Background: P Xiomara (Xio) Alvarez is a designer at LMN Architects in downtown Seattle, where she works on projects that bridge between planning and architecture. In addition to project work, she co-leads the firm's resilience research group. She is interested in leveraging quantitative data about climate, geography, and the built environment with qualitative experiences and stories of neighborhoods and places to tell more complicated and nuanced stories about what it means to adapt to change. An innovative and collaborative designer, she is interested in finding resilient and sustainable ways for people to live together. She approaches her projects with an emphasis on engagement and excels at creating accessible spaces for technical and non-technical stakeholders to talk about complex problems. She is particularly passionate about youth involvement in city design processes. Xio is currently completing a one-year term on the Planning Commission as the Get Engaged member. During her short tenure on the Commission, Xio has actively contributed to the Commission's review and comment on plans, programs and policies including the Draft One Seattle Plan and Seattle Transportation Plan. As one of many young transplants to Seattle, Xio has firsthand experience in how affordability and housing instability continue to shape people's lives in the city.
