1. BILL SUMMARY

- a. **Legislation Title:** AN ORDINANCE relating to the drainage and wastewater system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing drainage and wastewater system; authorizing the issuance and sale of drainage and wastewater revenue bonds in one or more series for the purposes of paying part of the cost of carrying out that system or plan, providing for the reserve requirement, and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of those bonds; and ratifying and confirming certain prior acts.
- b. **Summary and background of the Legislation:**

Although the Budget, CIP, and adopted rates make specific assumptions about the use of debt financing for a certain share of the CIP, separate authorization for the issuance of bonds is technically required.

The Drainage and Wastewater bond sale is anticipated to occur in late-2018. The bond proceeds, combined with internally generated funds, will support the Drainage and Wastewater capital program for about 18 months.

The bond sizing is based on the adopted budget and rates, planned cash flow, and cash contribution targets. The bond proceeds will be used to make a deposit to the construction fund, to meet a debt service reserve requirement, and to pay costs of issuance.

The proposed issue is for \$210 million of 30-year, fixed-rate bonds. Total annual debt service is expected to be about \$14.1 million starting in 2018. SPU's adopted rates incorporate the debt service costs resulting from this bond issue.

These bonds will finance improvements to the City's drainage and wastewater system, including projects designed to meet federal and state regulatory requirements. For further information about SPU's capital projects, please see the Adopted 2018-2023 CIP.
