Site Context

SITE ANALYSIS SUMMARY

The following diagrams show a breakdown of the site context through various lenses, which help to inform the project on how to best arrange its program. A wide mix of building types can be seen in the vicinity, from single family housing to auto-oriented commercial properties, to low-rise and mid-rise multifamily housing. Generally, more commercial development is present to the west of the site and more residential is present to the east, putting the project in the unique position to address this zoning transition through thoughtful design.

NOTABLE BUILDINGS & PLACES

Site Context – Adjacent Redevelopment Potential

830 NE NORTHGATE WAY

July 14, 2023: Rezone and construct two (8) story mixed use buildings.

Site Context – Existing Conditions

SITE CONDITIONS

The corner of NE Northgate Way and Roosevelt Way NE presents itself as the site's primary entrance and will be the most visible and trafficked corner. An existing restaurant occupies the corner but doesn't adequately address the street-frontage, only being accessed from the adjacent interior parking lot. The same is true for the site's other existing building, an automotive repair center. Two curb cuts along NE Northgate Way are present to access these buildings, but will be removed with the new development. This will make the curb cut access from Roosevelt Way NE the site's primary vehicular access point and the shared easement the site's de facto alleyway.

Project – Site Plan

Project – Adjacencies and Transitions

A wider sidewalk and large courtyard are proposed across the adjacent low rise zone to help aid in the zoning transition. The height limit of the zones are also shown, illustrating each's developable potential.

The aerial view shown illustrates the proposed courtyard location with regards to the adjacent LR2 zone.
