Eric Wright

I am curious by nature and tend to ask asymmetrical questions. I find professional enjoyment in learning, puzzles, system design, behavioral economics, and the opportunity to execute process improvement to a positive result.

Washington Trucking Associations

Vice President

April 2021 – June 2022

Engaging with and listening closely to members of the WTA, hearing their concerns and desires drove my daily work. Creating and maintaining collaborative, educational environments for members and non-members, along with direct outreach to other supply chain stakeholders, was much of my focus at the Washington Trucking Associations. This included starting the Maintenance Manager & Technician Council, hosting a webinar series on zero-emission vehicles, and a putting together a variety of public and closed meetings.

Portland Container

Business Development

Aug 2016 – April 2021

Growth and success don't happen in a vacuum. Such was the case with my time at Portland Container. My role providing process design, technological support, and market intelligence was in an "act strategically, think tactically" paradigm. During my time at Portland Container, I developed and implemented unique rate calculation and customer quoting methodology, a holistic system based on internal constraints and market needs. I conducted strategic planning meetings leveraging a variety of analysis methods. I was also the initial lead on the acquisition and operational merger of a Tacoma based transportation provider.

Furniture Connexion

Business Process Manager

May 2014 - Aug 2016

While at Furniture Connexion I focused on logistics, trade compliance, and technology infrastructure. I used a people, process, and controls strategy to restructure and re-align the purchasing and logistics functions. This included hiring and training, implementation of new data systems, and creating new workflow patterns. A collaborative process for development, implementation, and change management was instituted across multiple departments. I lead data mining and reporting development. And I was also the principal contact for a large material casualty insurance claim resulting from a fire incident.
