Quantifying Demand

Making a Difference

- Fresh Bucks customers report increased fruit and vegetable consumption and increased food security.
- Customers who started the program with low fruit and vegetable intake doubled their consumption during their time on the program.

“I am so grateful for Fresh Bucks. In the past, I wasn’t always able to purchase as many fruits and vegetables as I can now. I have diabetes, and my doctor has been impressed to see that my A1C has lowered since I started using Fresh Bucks. I credit this improvement to the healthier meals I am now able to afford.”

— Derrick,
Fresh Bucks customer

Building family traditions...

"Fresh Bucks has transformed our grocery shopping into an adventure. I let each of my children pick a fruit or vegetable for the family, and it's amazing to see their excitement about fresh produce. It's not just about the savings - it's about watching my family fall in love with healthy eating, one vegetable at a time."

Expanding neighborhood choices...

"Having Golden Hong on the Fresh Bucks list has been life-changing for Chinatown International District neighbors. It saves us travel time, keeps us safer by reducing public transportation trips, and offers Asian products that truly fit our cultural lifestyle."

Thank you!

Environmental Justice Fund Briefing

Presented to the Sustainability, City
Light, Arts & Culture (SCLAC) Committee

May 2025

Seattle
Office of Sustainability
& Environment

What We'll Cover Today:

1. Overview of Environmental Justice Fund (EJ Fund)
2. Program's Guiding Goals & Strategies
3. EJ Fund Highlights
4. What's Ahead
5. Q&A

Equity & Environment Initiative

A blueprint for advancing race and social justice in Seattle's environmental work.

"When my car broke down, I took two buses and walked uphill to get all my groceries home, perishable items from EBT. The healthy stuff is heavy. It's hard to carry on the bus. And heavy groceries with my three year old kid, it was a source of stress."
— Community member, Solid Ground

HEALTHY ENVIRONMENTS FOR ALL

AIR, WATER, GREEN SPACE, FOOD, SAFETY & QUALITY OF LIFE

"We want mentorship opportunities across all levels of career (entry, mid, and senior level) set up in workplaces. We want this to be the norm and not the exception."
— Community member, Environmental Professionals of Color

JOBS, LOCAL ECONOMIES & YOUTH PATHWAYS

OPPORTUNITIES FOR LOCAL GREEN CAREERS

"We believe that transformative and meaningful change at a large scale needs to be led by those most affected by injustice."
— Latino community member, South Park

EQUITY IN CITY ENVIRONMENTAL PROGRAMS

INCREASING COMMUNITY ACCESS AND DECISION-MAKING

"We know that 'environmentalism' has a long history of exclusion; shifting the framing and language around environmental issues is an important first step in engaging our communities in environmental decision-making."
— Community member, Puget Sound Seagrass

ENVIRONMENTAL NARRATIVE & COMMUNITY LEADERSHIP

CELEBRATING STORIES AND INVESTING IN COMMUNITY

Overview: EJ Fund

Goal: Invest in climate and environmental justice solutions that are led by and with communities overburdened by the impacts of racial, economic, and environmental injustice.

Our Priority Communities: Black, Indigenous, People of Color, immigrants, refugees, people with low incomes, youth, and elders.

2024 EJ Fund Grantee Khmer Community of Seattle King County facilitating “Know the impacts of Lead and get tested” education series with youth

Impact Highlights

Feed 7 Generations launched a school program for Indigenous youth to cultivate connections with traditional foods, Traditional Ecological Knowledge, and nature in a setting that empowers them to be environmental stewards.

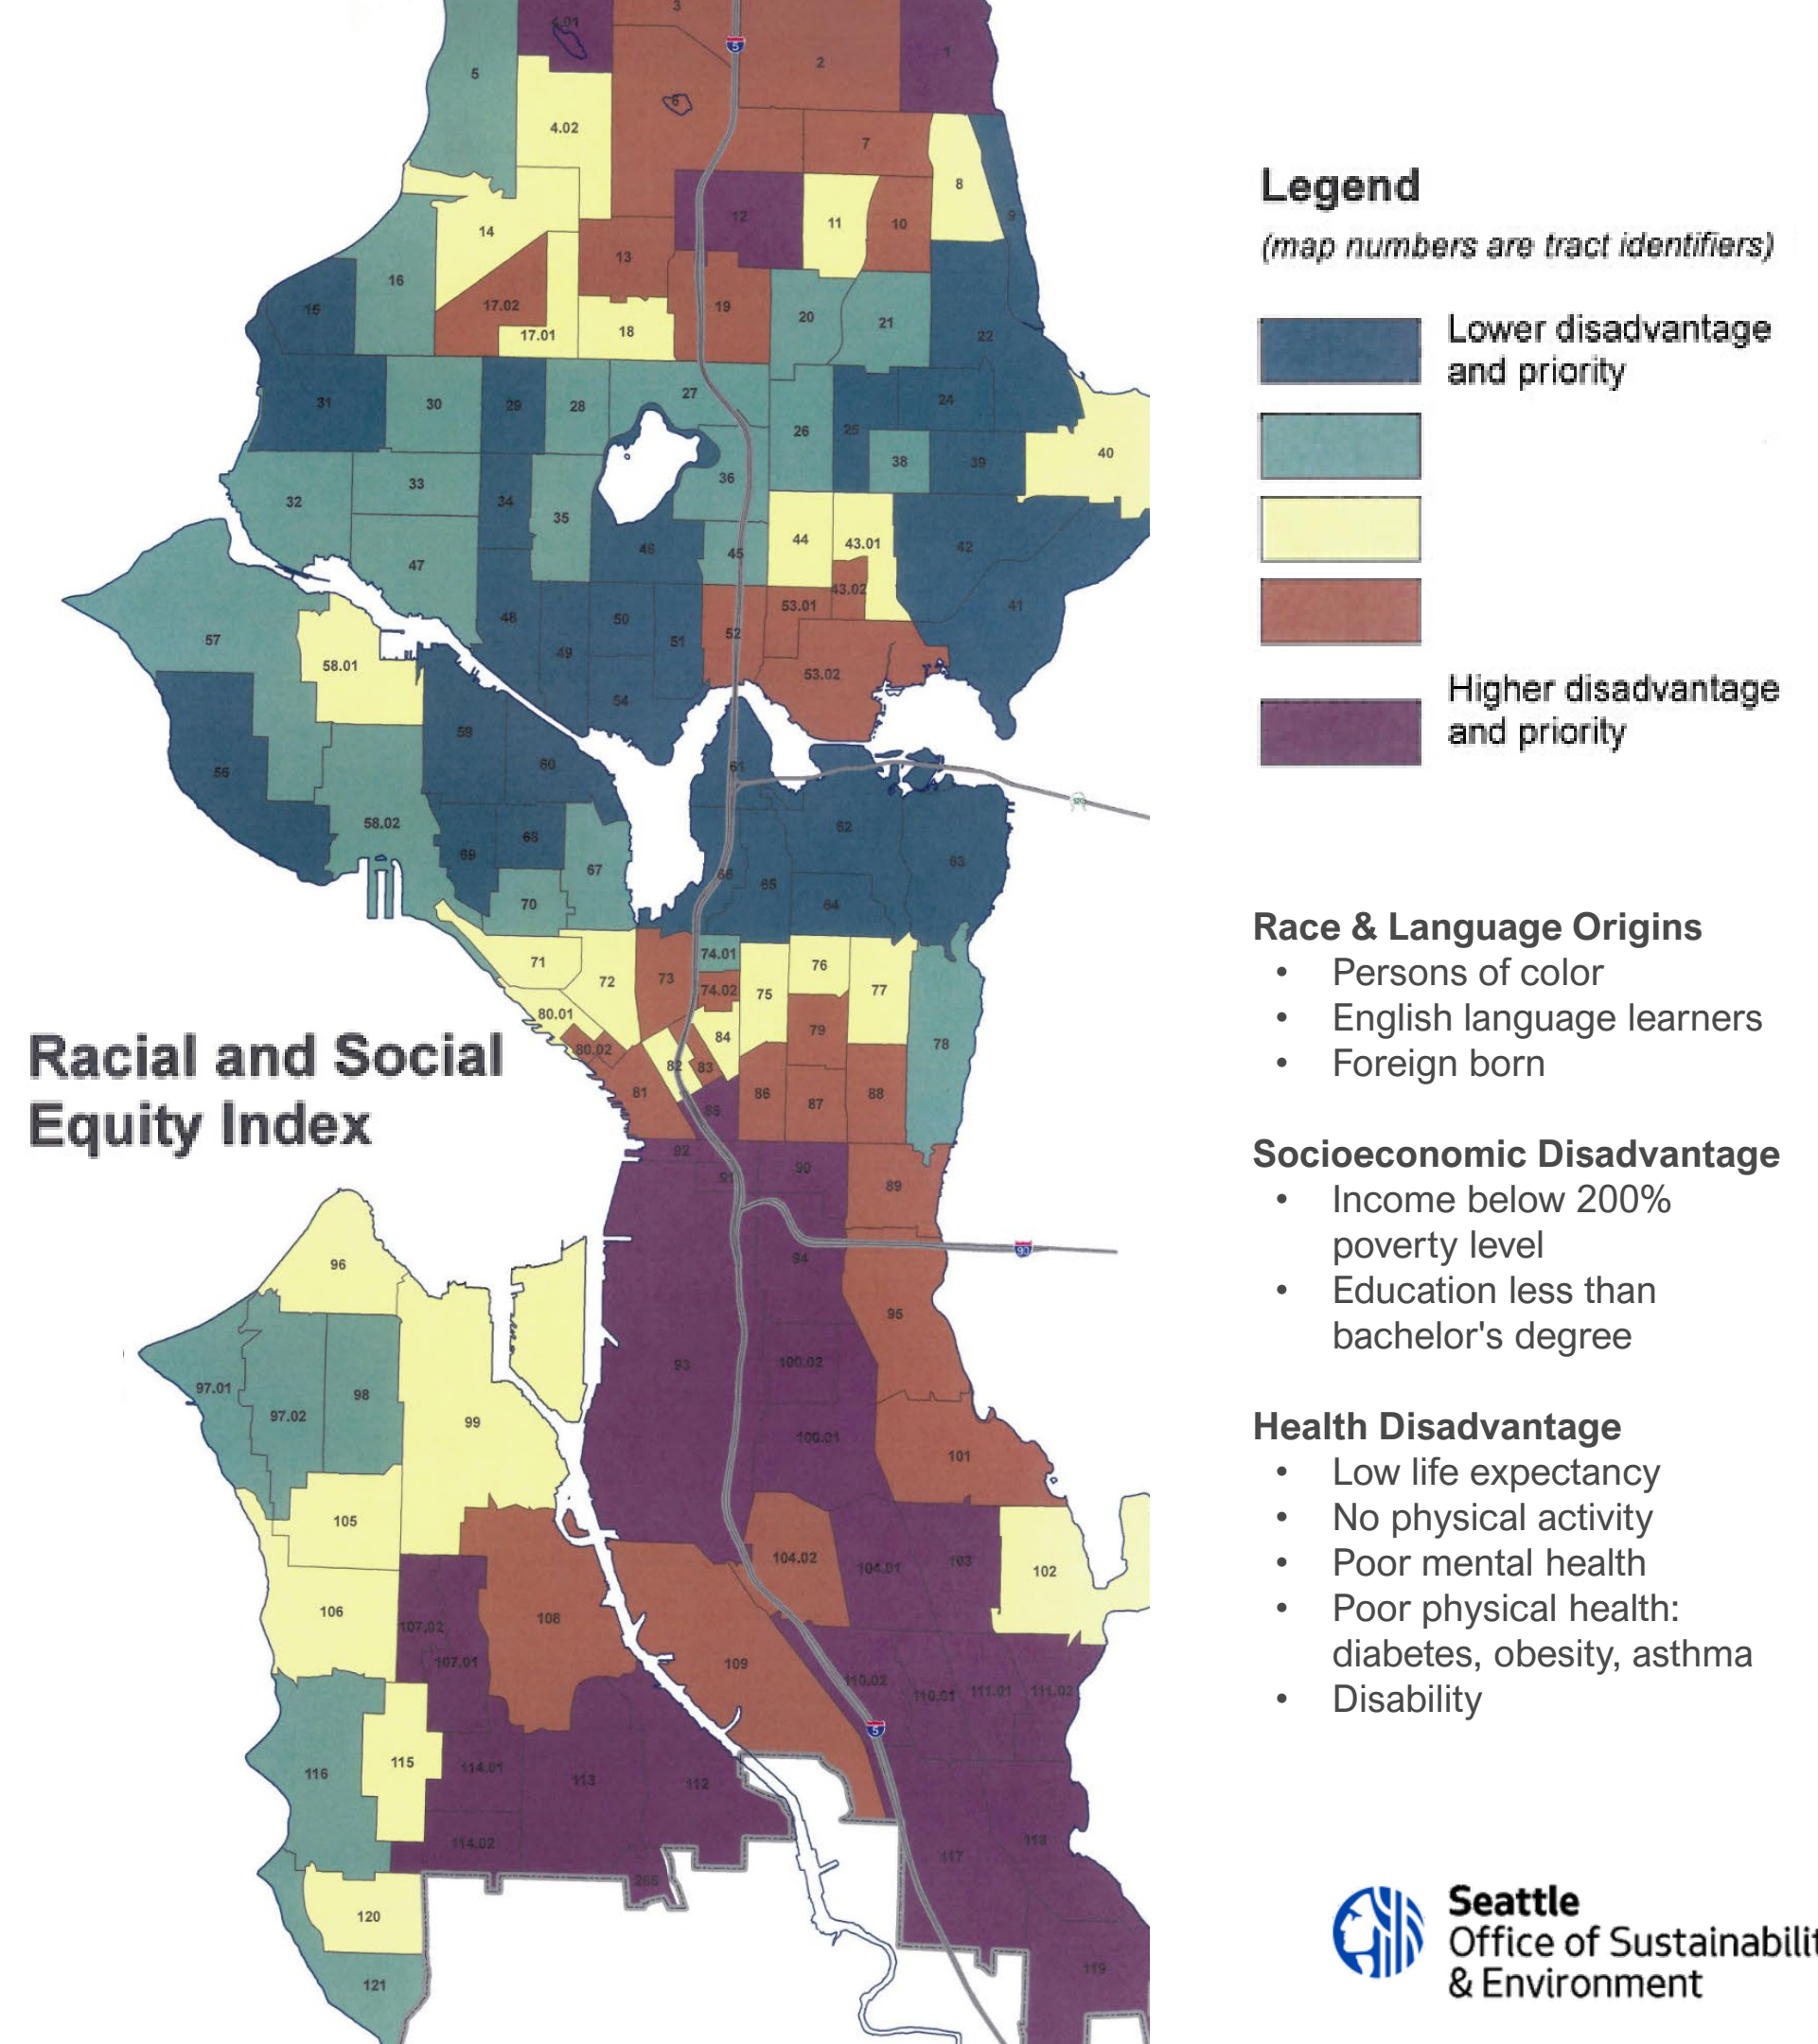

Villa Comunitaria facilitated a series to educate South Park residents on the health impacts of poor indoor air quality.

Sound Generations facilitated workshop series for East African elders about climate change and environmental justice issues while building social cohesion.

Placed-based approach

Seattle prioritizes environmental work in communities of color, low-income areas and other overburdened neighborhoods because **we close disparities when we lift everyone up.**

Guiding Goals & Strategies

Seattle
Office of Sustainability
& Environment

Centering Community

Strategies include:

- Providing technical assistance to applicants and grantees
- Soliciting and implementing feedback to improve grantmaking

“I think the biggest impact was that [the EJ Fund was] one of our early stage funding. And it was huge. I’m not sure we’d still be in existence without it because it wasn’t just the funding, it was also the support and the acknowledgement.”

— KEY TECH LABS 2019 GRANTEE

Building Trust

Strategies include:

- Adopting a relational approach
- Trusting partners' knowledge & experience
- Maintaining transparency throughout the grantmaking process

"[The EJ Fund Team] is always coming in with curiosity around what support looks like for our community, taking the time to understand that each grantee is different and has unique needs."

— **YOUNG WOMEN EMPOWERED**
2018 & 2022 GRANTEE

Growing Community Leadership

Strategies include:

- Partnering with a Community Review Team (Environmental Justice Committee)
- Strengthening organizational capacity

“My work serving on the EJ Community Review Team helped to broaden my scope in the decision-making process in selecting EJ Fund grantees.”

— **BACKPACK ACADEMY**
2021 GRANTEE

Spotlight: Environmental Justice Committee

- Opportunity to inform City investments
- Opportunity for leadership development

EJC members and EJ Fund staff gathered to provide feedback on the 2024 RFP process.

Strengthening Collaboration

Strategies include:

- Facilitating connections with City departments
- Convening Learning Circles and gatherings

“We really value the opportunity to meet with other grantees. It’s allowed us to make connections with other organizations and form partnerships that enable us to keep working toward creating community benefits.”

— DUWAMISH VALLEY

Impact Highlights

Basilica Bio builds resilience in communities most affected by environmental injustices.

“

We're a small organization and we're still early on. So it was really great that we got reassurances, guidance, and connections that supported our work. I think that's what community needs, like real support, not only financially.

– Basilica Bio

Impact Highlights

Lake City Collective is a minority-led, grassroots, non-profit organization doing advocacy-in-action work on issues that primarily affect BIPOC communities in north Seattle.

“

You can share what you're experiencing in your community in those spaces where you can have influence. Then, that opens the doors for other opportunities, such as advisory roles with other city departments.– Lake City Collective
