WHEREAS, Resolution 31187, adopted by the City Council on March 22, 2010, established financial policies including the rate setting guideline of setting electric rates at levels sufficient to achieve a debt service

coverage ratio of 1.8; and

WHEREAS, Resolution 31351, adopted by the City Council on May 7, 2012, established general policies and objectives for setting electric rates; and

WHEREAS, City Light's 2019-2024 Strategic Plan was approved by the City Council on July 9, 2018 via Resolution 31819, and

WHEREAS, the City Council has reviewed the rates, terms, and conditions set forth within this ordinance, has determined they are consistent with the strategic plan rate path, financial policies, and the provision of efficient electric service at low cost; NOW THEREFORE,

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. Subsection 21.49.020.B of the Seattle Municipal Code, which section was last amended by Ordinance 124978, is amended as follows:

**21.49.020 Definitions**

\* \* \*

B. The following terms, as used for the purpose of applying rate schedules, have the following meanings:

1. "General service" means service to any customer who does not qualify for residential service. General service rates also apply to the separately metered electricity use by residential customers where that use is not for domestic purposes; or, to a single-metered service which includes domestic uses but for which the major portion of the service (defined by square footage of usable space) is used on an ongoing and regular basis for the conduct of business. General service uses include, but are not limited to, manufacturing, processing, refining, freezing, lighting, water heating, power purposes, air conditioning and space heating, traffic control systems, and electricity provided to the common use areas of duplex or multiple-dwelling buildings.

a. "Standard general service" means service to any general service customer who does not qualify for network general service.

b. "Network general service" means service to any general service customer which is

provided through an underground distribution network supplied by the Denny, Broad Street, Massachusetts Street, or Union Street Substations, except for service to customers who are certified by the Department as having predominantly residential use of electricity.

Section 2. Subsection 21.49.030.A of the Seattle Municipal Code, which section was last amended by Ordinance 125171, is amended as follows:
