- d. The nature of the artist's work shall be such that there is a genuine need for the space; and
- e. The owner(s) of a building seeking a conditional use for artist's studio/dwellings must sign and record a covenant and equitable servitude, on a form acceptable to the Director, that acknowledges that the owner(s) and occupants of the building accept the industrial character of the neighborhood and agree that existing or permitted industrial uses do not constitute a nuisance or other inappropriate or unlawful use of land.

Such covenant and equitable servitude must state that it is binding on the owner(s)' successors, heirs, and assigns, including any lessees of the artist's studio/dwellings.

2. Park-and-pool lots in IG1 and IG2 zones in the Duwamish Manufacturing/Industrial Center, and park-and-ride lots in General Industrial 1 (IG1), General Industrial 2 (IG2), Industrial Buffer (IB) and Industrial Commercial (IC) zones may be permitted as a conditional use according to the following criteria:

- c. The park-and-pool lot shall be located on an existing parking area unless no reasonable alternative exists;
- d. If the proposed park-and-pool lot is located on a lot containing accessory parking for other uses, there shall be no substantial conflict in the principal operating hours of the lot and the other uses; and
- e. The park-and-pool lot is not located within (~~three thousand~~)3,000(~~(+)~~) feet of downtown.

3. Except in the Duwamish Manufacturing/Industrial Center, lodging uses may be permitted as a conditional use in General Industrial 1 (IG1), General Industrial 2 (IG2), Industrial Buffer (IB) and Industrial Commercial (IC) zones according to the following criteria:

b. Criteria ~~((:))~~

(1) The lot is located so that large concentrations of people, particularly in residential and commercial areas, are not exposed to unreasonable adverse impacts;

(2) A management plan may be required. The Director may determine the level of detail to be disclosed in the plan based on the probable impacts and/or the scale of the effects. Discussion of materials handling and storage, odor control, transportation, and other factors may be required;

(3) The finished product as packaged for sale or distribution shall be in such a form that product handling and shipment does not constitute a significant public health risk; and

In making a determination whether to approve or deny medical service use, the Director shall determine whether an adequate supply of industrially zoned land will continue to exist. The following factors shall be used in making this determination:

a. Whether the amount of medical service use development existing and proposed in the vicinity would reduce the current viability or significantly impact the longer-term potential of the manufacturing or heavy commercial character of the industrial area; and

b. Whether medical service use development would displace existing manufacturing or heavy commercial uses or usurp vacant land, in areas with parcels particularly suited for manufacturing or

heavy commercial uses.

13. A nonconforming use may be converted by an administrative conditional use authorization to a use not otherwise permitted in the zone based on the following factors:

- a. New uses shall be limited to those first permitted in the next more intensive zone;

- c. The Director must find that the new nonconforming use is no more detrimental to property in the zone and vicinity than the existing nonconforming use.

14. An accessory hospital facility may be permitted as a conditional use according to the following criteria:

- a. The hospital facility is an integral element of a research and development laboratory or an institute for advanced study to which it is accessory; and
