1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to land use and zoning; amending Section 23.47A.012 of the Seattle Municipal Code to provide a 10-foot height limit exception in commercial zones in a portion of the Georgetown neighborhood.

Summary and Background of the Legislation:

This legislation allows a 10-foot height limit exception for development in one commercially zoned tract of land within the area commonly considered as the Georgetown neighborhood. Developments are required to meet the following building performance criteria to access the height limit exception:

- The applicant must commit to the green building standard and demonstrate compliance with that commitment;
- The development must include at least five residential stories;
- The development must include street-level uses for at least 20 percent of the street frontage at street level;
- Street level non-residential uses must have a floor-to-floor height of at least 20 feet for the 20 percent of the street frontage in street-level use; and
- Dwellings must have sound-insulating windows and air cooling and ventilation systems meeting certain requirements.

All other standards controlling the bulk and scale of development and the allowable uses are unchanged. The amendment is a text amendment only and no changes to zoning maps are required.
