIP) and includes \$1.8 million of financing to provide financing support to Historic Seattle Public Development Authority (PDA) for a seismic retrofit improvement of the Good Shepherd Center and \$12 million for the Aquarium Expansion. A loan agreement with Historic Seattle will be developed and will be subject to authorization by Council Ordinance that will describe the full terms of the loan and repayment schedule.

Although the Budget and CIP make specific assumptions about the use of debt financing for a certain share of the CIP, separate authorization for the issuance of bonds is technically required.

his bond sale is anticipated to occur in early 2022. The bond proceeds will support a share of the City’s general government capital program for about 12 months.

The bond sizing is based on the proposed budget and current cash-flow projections. The bond proceeds will also be used to pay issuance costs.

The City’s Capital Improvement Program (CIP) identifies debt financing for certain projects and the City’s budget appropriates the associated debt service. The following table provides details of this bond issue.

2022 Multipurpose LTGO Bond Issue (\$1000's)

Description	Approx. Project Fund Deposit	Approx. Par Amount (1)	Max. Term	Approx. Rate	Debt Service Proposed 2022	Debt Service Estimated 2023	Debt Service Funding Source

2. OTHER IMPLICATIONS

- Does this legislation affect any departments besides the originating department?**
FAS and various operating departments with projects being financed by this bond issue.
- Is a public hearing required for this legislation?**
No.
- Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- Does this legislation affect a piece of property?**
No.
- Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
N/A
- Climate Change Implications**
 - Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 - Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so,**

explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

N/A

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay all or part of the costs of certain transportation elements of the City's capital improvement program and for other City purposes approved by ordinance and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle, Washington (the "City"), has determined that it is in its best interest that the transportation-related capital projects described in this ordinance (the "Projects") be financed by the issuance of limited tax general obligation bonds of the City in a principal amount not to exceed \$103 million; and

WHEREAS, RCW 39.36.020 authorizes the City to incur indebtedness without the assent of the voters of the City so long as such indebtedness does not result in a total nonvoted indebtedness of the City in excess of 1.5 percent of the value of taxable property within the City as computed in accordance with RCW 39.36.030; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** In this ordinance, the following capitalized terms shall have the meanings set forth in this section.

"Authorized Denomination" means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond Documents.

"Beneficial Owner" means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“Bond” means one of the limited tax general obligation bonds issued pursuant to this ordinance.

“Bond Counsel” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“Bond Documents” means, with respect to any Series of the Bonds, (a) this ordinance (including any amendatory or supplemental ordinances); (b) the authenticated bond form; and (c) the written agreement(s) setting forth the Bond Sale Terms and additional terms, conditions, or covenants pursuant to which such Bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture, fiscal agent or paying agent agreement, or the State fiscal agency contract, and (iv) a direct purchase or continuing covenant agreement.

“Bond Purchase Contract” means a written offer to purchase a Series of the Bonds pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“Bond Redemption Fund” means the City’s General Bond Interest and Redemption Fund, previously created by Ordinance 112112 and established and to be used for the payment of the principal of, premium, if any, and interest on the Bonds.

“Bond Register” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“Bond Registrar” means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the Registration Ordinance.

“Bond Sale Terms” means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 4 of this ordinance, including the

maximum principal amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in a Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

“Book-Entry Form” means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and immobilized in the custody of the Securities Depository (or its designee), where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

“City” means The City of Seattle, Washington, a municipal corporation duly organized and existing under the laws of the State.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as it has been and may be amended from time to time, and regulations thereunder.

“Continuing Disclosure Agreement” means, for each Series sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 14 of this ordinance, in substantially the form attached to this ordinance as Exhibit B.

“DTC” means The Depository Trust Company, New York, New York.

“Director of Finance” or **“Director”** means the Director of the Finance Division of the Department of Finance and Administrative Services, or any other officer who succeeds to substantially all of the responsibilities of that office.

“Fiscal Agent” means the fiscal agent of the State, as the same may be designated by the State from

time to time, or such other fiscal agent as the City may later appoint.

“Government Obligations” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as now in effect or as may hereafter be amended.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as amended at any time, or an agreement with a substitute or successor Securities Depository.

“MSRB” means the Municipal Securities Rulemaking Board.

“Omnibus Refunding Ordinance” means Ordinance 125457, as amended at any time, authorizing the issuance of general obligation refunding bonds, or any future ordinance pursuant to which the Bonds (or any Series of the Bonds) are designated as “refundable bonds.”

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of Bonds to the Purchaser in a competitive sale, in accordance with the parameters set forth in Section 4 of this ordinance.

“Projects” means the various elements of the City’s capital improvement program identified in Exhibit A to this ordinance.

“Purchaser” means the entity or entities selected by the Director of Finance in accordance with this ordinance to serve as underwriter, purchaser or successful bidder in a sale of any Series.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a Series of the Bonds at the request of the City.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or

principal payment date, the Bond Registrar's close of business on the 15th day of the month preceding such interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar's close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

"Registered Owner" means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under a Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

"Registration Ordinance" means Ordinance 111724, establishing a system of registration for the City's bonds and other obligations pursuant to Seattle Municipal Code Chapter 5.10 as amended.

"Rule 15c2-12" means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934 as amended.

"SEC" means the United States Securities and Exchange Commission.

"Securities Depository" means DTC, any successor thereto, any substitute securities depository selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

"Series" means a series of the Bonds issued pursuant to this ordinance.

"State" means the State of Washington.

"Tax Credit Subsidy Bond" means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a "qualified bond" under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

"Tax Credit Subsidy Payment" means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

"Tax-Exempt Bond" means any Bond the interest on which is intended on the Issue Date to be excludable from gross income for federal income tax purposes.

“Taxable Bond” means any Bond the interest on which is not intended on the Issue Date to be excludable from gross income for federal income tax purposes.

“Term Bond” means any Bond that is issued subject to mandatory redemption prior to its maturity in periodic mandatory redemption payments in accordance with Section 7(b) of this ordinance.

Section 2. **Authorization of Bonds.** The City is authorized to borrow money on the credit of the City and issue limited tax general obligation bonds evidencing indebtedness in the maximum principal amount stated in Section 4 of this ordinance to pay all or part of the costs of the Projects (which costs may include capitalized interest, if necessary); for other City purposes approved by ordinance; and to pay the costs of issuance of the Bonds. The Bonds may be issued in one or more Series and may be combined with other general obligation bonds (including refunding bonds) authorized separately. The Bonds shall be designated limited tax general obligation bonds, shall be numbered separately, and shall have any name, year and Series or other label as deemed necessary or appropriate by the Director of Finance.

Section 3. **Manner of Sale of the Bonds.** The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director of Finance is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements and to provide for the use of an electronic bidding mechanism; to provide for and determine matters relating to the forward or delayed delivery of the Bonds, if deemed desirable; and to specify other matters that the Director determines are necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 4 of this ordinance.

Section 4. **Appointment of Designated Representative; Bond Sale Terms.**

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City’s designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and

this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve on behalf of the City Bond Sale Terms for the sale of the Bonds in one or more Series and, in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series of the Bonds authorized by this ordinance may not exceed \$103 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance, which Issue Date may not be later than December 31, 2024.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, unless otherwise provided in the applicable Bond Documents. One or more rates of interest shall be established for each maturity of each Series of the Bonds, which rate or rates may be fixed or variable. The net interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond, in mandatory redemption installments applicable to Term Bonds, and otherwise in accordance with any redemption or tender provisions set forth in the Bond Documents.

(vi) **Final Maturity.** Each Bond shall mature no later than 31 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption provisions, as determined by the Director of Finance, consistent with Section 7 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as being subject to optional redemption prior to its maturity. Any Tax-Exempt Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10-1/2 years after the Issue Date, consistent with subsection 7(a) of this ordinance.

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity in mandatory redemption installment payments of principal, consistent with subsection 7(b) of this ordinance.

(C) **Extraordinary Redemption.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with subsection 7(c) of this ordinance.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City for that Series consistent with the parameters set forth herein and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Debt Capacity and Limitations.** A Series of the Bonds may not be issued in an amount that would cause the indebtedness of the City to exceed the City's legal debt capacity on the Issue Date of such Series.

(B) **Reasonably Expected Life.** As of the Issue Date of each Series, the Director of Finance must find to the Director's satisfaction that the average expected life of the capital facilities or assets to be financed with the proceeds (or allocable share of proceeds) of that Series exceeds the weighted average maturity of such Series (or share thereof allocated to financing those capital facilities).

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any

Series may provide for bond insurance or for any other credit enhancement as the Director of Finance may find necessary or desirable. The Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of any of the Bonds); provisions for the conversion of interest rate modes; provisions for the reimbursement of a credit enhancement provider; and requirements to give notice to or obtain the consent of a credit enhancement provider. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

The Bonds authorized by this ordinance may not be issued unless the Seattle Department of Transportation has provided a written report to the City Council: (1) setting forth an anticipated schedule for expending the proceeds of the Bonds over a period not longer than eighteen months following issuance of the Bonds; (2) specifically identifying the Projects that will be funded by the issuance of the Bonds; and (3) requesting the appropriations that are necessary to support the Projects.

(D) **Tax Status of the Bonds.** The Director of Finance may designate any Series of the Bonds as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 13 of this ordinance.

Section 5. **Bond Registrar; Registration and Transfer of Bonds.**

(a) **Registration and Bond Registrar.** The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds and to carry out all of the Bond Registrar's powers and duties under this ordinance and the Registration Ordinance.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, interest rate, and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment or principal redemption date.

(c) Securities Depository; Book-Entry Form. Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository (or the persons for whom they act as nominees) with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository (or its participants) of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond

initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director of Finance determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided herein.

Nothing herein shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided herein.

(d) **Lost or Stolen Bonds.** In case any Bond shall be lost, stolen or destroyed, the Bond Registrar may authenticate and deliver a new bond or bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith, and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such bond or bonds were actually lost, stolen or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both.

Section 6. **Payment of Bonds.**

(a) **Payment.** Principal of and interest on each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents applicable to that Series. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held In Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form

shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held In Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the Record Date. The City, however, shall not be required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 7. **Redemption and Purchase of Bonds.**

(a) **Optional Redemption.** All or some of the Bonds of any Series may be subject to redemption prior to their stated maturity dates at the option of the City at the times and on the terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in principal installment payments, as set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to one hundred percent of the principal amount to be redeemed plus accrued interest, on the dates and in the years and principal amounts set forth in the applicable Bond Documents.

If the City optionally redeems or purchases a Term Bond prior to its maturity, the principal amount of that Term Bond so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining mandatory redemption installment payments in the manner directed by the Director of Finance. In the absence of direction by the Director of Finance, credit shall be allocated to each mandatory redemption installment payment for that Bond on a pro rata basis.

(c) **Extraordinary Redemption.** All or some of the Bonds of any Series may be subject to extraordinary optional or extraordinary mandatory redemption prior to maturity, upon the occurrence of an

extraordinary event, at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed, if such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the Series is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar using such method of random selection as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 8. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not less than 20 nor more than 60 days prior to the date fixed for redemption by first-class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled redemption date. Any notice of redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of redemption has been rescinded shall remain outstanding.

Section 9. **Failure to Pay Bonds.** If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, including principal, redemption premium (if any), and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Bond Redemption Fund and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond.

Section 10. **Form and Execution of Bonds.** The Bonds shall be typed, printed, or reproduced in a form consistent with the provisions of this ordinance and State law and shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile. The seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series of the Bonds adjusted consistent with this ordinance), manually signed by the Bond Registrar, shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, [Limited Tax General Obligation Bonds], [Year] [Series], described in [this ordinance].” The authorized signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits of this ordinance.

If any officer whose manual or facsimile signature appears on a Bond ceases to be an officer of the City authorized to sign bonds before the Bond bearing that officer’s manual or facsimile signature is authenticated or

delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, delivered, and issued and, when authenticated, issued, and delivered, shall be as binding on the City as though that person had continued to be an officer of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an officer of the City authorized to sign bonds, although that person did not hold the required office on the Issue Date of that Series of the Bonds.

Section 11. **Pledge of Taxes**. For so long as any of the Bonds are outstanding, the City irrevocably pledges to include in its budget and levy taxes annually within the constitutional and statutory tax limitations provided by law without a vote of the electors of the City on all of the taxable property within the City in an amount sufficient, together with other money legally available and to be used therefor, to pay when due the principal of and interest on the Bonds. The full faith, credit, and resources of the City are pledged irrevocably for the annual levy and collection of those taxes and the prompt payment of that principal and interest.

Section 12. **Refunding or Defeasance of Bonds**.

(a) **Bonds Designated as Refundable Bonds**. Each Series of the Bonds is designated as a Series of “Refundable Bonds” for purposes of the Omnibus Refunding Ordinance.

(b) **Refunding; Defeasance**. The City may issue refunding bonds pursuant to the laws of the State or use money available from any other lawful source (i) to pay when due the principal of (including premium, if any) and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement, or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive

the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal of and interest or redemption price on the Defeased Bonds from the Trust Account. After establishing and fully funding such a Trust Account, the Defeased Bonds shall be deemed to be no longer outstanding, and the Director of Finance may then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the applicable Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

Section 13. **Federal Tax Matters.** The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions consistent with the terms of such Series, as set forth in this ordinance and the applicable Bond Documents, that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it will neither take any action nor make or permit any use of gross proceeds of such Series (or other funds of the City treated as gross proceeds of such Series) at any time during the term of such Series that will cause interest on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Series from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the City, all as he or she may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreements may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Series otherwise becomes and remains eligible for tax benefits under the Code.

Section 14. **Official Statement; Continuing Disclosure.**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12. The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that has been deemed final in accordance with this subsection.

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each sale of one or more Series of the Bonds to be sold to the public in the form of the preliminary official statement with such additions, modifications, and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director of Finance to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of

Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached to this ordinance as Exhibit B.

Section 15. **Deposit and Use of Proceeds**. Unless otherwise provided in the Bond Sale Terms, the principal proceeds and net premium, if any, received from the sale and delivery of any Series of the Bonds shall be paid into or allocated to the 2022 Multipurpose LTGO Bond Fund, or to such funds, subfunds, accounts, or subaccounts of the City Treasury as the Director of Finance may designate for that Series, and used for the purposes described in Section 2 of this ordinance. The Director of Finance may use the principal proceeds and net premium, if any, of any Series to pay for costs of issuance of that Series, and the Director of Finance also may incur and account for costs of issuance that are not included as part of the bond proceeds and net premium, including but not limited to any underwriter's discount.

The Director of Finance may (i) establish and transfer proceeds of the Bonds among funds, subfunds, accounts, or subaccounts in the City Treasury, or (ii) make interfund loans pursuant to Seattle Municipal Code Section 5.06.030 to or from other City accounts or funds, all on terms that the Director of Finance may deem necessary, appropriate, or desirable to carry out the purposes of this ordinance and consistent with the Bond Sale Terms. Enactment of this ordinance authorizes the transfer of amounts from the 2022 Multipurpose LTGO Bond Fund (and such other funds, subfunds, accounts, or subaccounts created for the purpose described in this Section 15 of this ordinance) to other funds in order to carry out the purposes of this ordinance.

There has previously been created and established in the City Treasury the Bond Redemption Fund. Net premium and accrued interest received from the sale and delivery of a Series of the Bonds that is not necessary for the purposes described in Section 2 of this ordinance, if any, shall be paid or allocated into the Bond Redemption Fund prior to the first debt service payment date with respect to that Series.

Until needed to pay the Project expenses and the costs described in this ordinance, the City may invest the proceeds of any Series of the Bonds temporarily in any authorized investment, and the investment earnings

shall be deposited in such funds, subfunds, accounts and subaccounts as may be designated by the Director of Finance. Earnings subject to a federal tax or rebate requirement may be withdrawn from any such fund or account and used for those tax or rebate purposes.

The Director of Finance may pay principal of and interest on a Series of the Bonds with any proceeds of that Series (including interest earnings thereon) remaining after applying such proceeds to the purposes set forth in Section 2 of this ordinance, or after the City Council has determined that the expenditure of such Bond proceeds for those purposes is no longer necessary or appropriate.

Section 16. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City is each authorized and directed to do everything as in such official or officer's judgment may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

(a) The Director of Finance, exercising discretion and without requiring further action by the City Council, (i) may issue requests for proposals to provide underwriting services or financing facilities (including liquidity or credit support), and may execute engagement letters with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests, (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; and (iii) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and Director of Finance are independently authorized (i) to execute and deliver any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is

necessary or to which the City is a party (including but not limited to agreements with escrow agents; refunding or defeasance trustees; liquidity or credit support providers; bond insurers; underwriters; lenders or other financial institutions; the Bond Registrar and any other fiscal or paying agents; counterparties to interest rate swap, cap, floor, or similar agreements; and custodians); and (ii) to negotiate, execute, and deliver such other contracts or documents incidental to the issuance and sale of a Series of the Bonds; the establishment of the initial interest rate or rates on a Bond; or the tender, purchase, remarketing, or redemption of a Bond, as may in such official's judgment be necessary or appropriate.

Section 17. **Severability**. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 18. **Ratification of Prior Acts**. Any action consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 19. **Headings**. Section headings in this ordinance are nonsubstantive.

Section 20. **Effective Date**. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”) makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Limited Tax General Obligation Bonds, [Year][Series] (the “Bonds”), for the sole purpose of assisting the underwriter in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of

1 proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB)
2 or other material notices or determinations with respect to the tax status of the Bonds, or other
3 material events affecting the tax status of the Bonds; (7) modifications to rights of holders of the
4 Bonds, if material; (8) Bond calls (other than scheduled mandatory redemptions of Term Bonds),
5 if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property
6 securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency,
7 receivership or similar event of the City, as such “Bankruptcy Events” are defined in the Rule;
8 (13) the consummation of a merger, consolidation, or acquisition involving the City or the sale of
9 all or substantially all of the assets of the City other than in the ordinary course of business, the
10 entry into a definitive agreement to undertake such an action or the termination of a definitive
11 agreement relating to any such actions, other than pursuant to its terms, if material; (14)
12 appointment of a successor or additional trustee or the change of name of a trustee, if material;
13 (15) incurrence of a financial obligation of the City, if material, or agreement to covenants, events
14 of default, remedies, priority rights, or other similar terms of a financial obligation of the City, any
15 of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
16 termination event, modification of terms, or other similar event under the terms of a financial
17 obligation of the City, any of which reflect financial difficulties.

18 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
19 obligation; derivative instrument entered into in connection with, or pledged as security or a source
20 of payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation
21 or a derivative instrument entered into in connection with, or pledged as security or a source of
22 payment for, an existing or planned debt obligation. The term “financial obligation” does not

1 include municipal securities as to which a final official statement has been provided to the MSRB
2 consistent with the Rule.

3 (iii) Timely notice of a failure by the City to provide required annual financial
4 information on or before the date specified in subsection (b) of this section.

5 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
6 financial information that the City undertakes to provide in subsection (a) of this section:

7 (i) Shall consist of (1) annual financial statements of the City prepared in
8 accordance with applicable generally accepted accounting principles applicable to governmental
9 units (except as otherwise noted therein), as such principles may be changed from time to time and
10 as permitted by applicable state law; (2) a statement of outstanding general obligation debt of the
11 City; (3) the assessed value of the property within the City subject to ad valorem taxation; and
12 (4) ad valorem tax levy rates and amounts and percentages of taxes collected;

13 (ii) Shall be provided not later than the last day of the ninth month after the end
14 of each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year
15 may be changed as required or permitted by state law, commencing with the City's fiscal year
16 ending December 31, 20__; and

17 (iii) May be provided in a single document or multiple documents, and may be
18 incorporated by specific reference to documents available to the public on the Internet website of
19 the MSRB or filed with the Securities and Exchange Commission.

20 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
21 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any
22 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
23 under the circumstances and in the manner permitted by the Rule, including:

1 (i) The amendment may only be made in connection with a change in
2 circumstances that arises from a change in legal requirements, change in law, or change in the
3 identity, nature, or status of the City, or type of business conducted by the City;

4 (ii) The Undertaking, as amended, would have complied with the requirements
5 of the Rule at the time of the primary offering, after taking into account any amendments or
6 interpretations of the Rule, as well as any change in circumstances; and

7 (iii) The amendment does not materially impair the interests of holders, as
8 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
9 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the
10 Bond Ordinance at the time of the amendment.

11 The City will give notice to the MSRB of the substance (or provide a copy) of any
12 amendment to this Undertaking and a brief statement of the reasons for the amendment. If the
13 amendment changes the type of annual financial information to be provided, the annual financial
14 information containing the amended financial information will include a narrative explanation of
15 the effect of that change on the type of information to be provided.

16 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any
17 Owner of Bonds, and shall not inure to the benefit of or create any rights in any other person.

18 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
19 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
20 addition, the City's obligations under this Undertaking shall terminate if those provisions of the
21 Rule that require the City to comply with this Undertaking become legally inapplicable in respect
22 of the Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or

1 other counsel familiar with federal securities laws delivered to the City, and the City provides
2 timely notice of such termination to the MSRB.

3 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the
4 City learns of any material failure to comply with this Undertaking, the City will proceed with due
5 diligence to cause such noncompliance to be corrected. No failure by the City or other obligated
6 person to comply with this Undertaking shall constitute a default in respect of the Bonds. The sole
7 remedy of any Owner of a Bond shall be to take such actions as that Owner deems necessary,
8 including seeking an order of specific performance from an appropriate court, to compel the City
9 or other obligated person to comply with this Undertaking.

10 (g) Designation of Official Responsible to Administer Undertaking. The Director of
11 Finance of the City (or such other officer of the City who may in the future perform the duties of
12 that office) or his or her designee is the person designated, in accordance with the Bond Ordinance,
13 to carry out this Undertaking of the City in respect of the Bonds set forth in this section and in
14 accordance with the Rule, including, without limitation, the following actions:

15 (i) Preparing and filing the annual financial information undertaken to be
16 provided;

17 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
18 assessing its materiality, where necessary, with respect to the Bonds, and preparing and
19 disseminating any required notice of its occurrence;

20 (iii) Determining whether any person other than the City is an “obligated
21 person” within the meaning of the Rule with respect to the Bonds, and obtaining from such person
22 an undertaking to provide any annual financial information and notice of listed events for that
23 person in accordance with the Rule;

1 (iv) Selecting, engaging and compensating designated agents and consultants,
2 including but not limited to financial advisors and legal counsel, to assist and advise the City in
3 carrying out this Undertaking; and

4 (v) Effecting any necessary amendment of the Undertaking.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to contracting indebtedness; authorizing and providing for the issuance and sale of limited tax general obligation bonds to pay all or part of the costs of certain transportation elements of the City's capital improvement program and for other City purposes approved by ordinance and to pay the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: This legislation provides the legal authorization to issue up to \$103 million of Limited Tax General Obligation Bonds for the Seattle Transportation Department (SDOT) to make investments in bridge infrastructure. The Council anticipates that SDOT will provide a report by March 31, 2022 recommending which projects should receive what amount of bond proceeds. A future ordinance will be required to specify the list of SDOT bridge projects and the amounts of bond proceeds.

This bond sale is anticipated to occur in early 2022. The bond proceeds will support a share of the City's general government capital program for about 12 months.

The bond proceeds will also be used to pay issuance costs.

The City's Capital Improvement Program (CIP) identifies debt financing for certain projects and the City's budget appropriates \$3.1 million for the associated debt service.

2. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

FAS and various operating departments with projects being financed by this bond issue.

b. Is a public hearing required for this legislation?

No.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

d. Does this legislation affect a piece of property?

No.

- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**

N/A

f. **Climate Change Implications**

1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**

No.

2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

N/A

- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

N/A

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the electric system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing municipal light and electric power generation, transmission, and distribution system of the City; authorizing the issuance and sale of municipal light and power revenue bonds for the purposes of providing funds to pay part of the cost of carrying out that system or plan, providing for the reserve fund requirement (if any), and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of the bonds and authorizing their issuance as either senior lien parity bonds or junior lien bonds; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle (the “City”) owns, operates and maintains a municipal light and electric power generation, transmission, and distribution system (the “Light System”) which Light System has from time to time required various additions, improvements, betterments, and extensions; and

WHEREAS, the City needs to acquire and construct certain additions, improvements, and betterments to and extensions of the Light System (the “Plan of Additions”) as described in this ordinance, and needs to borrow funds to pay a portion of the costs of carrying out such Plan of Additions; and

WHEREAS, the City currently has outstanding certain municipal light and power revenue bonds (as identified in Exhibit A to this ordinance, the “Outstanding Parity Bonds”) having a charge and lien upon Gross Revenues of the Light System available after payment of Operating and Maintenance Expense (“Net Revenue”) prior and superior to all other charges whatsoever; and

WHEREAS, pursuant to the Outstanding Parity Bond Ordinances identified in Exhibit A to this ordinance, the City reserved the right to issue additional municipal light and power revenue bonds (“Future Parity Bonds”) having a lien and charge on Net Revenue of the Light System on parity with the lien and

charge of the Outstanding Parity Bonds, upon satisfaction of certain conditions (the “Parity Conditions”); and

WHEREAS, pursuant to the Outstanding Parity Bond Ordinances, the City also reserved the right to issue additional municipal light and power revenue bonds or other obligations having a lien and charge on Net Revenue of the Light System that is junior and subordinate to the lien and charge of the Outstanding Parity Bonds (the “Junior Lien Bonds”); and

WHEREAS, after due consideration, the City has determined that it is in the best interest of the City and its ratepayers to authorize, subject to the provisions of this ordinance, the issuance and sale of municipal light and power revenue bonds as either Parity Bonds or Junior Lien Bonds to pay part of the cost of the Plan of Additions, to provide for the reserve fund requirement (if any), and to pay the costs of issuance of those bonds; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** In this ordinance, the following capitalized terms shall have the meanings set forth in this section.

“**Accreted Value**” means with respect to any Capital Appreciation Bond (a) as of any Valuation Date, the amount determined for such Valuation Date in accordance with the applicable Bond Documents, and (b) as of any date other than a Valuation Date, the sum of (i) the Accreted Value on the preceding Valuation Date and (ii) the product of (A) a fraction, the numerator of which is the number of days having elapsed from the preceding Valuation Date and the denominator of which is the number of days from such preceding Valuation Date to the next succeeding Valuation Date, calculated based on the assumption that Accreted Value accrues during any semiannual period in equal daily amounts on the basis of a year of 12 30-day months, and (B) the difference between the Accreted Values for such Valuation Dates.

“**Adjusted Net Revenue**” means Net Revenue, less any deposits into the Rate Stabilization Account and plus any withdrawals from the Rate Stabilization Account. In calculating Net Revenue, the City may

include the Tax Credit Subsidy Payments the City expects to receive from the federal government in respect to the interest on any Tax Credit Subsidy Bonds (or with respect to which the federal government will provide direct payments). In a Parity Certificate, Adjusted Net Revenue is subject to further adjustment as set forth in subsection 18(a)(ii) of this ordinance. In a Junior Lien Coverage Certificate, Adjusted Net Revenue is subject to further adjustment as set forth in subsection 18(b)(ii) of this ordinance.

“Alternate Reserve Security” means Qualified Insurance or a Qualified Letter of Credit that is used by the City to satisfy part or all of the Reserve Fund Requirement, and that is not cancelable on less than five years’ notice.

“Annual Debt Service” means, with respect to either Parity Bonds (or a series of Parity Bonds) (**“Annual Parity Bond Debt Service”**) or Junior Lien Bonds (or a series of Junior Lien Bonds) (**“Annual Junior Lien Debt Service”**), as applicable, the sum of the amounts required in a calendar year to pay the interest due in such calendar year (excluding interest to be paid from the proceeds of the sale of bonds), the principal of Serial Bonds maturing in such calendar year, and the Sinking Fund Requirements for any Term Bonds due in such calendar year. Additionally, for purposes of this definition:

(a) **Calculation of Interest Due - Generally.** Except as otherwise provided below, interest shall be calculated based on the actual amount of accrued, accreted, or otherwise accumulated interest that is payable in respect of the relevant series of Parity Bonds or Junior Lien Bonds, as applicable, taken as a whole, at the rate or rates set forth in the applicable Bond Documents.

(b) **Capital Appreciation Bonds.** The principal and interest portions of the Accreted Value of Capital Appreciation Bonds becoming due at maturity or by virtue of a Sinking Fund Requirement shall be included in the calculations of accrued and unpaid and accruing interest or principal in such manner and during such period of time as is specified in the Bond Documents applicable to such Capital Appreciation Bonds.

(c) **Variable Interest Rate Bonds.**

(i) **Assumed Interest on Variable Interest Rate Parity Bonds.** The amount of interest deemed

to be payable on any series of Parity Bonds that are Variable Interest Rate Bonds shall be calculated on the assumption that the interest rate on those bonds is equal to the highest 12-month rolling average of the SIFMA Municipal Swap Index over the preceding ten years. *Upon the Second Parity Covenant Date, a five-year look-back period shall be substituted for the ten-year period referenced in the immediately preceding sentence.*

(ii) **Assumed Interest on Variable Interest Rate Junior Lien Bonds.** The amount of interest deemed to be payable on any series of Junior Lien Bonds that are Variable Interest Rate Bonds shall be calculated on the assumption that the interest rate on those bonds is equal to the highest 12-month rolling average (ending with the month preceding the date of the calculation) of the SIFMA Municipal Swap Index over the preceding five years.

(d) **Interest on Bonds with Respect to Which a Payment Agreement is in Force.** In general, debt service on any bonds (Parity Bonds or Junior Lien Bonds, as applicable) with respect to which a Payment Agreement is in force shall be based on the net economic effect on the City expected to be produced by the terms of the applicable Bond Documents and the terms of the Payment Agreement. For example, if the net effect of the Payment Agreement on a series of bonds otherwise bearing interest at a variable interest rate is to produce an obligation bearing interest at a fixed rate, the relevant series of bonds shall be treated as fixed rate bonds. And if the net effect of the Payment Agreement on a series of bonds otherwise bearing interest at a fixed interest rate is to produce an obligation bearing interest at a variable interest rate, the relevant series of bonds shall be treated as Variable Interest Rate Bonds.

Accordingly, the amount of interest deemed to be payable on any series of Parity Bonds (or Junior Lien Bonds, as applicable) with respect to which a Payment Agreement is in force shall be an amount equal to the amount of interest that would be payable at the rate or rates stated in or determined pursuant to the applicable Bond Documents, plus Payment Agreement Payments, minus Payment Agreement Receipts. For the purposes of calculating as nearly as practicable Payment Agreement Receipts and Payment Agreement Payments under a Payment Agreement that includes a variable rate component determined by reference to a pricing mechanism or

index that is not the same as the pricing mechanism or index used to determine the variable rate interest component on the series of bonds to which the Payment Agreement is related, it shall be assumed that: (i) the fixed rate used in calculating Payment Agreement Payments will be equal to 105% of the fixed rate specified by the Payment Agreement, and (ii) the pricing mechanism or index specified by the Payment Agreement is the same as the pricing mechanism or index specified by the applicable Bond Documents. Notwithstanding the other provisions of this definition, the City shall not be required to (but may in its discretion) take into account in determining Annual Debt Service the effects of any Payment Agreement that has a term of ten years or less.

(e) Parity Payment Agreements; Junior Lien Payment Agreements. For any period during which Payment Agreement Payments under a Parity Payment Agreement (or Junior Lien Payment Agreement, as applicable) are taken into account in determining Annual Debt Service on the related Parity Bonds (or Junior Lien Bonds, as applicable) under subsection (d), no additional debt service shall be taken into account with respect to that Parity Payment Agreement (or Junior Lien Payment Agreement, as applicable). However, for any period during which Payment Agreement Payments are not taken into account under subsection (d) because the Parity Payment Agreement (or Junior Lien Payment Agreement, as applicable) is not then related to any outstanding Parity Bonds (or Junior Lien Bonds, as applicable), payments on that Payment Agreement shall be taken into account by assuming:

(i) If City is Obligated to Make Payments Based on Fixed Rate. If the City is obligated to make Payment Agreement Payments based on a fixed rate and the Qualified Counterparty is obligated to make payments based on a variable rate index, it shall be assumed that payments by the City will be based on the assumed fixed payor rate, and that payments by the Qualified Counterparty will be based on a rate equal to the average rate determined by the variable rate index specified by the Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made.

(ii) If City is Obligated to Make Payments Based on Variable Rate Index. If the City is obligated to make Payment Agreement Payments based on a variable rate index and the Qualified Counterparty

is obligated to make payments based on a fixed rate, it shall be assumed that payments by the City will be based on a rate equal to the average rate determined by the variable rate index specified by the Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made, and that the Qualified Counterparty will make payments based on the fixed rate specified by the Payment Agreement.

(f) **Balloon Bonds.** In calculating Annual Debt Service for any series of Parity Bonds, the City may in its discretion treat the debt service requirements with respect to Parity Bonds that are Balloon Bonds (including principal of and interest on such bonds at the applicable rate or rates) as being amortized in approximately equal annual installments over a period equal to the longer of 30 years or the remaining term of such series of Parity Bonds.

In calculating Annual Debt Service for any series of Junior Lien Bonds, the City may in its discretion treat the debt service requirements with respect to Junior Lien Bonds that are Balloon Bonds (including principal of and interest on such bonds at the applicable rate or rates) as being amortized in approximately equal annual installments over a period equal to the longer of 30 years or the remaining term of such series of Junior Lien Bonds.

(g) **Adjustments for Defeased Bonds.** For purposes of determining compliance with the rate covenants set forth in subsections 17(a)(ii) and 17(b)(ii) of this ordinance, calculating the Reserve Fund Requirement, and making coverage ratio calculations in connection with the delivery of a Parity Certificate or Junior Lien Coverage Certificate, Annual Debt Service shall be adjusted as set forth in subsection 20(d) of this ordinance.

(h) **Reimbursement Obligations.** If any payment under a Parity Reimbursement Obligation is then due and payable, or is then reasonably expected to become due and payable, the reasonably estimated amount and timing of such payment, calculated in accordance with applicable generally accepted accounting principles and as reflected in the annual financial statements of the Light System, shall be included in calculating Annual Debt Service for purposes of delivering a Parity Certificate. If any payment under a Parity Reimbursement

Obligation, an Intermediate Lien Reimbursement Obligation, or a Junior Lien Reimbursement Obligation is then due and payable, or is then reasonably expected to become due and payable, the reasonably estimated amount and timing of such payment, calculated in accordance with applicable generally accepted accounting principles and as reflected in the annual financial statements of the Light System, shall be included in calculating Annual Junior Lien Debt Service for purposes of delivering a Junior Lien Coverage Certificate.

“Authorized Denomination” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond Documents.

“Average Annual Debt Service” means, for purposes of calculating the Reserve Fund Requirement with respect to all Parity Bonds outstanding at the time of calculation, the sum of the Annual Parity Bond Debt Service remaining to be paid to the last scheduled maturity of the applicable Parity Bonds, divided by the number of years such Parity Bonds are scheduled to remain outstanding.

“Balloon Bonds” means any series of either Parity Bonds or Junior Lien Bonds, as applicable, the aggregate principal amount (including Sinking Fund Requirements) of which becomes due and payable in any calendar year in an amount that constitutes 25% or more of the initial aggregate principal amount of such series.

“Beneficial Owner” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“Bond” means a municipal light and power revenue bond issued pursuant to this ordinance.

“Bond Counsel” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“Bond Documents” means (a) (i) with respect to any Series of the Bonds, this ordinance (including any amendatory or supplemental ordinances), (ii) with respect to a series of Parity Bonds other than a Series of the Bonds, the applicable Parity Bond Ordinance(s), and (iii) with respect to any Junior Lien Bonds other than a Series of the Bonds, the applicable Junior Lien Bond Ordinance(s); (b) the authenticated bond form; and (c) the

written agreement(s) setting forth the Bond Sale Terms and additional terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“Bond Owners’ Trustee” means a bank or trust company organized under the laws of the State, or a national banking association, appointed in accordance with subsection 24(e) of this ordinance to act as trustee on behalf of the owners, from time to time, of either the outstanding Parity Bonds or the outstanding Junior Lien Bonds, as the case may be.

“Bond Purchase Contract” means a written offer to purchase a Series of the Bonds pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and a Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“Bond Register” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“Bond Registrar” means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the Registration Ordinance.

“Bond Sale Terms” means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 5 of this ordinance, including the maximum principal amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in a Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a

Pricing Certificate.

“Book-Entry Form” means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and “immobilized” in the custody of the Securities Depository or its designee, where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

“Capital Appreciation Bond” means any Parity Bond or Junior Lien Bond, all or a portion of the interest on which is compounded and accumulated at the rates or in the manner, and on the dates, set forth in the applicable Bond Documents, and is payable only upon redemption or on the maturity date of such Capital Appreciation Bond. A Parity Bond or a Junior Lien Bond that is issued as a Capital Appreciation Bond, but which later converts to an obligation on which interest is paid periodically, shall be a Capital Appreciation Bond until the conversion date and thereafter shall no longer be a Capital Appreciation Bond, but shall be treated as having a principal amount equal to its Accreted Value on the conversion date. For purposes of (a) receiving payment of the redemption premium, if any, on a Capital Appreciation Bond that is redeemed prior to maturity, or (b) computing the principal amount of Parity Bonds (or Junior Lien Bonds, a applicable) held by the Owner of a Capital Appreciation Bond in connection with any notice, consent, request, or demand pursuant to this ordinance or for any purpose whatsoever, the principal amount of a Capital Appreciation Bond shall be deemed to be its Accreted Value at the time that such notice, consent, request, or demand is given or made.

“Capital Improvement Program” or “CIP” means the portion or portions of the “2021-2026 Capital Improvement Program” adopted by Ordinance 126237 relating to the Light System, together with those portions of any previously adopted capital improvement program of the City relating to the Light System, as the CIP may be amended, updated, supplemented, or replaced from time to time by ordinance.

“City” means The City of Seattle.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as amended at any time, and regulations thereunder.

“Conservation Plan” means the 2020 Conservation Potential Assessment with respect to the Light System, reviewed by the City Council in connection with the adoption of Resolution 31932 on March 16, 2020, as that plan may be amended, updated, supplemented or replaced at any time, to the extent that funds are appropriated by the City therefor.

“Construction Account” means such fund, subfund, or account within the Light Fund as may be designated from time to time by the Director of Finance for the payment of costs of the Plan of Additions.

“Continuing Disclosure Agreement” means, for each Series that is sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 22 of this ordinance in substantially the form attached to this ordinance as Exhibit B.

“DTC” means The Depository Trust Company, New York, New York.

“Defeasible Bonds” means the Defeasible Parity Bonds and the Defeasible Junior Lien Bonds.

“Defeasible Junior Lien Bonds” means any outstanding Junior Lien Bonds that are eligible to be defeased pursuant to the Omnibus Defeasance Ordinance.

“Defeasible Parity Bonds” means any outstanding Parity Bonds that are eligible to be defeased pursuant to the Omnibus Defeasance Ordinance.

“Deferred Hydroelectric Project Relicensing Costs” means certain costs required by the Federal Energy Regulatory Commission to be incurred as a condition of the renewal of licenses for the Light System’s hydroelectric projects, which costs are treated in the same manner as capital expenditures.

“Director of Finance” or **“Director”** means the Director of the Finance Division of the Department of Finance and Administrative Services, or any other officer who succeeds to substantially all of the responsibilities of that office.

“Event of Default” has the meaning given in Section 24 of this ordinance. A “Parity Bond Event of Default” shall refer to those Events of Default relating to nonpayment of Parity Bonds, or defaults in respect of the Parity Bond covenants set forth herein and in the applicable Parity Bond Documents giving rise to remedies available to the owners of Parity Bonds. A “Junior Lien Bond Event of Default” shall refer to those Events of Default relating to nonpayment of Junior Lien Bonds, or in respect of the Junior Lien Bond covenants set forth herein and in the applicable Junior Lien Bond Documents giving rise to remedies available to the owners of Junior Lien Bonds.

“Fiscal Agent” means the fiscal agent of the State, as the same may be designated by the State from time to time.

“Future Junior Lien Bonds” means, with reference to any Series designated as Junior Lien Bonds, any revenue obligations of the Light System issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien upon Net Revenue equal in priority with the charge and lien upon such revenue for the payment of the amounts required to be paid into the Junior Lien Debt Service Fund to pay and secure payment of the Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations), in accordance with the priority of payment set forth in Section 14 of this ordinance. Future Junior Lien Bonds may include Junior Lien Payment Agreements issued in compliance with the Junior Lien Additional Bonds Test.

“Future Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of a series of Future Parity Bonds, and any other ordinance amending or supplementing the provisions of any such ordinance.

“Future Parity Bonds” means, with reference to any Series designated as Parity Bonds, any revenue obligations of the Light System issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien upon Net Revenue equal in priority with the charge and lien upon such revenue for the payment of the amounts required to be paid into the Parity Bond Fund and the Reserve Fund to pay and

secure payment of the Parity Bonds (including Parity Payment Agreements), in accordance with Section 14 of this ordinance. Future Parity Bonds may include Parity Payment Agreements and any other obligations issued in compliance with the Parity Conditions.

“Government Obligations” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as amended at any time.

“Gross Revenues” means (a) all income, revenues, receipts and profits derived by the City through the ownership and operation of the Light System; (b) the proceeds received by the City directly or indirectly from the sale, lease or other disposition of any of the properties, rights or facilities of the Light System; (c) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (d) the investment income earned on money held in any fund or account of the City, including any bond redemption funds and the accounts therein, in connection with the ownership and operation of the Light System. Gross Revenues do not include: (i) insurance proceeds compensating the City for the loss of a capital asset; (ii) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenues; (iii) investment income earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (iv) any gifts, grants, donations or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations or other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenues hereunder; (v) the proceeds of any borrowing for capital improvements (or the refinancing thereof); and (vi) the proceeds of any liability or other insurance (excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues).

“Intermediate Lien Reimbursement Obligation” means any payment or reimbursement obligation

incurred under a written agreement entered into in connection with a series of Parity Bonds or to obtain Qualified Insurance or a Qualified Letter of Credit, under which the City's payment obligations are expressly stated to constitute a lien and charge on Net Revenue junior in rank to the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund to pay and secure the payment of the Parity Bonds, but senior to the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds. For purposes of determining percentages of ownership of Bonds under this ordinance or under any Bond Documents, Intermediate Lien Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Intermediate Lien Reimbursement Obligations.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Junior Lien Additional Bonds Test” means the conditions set forth in subsection 18(b) of this ordinance for issuing additional Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations).

“Junior Lien Bond” means, generally, any bond or obligation secured by a lien and charge on Net Revenue that is junior and subordinate to the lien and charge of the Parity Bonds and Intermediate Lien Reimbursement Obligations, but prior and superior to other liens and charges, in accordance with the priority of payment set forth in Section 14 of this ordinance. The term Junior Lien Bond may refer to (a) any Bond of a Series issued pursuant to this ordinance that is so designated by the Director of Finance upon satisfaction of the Junior Lien Additional Bonds Test; (b) any Future Junior Lien Bond; (c) any Junior Lien Payment Agreement; and (d) any Junior Lien Reimbursement Obligation.

“Junior Lien Bond Documents” means those Bond Documents applicable to a series of Junior Lien Bonds.

“Junior Lien Bond Ordinance” means this ordinance, and any future ordinance authorizing the

issuance and sale of any Future Junior Lien Bonds, including any ordinance amending or supplementing the provisions of any Junior Lien Bond Ordinance.

“Junior Lien Coverage Certificate” means a certificate delivered pursuant to subsection 18(b)(ii) of this ordinance, for purposes of satisfying the Junior Lien Additional Bonds Test in connection with the issuance of Future Junior Lien Bonds.

“Junior Lien Debt Service Fund” means the special fund of the City known as the Seattle Municipal Light Revenue Junior Lien Debt Service Fund established within the Light Fund pursuant to Ordinance 125459 for the purpose of paying and securing the principal of and interest on Junior Lien Bonds and securing obligations under Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations.

“Junior Lien Payment Agreement” means any Payment Agreement, which is entered into in compliance with the Junior Lien Additional Bonds Test, and under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds in accordance with Section 14 of this ordinance. For purposes of determining percentages of ownership of Junior Lien Bonds under this ordinance or under any Bond Documents, Junior Lien Payment Agreements shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Junior Lien Payment Agreement.

“Junior Lien Reimbursement Obligation” means any reimbursement obligation incurred under a written reimbursement agreement (or similar agreement) entered into in connection with a series of Junior Lien Bonds to obtain Qualified Insurance or a Qualified Letter of Credit, under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Junior Lien Debt Service Fund to pay and secure the payment of the Junior Lien Bonds. For purposes of determining percentages of ownership of Junior Lien Bonds under this ordinance or under any Bond Documents, Junior Lien Reimbursement Obligations shall be deemed to have no

principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Junior Lien Reimbursement Obligations.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as amended at any time, or an agreement with a substitute or successor Securities Depository.

“Light Fund” means the special fund of the City of that name heretofore created and established by the City Council.

“Light System” means the municipal light and power generation, transmission, and distribution system now belonging to or which may hereafter belong to the City.

“MSRB” means the Municipal Securities Rulemaking Board.

“Maximum Annual Debt Service” means, with respect to Parity Bonds (or Junior Lien Bonds, as applicable) the maximum amount of Annual Debt Service that shall become due in the current calendar year or in any future calendar year with respect to those Parity Bonds (or Junior Lien Bonds, as applicable) that are outstanding as of the calculation date.

“Net Revenue” for any period means Gross Revenues less Operating and Maintenance Expense.

“Omnibus Defeasance Ordinance” means Ordinance 126220, as amended at any time, authorizing the defeasance of Defeasible Bonds, or any future ordinance of the City pursuant to which the Bonds (or any Series of the Bonds) are designated as Defeasible Bonds.

“Omnibus Refunding Ordinance” means Ordinance 125460, as amended at any time (including by Ordinance 125987), authorizing the issuance of refunding bonds, or any future ordinance, pursuant to which the Bonds (or any Series of the Bonds) are designated as Refundable Bonds.

“Operating and Maintenance Expense” means all reasonable charges incurred by the City in causing the Light System to be operated and maintained in good repair, working order and condition, including but not limited to all operating expenses under applicable generally accepted accounting principles included in the

annual audited financial statements of the Light System, except those excluded in this definition. Operating and Maintenance Expense does not include: (a) extraordinary, nonrecurring expenses of the Light System or any judgments or amounts to be paid in settlement of claims against the Light System; (b) non-cash expenses relating to a mark-to-market treatment of energy-related contracts; (c) any costs or expenses (including interest expense) for new construction, replacements, or renewals of Light System property; (d) Deferred Hydroelectric Project Relicensing Costs, the High Ross Capital Payments (as defined in the Outstanding Parity Bond Ordinances), or other similar payments under any agreement for the development or licensing of a capital improvement or asset, under which agreement the City agrees to make periodic payments in respect of its share of the capital expense; (e) any allowance for depreciation, amortization, or similar recognitions of non-cash expense items made for accounting purposes only (including non-cash pension expense); (f) any taxes levied by or paid to the City (or payments in lieu of taxes) upon the properties or earnings of the Light System; or (g) any obligation authorized pursuant to ordinance or resolution specifically excluding the payment of such obligation from Operating and Maintenance Expense.

“Outstanding Junior Lien Bonds” means, with reference to a particular Series of Junior Lien Bonds issued pursuant to this ordinance, those Junior Lien Bonds that are outstanding as of the Issue Date of such Series.

“Outstanding Parity Bond Ordinances” means the ordinances authorizing the various series of Outstanding Parity Bonds, as such ordinances are identified in Exhibit A to this ordinance.

“Outstanding Parity Bonds” means those outstanding Parity Bonds identified in Exhibit A to this ordinance. When used in reference to a particular date or series of Parity Bonds, Outstanding Parity Bonds shall mean those Parity Bonds (including any Parity Bonds issued subsequent to the effective date of this ordinance) that are outstanding as of that date or as of the issue date of such series.

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“Parity Bond” means, generally, any bond or obligation secured by a lien and charge on Net Revenue

that is prior and superior to any other liens or charges whatsoever, in accordance with the priority of payment set forth in Section 14 of this ordinance. The term Parity Bond may refer to: (a) the Outstanding Parity Bonds identified in Exhibit A to this ordinance; (b) each Series of the Bonds designated by the Director of Finance as a Series of Parity Bonds upon satisfaction of the Parity Conditions; (c) any Future Parity Bonds; and (d) any Parity Payment Agreement entered into upon satisfaction of the Parity Conditions.

“Parity Bond Documents” means those Bond Documents applicable to a series of Parity Bonds.

“Parity Bond Fund” means the special fund of the City known as the Seattle Municipal Light Revenue Parity Bond Fund established within the Light Fund pursuant to Ordinance 92938 for the purpose of paying and securing the payment of principal of and interest on Parity Bonds (including Parity Payment Agreement Payments) and payments under Parity Reimbursement Obligations.

“Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of any Series of Parity Bonds, and any other ordinance amending or supplementing the provisions of any Parity Bond Ordinance.

“Parity Certificate” means a certificate delivered pursuant to subsection 18(a)(ii) of this ordinance for purposes of satisfying the Parity Conditions in connection with the issuance of Future Parity Bonds.

“Parity Conditions” means (a) for purposes of establishing that a Series of the Bonds may be issued on parity with the Parity Bonds outstanding as of the Issue Date of such Series, the conditions for issuing Future Parity Bonds set forth in the Parity Bond Ordinances relating to those Parity Bonds that are then outstanding; and (b) for purposes of issuing Future Parity Bonds on parity with a Series of the Bonds, the conditions described in the preceding clause (a) together with the conditions set forth in subsection 18(a) of this ordinance.

“Parity Payment Agreement” means a Payment Agreement that is entered into in compliance with the Parity Conditions and under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund and the Reserve Fund to pay and secure the payment of principal of and interest on Parity

Bonds in accordance with Section 14 of this ordinance. For purposes of determining percentages of ownership of Parity Bonds under this ordinance or under any Bond Documents, Parity Payment Agreements shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Parity Payment Agreement.

“Parity Reimbursement Obligation” means any payment or reimbursement obligation incurred under a written agreement entered into in connection with a series of Parity Bonds or to obtain Qualified Insurance or a Qualified Letter of Credit (other than Qualified Insurance or a Qualified Letter of Credit obtained to satisfy all or part of the Reserve Fund Requirement), under which the City’s payment obligations are expressly stated to constitute a lien and charge on Net Revenue equal in rank to the lien and charge upon such Net Revenue required to be paid into the Parity Bond Fund to pay and secure the payment of the principal of and interest on the Parity Bonds. Parity Reimbursement Obligations accruing as a result of a mandatory tender for purchase of Parity Bonds shall be excluded from the calculation of Annual Debt Service for all purposes. For purposes of determining percentages of ownership of Parity Bonds, Parity Reimbursement Obligations shall be deemed to have no principal amount, and any consent or similar rights (if any) shall be determined only as set forth in the applicable Parity Reimbursement Obligations.

“Payment Agreement” means a written agreement entered into by the City and a Qualified Counterparty, as authorized by any applicable laws of the State, for the purpose of managing or reducing the City’s exposure to fluctuations or levels of interest rates, or for other interest rate, investment, or asset or liability management purposes, and which provides for (i) an exchange of payments based on interest rates, ceilings, or floors on such payments, (ii) options on such payments; (iii) any combination of the foregoing, or (iv) any similar device. A Payment Agreement may be entered into on either a current or forward basis. A Payment Agreement must be entered into in connection with (or incidental to) the issuance, incurring, or carrying of particular bonds, notes, bond anticipation notes, commercial paper, or other obligations for borrowed money (which may include leases, installment purchase contracts, or other similar financing

agreements or certificates of participation in any of the foregoing).

“Payment Agreement Payments” means the amounts periodically required to be paid by the City to a Qualified Counterparty pursuant to a Payment Agreement.

“Payment Agreement Receipts” means the amounts periodically required to be paid by a Qualified Counterparty to the City pursuant to a Payment Agreement.

“Permitted Investments” means any investments or investment agreements permitted for the investment of City funds under the laws of the State, as amended at any time.

“Plan of Additions” means the system or plan of additions to and betterments and extensions of the Light System adopted by ordinance, including but not limited to the CIP, the Conservation Plan, and the Deferred Hydroelectric Project Relicensing Costs. The Plan of Additions includes all amendments, updates, supplements or replacements to the CIP, the Conservation Plan, and the Deferred Hydroelectric Project Relicensing Costs, all of which shall automatically constitute amendments to the Plan of Additions upon approval by ordinance. The Plan of Additions includes the purchase and installation of all materials, supplies, appliances, equipment (including but not limited to data processing hardware and software and conservation equipment) and facilities, the acquisition of all permits, licenses, franchises, property and property rights, other capital assets and all engineering, consulting and other professional services and studies (whether performed by the City or by other public or private entities) necessary or convenient to carry out the Plan of Additions. The Plan of Additions also may be modified to include other improvements without amending the CIP, the Conservation Plan, and the Deferred Hydroelectric Project Relicensing Costs, if the City determines by ordinance that those amendments or other improvements constitute a system or plan of additions to or betterments or extensions of the Light System.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of the Bonds to the Purchaser in a competitive sale, in accordance with the parameters set forth in Section 5 of this ordinance.

“Professional Utility Consultant” means the independent person(s) or firm(s) selected by the City having a favorable reputation for skill and experience with electric systems of comparable size and character to the Light System in such areas as are relevant to the purposes for which they were retained.

“Purchaser” means the entity or entities who have been selected by the Director of Finance in accordance with this ordinance to serve as underwriter, purchaser or successful bidder in a sale of any Series of the Bonds.

“Qualified Counterparty” means a party (other than the City or a person related to the City) who is the other party to a Payment Agreement and who is qualified to act as the other party to a Payment Agreement under any applicable laws of the State.

“Qualified Insurance” means any municipal bond insurance policy, surety bond, or similar credit enhancement device, issued by any insurance company licensed to conduct an insurance business in any state of the United States, by a service corporation acting on behalf of one or more such insurance companies, or by any other financial institution, the provider of which, as of the time of issuance of such credit enhancement device, is rated in one of the two highest rating categories (without regard to gradations within such categories) by at least two nationally recognized rating agencies.

“Qualified Letter of Credit” means any letter of credit, standby bond purchase agreement, or other liquidity facility issued by a financial institution for the account of the City in connection with the issuance of any Parity Bond or Junior Lien Bond, which institution maintains an office, agency, or branch in the United States and, as of the time of issuance of such instrument, is rated in one of the two highest rating categories (without regard to gradations within such categories) by at least two nationally recognized rating agencies.

“RBI” means *The Bond Buyer Revenue Bond Index* or comparable index, or, if no comparable index can be obtained, 80 percent of the interest rate for actively traded 30-year United States Treasury obligations.

“Rate Stabilization Account” means the account of that name previously established in the Light Fund pursuant to Ordinance 121637.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a Series of the Bonds at the request of the City.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding such interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“Refundable Bonds” means the Refundable Parity Bonds and the Refundable Junior Lien Bonds.

“Refundable Junior Lien Bonds” means any outstanding Junior Lien Bonds that are eligible to be refunded pursuant to the Omnibus Refunding Ordinance.

“Refundable Parity Bonds” means any outstanding Parity Bonds that are eligible to be refunded pursuant to the Omnibus Refunding Ordinance.

“Refunding Junior Lien Bonds” means Future Junior Lien Bonds that satisfy the applicable Junior Lien Additional Bonds Test and are issued pursuant to the Omnibus Refunding Ordinance (or a Future Junior Lien Bond ordinance) for the purpose of refunding any Refundable Junior Lien Bonds.

“Refunding Parity Bonds” means Future Parity Bonds that satisfy the applicable Parity Conditions and are issued pursuant to the Omnibus Refunding Ordinance (or another Future Parity Bond Ordinance) for the purpose of refunding any Refundable Parity Bonds.

“Registered Owner” means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under a Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“Registration Ordinance” means Ordinance 111724 establishing a system of registration for the City’s bonds and other obligations pursuant to Seattle Municipal Code Chapter 5.10, as amended at any time.

“Reserve Fund” means the special fund of the City known as the Municipal Light and Power Bond

Reserve Fund established as a separate account within the Light Fund pursuant to Ordinance 71917, as amended at any time, to secure the payment of Parity Bonds.

“Reserve Fund Requirement” means, for any Series of Bonds designated as Parity Bonds, the Reserve Fund Requirement established in the Bond Sale Terms for that Series and any other Series issued as part of a single “issue” of Parity Bonds, consistent with Section 15 of this ordinance. For any Series of Future Parity Bonds, the Reserve Fund Requirement means the requirement specified for that Series in the Bond Sale Terms associated with that issue. The aggregate Reserve Fund Requirement for all Parity Bonds shall be the sum of the Reserve Fund Requirements for each Series of Parity Bonds. For purposes of this definition, “issue” means all Series of Parity Bonds issued and sold pursuant to a common set of Bond Sale Terms. For the purposes of calculating the Reserve Fund Requirement only, the City shall deduct from Annual Debt Service the Tax Credit Subsidy Payments the City is scheduled to claim from the federal government in respect of the interest on a Series of Parity Bonds that are Tax Credit Subsidy Bonds (or with respect to which the federal government is otherwise scheduled to provide direct payments).

“Rule 15c2-12” means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended at any time.

“SEC” means the United States Securities and Exchange Commission.

“SIFMA Municipal Swap Index” means the Securities Industry and Financial Markets Association (“SIFMA”) Municipal Swap Index, calculated and published by Bloomberg and overseen by SIFMA’s Municipal Swap Index Committee, or a substantially similar recognized market successor index representing a seven-day market index comprised of certain high-grade tax-exempt variable rate demand obligations.

“Second Parity Covenant Date” means the earlier of (a) the date on which the City has obtained consents of the requisite percentage (as set forth in subsection 23(b) of the Outstanding Parity Bond Ordinances) of Registered Owners of the Parity Bonds then outstanding, in accordance with the provisions of the applicable Outstanding Parity Bond Documents; or (b) the date on which all of the following Outstanding

Parity Bonds have been redeemed or defeased: Municipal Light and Power Revenue Bonds, 2010A (Taxable Build America Bonds - Direct Payment); Municipal Light and Power Revenue Bonds, 2010C (Taxable Recovery Zone Economic Development Bonds - Direct Payment); Municipal Light and Power Improvement Revenue Bonds, 2011B (Taxable New Clean Renewable Energy Bonds - Direct Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds, 2012A; Municipal Light and Power Improvement Revenue Bonds, 2012C (Taxable New Clean Renewable Energy Bonds - Direct Payment); Municipal Light and Power Improvement and Refunding Revenue Bonds, 2013; Municipal Light and Power Improvement and Refunding Revenue Bonds, 2014; Municipal Light and Power Revenue Bonds, 2015A; Municipal Light and Power Revenue Bonds, 2016A (Taxable New Clean Renewable Energy Bonds - Direct Payment); Municipal Light and Power Refunding Revenue Bonds, 2016B; Municipal Light and Power Improvement and Refunding Revenue Bonds, 2016C; and Municipal Light and Power Improvement and Refunding Revenue Bonds, 2017C.

“Securities Depository” means DTC, any successor thereto, any substitute securities depository selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

“Serial Bond” means any Parity Bond or Junior Lien Bond maturing in a specified year, for which no Sinking Fund Requirements are mandated.

“Series” means a series of the Bonds issued pursuant to this ordinance.

“Sinking Fund Account” means (a) with respect to Parity Bonds, any account created in the Parity Bond Fund to amortize the principal or make mandatory redemptions of Parity Bonds that are Term Bonds; and (b) with respect to Junior Lien Bonds, any account created in the Junior Lien Debt Service Fund to amortize the principal or make mandatory redemptions of Junior Lien Bonds that are Term Bonds.

“Sinking Fund Requirement” means, for any calendar year, the principal portion (and required redemption premium, if any) of any Term Bond that is required to be purchased, redeemed, paid at maturity, or paid into any Sinking Fund Account for such calendar year, as established in the applicable Bond Documents.

“State” means the State of Washington.

“State Auditor” means the office of the Auditor of the State or such other department or office of the State authorized and directed by State law to make audits.

“Tax Credit Subsidy Bond” means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code and as a “qualified bond” under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

“Tax Credit Subsidy Payment” means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

“Tax-Exempt Bond” means any Parity Bond or Junior Lien Bond, the interest on which is intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Taxable Bond” means any Parity Bond or Junior Lien Bond, the interest on which is not intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Term Bond” means any Parity Bond or Junior Lien Bond that is issued subject to mandatory redemption in periodic Sinking Fund Requirements prior to its maturity date.

“Valuation Date” means, with respect to any Capital Appreciation Bond, the date or dates, determined as set forth in the applicable Bond Documents, on which specific Accreted Values are assigned to that Capital Appreciation Bond.

“Variable Interest Rate” means any interest rate that fluctuates during the stated term of a bond (or during a stated period during which the bond is designated as a Variable Interest Rate Bond), whether due to a remarketing, a market index reset, or other mechanism set forth in the applicable Bond Documents. The Bond Documents for any Series of the Bonds bearing interest at a Variable Interest Rate shall set forth: (a) the available method(s) of computing interest (the “interest rate modes”); (b) the particular period or periods of time (or manner of determining such period or periods of time) for which each value of such Variable Interest Rate (or each interest rate mode) shall remain in effect; (c) provisions for conversion from one interest rate

mode to another and for setting or resetting the interest rates; and (d) the time or times upon which any change in such Variable Interest Rate (or any conversion of interest rate modes) shall become effective.

“Variable Interest Rate Bond” means, for any period of time, any Parity Bond or Junior Lien Bond that bears interest at a Variable Interest Rate during that period. A bond shall not be treated as a Variable Interest Rate Bond if the net economic effect of (a) interest rates on a particular series of Parity Bonds (or Junior Lien Bonds, as applicable), as set forth in the applicable Bond Documents, and (b) either (i) interest rates on another series of Parity Bonds (or Junior Lien Bonds, as applicable) issued at substantially the same time, or (ii) a Payment Agreement related to that particular series, in either case, is to produce obligations that bear interest at a fixed interest rate. Any Parity Bond or Junior Lien Bond with respect to which a Payment Agreement is in force shall be treated as a Variable Interest Rate Bond if the net economic effect of the Payment Agreement is to produce an obligation that bears interest at a Variable Interest Rate.

Section 2. **Adoption of Plan of Additions.** The City specifies, adopts and orders the Plan of Additions to be carried out as generally provided for in the documents comprising the Plan of Additions. The estimated cost of the Plan of Additions, as nearly as may be determined, is declared to be approximately \$2.3 billion, of which approximately \$375 million is expected to be financed from proceeds of the Bonds and investment earnings thereon.

Section 3. **Authorization of Bonds; Due Regard Finding.**

(a) **The Bonds.** The City is authorized to issue municipal light and power revenue bonds payable from the sources described in Section 13 of this ordinance and secured as either Parity Bonds or Junior Lien Bonds, as determined by the Director of Finance in accordance with Section 5 of this ordinance. The Bonds may be issued in one or more Series in a maximum aggregate principal amount not to exceed the amount stated in Section 5 of this ordinance, for the purposes of: (a) paying a part of the cost of carrying out the Plan of Additions; (b) providing for the Reserve Fund Requirement (if necessary); (c) capitalizing interest on (if necessary) and paying costs of issuance; and (d) carrying out other Light System purposes approved by

ordinance. The Bonds may be issued in one or more Series and may be combined with other municipal light and power revenue bonds authorized separately. The Bonds shall be designated municipal light and power revenue bonds, shall be numbered separately and shall have any name, year, and Series or other label as deemed necessary or appropriate by the Director of Finance. Any Series of the Bonds designated as Junior Lien Bonds shall bear a designation clearly indicating that such Bonds are Junior Lien Bonds.

(b) **City Council Finding.** The City Council finds that, in creating the Parity Bond Fund, the Reserve Fund, and the Junior Lien Debt Service Fund (collectively, the “Bond Funds”), and in fixing the amounts to be paid into those funds in accordance with this ordinance and the parameters for the Bond Sale Terms set forth in Section 5 of this ordinance, the City Council has exercised due regard for the cost of operation and maintenance of the Light System, and is not setting aside into such Bond Funds a greater amount than in the judgment of the City Council, based on the rates established from time to time consistent with subsection 17(a)(ii) of this ordinance, will be sufficient, in the judgment of the City Council, to meet all expenses of operation and maintenance of the Light System and to provide the amounts previously pledged for the payment of all outstanding obligations payable out of Gross Revenues and pledged for the payment of the Bonds. Therefore, the City Council finds that the issuance and sale of the Bonds is in the best interest of the City and is in the public interest.

Section 4. **Manner of Sale of the Bonds.** The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement, and may select and enter into agreements with remarketing agents or providers of liquidity with respect to Variable Interest Rate Bonds. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director of Finance is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements, and to provide for the use of an electronic bidding mechanism; to provide for and determine matters relating to the forward or delayed delivery of the Bonds, if deemed desirable; and to specify such other

matters and take such other action as in the Director's determination may be necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 5 of this ordinance.

Section 5. **Appointment of Designated Representative; Bond Sale Terms.**

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series, and in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** This ordinance authorizes the issuance of Bonds in a maximum aggregate principal amount of not to exceed \$375 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance. The initial Issue Date (without restricting any reissuance date with respect to a Series of Variable Interest Rate Bonds) may not be later than December 31, 2024.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, whichever is later, unless otherwise provided in the applicable Bond Documents. Each Series of the Bonds shall bear interest at one or more fixed interest rates or Variable Interest Rates. The net interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum. The Bond Documents for any Series may provide for multiple interest rates and interest rate modes, and may provide conditions and mechanisms for the Director of Finance to effect a conversion from one mode to

another. Nothing in this ordinance shall be interpreted to prevent the Bond Documents for any Series from including a provision for adjustments to interest rates during the term of the Series upon the occurrence of certain events specified in the applicable Bond Documents.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond; in accordance with any Sinking Fund Requirements applicable to Term Bonds; and otherwise in accordance with any redemption or tender provisions.

(vi) **Final Maturity.** Each Bond shall mature no later than 40 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption and tender provisions, as determined by the Director of Finance in the Director's discretion, consistent with Section 8 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as subject to optional redemption prior to its maturity. Any Bond that is subject to optional redemption prior to maturity must be callable on at least one or more date(s) occurring not more than 10½ years after the Issue Date, consistent with subsection 8(a) of this ordinance.

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and in principal payment amounts set forth in Sinking Fund Requirements, consistent with subsection 8(b) of this ordinance.

(C) **Extraordinary Redemption.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with subsection 8(c) of this ordinance.

(D) **Tender Options.** The Director of Finance may designate any Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond Documents.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City for that Series, consistent with the parameters set forth in this ordinance and in any applicable bid documents.

(ix) Other Terms and Conditions.

(A) **Expected Life of Capital Facilities.** As of the Issue Date of each Series, the Director of Finance must find to the Director's satisfaction that the average expected life of the capital facilities to be financed with the proceeds (or allocable share of proceeds) of that Series exceeds the weighted average maturity of such Series (or share thereof allocated to financing those capital facilities).

(B) **Satisfaction of Parity Conditions or Junior Lien Additional Bonds Test.** For each Series of the Bonds, the Director of Finance must designate such Series of the Bonds as a series of either Parity Bonds or Junior Lien Bonds. For a Series to be designated as Parity Bonds, the Director of Finance must find to the Director's satisfaction that, as of the Issue Date, the Parity Conditions have been met or satisfied so that such Series is permitted to be issued as Parity Bonds. For a Series to be designated as Junior Lien Bonds, the Director of Finance must find to the Director's satisfaction that, as of the Issue Date, the Junior Lien Additional Bonds Test has been met or satisfied so that such Series is permitted to be issued as Junior Lien Bonds.

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for Qualified Insurance, a Qualified Letter of Credit or other liquidity facility, Intermediate Lien Reimbursement Obligation, Junior Lien Reimbursement Obligation, or any other Payment Agreement as the Director of Finance may find necessary or desirable, and may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of any of the Bonds); provisions for the conversion of interest rate modes; provisions for the reimbursement of a credit enhancement

provider or Qualified Counterparty; and requirements to give notice to or obtain the consent of a credit enhancement provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) Parity Bond Reserve Fund Requirement. The Bond Sale Terms for any Series of Parity Bonds must establish the Reserve Fund Requirement for such Series and must set forth the method for satisfying any such requirement, consistent with Section 15 of this ordinance and the Parity Conditions. The Reserve Fund Requirement for any such Series may not be set at a level that would cause the aggregate Reserve Fund Requirement to exceed the least of (1) 125% of Average Annual Debt Service on all Parity Bonds outstanding, (2) Maximum Annual Debt Service on all Parity Bonds outstanding, or (3) 10% of the proceeds of the outstanding Parity Bonds.

(E) Tax Status of the Bonds. The Director of Finance may designate any Series of the Bonds as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 21 of this ordinance.

Section 6. **Bond Registrar; Registration and Transfer of Bonds.**

(a) Registration and Bond Registrar. The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) Transfer and Exchange of Bonds. The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying

agent for the Bonds, and to carry out all of the Bond Registrar's powers and duties under this ordinance and the Registration Ordinance.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, seniority, interest rate, and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment or principal redemption date.

(c) Securities Depository; Book-Entry Form. Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository or the persons for whom they act as nominees with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository or its participants of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute

Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director of Finance determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided in this ordinance.

Nothing this ordinance shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided of this ordinance.

(d) **Lost or Stolen Bonds.** In case any Bond shall be lost, stolen or destroyed, the Bond Registrar may authenticate and deliver a new bond or bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such bond or bonds were actually lost, stolen or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both.

Section 7. **Payment of Bonds.**

(a) **Payment.** Each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents for that Series. Principal of and interest on each Bond designated as a Parity Bond shall be payable solely out of the Parity Bond Fund. Principal of and interest on each Bond designated as a Junior Lien Bond shall be payable solely out of the Junior Lien Debt Service Fund. The Bonds shall not be general obligations of the City. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held In Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held In Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the Record Date. The City, however, shall not be required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 8. **Redemption and Purchase of Bonds.**

(a) **Optional Redemption.** All or some of the Bonds of any Series may be subject to redemption prior to their stated maturity dates at the option of the City at the times and on the terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in Sinking Fund Requirements, as set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to 100 percent of the principal amount to be redeemed, plus accrued interest, on the dates and in the years and Sinking Fund Requirements as set forth in the applicable Bond Documents. If the City optionally redeems or purchases a Term Bond prior to maturity, the principal amount of that Term Bond that is so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining Sinking Fund Requirements for that Term Bond in the manner as directed by the Director of Finance. In the absence of direction by the Director of Finance, credit shall be allocated to the remaining Sinking Fund Requirements for that Term Bond on a *pro rata* basis.

(c) **Extraordinary Redemption.** All or some of the Bonds of any Series may be subject to

extraordinary optional or extraordinary mandatory redemption prior to maturity upon the occurrence of an extraordinary event at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed and such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the Series is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar using such method of random selection as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, seniority, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 9. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not fewer than 20 nor more than 60 days prior to the date fixed for redemption by first-class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not

redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled redemption date. Any notice of redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of redemption has been rescinded shall remain outstanding.

Section 10. **Failure to Pay Bonds.** If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay, solely from the sources pledged to that Bond in this ordinance, interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, principal (including redemption premium, if any) and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Parity Bond Fund (if such Bond is a Parity Bond) or the Junior Lien Debt Service Fund (if such Bond is a Junior Lien Bond) and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond. The exercise of remedies of Owners of the Bonds are limited as set forth in Section 24 of this ordinance.

Section 11. **Form and Execution of Bonds.** The Bonds shall be typed, printed or reproduced in a form consistent with the provisions of this ordinance and State law; shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile; and the seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series adjusted consistent with this ordinance), manually signed by the Bond Registrar, shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, Municipal Light and Power [Improvement] Revenue Bonds, [Year], [Series and/or Seniority, if applicable], described in [this ordinance].” Junior Lien Bonds shall also bear the words “Junior Lien” in their name in the foregoing certificate of authentication. The authorized

signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits of this ordinance.

If any officer whose manual or facsimile signature appears on a Bond ceases to be an officer of the City authorized to sign bonds before the Bond bearing that officer's manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, delivered and issued and, when authenticated, issued and delivered, shall be as binding on the City as though that person had continued to be an officer of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an officer of the City authorized to sign bonds, although that person did not hold the required office on the Issue Date of that Series of the Bonds.

Section 12. **Construction Account; Deposit of Proceeds.** The principal proceeds of the sale of each Series of the Bonds (other than amounts necessary to pay accrued interest (if any), to pay costs of issuance, and to provide for the Reserve Fund Requirement with respect to a Series of Parity Bonds) shall be deposited into the Construction Account (or such other fund or account as may be directed by the Director of Finance) to be used for the purposes set forth in Section 3 of this ordinance. Until needed for such purposes, the City may invest principal proceeds and interest thereon temporarily in any Permitted Investments, and the investment earnings may, as determined by the Director of Finance, be either (a) retained in the Construction Account to be spent for the purposes of that account, or (b) deposited into the Parity Bond Fund or Junior Lien Debt Service Fund, as applicable.

Section 13. **Security for the Bonds; Designation as Parity Bonds or Junior Lien Bonds.** The Bonds shall not constitute general obligations of the City, the State or any political subdivision of the State or a charge upon any general fund or upon any money or other property of the City, the State or any political subdivision of the State not specifically pledged by this ordinance.

(a) **Parity Bonds.** Each Series of the Bonds that is designated as Parity Bonds shall be a special limited obligation of the City payable from and secured solely by Gross Revenues available after payment of Operating

and Maintenance Expense (“Net Revenue”) and by money in the Parity Bond Fund and the Reserve Fund. Net Revenue is pledged to make the payments into the Parity Bond Fund and the Reserve Fund required by Sections 14 and 15 of this ordinance, which pledge shall constitute a lien and charge upon such Net Revenue prior and superior to all other charges whatsoever. Each Series of the Bonds designated as Parity Bonds shall be issued on parity with the Outstanding Parity Bonds and all Future Parity Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien.

(b) **Junior Lien Bonds.** Each Series of the Bonds that is designated as Junior Lien Bonds shall be a special limited obligation of the City payable from and secured solely by Net Revenue and by money in the Junior Lien Debt Service Fund. Net Revenue is pledged to make the payments into the Junior Lien Debt Service Fund required by Sections 14 and 16 of this ordinance, which pledge shall constitute a lien and charge upon such Net Revenue (i) subordinate only to the payments to be made (A) into the Parity Bond Fund in respect of the principal of and interest on the Outstanding Parity Bonds and Parity Payment Agreements, (B) in respect of reimbursement obligations arising under Alternate Reserve Securities, and (C) in respect of obligations arising under Intermediate Lien Reimbursement Obligations, and (ii) prior and superior to all other charges whatsoever. Each Series of the Bonds designated as Junior Lien Bonds shall be issued on parity with the lien and charge of any then outstanding Junior Lien Bonds and all Future Junior Lien Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien. Nothing in this ordinance prevents the City from issuing revenue bonds or other obligations which are a charge or lien upon Net Revenue subordinate to the payments required to be made into the Junior Lien Debt Service Fund and the Reserve Fund, and any subfund, account, or subaccount within the foregoing funds.

Section 14. **Priority Expenditure of Gross Revenues; Flow of Funds.** Gross Revenues shall be deposited as received in the Light Fund and used for the following purposes only, in the following order of priority:

(a) To pay the Operating and Maintenance Expense of the Light System;

(b) To make, when due, all payments into the Parity Bond Fund required to be made in order to pay the interest on and principal of all Parity Bonds, including all Parity Bond Sinking Fund Requirements, all net payments under Parity Payment Agreements, and to make all payments required to be made (if any) in respect of Parity Reimbursement Obligations;

(c) To make all payments required to be made (if any) into the Reserve Fund necessary to satisfy the Reserve Fund Requirement, to make all payments (if any) required to be made under subsection 15(c)(i)(B) of this ordinance into a special account within the Light Fund for the replacement of an Alternate Reserve Security as to which the City has received a notice of cancellation, and to pay any reimbursement obligations under any Alternate Reserve Security;

(d) To make all payments required to be made (if any) in respect of Intermediate Lien Reimbursement Obligations;

(e) To make all payments into the Junior Lien Debt Service Fund required to be made in order to pay the interest on and principal of all Junior Lien Bonds, including all net payments under Junior Lien Payment Agreements and all Junior Lien Reimbursement Obligations, when due;

(f) To make all required payments into any revenue bond redemption fund created to pay and secure the payment of the principal of and interest on any revenue bonds or short-term obligations of the City having a charge and lien upon Net Revenue subordinate to the lien thereon for the payment of the principal of and interest on the Parity Bonds and the Junior Lien Bonds; and

(g) Without priority, for any of the following purposes: to retire by redemption or purchase any outstanding revenue bonds or revenue obligations of the Light System; to make necessary additions, betterments, repairs, extensions, and replacements of the Light System; to pay City taxes or other payments in lieu of taxes payable from Gross Revenues; to make deposits to the Rate Stabilization Account; or for any other lawful Light System purpose.

Section 15. **Parity Bond Fund; Reserve Fund.** The special funds of the City known as the Parity

Bond Fund and the Reserve Fund have been previously created and shall be maintained as special funds for the sole purpose of paying the principal (including redemption premium, if any) of and interest on the Parity Bonds as the same shall become due. The Director of Finance may create subfunds, accounts, or subaccounts in the Parity Bond Fund and the Reserve Fund to pay or secure the payment of Parity Bonds as long as the maintenance of such subfunds, accounts, or subaccounts does not conflict with the rights of the owners of the Parity Bonds. Principal (including redemption premium, if any) of and interest on the Parity Bonds shall be payable solely out of the Parity Bond Fund.

(a) **Required Payments Into the Parity Bond Fund and Reserve Fund.** So long as any Parity Bonds (including any Parity Payment Agreements) are outstanding, the City shall set aside and pay out of Net Revenue certain fixed amounts, without regard to any fixed proportion, namely:

(i) Into the Parity Bond Fund, on or prior to the respective dates on which such payments shall become due and payable, an amount sufficient, together with other money on deposit therein, to pay the interest (including net payments due on Parity Payment Agreements) on and principal (including any Sinking Fund Requirements) of the Parity Bonds as the same shall become due; and

(ii) Into the Reserve Fund, an amount necessary to provide for the Reserve Fund Requirement within the time and manner required by this ordinance and the Bond Sale Terms.

To meet the required payments to be made into the Parity Bond Fund and the Reserve Fund, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except bond redemption funds, refunding escrow funds, or defeasance funds. The Director of Finance may provide for the purchase, redemption or defeasance of any Parity Bonds by the use of money on deposit in any subfund, account, or subaccount in the Parity Bond Fund or Reserve Fund, so long as the money remaining in those subfunds, accounts, or subaccounts is sufficient to satisfy the required deposits with respect to the remaining Parity Bonds.

(b) **Parity Bond Fund.** The Parity Bond Fund has been previously created for the sole purpose of

paying the principal of and interest on the Parity Bonds as the same shall become due. Each Series of the Bonds designated as Parity Bonds shall be payable (including principal, Sinking Fund Requirements, redemption premium (if any), and interest) out of the Parity Bond Fund. Money in the Parity Bond Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Parity Bond Fund shall be deposited in and used for the purposes of that fund.

(c) **Reserve Fund.** The Reserve Fund has been previously created for the purpose of securing the payment of the principal of and interest on all Parity Bonds (including all net payments due under any Parity Payment Agreements, if any). Money held in the Reserve Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Reserve Fund shall be deposited in that fund and credited against amounts required to be deposited therein until the Reserve Fund is fully funded, and thereafter such earnings shall be deposited in the Parity Bond Fund.

(i) **Reserve Fund Requirement.** The Bond Sale Terms for each Series of the Bonds shall establish the amount (if any) to be added to the aggregate Reserve Fund Requirement for such Series, and the method for providing for such incremental addition to the Reserve Fund deposit, subject to the following:

(A) In connection with the issuance of Future Parity Bonds, the City shall provide the amounts required for deposit into the Reserve Fund (1) at one time on the Issue Date, or (2) in periodic deposits of Net Revenue (or any other legally available source of funds), so that by five years from the date of such Future Parity Bonds there will have been paid into the Reserve Fund an amount that, together with the money already on deposit therein, will be at least equal to the Reserve Fund Requirement for the Parity Bonds scheduled to be outstanding at the end of that five-year period.

(B) The City may obtain one or more Alternate Reserve Securities for specific amounts required to be paid into the Reserve Fund. The amount available to be drawn upon under each such Alternate

Reserve Security shall be credited against the amounts needed to satisfy the Reserve Fund Requirement. In the event of receipt of any notice of cancellation of an Alternate Reserve Security, the City shall (and, in preparation for the expiration of any such Alternate Reserve Security in accordance with its terms, the City may) either: (1) obtain a substitute Alternate Reserve Security in the amount necessary to satisfy the Reserve Fund Requirement on the date any such cancellation (or expiration) becomes effective, or (2) create a special account in the Light Fund and deposit therein amounts necessary to replace the Alternate Reserve Security upon its expiration or cancellation. In the case of receipt of a notice of cancellation, such periodic deposits are to be made on or before the 25th day of each of the 60 calendar months succeeding receipt of such notice, in an amount equal to 1/60 of the amount necessary (together with other money and investments then on deposit in the Reserve Fund) to satisfy the expected Reserve Fund Requirement on the date such cancellation shall become effective, taking into account scheduled redemptions of Parity Bonds and disregarding any incremental additional amounts that may become necessary due to the issuance of Future Parity Bonds subsequent to the date of such notice of cancellation. Such amounts shall be transferred from Net Revenue available in the Light Fund after making provision for the required payments into the Parity Bond Fund, in accordance with Section 14 of this ordinance. Amounts on deposit in such special account are preliminarily earmarked for the replacement of such Alternate Reserve Security and shall not be available to pay debt service on Parity Bonds or for any other purpose of the City, and shall be transferred to the Reserve Fund on the effective date of any cancellation or expiration of the Alternate Reserve Security to make up the deficiency caused thereby. In the event that the Reserve Fund is completely depleted and all Alternate Reserve Securities have been fully drawn, the amounts in that special account may be withdrawn and treated as Gross Revenues available to be used in accordance with the flow of funds set forth in Section 14 of this ordinance. If and when a substitute Alternate Reserve Security having a sufficient value or policy limit is obtained, amounts held in that special account may be transferred back to the Light Fund and treated as Gross Revenues available to be used in accordance with the flow of funds set forth in Section 14 of this ordinance.

(C) If the amount on deposit in the Reserve Fund is less than the Reserve Fund Requirement (taking into account the five-year period referred to in paragraph (A) of this subsection), the City shall transfer to the Reserve Fund money in an amount sufficient to restore the Reserve Fund to the Reserve Fund Requirement within 12 months after the date of such deficiency. The City shall transfer such amount first from Net Revenue available in accordance with the priority of payment in Section 14 of this ordinance, and only thereafter from money in any construction fund or account established with respect to any issue of Parity Bonds, first taking money from the unrestricted portion thereof, then taking money from the restricted portion thereof. If the amount in the Reserve Fund is greater than the Reserve Fund Requirement, then and only then may the City withdraw such excess from the Reserve Fund and deposit such excess in the Light Fund.

(ii) **Use of Reserve Fund to Refund Parity Bonds.** If any Parity Bonds are to be refunded, the money set aside in the Reserve Fund to secure the payment of such Parity Bonds may be used to retire such Parity Bonds, or may be transferred to any reserve fund or account which may be created to secure the payment of any bonds issued to refund such Parity Bonds, as long as the money left remaining in the Reserve Fund is at least equal, together with all Alternate Reserve Securities, to the Reserve Fund Requirement.

(iii) **Use of Reserve Fund to Pay Debt Service.** If the money in the Parity Bond Fund is insufficient to meet maturing installments of either interest on or principal of and interest on the Parity Bonds (including net amounts payable under any Parity Payment Agreements), such deficiency shall be made up from the Reserve Fund by the withdrawal of money or proceeds of Alternate Reserve Securities, as the case may be. Any deficiency created in the Reserve Fund by reason of any such withdrawal or claim against an Alternate Reserve Security shall then be made up out of Net Revenue or out of any other legally available funds of the City.

(iv) **Withdrawals From Reserve Fund.** Money in the Reserve Fund may be withdrawn by the City for any lawful purpose as long as the aggregate of any money and Alternate Reserve Securities remaining on deposit in the Reserve Fund is at least equal to the Reserve Fund Requirement for the Parity Bonds then

outstanding. The City reserves the right to substitute one or more Alternate Reserve Securities for money previously deposited in the Reserve Fund and to withdraw such excess to the extent described in the preceding sentence. Any withdrawals from subaccounts within the Reserve Fund shall be made on a pro rata basis, except when the terms of an Alternate Reserve Security require all cash and investments in the Reserve Fund to be withdrawn before any draw or claim is made on the Alternate Reserve Security, or unless the City receives an opinion of Bond Counsel to the effect that such pro rata withdrawal is not required to maintain the federal tax benefits (if any) of any then outstanding Parity Bonds issued as Tax-Exempt Bonds or Tax Credit Subsidy Bonds. If multiple Alternate Reserve Securities are on deposit in the Reserve Fund, draws on such Alternate Reserve Securities shall be made on a pro rata basis.

Section 16. **Junior Lien Debt Service Fund.**

(a) **Use of Fund.** The Junior Lien Debt Service Fund has previously been created for the sole purpose of paying the principal (including redemption premium, if any) of and interest on the Junior Lien Bonds as the same shall become due. The Junior Lien Debt Service Fund shall consist of a Principal and Interest Account and such additional subfunds, accounts, or subaccounts as the Director of Finance may find it necessary or convenient to create in order to pay or secure the payment of Junior Lien Bonds, as long as the maintenance of such subfunds, accounts, or subaccounts does not conflict with the rights of the owners of the Junior Lien Bonds or the Parity Bonds.

Each Series of the Bonds designated as Junior Lien Bonds shall be payable (including principal, Sinking Fund Requirements, redemption premium (if any), and interest) out of the Junior Lien Debt Service Fund. Money in the Junior Lien Debt Service Fund shall, to the fullest extent practicable and reasonable, be invested and reinvested at the direction of the Director of Finance solely in, and obligations deposited in such accounts shall consist of, Permitted Investments. Earnings on money and investments in the Junior Lien Debt Service Fund shall be deposited in and used for the purposes of that fund.

(b) **Required Payments Into the Junior Lien Debt Service Fund.** So long as any Junior Lien Bonds

(including any Junior Lien Payment Agreements) are outstanding, the City shall set aside and pay out of Net Revenue certain fixed amounts, without regard to any fixed proportion, namely, into the Principal and Interest Account of the Junior Lien Debt Service Fund, on or prior to the respective dates on which such payments shall become due and payable, an amount sufficient, together with other money on deposit therein, to pay the interest on and the principal of the Junior Lien Bonds, including net payments due on Junior Lien Payment Agreements and all payments under Junior Lien Reimbursement Obligations, as the same shall become due. To meet the required payments to be made into the Junior Lien Debt Service Fund, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except the Parity Bond Fund, the Reserve Fund, other bond redemption funds, refunding escrow funds, or defeasance funds. The Director of Finance may provide for the purchase, redemption or defeasance of any Junior Lien Bonds by the use of money on deposit in any subfund, account, or subaccount in the Junior Lien Debt Service Fund, so long as the money remaining in those subfunds, accounts, or subaccounts is sufficient to satisfy the required deposits with respect to the remaining Junior Lien Bonds.

Section 17. **Bond Covenants.**

(a) **Parity Bond Covenants.** The City covenants with the Owner of each Bond that is designated as a Parity Bond, for so long as such Bond remains outstanding, as follows:

(i) **Sale or Disposition of the Light System.**

(A) The City may dispose of all or substantially all of the Light System only if the City simultaneously causes all of the Parity Bonds to be, or be deemed to be, no longer outstanding.

(B) Except as provided below, the City will not dispose of any part of the Light System in excess of 5% of the value of the net utility plant of the Light System in service unless prior to such disposition: (1) there has been filed with the Director of Finance a certificate of a Professional Utility Consultant stating that such disposition will not impair the ability of the City to comply with the rate covenant set forth in subsection 17(a)(ii) of this ordinance, in which the Professional Utility Consultant may make those

assumptions permitted in delivering a Parity Certificate under subsection 18(a) of this ordinance; or (2) provision is made for the payment, redemption or other retirement of a principal amount of Parity Bonds equal to the greater of the following amounts: (I) an amount which will be in the same proportion to the net principal amount of Parity Bonds then outstanding (defined as the total principal amount of Parity Bonds then outstanding less the amount of cash and investments in the Parity Bond Fund) that Gross Revenues for the twelve preceding months attributable to the part of the Light System being sold or disposed of bears to the total Gross Revenues for such period; or (II) an amount which will be in the same proportion to the net principal amount of Parity Bonds then outstanding that the book value of the part of the Light System being sold or disposed of bears to the book value of the entire Light System immediately prior to such sale or disposition.

(C) Notwithstanding the foregoing, the City may dispose of any portion of the Light System that has become unserviceable, inadequate, obsolete, worn out or unfit to be used, or no longer necessary for, material to, or useful in the operation of the Light System.

(D) If the ownership of all or part of the Light System is transferred from the City through the operation of law, the City shall reconstruct or replace the transferred portion using any proceeds of the transfer unless the City Council determines that such reconstruction or replacement is not in the best interests of the City and the Owners of the Parity Bonds, in which case any proceeds shall be used to purchase, defease, or redeem Parity Bonds prior to maturity.

(ii) **Rates and Charges.** The City will establish from time to time and maintain such rates for electric energy as will maintain the Light System in sound financial condition and provide sufficient revenues to pay all Operating and Maintenance Expense, to pay into the Parity Bond Fund the amounts that are required by this ordinance to be applied to the payment of the principal of and interest on the Parity Bonds until the Parity Bonds shall have been paid in full, and to pay all bonds, warrants, and indebtedness for which any revenues of the Light System shall have been pledged.

(iii) **Operation and Maintenance of the Light System.** The City will operate the properties of

the Light System in an efficient manner and at a reasonable cost; will maintain, preserve and keep, or cause to be maintained, preserved and kept, the properties of the Light System and every part and parcel thereof in good repair, working order and condition; and from time to time will make or cause to be made all necessary and proper repairs, renewals and replacements thereto so that at all times the business carried on in connection therewith will be properly and advantageously conducted.

(iv) **Books and Financial Statements.** The City will keep and maintain proper books of account for the Light System in accordance with generally accepted accounting principles applicable to governmental utilities; will generally adhere to the uniform system of accounts prescribed by the State Auditor's Office and the Federal Energy Regulatory Commission (if any); and will prepare, on or before 120 days after the end of each calendar year, *and, upon the Second Parity Covenant Date, on or before 180 days after the end of each calendar year*, annual financial statements showing reasonable detail, including a balance sheet, an income statement, and a statement of cash flows or other such statement. Copies of such financial statements shall be placed on file in the office of the Director of Finance and shall be open to inspection at any reasonable time by any owner of any Parity Bonds. A copy of such financial statements shall be sent to any owner of Parity Bonds upon request in writing setting forth the name and address to which such financial statements may be sent.

(b) **Junior Lien Bond Covenants.** The City covenants with the Owner of each Bond that is designated as a Junior Lien Bond, for so long as such Bond remains outstanding, as follows:

(i) **Sale or Disposition of the Light System.** The City may dispose of all or substantially all of the Light System only if the City simultaneously causes all of the Junior Lien Bonds to be, or be deemed to be, no longer outstanding. The City will not dispose of any part of the Light System in excess of 5% of the value of the net utility plant of the Light System in service except upon compliance with the covenant set forth in subsection 17(a)(i)(B) of this ordinance. Notwithstanding the foregoing, the City may dispose of any portion of the Light System that has become unserviceable, inadequate, obsolete, worn out or unfit to be used, or no

longer necessary, material to, or useful in the operation of the Light System.

(ii) **Rates and Charges.** The City will establish from time to time and maintain such rates for electric energy as will maintain the Light System in sound financial condition and provide sufficient revenues to pay all Operating and Maintenance Expense; to pay into the Parity Bond Fund the amounts that are required by this ordinance to be applied to the payment of the principal of and interest on the Parity Bonds until the Parity Bonds shall have been paid in full; to pay into the Junior Lien Debt Service Fund the amounts that are required by this ordinance to be paid into such fund, in accordance with the priority of payment set forth in Section 14 of this ordinance, until the Junior Lien Bonds (including Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations) shall have been paid in full; and to pay all other bonds, warrants, and indebtedness for which any revenues of the Light System shall have been pledged.

(iii) **Operation and Maintenance of the Light System.** The City will operate the properties of the Light System in an efficient manner and at a reasonable cost; will maintain, preserve and keep, or cause to be maintained, preserved and kept, the properties of the Light System and every part and parcel thereof in good repair, working order and condition; and from time to time will make or cause to be made all necessary and proper repairs, renewals, and replacements thereto so that at all times the business carried on in connection therewith will be properly and advantageously conducted.

(iv) **Books and Financial Statements.** The City will keep and maintain proper books of account for the Light System in accordance with generally accepted accounting principles applicable to governmental utilities; will generally adhere to the uniform system of accounts prescribed by the State Auditor's Office and the Federal Energy Regulatory Commission (if any); and will prepare, on or before 180 days after the end of each calendar year, annual financial statements showing reasonable detail, including a balance sheet, an income statement, and a statement of cash flows or other such statement. Copies of such financial statements shall be placed on file in the office of the Director of Finance and shall be open to inspection at any reasonable time by any owner of any Junior Lien Bonds. A copy of such financial statements

shall be sent to any owner of Junior Lien Bonds upon request in writing setting forth the name and address to which such financial statements may be sent.

Section 18. **Additional Bonds**

(a) **Future Parity Bonds.** The City reserves the right to issue Future Parity Bonds (which term includes Parity Payment Agreements) for any lawful purpose of the City's Light System if the Parity Conditions are met and complied with as of the date of issuance of such Future Parity Bonds, or as of the effective date of the Parity Payment Agreement, as appropriate.

If the Parity Conditions are met and complied with, then payments into the Parity Bond Fund with respect to such Future Parity Bonds shall rank equally with the payments out of Net Revenue required to be made into the Parity Bond Fund by this ordinance. Nothing set forth herein shall prevent the City from (i) issuing revenue bonds or other obligations that are a charge upon Net Revenue junior and inferior to the payments required to be made therefrom into the Parity Bond Fund for the payment of the Parity Bonds, provided that such subordinate bonds may not be subject to acceleration under any circumstances; or (ii) issuing Refunding Parity Bonds to refund maturing Parity Bonds of the City for the payment of which money is not otherwise available.

(i) **Parity Conditions.** The Parity Conditions are as follows:

(A) No deficiency may then exist in the Parity Bond Fund or in any of the accounts therein; and

(B) Provision must be made to satisfy the Reserve Fund Requirement for all Parity Bonds then outstanding plus any additional amount required in connection with the issuance and sale of the proposed Future Parity Bonds (if any) in accordance with subsection 15(c) of this ordinance; and

(C) There must be on file with the City a Parity Certificate as described in subsection (a) (ii). If the proposed Future Parity Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Parity Bonds and the Annual Debt Service on the refunding portion of the proposed Future Parity

Bonds is not more than \$5,000 greater than the Annual Debt Service on the Parity Bonds to be refunded thereby, then no Parity Certificate shall be required as to that portion issued for refunding purposes. If the requirements of the preceding sentence are not satisfied, Refunding Parity Bonds may alternatively be issued upon delivery of a Parity Certificate.

(ii) **Parity Certificate.** A Parity Certificate required by subsection (a)(i) may be provided by either the Director of Finance or by a Professional Utility Consultant, as follows:

(A) A Parity Certificate may be prepared by the Director of Finance, demonstrating that the amount of Adjusted Net Revenue in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed series of Future Parity Bonds (the “Base Period”) was not less than 125 percent of Maximum Annual Debt Service in any future calendar year on all Parity Bonds then outstanding and the proposed series of Future Parity Bonds. For the purposes of a Parity Certificate delivered under this subsection (A), the Director of Finance shall reflect in that certificate any adjustment in the rates, fees, and charges for the services of the Light System that will become effective at any time prior to or within six months after the delivery of the proposed Future Parity Bonds, by including in the amount of Adjusted Net Revenue the amount that the Director estimates would have been collected in the Base Period if such new rates, fees, and charges had been in effect for the entire Base Period.

(B) A Parity Certificate may be prepared by a Professional Utility Consultant, demonstrating that the amount of Adjusted Net Revenue (which may be further adjusted as provided in paragraphs (a)(ii)(B)(1) through (5)) in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Series of Future Parity Bonds (the “Base Period”) is not less than 125% of the amount of Maximum Annual Debt Service on all Parity Bonds and the proposed series of Future Parity Bonds in any future calendar year on all Parity Bonds then outstanding and the proposed series of Parity Bonds. For the purposes of a certificate delivered under this subsection (a)(ii), Adjusted Net Revenue may be further adjusted by the Professional Utility Consultant using any or all of the following methods reflecting the

conditions and requirements as may be appropriate to the circumstances:

(1) If the purpose for which the proposed Future Parity Bonds are being issued is to acquire operating electric utility properties having an earnings record, the Professional Utility Consultant shall estimate the effect on Adjusted Net Revenue for the Base Period of the acquisition of such electric utility properties and the integration thereof into the Light System, and shall further adjust Adjusted Net Revenue for the Base Period to give effect to such estimate. Any such estimate shall be based upon the operating experience and records of the City and upon any available financial statements and records relating to the earnings of such electric utility properties to be acquired.

(2) If any changes to rates, fees, or charges imposed by the City on sales of power, energy, or other services furnished by the Light System, which were not in effect during the entire Base Period, have been adopted by the City Council and are in effect on the date of sale of the proposed Future Parity Bonds (or effective date of the proposed Parity Payment Agreement) or are to go into effect not later than 12 months after such date, the Professional Utility Consultant may, if such changes resulted in increases in such rates, fees, or charges, and shall, if such changes resulted in reductions in such rates, fees, or charges, further adjust Adjusted Net Revenue for the Base Period to reflect any change in such Adjusted Net Revenue that would have occurred if the changed rates, fees, or charges had been in effect during the entire Base Period.

(3) If the purpose for which the proposed Future Parity Bonds are being issued is to acquire or construct generation or transmission facilities required to furnish or make available to the Light System additional power and energy, or transmission facilities required to enable the City to sell additional power and energy, the Professional Utility Consultant may further adjust Adjusted Net Revenue for the Base Period by (I) deducting the amount of the estimated increase in Operating and Maintenance Expense resulting from the acquisition or construction of such facilities in their first year of full operation, (II) adding any additional revenues to be derived from the sale or transmission of such additional power and energy pursuant to executed power sales contracts, and (III) adding an amount equal to the estimated cost of the power and energy

that would have been replaced or displaced by such facilities had such additional power and energy in excess of the power and energy to be sold pursuant to paragraph (a)(ii)(B)(2), been used in the Light System during the Base Period.

(4) If any customers were added to the Light System during the Base Period or thereafter (and prior to the date of the Professional Utility Consultant's certificate), Adjusted Net Revenue may be further adjusted as if such added customers were customers of the Light System during the entire Base Period.

(5) If extensions of or additions to the Light System (not described in paragraph (a)(ii)(B)(3)) are in the process of construction on the date of the Professional Utility Consultant's certificate, or if the proceeds of the proposed Future Parity Bonds are to be used to acquire or construct extensions of or additions to the Light System (not described in paragraph (a)(ii)(B)(3)), Adjusted Net Revenue for the Base Period may be further adjusted by adding any additional revenues not included in the preceding paragraphs that will be derived from such additions and extensions, and deducting the estimated increase in Operating and Maintenance Expense resulting from such additions and extensions.

In rendering any Parity Certificate under this subsection (a)(ii)(B), the Professional Utility Consultant may rely upon the following documents, which shall be attached to the Parity Certificate: financial statements of the Light System, certified by the Director of Finance, showing income and expenses for the period upon which the same are based and a balance sheet as of the end of such period; financial statements certified by the Office of the State Auditor of the State (or any successor thereto); or financial statements certified by a certified public accountant for as much of such period as any examination by such accountant has been made and completed. If two or more of such statements are inconsistent with each other, the Professional Utility Consultant shall rely on the statements certified by the Director of Finance.

(b) Future Junior Lien Bonds. The City reserves the right to issue Future Junior Lien Bonds (which term includes Junior Lien Payment Agreements and Junior Lien Reimbursement Obligations) for any lawful

purpose of the City's Light System if the Junior Lien Additional Bonds Test is met and complied with as of the date of issuance of such Future Junior Lien Bonds, or as of the effective date of the Junior Lien Payment Agreement or Junior Lien Reimbursement Obligation, as appropriate.

If the Junior Lien Additional Bonds Test is met and complied with, then payments into the Junior Lien Debt Service Fund with respect to such Future Junior Lien Bonds shall rank equally with the payments out of Net Revenue required to be made into the Junior Lien Debt Service Fund by this ordinance. Nothing set forth of this ordinance shall prevent the City from (i) issuing revenue bonds or other obligations that are a charge upon Net Revenue junior and inferior to the payments required to be made therefrom into the Junior Lien Debt Service Fund for the payment of the Junior Lien Bonds, provided that such subordinate bonds may not be subject to acceleration under any circumstances; or (ii) issuing Refunding Junior Lien Bonds for the purpose of refunding outstanding Junior Lien Bonds to fund or refund maturing Junior Lien Bonds of the City for the payment of which money is not otherwise available.

(i) Junior Lien Additional Bonds Test. The Junior Lien Additional Bonds Test is as follows:

(A) No deficiency may then exist in the Junior Lien Debt Service Fund or in any of the accounts therein; and

(B) No default may have occurred that is then continuing with respect to any then outstanding Parity Bonds or Junior Lien Bonds; and

(C) There must be on file with the City a Junior Lien Coverage Certificate as described in subsection (b)(ii). If the proposed Future Junior Lien Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Junior Lien Bonds and the Annual Debt Service on the refunding portion of the proposed Future Junior Lien Bonds is not more than \$5,000 greater than the Annual Debt Service on the Junior Lien Bonds to be refunded thereby, then no Junior Lien Coverage Certificate shall be required as to that portion issued for refunding purposes. If the requirements of the preceding sentence are not satisfied, Refunding Junior Lien Bonds may alternatively be issued upon delivery of a Junior Lien Coverage Certificate.

(ii) **Junior Lien Coverage Certificate.** A Junior Lien Coverage Certificate required by subsection (b)(i) may be provided by either the Director of Finance or by a Professional Utility Consultant, as follows:

(A) A Junior Lien Coverage Certificate may be prepared by the Director of Finance, demonstrating that the amount of Adjusted Net Revenue in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Series of Future Junior Lien Bonds (the “Base Period”) was not less than 115 percent of Maximum Annual Debt Service in any future calendar year on all Parity Bonds, Intermediate Lien Reimbursement Obligations (if any), and Junior Lien Bonds then outstanding plus the proposed Series of Future Junior Lien Bonds. For the purposes of a Junior Lien Coverage Certificate delivered under this subsection (A), the Director of Finance shall reflect in their certificate any adjustment in the rates, fees, and charges for the services of the Light System that will become effective at any time prior to or within six months after the delivery of the proposed Future Junior Lien Bonds, by including in the amount of Adjusted Net Revenue the amount that he or she estimates would have been collected in the Base Period if such new rates, fees, and charges had been in effect for the entire Base Period.

(B) A Junior Lien Coverage Certificate may be prepared by a Professional Utility Consultant, demonstrating that the amount of Adjusted Net Revenue (which may be further adjusted as provided in subsection (a)(ii)(B)(1) through (5)) in any 12 consecutive months out of the most recent 24 months preceding the delivery of the proposed Series of Future Junior Lien Bonds (the “Base Period”) not less than 115 percent of Maximum Annual Debt Service in any future calendar year on all Parity Bonds and Junior Lien Bonds then outstanding plus the proposed Series of Future Junior Lien Bonds.

Section 19. **Rate Stabilization Account.** The City may at any time deposit in the Rate Stabilization Account Net Revenue and any other money received by the Light System and available to be used therefor. Thereafter, the City may withdraw any or all of the money from the Rate Stabilization Account for inclusion in Adjusted Net Revenue for any applicable year of the City. Such deposits or withdrawals may be made up to and

including the date 90 days after the end of the applicable year for which the deposit or withdrawal will be included as Adjusted Net Revenue.

Section 20. **Refunding or Defeasance of Bonds.**

(a) **Bonds Designated as Refundable and Defeasible Bonds.** Each Series of the Bonds is designated as a Series of “Refundable Bonds” or “Defeasible Bonds” for purposes of the Omnibus Refunding Ordinance and the Omnibus Defeasance Ordinance.

(b) **Refunding; Defeasance.** The City may issue refunding bonds pursuant to the laws of the State or use money available from any other lawful source (i) to pay when due the principal (including redemption premium, if any) of and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in Net Revenue and the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal or redemption price of and interest on the Defeased Bonds from the Trust Account. After establishing and fully funding such a Trust Account, the Defeased Bonds shall be deemed no longer outstanding and the Director of Finance may then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the applicable Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding

or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

(d) **Annual Debt Service Calculation Adjustments for Defeased Bonds.** If the refunding or defeasance plan provides (i) that the Defeased Bonds (or the refunding bonds issued to redeem those Defeased Bonds) are to be secured by money and/or Government Obligations pending the redemption of the Defeased Bonds, and (ii) that certain money and/or Government Obligations are pledged irrevocably for the redemption of the Defeased Bonds, then only the debt service on such Bonds as are not Defeased Bonds (and any refunding bonds, the payment of which is not so secured by the refunding plan) shall be included in the calculation of Annual Debt Service.

Section 21. **Federal Tax Matters.** The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions, consistent with the terms of such Series as set forth in this ordinance and the applicable Bond Documents, that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it will neither take any action nor make or permit any use of gross proceeds of that Series (or other funds of the City treated as gross proceeds of that Series) at any time during the term of such Series that will cause interest on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Series from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the City, all as the Director may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreement may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Series otherwise becomes and remains eligible for tax benefits under the Code.

Section 22. **Official Statement; Continuing Disclosure**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12. The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that has been deemed final in accordance with this subsection.

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each sale of one or more Series to be sold to the public in the form of the preliminary official statement, with such additions, modifications and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director of Finance to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of

Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached of this ordinance as Exhibit B.

Section 23. **Supplemental or Amendatory Bond Documents**. This ordinance and the other applicable Bond Documents for any Series of the Bonds may not be supplemented or amended in any respect subsequent to the Issue Date of such Series, except in accordance with and subject to the provisions of this section.

(a) **Amendments Without Bond Owners' Consent**. From time to time and at any time, without the consent of or notice to the owners of any Parity Bonds or Junior Lien Bonds, the City may supplement or amend the Bond Documents applicable to any Series of the Bonds for any of the purposes set forth in this subsection (a). Any such supplement or amendment may be passed, adopted, or otherwise approved in writing by the City, without requiring the consent of the registered owners of any Parity Bonds or Junior Lien Bonds, but may become effective only upon receipt by the City of an opinion of Bond Counsel to the effect that such supplement or amendment is permitted by the terms of this ordinance. The City shall deliver a copy of any such supplement or amendment to each Rating Agency prior to its passage, adoption, or approval (as applicable) by the City. The types of supplements and amendments permitted under this subsection (a) are as follows:

(i) To add to any Parity Bond Documents (or to any Junior Lien Bond Documents, as applicable) additional covenants and agreements that do not adversely affect the interests of the owners of any Parity Bonds (or, as to Junior Lien Bond Documents, the interests of the owners of any Junior Lien Bonds) then outstanding, or to surrender any right or power reserved to or conferred upon the City in any Bond Documents.

(ii) To cure any ambiguities or to cure, correct, or supplement any defective provision in any Bond Documents, in regard to matters or questions arising under such Bond Documents, as the City may deem necessary or desirable and not inconsistent with this ordinance, and which do not materially adversely affect the interests of the owners of any Parity Bonds or Junior Lien Bonds then outstanding.

(iii) To make such changes as may be necessary to permit the Bonds to be held in registered

certificate form or in Book-Entry Form, as the case may be, and to make similar amendments or modifications of a technical nature.

(b) Amendments Permitted Upon Bond Owners' Consent.

(i) **Parity Bond Documents.** With the consent of the registered owners representing not less than 60% in aggregate principal amount of the Parity Bonds then outstanding, the City may pass, adopt, or otherwise provide its written approval of any supplement or amendment to add to, change, or eliminate any provision of the Bond Documents applicable to a Series of the Bonds designated as Parity Bonds in any manner other than a supplement or amendment effecting a change described in subsection (c)(i).

(ii) **Junior Lien Bond Documents.** With the consent of the registered owners representing not less than 60% in aggregate principal amount of the Junior Lien Bonds then outstanding, the City may pass, adopt, or otherwise approve in writing any supplement or amendment to add to, change, or eliminate any provision of the Bond Documents applicable to a Series of the Bonds designated as Junior Lien Bonds in any manner other than a supplement or amendment effecting a change described in subsection (c)(ii).

(c) Amendments Prohibited Except Upon Unanimous Consent.

(i) **Amendments to Parity Bond Documents.** Nothing contained in this section shall permit or be construed as permitting an amendment or supplement that would:

(A) Except upon consent from the registered owners of or on behalf of all Parity Bonds so affected, extend the fixed maturity of any Parity Bond, reduce the rate of interest on any Parity Bond (other than a change in interest rate permitted under the applicable Parity Bond Documents then in effect), extend the times of payment of interest from their respective due dates, reduce the principal amount of any Parity Bond, or reduce any redemption premium; or

(B) Except upon consent from the registered owners of or on behalf of all of the Parity Bonds then outstanding, reduce the percentage of ownership required under subsection (b)(i) to approve any supplement or amendment.

(ii) **Amendments to Junior Lien Bond Documents.** Nothing contained in this section shall permit or be construed as permitting an amendment or supplement that would:

(A) Except upon consent from the registered owners of or on behalf of all Junior Lien Bonds so affected, extend the fixed maturity of any Junior Lien Bond, reduce the rate of interest on any Junior Lien Bond (other than a change in interest rate permitted under the applicable Junior Lien Bond Documents then in effect), extend the times of payment of interest from their respective due dates, reduce the principal amount of any Junior Lien Bond, or reduce any redemption premium; or

(B) Except upon consent from the registered owners of or on behalf of all of the Junior Lien Bonds then outstanding, reduce the percentage of ownership required under subsection (b)(ii) to approve any supplement or amendment.

(d) **Notice and Consents.** If at any time the City passes, adopts, or otherwise approves in writing a supplement or amendment for any of the purposes requiring consent under subsection (b) or (c), it shall provide a notice to each registered owner and to each Rating Agency briefly summarizing the nature of the proposed supplement or amendment and stating that a copy of such supplement or amendment is on file at the office of the City Clerk. It shall not be necessary to obtain consent to or approval of the particular form of any proposed supplement or amendment, but it shall be sufficient if the consent shall approve the substance thereof. For purposes of determining whether consents representing the requisite percentage of principal amount of Parity Bonds or Junior Lien Bonds have been obtained, the Accreted Value of Capital Appreciation Bonds shall be deemed to be the principal amount.

(e) **Effect of Amendment or Supplement.** Upon the effective date of any amendment or supplement to any Bond Documents, such Bond Documents shall be deemed to be amended and modified in accordance with such amendment or supplement. Thereafter, the respective rights, duties, and obligations of the City under the applicable Bond Documents shall be determined, exercised, and enforced subject in all respects to such supplement or amendments, and all the terms and conditions of any such supplement or amendment shall be

deemed to be a part of the terms and conditions of those Bond Documents for any and all purposes. The effective dates of such amendments and supplements shall be as follows:

(i) An amendment and supplement permitted under subsection (a) shall become effective immediately upon (A) the passage, adoption, or other approval of such amendment or supplement (or upon the effective date of such document as stated therein, if any), and (B) the delivery of the required opinion of Bond Counsel stating that such amendment or supplement is permitted under this ordinance.

(ii) A supplement or amendment permitted under subsection (b) or (c) shall become effective on the date on which the City has received the written consents of the requisite percentage of registered owners. If the requisite percentage of registered owners of Parity Bonds or Junior Lien Bonds, as applicable, have given their consent to any such amendment or supplement, no owner of any Bond shall have any right (i) to object to the passage, adoption, or approval of such supplement or amendment, (ii) to object to any of the terms and provisions contained therein or the operation thereof, (iii) in any manner to question the propriety of the passage, adoption, or approval thereof, (iv) to enjoin or restrain the City, or any authorized official thereof, from passing, adopting, or otherwise approving the same, or (v) to enjoin or restrain the City, any authorized official thereof, or the Bond Registrar from taking any action pursuant to the provisions thereof.

(f) **Notation on Bonds.** Any Bonds executed and delivered after the effective date of any amendment or supplement that is passed, adopted, or otherwise approved in writing pursuant to this section may include a notation as to any matter provided for in such amendment or supplement. The City may, in its discretion, prepare and deliver replacement bonds, modified to reflect any such amendment or supplement, to the registered owner(s) thereof upon surrender of the original bonds for cancellation.

Section 24. **Defaults and Remedies**

(a) **Parity Bond Events of Default.** Each of the following shall constitute an Event of Default with respect to the Bonds designated as Parity Bonds, except as set forth in subsection (c):

(i) If a default is made in the payment of the principal (including Sinking Fund Requirements

and any redemption premium thereon, if any) of or interest on any Parity Bond when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the Parity Bond covenants, conditions, or agreements on the part of the City set forth in this ordinance or the applicable Parity Bond Documents (except as otherwise provided herein or in such Parity Bond Documents) and such default or defaults shall have continued for a period of six months (the “cure period”) after the City shall have received from the registered owners of not less than 25% in principal amount of the Parity Bonds then outstanding (or from a Bond Owners’ Trustee duly appointed as set forth in subsection (e)) a written notice specifying and demanding the cure of such default. However, if such default is one that cannot be completely remedied within the cure period, it shall not be an Event of Default with respect to the Parity Bonds, so long as the City has taken active steps within the cure period to remedy the default and is diligently pursuing such remedy.

(b) **Junior Lien Bond Events of Default.** Each of the following shall constitute an Event of Default with respect to the Bonds designated as Junior Lien Bonds, except as set forth in subsection (c) of this section:

(i) If a default is made in the payment of the principal (including Sinking Fund Requirements and any redemption premium thereon, if any) of or interest on any Junior Lien Bond when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the Junior Lien Bond covenants, conditions, or agreements on the part of the City set forth in this ordinance or the applicable Junior Lien Bond Documents (except as otherwise provided of this ordinance or in such Junior Lien Bond Documents) and such default or defaults shall have continued for a period of six months (the “cure period”) after the City shall have received from the registered owners of not less than 25% in principal amount of the Junior Lien Bonds then outstanding (or from a Bond Owners’ Trustee duly appointed as set forth in subsection (e), below) a written notice specifying and demanding the cure of such default. However, if such default is one which cannot be completely remedied within the cure period, it shall not be an Event of Default with respect to the Bonds as

long as the City has taken active steps within the cure period to remedy the default and is diligently pursuing such remedy.

(c) **Exceptions.** Notwithstanding anything in this section to the contrary, the failure of the City or any obligated person to comply with a Continuing Disclosure Agreement shall not constitute an Event of Default, and the sole remedy of any holder of any Parity Bond or Junior Lien Bond, as applicable, shall be to seek an order of specific performance from an appropriate court to compel the City to comply with the Continuing Disclosure Agreement. For purposes of determining whether an Event of Default has occurred and is continuing with respect to the rate covenant set forth in subsection 17(a)(ii) or 17(b)(ii) of this ordinance, if such covenant is met for any fiscal year, it shall be deemed to have been met for all prior fiscal years.

(d) **Remedies; No Acceleration.** In the case of a Parity Bond Event of Default, an owner of a Parity Bond shall have the remedies set forth in Section 10 of this ordinance and in the applicable Parity Bond Documents. *Upon the Second Parity Covenant Date, the rights and remedies of the owners from time to time of Parity Bonds shall be limited by subsection (e), below.* In the case of a Junior Lien Bond Event of Default, the owner of a Junior Lien Bond shall have the remedies set forth in Section 10 of this ordinance and in the applicable Junior Lien Bond Documents, as limited by subsection (e), below. Nothing contained in this ordinance shall, in any event or under any circumstance, be deemed to authorize the acceleration of the maturity of principal on the Bonds, and the remedy of acceleration is expressly denied to the registered owners of the Bonds under any circumstances including, without limitation, upon the occurrence and continuance of an Event of Default.

(e) **Bond Owners' Trustee.** *The provisions of this subsection (e) shall become effective with respect to Parity Bonds only upon the Second Parity Covenant Date.* The provisions of this subsection shall become effective immediately with respect to Bonds issued as Junior Lien Bonds. A Bond Owners' Trustee appointed in the manner provided in this section, and each successor thereto, is declared to be a trustee for all of the owners of the Parity Bonds (in the case of a Parity Bond Event of Default) or the owners of the Junior Lien Bonds (in

the case of a Junior Lien Bond Event of Default), as applicable, and is empowered to exercise all the rights and powers herein conferred on the Bond Owners' Trustee.

(i) **Appointment of Bond Owners' Trustee; Removal.** Upon the occurrence and continuance of an Event of Default described in subsection (a), the registered owners of 25 percent in principal amount of the then outstanding Parity Bonds (or upon the occurrence and continuance of an Event of Default described in subsection (b), the registered owners of 25 percent in principal amount of the then outstanding Junior Lien Bonds, if such default is one described in subsection (b) of this section) may appoint a Bond Owners' Trustee by an instrument or concurrent instruments in writing signed by such registered owners (or by their duly authorized attorneys-in-fact) and delivered to such Bond Owners' Trustee, with notification of such appointment given to the City. That appointment shall become effective immediately upon acceptance thereof by the Bond Owners' Trustee. The entity acting as Bond Owners' Trustee may be removed at any time, and a successor Bond Owners' Trustee may be appointed, by the registered owners of more than 50% in principal amount of the Parity Bonds (in the case of a Parity Bond Event of Default) or 50% in principal amount of the Junior Lien Bonds (in the case of a Junior Lien Bond Event of Default), as applicable, by an instrument or concurrent instruments in writing signed and acknowledged by such registered owners or by their duly authorized attorneys-in-fact.

(ii) **Cure of Event of Default.** If the Bond Owners' Trustee furnishes to the City a certificate stating that, in its sole judgment, an Event of Default that has occurred has been cured, such Event of Default shall be conclusively deemed to be cured, and the City, the Bond Owners' Trustee, and the registered owners of the Parity Bonds or Junior Lien Bonds, as applicable, shall be restored to the same rights and position which they would have held if no Event of Default had occurred.

(iii) **Suits at Law or in Equity.** Upon the occurrence of an Event of Default and during the continuance thereof, the Bond Owners' Trustee in its discretion may (and, upon the written request of the registered owners of not less than 25% in principal amount of the Parity Bonds (or Junior Lien Bonds, as

applicable) then outstanding, shall) take such steps and institute such suits, actions, or other proceedings, all as it may deem appropriate for the protection and enforcement of the rights of the registered owners of the Parity Bonds (or Junior Lien Bonds, as applicable), to collect any amounts due and owing to or from the City, or to obtain other appropriate relief, and may enforce the specific performance of any covenant, agreement or condition contained in this ordinance or set forth in any of the applicable Bond Documents.

Any action, suit or other proceedings instituted by the Bond Owners' Trustee hereunder shall be brought in its name as the Bond Owners' Trustee and all such rights of action upon or under any of the Parity Bonds or the provisions of this ordinance may be enforced by the Bond Owners' Trustee without the possession of any of those Parity Bonds and without the production of the same at any trial or proceedings relative thereto except where otherwise required by law.

(iv) Effect of Appointment of Bond Owners' Trustee. Any suit, action, or proceeding instituted by the Bond Owners' Trustee shall be brought for the ratable benefit of all of the owners of the Parity Bonds (or Junior Lien Bonds, as applicable), subject to the provisions of this ordinance. The respective owners, by taking and holding the same, shall be conclusively deemed irrevocably to appoint the Bond Owners' Trustee the true and lawful trustee of the respective owners, with authority to institute any such action, suit or proceeding; to receive as trustee and deposit in trust any sums becoming distributable on account of those Parity Bonds; to execute any paper or documents for the receipt of money; and to do all acts with respect thereto that the owner himself or herself might have done in person. Nothing herein shall be deemed to authorize or empower the Bond Owners' Trustee to consent to accept or adopt, on behalf of any owner of the Parity Bonds, any plan of reorganization or adjustment affecting the Parity Bonds (or Junior Lien Bonds, as applicable) or any right of any registered owner thereof, or to authorize or empower the Bond Owners' Trustee to vote the claims of the registered owners thereof in any receivership, insolvency, liquidation, bankruptcy, reorganization or other proceeding to which the City is a party.

(v) Bond Owners' Direction of Proceedings. By an instrument or concurrent instruments in

writing executed and delivered to the Bond Owners' Trustee, the owners of more than 50% in aggregate principal amount of the Parity Bonds (or Junior Lien Bonds, as applicable) then outstanding shall be entitled to control and direct the enforcement of all rights and remedies granted to the owners (or the Bond Owners' Trustee for the benefit of the owners) under the applicable Parity Bond Documents. Notwithstanding the foregoing, the Bond Owners' Trustee shall have the right to decline to follow any such direction which in the opinion of the Bond Owners' Trustee, in reasonable reliance on advice of counsel, would be unjustly prejudicial to owners not parties to such direction.

(vi) Limitation on Remedies; Limitations on Individual Actions. It is understood and intended that no owner of a Parity Bond, in the case of a Parity Bond Event of Default (or owner of a Junior Lien Bond, in the case of a Junior Lien Bond Event of Default) shall have any right in any manner whatever by its action to affect, disturb, or prejudice the security pledged in this ordinance or the rights of any other owners, or to enforce any right under the applicable Bond Documents or applicable law except in the manner provided in this section, and that all proceedings at law or in equity to enforce any such right shall be instituted, had, and maintained in the manner herein provided and for the equal and ratable benefit and protection of all owners of the Parity Bonds (or Junior Lien Bonds, as applicable), subject to the provisions of this ordinance.

(vii) Limitations on Individual Actions. No owner of a Parity Bond (or Junior Lien Bond, as applicable) shall have any right to institute any action, suit or proceeding at law or in equity for the enforcement of same unless (A) such owner previously shall have given to the Bond Owners' Trustee written notice of the occurrence of an Event of Default; (B) the owners of more than 50% in aggregate principal amount of the then outstanding Parity Bonds (in the case of a Parity Bond Event of Default) or 50% in aggregate principal amount of the then outstanding Junior Lien Bonds (in the case of a Junior Lien Bond Event of Default) shall have made a written request to the Bond Owners' Trustee to exercise the powers granted above or to institute such suit, action, or proceeding in its own name; (C) such owners shall have tendered to the Bond Owners' Trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request;

and (D) the Bond Owners' Trustee shall have refused or omitted to comply with such request for a period of 60 days after such written request shall have been received by, and said tender of indemnity shall have been made to, the Bond Owners' Trustee. The conditions set forth in (A) through (D) in the preceding sentence are hereby declared to be conditions precedent to the exercise by any owner of a Parity Bond (in the case of a Parity Bond Event of Default) or owner of a Junior Lien Bond (in the case of a Junior Lien Bond Event of Default) of any remedy under the applicable Bond Documents or under applicable law.

(viii) **Duties and Obligations of Bond Owners' Trustee.** The Bond Owners' Trustee shall not be liable except for the performance of such duties as are specifically set forth in this ordinance. During any period in which an Event of Default has occurred and is continuing as to the Parity Bonds (or the Junior Lien Bonds, as applicable) the Bond Owners' Trustee shall exercise such of the rights and powers vested in it by this ordinance, and shall use the same degree of care and skill in its exercise, as a prudent person would exercise or use under the circumstances in the conduct of that person's own affairs. The Bond Owners' Trustee shall have no liability for any act or omission to act hereunder except for the Bond Owners' Trustee's own negligent action, its own negligent failure to act or its own willful misconduct. The duties and obligations of the Bond Owners' Trustee shall be determined solely by the express provisions of this ordinance, and no implied powers, duties or obligations of the Bond Owners' Trustee shall be read into this ordinance. The Bond Owners' Trustee shall not be required to expend or risk its own funds or otherwise incur individual liability in the performance of any of its duties or in the exercise of any of its rights or powers as the Bond Owners' Trustee, except as may result from its own negligent action, its own negligent failure to act or its own willful misconduct. The fees and expenses of the Bond Owners' Trustee shall be borne by the owners of the Parity Bonds (or Junior Lien Bonds, as applicable) and not by the City. A Bond Owners' Trustee may require such security and indemnity as may be reasonable against the costs, expenses and liabilities that may be incurred in the performance of its duties. The Bond Owners' Trustee shall not be bound to recognize any person as a registered owner of any Parity Bond (or Junior Lien Bond, as applicable) until their title thereto, if disputed, has been established to its reasonable

satisfaction. The Bond Owners' Trustee may consult with counsel, and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance with the opinion of such counsel. The Bond Owners' Trustee shall not be answerable for any neglect or default of any person, firm or corporation employed and selected by it with reasonable care.

Section 25. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City are each authorized and directed to do everything as in the judgment of such officer may be necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

(a) The Director of Finance, in the Director's discretion and without further action by the City Council, (i) may issue requests for proposals to provide underwriting services or financing facilities (including, without limitation, Qualified Insurance, a Qualified Letter of Credit, or other credit support or liquidity facility) and may execute engagement letters and other agreements with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests; (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; (iii) may take any and all actions necessary or convenient to provide for the conversion of interest rate modes for any Series in accordance with the applicable Bond Documents; and (iv) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and the Director of Finance are each separately authorized to execute and deliver (i) any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is

necessary or to which the City is a party (including but not limited to agreements with escrow agents, refunding or defeasance trustees, liquidity or credit support providers, providers of Qualified Insurance or Alternate Reserve Securities, remarketing agents, underwriters, lenders or other financial institutions, fiscal or paying agents, Qualified Counterparties, custodians, and the Bond Registrar); and (ii) such other contracts or documents incidental to the issuance and sale of any Series of the Bonds; the establishment of the interest rate or rates on a Bond; or the conversion, tender, purchase, remarketing, or redemption of a Bond, as may in the judgment of the Mayor or Director of Finance, as applicable, be necessary or appropriate.

Section 26. **Severability**. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 27. **Ratification of Prior Acts**. Any action consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 28. **Section Headings**. Section headings in this ordinance are nonsubstantive.

Section 29. **Effective Date**. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

EXHIBIT B

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”) makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Municipal Light and Power Revenue Bonds, [Year] [Series] (the “Bonds”), for the sole purpose of assisting the underwriter for the Bonds in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data regarding the Municipal Light and Power System (the “Light System”) of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB) or other material notices

1 or determinations with respect to the tax status of the Bonds, or other material events affecting the tax
2 status of the Bonds; (7) modifications to rights of holders of the Bonds, if material; (8) Bond calls
3 (other than scheduled mandatory redemptions of Term Bonds), if material, and tender offers;
4 (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if
5 material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the City, as
6 such “Bankruptcy Events” are defined in the Rule; (13) the consummation of a merger, consolidation,
7 or acquisition involving the City or the sale of all or substantially all of the assets of the City other than
8 in the ordinary course of business, the entry into a definitive agreement to undertake such an action or
9 the termination of a definitive agreement relating to any such actions, other than pursuant to its terms,
10 if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if
11 material; (15) incurrence of a financial obligation of the City, if material, or agreement to covenants,
12 events of default, remedies, priority rights, or other similar terms of a financial obligation of the City,
13 any of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
14 termination event, modification of terms, or other similar event under the terms of a financial obligation
15 of the City, any of which reflect financial difficulties.

16 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
17 obligation; derivative instrument entered into in connection with, or pledged as security or a source of
18 payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation or a
19 derivative instrument entered into in connection with, or pledged as security or a source of payment
20 for, an existing or planned debt obligation. The term “financial obligation” does not include municipal
21 securities as to which a final official statement has been provided to the MSRB consistent with the
22 Rule.

23 (iii) Timely notice of a failure by the City to provide required annual financial
24 information on or before the date specified in subsection (b) of this section.

1 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
2 financial information and operating data that the City undertakes to provide in subsection (a) of this
3 section:

4 (i) Shall consist of (1) annual financial statements of the Light System prepared in
5 accordance with applicable generally accepted accounting principles applicable to governmental units
6 (except as otherwise noted therein), as such principles may be changed from time to time and as
7 permitted by applicable state law; (2) a statement of outstanding Parity Bonds, Junior Lien Bonds (if
8 any), and any other bonded indebtedness secured by Net Revenue of the Light System; (3) debt service
9 coverage ratios for the then-Outstanding Parity Bonds, Junior Lien Bonds (if any) and any other bonded
10 indebtedness secured by Net Revenue of the Light System; (4) sources of Light System power and the
11 MWh produced by those sources; and (5) the average number of customers, revenues, and energy sales
12 by customer class;

13 (ii) Shall be provided not later than the last day of the ninth month after the end of
14 each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year may be
15 changed as required or permitted by state law, commencing with the City's fiscal year ending
16 December 31, 20__; and

17 (iii) May be provided in a single document or multiple documents, and may be
18 incorporated by specific reference to documents available to the public on the Internet website of the
19 MSRB or filed with the Securities and Exchange Commission.

20 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
21 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any
22 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
23 under the circumstances and in the manner permitted by the Rule, including:

1 (i) The amendment may only be made in connection with a change in
2 circumstances that arises from a change in legal requirements, change in law, or change in the identity,
3 nature, or status of the City, or type of business conducted by the City;

4 (ii) The Undertaking, as amended, would have complied with the requirements of
5 the Rule at the time of the primary offering, after taking into account any amendments or interpretations
6 of the Rule, as well as any change in circumstances; and

7 (iii) The amendment does not materially impair the interests of holders, as
8 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
9 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the Bond
10 Ordinance at the time of the amendment.

11 The City will give notice to the MSRB of the substance (or provide a copy) of any amendment
12 to this Undertaking and a brief statement of the reasons for the amendment. If the amendment changes
13 the type of annual financial information to be provided, the annual financial information containing
14 the amended financial information will include a narrative explanation of the effect of that change on
15 the type of information to be provided.

16 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any Owner
17 of Bonds, and shall not inure to the benefit of or create any rights in any other person.

18 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
19 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
20 addition, the City's obligations under this Undertaking shall terminate if those provisions of the Rule
21 that require the City to comply with this Undertaking become legally inapplicable in respect of the
22 Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or other
23 counsel familiar with federal securities laws delivered to the City, and the City provides timely notice
24 of such termination to the MSRB.

1 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the City
2 learns of any material failure to comply with this Undertaking, the City will proceed with due diligence
3 to cause such noncompliance to be corrected. No failure by the City or other obligated person to comply
4 with this Undertaking shall constitute a default in respect of the Bonds. The sole remedy of any Owner
5 of a Bond shall be to take such actions as that Owner deems necessary, including seeking an order of
6 specific performance from an appropriate court, to compel the City or other obligated person to comply
7 with this Undertaking.

8 (g) Designation of Official Responsible to Administer Undertaking. The Director of
9 Finance of the City (or such other officer of the City who may in the future perform the duties of that
10 office) or his or her designee is the person designated, in accordance with the Bond Ordinance, to carry
11 out this Undertaking of the City in respect of the Bonds set forth in this section and in accordance with
12 the Rule, including, without limitation, the following actions:

13 (i) Preparing and filing the annual financial information undertaken to be
14 provided;

15 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
16 assessing its materiality, where necessary, with respect to the Bonds, and preparing and disseminating
17 any required notice of its occurrence;

18 (iii) Determining whether any person other than the City is an “obligated person”
19 within the meaning of the Rule with respect to the Bonds, and obtaining from such person an
20 undertaking to provide any annual financial information and notice of listed events for that person in
21 accordance with the Rule;

22 (iv) Selecting, engaging and compensating designated agents and consultants,
23 including but not limited to financial advisors and legal counsel, to assist and advise the City in carrying
24 out this Undertaking; and

25 (v) Effecting any necessary amendment of the Undertaking.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the electric system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing municipal light and electric power generation, transmission, and distribution system of the City; authorizing the issuance and sale of municipal light and power revenue bonds for the purposes of providing funds to pay part of the cost of carrying out that system or plan, providing for the reserve fund requirement (if any), and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of the bonds and authorizing their issuance as either senior lien parity bonds or junior lien bonds; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: This legislation provides the legal authorization to issue up to \$225 million of bonds in 2022 to fund a portion of capital expenditures for Seattle City Light's system, as set forth by the 2022-2027 capital plan. This legislation also authorizes up to \$150 million of additional borrowing for potential debt optimization. Debt optimization involves replacing high interest debt with low interest debt to reduce overall interest costs – without increasing the debt burden or extending the term of outstanding debt.

Although the budget, capital plan and rates make specific assumptions about the use of debt financing for a certain share of the capital program, separate authorization for the issuance of bonds is technically required.

A City Light bond sale for \$225 million of fixed rate debt is anticipated to occur in August 2022. The bond proceeds combined with internally generated funds will support City Light's capital program for about one year. The bond proceeds will also be used to make a deposit to the bond reserve fund and to pay issuance costs. Bonds would have a maximum maturity of 30 years. No debt service payments are expected in 2022.

Major projects supported by the bond issue include: Boundary Licensing Mitigation, Skagit Licensing Mitigation and the replacement of overhead and underground distribution equipment. For further information about City Light's capital projects, please see the 2021-2026 capital plan.

For further information about City Light's capital projects, please see the 2022-2027 capital plan.

2. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation affects FAS, who coordinates the issuance of the bonds.
- b. **Is a public hearing required for this legislation?**
No
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No
- d. **Does this legislation affect a piece of property?**
No
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
None/No
- f. **Climate Change Implications**
1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No
 2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**
No

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing drainage and wastewater system; authorizing the issuance and sale of drainage and wastewater revenue bonds in one or more series for the purposes of paying part of the cost of carrying out that system or plan, providing for the reserve requirement, and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of those bonds; amending certain definitions set forth in Ordinance 125455, the Omnibus Refunding Ordinance; authorizing the issuance of drainage and wastewater system refunding revenue bonds; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle (the “City”) owns, maintains, and operates a system of sanitary sewerage and storm and surface water drainage as part of Seattle Public Utilities (the “Drainage and Wastewater System”), which Drainage and Wastewater System has from time to time required various additions, improvements, betterments, and extensions; and

WHEREAS, the City desires to acquire and construct a system or plan of further additions, improvements, and betterments to, and extensions of the Drainage and Wastewater System (the “Plan of Additions”) as described in this ordinance, and has a need to borrow funds to pay a portion of the costs of carrying out such Plan of Additions; and

WHEREAS, the City currently has outstanding certain drainage and wastewater revenue bonds (as identified in Exhibit A to this ordinance, the “Outstanding Parity Bonds”). Pursuant to the ordinances authorizing their issuance (the “Outstanding Parity Bond Ordinances”), the City has reserved the right to issue additional bonds (“Future Parity Bonds”) having a charge and lien on the net revenue of the Drainage and Wastewater System on a parity of lien with those Outstanding Parity Bonds, and is permitted to

issue such Future Parity Bonds upon satisfaction of certain conditions (the “Parity Conditions”); and WHEREAS, the City has determined that it is in the best interest of the City and its ratepayers to authorize the issuance and sale, subject to the provisions of this ordinance, of drainage and wastewater revenue bonds as Parity Bonds to pay part of the cost of carrying out the Plan of Additions, to provide for the reserve requirement, and to pay the costs of issuance of those bonds; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** In this ordinance, the following capitalized terms shall have the meanings set forth in this section:

“**Accreted Value**” means with respect to any Capital Appreciation Bond (a) as of any Valuation Date, the amount determined for such Valuation Date in accordance with the applicable Parity Bond Documents, and (b) as of any date other than a Valuation Date, the sum of (i) the Accreted Value on the preceding Valuation Date and (ii) the product of (A) a fraction, the numerator of which is the number of days having elapsed from the preceding Valuation Date and the denominator of which is the number of days from such preceding Valuation Date to the next succeeding Valuation Date, calculated based on the assumption that Accreted Value accrues during any semiannual period in equal daily amounts on the basis of a year of 12 30-day months, and (B) the difference between the Accreted Values for such Valuation Dates.

“**Adjusted Annual Debt Service**” for any fiscal year means Annual Debt Service minus (a) an amount equal to ULID Assessments due in that year and not delinquent, (b) an amount equal to earnings from investments in the Reserve Subaccount, and (c) Annual Debt Service provided for by Parity Bond proceeds.

“**Adjusted Gross Revenue**” means, for any period, Gross Revenue (a) plus withdrawals from the Rate Stabilization Account made during that period, and (b) minus ULID Assessments, earnings from investments in the Reserve Subaccount, and deposits into the Rate Stabilization Account made during that period.

“**Adjusted Net Revenue**” means Adjusted Gross Revenue less Operating and Maintenance Expense.

“**Annual Debt Service**” for any calendar year means the sum of the amounts required in such calendar

year to pay the interest due in such calendar year on all Parity Bonds outstanding, excluding interest to be paid from the proceeds of the sale of Parity Bonds or other bonds; the principal of all outstanding Serial Bonds due in such calendar year; and the Sinking Fund Requirement, if any, for such calendar year. Additionally, for purposes of calculating and determining compliance with the Coverage Requirement, the Reserve Requirement and the conditions for the issuance of Future Parity Bonds and/or entering into Parity Payment Agreements, the following shall apply:

(a) **Calculation of Interest Due -- Generally.** Except as otherwise provided below, interest on any series of Parity Bonds shall be calculated based on the actual amount of accrued, accreted, or otherwise accumulated interest that is payable in respect of that series taken as a whole, at the rate or rates set forth in the applicable Parity Bond Documents.

(b) **Capital Appreciation Bonds.** For purposes of this definition, the principal and interest portions of the Accreted Value of Capital Appreciation Bonds becoming due at maturity or by virtue of a Sinking Fund Requirement shall be included in the calculations of accrued and unpaid and accruing interest or principal in such manner and during such period of time as is specified in the Parity Bond Documents applicable to such Capital Appreciation Bonds.

(c) **Variable Interest Rate Bonds.** The amount of interest deemed to be payable on any series of Variable Interest Rate Bonds shall be calculated on the assumption that the interest rate on those bonds would be equal to the rate that is 90 percent of the average RBI during the four calendar quarters preceding the quarter in which the calculation is made.

(d) **Interest on Parity Bonds With Respect to Which a Payment Agreement is in Force.** Debt service on Parity Bonds with respect to which a Payment Agreement is in force shall be based on the net economic effect on the City expected to be produced by the terms of the Parity Bonds and the terms of the Payment Agreement. For example, if the net economic effect of the Payment Agreement and a series of Parity Bonds otherwise bearing interest at a variable rate is to produce an obligation bearing interest at a fixed interest

rate, the relevant series of bonds shall be treated as fixed interest rate bonds. And if the net economic effect of the Payment Agreement and a series of Parity Bonds otherwise bearing interest at a fixed rate is to produce an obligation bearing interest at a variable interest rate, the relevant series of bonds shall be treated as Variable Interest Rate Bonds.

Accordingly, the amount of interest deemed to be payable on any Parity Bonds with respect to which a Payment Agreement is in force shall be an amount equal to the amount of interest that would be payable at the rate or rates stated in or determined pursuant to the applicable Parity Bond Documents, plus Payment Agreement Payments, minus Payment Agreement Receipts. For the purposes of calculating as nearly as practicable Payment Agreement Receipts and Payment Agreement Payments under a Payment Agreement that includes a variable rate component determined by reference to a pricing mechanism or index that is not the same as the pricing mechanism or index used to determine the variable rate interest component on the Parity Bonds to which the Payment Agreement is related, it shall be assumed that the fixed rate used in calculating Payment Agreement Payments will be equal to 105 percent of the fixed rate specified by the Payment Agreement and that the pricing mechanism or index specified by the Payment Agreement is the same as the pricing mechanism or index specified by the applicable Parity Bond Documents. Notwithstanding the other provisions of this definition, the City shall not be required to (but may in its discretion) take into account in determining Annual Debt Service the effects of any Payment Agreement that has a term of ten years or less.

(e) Parity Payment Agreements. For any period during which Payment Agreement Payments on a Parity Payment Agreement are taken into account in determining Annual Debt Service on related Parity Bonds under paragraph (d) of this definition, no additional debt service shall be taken into account with respect to that Parity Payment Agreement. However, for any Parity Payment Agreement during a period in which Payment Agreement Payments are not taken into account under paragraph (d) because the Parity Payment Agreement is not then related to any outstanding Parity Bonds, payments on that Parity Payment Agreement shall be taken into account by assuming:

(i) **If City is Obligated to Make Payments Based on Fixed Rate.** If the City is obligated to make Payment Agreement Payments based on a fixed rate and the Qualified Counterparty is obligated to make payments based on a variable rate index, it shall be assumed that payments by the City will be based on the assumed fixed payor rate, and that payments by the Qualified Counterparty will be based on a rate equal to the average rate determined by the variable rate index specified by the Parity Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made.

(ii) **If City is Obligated to Make Payments Based on Variable Rate Index.** If the City is obligated to make Payment Agreement Payments based on a variable rate index and the Qualified Counterparty is obligated to make payments based on a fixed rate, it shall be assumed that payments by the City will be based on a rate equal to the average rate determined by the variable rate index specified by the Parity Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made, and that the Qualified Counterparty will make payments based on the fixed rate specified by the Parity Payment Agreement.

(f) **Balloon Bonds.** *Upon the Reserve Covenant Date, the following shall become effective:* For purposes of calculating debt service on any Balloon Bonds, the City may assume that the principal of those Balloon Bonds, together with interest thereon at a rate equal to the assumed RBI-based rate set forth in subsection (c) of this definition, will be amortized in equal annual installments over a term of 30 years.

(g) **Adjustments for Defeased Bonds.** For purposes of calculating and determining compliance with the Coverage Requirement, the Reserve Requirement, and the Parity Conditions, Annual Debt Service shall be adjusted as set forth in subsection 21(d) of this ordinance.

“Authorized Denomination” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denominations as may be specified in the applicable Bond Documents.

“Average Annual Debt Service” means, at the time of calculation, the sum of the Annual Debt Service

remaining to be paid to the last scheduled maturity of the applicable series of Parity Bonds divided by the number of years such bonds are scheduled to remain outstanding.

“Balloon Bonds” means any series of Parity Bonds, the aggregate principal amount (including Sinking Fund Requirements) of which becomes due and payable in any calendar year in an amount that constitutes 25 percent or more of the initial aggregate principal amount of such series of Parity Bonds.

“Beneficial Owner” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“Bond Counsel” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“Bond Documents” means (a)(i) with respect to any Series of the Bonds, this ordinance (including any amendatory or supplemental ordinances), and (ii) with respect to a series of Parity Bonds other than a Series of the Bonds, the applicable Parity Bond Ordinance(s); (b) the authenticated bond form; and (c) the written agreement(s) setting forth the Bond Sale Terms and additional terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“Bond Insurance” means any municipal bond insurance policy, guaranty, surety bond, or similar credit enhancement device providing for or securing the payment of all or part of the principal of and interest on any Parity Bonds, issued by an insurance company licensed to conduct an insurance business in any state of the United States (or by a service corporation acting on behalf of one or more such insurance companies), or by any other financial institution qualified to provide such credit enhancement device.

“Bond Purchase Contract” means a written offer to purchase a Series of the Bonds, pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and a Pricing

Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“Bond Register” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“Bond Registrar” means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the Registration Ordinance.

“Bond Sale Terms” means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 5 of this ordinance, including the amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in the Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

“Bonds” means the Drainage and Wastewater System revenue bonds issued pursuant to this ordinance.

“Book-Entry Form” means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and immobilized in the custody of the Securities Depository (or its designee), where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

“Capital Appreciation Bond” means any Parity Bond, all or a portion of the interest on which is compounded and accumulated at the rates or in the manner, and on the dates, set forth in the applicable Bond Documents and is payable only upon redemption or on the maturity date of such Parity Bond. A Parity Bond that is issued as a Capital Appreciation Bond, but which later converts to an obligation on which interest is paid periodically, shall be a Capital Appreciation Bond until the conversion date and thereafter shall no longer be a

Capital Appreciation Bond, but shall be treated as having a principal amount equal to its Accreted Value on the conversion date. For purposes of computing the principal amount of Parity Bonds held by the Owner of any Capital Appreciation Bond in connection with any notice, consent, request, or demand, the principal amount of a Capital Appreciation Bond shall be deemed to be its Accreted Value at the time that such notice, consent, request, or demand is given or made.

“Capital Improvement Program” or **“CIP”** means those portions of the City’s “2021-2026 Capital Improvement Program” relating to the Drainage and Wastewater System, adopted by Ordinance 126237, together with any previously adopted Capital Improvement Program of the City. For purposes of this ordinance, the CIP includes all amendments, updates, supplements or replacements that may be adopted from time to time by ordinance.

“City” means The City of Seattle.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as it has been and may be amended from time to time, and regulations thereunder.

“Construction Account” means the Drainage and Wastewater Construction Account, 2022, created in the Drainage and Wastewater Fund by this ordinance.

“Continuing Disclosure Agreement” means, for each Series sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 23 of this ordinance, in substantially the form attached to this ordinance as Exhibit B.

“Contract Resource Obligation” means an obligation of the City that is designated as a Contract Resource Obligation and is entered into in accordance with Section 20 of this ordinance.

“Coverage Requirement” means Adjusted Net Revenue equal to at least 1.25 times Adjusted Annual Debt Service on all Parity Bonds then outstanding.

“Covered Parity Bonds” means all Outstanding Parity Bonds, each Series of the Bonds, and each series of Future Parity Bonds. *From and after the Reserve Covenant Date, the term “Covered Parity Bonds” shall exclude each series of Parity Bonds for which the Bond Sale Terms provide that, from and after the Reserve Covenant Date, such series shall no longer be treated as a series of Covered Parity Bonds and shall no longer be secured by the amounts in the Reserve Subaccount.*

“DTC” means The Depository Trust Company, New York, New York.

“Defeasible Bonds” means any outstanding Parity Bonds that are eligible to be defeased pursuant to the Omnibus Defeasance Ordinance.

“Director of Finance” or **“Director”** means the Director of the Finance Division of the Department of Finance and Administrative Services, or any other officer who succeeds to substantially all of the responsibilities of that office.

“Drainage and Wastewater Fund” means the fund created by Ordinance 84390 and later renamed by Ordinance 114155, into which is paid the Gross Revenue of the Drainage and Wastewater System.

“Drainage and Wastewater System” means the drainage and wastewater system of the City, including the sanitary sewerage and storm and surface water drainage systems, as it now exists (except properties, interests, and rights under the jurisdiction of the City’s Parks and Recreation Department, Seattle Center Department, Seattle Public Utilities Water System, City Light Department, and Department of Finance and Administrative Services), and all additions thereto and betterments and extensions thereof at any time made, together with any utility systems of the City hereafter combined with the Drainage and Wastewater System. The Drainage and Wastewater System shall not include any separate utility system that may be created, acquired or constructed by the City as provided in Section 19 of this ordinance.

“Event of Default” has the meaning assigned to that term in subsection 25(a) of this ordinance.

“Fiscal Agent” means the fiscal agent of the State, as the same may be designated by the State from time to time.

“Future Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of a series of Future Parity Bonds, and any other ordinance amending or supplementing the provisions of any such ordinance.

“Future Parity Bonds” means, with reference to any Series, all revenue bonds and obligations of the Drainage and Wastewater System (other than that Series and any other Parity Bonds then outstanding) issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien on Net Revenue equal in priority with the charge and lien upon such revenue for the payment of the amounts required to be paid into the Parity Bond Account in accordance with Section 15 of this ordinance. Future Parity Bonds may include Parity Payment Agreements and any other obligations issued in compliance with the Parity Conditions.

“Government Obligations” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as amended at any time.

“Gross Revenue” means (a) all income, revenues, receipts and profits derived by the City through the ownership and operation of the Drainage and Wastewater System; (b) the proceeds received by the City directly or indirectly from the sale, lease or other disposition of any of the properties, rights or facilities of the Drainage and Wastewater System; (c) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (d) the investment income earned on money held in any fund or account of the City, including any bond redemption funds and the accounts therein, in connection with the ownership and operation of the Drainage and Wastewater System. Gross Revenue does not include: (a) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenue; (b) investment income set aside for or earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (c) any gifts, grants, donations or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations or

other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenue hereunder; (d) the proceeds of any borrowing for capital improvements (or the refinancing thereof); (e) the proceeds of any liability or other insurance, including but not limited to insurance proceeds compensating the City for the loss of a capital asset, but excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues; (f) general *ad valorem* taxes, excise taxes and special assessments (other than ULID Assessments), including interest and penalties thereon; and (g) earnings of any separate utility system that may be created, acquired, or constructed by the City pursuant to Section 19 of this ordinance.

“Independent Utility Consultant” means an independent person or firm having a favorable reputation for skill and experience with drainage and wastewater systems of comparable size and character to the Drainage and Wastewater System in such areas as are relevant to the purpose for which they were retained.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as it may be amended from time to time, or an agreement with a substitute or successor Securities Depository.

“MSRB” means the Municipal Securities Rulemaking Board.

“Maximum Annual Debt Service” means, at the time of calculation, the maximum amount of Annual Debt Service that shall become due in the current calendar year or in any future calendar year with respect to the Parity Bonds then outstanding.

“Net Revenue” means, for any period, Gross Revenue less Operating and Maintenance Expense.

“Omnibus Defeasance Ordinance” means Ordinance 126223, as amended at any time, authorizing the defeasance of Defeasible Bonds (as such ordinance may be amended from time to time) or any future ordinance

pursuant to which the Bonds (or any Series of the Bonds) are designated as Defeasible Bonds.

“Omnibus Refunding Ordinance” means Ordinance 125455, as amended at any time, authorizing the issuance of Refunding Parity Bonds (as such ordinance may be amended from time to time), or any future ordinance pursuant to which the Bonds (or any Series of the Bonds) are designated as “Refundable Bonds.”

“Operating and Maintenance Expense” means all expenses incurred by the City in causing the Drainage and Wastewater System to be operated and maintained in good repair, working order and condition, including without limitation: (a) deposits, premiums, assessments or other payments for insurance, if any, on the Drainage and Wastewater System; (b) payments into pension funds; (c) State-imposed taxes; (d) amounts due under Contract Resource Obligations in accordance with Section 20 of this ordinance; (e) payments made to another person or entity for treatment or disposal of sewage or other commodity or service; and (f) payments with respect to any other expenses of the Drainage and Wastewater System that are properly treated as Operating and Maintenance Expense under generally accepted accounting principles applicable to municipal corporations, including payments (other than payments out of proceeds of Parity Bonds or other obligations not issued to pay current expenses of the Drainage and Wastewater System) into reasonable reserves for items of operating or maintenance expense the payment of which is not immediately required. Operating and Maintenance Expense does not include: depreciation, amortization or other similar recognitions of non-cash expense items made for accounting purposes only; taxes levied or imposed by the City, or payments in lieu of City taxes; payments of claims or judgments; or capital additions or capital replacements of the Drainage and Wastewater System.

“Outstanding Parity Bond Ordinances” means those ordinances authorizing the issuance and sale of the Outstanding Parity Bonds, as identified in Exhibit A to this ordinance.

“Outstanding Parity Bonds” means those outstanding Parity Bonds identified in Exhibit A to this ordinance. When used in reference to a particular date or series of Parity Bonds, Outstanding Parity Bonds shall mean those Parity Bonds (including any Parity Bonds issued subsequent to the effective date of this ordinance)

that are outstanding as of that date or as of the issue date of such series.

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“Parity Bond Account” means the Drainage and Wastewater Revenue Bond Account, 1990, created by Ordinance 115098 in the Drainage and Wastewater Fund for the purpose of paying and securing payment of the principal of and interest on Parity Bonds.

“Parity Bond Documents” means those Bond Documents applicable to a series of Parity Bonds.

“Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of a series of Parity Bonds, and any other ordinance amending or supplementing the provisions of any Parity Bond Ordinance.

“Parity Bonds” means the Outstanding Parity Bonds identified in Exhibit A to this ordinance, each Series of the Bonds, and any Future Parity Bonds then outstanding. Parity Bonds may include Parity Payment Agreements in accordance with Section 17 of this ordinance.

“Parity Certificate” means a certificate delivered pursuant to Section 17 of this ordinance for purposes of satisfying the Parity Conditions in connection with the issuance of Future Parity Bonds.

“Parity Conditions” means, (a) for purposes of establishing that a Series of the Bonds may be issued on parity with the Parity Bonds outstanding as of the Issue Date of such Series, the conditions for issuing Future Parity Bonds set forth in the Parity Bond Ordinances relating to those Parity Bonds that are then outstanding; and (b) for purposes of issuing Future Parity Bonds on parity with a Series of the Bonds, the conditions described in subsection (a) of this definition together with the conditions set forth in Section 17 of this ordinance.

“Parity Payment Agreement” means a Payment Agreement entered into in compliance with the Parity Conditions and under which the City’s payment obligations are expressly stated to constitute a charge and lien on Net Revenue equal in rank with the charge and lien upon such Net Revenue required to be paid into the Parity Bond Account to pay and secure the payment of interest on Parity Bonds. For purposes of determining

percentages of ownership of Parity Bonds under this ordinance or under applicable Parity Bond Documents, Parity Payment Agreements shall be deemed to have no principal amount, and any notice, consent, or similar rights (if any) shall be determined only as set forth in the applicable Parity Payment Agreement.

“Payment Agreement” means a written agreement entered into by the City and a Qualified Counterparty, as authorized by any applicable laws of the State, for the purpose of managing or reducing the City’s exposure to fluctuations or levels of interest rates, or for other interest rate, investment, asset or liability management purposes, and that provides for (i) an exchange of payments based on interest rates, ceilings, or floors on such payments; (ii) options on such payments; (iii) any combination of the foregoing; or (iv) any similar device. A Payment Agreement may be entered into on either a current or forward basis. A Payment Agreement must be entered into in connection with (or incidental to) the issuance, incurring, or carrying of particular bonds, notes, bond anticipation notes, commercial paper, or other obligations for borrowed money (which may include leases, installment purchase contracts, or other similar financing agreements or certificates of participation in any of the foregoing).

“Payment Agreement Payments” means the amounts periodically required to be paid by the City to a Qualified Counterparty pursuant to a Payment Agreement.

“Payment Agreement Receipts” means the amounts periodically required to be paid by a Qualified Counterparty pursuant to a Payment Agreement.

“Permitted Investments” means any investments or investment agreements permitted for the investment of City funds under the laws of the State, as amended from time to time.

“Plan of Additions” means the CIP, as it may be modified from time to time. The Plan of Additions includes (a) the purchase and installation of all materials, supplies, appliances, equipment and facilities; (b) the acquisition of all permits, franchises, property and property rights, and other capital assets; and (c) all engineering, consulting and other professional services and studies (whether performed by the City or by other public or private entities), each as necessary or convenient to carry out the Plan of Additions. The Plan of

Additions includes all amendments, updates, supplements or replacements to the CIP, all of which automatically shall constitute amendments to the Plan of Additions. The Plan of Additions also may be modified to include other improvements, without amending the CIP if the City determines by ordinance that those amendments or other improvements constitute a system or plan of additions to or betterments or extensions of the Drainage and Wastewater System.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date confirming the Bond Sale Terms for the sale of a Series of Bonds to the Purchaser in a competitive sale, in accordance with the parameters set forth in Section 5 of this ordinance.

“Principal and Interest Subaccount” means the subaccount of that name created in the Parity Bond Account by Ordinance 115098 for the payment of the principal of and interest on Parity Bonds.

“Purchaser” means the entity or entities who have been selected by the Director of Finance in accordance with this ordinance to serve as underwriter, purchaser, or successful bidder in a sale of any Series.

“Qualified Counterparty” means a party (other than the City or a party related to the City) who is the other party to a Payment Agreement, (a)(i) whose senior debt obligations are rated in one of the three highest rating categories of each Rating Agency (without regard to any gradations within a rating category), or (ii) whose obligations under the Payment Agreement are guaranteed for the entire term of the Payment Agreement by a bond insurer or other institution which has been assigned a credit rating in one of the two highest rating categories of each Rating Agency; and (b) who is otherwise qualified to act as the other party to a Payment Agreement under any applicable laws of the State.

“Qualified Insurance” means any Bond Insurance that, as of the time of issuance of such credit enhancement device, is provided by an entity rated in one of the two highest rating categories (without regard to any gradations within a rating category) by at least two nationally recognized rating agencies.

“Qualified Letter of Credit” means any letter of credit, standby bond purchase agreement, or other liquidity facility issued by a financial institution for the account of the City in connection with the issuance of

any Parity Bonds, which institution maintains an office, agency or branch in the United States and, as of the time of issuance of such instrument, is rated in one of the two highest rating categories (without regard to any gradations within such rating categories) by at least two nationally recognized rating agencies.

“RBI” means *The Bond Buyer* Revenue Bond Index or comparable index, or, if no comparable index can be obtained, 80 percent of the interest rate for actively traded 30-year United States Treasury obligations.

“Rate Stabilization Account” means the account of that name previously established by Section 26 of Ordinance 118974.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a series of then outstanding Parity Bonds at the request of the City.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding the interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“Refundable Bonds” means Parity Bonds that may be refunded pursuant to the Omnibus Refunding Ordinance.

“Refunding Parity Bonds” means Future Parity Bonds that satisfy the applicable Parity Conditions and are issued pursuant to the Omnibus Refunding Ordinance, or other Future Parity Bond Ordinance, for the purpose of refunding any Refundable Bonds.

“Registered Owner” means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under the Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“Registration Ordinance” means Ordinance 111724 establishing a system of registration for the City’s bonds and other obligations pursuant to Seattle Municipal Code Chapter 5.10, as amended at any time.

“Reserve Covenant Date” means the earlier of (a) the date on which the City has obtained consents of the requisite percentage of Registered Owners of the Parity Bonds then outstanding, in accordance with the provisions of the applicable Outstanding Parity Bond Documents; or (b) the date on which all of the following Outstanding Parity Bonds have been redeemed or defeased: Drainage and Wastewater Revenue Bonds, 2009A (Taxable Build America Bonds - Direct Payment); Drainage and Wastewater Improvement and Refunding Revenue Bonds, 2012; Drainage and Wastewater Improvement and Refunding Revenue Bonds, 2014; and Drainage and Wastewater System Improvement and Refunding Revenue Bonds, 2016.

“Reserve Requirement” means the least of (a) Maximum Annual Debt Service on all Parity Bonds outstanding at the time of calculation, (b) 1.25 times Average Annual Debt Service on all Parity Bonds outstanding at the time of calculation, or (c) the sum of 10 percent of the proceeds of each series of Parity Bonds then outstanding, as of the delivery of each such series. ***From and after the Reserve Covenant Date, the Reserve Requirement shall mean the least of (a) Maximum Annual Debt Service on all Covered Parity Bonds outstanding at the time of calculation, or (b) 1.25 times Average Annual Debt Service on all Covered Parity Bonds outstanding at the time of calculation. In no event shall the Reserve Requirement exceed the sum of 10 percent of the proceeds of each series of Covered Parity Bonds then outstanding, determined as of the Issue Date of each such series.***

“Reserve Security” means any Qualified Insurance or Qualified Letter of Credit obtained by the City to satisfy part or all of the Reserve Requirement, and which is not cancelable on less than three years’ notice.

“Reserve Subaccount” means the subaccount of that name created in the Parity Bond Account by Ordinance 115098 for the purpose of securing the payment of the principal of and interest on Parity Bonds.

“Rule 15c2-12” means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended.

“SEC” means the United States Securities and Exchange Commission.

“Securities Depository” means DTC, any successor thereto, any substitute Securities Depository

selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

“Serial Bonds” means Parity Bonds maturing in specified years, for which no Sinking Fund Requirements are mandated.

“Series” means a series of the Bonds issued pursuant to this ordinance.

“Sinking Fund Account” means any account created in the Parity Bond Account to amortize the principal or make mandatory redemptions of Term Bonds.

“Sinking Fund Requirement” means, for any calendar year, the principal amount and premium, if any, of Term Bonds required to be purchased, redeemed, paid at maturity or paid into any Sinking Fund Account for such calendar year, as established pursuant to the Bond Documents relating to such Term Bonds.

“State” means the State of Washington.

“State Auditor” means the office of the Auditor of the State or such other department or office of the State authorized and directed by State law to make audits.

“Tax Credit Subsidy Bond” means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a “qualified bond” under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

“Tax Credit Subsidy Payment” means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

“Tax-Exempt Bond” means any Parity Bond, the interest on which is intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Taxable Bond” means any Parity Bond, the interest on which is not intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Term Bond” means any Parity Bond that is issued subject to mandatory redemption prior to its maturity in Sinking Fund Requirements.

“ULID” means a utility local improvement district of the City created for the acquisition or construction of additions to and betterments and extensions of the Drainage and Wastewater System.

“ULID Assessments” means all assessments levied and collected in a ULID, if and only if those assessments are pledged to be paid into the Parity Bond Account, in which case they shall be included in Gross Revenue. ULID Assessments shall include all installments of principal, payments of interest, and penalties and interest on delinquencies, but shall not include any prepaid assessments paid into a construction fund or account.

“Valuation Date” means, with respect to any Capital Appreciation Bond, the date or dates, determined as set forth in the Parity Bond Documents relating to the relevant series of Parity Bonds, on which specific Accreted Values are assigned to that Capital Appreciation Bond.

“Variable Interest Rate” means any interest rate that fluctuates during the stated term of a Parity Bond (or during a stated period during which the Parity Bond is designated as a Variable Interest Rate Bond), whether due to a remarketing, a market index reset, or other mechanism set forth in the applicable Bond Documents. The Bond Documents for any Series of the Bonds bearing interest at a Variable Interest Rate shall set forth: (a) the available method(s) of computing interest (the “interest rate modes”); (b) the particular period or periods of time (or manner of determining such period or periods of time) for which each value of such Variable Interest Rate (or each interest rate mode) shall remain in effect; (c) provisions for conversion from one interest rate mode to another and for setting or resetting the interest rates; and (d) the time or times upon which any change in such Variable Interest Rate (or any conversion of interest rate modes) shall become effective.

“Variable Interest Rate Bond” means, for any period of time, any Parity Bond that bears interest at a Variable Interest Rate during that period. A Parity Bond shall not be treated as a Variable Interest Rate Bond if the net economic effect of: (a) interest rates on a particular series of Parity Bonds, as set forth in the applicable Bond Documents, and (b) either (i) interest rates on another series of Parity Bonds issued at substantially the same time, or (ii) a Payment Agreement related to that particular series of Parity Bonds, is to produce

obligations that bear interest at a fixed rate. A Parity Bond with respect to which a Payment Agreement is in force shall be treated as a Variable Interest Rate Bond if the net economic effect of the Payment Agreement is to produce an obligation that bears interest at a Variable Interest Rate.

Section 2. **Adoption of Plan of Additions.** The City specifies, adopts and orders the Plan of Additions to be carried out as generally provided for in the documents comprising the Plan of Additions. The estimated cost of the Plan of Additions, as near as may be determined, is declared to be \$1,332 million, of which approximately \$88 million is expected to be financed from proceeds of the Bonds and investment earnings thereon.

Section 3. **Authorization of Bonds; Due Regard Finding.**

(a) **The Bonds.** The City is authorized to issue Drainage and Wastewater System revenue bonds, payable from the sources described in Section 13 of this ordinance, in the maximum principal amount stated in Section 5 of this ordinance to provide funds (a) to pay part of the cost of carrying out the Plan of Additions; (b) to provide for the Reserve Requirement (if any); (c) to capitalize interest on (if necessary) and pay the costs of issuance of the Bonds; and (d) for other Drainage and Wastewater System purposes approved by ordinance. The Bonds may be issued in one or more Series and may be combined with other Drainage and Wastewater System revenue bonds (including Refunding Parity Bonds) authorized separately. The Bonds shall be designated Drainage and Wastewater System Revenue Bonds and shall be numbered separately and shall have any name, year and series or other label as deemed necessary or appropriate by the Director of Finance.

(b) **City Council Finding.** The City Council finds that, in creating the Parity Bond Account and in fixing the amounts to be paid into it in accordance with this ordinance and the parameters for the Bond Sale Terms set forth in Section 5 of this ordinance, the City Council has exercised due regard for the cost of operation and maintenance of the Drainage and Wastewater System, and is not setting aside into the Parity Bond Account a greater amount than in the judgment of the City Council, based on the rates established from time to time consistent with subsection 16(b) of this ordinance, will be sufficient, in the judgment of the City

Council, to meet all expenses of operation and maintenance of the Drainage and Wastewater System and to provide the amounts previously pledged for the payment of all outstanding obligations payable out of Gross Revenues and pledged for the payment of the Bonds. Therefore, the City Council hereby finds that the issuance and sale of the Bonds is in the best interest of the City and in the public interest.

Section 4. **Manner of Sale of Bonds**. The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement and may select and enter into agreements with remarketing agents or providers of liquidity with respect to Variable Interest Rate Bonds. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director of Finance is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements, and provide for the use of an electronic bidding mechanism; to determine matters relating to a forward or delayed delivery of the Bonds; and to determine such other matters and take such other action as, in the Director's determination, may be necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 5 of this ordinance.

Section 5. **Appointment of Designated Representative; Bond Sale Terms**.

(a) **Designated Representative**. The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms**. The Director of Finance is authorized to approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series, and, in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series of the Bonds authorized by this ordinance is not to exceed \$88 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance. The initial Issue Date (without restricting any reissuance date with respect to a Series of Variable Interest Rate Bonds) may be no later than December 31, 2024.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, whichever is later, unless otherwise provided in the Bond Documents. Each Series of the Bonds shall bear interest at one or more fixed interest rates or Variable Interest Rates. The net interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum. The Bond Documents for any Series may provide for multiple interest rates and interest rate modes, and may provide conditions and mechanisms for the Director of Finance to effect a conversion from one mode to another. Nothing in this ordinance shall be interpreted to prevent the Bond Documents for any Series from including a provision for adjustments to interest rates during the term of the Series upon the occurrence of certain events specified in the applicable Bond Documents.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond, in accordance with any Sinking Fund Requirements applicable to Term Bonds, and otherwise in accordance with any redemption or tender provisions.

(vi) **Final Maturity.** Each Bond shall mature no later than 40 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption and tender provisions, as determined by the Director of Finance in his discretion, consistent with Section 8 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as subject

to optional redemption prior to its maturity. Any Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10½ years after the Issue Date, consistent with subsection 8(a) of this ordinance.

(B) Mandatory Redemption. The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and in principal payment amounts set forth in Sinking Fund Requirements, consistent with subsection 8(b) of this ordinance.

(C) Extraordinary Redemptions. The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with subsection 8(c) of this ordinance.

(D) Tender Options. The Director of Finance may designate any Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond Documents.

(viii) Price. The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City, consistent with the parameters set forth in this ordinance and in any applicable bid documents.

(ix) Other Terms and Conditions.

(A) Expected Life of Capital Facilities. As of the Issue Date of each Series, the Director of Finance must additionally find to the Director's satisfaction that the average expected life of the capital facilities to be financed with the proceeds (or allocable share of proceeds) of that Series must exceed the weighted average maturity of such Series (or share thereof) allocated to financing those capital facilities.

(B) Parity Conditions Satisfied. As of the Issue Date of each Series, the Director of Finance must find that the Parity Conditions have been met or otherwise satisfied, so that such Series is permitted to be issued as Parity Bonds.

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for Bond Insurance, a Reserve Security, Qualified Letter of Credit, credit enhancement, or for any other Payment Agreement as the Director of Finance may find necessary or desirable. The Bond Sale Terms for any Series may provide for multiple interest rate modes and may include provisions for conversion from any interest rate mode to any other mode. To that end, the Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of the Bonds), provisions for the conversion of interest rate modes, provisions for the reimbursement of a credit enhancement provider or Qualified Counterparty, and requirements to give notice to or obtain the consent of a credit enhancement provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Reserve Requirement.** The Bond Sale Terms must establish whether the Series is to be treated as Covered Parity Bonds and must establish the method of providing for the Reserve Requirement, consistent with Section 15 of this ordinance.

(E) **Tax Status of the Bonds.** The Director of Finance may determine that any Series of the Bonds may be designated or qualified as Tax-Exempt Bonds, Taxable Bonds or Tax Credit Subsidy Bonds, consistent with Section 22 of this ordinance.

Section 6. **Bond Registrar; Registration and Transfer of Bonds.**

(a) **Registration of Bonds; Bond Registrar.** The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times.

The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds and to carry out all of the Bond Registrar's powers and duties under this ordinance and the Registration Ordinance.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, interest rate and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment or principal redemption date.

(c) Securities Depository; Book-Entry Form. Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository or the persons for whom they act as nominees with respect to the Bonds regarding the accuracy of any records maintained by the Securities Depository or its participants of any amount in respect of principal of or interest on the Bonds, or

any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director of Finance determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided herein.

Nothing in this ordinance shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided in this ordinance.

(d) Lost or Stolen Bonds. In case any Bond shall be lost, stolen or destroyed, the Bond Registrar may authenticate and deliver a new bond or bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such bond or bonds were actually lost, stolen or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both.

Section 7. **Payment of Bonds.**

(a) Payment. Each Bond shall be payable in lawful money of the United States of America on the dates and in the amounts as provided in the Bond Documents applicable to that Series. Principal of and interest on

each Bond issued as a Parity Bond shall be payable solely out of the Parity Bond Account and shall not be a general obligation of the City. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held In Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held In Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the Record Date. The City, however, is not required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 8. **Redemption and Purchase of Bonds.**

(a) **Optional Redemption.** All or some of the Bonds may be subject to redemption prior to their stated maturity dates at the option of the City at the times and on the terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in Sinking Fund Requirements, as set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to 100 percent of the principal amount to be redeemed plus accrued interest, on the dates and in the years and Sinking Fund Requirements as set forth in the applicable Bond Documents. If the City optionally redeems or purchases a Term Bond prior to maturity, the principal amount of that Term Bond that is so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining Sinking Fund Requirements for that Term Bond in the manner as directed by the Director of Finance. In the absence of direction by the Director of Finance, credit shall be allocated to the remaining Sinking Fund

Requirements for that Term Bond on a *pro rata* basis.

(c) **Extraordinary Redemption Provisions.** All or some of the Bonds of any Series may be subject to extraordinary optional or extraordinary mandatory redemption prior to maturity upon the occurrence of an extraordinary event, at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of the outstanding Bonds are to be redeemed at the option of the City, the Director of Finance shall select the Series and maturity or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed, if such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations, and if the Series is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar randomly in such manner as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 9. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not fewer than 20 nor more than 60 days prior to the date fixed for redemption by first class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed

as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related optional redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled optional redemption date. Any notice of optional redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of optional redemption has been rescinded shall remain outstanding.

Section 10. **Failure to Pay Bonds.** If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay, solely from the Parity Bond Account and the other sources pledged in this ordinance, interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, including principal, redemption premium (if any), and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Parity Bond Account and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond.

Section 11. **Form and Execution of Bonds.** The Bonds shall be typed, printed, or reproduced in a form consistent with the provisions of this ordinance and State law; shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile; and the seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series adjusted consistent with this ordinance), manually signed by the Bond Registrar, shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, [Drainage and Wastewater Revenue Bonds], [Year], [Series], described in [this ordinance].” The authorized signing of a certificate of authentication shall be conclusive evidence that the Bond so authenticated has been duly executed, authenticated and delivered and is

entitled to the benefits of this ordinance.

If any officer whose manual or facsimile signature appears on a Bond ceases to be an officer of the City authorized to sign bonds before the Bond bearing the officer's manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, delivered and issued and, when authenticated, issued and delivered, shall be as binding on the City as though that person had continued to be an officer of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an officer of the City authorized to sign bonds, although that person did not hold the required office on the date of issuance of that Series of the Bonds.

Section 12. **Construction Account; Deposit of Proceeds.** An account to be known as the Drainage and Wastewater Construction Subaccount, 2022 is created in the Drainage and Wastewater Construction Account within the Drainage and Wastewater Fund. After depositing accrued interest (if any) into the Principal and Interest Subaccount and depositing amounts necessary to provide for the Reserve Requirement (if any) into the Reserve Subaccount, the remaining principal proceeds of the sale of a Series of the Bonds shall be deposited into the Construction Account (or such other fund or account as may be directed by the Director of Finance) to be used (a) to pay part of the costs of carrying out the Plan of Additions, and (b) to pay capitalized interest on (if necessary) and the costs of issuance of the Series. Until needed to pay such costs, the City may invest principal proceeds and interest thereon temporarily in any Permitted Investments, and the investment earnings may, as determined by the Director of Finance, be either (a) retained in the Construction Account to be spent for the purposes of that account, or (b) deposited in the Parity Bond Account.

Section 13. **Security for the Bonds; Parity with Outstanding Parity Bonds.** The Bonds shall be special limited obligations of the City payable from and secured solely by the Net Revenue (including all ULID Assessments, if any) and money in the Parity Bond Account and the subaccounts therein, *except that from and after the Reserve Covenant Date, money in the Reserve Subaccount shall secure only Covered Parity Bonds.*

The Net Revenue (including all ULID Assessments, if any) is pledged to make the payments into the Parity Bond Account required by this ordinance. This pledge constitutes a charge and lien upon such Net Revenue prior and superior to all other liens and charges whatsoever.

The Bonds shall be issued on parity with the Outstanding Parity Bonds and all Future Parity Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien. Nothing in this ordinance prevents the City from issuing revenue bonds or other obligations that are a charge or lien upon Net Revenue subordinate to the payments required to be made from Net Revenue into the Parity Bond Account and the subaccounts therein. The City covenants that, for as long as any Bond is outstanding, it will not issue any other revenue obligations (or create any special fund or account therefor), which will have any priority over or which will rank on a parity with the payments required in respect of the Parity Bonds, and that it will issue Future Parity Bonds only accordance with Section 17 of this ordinance.

The Bonds shall not constitute general obligations of the City, the State, or any political subdivision of the State or a charge upon any general fund or upon any money or other property of the City, the State or any political subdivision of the State not specifically pledged by this ordinance.

Section 14. **Priority Expenditure of Gross Revenue; Flow of Funds.** Gross Revenue shall be deposited as received in the Drainage and Wastewater Fund and used for the following purposes only, in the following order of priority:

- (a) To pay the Operating and Maintenance Expense;
- (b) To make all payments into the Principal and Interest Subaccount required to be made in order to pay the interest on and principal of all Parity Bonds (including all net payments under Parity Payment Agreements) when due;
- (c) To make all payments required to be made into the Reserve Subaccount with respect to Parity Bonds secured by the Reserve Subaccount;
- (d) To make all payments required to be made into any revenue bond, note, warrant or other revenue

obligation redemption fund, debt service account, or reserve account created to pay and secure the payment of the principal of and interest on any revenue bonds or short-term obligations of the City having a charge and lien upon Net Revenue subordinate to the lien thereon for the payment of the principal of and interest on the Parity Bonds; and

(e) Without priority, to any of the following purposes: to retire by redemption or purchase any outstanding revenue bonds or revenue obligations of the Drainage and Wastewater System; to make necessary additions, betterments, improvements, or repairs to, or extensions and replacements of the Drainage and Wastewater System; to pay City taxes or other payments in lieu of taxes payable from Gross Revenue; to make deposits to the Rate Stabilization Account; or for any other lawful purpose of the Drainage and Wastewater System.

Section 15. **Parity Bond Account.** A special account of the City known as the Parity Bond Account has been previously created and shall be maintained as a separate account within the Drainage and Wastewater Fund, for the sole purpose of paying the principal of and premium, if any, and interest on the Parity Bonds as the same shall become due. The Parity Bond Account consists of the Principal and Interest Subaccount and the Reserve Subaccount, and may additionally include such subaccounts as the Director of Finance may deem necessary, so long as the maintenance of such subaccounts does not conflict with the rights of the owners of Parity Bonds. Principal of, premium (if any) and interest on the Parity Bonds shall be payable out of the Parity Bond Account.

(a) **Required Payments Into the Parity Bond Account.** So long as any Parity Bonds are outstanding (including amounts required under any Parity Payment Agreement), the City shall set aside and pay into the Parity Bond Account all ULID Assessments on their collection and, out of Net Revenue, certain fixed amounts without regard to any fixed proportion, namely:

(i) Into the Principal and Interest Subaccount on or before each date on which interest on or principal of Parity Bonds (including Sinking Fund Requirements and net payments under any Parity Payment

Agreements) shall become due and payable, an amount that will be sufficient, together with other money on deposit therein, to pay such principal, interest, Sinking Fund Requirements, and net payments then due on Parity Payment Agreements as the same shall become due; and

(ii) Into the Reserve Subaccount an amount necessary to provide for the Reserve Requirement within the time and in the manner required by this ordinance and the Bond Sale Terms. The amount necessary, if any, to satisfy the Reserve Requirement upon the issuance of a Series of the Bonds may be funded (A) on the Issue Date, by a deposit of bond sale proceeds, available funds of the Drainage and Wastewater System, or a Reserve Security; or (B) in annual installments from Net Revenue so that the Reserve Requirement is fully funded by no later than the fifth anniversary of the Issue Date of such Series. The manner of funding the Reserve Requirement for the Bonds shall be set forth in the Bond Sale Terms.

To meet the required payments to be made into the Parity Bond Account, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except bond redemption funds, refunding escrow funds or defeasance funds. The Director of Finance may provide for the purchase, redemption or defeasance of any Parity Bonds by the use of money on deposit in any subaccount in the Parity Bond Account as long as the money remaining in those subaccounts is sufficient to satisfy the required deposits in those subaccounts for the remaining Parity Bonds.

(b) **Reserve Subaccount.** The Reserve Subaccount previously has been created and maintained as a subaccount within the Parity Bond Account for the purpose of securing the payment of the principal of and interest on all Parity Bonds outstanding (including amounts due under any Parity Payment Agreements if required under such agreement). The City covenants that it will at all times, so long as any Covered Parity Bonds are outstanding, maintain the Reserve Subaccount at the Reserve Requirement (taking into account scheduled payments to fund the Reserve Requirement over time), as it is adjusted from time to time, except for withdrawals as authorized by this ordinance. Any withdrawals authorized below from subaccounts within the Reserve Subaccount shall be made on a pro rata basis except if the provider of a Reserve Security requires all

cash and investments in the Reserve Subaccount to be withdrawn before draws on the Reserve Security, or unless the City receives an opinion of Bond Counsel to the effect that such pro rata withdrawal is not required to maintain the exclusion of interest on the Parity Bonds then outstanding from gross income for federal income tax purposes.

(i) **Use of Reserve Subaccount for Payment of Debt Service.** In the event of a deficiency in the Principal and Interest Subaccount to meet current installments of either principal (including Sinking Fund Requirements) or interest (including amounts payable under any Parity Payment Agreement), the Director of Finance may make withdrawals of money or proceeds of Reserve Security in the Reserve Subaccount. ***From and after the Reserve Covenant Date, the withdrawals authorized by this paragraph shall be limited to the amounts necessary to meet current installments of either principal (or Sinking Fund Requirements) or interest (including net payments under Parity Payment Agreements) with respect to Covered Parity Bonds.*** Any deficiency created in the Reserve Subaccount by reason of any such withdrawal or claim against a Reserve Security shall then be made up from the ULID Assessments and Net Revenue first available after making necessary provisions for the required payments into the Principal and Interest Subaccount.

(ii) **Application of Funds in Reserve Account.** The money in the Reserve Subaccount may be applied to the payment of the last outstanding Covered Parity Bonds, and when the total amount in the Parity Bond Account (including investment earnings) equals the total amount of principal and interest for all then-outstanding Covered Parity Bonds to the last maturity thereof, no further payment need be made into the Parity Bond Account in respect of the Covered Parity Bonds. Money in the Reserve Subaccount (including investment earnings) in excess of the Reserve Requirement may be withdrawn and deposited in the Principal and Interest Subaccount and spent for the purpose of retiring Covered Parity Bonds or may be deposited in any other fund or account and spent for any other lawful Drainage and Wastewater System purpose.

(c) **Investment of Money in Parity Bond Account.** All money in the Parity Bond Account may be kept in cash or invested in Permitted Investments maturing not later than the date when needed (for investments

in the Principal and Interest Subaccount) or the last maturity of any outstanding Parity Bonds (for investments in the Reserve Subaccount). In no event shall any money in the Parity Bond Account or any other money reasonably expected to be used to pay principal of and/or interest on the Parity Bonds be invested at a yield which would cause any Series issued as Tax-Exempt Bonds or Tax Credit Subsidy Bonds to be arbitrage bonds within the meaning of Section 148 of the Code. Income from investments in the Principal and Interest Subaccount shall be deposited in that subaccount. Income from investments in the Reserve Subaccount shall be deposited in that subaccount until the amount therein is equal to the Reserve Requirement for all Parity Bonds, and thereafter shall be deposited in the Principal and Interest Subaccount. Notwithstanding the provisions for deposit or retention of earnings in the Parity Bond Account, any earnings which are subject to a federal tax or rebate requirement may be withdrawn from the Parity Bond Account for deposit in a separate fund or account for that purpose. If no longer required for such rebate, money in that separate fund or account shall be returned to the Parity Bond Account.

(d) **Failure to Deposit Money in Parity Bond Account.** If the City fails to set aside and pay into the Parity Bond Account, or the subaccounts therein, the amounts set forth in this section, the registered owner of any of the outstanding Parity Bonds may bring action against the City for failure to make the required deposits to the Parity Bond Account only in accordance with Section 25 of this ordinance regarding Events of Default.

Section 16. **Parity Bond Covenants.** The City covenants with the Owner of each Bond at any time outstanding, as follows:

(a) **Operation and Maintenance of the Drainage and Wastewater System.** The City will pay all Operating and Maintenance Expense and otherwise meet the obligations of the City under this ordinance. It will at all times maintain and keep the Drainage and Wastewater System in good repair, working order and condition, will make all necessary and proper additions, betterments, renewals and repairs thereto, and improvements, replacements and extensions thereof so that at all times the business carried on in connection therewith will be properly and advantageously conducted, and will at all times operate or cause to be operated

the Drainage and Wastewater System and the business in connection therewith in an efficient manner and at a reasonable cost.

(b) **Establishment and Collection of Rates and Charges.** The City will establish, maintain, revise as necessary, and collect rates and charges for services and facilities provided by the Drainage and Wastewater System so that Adjusted Net Revenue in each fiscal year will be at least equal to the Coverage Requirement. The failure of the City to comply with this subsection shall not be an Event of Default if the City promptly retains an Independent Utility Consultant to recommend to the City Council adjustments in the rates of the Drainage and Wastewater System necessary to meet the requirements of this subsection and if the City Council adopts the recommended modifications within 180 days of the date the failure became known to the City Council.

(c) **Sale or Disposition of Drainage and Wastewater System.** The City will not sell, lease, mortgage, or in any manner encumber or dispose of all of the property of the Drainage and Wastewater System unless provision is made for the payment into the Parity Bond Account of an amount sufficient to pay the principal of (including redemption premium, if any) and interest on Parity Bonds then outstanding; and it will not sell, lease, mortgage, or in any manner encumber or dispose of (each a “transfer”) any part of the property of the Drainage and Wastewater System that is used, useful and material to the operation thereof, except consistent with one or more of the following:

(i) If provision is made for replacement thereof, or for payment into the Parity Bond Account of the total amount of Gross Revenue received from the portion of the Drainage and Wastewater System transferred, which shall not be less than an amount which shall bear the same ratio to the amount of Parity Bonds then outstanding as the Gross Revenue available for debt service for such outstanding bonds for the 12 months preceding such transfer from the portion of the Drainage and Wastewater System so transferred bears to the Gross Revenue available for debt service for the then outstanding Parity Bonds from the entire Drainage and Wastewater System of the City for the same period. Any such money so paid into the Parity Bond Account

shall be used to retire such Parity Bonds at the earliest possible date; or

(ii) If the aggregate depreciated cost value of the property being transferred under this subsection in any fiscal year comprises no more than 5 percent of the total assets of the Drainage and Wastewater System; or

(iii) If the proceeds from such transfer are used to acquire new useful operating facilities or properties of the Drainage and Wastewater System, or are used to retire outstanding Parity Bonds or other revenue obligations of the Drainage and Wastewater System, and if, at the time of such transfer, the City has on file a certificate of both the Director of Finance and the Director of Seattle Public Utilities (or any officer who succeeds to substantially all of the responsibilities of either office) demonstrating that in their opinion, upon such transfer and the use of proceeds of the transfer as proposed by the City, the remaining facilities of the Drainage and Wastewater System will retain their operational integrity and, based on the financial statements for the most recent fiscal year available, the proposed transfer would not prevent the Drainage and Wastewater System from complying with the Coverage Requirement during the five fiscal years following the fiscal year in which the transfer is to occur. The certificate shall take into account (A) the reduction in revenue and expenses, if any, resulting from the transfer; (B) the use of any proceeds of the transfer for the redemption of Parity Bonds; (C) the estimate of revenue from customers anticipated to be served by any additions to and betterments and extensions of the Drainage and Wastewater System financed in part by the proposed portion of the proceeds of the transfer; and (D) any other adjustment permitted in the preparation of a certificate under subsection 17(b) of this ordinance. Before such a transfer, the City also must obtain confirmation from each of the Rating Agencies to the effect that the rating then in effect will not be reduced or withdrawn upon such transfer.

(d) **Books and Records.** The City will keep proper and separate accounts and records in which complete and separate entries shall be made of all transactions relating to the Drainage and Wastewater System, and it will furnish the Registered Owner(s) of the Bonds or any subsequent Registered Owner(s) thereof, at the written request of such Registered Owner(s), complete operating and income statements of the Drainage and

Wastewater System in reasonable detail covering any fiscal year not more than six months after the close of such fiscal year, and it will grant any Registered Owner(s) of at least 25 percent of the outstanding Bonds the right at all reasonable times to inspect the entire Drainage and Wastewater System and all records, accounts and data of the City relating thereto. Upon request of any Registered Owner of any of the Bonds, it also will furnish to such Registered Owner a copy of the most recently completed audit of the Drainage and Wastewater System's accounts by the State Auditor.

Section 17. **Future Parity Bonds.**

(a) **Issuance of Future Parity Bonds.** The City reserves the right to issue Future Parity Bonds and to enter into Parity Payment Agreements for any lawful purpose of the Drainage and Wastewater System (including for the purpose of refunding a portion of the then-outstanding Parity Bonds) only if, at the time of the issuance of such series of Future Parity Bonds (or upon the effective date of the Parity Payment Agreement), the following conditions are satisfied:

(i) There must be no deficiency in the Parity Bond Account, and no Event of Default with respect to any Parity Bonds shall have occurred and be continuing.

(ii) The Bond Documents must provide that all ULID Assessments shall be paid directly into the Parity Bond Account.

(iii) The Bond Documents must provide for the payment of the principal thereof and the interest thereon out of the Parity Bond Account.

(iv) The Bond Documents must provide for the payment of any Sinking Fund Requirements from money in the Principal and Interest Subaccount.

(v) For each series of Future Parity Bonds that is to be issued as a series of Covered Parity Bonds, the Bond Documents must provide for the deposit into the Reserve Subaccount of an amount, if any, necessary to fund the Reserve Requirement upon the issuance of those Future Parity Bonds (if any), which requirement may be satisfied: (A) by a deposit, made on the Issue Date of such series, of proceeds of that series

of Future Parity Bonds or other money legally available for such purpose; (B) by obtaining one or more Reserve Securities (or a deposit of cash plus Reserve Securities) available to be drawn upon in specific amounts to be paid into the Reserve Subaccount and credited against the deposits required to be maintained in the Reserve Subaccount; or (C) by a deposit of amounts necessary to fund the Reserve Requirement from ULID Assessments and Net Revenue within five years from the date of issuance of those Future Parity Bonds, in five approximately equal annual payments. Immediately prior to the issuance of Future Parity Bonds, amounts then deposited in the Reserve Subaccount shall be valued as determined on the most recent annual financial report of the City applicable to the Drainage and Wastewater System, and the additional amounts, if any, required to be deposited into the Reserve Subaccount to satisfy the Reserve Requirement shall be based on that valuation.

(vi) There must be on file with the City a Parity Certificate as described in subsection (b).

However, if the proposed Future Parity Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Parity Bonds (referred to as the “Refunding Parity Bonds”), no Parity Certificate shall be required as to that portion issued for refunding purposes if the Director of Finance finds and certifies that the Adjusted Annual Debt Service on the refunding portion of the proposed Refunding Parity Bonds is not more than \$5,000 greater than the Adjusted Annual Debt Service on the Parity Bonds to be refunded thereby. Alternatively, Refunding Parity Bonds may be issued upon delivery of a Parity Certificate.

(b) Parity Certificate. A Parity Certificate required under subsection (a)(vi) may be provided as follows:

(i) A certificate may be prepared and signed by the Director of Finance, demonstrating that during any 12 consecutive calendar months out of the immediately preceding 24 calendar months Adjusted Net Revenue was at least equal to the Coverage Requirement for all Parity Bonds plus the Future Parity Bonds proposed to be issued (and assuming that the debt service of the proposed Future Parity Bonds for that 12-month period was the Average Annual Debt Service for those proposed Future Parity Bonds); or

(ii) A certificate may be prepared and signed by both the Director of Finance and the Director of

Seattle Public Utilities (or any officer who succeeds to substantially all of the responsibilities of either office), demonstrating that, in their opinion, Adjusted Net Revenue for the five fiscal years next following the earlier of (A) the end of the period during which interest on those Future Parity Bonds is to be capitalized or, if no interest is capitalized, the fiscal year in which the Future Parity Bonds are issued, or (B) the date on which substantially all the new facilities financed with those Future Parity Bonds are expected to commence operations, such Adjusted Net Revenue, further adjusted as provided in subsections (b)(ii)(1) through (4), will be at least equal to the Coverage Requirement. That certificate may take into account the following adjustments:

(1) Any changes in rates in effect and being charged, or rates expected to be charged in accordance with a program of specific rates, rate levels or increases in overall rate revenue approved by ordinance or resolution;

(2) Net revenue from customers of the Drainage and Wastewater System who have become customers during the 12-consecutive-month period or thereafter, and their estimate of net revenue from any customers to be connected to the Drainage and Wastewater System who have paid the required connection charges, adjusted to reflect one year's net revenue from those customers;

(3) Their estimate of net revenue from customers anticipated to be served by facilities or improvements financed in substantial part by those Future Parity Bonds (or additional Parity Bonds expected to be issued during the five-year period); and

(4) Net revenue from any person, firm, corporation or municipal corporation under any executed contract for drainage and wastewater or other utility service, which revenue was not included in historical Net Revenue of the Drainage and Wastewater System.

(c) **Other Provisions.** Nothing contained in this ordinance shall prevent the City from issuing Future Parity Bonds to refund maturing Parity Bonds, money for the payment of which is not otherwise available, or revenue bonds that are a charge or lien upon Net Revenue subordinate to the charge or lien of the Parity Bonds,

or from pledging to pay Net Revenue and/or assessments levied for ULID improvements constructed from the proceeds of subordinate lien bonds into a bond redemption fund created for the payment of the principal of and interest on subordinate lien bonds.

(d) Effect of Issuance of Future Parity Bonds. If the Parity Conditions are met and complied with at the time of the issuance of such Future Parity Bonds, then payments into the Parity Bond Fund with respect to such Future Parity Bonds shall rank equally with the payments out of the Net Revenue required to be made into the Parity Bond Fund by this ordinance. Nothing set forth herein shall prevent the City from (i) issuing revenue bonds or other obligations that are a charge upon the Net Revenue junior and inferior to the payments required to be made therefrom into the Parity Bond Fund for the payment of the Parity Bonds, provided that such subordinate bonds may not be subject to acceleration under any circumstances; or (ii) issuing Refunding Parity Bonds for the purpose of refunding Outstanding Parity Bonds, upon compliance with the Parity Conditions set forth in this section.

(e) Reserve Requirement; Election Not to Designate Bonds as Covered Parity Bonds.

Notwithstanding anything in this section to the contrary, the City may elect, by reflecting such election in the Bond Sale Terms relating to the issuance or sale of a series of Future Parity Bonds, that, from and after the Reserve Covenant Date, such series shall not be deemed to be a series of Covered Parity Bonds, shall not be secured by the amounts in the Reserve Account, and shall be excluded from the calculation of the Reserve Requirement.

Section 18. **Rate Stabilization Account.** The Rate Stabilization Account has been created as a separate account in the Drainage and Wastewater Fund. The City may at any time, as determined by the Director of Finance and consistent with the flow of funds set forth in Section 14 of this ordinance, deposit in the Rate Stabilization Account Gross Revenue and any other money received by the Drainage and Wastewater System and available for this purpose. The Director of Finance may, upon authorization by the City Council, withdraw any or all of the money in the Rate Stabilization Account for inclusion in Adjusted Gross Revenue for any fiscal

year of the City. Such deposits or withdrawals may be made up to and including the date 90 days after the end of the fiscal year for which the deposit or withdrawal will be included as Adjusted Gross Revenue. No deposit of Gross Revenue may be made into the Rate Stabilization Account to the extent that such deposit would prevent the City from meeting the Coverage Requirement in the relevant fiscal year.

Section 19. **Separate Utility Systems.** The City may create, acquire, construct, finance, own and operate one or more additional systems for drainage and wastewater service or other commodity or service relating to the Drainage and Wastewater System. The revenue of that separate utility system shall not be included in Gross Revenue and may be pledged to the payment of revenue obligations issued to purchase, construct, condemn or otherwise acquire or expand the separate utility system. Neither Gross Revenue nor Net Revenue shall be pledged by the City to the payment of any obligations of a separate utility system except (a) as a Contract Resource Obligation, upon compliance with Section 20 of this ordinance, or (b) with respect to the Net Revenue, on a basis subordinate to the lien of the Parity Bonds on that Net Revenue.

Section 20. **Contract Resource Obligations.** The City may at any time enter into one or more Contract Resource Obligations for the acquisition, from facilities to be constructed, of drainage and wastewater services or other commodity or service relating to the Drainage and Wastewater System, as follows:

(a) The City may determine that, and may agree under a Contract Resource Obligation to provide that, all payments under that Contract Resource Obligation (including payments prior to the time that drainage and wastewater services or other commodity or service is being provided, or during a suspension or after termination of supply or service) shall be an Operating and Maintenance Expense if the following requirements are met at the time such a Contract Resource Obligation is entered into:

(i) No Event of Default has occurred and is continuing; and

(ii) There shall be on file a certificate of an Independent Utility Consultant stating that (A) the payments to be made by the City in connection with the Contract Resource Obligation are reasonable for the commodity or service rendered; (B) any facilities to be constructed to provide the commodity or service are

sound from a drainage and wastewater services or other commodity or service planning standpoint, are technically and economically feasible in accordance with prudent utility practice, and are likely to provide such commodity or service no later than a date set forth in the Independent Utility Consultant's certification; and (C) Adjusted Net Revenue (further adjusted by the Independent Utility Consultant's estimate of the payments to be made in accordance with the Contract Resource Obligation) for the five fiscal years following the year in which the Contract Resource Obligation is incurred, as such Adjusted Net Revenue is estimated by the Independent Utility Consultant in accordance with the provisions of and adjustments permitted in subsection 17(b) of this ordinance, will be at least equal to the Coverage Requirement.

(b) Payments required to be made under Contract Resource Obligations shall not be subject to acceleration.

(c) Nothing in this section shall be deemed to prevent the City from entering into other agreements for the acquisition of drainage and wastewater services or other commodity or service from existing facilities and from treating those payments as an Operating and Maintenance Expense. Nothing in this section shall be deemed to prevent the City from entering into other agreements for the acquisition of drainage and wastewater services or other commodity or service from facilities to be constructed and from agreeing to make payments with respect thereto, such payments constituting a charge and lien on Net Revenue subordinate to that of the Parity Bonds.

Section 21. **Refunding and Defeasance of the Bonds.**

(a) **Bonds Designated as Refundable and Defeasible Bonds.** Each Series of the Bonds is designated as a series of "Refundable Bonds" for purposes of the Omnibus Refunding Ordinance and as "Defeasible Bonds" for purposes of the Omnibus Defeasance Ordinance.

(b) **Refunding; Defeasance.** The City may issue Refunding Parity Bonds pursuant to the laws of the State or use money available from any other lawful source (i) to pay when due the principal of (including premium, if any) and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan

(the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement, or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in Net Revenue and the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal of and interest or redemption price on the Defeased Bonds from the Trust Account. After establishing and fully funding such a Trust Account, the Defeased Bonds shall be deemed to be no longer outstanding, and the Director of Finance may then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) Notice of Defeasance or Refunding. Unless otherwise specified in the Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

(d) Annual Debt Service Calculation Adjustments for Defeased Bonds. If the refunding or defeasance plan provides (i) that the Defeased Bonds (or the Refunding Parity Bonds issued to redeem those Defeased Bonds) are to be secured by money and/or Government Obligations pending the redemption of the Defeased Bonds, and (ii) that certain money and/or Government Obligations are pledged irrevocably for the redemption of the Defeased Bonds, then only the debt service on such Bonds as are not Defeased bonds (and any Refunding Parity Bonds, the payment of which is not so secured by the refunding plan) shall be included in the calculation of Annual Debt Service.

Section 22. **Provisions Relating to Federal Tax Issues.** The Bond Documents may include such

additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions, consistent with the terms of such Series as set forth in the applicable Bond Documents that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it will neither take any action nor make or permit any use of gross proceeds of that Series (or other funds of the City treated as gross proceeds of that Series) at any time during the term of such Series that will cause interest on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Series from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the City, all as the Director may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreement may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Series otherwise become and remain eligible for tax benefits under the Code.

Section 23. **Official Statement; Continuing Disclosure.**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12. The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that has been deemed final in accordance with this subsection.

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each sale of one or more Series to be sold to the public in the form of the preliminary official statement with such modifications and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director of Finance to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached to this ordinance as Exhibit B.

Section 24. **Supplemental or Amendatory Bond Documents.** This ordinance and the other applicable Bond Documents for any particular Series of the Bonds may not be supplemented or amended in any respect subsequent to the Issue Date of such Series, except in accordance with and subject to the provisions of this section.

(a) **Amendments Without Bond Owner Consent.** From time to time and at any time, without the consent of or notice to any owners of Parity Bonds, the City may supplement or amend the Bond Documents

applicable to any Series of the Bonds for any of the purposes set forth in this subsection (a). Any such supplement or amendment may be passed, adopted, or otherwise approved by the City, without requiring the consent of the registered owners of any Parity Bonds, but may become effective only upon receipt by the City of an opinion of Bond Counsel stating that such supplement or amendment is authorized or permitted by this ordinance and, upon the effective date thereof, will be valid and binding upon the City in accordance with its terms, and will not adversely affect the exclusion from gross income for federal income tax purposes of interest on the affected Series of the Bonds, if such Series was issued and sold as Tax-Exempt Bonds. The types of supplements and amendments permitted under this subsection (a) are as follows:

(i) To cure any formal defect, omission, inconsistency, or ambiguity in the Bond Documents for such Series in a manner not adverse to the owners of any Parity Bonds;

(ii) To impose upon the Bond Registrar (with its consent) for the benefit of the owners of Parity Bonds any additional rights, remedies, powers, authority, security, liabilities, or duties which may lawfully be granted, conferred, or imposed and which are not contrary to or inconsistent with such Bond Documents as theretofore in effect;

(iii) To add to the covenants and agreements of, and limitations and restrictions upon, the City in the Bond Documents, other covenants, agreements, limitations and restrictions to be observed by the City which are not contrary to or inconsistent with such Bond Documents as theretofore in effect;

(iv) To confirm, as further assurance, any pledge under (and the subjection to any claim, lien, or pledge created or to be created by) such Bond Documents on any other money, securities, or funds;

(v) To alter the Authorized Denominations of a Series of the Bonds and to make correlative amendments and modifications to the applicable Bond Documents regarding (A) exchangeability of such Bonds for Bonds of different authorized denominations, (B) redemptions of portions of Bonds of particular authorized denominations, and (C) similar amendments and modifications of a technical nature;

(vi) To comply with any future federal law or interpretation to preserve the exclusion of the

interest on any Series of the Bonds issued and sold as Tax-Exempt Bonds from gross income for federal income tax purposes and the entitlement of the City to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series of the Bonds issued and sold as Tax Credit Subsidy Bonds;

(vii) To modify, alter, amend, or supplement the Bond Documents in any other respect which is not materially adverse to the owners of the Parity Bonds and does not involve a change described in subsection (c); and

(viii) To add to the covenants and agreements of (or limitations and restrictions upon) the City set forth in any Bond Documents, such additional or alternative covenants, agreements, limitations, or restrictions to be observed by the City as the City may determine are necessary or convenient to accommodate a provider of Qualified Insurance or provider of a Reserve Security and are not materially adverse to the owners of the Parity Bonds.

(b) Amendments With Bond Owner Consent. With the consent of registered owners of not less than 60 percent in aggregate principal amount of the Parity Bonds then outstanding, the City may pass, adopt, or otherwise approve any supplement or amendment (other than amendments requiring unanimous consent as set forth in subsection (c)) to any Bond Document that is deemed necessary or desirable by the City for the purpose of modifying, altering, amending, supplementing, or rescinding, in any particular, any of the terms or provisions contained in such Bond Document other than those terms and provisions described in subsection (c).

(c) Amendments Prohibited Except Upon Unanimous Consent. Unless approved in writing by or on behalf of the registered owner of each Parity Bond then outstanding, nothing contained in this section shall permit, or be construed as permitting (i) a change in the times, amounts, or currency of payment of the principal of or interest on any outstanding Parity Bond, (ii) a reduction in the principal amount or redemption price of any outstanding Parity Bond, (iii) a change in the method of determining the rate of interest thereon (other than a conversion to a new interest rate made in accordance with the applicable Bond Documents), (iv) a preference or priority of any Parity Bond over any other Parity Bond, or (v) a reduction in the percentage of the aggregate

principal amount of the then-outstanding Parity Bonds required to effect a change under subsection (b).

(d) **Notice to Bond Owners.** If at any time the City passes, adopts, or otherwise approves a supplement or amendment for any of the purposes of subsection (b) or (c), the Bond Registrar shall cause notice of the proposed supplement or amendment to be given by first class mail (i) to all registered owners of the then outstanding Parity Bonds, (ii) to each provider of Bond Insurance or a Reserve Security, and (iii) to each Rating Agency. Such notice shall briefly set forth the nature of the proposed supplement or amendment and shall state that a copy is on file at the office of the City Clerk for inspection by all owners of the then outstanding Parity Bonds.

(e) **Effective Date; Consents.** Any supplement or amendment, substantially as described in the notice mailed pursuant to subsection (d), may go into effect upon delivery to the Bond Registrar of (i) the required consents, in writing, of registered owners of the Parity Bonds, and (ii) an opinion of Bond Counsel stating that such supplement or amendment is authorized or permitted by this ordinance. Upon the effective date thereof, such supplement or amendment will be valid and binding upon the City in accordance with its terms and will not adversely affect the exclusion from gross income for federal income tax purposes of interest on any Tax-Exempt Bonds.

If registered owners of not less than the percentage of Parity Bonds required by this section shall have consented to and approved such a supplement or amendment, no owner of any Parity Bond shall have any right (i) to object to the passage, adoption, or approval of such supplement or amendment, (ii) to object to any of the terms and provisions contained therein or the operation thereof, (iii) in any manner to question the propriety of the passage, adoption, or approval thereof, (iv) to enjoin or restrain the City from passing, adopting, or otherwise approving the same, or (v) to enjoin or restrain the City, any authorized official thereof, or the Bond Registrar from taking any action pursuant to the provisions thereof. For purposes of determining whether consents representing the requisite percentage of principal amount of Parity Bonds have been obtained, the Accreted Value of Capital Appreciation Bonds shall be deemed to be the principal amount. It shall not be

necessary to obtain approval of the particular form of any proposed supplement, but it shall be sufficient if the consent shall approve the substance thereof.

(f) **Effect of Amendment.** Upon the effective date of any supplement or amendment, this ordinance (or the relevant Bond Document, if not set forth herein) shall be deemed to be modified and amended in accordance therewith, and the respective rights, duties and obligations of the City and all owners of Parity Bonds then outstanding shall thereafter be determined, exercised, and enforced in accordance with and subject in all respects to such modifications and amendments. All the terms and conditions of any such supplement or amendment shall be deemed to be a part of this ordinance and the Bond Documents for any and all purposes.

(g) **Special Amendments.** If and to the extent that it is determined that the written consent of Registered Owners of the Bonds is required under subsection (b) or (c) of this section, the Registered Owners from time to time of the Bonds, by taking and holding the same, are deemed to have consented to any supplement or amendment to the Bond Documents effecting any one or more of the following changes:

(i) When calculating “Annual Debt Service,” to permit or require Tax Credit Subsidy Payments expected to be received by the City in any period to be credited against amounts required to be paid in respect of interest on the Parity Bonds in that period; and

(ii) To permit or require Tax Credit Subsidy Payments to be deposited into the Principal and Interest Subaccount and credited against the Net Revenue otherwise required to be deposited into the Principal and Interest Subaccount; and

(iii) To permit the reimbursement obligations of the City under any Qualified Letter of Credit or Qualified Insurance (other than a Qualified Letter of Credit or Qualified Insurance obtained to satisfy all or part of the Reserve Requirement) to be secured by a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Parity Bond Account to pay and secure the payment of the principal of and interest on Parity Bonds.

Section 25. **Defaults and Remedies.**

(a) **Events of Default.** Each of the following shall constitute an Event of Default with respect to the Bonds:

(i) If a default is made in the payment of the principal of or interest on any of the Bonds when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the covenants, conditions and agreements on the part of the City set forth in this ordinance or the applicable Bond Documents (except as otherwise provided herein or in such Bond Documents) and such default or defaults have continued for a period of six months after the City has received from the Bond Owners' Trustee (as defined below) or from the registered owners of not less than 25 percent in principal amount of the Parity Bonds a written notice specifying and demanding the cure of such default. However, if the default in the observance and performance of any other of the covenants, conditions and agreements is one which cannot be completely remedied within the six months after written notice has been given, it shall not be an Event of Default with respect to the Bonds as long as the City has taken active steps within the six months after written notice has been given to remedy the default and is diligently pursuing such remedy.

Notwithstanding anything in this section to the contrary, the failure of the City or any obligated person to comply with the Continuing Disclosure Agreement shall not constitute an Event of Default, and the sole remedy of any holder of a Bond shall be to seek an order of specific performance from an appropriate court to compel the City to comply with the Continuing Disclosure Agreement.

(b) **Bond Owners' Trustee.** So long as such Event of Default has not been remedied, a trustee (the "Bond Owners' Trustee") may be appointed by the registered owners of 25 percent in principal amount of the then outstanding Parity Bonds, by an instrument or concurrent instruments in writing signed and acknowledged by such registered owners of the Parity Bonds or by their attorneys-in-fact duly authorized and delivered to such Bond Owners' Trustee, notification thereof being given to the City. That appointment shall become effective immediately upon acceptance thereof by the Bond Owners' Trustee. Any Bond Owners' Trustee

appointed under the provisions of this subsection shall be a bank or trust company organized under the laws of the State of Washington or the State of New York or a national banking association. The bank or trust company acting as Bond Owners' Trustee may be removed at any time, and a successor Bond Owners' Trustee may be appointed, by the registered owners of a majority in principal amount of the Parity Bonds, by an instrument or concurrent instruments in writing signed and acknowledged by such registered owners of the Parity Bonds or by their attorneys-in-fact duly authorized. The Bond Owners' Trustee may require such security and indemnity as may be reasonable against the costs, expenses and liabilities that may be incurred in the performance of its duties.

In the event that any Event of Default in the sole judgment of the Bond Owners' Trustee is cured and the Bond Owners' Trustee furnishes to the City a certificate so stating, that Event of Default shall be conclusively deemed to be cured and the City, the Bond Owners' Trustee and the registered owners of the Parity Bonds shall be restored to the same rights and position which they would have held if no Event of Default had occurred.

The Bond Owners' Trustee appointed in the manner provided in this ordinance, and each successor thereto, is declared to be a trustee for the registered owners of all the Parity Bonds and is empowered to exercise all the rights and powers herein conferred on the Bond Owners' Trustee.

(c) Suits at Law or in Equity. Upon the occurrence of an Event of Default and during the continuance thereof, the Bond Owners' Trustee may, and upon the written request of the registered owners of not less than 25 percent in principal amount of the Parity Bonds outstanding shall, take such steps and institute such suits, actions or other proceedings, all as it may deem appropriate for the protection and enforcement of the rights of the registered owners of the Parity Bonds, to collect any amounts due and owing to or from the City, or to obtain other appropriate relief, and may enforce the specific performance of any covenant, agreement or condition contained in this ordinance or set forth in any of the Parity Bonds.

Nothing contained in this section shall, in any event or under any circumstance, be deemed to authorize the acceleration of the maturity of principal on the Parity Bonds, and the remedy of acceleration is expressly

denied to the registered owners of the Parity Bonds under any circumstances including, without limitation, upon the occurrence and continuance of an Event of Default.

Any action, suit or other proceedings instituted by the Bond Owners' Trustee hereunder shall be brought in its name as the Bond Owners' Trustee and all such rights of action upon or under any of the Parity Bonds or the provisions of this ordinance may be enforced by the Bond Owners' Trustee without the possession of any of those Parity Bonds and without the production of the same at any trial or proceedings relative thereto except where otherwise required by law. Any such suit, action or proceeding instituted by the Bond Owners' Trustee shall be brought for the ratable benefit of all of the registered owners of those Parity Bonds, subject to the provisions of this ordinance. The respective registered owners of the Parity Bonds, by taking and holding the same, shall be conclusively deemed irrevocably to appoint the Bond Owners' Trustee the true and lawful trustee of the respective registered owners of those Parity Bonds, with authority to institute any such action, suit or proceeding; to receive as trustee and deposit in trust any sums becoming distributable on account of those Parity Bonds; to execute any paper or documents for the receipt of money; and to do all acts with respect thereto that the registered owner might have done in person. Nothing in this ordinance shall be deemed to authorize or empower the Bond Owners' Trustee to consent to accept or adopt, on behalf of any owner of the Parity Bonds, any plan of reorganization or adjustment affecting the Parity Bonds or any right of any registered owner thereof, or to authorize or empower the Bond Owners' Trustee to vote the claims of the registered owners thereof in any receivership, insolvency, liquidation, bankruptcy, reorganization or other proceeding to which the City is a party.

(d) Application of Money Collected by Bond Owners' Trustee. Any money collected by the Bond Owners' Trustee at any time pursuant to this section shall be applied in the following order of priority:

- (i) to the payment of the charges, expenses, advances and compensation of the Bond Owners' Trustee and the charges, expenses, counsel fees, disbursements and compensation of its agents and attorneys;
- (ii) to the payment to the persons entitled thereto of all installments of interest then due on the

Parity Bonds in the order of maturity of such installments and, if the amount available shall not be sufficient to pay in full any installment or installments maturing on the same date, then to the payment thereof ratably, according to the amounts due thereon to the persons entitled thereto, without any discrimination or preference; and

(iii) to the payment to the persons entitled thereto of the unpaid principal amounts of any Parity Bonds which shall have become due (other than Parity Bonds previously called for redemption for the payment of which money is held pursuant to the provisions of the applicable Bond Documents), whether at maturity or by proceedings for redemption or otherwise, in the order of their due dates and, if the amount available shall not be sufficient to pay in full the principal amounts due on the same date, then to the payment thereof ratably, according to the principal amounts due thereon to the persons entitled thereto, without any discrimination or preference.

(e) Duties and Obligations of Bond Owners' Trustee. The Bond Owners' Trustee shall not be liable except for the performance of such duties as are specifically set forth herein. During an Event of Default, the Bond Owners' Trustee shall exercise such of the rights and powers vested in it hereby, and shall use the same degree of care and skill in its exercise, as a prudent person would exercise or use under the circumstances in the conduct of such person's own affairs. The Bond Owners' Trustee shall have no liability for any act or omission to act hereunder except for the Bond Owners' Trustee's own negligent action, its own negligent failure to act or its own willful misconduct. The duties and obligations of the Bond Owners' Trustee shall be determined solely by the express provisions of this ordinance, and no implied powers, duties or obligations of the Bond Owners' Trustee shall be read into this ordinance.

The Bond Owners' Trustee shall not be required to expend or risk its own funds or otherwise incur individual liability in the performance of any of its duties or in the exercise of any of its rights or powers as the Bond Owners' Trustee, except as may result from its own negligent action, its own negligent failure to act or its own willful misconduct.

The Bond Owners' Trustee shall not be bound to recognize any person as a registered owner of any Parity Bond until registered ownership, if disputed, has been established to its reasonable satisfaction.

The Bond Owners' Trustee may consult with counsel and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance with the opinion of such counsel. The Bond Owners' Trustee shall not be answerable for any neglect or default of any person, firm or corporation employed and selected by it with reasonable care.

(f) Suits by Individual Parity Bond Owners Restricted. No owner of any one or more Parity Bonds shall have any right to institute any action, suit or proceeding at law or in equity for the enforcement of same unless:

(i) an Event of Default has happened and is continuing; and

(ii) a Bond Owners' Trustee has been appointed; and

(iii) such owner previously shall have given to the Bond Owners' Trustee written notice of the Event of Default on account of which such suit, action or proceeding is to be instituted; and

(iv) the registered owners of 25 percent in principal amount of the Parity Bonds, after the occurrence of such Event of Default, have made written request of the Bond Owners' Trustee and have afforded the Bond Owners' Trustee a reasonable opportunity to institute such suit, action or proceeding; and

(v) there have been offered to the Bond Owners' Trustee security and indemnity satisfactory to it against the costs, expenses and liabilities to be incurred therein or thereby; and

(vi) the Bond Owners' Trustee has refused or neglected to comply with such request within a reasonable time.

No owner of any Parity Bond shall have any right in any manner whatever by action to affect or impair the obligation of the City to pay from Net Revenue the principal of and interest on such Parity Bonds to the respective registered owners thereof when due.

Section 26. **General Authorization.** In addition to the specific authorizations in this ordinance, the

Mayor and the Director of Finance and each of the other appropriate officers of the City are each authorized and directed to do everything as such officer may judge necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

(a) The Director of Finance, in the Director's discretion and without further action by the City Council, (i) may issue requests for proposals to provide underwriting services or financing facilities (including, without limitation, Qualified Insurance, a Qualified Letter of Credit, or other credit support or liquidity facility), and may execute engagement letters and other agreements with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests; (ii) may select and make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; (iii) may take any and all actions necessary or convenient to provide for the conversion of interest rate modes for any Series in accordance with the applicable Bond Documents; and (iv) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and the Director of Finance are each separately authorized to execute and deliver (i) any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is necessary or to which the City is a party (including but not limited to agreements with escrow agents, refunding or defeasance trustees, liquidity or credit support providers, providers of Qualified Insurance or Reserve Securities, remarketing agents, underwriters, lenders or other financial institutions, fiscal or paying agents, Qualified Counterparties, custodians, and the Bond Registrar); and (ii) such other contracts or documents incidental to: the issuance and sale of any Series of the Bonds; the establishment of the interest rate or rates on

a Bond; or the conversion, tender, purchase, remarketing, or redemption of a Bond, as may in the judgment of the Mayor or Director of Finance, as applicable, be necessary or appropriate.

Section 27. **Amendment of Omnibus Refunding Ordinance**. The following definition in the Omnibus Refunding Ordinance is amended to read as set forth in this section. Amendments are shown as revisions to Ordinance 125455, and amendments are marked using double underlining to indicate added text and using double parentheses and strikethrough formatting to indicate deleted text.

(a) **Amendments to Section 1**. The following definition is amended as follows:

* * *

“Refundable Bonds” means ~~((each))~~ any series of Parity Bonds or outstanding subordinate obligations of the Drainage and Wastewater System that have been designated, or may in the future be designated, as refundable under this ordinance. For purposes of the Omnibus Refunding Ordinance, the outstanding State loans listed on Exhibit C to this amendatory ordinance, and all future loan agreements entered into pursuant to chapter 39.69 RCW, are designated as Refundable Bonds.

* * *

(b) The amendments set forth in this section are intended to supplement the Omnibus Refunding Ordinance in a manner that is not materially adverse to the owners of the Outstanding Parity Bonds. Nonetheless, any amendment set forth in this section that is found by a court of competent jurisdiction to materially adversely affect owners of outstanding Parity Bonds shall be of no force or effect, and the provisions of the Omnibus Refunding Ordinance prior to the effective date of this amendatory ordinance shall continue in effect as to such outstanding Parity Bonds.

Section 28. **Severability**. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of

this ordinance or the validity of its application to other persons or circumstances.

Section 29. **Ratification of Prior Acts.** Any action consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 30. **Section Headings.** Section headings in this ordinance are nonsubstantive.

Section 31. **Effective Date.** This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

EXHIBIT B

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”) makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Drainage and Wastewater System Revenue Bonds, [Year] [Series] (the “Bonds”), for the sole purpose of assisting the underwriter for the Bonds in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data regarding the Municipal Light and Power System (the “Light System”) of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB) or other material notices

1 or determinations with respect to the tax status of the Bonds, or other material events affecting the tax
2 status of the Bonds; (7) modifications to rights of holders of the Bonds, if material; (8) Bond calls
3 (other than scheduled mandatory redemptions of Term Bonds), if material, and tender offers;
4 (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if
5 material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the City, as
6 such “Bankruptcy Events” are defined in the Rule; (13) the consummation of a merger, consolidation,
7 or acquisition involving the City or the sale of all or substantially all of the assets of the City other than
8 in the ordinary course of business, the entry into a definitive agreement to undertake such an action or
9 the termination of a definitive agreement relating to any such actions, other than pursuant to its terms,
10 if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if
11 material; (15) incurrence of a financial obligation of the City, if material, or agreement to covenants,
12 events of default, remedies, priority rights, or other similar terms of a financial obligation of the City,
13 any of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
14 termination event, modification of terms, or other similar event under the terms of a financial obligation
15 of the City, any of which reflect financial difficulties.

16 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
17 obligation; derivative instrument entered into in connection with, or pledged as security or a source of
18 payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation or a
19 derivative instrument entered into in connection with, or pledged as security or a source of payment
20 for, an existing or planned debt obligation. The term “financial obligation” does not include municipal
21 securities as to which a final official statement has been provided to the MSRB consistent with the
22 Rule.

23 (iii) Timely notice of a failure by the City to provide required annual financial
24 information on or before the date specified in subsection (b) of this section.

1 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
2 financial information and operating data that the City undertakes to provide in subsection (a) of this
3 section:

4 (i) Shall consist of (1) annual financial statements of the Drainage and Wastewater
5 System prepared in accordance with applicable generally accepted accounting principles applicable to
6 governmental units (except as otherwise noted herein), as such principles may be changed from time
7 to time and as permitted by applicable state law; (2) a statement of outstanding bonded debt secured
8 by Revenues of the Drainage and Wastewater System; (3) debt service coverage ratios; (4) general
9 customer statistics, such as number and type of customers and revenues by customer class; and
10 (5) current drainage rates and wastewater rates;

11 (ii) Shall be provided not later than the last day of the ninth month after the end of
12 each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year may be
13 changed as required or permitted by state law, commencing with the City's fiscal year ending
14 December 31, 20__; and

15 (iii) May be provided in a single document or multiple documents, and may be
16 incorporated by specific reference to documents available to the public on the Internet website of the
17 MSRB or filed with the Securities and Exchange Commission.

18 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
19 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any
20 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
21 under the circumstances and in the manner permitted by the Rule, including:

22 (i) The amendment may only be made in connection with a change in
23 circumstances that arises from a change in legal requirements, change in law, or change in the identity,
24 nature, or status of the City, or type of business conducted by the City;

1 (ii) The Undertaking, as amended, would have complied with the requirements of
2 the Rule at the time of the primary offering, after taking into account any amendments or interpretations
3 of the Rule, as well as any change in circumstances; and

4 (iii) The amendment does not materially impair the interests of holders, as
5 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
6 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the Bond
7 Ordinance at the time of the amendment.

8 The City will give notice to the MSRB of the substance (or provide a copy) of any amendment
9 to this Undertaking and a brief statement of the reasons for the amendment. If the amendment changes
10 the type of annual financial information to be provided, the annual financial information containing
11 the amended financial information will include a narrative explanation of the effect of that change on
12 the type of information to be provided.

13 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any Owner
14 of Bonds, and shall not inure to the benefit of or create any rights in any other person.

15 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
16 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
17 addition, the City's obligations under this Undertaking shall terminate if those provisions of the Rule
18 that require the City to comply with this Undertaking become legally inapplicable in respect of the
19 Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or other
20 counsel familiar with federal securities laws delivered to the City, and the City provides timely notice
21 of such termination to the MSRB.

22 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the City
23 learns of any material failure to comply with this Undertaking, the City will proceed with due diligence
24 to cause such noncompliance to be corrected. No failure by the City or other obligated person to comply
25 with this Undertaking shall constitute a default in respect of the Bonds. The sole remedy of any Owner

1 of a Bond shall be to take such actions as that Owner deems necessary, including seeking an order of
2 specific performance from an appropriate court, to compel the City or other obligated person to comply
3 with this Undertaking.

4 (g) Designation of Official Responsible to Administer Undertaking. The Director of
5 Finance of the City (or such other officer of the City who may in the future perform the duties of that
6 office) or his or her designee is the person designated, in accordance with the Bond Ordinance, to carry
7 out this Undertaking of the City in respect of the Bonds set forth in this section and in accordance with
8 the Rule, including, without limitation, the following actions:

9 (i) Preparing and filing the annual financial information undertaken to be
10 provided;

11 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
12 assessing its materiality, where necessary, with respect to the Bonds, and preparing and disseminating
13 any required notice of its occurrence;

14 (iii) Determining whether any person other than the City is an “obligated person”
15 within the meaning of the Rule with respect to the Bonds, and obtaining from such person an
16 undertaking to provide any annual financial information and notice of listed events for that person in
17 accordance with the Rule;

18 (iv) Selecting, engaging and compensating designated agents and consultants,
19 including but not limited to financial advisors and legal counsel, to assist and advise the City in carrying
20 out this Undertaking; and

21 (v) Effecting any necessary amendment of the Undertaking.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing drainage and wastewater system; authorizing the issuance and sale of drainage and wastewater revenue bonds in one or more series for the purposes of paying part of the cost of carrying out that system or plan, providing for the reserve requirement, and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of those bonds; amending certain definitions set forth in Ordinance 125455, the Omnibus Refunding Ordinance; authorizing the issuance of drainage and wastewater system refunding revenue bonds; and ratifying and confirming certain prior acts.

Summary and background of the Legislation:

Prior and concurrent legislation adopting the Drainage and Wastewater Fund (DWF) budget, capital plan, and utility rates make specific assumptions about the use of debt financing a share of the Fund's capital program. However, separate authorization specifically for the issuance of bonds is technically required. This legislation amends Ordinance 125454 by increasing borrowing authority for the DWF.

The DWF intends to issue \$88 million of 30-year fixed rate debt in the third quarter of 2022. These funds, in addition to existing WIFIA and SRF loans, and internally generated funds, will support the DWF capital program for roughly one year. Bond proceeds will also be used to pay for issuance costs and may also be used to make a deposit to the Debt Service Reserve Fund, as per existing bond covenants, if required. No debt service payments are expected in 2022. The estimated annual debt service is \$5.7 million starting in 2023.

Major projects supported by the bond issue include: combined sewer overflows, rehabilitation of existing assets, flooding and sewer backup management, and projects related to Move Seattle, the waterfront, and information technology. For further information about the Drainage and Wastewater capital projects, please see the SPU's 2022 - 2027 Strategic Business Plan and 2022 - 2027 capital plan. Bond funds, though fungible, will not be used to pay for the Ship Canal Water Quality Project, which is funded through WIFIA, SRF, and internally generated funds.

2. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation affects FAS, who coordinates the issuance of the bonds.
- b. **Is a public hearing required for this legislation?**
No
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No
- d. **Does this legislation affect a piece of property?**
No
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
No
- f. **Climate Change Implications**
1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No
 2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the municipal water system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing municipal water system; authorizing the issuance and sale of water system revenue bonds in one or more series for the purposes of paying part of the cost of carrying out that system or plan, providing for the reserve requirement, and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of the bonds; creating certain accounts of the City relating to the bonds; amending certain definitions set forth in Ordinance 125714, the Omnibus Refunding Ordinance; authorizing the issuance of water system refunding revenue bonds; and ratifying and confirming certain prior acts.

WHEREAS, The City of Seattle (the “City”) owns, maintains, and operates a municipal water system as part of Seattle Public Utilities (the “Municipal Water System”), which Municipal Water System has from time to time required various additions, improvements, betterments, and extensions; and

WHEREAS, the City desires to acquire and construct a system or plan of further additions, improvements, and betterments to, and extensions of the Municipal Water System (the “Plan of Additions”) as described in this ordinance, and needs to borrow funds to pay a portion of the costs of carrying out such Plan of Additions; and

WHEREAS, the City currently has outstanding certain water system revenue bonds (as identified in Exhibit A to this ordinance, the “Outstanding Parity Bonds”). Pursuant to the ordinances authorizing their issuance (the “Outstanding Parity Bond Ordinances”), the City reserved the right to issue additional bonds (“Future Parity Bonds”) having a charge and lien on the net revenue of the Municipal Water System on a parity of lien with those Outstanding Parity Bonds, and is permitted to issue such Future Parity Bonds upon satisfaction of certain conditions (the “Parity Conditions”); and

WHEREAS, the City has determined that it is in the best interest of the City and its ratepayers to authorize the issuance and sale, subject to the provisions of this ordinance, of water system revenue bonds as Parity Bonds to pay part of the cost of carrying out the Plan of Additions, to provide for the reserve requirement, and to pay the costs of issuance of those bonds; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. **Definitions.** In this ordinance, the following capitalized terms shall have the meanings set forth in this section:

“**Accreted Value**” means, with respect to any Capital Appreciation Bond, (a) as of any Valuation Date, the amount determined for such Valuation Date in accordance with the applicable Parity Bond Documents, and (b) as of any date other than a Valuation Date, the sum of (i) the Accreted Value on the preceding Valuation Date and (ii) the product of (A) a fraction, the numerator of which is the number of days having elapsed from the preceding Valuation Date and the denominator of which is the number of days from such preceding Valuation Date to the next succeeding Valuation Date, calculated based on the assumption that Accreted Value accrues during any semiannual period in equal daily amounts on the basis of a year of 12 30-day months, and (B) the difference between the Accreted Values for such Valuation Dates.

“**Adjusted Annual Debt Service**” for any fiscal year means Annual Debt Service minus (a) an amount equal to ULID Assessments due in that year and not delinquent, (b) an amount equal to earnings from investments in the Reserve Subaccount, and (c) Annual Debt Service provided for by Parity Bond proceeds.

“**Adjusted Gross Revenue**” means, for any period, Gross Revenue (a) plus withdrawals from the Rate Stabilization Account made during that period, and (b) minus ULID Assessments collected, earnings from investments in the Reserve Subaccount, and deposits into the Rate Stabilization Account made during that period.

“**Adjusted Net Revenue**” means Adjusted Gross Revenue less Operating and Maintenance Expense.

“**Annual Debt Service**” for any calendar year means the sum of the amounts required in such calendar

year to pay the interest due in such calendar year on all Parity Bonds outstanding, excluding interest to be paid from the proceeds of the sale of Parity Bonds or other bonds; the principal of all outstanding Serial Bonds due in such calendar year; and the Sinking Fund Requirements, if any, for such calendar year. Additionally, for purposes of calculating and determining compliance with the Coverage Requirement, the Reserve Requirement and the conditions for the issuance of Future Parity Bonds and/or entering into Parity Payment Agreements, the following shall apply:

(a) **Calculation of Interest Due Generally.** Except as otherwise provided below, interest on any series of Parity Bonds shall be calculated based on the actual amount of accrued, accreted, or otherwise accumulated interest that is payable in respect of that series taken as a whole, at the rate or rates set forth in the applicable Parity Bond Documents.

(b) **Capital Appreciation Bonds.** For purposes of this definition, the principal and interest portions of the Accreted Value of Capital Appreciation Bonds becoming due at maturity or by virtue of a Sinking Fund Requirement shall be included in the calculations of accrued and unpaid and accruing interest or principal in such manner and during such period of time as is specified in the Parity Bond Documents applicable to such Capital Appreciation Bonds.

(c) **Variable Interest Rate Bonds.** The amount of interest deemed to be payable on any series of Variable Interest Rate Bonds shall be calculated on the assumption that the interest rate on those bonds would be equal to the rate that is 90 percent of the average RBI during the four calendar quarters preceding the quarter in which the calculation is made.

(d) **Interest on Parity Bonds With Respect to Which a Payment Agreement is in Force.** Debt service on Parity Bonds with respect to which a Payment Agreement is in force shall be based on the net economic effect on the City expected to be produced by the terms of the Parity Bonds and the terms of the Payment Agreement. For example, if the net economic effect of the Payment Agreement and a series of Parity Bonds otherwise bearing interest at a variable rate is to produce an obligation bearing interest at a fixed interest

rate, the relevant series of bonds shall be treated as fixed interest rate bonds. And if the net economic effect of the Payment Agreement and a series of Parity Bonds otherwise bearing interest at a fixed rate is to produce an obligation bearing interest at a variable interest rate, the relevant series of bonds shall be treated as Variable Interest Rate Bonds. Accordingly, the amount of interest deemed to be payable on any Parity Bonds with respect to which a Payment Agreement is in force shall be an amount equal to the amount of interest that would be payable at the rate or rates stated in or determined pursuant to the applicable Parity Bond Documents, plus Payment Agreement Payments, minus Payment Agreement Receipts. For the purposes of calculating as nearly as practicable Payment Agreement Receipts and Payment Agreement Payments under a Payment Agreement that includes a variable rate component determined by reference to a pricing mechanism or index that is not the same as the pricing mechanism or index used to determine the variable rate interest component on the Parity Bonds to which the Payment Agreement is related, it shall be assumed that the fixed rate used in calculating Payment Agreement Payments will be equal to 105 percent of the fixed rate specified by the Payment Agreement and that the pricing mechanism or index specified by the Payment Agreement is the same as the pricing mechanism or index specified by the applicable Parity Bond Documents. Notwithstanding the other provisions of this definition, the City shall not be required to (but may in its discretion) take into account in determining Annual Debt Service the effects of any Payment Agreement that has a term of ten years or less.

(e) Parity Payment Agreements. For any period during which Payment Agreement Payments on a Parity Payment Agreement are taken into account in determining Annual Debt Service on related Parity Bonds under paragraph (d) of this definition, no additional debt service shall be taken into account with respect to that Parity Payment Agreement. However, for any Parity Payment Agreement during a period in which Payment Agreement Payments are not taken into account under paragraph (d) because the Parity Payment Agreement is not then related to any outstanding Parity Bonds, payments on that Parity Payment Agreement shall be taken into account as follows:

(i) If City is Obligated to Make Payments Based on Fixed Rate. If the City is obligated to

make Payment Agreement Payments based on a fixed rate and the Qualified Counterparty is obligated to make payments based on a variable rate index, it shall be assumed that payments by the City will be based on the assumed fixed payor rate, and that payments by the Qualified Counterparty will be based on a rate equal to the average rate determined by the variable rate index specified by the Parity Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made.

(ii) **If City is Obligated to Make Payments Based on Variable Rate Index.** If the City is obligated to make Payment Agreement Payments based on a variable rate index and the Qualified Counterparty is obligated to make payments based on a fixed rate, it shall be assumed that payments by the City will be based on a rate equal to the average rate determined by the variable rate index specified by the Parity Payment Agreement during the four calendar quarters preceding the quarter in which the calculation is made, and that the Qualified Counterparty will make payments based on the fixed rate specified by the Parity Payment Agreement.

(f) **Balloon Bonds.** For purposes of calculating debt service on any Balloon Bonds, it shall be assumed that the principal of those Balloon Bonds, together with interest thereon at a rate equal to the assumed RBI-based rate set forth in subsection (c) of this definition, will be amortized in equal annual installments over a term of 30 years.

(g) **Adjustments for Defeased Bonds.** For purposes of calculating and determining compliance with the Coverage Requirement, the Reserve Requirement, and the Parity Conditions, Annual Debt Service shall be adjusted as set forth in subsection 21(d) of this ordinance.

“Authorized Denomination” means \$5,000 or any integral multiple thereof within a maturity of a Series, or such other minimum authorized denomination as may be specified in the applicable Bond Documents.

“Average Annual Debt Service” means, at the time of calculation, the sum of the Annual Debt Service remaining to be paid to the last scheduled maturity of the applicable series of Parity Bonds divided by the

number of years such bonds are scheduled to remain outstanding.

“Balloon Bonds” means any series of Parity Bonds, the aggregate principal amount (including Sinking Fund Requirements) of which becomes due and payable in any calendar year in an amount that constitutes 25 percent or more of the initial aggregate principal amount of such series of Parity Bonds.

“Beneficial Owner” means, with regard to a Bond, the owner of any beneficial interest in that Bond.

“Bond Counsel” means a lawyer or a firm of lawyers, selected by the City, of nationally recognized standing in matters pertaining to bonds issued by states and their political subdivisions.

“Bond Documents” means (a)(i) with respect to any Series of the Bonds, this ordinance (including any amendatory or supplemental ordinances), and (ii) with respect to a series of Parity Bonds other than a Series of the Bonds, the applicable Parity Bond Ordinance(s); (b) the authenticated bond form; and (c) the written agreement(s) setting forth the Bond Sale Terms and additional terms, conditions, or covenants pursuant to which such bond was issued and sold, as set forth in any one or more of the following (if any): (i) a sale resolution, (ii) a bond purchase contract (as defined in the applicable authorizing ordinance), (iii) a bond indenture or a fiscal agent or paying agent agreement (other than the State fiscal agency contract), and (iv) a direct purchase or continuing covenant agreement.

“Bond Insurance” means any municipal bond insurance policy, guaranty, surety bond, or similar credit enhancement device providing for or securing the payment of all or part of the principal of and interest on any Parity Bonds, issued by an insurance company licensed to conduct an insurance business in any state of the United States (or by a service corporation acting on behalf of one or more such insurance companies), or by any other financial institution qualified to provide such credit enhancement device.

“Bond Purchase Contract” means a written offer to purchase a Series of the Bonds pursuant to certain Bond Sale Terms, which offer has been accepted by the City in accordance with this ordinance. In the case of a competitive sale, the Purchaser’s bid for a Series, together with the official notice of sale and a Pricing Certificate confirming the Bond Sale Terms, shall comprise the Bond Purchase Contract.

“Bond Register” means the books or records maintained by the Bond Registrar for the purpose of registering ownership of each Bond.

“Bond Registrar” means the Fiscal Agent (unless the Director of Finance appoints a different person to act as bond registrar with respect to a particular Series), or any successor bond registrar selected in accordance with the Registration Ordinance.

“Bond Sale Terms” means the terms and conditions for the sale of a Series of the Bonds approved by the Director of Finance consistent with the parameters set forth in Section 5 of this ordinance, including the amount, date or dates, denominations, interest rate or rates (or mechanism for determining the interest rate or rates), payment dates, final maturity, redemption rights, price, and other terms, conditions, or covenants. In connection with a negotiated sale or private placement, the Bond Sale Terms shall be set forth in the Bond Purchase Contract; in connection with a competitive sale, the Bond Sale Terms shall be set forth in a Pricing Certificate.

“Bonds” means the water system revenue bonds issued pursuant to this ordinance.

“Book-Entry Form” means a fully registered form in which physical bond certificates are registered only in the name of the Securities Depository (or its nominee), as Registered Owner, with the physical bond certificates held by and immobilized in the custody of the Securities Depository (or its designee), where the system for recording and identifying the transfer of the ownership interests of the Beneficial Owners in those Bonds is neither maintained by nor the responsibility of the City or the Bond Registrar.

“Capital Appreciation Bond” means any Parity Bond, all or a portion of the interest on which is compounded and accumulated at the rates or in the manner, and on the dates, set forth in the applicable Bond Documents and is payable only upon redemption or on the maturity date of such Parity Bond. A Parity Bond that is issued as a Capital Appreciation Bond, but which later converts to an obligation on which interest is paid periodically, shall be a Capital Appreciation Bond until the conversion date and thereafter shall no longer be a Capital Appreciation Bond, but shall be treated as having a principal amount equal to its Accreted Value on the

conversion date. For purposes of computing the principal amount of Parity Bonds held by the Owner of any Capital Appreciation Bond in connection with any notice, consent, request, or demand, the principal amount of a Capital Appreciation Bond shall be deemed to be its Accreted Value at the time that such notice, consent, request, or demand is given or made.

“Capital Improvement Program” or **“CIP”** means those portions of the City’s “2021-2026 Capital Improvement Program” relating to the Municipal Water System, adopted by Ordinance 126237, together with any previously adopted capital improvement program. For purposes of this ordinance, the CIP includes all amendments, updates, supplements, or replacements that may be adopted from time to time by ordinance.

“City” means The City of Seattle.

“City Council” means the City Council of the City, as duly and regularly constituted from time to time.

“Code” means the Internal Revenue Code of 1986, or any successor thereto, as amended at any time, and regulations thereunder.

“Construction Account” means the account or subaccount created in the Water System Construction Account within the Water Fund for the deposit of proceeds of the Bonds, pursuant to Section 12 of this ordinance.

“Continuing Disclosure Agreement” means, for each Series sold in an offering subject to federal securities regulations requiring a written undertaking to provide continuing disclosure, a continuing disclosure agreement entered into pursuant to Section 23 of this ordinance, in substantially the form attached to this ordinance as Exhibit B.

“Contract Resource Obligation” means an obligation of the City that is designated as a Contract Resource Obligation and is entered into in accordance with Section 20 of this ordinance.

“Coverage Requirement” means Adjusted Net Revenue equal to at least 1.25 times Adjusted Annual Debt Service on all Parity Bonds then outstanding.

“Covered Parity Bonds” means all Outstanding Parity Bonds, each Series of the Bonds, and each

series of Future Parity Bonds. *From and after the Reserve Covenant Date, the term “Covered Parity Bonds” shall exclude each series of Parity Bonds for which the applicable Bond Documents provide that, from and after the Reserve Covenant Date, such series shall no longer be treated as a series of Covered Parity Bonds and shall no longer be secured by the amounts in the Reserve Subaccount.*

“**DTC**” means The Depository Trust Company, New York, New York.

“**Defeasible Bonds**” means any outstanding Parity Bonds that are eligible to be defeased pursuant to the Omnibus Defeasance Ordinance.

“**Director of Finance**” means the Director of the Finance Division of the Department of Finance and Administrative Services, or any other officer who succeeds to substantially all of the responsibilities of that office.

“**Event of Default**” has the meaning assigned to that term in subsection 25(a) of this ordinance.

“**Fiscal Agent**” means the fiscal agent of the State, as the same may be designated by the State from time to time.

“**Future Parity Bond Ordinance**” means any ordinance passed by the City Council providing for the issuance and sale of a series of Future Parity Bonds, and any other ordinance amending or supplementing the provisions of any such ordinance.

“**Future Parity Bonds**” means, with reference to any Series, all revenue bonds and obligations of the Municipal Water System (other than that Series and any other Parity Bonds then outstanding), issued or entered into after the Issue Date of such Series, the payment of which constitutes a charge and lien on Net Revenue equal in priority with the charge and lien upon such revenue for the payment of the amounts required to be paid into the Parity Bond Account in accordance with Section 15 of this ordinance. Future Parity Bonds may include Parity Payment Agreements and any other obligations issued in compliance with the Parity Conditions.

“**Government Obligations**” means, unless otherwise limited in the Bond Documents for a particular Series of the Bonds, any government obligation as that term is defined in RCW 39.53.010, as amended at any

time.

“Gross Revenue” means (a) all income, revenues, receipts and profits derived by the City through the ownership and operation of the Municipal Water System; (b) the proceeds received by the City directly or indirectly from the sale, lease or other disposition of any of the properties, rights or facilities of the Municipal Water System; (c) Payment Agreement Receipts, to the extent that such receipts are not offset by Payment Agreement Payments; and (d) the investment income earned on money held in any fund or account of the City, including any bond redemption funds and the accounts therein, in connection with the ownership and operation of the Municipal Water System. Gross Revenue does not include: (a) income derived from investments irrevocably pledged to the payment of any defeased bonds payable from Gross Revenue; (b) investment income set aside for or earned on money in any fund or account created or maintained solely for the purpose of complying with the arbitrage rebate provisions of the Code; (c) any gifts, grants, donations, or other funds received by the City from any State or federal agency or other person if such gifts, grants, donations, or other funds are the subject of any limitation or reservation imposed by the donor or grantor or imposed by law or administrative regulation to which the donor or grantor is subject, limiting the application of such funds in a manner inconsistent with the application of Gross Revenue hereunder; (d) the proceeds of any borrowing for capital improvements (or the refinancing thereof); (e) the proceeds of any liability or other insurance, including but not limited to insurance proceeds compensating the City for the loss of a capital asset, but excluding business interruption insurance or other insurance of like nature insuring against the loss of revenues; (f) general *ad valorem* taxes, excise taxes and special assessments (other than ULID Assessments), including interest and penalties thereon; and (g) earnings of any separate utility system that may be created, acquired, or constructed by the City pursuant to Section 19 of this ordinance.

“Independent Utility Consultant” means an independent person or firm having a favorable reputation for skill and experience with municipal water systems of comparable size and character to the Municipal Water System in such areas as are relevant to the purpose for which they were retained.

“Issue Date” means, with respect to a Bond, the initial date on which that Bond is issued and delivered to the initial Purchaser in exchange for its purchase price.

“Letter of Representations” means the Blanket Issuer Letter of Representations between the City and DTC dated October 4, 2006, as amended at any time, or an agreement with a substitute or successor Securities Depository.

“MSRB” means the Municipal Securities Rulemaking Board.

“Maximum Annual Debt Service” means, at the time of calculation, the maximum amount of Annual Debt Service that shall become due in the current calendar year or in any future calendar year with respect to the Parity Bonds then outstanding.

“Municipal Water System” means the water system of the City as it now exists, and all additions thereto and betterments and extensions thereof at any time made, together with any utility systems of the City hereafter combined with the Municipal Water System. The Municipal Water System shall not include any separate utility system that may be created, acquired or constructed by the City as provided in Section 19 of this ordinance.

“Net Revenue” means, for any period, Gross Revenue less Operating and Maintenance Expense.

“Omnibus Defeasance Ordinance” means Ordinance 126226, as amended at any time, authorizing the defeasance of Defeasible Bonds (as such ordinance may be amended from time to time) or any future ordinance pursuant to which the Bonds (or any Series of the Bonds) are designated as Defeasible Bonds.

“Omnibus Refunding Ordinance” means Ordinance 125714, as amended at any time, authorizing the issuance of Refunding Parity Bonds (as such ordinance may be amended from time to time), or any future ordinance pursuant to which the Bonds (or any Series of the Bonds) are designated as “Refundable Bonds.”

“Operating and Maintenance Expense” means all expenses incurred by the City in causing the Municipal Water System to be operated and maintained in good repair, working order and condition, including without limitation: (a) deposits, premiums, assessments or other payments for insurance, if any, on the

Municipal Water System; (b) payments into pension funds; (c) State-imposed taxes; (d) amounts due under Contract Resource Obligations in accordance with Section 20 of this ordinance; (e) payments made to another person or entity for the receipt of water supply or transmission or other commodity or service; and (f) payments with respect to any other expenses of the Municipal Water System that are properly treated as Operating and Maintenance Expense under generally accepted accounting principles applicable to municipal corporations, including payments (other than payments out of proceeds of Parity Bonds or other obligations not issued to pay current expenses of the Municipal Water System) into reasonable reserves for items of operating or maintenance expense the payment of which is not immediately required. Operating and Maintenance Expense does not include: depreciation, amortization or other similar recognitions of non-cash expense items made for accounting purposes only including non-cash pension expense; taxes levied or imposed by the City or payments in lieu of City taxes; payments of claims or judgments; or capital additions or capital replacements of the Municipal Water System.

“Outstanding Parity Bond Ordinances” means those ordinances authorizing the issuance and sale of the Outstanding Parity Bonds, as identified in Exhibit A to this ordinance.

“Outstanding Parity Bonds” means those outstanding Parity Bonds identified in Exhibit A to this ordinance. When used in reference to a particular date (or in reference to a particular series of Parity Bonds), Outstanding Parity Bonds shall mean those Parity Bonds, including any Parity Bonds issued subsequent to the effective date of this ordinance, that are outstanding as of that date (or as of the Issue Date of the referenced series of Parity Bonds).

“Owner” means, without distinction, the Registered Owner and the Beneficial Owner of a Bond.

“Parity Bond Account” means the Water Revenue Parity Bond Account created by Ordinance 116705 in the Water Fund for the purpose of paying and securing payment of the principal of and interest on Parity Bonds.

“Parity Bond Documents” means those Bond Documents applicable to a series of Parity Bonds.

“Parity Bond Ordinance” means any ordinance passed by the City Council providing for the issuance and sale of a series of Parity Bonds, and any other ordinance amending or supplementing the provisions of any Parity Bond Ordinance.

“Parity Bonds” means the Outstanding Parity Bonds, each Series of the Bonds, and any Future Parity Bonds then outstanding. Parity Bonds may include Parity Payment Agreements in accordance with Section 17 of this ordinance.

“Parity Certificate” means a certificate delivered pursuant to Section 17 of this ordinance for purposes of satisfying the Parity Conditions in connection with the issuance of Future Parity Bonds.

“Parity Conditions” means (a) for purposes of establishing that a Series of the Bonds may be issued on parity with the Parity Bonds outstanding as of the Issue Date of such Series, the conditions for issuing Future Parity Bonds set forth in the Parity Bond Ordinances relating to those Parity Bonds that are then outstanding; and (b) for purposes of issuing Future Parity Bonds on parity with a Series of the Bonds, the conditions described in subsection (a) of this definition together with the conditions set forth in Section 17 of this ordinance.

“Parity Payment Agreement” means a Payment Agreement that is entered into in compliance with the Parity Conditions and under which the City’s payment obligations are expressly stated to constitute a charge and lien on Net Revenue equal in rank with the charge and lien upon such Net Revenue required to be paid into the Parity Bond Account to pay and secure the payment of interest on Parity Bonds. For purposes of determining percentages of ownership of Parity Bonds under this ordinance or under applicable Parity Bond Documents, Parity Payment Agreements shall be deemed to have no principal amount, and any notice, consent, or similar rights (if any) shall be determined only as set forth in the applicable Parity Payment Agreement.

“Payment Agreement” means a written agreement entered into by the City and a Qualified Counterparty, as authorized by any applicable laws of the State, for the purpose of managing or reducing the City’s exposure to fluctuations or levels of interest rates, or for other interest rate, investment, or asset or

liability management purposes, and that provides for (i) an exchange of payments based on interest rates, ceilings, or floors on such payments; (ii) options on such payments; (iii) any combination of the foregoing; or (iv) any similar device. A Payment Agreement may be entered into on either a current or forward basis. A Payment Agreement must be entered into in connection with (or incidental to) the issuance, incurring, or carrying of particular bonds, notes, bond anticipation notes, commercial paper, or other obligations for borrowed money (which may include leases, installment purchase contracts, or other similar financing agreements or certificates of participation in any of the foregoing).

“Payment Agreement Payments” means the amounts periodically required to be paid by the City to a Qualified Counterparty pursuant to a Payment Agreement.

“Payment Agreement Receipts” means the amounts periodically required to be paid by a Qualified Counterparty to the City pursuant to a Payment Agreement.

“Permitted Investments” means any investments or investment agreements permitted for the investment of City funds under the laws of the State, as amended from time to time.

“Plan of Additions” means, together, the CIP and the Water System Plan, as modified from time to time. The Plan of Additions includes (a) the purchase and installation of all materials, supplies, appliances, equipment and facilities; (b) the acquisition of all permits, franchises, property and property rights, and other capital assets; and (c) all engineering, consulting and other professional services and studies (whether performed by the City or by other public or private entities), each as necessary or convenient to carry out the Plan of Additions. The Plan of Additions includes all amendments, updates, supplements or replacements to the CIP or the Water System Plan, all of which automatically shall constitute amendments to the Plan of Additions. The Plan of Additions also may be modified to include other improvements, without amending the CIP or the Water System Plan, if the City determines by ordinance that those amendments or other improvements constitute a system or plan of additions to or betterments or extensions of the Municipal Water System.

“Pricing Certificate” means a certificate executed by the Director of Finance as of the pricing date

confirming the Bond Sale Terms for the sale of a Series of Bonds to the Purchaser in a competitive sale, in accordance with the parameters set forth in Section 5 of this ordinance.

“Principal and Interest Subaccount” means the subaccount of that name created in the Parity Bond Account for the payment of the principal of and interest on Parity Bonds.

“Purchaser” means the entity or entities who have been selected by the Director of Finance in accordance with this ordinance to serve as underwriter, purchaser or successful bidder in a sale of any Series.

“Qualified Counterparty” means a party (other than the City or a party related to the City) who is the other party to a Payment Agreement, (a)(i) whose senior debt obligations are rated in one of the three highest rating categories of each Rating Agency (without regard to any gradations within a rating category), or (ii) whose obligations under the Payment Agreement are guaranteed for the entire term of the Payment Agreement by a bond insurer or other institution that has been assigned a credit rating in one of the two highest rating categories of each Rating Agency; and (b) who is otherwise qualified to act as the other party to a Payment Agreement under any applicable laws of the State.

“Qualified Insurance” means any Bond Insurance that, as of the time of issuance of such credit enhancement device, is provided by an entity rated in one of the two highest rating categories (without regard to any gradations within a rating category) by at least two nationally recognized rating agencies.

“Qualified Letter of Credit” means any letter of credit, standby bond purchase agreement, or other liquidity facility issued by a financial institution for the account of the City in connection with the issuance of any Parity Bonds, which institution maintains an office, agency or branch in the United States and, as of the time of issuance of such instrument, is rated in one of the two highest rating categories (without regard to any gradations within such rating categories) by at least two nationally recognized rating agencies.

“RBI” means *The Bond Buyer* Revenue Bond Index or comparable index, or, if no comparable index can be obtained, 80 percent of the interest rate for actively traded 30-year United States Treasury obligations.

“Rate Stabilization Account” means the account of that name created in the Water Fund pursuant to

Ordinance 116705 and redesignated for accounting purposes as the Revenue Stabilization Subfund of the Water Fund pursuant to Ordinance 120875.

“Rating Agency” means any nationally recognized rating agency then maintaining a rating on a series of then outstanding Parity Bonds at the request of the City.

“Record Date” means, unless otherwise defined in the Bond Documents, in the case of each interest or principal payment date, the Bond Registrar’s close of business on the 15th day of the month preceding the interest or principal payment date. With regard to redemption of a Bond prior to its maturity, the Record Date shall mean the Bond Registrar’s close of business on the day prior to the date on which the Bond Registrar sends the notice of redemption to the Registered Owner(s) of the affected Bonds.

“Refundable Bonds” means Parity Bonds that may be refunded pursuant to the Omnibus Refunding Ordinance. For purposes of this definition, each Series of the Bonds issued pursuant to this ordinance is designated as a series of Refundable Bonds.

“Refunding Parity Bonds” means Future Parity Bonds that satisfy the applicable Parity Conditions and are issued pursuant to the Omnibus Refunding Ordinance, or other Future Parity Bond Ordinance, for the purpose of refunding any Refundable Bonds.

“Registered Owner” means, with respect to a Bond, the person in whose name that Bond is registered on the Bond Register. For so long as a Series of the Bonds is in Book-Entry Form under the Letter of Representations, the Registered Owner of such Series shall mean the Securities Depository.

“Registration Ordinance” means Ordinance 111724 establishing a system of registration for the City’s bonds and other obligations pursuant to Seattle Municipal Code Chapter 5.10, as amended at any time.

“Reserve Covenant Date” means the earlier of (a) the date on which the City has obtained consents of the requisite percentage of Registered Owners of the Parity Bonds then outstanding, in accordance with the provisions of the applicable Outstanding Parity Bond Documents; or (b) the date on which all of the following Outstanding Parity Bonds have been redeemed or defeased: Water System Revenue Bonds, 2010A (Taxable

Build America Bonds - Direct Payment); Water System Improvement and Refunding Revenue Bonds, 2010B; Water System Refunding Revenue Bonds, 2012; and Water System Improvement and Refunding Revenue Bonds, 2015.

“Reserve Requirement” means the lesser of (a) Maximum Annual Debt Service on all Parity Bonds outstanding at the time of calculation, or (b) 1.25 times Average Annual Debt Service on all Parity Bonds outstanding at the time of calculation. In no event shall the Reserve Requirement exceed 10 percent of the proceeds of each series of Parity Bonds then outstanding, determined as of the Issue Date of each such series.

From and after the Reserve Covenant Date, the Reserve Requirement shall mean the lesser of (a) Maximum Annual Debt Service on all Covered Parity Bonds outstanding at the time of calculation, or (b) 1.25 times Average Annual Debt Service on all Covered Parity Bonds outstanding at the time of calculation. In no event shall the Reserve Requirement exceed the sum of 10 percent of the proceeds of each series of Covered Parity Bonds then outstanding, determined as of the Issue Date of each such series.

“Reserve Security” means any Qualified Insurance or Qualified Letter of Credit obtained by the City to satisfy part or all of the Reserve Requirement, and which is not cancelable on less than three years’ notice.

“Reserve Subaccount” means the subaccount of that name created in the Parity Bond Account for the purpose of securing the payment of the principal of and interest on Parity Bonds.

“Rule 15c2-12” means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended.

“SEC” means the United States Securities and Exchange Commission.

“Securities Depository” means DTC, any successor thereto, any substitute securities depository selected by the City, or the nominee of any of the foregoing. Any successor or substitute Securities Depository must be qualified under applicable laws and regulations to provide the services proposed to be provided by it.

“Serial Bonds” means Parity Bonds maturing in specified years, for which no Sinking Fund Requirements are mandated.

“Series” means a series of the Bonds issued pursuant to this ordinance.

“Sinking Fund Account” means any account created in the Parity Bond Account to amortize the principal or make mandatory redemptions of Term Bonds.

“Sinking Fund Requirement” means, for any calendar year, the principal amount and premium, if any, of Term Bonds required to be purchased, redeemed, paid at maturity or paid into any Sinking Fund Account for such calendar year, as established pursuant to the Bond Documents relating to such Term Bonds.

“State” means the State of Washington.

“State Auditor” means the office of the Auditor of the State or such other department or office of the State authorized and directed by State law to make audits.

“Tax Credit Subsidy Bond” means any Taxable Bond that is designated by the City as a tax credit bond pursuant to the Code, and which is further designated as a “qualified bond” under Section 6431 or similar provision of the Code, and with respect to which the City is eligible to claim a Tax Credit Subsidy Payment.

“Tax Credit Subsidy Payment” means a payment by the federal government with respect to a Tax Credit Subsidy Bond.

“Tax-Exempt Bond” means any Parity Bond, the interest on which is intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Taxable Bond” means any Parity Bond, the interest on which is not intended, as of the Issue Date, to be excludable from gross income for federal income tax purposes.

“Term Bond” means any Parity Bond that is issued subject to mandatory redemption prior to its maturity in Sinking Fund Requirements.

“ULID” means a utility local improvement district of the City created for the acquisition or construction of additions to and betterments and extensions of the Municipal Water System.

“ULID Assessments” means all assessments levied and collected in a ULID, if and only if those assessments are pledged to be paid into the Parity Bond Account, in which case they shall be included in Gross

Revenue. ULID Assessments shall include all installments of principal, payments of interest, and penalties and interest on delinquencies, but shall not include any prepaid assessments paid into a construction fund or account.

“Valuation Date” means, with respect to any Capital Appreciation Bond, the date or dates, determined as set forth in the Parity Bond Documents relating to the relevant series of Parity Bonds, on which specific Accreted Values are assigned to that Capital Appreciation Bond.

“Variable Interest Rate” means any interest rate that fluctuates during the stated term of a Parity Bond (or during a stated period during which the Parity Bond is designated as a Variable Interest Rate Bond), whether due to a remarketing, a market index reset, or other mechanism set forth in the applicable Bond Documents. The Bond Documents for any Series of the Bonds bearing interest at a Variable Interest Rate shall set forth: (a) the available method(s) of computing interest (the “interest rate modes”); (b) the particular period or periods of time (or manner of determining such period or periods of time) for which each value of such Variable Interest Rate (or each interest rate mode) shall remain in effect; (c) provisions for conversion from one interest rate mode to another and for setting or resetting the interest rates; and (d) the time or times upon which any change in such Variable Interest Rate (or any conversion of interest rate modes) shall become effective.

“Variable Interest Rate Bond” means, for any period of time, any Parity Bond that bears interest at a Variable Interest Rate during that period. A Parity Bond shall not be treated as a Variable Interest Rate Bond if the net economic effect of: (a) interest rates on a particular series of Parity Bonds, as set forth in the applicable Bond Documents, and (b) either (i) interest rates on another series of Parity Bonds issued at substantially the same time, or (ii) a Payment Agreement related to that particular series of Parity Bonds, is to produce obligations that bear interest at a fixed rate. A Parity Bond with respect to which a Payment Agreement is in force shall be treated as a Variable Interest Rate Bond if the net economic effect of the Payment Agreement is to produce an obligation that bears interest at a Variable Interest Rate.

“Water Fund” means the fund of that name into which is paid the Gross Revenue of the Municipal

Water System.

“Water System Plan” means the long-range water system plan known as the 2013 Water System Plan adopted by the City in Ordinance 124071, as that plan may be amended, updated, supplemented, or replaced from time to time.

Section 2. **Adoption of Plan of Additions.** The City specifies, adopts, and orders the Plan of Additions to be carried out as generally provided for in the documents comprising the Plan of Additions. The estimated cost of the Plan of Additions, as near as may be determined, is declared to be \$727 million, of which approximately \$88 million is expected to be financed from proceeds of the Bonds and investment earnings thereon.

Section 3. **Authorization of Bonds; Due Regard Finding.**

(a) **The Bonds.** The City is authorized to issue Municipal Water System revenue bonds, payable from the sources described in Section 13 of this ordinance, in the maximum principal amount stated in Section 5 of this ordinance, to provide funds (a) to pay part of the cost of carrying out the Plan of Additions; (b) to provide for the Reserve Requirement (if any); (c) to capitalize interest on (if necessary) and pay the costs of issuance of the Bonds; and (d) for other Municipal Water System purposes approved by ordinance. The Bonds may be issued in one or more Series and may be combined with other Municipal Water System revenue bonds (including Refunding Parity Bonds) authorized separately. The Bonds shall be designated Water System Revenue Bonds and shall be numbered separately and shall have any name, year, and series or other label as deemed necessary or appropriate by the Director of Finance.

(b) **City Council Finding.** The City Council finds that, in creating the Parity Bond Account and in fixing the amounts to be paid into it in accordance with this ordinance and the parameters for the Bond Sale Terms set forth in Section 5 of this ordinance, the City Council has exercised due regard for the cost of operation and maintenance of the Municipal Water System, and is not setting aside into the Parity Bond Account a greater amount than in the judgment of the City Council, based on the rates established from time to

time consistent with subsection 16(b) of this ordinance, will be sufficient, in the judgment of the City Council, to meet all expenses of operation and maintenance of the Municipal Water System and to provide the amounts previously pledged for the payment of all outstanding obligations payable out of Gross Revenues and pledged for the payment of the Bonds. Therefore, the City Council finds that the issuance and sale of the Bonds is in the best interest of the City and in the public interest.

Section 4. **Manner of Sale of Bonds.** The Director of Finance may provide for the sale of each Series by competitive sale, negotiated sale, limited offering, or private placement and may select and enter into agreements with remarketing agents or providers of liquidity with respect to Variable Interest Rate Bonds. The Purchaser of each Series shall be chosen through a selection process acceptable to the Director of Finance. The Director of Finance is authorized to specify a date and time of sale and a date and time for the delivery of each Series; in the case of a competitive sale, to provide an official notice of sale including bid parameters and other bid requirements, and to provide for the use of an electronic bidding mechanism; to determine matters relating to a forward or delayed delivery of the Bonds; and to determine such other matters and take such other action as, in the Director's determination, may be necessary, appropriate, or desirable in order to carry out the sale of each Series. Each Series must be sold on Bond Sale Terms consistent with the parameters set forth in Section 5 of this ordinance.

Section 5. **Appointment of Designated Representative; Bond Sale Terms.**

(a) **Designated Representative.** The Director of Finance is appointed to serve as the City's designated representative in connection with the issuance and sale of the Bonds in accordance with RCW 39.46.040(2) and this ordinance.

(b) **Parameters for Bond Sale Terms.** The Director of Finance is authorized to approve, on behalf of the City, Bond Sale Terms for the sale of the Bonds in one or more Series, and, in connection with each such sale, to execute a Bond Purchase Contract (or, in the case of a competitive sale, a Pricing Certificate) confirming the Bond Sale Terms and such related agreements as may be necessary or desirable, consistent with

the following parameters:

(i) **Maximum Principal Amount.** The maximum aggregate principal amount of all Series of the Bonds authorized by this ordinance is not to exceed \$88 million.

(ii) **Date or Dates.** Each Bond shall be dated its Issue Date, as determined by the Director of Finance. The initial Issue Date (without restricting any reissuance date with respect to a Series of Variable Interest Rate Bonds) may be no later than December 31, 2024.

(iii) **Denominations.** The Bonds shall be issued in Authorized Denominations.

(iv) **Interest Rate(s).** Each Bond shall bear interest from its Issue Date or from the most recent date to which interest has been paid or duly provided, whichever is later, unless otherwise provided in the Bond Documents. Each Series of the Bonds shall bear interest at one or more fixed interest rates or Variable Interest Rates. The net interest cost for any fixed rate Series may not exceed a rate of 10 percent per annum. The Bond Documents for any Series may provide for multiple interest rates and interest rate modes, and may provide conditions and mechanisms for the Director of Finance to effect a conversion from one mode to another. Nothing in this ordinance shall be interpreted to prevent the Bond Documents for any Series from including a provision for adjustments to interest rates during the term of the Series upon the occurrence of certain events specified in the applicable Bond Documents.

(v) **Payment Dates.** Interest shall be payable on dates acceptable to the Director of Finance. Principal shall be payable on dates acceptable to the Director of Finance, which shall include payment at the maturity of each Bond, in accordance with any Sinking Fund Requirements applicable to Term Bonds, and otherwise in accordance with any redemption or tender provisions.

(vi) **Final Maturity.** Each Bond shall mature no later than 40 years after its Issue Date.

(vii) **Redemption Prior to Maturity.** The Bond Sale Terms may include redemption and tender provisions, as determined by the Director of Finance in the Director's discretion, consistent with Section 8 of this ordinance and subject to the following:

(A) **Optional Redemption.** The Director of Finance may designate any Bond as subject to optional redemption prior to its maturity. Any Bond that is subject to optional redemption prior to maturity must be callable on at least one or more dates occurring not more than 10½ years after the Issue Date, consistent with subsection 8(a) of this ordinance.

(B) **Mandatory Redemption.** The Director of Finance may designate any Bond as a Term Bond, subject to mandatory redemption prior to its maturity on the dates and in principal payment amounts set forth in Sinking Fund Requirements, consistent with subsection 8(b) of this ordinance.

(C) **Extraordinary Redemptions.** The Director of Finance may designate any Bond as subject to extraordinary optional redemption or extraordinary mandatory redemption upon the occurrence of an extraordinary event, as such event or events may be set forth in the applicable Bond Documents, consistent with subsection 8(c) of this ordinance.

(D) **Tender Options.** The Director of Finance may designate any Variable Interest Rate Bond as subject to tender options, as set forth in the applicable Bond Documents.

(viii) **Price.** The Director of Finance may approve in the Bond Sale Terms an aggregate purchase price for each Series of the Bonds that is, in the Director's judgment, the price that produces the most advantageous borrowing cost for the City, consistent with the parameters set forth in this ordinance and in any applicable bid documents.

(ix) **Other Terms and Conditions.**

(A) **Expected Life of Capital Facilities.** As of the Issue Date of each Series, the Director of Finance must additionally find to the Director's satisfaction that the average expected life of the capital facilities to be financed with the proceeds (or allocable share of proceeds) of that Series must exceed the weighted average maturity of such Series (or share thereof) allocated to financing those capital facilities.

(B) **Parity Conditions Satisfied.** As of the Issue Date of each Series, the Director of Finance must find that the Parity Conditions have been met or otherwise satisfied, so that such Series is

permitted to be issued as Parity Bonds.

(C) **Additional Terms, Conditions, and Agreements.** The Bond Sale Terms for any Series may provide for Bond Insurance, a Reserve Security, Qualified Letter of Credit, credit enhancement, or for any other Payment Agreement as the Director of Finance may find necessary or desirable. The Bond Sale Terms for any Series may provide for multiple interest rate modes and may include provisions for conversion from any interest rate mode to any other mode. To that end, the Bond Sale Terms may include such additional terms, conditions, and covenants as may be necessary or desirable, including but not limited to: restrictions on investment of Bond proceeds and pledged funds (including any escrow established for the defeasance of the Bonds); provisions for the conversion of interest rate modes; provisions for the reimbursement of a credit enhancement provider or Qualified Counterparty; and requirements to give notice to or obtain the consent of a credit enhancement provider or a Qualified Counterparty. The Director of Finance is authorized to execute, on behalf of the City, such additional certificates and agreements as may be necessary or desirable to reflect such terms, conditions, and covenants.

(D) **Reserve Requirement.** The Bond Sale Terms must establish whether the Series is to be treated as Covered Parity Bonds and must establish the method of providing for the Reserve Requirement, consistent with Section 15 of this ordinance.

(E) **Tax Status of the Bonds.** The Director of Finance may determine that any Series of the Bonds may be designated or qualified as Tax-Exempt Bonds, Taxable Bonds, or Tax Credit Subsidy Bonds, consistent with Section 22 of this ordinance.

Section 6. **Bond Registrar; Registration and Transfer of Bonds.**

(a) **Registration of Bonds; Bond Registrar.** The Bonds shall be issued only in registered form as to both principal and interest and shall be recorded on the Bond Register. The Fiscal Agent is appointed to act as Bond Registrar for each Series of the Bonds, unless otherwise determined by the Director of Finance.

(b) **Transfer and Exchange of Bonds.** The Bond Registrar shall keep, or cause to be kept, sufficient

books for the registration and transfer of the Bonds, which shall be open to inspection by the City at all times. The Bond Register shall contain the name and mailing address of the Registered Owner of each Bond and the principal amount and number of each of the Bonds held by each Registered Owner.

The Bond Registrar is authorized, on behalf of the City, to authenticate and deliver Bonds transferred or exchanged in accordance with the provisions of the Bonds and this ordinance, to serve as the City's paying agent for the Bonds and to carry out all of the Bond Registrar's powers and duties under this ordinance and the Registration Ordinance.

The Bond Registrar shall be responsible for its representations contained in the Bond Registrar's certificate of authentication on the Bonds. The Bond Registrar may become an Owner of Bonds with the same rights it would have if it were not the Bond Registrar and, to the extent permitted by law, may act as depository for and permit any of its officers or directors to act as members of, or in any other capacity with respect to, any committee formed to protect the rights of Owners.

Bonds surrendered to the Bond Registrar may be exchanged for Bonds in any Authorized Denomination of an equal aggregate principal amount and of the same Series, interest rate and maturity. Bonds may be transferred only if endorsed in the manner provided thereon and surrendered to the Bond Registrar. Any exchange or transfer shall be without cost to an Owner or transferee. The Bond Registrar shall not be obligated to exchange or transfer any Bond during the period between the Record Date and the corresponding interest payment or principal redemption date.

(c) Securities Depository; Book-Entry Form. Unless otherwise determined by the Director of Finance, the Bonds initially shall be issued in Book-Entry Form and registered in the name of the Securities Depository. The Bonds so registered shall be held fully immobilized in Book-Entry Form by the Securities Depository in accordance with the provisions of the Letter of Representations. Neither the City nor the Bond Registrar shall have any responsibility or obligation to participants of the Securities Depository or the persons for whom they act as nominees with respect to the Bonds regarding the accuracy of any records maintained by

the Securities Depository or its participants of any amount in respect of principal of or interest on the Bonds, or any notice that is permitted or required to be given to Registered Owners hereunder (except such notice as is required to be given by the Bond Registrar to the Securities Depository). Registered ownership of a Bond initially held in Book-Entry Form, or any portion thereof, may not be transferred except: (i) to any successor Securities Depository; (ii) to any substitute Securities Depository appointed by the City or such substitute Securities Depository's successor; or (iii) to any person if the Bond is no longer held in Book-Entry Form.

Upon the resignation of the Securities Depository from its functions as depository, or upon a determination by the Director of Finance to discontinue utilizing the then-current Securities Depository, the Director of Finance may appoint a substitute Securities Depository. If the Securities Depository resigns from its functions as depository and no substitute Securities Depository can be obtained, or if the Director of Finance determines not to utilize a Securities Depository, then the Bonds shall no longer be held in Book-Entry Form and ownership may be transferred only as provided herein.

Nothing in this ordinance shall prevent the Bond Sale Terms from providing that a Series of the Bonds shall be issued in certificated form without utilizing a Securities Depository, and that the Bonds of such Series shall be registered as of their Issue Date in the names of the Owners thereof, in which case ownership may be transferred only as provided in this ordinance.

(d) **Lost or Stolen Bonds.** In case any Bond shall be lost, stolen or destroyed, the Bond Registrar may authenticate and deliver a new bond or bonds of like amount, date, tenor, and effect to the Registered Owner(s) thereof upon the Registered Owner(s)' paying the expenses and charges of the City in connection therewith and upon filing with the Bond Registrar evidence satisfactory to the Bond Registrar that such bond or bonds were actually lost, stolen or destroyed and of Registered Ownership thereof, and upon furnishing the City with indemnity satisfactory to both.

Section 7. **Payment of Bonds.**

(a) **Payment.** Each Bond shall be payable in lawful money of the United States of America on the dates

and in the amounts as provided in the Bond Documents applicable to that Series. Principal of and interest on each Bond issued as a Parity Bond shall be payable solely out of the Parity Bond Account and shall not be a general obligation of the City. No Bonds of any Series shall be subject to acceleration under any circumstances.

(b) **Bonds Held In Book-Entry Form.** Principal of and interest on each Bond held in Book-Entry Form shall be payable in the manner set forth in the Letter of Representations.

(c) **Bonds Not Held In Book-Entry Form.** Interest on each Bond not held in Book-Entry Form shall be payable by electronic transfer on the interest payment date, or by check or draft of the Bond Registrar mailed on the interest payment date to the Registered Owner at the address appearing on the Bond Register on the Record Date. The City, however, is not required to make electronic transfers except pursuant to a request by a Registered Owner in writing received at least ten days prior to the Record Date and at the sole expense of the Registered Owner. Principal of each Bond not held in Book-Entry Form shall be payable upon presentation and surrender of the Bond by the Registered Owner to the Bond Registrar.

Section 8. **Redemption and Purchase of Bonds.**

(a) **Optional Redemption.** All or some of the Bonds may be subject to redemption prior to their stated maturity dates at the option of the City at the times and on the terms set forth in the applicable Bond Documents.

(b) **Mandatory Redemption.** All or some of the Bonds of any Series may be designated as Term Bonds, subject to mandatory redemption in Sinking Fund Requirements, as set forth in the applicable Bond Documents. If not redeemed or purchased at the City's option prior to maturity, Term Bonds (if any) must be redeemed, at a price equal to 100 percent of the principal amount to be redeemed plus accrued interest, on the dates and in the years and Sinking Fund Requirements as set forth in the applicable Bond Documents. If the City optionally redeems or purchases a Term Bond prior to maturity, the principal amount of that Term Bond that is so redeemed or purchased (irrespective of its redemption or purchase price) shall be credited against the remaining Sinking Fund Requirements for that Term Bond in the manner as directed by the Director of Finance.

In the absence of direction by the Director of Finance, credit shall be allocated to the remaining Sinking Fund Requirements for that Term Bond on a *pro rata* basis.

(c) **Extraordinary Redemption Provisions.** All or some of the Bonds of any Series may be subject to extraordinary optional or extraordinary mandatory redemption prior to maturity upon the occurrence of an extraordinary event, at the prices, in the principal amounts, and on the dates, all as set forth in the applicable Bond Documents.

(d) **Selection of Bonds for Redemption; Partial Redemption.** If fewer than all of the outstanding Bonds of a Series are to be redeemed at the option of the City, the Director of Finance shall select the maturity or maturities to be redeemed. If less than all of the principal amount of a maturity of the selected Series is to be redeemed and, if such Series is held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected for redemption by the Securities Depository in accordance with the Letter of Representations. If the Series is not then held in Book-Entry Form, the portion of such maturity to be redeemed shall be selected by the Bond Registrar randomly in such manner as the Bond Registrar shall determine. All or a portion of the principal amount of any Bond that is to be redeemed may be redeemed in any applicable Authorized Denomination. If less than all of the outstanding principal amount of any Bond is redeemed, upon surrender of that Bond to the Bond Registrar there shall be issued to the Registered Owner, without charge, a new Bond (or Bonds, at the option of the Registered Owner) of the same Series, maturity, and interest rate in any Authorized Denomination in the aggregate principal amount to remain outstanding.

(e) **Purchase.** The City reserves the right and option to purchase any or all of the Bonds at any time at any price acceptable to the City plus accrued interest to the date of purchase.

Section 9. **Notice of Redemption; Rescission of Notice.** Unless otherwise set forth in the applicable Bond Documents, the City must cause notice of any intended redemption of Bonds to be given not fewer than 20 nor more than 60 days prior to the date fixed for redemption by first class mail, postage prepaid, to the Registered Owner of any Bond to be redeemed at the address appearing on the Bond Register on the Record

Date, and the requirements of this sentence shall be deemed to have been fulfilled when notice has been mailed as so provided, whether or not it is actually received by the Owner of any Bond. Interest on Bonds called for redemption shall cease to accrue on the date fixed for redemption unless the Bond or Bonds called are not redeemed when presented pursuant to the call.

In the case of an optional or extraordinary optional redemption, the notice may state that the City retains the right to rescind the redemption notice and the related optional redemption of Bonds by giving a notice of rescission to the affected Registered Owners at any time on or prior to the scheduled optional redemption date. Any notice of optional redemption that is rescinded by the Director of Finance shall be of no effect, and the Bonds for which the notice of optional redemption has been rescinded shall remain outstanding.

Section 10. **Failure to Pay Bonds.** If any Bond is not paid when properly presented at its maturity or redemption date, the City shall be obligated to pay, solely from the Parity Bond Account and the other sources pledged in this ordinance, interest on that Bond at the same rate provided on that Bond from and after its maturity or redemption date until that Bond, including principal, redemption premium (if any), and interest, is paid in full or until sufficient money for its payment in full is on deposit in the Parity Bond Account and that Bond has been called for payment by giving notice of that call to the Registered Owner of that Bond.

Section 11. **Form and Execution of Bonds.** The Bonds shall be typed, printed, or reproduced in a form consistent with the provisions of this ordinance and State law; shall be signed by the Mayor and Director of Finance, either or both of whose signatures may be manual or in facsimile; and the seal of the City or a facsimile reproduction thereof shall be impressed or printed thereon.

Only Bonds bearing a certificate of authentication in substantially the following form (with the designation, year, and Series adjusted consistent with this ordinance), manually signed by the Bond Registrar, shall be valid or obligatory for any purpose or entitled to the benefits of this ordinance: “This Bond is one of the fully registered The City of Seattle, Washington, [Water System Revenue Bonds], [Year], [Series], described in [this ordinance].” The authorized signing of a certificate of authentication shall be conclusive evidence that

the Bond so authenticated has been duly executed, authenticated, and delivered and is entitled to the benefits of this ordinance.

If any officer whose manual or facsimile signature appears on a Bond ceases to be an officer of the City authorized to sign bonds before the Bond bearing the officer's manual or facsimile signature is authenticated or delivered by the Bond Registrar or issued by the City, that Bond nevertheless may be authenticated, delivered, and issued and, when authenticated, issued, and delivered, shall be as binding on the City as though that person had continued to be an officer of the City authorized to sign bonds. Any Bond also may be signed on behalf of the City by any person who, on the actual date of signing of the Bond, is an officer of the City authorized to sign bonds, although the person did not hold the required office on the date of issuance of that Series of the Bonds.

Section 12. **Construction Account; Deposit of Proceeds.** An account to be known as the Water System Construction Subaccount, 2022, is created in the Water System Construction Account within the Water Fund. After depositing accrued interest (if any) into the Principal and Interest Subaccount and depositing amounts necessary to provide for the Reserve Requirement (if any) into the Reserve Subaccount, the remaining principal proceeds of the sale of a Series of the Bonds shall be deposited into the Construction Account (or such other fund or account as may be directed by the Director of Finance) to be used (a) to pay part of the costs of carrying out the Plan of Additions, and (b) to pay capitalized interest on (if necessary) and the costs of issuance of the Series. Until needed to pay such costs, the City may invest principal proceeds and interest thereon temporarily in any Permitted Investments, and the investment earnings may, as determined by the Director of Finance, be either (a) retained in the Construction Account to be spent for the purposes of that account, or (b) deposited in the Parity Bond Account.

Section 13. **Security for the Bonds; Parity with Outstanding Parity Bonds.** The Bonds shall be special limited obligations of the City payable from and secured solely by the Net Revenue (including all ULID Assessments, if any) and money in the Parity Bond Account and the subaccounts therein, *except that from and*

after the Reserve Covenant Date, money in the Reserve Subaccount shall secure only Covered Parity Bonds.

The Net Revenue (including all ULID Assessments, if any) is pledged to make the payments into the Parity Bond Account required by this ordinance. This pledge constitutes a charge and lien upon such Net Revenue prior and superior to all other liens and charges whatsoever.

The Bonds shall be issued on parity with the Outstanding Parity Bonds and all Future Parity Bonds, without regard to date of issuance or authorization and without preference or priority of right or lien. Nothing in this ordinance prevents the City from issuing revenue bonds or other obligations that are a charge or lien upon Net Revenue subordinate to the payments required to be made from Net Revenue into the Parity Bond Account and the subaccounts therein. The City covenants that, for as long as any Bond is outstanding, it will not issue any other revenue obligations (or create any special fund or account therefor), that will have any priority over or that will rank on a parity with the payments required in respect of the Parity Bonds, and that it will issue Future Parity Bonds only accordance with Section 17 of this ordinance.

The Bonds shall not constitute general obligations of the City, the State, or any political subdivision of the State or a charge upon any general fund or upon any money or other property of the City, the State, or any political subdivision of the State not specifically pledged by this ordinance.

Section 14. **Priority Expenditure of Gross Revenue; Flow of Funds.** Gross Revenue shall be deposited as received in the Water Fund and used for the following purposes only in the following order of priority:

(a) To pay the Operating and Maintenance Expense;

(b) To make all payments into the Principal and Interest Subaccount required to be made in order to pay the interest on and principal of all Parity Bonds (including all net payments on Parity Payment Agreements) when due, and to make payments due under any agreement with a provider of a Reserve Security which agreement requires those payments to be treated on a parity of lien with the Parity Bonds;

(c) To make all payments required to be made (i) into the Reserve Subaccount with respect to Covered

Parity Bonds, (ii) under any agreement with a provider of a Reserve Security, which agreement requires those payments to be treated on a parity of lien with the payments required to be made into the Reserve Subaccount, and (iii) *until the Reserve Covenant Date, into a special account in the Water Fund in accordance with the second paragraph in subsection 15(a)(ii) of this ordinance;*

(d) To make all payments required to be made into any revenue bond, note, warrant or other revenue obligation redemption fund, debt service account, or reserve account created to pay and secure the payment of the principal of and interest on any revenue bonds or short-term obligations of the City having a charge and lien upon Net Revenue subordinate to the lien thereon for the payment of the principal of and interest on the Parity Bonds; and

(e) Without priority, to any of the following purposes: to retire by redemption or purchase any outstanding revenue bonds or revenue obligations of the Municipal Water System; to make necessary additions, betterments, improvements or repairs to, or extensions and replacements of the Municipal Water System; to pay City taxes or other payments in lieu of taxes payable from Gross Revenue; to make deposits to the Rate Stabilization Account; or for any other lawful Municipal Water System purposes.

Section 15. **Parity Bond Account.** A special account of the City known as the Parity Bond Account has been previously created and shall be maintained as a separate account within the Water Fund, for the sole purpose of paying the principal of and premium, if any, and interest on the Parity Bonds as the same shall become due. The Parity Bond Account consists of the Principal and Interest Subaccount and the Reserve Subaccount, and may additionally include such subaccounts as the Director of Finance may deem necessary, so long as the maintenance of such subaccounts does not conflict with the rights of the owners of Parity Bonds. Principal of, premium (if any) and interest on the Parity Bonds shall be payable out of the Parity Bond Account.

(a) **Required Payments Into the Parity Bond Account.** So long as any Parity Bonds are outstanding (including amounts required under any Parity Payment Agreement), the City shall set aside and pay into the Parity Bond Account all ULID Assessments on their collection and, out of Net Revenue, certain fixed amounts

without regard to any fixed proportion, namely:

(i) Into the Principal and Interest Subaccount on or before each date on which interest on or principal of Parity Bonds (including Sinking Fund Requirements and net payments under any Parity Payment Agreements) shall become due and payable, an amount that will be sufficient, together with other money on deposit therein, to pay such principal, interest, Sinking Fund Requirements, and net payments then due on Parity Payment Agreements as the same shall become due; and

(ii) Into the Reserve Subaccount, an amount necessary to provide for the Reserve Requirement within the time and in the manner required by this ordinance and the Bond Sale Terms. The amount necessary, if any, to satisfy the Reserve Requirement upon the issuance of a Series of the Bonds may be funded (A) on the Issue Date by a deposit of bond sale proceeds, available funds of the Municipal Water System, or a Reserve Security; or (B) in annual installments from Net Revenue so that the Reserve Requirement is fully funded by no later than the fifth anniversary of the Issue Date of such series. The manner of funding the Reserve Requirement for the Bonds shall be set forth in the Bond Sale Terms.

Until the Reserve Covenant Date, the requirements of this paragraph apply: On receipt of a notice of cancellation of any Reserve Security used to satisfy all or any part of the Reserve Requirement, the City shall either (A) substitute a Reserve Security in the amount required to make up the deficiency created in the Reserve Subaccount, or (B) create a special account in the Water Fund and deposit therein, on or before the 25th day of each of the 36 succeeding calendar months (commencing with the 25th day of the calendar month next following the date of the notice) 1/36 of the amount sufficient, together with other money and investments on deposit in the Reserve Subaccount, to equal the Reserve Requirement that will be in effect as of the date the cancellation becomes effective. Amounts on deposit in that special account shall not be available to pay debt service on Parity Bonds or for any other purpose of the City, and shall be transferred to the Reserve Subaccount on the effective date of any cancellation of a Reserve Security to make up all or part of the deficiency caused thereby. Amounts in that special account or in the Reserve Subaccount may be transferred back to the Water

Fund and used for any purpose if and when a substitute Reserve Security is obtained. ***From and after the Reserve Covenant Date, the foregoing paragraph shall no longer be of any force or effect.***

To meet the required payments to be made into the Parity Bond Account, the Director of Finance may transfer any money from any funds or accounts of the City legally available therefor, except bond redemption funds, refunding escrow funds or defeasance funds. The Director of Finance may provide for the purchase, redemption, or defeasance of any Parity Bonds by the use of money on deposit in any subaccount in the Parity Bond Account as long as the money remaining in those subaccounts is sufficient to satisfy the required deposits in those subaccounts for the remaining Parity Bonds.

(b) Reserve Subaccount. The Reserve Subaccount previously has been created and maintained as a subaccount within the Parity Bond Account for the purpose of securing the payment of the principal of and interest on all Parity Bonds outstanding (including amounts due under any Parity Payment Agreements if required under such agreement). The City covenants that it will at all times, so long as any Covered Parity Bonds are outstanding, maintain the Reserve Subaccount at the Reserve Requirement (taking into account scheduled payments to fund the Reserve Requirement over time), as it is adjusted from time to time, except for withdrawals as authorized by this ordinance. Any withdrawals authorized below from subaccounts within the Reserve Subaccount shall be made on a pro rata basis except if the provider of a Reserve Security requires all cash and investments in the Reserve Subaccount to be withdrawn before draws on the Reserve Security, or unless the City receives an opinion of Bond Counsel to the effect that such pro rata withdrawal is not required to maintain the exclusion of interest on the Parity Bonds then outstanding from gross income for federal income tax purposes.

(i) Use of Reserve Subaccount for Payment of Debt Service. In the event of a deficiency in the Principal and Interest Subaccount to meet current installments of either principal (including Sinking Fund Requirements) or interest (including amounts payable under any Parity Payment Agreement), the Director of Finance may make withdrawals of money or proceeds of Reserve Security in the Reserve Subaccount. ***From***

and after the Reserve Covenant Date, the Reserve Subaccount shall secure the payment of principal of and interest on Covered Parity Bonds only and the withdrawals authorized by this paragraph shall be limited to the amounts necessary to meet maturing installments of either principal (or Sinking Fund Requirements) or interest (including net payments under Parity Payment Agreements) with respect only to Covered Parity Bonds. Any deficiency created in the Reserve Subaccount by reason of any such withdrawal or claim against a Reserve Security shall then be made up from the ULID Assessments and Net Revenue first available after making necessary provisions for the required payments into the Principal and Interest Subaccount.

(ii) **Application of Funds in Reserve Subaccount.** The money in the Reserve Subaccount may be applied to the payment of the last outstanding Covered Parity Bonds, and when the total amount in the Parity Bond Account (including investment earnings) equals the total amount of principal and interest for all then-outstanding Covered Parity Bonds to the last maturity thereof, no further payment need be made into the Parity Bond Account in respect of the Covered Parity Bonds. Money in the Reserve Subaccount (including investment earnings) in excess of the Reserve Requirement may be withdrawn and deposited in the Principal and Interest Subaccount and spent for the purpose of retiring Covered Parity Bonds or may be deposited in any other fund or account and spent for any other lawful Municipal Water System purpose.

(c) **Investment of Money in Parity Bond Account.** All money in the Parity Bond Account may be kept in cash or invested in Permitted Investments maturing not later than the date when needed (for investments in the Principal and Interest Subaccount) or the last maturity of any outstanding Parity Bonds (for investments in the Reserve Subaccount). In no event shall any money in the Parity Bond Account or any other money reasonably expected to be used to pay principal of and/or interest on the Parity Bonds be invested at a yield that would cause any Series issued as Tax-Exempt Bonds or Tax Credit Subsidy Bonds to be arbitrage bonds within the meaning of Section 148 of the Code. Income from investments in the Principal and Interest Subaccount shall be deposited in that subaccount. Income from investments in the Reserve Subaccount shall be deposited in that subaccount until the amount therein is equal to the Reserve Requirement for all Parity Bonds, and

thereafter shall be deposited in the Principal and Interest Subaccount. Notwithstanding the provisions for deposit or retention of earnings in the Parity Bond Account, any earnings that are subject to a federal tax or rebate requirement may be withdrawn from the Parity Bond Account for deposit in a separate fund or account for that purpose. If no longer required for such rebate, money in that separate fund or account shall be returned to the Parity Bond Account.

(d) **Failure to Deposit Money in Parity Bond Account.** If the City fails to set aside and pay into the Parity Bond Account, or the subaccounts therein, the amounts set forth in this ordinance, the registered owner of any of the outstanding Parity Bonds may bring action against the City for failure to make the required deposits to the Parity Bond Account only in accordance with Section 25 of this ordinance regarding Events of Default.

Section 16. **Parity Bond Covenants.** The City covenants with the Owner of each Bond at any time outstanding, as follows:

(a) **Operation and Maintenance.** The City will pay all Operating and Maintenance Expense and otherwise meet the obligations of the City under this ordinance. It will at all times maintain and keep the Municipal Water System in good repair, working order and condition, and will make all necessary and proper additions, betterments, renewals and repairs thereto, and improvements, replacements and extensions thereof, so that at all times the business carried on in connection therewith will be properly and advantageously conducted, and will at all times operate or cause to be operated the Municipal Water System and the business in connection therewith in an efficient manner and at a reasonable cost.

(b) **Establishment and Collection of Rates and Charges.** The City will establish, maintain, revise as necessary, and collect rates and charges for services and facilities provided by the Municipal Water System so that the Adjusted Net Revenue in each fiscal year will be at least equal to the Coverage Requirement. The failure of the City to comply with this covenant shall not be an Event of Default if the City promptly retains an Independent Utility Consultant to recommend to the City Council adjustments in the rates of the Municipal

Water System necessary to meet the requirements of this covenant and if the City Council adopts the recommended modifications within 180 days of the date the failure became known to the City Council.

(c) **Sale or Disposition of the Municipal Water System.** The City may sell, transfer or otherwise dispose of any of the works, plant, properties, facilities or other part of the Municipal Water System or any real or personal property comprising a part of the Municipal Water System consistent only with one or more of the following:

(i) The City in its discretion may carry out such a sale, transfer, or disposition (each, a “transfer”) if the facilities or property transferred are not material to the operation of the Municipal Water System, or shall have become unserviceable, inadequate, obsolete, or unfit to be used in the operation of the Municipal Water System or are no longer necessary, material or useful to the operation of the Municipal Water System; or

(ii) The City in its discretion may carry out such a transfer if the aggregate depreciated cost value of the facilities or property being transferred under this subsection in any fiscal year comprises no more than 5 percent of the total assets of the Municipal Water System; or

(iii) The City in its discretion may carry out such a transfer if the proceeds from such transfer are used to acquire new useful operating facilities or properties of the Municipal Water System, or are used to retire outstanding Parity Bonds or other revenue obligations of the Municipal Water System, if, at the time of such transfer, the City has on file a certificate of both the Director of Finance and the Director of Seattle Public Utilities (or any officer who succeeds to substantially all of the responsibilities of either office) demonstrating that, in their opinion, upon such transfer and the use of proceeds of the transfer as proposed by the City, the remaining facilities of the Municipal Water System will retain their operational integrity and, based on the financial statements for the most recent fiscal year available, the proposed transfer would not prevent the Municipal Water System from complying with the Coverage Requirement during the five fiscal years following the fiscal year in which the transfer is to occur. The certificate shall take into account (A) the reduction in

revenue and expenses, if any, resulting from the transfer; (B) the use of any proceeds of the transfer for the redemption of Parity Bonds, (C) the estimate of revenue from customers anticipated to be served by any additions to and betterments and extensions of the Municipal Water System financed in part by the proposed portion of the proceeds of the transfer, and (D) any other adjustment permitted in the preparation of a certificate under subsection 17(a)(vi) of this ordinance. Before such a transfer, the City also must obtain confirmation from each of the Rating Agencies to the effect that the rating then in effect will not be reduced or withdrawn upon such transfer.

(d) **Books and Records.** The City will keep proper books, records and accounts with respect to the operations, income, and expenditures of the Municipal Water System in accordance with generally accepted accounting practices relating to municipal utilities and any applicable rules and regulations prescribed by the State, and will cause those books, records and accounts to be audited on an annual basis by the State Auditor (or, if such audit is not made by the State Auditor within 270 days after the close of any fiscal year of the City, by a certified public accountant selected by the City). It will prepare annual financial and operating statements as soon as practicable after the close of each fiscal year showing in reasonable detail the financial condition of the Municipal Water System as of the close of the previous year and the income and expenses for such year, including the amounts paid into the Parity Bond Account and into any and all special funds or accounts created pursuant to the provisions of this ordinance, the status of all funds and accounts as of the end of such year, and the amounts expended for maintenance, renewals, replacements and capital additions to the Municipal Water System. Such statements shall be sent to the owner of any Parity Bond upon written request received by the City. The City may charge a reasonable cost for providing such financial statements.

(e) **Liens Upon the Municipal Water System.** Except as otherwise provided in this ordinance, it will not at any time create or permit to accrue or to exist any lien or other encumbrance or indebtedness upon the Gross Revenue or any part thereof prior or superior to the lien thereon for the payment of the Parity Bonds, and will pay and discharge, or cause to be paid and discharged, any and all lawful claims for labor, materials or

supplies that, if unpaid, might become a lien or charge upon the Gross Revenue or any part thereof, prior or superior to, or on a parity with, the lien of the Parity Bonds, or which might impair the security of the Parity Bonds.

(f) **Collection of Delinquent Accounts; No Free Service.** On at least an annual basis, the City will determine all accounts that are delinquent and will take such actions as the City determines are reasonably necessary to enforce payment of those delinquent accounts. Except to aid the poor or infirm and for fire-fighting purposes, it will not furnish or supply or permit the furnishing or supplying of any service or facility in connection with the operation of the Municipal Water System free of charge to any person, firm, or corporation, public or private.

(g) **Maintenance of Insurance.** The City will at all times carry fire and extended coverage, public liability and property damage and such other forms of insurance with responsible insurers and with policies payable to the City on such of the buildings, equipment, works, plants, facilities, and properties of the Municipal Water System as are ordinarily carried by municipal or privately owned utilities engaged in the operation of like systems, and against such claims for damages as are ordinarily carried by municipal or privately owned utilities engaged in the operation of like systems, or it will self-insure or participate in an insurance pool or pools with reserves adequate, in the reasonable judgment of the City, to protect the Municipal Water System against loss.

(h) **Condemnation Awards and Insurance Proceeds.** If the City receives any condemnation awards or proceeds of an insurance policy in connection with any loss of or damage to any property of the Municipal Water System, it shall apply the condemnation award or insurance proceeds, in the City's sole discretion, either (i) to the cost of replacing or repairing the lost or damaged properties, (ii) to the payment, purchase, or redemption of Parity Bonds, or (iii) to the cost of improvements to the Municipal Water System.

Section 17. **Future Parity Bonds**

(a) **Issuance of Future Parity Bonds.** The City reserves the right to issue Future Parity Bonds and to

enter into Parity Payment Agreements for any lawful purpose of the Municipal Water System (including for the purpose of refunding a portion of the then-outstanding Parity Bonds) only if, at the time of the issuance of such series of Future Parity Bonds (or upon the effective date of the Parity Payment Agreement), the following conditions are satisfied:

(i) There must be no deficiency in the Parity Bond Account, and no Event of Default with respect to any Parity Bonds shall have occurred and be continuing.

(ii) The Bond Documents for the proposed Future Parity Bonds must provide that all ULID Assessments shall be paid directly into the Parity Bond Account.

(iii) The Bond Documents for the proposed Future Parity Bonds must provide for the payment of the principal thereof and the interest thereon out of the Parity Bond Account.

(iv) The Bond Documents for the proposed Future Parity Bonds must provide for the payment of any Sinking Fund Requirements from money in the Principal and Interest Subaccount.

(v) For each series of Future Parity Bonds that is to be issued as a series of Covered Parity Bonds, the Bond Documents must provide for the deposit into the Reserve Subaccount of an amount, if any, necessary to fund the Reserve Requirement upon the issuance of those Future Parity Bonds (if any), which requirement may be satisfied: (A) by a deposit, made on the Issue Date of such series, of proceeds of that series of Future Parity Bonds or other money legally available for such purpose; (B) by obtaining one or more Reserve Securities (or a deposit of cash plus Reserve Securities) available to be drawn upon in specific amounts to be paid into the Reserve Subaccount and credited against the deposits required to be maintained in the Reserve Subaccount; or (C) by a deposit of amounts necessary to fund the Reserve Requirement from ULID Assessments and Net Revenue within five years from the date of issuance of those Future Parity Bonds, in five approximately equal annual payments. Immediately prior to the issuance of Future Parity Bonds, amounts then deposited in the Reserve Subaccount shall be valued as determined on the most recent annual financial report of the City applicable to the Drainage and Wastewater System, and the additional amounts, if any, required to be

deposited into the Reserve Subaccount to satisfy the Reserve Requirement shall be based on that valuation.

(vi) There must be on file with the City a Parity Certificate as described in subsection (b).

However, if the proposed Future Parity Bonds (or any portion thereof) are to be issued for the purpose of refunding outstanding Parity Bonds (referred to as the “Refunding Parity Bonds”), no Parity Certificate shall be required as to that portion issued for refunding purposes if the Director of Finance finds and certifies that the Adjusted Annual Debt Service on the refunding portion of the proposed Refunding Parity Bonds is not more than \$5,000 greater than the Adjusted Annual Debt Service on the Parity Bonds to be refunded thereby.

Alternatively, Refunding Parity Bonds may be issued upon delivery of a Parity Certificate.

(b) Parity Certificate. A Parity Certificate required under subsection (a)(vi) may be provided as follows:

(i) A certificate may be prepared and signed by the Director of Finance, demonstrating that during any 12 consecutive calendar months out of the immediately preceding 24 calendar months Adjusted Net Revenue was at least equal to the Coverage Requirement for all Parity Bonds plus the Future Parity Bonds proposed to be issued (and assuming that the debt service of the proposed Future Parity Bonds for that 12-month period was the Average Annual Debt Service for those proposed Future Parity Bonds); or

(ii) A certificate may be prepared and signed by both the Director of Finance and the Director of Seattle Public Utilities (or any officer who succeeds to substantially all of the responsibilities of either office), demonstrating that, in their opinion, Adjusted Net Revenue for the five fiscal years next following the earlier of (A) the end of the period during which interest on those Future Parity Bonds is to be capitalized or, if no interest is capitalized, the fiscal year in which the Future Parity Bonds are issued, or (B) the date on which substantially all the new facilities financed with those Future Parity Bonds are expected to commence operations, such Adjusted Net Revenue, further adjusted as provided in paragraphs (1) through (4) below, will be at least equal to the Coverage Requirement. That certificate may take into account the following adjustments:

(1) Any changes in rates in effect and being charged, or rates expected to be charged in accordance with a program of specific rates, rate levels or increases in overall rate revenue approved by ordinance or resolution;

(2) Net revenue from customers of the Municipal Water System who have become customers during the 12-consecutive-month period or thereafter, and their estimate of net revenue from any customers to be connected to the Municipal Water System who have paid the required connection charges, adjusted to reflect one year's net revenue from those customers;

(3) Their estimate of net revenue from customers anticipated to be served by facilities or improvements financed in substantial part by those Future Parity Bonds (or additional Parity Bonds expected to be issued during the five-year period); and

(4) Net revenue from any person, firm, corporation, or municipal corporation under any executed contract for water or other utility service, which revenue was not included in historical Net Revenue of the Municipal Water System.

(c) Other Provisions. Nothing contained in this ordinance shall prevent the City from issuing Future Parity Bonds to refund maturing Parity Bonds, money for the payment of which is not otherwise available, or revenue bonds that are a charge or lien upon Net Revenue subordinate to the charge or lien of the Parity Bonds, or from pledging to pay Net Revenue and/or assessments levied for ULID improvements constructed from the proceeds of subordinate lien bonds into a bond redemption fund created for the payment of the principal of and interest on subordinate lien bonds.

(d) Effect of Issuance of Future Parity Bonds. If the Parity Conditions are met and complied with at the time of the issuance of such Future Parity Bonds, then payments into the Parity Bond Fund with respect to such Future Parity Bonds shall rank equally with the payments out of the Net Revenue required to be made into the Parity Bond Fund by this ordinance. Nothing set forth herein shall prevent the City from (i) issuing revenue bonds or other obligations that are a charge upon the Net Revenue junior and inferior to the payments required

to be made therefrom into the Parity Bond Fund for the payment of the Parity Bonds, provided that such subordinate bonds may not be subject to acceleration under any circumstances; or (ii) issuing Refunding Parity Bonds for the purpose of refunding Outstanding Parity Bonds, upon compliance with the Parity Conditions set forth in this section.

(e) Reserve Requirement; Election Not to Designate Bonds as Covered Parity Bonds.

Notwithstanding anything in this section to the contrary, the City may elect, by reflecting such election in the Bond Sale Terms relating to the issuance or sale of a series of Future Parity Bonds, that, from and after the Reserve Covenant Date, such series shall not be deemed to be a series of Covered Parity Bonds, shall not be secured by the amounts in the Reserve Account, and shall be excluded from the calculation of the Reserve Requirement.

Section 18. **Rate Stabilization Account.** The Rate Stabilization Account has been created as a separate account in the Water Fund. The City may at any time, as determined by the Director of Finance and consistent with the flow of funds set forth in Section 14 of this ordinance, deposit in the Rate Stabilization Account Gross Revenue and any other money received by the Municipal Water System and available for this purpose. The Director of Finance may, upon authorization by the City Council, withdraw any or all of the money in the Rate Stabilization Account for inclusion in Adjusted Gross Revenue for any fiscal year of the City. Such deposits or withdrawals may be made up to and including the date 90 days after the end of the fiscal year for which the deposit or withdrawal will be included as Adjusted Gross Revenue. No deposit of Gross Revenue may be made into the Rate Stabilization Account to the extent that such deposit would prevent the City from meeting the Coverage Requirement in the relevant fiscal year.

Section 19. **Separate Utility Systems.** The City may create, acquire, construct, finance, own or operate one or more additional systems for water supply, transmission or other commodity or service relating to the Municipal Water System. The revenue of that separate utility system shall not be included in Gross Revenue and may be pledged to the payment of revenue obligations issued to purchase, construct, condemn or otherwise

acquire or expand the separate utility system. Neither Gross Revenue nor Net Revenue shall be pledged by the City to the payment of any obligations of a separate utility system except (a) as a Contract Resource Obligation, upon compliance with Section 20 of this ordinance, or (b) with respect to Net Revenue, on a basis subordinate to the lien of the Parity Bonds on that Net Revenue.

Section 20. **Contract Resource Obligations**. The City may at any time enter into one or more Contract Resource Obligations for the acquisition, from facilities to be constructed, of water supply, transmission, or other commodity or service relating to the Municipal Water System, as follows:

(a) The City may determine that, and may agree under a Contract Resource Obligation to provide that, all payments under that Contract Resource Obligation (including payments prior to the time that water supply or transmission or other commodity or service is being provided, or during a suspension or after termination of supply or service) shall be an Operating and Maintenance Expense if the following requirements are met at the time such a Contract Resource Obligation is entered into:

(i) No Event of Default has occurred and is continuing; and

(ii) There shall be on file a certificate of an Independent Utility Consultant stating that (A) the payments to be made by the City in connection with the Contract Resource Obligation are reasonable for the supply or transmission rendered; (B) the source of any new supply and any facilities to be constructed to provide the supply or transmission are sound from a water or other supply or transmission planning standpoint, are technically and economically feasible in accordance with prudent utility practice, and are likely to provide such supply or transmission no later than a date set forth in the Independent Utility Consultant's certification; and (C) the Adjusted Net Revenue (further adjusted by the Independent Utility Consultant's estimate of the payments to be made in accordance with the Contract Resource Obligation) for the five fiscal years following the year in which the Contract Resource Obligation is incurred, as such Adjusted Net Revenue is estimated by the Independent Utility Consultant in accordance with the provisions of and adjustments permitted in subsection 17(b)(ii) of this ordinance, will be at least equal to the Coverage Requirement.

(b) Payments required to be made under Contract Resource Obligations shall not be subject to acceleration.

(c) Nothing in this section shall be deemed to prevent the City from entering into other agreements for the acquisition of water supply, transmission or other commodity or service from existing facilities and from treating those payments as an Operating and Maintenance Expense. Nothing in this section shall be deemed to prevent the City from entering into other agreements for the acquisition of water supply, transmission, or other commodity or service from facilities to be constructed and from agreeing to make payments with respect thereto, such payments constituting a charge and lien on Net Revenue subordinate to that of the Parity Bonds.

Section 21. **Refunding and Defeasance of the Bonds.**

(a) **Bonds Designated as Refundable and Defeasible Bonds.** Each Series of the Bonds is hereby designated as a series of “Refundable Bonds” for purposes of the Omnibus Refunding Ordinance and as “Defeasible Bonds” for purposes of the Omnibus Defeasance Ordinance.

(b) **Refunding; Defeasance.** The City may issue Refunding Parity Bonds pursuant to the laws of the State or use money available from any other lawful source (i) to pay when due the principal of (including premium, if any) and interest on any Bond, or any portion thereof, included in a refunding or defeasance plan (the “Defeased Bonds”); (ii) to redeem and retire, release, refund, or defease the Defeased Bonds; and (iii) to pay the costs of such refunding or defeasance. If money and/or Government Obligations maturing at a time or times and in an amount sufficient (together with known earned income from the investment thereof) to redeem and retire, release, refund, or defease the Defeased Bonds in accordance with their terms is set aside in a special trust fund or escrow account irrevocably pledged to such redemption, retirement, or defeasance (the “Trust Account”), then all right and interest of the Owners of the Defeased Bonds in the covenants of this ordinance and in Net Revenue and the funds and accounts pledged to the payment of such Defeased Bonds, other than the right to receive the funds so set aside and pledged, thereafter shall cease and become void. Such Owners thereafter shall have the right to receive payment of the principal of and interest or redemption price on the

Defeased Bonds from the Trust Account. After establishing and fully funding such a Trust Account, the Defeased Bonds shall be deemed to be no longer outstanding, and the Director of Finance may then apply any money in any other fund or account established for the payment or redemption of the Defeased Bonds to any lawful purpose.

(c) **Notice of Defeasance or Refunding.** Unless otherwise specified in the Bond Documents, notice of refunding or defeasance shall be given, and selection of Bonds for any partial refunding or defeasance shall be conducted, in the manner set forth in this ordinance for the redemption of Bonds.

(d) **Annual Debt Service Calculation Adjustments for Defeased Bonds.** If the refunding or defeasance plan provides (i) that the Defeased Bonds (or the Refunding Parity Bonds issued to redeem those Defeased Bonds) are to be secured by money and/or Government Obligations pending the redemption of the Defeased Bonds, and (ii) that certain money and/or Government Obligations are pledged irrevocably for the redemption of the Defeased Bonds, then only the debt service on such Bonds that are not Defeased Bonds (and any Refunding Parity Bonds, the payment of which is not so secured by the refunding plan) shall be included in the calculation of Annual Debt Service.

Section 22. **Provisions Relating to Federal Tax Issues.** The Bond Documents may include such additional terms and covenants relating to federal tax matters as the Director of Finance deems necessary or appropriate, including the following:

(a) **Tax-Exempt Bonds.** For each Series of the Bonds issued as Tax-Exempt Bonds, the City covenants that it will take all actions, consistent with the terms of such Series as set forth in the applicable Bond Documents, that are reasonably within its power and necessary to prevent interest on that Series from being included in gross income for federal income tax purposes. The City further covenants that it will neither take any action nor make or permit any use of gross proceeds of that Series (or other funds of the City treated as gross proceeds of that Series) at any time during the term of such Series that will cause interest on such Series to be included in gross income for federal income tax purposes. The City also covenants that, to the extent the

arbitrage rebate requirement of Section 148 of the Code is applicable to any Series issued as Tax-Exempt Bonds, it will take all actions necessary to comply (or to be treated as having complied) with that requirement in connection with that Series (including the calculation and payment of any penalties that the City may elect to pay as an alternative to calculating rebatable arbitrage and the payment of any other penalties if required under Section 148 of the Code) to prevent interest on such Series from being included in gross income for federal income tax purposes.

(b) **Taxable Bonds; Tax Credit Subsidy Bonds.** For each Series of the Bonds issued as Taxable Bonds or as Tax Credit Subsidy Bonds, the Director of Finance is authorized to make provision in the Bonds and other Bond Documents, to execute additional written agreements, and to make additional covenants on behalf of the City, all as the Director may deem necessary or appropriate in order to obtain, maintain, and administer such tax status. In the case of Tax Credit Subsidy Bonds, such additional covenants and agreement may include (without limiting the generality of the foregoing) those necessary in order for the City (i) to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of such Tax Credit Subsidy Bonds, and (ii) to ensure that such Series otherwise becomes and remains eligible for tax benefits under the Code.

Section 23. **Official Statement; Continuing Disclosure**

(a) **Preliminary Official Statement.** The Director of Finance and other appropriate City officials are directed to cause the preparation of and review the form of a preliminary official statement in connection with each sale of one or more Series to the public. For the sole purpose of the Purchaser's compliance with paragraph (b)(1) of Rule 15c2-12, the Director of Finance is authorized to deem that preliminary official statement final as of its date, except for the omission of information permitted to be omitted by Rule 15c2-12. The City approves the distribution to potential purchasers of the Bonds of a preliminary official statement that has been deemed final in accordance with this subsection (a).

(b) **Final Official Statement.** The City approves the preparation of a final official statement for each

sale of one or more Series to be sold to the public in the form of the preliminary official statement with such additions, modifications and amendments as the Director of Finance deems necessary or desirable, and further authorizes the Director of Finance to execute and deliver such final official statement to the Purchaser. The City authorizes and approves the distribution by the Purchaser of that final official statement to purchasers and potential purchasers of the Bonds.

(c) **Undertaking to Provide Continuing Disclosure.** To meet the requirements of paragraph (b)(5) of Rule 15c2-12, as applicable to a participating underwriter for a Series of the Bonds, the Director of Finance is authorized to execute a written Continuing Disclosure Agreement with respect to that Series, in substantially the form attached to this ordinance as Exhibit B.

Section 24. **Supplemental or Amendatory Bond Documents.** This ordinance and the other applicable Bond Documents for any particular Series of the Bonds may not be supplemented or amended in any respect subsequent to the Issue Date of such Series, except in accordance with and subject to the provisions of this section.

(a) **Amendments Without Bond Owner Consent.** From time to time and at any time, without the consent of or notice to any owners of Parity Bonds, the City may supplement or amend the Bond Documents applicable to any Series of the Bonds for any of the purposes set forth in this subsection (a). Any such supplement or amendment may be passed, adopted, or otherwise approved by the City, without requiring the consent of the registered owners of any Parity Bonds, but may become effective only upon receipt by the City of an opinion of Bond Counsel stating that such supplement or amendment is authorized or permitted by this ordinance and, upon the effective date thereof, will be valid and binding upon the City in accordance with its terms, and will not adversely affect the exclusion from gross income for federal income tax purposes of interest on the affected Series of the Bonds, if such Series was issued and sold as Tax-Exempt Bonds. The types of supplements and amendments permitted under this subsection (a) are as follows:

(i) To cure any formal defect, omission, inconsistency, or ambiguity in the Bond Documents for

such Series in a manner not adverse to the owners of any Parity Bonds;

(ii) To impose upon the Bond Registrar (with its consent) for the benefit of the owners of Parity Bonds any additional rights, remedies, powers, authority, security, liabilities, or duties which may lawfully be granted, conferred, or imposed and which are not contrary to or inconsistent with such Bond Documents as theretofore in effect;

(iii) To add to the covenants and agreements of, and limitations and restrictions upon, the City in the Bond Documents, other covenants, agreements, limitations and restrictions to be observed by the City which are not contrary to or inconsistent with such Bond Documents as theretofore in effect;

(iv) To confirm, as further assurance, any pledge under (and the subjection to any claim, lien, or pledge created or to be created by) such Bond Documents on any other money, securities, or funds;

(v) To alter the Authorized Denominations of a Series of the Bonds and to make correlative amendments and modifications to the applicable Bond Documents regarding (A) exchangeability of such Bonds for Bonds of different authorized denominations, (B) redemptions of portions of Bonds of particular authorized denominations, and (C) similar amendments and modifications of a technical nature;

(vi) To comply with any future federal law or interpretation to preserve the exclusion of the interest on any Series of the Bonds issued and sold as Tax-Exempt Bonds from gross income for federal income tax purposes and the entitlement of the City to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series of the Bonds issued and sold as Tax Credit Subsidy Bonds;

(vii) To modify, alter, amend, or supplement the Bond Documents in any other respect which is not materially adverse to the owners of the Parity Bonds and which does not involve a change described in subsection (c); and

(viii) To add to the covenants and agreements of (or limitations and restrictions upon) the City set forth in any Bond Documents, such additional or alternative covenants, agreements, limitations, or restrictions to be observed by the City as the City may determine are necessary or convenient to accommodate a

provider of Qualified Insurance or provider of a Reserve Security and are not materially adverse to the owners of the Parity Bonds.

(b) Amendments With Bond Owner Consent. With the consent of registered owners of not less than 60 percent in aggregate principal amount of the Parity Bonds then outstanding, the City may pass, adopt, or otherwise approve any supplement or amendment (other than amendments requiring unanimous consent as set forth in subsection (c)) to any Bond Document that is deemed necessary or desirable by the City for the purpose of modifying, altering, amending, supplementing, or rescinding, in any particular, any of the terms or provisions contained in such Bond Document other than those terms and provisions described in subsection (c).

(c) Amendments Prohibited Except Upon Unanimous Consent. Unless approved in writing by or on behalf of the registered owner of each Parity Bond then outstanding, nothing contained in this section shall permit, or be construed as permitting (i) a change in the times, amounts, or currency of payment of the principal of or interest on any outstanding Parity Bond, (ii) a reduction in the principal amount or redemption price of any outstanding Parity Bond, (iii) a change in the method of determining the rate of interest thereon (other than a conversion to a new interest rate made in accordance with the applicable Bond Documents), (iv) a preference or priority of any Parity Bond over any other Parity Bond, or (v) a reduction in the percentage of the aggregate principal amount of the then-outstanding Parity Bonds required to effect a change under subsection (b).

(d) Notice to Bond Owners. If at any time the City passes, adopts, or otherwise approves a supplement or amendment for any of the purposes of subsection (b) or (c), the Bond Registrar shall cause notice of the proposed supplement or amendment to be given by first class mail (i) to all registered owners of the then outstanding Parity Bonds, (ii) to each provider of Bond Insurance or a Reserve Security, and (iii) to each Rating Agency. Such notice shall briefly set forth the nature of the proposed supplement or amendment and shall state that a copy is on file at the office of the City Clerk for inspection by all owners of the then outstanding Parity Bonds.

(e) Effective Date; Consents. Any supplement or amendment, substantially as described in the notice

mailed pursuant to subsection (d), may go into effect upon delivery to the Bond Registrar of (i) the required consents, in writing, of registered owners of the Parity Bonds, and (ii) an opinion of Bond Counsel stating that such supplement or amendment is authorized or permitted by this ordinance. Upon the effective date thereof, such supplement or amendment will be valid and binding upon the City in accordance with its terms and will not adversely affect the exclusion from gross income for federal income tax purposes of interest on any Tax-Exempt Bonds.

If registered owners of not less than the percentage of Parity Bonds required by this section shall have consented to and approved such a supplement or amendment, no owner of any Parity Bond shall have any right (i) to object to the passage, adoption, or approval of such supplement or amendment, (ii) to object to any of the terms and provisions contained therein or the operation thereof, (iii) in any manner to question the propriety of the passage, adoption, or approval thereof, (iv) to enjoin or restrain the City from passing, adopting, or otherwise approving the same, or (v) to enjoin or restrain the City, any authorized official thereof, or the Bond Registrar from taking any action pursuant to the provisions thereof. For purposes of determining whether consents representing the requisite percentage of principal amount of Parity Bonds have been obtained, the Accreted Value of Capital Appreciation Bonds shall be deemed to be the principal amount. It shall not be necessary to obtain approval of the particular form of any proposed supplement, but it shall be sufficient if the consent shall approve the substance thereof.

(f) Effect of Amendment. Upon the effective date of any supplement or amendment, this ordinance (or the relevant Bond Document, if not set forth herein) shall be deemed to be modified and amended in accordance therewith, and the respective rights, duties and obligations of the City and all owners of Parity Bonds then outstanding shall thereafter be determined, exercised, and enforced in accordance with and subject in all respects to such modifications and amendments. All the terms and conditions of any such supplement or amendment shall be deemed to be a part of this ordinance and the Bond Documents for any and all purposes.

(g) Special Amendments. If and to the extent that it is determined that the written consent of

Registered Owners of the Bonds is required under subsection (b) or (c), the Registered Owners from time to time of the Bonds, by taking and holding the same, are hereby deemed to have consented to any supplement or amendment to the Bond Documents effecting any one or more of the following changes:

(i) When calculating “Annual Debt Service” to permit or require Tax Credit Subsidy Payments expected to be received by the City in any period to be credited against amounts required to be paid in respect of interest on the Parity Bonds in that period or

(ii) To permit or require Tax Credit Subsidy Payments to be deposited into the Principal and Interest Subaccount and credited against the Net Revenue otherwise required to be deposited into the Principal and Interest Subaccount; and

(iii) To permit the reimbursement obligations of the City under any Qualified Letter of Credit or Qualified Insurance (other than a Qualified Letter of Credit or Qualified Insurance obtained to satisfy all or part of the Reserve Requirement) to be secured by a lien and charge on Net Revenue equal in rank with the lien and charge upon such Net Revenue required to be paid into the Parity Bond Account to pay and secure the payment of the principal of and interest on Parity Bonds.

Section 25. **Defaults and Remedies**

(a) **Events of Default.** Each of the following shall constitute an Event of Default with respect to the Bonds:

(i) If a default is made in the payment of the principal of or interest on any of the Bonds when the same shall become due and payable; or

(ii) If the City defaults in the observance and performance of any other of the covenants, conditions and agreements on the part of the City set forth in this ordinance or the applicable Bond Documents (except as otherwise provided in this ordinance or in such Bond Documents) and such default or defaults have continued for a period of six months after the City has received from the Bond Owners’ Trustee (as defined in this section) or from the registered owners of not less than 25 percent in principal amount of the Parity Bonds a

written notice specifying and demanding the cure of such default. However, if the default in the observance and performance of any other of the covenants, conditions and agreements is one which cannot be completely remedied within the six months after written notice has been given, it shall not be an Event of Default with respect to the Bonds as long as the City has taken active steps within the six months after written notice has been given to remedy the default and is diligently pursuing such remedy.

Notwithstanding anything in this section to the contrary, the failure of the City or any obligated person to comply with the Continuing Disclosure Agreement shall not constitute an Event of Default, and the sole remedy of any holder of a Bond shall be to seek an order of specific performance from an appropriate court to compel the City to comply with the Continuing Disclosure Agreement.

(b) **Bond Owners' Trustee.** So long as such Event of Default has not been remedied, a trustee (the "Bond Owners' Trustee") may be appointed by the registered owners of 25 percent in principal amount of the then outstanding Parity Bonds, by an instrument or concurrent instruments in writing signed and acknowledged by such registered owners of the Parity Bonds or by their attorneys-in-fact duly authorized and delivered to such Bond Owners' Trustee, notification thereof being given to the City. That appointment shall become effective immediately upon acceptance thereof by the Bond Owners' Trustee. Any Bond Owners' Trustee appointed under the provisions of this subsection shall be a bank or trust company organized under the laws of the State of Washington or the State of New York or a national banking association. The bank or trust company acting as Bond Owners' Trustee may be removed at any time, and a successor Bond Owners' Trustee may be appointed, by the registered owners of a majority in principal amount of the Parity Bonds, by an instrument or concurrent instruments in writing signed and acknowledged by such registered owners of the Parity Bonds or by their attorneys-in-fact duly authorized. The Bond Owners' Trustee may require such security and indemnity as may be reasonable against the costs, expenses, and liabilities that may be incurred in the performance of its duties.

In the event that any Event of Default in the sole judgment of the Bond Owners' Trustee is cured and the

Bond Owners' Trustee furnishes to the City a certificate so stating, that Event of Default shall be conclusively deemed to be cured and the City, the Bond Owners' Trustee and the registered owners of the Parity Bonds shall be restored to the same rights and position which they would have held if no Event of Default had occurred.

The Bond Owners' Trustee appointed in the manner herein provided, and each successor thereto, is declared to be a trustee for the registered owners of all the Parity Bonds and is empowered to exercise all the rights and powers herein conferred on the Bond Owners' Trustee.

(c) **Suits at Law or in Equity.** Upon the occurrence of an Event of Default and during the continuance thereof, the Bond Owners' Trustee may, and upon the written request of the registered owners of not less than 25 percent in principal amount of the Parity Bonds outstanding shall, take such steps and institute such suits, actions, or other proceedings, all as it may deem appropriate for the protection and enforcement of the rights of the registered owners of the Parity Bonds, to collect any amounts due and owing to or from the City, or to obtain other appropriate relief, and may enforce the specific performance of any covenant, agreement, or condition contained in this ordinance or set forth in any of the Parity Bond Documents.

Nothing contained in this section shall, in any event or under any circumstance, be deemed to authorize the acceleration of the maturity of principal on the Parity Bonds, and the remedy of acceleration is expressly denied to the registered owners of the Parity Bonds under any circumstances including, without limitation, upon the occurrence and continuance of an Event of Default.

Any action, suit, or other proceeding instituted by the Bond Owners' Trustee hereunder shall be brought in its name as the Bond Owners' Trustee and all such rights of action upon or under any of the Parity Bonds or the provisions of this ordinance may be enforced by the Bond Owners' Trustee without the possession of any of those Parity Bonds and without the production of the same at any trial or proceedings relative thereto except where otherwise required by law. Any such suit, action, or proceeding instituted by the Bond Owners' Trustee shall be brought for the ratable benefit of all of the registered owners of those Parity Bonds, subject to the provisions of this ordinance. The respective registered owners of the Parity Bonds, by taking and holding the

same, shall be conclusively deemed irrevocably to appoint the Bond Owners' Trustee the true and lawful trustee of the respective registered owners of those Parity Bonds, with authority to institute any such action, suit, or proceeding; to receive as trustee and deposit in trust any sums becoming distributable on account of those Parity Bonds; to execute any paper or documents for the receipt of money; and to do all acts with respect thereto that the registered owner might have done in person. Nothing in this ordinance shall be deemed to authorize or empower the Bond Owners' Trustee to consent to accept or adopt, on behalf of any owner of the Parity Bonds, any plan of reorganization or adjustment affecting the Parity Bonds or any right of any registered owner thereof, or to authorize or empower the Bond Owners' Trustee to vote the claims of the registered owners thereof in any receivership, insolvency, liquidation, bankruptcy, reorganization, or other proceeding to which the City is a party.

(d) Application of Money Collected by Bond Owners' Trustee. Any money collected by the Bond Owners' Trustee at any time pursuant to this section shall be applied in the following order of priority:

(i) to the payment of the charges, expenses, advances, and compensation of the Bond Owners' Trustee and the charges, expenses, counsel fees, disbursements, and compensation of its agents and attorneys;

(ii) to the payment to the persons entitled thereto of all installments of interest then due on the Parity Bonds in the order of maturity of such installments and, if the amount available shall not be sufficient to pay in full any installment or installments maturing on the same date, then to the payment thereof ratably, according to the amounts due thereon to the persons entitled thereto, without any discrimination or preference; and

(iii) to the payment to the persons entitled thereto of the unpaid principal amounts of any Parity Bonds which shall have become due (other than Parity Bonds previously called for redemption for the payment of which money is held pursuant to the provisions of the applicable Bond Documents), whether at maturity or by proceedings for redemption or otherwise, in the order of their due dates and, if the amount available shall not be sufficient to pay in full the principal amounts due on the same date, then to the payment thereof ratably,

according to the principal amounts due thereon to the persons entitled thereto, without any discrimination or preference.

(e) **Duties and Obligations of Bond Owners' Trustee.** The Bond Owners' Trustee shall not be liable except for the performance of such duties as are specifically set forth herein. During an Event of Default, the Bond Owners' Trustee shall exercise such of the rights and powers vested in it hereby, and shall use the same degree of care and skill in its exercise, as a prudent person would exercise or use under the circumstances in the conduct of that person's own affairs. The Bond Owners' Trustee shall have no liability for any act or omission to act hereunder except for the Bond Owners' Trustee's own negligent action, its own negligent failure to act or its own willful misconduct. The duties and obligations of the Bond Owners' Trustee shall be determined solely by the express provisions of this ordinance, and no implied powers, duties or obligations of the Bond Owners' Trustee shall be read into this ordinance.

The Bond Owners' Trustee shall not be required to expend or risk its own funds or otherwise incur individual liability in the performance of any of its duties or in the exercise of any of its rights or powers as the Bond Owners' Trustee, except as may result from its own negligent action, its own negligent failure to act or its own willful misconduct.

The Bond Owners' Trustee shall not be bound to recognize any person as a registered owner of any Parity Bond until registered ownership, if disputed, has been established to its reasonable satisfaction.

The Bond Owners' Trustee may consult with counsel and the opinion of such counsel shall be full and complete authorization and protection in respect of any action taken or suffered by it hereunder in good faith and in accordance with the opinion of such counsel. The Bond Owners' Trustee shall not be answerable for any neglect or default of any person, firm or corporation employed and selected by it with reasonable care.

(f) **Suits by Individual Parity Bond Owners Restricted.** No owner of any one or more Parity Bonds shall have any right to institute any action, suit or proceeding at law or in equity for the enforcement of same unless:

- (i) an Event of Default has happened and is continuing; and
- (ii) a Bond Owners' Trustee has been appointed; and
- (iii) such owner previously shall have given to the Bond Owners' Trustee written notice of the Event of Default on account of which such suit, action or proceeding is to be instituted; and
- (iv) the registered owners of 25 percent in principal amount of the Parity Bonds, after the occurrence of such Event of Default, have made written request of the Bond Owners' Trustee and have afforded the Bond Owners' Trustee a reasonable opportunity to institute such suit, action or proceeding; and
- (v) there have been offered to the Bond Owners' Trustee security and indemnity satisfactory to it against the costs, expenses, and liabilities to be incurred therein or thereby; and
- (vi) the Bond Owners' Trustee has refused or neglected to comply with such request within a reasonable time.

No owner of any Parity Bond shall have any right in any manner whatever by action to affect or impair the obligation of the City to pay from Net Revenue the principal of and interest on such Parity Bonds to the respective registered owners thereof when due.

Section 26. **General Authorization.** In addition to the specific authorizations in this ordinance, the Mayor and the Director of Finance and each of the other appropriate officers of the City are each authorized and directed to do everything such officer may judge necessary, appropriate, or desirable in order to carry out the terms and provisions of, and complete the transactions contemplated by, this ordinance. In particular and without limiting the foregoing:

- (a) The Director of Finance, in the Director's discretion and without further action by the City Council,
 - (i) may issue requests for proposals to provide underwriting services or financing facilities (including, without limitation, Qualified Insurance, a Qualified Letter of Credit, or other credit support or liquidity facility), and may execute engagement letters and other agreements with underwriters and other financial institutions (including providers of liquidity or credit support) based on responses to such requests; (ii) may select and

make decisions regarding the Bond Registrar, fiscal or paying agents, and any Securities Depository for each Series of the Bonds; (iii) may take any and all actions necessary or convenient to provide for the conversion of interest rate modes for any Series in accordance with the applicable Bond Documents; and (iv) may take such actions on behalf of the City as are necessary or appropriate for the City to designate, qualify, or maintain the tax-exempt treatment with respect to any Series issued as Tax-Exempt Bonds, to receive from the United States Treasury the applicable Tax Credit Subsidy Payments in respect of any Series issued as Tax Credit Subsidy Bonds, and to otherwise receive any other federal tax benefits relating to any Series of the Bonds that are available to the City; and

(b) The Mayor and the Director of Finance are each separately authorized to execute and deliver (i) any and all contracts or other documents as are consistent with this ordinance and for which the City's approval is necessary or to which the City is a party (including but not limited to agreements with escrow agents, refunding trustees, liquidity or credit support providers, providers of Qualified Insurance or Reserve Securities, remarketing agents, underwriters, lenders or other financial institutions, fiscal or paying agents, Qualified Counterparties, custodians, and the Bond Registrar); and (ii) such other contracts or documents incidental to: the issuance and sale of any Series of the Bonds; the establishment of the interest rate or rates on a Bond; or the conversion, tender, purchase, remarketing, or redemption of a Bond, as may in the Mayor's or Director's judgment be necessary or appropriate.

Section 27. **Amendment of Omnibus Refunding Ordinance**. The following definition in the Omnibus Refunding Ordinance is amended to read as set forth in this section. Amendments are shown as revisions to Ordinance 125714, and amendments are marked using double underlining to indicate added text and using double parentheses and strikethrough formatting to indicate deleted text.

(a) **Amendments to Section 1**. The following definition is amended as follows:

* * *

“Refundable Bonds” means each series of Parity Bonds and outstanding subordinate

obligations of the Water System that have been designated, or may in the future be designated, as refundable under this ordinance, including: (a) each series of Outstanding Parity Bonds listed in Exhibit A; (b) each Series of the Bonds issued pursuant to this ordinance; ~~((and))~~ (c) each other series of Future Parity Bonds so designated by the City; and (d) all outstanding subordinate obligations of the Water System, including the outstanding State loans listed on Exhibit C to this amendatory ordinance, and all future loan agreements entered into pursuant to chapter 39.69 RCW.

* * *

(b) The amendments set forth in this section are intended to supplement the Omnibus Refunding Ordinance in a manner that is not materially adverse to the owners of the Outstanding Parity Bonds. Nonetheless, any amendment set forth in this section that is found by a court of competent jurisdiction to materially adversely affect owners of outstanding Parity Bonds shall be of no force or effect, and the provisions of the Omnibus Refunding Ordinance prior to the effective date of this amendatory ordinance shall continue in effect as to such outstanding Parity Bonds.

Section 28. **Severability**. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of its application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 29. **Ratification of Prior Acts**. Any action consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 30. **Section Headings**. Section headings in this ordinance are nonsubstantive.

Section 31. **Effective Date**. This ordinance shall take effect and be in force 30 days after its approval

by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

EXHIBIT B

FORM OF CONTINUING DISCLOSURE AGREEMENT

The City of Seattle, Washington (the “City”) makes the following written undertaking (the “Undertaking”) for the benefit of the Owners of the City’s Water System Revenue Bonds, [Year] [Series] (the “Bonds”), for the sole purpose of assisting the underwriter for the Bonds, in meeting the requirements of paragraph (b)(5) of Rule 15c2-12 (the “Rule”), as applicable to a participating underwriter for the Bonds. Capitalized terms used but not defined below shall have the meanings given in Ordinance _____ (the “Bond Ordinance”).

(a) Undertaking to Provide Annual Financial Information and Notice of Listed Events.

The City undertakes to provide or cause to be provided, either directly or through a designated agent, to the Municipal Securities Rulemaking Board (the “MSRB”), in an electronic format as prescribed by the MSRB, accompanied by identifying information as prescribed by the MSRB:

(i) Annual financial information and operating data regarding the Water System (the “Water System”) of the type included in the final official statement for the Bonds and described in subsection (b) of this section (“annual financial information”). The timely filing of unaudited financial statements shall satisfy the requirements and filing deadlines pertaining to the filing of annual financial statements under subsection (b), provided that audited financial statements are to be filed if and when they are otherwise prepared and available to the City.

(ii) Timely notice (not in excess of 10 business days after the occurrence of the event) of the occurrence of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notice of Proposed Issue (IRS Form 5701 – TEB) or other material notices

1 or determinations with respect to the tax status of the Bonds, or other material events affecting the tax
2 status of the Bonds; (7) modifications to rights of holders of the Bonds, if material; (8) Bond calls
3 (other than scheduled mandatory redemptions of Term Bonds), if material, and tender offers;
4 (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if
5 material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the City, as
6 such “Bankruptcy Events” are defined in the Rule; (13) the consummation of a merger, consolidation,
7 or acquisition involving the City or the sale of all or substantially all of the assets of the City other than
8 in the ordinary course of business, the entry into a definitive agreement to undertake such an action or
9 the termination of a definitive agreement relating to any such actions, other than pursuant to its terms,
10 if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if
11 material; (15) incurrence of a financial obligation of the City, if material, or agreement to covenants,
12 events of default, remedies, priority rights, or other similar terms of a financial obligation of the City,
13 any of which affect holders of the Bonds, if material; and (16) any default, event of acceleration,
14 termination event, modification of terms, or other similar event under the terms of a financial obligation
15 of the City, any of which reflect financial difficulties.

16 For purposes of this Undertaking, the term “financial obligation” shall mean a debt
17 obligation; derivative instrument entered into in connection with, or pledged as security or a source of
18 payment for, an existing or planned debt obligation; or a guarantee of either a debt obligation or a
19 derivative instrument entered into in connection with, or pledged as security or a source of payment
20 for, an existing or planned debt obligation. The term “financial obligation” does not include municipal
21 securities as to which a final official statement has been provided to the MSRB consistent with the
22 Rule.

23 (iii) Timely notice of a failure by the City to provide required annual financial
24 information on or before the date specified in subsection (b) of this section.

1 (b) Type of Annual Financial Information Undertaken to be Provided. The annual
2 financial information and operating data that the City undertakes to provide in subsection (a) of this
3 section:

4 (i) Shall consist of (1) annual financial statements of the Water System prepared
5 in accordance with applicable generally accepted accounting principles applicable to governmental
6 units (except as otherwise noted therein), as such principles may be changed from time to time and as
7 permitted by applicable state law; (2) a statement of outstanding bonded debt secured by Net Revenue
8 of the Water System; (3) debt service coverage ratios; (4) general customer statistics, such as number
9 and type of customers and revenues by customer class; and (5) current water rates;

10 (ii) Shall be provided not later than the last day of the ninth month after the end of
11 each fiscal year of the City (currently, a fiscal year ending December 31), as such fiscal year may be
12 changed as required or permitted by state law, commencing with the City's fiscal year ending
13 December 31, 20__; and

14 (iii) May be provided in a single document or multiple documents, and may be
15 incorporated by specific reference to documents available to the public on the Internet website of the
16 MSRB or filed with the Securities and Exchange Commission.

17 (c) Amendment of Undertaking. This Undertaking is subject to amendment after the
18 primary offering of the Bonds without the consent of any Owner or holder of any Bond, or of any
19 broker, dealer, municipal securities dealer, participating underwriter, rating agency or the MSRB,
20 under the circumstances and in the manner permitted by the Rule, including:

21 (i) The amendment may only be made in connection with a change in
22 circumstances that arises from a change in legal requirements, change in law, or change in the identity,
23 nature, or status of the City, or type of business conducted by the City;

1 (ii) The Undertaking, as amended, would have complied with the requirements of
2 the Rule at the time of the primary offering, after taking into account any amendments or interpretations
3 of the Rule, as well as any change in circumstances; and

4 (iii) The amendment does not materially impair the interests of holders, as
5 determined either by parties unaffiliated with the City (e.g., bond counsel or other counsel familiar
6 with federal securities laws), or by an approving vote of bondholders pursuant to the terms of the Bond
7 Ordinance at the time of the amendment.

8 The City will give notice to the MSRB of the substance (or provide a copy) of any amendment
9 to this Undertaking and a brief statement of the reasons for the amendment. If the amendment changes
10 the type of annual financial information to be provided, the annual financial information containing
11 the amended financial information will include a narrative explanation of the effect of that change on
12 the type of information to be provided.

13 (d) Beneficiaries. This Undertaking shall inure to the benefit of the City and any Owner
14 of Bonds, and shall not inure to the benefit of or create any rights in any other person.

15 (e) Termination of Undertaking. The City's obligations under this Undertaking shall
16 terminate upon the legal defeasance, prior redemption, or payment in full of all of the Bonds. In
17 addition, the City's obligations under this Undertaking shall terminate if those provisions of the Rule
18 that require the City to comply with this Undertaking become legally inapplicable in respect of the
19 Bonds for any reason, as confirmed by an opinion of nationally recognized bond counsel or other
20 counsel familiar with federal securities laws delivered to the City, and the City provides timely notice
21 of such termination to the MSRB.

22 (f) Remedy for Failure to Comply with Undertaking. As soon as practicable after the City
23 learns of any material failure to comply with this Undertaking, the City will proceed with due diligence
24 to cause such noncompliance to be corrected. No failure by the City or other obligated person to comply
25 with this Undertaking shall constitute a default in respect of the Bonds. The sole remedy of any Owner

1 of a Bond shall be to take such actions as that Owner deems necessary, including seeking an order of
2 specific performance from an appropriate court, to compel the City or other obligated person to comply
3 with this Undertaking.

4 (g) Designation of Official Responsible to Administer Undertaking. The Director of
5 Finance of the City (or such other officer of the City who may in the future perform the duties of that
6 office) or his or her designee is the person designated, in accordance with the Bond Ordinance, to carry
7 out this Undertaking of the City in respect of the Bonds set forth in this section and in accordance with
8 the Rule, including, without limitation, the following actions:

9 (i) Preparing and filing the annual financial information undertaken to be
10 provided;

11 (ii) Determining whether any event specified in subsection (a)(ii) has occurred,
12 assessing its materiality, where necessary, with respect to the Bonds, and preparing and disseminating
13 any required notice of its occurrence;

14 (iii) Determining whether any person other than the City is an “obligated person”
15 within the meaning of the Rule with respect to the Bonds, and obtaining from such person an
16 undertaking to provide any annual financial information and notice of listed events for that person in
17 accordance with the Rule;

18 (iv) Selecting, engaging and compensating designated agents and consultants,
19 including but not limited to financial advisors and legal counsel, to assist and advise the City in carrying
20 out this Undertaking; and

21 (v) Effecting any necessary amendment of the Undertaking.

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the municipal water system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing municipal water system; authorizing the issuance and sale of water system revenue bonds in one or more series for the purposes of paying part of the cost of carrying out that system or plan, providing for the reserve requirement, and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of the bonds; creating certain accounts of the City relating to the bonds; amending certain definitions set forth in Ordinance 125714, the Omnibus Refunding Ordinance; authorizing the issuance of water system refunding revenue bonds; and ratifying and confirming certain prior acts.

Summary and background of the Legislation:

This legislation provides legal authorization for the Water System to issue up to \$88 million of bonds to fund a portion of capital expenditures outlined in the adopted 2021-2026 Capital Improvement Plan (CIP).

Although the budget, capital plan, and rates make specific assumptions about the use of debt financing for a certain share of the capital program, separate authorization for the issuance of bonds is technically required.

The Water bond sale is anticipated to occur in mid-2022. The bond proceeds, combined with internally generated funds, will support the Water System capital program for about 12 months.

The bond sizing is based on the adopted budget, Strategic Business Plan, rates, planned cash flow, and cash contribution targets. The bond proceeds will also be used to make a deposit to the bond reserve fund and to pay issuance costs. Bonds will have fixed rates, a maximum maturity of 30 years, and estimated annual debt service of \$5.7 million starting in 2023. This bond was incorporated into the rate proposal for 2022-2023.

Major projects supported by the bond issue include: transmission and distribution system upgrades, water quality and treatment, and projects related to Move Seattle. For further information about Water CIP, please see the adopted 2021-2026 capital plan.

2. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
This legislation affects FAS, who coordinates the issuance of the bonds.

b. Is a public hearing required for this legislation?

No

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No

d. Does this legislation affect a piece of property?

No

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

No

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

No

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

No

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the Office of Housing; creating a new Fund in the City Treasury.

WHEREAS, during the 2019 session, the Washington State Legislature enacted SHB 1406 (published as

Chapter 338, Laws of 2019) that authorizes cities that have enacted a qualifying local tax, such as The City of Seattle's 2016 housing levy under RCW 84.55.050, to impose a local sales and use tax of 0.0146 percent; and

WHEREAS, in 2019 the City Council passed Ordinance 125887, imposing this tax upon persons from whom the state sales tax or use tax is collected pursuant to chapter 82.08 and 82.12 RCW; and

WHEREAS, Ordinance 125887 added Section 5.60.027 to the Seattle Municipal Code defining the purposes of the tax as acquiring, rehabilitating, or constructing affordable housing; or funding the operations and maintenance costs of new units of affordable or supportive housing, only for persons whose income is at or below 60 percent of area median income; and

WHEREAS, the Office of Housing has the adequate fund structure for managing the portion of this revenue that is supporting the construction of affordable housing, but does not have an available fund that is relevant for managing the operations and maintenance costs of new units; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. A new Local Option Operating & Maintenance Fund (Fund) is created in the City Treasury with fund number 16421, into which revenues may be deposited, and from which associated expenditures may be paid for the purposes described in Section 2 of this ordinance.

Section 2. The purpose of the Fund is to manage the portion of the Local Option sales tax which may be used for operations and maintenance subsidies for new units of affordable housing, including but not limited to affordable housing units recently built with Local Option sales tax revenues.

Section 3. Fund 16421 shall receive revenues from the Local Option sales tax. The Fund shall receive earnings on its positive balances and pay interest on its negative balances.

Section 4. The Office of Housing Director shall have responsibility for administering the Fund. The Director of Finance is authorized to create accounts or subaccounts as may be needed to implement the Fund's purpose and intent as established by this ordinance.

Section 5. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

SUMMARY and FISCAL NOTE

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Office of Housing	Rebecca Guerra / 3-0066	Miguel Jimenez / 4-5805

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the Office of Housing; creating a new Fund in the City Treasury.

Summary and background of the Legislation: This legislation creates a new fund (16421) for accounting purposes to manage the portion of the Local Option Sales Tax revenue reserved for operating and maintenance (O&M) subsidies for affordable housing projects. This fund has been determined to be a necessary addition by CBO, the Law Department, and the PeopleSoft Chartfield Governance Team. The Office of Housing has other O&M Subsidy funds, but they are specific to each prior Housing Levy.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes ___X___ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes ___X___ No

As with all other Office of Housing funds beginning with 164xx, this new fund will roll-up to existing fund 16400. The Adopted Budget addresses budget authority and revenues at the roll-up level of 16400, so the creation of fund 16421 will not impact it.

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

No.

Is there financial cost or other impacts of *not* implementing the legislation?

If this legislation is not implemented, the Office of Housing will not be able to effectively manage the related revenues and expenditures.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department? No.

- b. Is a public hearing required for this legislation?** No.
- c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?** No.
- d. Does this legislation affect a piece of property?** No.
- e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?** N/a

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION approving interest rates set by the Seattle City Employees' Retirement System (SCERS) Board of Administration for 2022.

WHEREAS, the Seattle City Employees' Retirement System (SCERS) currently pays interest on employee contributions at an annual rate of 5.75 percent (compounded annually) for contributions made before December 31, 2011, and 2.92 percent (also compounded annually) for employee contributions made after that date; and

WHEREAS, Seattle Municipal Code Section 4.36.505 provides that “[n]othing in this Section 4.36.505 shall be construed to limit the right of the Board [of Administration] to make changes in rates of interest, subject to approval of the City Council, whenever the Board deems it necessary or advisable...”; and

WHEREAS, the SCERS Board of Administration, at its August 12, 2021, meeting, voted to adjust the annual interest rate for 2022 on all contributions received after December 11, 2011, to 1.77 percent (compounded annually); and

WHEREAS, the SCERS Board intends to review and adjust this rate annually, based on market conditions;

NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR

CONCURRING, THAT:

Section 1. The City Council approves the 2022 credit interest rate adopted by the SCERS Board of Administration of 1.77 percent (compounded annually) on all member contributions received after December 31, 2011. Member contributions received on or before December 31, 2011, will continue to accrue credit

interest at a rate of 5.75 percent (also compounded annually). These rates will apply at the beginning of the first full pay period of 2022.

Adopted by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its adoption this _____ day of _____, 2021.

President _____ of the City Council

The Mayor concurred the _____ day of _____, 2021.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
RET	Paige Alderete/206-601-8469	Dave Hennes / 206-684-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

A RESOLUTION approving interest rates set by the Seattle City Employees' Retirement System (SCERS) Board of Administration for 2022.

Summary and background of the Legislation:

Per Seattle Municipal Code 4.36.505.F, this resolution provides City Council approval of the 2022 interest rates on member contributions set by the SCERS Board of Administration.

Under the policy enacted by the SCERS Board, in 2022, contributions received on or before December 31, 2011 will earn 5.75% annual interest, compounded annually. Contributions received after that date will earn 1.77% interest, also compounded annually. The Board reviews and adjusts the post-2011 interest rates annually, based on a policy target of the average yield on 30-year U.S. Treasury Bonds for the immediately preceding June 1 to May 31 period.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation has no direct financial implications for City appropriations, revenues, or positions. However, the new interest rates for 2022 will grow member contribution balances a bit more slowly than the historical average, lowering the Retirement Fund's costs and incrementally lowering the system's normal cost. These impacts are estimated along with other factors in the retirement system's periodic actuarial valuations.

Is there financial cost or other impacts of *not* implementing the legislation?

The proposed change reflects a small decrease in market interest rates in the last year. Not implementing the legislation would not recognize the action taken by the SCERS Board of Administration or the practice of the last several years. Inaction would leave the rate at the 2021 level.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?**
This legislation affects all SCERS members, who are employed across the City but has no effect on departmental costs.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. **Does this legislation affect a piece of property?**
No.
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
No perceived impact on vulnerable or historically disadvantaged communities.
- f. **Climate Change Implications**
1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.
 2. **Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**
No.
- g. **If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

CITY OF SEATTLE

RESOLUTION _____

A RESOLUTION amending Resolution 31334; establishing the City Council's intent to fund the Seattle City Employees' Retirement System (SCERS) as informed by the January 1, 2021, Actuarial Study.

WHEREAS, the City provides and manages a defined-benefit pension for its non-uniformed employees to serve as a source of retirement income, along with Social Security; and

WHEREAS, the City Council previously declared, in Resolution 31334, its intention to fully fund the actuarially required contribution amounts into the Seattle City Employees' Retirement System (SCERS), including a plan to amortize the system's unfunded liability in 30 or fewer years; and

WHEREAS, the January 1, 2021, valuation study performed by the SCERS actuary identified the contribution rate necessary to fully fund the system; and

WHEREAS, the City will update its contribution rate to SCERS annually to a level not less than the actuarial required contribution for that year as determined by the most recent valuation; and

WHEREAS, under SMC 4.36.505 the SCERS Board of Administration shall recommend to the City Council any necessary revisions in the rate of contributions of members and the City; and

WHEREAS, the SCERS Board of Administration, at its August 12, 2021, meeting, voted to recommend to the City Council that it maintain the 2021 employer contribution rate of 16.10 percent for fiscal year 2022, under the rationale that it is prudent in the interest of funding stability and in anticipation of declining changes to assumptions resulting from the upcoming Experience Study in 2022; NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE MAYOR

CONCURRING, THAT:

Section 1. Resolution 31334, last amended by Resolution 31978, is amended as follows:

* * *

Section 1. The City will fully fund its actuarially required contributions to SCERS in the 2012 Adopted Budget and thereafter. The City will base its contribution rate on a five-year smoothed asset valuation as described in the most recent actuarial report, and the rate will be sufficient to amortize the system's unfunded liabilities in 30 or fewer years.

Section 2. To that end, the ~~((2021))~~ 2022 Adopted Budget will include sufficient appropriation for the City to ~~((pay))~~ maintain payment of 16.10 percent of regular (non-overtime) payroll into SCERS. This is greater than the employee contribution rates into the system. It ~~((brings))~~ keeps the combined contribution ~~((to))~~ at 25.56 percent. ~~((, which is the actuarially required amount for 2021 as described in the January 1, 2020 Actuarial Valuation.))~~ The employer contribution rate must not be less than the required Actuarial Contribution Rate of 15.33 percent and a combined contribution rate of 24.68 percent, as determined by the January 1, 2021, Actuarial Valuation.

Section 3. The City endorses the actuarial assumptions and methods adopted by the SCERS Board of Administration, utilized beginning with the January 1, 2011, valuation, and modified by the Board as a result of the actuary's investigation of the system's experience from 2014 through 2017. These include:

- A. The entry age normal actuarial cost method;
- B. An investment return rate of 7.25 percent;
- C. A five-year smoothed method for asset valuation;
- D. Generational mortality tables that take future life expectancy improvements into account;
- E. Expected average membership growth of 0.5 percent per year; and
- F. Other economic and demographic assumptions as described in the valuation.

Section 4. Each year, and in the event the SCERS Board of Administration should wish to

change its actuarial assumptions and methods, the City requests that the Board consult with the Mayor and the City Council by the tenth day of July regarding the impacts of such changes on funding requirements, as described in ((SMC)) Seattle Municipal Code subsection 4.36.550.A, to allow sufficient time to make budget preparations.

Section 5. The City will update its contribution rate to SCERS annually to a level not less than the actuarial required contribution for that year as determined by the most recent valuation. The City may elect to exceed the required contribution rate in any given year in the interest of funding stability or to amortize the system's unfunded liability in fewer than 30 years.

Section 6. Beginning with the January 1, 2013, Actuarial Valuation and thereafter, the amortization period is closed and fixed. That is to say, the amortization rate should be sufficient to retire the system's unfunded liability over the period 2013-2042. Since closed amortizations can generate excessive contribution rate volatility in the second half of the period, the Council may consider re-opening the amortization period after 15 years. At any time, the SCERS Board and its actuary may recommend additional amortization layers and/or separate amortization periods for any new unfunded liabilities or surpluses generated after January 1, 2013.

* * *

Adopted by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its adoption this _____ day of _____, 2021.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
RET	Paige Alderete/206-601-8469	Dave Hennes / 206-684-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

A RESOLUTION amending Resolution 31334; establishing the City Council's intent to fund the Seattle City Employees' Retirement System (SCERS) as informed by the January 1, 2021, Actuarial Study.

Summary and background of the Legislation:

Per Resolution 31334 the City has committed to appropriate annually sufficient funds to make contributions to the retirement system to a level not less than the actuarial required contribution for that year as determined by the most recent actuarial valuation of the retirement systems liabilities. This resolution provides City Council approval of the 2022 contribution rate in compliance with Resolution 31334. The combined contribution rate for 2022 will stay consistent with the 2021 rate at 25.56 percent. The City's portion of the combined contribution rate for 2022 will remain 16.10 percent of regular payroll into SCERS. This contribution rate is consistent with the recommendation of the SCERS Board of Administration as provided to the City Council under Seattle Municipal Code 4.36.505 A. It is the Board's conclusion that this contribution rate is in the interest of funding stability and in anticipation of rising future contribution requirements due to expected downward changes to assumptions in the upcoming Experience Study in 2022. Therefore, it is prudent to maintain the 2021 Actuarially Required Contribution rate in 2022.

The City may elect to exceed the required contribution rate in any given year. In 2022, the minimum required Actuarial Contribution Rate is 15.33 percent with a combined contribution rate of 24.68 percent as determined by the January 1, 2021 Actuarial Valuation.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation does not adjust appropriations, revenues, or positions. The 2022 contribution rate is captured through approval of the budget.

Is there financial cost or other impacts of *not* implementing the legislation?

Not implementing the full actuarially required contribution in 2022 would go against Council Resolution 31334, would place greater cost burden on the City and potentially members in future years to fund the pension system. Not meeting the required contribution would be reflected on the System's financial audit, valuation, and the City's CAFR.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

This legislation affects the City's contribution rate into the pension system.

b. Is a public hearing required for this legislation?

No.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No

d. Does this legislation affect a piece of property?

No

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

No perceived impact on vulnerable or historically disadvantaged communities

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

No.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

No.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

N/A

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to City funds; closing certain funds, subfunds, and accounts; authorizing the Department of Finance and Administrative Services to take action pursuant to those closures; authorizing the transfer of all unexpended and unencumbered balances and other assets and liabilities of those funds, subfunds, and accounts; and abandoning appropriation authority from those funds, subfunds, and accounts.

WHEREAS, effective January 1, 2018, the City Treasury's Fund structure was re-organized through Ordinance

125492 in keeping with Resolution 31332 and the goals of the implementation of the PeopleSoft 9.2

enterprise financial management system, including the elimination of subfunds within Funds; and

WHEREAS, the Special Employment Fund (00515) was created in 1985 through Ordinance 112556, and was

subsequently re-designated as the Special Employment Subfund of the General Fund (00100) in 1995

through Ordinance 117977; and

WHEREAS, all fund balance, assets, and liabilities in the Special Employment Subfund of the General Fund

were transferred to a new Special Employment Account in the General Fund through Ordinance

125492, effective January 1, 2018; and

WHEREAS, the Cable Television Franchise Subfund (00160) of the General Fund (00100) was created in 1996

through Ordinance 118196; and

WHEREAS, all fund balance, assets, and liabilities in the Cable Television Franchise Subfund of the General

Fund were transferred to a new Cable Television Franchise Fund (10101) created through Ordinance

125492, effective January 1, 2018; and

WHEREAS, the Neighborhood Matching Fund (00165) was created in 1990 through Ordinance 115345, and

was subsequently re-designated as the Neighborhood Matching Subfund of the General Fund (00100) in 1995 through Ordinance 117977; and

WHEREAS, all fund balance, assets, and liabilities in the Neighborhood Matching Subfund were transferred to a new Neighborhood Matching Program in the General Fund through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the South Lake Union Property Proceeds Subaccount (00167) was created within the Cumulative Reserve Subfund of the General Fund in 2001 through Ordinance 120411; and

WHEREAS, all fund balance, assets, and liabilities in the South Lake Union Property Proceeds Subaccount were transferred to the General Fund (00100) on January 1, 2018; and

WHEREAS, the Street Vacation Compensation Fund (00169) was created as a subfund of the General Fund (00100) in 2001 through Ordinance 120607; and

WHEREAS, all fund balance, assets, and liabilities in the Street Vacation Compensation Fund were transferred to a new Street Vacation Account in the Transportation Fund (13000) through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the Bluefield Habitat Maintenance Subaccount (00178) was created within the Cumulative Reserve Subfund of the General Fund in 2011 through Ordinance 123772; and

WHEREAS, all fund balance, assets, and liabilities in the Bluefield Habitat Maintenance Subaccount were transferred to a new Bluefield Habitat Maintenance Account in the General Fund through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the Development Rights Fund (00179) was created in 1994 through Ordinance 117342, and was subsequently re-designated as the Development Rights Subfund of the General Fund (00100) in 1995 through Ordinance 117977; and

WHEREAS, all fund balance, assets, and liabilities in the Development Rights Subfund were transferred to a new Development Rights Account in the General Fund through Ordinance 125492, effective January 1,

2018; and

WHEREAS, the Gasworks Park Contamination Remediation Trust Fund (10220) was created in 2000 as a subfund of the Park and Recreation Fund (10200) through Ordinance 120115; and

WHEREAS, the projects funded through the Gasworks Park Contamination Remediation Fund have been completed, and the residual fund balance, assets, and liabilities were transferred to the Park and Recreation Fund on January 1, 2018; and

WHEREAS, the Coliseum Redevelopment Subfund (11420) was created in 1994 pursuant to Ordinance 117139, and subsequently was renamed the Seattle Center KeyArena Subfund; and

WHEREAS, all fund balance, assets, and liabilities in the Seattle Center KeyArena Subfund were transferred to a new Seattle Center KeyArena Fund created through Ordinance 125492, effective January 1, 2018; and

WHEREAS, Ordinance 125724 provided for the fund balance, assets, and liabilities of the Seattle Center KeyArena Fund to be transferred to the Seattle Center Fund (11410), effective January 1, 2019, and

WHEREAS, the Education Fund (14100) was created through Ordinance 124650, effective January 1, 2015; and

WHEREAS, all fund balance, assets, and liabilities in the Education Fund were transferred to the General Fund (00100), the Education - Support Services Fund (17857), and the Preschool Services Fund (17861), according to the City's commitments of these funds by ordinance, through Ordinance 125492, effective January 1, 2018, and

WHEREAS, the Mrs. Betty Wile Levy Medical Aid Unit Memorial Account (15180) was created in the General Donations and Gift Trust Fund in 1979 through Ordinance 108395; and

WHEREAS, the projects funded through the Mrs. Betty Wile Levy Medical Aid Unit Memorial Account have been completed, although unexpended and unencumbered fund balance and other assets remain in the Fund; and

WHEREAS, the South Lake Union Subfund (16415) was created within the Low-Income Housing Fund

(16400) in 2002 through Ordinance 120944; and

WHEREAS, all fund balance, assets, and liabilities in the South Lake Union Subfund were transferred to the new South Lake Union Mitigation Account in the Housing Program Support Fund (16440) through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the Growth-Related Housing Account (16450) was created within the Low-Income Housing Fund (16400) in 1988 through Ordinance 113834; and

WHEREAS, all fund balance, assets, and liabilities in the Growth-Related Housing Account were transferred to the Housing Program Support Fund (16440) through Ordinance 125492, effective January 1, 2018, and

WHEREAS, the Weatherization Program Account (16460) was established within the Low-Income Housing Fund (16400) in 1991 through Ordinance 115647; and

WHEREAS, all fund balance, assets, and liabilities in the Weatherization Program Account were transferred to the Housing Program Support Fund (16440) through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the REACH General Subfund (16470) was created within the Low-Income Housing Fund (16400) in 1994 pursuant to Ordinance 117472; and

WHEREAS, all fund balance, assets, and liabilities in the REACH General Subfund were transferred to the new REACH Account in the Housing Program Support Fund (16440) through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the Housing Preservation Fund (16480) was created as a subfund of the Low-Income Housing Fund (16400) in 1999 through Ordinance 119785; and

WHEREAS, all projects funded through the Housing Preservation Fund have been completed, leaving no unexpended and unencumbered fund balance, other assets, or liabilities remaining in the Fund; and

WHEREAS, the HOME Program Subfund (16490) was created within the Low-Income Housing Fund (16400) in 1992 pursuant to Ordinance 116292; and

WHEREAS, all fund balance, assets, and liabilities in the HOME Program Subfund were transferred to the new

HOME Account in the Housing Program Support Fund (16440) through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the Housing and Community Development Revenue Sharing Fund was created in 1975 through Ordinance 104195, and was administratively renamed the Community Development Block Grant Main Fund (17810); and

WHEREAS, all fund balance, assets, and liabilities in the Community Development Block Grant Main Fund were transferred to the Human Services Fund (16200) through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the 2004 Families and Education Subfund (17856) was established within the Educational and Developmental Services Fund in 2004 through Ordinance 121529; and

WHEREAS, all projects funded through the 2004 Families and Education Subfund have been completed, leaving no unexpended and unencumbered fund balance, other assets, or liabilities remaining in the Subfund; and

WHEREAS, the KeyArena Defeasance Account (20131) was created in the Bond Interest and Redemption Fund in 2002 through Ordinance 120864; and

WHEREAS, all projects funded through the KeyArena Defeasance Account have been completed, leaving no unexpended and unencumbered fund balance, assets, or liabilities remaining in the Account; and

WHEREAS, the McCaw Hall Defeasance Account (20135) was created in the Bond Interest and Redemption Fund in 2006 through Ordinance 122294; and

WHEREAS, all projects funded through the McCaw Hall Defeasance Account have been completed, leaving no unexpended and unencumbered fund balance, assets, or liabilities remaining in the Account; and

WHEREAS, the Pike Place Market Loan Repayment Account (20139) was created in the Bond Interest and Redemption Fund in 2009 pursuant to Ordinance 122848; and

WHEREAS, all projects funded through the Pike Place Market Loan Repayment Account have been completed,

although unexpended and unencumbered fund balance and other assets remain in the Account; and

WHEREAS, the Local Improvement District No. 6748 Fund (25140) was created in 1997 through Ordinance 118795; and

WHEREAS, the projects funded through the Local Improvement District No. 6748 Fund have been completed, although unexpended and unencumbered fund balance and other assets remain in the Fund; and

WHEREAS, the Emergency Communications Fund (32620) was created in 1993 pursuant to Ordinance 116797; and

WHEREAS, all projects funded through the Emergency Communications Fund have been completed, and the residual fund balance, assets, and liabilities were transferred to the General Fund (00100) on January 1, 2018; and

WHEREAS, the Parks Capital Fund (33140) was created in 2014 through Ordinance 124634; and

WHEREAS, all fund balance, assets, and liabilities in the Parks Capital Fund were transferred to the Park and Recreation Fund (10200) through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the Park District Loan Capital Subfund (33141) was created within the Parks Capital Fund (33140) in 2015 pursuant to Ordinance 124652; and

WHEREAS, the projects funded through the Park District Loan Capital Subfund of the Parks Capital Fund have been completed, leaving no unexpended and unencumbered fund balance, other assets, or liabilities in the Subfund; and

WHEREAS, the 1999 Parks and Community Center Fund (33800) was created in 1999 through Ordinance 119522; and

WHEREAS, all projects funded through the 1999 Parks and Community Center Fund have been completed, and the residual fund balance, assets, and liabilities were transferred to the General Fund (00100) on January 1, 2018; and

WHEREAS, the Non-Bonds Subfund (34410) of the Public Safety Information Technology Fund (34400) was

created in 1999 pursuant to Ordinance 119819; and

WHEREAS, all projects funded through the Non-Bond Subfund of the Public Safety Information Technology Fund have been completed, and the residual fund balance, assets, and liabilities were transferred to the General Fund (00100) on January 1, 2018; and

WHEREAS, the 2007 Multipurpose LTGO Bond Fund (35100) was created in 2006 through Ordinance 122121; and

WHEREAS, all projects funded through the 2007 Multipurpose LTGO Bond Fund have been completed, leaving no unexpended and unencumbered fund balance, other assets, or liabilities remaining in the Fund; and

WHEREAS, the 2008 Multipurpose LTGO Bond Fund (35200) was created in 2007 through Ordinance 122553; and

WHEREAS, all projects funded through the 2008 Multipurpose LTGO Bond Fund have been completed, although unexpended and unencumbered fund balance and other assets and liabilities remain in the Fund; and

WHEREAS, the 2009 Multipurpose LTGO Bond Fund (35300) was created in 2008 through Ordinance 122848; and

WHEREAS, all projects funded through the 2009 Multipurpose LTGO Bond Fund have been completed, although unexpended and unencumbered fund balance and other assets and liabilities remain in the Fund; and

WHEREAS, the 2010 Multipurpose LTGO Bond Fund (35400) was created in 2009 through Ordinance 123156; and

WHEREAS, all projects funded through the 2010 Multipurpose LTGO Bond Fund have been completed, although unexpended and unencumbered fund balance and other assets and liabilities remain in the Fund; and

WHEREAS, the Downtown Parking Garage Fund (46010) was created in 1998 through Ordinance 119155; and

WHEREAS, all projects funded through the Downtown Parking Garage Fund have been completed, leaving no unexpended and unencumbered fund balance, other assets, or liabilities remaining in the Fund; and

WHEREAS, the Fiber Leasing Fund (47010) was created in 2012 through Ordinance 123931; and

WHEREAS, Ordinance 125724 provided for the fund balance, assets, and liabilities of the Fiber Leasing Fund to be transferred to the Information Technology Fund (50410), effective January 1, 2019; and

WHEREAS, the Help the Animals Account (63601) was established in the General Donations and Gift Trust Fund in 1979 through Ordinance 108357; and

WHEREAS, the fund balance, assets, and liabilities in the Help the Animals Account of the General Donations and Gift Trust Fund were transferred to the Help the Animals Account in the new Animal Shelter Donation Fund (15260) through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the Pet Population Control Fund (63603) was established in the General Donations and Gift Trust Fund in 1996 by Ordinance 118289; and

WHEREAS, the fund balance, assets, and liabilities in the Pet Population Control Fund were transferred to the Pet Population Control Account in the new Animal Shelter Donation Fund (15260) through Ordinance 125492, effective January 1, 2018; and

WHEREAS, the Seattle Animal Shelter Expansion Subfund (63604) in the General Donations and Gift Trust Fund was established in 2003 through Ordinance 121307; and

WHEREAS, all projects funded through the Seattle Animal Shelter Expansion Subfund have been completed, and residual fund balance, assets, and liabilities were transferred to the Help the Animals Account in the new Animal Shelter Donation Fund (15260) established through Ordinance 125492, effective January 1, 2018; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The Special Employment Subfund (00515) of the General Fund (00100), established by

Ordinance 112556 as amended by Ordinance 117977, is closed and eliminated.

Section 2. The Cable Television Franchise Subfund (00160) of the General Fund (00100), created by Ordinance 118196, is closed and eliminated.

Section 3. The Neighborhood Matching Subfund (00165) of the General Fund (00100), established by Ordinance 115345 as amended by Ordinance 117977, is closed and eliminated.

Section 4. The South Lake Union Property Proceeds Subaccount (00167) within the Cumulative Reserve Subfund of the General Fund (00100), established by Ordinance 120411, is closed and eliminated.

Section 6. The Bluefield Habitat Maintenance Subaccount (00178) within the Cumulative Reserve Subfund of the General Fund (00100), established by Ordinance 123772, is closed and eliminated.

Section 7. The Development Rights Subfund (00179) of the General Fund (00100), established by Ordinance 117342 as amended by Ordinance 117977, is closed and eliminated.

Section 8. The Gasworks Park Contamination Remediation Trust Fund (10220) of the Park and Recreation Fund (10200), established by Ordinance 120115, is closed and eliminated.

Section 9. The Seattle Center KeyArena Fund (11420), established pursuant to Ordinance 117139, as amended by Ordinance 125492, is closed and eliminated.

Section 10. The Education Fund (14100), established by Ordinance 124650, is closed and eliminated.

Section 11. The Mrs. Betty Wile Levy Medical Aid Unit Memorial Account (15180) in the General Donations and Gift Trust Fund, established by Ordinance 108395, is closed and eliminated. Any unencumbered fund balance, asset, or liability remaining in the Fund shall be transferred to the General Fund (00100) using the Finance General Appropriation to Special Funds Budget Summary Level/BCL Code (15180-BO-FG-2QA00).

Section 12. The South Lake Union Subfund (16415) within the Low-Income Housing Fund (16400), established by Ordinance 120944, is closed and eliminated.

Section 13. The Growth-Related Housing Account (16450) within the Low-Income Housing Fund (16400), established by Ordinance 113834, is closed and eliminated.

Section 14. The Weatherization Program Account (16460) within the Low-Income Housing Fund (16400), established by Ordinance 115647, is closed and eliminated.

Section 15. The REACH General Subfund (16470) within the Low-Income Housing Fund (16400), established by Ordinance 117472, is closed and eliminated.

Section 16. The Housing Preservation Fund (16480) within the Low-Income Housing Fund (16400), established by Ordinance 119785, is closed and eliminated.

Section 17. The HOME Program Subfund (16490) within the Low-Income Housing Fund (16400), established by Ordinance 116292, is closed and eliminated.

Section 18. The Community Development Block Grant Main Fund (17810), established by Ordinance 104195, is closed and eliminated.

Section 19. The 2004 Families and Education Subfund (17856), established by Ordinance 121529, is closed and eliminated.

Section 20. The KeyArena Defeasance Account (20131) of the Bond Interest and Redemption Fund, established by Ordinance 120864, is closed and eliminated.

Section 21. The McCaw Hall Defeasance Account (20135) of the Bond Interest and Redemption Fund, established by Ordinance 122294, is closed and eliminated.

Section 22. The Pike Place Market Loan Repayment Account (20139) of the Bond Interest and Redemption Fund, established pursuant to Ordinance 122848, is closed and eliminated. Any unencumbered fund balance, asset, or liability remaining in the Account shall be transferred to the General Fund (00100) using the Finance General Appropriation to Special Funds Budget Summary Level/BCL Code (20139-BO-FG-2QA00).

Section 23. The Local Improvement District No. 6748 (25140), established by Ordinance 118795, is

closed and eliminated. Any unencumbered fund balance, asset, or liability remaining in the Fund shall be transferred to the Local Improvement Guaranty Fund (29500) using the Finance General Appropriation to Special Funds Budget Summary Level/BCL Code (25140-BO-FG-2QA00).

Section 24. The Emergency Communications Fund (32620), established by Ordinance 116797, is closed and eliminated.

Section 25. The Parks Capital Fund (33140), created by Ordinance 124634, is closed and eliminated.

Section 26. The Park District Loan Capital Subfund (33141) of the Parks Capital Fund (33140), created pursuant to Ordinance 124652, is closed and eliminated.

Section 27. The 1999 Parks and Community Center Fund (33800), established by Ordinance 119522, is closed and eliminated.

Section 28. The Non-Bonds Subfund (34410) of the Public Safety Information Technology Fund (34400), established pursuant to Ordinance 119819, is closed and eliminated.

Section 29. The 2007 Multipurpose LTGO Bond Fund (35100), established by Ordinance 122121, is closed and eliminated.

Section 30. The 2008 Multipurpose LTGO Bond Fund (35200), established by Ordinance 122553, is closed and eliminated. Any unencumbered fund balance, asset, or liability remaining in the Fund shall be transferred to the LTGO Bond Interest and Redemption Fund (20130) using the Finance General Appropriation to Special Funds Budget Summary Level/BCL Code (35200-BO-FG-2QA00).

Section 31. The 2009 Multipurpose LTGO Bond Fund (35300), established by Ordinance 122848, is closed and eliminated. Any unencumbered fund balance, asset, or liability remaining in the Fund shall be transferred to the LTGO Bond Interest and Redemption Fund (20130) using the Finance General Appropriation to Special Funds Budget Summary Level/BCL Code (35300-BO-FG-2QA00).

Section 32. The 2010 Multipurpose LTGO Bond Fund (35400), established by Ordinance 123156, is closed and eliminated. Any unencumbered fund balance, asset, or liability remaining in the Fund shall be

transferred to the LTGO Bond Interest and Redemption Fund (20130) using the Finance General Appropriation to Special Funds Budget Summary Level/BCL Code (35400-BO-FG-2QA00).

Section 33. The Downtown Parking Garage Fund (46010), established by Ordinance 119155, is closed and eliminated.

Section 34. The Fiber Leasing Fund (47010), established by Ordinance 123931, is closed and eliminated.

Section 35. The Help the Animals Account (63601) in the General Donations and Gift Trust Fund, established by Ordinance 108357, is closed and eliminated.

Section 36. The Pet Population Control Fund (63603) in the General Donations and Gift Trust Fund, established by Ordinance 118289, is closed and eliminated.

Section 37. The Seattle Animal Shelter Expansion Subfund (63604) in the General Donations and Gift Trust Fund, established by Ordinance 121307, is closed and eliminated.

Section 38. Any remaining appropriation authority from any fund, subfund, or account closed pursuant to Sections 1 through 37 of this ordinance is abandoned.

Section 39. The Department of Finance and Administrative Services is authorized to take any action necessary to effectuate the closures, eliminations, and abandonments made by this ordinance.

Section 40. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

Monica Martinez Simmons, City Clerk

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to City funds; closing certain funds, subfunds, and accounts; authorizing the Department of Finance and Administrative Services to take action pursuant to those closures; authorizing the transfer of all unexpended and unencumbered balances and other assets and liabilities of those funds, subfunds, and accounts; and abandoning appropriation authority from those funds, subfunds, and accounts.

Summary and background of the Legislation:

Periodically, the Department of Finance and Administrative Services submits an ordinance to close Funds in the City Treasury that are no longer needed for the City's business and to abandon all associated unexpended appropriation authority.

This ordinance closes funds that have become obsolete since January 1, 2018, as follows:

Fund/Subfund to be Closed	Transfer Destination Fund	Fund Balance (06/30/2021)
South Lake Union Property Proceeds Subaccount (00167)	Not applicable	\$0
Gasworks Park Contamination Remediation Trust Fund (10220) of the Park and Recreation Fund (10200)	Not applicable	\$0
Seattle Center KeyArena Fund (11420)	Not applicable	\$0
Mrs. Betty Wile Levy Medical Aid Unit Memorial Account (15180) in the General Donations and Gift Trust Fund	General Fund (00100)	\$8
2004 Families and Education Subfund (17856)	Not applicable	\$0
KeyArena Defeasance Account (20131) of the Bond Interest and Redemption Fund	Not applicable	\$0
McCaw Hall Defeasance Account (20135) of the Bond Interest and Redemption Fund	Not applicable	\$0
Pike Place Market Loan Repayment Account (20139) of the Bond Interest and Redemption Fund	General Fund (00100)	\$35,458
Local Improvement District No. 6748 Fund (25140)	Local Improvement Guaranty Fund (29500)	\$9,080
Emergency Communications Fund (32620)	Not applicable	\$0
1999 Parks and Community Center Fund (33800)	Not applicable	\$0
Non-Bonds Subfund (34410) of the Public Safety Information Technology Fund (34400)	Not applicable	\$0
2007 Multipurpose LTGO Bond Fund (35100)	Not applicable	\$0
2008 Multipurpose LTGO Bond Fund (35200)	LTGO Bond Interest and Redemption Fund (20130)	\$37,838

Fund/Subfund to be Closed	Transfer Destination Fund	Fund Balance (06/30/2021)
2009 Multipurpose LTGO Bond Fund (35300)	LTGO Bond Interest and Redemption Fund (20130)	\$14
2010 Multipurpose LTGO Bond Fund (35400)	LTGO Bond Interest and Redemption Fund (20130)	\$73,912
Downtown Parking Garage Fund (46010)	Not applicable	\$0
Fiber Leasing Fund (47010)	Not applicable	\$0

This ordinance also closes Funds that were reorganized effective January 1, 2018 for the implementation of PeopleSoft 9.2, through Ordinance 125492, and for which any residual fund balance was transferred to the destination fund on January 1, 2018:

Fund/Subfund to be Closed	Transfer Destination Fund
Special Employment Subfund (00515) of the General Fund (00100)	General Fund (00100)
Cable Television Subfund (00160) of the General Fund (00100)	Cable Television Franchise Fund (10101)
Neighborhood Matching Subfund (00165) of the General Fund (00100)	General Fund (00100)
Street Vacation Compensation Fund (00169)	Transportation Fund (13000)
Bluefield Habitat Maintenance Subaccount (00178)	General Fund (00100)
Development Rights Subfund (00179) of the General Fund (00100)	General Fund (00100)
Education Fund (14100)	General Fund (00100)
South Lake Union Subfund (16415) of the Low-Income Housing Fund	Housing Program Support Fund (16440)
Growth-Related Housing Account (16450) of the Low-Income Housing Fund	Housing Program Support Fund (16440)
Weatherization Account (16460) of the Low-Income Housing Fund	Housing Program Support Fund (16440)
REACH General Subfund (16470) of the Low-Income Housing Fund	Housing Program Support Fund (16440)
Housing Preservation Fund (16480) of the Low-Income Housing Fund	Housing Program Support Fund (16440)
HOME Program Subfund (16490) of the Low-Income Housing Fund	Housing Program Support Fund (16440)
Housing and Community Development Revenue Sharing Fund (17810)	Human Services Fund (16200)
Parks Capital Fund (33140)	Parks and Recreation Fund (10200)
Park District Loan Capital Subfund (33141) of the Parks Capital Fund (33140)	Parks and Recreation Fund (10200)
Help the Animals Account (63601) in the General Donations and Gift Trust Fund	Animal Shelter Donation Fund (15260)
Pet Population Control Fund (63603) in the General Donations and Gift Trust Fund	Animal Shelter Donation Fund (15260)
Seattle Animal Shelter Expansion Subfund (63504) in the General Donations and Gift Trust Fund	Animal Shelter Donation Fund (15260)

Fund and Subfund Histories:

Ordinance 112556 established the Special Employment Fund (00515) in 1985 for the purpose of paying salaries and associated benefits to employees of the City's temporary employment service, intern, and work study programs. Fund 00515 was subsequently re-designated as the Special Employment Subfund of the General Fund (00100) in 1995 through Ordinance 117977. All fund balance, assets, and liabilities in the Special Employment Subfund of the General Fund were transferred to a new Special Employment Account in the General Fund through Ordinance 125492, effective January 1, 2018 as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 118196 created the Cable Television Franchise Subfund (00160) of the General Fund (00100) in 1996 to account for cable television franchise fee revenue. All fund balance, assets, and liabilities in the Cable Television Franchise Subfund were transferred to a new Cable Television Franchise Fund (10101) created through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 115345 created the Neighborhood Matching Fund (00165) in 1990 to account for neighborhood planning and assistance purposes. The Fund was subsequently re-designated as the Neighborhood Matching Subfund of the General Fund (00100) in 1995 through Ordinance 117977. All fund balance, assets, and liabilities in the Neighborhood Matching Subfund were transferred to a new Neighborhood Matching Program in the General Fund through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 120411 created the South Lake Union Property Proceeds Subaccount (00167) within the Cumulative Reserve Subfund of the General Fund in 2001, to account for revenues from sales of surplus City property located adjacent to South Lake Union. All fund balance, assets, and liabilities in the South Lake Union Property Proceeds Subaccount were transferred to the General Fund (00100) on January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 120607 created the Street Vacation Compensation Fund (00169) as a subfund of the General Fund (00100) in 2001, to account for revenues received by the City for streets vacated pursuant to SMC 15.62.090 for the purpose of acquisition, improvement, and development of public open space or for transportation capital projects. All fund balance, assets, and liabilities in the Street Vacation Compensation Fund were transferred to a new Street Vacation Account in the Transportation Fund (13000) through Ordinance 125492, effective January 1, 2018.

Ordinance 123772 created the Bluefield Habitat Maintenance Subaccount (00178) within the Cumulative Reserve Subfund of the General Fund in 2011, to account for contributions from Bluefield Holdings funding the City's maintenance of the habitats created by Bluefield Holdings on certain City-owned properties. All fund balance, assets, and liabilities in the Bluefield Habitat Maintenance Subaccount were transferred to a new Bluefield Habitat

Maintenance Account in the General Fund through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 117342 created the Development Rights Fund (00179) in 1994 to account for the purchase, transfer, or development rights other than those associated with low-income housing. Fund 00179 was subsequently re-designated as the Development Rights Subfund of the General Fund (00100) in 1995 through Ordinance 117977. All fund balance, assets, and liabilities in the Development Rights Subfund were transferred to a new Development Rights Account in the General Fund through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 120115 created the Gasworks Park Contamination Remediation Trust Fund (10220) in 2000 as a subfund of the Park and Recreation Fund (10200), to pay for compliance monitoring and operation and maintenance of the soil cover and soil vapor extraction system. The projects funded through the Gasworks Park Contamination Remediation Fund have been completed, and the residual fund balance, assets, and liabilities were transferred to the Park and Recreation Fund on January 1, 2018.

Ordinance 117139 authorized the creation of the Coliseum Redevelopment Subfund (11420) in 1994. Subfund 11420 was subsequently renamed the Seattle Center KeyArena Subfund. The Seattle Center KeyArena Fund was created through Ordinance 125492, and the fund balance, assets, and liabilities of the Seattle Center KeyArena Subfund were transferred into the new Fund. Ordinance 125724 provided for the fund balance, assets, and liabilities of the Seattle Center KeyArena Fund to be transferred to the Seattle Center Fund (11410), effective January 1, 2019.

Ordinance 124650 created the Education Fund (14100) effective January 1, 2015, to account for the expenditures of the Department of Education and Early Learning. All fund balance, assets, and liabilities in the Education Fund were transferred to the General Fund (00100), the Education – Support Services Fund (17857), and the Preschool Services Fund (17861), according to the City's commitment of these funds by ordinance, through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 108395 created the Mrs. Betty Wile Levy Medical Aid Unit Memorial Account (15180) in the General Donations and Gift Trust Fund in 1979, to accept donations in memory of Mrs. Betty Wile Levy for the purpose of maintaining and operating an Emergency Medical Service Unit. The projects funded through the Mrs. Betty Wile Levy Medical Aid Unit Memorial Account have been completed, although unexpended and unencumbered fund balance and other assets remain in the Fund. The remaining assets will be transferred to the General Fund (00100).

Ordinance 120944 created the South Lake Union Subfund (16415) within the Low-Income Housing Fund in 2002, to account for loans to support the development of low-income housing associated with the South Lake Union neighborhood. All fund balance, assets, and liabilities in the South Lake Union Subfund were transferred to the new South Lake Union

Mitigation Account in the Housing Program Support Fund (16440) through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 113834 created the Growth-Related Housing Account (16450) within the Low-Income Housing Fund in 1988, to account for the rehabilitation, acquisition, or preservation of low-income housing stock. All fund balance, assets, and liabilities in the Growth-Related Housing Account were transferred to the Housing Program Support Fund (16440) through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 115647 created the Weatherization Program Account (16460) within the Low-Income Housing Fund in 1991, to account for grant revenues for weatherization programs. All fund balance, assets, and liabilities in the Weatherization Program Account were transferred to the Housing Program Support Fund (16440) through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 117472 created the REACH General Subfund (16470) within the Low-Income Housing Fund in 1994, to account for general fund revenues associated with single-family home rehabilitation. All fund balance, assets, and liabilities in the REACH General Subfund were transferred to the new REACH Account in the Housing Program Support Fund (16440) through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 119785 created the Housing Preservation Fund (16480) as a subfund of the Low-Income Housing Fund in 1999, to account for loans to the owners or developers of publicly or privately owned housing for persons of low income, or to entities providing financing to projects that include low income housing. All projects funded through the Housing Preservation Fund have been completed, leaving no unexpended and unencumbered fund balance, other assets, or liabilities remaining in the Fund.

Ordinance 116292 provided the authority for creation of the HOME Program Subfund (16490) within the Low-Income Housing Fund in 1992, to account for federal HOME grant proceeds and program income. All fund balance, assets, and liabilities in the HOME Program Subfund were transferred to the new HOME Account in the Housing Program Support Fund (16440) through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 104195 created the Housing and Community Development Revenue Sharing Fund (17810) in 1975, to account for the use of grant proceeds through the federal Housing and Community Development Act of 1974. Fund 17810 was administratively renamed the Community Development Block Grant Main Fund. All fund balance, assets, and liabilities in the Community Development Block Grant Main Fund were transferred to the Human Services Fund (16200) through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 121529 created the 2004 Families and Education Subfund (17856) within the Educational and Developmental Services Fund in 2004, to account for the provision of City services to Seattle School District public school students, Seattle youth, and their families with educational and developmental services. All projects funded through the 2004 Families and Education Subfund have been completed, leaving no unexpended and unencumbered fund balance, other assets or liabilities remaining in the Subfund.

Ordinance 120864 created the KeyArena Defeasance Account (20131) in the Bond Interest and Redemption Fund in 2002, to account for the defeasance of certain outstanding 1994 taxable LTGO bonds. All projects funded through the KeyArena Defeasance Account have been completed, leaving no unexpended and unencumbered fund balance, assets, or liabilities remaining in the Account.

Ordinance 122294 created the McCaw Hall Defeasance Account (20135) in the Bond Interest and Redemption Fund in 2006, to account for the defeasance of certain outstanding 2003 LTGO bonds. All projects funded through the McCaw Hall Defeasance Account have been completed, leaving no unexpended and unencumbered fund balance, assets, or liabilities remaining in the Account.

Ordinance 122848 created the Pike Place Market Repayment Account (20139) in the Bond Interest and Redemption Fund in 2009, to account for refunding bonds of the Pike Place Market Preservation and Development Authority. The projects funded through the Pike Place Market Repayment Account have been completed, although unexpended and unencumbered fund balance and other assets remain in the Fund. The remaining assets will be transferred to the General Fund (00100).

Ordinance 118795 created the Local Improvement District No. 6748 Fund (25140) in 1997, to account for a retaining wall improvement project on Portage Bay Place East. The projects funded through the Local Improvement District No. 6748 Fund have been completed, although unexpended and unencumbered fund balance and other assets remain in the Fund. The remaining assets will be transferred to the Local Improvement Guaranty Fund (25900).

Ordinance 116797 created the Emergency Communications Fund (32620) was created in 1993, to account for proceeds from the King County Emergency Communications Levy and the funding of a new emergency communications system. All projects funded through the Emergency Communications Fund have been completed, and the residual fund balance, assets, and liabilities were transferred to the General Fund (00100) on January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 124634 created the Parks Capital Fund (33140) in 2014, to separately account for the capital expenditures funded by the Seattle Park District and other sources. All fund balance, assets, and liabilities in the Parks Capital Fund were transferred to the Park and Recreation Fund (10200) through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 124652 provided for the creation of the Park District Loan Capital Subfund (33141) within the Parks Capital Fund (33140) in 2015, to account for bridge financing of Park District capital projects through an interfund loan. All fund balance, assets, and liabilities in the Parks Capital Fund were transferred to the Park and Recreation Fund (10200) through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 119522 created the 1999 Parks and Community Center Fund (33800) in 1999, to account for property tax levy funding of improvements at Seattle Center and various community centers. All projects funded through the 1999 Parks and Community Center Fund have been completed, and the residual fund balance, assets, and liabilities were transferred to the General Fund (00100) on January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 119819 provided for the creation of the Non-Bonds Subfund (34410) of the Public Safety Information Technology Fund (34400) in 1999, to account for public safety information technology project funding from sources other than LTGO bond proceeds. All projects funded through the Non-Bonds Subfund of the Public Safety Information Technology Fund have been completed, and the residual fund balance, assets, and liabilities were transferred to the General Fund (00100) on January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 122121 created the 2007 Multipurpose LTGO Bond Fund (35100) in 2006, to account for funding of capital projects financed by the 2007 LTGO bond issuance, authorized by Ordinance 122286, including but not limited to capital improvements of the Aquarium, Zoo Garage, parking pay stations, and Northgate land acquisition. All projects funded through the 2007 Multipurpose LTGO Bond Fund have been completed, leaving no unexpended and unencumbered fund balance, other assets, or liabilities remaining in the Fund.

Ordinance 122553 created the 2008 Multipurpose LTGO Bond Fund (35200) in 2007, to account for various capital projects funded by the 2008 LTGO bond issuance including but not limited to several Bridging the Gap and fire station projects. All projects funded through the 2008 Multipurpose LTGO Bond Fund have been completed, although unexpended and unencumbered fund balance and other assets and liabilities remain in the Fund. The remaining assets will be transferred to the LTGO Bond Interest and Redemption Fund (20130).

Ordinance 122848 created the 2009 Multipurpose LTGO Bond Fund (35300) in 2008, to account for various capital projects funded by the 2009 LTGO bond issuance including but not limited to various Bridging the Gap and Pike Place Market renovation projects. All projects funded through the 2009 Multipurpose LTGO Bond Fund have been completed, although unexpended and unencumbered fund balance and other assets and liabilities remain in the Fund. The remaining assets will be transferred to the LTGO Bond Interest and Redemption Fund (20130).

Ordinance 123156 created the 2010 Multipurpose LTGO Bond Fund (35400) in 2009, to account for various capital projects funded by the 2010 LTGO bond issuance including but not limited to various Bridging the Gap and Alaskan Way Viaduct projects. All projects funded through the 2010 Multipurpose LTGO Bond Fund have been completed, although unexpended and unencumbered fund balance and other assets and liabilities remain in the Fund. The remaining assets will be transferred to the LTGO Bond Interest and Redemption Fund (20130).

Ordinance 119155 created the Downtown Parking Garage Fund (46010) in 1998, to account for the bond-financed acquisition and operation of the Pacific Place Parking Garage. All projects funded through the Downtown Parking Garage Fund have been completed, leaving no unexpended and unencumbered fund balance, other assets, or liabilities remaining in the Fund.

Ordinance 123931 created the Fiber Leasing Fund (47010) in 2012, to account for revenues, expenditures, assets, and liabilities associated with agreements with private parties for the use of the City's excess fiber and fiber infrastructure. Ordinance 125724 provided for the fund balance, assets, and liabilities of the Fiber Leasing Fund to be transferred to the Information Technology Fund (50410), effective January 1, 2019.

Ordinance 108357 created the Help the Animals Account (63601) in the General Donations and Gift Trust Fund in 1979, to account for donations supporting animal welfare. The fund balance, assets, and liabilities in the Help the Animals Account were transferred to the Help the Animals Account in the new Animal Shelter Donation Fund (15260) through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 118289 created the Pet Population Control Fund (63603) in the General Donations and Gift Trust Fund in 1996, to account for donations made for the purposes of promoting pet population control activities through the Seattle Animal Shelter. The fund balance, assets, and liabilities in the Pet Population Control Fund were transferred to the Pet Population Control Account in the new Animal Shelter Donation Fund (15260) through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

Ordinance 121307 created the Seattle Animal Shelter Expansion Subfund (63604) in the General Donations and Gift Trust Fund in 2003, to account for donations to the Seattle Animal Shelter capital expansion campaign. All projects funded through the Seattle Animal Shelter Expansion Subfund have been completed, and residual fund balance, assets, and liabilities were transferred to the Help the Animals Account in the new Animal Shelter Donation Fund (15260) established through Ordinance 125492, effective January 1, 2018, as part of the PeopleSoft 9.2 reorganization of City Funds.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? Yes **X** No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

The ordinance will free up a small amount of fund balance that can then be used in the destination funds. Otherwise, none. A summary of the affected funds and the current residual fund balances are included in Section 1 of this document.

Is there financial cost or other impacts of *not* implementing the legislation?

Approximately \$120,000 of City resources will remain idle, unavailable for use in City programs until some legislative action is taken.

4. OTHER IMPLICATIONS

- a. **Does this legislation affect any departments besides the originating department?** No.
The funds and subfunds being closed by this ordinance are no longer being used by City departments.
- b. **Is a public hearing required for this legislation?**
No.
- c. **Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?**
No.
- d. **Does this legislation affect a piece of property?**
No.
- e. **Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?**
This ordinance eliminates obsolete funds in the City's internal accounting system. There are no RSJI impacts or negative impacts on vulnerable or historically disadvantaged communities.
- f. **Climate Change Implications**
1. **Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?**
No.

- 2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.**

No.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?**

Not applicable.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the Traffic Code; modifying fees associated with car sharing; clarifying certain definitions; establishing Seattle Department of Transportation authority for managing free-floating zone service areas; and amending Sections 11.14.087, 11.23.150, and 11.23.160 of the Seattle Municipal Code.

WHEREAS, in November 2009, Council passed Ordinance 123162, which authorized parking privileges for car sharing activities and established a car share permit fee; and

WHEREAS, in December 2012, Council passed Ordinance 124063, which created a free-floating car sharing permit and program and established fees; and

WHEREAS, in January 2015, Council passed Ordinance 124689, which expanded the car share permit program to allow for more operators and increased the fee; and

WHEREAS, portions of both the car share fee and the free-floating car share fee have historically been calculated to reflect the foregone paid parking revenue the City would otherwise have received from on-street paid parking; and

WHEREAS, starting in 2020, paid parking revenues have declined significantly due to the impacts of the COVID-19 pandemic and the return of on-street paid parking rates at significantly lower than pre-pandemic rates; and

WHEREAS, the City Transportation Electrification Blueprint in 2021 named a goal to have 100 percent of shared mobility be electric by 2030; and

WHEREAS, operators provided the valuable service of car sharing during the COVID-19 pandemic, serving

essential travel needs for Seattle residents; and

WHEREAS, car sharing continues to provide an alternative to vehicle ownership in alignment with climate goals; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Section 11.14.087 of the Seattle Municipal Code, enacted by Ordinance 122779, is amended as follows:

11.14.087 Car sharing((:))

"Car sharing" is a system in which a fleet of cars (or other vehicles) is made available for use by members of the car share group in a wide variety of ways. Car sharing provides an alternative to car ownership under which

a) persons or entities that become members are permitted to use vehicles from a fleet on ~~((an hourly))~~ a limited, fee-per-use basis; b) vehicles are available to members in parking spaces at dispersed locations or facilities; and

c) no separate written agreement is required each time a member reserves and uses a vehicle.

Section 2. Section 11.23.150 of the Seattle Municipal Code, last amended by Ordinance 125994, is amended as follows:

11.23.150 Car share parking fees

((A:)) Annual car sharing permit for dedicated spaces in locations where there is no paid on-street parking	\$300/year
((B:)) Annual car sharing permit for designated spaces in locations where there is paid on-street parking	(((\$3,000/year)) <u>The Seattle Department of Transportation (SDOT) shall establish the following year's annual rate to be no less than \$500 per year and no more than \$3,500 per year, based on actual average per-space parking revenue. SDOT will calculate the updated fee for the next calendar permit year by November 1. The last announced annual rate will apply until a new rate is announced.</u>
((C:)) Annual free-floating car sharing permit for each free-floating car sharing vehicle <u>with an internal combustion or hybrid engine</u>	(((\$1,230)) <u>\$300/year* plus a fee of 50 cents per trip, to be paid to the City on a quarterly basis</u>
<u>Annual free-floating car sharing permit for each battery-electric free-floating car sharing vehicle</u>	<u>\$300/year* plus a fee of 25 cents per trip, to be paid to the City on a quarterly basis</u>

* This fee is comprised of: ~~(1) ((the initial paid parking fee of \$930 per year, to be adjusted annually based on actual meter use in paid parking areas per subsection 11.23.160.G; (2)))~~ an RPZ fee of \$200 per year; and ~~((3))~~ (2) an administrative fee of \$100 per year.

A. For purposes of calculating the per-trip fee for free-floating car share, a “trip” shall represent a booking wherein a member reserves a vehicle for a given amount of time, defined by a geo-tagged start and stop point. The Director of Transportation may amend the definition of trip based on the review of trip-level data.

B. The City will require and collect trip-level data through appropriate data feeds, as defined in annual permit conditions.

C. Unless stated otherwise by Director’s rule, all trips subject to a per-trip fee shall have a starting point and/or ending point within, and a route within the geographic confines of the City.

D. Annual car sharing permits and annual free-floating car sharing permits are valid from January 1((-)) through December 31. The Director of Transportation or the Director's designee ((shall have the authority to)) may prorate the price of the annual ((free-floating car sharing)) permit if a permit is issued for less than a full year. A new free-floating car sharing permit is required each calendar year for each vehicle in the free-floating car share program.

Section 3. Section 11.23.160 of the Seattle Municipal Code, last amended by Ordinance 124689, is amended as follows:

11.23.160 Free-floating car sharing parking

A. A free-floating car sharing parking program is established in order to:

1. Provide Seattle residents an alternative to personal vehicle ownership, complement the use of public transportation, and reduce personal vehicle ownership, the overall number of car trips and/or vehicle miles traveled within the City~~((, consistent with the City of Seattle's Transportation Strategic Plan))~~ ;

2. Achieve emission reduction goals through use of car sharing(~~((, as outlined by the City of Seattle's Climate Action Plan))~~) ;

3. Achieve curb space priority objectives in commercial districts and residential districts, as outlined by the City of Seattle's Comprehensive Plan; and

4. ~~((Provide low-income access to transportation options.))~~ Serve diverse and widespread populations of the city by geography, income, race, land use, and multi-modal transportation needs and connections.

B. In order to qualify for the free-floating car sharing program as set forth in this Section 11.23.160, all of the following standards must be met:

1. Permittee must obtain a free-floating car sharing permit for each free-floating car sharing vehicle ~~((by))~~ and ~~pay((ing))~~ the free-floating car sharing permit fee to the Seattle Department of Transportation (SDOT);

~~((2. Free-floating car sharing vehicles must be parked in the Free-Floating Zone, the area in which the car must be parked at the end of each trip as stated in the permit;))~~

~~((3.))~~ 2. Each free-floating car share vehicle permitted by SDOT shall display a permit and contact information, in a manner determined by SDOT;

~~((4.))~~ 3. Each free-floating car share vehicle must be registered, in a manner determined by SDOT, in Seattle in the free-floating car share program;

~~((5.))~~ 4. Permittee shall comply with the terms of free-floating car sharing permit;

~~((6.))~~ 5. Permittee shall utilize on-street parking within City rights-of-way in compliance with all applicable federal, state, County and City laws and regulations;

~~((7.))~~ 6. Permittee must demonstrate that the free-floating car sharing vehicles have the technical capacity to accurately track each permitted vehicle's actual meter use in paid parking areas, such as GPS or other technology, and provide regular reports to SDOT, as well as appropriate data feeds, to verify such use;

and

((8-)) 7. Permittee shall establish a ((service area for the entire city)) free-floating zone and service capability that effectively meets the objectives stated in 11.23.160.A.4 as determined by SDOT within their free-floating car sharing permit((, within two years of the issue date of the operator's first free-floating car share permit)) . Considerations for approval of the free-floating zone include: (1) operational feasibility and fleet size; (2) serving areas of the City with identified and potential need for the service; (3) breadth of service in various neighborhoods of the City; and (4) identified strategies for reaching a diverse customer base, including low-income customers. The Director of Transportation may further define criteria to determine whether an operator's free-floating zone is appropriate.

C. ((In 2015, SDOT may issue free-floating car sharing permits to no more than four free-floating car sharing operators. In 2015, each free-floating car sharing operator may receive up to 500 free-floating car share permits, or up to 750 free-floating car sharing permits with the establishment of a service area for the entire city. For subsequent years,)) SDOT shall determine by Director's Rule the number of permits and operators based on data received as a part of the operator reporting requirements specified in the free-floating car sharing permit. In determining the number of permits and operators, SDOT will consider effects on reductions in personal vehicle ownership, effects on neighborhood business district customer access, whether free-floating car share is sufficiently serving low income communities, and other considerations that affect the public's use of the right of way and travel behavior.

D. SDOT can deny issuance of subsequent permits to the same permittee for ((either (i) Non-payment of outstanding meter usage fees by permittee pursuant to SMC 11.23.150.C, or (ii) Failure to maintain a service area that serves the entire city)) noncompliance with any permit conditions.

E. During all hours when it is otherwise lawful to park in specified parking spaces within the Free-Floating Zone, free-floating car sharing vehicles that comply with this Section 11.23.160 may park in any of the following parking spaces or stalls: (1) parking spaces or stalls where the posted time limit is one hour or

greater, regulated by a parking payment device without displaying a payment receipt and without regard to posted time-limits; (2) time-limited parking spaces or stalls where the posted time limit is one hour or greater, without regard to the posted time; (3) parking spaces or stalls located in any restricted parking zone (RPZ) without regard to time limits imposed on vehicles without RPZ permits; (4) car share vehicle zones that are permitted for the specific free-floating car share operator, or car share vehicle zones that are signed for general car sharing use; or ~~((4))~~ (5) any other parking space in the public right-of-way not otherwise restricted for exclusive use.

F. Free-floating car sharing vehicles shall be prohibited from parking in the following zones or areas: 1) zones designated as bus zones; 2) car share vehicle zones~~((, unless separately))~~ permitted for a different operator; 3) commercial vehicle load zones; 4) emergency zones; 5) food-vehicle zones; 6) pedestrian zones; 7) roadway construction zones; 8) school loading zones; 9) taxicab, pedicab, and other for-hire car stands; 10) tow-away zones; 11) truck load zones; 12) parking areas adjacent to parking payment device controlled with a service parking meter hood; or 13) any other zone restricted by the Traffic Engineer.

G. Free-floating car sharing vehicles shall be prohibited from parking in a parking space or stall reserved for a person with a disability, unless the member of the free-floating car sharing group utilizing the free-floating car sharing vehicle meets the criteria for special parking privileges under RCW 46.19.010 and the disabled parking permit is displayed as described in RCW 46.19.030 for the duration of the time the free-floating car sharing vehicle is parked within the parking space or stall reserved for a person with a disability.

~~((H. Permittee must provide a report to SDOT at an address specified in the free-floating car sharing permit that provides data showing actual paid parking meter use for each free-floating car share vehicle for the preceding year. The report shall be submitted no later than January 31 of each year. In the event a free-floating car sharing operator's total actual meter use in paid parking areas during the prior permit term exceeds the total paid parking area reimbursement fees required under SMC 11.23.150.C and paid for in the prior permit period, the free-floating car sharing permittee shall reimburse the City for the difference no later than February 28 of~~

~~each year.))~~

((~~H.~~) H. SDOT may establish permit conditions and limitations to address neighborhood impacts, equitable access, peak right-of-way usage, or other considerations that affect the public's use of the right of way.

Section 4. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

Monica Martinez Simmons, City Clerk

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
SDOT	Becky Edmonds, 206.304.8029	Aaron Blumenthal, 206.233.2656

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the Traffic Code; modifying fees associated with car sharing; clarifying certain definitions; establishing Seattle Department of Transportation authority for managing free-floating zone service areas; and amending Sections 11.14.087, 11.23.150, and 11.23.160 of the Seattle Municipal Code.

Summary and background of the Legislation: This legislation updates the Seattle Municipal Code sections regarding car sharing (both free-floating car sharing and car sharing in permitted designated spaces). This amends fees to better reflect actual use of the right-of-way. In the current fee structure, free-floating car share companies pay an up-front fee that includes administrative fees (\$300 per vehicle, which go to the Transportation Fund) and paid parking fees (\$930 per vehicle, which go to the General Fund). At the end of each year, operators pay a “true up” for any additional paid parking usage. The Legislation proposes to change the fee structure to keep the administrative fee, and then charge a fee per trip, regardless of where in the city the trip starts or ends. This fee model makes use of the data feeds the City already requires operators to provide, and reflects their use of the right-of-way throughout the city, as well as in paid parking areas. The fee requirements will also be easier for operators to track and will be straightforward to predict. This model is being used in other cities, notably Portland, OR. The fee per trip will be 50 cents for trips in internal combustion engine vehicles and 25 cents per trip in electric vehicles. The City’s 2021 Transportation Electrification Blueprint sets a goal to electrify shared mobility by 2030. This legislation supports that goal by establishing a fee incentive for operators to electrify their fleets. Currently, there is no City financial incentive for operators to electrify their fleets.

The legislation also grants SDOT authority to establish parameters for an equitable service area for free-floating car sharing operators. Car sharing provides a meaningful alternative to support residents in not needing to own a personal vehicle. Operators have high up-front costs for growing the size of their fleet, so allowing for more flexibility in the service area requirements will facilitate operators being able to grow sustainably and with continued operations in Seattle.

For designated space car share, the legislation amends current fees as well. Current fees are \$300 per space per year in unpaid parking areas, and \$3,000 per space per year in paid parking spaces. The legislation proposes to change the fee for spaces in paid areas to a range between \$500 and \$3,500 per space per year, based on average paid parking revenues. The legislation grants SDOT the authority to determine the fee each year, based on actual paid parking per-space revenues.

This is proposed in order to reflect the value of the right-of-way in current conditions for operators.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☒ Yes ☐ No

Appropriation change (\$):	General Fund \$		Other \$	
	2022	2023	2022	2023
	N/A	N/A	N/A	N/A
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2022	2023	2022	2023
	(\$105,131)	(\$105,131)	(\$42,000)	(\$42,000)
Positions affected:	No. of Positions		Total FTE Change	
	2022	2023	2022	2023
	N/A	N/A	N/A	N/A

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

None.

Is there financial cost or other impacts of *not* implementing the legislation?

Car share is a long-standing mobility option, which generates revenue for the City. If regulations are not changed, the City risks having car share operators no longer being willing or able to operate in the city. In the past, car share operators have left the city partially due to fees and the requirement to serve the whole city. The requirement for citywide service has limited operators' ability to grow in a slow and sustainable manner. Furthermore, while the intention of citywide service was to foster equitable outcomes, SDOT has found that this has not been the result of the requirement. This legislation will allow SDOT to develop additional standards and programming to create more equitable access to the program.

3.a. Appropriations

☐ This legislation adds, changes, or deletes appropriations.

3.b. Revenues/Reimbursements

 x This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2022 Revenue	2023 Estimated Revenue
General Fund 00100	SDOT	Free-floating car share permits	(\$105,131)	(\$105,131)
Transportation Fund 13000	SDOT	Car Share permits	(\$42,000)	(\$42,000)
Transportation Fund 13000	SDOT	Free-floating car share permits	\$0	\$0
TOTAL			(\$147,131)	(\$147,131)

Is this change one-time or ongoing?

One-time.

Revenue/Reimbursement Notes:

The revenue estimates above are the incremental changes anticipated to occur as a result of this legislation. The estimate makes the conservative assumption that car share operators will maintain fleet size at the current level, resulting in a lowering of revenue compared to the current methodology. However, it is likely that fleet sizes and service areas will grow over time. It is also possible that other vendors could enter the marketplace. Either outcome could cause the General Fund revenues to exceed the revenue under the current methodology.

3.c. Positions

 This legislation adds, changes, or deletes positions.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

No, we do not anticipate this impacting other departments.

b. Is a public hearing required for this legislation?

No.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

d. Does this legislation affect a piece of property?

No.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

SDOT is proposing to make language about car sharing service areas (also known as “home zones”) more flexible, no longer requiring that operators serve the entire geography of the City limits of Seattle. The requirement has been difficult for operators to achieve, and data to date does not show that this has necessarily increased use among priority communities such as communities of color and low-income communities. This change may be perceived as reducing access for these communities. However, SDOT intends to work with operators to: 1) identify key communities and neighborhoods and ensure continued or expanded service to those areas and 2) identify partnerships and other programming opportunities to make the services more accessible and relevant to priority communities.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

Car sharing has shown to reduce vehicle ownership and therefore vehicle miles travelled. This legislation will establish a range of fees to ensure that SDOT is pricing permits for this valuable service appropriately and continuing to accommodate operators providing this service.

Currently, GIG car share operates a fleet of hybrid vehicles. Zipcar operates a mix of internal combustion and hybrid vehicles. As indicated in the Transportation Electrification Blueprint published in 2021, SDOT will be working with operators to move their fleets to be 100% electric by 2030.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle’s resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

Car sharing provides an important alternative to personal vehicle ownership and gives people another way to get around when other options are not feasible. This helps support overall resiliency by supporting mobility options and supports our ability to adapt to climate change. As the fleet electrifies we also anticipate this supporting more trips becoming zero-emissions.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program’s desired goal(s).

N/A - Car sharing is an existing service in Seattle.

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the financing of the Transportation Fund; authorizing interfund loans up to a total amount of \$15,000,000 from multiple City funds as bridge financing to be repaid by the proceeds of a future surplus property sale.

WHEREAS, under Ordinance 125916, the City Council authorized the sale of properties in South Lake Union, collectively known as the “Mercer Megablock” properties, for \$138.5 million; and

WHEREAS, Ordinance 125916 anticipated approximately \$50 million of sale proceeds being appropriated to the Transportation Fund upon completion of the sale (later adjusted to \$54.7 million); and

WHEREAS, completion of the Mercer Megablock property sale was originally anticipated to be completed in 2021, and is currently expected to close on or before March 31, 2022; and

WHEREAS, several 2021 Seattle Department of Transportation programs and projects are reliant on proceeds from the Mercer Megablock sale; and

WHEREAS, the Transportation Fund currently has an interfund loan authorization pursuant to Ordinance 126227 of up to \$25 million principal and interest outstanding from the Information Technology Fund; and

WHEREAS, Seattle Municipal Code subsection 5.06.030.C requires City Council approval by ordinance of any interfund loan for a duration of 90 days or more; and

WHEREAS, in the normal course of business the City may temporarily lend cash between funds to maintain required balances; and

WHEREAS, the Director of Finance and the City Budget Director have determined that this interfund loan

request is consistent with the Debt Management Policies adopted by Resolution 31553; and

WHEREAS, there is sufficient cash in several City Funds to support additional interfund loans to the

Transportation Fund up to \$15 million and still meet regular budgeted operating needs; and

WHEREAS, funds loaned to the Transportation Fund pursuant to this ordinance are intended to be repaid from

proceeds from the property sale of the Mercer Megablock in 2022; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The City Council finds that there is no viable alternative to meet a core City objective, and therefore the Director of Finance is authorized to make one or more revolving loans of up to \$15,000,000 total principal and interest outstanding from one or more of the City Funds identified in Section 2 of this ordinance to the Transportation Fund to provide bridge financing for essential transportation programs. Each loan is to be repaid no later than December 31, 2022, with interest on the loan at the rate of return of the City's Consolidated Cash Pool. The entire principal and interest amount of the loan drawn is intended to be repaid with anticipated proceeds from the sale of the Mercer Megablock property.

Section 2. To implement the loans authorized in Section 1 of this ordinance, the following City Funds may be used as the source of cash loaned to the Transportation Fund pursuant to Section 1:

- A. Unrestricted Cumulative Reserve Fund (00164),
- B. Municipal Arts Fund (12010), and
- C. Coronavirus Local Fiscal Recovery Fund (14000).

Section 3. The Director of Finance may effectuate the loans authorized in this ordinance by transferring cash to the Transportation Fund from one or more of the City Funds identified in Section 2 of this ordinance, or by carrying the Transportation Fund in a negative cash position, in a total amount not to exceed \$15,000,000 until no later than December 31, 2022, or until repayment with proceeds from the sale of the Mercer Megablock, whichever is earlier. The Director of Finance is further authorized to establish, and modify if necessary, from time to time, a repayment plan and schedule.

Section 4. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
SDOT	Bill LaBorde/206.484.8662	Aaron Blumenthal/206.233.2656

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the financing of the Transportation Fund; authorizing interfund loans up to a total amount of \$15,000,000 from multiple City funds as bridge financing to be repaid by the proceeds of a future surplus property sale.

Summary and background of the Legislation: This legislation authorizes up to \$15 million in an interfund loan to allow SDOT to continue to provide essential programs such as projects in the Bicycle and Pedestrian Master Plans, intended to be funded with proceeds from the sale of the Mercer Megablock.

The loan assures SDOT's Transportation Fund remains balanced through the end of 2021 and allows SDOT to continue to deliver essential services and programs. The Mercer Megablock sale is expected in the first half of 2022 and Transportation Fund will therefore be able to pay back the loan upon that sale. The repayment of the loan will be complete no later than the end of 2022.

The designated Lending Funds are:

- Unrestricted Cumulative Reserve Fund (00164)
- Municipal Arts Fund (12010)
- Coronavirus Local Fiscal Recovery Fund (14000)

These Funds will receive the same interest earnings on all cash loaned to the General Fund as they would have earned if the cash had not been loaned.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Loan interest costs will be incurred and paid back from future balances in the Transportation Fund.

Is there financial cost or other impacts of *not* implementing the legislation?

Yes. If this loan were not authorized, SDOT would need to further cut services and programs. As part of the 2021 Budget Process, SDOT made significant program reductions, including to voter-approved commitments such as the Move Seattle Portfolio. This loan allows SDOT to continue basic programs in the Move Seattle Levy and other programs.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Yes. Office of Arts and Culture will be authorized to loan cash to the General Fund under the conditions of the interfund loan authorized by this ordinance. The interfund loan will be carefully managed so that there is no impact to the regular or emergent budget needs of the Lending Funds.

b. Is a public hearing required for this legislation?

No

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No

d. Does this legislation affect a piece of property?

No

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

N/A

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

N/A

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

N/A

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)?

N/A

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to taxation; increasing the commercial parking tax and amending subsection 5.35.030.B of the Seattle Municipal Code.

WHEREAS, in 1990, the Washington State Legislature passed legislation that was adopted as Section 208 of Chapter 42, Laws of Washington, codified at Revised Code of Washington (RCW) 82.80.030, which authorized cities to fix and impose a tax for the act of or privilege of parking a motor vehicle in a facility operated by a commercial parking business within its incorporated boundaries; and

WHEREAS, there are numerous commercial parking businesses operating within Seattle providing parking for which a fee is paid; and

WHEREAS, the proceeds of the commercial parking tax herein imposed shall be used strictly for transportation purposes in accordance with RCW 82.80.070; and

WHEREAS, in 2006 the City Council passed Ordinance 122192, imposing a commercial parking tax for the act or privilege of parking a motor vehicle in a commercial parking lot within Seattle that is operated by a commercial parking business; and

WHEREAS, the commercial parking tax imposed by Ordinance 122192, and last amended by Ordinance 123396, is equal to the parking fee multiplied by the 12.5 percent parking tax rate; and

WHEREAS, the Council desires to increase the commercial parking tax rate to support transportation projects and programs; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Subsection 5.35.030.B of the Seattle Municipal Code, which section was last amended by Ordinance 123396, is amended as follows:

5.35.030 Parking ((Tax Imposed.)) tax imposed

* * *

B. The amount of the parking tax shall be equal to the parking fee multiplied by the parking tax rate. Effective July 1, 2009, the parking tax rate is imposed at ten percent (0.10). Effective January 1, 2011, the parking tax rate is imposed at 12.5 percent. Effective July 1, 2022, the parking tax rate is imposed at 14.5 percent.

Section 2. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
Legislative Department	Calvin Chow/x4-4652	n/a

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title:

AN ORDINANCE relating to taxation; increasing the commercial parking tax and amending subsection 5.35.030.B of the Seattle Municipal Code.

Summary and background of the Legislation:

This legislation would increase the commercial parking tax rate from 12.5 percent to 14.5 percent, effective July 1, 2022. The commercial parking tax was first established in 2006 at 10 percent (Ordinance 122192) and was later increased to 12.5 percent (Ordinance 123396).

Under state law, commercial parking tax revenues may only be spent for transportation purposes. Commercial parking tax revenues are accrued to the Transportation Fund.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

This legislation is proposed as part of a Council Budget Action to amend the 2022 Proposed Budget.

Appropriation change (\$):	General Fund \$		Other \$	
	2021	2022	2021	2022
	-	-	-	-
Estimated revenue change (\$):	Revenue to General Fund		Revenue to Other Funds	
	2021	2022	2021	2022
	-	-	-	\$3,200,000
Positions affected:	No. of Positions		Total FTE Change	
	2021	2022	2021	2022
	-	-	-	-

The proposed legislation would increase the commercial parking tax from 12.5 percent to 14.5 percent, effective July 1, 2022. Based on projections of 2022 commercial parking tax revenue, this rate increase would generate \$6.4 million annually, or \$3.2 million for 6 months. This projection does not include any estimate of price elasticity of parking demand.

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

No other financial impacts identified.

Is there financial cost or other impacts of *not* implementing the legislation?

No financial cost or other impacts identified.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

The Department of Finance and Administrative Services (FAS) is responsible for administering the collection of commercial parking tax. The July 1, 2022, effective date is intended to provide sufficient time for FAS to implement the rate change. Revenue from the commercial parking tax accrues to the Transportation Fund, which provides resources for the Seattle Department of Transportation.

b. Is a public hearing required for this legislation?

No public hearing required.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No public notice required.

d. Does this legislation affect a piece of property?

No property affected.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

No direct impacts to vulnerable or historically disadvantaged communities have been identified, though it is difficult to find data to evaluate potential impacts. Commercial parking tax is collected by commercial parking businesses from vehicle operators and paid to the City; the commercial parking businesses do not report any customer data. Outreach for the increased rate would be the responsibility of FAS.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

The tax increase is not anticipated to materially affect emissions.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

The tax increase is not anticipated to materially affect resiliency.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**

The tax increase is not a new initiative or program expansion.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE relating to the financing of the General Fund; amending Ordinance 126407 to increase the authorization of interfund loans up to a total amount of \$275,000,000 from multiple City Funds to the General Fund as bridge financing to be repaid from future tax proceeds and other anticipated revenues; authorizing additional lending funds; and ratifying and confirming certain prior acts.

WHEREAS, the 2021 Adopted Budget was balanced with \$214 million of revenues from the new payroll expense tax adopted by Ordinance 126309; and

WHEREAS, Ordinance 126309 provided that in the first year the payroll expense tax obligations are not due until January 31, 2022, after which the payroll expense tax will be collected on a quarterly basis; and

WHEREAS, the extension of the due date for 2021 payroll expense tax payments until 2022 has resulted in a cash flow delay to the General Fund, with the expectation that the General Fund will be in an extended negative cash flow position necessitating the authorization of an interfund loan; and

WHEREAS, Ordinance 126407 authorized a revolving interfund loan of up to \$205 million total principal and interest outstanding at one time from multiple City Funds to the General Fund as bridge financing to be repaid from future tax proceeds and other anticipated revenues; and

WHEREAS, since Ordinance 126407 took effect on September 11, 2021, the City Budget Office has confirmed that the completion date for the anticipated sale of surplus City property known as the Mercer Megablock, authorized by Ordinance 125916 and originally planned for late 2021, has been delayed until 2022, resulting in an additional cash deficit of approximately \$66.5 million in property sale proceeds committed to the General Fund in 2021; and

WHEREAS, Seattle Municipal Code subsection 5.06.030.C requires City Council approval by ordinance of any interfund loan for a duration of 90 days or more; and

WHEREAS, in the normal course of business the City may temporarily lend cash between funds to maintain required balances; and

WHEREAS, regarding use of the proceeds of this interfund loan for operating costs, the Director of Finance and the City Budget Director have determined that there is no viable alternative available for advancing a core City objective; and

WHEREAS, the Director of Finance and the City Budget Director have determined that this interfund loan request is consistent with the Debt Management Policies adopted by Resolution 31553; and

WHEREAS, with the delay in the Mercer Megablock property sale, the anticipated cash deficit in the General Fund could reach as much as \$272.5 million during the term of the interfund loan, and no single Fund in the City Treasury maintains sufficient cash reserves both to fully fund the proposed loan and still meet regular budgeted operating needs; and

WHEREAS, there is sufficient cash in several City Funds to support portions of the total loan to the General Fund and still meet regular budgeted operating needs; and

WHEREAS, funds loaned to the General Fund pursuant to this ordinance are anticipated to be repaid from future tax proceeds, the proceeds of the anticipated property sale, and other anticipated revenues; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Sections 1, 2, and 3 of Ordinance 126407 are amended as follows:

Section 1. The City Council finds that there is no viable alternative to meet a core City objective, and therefore the Director of Finance is authorized to make one or more revolving loans of up to ((
\$205,000,000)) \$275,000,000 total principal and interest outstanding to the General Fund from one or

more of the City Funds identified in Section 2 of this ordinance. Each loan is to be repaid by no later than December 31, 2022, with interest on the loan at the rate of return of the City's Consolidated Cash Pool. The entire principal and interest amount of the loan drawn is intended to be repaid with future tax proceeds and other anticipated revenues.

Section 2. To implement the loans authorized in Section 1, the following City Funds may be used as the source of cash loaned to the General Fund pursuant to Section 1 of this ordinance:

A. Health Care Fund (10112),

B. Park and Recreation Fund (10200),

~~((B))~~ C. Move Seattle Levy Fund (10398),

D. Coronavirus Local Fiscal Recovery Fund (14000),

~~((C))~~ E. Families, Education, Preschool, and Promise Fund (17871),

~~((D))~~ F. Seattle Park District Fund (19710),

~~((E))~~ G. Transportation Benefit District Fund (19900),

~~((F))~~ H. REET I Capital Projects Fund (30010),

~~((G))~~ I. REET II Capital Projects Fund (30020), and

~~((H))~~ J. Construction and Inspections Fund (48100).

Section 3. The Director of Finance may effectuate the loans authorized in this ordinance by transferring cash to the General Fund from one or more of the City Funds identified in Section 2 of this ordinance, or by carrying the General Fund in a negative cash position, in a total amount not to exceed ~~((\$205,000,000))~~ \$275,000,000 until no later than December 31, 2022. The Director of Finance is further authorized to establish, and modify if necessary, from time to time, a repayment plan and schedule.

* * *

Section 2. Any act consistent with the authority of this ordinance taken prior to its effective date is

ratified and confirmed.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Email:	CBO Contact/Email:
City Budget Office	Gregg Johanson/ gregg.johanson@seattle.gov	Caleb Wagenaar/ caleb.wagenaar@seattle.gov

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the financing of the General Fund; amending Ordinance 126407 to increase the authorization of interfund loans up to a total amount of \$275,000,000 from multiple City Funds to the General Fund as bridge financing to be repaid from future tax proceeds and other anticipated revenues; authorizing additional lending funds; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: This legislation amends Ordinance 126407, which authorized a revolving interfund loan of up to \$205 million principal and interest outstanding at one time to the General Fund (00100), effective September 11, 2021. This legislation increases the interfund loan authorization to \$275 million total principal and interest outstanding at one time. This ordinance also authorizes the use of two additional potential Lending Funds, in addition to the eight potential Lending Funds previously authorized through Ordinance 126407: the Park and Recreation Fund (10200), and the Coronavirus Local Fiscal Recovery Fund (14000).

The General Fund (00100) has entered an extended period of negative cash flow in 2021. Primarily, this is due to the payroll expense tax, which was newly implemented in 2021 and is expected to provide \$217 million in 2021 General Fund revenues. In 2021, the first year the tax is levied, the collection of the tax proceeds and corresponding cash will be due from taxpayers in January 2022. (Thereafter, the payroll expense tax will be collected quarterly.) In October 2021, the City Budget Office learned that completion of the sale of the surplus Mercer West property would be postponed until 2022, delaying the receipt of \$66.5 million revenues that were intended to support 2021 appropriations in the General Fund.

Due to the resulting cash constraints, the General Fund requires a bridge loan until the 2021 payroll expense tax proceeds are collected in first quarter 2022, the Mercer West property sale is completed, and General Fund cash flows return to more normal patterns. The City Budget Director and the Director of Finance have identified the potential cash deficit to be as high as \$272.5 million, depending on the timing of cash inflows and outflows. It is estimated that the General Fund will pay approximately \$2.5 million in interest charges to the Lending Funds during the life of the interfund loan.

No single Fund in the City Treasury maintains sufficient cash reserves both to fully fund the proposed loan and still meet regular budgeted operating needs. To ensure that the General Fund can borrow the cash that it requires without straining the resources of a single Lending Fund, ten Funds will be authorized as potential Lending Funds. This ordinance grants the Director of Finance, or his designee, the authority to transfer cash to the General Fund from

one or more of these designated Lending Funds. The Funds were selected as capable Lending Funds based upon analysis of cash balance histories, fund financial plans, and other considerations. Through the life of the requested interfund loan authority, the Department of Finance and Administrative Services will closely monitor the balance sheets and income statements of the Lending Funds to ensure that interfund loan obligations do not affect the Fund's operations or program planning.

The designated Lending Funds are:

- Health Care Fund (10112)
- Park and Recreation Fund (10200)
- Move Seattle Levy Fund (10398)
- Coronavirus Local Fiscal Recovery Fund (14000)
- Families, Education, Preschool, and Promise Fund (17871)
- Seattle Park District Fund (19710)
- Transportation Benefit District Fund (19900)
- REET I Capital Projects Fund (30010)
- REET II Capital Projects Fund (30020)
- Construction and Inspections Fund (48100)

These Funds will receive the same interest earnings on all cash loaned to the General Fund as they would have earned if the cash had not been loaned.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ☐ Yes ☒ No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ☐ Yes ☒ No

Does the legislation have other financial impacts to The City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

This legislation addresses accounting and audit concerns, but does not affect programs or services funded by the General Fund.

Is there financial cost or other impacts of not implementing the legislation?

Yes. The City would potentially be in conflict with legal accounting and financial reporting requirements.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Yes. Seattle Parks and Recreation, the Seattle Department of Transportation, the Department of Education and Early Learning, and the Seattle Department of Construction and Inspections manage City Funds that will be authorized to loan cash to the General

Fund under the conditions of the interfund loan authorized by this ordinance. The interfund loan will be carefully managed so that there is no impact to the regular or emergent budget needs of the Lending Funds.

b. Is a public hearing required for this legislation?

No.

c. Is publication of notice with The Daily Journal of Commerce and/or The Seattle Times required for this legislation?

No.

d. Does this legislation affect a piece of property?

No.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

None. This legislation addresses accounting and audit requirements but does not impact programs or services funded through the General Fund.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

No.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

No.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

Not applicable.

List attachments/exhibits below:

None.

CITY OF SEATTLE

ORDINANCE _____

COUNCIL BILL _____

AN ORDINANCE adopting a budget, including a capital improvement program and position modifications, for The City of Seattle for 2022; and creating positions exempt from civil service; all by a 2/3 vote of the City Council.

WHEREAS, in accordance with RCW 35.32A.030, the Mayor submitted a proposed budget for 2022 to the City Council; and

WHEREAS, the Mayor submitted a list of proposed position modifications as part of the 2022 Proposed Budget; and

WHEREAS, by Resolution 24964, the City Council adopted the concept of implementing the City's Capital Improvement Program through appropriations in a budget adopted annually to the greatest extent feasible; and

WHEREAS, the proposed budget for 2022 includes certain appropriations for capital programs that are described in the 2022-2027 Proposed Capital Improvement Program; and

WHEREAS, the City's 2022-2027 Capital Improvement Program, in conjunction with the Capital Facilities, Utilities, and Transportation Elements of the Comprehensive Plan, is in accordance with the State Growth Management Act; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. (a) In accordance with RCW 35.32A.050, the City Council has modified the proposed budget submitted by the Mayor.

(b) The appropriations for the budget control levels in Attachment A to this ordinance, as

restricted by the budget provisos included in Clerk File (C.F.) 314488, are adopted as the City's annual budget for 2022. If a budget proviso refers to a City Council committee, and a committee by that name ceases to exist, the reference shall be to the successor committee with policy oversight of the same subject matter area.

(c) The appropriation for each budget control level in Attachment A to this ordinance may be used only for the purpose listed in Attachment A for that budget control level, unless transferred pursuant to Seattle Municipal Code (SMC) Chapter 5.08. Use of any amount of any appropriation restricted by one or more of the provisos in C.F. 314488 for any purpose other than that stated, or for any purpose expressly excluded, or in violation of any condition specified by proviso, whether by transfer pursuant to SMC 5.08.020 or by any other means, is prohibited.

(d) In addition to each budget control level in Attachment A to this ordinance, any budget control level created by a previous budget, for which appropriations remain that have not lapsed, is part of the 2022 budget and the un-lapsed appropriations for that budget control level are subject to the restrictions in subsection 1(c) of this ordinance. These un-lapsed appropriations continue to be subject to any provisos previously placed on them that have yet to be removed or satisfied.

(e) The funds appropriated in each budget control level are available to first satisfy any obligations incurred by contract, including but not limited to satisfaction of any bond obligation, contractual indemnity provision, or lease obligation.

(f) Unspent funds for the Executive Department Office of Housing's Low-Income Housing Fund 16400 Budget Control Level, appropriated by subsection 1(b) of this ordinance, shall carry forward to subsequent fiscal years until they are exhausted or abandoned by ordinance.

(g) The revenue estimates for 2022 contained in the Mayor's 2022 Proposed Budget, filed in C.F. 314487, as modified by the changes of the City Council in C.F. 314488, are adopted.

Section 2. The "CIP Project Pages" of the 2022-2027 Proposed Capital Improvement Program submitted by the Mayor, filed in C.F. 314486, as modified by the changes of the City Council in C.F. 314488,

are adopted as the City's six-year Capital Improvement Program (CIP).

Section 3. (a) The officer and employee position modifications in Attachment B to this ordinance, including the creation of some positions exempt from civil service, are adopted effective January 1, 2022.

(b) The City, by enacting Ordinance 126419, established a position list effective as of January 1, 2021. Subsection 3(a) of this ordinance modifies that list. It is anticipated that the Seattle Department of Human Resources will submit a proposed list of the City's regular positions for each department or office as of January 1, 2022, to the City Council for possible action in 2022. The proposed list should reflect (i) the modifications made in subsection 3(a) of this ordinance that take effect on January 1, 2022; (ii) the reclassifications of regular positions made by the Human Resources Director from January 1, 2021, through December 31, 2021; and (iii) the creation, modification, or abrogation of regular positions, by ordinance, that took effect from January 1, 2021, through December 31, 2021.

Section 4. (a) Subject to the conditions in Section 1 of this ordinance, the appropriation of money in the budget adopted by this ordinance, for a budget control level that includes a program or project assigned a project identification number in the 2022-2027 Adopted CIP, constitutes authority for the designated City department, commission, or office (after compliance with the State Environmental Policy Act) to acquire personal property; obtain options to acquire real property; negotiate to acquire right-of-way and other real property interests; prepare plans and designs; demolish, construct, or make improvements; and obtain any ancillary services, including, without limitation, planning, engineering, design, appraisal, escrow, title insurance, construction, inspection, environmental audits, and remediation appraisals or other reviews; all in order to carry out the project or program substantially as described in the 2022-2027 Adopted CIP. Each department may obtain the authorized services or property using City staff or by contract as authorized in subsection 4(j) of this ordinance. If projects or programs are identified in the 2022-2027 Adopted CIP to be carried out by other entities wholly or in part with City funds, the appropriation constitutes authority to provide such funds to such other entities for such purposes, subject to applicable laws and ordinances.

(b) None of the appropriations in the 2022 Adopted Budget may be spent on capital projects or programs unless the projects or programs are specifically identified and assigned a project identification number in the 2022-2027 Adopted CIP or are added to the 2022-2027 Adopted CIP by a future amending ordinance.

(c) Without future Council authorization by ordinance, expenditures in 2022 on any project or program identified and assigned a project identification number in the 2022-2027 Adopted CIP for Seattle City Light, Seattle Public Utilities, or the Seattle Department of Transportation, other than expenditures pursuant to unspent capital appropriations carried forward from 2021 into 2022 in accordance with RCW 35.32A.080 and allocated to the same project or program, shall not exceed by more than \$1,000,000 the amount shown as the Appropriations Total in the 2022 column for that project or program in the Adopted CIP, as that amount may be amended by ordinance. The City Budget Office shall certify to the Chair of the City Council Budget Committee a list of those unspent capital appropriations not subject to the expenditures restriction imposed by this subsection by May 1, 2022, and shall also file the list with the City Clerk. The list shall include the project identification number and the dollar amount by project or program not subject to the expenditure restriction, at minimum.

(d) Moneys appropriated from funds, accounts, and subaccounts in which are deposited the proceeds derived from the issuance of bonded obligations shall be expended only in accordance with the terms, conditions, and restrictions of ordinances authorizing such obligations and establishing the respective funds.

(e) The 2022-2027 Adopted CIP is part of the 2022 Adopted Budget and identifies, among other projects, those capital projects funded wholly or in part from the proceeds of the taxes authorized in RCW 82.46.010 and/or RCW 82.46.035, and/or from the proceeds of bonds, for the repayment of which tax revenues under RCW 82.46.010 and/or RCW 82.46.035 have been pledged. Such taxes are intended to be in addition to other funds that may be reasonably available for such capital projects.

(f) The portions of the 2022-2027 Adopted CIP pertaining to Seattle City Light and Seattle

Public Utilities, as those portions of the 2022-2027 Adopted CIP may be amended from time to time, are adopted as systems or plans of additions to, and betterments and extensions of, the facilities, physical plants, or systems of Seattle City Light and Seattle Public Utilities, respectively.

(g) The Director of Finance and Administrative Services and the City's Director of Finance are authorized to draw and pay the necessary warrants or checks and to make any necessary transfers among funds and accounts.

(h) Except as limited by this section or by Section 1 of this ordinance or by any other ordinance, the funds appropriated in the 2022 Adopted Budget are subject to transfer for use with other projects as provided in SMC Chapter 5.08.

(i) The Mayor, or, at the Mayor's request, the head of the department that is designated to carry out a project for and on behalf of The City of Seattle, is authorized to submit applications as may be deemed appropriate to the United States of America, or any of its departments, and the State of Washington, or any of its departments, for financial assistance in carrying out the authorized projects included in the 2022-2027 Adopted CIP; to make for and on behalf of the City all assurances, promises, representations, and consent to suit, and/or covenants to comply with any applicable regulations of the United States relating to implementation of the projects; to act in connection with the applications as the authorized representative of the City; to provide additional information as may be required; and to prepare plans for implementation of terms and conditions as may accompany financial assistance, provided that the submission of an application shall not result in the making of a contract, in incurring of any indebtedness, or in the acceptance of moneys imposing any duties or obligations upon the City except as is authorized by this or another ordinance.

(j) The Director of Transportation, the Superintendent of Parks and Recreation, the Director of the Office of Arts and Culture, the General Manager and Chief Executive Officer of City Light, the General Manager and Chief Executive Officer of Seattle Public Utilities, the Director of the Department of Finance and Administrative Services, the City Librarian, the Chief Technology Officer, and the Director of the Seattle

Center Department are authorized to negotiate for and enter into non-public works contracts, within their appropriation authority, to obtain property and services authorized in Section 4 of this ordinance to carry out those capital projects and programs included in the 2022-2027 Adopted CIP and assigned to their respective departments or offices.

Section 5. The Mayor and the City Council find that the General Fund's 2022 contribution to the Park and Recreation Fund exceeds the requirements established in Article XI, Section 3 of the City Charter.

Section 6. Pursuant to the requirements of Ordinance 117216, Ordinance 118814, Ordinance 122293, Ordinance 122859, Ordinance 123459, Ordinance 124057, Ordinance 124640, and Ordinance 125190, the City in subsection 1(b) of this ordinance and Attachment A to this ordinance appropriates to the Firefighters' Pension Fund ("the Fund") \$21,921,588, of which \$19,099,362 comes from General Fund resources. No beneficiary of the Fund has a vested contractual right to the appropriation of the foregoing amount or any amount appropriated by the City to the Fund.

The Mayor and the City Council, under the authority granted by RCW 41.16.060, find that the General Fund's 2022 contribution to the Fund is equal to \$0.069 per \$1,000 of assessed value and provides, in accordance with the 2020 Actuarial Report on the condition of the Fund received from a qualified actuary dated June 25, 2021, together with other amounts appropriated by the City for the Fund, an amount equal to or greater than the estimated demands on the fund for 2022 and maintains the actuarial soundness of the Fund as it prevents recording a positive net pension obligation for the Fund.

The Mayor and the City Council find that the amount appropriated by this ordinance is appropriated for the purpose of keeping the Fund flexible and maintaining its integrity and actuarial soundness. The Mayor and City Council also find that such amount is reasonable for the purposes established in the ordinances listed at the beginning of this section, and that such amount bears a material relation to the successful operation of the Fund.

Section 7. The provisions of this ordinance are declared to be separate and severable. The invalidity of any clause, sentence, paragraph, subdivision, section, or portion of this ordinance, or the invalidity of its

application to any person or circumstance, does not affect the validity of the remainder of this ordinance or the validity of its application to other persons or circumstances.

Section 8. This ordinance shall take effect and be in force on January 1, 2022.

Passed by a 2/3 vote of all the members of the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

Monica Martinez Simmons, City Clerk

Position Modifications for the 2022 Budget

The following is the list of position modifications for the 2022 Proposed Budget that take effect January 1, 2022.

The modifications result from budget actions that eliminate positions, create new positions, change the status of a position, and reclassify positions. Numbers in parentheses are reductions. The figures in the column labeled "Number" represent net position modifications, by Position Status, as a result of changes contained in the 2022 Proposed Budget.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
City Budget Office	Adam Schaefer / 684-8358	Ben Noble / 684-8160

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

1. **Legislation Title:** AN ORDINANCE adopting a budget, including a capital improvement program and position modifications, for The City of Seattle for 2022; and creating positions exempt from civil service; all by a 2/3 vote of the City Council.
2. **Summary and background of the Legislation:** This ordinance adopts The City of Seattle's 2022 Budget, which includes the 2022-2027 Capital Improvement Program (CIP) and position modifications for fiscal year 2022. This legislation is submitted annually to adopt The City of Seattle's budget for the next fiscal year.

2. CAPITAL IMPROVEMENT PROGRAM

- a. **Does this legislation create, fund, or amend a CIP Project?** **X** Yes ____ No

Please see the 2022-2027 Proposed/Adopted Capital Improvement Program for project pages and details.

3. SUMMARY OF FINANCIAL IMPLICATIONS

- a. **Does this legislation amend the Adopted Budget?** **X** Yes ____ No

Please see the 2022 Proposed/Adopted Budget for appropriations, revenues, and positions.

- b. **Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?**
Please see the Budget, CIP, and report of position modifications for detailed information regarding the financial and long-term implications of this legislation.
- c. **Is there financial cost or other impacts of *not* implementing the legislation?**
RCW 35.32A.050 states that, "Not later than thirty days prior to the beginning of the ensuing fiscal year the City Council shall, by ordinance, adopt the budget submitted by the Mayor as modified by the City Council." This legislation is the mechanism by which the Seattle City Council adopts the final budget for the City of Seattle.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

Yes, all City departments are affected by this legislation. All City departments are aware of the nature of the impact.

b. Is a public hearing required for this legislation?

Yes. The City Council's Budget Committee will hold public hearings on October 12 and November 10 and 18, 2021.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

d. Does this legislation affect a piece of property?

No.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities?

Please see the RSJI summary section for an overview and individual department/program descriptions for detailed description of how the Budget impacts Race and Social Justice Initiative principles.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

Individual programs and initiatives are described in detail in the Budget and CIP.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

Individual programs and initiatives are described in detail in the Budget and CIP.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

New and expanded programs are described in detail in the Budget and CIP.

CITY OF SEATTLE
ORDINANCE _____
COUNCIL BILL _____

AN ORDINANCE relating to the levy of property taxes; fixing the rates and/or amounts of taxes to be levied, and levying the same upon all taxable property, both real and personal, in The City of Seattle, to finance the departments and activities of City government and to provide for the general obligation bond interest and redemption requirements for the year beginning on the first day of January 2022; and ratifying and confirming certain prior acts.

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. General Municipal and Firefighters' Pension.

A. There is levied a tax on all taxable property, both real and personal, within The City of Seattle and subject to taxation under the laws of the State of Washington in the amount of \$989,764,868, which is calculated as \$3.60 per \$1,000 of estimated assessed value of all taxable property in the city. This tax is levied for the purpose of raising revenue to finance the various departments and activities of the municipal government of The City of Seattle for the fiscal (calendar) year 2022. The following sentence is provided for information only. This levy has been calculated at the following dollar rates per \$1,000 of assessed value: \$3.375 for general municipal purposes as allowed by RCW 84.52.043 (which includes up to \$0.225 for the Firemen's Pension Fund as allowed by RCW 41.16.060); and \$0.225 for general municipal purposes and the Firemen's Pension Fund as allowed by RCW 41.16.060. This levy includes an amount of \$100,000 or the highest lawful amount as the King County Assessor may certify, whichever is higher, to recover amounts refunded within the preceding 12 months. This levy also includes an amount of \$100,844,414 for transportation purposes in accordance with Ordinance 124796; an amount of \$3,000,000 for election vouchers funding purposes in accordance with Resolution 31601 and Seattle Municipal Code Sections 2.04.600-696; an

amount of \$41,428,571 for low-income housing purposes in accordance with Ordinance 125028; an amount of \$88,502,856 for education purposes in accordance with Ordinance 125604; and an amount of \$30,981,524 for library maintenance and services in accordance with Ordinance 125809.

B. If the total of the amounts of taxes stated in subsection 1.A or the total of the tax rate stated in subsection 1.A would be in excess of any maximum allowed by law, then such taxes shall be reduced to the maximum amount allowed. The maximum amount allowed by law includes the maximum amount of regular property taxes approved by vote of the people of The City of Seattle pursuant to RCW 84.55.050. For purposes of this subsection, the maximum amount of regular property taxes is determined by the King County Assessor as follows. First, the Assessor determines the amount of regular City property taxes that could be levied for collection in 2022 had the voters approved none of the levy lid lift measures submitted pursuant to RCW 84.55.050, Seattle Municipal Code Sections 2.04.600-696, and Ordinances 124796, 125028, 125604, and 125809. This amount is computed by the Assessor by multiplying the amount of general-purpose regular property taxes levied for collection in 2021 by a limit factor. The limit factor is the lesser of 101 percent or 100 percent plus the rate of inflation, unless, pursuant to RCW 84.55.0101, the Council finds that there is a substantial need to use and approves the use of 101 percent as the regular property tax limit factor. Second, the Assessor adds the levy for tax refunds authorized by RCW 84.68.040, RCW 84.69.180, and RCW 84.55.070; plus the allowance authorized by RCW 84.55.010 for new construction, increases in assessed value due to construction of electric generation wind turbine facilities classified as personal property, improvements to property, and any increase in the assessed value of state-assessed property. Then, to that total amount is added the five, dollar amounts set forth in the last sentence of subsection 1.A authorized for 2022 collection in the approvals given by the voters of the City pursuant to RCW 84.55.050 and those enumerated ordinances.

Section 2. Voter-approved excess taxes for bonds. In addition, a further tax is levied to raise revenue to provide for the interest on and redemption of voter-approved general obligation bonds for the fiscal year 2022 in the amount of \$16,312,800. This tax is applicable to all taxable property within The City of Seattle.

Section 3. The several provisions of this ordinance are declared to be separate and severable and the invalidity of any clause, sentence, paragraph, subdivision, section, subsection, or portion of this ordinance, or the invalidity of the application thereof to any person, property, or circumstance, shall not affect the validity of the remainder of this ordinance or the validity of its application to other persons, property, or circumstances.

Section 4. Any act pursuant to the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 5. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by
me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
CBO	Dave Hennes/4-0537	Dave Hennes/4-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the levy of property taxes; fixing the rates and/or amounts of taxes to be levied, and levying the same upon all taxable property, both real and personal, in The City of Seattle, to finance the departments and activities of City government and to provide for the general obligation bond interest and redemption requirements for the year beginning on the first day of January 2022; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: This ordinance imposes the City's property tax for 2022 to pay for City government activities and for general obligation bond interest and redemption.

RCW 84.55.010 provides that the City may, with a simple majority vote of the Council, levy a property tax increase equal to inflation but not greater than a 1% increase over the prior year's regular property tax collection. If inflation is lower than 1%, the law requires a majority plus one vote, with a finding of substantial need, to have a tax increase exceed inflation to the maximum of 1%. Inflation is measured by the implicit price deflator for the United States published in September. In most years, the inflation rate will exceed 1%. This year the rate prior to revision is 3.86%. Thus, the attached Bill does not contain, and the Council will not need to make a finding of substantial need with approval by a majority plus one vote to provide for the use of 101% as the regular property tax limit factor. The Council may not increase regular property taxes above 1% without a vote of the people.

Other than the 1% increase in the regular non-voted current expense property tax levy proposed in the attached Bill, the same 1% increase is applied to the Move Seattle Transportation levy lid lift, the Families, Education, Preschool and Promise levy lid lift and the Library Services levy lid lift per the terms of their respective ordinances. All other lid lifts are flat amounts year over year. No existing lid lifts expired in 2021 and no new lid lifts were added. Altogether, these changes result in an overall increase from 2021 of \$5,185,720, which does not include changes in the excess levy for redemption of general obligation bonds, the "refund fund levy" or additional taxes resulting from new construction, construction of wind turbine facilities classified as personal property, improvements to property, or increases in the value of state-assessed property.

It also does not include levy amounts for the Metropolitan Parks District (MPD). Pursuant to RCW 35.61, the MPD is a legally separate taxing jurisdiction from the City of Seattle, whose property tax levy authority of \$0.75 per \$1,000 assessed value is outside of the City's statutory rate limit of \$3.60 per \$1,000 assessed value. The MPD began collecting tax revenues in the 2016 tax collection year.

Additionally, this ordinance includes a levy of \$16,312,800 for interest on and redemption of voter-approved general obligation bonds for the fiscal year 2022, a decrease of \$6,451,400 from the amount levied for collection in 2021. This amount includes payment amounts against the Libraries and Seawall bonds.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Yes. This legislation authorizes collection of the City's several property tax levies in calendar year 2022. See following sections for more details.

Is there financial cost or other impacts of *not* implementing the legislation?

Without this legislation, no **increase** in property tax revenue, other than that resulting from a voted levy lid lift, new construction, improvements to property, construction of wind turbine facilities classified as personal property, and any increase in the value of state-assessed property, may be authorized. The cost of not implementing this legislation is the 1% increase over the 2021 current expense levy, Families, Education, Preschool and Promise levy lid lift, Move Seattle Transportation levy lid lift and Library Services levy lid lift, estimated to be \$10.4 million. If not passed, the County Assessor will levy the same amounts (general expense and levy lid lifts) as levied for the 2021 tax collection year plus any newly voter-approved levy lid lifts (of which there are none in 2022), amounts resulting from new construction, improvements to property, construction of wind turbine facilities classified as personal property, and any increase in the value of state-assessed property.

3.b. Revenues/Reimbursements

X This legislation adds, changes, or deletes revenues or reimbursements.

Anticipated Revenue/Reimbursement Resulting from this Legislation:

Fund Name and Number	Dept	Revenue Source	2021 Revenue	2022 Estimated Revenue
00100 General Fund	General Fund	Property Tax	\$291,581,254	\$306,333,881
10398 Move Seattle Levy Fund	Transportation	Property Tax	\$99,845,955	\$100,844,414
16418/16419 2016 Housing Levy Capital Fund/2016 Levy O&M Fund	Office of Housing	Property Tax	\$41,428,571	\$41,428,571
18200 2019 Library Levy Fund	Seattle Public Library	Property Tax	\$30,674,777	\$30,981,524
12300 Election Vouchers Fund	Ethics & Elections Commission	Property Tax	\$3,000,000	\$3,000,000
17871 Families, Education, Preschool and Promise Fund	Dept. of Education & Early Learning	Property Tax	\$87,626,590	\$88,502,856
20140 UTGO Bond Interest & Redemption Fund	FAS	Property Tax	\$22,764,200	\$16,312,800
TOTAL			\$576,921,347	\$587,404,046

Is this change one-time or ongoing?

One-time.

4. OTHER IMPLICATIONS

- a. Does this legislation affect any departments besides the originating department?**
See the “Anticipated Revenue” Table above for affected departments.

b. Is a public hearing required for this legislation?

Yes. Public hearings will take place on October 12, 2021 and November 10, 2021.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No

d. Does this legislation affect a piece of property?

No

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

The revenues generated through the property tax, both general expense and levy lid lifts for particular purposes, support a broad range of government services, many of which support vulnerable or historically disadvantaged communities. This legislation has no policy or program implementation ramifications affecting vulnerable or historically disadvantaged communities beyond providing the underlying funding that supports City programs. Increases in taxes may disproportionately affect low-income individuals.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

Neither. This legislation only provides authorization to collect property taxes. It has no direct policy or programmatic effects on carbon emissions.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

Neither. This legislation only provides authorization to collect property taxes. It has no direct policy or programmatic effect.

g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).

N/A

File #: CB 120204, **Version:** 1

CITY OF SEATTLE
ORDINANCE _____
COUNCIL BILL _____

AN ORDINANCE authorizing the levy of regular property taxes by The City of Seattle for collection in 2022, representing an increase above the regular property taxes levied for collection in 2021; and ratifying and confirming certain prior acts.

WHEREAS, to increase regular property taxes, RCW 84.55.120, as approved by the voters of the State of Washington in "Referendum 47" on November 4, 1997, requires the City to enact a separate ordinance indicating the change in taxes from the previous year in terms of percentage and total amount; and

WHEREAS, The City of Seattle proposes to make its regular property tax levy for collection in 2022 in the amount reflected in the companion ordinance to this bill, which is commonly known as the "Long Property Tax Ordinance"; and

WHEREAS, the Long Property Tax Ordinance for 2022 authorizes an increase above the amount of regular property taxes levied for collection in 2021; and

WHEREAS, pursuant to RCW 84.55.120, after proper notice was given, the City Council held public hearings on October 12, 2021 and November 10, 2021, to consider The City of Seattle's 2022 budget and the regular property tax levy to support it; and

WHEREAS, notice of the City Council's consideration of this ordinance has been provided in the usual manner for other proposed City ordinances; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. Regular property taxes for collection in 2022 are authorized in the amount reflected in the ordinance introduced as Council Bill 120203. Not including increases resulting from the addition of new

construction, construction of wind turbine facilities classified as personal property, improvements to property, and any increase in the value of state-assessed property, the regular property tax levy for 2022 collection represents an increase above regular property taxes levied for collection in 2021 (excluding the "refund fund levy" in both instances) of \$5,185,720, which is a 0.92 percent increase. These regular property tax levies for collection in 2021 and 2022 include regular property tax "levy lid lifts" previously approved by the voters of The City of Seattle.

Section 2. Any act consistent with the authority of this ordinance taken after its passage and prior to its effective date is ratified and confirmed.

Section 3. This ordinance shall take effect and be in force 30 days after its approval by the Mayor, but if not approved and returned by the Mayor within ten days after presentation, it shall take effect as provided by Seattle Municipal Code Section 1.04.020.

Passed by the City Council the _____ day of _____, 2021, and signed by me in open session in authentication of its passage this _____ day of _____, 2021.

President _____ of the City Council

Approved / returned unsigned / vetoed this _____ day of _____, 2021.

Jenny A. Durkan, Mayor

Filed by me this _____ day of _____, 2021.

Monica Martinez Simmons, City Clerk

SUMMARY and FISCAL NOTE*

Department:	Dept. Contact/Phone:	CBO Contact/Phone:
CBO	Dave Hennes/4-0537	Dave Hennes/4-0537

** Note that the Summary and Fiscal Note describes the version of the bill or resolution as introduced; final legislation including amendments may not be fully described.*

1. BILL SUMMARY

Legislation Title: AN ORDINANCE authorizing the levy of regular property taxes by The City of Seattle for collection in 2022, representing an increase above the regular property taxes levied for collection in 2021; and ratifying and confirming certain prior acts.

Summary and background of the Legislation: This legislation, commonly known as the “Short Property Tax Ordinance” reflects changes in the regular property taxes in terms of dollars and percentages. It is a companion to the ordinance authorizing Seattle’s property tax levies, commonly known as the “Long Property Tax Ordinance.”

Since the approval of Referendum 47 in November 1997, state law has required that taxing jurisdictions adopt, by a majority of their legislative body, a separate ordinance authorizing regular property tax increases, other than increases due to certain excluded assessed property values identified below. The ordinances must show the authorized increase in terms of both dollars and percentages. Due to the exclusion of increases due to new construction, construction of wind turbine facilities classified as personal property, improvements to property, the value of state-assessed property, and refund adjustments to the levy amount, the actual year-over-year change in the City’s regular levy will differ from the calculated change in this legislation. Seattle’s Long Property Tax legislation, which is the authorizing legislation for the City’s property tax levy, provides a more detailed description of Seattle’s actual property tax levy and revenues.

Due to the 1 percent increase in the regular non-voted property tax levy, the “Move Seattle” Transportation levy lid lift, the Families, Education, Pre-School and Promise lid lift and the Library Services levy lid lift proposed in the attached Bill, the City of Seattle’s 2021 levy for collection in 2022 represents an increase of \$5,185,720 (0.92%) from 2021. As noted above, this does not include the “refund fund levy,” or additional taxes resulting from new construction, construction of wind turbine facilities classified as personal property, improvements to property, or an increase in the value of state-assessed property.

2. CAPITAL IMPROVEMENT PROGRAM

Does this legislation create, fund, or amend a CIP Project? ___ Yes X No

3. SUMMARY OF FINANCIAL IMPLICATIONS

Does this legislation amend the Adopted Budget? ___ Yes X No

Does the legislation have other financial impacts to the City of Seattle that are not reflected in the above, including direct or indirect, short-term or long-term costs?

Please see the Fiscal Note to the 2021 Long Property Tax Ordinance, which authorizes the City's actual property tax levies.

Is there financial cost or other impacts of *not* implementing the legislation?

Please see the Fiscal Note to the 2021 Long Property Tax Ordinance, which authorizes the City's actual property tax levies.

4. OTHER IMPLICATIONS

a. Does this legislation affect any departments besides the originating department?

See the Summary above and the "Anticipated Revenue" table in the companion Fiscal Note for the Long Property Tax Ordinance for affected departments.

b. Is a public hearing required for this legislation?

Yes. Public hearings will take place on October 12, 2021 and November 10, 2021.

c. Is publication of notice with *The Daily Journal of Commerce* and/or *The Seattle Times* required for this legislation?

No.

d. Does this legislation affect a piece of property?

No.

e. Please describe any perceived implication for the principles of the Race and Social Justice Initiative. Does this legislation impact vulnerable or historically disadvantaged communities? What is the Language Access plan for any communications to the public?

The revenues generated through the property tax, both general expense and levy lid lifts for particular purposes, support a broad range of government services, many of which support vulnerable or historically disadvantaged communities. This legislation has no policy or program implementation ramifications affecting vulnerable or historically disadvantaged communities beyond providing the underlying funding that supports City programs. Increases in property tax levies may disproportionately affect low-income taxpayers.

f. Climate Change Implications

1. Emissions: Is this legislation likely to increase or decrease carbon emissions in a material way?

Neither. This legislation only provides authorization to collect property taxes. It has no direct policy or programmatic effects on carbon emissions.

2. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so,

explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.

Neither. This legislation only provides authorization to collect property taxes. It has no direct policy or programmatic effect.

- g. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s).**
