SERVICE MODEL

Mobile, flexible domestic violence and sexual assault advocacy is a best/promising practice based on the “Domestic Violence Housing First” (DVHF), a project of the WA State Coalition Against Domestic Violence (WSCADV), funded by the Bill and Melinda Gates Foundation. It focuses on helping survivors and their children rapidly access new housing, or retain their current housing, and maintain safety and stability in their housing. The key elements to this promising approach are that advocates (1) provide individualized, flexible, and mobile assistance within survivors’ chosen communities; (2) provide flexible funding to meet immediate needs related to housing and safety; (3) work directly with landlords and public housing authorities to expand options for survivors; and (4) use a trauma-informed lens to respond to survivors’ and children’s needs related not only to past victimization but ongoing threats, sabotage and violence.
