Introduction

The City of Seattle and its more than 13,000 employees build and maintain infrastructure, provide utility service, support the needs of the city’s residents, and create recreational, cultural, and other enriching opportunities. In providing excellent service, these employees use and maintain dozens of city-owned properties, a fleet of vehicles ranging from fire trucks to golf carts, and equipment and facilities necessary to complete the City’s mission.

Budgeting for a large organization with many functions is a crucial and complex process. In order to produce a balanced budget the City relies upon solid forecasts incorporating items which are constantly changing (such as the price of fuel), analyzing economic activity (as it impacts tax revenues, among other budgetary components), and evaluating demand for services (from electric and water utility service, to parking meters, and access to parks/library services).

City of Seattle Budget Process

In its simplest terms, the City budget is proposed by the Mayor (Executive), checked for compliance with the law (City Attorney), and amended and passed by the City Council (Legislative) before returning to the Mayor for their approval and signature.

The City of Seattle utilizes a modified biennial (two-year) budget process in which the City Council approves funding for year one while endorsing the amounts for year two. This document presents proposed budgets for 2025 and 2026.

The budget itself is composed of two main documents: the operating budget and the capital improvement program (CIP) budget. The operating budget is primarily composed of expenditures required by the City to deliver the day-to-day array of City services. The CIP budget consists of large expenditures on infrastructure and other capital projects.

Charts summarizing the City’s budget process and organization can be found at the end of this section.

Budget Preparation

The City’s budgeting process begins early each year as departments assess needs and budget forecasters work to estimate revenues and costs. Operating budget preparation is based on the establishment of a current services or “baseline” budget. Current service levels are analyzed to determine the cost of continuing programs and services the City provided in the previous year, in addition to previous commitments that will affect costs in the next year, as well as labor agreements and changes in health care and insurance.

During this process, the Office of Economic and Revenue Forecasts (OERF), in conjunction with the City Budget Office (CBO) updates and compares the revenue forecasts utilized in the 2025-2026 proposed budget relative to current economic conditions in order to determine if the proposed biennial budget is in balance. In addition, costs to maintain current service levels are updated based on factors such as inflation and compared to the revised revenue forecast. If revenues are not sufficient to cover the cost of current services, the City must identify changes to close the gap – either through reductions or increased revenues or a combination of both. If the revenue forecast shows that additional resources are available,

Introduction & Budget Process

then the budget process identifies new or expanded programs to meet the evolving demands for City services. Regardless, the City is required by state law to prepare a balanced budget.

Annually, CBO provides guidance to departments regarding budget submissions in early spring. In early June, CBO receives departmental operating budget and CIP submittals, including all position (employee) changes. Mayoral review and evaluation of department submittals takes place through the end of August. CBO, in conjunction with individual departments, then finalizes the operating and CIP budgets.

In late September, the Mayor submits the proposed budget and CIP to the City Council. In addition to the budget documents, CBO prepares supporting legislation and other related documents.

The City Council then conducts public hearings and holds committee meetings in open session to discuss budget requests with department representatives and CBO staff. Councilmembers then recommend specific budget actions for consideration by their colleagues.

During the budget review process, the City Council may choose to explain its budget actions further by developing statements of legislative intent and budget guidance statements for future budget action. Intent statements describe the Council's expectations in making budget decisions and generally require affected departments to report back to the City Council on results.

After completing the public hearing and deliberative processes the City Council votes to adopt the budget, incorporating its desired budget changes, in late November. The Mayor can choose to approve the Council's budget, veto it, or let it become law without mayoral signature. The Mayor must veto the entire budget or none of it, as there is no line-item veto in Seattle. Copies of budget documents are available for public inspection at the CBO offices, at the Seattle Public Library, and on the Internet at <http://www.seattle.gov/budget>.

During the year, the City may have a need to change the adopted budget to respond to evolving needs. The City makes such changes through supplemental budget appropriation ordinances. A majority of the City Council may, by ordinance, eliminate, decrease, or re-appropriate any unspent appropriations during the year. The City Council, generally with a three-fourths vote, may also increase appropriations from available money to meet necessary expenditures that were not foreseeable earlier. Additional unforeseeable appropriations related to settlement of claims, emergency conditions, or laws enacted since passage of the annual operating budget ordinance require approval by a two-thirds vote of the City Council. Absent such changes, departments are legally required to stay within their annual budget appropriation.

Reader's Guide

This reader's guide describes the structure of the budget book and outlines its content. The budget book is designed to present budget information in an accessible and transparent manner – the way decision-makers consider the various proposals. It is designed to help residents, media, and City officials more easily understand and participate in the budget deliberations.

A companion document, the 2025-2030 Proposed Capital Improvement Program (CIP), identifies expenditures and fund sources associated with the development and rehabilitation of major City facilities/infrastructure, such as streets, parks, utilities, and buildings over the next six years. The CIP also shows the City's financial contribution to projects owned and operated by other jurisdictions or institutions. The CIP fulfills the budgeting and financial requirements of the Capital Facilities Element of Seattle's Comprehensive Plan by providing detailed information on the capacity impact of new and improved capital facilities.

The 2025-2026 Proposed Budget and 2025-2030 Proposed CIP can also be found online at the City Budget Office's webpage. In addition to PDF files containing the Proposed Budget and Proposed CIP, the site contains department-customized expenditures and revenues.

The 2025-2026 Proposed Budget

This document is a description of the proposed spending plan for 2025. It contains the following elements:

- **Proposed Budget Executive Summary** – A narrative describing the current economy, highlighting key factors relevant in developing the budget document, and how the document addresses the Mayor's priorities;
- **Summary Tables** – a set of tables that inventory and summarize expected revenues and spending for 2025;
- **General Fund Revenue Overview** – a narrative describing the City's General Fund revenues, or those revenues available to support general government purposes, and the factors affecting the level of resources available to support City spending;
- **Selected Financial Policies** – a description of the policies that govern the City's approach to revenue estimation, debt management, expenditure projections, maintenance of fund balances, and other financial responsibilities;
- **Departmental Budgets** – City department-level descriptions of significant policy and program changes from the 2024 Adopted Budget, the services provided, and the spending levels proposed to attain these results;
- **Appendix** – an array of supporting documents including long-range financial plans, summary of cost allocation factors for internal City services; a summary of position changes by department contained in the 2025 Proposed Budget; and a glossary.

Reader's Guide

Departmental Budget Pages: A Closer Look

The budget presentations for individual City departments (including offices, boards, and commissions) constitute the heart of this document. They are organized alphabetically within seven functional clusters:

- Arts, Culture, & Recreation;
- Education & Human Services;
- Livable and Inclusive Communities;
- Public Safety;
- Utilities, Transportation & Environment; and
- Administration.

Each cluster comprises several departments sharing a related functional focus, as shown on the organizational chart following this reader's guide. Departments are composed of one or more budget control levels, which in turn may be composed of one or more programs. Budget control levels are the level at which the City Council makes appropriations.

As indicated, the proposed budget appropriations are presented in this document by department, budget summary level, and program. At the department level, the reader will also see references to the underlying fund sources (General Fund and Other) for the department's budgeted resources. The City accounts for all of its revenues and expenditures according to a system of funds. In general, funds are established to account for specific revenues and permitted expenditures associated with those revenues. For example, the City's share of motor fuel taxes must be spent on road-related transportation activities and projects, and are accounted for in a fund in the Transportation Fund. Other revenues without statutory restrictions, such as sales and property taxes (except voter-approved property taxes), are available for general purposes and are accounted for in the City's General Fund. For many departments, such as the Seattle Department of Transportation, several funds, including the General Fund, provide the resources and account for the expenditures of the department. For several other departments, the General Fund is the sole source of available resources.

Reader's Guide

Budget Presentations

Most department-level budget presentations begin with information on how to contact the department. The department-level budget presentation then goes on to provide a general overview of the department's responsibilities and functions within City government, as well as a summary of the department's overall budget. A narrative description of the issues impacting the department's 2025-2026 Proposed Budget then follows. The next section of the department-level budget presentation provides a numerical and descriptive summary of all of the incremental budget changes included in the 2025-2026 Proposed Budget, along with a discussion of the anticipated operational and service-level changes that will result. The department-level budget presentation concludes with summary level tables that describe the department's overall expenditures and revenues by type as well as by budget control level and program. All department, budget control, and program level budget presentations include a table summarizing historical and adopted expenditures, as well as proposed appropriations for 2025-2026.

A list of all position changes proposed in the budget has been compiled in the appendix. Position modifications include eliminations, additions, reclassifications, and status changes (such as a change from part-time to full-time status), as well as adjustments to departmental head counts that result from transfers of positions between departments.

For information purposes only, an estimate of the number of staff positions to be funded under the 2025-2026 Proposed Budget appears in the departmental sections of the document at each of the three levels of detail: department, budget control, and program. These figures refer to regular, permanent staff positions (as opposed to temporary or intermittent positions) and are expressed in terms of full-time equivalent employees (FTEs). In addition to changes that occur as part of the budget document, changes may be authorized by the City Council or the Human Resources Director throughout the year, and these changes may not be reflected in the estimate of staff positions presented for 2025-2026. These changes are summarized in the appendix.

Where relevant, departmental sections include a statement of projected revenues for the years 2025 through 2026.

Budget Process Diagram

2025-2026 Proposed Budget Summary

Introduction

Mayor Bruce A. Harrell's 2025-2026 Proposed Budget is balanced and makes strategic investments in the future of Seattle within a context of continuing economic challenges stemming from high inflation and slowed growth. The proposed budget invests in actions to address our City's most urgent needs, get the basics right, and focus on our responsibilities. This budget aims to support our most vulnerable community members, and it makes investments in the Mayor's key priority areas: public safety, housing and homelessness, health, and thriving communities. These investments require greater financial flexibility and accountability as discussed below.

The City operates on a modified-biennial budget cycle, and this year the Mayor is proposing two one-year spending proposals. The proposed budget for 2025 includes approximately \$8.3 billion in appropriations overall, including \$1.9 billion in General Fund and \$520 million in JumpStart Payroll Expense Tax (payroll tax).

In the 2024 Adopted Budget, the City's General Fund – the most flexible funding source – estimated a looming projected 2025 deficit of \$251 million or about 15 percent. The projected deficit was due to a number of factors, including General Fund revenues growing slower than the rate of growth for general government costs, the end of significant one-time federal Covid relief grants, and a plan to begin using all of the Payroll Expense Tax revenues to pay for restricted purposes rather than for ongoing general government purposes.

Each year since enacting the payroll tax in 2020, the City has balanced the General Fund using a "temporary" allocation of payroll tax revenues. Each of these decisions was made for a one-year period, with the assumption that the payroll tax would no longer be used for this purpose in the following year.

The proposed budget reflects the hard choices made by the Mayor to meet the City's legal obligation to adopt a balanced budget.

- The Mayor took immediate steps to save costs, examined City services and spending holistically, favored maintaining core municipal functions over other functions, and prioritized public-facing services over internal administrative functions.
- The proposed budget makes reductions to spending, including targeted layoffs of City employees as needed to achieve a balanced budget.
- Finally, proposed structural changes to the payroll tax will allow the City to use existing revenues more flexibly. The approach is consistent with City spending commitments when it enacted the payroll tax. Actual revenues and forecasts of future payroll tax revenues are both significantly higher than earlier forecasts. The City can avoid making additional reductions to critical municipal services for those who live, work, and visit Seattle by making the "extra" payroll tax revenues available to the General Fund. The proposed budget also creates and funds a new reserve that will provide policy makers better options to respond to future changes in the inherently volatile payroll tax.

Even though it was a difficult budget year, the proposed budget was able to preserve critical public-facing programs and investments.

- We maintained public safety services the City Charter identifies as the City government’s primary obligation (police, fire, and emergency medical services).
- Overall City spending on affordable housing investments is higher than in 2024 or any other year in Seattle’s history; and overall spending on the Equitable Development Initiative also increases to the highest level ever.
- The proposed budget includes funding that avoids closing approximately 300 shelter beds at risk of closure since funding was with one-time sources such as federal Covid relief (which is no longer available).
- Similarly, there are no reductions in libraries hours, no reductions in community center hours, no reductions to community service center hours or services, no reductions to support for senior centers, and no reductions to core parks services.
- The proposed budget maintains longstanding financial policies related to General Fund reserves (Emergency Fund and Revenue Stabilization Fund) and fully funds all reserve payment obligations.

Economy and Revenue

Despite the Federal Reserve keeping interest rates high, the U.S. economy showed notable resilience and growth in the first half of 2024. Since then, the labor market has cooled, with Seattle’s employment growth, unfortunately, trailing the nation. The regional forecast projects growth of only 0.7% in 2024, down from 1.9% expected in March. At the same time, inflation has shown more satisfactory progress towards the Federal Reserve’s 2% inflation target. Paired with signs of slowing employment growth, economic forecasters now anticipate rate cuts by the Federal Reserve through the end of 2024 and beyond.

Most of the uncertainty and downside economic risks for the nation and the Puget Sound region are now tied to the path of the labor market rather than inflation. Employment growth in Seattle has been mixed with gains in some sectors largely offset by declines in the trade (tech) and information sectors. Moreover, the City continues to struggle under reduced demand for office space and elevated vacancy rates, which are affecting economic and revenue growth in the City. Current high interest rates, employees’ slow return to the office, and slowing employment growth have led to uncertainty surrounding construction and real estate activity. However, like the nation, the regional economy is still likely to avoid a recession as there is currently no expectation of overall net job loss and employment is expected to grow modestly even as hiring slows.

Despite the uncertainties, the economy and the City’s General Fund revenues are projected to grow throughout the 2025-2026 biennium, though at a slower pace than previously anticipated. The City’s August forecast projects Property, Sales and Business & Occupations tax growth for 2024 compared to 2023 actuals received at 0.7% compared to 1.1% in the April forecast. General Fund revenues without grants and internal transfers are projected to increase 1.8%, 2.3% and 4.3% year-over-year in 2024, 2025 and 2026 respectively, which is good news given falling inflation and the low likelihood of recession. More good news is that Payroll Expense tax revenues are anticipated to increase significantly year-over-year across the biennium at 28%, 6% and 5 % for 2024, 2025 and 2026 respectively. And even with the uncertain situation related to commercial building valuations due to high vacancy rates, Real Estate

Excise taxes are expected to grow from their recent low of \$47.9 million in 2023, steadily to about \$80 million in 2026.

Actions to Balance the General Fund

The Mayor took several important steps to fulfill the City's legal obligation to arrive at a balanced budget. These included early actions in 2024, a proposal to amend the payroll tax fund policies, and difficult decisions about how to reduce General Fund expenditures.

Early Actions:

Mayor Harrell took actions in early 2024 to maintain a balanced budget for the current year as well as to address the projected 2025-2026 General Fund deficit. These measures included instituting a hiring freeze on most non-public safety, civilian positions. The hiring freeze will continue through the end of 2024 and is estimated to save a total of \$75 million (\$19 million General Fund and \$56 million from other funds). The Mayor also worked cooperatively with the City's labor partners to right-size the balances in internally managed health care funds; this saved an estimated \$53.3 million (\$22.3 million General Fund and \$31.0 million other funds).

Reductions, Restructures, and Layoffs

In order to address the projected deficit, the Mayor's team examined all City spending with an eye to maintaining core services. Whenever possible, the proposed budget minimized reductions to direct services to the public. One strategy used in the proposed budget is reductions in several City grant programs that are inherently scalable while investing in areas with opportunities to leverage external grants.

Another cost saving strategy was to reduce programs and then right-sizing staffing accordingly. An example of leveraging external partnerships is seen with the Heavy-Duty Electric Truck incentives pilot in the Office of Sustainability and Environment. The pilot, launched in 2023 in the Duwamish Valley, will fund point of sale rebates for new electric trucks, buses, or vans. The goal is to incentivize deployment of electric heavy-duty vehicles while addressing cost barriers and reducing harmful diesel pollution in highly exposed communities. The pilot led to new engagement and investment from other Port of Seattle-affiliated organizations, and we expect that external partners will scale up the program with state and federal resources. Of the original \$1 million in ongoing allocation for this program, OSE will retain \$100,000 for ongoing transportation electrification policy and planning.

The proposed budget reduces (but preserves) a number of City grant programs. Those include reductions to the Neighborhood Matching Fund in the Department of Neighborhoods, the Business Outreach Education Fund and the Community Outreach Education Fund in the Office of Labor Standards, the Technology Matching Fund in the Seattle Information Technology Department, and Community Alternatives to Incarceration & Policing in the Office for Civil Rights.

The significant structural deficit in the General Fund meant that it was simply not possible to avoid reducing some programs. Those reductions resulted in proposed layoffs of some City workers. To minimize reductions that affect core services for the public, the proposed budget includes reductions to some internal services to City departments.

The proposed budget eliminates funding for 159 authorized positions. Due in part to the Mayor’s 2024 hiring freeze, more than half of those positions were not filled. However, the position reductions include 76 proposed layoffs. Nearly two-thirds (48 of 76) are in internal services departments (Seattle Information Technology Department, Human Resources Department, and the Department of Finance and Administrative Services); the work of internal service departments primarily supports the City’s “behind the scenes” business functions rather than providing services directly to the public. The next largest tranche (17 of 76) is in the Seattle Department of Construction and Inspections; there is less permit review work (and less permit fee revenues) due to a declining number of permits and changes in permitting requirements (e.g., eliminating design review for affordable housing).

In addition, the proposed budget for the Seattle Department Transportation (SDOT) assumes no ongoing revenues from a new transportation levy that will be decided on by voters in November 2024. Funding levels in the proposed budget for 2025 and 2026 are reflective of current law and expiration of the Levy to Move Seattle at the end of this year. With fewer financial resources available, SDOT’s proposed budget focuses on capital project delivery for existing work and commitments made in the levy. Less funding is available for maintenance and preservation of assets (roads, bridges, transit, pedestrian and bike facilities), and the proposed budget defers investments in innovations and system enhancements. Passage of a new levy would require major adjustments to the proposed budget that may include the restoration of programs or projects with reduced funding in this budget. If voters approve a new transportation levy in November 2024, the Executive intends to prepare a package of changes for Council to consider as amendments that could be included in the City’s adopted budget.

Payroll Tax Amendments

The proposed budget makes changes to the payroll tax that allow the City to fund its core functions and Charter responsibilities. Specifically, the proposed budget uses payroll tax to support critical General Fund obligations (like police, parks, fire, transportation, etc.), adds new payroll tax funding for youth mental health investments and youth violence interventions, and maintains consistent allocations for the original payroll tax spending categories. The proposed budget also eliminates the rigid percentages for allocating the payroll tax revenues. Finally, the changes create and fund a new reserve to blunt the impact of potential future downturns in payroll tax revenues.

When the City enacted the payroll tax, it was projected to result in \$219 million of new revenues; and it committed to spend those funds on five categories: \$136 million (62 percent) on affordable housing; \$33 million (15 percent) on economic development; \$20 million (9 percent) on the Equitable Development Initiative; \$20 million on Green New Deal investments; and \$11 million on administration of the tax.

The proposed budget spends \$520 million of payroll tax revenues in 2025. This is more than the projected forecast for 2025 of \$430 million in revenue because it also includes an additional \$90 million in one-time payroll tax revenues. Compared to the original forecast, proposed payroll tax spending is more than double the \$219 million that the City originally anticipated spending. The proposed budget increases the spending on all of the prescribed initiatives compared to this benchmark, and it uses the unanticipated ongoing and one-time payroll expense tax revenues in more flexible ways.

The proposed budget includes using the payroll tax on a broader number of priorities, including \$287 million to support General Fund spending. This leaves \$233.25 million for the original spending categories (an increase over the \$219 million from the original spending plan). The proposed budget

dedicates \$19.25 million for youth mental health and youth violence interventions (coupled with an additional \$12.5 million in the base budget of the Human Services Department for the same purposes) and then allocates the remaining \$214 million using the same percentages as the original spend plan. As described earlier, the proposed budget includes additional funding from other sources to increase overall investments in affordable housing and the Equitable Development Initiative to historically high levels.

The proposed budget also creates an important new reserve that allow the City to address inherent volatility in the payroll expense tax. Specifically, it establishes and funds an approximately \$40 million reserve that the City can tap in the event that payroll tax revenues slip below current forecasts. Tax revenues have been volatile in the few years. As noted by the Office of Economic and Revenue Forecasts, payroll tax revenues are heavily influenced by fluctuations in the stock market (since the payroll base is tied to stock performance); and volatility also naturally applies to any tax paid by a relatively small number of taxpayers.

Unanticipated or Significant Cost Pressures

Citywide Central Costs

A key component of the annual budget process is to assess the cost of providing services internally to City departments such as Information Technology, fleet and fuel, facility maintenance, financial services/payroll, and human resources. Costs to provide these services are recouped through chargebacks to other City departments. In 2025, these costs are projected to increase by \$23 million for all funds (\$21 million for the General Fund; and \$2 million, net, for other funds). These increases include Citywide costs for enterprise software licenses, cybersecurity, fleet replacement and maintenance, as well as anticipated fuel and utility costs.

Judgment and Claims

The City continues to face rising costs associated with civil claims and litigation, driven by several extraordinary, high-cost cases and a nationwide trend of increasingly expensive settlements and judgments. The increase of \$10 million General Fund in the 2025 Proposed Budget over 2024 Adopted Budget levels reflects the need to meet these higher-than-anticipated expenses.

Labor Contracts

In 2023 and 2024, the City ratified multi-year labor agreements with the Coalition of City Unions, the Seattle Police Officers Guild, and other labor partners. A large share of the City's General Fund budget is spent on labor (about 53% percent). These labor agreements therefore increased the City's cost of doing business. Nonetheless, it was critically important to get a fair labor deal for City employees. Municipal governments across the country are facing a worker shortage. It was important both to the Mayor and to Councilmembers that the City continues to provide crucial services; both the Mayor and Councilmembers also recognize that this cannot happen without work that is done by the hardworking City of Seattle employees. Our approach continues to be rooted in our values that every worker deserves a living wage and our gratitude for City employees and the service they provide to Seattle neighbors.

Mayoral Priorities

The proposed budget balanced resources in order to make new investments in four of the Mayor's priority spending areas: public safety, housing and homelessness, health, and thriving communities. The proposed budget makes significant new investments in each of these categories.

Public safety

The multi-department Unified Care Team (UCT) brings together more than a dozen City departments and partners for a coordinated, strategic, and data-driven approach to ensuring Seattle's public spaces, sidewalks, and streets remain open and accessible to all. Until this year, the UCT was funded only on weekdays. The proposed budget includes funding to expand the UCT's work to seven days a week with weekend work focused on "hot spots."

The proposed budget provides ongoing funding for programs that were started in 2024, including:

- Continued Seattle Police Department emphasis patrols where crime is concentrated to ensure that the region's center of commerce, culture, and tourism continues to be as safe and inviting as possible.
- Funding both for additional firefighter recruits and additional paramedic trainees in 2025 and 2026 to allow the Seattle Fire Department to address significant vacancies.
- The first full year of the Community Assisted Response and Engagement (CARE) Department's expanded CARE Response Teams, allowing these teams to be deployed to neighborhoods throughout the city.
- The first full year of increased pedestrian-level lighting to continue investments begun in 2024 to enhance public safety.
- Funding to pay for jail and other services related to the agreement between the City and the South Correctional Entity (SCORE). The City Council authorized that agreement by passing Ordinance [127065](#) in August 2024.

Consistent with recently enacted State laws and as provided for in negotiated labor agreements with the Seattle Police Officers Guild and the Seattle Police Management Association, the proposed budget significantly expands roles for civilians. New civilians include:

- Two existing Parking Enforcement Officers will increase the Seattle Police Department's capacity for reviewing automated traffic cameras (which will be expanded to 18 new locations around Seattle Schools). This will more than double the number of enforcement cameras in operation, bringing 37 new cameras online by the start of the 2025 school year. This expansion is intended to increase safety around Seattle schools and net revenue after expenses will be used to fund investments like sidewalks and crosswalks.
- Fourteen new investigative support staff over the biennium to assist Seattle Police Department detectives with homicide, robbery, sexual assault, and gun crime investigations by processing court filings, case files, and other urgent materials.
- Twenty-one new positions added over 2025-2026 in the Real Time Crime Center and additional CCTV cameras at specific locations that will upgrade the capabilities of the Real Time Crime

Center, triage and coordinate emergency responses, and support criminal case investigations as part of the Technology Assisted Crime Prevention Pilot Project.

Finally, the proposed budget includes funding for interventions and support for victims of human trafficking, such as providing appropriate community-based support resources and advocates for resource navigation.

Housing and Homelessness

The Office of Housing's overall proposed budget for housing of \$342 million provides the most funding for affordable housing in Seattle's history. A small reduction in support from payroll expense tax investments is more than offset by increases in other funding sources. The proposed budget increases the Office of Housing budget by \$3 million from 2024, continuing the City's investments in multifamily lending, homeownership supports, home repair and weatherization programs, asset management, and departmental administrative costs.

The proposed budget avoids all pending closures of shelter beds. Approximately 300 beds would have closed if not for new ongoing funding in the Human Services Department that backfilled one-time federal funding that stopped being available in 2024.

Health

The proposed budget includes funding for the Seattle Fire Department to expand its Mobile Integrated Health Program with the goal of increasing service delivery, expanding operational hours, and adding new lines of capacity for the team. The Seattle Fire Department will add a new Post Overdose Team (H99) to conduct patient follow up and recovery system navigation in 2025 and a new Health One unit in 2026.

Funding in the Department of Education and Early Learning (DEEL) and Seattle Parks and Recreation (SPR) continues and expands the Mayor's Youth Mental Health Investment Strategy that was implemented in 2024. This initiative includes the integration of school-based mental health counselors and culturally specific programming provided by community-based organizations. The effort is part of a broader, multi-faceted City-wide strategy aimed at addressing youth mental health needs. This strategy ensures that services are culturally responsive, community-focused, evidence-based, and guided by the needs of youth and their families.

Similarly, the proposed budget continues funding in the Human Services Department for the expansion of violence intervention programs from 2024. Collectively, and from a variety of funding sources, the City is spending significantly more than \$20 million for youth mental health and violence interventions.

The proposed budget provides ongoing funding to the Human Services Department to continue the Third Avenue / We Deliver Care pilot project to continue addressing public safety concerns along Third Avenue in the downtown core. One-time funding for the pilot project had been slated to end in 2024.

Thriving communities

The Equitable Development Initiative (EDI) continues to be an important and growing program within the Office for Planning and Community Development, serving as a key inclusive growth strategy for marginalized communities in Seattle most at risk of physical and cultural displacement. The proposed budget increases funding for EDI grants and program implementation in 2025.

The Office of Arts and Culture will continue to fund community grants for organizations and artists at the same level as in the past, complementing the County's new Doors Open funding.

The proposed budget maintains the City-imposed restriction requiring that Admissions Tax revenues be used only for arts-related investments. However, a proposed policy change would allow the Admissions Tax to support expenditures in other departments besides the Office of Arts and Culture. Accordingly, Seattle Center will shift approximately \$1 million from the General Fund to be funded with Admissions Tax revenue, specifically for the Northwest Folklife Festival, cultural administration staffing, and to fully support Festàl. Admissions Tax revenue will also fund the annual Winterfest celebration, which allows Seattle Center to redirect earned revenues to other revenue-generating purposes. SPR will shift about \$880,000 in expenses to be funded by Admissions Tax revenues to continue support for the Arts in Parks, the Teen Performing Arts , and the downtown buskers programs.

The proposed budget maintains funding for the successful Downtown Activation Plan (DAP) that began in 2023. A recent evaluation of the DAP program determined that 93 percent of the DAP activities are either complete or substantially underway. In 2025, new one-time funding is added for:

- Public space activations, public space improvements, and a centralized DAP communications strategy;
- Improvements at Westlake Park;
- Arts activations and installations;
- Supplemental services including litter removal, alley cleaning, graffiti removal, a safe walk service, and outreach to businesses; and
- Initiatives in South Downtown including adding residential capacity as well as other development in the neighborhood.

Finally, the proposed budget includes funding to stand up a new Tree Nursery program in the Seattle Public Utilities (SPU). The proposed budget adds \$680,000 (\$388,000 General Fund and \$292,000 other funds) and 1.0 FTE to SPU to establish and maintain a publicly owned tree nursery with the initial capacity of 500 trees. This effort supports Seattle's tree canopy, equity, climate resilience, and stormwater management goals.

Race and Social Justice Initiatives in the 2025-2026 Proposed Budget

Introduction

This chapter provides an overview of significant changes in the City's 2025-2026 budget that advance the [Race and Social Justice Initiative \(RSJI\)](#). The City implements additional initiatives within department base funding that are not included below in this summary of changes.

City of Seattle Race and Social Justice Initiative

There is significant evidence that the opportunities a Seattle resident can access, and the quality of life they experience, are both directly related to their race and where they live. People of color and other under-represented groups in the City of Seattle's workforce face similar issues. To address racial inequities, in 2004 Seattle became the first city in the U.S. to establish a program, the Race and Social Justice Initiative (RSJI), to explicitly eliminate institutional racism. Institutional racism exists when an organization's programs, policies, and spending work to the benefit of white people and to the detriment of people of color, usually unintentionally.

The Office for Civil Rights leads the RSJI in the City and provides support for departments and staff. As part of RSJI, the City uses a Racial Equity Toolkit to guide policy, program, and budget decision-making toward options that actively support positive racial equity outcomes. The City also uses a racial equity lens to develop a workforce that is inclusive of people of color and other marginalized or under-represented groups at all levels of City employment.

Additionally, each City department has a "Change Team" to support internal transformation. The team – consisting of a group of employees who champion RSJI activities and strengthen a department's capacity to get more employees involved – facilitates and participates in discussions on race, racism, and strategies to overcome institutional barriers to racial and social equity.

Below are examples from the City's 2025-2026 Proposed Budget illustrating how the City continues to use policies, programs, and investments to change racial equity outcomes through stronger relationships with communities; aligning policies and strategies across departments; and sharing knowledge and resources to create opportunities to integrate equity goals.

ARTS, CULTURE AND RECREATION

Office of Arts and Culture

Alleyway Activations - Visual Art Installations

\$159,969

This one-time item provides funding to activate up to six alleyways in the Chinatown, International District, and Pioneer Square neighborhoods with art installations as part of the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. ARTS will partner with community groups to determine strategies and outcomes for artworks that celebrate the culture and history of each community. These funds are appropriated in 2025 for ARTS to plan, select, and contract with involved parties with an implementation date of 2026.

Community Engagement and Cultural Inclusion Grant Program

\$530,000

This one-time item provides funding to support a grant program for community organizations to commission a series of art installations and events for communities to showcase their history and cultural diversity as part of the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. These funds are appropriated in 2025 for ARTS to plan, select, and contract with involved parties with an implementation date of 2026.

Hope Corps Activations and Installations

\$355,627

1.0 FTE

This one-time item provides funding to support the Hope Corps program as part of the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. This item supports Hope Corps activations in communities with a particular focus on the Chinatown International District, Little Saigon, King Street Station, Union Street Plaza, and Pioneer Square. These funds are appropriated in 2025 for ARTS to plan, select, and contract with involved parties with an implementation date of 2026. This iteration of Hope Corps will be staffed by a temporary ARTS employee with an expected sunset date of 12/31/2026.

Neighborhood Arts, Culture, and Festival Activations

\$494,801

This one-time item provides funding to support community celebration sites that will take place in summer of 2026 as part of the Mayor’s Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor’s plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. This item supports community activations and celebrations during the World Cup outside the downtown core through arts, culture, and festivals. These funds are appropriated in 2025 for ARTS to plan, select, and contract with involved parties with an implementation date of 2026.

Support for Challenged Arts & Culture Institutions

\$2,000,000

This item creates a one-time grant program for 2025 and 2026 only within the Office of Arts & Culture specifically designed to stabilize and support arts and cultural organizations in the city that are challenged with pandemic related deficits and have a need to stabilize their business practices. These institutions include some of the largest employers of Seattle creatives and host events, occupy city owned facilities and provide a critical, anchoring role in downtown activations. The budget includes \$2 million in each year funded with Admissions Tax.

Seattle Center

Winterfest Support

\$240,116

The 2025-2026 Proposed Budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund. The Office of Arts and Culture, Seattle Center and Seattle Parks and Recreation budgets use Admissions Tax to support arts and culture spending.

Winterfest is Seattle Center’s annual five-week festival encompassing live shows at the Seattle Armory, the Fountain of Light, and other attractions. The budget for Winterfest was substantially decreased in 2019 for General Fund savings. Seattle Center has been funding the event since 2021 using higher than projected revenues. This item reinstates budget for the event with Admissions Tax revenue.

Seattle Parks and Recreation Department

Increase to Zoo Operating Costs

\$800,000

This ongoing item adjusts the baseline budget for the Woodland Park Zoo’s operating and maintenance payments in recognition of the contractual inflationary increases required annually as part of the Master Operating Agreement with Woodland Park Zoological Society.

Expand Unified Care Team to 7 Day Coverage

\$882,822

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from 5 to 7 days per week. This item adds about \$880,000 in 2025 and \$1.1 million in 2026 ongoing which represents an increase in 6 staff to SPR, and an increase in nonlabor expenses such as disposal of materials. The added positions include two laborer teams of two, which will remove trash and hazardous items, and a Manager 1 and a Strategic Advisor 1 positions for management support and oversight.

Revitalize Westlake Plaza

\$1,391,936

This one-time item provides \$700,000 in 2025 and \$1 million in 2026 of Payroll Expense Tax proceeds to support revitalization of Westlake Plaza as part of the Mayor’s Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor’s plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. Specifically, this item funds a revitalization of Westlake Plaza which could include removal of out-of-commission fountain, stage renovation, an electrical systems upgrade, and repairs to paving and trip hazards.

Increase to Community Center Pre-Electrification Efforts

\$195,000

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item uses payroll tax funding to fund projects associated with the city’s Municipal Energy Electrification Program. This item specifically funds SPR’s Pre-Electrification Program, which supports efforts to prepare community centers for decarbonization by first shrinking energy use intensity through energy conservation interventions such as use of LEDs, advanced lighting controls, and destratification fans for air mixing.

EDUCATION AND HUMAN SERVICES

Department of Education and Early Learning

ECEAP Grant Award Increase

\$500,945

This revenue-backed item increases DEEL's appropriation from additional funds received from the state's Early Childhood Education and Assistance Program (ECEAP). This is a recurring grant and this amount provides appropriation for DEEL in 2025 and 2026.

Youth Mental Health Funding Alignment

\$13,900,000

The Mayor's Youth Mental Health Investment Strategy, announced in June 2024, includes \$15 million of Payroll Expense Tax funding in both 2025 and 2026 between the Department of Education and Early Learning and Seattle Parks and Recreation for youth mental health prevention, early intervention, and treatment. Some of these investments may shift to be levy funded in the 2026-2027 school year. This one-time item uses Payroll Expense Tax proceeds for the following initiatives:

Reach Out - \$560,000 in 2025 and 2026

This program focuses on preventing and early identification of youth mental health challenges by bridging the gap between the mental health needs of Seattle's youth and the limited availability of professional mental health resources. It also provides resources and training for parents, caregivers, and trusted adults to support youth in distress.

Telehealth Services - \$3.86 million in 2025, \$3.62 million in 2026

These services offer evidence-based online therapy for youth aged 13 to 24, along with support and resources for parents and guardians. These services include scheduled, one-on-one therapy sessions with qualified mental health professionals and interactive tools to support skill-building and individual well-being between sessions.

In Person Mental Health Supports - \$7.6 million in 2025, \$8.3 million in 2026

To expand access to mental health services, DEEL is also increasing in-person mental health support through existing School-Based Health Centers (SBHCs). Public Health Seattle King County (PHSKC) is adding an additional mental health clinician and a mental health coordinator at all SBHC sites at 21 middle and high schools, and providing system-wide mental health clinical consultation, training, and evaluation through partnerships.

In Person Community Hub. In alignment with Mental Health Supports, services include in person care to middle and high school students who are not served by School Based Health Centers. Programming will ensure that students have access to care during out of school time and during summer months. Services will also include expanding access to youth mental health care through community providers.

Universal Screening - \$1.5 million in 2025 and 2026

This service expands mental health screening in Seattle Public Schools to include high school students. Programming includes screening, brief intervention and referral to treatment and is designed to screen students periodically to proactively check-in on mental health, substance abuse and other dimensions of well-being.

Administration and Evaluation - \$380,000 in 2025, \$420,000 in 2026

This includes staffing and support to manage implementation, reporting, and evaluation of the Comprehensive Mental Health Initiative.

K-12 Sustain Educator Diversity

\$750,000

This item uses FEPP Levy fund balance to sustain K-12 Educator Diversity programming provided in partnership with Seattle Public Schools and six community-based organizations through the end of the FEPP Levy (2025-26 School Year). This partnership focuses on increasing the number of BIPOC educators in Seattle Public Schools through recruitment, retention, and professional development activities.

K-12 Sustain Summer Learning

\$1,000,000

This item uses FEPP levy fund balance to sustain Summer Learning Programming provided by 15 community-based organizations to over 1,000 students through the end of the FEPP Levy (2025-26 School Year). These funds directly support summer programming with enhanced or expanded academic, enrichment, and college and career readiness opportunities for Seattle-based K-12 youth disproportionately impacted by inequities in education including learning loss and disengagement. Learning loss and disengagement are more pronounced due to impacts of the COVID pandemic.

K-12 Sustain Youth Leadership

\$392,914

This item uses FEPP levy fund balance to sustain K-12 Youth Leadership programming provided by six partner community-based organizations through the end of the FEPP Levy (2025-26 School Year). This partnership focuses on improving academic outcomes for historically underserved youth of color, immigrant and refugee youth disproportionately affected by systemic inequities through identity-affirming cultural education programming.

Post-Secondary Sustain Path to UW

\$386,000

This item uses FEPP levy fund balance to sustain the Path to UW program through the end of the FEPP Levy (2025-26 school year). The Path to UW program provides access to transfer supports from dedicated advisors for Seattle Promise students as they continue their academic journey from Seattle Promise to the University of Washington.

Human Services Department**Community Development Block Grant (CDBG) for Homelessness Shelters**

\$3,178,870

For the 2025-2026 Proposed Budget, the administration removed CDBG funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

This item continues \$3,150,000 of CDBG for homeless shelter services. Consistent with prior years, the funding will be included in the City's contract with the King County Regional Homelessness Authority.

Expand Unified Care Team Shelter Referrals to Weekends

\$308,074

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from 5 to 7 days per week.

This item adds \$308,074 to allow for up to two shelter programs to offer extended intake hours. This would allow the UCT to be able to make referrals to shelter on weekends.

Human Trafficking Interventions

\$2,000,000

This item adds funding to provide support for victims of human trafficking, including providing appropriate community-based support resources and advocates for resource navigation.

Opioid Settlement Fund Appropriation Increase

\$209,801

This item increases the Opioid Settlement Fund appropriation in HSD by \$209,803.

It adds \$93,483 in ongoing funding for:

- Administration (\$13.5k)
- Opioid Abatement Council (\$13.5k)
- HSD staffing costs to support Health One, the Seattle Fire Department's Mobile Integrated Health response unit (\$45.5k)
- Contract inflation for Drug User Health Services (\$20.5k)

This item also adds one-time budget of \$116,318 to cover the cost of an FTE in HSD Director's Office to lead public health-related work.

The proposed budget change titled "Bargained Annual Wage and Market Wage Increases to Base Budget" central change request adds appropriation of \$47,103 in 2025 and \$62,671 of Opioid Settlement Funds. The revenue for that change is included in this item.

Ongoing Funding for the Third Avenue Project (TAP)

\$1,900,000

This item adds ongoing funding to continue the Third Avenue Project (TAP) in 2025. TAP was previously funded on a one-time basis. This program has operated since late 2022 and addresses public safety concerns in the 3rd Avenue community.

LIVABLE & INCLUSIVE COMMUNITIES
--

Department of Neighborhoods

Expand Interdepartmental Outreach and Engagement Agreements

\$381,427

This ongoing item increases expenditure budget and revenues to reflect an expansion of the Equity and Engagement Advisors (EEA) program. As part of the EEA program, the Department of Neighborhoods (DON) partners with City departments to provide outreach and engagement services on specific projects and programs. Departments reimburse DON on a per hour basis for the cost of the program. In 2024, DON provides EEA services to the Seattle Department of Transportation and Seattle Public Utilities. Beginning in 2025, DON will expand the EEA program by providing services to the Human Services Department, Seattle Parks and Recreation, and Seattle City Light. This item increases revenues to the General Fund from funds managed by these partner departments. The portion of increased revenues that exceed EEA program costs will support departmental overhead costs in DON that are currently supported by non-revenue backed General Fund budget.

Office of Economic Development

Ongoing Support for Business Community Ownership Fund

\$2,500,000

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for the Business Community Ownership Fund (BCOF) program. This program was previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the program ongoing at a reduced level. The 2024 Adopted Budget included \$3.5 million for this program. The BCOF aims to address commercial displacement, empowering small businesses with long-term affordability and ownership of their own commercial spaces to keep them rooted in Seattle neighborhoods, or provide a pathway to return to neighborhoods. This is a partnership with the Office of Economic Development and Grow America, which matches City funds dollar-for-dollar through financing and grants.

Ongoing Support for Capital Access Program

\$2,450,000

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for the Capital Access Program (CAP). This program was previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the program ongoing at a reduced level. The 2024 Adopted Budget included \$2.45 million for this program. CAP aims to empower underserved businesses by dismantling financial barriers and promoting equitable access to capital. Specifically, CAP provides subsidized financial products leveraging programs offered by Washington State and provides tailored technical support services to businesses.

Ongoing Support for Commercial Affordability Programs

\$2,431,756

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for Commercial Affordability programs. These programs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the programs ongoing at a reduced level. Specifically, this item provides \$1.5m for the Tenant Improvement Fund and \$1 million for Seattle Restored. The 2024 Adopted Budget included \$3.8 million for these programs. The Tenant Improvement Program invests in a business' infrastructure for growth and sustainability to help

businesses stay in their neighborhoods. Seattle Restored activates vacant storefronts through creativity and commerce and is scaling up a matchmaking strategy and supporting Downtown retail strategy.

Ongoing Support for Neighborhood Capacity Programs

\$2,067,705

The General Fund revenue forecast for the City’s 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for Neighborhood Capacity programs. These programs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the programs ongoing at a reduced level. The proposed budget includes \$2.5 million for Neighborhood Capacity programming including the Only in Seattle program and Business Improvement Area supports. The 2024 Adopted Budget included approximately \$5 million for these programs. This item will support business district organizational capacity to foster comprehensive placemaking and place-keeping activities, including the exploration and creation of new business improvement areas.

Ongoing Support for Technical Assistance Programs

\$800,000

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for technical assistance (TA) programs. These programs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the programs ongoing. Business TA is a fundamental component of equitable economic development, creating pathways to growth for entrepreneurs who historically have limited access to the resources and capital needed to establish, manage crisis, stabilize operations, and expand. This item will support several technical assistance programs including business operations and development consulting, digital sales access, legal assistance, and in-language business navigation consulting.

Ongoing Support for Language Access and Outreach

\$200,000

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for language access and outreach supports. These costs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the costs ongoing. This item will support equitable communication and outreach strategies for economic development programs, services, and resources provided by the City and partners.

Office of Immigrant and Refugee Affairs

CDBG Ready To Work Continuation

\$700,000

For the 2025-2026 Proposed Budget, the administration removed Community Development Block Grant funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

In OIRA, the budget provides \$700,000, an 8% increase over 2024, to support the Ready To Work (RTW) program which was created by the City of Seattle in 2015 to empower and support immigrants and refugees in overcoming barriers on their journey to economic stability, quality jobs, and integration into life in Seattle.

Office of Planning and Community Development

Increase the Equitable Development Initiative Grant Award Budget

\$1,676,839

The proposed budget allocates \$22 million in Payroll Expense Tax (payroll tax) proceeds in 2025 to the Equitable Development Initiative. This item uses payroll tax funding to increase OPCD's Equitable Development Initiative grant award budget by \$1.68 million in 2025 and another \$2.68 million in 2026. This brings total EDI payroll tax funding in the 2025 Proposed Budget to \$22,040,000, including \$608,992 for labor costs. In 2026, total EDI payroll tax funding is \$23,069,907, including \$634,723 of labor costs.

PUBLIC SAFETY

Community Assisted Response and Engagement

CARE Team Expansion

\$1,500,000

This item increases appropriation authority by \$1,500,000 in 2025 and \$3,533,832 in 2026 to support the ongoing expansion costs of the CARE team Response Teams expansion. The CARE team Response Teams have already been assisting with 911 calls through prioritization and sending the CARE team dispatching them to the incident. This expansion will allow the CARE team to offer city-wide coverage, increased hours of service of the program, and to better focus first response resources on the situations where they are most needed.

In August 2024, funding was appropriated in Ordinance 127068 for the CARE team Response Team expansion, covering the costs of facilities, vehicles, and personnel. This item makes that funding ongoing for 21 full-time positions, (9 Community Crisis Responder 1's, 9 Community Crisis Responder 2's, and 3 Community Crisis Responder Supervisors). To do this requires an additional 9 vehicles (8 Ford Explorer PIU's, 1 ADA Van), equipment such as radios, uniforms, computers, facilities, supplies for distribution, and other on-going costs. The position pockets are part of the Ongoing Changes from Current Year Legislation change request.

Seattle Fire Department

Dangerous Building Abatement

\$500,000

This item increases appropriation by \$500,000 in SFD's Fire Prevention Division for dangerous building abatement to contract with vendors to demolish or perform other related services such as installation of fencing around the property. There are more than 40 derelict and potentially unsafe buildings in Seattle that SFD is tracking. To address this issue, Seattle Fire Code legislation has been amended in 2024 to clarify the Fire Chief's authority to demolish or otherwise remedy the unsafe building conditions and seek cost recovery from the property owner. The legislation also allows SFD to place a lien against property titles to ensure Seattle taxpayers are reimbursed for the City's building abatement costs.

Seattle Police Department

Overtime for Priority Hot Spots

\$10,000,000

This item adds one-time funding in 2025 for increased overtime patrol for priority hot spots. SPD continues to experience officer staffing shortages and relies on overtime to deliver essential public safety services. This funding will support efforts to curb violent criminal behavior through proactive policing in hot spots, which are areas where crime and/or disorder is concentrated such as a street segment, an intersection, or a small cluster of blocks. The City Auditor's office published an audit report in July citing a study of Seattle that found between four and five percent of street segments accounted for 50 percent of annual reported crime incidents over a 14-year period.

Real Time Crime Center

\$2,048,467

This change increases appropriation authority by \$2M in 2025 and \$3.7M in 2026 and adds ongoing position authority for 21.0 FTE Real Time Crime Center (RTCC) Analyst positions – 12.0 FTE in 2025 and 9.0 FTE in 2026. These positions will allow the department to establish a fully staffed Real Time Crime Center. The 2024 Adopted Budget includes funding for a Closed-Circuit Television (CCTV) Crime Prevention Technology Pilot Project to leverage technological resources to address increased gun violence, human trafficking, and felony crime at specific locations where it is concentrated. This pilot program will be most successful when strategically integrated with a RTCC, which will use the information from the Crime Prevention Pilot technologies to triage and coordinate patrol/emergency responses to crime events.

Investigative Support Positions

\$1,091,333

This item increases appropriation authority by \$1.1M in 2025 and \$2.3M in 2026 and adds ongoing position authority for 7.0 FTE investigative support positions in 2025 and another 7.0 FTE in 2026. Four emergency positions were created in August 2024 with the emergency authority for these positions expiring on December 31, 2024. These positions will assist SPD Detectives with homicide, robbery, and gun crime investigations. Hiring these positions will allow SPD to expand capacity and increase support for Detectives and Officers to complete thorough, precise, and timely documentation for criminal investigations, including pulling criminal histories, requesting 911 recordings, releasing information to a prosecutor, and more.

Implement CCTV at Additional Locations

\$425,000

This item adds funding for the implementation of closed-circuit television (CCTV) cameras at additional locations where gun violence, human trafficking, or persistent felony crime is concentrated. These technology systems will only be used in public places, such as sidewalks, streets, and parks to mitigate privacy concerns.

UTILITIES AND TRANSPORTATION

Office of Sustainability and Environment

Add Climate Data Impact Analysis and Reporting Capacity

\$100,000

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item adds funding to OSE to increase departmental capacity for climate impact data analysis and reporting, including urban forestry. Funding will help OSE implement new tools to measure Seattle's progress on key climate indicators and inform citywide coordination around policies addressing climate change, energy transition, and urban forestry.

In 2025-2026, this funding will firstly address urban forestry data and reporting priorities. These projects will integrate urban forestry data and information, which is currently dispersed across multiple reports, maps, and interfaces, into a single, publicly available technology resource. This tool will better track Seattle's urban forest over time in response to changing environmental conditions and ongoing management.

Ongoing funding will also support continual climate and urban forestry data surveillance. Funding would also help maintain and enhance other Citywide climate data tools managed by OSE, such as the One Seattle Climate Portal, and will support development of new policies like the updated Seattle Climate Action Plan.

Consolidate Duwamish River Opportunity Fund and Environmental Justice Fund

\$0

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item is a budget neutral change for OSE's PET-GND funding which will consolidate the Duwamish River Opportunity Fund (DROF) and the Environmental Justice (EJ) Fund. Together with a separate item adding \$250,000 to the EJ Fund budget, this will result in a streamlined \$1,050,000 grant program serving OSE's core mission around sustainability and environmental justice

The combined Environmental Justice Fund will continue to invest in community-led projects led by and for communities disproportionately impacted by environmental issues and climate change. This budget neutral efficiency measure will streamline grantmaking led by OSE and continue to allow for investment in place-based, community-led efforts in the Duwamish Valley through the EJ Fund. Consolidation will help reduce application burdens on potential awardees -- many of whom currently apply (and receive funding from) both programs -- and help OSE more efficiently maximize existing staff capacity supporting these award processes.

Although many DROF awards currently support groups active in the climate and environmental justice space, some current awardees may be made ineligible by narrowing award criteria to these areas. OSE and the City will seek to ensure these organizations are given ample time to re-focus their grant applications and direct them towards other potential City or external awards.

Seattle City Light

Reduce Volatility in Power Supply Costs

\$1,160,447

This item adds two positions and \$1.2 million to support growth in two areas: the first is to prepare for and ensure that there is transmission system capacity to deliver additional clean electricity to the service territory as electricity demands increase due to vehicle and building electrification, and the second is to analyze and prepare for new opportunities in emergent day-ahead energy markets.

Utility Technology Roadmap

\$4,407,333

This adjustment establishes an ongoing CIP budget for the Technology Roadmap program that gradually ramps up over time to keep up with technology needs across the utility. This area of utility operations continues to grow as software updates and critical IT projects that are essential to the utility's operating and business needs (like Cybersecurity, Grid Modernization, an Enterprise Document Management) are required.

Distributed Energy Resources

\$1,680,000

This adjustment does two things: it augments program management resources to oversee an expanded portfolio of energy efficiency programs to cost-effectively meet our energy efficiency targets and provide a least-cost resource to the utility; and it provides funding for a limited scale Community Solar Program.

Georgetown Steam Plant

\$0

This item funds the repair of the entire exterior envelope at the Georgetown Steam Plant as it is the best way to ensure the concrete walls do not degrade further and increase expense. The exterior wall repair will be supervised by City Light staff, third party subject matter experts, and a design engineer to verify compliance with codes and specifications. The funding for this project begins in 2026 and total project cost is estimated to be \$12 million when complete.

Sound Transit 3

\$3,175,000

This item adds two positions and additional resources necessary to meet required timelines with the Sound Transit Light Rail Extensions. This project supports the expansion of the regional transit system by reconfiguring the City Light distribution system to accommodate Sound Transit facilities and provide electrical service to the rail extensions. It is fully revenue-backed. This request addresses the need for the addition of a dedicated team of both sunset and permanent roles to support the project ramp up and the ongoing project management.

Seattle Department of Transportation

Unified Care Team Expansion

\$1,429,588

3.00 FTE

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores access to public spaces. This item adds \$1.4 million of General Fund resources and 3.0 FTE in SDOT to expand SDOT's team to provide additional services under the UCT program. This funding will support a mix of labor costs in SDOT as well as contracted support to expand UCT-related services from 5 to 7 days a week.

Bridge Seismic Program Funding

\$4,000,000

This item adds \$4 million of Levy to Move Seattle funding to the Bridge Seismic Retrofit - Phase III program (CIP Project MC-TR-C090) in 2025 in the 2025-2030 Proposed CIP. This program contains a list of 16 seismic retrofit programs evaluated and planned through the life of the Levy to Move Seattle. Bridge seismic retrofits are typically high-cost projects that are susceptible to external cost inflation and increased costs discovered during project design. The program requires additional funding to complete the planned list of bridge seismic projects. This funding is made available by the Levy to Move Seattle Fund through levy project savings.

East Marginal Way North Segment Funding

\$4,500,000

This item adds \$4.5 million of Levy to Move Seattle funding to the East Marginal Way North Segment component of the Heavy Haul Network Program (CIP Project MC-TR-C090) in 2025 in the 2025-2030 Proposed CIP to cover a funding shortfall preventing the completion of the project. The Seattle

Department of Transportation (SDOT) is making improvements along the north segment of the corridor – between S. Atlantic St. and S. Spokane St. The improvements will reconstruct the roadway along this freight corridor to support truck loads with an expected lifetime of 50 years. The project will also construct a protected bike lane, including rebuilding the existing traffic signal at S. Hanford St. and adding a new signal at S. Horton St. to provide protected crossings for cyclists. This additional funding is necessary due to the need to relocate and modify existing rail yard track and is made available through project savings in the Levy to Move Seattle Fund.

Seattle Public Utilities

Unified Care Team Expansion

\$85,000

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from five to seven days per week.

This item adds \$85,000 GF to Seattle Public Utilities for weekend vendor-provided cleanup and solid waste disposal activities. The vendor would only perform exterior cleaning of encampments on weekends.

ADMINISTRATION

Department of Finance and Administrative Services

Waterfront Operations and Tribal Interpretive Center Adjustments

\$4,454,521

This item amends CIP Project: Waterfront Operations and Tribal Interpretive Center in the Department of Finance and Administrative Services to increase appropriation by \$4.226 million, financed by Limited Tax General Obligation (LTGO) bonds. Total appropriation also supports the anticipated debt service payment.

The Bakun Building was purchased in 2023 to be the waterfront operations office and provide a cultural space for the Muckleshoot Indian Tribe. The funds remaining after purchase do not support a design that would serve both the Seattle Center, responsible for operations of the Waterfront, and the Muckleshoot Indian Tribe's respective needs. The additional funding will address substantial alterations that are necessary for building occupancy.

The project is intended to provide dedicated space to house the staff for on-going maintenance and operations for Waterfront Park. The project also fulfills the City's permitting commitments to the Muckleshoot Tribe for construction of the Elliot Bay Seawall to provide 10,000 square feet in a building along the Waterfront for a Tribal Interpretive Center rent free in perpetuity. The Tribe has indicated that this project could fulfill the conditions of the permit agreement.

Seattle Information Technology Department

Continue the Affordable Seattle Program

\$160,000

This item increases Payroll Expense Tax funding of \$380,291 in 2025 and \$391,080 in 2026 to support the Affordable Seattle Program and CiviForm application to replace funding from CLFR funds that expire in 2024. This increase enables the Affordable Seattle Program to continue at its current staffing and program level. The Affordable Seattle Program and CiviForm application are proven to decrease the cost to live in Seattle and increase economic revitalization of the most vulnerable communities.

**General Fund (GF) transfers are reported in Finance General (Administration) to align with actual appropriations as well as totals in the General Fund Financial Plan (00100); this includes transfers to the Office of Labor Standards, Firefighter's Pension, Police Pension, Seattle Public Library, Seattle Information Technology Dept, and Finance & Administrative Services.

General Fund Revenue Overview

National Economic Conditions and Outlook

Disappointing inflation readings in the first half of 2024 compelled the Federal Reserve Bank to keep interest rates in the 5.25% to 5.50% range longer than anticipated in early 2024. The U.S. economy still continued to show resilience despite dramatic monetary tightening creating notable headwinds for consumer demand, investment, and job creation - real GDP grew 1.4% and 3.0% in the first two quarters of 2024. But the labor market has cooled as job openings have declined, job growth slowed, and the unemployment rate increased from 3.7% in January to 4.3% in July. Fed chair Jerome Powell acknowledged in his August press conference that the labor market is no longer overheated, but also that further weakening is not welcome. He has also signaled that the first interest rate cut can be expected in September, since inflation has continued to ease in the last few months and has shown more satisfactory progress towards the 2% inflation target.

The final August revenue forecast presented below, as well as the underlying regional economic forecast developed in July, are based on the national economic forecast from S&P Global released in the first week of July. These forecasts thus do not incorporate more recent information and data released after they were finalized, which changed the outlook for the timing of interest rate cuts and increased uncertainty regarding the likely path of the labor market. As shown in the figure below, S&P Global's July forecast expected job growth to slow further in 2025, and predicted essentially no job growth in 2026.

Employment growth, year-over-year % change

■ Seattle Metropolitan Division ■ United States

Seattle Metropolitan Area Economic Conditions and Outlook

Evident in the figure above, Seattle’s regional economy has lagged the performance seen at the national level since the second half of 2022. Based on the employment estimates released by the Washington State Employment Security Department in July 2024, which revised regional employment down significantly going back to October 2023, there has been little job growth since Summer 2023. The net addition of 3,900 jobs between June 2023 and June 2024 represents an increase of a mere 0.2%, and as the figure below shows, growth has been very uneven across sectors.

There are at least two significant factors that have negatively affected the region’s recent economic performance. The first is an ongoing reversal of growth in the technology sector, which has been a key driver of the region’s post-pandemic recovery as its employment grew at a rapid pace. Early evidence of a correction in the tech sector’s growth path can be seen in the second half of 2022, as announcements of hiring freezes and layoffs were accompanied by declining stock prices and in the following months layoffs became common even among the region’s largest technology employers. While these layoffs were not unique to Seattle, the technology sector has a disproportionate impact on the Seattle region, relative to the nation as whole. Based on the estimates released by the Washington State Employment Security Department in July 2024, regional employment in Trade, Information and Professional and Business Services (sectors where regional tech companies operate) declined by 24,500 since June 2022, approximately 1.4% of total regional employment. The extent to which the Trade and Information sector weighs down regional job growth is also visible in the chart below, which shows their contribution to the total change in employment over past 12 months at a combined -0.7%.

The second, and somewhat related, factor affecting the regional economy is a slow return to the office, indicating that overall economic activity in Seattle has been slow to recover as well. Jobs in the technology sector are generally remote-friendly and as a result Seattle workers have lagged the overall national trends in returning to traditional work locations. This has also led to a reduction in demand for office space and quickly rising office vacancy rates, which combined with high interest rates have resulted in a slowdown of construction activity after a decade of construction boom.

Like the nation, the regional economy is still likely to avoid a recession as there is currently no expectation of overall net job loss and employment is expected to grow modestly even as hiring slows.

However, the most recent regional economic forecast, prepared by the Office of Economic and Revenue Forecasts in July¹, projects that regional employment will grow just 0.7% in 2024, down from 1.9% expected in March. This change reflects the downward revision in year-to-date job growth in the employment estimates data released by the Washington State Employment Security Department in July, as well as their composition by industry.

Most of the uncertainty and downside economic risks are now with regard to the path of the labor market, rather than inflation. In the first half of 2024, both the national and the Seattle area inflation rates were close to the forecasts from March as inflation continued to ease, though at a slightly slower pace than in the second half of 2023. Regional inflation is still outpacing the national level. In the 12 months ending in June, the overall price level as measured by the CPI-U increased by 3.3% in the U.S. as a whole and by 4.5% in the region.

The current forecast from the Office of Economic and Revenue Forecasts anticipates that the annual regional CPI-U inflation rate for 2024 will be just 3.8%, and that in 2025 inflation will further cool to 2.8%². A softening in the regional residential rental market and slower rent growth have been key factors in recent declines, as housing represents close to 50% of the overall expenditures accounted for in CPI-U.

² <https://www.seattle.gov/economic-and-revenue-forecasts/inflation>

City Revenue

The following sections present the current forecast for revenue sources supporting the City's primary operating fund, the General Fund, its primary capital funds REET 1 and REET 2, and six select other funds – the Arts and Culture Fund, Seattle Park District Fund, Sweetened Beverage Tax Fund, the Short-Term Rental Tax Fund, the Transportation Fund, and the JumpStart Payroll Expense Tax Fund.

General Fund Revenue Forecast

Based on the weaker than expected performance of the regional economy and weaker revenue collection since the second half of 2023, overall 2024 General Fund revenues excluding Grants and Fund Balance Transfers are projected to be about \$2.9 million (0.2%) lower relative to the October forecast underlying the 2024 Adopted Budget. This is due to a lower forecast for the main economically driven revenues - Sales and Use Tax and Business and Occupation Tax were revised down by \$25.4 million (3.5%) - which was partially offset by a higher forecast for other revenues, most notably a \$16.1 million increase in the Public Utility Taxes. Further details about changes in the forecast for individual revenue streams can be found below. Including Grants and Fund Balance Transfers, the revised 2024 forecast for General Fund is \$48.4 million higher relative to the 2024 Adopted Budget forecast.

As the table below indicates, the 2025-2026 Proposed Budget anticipates \$1,934.4 million of General Fund revenues in 2025 and \$1,941.4 million in 2026. The increase from 2024 to 2025 of \$188.5 million is in large part attributable to a significant transfer from the JumpStart Payroll Expense Tax Fund to support general government programmatic and administrative needs. Excluding Grants and Fund Balance Transfers, General fund revenues are projected to grow 2.6% in 2025 and 4.3% in 2026. Revenues presented in the table below include those resulting from proposed policy changes added to the forecast since the August forecast was approved by the City's Economic and Revenue Forecast Council on August 5, 2024. These changes total \$295.4 million and \$232.3 million for 2025 and 2026, respectively. They are primarily the result of changes to Court Fines, which were increased by \$4.9 million for both 2025 and 2026, as well as the addition of programmatic transfers from the JumpStart Payroll Expense Tax Fund, which were increased by \$287 million for 2025 and \$223 million for 2026.

Property Tax. Property taxes paid in the current year are based on valuations as of January 1 of the previous year. The revenue forecasts and projected tax rates for 2025 are based on January 1, 2024 valuations. Over the course of the year, the King County Assessor conducts the research and appraisals needed to retroactively determine those valuations. Assessed values declined over the last few years due to the high-interest rate environment, the uncertainty of the long-term demand of office space, and a cooling residential market. But with the expectations of interest rate cuts later this year, which will boost the housing market, residential assessed values are now expected to grow, mitigating the continued challenges in the commercial real estate sector. However, the construction sector continues to grapple with high costs and rising office vacancy rates that are likely to prevail for an extended period of time. As a result, new construction is projected to decline through 2026, with growth resuming in 2027. The 2025-26 Proposed Budget forecasts modest growth in the general expense property tax in the next two years, anticipating \$324.8 million in revenue in 2025 and \$326.0 million in 2026.

Medic 1/Emergency Medical Services. This county-wide property tax is levied by King County. Conceptually, the City of Seattle receives a distribution of the proceeds equal to the county-wide tax rate multiplied by the City's assessed value (AV). The county-wide tax rate is based on the approved annual Medic 1/EMS levy amount divided by total King County AV. Thus, the tax rate will increase or decrease respectively when King County AV shrinks or grows faster than the rate of growth of the levy amount. The City's share will, in turn, grow or shrink with the tax rate and whether City AV growth is sufficient to outpace any changes resulting from King County AV changes. The 2025-2026 Proposed Budget includes a decrease of \$2.4 million for 2025 relative to the 2024 Adopted Budget, due to the effect of faster King County AV growth and the resulting decrease in the tax rate outweighing the growth in City AV in 2024 and 2025. Revenues in 2026 increase sharply by approximately \$18.5 million to \$83.3 million from \$64.7 million projected for 2025, due to assumptions about the initial levy rate from the Medic 1/EMS levy renewal vote scheduled for the fall of 2025. Although still in the process of approval, this forecast assumes a rate of \$0.265 per \$1,000 of assessed value.

Sales and Use Tax. Consistent with the weak performance of the regional economy and notable declines in revenues from construction and trade sectors that started in late 2023, the revised forecast anticipates essentially no growth in sales tax revenues between 2023 and 2024, thus reducing the 2024 sales tax revenues by \$15.5 million compared to the 2024 Adopted Budget forecast. This is expected to be followed by a modest 2.5% and 2.9% sales tax revenue growth in 2025 and 2026, as interest rates decline gradually and demand recovers.

Business and Occupation (B&O) Tax. Similar to the sales tax, Seattle's weak economic performance is expected to weigh on B&O tax revenues as well. But while sales tax and B&O tax in general tend to move together, the tax base for B&O tax is more diversified, with smaller shares taken up by the construction and trade sectors. Consequently, B&O revenues are expected to show slightly stronger performance since the decline in the construction sector has created a larger drag on sales tax growth. Compared to the forecast from last fall, the revised forecast reduces 2024 B&O revenues by \$9.9 million to \$358.3 million. B&O tax is then projected to generate \$379.9 million in 2025 and \$404.3 million in 2026.

Utility Business Tax – Private Utilities. This revenue category includes taxes on cable television, telephone service, natural gas, and the central steam heat services provided in the downtown core. The overall forecast for this revenue category remains unchanged as the underlying revenue streams had slight, offsetting revisions. Natural gas and steam have seen positive upward changes due to a recent pattern of growth but are negated by continued declines in cable and telephone tax revenues. A

decline was initially predicted as consumers switched to different modes of communication and entertainment, but recent data suggest that these tax revenues have not yet “bottomed out”.

Utility Business Tax – Public Utilities. The City levies a tax on most revenue from retail sales collected by City-owned utilities (Seattle City Light and Seattle Public Utilities). Tax rates range from a State-capped 6% on City Light up to a current 15.54% on the City Water utility. The current forecast revises 2024 revenues upward by \$16.1 million compared to the Adopted, half of which is a result of a shift in accounting of water and electric tax revenues from 2023 to 2024. The 2025-26 Proposed Budget estimates total public utility revenues at \$214.9 million for 2025 and \$222.6 million for 2026.

Transportation Network Company Tax. In November 2019, Council approved a tax on transportation network companies (TNC), such as Uber and Lyft, effective July 1, 2020. As approved, the tax of \$0.57 per trip is owed for all rides originating in Seattle by TNC’s with more than 1 million rides per calendar quarter. Council reduced the ride threshold to 200,000 rides per quarter effective October 2020, and then, per state law, the tax rate to \$0.42 per trip effective January 1, 2023. At the start of the COVID-19 pandemic, the demand for rides and the number of drivers plummeted, dramatically reducing TNC tax revenue. Since this pandemic low, the recovery of both demand and supply has been anemic. The 2025-26 Proposed Budget assumes \$5.7 million in 2025 and \$5.8 million in 2026.

Parking Meters. Revenue from on-street parking meters is forecast to be \$35.4 million in 2024 and \$37.4 million in 2025, a year-over-year increase of \$2 million or 5.6%. However, the 2025 forecast represents a drop of \$1.8 million (-4.7%) relative to the 2024 Adopted budget. The year-over-year increase is due mostly to rate changes that the Seattle Department of Transportation implements 3-4 times per year with rates determined by its Performance-Based Parking Program model which sets rates to achieve 1-2 open spaces per block face. Also contributing to rising revenues is the increased minimum and maximum allowable parking rates, approved with the 2024 Adopted Budget, which took effect March 2024. That change increased the minimum rate from \$0.50 to \$1 and the maximum from \$5 to \$8. The reduction in 2025 projected revenues relative to the 2024 Adopted Budget reflects lower than assumed increases in 2024 from rate changes compared to recent years and lowered expectations for future rate increases.

Court Fines. The City imposes and collects fines and related fees on various citations, primarily on-street parking tickets and camera-enforced red-light violations. Relative to the 2024 Adopted budget, the 2025 Proposed budget assumes a decrease of \$1.9 million in revenue in 2025 and \$2.4 million in 2026. The reduction is mostly attributable to parking and red-light camera citations being lower in 2024 than previously expected and estimates of future volumes being adjusted accordingly. Expected volumes for certain traffic violations have also been revised downward based on recent totals. However, relative to the August forecast approved by the City’s Economic and Revenue Forecast Council, the 2025 Proposed budget includes a proposal to increase parking citation fine amounts, which would add a projected \$4.9 million to these revenues in 2025. Those rates have not changed since 2011 and the proposal would bring them closer to inflation adjusted levels and to rates in similar U.S. cities. For more details, see the Seattle Municipal Court section of the budget.

Grant Revenues. Federal, State and local grant revenues can change significantly with the passage of time as departments learn of new grant opportunities and applications are successful. Importantly, grant revenues are by their nature and purpose matched dollar-for-dollar with expenditures across the life of the grant. As such, grants are not providing additional discretionary revenues for allocation

through the budget process. The 2025-26 Proposed Budget contains an expected \$14.7 million of grant revenues in both years.

Fund Balance Transfers. Fund balance transfers in the 2025-26 Proposed Budget total \$296.9 million in 2025 and \$233.4 million in 2026, the majority of which are transfers from the Payroll Expense Tax Fund to support programmatic and administrative expenses. For further explanation of the transfer and uses of the payroll expense tax, please see the Budget Overview section of this budget book.

Service Charges and Reimbursements. This category includes revenues to recover the costs for services within city government and revenues generated from legal and personnel services. The total revenues expected in the 2025-26 Proposed Budget of \$82.1 million in 2025 and \$85.6 million in 2026 reflect a continued rise in the overall cost of service provision.

Licenses and Permits. The City requires all businesses operating in Seattle to have a business license. The cost of these licenses increases with the business' revenues. The current forecast shows a notable \$4 million decline in revenues from 2023 Actuals to the 2024 Revised forecast, primarily due to a significant shift in payments from 2022 to 2023. In particular, an atypically large share of payments made at the end of 2022 was fully processed and accounted for only in early 2023, which increased 2023 totals. For 2024, business license revenues were revised up \$1.8 million compared to the 2024 Adopted Budget forecast. The current forecast anticipates 2025 and 2026 revenues to be \$20.8 million and \$21.3 million, respectively.

Interest Income. The City receives interest earnings on its cash holdings. Increases in earnings rates have led to revised 2024 increase projections of approximately \$1.4 million to \$19.1 million from \$17.7 million in the 2024 Adopted Budget. Cash balances remain elevated, but are projected to decline gradually throughout 2024-2026. Earnings rates are projected to remain relatively flat across the biennium. The resultant forecast is for modest declines in interest earnings relative to the revised 2024 forecast, but still higher than assumed in the 2024 Adopted.

Non-General Fund Revenues of Note

In addition to forecasts of General Fund revenues, the Forecast Office and the City Budget Office track and forecast various other revenues that are accounted for in separate funds and that support general government purposes.

REET 1 and REET 2 Capital Funds – Real Estate Excise Tax (REET).

REET revenues are generated by a combined 0.5% tax on all real estate transactions. The sharp increase in interest rates, induced by the Federal Reserve’s monetary tightening that started in 2022, has restricted the supply of homes for sale due to the mortgage rate lock-in effect and a significantly increased overall cost of borrowing, thus negatively impacting the volume of both residential and commercial real estate transactions. In addition, the slow return to the office has created a great deal of uncertainty about the value of commercial office space. This uncertainty has further dampened the sales of large office properties, which had previously represented a notable share of REET revenues. REET revenues declined 47.6% in 2023 and the recovery is expected to take several years. Nevertheless, there were nine real estate transactions with sales price above \$50 million in the first half of 2024, which contributed about \$5 million to the REET collection. As a result, the REET forecast for 2024 has been increased from \$52.3 million to \$57.2 million. The Federal Reserve is expected to start cutting interest rates in the second half of 2024, which will lower borrowing costs, improve the demand for mortgages and at least partially alleviate the interest rate lock-in effect. For 2025 and 2026, the forecast anticipates \$63.9 million and \$80.2 million, respectively.

Arts and Culture Fund - Admission Tax.

Relative to the forecast from last October, anticipated admission tax revenues have increased by \$1.9 million for 2024 to \$26.3 million. This adjustment reflects an overall increase in the demand for entertainment activities, attributable to both residents and tourists. This increased demand also increases the total projected revenues for 2025 and 2026 to \$27 million and \$27.8 million, respectively.

Seattle Park District Fund – Property Tax Levy.

In August 2014, voters approved creation of a Metropolitan Park District (MPD). Pursuant to RCW 35.61, the MPD is a legally separate taxing jurisdiction from the City of Seattle, whose property tax levy authority of \$0.75 per \$1,000 assessed value is outside of the City’s statutory rate limit of \$3.60 per \$1,000 assessed value and whose revenues will not be accounted for in the City’s General Fund. The MPD is levying \$127.4 million in 2025 and \$131.2 million in 2026 in line with the adopted six-year spending plan.

Sweetened Beverage Tax Fund.

The Sweetened Beverage Tax is a tax of 1.75 cents per ounce of sweetened beverages or the equivalent for condensed syrups distributed into the City of Seattle. Consumption patterns and volumes changed during the COVID-19 restrictions reducing revenues. Although not completely returned to 2019 pre-COVID consumption and revenue levels (\$24.1 million), consumption and revenues have grown from the 2020 low of \$15.6 million to a plateau of approximately \$21 million over 2021-2023. The 2025-2026 Proposed Budget further anticipates revenues of \$21.3 and \$21.7 million in 2025 and 2026 respectively. These are essentially flat from the 2024 Adopted Budget of \$21.2 million.

Short-Term Rental Tax Fund.

Effective January 1, 2019, the State legislature authorized the public facilities district that is the Washington State Trade and Convention Center to impose a 7% tax on the sale of or charge made for the furnishing of lodging (including but not limited to any short-term rental). Beginning in 2020 these revenues and associated expenditures were moved from the General Fund to the Short-Term Rental Tax Fund in the City's accounting system. These revenues were severely affected by the reduction in travel due to COVID-19 concerns in 2020 and 2021 but have since rebounded, surpassing 2019 collections, and are currently expected to grow at a steady pace, reflecting the strength of the hospitality sector. The 2025-26 Proposed Budget anticipates \$11.8 million in 2025 and \$12.4 million in 2026.

Transportation Fund - Commercial Parking Tax.

Commercial parking tax revenues continue a robust recovery from the effects of the COVID-19 pandemic, buoyed by a rate increase of 2 percentage points from 12.5% to 14.5% that took effect July 2022. However, year-over-year growth is expected to slow given the signs of a cooling economy. The 2025-26 Proposed Budget anticipates \$54.0 million in 2025 and \$54.6 million in 2026.

JumpStart Payroll Expense Tax Fund.

For 2024, the City's Payroll Expense tax applies to those businesses with a total 2023 payroll expense in Seattle of at least \$8,511,281 and one or more employees with a 2024 annual compensation of at least \$182,385. Specific tax rates vary with the level of individual employee's compensation and a company's total Seattle payroll³. The Payroll Expense Tax was first imposed in 2021, with the first payments made in January 2022. Total 2021 tax obligations were approximately \$293 million, falling to \$253 million in 2022, then rising to \$313 million in 2023. The revised forecast for 2024 is \$404.4 million, \$78.7 million higher than the 2024 Adopted Budget forecast. The 2025-2026 Proposed Budget anticipates \$430.0 million in 2025 and \$451.5 million in 2026.

Though the City's experience with this tax is limited, it suggests that the payroll expense tax will be more volatile year to year and also more complicated to forecast than other similarly sized revenues streams (property tax, sales tax, and business and occupation tax) for several reasons. About 70% of the revenues from this tax are paid by only 10 companies and most of them are in the technology sector. The sharp drop in tax obligations in 2022 was associated with a slowdown in this sector, accompanied by layoffs and falling stock values, which negatively affect payroll tax revenues since stock grants represent a notable share of total compensation for technology workers.

As a result, the stock market outlook rather than the outlook for employment growth is a main driver of the upward revision in the revenue forecast for 2024 through 2026. The strong bounce back of stock prices in 2023 and an improved stock market outlook for 2024 are anticipated to more than offset the effect of ongoing tech sector job losses on payroll expense tax revenues. As a prime example, while Amazon continues to expand on the Eastside, it was reported that the company's headcount within Seattle city limits dropped by about 10,000 employees (17%) between the peak in 2020 and early 2024. However, based on the predictions of Wall Street analysts from late July, Amazon's stock price is expected to grow on average 52.1% in 2024 and 20.4% in 2025, after declining 24.6% in 2022 and 3.7% in 2023. The volatility due to the dependence of the tax base on stock price movements will remain an important risk going forward. In addition, given that total payroll expense tax revenues are significantly

³ Initial tax rates varied from 0.7% to 2.4%, starting from 2024 tax year they increased by approximately a factor of 1.065 and range from 0.746% to 2.557%. For more details see <https://www.seattle.gov/city-finance/business-taxes-and-licenses/seattle-taxes/payroll-expense-tax>.

affected by business decisions made by a small number of companies, rising office vacancy rates and the negative incentive effects of Initiative 137 also pose large risks in the coming years.

Multi-Department Revenue Summary

Payroll Expense Tax

The 2025-2026 Proposed Budget includes \$520.3 million in appropriation backed by \$430 million in forecasted Payroll Expense Tax revenues and an additional \$90.3 million in one-time Payroll Tax fund balance resulting from a combination of underspend and revenues exceeding forecasts in prior years.

Of this amount, the proposed budget allocates \$85 million in one-time fund balance to support general government expenses in the General Fund. The proposed budget allocates an additional \$202 million of anticipated 2025 revenues for the same purpose, for a total allocation of \$287 million in Payroll Tax support for the General Fund in 2025. The proposed budget allocates \$223 million in anticipated 2026 revenues to support general government expenses in the General Fund in 2026.

The proposed budget also sets aside \$48.7 million in planning reserves in 2025, including a revenue stabilization reserve equivalent to 10% of forecasted 2025 revenues. The Executive proposes this reserve due to the continued volatility of Payroll Expense Tax revenues.

Of the remaining \$233.3 million in Payroll Tax proceeds appropriated in the proposed budget, \$15 million per year in 2025 and 2026 is allocated to the Department of Education and Early Learning and to the Department of Parks and Recreation for programming to support youth mental health. In addition, the payroll tax supports \$4.25 million in the Human Services Department in 2025 to pay for youth violence prevention programs. The proposed budget continues this investment in youth violence prevention in 2026 in the General Fund.

After General Fund transfers and investments in youth mental health and violence prevention, the proposed budget allocates \$214 million in 2025 and \$224 million in 2026 to support programming in the five spending categories of the Payroll Expense Tax spending plan outlined in Section 5.38.055 of the Seattle Municipal Code, which is amended in companion legislation transmitted by the Executive concurrently with the 2025-2026 Proposed Budget.

This includes:

Housing and Services: The proposed budget includes \$133 million in payroll tax-backed investments in 2025 for affordable housing for low-income households, representing 62 percent of Payroll Tax program spending after transfers to the General Fund and investments in youth mental health and violence prevention. This funding will support the Office of Housing's work to develop, acquire, preserve, and operate affordable housing and foster affordable homeownership opportunities, and to support the ongoing operations and maintenance needs of affordable housing providers. The proposed budget will also support approximately \$1.8 million per year in 2025 and 2026 for the Department of Construction and Inspections to provide tenant assistance for eviction prevention.

Economic Development: The proposed budget includes \$31.1 million in 2025 in payroll tax-backed investments spread across ten City departments to support a wide range of economic development and affordability programs. This amount represents 15 percent of Payroll Tax program spending after transfers to the General Fund and investments in youth mental health

and violence prevention. Of this amount, \$19.9 million is allocated to the Office of Economic Development to continue leading implementation of the Mayor's Downtown Activation Plan and OED's Future of Seattle's Economy Plan, which was supported by the City Council in Resolution 32099. Additional payroll tax-backed allocations will support investments in the Mayor's Downtown Activation Plan by Seattle Parks and Recreation and Seattle Center. The proposed budget also sets aside a reserve in Finance General for costs related to hosting the 2026 FIFA World Cup. The proposed budget includes \$1 million over the biennium for the Department and Finance and Administrative services for technology investments to support the expansion of OED's work with Business Improvement Areas. The proposed budget includes over \$1m in each year to support an affordability program in the Information Technology Department, as well as economic opportunity investments in the Office of Immigrant and Refugee Affairs and the Human Services Department. In addition, the proposed budget includes \$350,000 to conduct additional environmental review related to proposed zoning changes within existing Regional and Urban Centers to allow more height and development capacity for housing.

Green New Deal: The proposed budget includes \$18.3 million in 2025 for payroll tax-backed investments in the Seattle Green New Deal, which aims to make Seattle carbon neutral by 2050. This funding amount represents 9 percent of payroll tax program spending after transfers to the General Fund and investments in youth mental health and violence prevention and allows the city to continue the bulk of ongoing Green New Deal (GND) initiatives from the 2023 and 2024 Adopted Budgets. The proposed budget includes full funding at OSE for the Building Emissions and Performance Standards (BEPS) program and the Clean Buildings Accelerator, which provides technical assistance and funding for low-income building owners to comply with BEPS and new state energy code requirements. Continued funding at OSE and other departments such as Office of Housing and Finance and Administrative Services will also support electrification and energy retrofits for homes, municipal buildings, transportation electrification, EV charging infrastructure, and urban forestry. To reduce transportation-related emissions, GND funds will also support Seattle Transit 3 (ST3) staffing to oversee and support project delivery in Seattle. Payroll tax supported GND funding is leveraged with additional federal and state grants for climate initiatives. In 2024, over \$35 million in external funding was awarded to the City of Seattle, with more awards anticipated.

Equitable Development Initiative: The proposed budget includes \$22 million in 2025 in payroll tax-backed investment in the Equitable Development Initiative (EDI) grants, program implementation and staffing costs in the Office of Planning and Community Development. This amount represents 10 percent of payroll tax program spending after transfers to the General Fund and investments in youth mental health and violence prevention. EDI invests in neighborhoods most impacted by displacement and low access to economic opportunities and aims to expand opportunity, prevent displacement, and build on local cultural assets. The proposed budget provides a total of \$28.3 million for EDI grants and program implementation, including contributions coming from the Payroll Expense Tax and Short-Term Rental Tax.

Administration and Evaluation: The proposed budget includes \$9.6 million in 2025 to support the administration of the payroll tax and the evaluation of the programs funded by its proceeds. This amount represents 4% of payroll tax program spending after transfers to the General Fund

and investments in youth mental health and violence prevention, and is shown in the budget as a transfer from the Payroll Tax Fund to the General Fund in Finance General. This amount covers specific costs related to administering the payroll tax in the Department of Finance and Administrative Services and City Finance, as well as increased staffing levels in the Department of Human Resources, City Budget Office and the Legislative department added in prior budgets. This transfer also covers administrative costs to the General Fund that are not captured through a formal allocation formula.

Department	Program Area	2025 Allocation (\$)	2026 Allocation (\$)

Sweetened Beverage Tax

Revenues declined in 2024 compared to forecast and continue to decline over the 2025-2026 biennium (about \$1 million per year). Use of SBT fund balance allows for a small increase in 2025 for labor settlements and contract inflation costs. While the 2026 budget maintains funding for Fresh Bucks and Healthy Food in Schools and for Parks programming, several departments will be implementing an 8% reductions. Reductions are made to the Department of Education and Early Learning's Developmental Bridge Contract, ParentChild+ Contract, and the Child Care Health Program. The Department of Neighborhoods' Food Equity Fund (FEF) will support 3-5 fewer awards each year for community-led projects. Human Services Department funding for produce bags for in-home family childcare providers (aka Farm to Child Care pilot) will be eliminated.

Short-Term Rental Tax

Ordinance 125872 and state law restrict the use of Short –Term Rental Tax (STRT) for equitable development and affordable housing. The proposed budget allocates \$6.2 million to the Office of Planning and Community Development (OPCD) for Equitable Development Initiative (EDI) grants to outside organizations, program implementation, and EDI staffing costs; \$3.86 million to the Human Services Department for permanent supportive housing, and \$2 million to debt service. The EDI was established in 2016 to provide investments in neighborhoods that support those most impacted by displacement and low access to opportunity. The program's objectives include advancement of economic opportunity and wealth-building strategies, preventing displacement, and building on local cultural assets.

Transportation Network Company (TNC) Tax

The 2025-2026 Proposed Budget projects \$5.7 million in 2025 and \$5.8 million in 2026 from the Transportation Network Company (TNC) tax. The TNC Tax began collecting revenue in 2021 and has seen a slower rebound of users and a reduction in revenue due to the creation of a state led Transportation Network Company tax. Washington State Engrossed Substitute House Bill 2076 creates a state level Transportation Network Company tax and preempts the City from enforcing the TNC Driver Minimum Compensation and TNC Driver Deactivation Rights Ordinances starting on January 1, 2023. ESHB 2076 also reduces the per trip fee from \$0.57/trip to \$0.42/trip effective January 1, 2023.

The previously passed Spending Resolution 31914 outlined how the proceeds of the TNC Tax were to be spent, which includes the 2023 preempted components. The Proposed Budget includes temporary modifications to the spending resolution for the 2025-2026 biennium. The Department of Finance and Administrative Services (FAS) is responsible for the accounting, collection, and enforcement of the tax and is appropriated \$350,000 in 2025. The remainder of the TNC Tax revenue will be used to make investments in transportation, including transit, and to support other City General Fund activities.

Admissions Tax

Over the 2025-2026 Biennium, the admissions tax is projected to generate \$30.8 million to support City arts and culture programs. Admissions tax revenue supports grants for arts and cultural organization, cultural facilities, grants for individual artists as well as other investments to support the arts community in the City. The Proposed Budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. It also includes legislation to broaden the uses of Admissions Tax to support arts and culture investments throughout city departments. The Office of Arts and Culture, Seattle Center and Seattle Parks and Recreation budgets use Admissions Tax to support arts and culture spending.

City Fiscal Reserve Funds

The State of Washington permits the City to maintain two financial reserves to draw upon in the event of certain unanticipated expenditure or revenue pressures.

Emergency Fund

Under the authority of RCW 35.32A.060, the City maintains the Emergency Fund (EMF) of the General Fund. The EMF is the principal reserve for the City to draw upon when certain unanticipated expenses occur during the fiscal year. Eligible expenses include costs related to storms or other natural disasters. State law limits the amount of money the City can set aside in this reserve to 37.5 cents per \$1,000 of assessed value of property within the city.

Prior to 2017, the City's practice was to fully fund the emergency reserve to this maximum limit. In 2017, the City modified the existing financial policies for the EMF to establish a minimum balance of \$60 million, and to adjust that target balance each year with the rate of inflation. This policy struck a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs. In 2022, the City updated its financial policies to define a process for rebuilding the EMF reserve following a significant drawdown of funds, requiring that the EMF be replenished to its target balance within a period of five years.

During the COVID-19 pandemic and related economic downturn, the City withdrew \$31.3 million from the EMF over two years, reducing the reserve balance to \$33.7 million at the end of 2021. The 2022 Adopted Budget initiated the five-year rebuilding cycle by contributing \$10 million to the EMF. In 2023 a total of \$15 million was transferred to the fund and the 2024 Adopted Budget funded a contribution of \$14.2 million. The 2025-2026 Proposed Budget assumes contributions of \$12.7 million in 2025 and \$2.4 million in 2026 to complete replenishing the reserve target balance¹ of \$88 million within the prescribed five-year timespan.

Revenue Stabilization Fund

Under the authority of RCW 35.21.070, the City maintains a second financial reserve called the Revenue Stabilization Fund (RSF), also known as the "Rainy Day" Fund. The RSF provides resources for the City to draw upon to maintain City services in the event of a sudden, unanticipated shortfall in revenue due to economic downturns or other factors. City code limits the balance of this reserve to five percent of General Fund tax receipts. Ordinance 123743 requires the City to deposit an amount equivalent to 0.5% of General Fund tax revenues into the RSF, with some limited exceptions. In addition, City policy requires the deposit of 50% of any unplanned year-end fund balance in the General Fund into the RSF. The RSF has a fund balance cap equal to five percent of total annual General Fund tax revenue.

In 2011, following the Great Recession of 2009 and 2010, the City adopted significant RSF funding enhancements via Ordinance 123743, including the required annual deposit of 0.5% of General Fund tax revenues into the RSF. The new policies facilitated the rebuilding of this reserve fund from a low of \$10.5 million in 2010 to \$60.8 million by 2020. Additionally, the policies specified that contributions to the fund are suspended when tax revenues decline and are reduced to 0.25% in the following year.

During the COVID-19 pandemic and related economic downturn, the City withdrew \$54.7 million from the RSF, reducing the reserve balance to \$6.0 million at the end of 2021. The 2022 Adopted Budget called for a \$15.4 million contribution to the RSF as part of a multi-year strategy to rebuild the fund balance to 5% of total annual General Fund tax revenue. However, the 2021 year-end fund balance in the General Fund generated a \$55.7 million mid-year deposit during 2022, which funded the RSF to its cap. Since 2023, the budget has funded the incremental amount necessary to maintain the RSF at the statutory cap. The 2025-2026 Proposed Budget includes

¹ 2026 anticipated target balance calculated using CPI-U 12 Months Ending June from the August 2024 Revenue Forecast.

\$1.1 million in 2025 and \$3.0 million in 2026 in contributions to the RSF, bringing the total RSF reserves to \$72 million in 2026.

City Bond Issuance and Debt Service

In addition to cash resources, the City also uses bonds and property tax levies to fund a variety of capital improvement projects. The City's budget must include funds to pay interest and principal on outstanding and proposed bonds. The City has issued three types of debt to finance its capital improvement programs: unlimited tax general obligation bonds, limited tax general obligation bonds and revenue bonds.

Unlimited Tax General Obligation Bonds

The City may issue Unlimited Tax General Obligation (UTGO) Bonds for capital purposes if a proposition authorizing their issuance is approved by 60% of the voters in an election in which the number of voters exceeds 40% of the voters in the most recent general election. Payment of principal and interest is backed by the "full faith and credit" of the City. This means that the City commits itself to include in its property tax levy an amount that is sufficient to pay principal and interest on the bonds. Property taxes levied to pay debt service on UTGO bonds are not subject to the statutory limits in state law on the taxing authority of local governments, which is why UTGO bonds are "unlimited" (see the "Property Tax" section of the "Revenue Overview" for a description of statutory limits on property tax rates and growth). However, state law does limit the amount of UTGO bonds that can be outstanding at any time to 7.5% of assessed valuation of property in the city: 2.5% for open space and park facilities, 2.5% for utility purposes, and 2.5% for general purposes. As of December 31, 2023, there were approximately \$221.0 million in UTGO bonds outstanding.

Limited Tax General Obligation Bonds

The City Council may authorize the issuance of Limited Tax General Obligation (LTGO) Bonds, also known as Councilmanic bonds, in an amount up to 1.5% of assessed valuation, without a vote of the people. The City pledges its full faith and credit to the payment of principal and interest on LTGO bonds, but this pledge must be fulfilled within the City's statutory property tax limitations. Thus, these are "limited" general obligation bonds. The combination of UTGO bonds issued for general purposes and LTGO bonds cannot exceed 2.5% of assessed property valuation. If LTGO bonds are issued up to the 1.5% ceiling, then UTGO bonds for general purposes are limited to 1% of assessed value.

The City also guarantees debt issued by the Seattle Indian Services Commission and the Museum Development Authority. As of December 31, 2023, the guarantees totaled \$25.89 million in addition to approximately \$715.4 million in LTGO bonds outstanding. Guarantees count against the City's LTGO debt capacity.

Revenue Bonds

Revenue bonds are used to provide financing for the capital programs of City Light and the three other utilities - Water, Drainage and Wastewater, and Solid Waste - which are grouped together in Seattle Public Utilities. The City does not pledge its full faith and credit to the payment of debt service on revenue bonds. Payment of principal and interest on the bonds issued by each utility is derived solely from the revenues generated by the issuing utility. No tax revenues are used to pay debt service.

When revenue bonds are sold, the City commits itself to set fees and charges for the issuing utility that will be sufficient to pay all costs of operations and maintenance, and all payments of principal and interest on the bonds. While the amount of revenue bonds is not subject to statutory limits, the utility's ability to repay debt with interest is a practical constraint.

Forms of Debt Authorized by State Law

Table 1 below summarizes the conditions and limitations that apply to the issuance of the general obligation debt issued by the City.

Table 1: Summary of Conditions and Limitations for City Debt Issuances

Form of Debt	Voter Approval Required	Source of Repayment	Statutory Limitation	Current Limit ¹	Total Debt Outstanding 12-31-23 ¹
Unlimited Tax General Obligation Bonds (UTGO)					
Parks & Open Space	Yes	Property Tax	2.5% of AV	\$7.5 Billion	\$0
Utility	Yes	Property Tax	2.5% of AV	\$7.5 Billion	\$0
General Purposes	Yes	Property Tax	1.0 % of AV ²	\$3.0 Billion	\$221 Million
Limited Tax General Obligation Bonds (LTGO)					
	No	Taxes & Other Revenues	1.5% of AV ²	\$4.5 Billion	\$715 Million ³

¹ As of 12/31/23, assuming the latest certified assessed value of \$301.2 billion, issued on February 1, 2024 for taxes payable in 2024.

² The sum of UTGO and LTGO debt for general purposes cannot exceed 2.5% of assessed valuation.

³ Includes \$25.89 million of PDA debt guarantees.

City Debt Management Policies and Bond Ratings

The use of debt financing by the City is subject to federal and state laws as well as the City's own debt management policies ([Resolution 31553](#)).

The City has earned very high ratings on its bonds as a result of a strong economy and prudent financial practices. The City's UTGO debt is rated Aaa by Moody's Investors Service (Moody's), AAA by Fitch IBCA (Fitch), and AAA by Standard & Poor's (S&P), which are the highest possible ratings. The City's LTGO debt is also rated Aaa by Moody's, AAA by Fitch, and AAA by S&P. In addition, the City's utilities have very high ratings for revenue debt, reflecting sound finances and good management.

2025 Projected Bond Issues

In 2025, the City is authorized to issue approximately \$61.8 million of limited tax general obligation (LTGO) bonds for a variety of purposes. Table 2 lists the financed projects and other details of the financing plan. Bond proceeds will be deposited into the 2025 Tax Exempt and Taxable (if applicable) Multipurpose Bond Funds. City departments responsible for all or portions of projects listed in Table 2 will then draw money from the fund(s) as appropriated to implement the projects. The appropriation authority for spending these bond funds is included in the respective departments' sections of this budget.

Table 2: 2025 Multipurpose LTGO Bond Issuance Costs - Informational Only (\$1,000s)

<i>Project</i>	Capital Cost	Approx. Par Amount (1)	Max. Term	Approx. Rate	Debt Service Adopted 2025	Debt Service Estimated 2026	Debt Service Funding Source

Total	63,438	65,341			3,205	8,178	

(1) Includes 3% for costs of issuance and pricing adjustments.

Table 3: 2025 Multipurpose LTGO Fund Issuance Costs - Informational Only (\$1,000s)

Approximate Par Amount	Issuance Costs & Pricing Adjustments	Approximate 2025 Issuance Cost
\$63,438	3%	\$1,903

2025 Debt Service

In 2025, debt service associated with outstanding LTGO bond issues as well as the planned 2025 bond issuances is expected to be approximately \$121 million. Appropriation authority for debt service costs is included in the respective departments' sections of this budget. The Debt Service Appendix lists debt service amounts by paying fund.

Selected Financial Policies

Through a series of Resolutions and Ordinances, the City has adopted several financial policies that are designed to protect the City's financial interests and provide a framework and guidelines for the City's financial practices. For additional information about these policies, please refer to the City of Seattle website: http://www.seattle.gov/financedepartment/financial_policies.htm.

Budgetary Basis

- The City budgets on a modified accrual basis. Property taxes, sales taxes, business and occupation taxes, and other taxpayer-assessed revenues due for the current year are considered measurable and available as revenues, even though a portion of the taxes may be collected in the subsequent year. Licenses, fines, penalties, and miscellaneous revenues are recorded as revenues when they are received in cash since this is when they can be accurately measured. Investment earnings are accrued as earned.
- Expenditures are considered a liability when they are incurred. Interest on long-term debt, judgments and claims, workers' compensation, and compensated absences are considered a liability when they are paid.

Appropriations and Execution

- The budget generally makes appropriations for operating expenses at the budget control level within departments, unless the expenditure is from one of the General Fund reserve accounts, or is for a specific project or activity budgeted in the General Fund category called Finance General. These projects and activities are budgeted individually.
- Capital projects programmed in the CIP are appropriated in the budget at the program or project level. Grant-funded activities are controlled as prescribed by law and federal or state regulations.
- Within the legally adopted budget authorizations, more detailed allocations, as approved by CBO, are recorded in the City's accounting system, called PeopleSoft, at the lowest levels of each department's organizational structure and in detailed expenditure accounts. Throughout the budget year, CBO monitors revenue and spending performance against the budget to protect the financial stability of the City.
- In accordance with Washington state law, any unexpended appropriations for operating or ordinary maintenance expenditures automatically lapse at the close of the fiscal year, except for any appropriation continued by ordinance. Unexpended appropriations for capital outlays remaining at the close of the fiscal year are carried forward to the following year, except for any appropriation abandoned by ordinance.

Budget Transfers

The Budget Director may approve, without ordinance, appropriation transfers within a department or agency of up to 10%, and with no more than \$500,000 of the appropriation authority for the particular budget control level or, where appropriate, line item, being increased. In addition, no transfers can reduce the appropriation authority of a budget control level by more than 25%.

Selected Financial Policies

Debt Policies

- The City of Seattle seeks to maintain the highest possible credit ratings for all categories of short- and long-term General Obligation debt that can be achieved without compromising delivery of basic City services and achievement of adopted City policy objectives.
- The City will reserve \$100 million of legal limited tax (councilmanic) general obligation debt capacity, or 12% of the total legal limit, whichever is larger, for emergencies. The 12% reserve is now significantly greater than \$100 million.
- Except in emergencies, net debt service paid from the General Fund will not exceed 9% of the total General Fund budget. In the long run, the City will seek to keep net debt service at 7% or less of the General Fund budget.

General Fund - Fund Balance and Reserve Policies

- State law allows the City to maintain an emergency reserve at a maximum statutory-authorized level of 37.5 cents per \$1,000 of assessed property value in the city. The City's previous practice had been to fully fund the emergency reserve to this maximum limit. However, over the past several years assessed values have undergone significant growth and are expected to continue at a rate that far outpaces the projected City's revenue growth rate. In 2017 the City modified the existing financial policies for the Emergency Subfund (ESF) to establish a minimum balance of \$60 million, and to adjust that level each year with the rate of inflation. This implies that the ESF would continue to grow, but at somewhat lower rate than under the previous policy. This policy change strikes a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs.
- Annual contributions of 0.50% of forecasted tax revenues are automatically made to the Revenue Stabilization Fund (commonly referred to as the "Rainy Day Fund" or RSF).¹ In addition, 50% of any unanticipated excess General Fund fund balance at year's end is automatically contributed to the Revenue Stabilization Fund. These automatic contributions are temporarily suspended when the forecasted nominal tax growth rate is negative or when the total value of the RSF exceeds 5% of total tax revenues. In addition to the automatic contributions, the City may also make contributions to the RSF via ordinance. Expenditures from the RSF require the approval of a majority of the members of the Seattle City Council and must be informed by the evaluation of out-year financial projections.

Other Citywide Policies

- As part of the Mayor's budget proposal, the Executive develops a revenue estimate that is based on the best available economic data and forecasts.
- The City intends to adopt rates, fees, and cost allocation charges no more often than biennially. The rate, fee, or allocation charge structures may include changes to take effect at specified dates during or beyond the biennium. Other changes may still be needed in the case of emergencies or other unanticipated events.

¹ The 0.50% contribution is lowered to 0.25% of forecasted tax revenues for any year immediately following the suspension of contributions as a result of negative nominal tax revenue growth.

Selected Financial Policies

- In general, the City will strive to pay for general government current operating expenditures with current revenues, but may use fund balance or other resources to meet these expenditures. Revenues and expenditures will be monitored throughout the year.
- In compliance with State law, no City fund whose purpose is restricted by state or local law shall be used for purposes outside of these restrictions.
- Working capital for the General Fund and operating funds should be maintained at sufficient levels so that timing lags between revenues and expenditures are normally covered without any fund incurring negative cash balances for greater than 90 days. Exceptions to this policy are permitted with prior approval by the City Council.

Office of Arts and Culture

Gülgün Kayim, Director

(206) 684-7171

<http://www.seattle.gov/arts/>

Department Overview

The Office of Arts & Culture (ARTS) builds and strengthens community resilience through investments in arts and culture that support artists and cultural institutions in the city. The Office promotes Seattle as a cultural destination and invests in Seattle's creative sector to ensure a wide range of high-quality programs, exhibits, and public art are provided throughout the city. In alignment with the City's Race and Social Justice Initiative (RSJI), ARTS seeks solutions that use race and social justice strategies to drive our investments. Racial equity is central to ARTS and is incorporated into department policies, procedures, and practices. ARTS's program investments are centered around five key program areas: Cultural Investments, Creative Youth, Cultural Space programs, Art and Cultural Facilities programs, and Public Art. The Office is supported by the 16-member volunteer Seattle Arts Commission appointed by the Mayor and City Council who provide recommendations on the needs of the city's creative sector.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

Full-Time Equivalents Total*	41.34	41.34	43.75	43.75

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The 2025-2026 Proposed Budget maintains support for core ARTS programs including Arts and Cultural Grants and Education programs, Langston Hughes Performing Arts Center, King Street Station Gallery, Public Art, and Cultural Space. The budget also includes adjustments to labor budgets for bargained salary increases.

The proposed budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. It also includes legislation to broaden the uses of Admissions Tax to support arts and culture investments throughout city departments. The Office of Arts and Culture, Seattle Center and Seattle Parks and Recreation budgets use Admissions Tax to support arts and culture spending.

The proposed budget adds \$2.5 million one-time for Downtown Activation Plan initiatives that support several arts activations that showcase the cultural significance of downtown Seattle neighborhoods and highlight the talent of local artists. The budget also funds a continuation of the Hope Corps program and implements a new grant program

Office of Arts and Culture

for community organizations to highlight their history and cultural diversity. Hope Corps fosters post-pandemic economic recovery by connecting under- and unemployed artists with job opportunities across Seattle.

Additionally, the proposed budget includes \$2 million in 2025 and 2026 for challenged arts and culture institutions in Seattle. These funds will help stabilize some of Seattle's most historic and largest arts institutions as they adapt to a post-pandemic economic landscape while continuing to employ a large share of creatives and fuel downtown recovery.

The proposed budget also identifies efficiencies in ARTS' budget and redirects funding from these administrative reductions to more immediate needs such as a technical grant position to help operate the software used to manage ARTS grant programs.

Office of Arts and Culture

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$747,529

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$121,421

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Increase For Insurance Requirements at Langston Hughes Performing Arts Institute

Expenditures \$12,000

This item increases funding to support higher programming costs for Langston and CD Forum, two community-based organizations that provide programming at the Langston Hughes Performing Arts Institute. These higher programming costs stem from changes by Finance and Administrative Services (FAS) around insurance requirements.

King Street Station Rent Increase

Expenditures \$16,800

This item increases funding to cover the rental rate increase for the King Street Station facility. ARTS leases the King Street Station space from the Seattle Department of Transportation and the terms of this rental agreement are set in the Partnership Agreement Between Seattle Department of Transportation and Office of Arts & Culture.

Langston Hughes Staffing Alignment

Expenditures \$56,132

Position Allocation 0.41

This item increases the position pocket for the Events Booking Rep position which supports the Langston Hughes Performing Arts Institute from 0.59 to 1.0 FTE. This change aligns the position pocket size with ongoing and long-standing business needs. The position provides front desk customer service for the building and is available during business hours, is the liaison with the non-profit partners working in the space to respond to questions and resolve issues, and books and coordinates all rentals of the facility.

Office of Arts and Culture

Maintenance for ARTS at Denny Substation

Expenditures	\$80,800
Position Allocation	0.50

This item adds a 0.5 FTE Maintenance Laborer and basic equipment budget to ARTS to support the anticipated facilities needs of activating Denny Substation. The use of this position is to provide support to Denny and actual maintenance costs will be reimbursed by Seattle City Light (SCL) based on a Memorandum of Understanding between the two departments wherein ARTS manages SCL's Denny Power Station location and uses it for arts and community programming.

Reversal of 2024 One-Time Budget Adds

Expenditures	\$(4,878,952)
Revenues	\$(5,005,093)

This is a technical change to remove one-time budget adds from the baseline budget. The adjustments include removing \$650,000 in bridge funding for arts organizations, \$1,000,000 for downtown activations, \$1,000,000 for Hope Corps, \$763,952 for Folklife and Festal, \$150,000 for ARTS website redesign, \$20,000 for Latino Community Films, \$150,000 for African Cultural and Arts Center, \$250,000 for Chinese American Legacy Artwork, \$100,000 for Bumbershoot Workforce Development Program, \$100,000 for ARTS strategic planning, \$20,000 for African American Experience in Nordic Countries exhibit at the National Nordic Museum, and \$675,000 for Interbay neighborhood activations.

Proposed Operating

Eliminate Creative Economy Position

Expenditures	\$(81,366)
Position Allocation	(0.50)

This item removes position authority for a 0.5 FTE Arts Program Spec, BU position and related labor costs. The position provides capacity in the Partnerships, Education and Grants team but has been vacant in recent years. ARTS is continuing to support the creative economy through its Hope Corps program, cultural space work, and other collaborations with the Office of Economic Development.

Reduce ARTS Communications Budget for Events

Expenditures	\$(30,000)
--------------	------------

This item reduces the ARTS Communications budget for supporting and promoting events in Seattle. Since the pandemic, ARTS has shifted away from putting on events and instead focuses on promotion, media, and storytelling. This item reduces the ARTS Communications budget for reoccurring events in line with that shift in operations.

Reduce Funding for Staff Training and Professional Development

Expenditures	\$(35,000)
--------------	------------

This item reduces the budget for training and professional development for ARTS staff. ARTS will absorb costs for any training and professional development needs in their existing budget.

Office of Arts and Culture

Support for Challenged Arts & Culture Institutions

Expenditures \$2,000,000

This item creates a one-time grant program for 2025 and 2026 only within the Office of Arts & Culture specifically designed to stabilize and support arts and cultural organizations in the city that are challenged with pandemic related deficits and have a need to stabilize their business practices. The budget includes \$2 million in each year funded with Admissions Tax.

Technical Support for Grant Management Systems

Expenditures \$184,703

Position Allocation 1.00

This item adds one Strategic Advisor 1 position to ARTS budget to provide ongoing technical support of ARTS grant management systems. The technical expertise needed to operate, test, troubleshoot, and build out grant applications in the grant management systems is complex and the body of work cannot be managed with current staffing. ARTS is the heaviest user of the Fluxx grant management system across the City of Seattle. This position will also provide technical support and leadership for operations projects that improve office efficiencies and information systems and be the liaison between IT and ARTS on IT-related issues.

Union and King Street Station Plaza Visual Art installations and Performance Events

Expenditures \$794,801

This one-time item provides funding to support activation of the interior of Union Station and King Street Station. This item supports activations such as celebrations, market space, a music venue, a cooling station, lighting and digital artwork to revitalize and celebrate the culture and history of these places for residents and visitors to our city. These funds are appropriated in 2025 for ARTS to plan, select, and contract with involved parties with an implementation date of 2026.

Alleyway Activations - Visual Art Installations

Expenditures \$159,969

This one-time item provides funding to activate up to six alleyways in the Chinatown, International District, and Pioneer Square neighborhoods with art installations. ARTS will partner with community groups to determine strategies and outcomes for artworks that celebrate the culture and history of each community. These funds are appropriated in 2025 for ARTS to plan, select, and contract with involved parties with an implementation date of 2026.

Community Engagement and Cultural Inclusion Grant Program

Expenditures \$530,000

This one-time item provides funding to support a grant program for community organizations to commission a series of art installations and events for communities to showcase their history and cultural diversity. These funds are appropriated in 2025 for ARTS to plan, select, and contract with involved parties with an implementation date of 2026.

Hope Corps Activations and Installations

Office of Arts and Culture

Expenditures	\$355,627
Position Allocation	1.00

This one-time item provides funding to support the Hope Corps program. This item supports Hope Corps activations in communities with a particular focus on the Chinatown International District, Little Saigon, King Street Station, Union Street Plaza, and Pioneer Square. These funds are appropriated in 2025 for ARTS to plan, select, and contract with involved parties with an implementation date of 2026. This iteration of Hope Corps will be staffed by a temporary ARTS employee with an expected sunset date of 12/31/2026.

Neighborhood Arts, Culture, and Festival Activations

Expenditures	\$494,801
--------------	-----------

This one-time item provides funding to support community celebration sites that will take place in summer of 2026. This item supports community activations and celebrations during the World Cup outside the downtown core through arts, culture, and festivals. These funds are appropriated in 2025 for ARTS to plan, select, and contract with involved parties with an implementation date of 2026.

Visual Arts Installation at Benaroya Hall

Expenditures	\$194,801
--------------	-----------

This one-time item provides funding to support arts-centered interventions and activations along 3rd Avenue. This item supports creating points of interest along the 3rd Ave corridor, activating the route between Benaroya Hall and King Street Station Plaza with art installations. These funds are appropriated in 2025 for ARTS to plan, select, and contract with involved parties with an implementation date of 2026.

Proposed Technical

Arts Revenue Adjustments

Revenues	\$(503,234)
----------	-------------

This item adjusts revenues in the Arts and Culture Fund (12400) to reflect changes in anticipated interest earnings and the Municipal Art Fund (12010) to reflect the anticipated amount of 1% for the Arts funds collected from capital departments.

Event Management Software Subscription

Expenditures	\$18,355
--------------	----------

This item increases funding to pay ongoing costs for an event booking software for two cultural facilities, Langston Hughes Performing Arts Institute (LHPAI) and ARTS at King Street Station (KSS). The software will allow ARTS to book events electronically and accept payments by credit or debit cards increasing the rentability and usability of the space.

Final Adjustments for Standard Cost Changes

Expenditures	\$(49,295)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Fund Balancing Entries

Office of Arts and Culture

Revenues \$6,798,465

This is a technical item to record a fund balancing entry for the 12400 Arts and Culture Fund and 12010 Municipal Arts Fund, which are primarily managed by this department.

Ongoing Changes from Current Year Legislation

Expenditures -

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

Technical Adjustment to ARTS Communications

Expenditures \$(28,641)

Position Allocation -

This item makes several technical adjustments in the ARTS communications team. It corrects a position classification from a part-time PR Supervisor (0.5 FTE) to a full-time PR Specialist, Sr and abrogates a vacant 0.5 FTE Events Booking Rep, Sr. This technical adjustment will align ARTS' operations and budget in communications.

Transfer Art Maintenance Appropriation from Municipal Art Fund to Arts and Culture Fund

Expenditures -

This item moves appropriation authority for maintenance of the City of Seattle's artwork collection from the Municipal Art Fund (12010) to the Arts and Culture Fund (12400) to provide stable funding to maintain and conserve artwork over its lifetime. The Municipal Art Fund does not have the flexibility to be used to maintain artworks that have been acquired for departments that do not regularly have capital projects.

Seattle Parks and Recreation

AP Diaz, Superintendent

(206) 684-4075

<http://www.seattle.gov/parks/>

Department Overview

Seattle Parks and Recreation (SPR) equips employees and the public for well-being, supporting healthy people, a thriving environment and vibrant community. SPR provides safe and accessible spaces for residents and visitors to work, recreate, rejuvenate and enhance quality of life and wellness for children, teenagers, adults and seniors. SPR manages a [6,400+ acre park system of nearly 500 parks](#) and extensive natural areas. SPR provides athletic fields, tennis courts, play areas, specialty gardens, and more than 25 miles of boulevards and 120 miles of trails. The system comprises about 12% of the city's land area. SPR also manages many facilities, including 26 [community centers](#), eight [indoor swimming pools](#), two [outdoor \(summer\) swimming pools](#), three [environmental education centers](#), two [small craft centers](#), four [golf courses](#), an outdoor stadium, and much more. Department employees work hard to develop partnerships with park neighbors, volunteer groups, non-profit agencies, local businesses, the Associated Recreation Council, and Seattle Public Schools to provide access to open spaces, facilities, and programs for all residents.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Department Support

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for Seattle Parks and Recreation (SPR). The department will continue to invest in community centers and pools; park activations and recreation opportunities for all ages and special populations; athletic fields, playgrounds, natural areas and trails; and specialty facilities including two small craft centers and four golf courses. In addition, the department will continue to maintain budget for future major capital projects, including the 8th & Mercer, Queen Anne, and Loyal Heights community center

Seattle Parks and Recreation

renovations, new park development, and athletic field turf conversions.

SPR's 2025 proposed budget increases by 6% from its 2024 Adopted budget, which represents an increase by 14% of its operating budget and a decrease by 14% of its capital budget and from 2024, largely due to updating planned bond issuance to align with project schedules. SPR is facing budget constraints in 2025 and 2026 due to the General Fund revenue forecast being insufficient to cover all Citywide costs, as well as annual wage increases and market adjustments which exceeded planning reserves, particularly in the Park and Recreation Fund. As a result, General Fund reductions and fee increases were identified. Proposed changes to SPR's planned baseline budgets for both operating and capital are summarized below.

Overview of Operating Changes

From its 2025 baseline operating budget of \$227 million, SPR's proposed budget shows an overall increase by 14% to about \$259 million. These changes by fund include:

- \$11.5 million increase in Seattle Park District Fund
- \$8.7 million increase in General Fund
- \$8 million increase in Park and Recreation Fund (Park Fund)
- \$1.2 million increase in Payroll Expense Tax, \$186,000 of which is shifting from General Fund
- \$1.2 million increase in King County Levy funds, \$1.1 million of which is shifting from the capital budget
- \$884,000 increase in the Arts and Culture Fund via Admissions Tax proceeds
- \$37,000 increase in Sweetened Beverage Tax Fund

Overview of Capital Changes

From its 2025 baseline capital budget of \$204 million, SPR's proposed budget shows an overall decrease by 60% to \$81 million, the vast majority of which is due to shifting about \$118 million of planned bond funding from 2025 to 2026 to align with updated project delivery schedules for Green Lake Community Center and Evans Pool renovation, Lake City Community Center renovation, Queen Anne Community Center renovation, and 8th & Mercer Community Center projects. Other capital changes by fund include:

- \$6.4 million decrease in Seattle Park District, shifting these funds to the operating budget
- \$1.5 million increase in Payroll Expense Tax
- \$1.1 million decrease in King County Levy, shifting these funds to the operating budget
- \$500,000 increase in Park Fund

Proposed Budget Meets General Fund Commitment

SPR's proposed budget allocates \$125 million of General Fund in 2025 and \$132.4 million in 2026 to support SPR's existing parks and recreation services and lines of business (excluding program transfers from other departments). This appropriation maintains the General Fund floor requirement set by the interlocal agreement (ILA) between the City of Seattle and the Park District. Since the establishment of the Park District in 2014, the ILA includes a specific baseline of General Fund support for parks and recreation services, commonly referred to as the "General Fund floor," and requires the City to allocate General Fund resources to SPR in each annual budget at or above that baseline. The ILA currently requires the City to adjust that floor for inflation annually using the Consumer Price Index (CPI) for Seattle, which for 2024 was 4.5%, which equates to a General Fund Floor in 2025 of \$123.5 million and \$127.2 million in 2026.

General Fund Reductions to Address Shortfall

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the following ways:

- Shifting \$8.8 million in Park District funding to cover core programming previously supported by General Fund, by using excess Park District interest income one-time (\$2.4 million), reducing Park District-funded capital budgets (\$3.9 million), and shifting planned debt payments to align with current project schedules

Seattle Parks and Recreation

(\$2.5 million).

- Reducing \$1.5 million in General Fund programming ongoing.
- Shifting \$1 million of programming previously supported by General Fund to other fund sources ongoing, including the Arts and Culture Fund (funded by Admissions Tax proceeds) and the Payroll Expense Tax.

Fee Increases to Support Park and Recreation Fund

Annual wage increases and market adjustments exceeded planning reserves for SPR, particularly in the Park Fund. The proposed budget takes a balanced approach to ensuring Park Fund sustainability without impactful reductions to services valued by community. As such, fee increases were identified to mitigate this shortfall, specifically for community center room rentals, aquatics services and programs, special event facilities, Amy Yee Tennis Center (AYTC), athletic fields, and for revocable use permits.

Through these increases, SPR anticipates bringing in an additional \$3.3 million in revenue in 2025, a portion of which (about \$865,000) will be used to support additional expenses including additional staffing and scholarship funds for aquatics and AYTC.

Investing in Mayoral Priorities

The proposed budget also includes funding for Mayoral priorities related to youth mental health, downtown activation, homelessness, and graffiti abatement. Specifically:

- The Mayor's Youth Mental Health Investment Strategy includes \$15 million of Payroll Expense Tax funding in both 2025 and 2026 between the Department of Education and Early Learning and SPR for youth mental health prevention, early intervention, and treatment. SPR is proposing to invest \$500,000 one-time and \$600,000 ongoing in 2025 and 2026. The one-time resources in 2025 funds the design, creation and implementation of an online "Youth Connector" platform by and for teens to improve mental health supports and program awareness and reduce barriers to access. This investment improves awareness, navigation and access to Seattle youth programs including career exploration, community service, education, Seattle mentors, recreational programs, scholarships and discounts, and mental health supports. The ongoing funding supports programming and partnerships at Red Barn Ranch to invest in youth mental health by providing opportunities for youth to access rural nature experiences at Red Barn Ranch, a SPR-owned property in rural King County.
- The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. DAP focuses on actions that bring more housing and amenities – ensuring Downtown is more than just a great place to go to work, but also a place where residents can afford to live, learn, shop, play, and so much more. SPR is proposing to invest \$1.3 million in 2025 and \$2.3 million in 2026 to reimagine and revitalize Westlake Plaza, which could include the removal of the out-of-commission fountain, stage renovation, and other needed upgrades to make the area safe and inviting.
- The Unified Care Team (UCT) brings together more than a dozen city departments and partners for a coordinated, strategic, and data-driven approach to ensuring Seattle's public spaces, sidewalks, and streets remain open and accessible to all. The UCT coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The City is proposing to expand services provided by UCT from 5 to 7 days a week, which represents adding 6 staff to SPR as well as an increased budget for nonlabor expenses such as disposal of materials.
- The Mayor's One Seattle Graffiti Plan, announced in October 2022, contains six major pillars intended to beautify Seattle and address a surge in graffiti through new strategies and increased budget investments. One strategy of the plan is to combine all resources available city-wide for graffiti removal teams. In support of this strategy, the proposed budget includes a transfer of graffiti abatement resources from Seattle Public Utilities (SPU) to SPR, including SPU's Graffiti Rangers, a dedicated team responsible for inspection, assessments, dispatch, compliance, and graffiti abatement across various city assets.

Seattle Parks and Recreation

Other Changes

The budget also includes funding for various capital projects, and technical adjustments to the operating budget, such as internal service cost changes and annual wage and market adjustment increases.

-----------------------------------	----------------------	----------------

Description of Incremental Budget Changes

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$17,123,113

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Seattle Parks and Recreation

Citywide Adjustments for Standard Cost Changes

Expenditures \$5,005,149

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

CDBG Baseline Adjustment

Expenditures \$(808,000)

Revenues -

This item removes baseline federal Community Development Block Grant (CDBG) funding from SPR's Parks Upgrade Program Capital Project which supports the Seattle Conservation Corps, a job-training program for formerly homeless adults. For the 2025-2026 Proposed Budget, the administration removed CDBG funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects. See companion item in Proposed Capital section.

Remove One-Time Zoo Inflation Adjustment

Expenditures \$(796,427)

This item removes one-time authority in 2024 related to inflationary adjustment for the Zoo operations.

Remove One-Time Garfield Super Block Add

Expenditures \$(80,000)

This item removes one-time authority in 2024 related to planning funds for Garfield Super Block Project.

Proposed Operating

Arts in Parks Shift to Admissions Tax

Expenditures -

Position Allocation -

The 2025-2026 Proposed Budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund. The Office of Arts and Culture, Seattle Center and Seattle Parks and Recreation (SPR) budgets use Admissions Tax to support arts and culture spending.

In SPR, the budget preserves the Arts in the Parks program by shifting \$436,000 from the General Fund to the Arts and Culture Fund. Through this program, artists and art organizations activate park spaces throughout the City. SPR coordinates planning and scheduling of Arts in Parks, as well as provides grants to support artists and arts organizations to perform.

Downtown Buskers Shift to Admissions Tax

Expenditures -

The 2025-2026 Proposed Budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund. The Office of Arts and Culture, Seattle Center and Seattle Parks and

Seattle Parks and Recreation

Recreation (SPR) budgets use Admissions Tax to support arts and culture spending.

In SPR, the budget preserves the downtown buskers program by shifting about \$224,000 from the General Fund to the Arts and Culture Fund. This program coordinates and funds performers such as musicians and performance artists to perform in and activate downtown parks.

Teen Performing Arts Program Shift to Admissions Tax

Expenditures -

The 2025-2026 Proposed Budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund. The Office of Arts and Culture, Seattle Center and Seattle Parks and Recreation (SPR) budgets use Admissions Tax to support arts and culture spending.

In SPR, the budget preserves the downtown buskers program by shifting about \$224,000 from the General Fund and Park and Recreation Fund to the Arts and Culture Fund. This program coordinates and funds performers such as musicians and performance artists to perform in and activate downtown parks.

Center City Activation Shift to Payroll Expense Tax

Expenditures -

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. In addition, the proposed budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development.

This ongoing item shifts \$186,000 from the General Fund to the Payroll Expense Tax Fund to preserve and continue center city park activations in partnership with the Associated Recreation Council, which is also experiencing unprecedented inflationary pressures. Specifically, this item supports about 10,000 contracted concierge hours at greater downtown parks such as Pioneer Square, City Hall, Denny, Hing Hay, Cal Anderson, and Hoa Mai parks.

Reduce Parks and Natural Areas Maintenance

Expenditures \$(590,749)

Position Allocation (5.69)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This ongoing item reduces baseline funding for the maintenance of parks and natural areas by approximately 1%, which includes removing 7 laborer and one supported employment positions in 2025. There will be minimal impact on overall maintenance and SPR will endeavor to minimize impacts during peak season when these part-time positions would typically supplement year-round staff.

Reduce Leadership and Administration Staffing

Expenditures \$(492,211)

Position Allocation (3.75)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces staff levels in three department leadership and support teams including Policy and Performance, Communications and Business Systems and Customer Service Unit. Two of these units are also supported by Park District funding. Specifically, this item removes a Manager 3, an Administrative Specialist II, and a Customer Service Representative, reduces two other full-time positions to half-time, and increases one 0.75 FTE to full-time. As a result, response times to

Seattle Parks and Recreation

customers and SPR's ability to meet performance goals established in Cycle 2 of the Park District may be reduced.

Reduce Outdoor Park Activation

Expenditures	\$(245,095)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. The budget removes a senior Recreation Program Specialists and reduces SPR's Outdoor Park Activation nonlabor programming funding by 40% from about \$340,000 to \$200,000, which will result in fewer resources allocated to activate and program outdoor spaces outside the greater downtown area. Specifically, this item removes recently planned expansions from Cycle 2 of the Seattle Park District, bringing the budget back to Cycle 1 levels of funding for activation in parks not in the city's downtown core.

Consolidate Community Granting Programs

Expenditures	\$(200,000)
--------------	-------------

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This ongoing item consolidates two community granting programs, Recreation for All and Get Moving, into one program and reduces the amount of grant funding available for community-based groups by about 33%, from \$600,000 to \$400,000. The two programs serve similar populations and for similar purposes, which is to provide grants to groups to provide culturally relevant health- and fitness-focused programs for under resourced communities or where health and enrichment disparities are prevalent. In 2023, the two programs awarded approximately \$440,000 in grants, which resulted in groups providing 3,000 hours of engagement and serving approximately 10,000 participants.

Reduce Environmental Programming Starting in 2026

Expenditures	-
Revenues	-
Position Allocation	(7.35)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. The budget makes an ongoing reduction to SPR's Environmental Programming line of business by 50% or about \$1 million beginning in 2026. The department will seek public-private partnerships to operate the Discovery Park Visitor Center & Environmental Learning Center and provide programming at Discovery Park and Carkeek Park to mitigate any service disruptions from this budget reduction. As a result, this item includes a staffing reduction in 2026 of 7.35 FTE, representing 9 positions.

Utility Costs Shift to King County Levy

Expenditures	-
--------------	---

This item shifts \$1.1 million of King County Levy funding from supporting debt service for the Golf Capital Improvements project to the Parks and Facilities Maintenance and Repairs budget in order to fund the increased utility costs across the department, such as drainage fees.

One-Time Use of Park District Interest Earnings

Expenditures	-
--------------	---

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected

Seattle Parks and Recreation

Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects a realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services. This item shifts \$2.4 million of core department expenses from the General Fund to the Park District Fund on a one-time basis in 2025 only. This shift is supported by higher than anticipated interest earnings in the Park District Fund.

Realign Park District Funding

Expenditures -

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects a realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services. This change reflects shifting \$6.4 million in 2025 and \$6.8 million in 2026 of expenses from the General Fund to the Park District Fund. See companion items in the Proposed Capital section.

One Seattle Graffiti Initiative Consolidation

Expenditures \$2,594,469
Position Allocation 11.00

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item transfers Seattle Public Utilities (SPU) Graffiti Abatement program to SPR, including all 7 Graffiti Ranger positions, an administrative position, an Executive 2, and budget for supplies, facility leases, and vehicles. This transfer will provide for the consolidation of citywide graffiti abatement services under the One Seattle Graffiti Initiative at SPR, which achieves approximately \$495,475 in General Fund savings related to SPU's overhead rate. The One Seattle Graffiti Initiative abates graffiti on city-owned and privately-owned property.

To successfully implement this program, this item also adds a Manager 1 and Administrative Staff Assistant who will provide oversight and operational support. This item also adds one-time \$350,000 of General Fund appropriation to extend an external contract for graffiti abatement services through 2025, which SPU previously held. See companion item in SPU's Budget Book chapter.

Expand Unified Care Team to 7 Day Coverage

Expenditures \$882,822
Position Allocation 6.00

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from 5 to 7 days per week. This item adds about \$882,000 in 2025 and \$1.1 million in 2026 ongoing which represents an increase in 6 staff to SPR, and an increase in nonlabor expenses such as disposal of materials. The added positions include two teams of two laborers, which will remove trash and hazardous items, and a Manager 1 and a Strategic Advisor 1 positions for management support and oversight.

Increase to Zoo Operating Costs

Expenditures \$800,000

This ongoing item adjusts the baseline budget for the Woodland Park Zoo's operating and maintenance payments in recognition of the contractual inflationary increases required annually as part of the Master Operating Agreement with Woodland Park Zoological Society.

Seattle Parks and Recreation

Youth Mental Health - Nature Access and Programming

Expenditures \$600,000

The Mayor's Youth Mental Health Investment Strategy includes \$15 million of Payroll Expense Tax funding in both 2025 and 2026 between the Department of Education and Early Learning and Seattle Parks and Recreation (SPR) for youth mental health prevention, early intervention, and treatment. This ongoing item uses Payroll Expense Tax proceeds to support programming and partnerships at Red Barn Ranch to invest in youth mental health.

Red Barn Ranch, a SPR-owned property in rural King County, provides the opportunity for youth to access rural nature experiences. The goal of this initiative is to improve the mental and physical health outcomes of Seattle and King County youth by connecting elementary, middle, and high school students with the outdoors. Facilitated day and overnight trips by partners offering equine, community gardening, trails building, and environmental restoration programs address nature deficit among youth in historically underserved communities.

Youth Mental Health - Online Youth Connector

Expenditures \$500,000

The Mayor's Youth Mental Health Investment Strategy includes \$15 million of Payroll Expense Tax funding in both 2025 and 2026 between the Department of Education and Early Learning and Seattle Parks and Recreation (SPR) for youth mental health prevention, early intervention, and treatment. This one-time item uses Payroll Expense Tax proceeds to design, create and implement an online "Youth Connector" platform by and for teens to improve mental health supports and program awareness and reduce barriers to access. This investment improves awareness, navigation and access to Seattle youth programs including career exploration, community service, education, Seattle mentors, recreational programs, scholarships and discounts, and mental health supports. SPR will maintain the platform in outyears using existing budget.

Transfer Public Hygiene Station Funding from SPU to SPR

Expenditures \$585,000

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item transfers ongoing General Fund appropriations for hygiene stations (portable toilets and/or handwashing stations) from Seattle Public Utilities' (SPU) Public Hygiene Program to SPR, achieving approximately \$250,000 in ongoing General Fund savings related to SPU's overhead rate. This funding will be used to fund portable toilets in busy parks. SPU will continue to operate and staff the wider Public Hygiene Program including up to three hygiene trailers with shower facilities, providing services to the unsheltered and minimally housed. See corresponding item in SPU's Budget Book chapter.

Community Services Block Grant Appropriation

Expenditures -
Revenues \$810

This item adjusts baseline resources from the Washington State Department of Commerce's Community Services Block Grant based on the supplemental state appropriation. The state grant increased by \$810, from \$276,112 to \$276,922, and supports SPR's Seattle Conservation Corps, a job-training program for homeless adults.

Increase Fees for Aquatics Programs and Services, and add to Swim Safety Equity Fund

Expenditures \$412,000
Revenues \$1,412,000
Position Allocation 1.00

Seattle Parks and Recreation

This item increases fees for swim lessons, drop-in swimming, and pool rentals. These fee changes, which bring aquatics fees closer to alignment with market rate fees, are expected to generate approximately \$1.4 million of additional revenue ongoing. The fee increases are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council. To reduce barriers to access as a result of the fee increases, SPR will continue to offer reduced fees for those who are income-eligible as well as other free or low-cost aquatics opportunities through Swim Seattle initiative, such as free workshops to support children and their families in becoming comfortable swimmers and water-safe.

About \$412,000 of the revenues generated by the fee increases will augment the Swim Safety Equity Fund, fund premium pay for certified aquatics instructors who teach lessons, and will fund two additional part-time positions, an Assistant Aquatic Center Coordinator and Senior Lifeguard, to support aquatics operations for revenue generation.

Increase Fees for Revocable Use Permits

Expenditures	\$259,790
Revenues	\$675,780
Position Allocation	0.25

This item increases revocable use permit (RUP) fees which SPR charges to third-parties for short-term or ongoing nonpark use of park land, which are expected to generate approximately \$675,000 of additional revenue in 2025 and \$560,000 in 2026. The fee increases are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council. This item also includes an increase in expenditures for a staffing change—increasing a Real Property Agent position from part-time to full-time—as well as nonlabor budget supporting department property management and permit efforts.

Increase Fees for Athletic Fields

Expenditures	\$106,678
Revenues	\$422,604

This item increases athletic field fees for adults and youth which are expected to generate approximately \$422,000 of additional revenue in 2025 and \$940,000 in 2026. The fee increases, which bring youth field usage fees closer to alignment with market rates, are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council. This item also increases non-labor expenditures to account for increased banking fee costs. SPR continues to offer free open field times for community drop-in play without having to reserve or pay for the fields.

Increase Fees for Special Events

Expenditures	\$76,449
Revenues	\$314,969

This item increases fees for special events and use permits by about 4%, and at a greater percentage for specific items such as premium picnic shelters and special amenity rental facilities such as the buildings at Magnuson. These changes are expected to generate approximately \$315,000 of additional revenue in 2025 and \$250,000 in 2026. The fee increases are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council and to align with inflationary increases. This item also increases non-labor expenditures to account for increased banking fee costs. SPR continues to offer granting programs to support activities serving frontline communities.

Increase Fees for Amy Yee Tennis Center (AYTC), and create AYTC Scholarship Fund

Expenditures	\$11,000
--------------	----------

Seattle Parks and Recreation

Revenues \$360,000

This item increases tennis fees for adult, youth and court rentals at the Amy Yee Tennis Center (AYTC) which are expected to generate approximately \$360,000 of additional revenue in 2025 and \$450,000 in 2026. The fee increases, which bring AYTC fees closer to alignment with market rate fees, are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council. To reduce barriers to access, \$11,000 (3% of anticipated revenue) is earmarked for a new AYTC Scholarship Fund.

Increase Fees for Community Center Rentals

Revenues \$130,000

This item increases rental fees by approximately 5% for community center rooms, kitchens, and gyms, and related staff and booking fees which are expected to generate approximately \$130,000 of additional revenue ongoing. The fee increases are to help partially offset the impacts of cost increases associated with the Collective Bargaining Agreements passed by City Council and to align with inflationary increases. SPR continues to offer granting programs to support activities serving frontline communities.

Proposed Capital

Align Green Lake Community Center and Evans Pool Renovation Debt to Schedule

Expenditures \$(56,000,000)

This item shifts \$56 million in planned bond funding for the planning design and construction of a substantially renovated Green Lake Community Center and Evans Pool from 2025 to 2026, to align with current project schedule. A companion item adjusts the annual debt service payments funded by the Park District.

Align Lake City Community Center Project Debt to Schedule

Expenditures \$(28,000,000)

This item shifts \$28 million of planned bond funding for the Lake City Community Center rebuild from 2025 to 2026, to align with current project schedule. A companion item adjusts the annual debt service payments funded by the Park District to align with the current project schedule.

Align Queen Anne Community Center Renovation Debt to Schedule

Expenditures \$(16,900,000)

This item shifts \$16.9 million in planned bond funding for the planning design and construction of a substantially renovated Queen Anne Community Center from 2025 to 2026, to align with current project schedule. A companion item adjusts the annual debt service payments funded by the Park District.

Align 8th & Mercer Community Center Project Debt to Schedule

Expenditures \$(17,000,000)

This item shifts \$17 million in planned bond funding for tenant improvements within the 8th & Mercer Community Center from 2025 to 2026 due to project delays. A companion item adjusts the annual debt service payments funded by the Park District to reflect the change in project schedule.

Remove Out-Year Debt for Facility Decarbonization

Expenditures -

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected

Seattle Parks and Recreation

Citywide costs. General Fund reductions were identified to mitigate this shortfall. This proposal removes \$18.3 million in planned bond funding for decarbonization of SPR facilities in 2027. A companion item adjusts the annual debt service payments funded by the Park District and reallocates resources to other core operating services to achieve General Fund Savings.

SPR's budget maintains a \$2 million annual Park District investment for facility decarbonization and has been building decarbonization efforts into the scope and budget of major capital projects. As a result, SPR anticipates minimal impact from this item.

Adjust Park District-Funded Debt Service and Reallocate to Core Services and Priority Projects

Expenditures \$(2,538,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects a realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services.

This item reflects \$2.5 million in 2025 and \$3.2 million in 2026 of Park District-funded capital reductions for planned debt service, shifting these resources to the operating budget to support core department services previously funded by the General Fund. Specifically, this reflects:

- Shifting 8th & Mercer Community Center planned bond funding out by one year, due to project delays
- Shifting Green Lake Community Center and Evans Pool renovation planned bond funding out by one year, to align resources with current project schedule
- Eliminating out-year planned bond funding for Facility Decarbonization

This item also reflects shifting Park District funding held for planned debt service to other priority projects, due to updated timelines for planned bond issuance for two major community center projects. Specifically, this item also reflects:

- Shifting \$1.3 million in 2025 in planned debt service for the Queen Anne Community Center renovation to help fund the West Queen Anne Playfield conversion project, due to the community center project delay.
- Shifting \$937,000 in 2025 and \$1.2 million in 2026 in planned debt service payments for Lake City Community Center rebuild to fund the Soundview Athletic Field project, dur the community center project delay.

See companion items previously discussed in this section.

Reduce Major Maintenance and Asset Preservation

Expenditures \$(2,456,235)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects a realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services.

This item reflects a 10% reduction to SPR's Capital Major Maintenance and Asset Preservation Program, shifting these resources to the operating budget to support core department services previously funded by the General Fund. About \$2 million of this total reduction, representing about 7% of the base budget, is ongoing, with \$500,000 in reductions occurring only one-time in 2025 to align resources to project schedules. As a result of this reduction, SPR will revise the scope and scale of major maintenance projects planned for 2025.

Reduce the CommUNITY Fund

Expenditures \$(1,000,000)

Seattle Parks and Recreation

The General Fund revenue forecast for the City’s 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects an ongoing realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services.

This item reflects a 27% reduction to SPR's CommUNITY Fund, shifting these resources to the operating budget to support core department services previously funded by the General Fund. The CommUNITY Fund, previously called the Major Projects Challenge Fund, was increased from \$1.5 million to \$2.5 million in 2023 as part of Cycle 2 of the Park District, and this item removes the expansion bringing the capital budget back to \$1.5 million. Funding for the two staff positions to engage with and support community throughout the CommUNITY Fund process are retained on the operating side of the budget. As a result of this reduction, there will be fewer granting dollars available for community-directed improvements to parks and facilities.

Reduce Park Land Acquisition Funding

Expenditures \$(440,000)

The General Fund revenue forecast for the City’s 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. SPR's proposed budget reflects a realignment of General Fund and Park District resources to achieve General Fund savings while retaining core operating services.

This change reflects a 30% reduction to SPR's New Park Acquisition Program, shifting these resources to the operating budget to support core department services previously funded by the General Fund. The item retains \$1 million annual investment for acquisition, which will allow SPR to leverage grant opportunities and to support other low-cost priority acquisitions such as park additions. As a result of this reduction, SPR could acquire less land for future park development.

Revitalize Westlake Plaza

Expenditures \$1,391,936

This one-time item provides about \$1.4 million in 2025 and \$2.3 million in 2026 of Payroll Expense Tax proceeds to support revitalization of Westlake Plaza as part of the Mayor’s Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor’s plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. Specifically, this item funds a revitalization of Westlake Plaza which could include removal of out-of-commission fountain, stage renovation, an electrical systems upgrade, repairs to paving and trip hazards, among other improvements.

Continue Funding Seattle Conservation Corps with CDBG

Expenditures \$808,000

Revenues \$808,000

For the 2025-2026 Proposed Budget, the administration removed Community Development Block Grant (CDBG) funds from departments’ baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects. In SPR, restores baseline CDBG funding to continue supporting the Seattle Conservation Corps' Parks Upgrade Program. The Seattle Conservation Corps uses public- and privately-funded construction and maintenance projects, including those funded by CDBG in the Parks Upgrade Program, to provide homeless adults with employment opportunities in a supportive environment.

Add Landscape Conservation and Local Infrastructure Program Capital Project

Expenditures \$500,000

Revenues \$500,000

Seattle Parks and Recreation

This proposal adds Landscape Conservation and Local Infrastructure Program (LCLIP) funding to SPR and creates a new capital project. As part of the original 2013 LCLIP legislation outlining programming assumptions, the funding beginning in 2025 transfers from supporting Seattle Department of Transportation investments to supporting SPR parks and infrastructure investments for the next ten years. The LCLIP program allows cities to receive a portion of future county property tax revenue for local infrastructure investments if they implement a program to obtain regional Transferable Development Rights (TDR). Current legislation outlines that projects eligible for LCLIP funding must be located in South Lake Union or Downtown Seattle.

The overall purpose of LCLIP and Regional TDR Programs is to preserve farm and forest land by transferring development capacity from these lands to cities, and generate funds for local infrastructure projects in the communities where the additional development capacity is located.

Increase to Community Center Pre-Electrification Efforts

Expenditures	\$195,000
--------------	-----------

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item uses payroll tax funding to fund projects associated with the city’s Municipal Energy Electrification Program. This item specifically funds SPR’s Pre-Electrification Program, which supports efforts to prepare community centers for decarbonization by first shrinking energy use intensity through energy conservation interventions such as use of LEDs, advanced lighting controls, and destratification fans for air mixing.

Adjust Outyear CIP Funding

Expenditures	-
Revenues	-

This technical item adds funding to the 2029 and 2030 out-years for various capital projects to align with the 2025-2030 Proposed CIP.

Proposed Technical

Budget Neutral Project Changes

Expenditures	\$3,416,863
Revenues	\$4,423,522

This technical item includes a variety of technical changes to true up the budget to revenue projections and to align budget with operational plans for 2025. This item adds Park Fund expenses and revenue to the Golf program, among other technical changes

Park District Changes to Align the 6 Year Financial Plan

Expenditures	\$2,881,486
Revenues	-

This technical change request aligns the 2025 and 2026 Proposed Budget with the adopted 2023-2028 MPD Financial Plan. It also includes two adjustments the start of planned operations and maintenance expenses related to two proposed capital program reductions.

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures	\$37,736
--------------	----------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market

Seattle Parks and Recreation

Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Final Adjustments for Standard Cost Changes

Expenditures \$(1,640,293)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Budget Neutral Position Changes

Expenditures -
Position Allocation -

This technical change adjusts expense and revenue budgets within projects to correctly align the budgets and accounts with position reclassifications done outside of the previous budget process and/or APEX/SAM adjustments, and other technical position changes.

Fund Balancing Adjustment

Revenues \$2,841,656

This is a technical item to record fund balancing entries for the Park and Recreation Fund, Park District Fund, and King County Parks Levy Fund, which are primarily managed by this department.

Capital Indirect Cost Recovery Alignment

Expenditures \$(900,000)

This technical change request adjusts SPR's indirect cost recoveries related to staff who charge to capital programs to offset approximately \$900,000 in associated park fund expenses.

Park District Revenue Alignment to Spend Plan and Interest Earnings

Revenues \$9,352,958

This change updates revenue projections for the Seattle Park District Fund to align with the Park District Cycle 2 Spending Plan, in addition to recognizing projected interest earnings.

Seattle Parks and Recreation

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services, Seattle Information Technology Department, and the Department of Human Resources.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	17,637,194	19,512,590	20,559,348	22,094,630

COVID Planning 2021

The purpose of the COVID Planning 2021 Budget Program Level is to temporarily hold the consolidated Park Fund (10200) expenditure and revenue savings from extended COVID-19 impacts in 2021. The corresponding appropriation and revenue savings are moved out of operating divisions into this Budget Program, representing a one year plan to address financial impacts from the pandemic on the Park Fund (10200).

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
COVID Planning 2021	-	1,528,800	-	-

Seattle Parks and Recreation

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Budget Program Level is to provide executive, financial, communications, human resources and business support and strategic planning an analysis to the departments.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Departmental Indirect Costs	15,151,724	15,336,456	16,674,991	17,377,674
Full Time Equivalents Total	93.25	94.25	91.50	91.50

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Budget Program Level is to provide managerial and administrative support for operating divisions. The Budget Program also provides planning and development support to develop new park facilities, and make improvements to existing park facilities to benefit the public.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Divisional Indirect Costs	12,335,571	14,158,161	17,039,271	17,173,765
Full Time Equivalents Total	54.57	57.37	57.62	57.62

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery program is to recover costs associated with indirect programs within Leadership and Administrative BSL from the department's direct cost programs. This program does not fully recover Leadership and Administration BSL costs.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Indirect Cost Recovery Offset	(5,453,759)	(6,277,436)	(7,368,568)	(7,659,160)

Pooled Benefits

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Pooled Benefits	3,913,626	4,138,514	5,392,439	5,595,793

SPR - BO-PR-30000 - Departmentwide Programs

The purpose of the Department-Wide Services Budget Summary Level is to provide management and operations of services that span across multiple lines of business within Seattle Parks and Recreation such as partner relationship management, emergency operations, security services, , athletic and event scheduling, and the Seattle Conservation Corps.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

Seattle Center

Marshall Foster, Director

(206) 684-7200

<http://www.seattlecenter.com/>

Department Overview

Seattle Center is home to cultural and educational organizations, sports teams, festivals, community programs (including cultural and community celebrations), and entertainment facilities. Millions of people visit the 74-acre Seattle Center campus annually. Consistently rated as one of the City's top attractions, Seattle Center is a premier urban park whose purpose is to create exceptional events, experiences, and environments that delight and inspire the human spirit and build a stronger community.

Since its creation in 1963, Seattle Center has nurtured artistry and creativity by providing a home for and technical assistance to a wide variety of arts and cultural organizations. These organizations play a critical role in the arts and cultural landscape of the region. Originally created for the World's Fair, the Coliseum, later called KeyArena, was operated by Seattle Center as a public assembly venue for sports and concert events. The new building, now Climate Pledge Arena, is hosting the NHL's newest franchise, the Kraken, as well as the WNBA's Seattle Storm, along with a variety of concerts, family shows, and other events.

Seattle Center is financed by a combination of tax dollars from the City's General Fund and revenue earned from commercial operations. Major sources of commercial revenues include facility rentals, parking fees, long-term leases to for-profit and non-profit organizations, sponsorships, concession sales, and monorail fares.

Budget Snapshot

Seattle Center

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for Seattle Center. The department will continue to serve as the state's largest visitor destination for artistic, cultural and sporting events. Visitors can frequent large scale events, such as Bumbershoot and the Northwest Folklife Festival, and also attend community festivals and celebrations such as Festàl. The campus hosts the city's legacy artistic and cultural institutions, Seattle Opera at McCaw Hall and Seattle Rep at the Bagley Wright Theater, alongside newer attractions, such as the Chihuly Museum of Glass. Climate Pledge Arena features the Kraken and world headlining performance artists.

While these events and activities draw significant revenue for the city, Seattle Center will continue maintaining campus grounds and their unique features for the casual visitor. Seattle Center will also continue to serve its critical role in providing emergency shelter during adverse weather events and implementing the annual Seattle/King County Clinic public health event, which saw nearly 3,000 patients receive free medical and dental care for its tenth iteration in 2024.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made by shifting costs to the department's revenue-backed operating fund, reclassifying or underfilling vacant positions to achieve administrative efficiencies, eliminating the Bumbershoot workforce development program, decreasing General Fund support for the Waterfront, and raising parking, event space and facility rental fees to bring them more in line with market rates.

Seattle Center is also benefitting from an expansion of the City's use of Admissions Tax revenue from the Office of Arts and Culture. In 2019, Seattle Center started receiving Admissions Tax revenue support to help fund the Festàl series of community festivals. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund, and accordingly Seattle Center will shift approximately \$1 million from the General Fund to be funded with Admissions Tax revenue, specifically for the Northwest Folklife Festival, cultural administration staffing, and to fully support Festàl. Admissions Tax revenue will also fund the annual Winterfest celebration, which allows Seattle Center to redirect earned revenues to other revenue-generating purposes.

Seattle Center anticipates earned revenue to rise substantially during the next biennium by nearly \$3 million (11.7%). Parking and monorail receipts, leases for the major cultural institutions, concession and food receipts from the Armory, reimbursable labor for community and commercial events, and other sources will bring Seattle Center closer to achieving pre-pandemic revenue levels. These increases are attributable to rising visitor volumes as well as proposed increases to parking and facility fees. Parking in particular among all revenue streams is expected to grow the most over the biennium (20.8%), and the proposed budget includes parking staffing enhancements to meet this need.

Total 2025 Proposed Budget	\$72,182,634	255.93

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$4,907,354

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$395,121

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Add Event Booking Representative

Expenditures \$120,980
 Position Allocation 1.00

This item adds an Event Booking Representative to provide support in sales, marketing, contract management, and other event-related activities. This position replaces a long-term intermittent employee who held these responsibilities for several decades. This item is funded via revenues generated from facility and parking fees, concession proceeds, and other sources.

Seattle Center

Winterfest Support

Expenditures \$240,116

The 2025-2026 Proposed Budget includes appropriations out of the Arts and Culture Fund to three City departments which have arts and culture-related spending. The proposed budget includes legislation to broaden the uses of Admissions Tax from the Arts and Culture Fund. The Office of Arts and Culture, Seattle Center and Seattle Parks and Recreation budgets use Admissions Tax to support arts and culture spending.

Winterfest is Seattle Center’s annual five-week festival encompassing live shows at the Seattle Armory, the Fountain of Light, and other attractions. The budget for Winterfest was substantially decreased in 2019 for General Fund savings. Seattle Center has been funding the event since 2021 using higher than projected revenues. This item reinstates budget for the event with Admissions Tax revenue.

Alternative Funding for Folklife Festival

Expenditures -

This budget-neutral item shifts \$381,711 in funding for the Northwest Folklife Festival, Seattle Center’s free, four-day, multicultural, intergenerational Festival held on Seattle Center grounds, from the General Fund to be funded with Admissions Tax revenue. This change will not affect programming.

Alternative Funding for Festàl

Expenditures -

Festàl, Seattle Center’s series of 24 cultural festivals produced in partnership with numerous community organizations, has received support from Admissions Tax revenue from the Office of Arts and Culture since 2019. This item increases the level of support from the Admissions Tax. The revenue side of the budget reflects this change.

Alternative Funding for Cultural Administration

Expenditures -

This budget neutral item shifts funding for Seattle Center Cultural Administration staff, including a Manager and a Cultural Programs Specialist from General Fund to the Admissions Tax. These staff coordinate, procure and manage Festàl events.

FIFA Coordinator

Expenditures \$265,049

The proposed budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding for a coordinator position to provide leadership and support in preparation for the City’s participation in the 2026 FIFA World Cup games, which will have a significant impact on economic activity.

Update Seattle Center Parking Staffing

Expenditures \$123,708

Position Allocation 1.00

Parking needs and revenue have been increasing in the post-COVID era. This item provides support for parking staff by restoring two supervisor positions eliminated in the 2010 Adopted Budget via reclassifying two Parking Attendants; adding one Parking Attendant; increasing budget for training and succession planning; and augmenting wages for a Transportation Manager to ensure internal equity with identical classifications.

Seattle Center

Shift Funding for Campus Positions

Expenditures -

This item shift funding for six positions (Dining Room Attendants, Janitors, Laborers and Security Officers) from General Fund to Seattle Center Fund subject to operational needs and available earned revenue. This results in \$491,449 in General Fund savings without decreasing services for Seattle Center's main campus.

Guest Services Staffing Changes

Expenditures \$15,419

Position Allocation (1.00)

This item decreases two part-time positions and reclassifies one part-time position to a full time Manager in Guest Services, and shifts \$145,191 in funding from General Fund to Seattle Center Fund. This reduction and reclassification reflect the diminished need for regular admissions-related work since the closure of Key Arena.

Reclassify Strategic Advisor Position

Expenditures \$(45,714)

Position Allocation -

This item reclassifies a Strategic Advisor 3 position to a Strategic Advisor 2 position with job duties in development and grant writing. This achieves General Fund savings of \$107,547 due to the reduced cost of the position and shifting funding for the position to Seattle Center Fund.

Reclassify Executive Assistant to Administrative Staff Assistant

Expenditures \$(30,419)

Position Allocation -

This item achieves General Fund savings by reclassifying an Executive Assistant to an Administrative Staff Assistant. This position supports the Programs and Events Division. The change enhances staffing consistency across the department.

Remove Support for Bumberworks

Expenditures \$(150,000)

This item removes Payroll Expense Tax support for Seattle Center's Bumberworks Festival workforce development program (Bumberworks). First funded in last year's Adopted Budget, this program involves about 20 youth or young adults in hands-on training in music festival production and other skills.

Remove General Fund from Waterfront

Expenditures \$(100,000)

This item removes General Fund support for maintenance at Pier 62. Seattle Center is responsible for operations, maintenance and public safety for the Waterfront, and receives Metropolitan Park District funding from Seattle Parks and Recreation for this purpose.

Seattle Center

Increase Budget for Strategic Advisors

Expenditures \$98,016

This item increases budget to support a change in responsibilities for two Strategic Advisor positions in the Capital Projects and Planning workgroup. These positions have accrued enhanced responsibilities due to staff retirements and other personnel changes. This item is funded via revenues generated from facility and parking fees, concession proceeds, and other sources.

Momentum Software Licensing

Expenditures \$50,000

Seattle Center utilizes Momentum software for event scheduling and billing. This item increases budget to accommodate a planned rise in the licensing fee. This item is funded by revenues generated from facility and parking fees, concession proceeds, and other sources.

Proposed Capital

Monorail Improvements at Westlake Station

Expenditures \$350,000

The proposed budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses one-time payroll tax funding for schematic design for a Westlake Station upgrade and ADA accessibility improvements. The purpose is to evaluate options to reconfigure the Westlake Station side of the Monorail path, including redesign of the area where train right-of-way paths constrict, to allow for the trains to run independently at all times.

Municipal Energy Electrification Program - Armory and McCaw Hall

Expenditures \$195,000

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item uses payroll tax funding to fund projects associated with the Municipal Energy Electrification Program (MEEP). This funding will support the LED Lighting Program at the Seattle Armory and McCaw Hall. For more information, see Proposed 2025-2030 Capital Improvement Program.

McCaw Hall Capital Reserve Fund

Expenditures \$(19,990)

Revenues \$(20,000)

This item updates expenditures and revenues for the McCaw Hall capital reserve fund and revises the outyear budget allocations. The negative balances reflect a correction to the baseline budget.

Update Memorial Stadium Revenue & Expense to LTGO Bond Funds

Expenditures \$(648,900)

This item shifts revenue and expenditure appropriation for the redevelopment of Memorial Stadium at Seattle Center from the 2025 Limited Tax General Obligation (LTGO) Taxable Bond Fund and other funding to \$9 million of 2026 and \$29 million 2027 LTGO Bond proceeds. An interfund loan of \$9.3 million backed by Real Estate Excise Tax proceeds will be issued to Seattle Center in 2025 to meet initial costs of the project. The loan will subsequently be paid back using the LTGO Bond proceeds. This item also includes a technical correction to debt service to match the updated issuances in 2026 and 2027.

Seattle Center

The City's investment will be part of a public-private partnership, including \$66.5 million from the Seattle Public Schools district (SPS) approved by Seattle voters in the BTA V levy last February, philanthropic contributions, and, potentially, investments by private entities.

Proposed Technical

Update Campus Fund Earned Revenue

Revenues	\$3,062,808
----------	-------------

This change request updates Seattle Center's revenue budget from various sources. Approximately 60% to 80% of campus expenditures are funded by earned revenue from leases, parking, event reimbursements, and other miscellaneous sources. Seattle Center is also increasing minimum rates for contract parking and facility fees to align with current market rates.

Update Waterfront Operating Budget

Expenditures	\$590,649
Revenues	\$(4,989,071)

This technical item makes adjustments to fixed funding amounts from Metropolitan Park District and Friends of Waterfront for operations, maintenance and public safety at the Waterfront. The budget includes administration, laborers, gardeners, security staffing, equipment, grounds materials and supplies, and other associated costs. This item also makes a technical correction as Metropolitan Park District funds have been mistakenly included in Seattle Center's budget as revenue and not an interdepartmental transfer.

Applied Benefits for Waterfront Staff

Expenditures	\$(1,987,896)
--------------	---------------

This technical item is needed to offset the applied benefits (Paid Time Off, Workers Compensation, Unemployment, Healthcare) included in the Waterfront budget.

Allocate Central Costs to McCaw Hall and Waterfront

Expenditures	\$(466,974)
--------------	-------------

This item achieves General Fund savings by reallocating internal services costs for McCaw Hall to the McCaw Hall Fund, and for Waterfront to the Metropolitan Park District Fund; the Waterfront budget change is also reflected in the Update Waterfront Operating Budget item. These internal service costs encompass rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, and Seattle Department of Human Resources.

Reclassify Security Officer to Security Programs Specialist at Waterfront Park

Position Allocation	-
---------------------	---

This revenue-backed item reclassifies a Security Officer to a Security Program Specialist. Seattle Center is responsible for operations, maintenance and public safety at the Waterfront, and the complement of security staff at the Waterfront requires an on-site supervisory presence. This position oversees 17 Security Officers and 3 Senior Security Officers.

Seattle Center

Climate Pledge Revenue Share Increase

Expenditures \$700,000

This revenue-backed item increases budget authority to pay Climate Pledge Arena (ArenaCo) its share of 2024 Parking Revenue per the negotiated agreement governing profits from Parking Operations. The revenue sharing estimates have elevated due to Climate Pledge Arena events and higher demand.

Add Operating Expenses for 5th & Mercer Building

Expenditures \$381,084

This revenue-backed item increases budget authority for operations and maintenance at the 5th and Mercer building. The building was formerly leased by KCTS (Cascade Public Media). Operating expenses, previously paid by the lessee, are now paid by Seattle Center which in turn is reimbursed via new short-term leases.

Colorcraft Building Lease Increase

Expenditures \$97,257

This item increases budget authority to accommodate anticipated raised rental costs for the building (“Colorcraft”) located adjacent to Seattle Center at 621 Second Avenue North, Seattle Washington. Seattle Center uses the Colorcraft building for office space, a metal fabrication shop, electrical shop, carpenter shop, and paint shop.

Building Emissions Performance Standard (BEPS) Assessment

Expenditures \$50,000

This item increases budget authority to comply with the City of Seattle’s Building Emissions Performance Standard (BEPS) climate law. The law focuses on emissions reduction or “decarbonization” which requires owners of nonresidential and multifamily buildings in Seattle to improve their buildings through strategies such as increasing energy efficiency and upgrading to zero emissions equipment.

Campus Signage Maintenance

Expenditures \$(96,549)

This item decreases budget authority for expenses related to campus electric signage, including warranty costs, internet fees, small repairs and the license used to manage the campus Wi-Fi network.

Update McCaw Fund Earned Revenue

Revenues \$(188,659)

This change request updates the earned revenue projection for McCaw Hall at Seattle Center.

Update McCaw Fund Expenditures

Expenditures \$(2,458,660)

This item aligns expenditures for McCaw Hall with expected revenue, and results in decreasing appropriations in General Fund and the department’s operating fund.

Seattle Center

Update Interfund Loan Payment

Expenditures \$965,116

Seattle Center acquired an interfund loan of \$4.6 million in 2019 to mitigate revenue loss related to the Key Arena closure, and received an additional \$13.4 million for COVID-era tenant rent abatements, all to be paid back by 2033 via earned revenue. This item increases budget authority to align appropriations with the repayment schedule. Annual payments on debt service total \$1.5 million in 2025 and \$1.575 million in 2026.

Federal Transit Authority Formula Fund Grants for 2025/2026

Expenditures \$(76,459)

Revenues \$(76,459)

This revenue-backed item adjusts appropriations for a federal formula grant from the Federal Transit Administration funding preventative maintenance for the Monorail.

Reconciliation of Pooled Benefits

Expenditures \$1,446,554

This item reconciles the Indirect Account for Pooled Benefits. These changes are technical in nature and do not affect services to the public.

Ongoing Changes from Current Year Legislation

Position Allocation 6.00

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance. This includes the addition of six Security Officers to service the Waterfront. These positions were originally scheduled to be included in the 2025 budget to coincide with the opening of the new Overlook Walk; they were instead added to supplemental legislation, because the Overlook Walk opened ahead of schedule in 2024.

Final Adjustments for Standard Cost Changes

Expenditures \$(136,683)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Fund Balancing

Revenues \$(266,802)

This is a technical item to record a fund balancing entry for the Seattle Center Fund which is primarily managed by this department.

Seattle Center

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

CIP Indirect Costs

The purpose of the CIP Indirect Costs Program is to provide the management, oversight and support of Seattle Center's Capital Improvement Program.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
CIP Indirect Costs	206,720	-	-	-

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Citywide Indirect Costs	2,482,926	4,543,509	3,821,162	4,124,708

Seattle Center

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This includes financial, human resource, technology, and business support necessary to provide effective delivery of the Department's services.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Departmental Indirect Costs	5,319,359	8,066,475	10,365,463	10,841,208
Full Time Equivalents Total	1.50	1.50	1.50	1.50

Divisional Indirect

The purpose of the Divisional Indirect Costs Indirect program is to fund administrative costs generated by sub-departmental units, including the management and oversight of Seattle Center's maintenance operations which span multiple work units and budget programs.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Divisional Indirect	385,677	(437,072)	(79,415)	(105,948)

Employee Benefits

The purpose of the Employee Benefits program is to fund salary and benefit costs associated with city provided leave benefits such as holiday pay, sick time, vacation time, executive leave or other leave benefits, including termination payouts for vacation and sick leave, health and dental insurance, workers compensation, and unemployment insurance contributions.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Employee Benefits	2,611,089	(5,673,183)	(4,188,114)	(4,232,732)

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery program is to recover costs associated with indirect programs within Leadership and Administrative BSL from the department's direct cost programs.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Indirect Cost Recovery Offset	(608,148)	4,764,055	(803,430)	(843,125)

Seattle Public Library

Tom Fay, Chief Librarian

(206) 386-4636

<http://www.spl.org>

Department Overview

Seattle Public Library (SPL), founded in 1891, includes the world-renowned Central Library, 26 neighborhood libraries, and a robust "virtual library" available 24/7 through SPL's popular website and Mobile Services. The Central Library and 26 neighborhood libraries provide essential services such as library collections, computers and Wi-Fi access, meeting rooms and study rooms, along with programs that promote lifelong learning, civic engagement, and economic vitality.

SPL is governed by a five-member Library Board of Trustees, who are appointed by the Mayor and confirmed by the City Council. The Revised Code of Washington (RCW 27.12.240) and the City Charter (Article XII, Section 5) grant the Board of Trustees "exclusive control of Library expenditures for Library purposes." The Library Board adopts an annual Operations Plan in December after the City Council approves SPL's budget appropriation.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Seattle Public Library. The department will continue to maintain consistent operating hours, offer a robust physical and electronic collection, and invest in community programs, while also engaging in national efforts such as providing access to banned books and advocating with lawmakers to address sharply escalating costs for digital materials.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the areas of information technology and library materials; the department also increased its staff vacancy rate savings and used accumulated fund balance savings to address the shortfall.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$9,137,061

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,248,372

Revenues \$166,187

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the

Seattle Public Library

department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Final Adjustments for Standard Cost Changes

Expenditures	\$(308,216)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Library Materials Reduction

Expenditures	\$(350,000)
Revenues	\$(350,000)

Physical material reductions include modest decreases to magazine and newspaper subscriptions, reference books, DVDs and Blu-Ray Discs, and adult fiction audio and printed materials. SPL will initiate the first year of a three-year phase-out of music CDs from its collection. SPL will also end its subscription to the ProQuest database due to its escalating cost and utilization. Seattle residents can continue accessing ProQuest via the King County Library System.

Information Technology Reduction

Expenditures	\$(100,000)
Revenues	\$(100,000)

As a result of continuous improvement programs started in 2022, SPL can decrease its budget for information technology accessories such as cabling. SPL is also updating its cost model for redundant equipment replacement, which will achieve efficiencies and result in savings. SPL will forgo purchases of new hybrid meeting carts while retaining maintenance and services for carts currently in ten branch locations. SPL will also consolidate e-mail-based patron notification and marketing capabilities to a more cost-effective platform without impacting customer service.

Increase Vacancy Savings Rate

Expenditures	\$(390,000)
Revenues	\$(390,000)

In the post-COVID crisis period, SPL has budgeted an approximately 4% staff vacancy rate. This item increases the budgeted staff vacancy rate to 5.5% to capture additional General Fund savings and prevent service-level reductions. SPL will prioritize positions essential to keeping open hours at library branches and maintaining 2019 levy operations commitments.

Use of Library Levy Fund Balance

Expenditures	-
Revenues	\$(1,900,000)

This item uses accumulated fund balance with the 2012 and 2019 levies, involving a revenue reduction to the Library operating fund reflecting a General Fund reduction, and reappropriation of levy funds. This one-time use of fund balance allows SPL to avoid service-level reductions in 2025 and 2026.

Seattle Public Library

Proposed Technical

Revenue Adjustments

Revenues \$9,867,804

This item reflects projected increased revenue for parking, fines and fees, printing and space rentals. 2025 will mark the first year since the outset of COVID-19 that total-Library generated revenue levels are projected to return to pre-pandemic levels. This item also aligns levy property tax revenues and interest earnings for 2025 and 2026 with SPL's long-term financial plan.

Fund Balancing

Expenditures \$(172,169)

This is a technical adjustment to bring the beginning balance for the 2019 Levy Fund into alignment with the spending plan associated with the voter approved 2019 Library Levy, in addition to net cost impacts associated with a labor bargaining agreement.

Revenue Fund Balancing

Revenues \$5,926,557

This is a technical item to record a fund balancing entry for the 2012 Library Levy Fund and 2019 Library Levy Fund, which are primarily managed by this department.

Department of Education and Early Learning

Dwane Chappelle, Director

(206) 233-5118

<http://www.seattle.gov/education>

Department Overview

The mission of the Department of Education and Early Learning (DEEL) is to transform the lives of Seattle’s children, youth, and families through strategic investments in education. DEEL advances this mission by investing in equitable education opportunities, high-quality learning environments, and student and family supports. DEEL investments contribute to four department results: (1) families have access to affordable, quality childcare, (2) children are kindergarten-ready, (3) students graduate high school college- and career-ready, and (4) students attain a postsecondary degree, credential, or certificate.

With investments across the prenatal-to-postsecondary continuum, DEEL supports children, youth, and families to address disparities in educational opportunity gaps. By braiding and blending resources from the Families, Education, Preschool, and Promise (FEPP) Levy, the Sweetened Beverage Tax (SBT) fund, the City's General Fund, Washington State’s Early Childhood Education and Assistance Program (ECEAP), and other grants, DEEL operates direct-service programs, contracts with community-based and institutional partners, and provides quality teaching and professional development supports to providers and educators.

Department of Education and Early Learning

Budget Overview

DEEL implements its mission to support Seattle’s children by leveraging its funding from the Families Education Preschool and Promise (FEPP) Levy; the City’s General Fund; Sweetened Beverage Tax (SBT) revenues; federal, state, and private grants; and partnerships with other City departments. The final year of the current FEPP levy programming runs through the 2025-2026 School Year. This budget reflects an alignment with the funding levels as described in the FEPP Implementation and Evaluation (I&E) plan and adjusts FEPP Levy funding to sustain some programming through the end of the 2025-2026 School Year. Because FEPP Levy expires at the end of 2025, the budget shows a significant reduction in revenues and expenditures in 2026. DEEL is actively engaged in planning for the levy renewal and a future budget will include a proposed levy renewal plan.

DEEL’s 2025-26 Proposed Budget includes funding for the Mayor’s Youth Mental Health Investment Strategy that was implemented in 2024. This initiative includes the integration of school-based mental health counselors and culturally specific programming provided by community-based organizations. The effort is part of a broader, multi-faceted city-wide strategy aimed at addressing youth mental health needs. This strategy ensures that services are culturally responsive, community-focused, evidence-based, and guided by the needs of youth and their families.

The General Fund revenue forecast for the City’s 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, General Fund programming for Culturally Sensitive and Responsive Programming, Restorative Justice, Mental Health, and some administrative costs are shifted from the General Fund to the FEPP Levy, Families and Education Levy, and Payroll Expense Tax.

Due to an ongoing reduction of Sweetened Beverage Tax (SBT) revenues, DEEL identified reductions starting in 2026 to their SBT funded programs, including to the Development Bridge Contract, the ParentChild+ Contract, and the SBT portion for the Child Care Health Program.

Department of Education and Early Learning

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$2,475,825

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$299,224

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Remove 2024 One-Time Adds

Expenditures \$(10,543,000)

This is a technical change to remove one-time budget adds from the baseline budget. The adjustments include removing \$2.9 million General Fund childcare worker payments, \$1 million Payroll Expense Tax funded K-12 Mental Health, \$500,000 Families, Education, Preschool, and Promise (FEPP) Levy funded K-12 Mental Health, \$2 million in FEPP funded K-12 Culturally Specific and Responsive programming, \$143,000 General Fund K-12 Culturally Specific and Responsive after school programming, and \$4 million in FEPP funded for Seattle Promise equity enhancements.

Youth Mental Health Baseline Alignment

Expenditures \$(20,000,000)

This item makes a technical change to align DEEL's baseline budget with current law for allowable uses of the Payroll Expense Tax funding.

Proposed Operating

General Fund Leadership and Administration Reduction

Expenditures \$(13,389)

This item reflects a 1% reduction to DEEL's General Fund leadership and administration budget and will result in General Fund savings to help address the City's forecasted General Fund deficit.

K-12 Sustain Educator Diversity

Expenditures \$750,000

This item uses FEPP Levy fund balance to sustain K-12 Educator Diversity programming provided in partnership with Seattle Public Schools and six community-based organizations through the end of the FEPP Levy (2025-26 School Year). This partnership focuses on increasing the number of BIPOC educators in Seattle Public Schools through recruitment, retention, and professional development activities.

Department of Education and Early Learning

K-12 Sustain Summer Learning

Expenditures \$1,000,000

This item uses FEPP levy fund balance to sustain Summer Learning Programming provided by 15 community-based organizations to over 1,000 students through the end of the FEPP Levy (2025-26 School Year). These funds directly support summer programming with enhanced or expanded academic, enrichment, and college and career readiness opportunities for Seattle-based K-12 youth disproportionately impacted by inequities in education including learning loss and disengagement. Learning loss and disengagement are more pronounced due to impacts of the COVID pandemic.

K-12 Sustain Youth Leadership

Expenditures \$392,914

This item uses FEPP levy fund balance to sustain K-12 Youth Leadership programming provided by six partner community-based organizations through the end of the FEPP Levy (2025-26 School Year). This partnership focuses on improving academic outcomes for historically underserved youth of color, immigrant and refugee youth disproportionately affected by systemic inequities through identity-affirming cultural education programming.

Post-Secondary Sustain Path to UW

Expenditures \$386,000

This item uses FEPP levy fund balance to sustain the Path to UW program through the end of the FEPP Levy (2025-26 school year). The Path to UW program provides access to transfer supports from dedicated advisors for Seattle Promise students as they continue their academic journey from Seattle Promise to the University of Washington.

Shift Administration Costs to FEPP Levy

Expenditures -

This budget-neutral item shifts \$397,000 in administrative labor costs from the General Fund to the FEPP Levy. This shift does not have a programmatic impact on DEEL's administrative capacity.

Shift Culturally Sensitive and Responsive Programming to FEPP Levy

Expenditures -

This budget-neutral item shifts \$875,000 for K-12 programs at community-based organizations that support Black Girls, LGBTQ+, Youth Leadership, and Educator Diversity from the General Fund to the FEPP levy. This transfer does not have a programmatic impact.

Shift Mental Health Programming to Payroll Expense Tax

Expenditures \$(500,000)

This item reduces \$500,000 General Fund for mental health supports. This programming will be incorporated in the Mayor's Mental Health Initiative funded with the Payroll Expense Tax.

Shift Restorative Justice Programming to FEL Levy

Expenditures \$(800,000)

This item shifts \$800,000 for Restorative Justice programming at Seattle Public Schools to the FEL levy in 2025. This shift does not have a programmatic impact and results in General Fund savings.

Department of Education and Early Learning

Sustain Post-Secondary Seattle Promise

Expenditures

-

This item uses FEPP Levy fund balance to sustain Seattle Promise programming, including equity enhancements. Seattle Promise enrollment is expected to exceed original FEPP Implementation and Evaluation plan estimates by nearly 600 students (67%). This additional appropriation will ensure DEEL has adequate resources to fully fund programming through its contract with Seattle Colleges for all Seattle Promise students in the final two school years of the FEPP Levy.

Youth Mental Health Funding Alignment

Expenditures

\$13,900,000

The Mayor's Youth Mental Health Investment Strategy, announced in June 2024, includes \$15 million of Payroll Expense Tax funding in both 2025 and 2026 between the Department of Education and Early Learning (\$13.9 million) and Seattle Parks and Recreation (\$1.1 million) for youth mental health prevention, early intervention, and treatment. Some of these investments may shift to the next levy, if approved by voters, in the 2026-2027 school year. This one-time item uses Payroll Expense Tax proceeds for the following initiatives:

Reach Out - \$560,000 in 2025 and 2026

This program focuses on preventing and early identification of youth mental health challenges by bridging the gap between the mental health needs of Seattle's youth and the limited availability of professional mental health resources. It also provides resources and training for parents, caregivers, and trusted adults to support youth in distress.

Telehealth Services - \$3.86 million in 2025, \$3.62 million in 2026

These services offer evidence-based online therapy for youth aged 13 to 24, along with support and resources for parents and guardians. These services include scheduled, one-on-one therapy sessions with qualified mental health professionals and interactive tools to support skill-building and individual well-being between sessions.

In Person Mental Health Supports - \$7.6 million in 2025, \$8.3 million in 2026

To expand access to mental health services, DEEL is also increasing in-person mental health support through existing School-Based Health Centers (SBHCs). Public Health Seattle King County (PHSKC) is adding an additional mental health clinician and a mental health coordinator at all SBHC sites at 21 middle and high schools, and providing system-wide mental health clinical consultation, training, and evaluation through partnerships.

In Person Community Hub. In alignment with Mental Health Supports, services include in person care to middle and high school students who are not served by School Based Health Centers. Programming will ensure that students have access to care during out of school time and during summer months. Services will also include expanding access to youth mental health care through community providers.

Universal Screening - \$1.5 million in 2025 and 2026

This service expands mental health screening in Seattle Public Schools to include high school students. Programming includes screening, brief intervention and referral to treatment and is designed to screen students periodically to proactively check-in on mental health, substance abuse and other dimensions of well-being.

Administration and Evaluation - \$380,000 in 2025, \$420,000 in 2026

This includes staffing and support to manage implementation, reporting, and evaluation of the Comprehensive Mental Health Initiative.

Department of Education and Early Learning

Early Learning Sweetened Beverage Tax Reduction

Expenditures -

Due to an ongoing reduction in SBT revenues that was included in the City's August revenue forecast, DEEL identified reductions to their SBT-funded programs in 2026 that includes the following: 1) Transfers 1.5 FTE coaches to FEPP to align with workload changes; 2) reduces the Developmental Bridge Contract by 9%; 3) reduces the ParentChild+ Contract by 7%; and 4) reduces the SBT portion of the Child Care Health Program by 14%. SBT programming is not impacted in 2025 due to the one-time use of SBT reserves.

Proposed Technical

Early Learning FEPP Spending Plan Alignment

Expenditures	\$5,357,260
Revenues	\$2,205,000
Position Allocation	2.00

This item increases the Early Learning FEPP budget in 2025 and reduces it in 2026 to align with the 7-year Spending Plan included in the FEPP Implementation and Evaluation (I&E) Plan that was adopted by ordinance in 2018. The spending plan is based on levy revenue projections and program needs. The current FEPP levy expires in 2026; if the levy is renewed, the budget will be updated to reflect the new spending plan.

Two positions are added to support the planned expansion of the Seattle Preschool Program, which is expected to serve 2,500 students by the final year of the levy. These positions include an Early Education Specialist that monitors the contract and provides oversight of preschool providers and a Human Services Coordinator that is responsible for enrollment.

ECEAP Grant Award Increase

Expenditures	\$500,945
Revenues	\$500,945

This revenue-backed item increases DEEL's appropriation from additional funds received from the state's Early Childhood Education and Assistance Program (ECEAP). This is a recurring grant and this amount provides appropriation for DEEL in 2025 and 2026.

FEPP Levy Revenue

Revenues	\$3,013,468
----------	-------------

This item modifies FEPP Levy revenues in 2025 and 2026 to align with anticipated revenues in 2025 and 2026 and makes an adjustment to reflect ongoing investment earnings.

Final Adjustments for Standard Cost Changes

Expenditures	\$(69,104)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Department of Education and Early Learning

K-12 FEPP Spending Plan Alignment

Expenditures \$669,551

This item increases the K-12 FEPP budget in 2025 and reduces it in 2026 to align with the 7-year Spending Plan included in the FEPP Implementation and Evaluation (I&E) Plan that was adopted by ordinance in 2018. The spending plan is based on levy revenue projections and program needs. The current FEPP levy expires in 2026; if the levy is renewed, the budget will be updated to reflect the new spending plan.

Leadership and Administration FEPP Spending Plan Alignment

Expenditures \$100,000

This item increases the Leadership and Administration FEPP budget in 2025 and reduces it in 2026 to align with the 7-year Spending Plan included in the FEPP Implementation and Evaluation (I&E) Plan that was adopted by ordinance in 2018. The spending plan is based on levy revenue projections and program needs. The current FEPP levy expires in 2026; if the levy is renewed, the budget will be updated to reflect the new spending plan.

Ongoing Changes from Current Year Legislation

Position Allocation 1.00

This item includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

Post-Secondary FEPP Levy Spending Plan Alignment

Expenditures \$(142,553)

This item makes technical adjustments to align the budget with the Families, Education, Preschool and Promise Levy Implementation & Evaluation Plan. The plan includes a 7-year program budget summary and is based on cost model projections that include non-labor inflation, labor cost changes, and other programmatic changes.

Upward Bound Grant Award Increase

Expenditures \$20,753

Revenues \$20,753

This item increases appropriation authority to reflect an increase in the federal Upward Bound grant. The Upward Bound program serves high school students from low-income families and the goal of the program is to increase the rate at which participants complete secondary education and enroll in and graduate from institutions of post-secondary education.

Appropriations by Budget Summary Level and Program

DEEL - BO-EE-IL100 - Early Learning

The purpose of the Early Learning Budget Summary Level is to help children enter school ready to succeed, provide preschool teachers with resources and training, and assist Seattle families with gaining access to early learning resources.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Early Learning	70,977,770	76,219,289	80,627,765	52,321,813
Total	70,977,770	76,219,289	80,627,765	52,321,813
Full-time Equivalents Total*	65.50	65.50	67.50	67.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Department of Education and Early Learning

DEEL - BO-EE-IL200 - K-12 Programs

The purpose of the K-12 Division Budget Summary Level is to manage K-12 investments in elementary, middle, and high school, as well as health strategies across the K-12 continuum.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
K-12 Programs	41,723,142	62,045,578	54,260,621	36,639,714
Total	41,723,142	62,045,578	54,260,621	36,639,714

Human Services Department

Tanya Kim, Director

(206) 386-1001

<https://www.seattle.gov/human-services>

Department Overview

The mission of the Human Services Department (HSD) is to connect people with resources and solutions during times of need, so all Seattle residents can live, learn, work, and take part in strong and healthy communities. HSD contracts with more than 200 community-based human service providers and administers programs to ensure Seattle residents have food and shelter, access to health care, opportunities to gain social and economic independence and success, and many more of life's basic necessities. HSD also serves King County as the Area Agency on Aging. HSD is committed to working with the community to provide appropriate and culturally responsive services.

Through the lens of racial equity, HSD supports programs, initiatives, and policies that address six investment impact areas:

1. Preparing Youth for Success
2. Supporting Affordability and Livability
3. Addressing Homelessness
4. Promoting Public Health
5. Supporting Safe Communities
6. Promoting Healthy Aging

HSD's work is funded by a variety of revenue sources, including federal, state, and inter-local grants, as well as the City's General Fund, Sweetened Beverage Tax Fund, Short Term Rental tax revenues, and the Payroll Expense Tax Fund.

Human Services Department

Budget Overview

The General Fund revenue forecast for the City's 2025 and 2026 Proposed budgets is insufficient to cover expected costs. While the 2025 and 2026 Proposed Budget increases the Human Services Department's overall General Fund budget compared to the 2024 Adopted Budget, some General Fund reductions were identified to mitigate this shortfall in revenues. Taken together the reductions strive to minimize the impact to direct service levels.

The 2025 and 2026 Proposed Budget for the Human Services Department (HSD) is \$364.7 million in 2025 and \$377.2 million in 2026. This is a 6.9% increase in 2025 above HSD's 2024 Adopted Budget and a 3.4% increase in 2026 above HSD's 2025 Proposed Budget. The proposed budget prioritizes investments in the areas of addressing homelessness, advancing community safety, and streamlining public health.

To support existing direct service providers, the proposed budget includes funding for inflationary increases for HSD's service provider contracts in 2025 (\$9.8 million) and 2026 (\$16.8 million).

The proposed budget for the Human Services Department includes \$128 million in 2025 and \$134.8 million in 2026 for addressing homelessness which equates to a 12% increase in 2025 and a 17% increase in 2026 compared to 2024 funding levels. HSD's homelessness budget is 71% of the citywide homelessness budget in 2025 (\$180.2 million total) and 70% of the citywide homelessness budget in 2026 (\$192.4 million in total).

For addressing homelessness, the proposed budget includes \$3.2 million of new ongoing investments to sustain the City's shelter capacity, \$2.6 million of new funding for an enhanced shelter in 2025 which will further expand in 2026 to provide additional behavior health services to those in need, and \$300k to expand the efforts of the City's Unified Care Team for which HSD coordinates outreach and referrals to shelter for people experiencing homelessness.

Starting in 2025, \$11.5 million of funding for homelessness outreach and prevention services will be managed by the City's Homelessness Division instead of the King County Regional Homelessness Authority (KCRHA) like previous years. After accounting for the operational change, the proposed budget adds funding for KCRHA in 2025 and 2026. It adds \$6.7 million in 2025, equating to a total of \$104.6 million for KCRHA in 2025, and adds an additional \$5.9 million in 2026 for a total of \$110.5 million for KCHRA in 2026.

HSD's proposed budget advances community safety. HSD's Supporting Safe Communities Budget Summary Level is \$61.9 million in 2025 and \$63.6 million in 2026; it includes investments managed by HSD's Homelessness Division and investments managed by HSD's Safe and Thriving Communities (STC) Division. STC manages the department's investments in community safety and violence prevention programs. The proposed budget includes \$8.15 million of new ongoing investments to support safe communities: \$2 million for human trafficking, \$4.25 million to address gun violence in schools and protect youth, and \$1.9 million in ongoing funding to sustain the Third Avenue Project's work conducting outreach and engagement along the Third Avenue corridor in the downtown core, previously funded with one-time funding.

Additionally, the proposed budget maintains existing investment levels in public health programming and streamlines the public health investments in HSD. It transfers \$5.6M of public health related investments to the Public Health Budget Summary Level that were previously in other HSD Budget Summary Levels, for a total investment of \$25 million in 2025. The City is continuing to expand Mobile Integrated Health program, SFD will add an additional team to the Post Overdose Team (H99) to conduct patient follow-up and recovery system navigation. It is the intention of the executive to add 2 counselor positions in HSD to support the Mobile Integrated Health expansion.

Human Services Department

Description of Incremental Budget Changes

Baseline

One-time Items Removed from Baseline Budget

Expenditures	\$(10,744,520)
Revenues	\$(730,020)

The item removes one-time revenue and expenditure budget appropriated in the 2024 Adopted Budget from the 2025-2026 Proposed base budget:

- \$992k General Fund for food and meal programs: \$650k for an emergency food fund, \$300k for meal providers, \$42k for senior meal programs.
- \$2.6M General Fund for homelessness programs administered by the KCRHA: \$500k for behavioral health services, \$100k for relocation of Rosie’s Tiny Home Village, \$500k for contract inflation and provider pay, and \$1.5 million for RV parking and storage.
- \$5.14M General Fund for community safety programs: \$2 million for Public Defender Association for the Let Everyone Advance with Dignity (LEAD) and CoLEAD programs, \$1.9 million for the Third Avenue Project, \$500k for a gun violence reduction program, \$240k for a dedicated phone line for crisis prevention and intervention services for first responders, \$200k for mental health resources for crisis responders, \$200k for pre-filing diversion, and \$100k for survivors of police violence.
- \$450k General Fund for programs addressing gender-based violence
- \$800k General Fund for programs supporting public health: \$500k for behavioral health services for the Latino community and \$300k for comprehensive substance use disorder treatment.
- \$582k for opioid response backed by Opioid Settlement Fund revenue
- \$148k for data system replacement, backed by prior year grant revenue

Additionally, this item does not add budget for one-time reductions implemented in the 2023-24 budget process:

- \$100k for food program evaluation
- \$177k for youth development programs
- \$125k for Seattle Neighborhood Group community safety program
- \$1.8M to expand the Mobile Crisis Team program

Contract inflation

Expenditures	\$9,854,756
--------------	-------------

The Seattle Municipal Code (3.20.060) currently requires an annual inflationary adjustment based on the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for 12 months ending in June. For 2025, this is 4.4% increase and for 2026 it is an additional 3% increase on HSD’s provider contracts.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$8,875,792
--------------	-------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Human Services Department

Reverse Bargained Annual Wage and Market Wage Increases to Base Budget from the Human Services Fund (16200) Budget

Expenditures \$(4,819,809)

This item removes the budget added to the Human Services Fund (16200) in the baseline item titled "Bargained Annual Wage and Market Wage Increases to Base Budget". The budget added in this change request was not tied to a revenue source and overstates the budget in the Human Services Fund (16200). The budget for the annual wage increases for HSD employees is included in HSD's base budget and other change requests that are backed by revenue.

Correction to Baseline Revenues

Expenditures \$192,577

Revenues \$192,577

This item corrects the budget in the Human Services Fund by removing negative "use of fund balance" revenue lines and zeroing out negative retirement account lines without a funding source. These lines were part of the baseline budget related to the reduction in the retirement account in the 2024 Adopted Budget.

Community Development Block Grant (CDBG) Baseline Adjustment

Expenditures \$(4,947,431)

Revenues \$(4,947,432)

This item removes HSD CDBG baseline amounts in all agency services and retains CDBG in baseline for administration.

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,334,052

Revenues \$603,150

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Open an Enhanced Shelter

Expenditures \$2,256,000

Funding in 2025 (combined with existing base funding) will support the opening of an enhanced shelter and shifts funding and bed capacity currently at the Pearl Warren Building in the Chinatown-International District (Navigation Center), for an enhanced shelter in a new location that will support a total of 60 shelter units.

In 2026, the amount for the enhanced shelter increases to \$5,278,466. The increased level of funding will deepen and expand wrap-around services and provide robust behavioral health services. The services will include access to mental health and substance use disorder treatment services, crisis assistance, and access to basic needs. The enhanced shelter will prioritize services for unsheltered homeless adults who are living with significant un/under-treated challenges related to behavioral health and substance use disorders.

Human Services Department

Add \$1 million for Tiny House Villages

Expenditures \$1,000,000

This item adds \$1 million in ongoing funding to address an operating gap in the City’s Tiny House Village (THV) investments, which provides ongoing funding for operating and behavioral health services that were previously funded through one-time investments and ensures existing THVs remain open.

Add Ongoing Funding for Shelter Previously Supported with COVID-19 Relief Funds

Expenditures \$2,200,000

Since 2022, \$2.2 million of funding for Africatown’s Benu shelter with 150 beds serving African American men was funded with Coronavirus Relief Funds that expire in December 2024. This item adds \$2.2 million of ongoing funding to sustain the shelter and bed capacity into future years.

Community Development Block Grant (CDBG) for Homelessness Shelters

Expenditures \$3,178,870

Revenues \$3,178,870

For the 2025-2026 Proposed Budget, the administration removed CDBG funds from departments’ baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

This item continues \$3,150,000 of CDBG for homeless shelter services. Consistent with prior years, the funding will be included in the City’s contract with the King County Regional Homelessness Authority.

Expand Unified Care Team Shelter Referrals to Weekends

Expenditures \$308,074

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from 5 to 7 days per week.

This item adds \$308,074 to allow for up to two shelter programs to offer extended intake hours. This would allow the UCT to be able to make referrals to shelter on weekends.

Ongoing Funding for the Unified Care Team Director

Expenditures \$210,000

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from 5 to 7 days per week.

This item adds \$210,000 for the UCT Director to oversee the interdepartmental workgroup tasked with resolving encampments and ensuring public spaces are accessible Citywide. In previous years this position was funded on a one-time basis with HSD’s base budget.

Unified Care Team Administrative Positions

Expenditures \$279,070

Position Allocation 2.00

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness,

Human Services Department

removes trash and debris from encampments, and restores public spaces.

This item adds budget and 2 FTE to HSD for positions supporting the Unified Care Team that were previously funded with one-time funding in the Finance and Administrative Services Department budget:

- 1 Admin Spec III that provides high-level program and customer support by receiving, researching and responding to routine inquiries about unauthorized encampments.
- 1 Admin Staff Analyst that develops responses to complex inquiries and complaints regarding unauthorized homeless encampments and the City's homelessness programs and response efforts, supports UCT leadership through communications and proactive community messaging, and identifies recommendations on policy changes.

One Seattle Outreach

Expenditures \$150,000

This item provides ongoing funding for the One Seattle Outreach (OS Outreach) program, currently piloted with one-time resources. OS Outreach is a component of the Downtown Activation Plan (DAP) that aims to engage individuals who are living on the street or otherwise in need of support services.

The goal of the OS Outreach program is to build relationships with people to facilitate connections to resources that improve their stability and well-being. The program works primarily in high-traffic areas of Downtown Seattle, connecting with individuals who face homelessness, substance use issues, struggle with affordability or are otherwise in need of support services.

Align Shelter & Village Lease Budget to Actual Lease Costs

Expenditures \$(195,055)

This item reduces HSD's budget by \$195,055 to align HSD's actual shelter lease budget to actual costs. This reduction does not impact existing homeless shelter programs but instead right-sizes the line item to actual costs.

Reduce Funding for Administration

Expenditures \$(85,210)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces funding for administration in the City's contract with the with the King County Regional Homelessness Authority (KCRHA) by \$85,210.

Addressing Gun Violence in Schools

Expenditures \$4,250,000

Position Allocation 1.00

This item adds \$4.25 million to support school-based violence intervention specialists, expand safe passage programs, expand case management for students most impacted by gun violence, and establish a family resource fund for those participating in case management.

Commercial Sexual Exploitation Interventions

Expenditures \$2,000,000

Position Allocation 5.00

This item adds funding to provide support for survivors of commercial sexual exploitation and sex worker interventions, including providing appropriate community-based support resources and advocates for systems navigation.

Human Services Department

Ongoing Funding for the Third Avenue Project (TAP)

Expenditures \$1,900,000

This item adds ongoing funding to continue the Third Avenue Project (TAP) in 2025. TAP was previously funded on a one-time basis. This program has operated since late 2022 and addresses public safety concerns in the 3rd Avenue community.

Remove Budget for Strategic Advisor for Public Safety Systems Improvement

Expenditures \$(199,274)

This item reduces funding for a Strategic Advisor position budgeted in 2023 for systems improvements supporting HSD's safety portfolio. This position is vacant.

Eliminate General Fund Support for Health Home Program

Expenditures \$(424,507)

This item removes \$424,507 from the Health Home program. The Health Home program, launched in 2017, coordinates care and services for Medicaid beneficiaries who have chronic health conditions. City general funds were included to help launch and stabilize the pilot. In 2024, the program revenue became self-sustaining by meeting their target caseloads, allowing for the removal of general fund support.

Opioid Settlement Fund Appropriation Increase

Expenditures \$209,801

Revenues \$256,904

This item increases the Opioid Settlement Fund appropriation in HSD by \$209,803.

It adds \$93,483 in ongoing funding for:

- Administration (\$13.5k)
- Opioid Abatement Council (\$13.5k)
- HSD staffing costs to support Health One, the Seattle Fire Department's Mobile Integrated Health response unit (\$45.5k)
- Contract inflation for Drug User Health Services (\$20.5k)

This item also adds one-time budget of \$116,318 to cover the cost of an FTE in HSD Director's Office to lead public health-related work. The proposed budget change titled "Bargained Annual Wage and Market Wage Increases to Base Budget" central change request adds appropriation of \$47,103 in 2025 and \$62,671 of Opioid Settlement Funds. The revenue for that change is included in this item.

Community Development Block Grant (CDBG) for a Community Facilities Request for Proposal (RFP)

Expenditures \$1,705,116

Revenues \$1,705,116

For the 2025-2026 Proposed Budget, the administration removed CDBG funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

This item adds \$1,705,116 of CDBG funds to continue funding for community facilities. HSD plans to establish an annual RFP process where Seattle's human service agencies can apply for capital funding on a predictable cycle that is equitable and transparent.

Human Services Department

Community Development Block Grant (CDBG) for Minor Home Repair

Expenditures	\$500,000
Revenues	\$500,000

For the 2025-2026 Proposed Budget, the administration removed CDBG funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

This item adds \$500,000 of CDBG funds to continue the Minor Home Repair Program that preserves affordable housing and prevents loss of housing units specifically for low-income seniors and people with disabilities.

Eliminate Funding for Legal Counsel for Youth and Children

Expenditures	\$(123,662)
--------------	-------------

This budget item eliminates funding for Legal Counsel for Youth and Children to provide homeless youth free legal assistance. The City of Seattle currently provides approximately half of the overall funding for this program. An estimated 49% of the funding for the program would remain, funded by other funders.

Eliminate Funding for Public Benefits Legal Assistance

Expenditures	\$(49,901)
--------------	------------

This item eliminates funding for a public benefits legal assistance program which provides direct legal representation, advice and counsel to single adults and families who have received an adverse decision regarding denial, termination, reduction or overpayment of state public assistance. HSD funds a small portion (9%) of the overall program. The program is currently run by Solid Ground.

Eliminate Funding for United Way Tax Prep Assistance

Expenditures	\$(100,000)
--------------	-------------

This item removes \$100,000 from HSD's budget that currently funds United Way of King County free tax preparation services for low- and moderate-income households.

Reduce funding to Support Administration for HSD's Youth and Family Empowerment Division

Expenditures	\$(107,420)
--------------	-------------

This item eliminates administrative funding set aside for language access, community engagement and professional development for the Youth and Family Empowerment Division.

Reduce Support for Information and Assistance Community Living Connections

Expenditures	\$(150,000)
--------------	-------------

This item reduces \$150,000 or 9.5% of total funding for Aging and Disability Services' budget for Information and Assistance Community Living Connections which is first point-of-contact call center services that navigate and guide older adults and caregivers to resources and programs that enable them to age in their homes and communities.

Reduction to Youth and Young Adults for Success Portfolio

Expenditures	\$(250,000)
--------------	-------------

This item is a 5% reduction to Supporting Youth and Young Adults for Success portfolio, which funds community agencies to provide preemployment skill building and mentorship. The \$250,000 is currently unallocated in 2024 and the proposed reduction would not impact service levels in 2025.

Human Services Department

Eliminate Funding for Technical Assistance Program for Community Organizations

Expenditures \$(215,000)

This item eliminates funding for technical assistance to a cohort of eight community organizations currently provided by Communities Rise. It does not directly impact human service delivery.

Eliminate General Fund Support for Food System Support & Food Evaluations

Expenditures \$(120,000)

This item eliminates general fund support for food and meals evaluation and community engagement which will reduce HSD's ability to understand program impact and best meet community needs.

Eliminate Unallocated Budget for Community Facilities

Expenditures \$(259,066)

This item eliminates \$259,066 of General Fund in the Community Facilities budget program. This budget has been used to fund community facilities projects in prior years but was unallocated in 2024. The 2025 budget supports \$3.6 million for Community Facilities programs.

Position Reduction to Protection and Advocacy Program Support

Expenditures \$(93,000)

Position Allocation (0.75)

This item reduces \$93,000 and 0.75 FTE from HSD's budget for a Senior Grants and Contract Specialist position in HSD's Aging and Disability Services Division. The position is currently vacant.

Reduce General Fund Support for Aging and Disability Services Case Management

Expenditures \$(1,100,000)

This item reduces Aging and Disability Services Case Management's in-house labor budget by \$1.1 million. The costs will be shifted and funded with Washington State Department of Social and Health Services Title XIX grant funds. HSD will continue to meet its obligation to provide Medicaid case management services to elderly, chronically ill, and disabled persons, who are at risk of institutionalization. This reduction can be absorbed in 2025 and 2026 without impacting service levels.

Reduce Unallocated Preparing Youth for Success Budget

Expenditures \$(70,000)

In 2024, these funds were used as a one-time investment and are unallocated in 2025.

Reduction to Aging Network Discretionary Budget

Expenditures \$(100,000)

This item reduces \$100,000 from HSD's Aging Network discretionary budget. The Aging Network's discretionary budget funds case managers who conduct face-to-face assessments and develop care plans for adults aged 55 and older who are not eligible for Medicaid Long-Term Services. These costs will be shifted and funded with Washington State DSHS Senior Citizen Services Act and Older Americans Act grant funds.

Human Services Department

Remove Budget for Vacant Senior Planning and Development Specialist Position

Expenditures \$(174,524)

Eliminates funding (\$174,524 GF ongoing) for a new Senior Planning and Development Specialist supporting the Youth and Family Empowerment (YFE) Division. The position is vacant.

Reduction to Sweetened Beverage Tax Funding for Culturally Nourishing Foods Programs in 2026

Expenditures -

Due to an ongoing annual reduction of approximately \$1.0 million in Sweetened Beverage Tax (SBT) revenues that was included in the City's August revenue forecast, this item when combined with the item titled "Reduction to Sweetened Beverage Tax Funding for Food Bags for Childcare Providers in 2026" reduces approximately 8% of the department's SBT funding in 2026. SBT revenues and expenditures in 2025 are not impacted with this change.

This item removes \$353,784 in 2026 for Culturally Nourishing Foods which provides contract funding for groceries, meals, transportation, and nutrition education.

Reduction to Sweetened Beverage Tax Funding for Food Bags for Childcare Providers in 2026

Expenditures -

Due to an ongoing annual reduction of approximately \$1.0 million in Sweetened Beverage Tax (SBT) revenues that was included in the City's August revenue forecast, this item, when combined with the item titled "Reduction to Sweetened Beverage Tax Funding for Culturally Nourishing Foods Programs in 2026" reduces approximately 8% of the department's SBT funding in 2026. SBT revenues and expenditures in 2025 are not impacted with this change.

This item reduces \$80,000 in SBT funds in 2026, eliminating HSD funding for produce bags for in-home family childcare providers (aka Farm to Child Care pilot). The produce bags enhance the food already provided through HSD's ongoing Child Care Nutrition Program (CCNP).

Reduce General Fund Support for Federal Grants Management Unit

Expenditures \$(179,690)

This item reduces the general fund support for HSD's Federal Grants Management Unit by \$179,690. HSD will use existing Community Development Block Grant appropriation to cover these costs.

Remove Budget for Vacant Senior Buyer Position

Expenditures \$(104,801)

This item reduces the general fund budget of \$104,801 for a Senior Buyer position in the Human Services Department. The position is vacant.

Shift Budget for Administrative Staff Analyst

Expenditures \$(96,906)

This item reduces \$96,906 of general fund supporting a portion of an Administrative Staff Analyst in the Leadership & Administration Budget Summary Level. HSD has identified other funding in the base budget that can replace the general fund. There is no staffing impact resulting from this change.

Human Services Department

Adjustment to Human Services Fund Revenue Backed Appropriation

Expenditures	\$9,317,074
Revenues	\$9,317,074

This item adds revenue backed budget appropriation of \$9,317,074 in 2025 and \$9,606,354 in 2026 to reflect the anticipated award amounts of over 16 grants HSD will receive and increases to other ongoing revenue sources.

Proposed Technical

Ongoing Changes from Current Year Legislation

Position Allocation	25.00
---------------------	-------

This change includes ongoing position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance. It continues:

- 19 full-time positions for the Unified Care Team: 5 Strategic Advisor I positions, acting as Regional Coordinators, and 14 Counselor positions will support the Unified Care Team's geographic approach to outreach with unsheltered individuals connecting them with shelter and other resources.
- 2 full-time positions in the Human Services Department to support HSD's homelessness portfolio: 1 Sr. Grants & Contracts Specialist and 1 Executive Assistant.
- 4 full-time grant funded positions in the Human Services Department: 1 Sr. Grants and Contracts Specialist and 3 Counselor positions. These positions are funded by increased ongoing revenue from the TXIX grant.

Final Adjustments for Standard Cost Changes

Expenditures	\$181,152
Revenues	\$9,724

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Internal Position Transfers

Position Allocation	-
---------------------	---

This item transfers positions between multiple budget programs in HSD to correctly align the FTE authority with the location of the budget for the position.

Redirect Budget for Position on Loan to the Mayor's Office

Expenditures	-
--------------	---

This item transfers \$205k of budget from the Promoting Public Health Budget Summary Level to the Leadership and Administration Budget Summary Level for an Operations Manager position on loan to the Mayor's Office.

Transfer AWI Appropriation to Align with Positions

Expenditures	-
--------------	---

This item transfers appropriation added in the change titled "Bargained Annual Wage and Market Wage Increases to Base Budget". This transfer moves budget into the correct Budget Summary Level based to align with HSD positions.

Human Services Department

Transfer Budget for Aging and Disability Services Division Director to Healthy Aging Budget Summary Level

Expenditures -

This item transfers \$217k of budget for the Aging and Disability Services Division director from the Supporting Affordability and Livability Budget Summary Level to the Promoting Healthy Aging Budget Summary Level.

Transfer budget for HSD Homelessness Director

Expenditures -

This item transfers \$235k of budget for the Director of Homelessness from the Leadership & Administration Budget Summary Level to the Addressing Homelessness Budget Summary Level.

Transfer Budget to Align Youth Investment Budget

Expenditures -

This item is a technical adjustment which transfers of \$276k from the Promoting Public Health Budget Summary Level and \$309k from the Supporting Affordability and Livability Budget Summary Level to the Preparing Youth for Success Budget Summary Level for proper alignment of youth investments in HSD's portfolio.

Transfer Crisis Response Team to Seattle Police Department

Expenditures \$(670,105)

This item transfers \$670,105 of General Fund budget in the Supporting Safe Communities BSL to Seattle Police Department. This funding will be utilized for pay for the Crisis Responders hired within SPD as City employees. This work was formerly contracted to a community-based organization, DESC, but has now been moved in-house into SPD.

Reallocate Contract Inflation Added in Error

Expenditures \$(894,844)

This item removes \$894,844 of unallocated funds from HSD's Aging and Disability Services Division's budget that was added erroneously in prior years for contract inflation.

Homelessness Division Budget Realignment

Expenditures -

Revenues -

The 2025-2026 Proposed Budget expands HSD's Homelessness Division by transferring funds from the King County Regional Homelessness Authority (KCRHA) back to the City and growing the existing team of 11 FTEs to 33 FTEs. This was first accomplished in the 2024 supplemental budget and is continued in the Proposed Budget. The Proposed Budget repurposes 1 HSD FTE and adds 21 FTEs to continue HSD's Homelessness Division structure established in 2024. The new structure is required to assume direct oversight of prevention and outreach investments transferred back to the City from the KCRHA and to implement the expansion of Unified Care Team. Base budget is used to fund the additional FTEs, along with increased funding for administration from the Housing Levy.

Within HSD's Addressing Homelessness Budget Summary Level this change:

- Transfers \$7.3 million of budget for outreach from the KCHRA budget program to City Managed Budget Program to fund contracts (\$5.8M) and to fund 14 FTE Counselors (\$1.5M) for the Unified Care Team.
- Transfers \$2.8 million of budget for prevention from the KCHRA budget program to City Managed Budget Program to for prevention services contracts (\$2.7M) and for contract administration (\$231K).

Transfers \$1.3M of Housing Levy budget funding from the KCRHA budget program to the City Managed budget program for contracted services.

Human Services Department

Public Health Budget Realignment

Expenditures -

This item is a technical adjustment that centralizes funding for public health related programs in the Human Services Department into the Promoting Public Health Budget Summary Level.

General Fund Budget Adjustment

Expenditures -

This item adjusts the baseline General Fund budget in the Human Services Department to align with department operations. Primary changes impacting budget summary levels include:

- \$770k transfer from the Preparing Youth for Success Budget Summary Level to the Supporting Affordability Budget Summary Level based to align allocation of labor budget in the Youth and Family Empowerment division.
- Reallocation of labor budget and changes to vacancy assumptions in the Safe and Thriving Communities, Leadership and Administration, and Homelessness divisions.

Human Services Fund Budget Adjustment

Expenditures \$(1)

Revenues \$(1)

Adjustment to the Human Services Fund base budget to correct and align the 2025-2026 Proposed Budget with HSD's current allocation of costs for labor, operating, and contracts to revenue sources.

Opioid Settlement Fund Alignment

Expenditures -

Revenues -

This item transfers base Opioid Settlement Fund budget in the Human Services Department to align with implementation in 2025 and 2026. There is no change to the budget summary level.

Fund Balancing Entry for the Human Services Fund

Revenues -

This is a technical item to record a fund balancing entry for the 16200 Human Services Fund, which is primarily managed by the Human Services Department.

Fund Balancing Entry for the Opioid Settlement Fund

Revenues \$4,430

This is a technical item to record a fund balancing entry for the 14510 Opioid Settlement Fund, which is primarily managed by the Human Services Department.

Human Services Department

Office for Civil Rights

Derrick Wheeler-Smith, Director

(206) 684-4500

<http://www.seattle.gov/civilrights/>

Department Overview

The Office for Civil Rights (OCR) envisions a city of thriving and powerful communities that fosters shared healing and belonging. The OCR advances civil rights and removes barriers to equity by enforcing illegal discrimination laws in Employment, Housing, Public Places, Fair Contracting, Title VI and ADA Title II in the City of Seattle. We also work to realize the vision of racial equity by leading the City of Seattle's Race and Social Justice Initiative. The Race and Social Justice Initiative (RSJI) is the City of Seattle's long-term commitment to end racism and achieve racial equity in Seattle.

OCR works to achieve equity and advance opportunity in Seattle by:

- developing policies and promoting partnerships to achieve racial equity and social justice;
- enforcing City, state and federal antidiscrimination laws;
- providing free civil rights trainings and technical assistance to businesses and community groups;
- staffing the Seattle Human Rights Commission, Seattle Women's Commission, Seattle Lesbian, Gay, Bisexual, Transgender, and Queer Commission, and the Seattle Disability Commission;
- administering the City of Seattle's Participatory Budgeting process; and
- leading the City's Race and Social Justice Initiative (RSJI). The core focus for RSJI is to eliminate institutional and structural racism within and by the City of Seattle.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office for Civil Rights (OCR). The department will continue to invest in programs for civil rights enforcement and policy analysis, city commissions, and the City's Race and Social Justice Initiative.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made to OCR's grant programs and outreach and engagement programming.

Total Incremental Changes	\$(122,148)	(3.50)
Total 2025 Proposed Budget	\$7,863,947	35.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(5,125)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$646,339

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Office for Civil Rights

Transfer to Create Commissions Division

Expenditures	-
Position Allocation	-

This budget-neutral item transfers budget authority from the Race and Social Justice (RSJI) Division, Policy Division and Leadership and Administration Division to the Commissions Division; this also transfers two Strategic Advisors from the RSJI Division and two Planning and Development Specialists from the Policy Division. The Commissions Division supports the Seattle Human Rights, Seattle Disabilities, Seattle Women's and Seattle LGBTQ Commissions, and performs research and analysis related to commissions' work.

Proposed Operating

Final Adjustments for Standard Cost Changes

Expenditures	\$(123,362)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Grant Programming Adjustment

Expenditures	\$(550,000)
--------------	-------------

This item reduces the Collective Network: Community Alternatives to Incarceration and Policing grant program by \$490,000. The program, budgeted at \$516,000, will continue to provide resources for community-based organizations supporting alternatives to addressing harm created by the criminal legal system. Initially funded with one-time resources, each grant cycle has focused on a different theme; past themes include black transgender and gender diverse communities (2021), and community-owned responses to domestic violence (2023).

This item also eliminates dedicated budget for the Racial Equity Fund (\$60,000). The Racial Equity Fund grant program provides small grants for technical assistance and capacity support. OCR has not made any awards the last two years. The Racial Equity Fund strategies and technical support continues under the Collective Network grant program; with each request for proposals, OCR offers technical assistance to all applicants that have an operating budget of \$2 million or less.

Outreach and Engagement Adjustment

Expenditures	\$(90,000)
--------------	------------

The item will decrease by half funding for consultants to engage with higher barrier community members and community organizations that develop programs to address and improve living experiences for such populations; it will also reduce funding for data collection and analysis. OCR will continue to conduct listening sessions with individuals who are unhoused, housing insecure, or may be struggling with substance use to help identify high-barrier communities' needs and priorities and bring them into the policymaking process.

This item also reduces support for Race and Social Justice Initiative-related outreach and events by \$5,000 or one-third; the department may explore partnerships with other departments or sponsorships with private funders.

Office for Civil Rights

Proposed Technical

Remove Unfunded Title VI Coordinator Position

Position Allocation (0.50)

This item removes position authority for a part time Title VI Coordinator position. This position, added in the 2021 Adopted Budget, has remained unfilled and was unfunded in the 2023 Adopted Budget. OCR's Enforcement Division has incorporated Title VI compliance and monitoring related to acceptance of federal funds into its work program.

Remove Participatory Budgeting Sunsetting Positions

Position Allocation (3.00)

OCR's role in the Participatory Budgeting process officially ends effective December 2024. The projects have been identified and the work has transitioned to City departments with projects. This item is a technical change to remove the sunsetting positions.

General Fund Revenue Adjustment

Revenues \$1,000

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

General Fund Revenue Adjustment

Revenues \$89,539

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Office for Civil Rights

Appropriations by Budget Summary Level and Program

OCR - BO-CR-X1R00 - Civil Rights

The purpose of the Civil Rights Budget Summary Level is to encourage and promote equal access and opportunity, diverse participation, and social and economic equity in Seattle. OCR works to eliminate discrimination in employment, housing, public accommodations, contracting, and lending in Seattle through enforcement, and policy and outreach activities. In addition, OCR is responsible for directing the Race and Social Justice Initiative, which leads other City departments to design and implement programs that help eliminate institutionalized racism.

Seattle Department of Construction and Inspections

Nathan Torgelson, Director

(206) 684-8600

<http://www.seattle.gov/sdci>

Department Overview

The Seattle Department of Construction and Inspections (SDCI) administers City ordinances regulating building construction, the use of land, and housing. It supports key City priorities, including delivering essential City services and building safer, more just communities.

SDCI is responsible for developing and enforcing policies and codes related to public safety, environmental protection, land use, construction and rental housing, including:

- Economic Displacement Relocation Assistance (EDRA) program
- Environmentally Critical Areas Ordinance (ECA)
- Housing and Building Maintenance Code (HBMC)
- Just Cause Eviction Ordinance
- Rental Registration and Inspection Ordinance (RRIO)
- Seattle Building and Residential Codes
- Seattle Condominium and Cooperative Conversion Ordinances
- Seattle Electrical Code
- Seattle Energy Code
- Seattle Grading Code
- Seattle Land Use Code
- Seattle Mechanical Code
- Seattle Noise Ordinance
- Seattle Rental Agreement Regulation Ordinance
- Seattle Shoreline Master Program (SSMP)
- Seattle Tenant Relocation Assistance Ordinance (TRAO)
- Seattle Tree Protection Ordinance
- State Environmental Policy Act (SEPA)
- Stormwater Code
- Side Sewer Code
- Tree Service Provider Registry

SDCI reviews land use and construction-related permits, annually approving more than 55,000 permits and performing approximately 240,000 on-site and 10,000 virtual inspections. SDCI's work includes permit review and community involvement with Master Use Permits (MUPs); shoreline permits and design review; review and approval of permits for construction, mechanical systems, site development, elevators, electrical installation, boilers, furnaces, refrigeration, signs and billboards; field inspections for all construction and trade-related permits; annual maintenance inspections of boilers, elevators, and refrigeration equipment; and home seismic retrofits.

SDCI also enforces compliance with the codes and handles approximately 40,000 contacts per year at the Code Compliance Complaint Center.

SDCI operations are funded by a variety of fees and General Fund resources. SDCI must demonstrate that its fees are set to recover no more than the cost of related services. To provide this accountability, SDCI uses cost accounting to measure the full cost of its programs. Each program is allocated a share of departmental administration and other overhead costs to calculate the revenue requirements of the program.

Budget Overview

Building permitting volume has changed since the end of the 2010s, when permitting volumes and valuations reached record levels. An uncertain economic climate and higher interest rates have dampened development nationwide. The City of Seattle continues to see steady permitting activity for smaller projects; however, building valuations have decreased. In addition, regulatory changes at the state and local level have impacted permitting applications and permitting revenues. The number of Master Use Permit (MUP) applications are substantially decreasing due to State and Local exemptions from Design Review and SEPA review. The 2024 projected MUP application volumes are expected to be 65% lower than 2019 levels. In addition, construction permit applications are projected to be 20% lower across the same period.

Through August 2024, the Seattle Department of Construction and Inspections (SDCI) generated \$1.7 billion in intake valuation and has issued permits totaling \$1.7 billion in project valuation. SDCI anticipates an additional \$1.5 billion in intake valuation for the rest of 2024.

Except for Code Compliance and Land Use Code Development, SDCI is primarily fee supported and its fees and charges are necessary to fund its permitting and inspections operations. Per state law and Seattle Municipal Code, all fees collected by SDCI for processing and inspecting permits are used for that purpose, and the fee structure is established accordingly.

Due to declining permitting activity and revenues in SDCI's Construction and Inspections Fund, the 2025-2026 Proposed Budget sunsets 20 positions earlier than previously planned and defunds an additional 9 positions to align the budget with the volume of anticipated work. The Mayor's budget proposal includes a 6.5% annual inflationary fee adjustment so that fees recover the costs of permitting and inspections. Proposed budget legislation also includes an increase in value-based building development plan review and permit fees and an increase in permit and inspection certificate fees for boilers, pressure vessels, and elevator equipment.

The proposed budget maintains core services for the Seattle Department of Construction and Inspections and continues to fund tenant services, rental assistance payments and eviction defense. SDCI will also continue staffing the code compliance complaint center, responding to reports of vacant buildings, and developing policies to help unreinforced masonry buildings survive the next earthquake.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services in a context of less General Fund, budget adjustments were made in the following areas:

Seattle Department of Construction and Inspections

- The tenant services budget is reduced by \$811,000 and the remaining \$1.76 million budget is shifting from General Fund to the Payroll Expense Tax. A portion of this budget will be used for rental assistance payments.
- A General Fund electrical contractor enforcement position is being shifted to permit fees to align with the current scope of the position.
- A vacant position that was added in the 2024 Adopted Budget is removed.
- Several items that are currently funded with General Fund are being shifted to eligible permit fees for various reasons.

Seattle Department of Construction and Inspections

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$10,730,642

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$3,120,373

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

2025 Baseline Adjustment to Remove One-Time Items

Expenditures \$(1,905,895)

This item includes budget adjustments to eliminate one-time changes in the 2024 Adopted Budget. These items include: removal of \$1 million for rental assistance; removal of \$50,000 to convene a tenant workgroup; removal of \$605,423 for workspace planning; removal of \$204,000 for a green buildings consultant; and removal of \$46,472 one-time IT and fleet costs associated with positions added in the 2024 Adopted Budget. This item also makes a budget-neutral change that shifts \$455,000 of costs for tenant services contracts from the Payroll Expense Tax Fund to the General Fund. The net impact of these changes is a \$595,000 reduction to the General Fund, a \$455,000 reduction to the Payroll Expense Tax Fund, and an \$855,895 reduction in the Construction and Inspections Fund.

2025 Baseline Adjustment to Correct Budget Program and Account

Expenditures -

This budget-neutral action adjusts SDCI's budget into the correct program and account codes.

Proposed Operating

Staffing Changes

Expenditures \$(5,016,775)

Position Allocation (20.00)

This item decreases appropriation authority by \$5,016,775 in 2025 and \$5,194,856 in 2026 due to changes in the regulatory environment and a decline in permitting activity. SDCI will sunset 20 positions in early 2025 that had been scheduled to sunset at the end of 2025. This item also reduces the appropriations for nine regular ongoing positions; however, SDCI is maintaining the associated position authority to facilitate rapid future staffing increases in the event of an increase in building permitting activity. These positions are all funded by building and land use revenues in the Construction and Inspections Fund.

Seattle Department of Construction and Inspections

2025-2026 Fee Legislation Revenue Change

Revenues \$7,598,200

This action aligns revenues in SDCI's 2025-2026 Proposed Budget with SDCI's proposed fee bills. The fee proposal revises most of SDCI's fees and charges beginning on January 1, 2025 and again on January 1, 2026. These fee revisions include an annual inflationary adjustment of 6.5% in order to bring fees closer to a rate that recovers the costs of permitting work. The fee proposal also includes an increase in value-based building development plan review and permit fees, technical and language changes, and an increase in permit and inspection certificate fees for boilers, pressure vessels, and elevator equipment. In 2026, the anticipated revenue increase is \$8,885,239.

Reduce Tenant Services Funding and Shift Remaining Funding to Payroll Tax

Expenditures \$(811,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces the General Fund tenant services budget by \$811,000 and shifts the remaining \$1,758,015 tenant services budget from General Fund to Payroll Expense Tax. The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. The payroll tax will be used to continue support for tenant services and eviction legal defense contracts and this budget includes \$527,000 for rental assistance payments.

Shift Funding for Electrical Contractor Enforcement Position

Expenditures -

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This action shifts \$241,041 in 2025 and \$252,375 in 2026 from the General Fund to the Construction and Inspections Fund. This Senior Electrical Inspector position was originally added by Council in 2020 and funded with General Fund with the intent that the position would issue fines and penalties. However, this position's work has evolved to be a collaborator with the State in identifying issues with electrical contractors at job sites. SDCI will continue this valuable work by shifting the funding from General Fund to Electrical Permit fees because the work is assisting enforcement at job sites with active electrical permits.

Remove Vacant Position Added in 2024 Budget

Expenditures \$(158,775)

Position Allocation (1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This action reduces General Fund appropriation authority by removing a vacant Code Compliance Analyst position. This position was added in the 2024 Adopted Budget and was intended to support the Economic Displacement Relocation Assistance (EDRA) program, but the position was never filled. The result is a General Fund decrease of \$158,775 in 2025 and \$165,126 in 2026.

Transition URM Program Manager to Fees

Expenditures -

This item completes a funding transition for the Unreinforced Masonry (URM) Program Manager. When this position was added to SDCI's 2022 Adopted Budget, the plan was to gradually transition funding from General Fund to permit fees as the URM program matures. Therefore, this item shifts \$162,719 in 2025 and \$170,817 in 2026.

Seattle Department of Construction and Inspections

Align Code Compliance Director Funding with Current Duties

Expenditures -

This action shifts \$104,025 in 2025 and \$108,186 in 2026 from the General Fund to the Construction and Inspections Fund by aligning the Compliance Director's labor costs to reflect the nature of the position and currently performed executive duties. Furthermore, this change ensures that all of SDCI's positions at the Director level are funded consistently within the department.

Change Funding Source for Non-Billable Costs

Expenditures -

This item shifts \$61,010 in 2025 and \$63,879 in 2026 from the General Fund to the Construction and Inspections Fund by shifting non-billable licensing and inspections work from General Fund to permit and license fees. In addition, this action shifts \$269,669 in 2025 and \$306,628 in 2026 from the General Fund to the Construction and Inspections Fund by realigning the budget due to a departmental reorganization. This shift occurs because the Public Resource Center is transferring from the Land Use Services BSL to the new Customer Success BSL.

Transfer Side Sewer Program to SPU

Expenditures	\$(2,572,093)
Revenues	\$(2,671,759)
Position Allocation	(10.00)

This item reduces SDCI's position authority by 10 full-time employees. These positions are being transferred to Seattle Public Utilities (SPU) for the Side Sewer Program; thus, the appropriation authority associated with these 10 employees and the anticipated revenues from the work they perform are also being adjusted. SDCI has been performing this work for SPU due to a service level agreement which has been in effect since 2003 but is going to sunset in 2025. This change is intended to promote consistent interpretation, application, and enforcement of the side sewer code. It is also expected to ensure protection of SPU drainage and wastewater infrastructure. For additional information, please consult the SPU section of the proposed budget.

Oracle Enterprise Management Migration

Expenditures \$615,367

Seattle IT is planning to upgrade or migrate its two Oracle Enterprise Content Management (ECM) platforms to the cloud. This project is mandatory and is driven by the upcoming end of support for the current technology stack and software in December 2026. Multiple departments, including SDCI, are funding this item in Seattle IT. This one-time item increases SDCI's appropriation authority by \$615,367 in 2025 and \$900,208 in 2026. This item is funded by permit fees in SDCI's Construction and Inspections Fund.

Organizational Redesign in Response to Permitting Audit

Expenditures -
Position Allocation -

This budget-neutral action transfers existing appropriation authority and positions and creates new Budget Summary Levels (BSLs), Programs, and Master Projects. The existing appropriation authority and positions in Land Use Services and Permit Services are transferring into two newly created BSLs: Land Use and Engineering and Customer Success. In addition, the existing appropriation authority and positions in the Process Improvements & Technology BSL is transferring to two newly created BSLs: Process Improvements and Technology Investments. This action is necessary to implement a department-wide organizational redesign in response to the City's 2023 permitting audit.

Proposed Technical

Seattle Department of Construction and Inspections

Overhead Technical Adjustment

Expenditures \$1,083,098

This action adjusts the distribution of indirect overhead expenses across programs in SDCI. This adjustment is necessary to account for proposed budget changes and organizational redesign in multiple budget programs. The adjustment is also necessary to redistribute central cost adjustments and indirect overhead across SDCI programs in response to proposed changes throughout the department. This item decreases 2025 General Fund appropriations by \$141,504 and \$149,870 in 2026; it also increases Construction and Inspection Fund appropriations by \$1,224,602 in 2025 and \$1,232,968 in 2026.

Stratification of the Permit Process Leader Classification

Expenditures \$79,522

Position Allocation -

This technical adjustment accounts for increased labor costs due to the stratification of the Permit Process Leader (PPL) title that was approved by Council in Ordinance 127960 (the fourth quarter 2023 employment ordinance). Seattle Department of Human Resources (SDHR) facilitated the adjustments in response to SDCI's request for the stratification of the PPL title to a series. This appropriation increase is entirely within SDCI's Construction and Inspections Fund.

Inflationary Adjustment

Expenditures \$10,086

This technical item provides a 3.5% inflationary adjustment for staffing costs funded by the Unrestricted Cumulative Reserve Fund. These costs are associated with the Tenant Relocation Assistance Ordinance. The inflationary increase in 2026 is \$15,396.

Final Adjustments for Standard Cost Changes

Expenditures \$(1,431,491)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Construction and Inspections Fund 2024 Revenue Adjustments

Revenues \$6,719,043

This item adjusts Construction and Inspections Fund revenues to align with the current 2025 and 2026 revenue forecast. This item does not include revenue changes associated with SDCI's fee changes for 2025-2026 Fee Legislation.

General Fund Revenue Adjustment

Revenues \$85,000

This technical adjustment increases penalty fee revenue going to the General Fund based on actual revenues received in 2023.

Fund Balancing Entry

Seattle Department of Construction and Inspections

Revenues \$(6,302,516)

This item is a technical adjustment to balance revenues and expenditures for fund 48100, the Construction and Inspections Fund, which is managed by SDCI.

Appropriations by Budget Summary Level and Program

SDCI - BO-CI-U2000 - Land Use & Engineering Services

The purpose of the Land Use & Engineering Services Budget Summary Level is to provide a comprehensive review of development plans and to process land use and building permits.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Land Use	-	-	6,066,801	6,293,979
Land Use & Engineering Services CBA	-	-	3,923,387	3,923,387
Permit & Engineering	-	-	33,778,956	34,839,418
Total	-	-	43,769,144	45,056,784
Full-time Equivalents Total*	-	-	137.00	137.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Land Use & Engineering Services Budget Summary Level:

Land Use

The purpose of the Land Use Program is to provide discretionary permit review for Master Use Permits and advise on land use policy and technical matters for all permit reviews.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Land Use	-	-	6,066,801	6,293,979
Full Time Equivalents Total	-	-	31.00	31.00

Land Use & Engineering Services CBA

The purpose of the Land Use & Engineering Services CBA Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Land Use & Engineering Services BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Land Use & Engineering Services CBA	-	-	3,923,387	3,923,387

Seattle Department of Construction and Inspections

Permit & Engineering

The purpose of the Permit & Engineering Program is to manage the land use and construction permit review process, facilitate the review of development plans, and perform technical code review.

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Land Use Services Budget Summary Level:

Land Use Services

The purpose of the Land Use Services Program is to provide land use permitting services to project applicants, City of Seattle departments, public agencies, and residents. Land Use staff provide permit process information and regulatory expertise to inform pre-application construction project design. Land Use staff also review development concepts as part of a developer's permit application. The Land Use review process includes eliciting public input and facilitating public meetings and design review board meetings. It may also include coordination with various city and county agencies, defending project decisions during appeal to the Hearing Examiner or coordinating the department recommendation for a development application through the City Council approval process. These services are intended to ensure that development proposals are reviewed in a fair, reasonable, efficient, and predictable manner, and to ensure that the plans substantially comply with applicable codes, legal requirements, policies, and community design standards.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Land Use Services	22,851,196	24,750,208	-	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Compliance Budget Summary Level:

Compliance

The purpose of the Compliance Program is to investigate and respond to violations of code standards for the development, use, maintenance, and management of land and buildings, facilitate compliance by property owners and other responsible parties, pursue enforcement actions against violators through the legal system,

Seattle Department of Construction and Inspections

reduce the deterioration of structures and properties to reduce blight, and manage the adoption of administrative rules and response to claims. The program also supports outreach and education for landlords and tenants, working in coordination with other departments and community organizations.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Compliance	12,436,829	13,142,814	12,831,633	13,362,517

Seattle Department of Construction and Inspections

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs Program is to collect and allocate departmental central costs such as pooled costs, paid-time-off, and other City central costs. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	-	29,299,116	30,705,528	31,925,265

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Program is to lead and support department employees; provide policy guidance and financial stewardship; manage the public disclosure of documents; and oversee relationships with the community, government agencies, and the media. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Departmental Indirect Costs	-	5,116,378	6,058,706	6,330,825
Full Time Equivalents Total	39.00	40.00	40.00	40.00

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide support functions for SDCI's primarily fee funded programs: Land Use Services, Permit Services, Inspections; and for the fee-funded portion of the Government Policy, Safety and Support Program. The costs in this program are allocated only to the programs described above.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Divisional Indirect Costs	-	4,386,726	2,533,284	2,642,692
Full Time Equivalents Total	27.00	27.00	24.00	24.00

Indirect Cost Recovery Offset

Seattle Department of Construction and Inspections

The purpose of the Indirect Cost Recovery Offset Program is to offset the proportionate share of Citywide Indirect Costs, Departmental Indirect Costs, and Divisional Indirect Costs that allocate to the department's other Budget Summary Level programs as overhead. It is necessary to offset the full cost of indirect cost programs to calculate the budget appropriation and revenue requirements of the related programs.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Indirect Cost Recovery Offset	-	(38,832,507)	(39,297,517)	(40,346,399)

SDCI - BO-CI-U2600 - Government Policy, Safety & Support

The purpose of the Government Policy, Safety & Support Budget Summary Level is to develop and update land use code and technical code regulations, and provide appropriate support for disaster preparation, mitigation, response, and recovery services.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Govt Policy, Safety & Support	2,638,924	2,665,484	2,908,704	3,049,651

Office of Economic Development

Markham McIntyre, Director

(206) 684-8090

<http://www.seattle.gov/economicdevelopment>

Department Overview

The purpose of the Office of Economic Development (OED) is to shape an economically prosperous, diverse, just, and resilient city, with the guiding principle that an inclusive economy is more competitive. OED is committed to building an inclusive economy in the City of Seattle by making strategic investments to break down barriers and unlock access to opportunity, which will generate wealth equitably. OED programs focus on the five key pillars of the community-driven Future of Seattle Economy framework, which the City adopted as policy in Resolution 32099: investing in diverse talent and building our workforce, supporting small, women and minority-businesses, building BIPOC community wealth, investing in neighborhood business districts, and growing businesses and key industries.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Economic Development. The department will continue to invest in the Future of Seattle Economy (FSE) framework. The FSE report, finalized in 2023 and adopted as City policy in Resolution 32099, provides a community-driven investment framework for the City to promote inclusive economic growth. The proposed budget prioritizes strategies and programs that deliver direct impact and that leverage external funding sources, while maintaining operational and staffing capacity necessary to implement these programs. The proposed budget will allow the department to support programming in all five pillars of the FSE framework, and focuses funding in: supporting small, women, and minority-owned businesses; creating BIPOC community wealth, investing in neighborhood business districts, and growing business and key industries.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in several areas. The proposed budget focuses reductions on scalable programs that allow the department to continue delivering services to community even at reduced funding levels such as grant making programs. Additionally, the proposed budget focuses reductions in workforce development programs, allowing time for the City to complete a cross-departmental assessment of its workforce investments to ensure these investments advance the City's workforce goals and provide desired

Office of Economic Development

outcomes. The impact of these reductions is mitigated by continued investment in workforce development programs by regional partners.

Office of Economic Development

Description of Incremental Budget Changes

Baseline

Remove One-Time Items

Expenditures \$(18,136,499)

Approximately 49% of the Office of Economic Development's 2024 Adopted Budget was added as one-time funding to reflect the department's ongoing development of the Future of Seattle Economy framework in 2022 and 2023. That framework, which OED completed in 2023, was adopted as City policy in Resolution 32099 in 2023. This item removes one-time funding for the commercial affordability program (\$6.8 million), small business development capital (\$2.8 million), Downtown and neighborhood economic recovery program (\$2.6 million), Downtown Activation Plan initiatives (\$2.1 million), Seattle Restored programming (\$1.1 million), Business Improvement Areas program (\$850,000), Business Technical Assistance program (\$800,000), Chinatown-International District supports (\$450,000), miscellaneous administrative supports (\$370,000) and Seattle Jobs Center program (\$250,000). Several of these items are proposed to be partially restored and made ongoing in the 2025-2026 Proposed Budget.

Remove One-Time Community Development Block Grant Funding

Expenditures \$(1,000,000)

Revenues \$(1,000,000)

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant (CDBG) funds from departments' baseline budgets and reviewed department proposals for use of the federal grant funds for facilities and public services projects. This item removes CDBG funding from the Office of Economic Development's baseline budget. The Tenant Improvement Program invests in a business' infrastructure for growth and sustainability to help businesses stay in their neighborhoods. This item is proposed to be partially restored in the proposed budget.

Miscellaneous Technical Corrections

Expenditures -

This budget-neutral item makes several technical adjustments to budget at the budget program, detail project, and account levels to align with anticipated actuals.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$1,019,881

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$120,923

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of Economic Development

Proposed Operating

Ongoing Support for Business Community Ownership Fund

Expenditures \$2,500,000

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for the Business Community Ownership Fund (BCOF) program. This program was previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the program ongoing. The 2024 Adopted Budget included \$3.5 million one-time for this program, while the ongoing funding is \$2.5 million. The BCOF aims to address commercial displacement, empowering small businesses with long-term affordability and ownership of their own commercial spaces to keep them rooted in Seattle neighborhoods or provide a pathway to return to neighborhoods. This is a partnership with the Office of Economic Development and Grow America, which matches City funds dollar-for-dollar through financing and grants.

Ongoing Support for Capital Access Program

Expenditures \$2,450,000

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for the Capital Access Program (CAP). This program was previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the program ongoing. The 2024 Adopted Budget included \$2.75 million one-time for this program, while the ongoing funding is \$2.45 million. CAP aims to empower underserved businesses by dismantling financial barriers and promoting equitable access to capital. Specifically, CAP provides subsidized financial products leveraging programs offered by Washington State and provides tailored technical support services to businesses.

Ongoing Support for Commercial Affordability Programs

Expenditures \$2,431,756

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for Commercial Affordability programs. These programs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the programs ongoing. Specifically, this item provides \$1.5m for the Tenant Improvement Fund and \$1 million for Seattle Restored. The 2024 Adopted Budget included \$3.8 million one-time for these programs. The Tenant Improvement Program invests in a business' infrastructure for growth and sustainability to help businesses stay in their neighborhoods. Seattle Restored activates vacant storefronts through creativity and commerce and is scaling up a matchmaking strategy and supporting downtown retail strategy.

Ongoing Support for Neighborhood Capacity Programs

Expenditures \$2,067,705

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses

Office of Economic Development

payroll tax funding to provide ongoing support for Neighborhood Capacity programs. These programs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the programs ongoing. The proposed budget includes \$2.5 million for Neighborhood Capacity programming including the Only in Seattle program and Business Improvement Area supports. The 2024 Adopted Budget included approximately \$5 million in one-time funding for these programs. This item will support business district organizational capacity to foster comprehensive placemaking and place-keeping activities, including the exploration and creation of new business improvement areas.

Ongoing Support for Technical Assistance Programs

Expenditures	\$800,000
--------------	-----------

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for technical assistance (TA) programs. These programs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the programs ongoing. Business TA is a fundamental component of equitable economic development, creating pathways to growth for entrepreneurs who historically have limited access to the resources and capital needed to establish, manage crisis, stabilize operations, and expand. This item will support several technical assistance programs including business operations and development consulting, digital sales access, legal assistance, and in-language business navigation consulting.

Community Development Block Grant Funding for Tenant Improvement Program

Expenditures	\$500,000
Revenues	\$500,000

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant (CDBG) funds from departments' baseline budgets and reviewed department proposals for use of the federal grant funds for facilities and public services projects. This item allocates CDBG funding to the Office of Economic Development to support the Tenant Improvement Fund program.

Increase Special Events Staffing

Expenditures	\$325,000
Position Allocation	2.00

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for two additional positions, one Strategic Advisor 1 and one Administrative Staff Assistant, supporting the Special Events function within the Office of Economic Development. This item is necessary to align capacity on the Special Events team with demand for special events permits. This increased staffing is also necessary to respond to anticipated increased demand in the biennium, including for events related to the 2026 World Cup.

Ongoing Support for Language Access and Outreach

Expenditures	\$200,000
--------------	-----------

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to provide ongoing support for language access and outreach supports. These costs were previously supported by one-time funding that was removed in the baseline phase and this item makes funding for the costs ongoing. This item will support equitable communication and outreach strategies for economic development programs, services, and resources provided by the City and partners.

Office of Economic Development

One-Time Support for Enhanced Downtown Services as part of the Mayor's Downtown Activation Plan

Expenditures \$1,500,000

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This one-time item provides \$1.5 million in 2025 and 2026 to support the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. Specifically, this item will allow the department to partner with a neighborhood business organization in Downtown to support cleaning and safety staff, providing supplemental services including litter removal, alley cleaning, graffiti removal, a safe walk service, and outreach to businesses.

One-Time Support for the Mayor's Downtown Activation Plan

Expenditures \$1,011,432

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This one-time item provides approximately \$1 million in 2025 and \$575,000 in 2026 to support the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. Specifically, this item will support public space activations, public space improvements, and a centralized DAP communications strategy.

One-Time Support for South Downtown Initiatives as part of the Mayor's Downtown Activation Plan

Expenditures \$250,000

The 2025-2026 Proposed Budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This one-time item provides \$250,000 in 2025 and 2026 to support the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. Specifically, this item provides funding for consultant contracts to support South Downtown intergovernmental work, which will include regular convenings of senior-level officials from local, regional, and state-level agencies to align and accelerate major public redevelopments that these agencies are undertaking. This external facilitation is an essential complement to the City's staffing in the Office of Economic Development and the Office of Planning and Community Development supporting initiatives in South Downtown, and supports the unique opportunity to add residential capacity as well as other development in the neighborhood.

Westlake Park Revitalization Planning and Activations as part of the Mayor's Downtown Activation Plan

Expenditures \$250,000

This one-time item provides funding to support planning and activations related to the Westlake Park revitalization as part of the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. This item complements Westlake Park revitalization efforts funded in the proposed budget for Seattle Parks and Recreation.

Workforce Development Strategic Realignment

Expenditures \$(2,716,655)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were also identified to facilitate this transfer to mitigate the General Fund shortfall. This ongoing item reduces external workforce development programs and

Office of Economic Development

services and realigns the department's focus around sector-specific strategies that support key industry work. Remaining funding, in partnership with King County, will enhance the ability of the Workforce Development Council of Seattle-King County to serve as the regional workforce development backbone organization.

Align Green Economy Programming with Available Resources

Expenditures \$(500,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. This ongoing item reduces funding for Green Economy programming within the Key Industries and Workforce Development program. The Office of Economic Development (OED) retains \$500,000 for Green Economy programs to support economic and workforce development strategies identified in the Green Economy Vision and the Citywide Climate Careers Strategy. OED will work with external partners and other City departments to support new programs, policies, and resources to recruit clean energy technology businesses to Seattle, grow new clean technology startup businesses in Seattle, and ensure equitable access to clean energy technology careers in alignment with the Future of Seattle Economy framework and the Mayor's Downtown Activation Plan.

Abrogate One-Time Funded Positions

Position Allocation (1.50)

This item removes one-time funded positions related to the Generational Wealth Initiative that were transferred to the Office of Economic Development (OED) from the Department of Neighborhoods in the 2024 Mid-Year Supplemental Budget. OED retains funding and position authority for a Strategic Advisor 2 position to support the departments convening role in leading community wealth building programs across the City. The remaining position will support interdepartmental coordination and implementation of community wealth building programs, guided by recommendations in the Department of Neighborhood's Generational Wealth Initiative final report.

Proposed Technical

Ongoing Changes from Current Year Legislation

Position Allocation 1.50

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

August General Fund Revenue Adjustment

Revenues \$60,000

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Final Adjustments for Standard Cost Changes

Expenditures \$(45,192)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Office of Hearing Examiner

Ryan Vancil, Hearing Examiner

(206) 684-0521

<http://www.seattle.gov/examiner/>

Department Overview

The Office of Hearing Examiner is Seattle's quasi-judicial forum for reviewing factual and legal issues raised by the application of City Code requirements to specific people or property. As authorized by the Seattle Municipal Code, the office conducts hearings and decides appeals in cases where members of the public disagree with a decision made by a City agency. Many of the matters appealed to the Hearing Examiner relate to land use and environmental permit decisions and interpretations made by the Seattle Department of Construction and Inspections. The Hearing Examiner also hears appeals in many other subject areas, and makes recommendations to the City Council on rezone petitions, major institution master plans, and other Council land-use actions.

The Hearing Examiner is appointed by the City Council, and Deputy Hearing Examiners are appointed by the Hearing Examiner. Examiners handle all pre-hearing matters, regulate the conduct of hearings, and prepare decisions and recommendations based upon the hearing record and applicable law. The Seattle Municipal Code requires all examiners to be attorneys with training and experience in administrative hearings. The Hearing Examiner also manages an executive assistant to oversee the administrative areas of the office, a legal assistant to assist with hearings and decision preparation, and an administrative specialist to support all other office positions and provide information to the public.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

Budget Overview

The 2025-2026 Proposed Budget maintains support to the Office of Hearing Examiner (HXM) and preserves the services provided by the Hearing Examiner to members of the public and the City Council. Technical adjustments have been made to bring the proposed budget into alignment with an Annual Wage Increase, and other citywide adjustments to internal service costs.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$110,737

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Proposed Operating

Increase Filing Fees Revenue

Revenues \$3,500

This item anticipates increased revenues of approximately \$3,500 by raising filing fees from \$85 to \$120 in the Office of Hearing Examiner (HXM) the General Fund Office of Hearing Examiner - Revenue Budget Control Level (00100-BR-HX-REVENUE). Historically, the Hearing Examiner has raised fees at various intervals to support cost recovery and address inflation. The last fee increase was implemented in 2013.

Office of Hearing Examiner

Proposed Technical

Citywide Adjustments for Standard Cost Changes

Expenditures \$(24,353)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Final Adjustments for Standard Cost Changes

Expenditures \$(10,689)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Ongoing Changes from Current Year Legislation

Expenditures \$20,000

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance and contains a technical adjustment to add budget for an ongoing salary increase approved by the City Council with the Hearing Examiner's reappointment to a 4-year term. The salary increase was effective retroactive to March 21, 2023.

Office of Housing

Maiko Winkler-Chin, Director

(206) 684-3727

<http://www.seattle.gov/housing/>

Department Overview

The mission of the Office of Housing (OH) is to build strong and healthy communities and to increase opportunities for people of all income levels to live in our city. OH manages investments from the Seattle Housing Levy and other funding sources to fund the production, preservation, acquisition, and long-term stewardship of affordable housing in Seattle. Additionally, OH supports affordable housing providers and low-income residents, provides home repair and weatherization assistance, funds permanently affordable homeownership opportunities, and leads Citywide planning and policy development on affordable housing issues.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Housing (OH). Investments funded by the 2023 Housing Levy and other housing specific funding sources are maintained according to fund financial planning and Levy modeling. Additionally, the proposed budget uses accumulated administrative fund balances to support multifamily capital production and expanded staffing capacity for the department's finance and budget functions. The department's overall proposed budget of \$342 million is increasing by approximately \$3 million relative to the 2024 Adopted Budget; Payroll Expense Tax funded investments are offset by increases in other funding sources. The proposed budget continues investments in all program areas, including: multifamily lending, homeownership supports, home repair and weatherization programs, asset management, and departmental administrative costs.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund and other reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in several areas. The proposed budget focuses reductions in areas that will have minimal impact on community, such as continuing to hold positions vacant. Additionally, the proposed budget aligns scalable programs, such as multifamily rental and homeownership capital programs, with available resources.

Office of Housing

Description of Incremental Budget Changes

Baseline

Remove One-Time Items

Expenditures	\$ (50,000)
Revenues	\$ 19,752,463

This item removes one-time funding added in the 2024 Adopted Budget for a work group to study sustainability needs of non-permanent supportive housing providers and removes one-time fund balancing entries. The removal of one-time fund balancing entries is reflected as an increase to revenues to the Low Income Housing Fund and the Office of Housing Fund.

Baseline Technical Adjustments to Community Development Block Grant Funding

Expenditures	\$ 657,000
Revenues	-

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant (CDBG) funds from departments' baseline budgets and reviewed department proposals for use of the federal grant funds for facilities and public services projects. This item removes \$160,972 of CDBG entitlement funding from the Office of Housing's baseline budget. This funding supports administrative and labor costs associated with the department's management of CDBG revolving loan funds. This item backfills this funding with other housing specific fund sources to reflect that the department will incur these administrative costs regardless of whether CDBG entitlement funding is received. This \$160,972 of CDBG entitlement funding is proposed to be restored in the "Community Development Block Grant Funding for Administrative Support" incremental change item discussed below. Additionally, this item aligns non-labor budget for CDBG revolving loan funds with anticipated actuals.

Miscellaneous Technical Corrections

Expenditures	-
--------------	---

This budget-neutral item makes several technical adjustments to budget at the account level to align with anticipated actuals and provide detailed account coding for budget previously coded to default expenditures accounts. This item also shifts \$25 million of baseline budget associated with the Workforce Stabilization Fund from the Multifamily Lending budget program to the Asset Management budget program to align detailed budget coding with the accounting coding used for program expenditures. This change does not reflect a change in budget amount from the 2024 Adopted Budget for any program in the department.

Remove Erroneous Ongoing Budget

Expenditures	\$ (906)
--------------	----------

This item corrects an erroneous Council Budget Action (CBA) from the 2024 Adopted Budget, which modified the employer contribution rate for Seattle City Employees Retirement System. The 2024 Proposed Budget included no ongoing General Fund (GF) budget for the Office of Housing, however GF budget was not fully removed at the account level due. When this CBA was centrally entered, GF budget was identified in pension accounts and adjusted accordingly. This item removes ongoing GF budget from OH to reflect that no ongoing costs in the department are supported by the GF.

Office of Housing

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$1,219,174

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(129,507)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Add Budget Manager in Finance Unit

Expenditures \$184,703

Position Allocation 1.00

This ongoing item adds funding and position authority for a Budget Manager (1.0 FTE Manager 1). The Office of Housing budget has grown by over 550% in the last decade, however the Finance Unit has not expanded since 2013. The Budget Manager will support budget development, tracking, and management. This additional staffing capacity will allow the department's Finance Director to refocus on policy, planning, and strategic initiatives. This item is funded using administration fund balance from the 2016 Housing Levy, which is projected to cover these labor costs for six to seven years. Ongoing funding for this position could be contemplated as part of the next Housing Levy renewal in 2030.

Add Community Development Specialist in Asset Management Unit

Expenditures \$90,542

Position Allocation 1.00

The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. This ongoing item uses payroll tax and 2023 Housing Levy funding to add funding and position authority in the Asset Management unit (1.0 FTE Community Development Specialist). This position will support asset management for Office of Housing (OH) funded units, ensuring ongoing affordability and compliance of units. This additional staffing capacity is necessary to maintain reasonable units-to-staff ratio in the Asset Management division. This item is funded with net-new 2023 Housing Levy funding and payroll tax offset by an equivalent reduction in payroll tax funded multifamily capital.

Add Administrative Staffing Support

Expenditures \$72,241

Position Allocation 1.00

The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. This ongoing item uses payroll tax and 2023 Housing Levy funding to add funding and position authority for administrative support (1.0 FTE Administrative Specialist II). This position will rotate through the Office of Housing to support the areas of highest need at any given time. For example, in January and February the position will support

Office of Housing

the contracts unit, in May and June the position will support production of the department's annual reports, and in September and October the position will support the Notice of Funding Availability process. This additional staffing capacity is necessary to maintain administrative support currently covered by temporary staff. This item is funded with net-new 2023 Housing Levy funding and payroll tax offset by an equivalent reduction in payroll tax funded multifamily capital.

Inflationary Adjustments for Agency Support Programs

Expenditures	\$416,714
--------------	-----------

The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. This ongoing item uses payroll tax and 2023 Housing Levy funding to provide inflationary adjustments to agency support programs. Financial modeling for the 2023 Housing Levy assumed inflationary adjustments for agency support programs and this item aligns budget authority with those assumptions. Inflationary adjustments for payroll tax funded agency supports are offset by an equivalent reduction in payroll tax funded multifamily capital.

Use Mandatory Housing Affordability Administrative Fund Balances to Support Multifamily Capital

Expenditures	\$7,000,000
Revenues	\$7,000,000

This one-time item increases budget for multifamily capital production by \$7 million in 2025 and by \$5 million in 2026, supported by Mandatory Housing Affordability (MHA) administrative fund balances. The Office of Housing has historically transferred MHA administrative fund balance to multifamily capital production whenever a significant balance has accumulated.

Community Development Block Grant Funding for Administrative Support

Expenditures	-
Revenues	\$160,972

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant (CDBG) funds from departments' baseline budgets and reviewed department proposals for use of the federal grant funds for facilities and public services projects. This item adds CDBG funding to support administrative and labor costs associated the department's management of CDBG revolving loan funds. This increase is offset by a removal of non-grant backed funding proposed to be added in the "Baseline Technical Adjustments to Community Development Block Grant Funding" incremental change item discussed above.

Dissolve Community Development Block Grant Revolving Loan Funds

Expenditures	\$(657,000)
--------------	-------------

This ongoing item reduces budget for the Multifamily Capital and Homeownership Community Development Block Grant (CDBG) revolving loan funds (RLFs) to reflect elimination of these RLFs. The Office of Housing currently manages three CDBG RLFs: Multifamily Capital, Homeownership, and Home Repair. CDBG RLFs use program income from previously awarded CDBG projects make new awards in each program area. OH maintains a robust Home Repair RLF, but is unable to quickly award funding in the Multifamily Capital and Homeownership RLFs given challenging eligibility and compliance requirements. OH will work in coordination with the Human Services Department Federal Grants Management Unit to dissolve these RLFs in 2025 and remaining funding will be reallocated to an eligible CDBG project.

Office of Housing

Hold Positions Vacant to Realize Payroll Expense Tax Savings

Expenditures \$(497,047)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. This ongoing item reduces labor budget in the payroll tax fund to reflect that the Office of Housing will hold three positions vacant, including an Equity Advisor (Senior Community Development Specialist) in the Policy and Planning unit, a Multifamily Lender (Community Development Specialist) in the Multifamily Lending unit, and an Asset Management position (Community Development Specialist) in the Asset Management unit. These positions, added in 2022, have not yet been filled and holding the positions vacant will not require reallocation of workload.

Reduce Payroll Expense Tax Funding for Homeownership Capital

Expenditures \$(1,750,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. This ongoing item reduces payroll tax funding for homeownership capital production. The Office of Housing anticipates that projects currently in the homeownership capital pipeline will not be ready for funding for two to three years. Given the status of projects, this reduction is not anticipated to impact homeownership capital production in the biennium. To maintain adequate funding for anticipated homeownership capital projects, \$1,750,000 of payroll tax funding will be reprioritized from multifamily capital to homeownership capital beginning in the 2027-2028 biennium.

Reduce Payroll Expense Tax Funding for Multifamily Capital

Expenditures \$(7,596,229)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. A portion of Payroll Expense Tax revenues are transferred to the General Fund. Payroll tax reductions were identified to facilitate this transfer to mitigate the General Fund shortfall. This ongoing item reduces payroll tax funding for multifamily capital production by approximately \$7.6 million in 2025 and by approximately \$1.6 million in 2026. The impact of this reduction is offset by the one-time use of \$7 million in 2025 and \$5 million in 2026 of administrative fund balances from Mandatory Housing Affordability revenues for multifamily capital production per year in the proposed budget.

Fund Source Alignment for Staffing and Operational Support

Expenditures \$(836,551)

This item aligns fund sources for staffing and operational costs with the Office of Housing (OH) administrative funding methodology. Generally, staffing and operational costs in OH are covered by each fund source in an amount that is proportional to their share of the total OH budget. This item decreases the Office of Housing fund's share of administrative costs, and increases the Payroll Expense Tax fund's share of administrative cost with an offsetting reduction to payroll tax funded multifamily capital production.

Office of Housing

Proposed Technical

Previously Approved Funding for Database Upgrade Project

Expenditures \$275,000

This one-time item adds \$275,000 in 2025 to support remaining costs associated with the Office of Housing's database upgrade project. Funding for the prior years' portion of this project were approved and appropriated in the 2022 Mid-Year Supplemental Budget. This item is necessary to appropriate remaining funding for this project and is supported by reserves for this purpose in the Office of Housing fund.

Align Budget for Pre-Development Costs with Anticipated Actuals

Expenditures \$735,000

This one-time technical item adds \$735,000 for pre-development costs supported by 2023 Housing Levy administrative funds. This item is necessary to align budget authority with anticipated actuals. The 2023 Housing Levy includes \$10 million for pre-development costs and the Office of Housing remains on track to spend no more than that amount over the seven year levy period.

Adjust Project Coding for Payroll Expense Tax Funded Multifamily Capital

Expenditures -

The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. This ongoing, net-zero, technical item corrects detail project level coding to ensure accurate tracking of payroll tax funding intended for multifamily capital preservation. This item does not change how the department would otherwise allocate payroll tax funding in the multifamily program between new production and preservation of existing units.

Align Community Self Determination Fund Allocation

Expenditures -

The proposed budget allocates \$133 million in Payroll Expense Tax proceeds in 2025 to support housing. This ongoing, net-zero, technical item corrects detail project level coding to reflect that the Office of Housing intends to allocate 13%, approximately \$17.6 million, of payroll tax funding within the multifamily capital program to support the Community Self Determination Fund (CSDF). The CSDF program aims to reduce barriers for community-based organizations (CBOs) to enter the affordable housing sector, particularly for those CBOs that have historically been excluded from the industry.

Align Mandatory Housing Revenues with Anticipated Actuals

Revenues \$(28,750,000)

This ongoing technical item reduces revenue assumptions for the Mandatory Housing Affordability program from \$51 million to approximately \$22.3 million to reflect updated projections and expectations for the biennium.

Final Miscellaneous Technical Adjustments

Expenditures -

This budget-neutral item makes several technical adjustments to budget at the project and account level to align with anticipated actuals.

Office of Housing

Align and Correct Weatherization Revenues

Expenditures	\$3,886,167
Revenues	\$3,886,167

This one-time technical item increases expenditure and revenue budget in the weatherization program to reflect anticipated grants to be accepted during 2025. All weatherization grants will be accepted in supplemental budgets in 2025. Additionally, this item makes several technical corrections to remove prior year funding source codes and to update funding source codes used to track interdepartmental revenues from Seattle City Light.

Final Adjustments for Standard Cost Changes

Expenditures	\$70,547
--------------	----------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Fund Balancing Adjustments

Revenues	\$10,361,505
----------	--------------

This is a technical item to record a fund balancing entry for the Low Income Housing Fund (16400) and the Office of Housing Fund (Fund 16600), which are primarily managed by this department.

Office of Housing

Office of Immigrant and Refugee Affairs

Hamdi Mohamed, Director

(206) 233-3886

www.seattle.gov/iandraffairs

Department Overview

The Office of Immigrant and Refugee Affairs (OIRA) was established in 2012 by Seattle Ordinance 123822 to recognize the importance and need for a stronger relationship and increased accountability between the City of Seattle and immigrant and refugee communities. OIRA serves as the backbone and coordinator of key City efforts across all departments to advance equity and access for immigrants and refugees.

As an office dedicated to serving immigrants refugees, OIRA's core values and shared agreements are centered around integrity, humility, communities, innovation, gratitude, respect, accountability, partnership, and transparency. OIRA address the underlying causes of inequities and develop programs and policies that empower community partners and those they serve.

OIRA serves immigrant and refugee Seattle residents in the areas of language access, immigration legal services, workforce development, and more. OIRA is focused on incorporating community needs and direct feedback in policy decisions and program development while also centering the City's Race and Social Justice Initiative.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for OIRA. The department will continue to invest in programs such as the Legal Defense Network, the New Citizen Campaign, the New Citizen Program, the Immigrant Safety and Access Network, the Language Access program, and the Ready to Work program. Due to the General Fund forecast for the City's 2025-26 Proposed Budget being insufficient to cover all anticipated Citywide costs, budget alignments were made to reduce OIRA's budget for an intern, reduce some of their position underspend costs, and distribute their language access subscription cost to all departments who use the language access tool.

OIRA's core services will allow OIRA to respond to issues affecting immigrants and refugees in the region, including assisting recent migrant arrivals with translation, legal, and social services.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$225,557

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$54

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of Immigrant and Refugee Affairs

Removal of 2024 One-Time Adds

Expenditures \$(225,000)

This item removes \$225,000 of one-time General Fund added in the 2024 Adopted Budget to support a conference on human trafficking.

Remove CDBG From Baseline

Expenditures \$(650,200)

Revenues \$(650,200)

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

This item was restored and increased in the Proposed Budget. See corresponding item "CDBG Ready To Work Continuation."

Proposed Operating

Align Workforce Development Position Budget

Expenditures \$(37,150)

This item decreases expenditures by \$37,150 Payroll Expense Tax ongoing to align salary budget for the Workforce Policy and Partnerships Manager position with actual costs. The position was added in the 2023 budget, and the actual cost of the position is less that what was added in the budget. There are no programmatic impacts to this reduction.

CDBG Ready To Work Continuation

Expenditures \$700,000

Revenues \$700,000

For the 2025-2026 Proposed Budget, the administration removed Community Development Block Grant funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects.

In OIRA, the budget provides \$700,000 to support the Ready To Work (RTW) program which was created by the City of Seattle in 2015 to empower and support immigrants and refugees in overcoming barriers on their journey to economic stability, quality jobs, and integration into life in Seattle.

See corresponding item "Remove CDBG From Baseline."

Eliminate Intern Budget

Expenditures \$(16,850)

This item decreases expenditures by \$16,850 General Fund ongoing to eliminate the intern program. OIRA has hired an intern the past three years to provide opportunities for immigrant youth to integrate into the workforce.

Transfer Language Access Program Costs

Expenditures \$(25,000)

Office of Immigrant and Refugee Affairs

This item decreases expenditures by \$25,000 General Fund ongoing to reflect the transfer of the subscription costs for the city's centralized translation tool from OIRA to IT central costs. There are no programmatic impacts from this reduction.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(14,872)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

New Citizenship Program Fund Source Update

Expenditures \$6,397

Revenues \$6,397

This item updates the funding source for two annual grants received to support the New Citizen Program (NCP). The NCP partners with 10 community-based organizations located through Seattle and King County to help low-income immigrants and refugees become US citizens.

Office of Labor Standards

Steven Marchese, Director

(206) 684-5397

www.seattle.gov/laborstandards

Department Overview

The mission of the Office of Labor Standards (OLS) is to advance labor standards through thoughtful community and business engagement, strategic enforcement, and innovative policy development, with a commitment to race and social justice. The Office of Labor Standards focuses on the implementation of labor standards for workers that perform work within Seattle city limits. As of January 1, 2025, there are 19 such standards, established through City ordinances:

- **Paid Sick and Safe Time Ordinance** requires employers with one or more full-time equivalent employees to provide paid sick and safe time;
- **Fair Chance Employment Ordinance** restricts how employers can use conviction and arrest records during the hiring process and course of employment;
- **Minimum Wage Ordinance** establishes a minimum hourly wage that increases each year based on rates set by ordinance and adjusted for the rate of inflation;
- **Wage Theft Ordinance** requires employers to provide written notice of employment information and pay all compensation due by reason of employment (including wages and tips) on a regular pay day;
- **Secure Scheduling Ordinance** establishes scheduling requirements for covered retail and food service establishments to provide schedule predictability and increased access to hours;
- **Domestic Workers Ordinance** provides protections for domestic workers and establishes a Domestic Workers Standards Board; and
- **Commuter Benefits Ordinance** requires employers to provide commuter benefits on a pre-tax basis.
- **Independent Contractor Protections Ordinance** requires commercial hiring entities to provide certain pre-contract disclosures, payment disclosures, and requiring timely payment of contracts.
- **Cannabis Employee Job Retention Ordinance** requires certain employers to take certain actions to reduce job insecurity in the cannabis industry.

Four ordinances protect the rights of hotel workers:

- **Hotel Employee Safety Protections Ordinance** requires employers to take certain steps to prevent and report violent and harassing conduct by guests and to support employees who report this conduct;
- **The Protecting Hotel Employees from Injury Ordinance** limits the workload of employees who clean hotel rooms to reduce the frequency and occurrence of injuries associated with room cleaning;
- **The Improving Access to Medical Care for Hotel Employees Ordinance** requires employers to provide employees working in large hotels with increased access to medical care; and
- **The Hotel Employees Job Retention Ordinance** requires employers to take certain actions to reduce job insecurity in the hospitality industry.

Three ordinances protect the rights of app-based workers:

- **App-Based Worker Paid Sick and Safe Time Ordinance** establishes paid sick and safe time protections for certain app-based workers.
- **App-Based Worker Minimum Payment Ordinance** establishing minimum pay requirements, and transparency and flexibility standards for certain app-based workers.
- **App-Based Worker Deactivation Rights Ordinances** establishes protections against certain deactivations from the platforms of covered companies, among other rights.

OLS is also responsible for the administration of three additional temporary ordinances that grant protections to

Office of Labor Standards

certain workers during the COVID-19 civil emergency. These three laws are enforceable until late 2025:

- **Paid Sick and Safe Time for Gig Workers**, requiring covered transportation network and food delivery network companies to provide paid sick and safe time to gig workers during, and for 180 days following the conclusion of, the COVID-19 civil emergency.
- **Premium Pay for Gig Workers**, requiring covered food delivery network companies to provide premium pay to gig workers.
- **Grocery Employee Hazard Pay**, requiring certain grocery businesses to pay hazard pay to employees during the civil emergency.

OLS provides education and technical assistance to the business and worker communities. As a part of these efforts, OLS manages the **Community Outreach and Education Fund** to foster collaboration between OLS and the community with funds to develop awareness and understanding of the worker rights provided by Seattle's labor standards. The office also manages the **Business Outreach and Education Fund** which provides technical assistance to small businesses to increase compliance with Seattle's labor standards. The fund emphasizes outreach to businesses owned by low-income and historically disenfranchised communities who typically are not served by traditional outreach methods.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Labor Standards (OLS) at a reduced scale to realign with available resources. OLS will continue to promote labor standards through outreach, education, and technical assistance. OLS will continue to collect and analyze data on labor standards enforcement, develop labor standards policies, and administer and enforce the City of Seattle labor ordinances.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made to OLS. The Business Outreach and Education Fund will be funded with \$500,000 after a reduction of \$100,000. The Community Outreach and Education Fund will be fully funded at \$1,500,000 in 2025 and will receive \$1,000,000 in 2026 after a \$500,000 reduction. The enforcement team and outreach team will receive a reduction of 3 positions. The general operating expenses for communications and outreach activities will receive \$152,000 after reductions of \$216,000. These reductions will realign the OLS budget with available resources for the 2025-2026 Proposed Budget.

Lastly, the 2025-2026 Proposed Budget make several technical adjustments to the OLS budget including an annual wage increase for staff, increased costs for internal central services, and the removal of one-time items from the previous year's budget.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$694,934

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Office of Labor Standards

Citywide Adjustments for Standard Cost Changes

Expenditures \$192,528

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Reversal of one-time adds

Expenditures \$(625,000)

This item reverses \$600,000 in Payroll Expense Tax funding for the App-Based Deactivation Rights Ordinance (\$500,000) and Domestic Worker Standards Board (\$100,000). This item also reverses \$25,000 in General Fund support for set-up costs for the App-Based Worker Minimum Payment Ordinance in 2023.

Proposed Operating

Remove Planning & Development Specialist Position

Expenditures \$(155,627)

Position Allocation (1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item removes a vacant, full-time Planning & Development Specialist II (Labor Standards Engagement Specialist) position to realign with available resources. The position is responsible for direct outreach and education on the City's 19 labor standards as well as oversight of some of the Department's Business Outreach and Education Fund and Community Outreach and Education Fund contracts. Four Labor Standards Engagement Specialists will remain in OLS to continue this work.

Remove Strategic Advisor Position

Expenditures \$(184,703)

Position Allocation (1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item removes a vacant, full-time Strategic Advisor position to realign with available resources. This position is responsible for providing a variety of data collection, cleaning, and analysis functions for the Office of Labor Standards, specifically for App-Based Worker positions. OLS will reprioritize workloads to address the critical data analysis work and will defer the other expanded work this position would have completed for app-based worker laws.

Remove Civil Rights Analyst Position

Expenditures \$(158,958)

Position Allocation (1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item removes a vacant, full-time Civil Rights Analyst (Investigator) position to realign with available resources. This position is responsible for conducting labor standards investigating and resolving complaints of violations of labor standards. After the first quarter of 2025, nine investigators will remain in OLS to continue the work of investigations.

Office of Labor Standards

Defund Civil Rights Analyst Position

Expenditures \$(125,154)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item defunds a Civil Rights Analyst (Investigator) position. OLS will maintain funding for quarter 1 of 2025 and then this position will be unfunded. This position is responsible for conducting investigations and resolving complaints of violations of labor standards. After the first quarter of 2025, nine investigators will remain in OLS to continue the work of investigations.

Restoration of General Operating Expense Reduction

Expenditures \$87,810

This item restores ongoing funding beginning in 2025 for OLS' operating expense appropriation that was reduced in FY 2023 for only the 2023 and 2024 Adopted Budgets.

Reduce General Operating Expense Budget

Expenditures \$(215,810)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces OLS' general operating expense appropriation by \$215,810 in the 2025-2026 Proposed Budget to realign with available resources. This reduction will result in fewer investments in outreach, communication, and enforcement and OLS will shift to lower-cost and no-cost activities. The budget maintains \$152k for general operating expenses after the reduction.

Reduction to Business Outreach and Education Fund

Expenditures \$(100,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces the Business Outreach and Education Fund (BOEF) by \$100,000 to realign with available resources. OLS will continue to administer the BOEF with smaller awards or less contracts. The total amount budgeted for the Business Outreach and Education Fund is \$500,000.

Reduction to Community Outreach and Education Fund, On-going

Expenditures -

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces the Community Outreach and Education Fund (COEF) by \$250,000 on-going starting in 2026 to realign with available resources. The COEF is reduced in 2026 instead of both 2025 and 2026, to avoid service disruptions in contracts that have already been awarded for 2025. To realize the savings needed through the biennium, OLS will see a larger decrease in 2026 with an on-going \$250,000 reduction starting in 2026, and a separate budget item for a one-time \$250,000 reduction starting in 2026. OLS will continue to administer the COEF with smaller awards or less contracts. The total amount budgeted for the Community Outreach and Education Fund is \$1,500,000 in 2025 and \$1,000,000 in 2026.

Office of Labor Standards

Reduce Community Outreach and Education Fund, One-Time

Expenditures -

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces the Community Outreach and Education Fund (COEF) by \$250,000 on-going starting in 2026 to realign with available resources. The COEF is reduced in 2026 instead of both 2025 and 2026, to avoid service disruptions in contracts that have already been awarded for 2025. To realize the savings needed through the biennium, OLS will see a larger decrease in 2026 with an on-going \$250,000 reduction starting in 2026, and a separate budget item for a one-time \$250,000 reduction starting in 2026. OLS will continue to administer the COEF with smaller awards or less contracts. The total amount budgeted for the Community Outreach and Education Fund is \$1,500,000 in 2025 and \$1,000,000 in 2026.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(26,714)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

OLS Fund Revenue Updates

Revenues \$(316,784)

This item decreases revenue from the General Fund to the Office of Labor Standards fund to reflect the budget changes described above. OLS is using fund balance from 2024, which offsets some of the 2025 General Fund transfer.

Office of Labor Standards

Appropriations by Budget Summary Level and Program

OLS - BO-LS-1000 - Office of Labor Standards

The purpose of the Office of Labor Standards Budget Summary Level is to implement labor standards for workers performing work inside Seattle’s city limits. This includes investigation, remediation, outreach and education, and policy work related to existing labor standards and those that the City may enact in the future.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Business Outreach & Education	672,252	600,000	500,000	500,000

The following information summarizes the programs in Office of Labor Standards Budget Summary Level:

Business Outreach & Education

The purpose of the Business Outreach and Education program is to facilitate assistance and outreach to small businesses owned by low-income and historically disenfranchised communities, who typically are not served by traditional outreach methods, to increase awareness and compliance with Seattle's labor standards.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Business Outreach & Education	672,252	600,000	500,000	500,000

Community Outreach & Education

The purpose of the Community Outreach and Education program is to strengthen the collaboration between OLS and the community by funding community-based organizations and enhancing their capacity to increase awareness and understanding of Seattle’s labor standards among populations and industries with low-wage jobs and that experience high-incidents of workplace violations including: female-identifying workers, workers of color, immigrant and refugee workers, LGBTQ workers, workers with disabilities, veterans and youth workers.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Community Outreach & Education	1,987,838	1,500,000	1,500,000	1,000,000

Office of Labor Standards

Office of Labor Standards

The purpose of the Office of Labor Standards Program is to develop and implement labor standards that advance workplace equity for employees working inside Seattle's city limits. This includes enforcement outreach and education, and policy work.

Department of Neighborhoods

Jenifer Chao, Director

(206) 684-0535

<http://www.seattle.gov/neighborhoods>

Department Overview

The Seattle Department of Neighborhoods (DON) mission is to strengthen Seattle by engaging all communities. Our work is driven by two North Stars:

1. Put race and equity at the center of all decisions and actions; and
2. Invest in the power of communities to forge their own solutions.

DON provides resources and opportunities that help Seattle residents build strong communities, receive equitable access to government, and improve their quality of life. This is accomplished by centering *relationships* and *investing in community-driven solutions that build capacity* for Seattle's communities.

Relationships: Cultivating, building, and sustaining resilient relationships is core to everything we do. It's what allows us to build trust and connections and ensure that all communities have voice, inclusion, and influence in City programs and projects.

Investments: DON invests in people, funding, public spaces, creative innovation, and community advocacy to create systemic change for communities with histories of harm.

Capacity Building: Our work is long-term and relational. Our investments and relationships are designed to build and sustain community capacity so that individuals, organizations, and communities grow into their power to shape, influence, and transform the life of their city.

Department of Neighborhoods

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Department of Neighborhoods (DON). The department will continue to invest in community building programs such as P-Patch Community Gardening and People's Academy for Community Engagement. Additionally, the department will continue to invest in outreach and engagement programs, including contracting with Community Liaisons for project-specific outreach, maintaining Community Engagement Coordinator staffing focused on specific geographic areas in the City, and supporting other City departments outreach and engagement needs with the Equity and Engagement Advisor program. The proposed budget also continues investments in Community Grants programs such as the Neighborhood Matching Fund and the Food Equity Fund.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in several areas. The proposed budget focuses reductions in areas that will have minimal impact on community, including identifying organizational efficiencies, eliminating vacant positions, and aligning scalable grant programs with available resources. Additionally, the proposed budget focuses on expanding interdepartmental outreach and engagement agreements with other City departments, increasing General Fund revenues from other department managed funds.

Department of Neighborhoods

Description of Incremental Budget Changes

Baseline

Remove One-Time Items

Expenditures \$(500,000)

This item removes one-time funding for Chinatown-International District Capacity Building (\$300,000), Payroll Expense Tax Oversight Committee Evaluation and Annual Reporting (\$100,000), and Resident Assembly for Space Needle Thinking (\$100,000). The Executive anticipates carrying forward unspent funding for the Chinatown-International District Capacity Building into 2025.

Miscellaneous Technical Corrections

Expenditures -

This budget-neutral item makes several technical adjustments to account-level budget to align with anticipated actuals and adjustments to budget program coding to reflect departmental reorganization.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$1,284,173

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$160,825

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Expand Interdepartmental Outreach and Engagement Agreements

Expenditures \$381,427

Revenues \$678,600

This ongoing item increases expenditure budget and revenues to reflect an expansion of the Equity and Engagement Advisors (EEA) program. As part of the EEA program, the Department of Neighborhoods (DON) partners with City departments to provide outreach and engagement services on specific projects and programs. Departments reimburse DON on a per hour basis for the cost of the program. In 2024, DON provides EEA services to the Seattle Department of Transportation and Seattle Public Utilities. Beginning in 2025, DON will expand the EEA program by providing services to the Human Services Department, Seattle Parks and Recreation, and Seattle City Light. This item increases revenues to the General Fund from funds managed by these partner departments. The portion of increased revenues that exceed EEA program costs will support departmental overhead costs in DON that are currently supported by non-revenue backed General Fund budget.

Department of Neighborhoods

Redirect Vacant Position to the Equity and Engagement Advisor Program

Expenditures	\$(160,962)
Position Allocation	-

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item transfers a vacant Strategic Advisor 1 position (1 FTE) from the People's Academy for Civic Engagement program to the Equity and Engagement Advisor (EEA) program and eliminates associated labor budget for the position. Labor costs for the position in the EEA program will be covered by new interdepartmental revenues and appropriation authority anticipated in the "Expand Interdepartmental Outreach and Engagement Agreements" item discussed above.

Redirect One-Time Funded Position to the Equity and Engagement Advisor Program

Position Allocation	-
---------------------	---

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item transfers a Strategic Advisor 1 position from the Generational Wealth Initiative (GWI) program to the Equity and Engagement Advisor (EEA) program. This position was previously funded with one-time budget associated with the GWI program. GWI programming was transferred to the Office of Economic Development in the 2024 Mid-Year Supplemental Budget. Labor costs for the position in the EEA program will be covered by new interdepartmental revenues and appropriation authority anticipated in the "Expand Interdepartmental Outreach and Engagement Agreements" item discussed above.

Increase Staffing for the Equity and Engagement Advisors Program

Position Allocation	1.00
---------------------	------

This ongoing item adds one Strategic Advisor 1 position in the Equity and Engagement Advisors program and reflects an expansion of the Equity and Engagement Advisors (EEA) program. This item is a position only change. Labor costs for the position in the EEA program will be covered by new interdepartmental revenues and appropriation authority anticipated in the "Expand Interdepartmental Outreach and Engagement Agreements" item discussed above.

Reduce Neighborhood Matching Fund Awards

Expenditures	\$(208,177)
--------------	-------------

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item reduces funding available for Neighborhood Matching Fund (NMF) awards, resulting in 4-6 fewer awards each year to community-led projects. The NMF program retains approximately \$2.8 million in funding, with approximately \$2 million available for awards each year.

Reduce Food Equity Fund Awards

Expenditures	-
--------------	---

Due to an ongoing annual reduction of approximately \$1.0 million in Sweetened Beverage Tax (SBT) revenues that was included in the City's August revenue forecast, this item reduces approximately 8% of the department's SBT funding in 2026. SBT revenues and expenditures in 2025 are not impacted with this change. This ongoing item reduces funding available for Food Equity Fund (FEF) awards beginning in 2026, resulting in 3-5 fewer awards each year to community-led projects. The FEF program will retain approximately \$2.8 million in funding in 2026, with approximately \$1.9 million available for awards.

Department of Neighborhoods

Eliminate Payroll Expense Tax Oversight Committee Staff Position

Expenditures	\$(200,781)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund and other reductions were identified to mitigate this shortfall in revenues. This ongoing item removes a vacant Senior Planning & Development Specialist position (1 FTE) which was intended to manage the Payroll Expense Tax Oversight Committee, and eliminates associated labor and program budget for the committee.

Align Food Equity Fund Staffing

Expenditures	\$(69,683)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item removes a vacant Senior Planning & Development Specialist position in the Food Equity Fund (FEF) program and redirects associated labor budget in the Sweetened Beverage Tax (SBT) Fund to realize General Fund efficiencies. A portion of labor costs for the department's Community Grants Manager and a Senior Grants and Contracts Specialist are shifted from General Fund to the SBT Fund to reflect that a portion of these positions time supports the FEF program. Additionally, SBT Fund budget is redirected to increase the amounts available for awards and program expenses. This item also makes several net-zero, account level adjustments within the FEF program to align budget with anticipated actuals.

Remove Vacant Position in the Community Innovations Division

Expenditures	\$(175,530)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item removes a Manager 2 position in the Community Innovation division, and eliminates associated labor budget. This change reflects reorganization within the department, including merging of the Community Innovations programming into the Community Investments division, transferring Generational Wealth Initiative programming to the Office of Economic Development, and eliminating the Payroll Expense Tax Oversight Committee.

Remove Vacant Community Partnerships Division Staffing

Expenditures	\$(111,025)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item removes an Administrative Staff Assistant position in the Community Partnerships Division, and eliminates the associated labor budget. Administrative support for the Community Partnerships Division will be provided by reallocating a portion of an Administrative Staff Assistant position elsewhere in the department.

Department of Neighborhoods

Eliminate Vacant Position in the Major Institutions and Schools Program

Expenditures	\$(96,660)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item removes an Administrative Specialist II position in the Major Institutions and Schools (MIS) program, and eliminates associated labor budget. Administrative support to the MIS program is covered by an Administrative Assistant elsewhere in the department.

Reduce Staffing for Early Community Outreach for Design Review

Position Allocation	(1.00)
---------------------	--------

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item removes a Strategic Advisor 1 position supporting the Early Community Outreach for Design Review (ECODR) program. This item is a position-only change reflecting that this was an unfunded position and labor costs were previously supported using vacancy savings. Support for the ECODR program will be covered by staff in the Major Institutions and Schools program.

Proposed Technical

Align Food Equity Fund Staffing with Anticipated Actuals by Fund

Expenditures	\$(307,916)
Position Allocation	-

This ongoing, technical item transfers two Planning and Development Specialist II positions from the Neighborhood Matching Fund (NMF) program to the Food Equity Fund (FEF) program, and removes associated labor budget in the General Fund. This item also removes labor budget in the General Fund for a 0.5 FTE Administrative Specialist II position. In the 2021 Adopted Budget, these positions were redeployed from the NMF program to the FEF program and labor costs were shifted from the General Fund to the Sweetened Beverage Tax Fund. Since 2021, labor costs for these positions are paid from the General Fund, and the department then bills the Sweetened Beverage Tax Fund. This item eliminates double appropriation of labor budget for these positions and will allow the department to pay labor costs for these positions directly from the Sweetened Beverage Tax Fund. This change also reduces General Fund revenues by an equivalent amount; revenue changes are included in the "April General Fund Revenue Adjustment" item.

Increase Revenues from Fee Adjustments

Revenues	\$34,000
----------	----------

This ongoing item increases General Fund revenues in the Department of Neighborhoods (DON) to reflect annual fee increases in the Historic Preservation (HP) program and the Major Institutions and Schools (MIS) program. These fee increases are set by ordinance and are included in the Seattle Department of Construction Inspections Annual Fee Ordinance. Fees for the HP program are increased from \$161,500 to \$181,500, and fees for the MIS program are increased from \$50,000 to \$64,000. These fees are increased annual and reflect changes to the Consumer Price Index.

Department of Neighborhoods

Reduce Vacancy Assumption

Expenditures -

This budget-neutral technical item reduces DON's vacancy assumption to 1% by reallocating budget from non-labor accounts to labor accounts.

Department Reorganization

Expenditures -

Position Allocation -

This budget-neutral item makes several organizational changes to the department to improve organizational alignment and financial reporting. This item renames three budget programs: 1) the Strategic Partnerships budget program is renamed as the Equity and Engagement Advisors budget program; 2) the Re-imagination and Recovery budget program is renamed as the Community Capacity Building budget program; and 3) the Civic Engagement and Leadership Development budget program is renamed as the People's Academy for Civic Engagement budget program. Additionally, this item transfers one Strategic Advisor 1 position from the Community Liaisons budget program to the Departmental Indirect Costs budget program, and transfer one Strategic Advisor 1 position from the Community Capacity Building budget program to the Equity and Engagement Advisors budget program.

Ongoing Changes from Current Year Legislation

Expenditures \$41,600

Revenues \$41,600

Position Allocation (1.50)

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

Final Adjustments for Standard Cost Changes

Expenditures \$(247,294)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

April General Fund Revenue Adjustment

Revenues \$387,668

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

August General Fund Revenue Adjustment

Revenues \$(657,876)

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Department of Neighborhoods

Community Safety

The purpose of the Community Safety program is to support the City of Seattle’s commitment to being a safe, vibrant, and interconnected city that ensures all residents can live safely and securely.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Community Safety	862,092	964,429	940,429	940,429

Equity and Engagement Advisors

The purpose of the Equity & Engagement Advisors program is to provide contracted services to City departments, acting as their Equity and Engagement Advisors to ensure that equity is prioritized in City policies, programs, projects, and services. This involves collaborating closely with City Departments to identify and address barriers to participation within programs and shaping policies and procedures accordingly. They also offer guidance, coordination, and support for inclusive community outreach efforts, with a particular focus on enhancing equitable engagement in communities most affected by the City’s growth, infrastructure needs, and historical injustices.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Equity and Engagement Advisors	-	-	1,453,865	1,520,448
Full Time Equivalents Total	-	-	12.00	12.00

Historic Preservation

The purpose of the Historic Preservation Program is to provide technical assistance, outreach, and education to the general public, owners of historic properties, government agencies, and elected officials to identify, protect, rehabilitate, and re-use historic properties

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Historic Preservation	946,870	859,962	987,286	1,036,224
Full Time Equivalents Total	7.00	7.00	7.00	7.00

Major Institutions and Schools

The purpose of the Major Institutions and Schools Program is to coordinate community involvement in the development, adoption, and implementation of Major Institution Master Plans, and to facilitate community involvement in school re-use and development.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Major Institutions and Schools	243,167	213,383	150,781	158,794
Full Time Equivalents Total	2.00	3.00	1.00	1.00

Department of Neighborhoods

Participatory Budgeting (Your Voice Your Choice)

The purpose of the Participatory Budgeting (Your Voice Your Choice) Program is to provide a process in which Seattle residents democratically decide how to spend a portion of the City's budget.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Participatory Budgeting (Your Voice Your Choice)	95,671	-	-	-
Full Time Equivalents Total	1.00	-	-	-

People's Academy for Community Engagement (PACE)

The purpose of the People's Academy for Community Engagement (PACE) Program is to provide leadership development and skill building of emerging leaders in a multicultural, participatory adult learning environment where participants learn hands-on strategies for community building, inclusive engagement, and accessing governments from experts in the field

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
People's Academy for Community Engagement (PACE)	37,910	-	162,425	174,775
Full Time Equivalents Total	-	-	1.00	1.00

P-Patch Community Gardening

The purpose of the P-Patch Community Gardening Program is to provide community gardens, gardening space, and related support to Seattle residents while preserving open space for productive purposes, particularly in high-density communities

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
P-Patch Community Gardening	788,984	807,820	909,405	948,451
Full Time Equivalents Total	6.00	6.00	6.00	6.00

Re-imagination and Recovery

The purpose of the Re-imagination and Recovery program is to provide transformational, people-centered programming and services informed by data and best practices that enhance and expand government support in under-served communities.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

Office of Planning and Community Development

Rico Quirindongo, Director

(206) 386-1010

<http://www.seattle.gov/opcd/>

Department Overview

The Office of Planning and Community Development (OPCD) was established in December 2015 with a mission of strengthening citywide planning and implementation and ensuring City departments are aligned and coordinated in planning for Seattle’s future development. OPCD coordinates City departments to ensure that development decisions and investments advance equitable growth, consistent with Seattle's Comprehensive Plan. The department is guided by its vision of “an inspiring city, in harmony with nature, where everyone thrives.” In addition to partnering with other City departments, OPCD works closely with community partners and other agencies to implement that vision. During the last five years, OPCD has accomplished a wide range of projects, including annual amendments and an in-progress major update to the City’s Comprehensive Plan; implementation of legislation to help activate downtown such as conversion of office buildings to housing, flexibility for downtown street level uses, and micro-housing regulations; industrial and maritime strategy planning; funding more than 77 community-initiated projects to combat displacement and increase access to opportunity through the Equitable Development Initiative (EDI); and numerous other items.

The director of OPCD serves in the Mayor's various subcabinets to facilitate coordinated decision-making regarding policies and investments that support Seattle's BIPOC communities. OPCD works with the Mayor's Office and members of the cabinet to ensure the City's investments support community development objectives and that department priorities are aligned and reflected in policies and budget resources.

OPCD is organized in four divisions: Equitable Development, Long Range Planning, Community Planning, and Land Use Policy & Strategic Initiatives. OPCD also has an Indigenous Planner that works across divisions. OPCD houses two independent commissions: the Seattle Design Commission and the Seattle Planning Commission. OPCD also staffs the Equitable Development Initiative Advisory Board.

Budget Snapshot

Office of Planning and Community Development

Budget Overview

OPCD's 2025-2026 Proposed Budget increases funding for the Equitable Development Initiative and continues to invest in the 10-year major update of the City's Comprehensive Plan. Other priority items include subarea plan development, Sound Transit 3 staffing, community and long-range planning, and monitoring affordable housing and displacement. Because the City's General Fund revenues are less than forecasted, OPCD's proposed budget includes funding changes as well as staffing and administrative efficiencies that streamline operations while maintaining OPCD's core functions.

The Equitable Development Initiative

The Equitable Development Initiative (EDI) continues to be an important and growing program within OPCD, serving as a key inclusive growth strategy for marginalized communities in Seattle most at risk of physical and cultural displacement. The EDI program is coordinated and led by OPCD and guided by an implementation plan and financial investment strategy developed in collaboration with community members and staff from the Office of Housing (OH), Department of Neighborhoods (DON), Office of Economic Development (OED), Office of Arts and Culture (ARTS), Mayor's Office (MO), and City Budget Office (CBO). It is also informed by an external advisory board representing impacted communities. In 2017, the City Council identified the initial five projects for the EDI program. The program has grown to more than 77 community-based projects today. Support for each of these projects includes a mix of capacity building and capital development funding, which can include funds for site acquisition. The proposed budget includes \$28.26 million for EDI in 2025. Of that amount, \$26.6 million is for grants and program implementation (\$21.43 million Payroll Expense Tax and \$5.13 million Short-Term Rental Tax). The EDI budget also includes \$608,000 Payroll Expense Tax and \$1.1 million Short-Term Rental Tax for EDI staffing. The total EDI budget represents a \$1.135 million increase in funding compared to 2024. In 2026, the proposed EDI budget is \$29.3 million (\$23.1 million Payroll Expense Tax and \$6.3 million Short-Term Rental Tax).

The EDI program was initially funded with \$16 million in one-time proceeds from the sale of surplus property known as the Civic Square Block. The Washington State Legislature passed the Short-Term Rental Tax (STRT) in the 2018 legislative session and therefore, since 2019, the EDI program has also been funded with STRT revenues. In July 2019, the City Council passed Ordinance 125872, which created a new fund for STRT and directed that \$5 million from this fund be dedicated annually to EDI projects; additional STRT funds EDI staffing.

The most recent expansion of EDI occurred in the 2022 Adopted Budget with the additional allocation of \$14.3 million from the Payroll Expense Tax. In addition to grant awards, the baseline budget from this funding source supports staffing to help the EDI team administer its funding and projects as well as to provide technical assistance to community organizations. This tax was imposed via Ordinance 126108, which was approved by the City Council in July 2020.

In prior years, the EDI budget included \$430,000 of Community Development Block Grant (CDBG) funding for EDI grants. This funding was removed in the 2025 baseline as part of a Citywide reprogramming of CDBG funds.

The ongoing funding of the Equitable Development Initiative through the Payroll Expense Tax and Short-Term Rental Tax means that City investments in these community-driven projects and land acquisitions will provide a lasting legacy for Seattle and its BIPOC community members.

Planning

One of the core functions of OPCD is to serve as the steward of the City's Comprehensive Plan, a 20-year vision and roadmap for Seattle's future. The Comprehensive Plan guides City decisions about where to accommodate and plan for new jobs and residences, how to improve the transportation system, and where to make capital investments such as utilities, sidewalks, and parks. It provides a framework to guide most of Seattle's big-picture decisions on

Office of Planning and Community Development

how to manage growth to achieve environmental sustainability, racial equity, shared prosperity, and healthy and vibrant neighborhoods.

The Washington State Growth Management Act (GMA) requires that cities undertake a major review and update of their comprehensive plans every 10 years. Under the GMA, comprehensive plans must accommodate the growth that is anticipated over the next 20 years. OPCD is currently leading a multi-department effort to update the growth strategy for the planning period extending to 2044, during which the city anticipates growing to nearly one million people while adding more than 150,000 jobs. The new comprehensive plan, which we are calling the One Seattle Plan, will also be updated to reflect new and ongoing priorities like climate change and racial equity. The One Seattle Plan will be completed by the end of 2024 and transmitted to Council for adoption in 2025. Parallel to this work, OPCD is developing a multi-phase package of zoning changes to implement the plan and create new opportunities for housing and density in neighborhoods across the city. The first allocation of funding for this work was in the 2021 Adopted Budget, which added \$130,000 in one-time resources for OPCD to work on an Environmental Impact Study and engage in community outreach to support the next major update to the Comprehensive Plan. Additional funding was included in the 2022, 2023, and 2024 budgets. The proposed budget expands this effort with a \$350,000 allocation of Payroll Expense Tax for work on a Supplemental Environmental Impact Statement to study additional land use changes in Regional and Urban Centers.

OPCD leads the Sound Transit 3 West Seattle Ballard Link Extensions (WSBLE) Planning Work Group, one of seven work groups in the Citywide WSBLE Work Plan to advance key policy discussions, draft recommendations for City leadership related to station location decisions, develop conceptual plans for stations, and undertake City-led community planning at station areas. 2025 work plan activities fall into four main categories: 1) advancing station design; 2) engaging in station area planning; 3) carrying out the City's Federal Transit Administration transit-oriented development pilot grant of \$1.75 million; and 4) coordinating with Sound Transit's Joint Development program. Early planning is underway in the Maritime and Industrial station areas that include SODO, Smith Cove, Interbay, and Ballard. Station area planning for Delridge and Chinatown International District continues through the South Delridge community planning process and coordinated South Downtown Hub with Sound Transit. The 2023 Adopted Budget included \$162,000 to fund one term-limited position (through 2025) to support City work on WSBLE-related items. The proposed budget makes this position permanent, as work on ST3 is anticipated to continue for the foreseeable future.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$994,428

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Office of Planning and Community Development

Citywide Adjustments for Standard Cost Changes

Expenditures \$368,014

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Removal of One-Time Items

Expenditures \$(180,000)

This item removes \$130,000 of Payroll Expense Tax that was added by Council as one-time funding for community engagement work related to the Seattle Comprehensive Plan in the 2024 Adopted Budget; it also removes Payroll Expense Tax amounts of \$50,000 in 2025 and an additional \$350,000 in 2026 for regional subarea plans as described in the 2023 Adopted Budget.

Removal of CDBG from Baseline Budget

Expenditures \$(430,000)

Revenues \$(430,000)

For the 2025-2026 Proposed Budget, the Executive removed Community Development Block Grant funds from departments' baselines and reviewed department proposals for use of the federal grant funds for facilities and public services projects. This item removes \$430,000 of Community Development Block Grant funding from OPCD's baseline budget. In prior years, this funding was allocated for Equitable Development Initiative grants.

Remove Funding for Duwamish Valley Coordinator

Expenditures \$(162,722)

This item reduces the funding for a three-year sunset position added in the 2022 Adopted Budget. This Duwamish Valley Coordinator position supported implementation of the Duwamish Valley Action Plan and was funded by General Fund. This position is being transferred to Seattle Public Utilities.

Baseline Data Correction

Expenditures -

This budget-neutral item adjusts baseline data at the account level.

Proposed Operating

Increase the Equitable Development Initiative Grant Award Budget

Expenditures \$1,676,839

The proposed budget allocates \$22 million in Payroll Expense Tax (payroll tax) proceeds in 2025 to the Equitable Development Initiative. This item uses payroll tax funding to increase OPCD's Equitable Development Initiative grant award budget by \$1.68 million in 2025 and another \$2.68 million in 2026. This brings total EDI payroll tax funding in the 2025 Proposed Budget to \$22,040,000, including \$607,518 for labor costs. In 2026, total EDI payroll tax funding is \$23,069,907, including \$632,103 of labor costs.

Office of Planning and Community Development

Fund Equitable Development Initiative Staff with Short-Term Rental Tax

Expenditures -

This budget-neutral item changes the funding source for a project manager position on the Equitable Development Initiative (EDI) team. The 8-person EDI team manages a current portfolio of more than 77 projects totaling approximately \$120 million. This item replaces \$174,522 of Payroll Expense Tax with Short Term Rental Tax.

Right-Size Planning and Development Specialist Staffing

Expenditures \$(349,044)
Position Allocation (2.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services, this item removes two Planning & Development Specialist Senior positions in OPCD.

After this adjustment, OPCD's Land Use Policy and Strategic Initiatives division will have four permanent full-time employees and a sunset position for Downtown Activation. The division will continue to work on land use regulation and growth management issues, including housing policy, zoning implementation, and special projects.

This adjustment also reduces the number of policy staff supporting the Seattle Planning Commission, which will have 2.5 full-time employees in 2025, including a director, a policy analyst, and half-time administrative support. The Seattle Planning Commission advises elected officials and City departments on land use, transportation, housing, and related plans, programs and policies.

Administrative Efficiencies

Expenditures \$(35,000)
Position Allocation (0.50)

In order to achieve business process efficiencies and General Fund cost savings, this item consolidates OPCD's administrative functions. Instead of having three administrative positions supporting the office in four half-time roles, this consolidation and reorganization assigns an existing 1.0 FTE for board and commission administrative support, and an existing 0.5 FTE for office-wide administrative support. The impact of this adjustment is an overall 0.5 FTE position reduction.

Comprehensive Plan Environmental Review

Expenditures \$350,000

The proposed budget allocates \$31 million in Payroll Expense Tax proceeds in 2025 to support economic development. This item uses payroll tax funding to conduct additional environmental review to support proposed zoning changes within existing Regional and Urban Centers with the goal of allowing more height and development capacity for housing. These changes were not included in the original Environmental Impact Statement (EIS) scoping document for the major update of the City's Comprehensive Plan that is currently underway. The Supplemental EIS (SEIS) will provide the necessary environmental review for different increased height and density scenarios. The SEIS will build on the One Seattle Plan EIS and will analyze potential impacts of any proposed changes, including land use and urban form (bulk, shade, shadow) as well as citywide and local transportation impacts.

Office of Planning and Community Development

Extend Position Sunset Dates

Expenditures	-
Position Allocation	-

This item extends sunset dates for four positions in order to continue work that has been extended or is otherwise ongoing. No additional appropriation authority is included because the funding for the first three positions is included in OPCD's baseline budget and the fourth position is unfunded. The positions are as follows:

- (1) An urban centers planner -This 3-year Payroll Expense Tax funded position was added in the 2023 Adopted Budget to work on subarea plans. These plans, which are necessary in order to be eligible for future Puget Sound Regional Council funds, are currently anticipated to be adopted in 2027. Position hiring was delayed until September 2023. This item extends the sunset date for two years (through 2027).
- (2) An equitable transit-oriented development strategist - This 3-year payroll tax funded position was added in the 2023 Adopted Budget to work with Sound Transit on light rail station area planning. Because Sound Transit light rail expansion is anticipated to continue indefinitely, this item removes the sunset date and makes the position permanent.
- (3) A downtown activation planner position - This 2-year payroll tax funded position was added in the 2024 Adopted Budget to promote economic revitalization. This staffer is currently working on site activation for the World Cup, land use changes and residential development south of the Dearborn light rail station, and the Lid I-5 reconnecting communities project. This item extends the sunset date for two years (through 2027).
- (4) An engagement and communication position - This 3-year unfunded position was added by Council in the 2022 Adopted Budget to support the comprehensive plan. OPCD needs to continue this position to work on zoning and subarea plan communications. OPCD has been utilizing grant funding to pay for this position but the grant funding is no longer available. This item extends the sunset date for two years (through 2026).

Proposed Technical

Ongoing Changes from Current Year Legislation

Position Allocation	(1.00)
---------------------	--------

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance. This item reflects the transfer of a position to Seattle Public Utilities that was included in Ordinance 127068 (the Mid-Year Supplemental Ordinance).

Final Adjustments for Standard Cost Changes

Expenditures	\$(95,715)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Community Police Commission

Bessie Marie Scott, Acting Executive Director

(206) 256-5545

<http://www.seattle.gov/policecommission/>

Department Overview

The Office of the Community Police Commission (CPC) is the administrative and policy support entity of the Community Police Commission. The CPC is charged with providing community oversight and input on the police reform efforts that are the subject of a Settlement Agreement between the City and the U.S. Department of Justice regarding police practices. The CPC was made a permanent part of the system of civilian oversight of police in 2017 through legislation ([Ordinance 125315](#)). Membership of the CPC was modified in 2023 (Ordinance 126860) into a 15-member board appointed by the Mayor, the City Council and the Community Police Commission governs the CPC. Each commissioner serves a three-year term.

The CPC provides an independent forum for dialogue and widespread input on the reform efforts embodied in the Settlement Agreement and Memorandum of Understanding established by the Department of Justice. Ongoing community input is a critical component of achieving and maintaining effective and constitutional policing.

The CPC leverages the ideas, talent, experience and expertise of the people of Seattle to ensure police services:

- fully comply with the Constitution of the United States;
- ensure public and officer safety; and
- promote public confidence in the Seattle Police Department and its officers.

The CPC is charged with fulfilling and prioritizing the responsibilities as specified under the Consent Decree and Memorandum of Understanding and its role includes:

- reviewing and providing input to many city partners on the police accountability system, police services and the Seattle Police Department's policies and practices;
- engaging in community outreach to obtain the perspectives of the community on police-community relations, the police accountability system, police services, policies and practices and providing that input to other City departments;
- maintaining connections with representatives of disenfranchised communities and community groups; and
- advocating for reforms to state law that will enhance public trust and confidence in policing and the criminal justice system.

Community Police Commission

Budget Overview

The City’s 2025 – 2026 Proposed Budget maintains core services for the Community Police Commission. The department will continue to invest in programs such as providing community oversight and input on the police reform efforts that are the subject of a Settlement Agreement between the City and the U.S. Department of Justice regarding police practices.

The General Fund revenue forecast for the City’s 2025 – 2026 Proposed Budget are insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. The Community Police Commission (CPC) budget provides a 6% reduction to personnel expenditures. The budget is also adjusted for minor Citywide technical changes which are described below.

Incremental Budget Changes

Community Police Commission

	Dollars	FTE
2024 Adopted Budget	2,112,770	10.00
Baseline		
Citywide Adjustments for Standard Cost Changes	(4,880)	-
Bargained Annual Wage and Market Wage Increases to Base Budget	175,931	-
Net-zero reallocation of non-labor accounts.	-	-
Proposed Operating		
Assume a Vacancy Rate of 10%	(146,426)	-
Proposed Technical		
Final Adjustments for Standard Cost Changes	(5,208)	-
Total Incremental Changes	\$19,417	-
Total 2025 Proposed Budget	\$2,132,187	10.00

Community Police Commission

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(4,880)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$175,931

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Net-zero reallocation of non-labor accounts.

Expenditures -

Net-zero reallocation of non-labor accounts.

Proposed Operating

Assume a Vacancy Rate of 10%

Expenditures \$(146,426)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. The ongoing item increases the Community Police Commission vacancy rate assumption by 10%, which reduces the General Fund budget and will result in the department holding vacancies as turnover occurs.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(5,208)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Community Assisted Response and Engagement

Amy Barden, Chief

(206) 477-8300

<http://www.seattle.gov/care>

Department Overview

The Community Assisted Response and Engagement (CARE) department, formerly known as the Community Safety and Communications Center (CSCC), was established as a new department in 2021 to provide timely, accurate, and vital information to the City’s first responders, city service providers, and to the public. Ordinance 126237 transferred the primary 911 center from SPD to CARE, effective June 1, 2021. Since the transition, the department has continued working to establish itself as an independent city department, resource internal ongoing needs, and explore integrating non-uniformed and alternate resources for dispatch. CARE is home to the primary Seattle 911 call center and is the largest in the Pacific Northwest, both by staff size and volume of calls received, averaging over 800,000 per year. The department employs 186 employees and is open 24 hours a day, 365 days a year.

The CARE department seeks to enhance public safety through CARE Response Teams that will provide additional behavioral health professionals available to respond to people experiencing non-violent mental health crises or quality of life concerns. These unarmed community responders are dual-dispatched with police to priority 3 and priority 4 person down and welfare check call types. CARE Response Teams are also requested by police officers and sometimes deal with “on view” incidents. In 2022, Seattle 911 data shows a response time consistently longer than one hour to these call types; the department seeks to reduce that response time and to support SPD’s ability to respond to more urgent 911 calls swiftly. The vision for CARE Response Teams into the future is to expand to additional call types and primary dispatch without officers as appropriate.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Department Support				
General Fund Support	22,114,049	26,343,050	32,402,649	35,941,800

Total Appropriations	22,114,049	26,343,050	32,402,649	35,941,800
Full-Time Equivalent Total*	149.00	163.00	186.00	186.00

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The City of Seattle continues to maintain its commitments to public safety investments in the budget. In 2024, the CARE department’s 911 Center has been focused on responding to emergency calls. While the department has begun to see improvements in recruitment and retention, it has not reached full staffing of its 127 designated call taker, dispatcher, and supervisor positions. Overall, the 911 Center continues to see improvements in call response metrics including improving answering time for the non-emergency line.

Community Assisted Response and Engagement

CARE continues implementing the Mayor's Office and City Council's vision of diversified response by expanding the CARE Response Teams with 21 additional staff members available to respond to emerging community concerns. In 2025, the department will be adding two positions, one focused on public disclosure and one focused on the coordinating City's Restoration work. Due to the City's economic forecast, CARE strives to control spending while maintaining the best services for residents. CARE's budget recognizes vacancy savings to meet reduction targets and to align resources with their forecasted staffing.

Community Assisted Response and Engagement

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$3,584,889

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$523,930

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Add Public Disclosure Officer

Expenditures \$199,271

Position Allocation 1.00

This item adds \$199,270 and adds 1 FTE Strategic Advisor 2 as a Public Disclosure Officer. This position will have a wide range of responsibilities and will focus on public disclosure requests (PDR's) as the sole Public Disclosure Officer for CARE. As the department continues to expand as the City's third public safety department, CARE will receive many more PDR's and needs a position to primarily focus on this large workload.

Add Public Safety UCT Manager

Expenditures \$215,760

Position Allocation 1.00

This item adds \$215,760 and adds 1 FTE Strategic Advisor 3 position to serve as the Seattle Restoration Director. This position will focus on will bringing together departments in addressing placed-based public safety concerns, similar to how the existing Unified Care Team effectively and systematically addresses unsheltered persons living in encampments. The team administered by the Seattle Restoration Director will coordinate short- and long-term public safety interventions, the connection of individuals to services to address underlying needs and reduce criminal conduct, and environmental changes and activation strategies. The Seattle Restoration Director will closely coordinate with law enforcement, City departments, service providers, and community, business, and City stakeholders.

Aligning CARE budget to vacancy rate

Expenditures \$(296,300)

This item decreases appropriation by \$296,300 in 2025 and \$306,900 in 2026 to align CARE department's budget with its anticipated vacancy rate. The department has improved recruitment and retention rates since 2022 but continues to maintain a vacancy rate due to natural rate of attrition. This change will not impact hiring but will ensure the department's budget is aligned with vacancy rate.

Community Assisted Response and Engagement

Proposed Technical

CARE Team Expansion

Expenditures \$1,500,000

This item increases appropriation authority by \$1,500,000 in 2025 and \$3,533,832 in 2026 to support the ongoing expansion costs of the CARE Response Teams. CARE Response Teams have already been assisting with 911 calls through prioritization and dispatching them to the incident. This expansion will allow the CARE team to offer city-wide coverage, increased hours of service of the program, and to better focus first response resources on the situations where they are most needed.

In August 2024, funding was appropriated in Ordinance 127068 for CARE Response Team expansion, covering the costs of facilities, vehicles, and personnel. This item makes that funding ongoing for 21 full-time positions, (9 Community Crisis Responder 1's, 9 Community Crisis Responder 2's, and 3 Community Crisis Responder Supervisors). To do this requires an additional 9 vehicles (8 Ford Explorer PIU's, 1 ADA Van), equipment such as radios, uniforms, computers, facilities, supplies for distribution, and other on-going costs. The position pockets are part of the Ongoing Changes from Current Year Legislation change request.

Ongoing Changes from Current Year Legislation

Position Allocation 21.00

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance. These positions were appropriated in Ordinance 127068 for the expansion in 2024 of CARE Response Teams. This item makes adds ongoing pockets 21 FTEs, (9 Community Crisis Responder 1's, 9 Community Crisis Responder 2's, and 3 Community Crisis Responder Supervisors). The funding for these positions is appropriated in CARE Team expansion.

Final Adjustments for Standard Cost Changes

Expenditures \$332,049

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Office of Emergency Management

Curry Mayer, Director

(206) 233-5076

<https://www.seattle.gov/emergency-management>

Department Overview

The Office of Emergency Management (OEM) is responsible for the city-wide emergency management program. The mission of OEM is, "We partner with the community to prepare for, respond to, mitigate the impacts of, and recover from disasters." This office has the city-wide responsibility to:

- Facilitate citywide response which includes orchestrating coordination conference calls, managing response actions/activities and physically maintaining and managing the Emergency Operations Center (EOC) to ensure overall unity of effort when responding to emergencies and disasters of all sizes and impacts,
- Manage the City's comprehensive activities related to emergency planning, preparedness, mitigation, response, and recovery operations,
- Administer trainings and exercises that prepare City responders, volunteers, and the public to respond and recover from disasters, and
- Seek and administer post disaster recovery costs and pre-disaster mitigation grants often totaling into the millions of dollars for the city and its departments.

OEM has adopted a whole community approach to educating the public. They do this by adapting preparedness curriculum to each audience, building relationships with community organizations, and focusing engagement on vulnerable populations such as those with limited English proficiency (LEP), low income, and immigrant and refugee communities.

Office of Emergency Management

Budget Overview

The City’s 2025-2026 Proposed Budget maintains core services for the Office of Emergency Management (OEM). The Office will continue to invest in programs supporting OEM’s mission of providing emergency management services to the city. As part of preparing the City for all types of emergencies, the 2025-2026 Proposed Budget includes \$30,000 in the City Budget Office to conduct a review of other emergency management offices. This review will evaluate OEM's funding, multijurisdictional framework, and organizational structure in comparison to peer cities, specifically those on the West Coast, as well as to nationwide best practices.

The General Fund revenue forecast for the City’s 2025-26 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the following areas: reduction to travel and training budget; transitioning to King County’s WebEOC software; and removing 1.25 FTE.

Incremental Budget Changes

Office of Emergency Management

	Dollars	FTE
2024 Adopted Budget	2,922,504	15.00

Reduce Full-Time Administrative Support to Part-Time	(25,300)	(0.25)
Eliminate WebEOC Software License	(45,000)	-
Remove 1.0 FTE Strategic Advisor 1 Providing Community Engagement	(174,600)	(1.00)
Proposed Technical		
Final Adjustments for Standard Cost Changes	(79,717)	-
Total Incremental Changes	\$114,653	(1.25)
Total 2025 Proposed Budget	\$3,037,157	13.75

Office of Emergency Management

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$288,946

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$160,324

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Reduce Travel and Training Budget

Expenditures \$(10,000)

This item decreases appropriation authority by \$10,000 in OEM's travel and training budget, reducing their staff travel and training budget by 80%, from \$12,500 to \$2,500. This will result in reduced OEM participation in professional development organizations, trainings and conferences, including ongoing Big City Emergency Managers meetings and the Emerging Leaders program, as well as other emergency management professional organizations such as the Washington State Emergency Management Association (WSEMA), International Association of Emergency Managers (IAEM), and Washington Partners in Emergency Preparedness. This will limit OEM's access to innovative strategies and new peer reviews best practices.

Reduce Full-Time Administrative Support to Part-Time

Expenditures \$(25,300)

Position Allocation (0.25)

This item decreases appropriation authority by \$25,300 and reduces 0.25 FTE from 1.0 FTE Administrative Specialist II position to 0.75 FTE. This proposal results in a reduction in hours, from full-time to a part-time, 30 hours per week position. As the only administrative staff support in OEM, there will be reduced capacity to support Emergency Operations Center (EOC) readiness and activations, department purchasing and facility maintenance, response to public inquiries about disaster preparedness classes, and Community Engagement team support.

Eliminate WebEOC Software License

Expenditures \$(45,000)

This item decreases appropriation authority by \$45,000 for the current Web-based Emergency Operations Center (WebEOC) incident management platform. To create efficiencies and generate cost savings, OEM will transition to using King County's Office of Emergency Management's WebEOC at no cost, with minimal to limited loss of functionality anticipated. The WebEOC system allows internal and external stakeholders to communicate with the

Office of Emergency Management

Emergency Operations Center and exchange information and resources during emergencies.

Remove 1.0 FTE Strategic Advisor 1 Providing Community Engagement

Expenditures	\$(174,600)
Position Allocation	(1.00)

This item decreases appropriation authority by \$174,600 and reduces 1.0 FTE Strategic Advisor 1 position providing community engagement on disaster education to vulnerable communities. This reduces OEM's capacity to provide disaster skills trainings to the public and community-based organizations, such as developing and conducting youth camps with schools and community centers. There will be fewer OEM newsletter publications on emergency preparedness and hazard awareness for the public, a curtailment of engagement work with small businesses, and reduced capacity for tsunami preparedness activity development and conduct. OEM will maintain one Strategic Advisor III position as the community engagement manager and one Strategic Advisor 1 position to coordinate community engagement activities.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures	\$(79,717)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Seattle Fire Department

Harold D Scoggins, Fire Chief

(206) 386-1400

<http://www.seattle.gov/fire>

Department Overview

The Seattle Fire Department (SFD) provides fire protection and prevention, technical rescue, and emergency medical services for the City of Seattle. It deploys engine companies, ladder companies, aid and medic units, rescue companies, and fireboats to mitigate the loss of life and property from fires, medical emergencies, and other disasters. SFD maintains 33 fire stations strategically located within six battalions to provide optimal response times to emergencies. Each battalion serves specific geographic areas in the city: the downtown/Central Area, north and northeast Seattle, northwest Seattle, south and southeast Seattle, and West Seattle.

SFD has a strong record of fire prevention resulting in fewer fires than the national average and of other cities with similar populations. Seattle averages 1.4 fires annually per 1,000 residents, which is significantly lower than the national average of 4.5. Over the past five years, the average number of total structure fires per year in Seattle has been 1,025. Total fire dollar loss averaged \$19.6 million per year.

SFD provides emergency medical responses, which account for approximately 74% of all SFD emergency calls in Seattle. To respond to the emergency medical demand, all Seattle firefighters are trained as emergency medical technicians (EMTs) to provide basic emergency medical care or basic life support. SFD staffs eight medic units, each with two firefighter-trained paramedics to provide more advanced medical care or advanced life support. Additionally, the department has five full-time and two peak-time aid units staffed by firefighters to provide basic life support citywide.

In 2016, SFD implemented the Low Acuity Alarm Program to reduce non-emergency calls to the 911 system and to provide improved service and care to individuals with non-emergent needs. In 2019, the program was renamed Mobile Integrated Health to better reflect its work, which now includes the Health One multidisciplinary response team of firefighters and case managers. Health One launched in 2019 to respond to individuals immediately in their moment of need and help them navigate the situation - whether they need medical care, mental health care, shelter, or other social services. Currently, core activities of Mobile Integrated Health are high utilizer intervention (individuals and locations), low acuity data and trend analysis, establishing referral partnerships, and alternate treatment/transportation services.

The department also has marine, hazardous materials, high-angle, tunnel, and confined-space rescue teams. In addition, SFD officers and firefighters are members of local and national disaster response teams such as the Federal Emergency Management Agency (FEMA)'s Urban Search and Rescue Task Force and wildland firefighting. SFD's fire prevention efforts include fire code enforcement, building inspections, plan reviews of fire and life safety systems, public education and fire safety programs, regulation of hazardous materials storage and processes, and regulation of places of public assembly and public events to ensure life safety.

Budget Overview

The 2025-26 Proposed Budget for the Seattle Fire Department (SFD) increases investments in hiring and training of firefighters and paramedics in the face of historically high vacancy levels. As the City faces General Fund constraints, SFD has aligned their budget to reflect current staffing levels and projects higher than usual vacancies in the upcoming year. In addition, the department will reduce overtime allocations across various divisions to achieve spending constraints.

SFD's vacancies remain higher than normal, and this indicates it will be difficult for SFD to meet minimum daily staffing levels over the biennium. SFD expects some level of unit outages to continue due to these staffing shortages and is working to mitigate the impact. To address high vacancies, this budget includes investments for SFD to train an additional 20 recruits on top of the 60 recruits in their base budget. Also, to address the high level of vacancies among paramedics, additional training slots are funded in 2025 and 2026.

SFD will have ongoing funding to support the dangerous building abatement program adopted during the midyear supplemental in 2024. This will allow the department to contract with vendors to demolish or perform other related services such as installation of fencing around the property that have been identified as derelict and unsafe. The City is going to make one-time investments to replace Basic Life Support (BLS) Automated External Defibrillators (AEDs) and Advanced Life Support (ALS) LifePaks nearing their expiration date. In addition, this budget includes investments to continue the expansion of the Mobile Integrated Health (MIH) Program with the goal of increasing service delivery, expanding operational hours, and adding new lines of capacity for the team.

This budget further aligns SFD's resources with the department's operational needs. To increase institutional knowledge of processing and managing injury and illness claims, the department will explore converting one uniform position pocket into a civilian position pocket. Lastly, SFD has revised various fees and charges to cover the cost of service and to support the SFD Fire Prevention Division.

Total Incremental Changes	\$44,987,632	0.50
Total 2025 Proposed Budget	\$327,562,647	1204.85

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$32,326,052

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Seattle Fire Department

Citywide Adjustments for Standard Cost Changes

Expenditures \$9,438,663

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Align overtime budget with vacancy rate

Expenditures \$(1,000,000)

This item reduces appropriation by \$1 million in 2025 and 2026 for overtime. SFD has been experiencing a high number of vacancies due to various factors and this item aligns the overtime budget with current and forecasting staffing levels by recognizing \$1 million in potential budget savings in 2025 and 2026. SFD's staffing shortages will remain high until positions are filled and thus SFD may experience some level of unit outages that will result in overtime savings.

Department-wide Overtime Savings

Expenditures \$(400,000)

This item reduces appropriation by \$400,000 in 2025 and 2026 for SFD. Savings will be produced by reducing overtime activities across various divisions but will not impact the delivery of emergency services provided to the community.

Civilianize Disability Officer

Expenditures \$(47,290)

Position Allocation -

This item decreases appropriation by \$47,290 in SFD's Human Resources Division by replacing a uniform position pocket with a civilian position pocket to accomplish the job duties of the Disability Officer. Currently, the position rotates every two years between uniformed staff. Institutional knowledge of processing and managing injury and illness claims would increase due to longer retention of personnel beyond the typical two years of the uniform position. The current annual compensation, including overtime, is \$198,000 annually. A professional staff equivalent, which would be a Senior Personnel Specialist. Mid-point annual compensation is \$150,000. Further exploration and conversation with labor partners need to happen.

Human Resources Overtime Reduction

Expenditures \$(10,000)

This item decreases appropriation by \$10,000 in SFD's Human Resources Division. Overtime costs will be reduced due to centralization of recruitment and outreach efforts, which historically were spread amongst multiple personnel and without singular oversight by a workforce development adviser. SFD hired a workforce development adviser, and the person is actively managing and auditing overtime costs for recruitment and outreach. Strategic and intentional planning and execution will result in less diffuse and spread-out overtime costs.

Seattle Fire Department

Major Equipment Funding

Expenditures \$3,000,000

This item provides one-time funding for Basic Life Support (BLS) Automated External Defibrillators (AEDs) and Advanced Life Support (ALS) LifePaks. These items are nearing their expiration date and will need to be replaced next year. In 2025, SFD will need approximately \$2.3 million to replace the ALS LifePaks and \$700,000 to replace the BLS AEDs.

Add funding for 20 additional Fire Fighter recruits

Expenditures \$2,059,325

This item adds \$2,059,325 for hiring and training 20 additional recruits in 2025 and in 2026. SFD continues to experience a high vacancy rate and projects it to remain high in 2025 until the positions are filled. The additional fire fighter recruits will allow SFD to keep up with attrition and reduce the overall vacancy count. This is in addition to the funding for 60 recruits already in the SFD base budget.

Add funding for additional paramedic students

Expenditures \$722,400

This item adds \$722,400 in 2025 and \$1,204,000 in 2026 for 5 additional paramedic student training. SFD continues to experience a high vacancy rate within paramedic ranks and projects it to remain at elevated levels in 2025 and 2026. This funding will allow SFD to keep up with attrition and reduce vacancies. This is in addition to the funding for 5 recruits in the SFD base budget for paramedic training.

Mobile Integrated Health Program Expansion

Expenditures \$458,482

Position Allocation .50

This item adds \$458,482 in 2025 and \$1,206,953 in 2026 to continue the expansion of the Mobile Integrated Health (MIH) Program with the goal of increasing service delivery, expanding operational hours, and adding new lines of capacity for the team. This new investment would add an additional team to the Post Overdose Team (H99) to conduct patient follow-up and recovery system navigation. A follow-up component to the Post-Overdose Response Team is critical because most of the essential next steps on clients' road to recovery and stability do not happen without direct team involvement. Since the initial dose of buprenorphine lasts 24-48 hours, without follow-up there is a high likelihood of relapse. To provide additional support to the overall MIH program, a 0.5 FTE Administrative Specialist will be added in 2025 and 1 FTE Administrative Lieutenant position will be added in 2026. The proposed changes transition the MIH program from a relatively flat structure to one with more diversification, both in terms of personnel and in specialized program areas.

Basic Life Support Transport Billing

Expenditures \$5,000

Revenues \$313,905

This item increases appropriation by \$5,000 in SFD to contract with a vendor to start billing insurance companies, Medicaid, and Medicare for Basic Life Support (BLS) transports performed by SFD. SFD contracts BLS transportation, i.e., non-life-threatening ambulance services, to American Medical Response (AMR), a private contractor. When AMR cannot provide ambulances, SFD aid cars are used in a backup capacity to transport patients to the emergency room. It is estimated to bring in over \$300,000 in new revenues to support emergency medical services. Individual patients will not be billed, only insurance companies, Medicaid, and Medicare will be billed.

Seattle Fire Department

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(2,665,000)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Dangerous Building Abatement

Expenditures \$500,000

Revenues \$500,000

This item increases appropriation by \$5,000 in SFD to contract with a vendor to start billing insurance companies, Medicaid, and Medicare for Basic Life Support (BLS) transports performed by SFD. SFD contracts BLS transportation, i.e., non-life-threatening ambulance services, to American Medical Response (AMR), a private contractor. When AMR cannot provide ambulances, SFD aid cars are used in a backup capacity to transport patients to the emergency room. It is estimated to bring in over \$300,000 in new revenues to support emergency medical services. Individual patients will not be billed, only insurance companies, Medicaid, and Medicare will be billed.

SFD Revenue Submittal

Revenues \$(118,753)

This item provides the revenue adjustments to align with updated inflation and demand forecasts. It includes the new revenues associated with the dangerous building abatement services, basic life support transport billings, and projection for a renewal of the King County Medic One/EMS Levy.

Overtime Budget-related AWI

Expenditures \$600,000

This item increases appropriation by \$600,000 for 2025 and 2026 in SFD. In 2023, SFD added ongoing staffing costs associated with the permanent operation of resources that were implemented temporarily during the closure of the West Seattle Bridge. During the AWI calculations this ongoing funding was not incorporated in original calculations, this additional funding addresses that oversight.

Seattle Fire Department

SFD - BO-FD-F3000 - Operations

The purpose of the Operations Budget Summary Level is to provide emergency and disaster response capabilities for fire suppression, emergency medical needs, hazardous materials, weapons of mass destruction, and search and rescue. In addition, reduce injuries by identifying and changing practices that place firefighters at greater risk and provide communication services.

Firefighter's Pension

Alaina Gill, Executive Secretary

(206) 625-4355

<http://www.seattle.gov/firepension/>

Department Overview

The Firefighters' Pension Fund (FPEN) provides pension and medical benefit services to eligible firefighters, active and retired, and their beneficiaries. FPEN is a closed plan that only covers firefighters who were hired before October 1, 1977. Retiree benefits for firefighters hired more recently are primarily covered through a separate state-managed plan.

Management of firefighter benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into FPEN to provide for firefighter retiree benefits. In March 1970, the state created the Law Enforcement Officers and Fire Fighters Retirement System Plan 1 (LEOFF 1). Seattle firefighters hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through FPEN. As a result, this group of firefighters receives retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's FPEN that exceeds LEOFF 1 coverage. Both FPEN and LEOFF 1 closed to new enrollees in October 1977. Firefighters hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from FPEN.

The Seattle Firefighters' Pension Board is a five-member quasi-judicial body chaired by the Mayor or his/her designee, which formulates policy, rules on disability applications, and provides oversight of the Firefighters' Pension Fund. Four staff employees of the board handle all of its operational functions. Staff positions associated with Firefighters' Pension Fund are not reflected in the City's position list.

The projections of annual pension and medical benefits, which comprise about 97% of the total annual FPEN budget, are based on the forecasts of an independent actuary. The Firefighters' Pension Fund has two statutory funding sources:

- The first is a component of the City's property tax levy. These revenues are placed in the City's General Fund, which funds the Fire Pension Fund's annual budget.
- The second is the state fire insurance premium tax.

These statutory funding sources are in addition to other smaller funding sources that support the Firefighters' Pension Fund obligations. The Firefighters' Pension Fund includes two funds: the Fire Pension Fund, which pays current pension, medical, and death benefits; and the Actuarial Account, which was established by [Ordinance 117216](#) in 1994 to accumulate a balance sufficient to pay all future pension liabilities of the fund by 2028.

Firefighter's Pension

Budget Overview

The Firefighters' Pension Fund (FPEN) receives almost all of its revenue from the City's General Fund. FPEN's expenditures pay the legally mandated pension and medical benefits, including long-term care, to eligible retired firefighters and qualified beneficiaries. Most of FPEN's retirees are represented by either Local 27 (firefighters' union) or Local 2898 (fire chiefs' union) and their total pension benefits are increased annually with a cost-of-living adjustment equal to the negotiated annual wage increases (AWI) for the active union members at the Seattle Fire Department and then offset by benefits paid by the state's Law Enforcement Officers and Fire Fighters (LEOFF 1) pension plan which has its own annual growth rate.

In November 2016, Council passed Ordinance 125190 which requires an actuarially determined level payment amount from the City to the FPEN Fund each year to cover pension benefit costs. Any remaining difference between the payment amount and actual pension benefit costs is transferred to the Actuarial Account for FPEN's future pension obligations. The account is invested in a portfolio managed by the Department of Finance and Administrative Services (FAS). The 2025-2026 Proposed Budget assumes an annual rate of return of 5.5% on the investment portfolio and that the returns are continuously reinvested.

The 2025 Proposed Budget increases \$3.4 million (14.9%) from the 2024 Adopted Budget. Budget appropriations for 2026 increase \$1.01 million (3.8%). As described below, this biennium's appropriations have undergone some "right-sizing" across pension and medical and long-term care expenditure accounts to better capture expected annual costs in each account. As usual, the budget includes amounts to make the required transfer to the Actuarial Account to achieve the City's goal to fully fund all future pension liability for the fund by the end of 2028.

Firefighter's Pension

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(17,176)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Final Adjustments for Standard Cost Changes

Expenditures \$(16,052)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

FPEN Revenue and Expenditure Adjustments

Expenditures \$3,466,121

Revenues \$3,432,893

This item adjusts expenditure and revenue amounts in the Firefighters' Pension Fund to meet the projected costs for pension, medical and long-term care costs in 2025 and 2026. In 2025, it increases total costs approximately \$3.4 million from the 2024 Adopted Budget. \$3.1 million of this change is attributable to steady medical and long-term care cost increases. Higher medical and long-term care costs are expected as eligible firefighters and fire chiefs covered by this closed pension plan increase in age. Pension payment amounts have increased due to the wage agreements for Local 27 firefighters and 2898 fire chiefs. Despite this increase, appropriations for pension payments have declined in the 2025-2026 Proposed Budget, reflecting an adjustment of the appropriations back to annually expected payment amounts rather than amounts containing an excess used to build up fund balance sufficient in 2024 to meet the one-time retroactive pension payment costs that came with the union wage agreements. Additionally, and offsetting the \$1.1 million pension appropriation decrease just described, the required annual transfer to the FPEN Actuarial Account has increased approximately \$1.4 million.

Actuarial Account Transfer

Revenues -

This item provides the corresponding entries for the annual contribution from the Firefighters' Pension Fund (61040) to the Firefighters' Actuarial Fund (61050). This transfer amount of \$2.54 million in 2025 and \$2.62 million in 2026 is made with the goal of fully funding all remaining pension liability of the fund by the end of 2028.

Office of Inspector General for Public Safety

Lisa Judge, Inspector General

(206) 684-3663

<http://www.seattle.gov/oig>

Department Overview

The Office of Inspector General for Public Safety (OIG) was established in 2017 as part of the City of Seattle’s police accountability system through [Ordinance 125315](#). OIG’s purpose is to oversee the management, practices, training, supervision, and policies of the Seattle Police Department (SPD) and Office of Police Accountability (OPA) in order to promote fairness and integrity in the delivery of law enforcement services and in the investigation of police misconduct. OIG’s responsibilities include:

- Ensuring SPD is meeting its mission to address crime and improving quality of life through the delivery of constitutional, professional, and effective police services that retain the trust, respect, and support of the community;
- Consent Decree monitoring duties and increased oversight responsibilities related to use of force, crowd management, supervision, response to persons in crisis, bias and disparity, and related areas of concern to assure ongoing fidelity to the principles underlying the Consent Decree, United States of America v. City of Seattle (USDC No. 2:12-cv-01282-JLR);
- Increased review obligations related to SPD acquisition and use of surveillance technology (pursuant to Seattle Municipal Code Chapter 14.18.060);
- Conducting performance audits and reviews to ensure the integrity of SPD and OPA processes and operations; Reviewing OPA’s intake and investigation of SPD misconduct allegations;
- Evaluating SPD response to incidents involving death, serious injury, serious use of force, mass demonstrations, or other issues of significant public concern to assess the integrity of SPD investigative processes;
- Responding to emerging policy projects from council members, community and other key stakeholders;
- Maintaining and promoting use of a hotline and other technologies to receive anonymous reports from the public and City employees; and
- Making recommendations to policymakers aimed at increasing fairness, equity, and integrity in the delivery of SPD services and related criminal justice system processes.

To fulfill these responsibilities, OIG has five operational functions: audit, policy, investigations, standards and compliance, and strategic leadership to include operations and administration, guided by an overarching goal to work toward a sustainable, accountable law enforcement system.

Office of Inspector General for Public Safety

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Inspector General. The department will continue to invest in programs to oversee the management, practices, training, supervision, and policies of the Seattle Police Department (SPD) and Office of Police Accountability (OPA) and promote fairness and integrity in the delivery of law enforcement services and in the investigation of police misconduct.

The General Fund revenue forecast for the City's 2025 – 2026 Proposed Budget are insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. The Office of Inspector General (OIG) budget provides a 2% reduction through non-personnel line items such as consultant services, supplies, travel, and equipment/software that will not impact their daily operations. The budget is also adjusted for minor Citywide technical changes which are described below.

Incremental Budget Changes

Office of Inspector General for Public Safety

	Dollars	FTE
2024 Adopted Budget	4,700,174	22.50
Baseline		
Citywide Adjustments for Standard Cost Changes	195,944	-
Bargained Annual Wage and Market Wage Increases to Base Budget	432,837	-
Proposed Operating		
Reduce Non-labor Accounts to Meet Budget Reductions	(95,325)	-
Proposed Technical		
Final Adjustments for Standard Cost Changes	(23,936)	-
Total Incremental Changes	\$509,520	-
Total 2025 Proposed Budget	\$5,209,694	22.50

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$195,944

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of Inspector General for Public Safety

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$432,837

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Proposed Operating

Reduce Non-labor Accounts to Meet Budget Reductions

Expenditures \$(95,325)

This item reduces the OIG non-labor budget for consultant services, supplies, travel, and equipment/software. This reduction is 2% of the OIG baseline budget and should not impact department operations.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(23,936)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Law Department

Ann Davison, City Attorney

Civil Division, (206) 684-8200; Criminal Division, (206) 684-7757

<http://www.seattle.gov/cityattorney>

Department Overview

The department provides legal advice to City officials, represent the City in litigation, and protect the public health, safety, and welfare of the community by prosecuting violations of City criminal and civil ordinances and state law. The three department divisions are described below.

The **Administration Division** provides executive leadership, communications, and operational support for the entire department. It is comprised of the executive leadership team, human resources, finance, media relations, and information technology staff.

The **Civil Division** provides legal counsel and representation to the City's elected and appointed policymakers in litigation at all levels of county, state, federal courts, and administrative agencies. The Civil Division is organized into eight specialized areas of practice: Employment, Environmental Protection, Land Use, Constitutional and Complex Litigation, Government Affairs, Torts, Civil Enforcement, and Contracts & Utilities.

The **Criminal Division** prosecutes misdemeanor crimes in Seattle Municipal Court, provides legal advice to City clients on criminal justice matters, monitors state criminal justice legislation of interest to the City, and participates in criminal justice reform efforts, policy development and management of the criminal justice system. The Criminal Division is comprised of a Prosecution Support Unit, Case Preparation Unit, Domestic Violence Unit (prosecutors and victim advocates), Appeals, Review and Filing Unit, Specialty Courts Unit (Infractions, Mental Health, Veterans' Court, Let Everyone Advance with Dignity (LEAD), and Pre-filing Diversion), and Trial Team Unit.

The **Precinct Liaisons** supports a program where attorneys work in each of the City's police precincts, providing legal advice to police and other City departments. In helping to address a variety of neighborhood and community problems, the precinct liaison attorneys coordinate with the Civil and Criminal divisions with the goal of providing a consistent, thorough, and effective approach.

Budget Overview

Law Department

The City’s 2025 – 2026 Proposed Budget maintains core services for the Law Department. The department will continue to invest in programs such as prosecution of misdemeanors, advise on legal matters, and provide legal counsel to the City’s elected and appointed policymakers in litigation at all levels.

The General Fund revenue forecast for the City’s 2025 – 2026 Proposed Budget are insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. The Law Department provides a 1.4% reduction in the Civil and Criminal Divisions by removing funding for 3.0 FTE attorney positions. Two baseline technical changes increase the department’s ongoing budget. One item includes inflation for the Memorandum of Agreement with King County for the Regional Domestic Violence Firearms Enforcement Unit. The other item a paralegal to support the collection of delinquent accounts and is funded by Seattle City Light.

The budget is also adjusted for minor Citywide and departmental technical changes.

Incremental Budget Changes

Total 2025 Proposed Budget	\$45,559,667	209.80

Law Department

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,560,469

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$3,543,406

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Law Baseline Adjustments

Expenditures -

This technical change corrects issues of funding between projects and Divisions. It corrects errors associated with funds coded to Memorandum of Agreements which are no longer in place. It also provides detail to centralized changes associated with the City Council change to adjust pension contributions by departments. These changes have no net financial impact.

Inflation for the Firearms Surrender Memorandum of Agreement with King County

Expenditures \$47,025

In 2017, the City entered into a six-year MOA with King County to standup and staff a regional unit to enhance public safety and public health with effective processing, service and enforcement of Protection Orders and Orders to Surrender Weapons. This adjustment reflects the inflationary adjustments to the MOA which haven't increased since 2023.

Seattle City Light Memorandum of Agreement - Paralegal

Expenditures \$141,274

Revenues \$141,274

This item increases appropriation authority by \$141,273 in the Civil Budget Control Level. This appropriation increase is revenue backed by funding provided by Seattle City Light (via MOA) and will support a Paralegal-Law to assist with collections monies associated with past-due accounts. This is a continuation of contract position from the Department of Human Resources included in the mid-year supplemental in 2024.

Proposed Operating

Remove Funding for Two Civil Division Assistant City Attorneys

Law Department

Expenditures \$(433,754)

This item removes funding for two 1.0 FTE Assistant City Attorneys in the Civil Division Employment and Contracts/Utilities Sections. This change reduces capacity to provide guidance and advice to elected officials and departments. This may also lead to an increase in costs to departments and/or the Judgment and Claims fund as they may need to contract with outside attorneys to perform the work that is time-sensitive and cannot be delayed as a result of fewer attorneys in the City Attorney's Office.

The position authority is retained to allow flexibility in hiring and address emergency legal needs as required.

Remove Funding for One Specialty Court Unit Prosecutor

Expenditures \$(181,842)

Following the closure of Community Court at the Seattle Municipal Court this item eliminates funding for one prosecutor in the Specialty Court Unit (SCU) of the Criminal Division. This unit houses a team of attorneys who utilize alternative approaches to the traditional prosecutorial approach. The SCU team handles cases in cases in Mental Health Court, Veteran's Treatment Court and LINC (Legal Intervention and Network of Care). SCU also handles both traffic and non-traffic infractions, parking citations, animal control violations, impounds and other non-criminal violations. This reduction will lower the caseload capacity for attorneys of these alternative case types. Four prosecutors remain in SCU along with the Unit Supervisor.

The position authority is retained to allow flexibility in hiring and address emergency legal needs as required.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(187,474)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Criminal Case Management System Licensing Costs

Expenditures \$185,000

The Law Department has been collaborating with the Information Technology Department (ITD) to develop a new Criminal Case Management System (CCMS). This item funds \$185,000 in ongoing licensing and maintenance costs associated with contracted vendor Justice Nexus.

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures \$104,791

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Seattle Municipal Court

The Honorable Faye R. Chess, Presiding Judge

(206) 684-5600

<http://www.seattle.gov/courts/>

Department Overview

As the judicial branch of Seattle City government, the Seattle Municipal Court (SMC or Court) provides a forum to resolve alleged violations of the law in a respectful, independent, and impartial manner. SMC adjudicates misdemeanors, gross misdemeanors, infractions (e.g., traffic and parking tickets, traffic camera violations, and other violations), and civil violations related to building and zoning offenses. The Court has seven elected judges and five appointed magistrates. There are more cases processed here than any other municipal court in the State of Washington.

This is a transformational time at SMC with several change initiatives underway that will advance SMC as the people's court, providing fair, equitable and innovative delivery of justice. Each change initiative aligns with the Court's strategic priorities of:

- building capacity
- evolving services to center those served
- modeling a culture rooted in equity
- streamlining decision making
- engaging staff to develop future leaders today

In 2024, SMC completed realignment its organizational structure into four service areas: Operations, Administrative Services, Court Technology, and Strategy. This structure supports realizing SMC's strategic priorities by making the best use of court resources, eliminating siloed operations and functions, and ensuring court services are easy to navigate. The realignment improves transparency in decision-making and communication throughout the Court. In late 2023, SMC judges unanimously approved a sustainable governance structure memorialized in a governance playbook that outlines the operating agreements of the court, establishes the process by which these agreements may be changed, and documents decision-making authority. This was developed in partnership with the National Center for State Courts. In 2024, the court launched a project governance structure to ensure a clear and consistent process for requesting, submitting, vetting, and approving projects and system enhancements to ensure alignment with court policy and strategy.

SMC recognizes undoing institutional racism and ensuring a culture of equity and inclusion requires engagement with community and staff to identify meaningful solutions. In 2024, SMC continued to engage community through its judicial officers, as well as through Community Relief events. These events bring court services and resources to Seattle neighborhoods and are an opportunity for community members to receive assistance with resolving SMC warrants, learn about options for addressing tickets, help with reinstating their driver's license, and access supportive services through the Community Resource Center. In May 2024, SMC hosted its first Law Day event, welcoming over 40 high school students to the court to learn about the branches of City government, explore court careers, and participate in mock trials.

The Court successfully launched its new technology systems in March 2024, the culmination of a multi-year project to replace a 30+ year-old legacy municipal court information system, MCIS. User stories and human-centered design informed the business transformation. The court continues to implement components of the system deferred to ensure an on-schedule launch as well as key data exchanges with system partners.

Ensuring access to justice for Limited English Proficiency (LEP) and deaf, hard-of-hearing, or deaf-blind (D/HH/DV) individuals remains a priority for the Court. SMC has provided Interpreter Services in 149 languages since 2005, including American Sign Language. Free interpreter services are provided for criminal and civil matters, including

Seattle Municipal Court

court hearings, trials, attorney-client interviews, probation appointments, prosecution witnesses, mental health evaluations, customer service, and translation of court forms and letters.

SMC looks forward to the strategic changes planned for the next year that will advance the court values of service, fairness, equity and inclusion, innovation, excellence, and integrity.

Budget Overview

The City's 2025 – 2026 Proposed Budget maintains core services for the Seattle Municipal Court. The department will continue to invest in programs to adjudicate misdemeanors, gross misdemeanors, infractions (e.g., traffic and parking tickets, traffic camera violations, and other violations), and civil violations related to building and zoning offenses.

The General Fund revenue forecast for the City's 2025 – 2026 Proposed Budget are insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. The Court provides a 0.7% reduction of \$361,203 including 3.0 FTE Administrative Specialist positions.

The Court realigned its organizational structure in 2024 into four areas of Operations, Administrative Services, Court Technology and Strategy, as summarized in the Department Overview. Through net-zero budget changes, all labor and non-labor appropriations are moved from the Court Compliance Budget Summary Level (BSL) into the Court Operations and Administrations BSL's.

The budget is also adjusted for minor Citywide and departmental technical changes which include support for maintaining the new case management system, one-time support for organizational realignment with the new software, and ongoing grant funding to sustain a staff member for therapeutic courts.

Total Incremental Changes	\$2,946,931	(1.00)
Total 2025 Proposed Budget	\$46,226,911	200.85

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(1,038,964)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Seattle Municipal Court

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$4,114,563

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Proposed Operating

Customer Service Staff Reduction

Expenditures \$(361,203)

Position Allocation (3.00)

The General Fund revenue forecast is insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. This eliminates three vacant Administrative Specialist II positions in the Court Operations division. At this time, existing court staff are able to absorb this work.

Grant Backed Funding for Therapeutic Court Position

Position Allocation 1.00

The Washington State Administrative Office of the Court (AOC) has ongoing, permanent funding available for courts of limited jurisdiction for Therapeutic Courts. The Court is a member of the group that will be receiving annual distributions. This change request makes permanent the Mental Health Court Community Support Specialist, who connects clients with mental health and/or substance use disorder to services and get them the support they need as they address their court obligations.

Case Management Software Contract

Expenditures \$246,351

This item increases appropriation for the ongoing Operating and Maintenance costs of the new case management system including mandated annual upgrades. The Court retired its legacy case management system in 2024. The new case management system (MCIS 2.0/C-Track) will need ongoing upgrades to keep the system current and able to interact with other enterprise systems.

Therapeutic Court Grant

Expenditures \$165,000

Revenues \$165,000

This is grant funding from the Washington State Administrative Office of the Court for the new grant starting in July of 2025. This grant will continue to support a 1.0 FTE Strategic Advisor I, a nonprofit service provider contract, supplies, training and seminar travel, and recovery support costs. It serves Seattle Municipal Court participants identified with substance use disorders or other behavioral health needs and engages individuals with community-based therapeutic interventions. There are no matching requirements.

Seattle Municipal Court

School Zone Camera Expansion

Expenditures	\$125,000
Position Allocation	1.00

The School Zone Camera program is a joint program between the Seattle Department of Transportation (SDOT), Seattle Police Department (SPD), and SMC that installs and operates automated enforcement cameras and processes citations for 30 cameras intended to enforce speed limits in school zones at 19 camera locations at 18 schools.

This item expands the program, installing 37 new cameras at 18 additional locations, intending to be operational by fall 2025. This expansion will nearly double the total number of existing locations that have automated school zone camera enforcement. Revenue from ticket payments will be used to offset operating and citation processing costs in SDOT, SPD, and SMC, and support fund balance in the School Safety Traffic and Pedestrian Improvement (SSTPI) Fund to help prevent the need for future reductions to school safety and pedestrian improvement projects. The budget changes for SPD and SDOT operating, and citation processing costs associated with this expansion are included in their respective Budget Book sections. Please see these sections for more information about these impacts.

Trial Court Improvement Account Funding to Support Organizational Realignment

Expenditures	\$104,222
Position Allocation	-

This change request reduces the Trial Court Improvement Account (TCIA) fund balance and allocates one-time resources to SMC to advance their organization transformation in support of the new case management system and extending a sunset position initiated in 2024. The court is changing the organization and internal administrative systems to support the new case management system.

Parking Fine Increase

Revenues	\$4,900,000
----------	-------------

Under their authority granted by State law, Seattle Municipal Court judges have increased fines for parking citations, to take effect January 1, 2025. These fine amounts have not changed since 2011. The changes align these fines with inflation and approach parity with similar U.S. cities. In total, this change will add an estimated \$4.9 million in General Fund revenues from parking citations. The increase is roughly 50% across the board where fines of \$29 will increase to \$43; fines of \$44 will increase to \$65; fines of \$47 will increase to \$69; fines of \$53 will increase to \$78.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures	\$(707,834)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Seattle Municipal Court

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures \$260,125

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department’s budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Judicial Salary Technical Adjustment

Expenditures \$39,671

Washington State elected judicial salaries are set by Washington Citizens’ on Salaries for Elected Officials. As directed in Ordinance 122112, SMC judicial salaries are set at 95% of the district court. A salary schedule has been set and a wage increase was mandated for increase effective July 1, 2024. Setting SMC judicial salaries at this level qualifies the city to receive a contribution from the state for one-time improvements. The state’s contribution is generally \$150,000 annually and is applied to the Trial Court Improvement Account in Finance General. Ordinance 122112 permits appropriation by annual budget or by separate ordinance, solely to fund allowable SMC related expenditures.

Consolidation of Half-time to Full-time Positions

Position Allocation -

As part of the Court reorganization prompted by case management system changes, SMC is consolidating eight part-time positions into four full-time FTE. This is a net-zero cleanup change. SMC has filled these as full-time positions using the other 0.5 FTE salary savings to fund a 1.0 FTE. Truing up the positions will provide a more accurate view of open/vacant positions.

Appropriations by Budget Summary Level and Program

SMC - BO-MC-2000 - Court Operations

The purpose of the Court Operations Budget Summary Level is to hold hearings and address legal requirements for defendants and others, help defendants understand the Court's expectations, and assist them in successfully complying with court orders. Some proceedings are held in formal courtrooms and others in magistrate offices, with the goal of providing timely resolution of alleged violations of City ordinances and misdemeanor crimes committed within the Seattle city limits.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Court Operations	17,735,127	17,683,258	23,607,387	24,918,707

Seattle Police Department

Sue Rahr, Interim Chief

(206) 684-5577

<https://www.seattle.gov/police/>

Department Overview

The Seattle Police Department (SPD) prevents crime, enforces laws, and supports quality public safety by delivering respectful, professional, and dependable police services. SPD operates within a framework that divides the city into five geographical areas called “precincts”. These precincts define east, west, north, south, and southwest patrol areas, with a police station in each area. The department's organizational model places neighborhood-based emergency response services at its core, allowing SPD the greatest flexibility in managing public safety. Detectives in centralized investigative units located at SPD headquarters downtown and elsewhere conduct follow-up investigations into violent and property crimes, and other types of crimes. Other parts of the department function to train, equip, and provide policy guidance, human resources, communications, and technology support to those delivering direct services to the public.

Interim Chief of Police Sue Rahr has committed the department to five focus areas to anchor itself throughout the on-going work around the future of community safety:

- **Re-envisioning Policing** - Engage openly in a community-led process of designing the role the department should play in community safety
- **Humanization** - Prioritize the sanctity of human life in every situation and affirm each individual’s worth
- **Reinventing Community Engagement** - Establish true and lasting relationships through respectful interactions in every situation
- **Fiscal Stewardship** - Examine critically every dollar spent to ensure it meaningfully contributes to community safety
- **Employee Wellness and Morale** - Support exceptional police services by ensuring the department recruits and retains the best employees

On September 7, 2023, the federal court overseeing the Consent Decree found that SPD had sustained full and effective compliance across all of its core commitments under that order with the exception of use of force, force investigation, and force review in large-scale crowd management events. Additionally, the Court ruled that the City had further work to do in the area of Accountability. The Court, as did the Monitor in his May 2022 Comprehensive Assessment, again highlighted the lack of officers available to the community as a significant barrier to continued improvement and providing essential core public safety functions.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Seattle Police Department (SPD). The budget makes multiple investments to improve the capacity for SPD to respond to community needs and deliver services efficiently. The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in SPD to align budget with staffing projections. SPD continues to anticipate salary savings from officer attrition in 2025 and 2026, therefore salary savings from 23 officer vacancies are proposed to be realized to help address the City's budget shortfall.

Staffing Levels

For the past four years, SPD had more officer vacancies through resignations and retirements than it has been able to hire. The budget makes continued investments in the recruitment and retention plan that was established in 2022 by sustaining funding for recruiting professionals, improving branding and marketing materials, and maintaining hiring bonuses for new and lateral officers.

As part of the department's broader recruitment and retention efforts, this budget continues to support sworn officers by adding additional support and specialist roles that are not law enforcement officers to perform administrative and non-emergency functions. These roles play a vital role in creating public safety and ensuring officers can focus on situations where their skills and experience are needed most. This budget expands and increases the roles of civilian SPD employees, including redeploying 2.0 FTE Parking Enforcement Officers to expand capacity for reviewing automated traffic cameras, adding 7.0 FTE investigative support staff to assist SPD detectives with homicide, robbery, sexual assault, and gun crime investigations by processing court filings, case files, and other urgent materials, and adding 21.0 FTE in the Real Time Crime Center to triage and coordinate emergency responses.

Equipment and Technology

The budget supports investments and improvements to many of SPD's equipment and technology projects to enhance evidence collection, identification of offenders, and increase case clearance rates. The Technology Assisted Crime Prevention Pilot Project is designed to address gun violence, human trafficking, and other persistent felony crimes where it is geographically concentrated. This project will deploy CCTV cameras at specific locations and upgrade the capabilities and staffing of the Real Time Crime Center to triage and coordinate emergency responses and support criminal case investigations.

These investments are strategically integrated with the crime prevention pilot included in the 2023-2024 Adopted Mid-Biennial Budget Adjustments to leverage the technological resources previously approved. Having real-time, accurate information in one place helps increase reliability regarding the location of victims and suspects – enabling

Seattle Police Department

quicker aid and safer apprehension. Given SPD's staffing shortage, these investments are part of a holistic strategy to provide SPD officers additional tools and resources to perform their work.

Programmatic and Administrative Improvements

This budget makes specific administrative investments to enable SPD to operate more efficiently in the provision of high-quality public safety services. These changes include aligning grant appropriations with actual awards received, as well as transferring recruitment and retention positions from the Seattle Department of Human Resources to the SPD, maintaining a transfer approved by Council in a standalone ordinance in 2024 ([CB 120766](#)).

In addition, this budget provides additional resources to SPD's Crisis Response Team (CRT) by adding Community Crisis Responders to SPD's co-responder program. These individuals will conduct post-incident follow-up (both criminal and non-criminal), Extreme Risk Protection Order screening, care coordination for community members, and respond to in-progress incidents involving persons in crisis. These positions were originally contracted through the Downtown Emergency Service Center (DESC), and subsequently added as emergency positions in 2024.

Seattle Police Department

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$46,943,703

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$8,261,553

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Chartfield Corrections

Expenditures -

This net zero change makes adjustments to correct budget program, project and account details for items in the 2025 Proposed Budget.

One-Time Budget Changes

Expenditures \$(973,125)

Revenues \$(49,725)

This item includes budget adjustments for one-time changes such as the Crime Prevention Technology Pilot and Special Event Shift Premiums in the 2024 Adopted Budget.

Align Recurring Grants With Actual Awards

Expenditures \$(1,207,591)

Revenues \$(1,207,591)

This item removes appropriations for the FY23 Patrick Leahy Bulletproof Vest Partnership, FY23 Community Policing Development, FY23 Law Enforcement Mental Health & Wellness Program, and FY23 Smart Policing grants. These grants were included in the 2024 Adopted Budget based on estimated awards, but ultimately were not awarded to SPD.

Proposed Operating

Overtime for Emphasis Patrols

Expenditures \$10,000,000

This item adds one-time funding in 2025 for increased overtime patrol for emphasis patrols. SPD continues to experience officer staffing shortages and relies on overtime to deliver essential public safety services. This funding will support efforts to curb violent criminal behavior through proactive policing in areas where crime is

Seattle Police Department

concentrated. The City Auditor’s office published an audit report in July citing a study of Seattle that found between four and five percent of street segments accounted for 50 percent of annual reported crime incidents over a 14-year period.

Real Time Crime Center

Expenditures	\$2,048,467
Position Allocation	21.00

This change increases appropriation authority by \$2M in 2025 and \$3.7M in 2026 and adds ongoing position authority for 21.0 FTE Real Time Crime Center (RTCC) Analyst positions – 12.0 FTE in 2025 and 9.0 FTE in 2026. These positions will allow the department to establish a fully staffed Real Time Crime Center. The 2024 Adopted Budget includes funding for a Closed-Circuit Television (CCTV) Crime Prevention Technology Pilot Project to leverage technological resources to address increased gun violence, human trafficking, and felony crime at specific locations where it is concentrated. This pilot program will be most successful when strategically integrated with a RTCC, which will use the information from the Crime Prevention Pilot technologies to triage and coordinate patrol/emergency responses to crime events.

Scheduling and Timekeeping Software

Expenditures	\$1,895,363
--------------	-------------

This item adds \$1.9 million for the procurement, implementation, and maintenance of a scheduling and timekeeping system to provide for better management of staff resources in the department and help align with the City's new Workday timekeeping system implemented in 2024. Of this amount, \$0.7 million is ongoing, and \$1.2 million in 2025 and \$1.0 million in 2026 is one-time funding for labor and vendor costs.

Automated School Zone Camera Expansion

Expenditures	\$1,199,836
--------------	-------------

This item adds revenue-backed funding in the Seattle Police Department’s School Zone Camera Program and redirects two existing Parking Enforcement Officers to support program expansion. The School Zone Camera program is a joint program between the Seattle Department of Transportation (SDOT), the Seattle Municipal Court (SMC), and SPD that installs and operates automated enforcement cameras and processes citations for 30 cameras intended to enforce speed limits in school zones at 19 camera locations (18 schools).

The program is expanding by installing 37 new cameras at 18 additional locations, intending to be operational by fall 2025. This expansion will nearly double the total number of existing locations that have automated school zone camera enforcement. Funding from the School Safety Traffic & Pedestrian Improvement fund will cover vendor payments for the additional cameras and SPD labor costs for citation review.

Investigative Support Positions

Expenditures	\$1,091,333
Position Allocation	14.00

This item increases appropriation authority by \$1.1M in 2025 and \$2.3M in 2026 and adds ongoing position authority for 7.0 FTE investigative support positions in 2025 and another 7.0 FTE in 2026. Four emergency positions were created in August 2024 with the emergency authority for these positions expiring on December 31, 2024. These positions will assist SPD Detectives with homicide, robbery, and gun crime investigations. Hiring these positions will allow SPD to expand capacity and increase support for Detectives and Officers to complete thorough, precise, and timely documentation for criminal investigations, including pulling criminal histories, requesting 911 recordings, releasing information to a prosecutor, and more.

Seattle Police Department

Implement CCTV at Additional Locations

Expenditures \$425,000

This item adds funding for the implementation of closed-circuit television (CCTV) cameras at additional locations where gun violence, human trafficking, or persistent felony crime is concentrated. These technology systems will only be used in public places, such as sidewalks, streets, and parks to mitigate privacy concerns.

Reallocate Salary Savings for Overtime Needs

Expenditures -

This item makes a net-zero budget adjustment to reallocate \$4.2 million in 2025 and \$1.2 million in 2026 in additional projected salary savings for overtime needed to staff emergency response, investigations, and special operations. Due to ongoing sworn staffing shortages, SPD has been dependent on overtime hours to meet the current demand for public safety and violence prevention services.

Remove Support For SPD's Mounted Patrol Unit

Expenditures \$(230,030)

This item eliminates General Fund support of the department's Mounted Patrol Unit (MPU), including 1.0 FTE Equipment & Facilities Coordinator, three unbudgeted part-time temporary maintenance laborers, and associated operating costs. Sworn positions currently assigned to the MPU will continue to be funded by the General Fund but will be reassigned elsewhere in the department.

SPD General Fund Reduction

Expenditures \$(4,270,000)

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. This item reduces the budget by 1%, or \$4.3 million. Currently, SPD estimates the department's 2025-2026 baseline budget supports 1,123 FTE. To achieve the reduction, 23.0 FTE police officer positions will be held vacant for the full duration of the target period. The total amount of salary savings in both 2025 and 2026 will be determined by the average monthly filled level. Based on SPD's current and projected sworn staffing levels, the department is confident the full cut target is achievable.

Add 2.0 FTE Civilian Investigators in OPA

Expenditures \$369,412

Position Allocation 2.00

This item adds two full-time civilian investigators in the Office of Police Accountability (OPA), as provided by the new Seattle Police Officers Guild (SPOG) Collective Bargaining Agreement (CBA). OPA is currently budgeted for nine sworn investigators and two civilian investigators. Civilian investigators help maintain efficient complaint processing, including high-quality investigations. Additional civilian investigators will move Seattle closer to realizing directives from the Police Accountability Ordinance and the federal consent decree by empowering civilian oversight and building community trust. With these additions, OPA will have four civilian investigators and three civilian supervisors who oversee and manage investigations, for a total of seven civilians.

OPA General Fund Reduction

Expenditures \$(441,439)

Position Allocation (2.00)

Seattle Police Department

The General Fund revenue forecast for the City's 2025-26 Proposed Budget is insufficient to cover expected costs. General Fund reductions were identified to mitigate this shortfall in revenues. This item reduces OPA's budget by 8%, or \$0.4 million. To achieve this, OPA is reducing 1.0 FTE Administrative Specialist II and 1.0 FTE Communications Manager. These reductions will likely result in delays responding to media inquiries, as well as fewer social media updates and published newsletters. In addition, this item reduces department vehicles from four to three, and also reduces OPA's overtime budget by roughly two-thirds, resulting in fewer community outreach and education events which often take place off-hours but is not expected to cause delays in investigations due to the addition of two investigator positions.

Proposed Technical

Ongoing Changes from Current Year Legislation

Expenditures	\$2,067,935
Position Allocation	2.35

This change includes ongoing budget and position changes resulting from current year legislation in 2024, including the transfer of full-time public disclosure positions from SPD to OPA, the abrogation of a 0.65 FTE grant-funded position, \$1,000,000 to maintain expansion of SPD officer recruitment advertisement placements in 2025, and \$500,000 to maintain the City's commitments set forth in the Mayor's Executive Order regarding Sexual Assault Unit (SAU) reform, as well as to execute the recommendations made by the Advisory Panel. In addition, this change transfers ongoing budget and position authority for 3.0 FTE Recruitment and Retention positions from the Seattle Department of Human Resources to SPD. These three positions were originally created as part of the Recruitment & Retention Initiative item in the 2022 budget (Ordinance 126654, Section 3) and assigned to SDHR. The positions were subsequently transferred to SPD in 2024 in a standalone SPD Recruitment and Retention Ordinance (Ordinance 127026).

Add 5.0 FTE Community Crisis Responders

Expenditures	\$700,091
Position Allocation	5.00

This item adds position authority to convert 4.0 FTE Community Crisis Responders II and 1.0 FTE Community Crisis Responder Supervisor to permanent positions, and transfers funding from the Human Services Department to SPD to support the ongoing work. These Mental Health Professional (MHP) positions were originally contracted through the Downtown Emergency Service Center (DESC) to work closely with SPD. Five MHP emergency positions were created in April 2024 with the emergency authority for these positions expiring on December 31, 2024. These positions conduct post-incident follow-up (both criminal and non-criminal), Extreme Risk Protection Order screening, care coordination for community members, and respond to in-progress incidents involving persons in crisis.

Sunset Date Extensions

This item extends sunset dates for the following positions approved in the 2023 Mid-Year Supplemental: 1.0 Strategic Brand & Marketing Manager, 1.0 Performance Management position, and 2.0 Public Disclosure positions. The Strategic Brand & Marketing Manager and Performance Management positions are both funded by SPD's recruitment and retention project and are critical links in SPD's recruitment and retention efforts. The Public Disclosure positions are funded with savings from position vacancies and are necessary to keep up with SPD's growing backlog of public disclosure requests (PDRs) that continues to grow.

Remove Unawarded Grants

Expenditures	\$(276,150)
Revenues	\$(276,150)

Seattle Police Department

This item removes appropriation for five grants that were previously accepted and appropriated in the 2024 Adopted Budget: COPS Community Policing Development – De-Escalation, Port Security Grant Program, High Intensity Drug Trafficking Area, SPD Impaired Driving Training Grant, and Target Zero Grant.

Final Adjustments for Standard Cost Changes

Expenditures	\$(5,538,942)
--------------	---------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

General Fund Revenue Adjustment

Revenues	\$4,542,958
----------	-------------

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Seattle Police Department

Police Relief and Pension

Stephanie Coleman, Executive Secretary
(206) 386-1286

<http://www.seattle.gov/policepension/>

Department Overview

The Police Relief and Pension Fund (PPEN) provides pension and medical benefit services to eligible active and retired police officers and their beneficiaries. PPEN is a closed plan which only covers police officers who were hired before October 1, 1977. Retiree benefits for police officers hired more recently are primarily covered through a separate state-managed plan.

Management of police benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into PPEN to provide for police officer retiree benefits. In March 1970, the State of Washington took over the provision of certain police pensions through Revised Code of Washington (RCW) Section 41.26, the Law Enforcement Officers and Fire Fighters (LEOFF) Plan 1. Seattle police officers hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through PPEN. As a result, these police officers receive retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's PPEN that exceeds LEOFF 1 coverage. Both PPEN and LEOFF 1 closed to new enrollees in October 1977. Police officers hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from PPEN.

The Seattle Police Pension Board is a seven-member quasi-judicial body chaired by the Mayor or the Mayor's designee, which formulates policy, rules on disability applications, and provides oversight of the Police Pension Fund. Three staff employees of the board handle all of its operational functions. Staff positions associated with Police Relief and Pension are reflected in the City's position list.

Annual pension and medical benefits projections, which comprise about 97% of the total annual PPEN budget, are based on the forecasts of an independent actuary. The City's General Fund provides funding for nearly all of PPEN's annual budget that supports the Police Relief and Pension Fund obligations. PPEN also has a statutory funding source from police auction proceeds, which contribute a small amount towards the annual budget.

Police Relief and Pension

Budget Overview

The Police Relief and Pension Fund (PPEN) pays legally mandated pension and medical benefits, including long-term care, to eligible retired police officers and qualified beneficiaries. The total pension benefits for PPEN members are increased annually through locally negotiated cost of living adjustments (COLA) and local inflation. These increases are then offset by the benefits paid by the state's LEOFF 1 pension plan which has its own annual growth rate.

Most of PPEN's retirees are represented by either the Seattle Police Management Association (SPMA) or the Seattle Police Officer's Guild (SPOG).

The 2025-2026 Proposed Budget includes adjustments to retiree medical and long-term care, pension, and administrative support costs with total budgets of \$22.46 million in 2025 and \$22.52 million in 2026. These are a -16.0% reduction in 2025 from the 2024 Adopted Budget and a 0.23% increase in 2026 from 2025. Adjustments to appropriations for medical and long-term care reflect actuarial valuation estimates, which anticipate medical and long-term care costs will increase over the next several years due to PPEN's aging membership and annual trend rates for medical and long-term care costs. Pension appropriations incorporate the pension payment effects from annual wage increases in concluded labor agreements, but are reduced relative to previous years' appropriated amounts.

The Proposed Budget also includes reductions in General Fund transfers relative to the 2024 Adopted Budget totaling approximately \$13.25 million over the biennium. This two-year reduction has the intended effect of reducing fund balance to a more appropriate level. General Fund contributions in 2027 will resume full coverage, without support from fund balances. The 2025 Proposed Budget further includes appropriation increases relative to the 2024 Adopted Budget of approximately \$278,000 for centrally adjusted administrative and staff labor costs.

Police Relief and Pension

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$107,314

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$27,994

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Fund Balancing Adjustment(s)

Expenditures \$(4,409,040)

Revenues \$(4,283,779)

These adjustments provide for a reduction in fund balances over the 2025-2026 biennium by reducing the General Fund transfer to the Police Pension Fund, while also adjusting expenditures to meet expected pension, medical, long-term care and administrative costs. This two-year reduction intentionally draws on existing fund balance in place of General Fund contributions in order to manage the size of the Police Relief and Pension fund balances. Balances had grown in anticipation of needing resources to pay for retroactive pension payment costs tied to the labor agreements negotiated between the police unions and the City of Seattle.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(10,047)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Seattle City Light

Dawn Lindell, General Manager & CEO

(206) 684-3500

<https://www.seattle.gov/city-light>

Department Overview

Seattle City Light was created by the residents of Seattle in 1902 to safely provide affordable, reliable, and environmentally sound electric power to the City of Seattle and neighboring suburbs. Owned by the community it serves, City Light is a nationally recognized leader in energy efficiency, renewable resources, and environmental stewardship.

City Light provides electric power to approximately 503,000 residential, business, and industrial customers within a 131-square-mile service area. City Light serves the City of Seattle and surrounding jurisdictions, including parts of Shoreline, Burien, Tukwila, SeaTac, Lake Forest Park, Renton, Normandy Park, and areas of unincorporated King County.

City Light is the nation's ninth largest publicly owned electric utility in terms of customers served. On average, City Light produces about 50% of its energy through the six hydroelectric dams that it owns and operates with additional sourced hydroelectric and renewable energy from Bonneville Power Administration and marketplace purchases.

Budget Overview

The Seattle City Light [2025-2030 Strategic Plan Update](#) and associated rate path were approved by Council in September 2024, and the 2025-2026 Proposed Budget reflects the strategic priorities outlined in this plan. In keeping with the department's commitment to financial health and affordability, proposed changes are primarily net-zero reprioritizations necessary to support the strategic priorities and outcomes described in the approved plan.

Cost drivers in the utility's operating budget include power purchases, increases due to growing electrification, inflationary cost pressures, and an increasingly complex physical and regulatory environment. To minimize the

Seattle City Light

impact of these increases, the utility reviewed spending and took reductions in several areas including consulting, supplies, and travel and training.

City Light's capital program increases by 6.5% (\$30 million) in 2025 and 15% (\$65 million) in 2026 to accommodate growth in several areas. These include substation power transformer replacements, critical IT and security investments, Georgetown Steam Plant maintenance, and Sound Transit 3 revenue-backed work. Also, to enhance public safety, \$1 million annually was added from the General Fund to the streetlighting capital budget to support adding new lights in areas experiencing higher crime rates.

To support the capital program and other eligible City Light costs, the 2025-2026 Proposed Budget anticipates a 2025 bond issue of approximately \$300 million.

Retail revenues are the primary source of revenue for City Light. Retail revenues are expected to increase significantly as demand for electricity increases, fueled by electrification of buildings and transportation as the City progresses on climate commitments. Retail revenues also reflect a rate increases and a temporary Rate Stabilization Account (RSA) surcharge that went into effect in January 2024 after the RSA was depleted. The RSA is a cash reserve that supplements wholesale revenues, which are currently projected to be below forecast due to lower-than-expected precipitation and snowpack as well as higher-than-expected energy prices in the wholesale market.

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$17,479,680

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Seattle City Light

Proposed Operating

Purchased Power

Expenditures \$72,423,776

This item adds funding for increasing costs of power and transmission from City Light's contract with the Bonneville Power Administration, as well as increases in purchases from the wholesale market. In addition, to meet anticipated load growth and comply with new emissions regulations, this item supports adding new long-term contracted renewable energy resources.

Reduce Volatility in Power Supply Costs

Expenditures \$1,160,447

Position Allocation 2.00

This item adds two positions and \$1.2 million to support growth in two areas: the first is to prepare for and ensure that there is transmission system capacity to deliver additional clean electricity to the service territory as electricity demands increase due to vehicle and building electrification, and the second is to analyze and prepare for new opportunities in emergent day-ahead energy markets.

Support Customer Adoption of Transportation and Building Electrification

Expenditures \$414,508

Position Allocation 2.00

This item adds two positions to support distribution planning and power systems automation, and to support physical infrastructure and technology systems to adequately and safely support increased load from customers due to increasing vehicle and building electrification. Recent state and federal clean energy legislation provides incentives for customers to electrify homes, businesses, and vehicles, accelerating the transition (building electrification load, for example, is growing three times faster than assumed in the previous forecast). In addition, Seattle's recently adopted Building Emissions Performance Standard will prompt significant electrification investments in commercial and multifamily properties in the coming years.

Enhance Response to Environmental Change

Expenditures \$1,479,769

Position Allocation 2.00

This request adds \$1.5 million and two positions to fund emergent needs in vegetation management and cybersecurity. Contract costs for vegetation management have been increasing and this adjustment provides funding at a level that maintains the multi-year tree trimming cycle. Funding will also go to clearing tree canopy near transmission lines that have become a wildfire threat with climate change. The 2.0 FTE adds are in cybersecurity and will help address the increasing cyber risk the utility faces, including developing a cyber security governance structure, risk framework, process improvements, and the operational capabilities needed to safeguard critical technology and ensure compliance with regulatory frameworks including the North American Electric Reliability Corporation (NERC) Cyber Security Standards.

Operations and Maintenance Reductions

Expenditures \$(2,297,095)

To balance the incremental spending increases, a review of all non-labor O&M budgets identified funds for redeployment. Reductions are taken throughout the department where there was underspend in 2023, including consulting, travel and training, and supplies.

Seattle City Light

Proposed Capital

Utility Technology Roadmap

Expenditures \$4,407,333

This adjustment establishes an ongoing CIP budget for the Utility Technology Roadmap program that gradually ramps up over time to keep up with technology needs across the utility. This area of utility operations continues to grow as software updates and critical IT projects that are essential to the utility's operating and business needs (like Cybersecurity, Grid Modernization, an Enterprise Document Management) are required.

Distributed Energy Resources

Expenditures \$1,680,000

This adjustment does two things: it augments program management resources to oversee an expanded portfolio of energy efficiency programs to cost-effectively meet our energy efficiency targets and provide a least-cost resource to the utility; and it provides funding for a limited-scale Community Solar Program.

Georgetown Steam Plant

Expenditures -

This item funds the repair of the entire exterior envelope at the Georgetown Steam Plant as it is the best way to ensure the concrete walls do not degrade further and increase expense. The exterior wall repair will be supervised by City Light staff, third party subject matter experts, and a design engineer to verify compliance with codes and specifications. The funding for this project begins in 2026 and total project cost is estimated to be \$12 million when complete.

Sound Transit 3

Expenditures \$3,175,000

Position Allocation 2.00

This item adds two positions and additional resources necessary to meet required timelines with the Sound Transit Light Rail Extensions. This project supports the expansion of the regional transit system by reconfiguring the City Light distribution system to accommodate Sound Transit facilities and provide electrical service to the rail extensions. It is fully revenue-backed. This request addresses the need for the addition of a dedicated team of both sunset and permanent roles to support the project ramp up and the ongoing project management.

Annual Capital Spending Adjustments

Expenditures \$23,362,903

Position Allocation 1.00

The CIP Overview request details changes in the CIP related to the normal refinement of work schedules and the ongoing reprioritization of capital work. The proposed 6-year Capital Improvement Program plan is within the overall amounts in the Adopted 2024-2029 CIP plan and is consistent with the adopted strategic plan rate path. The 2025-2030 CIP plan was achieved by identifying offsetting reductions and project deferrals in the proposed CIP plan to accommodate increased spending to meet strategic priorities, fund new projects and align funding with historical spending. Also included in the proposal is offsetting revenue reimbursements for any increases in customer-driven work.

Seattle City Light

Proposed Technical

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures \$19,193,223

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments for personnel costs included in this department's budget, as agreed on by the City and Local 77 bargaining units. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Final Adjustments for Standard Cost Changes

Expenditures \$(1,992,853)

These technical adjustments reflect changes to costs for cross-departmental services, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare.

Technical Changes

Expenditures \$29,252,703

This technical adjustment includes increases associated with inflation, AWI, inventory adjustments, maintenance, and customer incentives for electrification. In addition, various adjustments to purchased power, debt service, and taxes are represented. These adjustments are consistent with the 2025-2030 Strategic Plan and proposed rates.

SCL Revenues 2025-26

Revenues \$172,831,734

This technical adjustment reflects incremental revenue impacts coming from a higher forecast for retail sales, approved rate increases, revenues netted from wholesale market transactions and transfers from the construction fund.

Seattle City Light

SCL - BO-CL-DEBTSRVC - Debt Service

The purpose of the Debt Service Budget Summary Level is to meet principal repayment and interest obligations on funds borrowed to meet City Light's capital expenditure requirements.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Debt Service	244,968,394	255,243,609	248,088,787	259,008,143
Total	244,968,394	255,243,609	248,088,787	259,008,143

Seattle City Light

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SCL - BO-CL-PWRSUPPLY - Power Supply O&M

The purpose of the Power Supply O&M Budget Summary Level is to support transportation electrification, solar, and other technologies; implement demand-side conservation measures that offset the need for additional generation resources; and monitor compliance with federal electric reliability standards. The power marketing operations of the utility are also included in this Budget Summary Level.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Purchased Power/Power Supply	368,876,302	344,349,303	417,829,443	456,037,112
Total	368,876,302	344,349,303	417,829,443	456,037,112

SCL - BO-CL-UTILOPS - Utility Operations O&M

The purpose of the Utility Operations O&M Budget Summary Level is to provide reliable electricity to customers through operation and maintenance of City Light's power production facilities, substations, transmission systems, and overhead and underground distribution systems in a clean, safe, efficient, reliable, and environmentally responsible manner. The utility's energy delivery engineering, power production engineering, generation operations, asset management, power system functions, renewable resource development programs, hydroelectric relicensing, and real estate are also included in this Budget Summary Level.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Distribution O&M	75,133,584	83,242,592	90,547,664	93,451,464
Generation O&M	39,696,284	36,044,181	50,522,431	53,053,735

Seattle Public Utilities

Andrew Lee, General Manager & CEO

(206) 684-3000

<http://www.seattle.gov/util/>

Department Overview

Seattle Public Utilities (SPU) provides reliable, efficient and environmentally conscious utility services to enhance the quality of life and livability in all communities SPU serves. SPU operates three distinct utilities: Drainage and Wastewater, Solid Waste, and Water. These three utilities or Lines of Business maintain separate revenue sources, separate enterprise funds, and unique capital improvement projects, but share other capital projects and technology as well as common operations and administration.

Drainage and Wastewater: The Drainage and Wastewater Utility collects and disposes or discharges storm runoff and wastewater from residences, businesses, institutions, and public properties within the City. In addition to handling sewage and storm water runoff, Drainage and Wastewater works with other government agencies and private parties to address Federal EPA-mandated sediment cleanup projects where contamination is linked to storm water or sewage, such as Gas Works Park and the Lower Duwamish Waterway. Drainage and Wastewater systems include approximately 448 miles of separated sanitary sewers, 968 miles of combined sewers, 481 miles of storm drains, 67 pump stations, 82 permitted combined sewer overflow points, 591 storm drain outfalls, 578 water quality structures, 295 drainage flow control facilities, and 38 combined sewer overflow control detention tanks and pipes.

Solid Waste: The Solid Waste Utility collects and processes recycling, compostable, and residential and commercial garbage to promote public health and safety, quality of life, and environmental stewardship. The City owns and operates two transfer stations, two household hazardous waste facilities, a fleet of trucks and heavy equipment, and several closed landfills. The Solid Waste Capital Improvement Plan (CIP) supports the transfer stations, heavy equipment, and post-closure projects on landfills previously used by the City. In addition, SPU contracts with private companies who collect household refuse, compostable material, and recyclables. The companies deliver the material to recycling and composting facilities and to transfer stations for its ultimate processing or disposal. In concert with its waste handling and disposal activities, Solid Waste engages its customers in environmental sustainability programs that promote recycling, composting, and reducing waste generation. Solid Waste also works to keep Seattle clean by providing public litter cans and recycling bins across Seattle.

Water: The Water Utility provides reliable, clean, and safe water to more than 1.5 million customers in and around Seattle for consumption and other uses. The water delivery system extends from Edmonds to Des Moines and from Puget Sound to Lake Joy near Duvall. SPU delivers water directly to its customers in Seattle and adjacent areas and provides wholesale water to 21 suburban water utilities and interlocal associations for distribution to their customers. The Water Utility includes over 1,900 miles of pipeline, 30 pump stations, two primary water treatment plants, 11 booster chlorination facilities, three groundwater wells, and the Tolt and Cedar River watersheds (including over 103,000 acres of restricted-access, protected forestland). The Utility builds, operates, and maintains the City's water infrastructure to ensure system reliability, to conserve and enhance the region's environmental resources, and to protect public health and safety. SPU engages the community in conservation efforts to reduce water consumption.

Through these Lines of Business, SPU also manages a body of **General Fund** (GF) funded work. This includes the Clean City program, including litter abatement, illegal dumping remediation, and above-ground rodent control. General Fund supported services include services for the unsheltered and minimally housed, which includes Clean City programs like the Encampment Bag ("Purple Bag") Program and Clean City RV Remediation, as well as the Public Hygiene program providing public-access shower trailers. Other SPU GF-funded work includes maintaining survey markers throughout Seattle, standardizing construction specifications and planning documents, and maintaining engineering records for the City. The GF also funds SPU's Trees for Seattle Program, which works to maintain and increase the urban tree canopy in Seattle.

Seattle Public Utilities

SPU monitors its funds using Council-adopted financial performance metrics developed with external financial advisors. These metrics include net income, cash balances, cash contributions to CIP, debt service coverage (a measure of revenue available to fulfill annual debt service obligations), and, for the Drainage and Wastewater Fund, debt to asset ratio. Based on these metrics, coupled with SPU's strong leadership, rating agencies have assigned all three SPU enterprise funds strong, investment grade bond ratings in line with peer west coast utilities, noting elected officials' commitment to sound financial management and a history of adopting prudent rates. Strong ratings help to minimize borrowing costs and, in turn, customers' bills over the long-term.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Department Support

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The Mayor's 2025-26 Proposed Budget for SPU is \$1.6 billion in 2025 and \$1.7 billion in 2026. The proposed budget increases operations and maintenance (O&M) appropriations (including General Fund supported work) by \$20 million in 2025 and by \$45 million in 2026. This includes SBP-endorsed investments in utility services, infrastructure, environment, and enhanced customer support. It also includes staff resources and funding for directly operating the Tolt Water Treatment Facility and staffing for side sewer permitting (including position transfers from the Seattle Department of Construction and Inspections or SDCI). Graffiti Abatement services and staff are transferred to SPR to better coordinate Citywide graffiti abatement efforts currently split across multiple departments. Altogether, increased O&M spending supports a net 60 new positions at SPU (10 of them transferred from SDCI).

SPU's proposed capital appropriations for 2025 are \$25 million lower than 2024, though up \$50 million between 2025 and 2026. These largely reflect shifts in timing for major capital programs, as well as new SBP-related investments. More detail on each line of business follows. For more information, please see the 2025-2030 Proposed Capital Improvement Program.

The proposed budget for SPU reflects the priorities laid out in the 2025-2030 Strategic Business Plan (SBP), which was approved by the City Council in early September 2024. The proposed budget also reflects current and endorsed utility rates. For 2025-2030, the SBP endorses a combined average annual rate increase of 4.7%.

Seattle Public Utilities

Drainage and Wastewater Highlights

The 2025 Proposed Budget increases Operating and Maintenance (O&M) in appropriations for Drainage and Wastewater by \$39 million in 2025 and \$37 million in 2026. These changes include funding for engineering staff, consultant support, and technical changes related to taxes and fees, debt service, major service contracts, central costs, and labor-related changes.

The 2025-2030 Proposed CIP reduces the Drainage and Wastewater capital expenditures in 2025 by \$26 million compared to 2024 and then increases them by \$40 million in 2026. Total Drainage and Wastewater CIP appropriations are \$231 million in 2025 and \$267 million in 2026. This reflects updated project timelines and scopes. Major programming includes continued support for the Ship Canal Water Quality Project, the South Park Water Quality Facility, the Protection of Beneficial Uses program (which includes stream culvert replacement and floodplain reconnection efforts), and efforts to reduce sewer backups, flooding, and landslides. The Drainage and Wastewater CIP also supports several shared technology projects such as cybersecurity updates, knowledge-based solutions for project control, and financial management tools.

Drainage and Wastewater activities are funded by ratepayers. In September, the City adopted new Drainage and Wastewater Rates for 2025 to 2027 which are consistent with rates endorsed in the 2025-2030 Strategic Business Plan. Sewer rates will increase by 5.0% in 2025, 2026, and 2027, while drainage rates will grow by 5.0% in 2025 and 2026 and by 5.1% in 2027. SPU sewer rates include contractually obligated King County treatment rates that are passed through to customers.

Water Highlights

The 2025-26 Proposed Budget increases Water Fund O&M expenditures by \$9 million in 2025 and \$12 million in 2026. This covers staffing increases, consultant support, and shared administrative expenditures. These changes also cover increased labor costs, tax payments, debt service, and other inflationary costs.

The 2025-2030 Proposed CIP increases Water Fund capital appropriations in 2025 by \$10 million in 2025 and \$22 million in 2026. Total CIP appropriations for Water are \$150 million in 2025 and \$171 million in 2026. Changes largely reflect updated project timelines. Key capital expenditures include continuing asset management investments, such as rehabilitation and replacement of distribution system infrastructure like mains, valves, hydrants, and meters, as well as water system infrastructure improvements related to transportation projects. The latter includes projects like the Levy to Move Seattle, seismic upgrades for critical infrastructure following the 2018 water system seismic study, and dam safety projects.

Water operations are funded by ratepayers. Retail customers provide around 75% of the Water Fund's operating revenues, with roughly equal revenues coming from residential and commercial users. Wholesale customers – districts and agencies who purchase water from SPU – provide most of the remaining operating revenues, while small amounts are generated by non-rate fees and other sources. Retail water rates, in effect through 2026, are currently set to increase by 2.0% in both 2025 and 2026.

Solid Waste Highlights

The 2025-26 Proposed Budget decreases Solid Waste O&M appropriations by \$28.5 million in 2025 and by a further \$5 million in 2026. O&M costs include labor costs including for new positions, shared utility-wide administrative costs, and updated projections for taxes, debt service, and major service contract payments.

Compared to the 2024, the proposed CIP expenditures for Solid Waste are just \$307,863 higher in 2025 and \$7.6 million lower in 2026. Total Solid Waste CIP appropriations for 2025 are \$31 million (for 2026, \$24 million). For Solid Waste, major projects include cleanup of the historic South Park Landfill and South Transfer Station operational improvements.

Solid Waste operations are funded primarily by charges to residents and businesses, based on the amounts of garbage. Solid Waste Rates for 2025 are set to increase by 2.5%. A new rate ordinance is scheduled to be introduced to the City Council next year, which will legislate rates for 2026 through 2028, in line with the recently passed 2025-

Seattle Public Utilities

2030 Strategic Business Plan.

General Fund

For general government services, the 2025-26 Proposed Budget provides SPU \$28.1 million in GF appropriations for 2025, and \$29.5 million in 2026. Over \$20 million supports general cleaning, hygiene, and litter abatement services across Seattle. This includes the Clean City Program and support for the Unified Care Team operations. Many Clean City and hygiene services support the unsheltered and minimally housed populations, such as the Encampment Bag Program, RV Remediation, and the Public Hygiene Program for shower trailers and restroom facilities.

The 2025-26 Proposed Budget includes certain changes to General Fund programming in SPU. Changes include:

- Establishing an SPU-owned “One Seattle” tree nursery.
- Expanding the Unified Care Team (UCT) operations to help cover weekend service.

In addition, the Proposed Budget makes two programmatic transfers from SPU to the Seattle Department of Parks and Recreation (SPR), both of which also result in net GF reductions due to reduced overhead and administration costs:

- Clean City Graffiti abatement services, including nine (9.0) full-time employees, are transferred to SPR in order to consolidate Citywide graffiti abatement services under the One Seattle Graffiti Initiative.
- A portion of SPU’s hygiene services budget is being transferred to SPR in order to improve public restroom access in parks.

More information on these changes is shared in the SPR Proposed Budget sections. For more on SPU’s budget changes, including non-General Fund and capital changes, see below.

Seattle Public Utilities

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

For Seattle Public Utilities, these changes are included under the budget actions labeled "Technical Changes."

Reversal of 2024 One-Time Budget Change

Expenditures	\$416,000
--------------	-----------

This is a baseline change that reverses a one-time Council Amendment from the 2024 Adopted Budget, which had transferred funding from SPU to the Office of Economic Development.

Technical Changes (Labor, Indirect Costs, Tax Payments, Debt Service, and Major Service Contracts)

Expenditures	\$7,860,646
--------------	-------------

This item adjusts the appropriations for the Water Fund, Drainage and Wastewater Fund, Solid Waste Fund, and General Fund for technical changes. These include revised citywide indirect costs, labor-related increases (including wage increases), other inflation-related cost increases, as well as revised projections for taxes, debt service, and major service contract payments.

These adjustments and the SPU budget overall are consistent with the 2025-2030 Strategic Business Plan as well as with 2025-2027 Drainage & Wastewater Rates recently approved by Council.

Technical Changes II (Citywide Indirect Costs)

Expenditures	\$7,336,187
--------------	-------------

This item further adjusts appropriations for the Water Fund, Drainage and Wastewater Fund, Solid Waste Fund, and General Fund to cover additional charges for citywide indirect costs.

Proposed Operating

Strategic Business Plan Endorsed Investments in Infrastructure and Essential Services

Expenditures	\$811,189
Position Allocation	10.00

This item increases appropriation authority across the Water, Drainage and Wastewater, and Solid Waste Funds and adds five full-time employees in 2025 and five in 2026. These changes support operations and maintenance (O&M) for key utility services and infrastructure. These include staffing increases for the Project Delivery and Engineering Branch in the Drainage and Wastewater division, the Project Controls Group, and O&M engineers for capital project support. This item also increases appropriations for implementation of the Waste Prevention Strategic Plan, acoustic leak detection testing for the East Side Supply Pipeline, compactor maintenance at the North and South Transfer Stations, increased pavement restoration costs incurred during water system maintenance, and O&M costs for

Seattle Public Utilities

Water Transmission System corridor improvements to surface-level facilities.

Strategic Business Plan Endorsed Investments in Human Resources and Ratepayer Services

Expenditures	\$1,972,973
Position Allocation	7.00

This item increases appropriation authority across the Water, Drainage and Wastewater, and Solid Waste Funds and adds position authority for seven full-time employees in 2025. These items provide for Strategic Business Plan endorsed investments in human resources, internal resourcing, and enhanced services for ratepayers. These include staffing and funding for: Phase III Side Sewer Assistance Program investments for lining and repairing side sewers for eligible low-income customers; Human Resources investments in technology, recruitment, training, and staff development; and a full-time transfer station scale attendant. Funding also covers consultant costs for payment platform enhancements and system automation and an arc-flash risk analysis mandated by Occupational Health and Safety Administration (OSHA) regulations.

Strategic Business Plan Endorsed Investments in Sustainability and Protection of the Natural Environment

Expenditures	\$1,804,171
Position Allocation	6.00

This item increases appropriation authority across the Water, Drainage and Wastewater, and Solid Waste Funds and adds position authority for six full-time employees. These appropriations cover investments to reduce waste and pollution and better protect Seattle's water, drainage, and wastewater systems. This includes staffing adds (and associated budget increases) for food waste prevention compliance, the Zero Waste initiative, focus-area planning for the Shape Our Water Initiative (improving resilience of drainage and wastewater systems), Arbor Heights sewer capacity work (addressing an existing consent decree), and SPU facility electrification. Funding is also increased for sampling and monitoring per National Pollutant Discharge Elimination System (NPDES) requirements. Furthermore, appropriations will also cover efforts to better manage or reduce solid waste collections across several sectors (including multifamily residential, the construction sector, and the Natural Yard Care program).

Strategic Business Plan Endorsed Investments in Enhanced Utility Business Practices

Expenditures	\$2,781,712
Position Allocation	21.00

This item increases appropriation authority across the Water, Drainage and Wastewater, and Solid Waste Funds and adds position authority for 13 full-time employees in 2025 and eight FTE in 2026. These positions are intended to address goals laid out by the 2025-2030 Strategic Business Plan around strengthening core business practices. This includes staffing for an in-house pipe-lining crew, operations and maintenance for new capital assets (such as the Ship Canal Water Quality Project, the South Park Pump Station, and the Pearl Street Combined Sewer Overflow), 2026 staffing increases for water service line replacement crews, and additional asset management, fleet management, and contracting support.

Moving Tolt Water Treatment Facility Operations In-House

Expenditures	\$3,836,949
Position Allocation	21.00

This item increases appropriation authority in the Water Fund and provides position authority for 21 full-time employees. This change allows SPU to directly operate the Tolt Water Treatment Facility. Operations are currently managed by a contractor under a Design-Build-Operate contract initiated in 1997. The contract is scheduled to expire in 2026, and the contractor has signaled their desire to end the contract early. With this change, SPU would directly operate and maintain the facility 24 hours per day, 365 days per year, while meeting federal and state

Seattle Public Utilities

regulatory requirements. This transition will require hiring staff in areas such as operations, maintenance and management.

Side Sewer Permitting in Seattle Public Utilities

Expenditures	-
Position Allocation	18.00

This item increases position authority in SPU by 18 full-time employees. Ten of these positions are being transferred from the Seattle Department of Construction and Inspections (SDCI). This change will allow SPU to directly administer side sewer permitting for both new developments and repairs or replacements of existing side sewers. Currently, SDCI oversees side sewer permitting and inspections under a service level agreement (SLA) with SPU in effect since 2003. This change is intended to promote consistent interpretation, application, and enforcement of the side sewer code. It is also expected to better ensure protection of SPU drainage and wastewater infrastructure. This change should be seamless to the customer and result in timely and more efficient service. See also the 2025-26 Proposed Budget section for SDCI.

Funding for a One Seattle Tree Nursery

Expenditures	\$680,020
Position Allocation	1.00

This item adds \$388,000 in General Fund appropriation in 2025 and \$304,000 in 2026. It also adds \$292,020 in 2025 and \$228,510 in 2026 in Drainage and Wastewater Fund appropriations as well as position authority for one full-time employee. These changes will allow SPU to establish and maintain a publicly owned tree nursery with the initial capacity of 500 trees. This effort would support Seattle's tree canopy, equity, climate resilience, and stormwater management goals. Site selection criteria would include capacity for future expansion. Funding is intended to cover design and site construction, general operations, and equipment, as well as a green jobs training program which would provide maintenance and career learning opportunities in the arboriculture field. The position being added would support nursery operations work, seek external grants, and lead interdepartmental tree pest readiness and response work.

Unified Care Team Expansion

Expenditures	\$85,000
--------------	----------

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The 2025-2026 Proposed Budget expands services provided by the UCT from five to seven days per week.

This item adds \$85,000 GF to Seattle Public Utilities for weekend vendor-provided cleanup and solid waste disposal activities. The vendor will only perform exterior cleaning of encampments on weekends.

Transfer of Hygiene Station Budget and Operations to Seattle Parks and Recreation

Expenditures	\$(835,000)
--------------	-------------

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item transfers GF budget for hygiene stations (portable toilets and handwashing stations) from SPU to SPR, resulting in a net \$250,000 General Fund reduction due to reduced overhead and administration costs. This will allow Parks to site hygiene stations in City parks, enhancing the City's ability to site hygiene stations and providing wider access to restroom facilities. SPU will continue to operate and staff the wider Public Hygiene Program including up to three hygiene trailers with shower facilities, providing services to the unsheltered and minimally housed. A corresponding item increases General Fund appropriations in the Department of Parks and Recreation (SPR) by \$585,000.

Seattle Public Utilities

One Seattle Graffiti Initiative Consolidation

Expenditures	\$ (3,089,944)
Position Allocation	(9.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item transfers GF budget and position authority for nine full-time employees to Seattle Parks and Recreation (SPR). This transfer includes seven of SPU's Graffiti Rangers, as well as an administrative position and an Executive 2. This transfer effectuates a consolidation of citywide graffiti abatement services under the One Seattle Graffiti Initiative at SPR. The net effect of this transfer is a \$495,475 GF savings.

Proposed Capital

Drainage and Wastewater Fund Capital Budget Changes

Expenditures	\$ (6,444,760)
--------------	----------------

This item adjusts appropriations for the Drainage and Wastewater Fund to align with the Proposed 2025-2030 Capital Improvement Program. The Drainage and Wastewater Line of Business maintains a network of sewer and drainage systems throughout the City of Seattle. These assets include sanitary sewers, combined sewers, pump stations, force mains, Combined Sewer Overflow (CSO) points and tanks, storm drains, catch basins, ditches, culverts, water quality structures, drainage flow control facilities, and green stormwater infrastructure. These appropriations cover ongoing capital expenditures for major projects including the Ship Canal Water Quality Project, the South Park Water Quality Facility, Pipe Rehabilitation and Pump Station Improvement projects, as well as compliance with regulatory or legal requirements.

For more information, please see Proposed 2025-2030 Capital Improvement Program.

Solid Waste Fund Capital Budget Changes

Expenditures	\$ (2,645,833)
--------------	----------------

This item adjusts appropriations for the Solid Waste Fund to align with the Proposed 2025-2030 Capital Improvement Program. The Solid Waste Line of Business collects and disposes solid waste generated within the City of Seattle. It also manages city-owned infrastructure including two transfer stations, one recycling and re-use facility, two household hazardous waste facilities, trucks and heavy equipment, and five closed landfill sites. Key investments funded in this Proposed CIP include: the South Transfer Station Facility Redevelopment, cleanup of the South Park Landfill, a compactor replacement at the North Transfer Station, and floor replacement at the South Transfer Station.

For more information, please see 2025-2030 Proposed Capital Improvement Program.

Water Fund Capital Budget Changes

Expenditures	\$5,238,370
--------------	-------------

This item adjusts appropriations for the Water Fund to align with the Proposed 2025-2030 Capital Improvement Program. The Water Line of Business provides drinking water to over 1.5 million people throughout Seattle and surrounding areas. It also manages city-owned infrastructure including the Cedar and South Fork Tolt watersheds, water treatment plants, treated water storage, pump stations, hydrants, and transmission and distribution system pipelines.

Key investments funded in this Proposed CIP include water system improvements associated with transportation projects, operational and regional facility construction, seismic upgrades to reservoirs and other infrastructure,

Seattle Public Utilities

replacement of the Bitter Lake Reserve floating cover, and South Fork Tolt Dam relicensing under the Federal Energy Regulatory Commission (FERC) (a joint effort with Seattle City Light).

For more, please see 2025-2030 Proposed Capital Improvement Program.

Technology-Related Capital Budget Changes

Expenditures \$2,818,950

This item provides for appropriations across the Water, Drainage and Wastewater, and Solid Waste Funds for shared Technology Capital Improvement Program activities. These appropriations cover investments in financial management and internal controls, cybersecurity, improved enterprise asset management, project controls, as well as Strategic Business Plan-endorsed investments in Advanced Metering Infrastructure, upgraded Customer Care and Billing, implementation of centralized data architecture and design, and enhanced enterprise content management.

For more information, please 2025-2030 Proposed Capital Improvement Program.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(4,686,694)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures \$1,482,989

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in Seattle Public Utilities' budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Ongoing Changes from Current Year Legislation

Position Allocation 1.00

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

SPU Revenues

Revenues \$(133,187,421)

This item budgets SPU's projected revenues for 2025 and 2026.

Fund Balancing

Revenues \$137,887,889

This is at technical item that budgets use of fund balance for balancing purposes.

Appropriations by Budget Summary Level and Program

SPU - BC-SU-C110B - Distribution

The purpose of the Distribution Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's water lines, pump stations, and other facilities.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Distribution	39,504,960	44,060,074	53,469,435	65,718,787
Total	39,504,960	44,060,074	53,469,435	65,718,787
Full-time Equivalents Total*	79.00	79.00	79.00	79.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C120B - Transmission

The purpose of the Transmission Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's large transmission pipelines that bring untreated water to the treatment facilities, and convey water from the treatment facilities to Seattle and its suburban wholesale customers' distribution systems.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Transmission	11,030,191	13,522,272	11,915,442	25,265,759
Total	11,030,191	13,522,272	11,915,442	25,265,759
Full-time Equivalents Total*	5.00	5.00	5.00	5.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C130B - Watershed Stewardship

The purpose of the Watershed Stewardship Budget Summary Level, a Capital Improvement Program funded by water revenues, is to implement projects associated with the natural land, forestry, and fishery resources within the Tolt, Cedar, and Lake Youngs watersheds.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Watershed Stewardship	874,742	4,885,999	2,878,358	4,956,409
Total	874,742	4,885,999	2,878,358	4,956,409
Full-time Equivalents Total*	8.00	8.00	8.00	8.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Public Utilities

SPU - BC-SU-C140B - Water Quality & Treatment

The purpose of the Water Quality & Treatment Budget Summary Level, a Capital Improvement Program funded by water revenues, is to design, construct, and repair water treatment facilities and remaining open-water reservoirs.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Water Quality & Treatment	2,016,104	6,450,289	1,426,186	10,237,252
Total	2,016,104	6,450,289	1,426,186	10,237,252
Full-time Equivalents Total*	14.00	14.00	14.00	14.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C150B - Water Resources

The purpose of the Water Resources Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade water transmission pipelines and promote residential and commercial water conservation.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Water Resources	5,977,112	16,706,188	19,510,912	15,270,762
Total	5,977,112	16,706,188	19,510,912	15,270,762
Full-time Equivalents Total*	14.00	18.00	16.00	16.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C160B - Habitat Conservation Program

The purpose of the Habitat Conservation Budget Summary Level, a Capital Improvement Program funded by water revenues, is to manage projects directly related to the Cedar River Watershed Habitat Conservation Plan.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Habitat Conservation Program	4,440,200	3,686,223	1,570,811	5,738,262
Total	4,440,200	3,686,223	1,570,811	5,738,262
Full-time Equivalents Total*	15.00	15.00	15.00	15.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C230B - New Facilities

Seattle Public Utilities

The purpose of the New Facilities Budget Summary Level, a Capital Improvement Program funded by solid waste revenues, is to design and construct new facilities to enhance solid waste operations.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
New Facilities	2,348,048	24,161,970	21,015,121	16,138,520
Total	2,348,048	24,161,970	21,015,121	16,138,520
Full-time Equivalents Total*	9.00	9.00	9.00	9.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C240B - Rehabilitation & Heavy Equipment

The purpose of the Rehabilitation and Heavy Equipment Budget Summary Level, a Capital Improvement Program funded by solid waste revenues, is to implement projects to repair and rehabilitate the City's solid waste transfer stations and improve management of the City's closed landfills and household hazardous waste sites.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Rehabilitation & Heavy Eqpt	206,824	2,260,000	397,000	807,000
Total	206,824	2,260,000	397,000	807,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C333B - Protection of Beneficial Uses

The purpose of the Protection of Beneficial Uses Budget Summary Level, a Capital Improvement Program funded by drainage revenues, is to make improvements to the City's drainage system to reduce the harmful effects of storm water runoff on creeks and receiving waters by improving water quality and protecting or enhancing habitat.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Protection of Beneficial Uses	15,553,200	36,683,378	30,377,663	58,904,106
Total	15,553,200	36,683,378	30,377,663	58,904,106
Full-time Equivalents Total*	14.00	14.00	14.00	14.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C350B - Sediments

The purpose of the Sediments Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to restore and rehabilitate natural resources in or along Seattle's waterways.

Seattle Public Utilities

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Sediments	5,579,626	10,734,002	13,421,604	13,177,974
Total	5,579,626	10,734,002	13,421,604	13,177,974
Full-time Equivalents Total*	7.00	7.00	7.00	7.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C360B - Combined Sewer Overflows

The purpose of the Combined Sewer Overflow (CSO) Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to plan and construct large infrastructure systems, smaller retrofits, and green infrastructure for CSO Summary.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Combined Sewer Overflows	84,101,627	111,767,108	92,097,937	92,151,870
Total	84,101,627	111,767,108	92,097,937	92,151,870
Full-time Equivalents Total*	30.00	30.00	30.00	30.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C370B - Rehabilitation

The purpose of the Rehabilitation Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to rehabilitate or replace existing drainage and wastewater assets in kind, to maintain the current functionality of the system.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Rehabilitation	44,013,182	61,249,734	43,888,034	43,146,299
Total	44,013,182	61,249,734	43,888,034	43,146,299
Full-time Equivalents Total*	30.00	30.00	30.00	30.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C380B - Flooding, Sewer Backup & Landslide

The purpose of the Flooding, Sewer Back-up, and Landslides Budget Summary Level, a Capital Improvement Program funded by drainage and wastewater revenues, is to plan, design and construct systems aimed at preventing or alleviating flooding and sewer backups in the City of Seattle, protecting public health, safety, and property. This program also protects SPU drainage and wastewater infrastructure from landslides, and makes drainage improvements where surface water generated from City rights-of-way contributes to landslides.

Seattle Public Utilities

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Flooding, Sewer Backup & Lndsl	15,174,406	12,202,802	10,958,377	20,757,436
Total	15,174,406	12,202,802	10,958,377	20,757,436
Full-time Equivalents Total*	25.00	25.00	25.00	25.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C410B - Shared Cost Projects

The purpose of the Shared Cost Projects Budget Summary Level, which is a Capital Improvement Program, is to implement the Water, Drainage and Wastewater, and Solid Waste Utility's share of capital improvement projects that receive funding from multiple SPU funds.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Shared Cost Projects	29,639,865	66,241,088	96,192,575	79,666,341
Total	29,639,865	66,241,088	96,192,575	79,666,341
Full-time Equivalents Total*	95.00	95.00	95.00	95.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C510B - Technology

The purpose of the Technology Budget Summary Level, a Capital Improvement Program, is to make use of technology to increase the Water, Drainage and Wastewater, and Solid Waste Utility's efficiency and productivity.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Technology	4,884,428	13,174,000	12,868,950	10,050,000
Total	4,884,428	13,174,000	12,868,950	10,050,000
Full-time Equivalents Total*	41.00	41.00	41.00	41.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BO-SU-N000B - General Expense

The purpose of the General Expense Budget Summary Level is to provide for the Utility's general expenses such as debt service, taxes and major contracts.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Budget Reserves	-	14,071,747	13,527,541	14,068,274

Seattle Public Utilities

Capital Purchases	11,431	274,287	279,772	285,368
Debt Service	166,056,193	233,889,113	197,193,058	195,929,821
Major Contracts	328,965,288	348,535,371	374,325,527	393,930,147
Taxes and Fees	161,468,083	164,962,561	173,117,142	180,026,050
Total	656,500,996	761,733,080	758,443,041	784,239,660
Full-time Equivalents Total*	1.00	1.00	1.00	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

Budget Reserves

The purpose of the Budget Reserves Program is to appropriate funds to maintain a necessary working reserve for unanticipated expenditures that may develop during the fiscal year. These are important due to the utility need to plan revenue on a six-year horizon.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Budget Reserves	-	14,071,747	13,527,541	14,068,274

Capital Purchases

The purpose of the Capital Purchases Program is to provide appropriation for the utility to purchase equipment that cannot be purchased using bond proceeds.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Capital Purchases	11,431	274,287	279,772	285,368

Debt Service

The purpose of the Debt Service Program is to provide appropriation for new bond issuance costs as well as principal and interest payments on previously issued bonds and loans.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Debt Service	166,056,193	233,889,113	197,193,058	195,929,821

Major Contracts

The purpose of the Major Contracts Program is to provide appropriation for large service contracts that SPU has with solid waste contractors and for water and wastewater treatment costs.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Major Contracts	328,965,288	348,535,371	374,325,527	393,930,147

Seattle Public Utilities

Full Time Equivalents Total	1.00	1.00	1.00	1.00
-----------------------------	------	------	------	------

Taxes and Fees

The purpose of the Taxes Program is to provide appropriation for payment of city and state taxes.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Taxes and Fees	161,468,083	164,962,561	173,117,142	180,026,050

SPU - BO-SU-N100B - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide overall management and policy direction for Seattle Public Utilities and to provide core management and administrative services like finance, human resources, and facility management.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	75,910,185	81,106,532	77,557,530	81,960,662
Departmental Indirect Costs	79,402,827	94,313,122	108,165,217	115,042,803
Divisional Indirect Costs	767,651	944,331	900,688	934,466
Indirect Cost Recovery Offset	(25,124,162)	(23,723,189)	(25,473,650)	(27,004,625)
Paid Time Off Indirect Costs	1,140,701	5,416,133	5,154,616	5,229,827
Pooled Benefits Indirect Costs	10,699,887	4,684,696	1,977,079	2,028,582
Total	142,797,089	162,741,625	168,281,479	178,191,714
Full-time Equivalents Total*	146.60	151.10	154.10	155.10

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	75,910,185	81,106,532	77,557,530	81,960,662

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

Expenditures/FTE	2023	2024	2025	2026
------------------	------	------	------	------

Seattle Public Utilities

	Actuals	Adopted	Proposed	Proposed
Departmental Indirect Costs	79,402,827	94,313,122	108,165,217	115,042,803
Full Time Equivalents Total	142.60	145.10	149.10	150.10

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs program is to fund administrative costs generated by sub-departmental units.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Divisional Indirect Costs	767,651	944,331	900,688	934,466

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery Offset program is to reflect the adjustment to the Leadership and Administration BSL occurring as a result of the Utility's general and administrative overhead allocation.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Indirect Cost Recovery Offset	(25,124,162)	(23,723,189)	(25,473,650)	(27,004,625)
Full Time Equivalents Total	2.00	4.00	3.00	3.00

Paid Time Off Indirect Costs

The purpose of the Paid Time Off program is to fund salary and benefit costs associated with City-provided leave benefits such as holiday pay, sick time, vacation time, executive leave or other leave benefits, including termination payouts for vacation and sick leave.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Paid Time Off Indirect Costs	1,140,701	5,416,133	5,154,616	5,229,827

Pooled Benefits Indirect Costs

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Pooled Benefits Indirect Costs	10,699,887	4,684,696	1,977,079	2,028,582
Full Time Equivalents Total	2.00	2.00	2.00	2.00

SPU - BO-SU-N200B - Utility Service and Operations

The purpose of the Utility Service and Operations Budget Summary Level is to fund the direct delivery of essential Customer Service programs and the operating expenses for Pre-Capital Planning & Development, Project Delivery, Drainage and Wastewater, Solid Waste, Water and General Fund programs.

Seattle Public Utilities

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Customer Service	22,246,598	27,408,576	30,187,900	31,357,341

Total	208,003,079	228,432,782	246,639,165	255,938,653
Full-time Equivalents Total*	961.70	968.70	1,024.70	1,038.70

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Utility Service and Operations Budget Summary Level:

Customer Service

The purpose of the Customer Service Program is to provide appropriation to manage and provide customer service support for the direct delivery of programs and services.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Customer Service	22,246,598	27,408,576	30,187,900	31,357,341
Full Time Equivalents Total	254.00	254.00	254.00	254.00

Drainage System

The purpose of the Drainage System Program is to provide appropriation for maintaining the drainage system, drainage conveyance, stormwater detention and green stormwater infrastructure.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Drainage System	7,756,778	10,442,950	10,172,376	10,583,923
Full Time Equivalents Total	2.00	5.00	24.00	24.00

Seattle Public Utilities

DWW Facilities & Equip

The purpose of the DWW Facilities and Equipment Program is to provide appropriation for drainage and wastewater operating and decant facilities

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
DWW Facilities & Equip	1,701,368	966,277	1,058,387	1,225,362
Full Time Equivalents Total	-	-	-	1.00

DWW System Operations

The purpose of the DWW System Operations Program is to provide appropriation for drainage and wastewater overall system planning, system modeling and analysis, source control, compliance and outreach and education.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
DWW System Operations	31,092,998	36,675,752	37,826,507	39,089,798
Full Time Equivalents Total	2.00	3.00	8.00	9.00

Emergency Response

The Emergency Response Program provides appropriation to procure necessary equipment and provide maintenance and support services in case of emergencies.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Emergency Response	6,249,362	2,889,150	2,922,210	3,038,373

Engineering

The purpose of the Engineering Program is to provide engineering design and support services, construction inspection, and project management services to capital improvement projects and to the managers of facilities.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Engineering	16,522,428	19,106,822	21,470,023	22,479,555
Full Time Equivalents Total	111.00	114.00	118.00	123.00

Pre-Capital Planning

The purpose of the Pre-Capital Planning Program is to support business case development, project plans, and options analysis. This program will capture all costs associated with a project that need to be expensed during its life cycle, including any post-construction monitoring and landscape maintenance.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Pre-Capital Planning	6,741,201	4,584,551	5,669,114	5,315,990

Seattle Public Utilities

Solid Waste Facilities & Equip

The purpose of the Solid Waste Facilities & Equipment Program provides appropriation to maintain and support the solid waste facilities and landfills.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Solid Waste Facilities & Equip	6,126,450	6,539,966	7,437,292	7,728,738
Full Time Equivalents Total	1.00	1.00	2.00	2.00

Solid Waste Operations

The purpose of the Solid Waste Operations Program provides appropriation for overall solid waste system planning, operations of the transfer stations, solid waste outreach and management of the Local Hazardous Waste Mitigation Program (LHWMP).

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Solid Waste Operations	41,796,322	44,721,616	48,463,131	50,399,005
Full Time Equivalents Total	101.56	101.56	96.56	96.56

Wastewater System

The Wastewater System Program provides appropriation to maintain wastewater conveyance, pump stations and storage.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Wastewater System	12,137,262	14,939,731	16,546,289	17,151,704
Full Time Equivalents Total	233.05	233.05	242.05	242.05

Water Distribution System

The Water Distribution System Program provides appropriation to maintain water distribution conveyance, pump stations and reservoirs.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Water Distribution System	14,116,664	17,669,623	15,229,123	15,847,277
Full Time Equivalents Total	120.09	120.09	121.09	122.09

Water Facilities & Equipment

The Water Facilities & Equipment Program provides appropriation to maintain water storage facilities.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Water Facilities & Equipment	3,204,252	3,028,364	2,849,284	2,967,170

Seattle Public Utilities

Water Supply & Transmssn System

The Water Supply and Transmission System Program provides appropriation to operate and maintain the water pipelines, reservoirs and water sheds.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Water Supply & Transmssn System	6,349,006	5,188,097	5,059,094	5,242,380

Water System Operations

The Water System Operations Program provides appropriation to plan and monitor the overall water system and water quality lab, and includes the work for the Cedar River Habitat conservation.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Water System Operations	31,962,390	34,271,307	41,748,435	43,512,037

Seattle Department of Transportation

Greg Spotts, Director

(206) 684-5000

<http://www.seattle.gov/transportation>

Department Overview

The Seattle Department of Transportation (SDOT) develops, maintains, and operates a transportation system that promotes the safe and efficient mobility of people and goods, and enhances the quality of life, environment, and economy of Seattle and the surrounding region. The City's transportation infrastructure is estimated to be worth approximately \$28 billion, including these major system assets:

- 1,548 lane-miles of arterial streets;
- 2,396 lane-miles of non-arterial streets;
- 2,293 miles of sidewalks;
- 134 bridges;
- 534 stairways;
- 537 retaining walls;
- 2.2 miles of seawalls;
- 1,159 signalized intersections;
- 57.1 miles of multi-purpose trails;
- 2,301 miles of improved sidewalks and median pathways;
- 172 miles of on-street bicycle facilities;
- 41,000 street trees;
- 1,448 pay stations;
- 44,602 curb ramps;
- close to 205,000 signs

The SDOT budget covers three major lines of business:

The **Transportation Capital Improvement Program** includes the major maintenance and replacement of SDOT's capital assets; the program also develops and constructs additions to the City's transportation infrastructure. The program includes the Major Maintenance/Replacement, Major Projects, Mobility-Capital, Central Waterfront, and Capital General Expense Budget Summary Levels (BSLs).

Operations and Maintenance covers day-to-day operations and routine maintenance that keep people and goods moving throughout the city, which includes operating the city's movable bridges and traffic signals, cleaning streets, repairing potholes, issuing permits, maintaining trees, and transportation planning and engineering. The seven BSLs in this area are: South Lake Union Streetcar Operations; First Hill Streetcar Operations; Waterfront and Civic Projects; Bridges and Structures; Maintenance Operations; Mobility-Operations; and Right-of-Way Management.

Business Management and Support provides overall policy direction and business support for SDOT and includes the Leadership and Administration and General Expense BSLs.

** FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Budget Overview

The 2025-2026 Proposed Budget for the Seattle Department of Transportation (SDOT) highlights the challenge of meeting increasing demand for transportation safety and services with limited funding resources. Driving factors for reduced transportation investments include the expiration of the Levy to Move Seattle at the end of 2024 and declining or flat projected revenues for 2025 and 2026. With fewer financial resources available, SDOT will focus on capital project delivery for existing work and commitments made in the levy. Less will be spent on maintenance and preservation of assets (roads, bridges, transit, pedestrian and bike facilities), while innovations and system enhancements will be delayed to a future time when more resources are available. This slowing of maintenance and asset preservation work will affect transportation safety, mobility of goods and services, and climate and environmental goals. Ordinance 127053, passed by City Council in July 2024, placed a new transportation levy on the November 2024 ballot. Passage of this measure will inform and require major adjustments to the proposed budget that may include the restoration of programs or projects with reduced funding in this budget.

Significant reductions to the SDOT budget stem largely from the loss of levy proceeds in 2025 (described in greater detail in following pages), as well as General Fund reductions. These reductions include:

- The Levy to Move Seattle, totaling \$930 million over 9 years (\$103 million per year), which expires at the end of 2024. Levy proceeds funded ongoing maintenance, operations, and new transportation projects.
- SDOT's General Fund budget allocation will be reduced by \$9 million annually, beginning in 2025. This represents an 8% reduction to total General Fund budget over the beginning 2025 baseline budget. While the amount of SDOT's General Fund will be reduced, SDOT will maintain the lower limit of General Fund appropriations established in the Levy to Move Seattle authorizing legislation for the 2025-2026 biennium.
- Transportation specific revenues such as Gas Tax, automated traffic enforcement camera fines, and Commercial Parking Tax continue to either decline or remain flat, outstripped by increasing costs for myriad transportation activities that, in many cases, exceed general inflation (more information about transportation-specific revenue and cost projections can be found in the Appendix for individual Fund Financial Plans).

With the small amount of funding from the Levy to Move Seattle remaining to complete the original 9-year levy plan

Seattle Department of Transportation

into 2025 and beyond, SDOT must rebalance investment levels across the department to ensure critical ongoing programs remain supported. While almost no program areas remain fully funded to 2024 levels, the proposed budget prioritizes the following areas of service to maintain core functions for the transportation system:

- Base operational functions like signals, paint, and signage;
- Bridge operations;
- Paving, bike lane, and transit improvement maintenance;
- School, pedestrian and traveler safety programs, including the Vision Zero program;
- Emergency and weather response activities;
- Street use permitting and inspection functions;
- American Disabilities Act infrastructure and other regulatory requirements.

Without a levy, SDOT must reduce spending in many program areas, some significantly. The following programmatic areas will see the largest dollar reductions in this proposed budget:

- New mobility initiatives;
- New sidewalks;
- Bridge seismic reinforcement planning and construction;
- Urban trails and bikeway expansion;
- New protected bike lanes;
- Neighborhood greenway investments, and;
- Small neighborhood projects.

Additional actions that will be taken by SDOT to preserve as much funding as possible for priority programs while supporting existing staffing levels include:

- Department-wide reductions to administrative functions and internal support programs;
- Holding vacant positions open and evaluating critical position needs including management-level staffing and overall staffing counts;
- Reductions in general service levels across many non-critical programs;
- Reevaluating investments in bus transit initiatives for post-covid travel patterns; and
- Reductions to programmatic and reserve funding levels for streetcar operations and future transit planning.

As the proposed budget continues to center organizational values under difficult funding circumstances, some activities will be expanded either through self-generating revenues or because they are identified as Mayoral priorities. These include:

- **Automated Enforcement Program Expansion:** SDOT's School Zone Camera Program, which operates 30 cameras that provide enforcement for speeding violations in school zones, will more than double the number of enforcement cameras in operation, bringing 37 new cameras (18 locations) online by the start of the 2025 school year. This expansion is intended to increase safety around Seattle schools, with projected increases of fine revenues of \$4.2 million in 2025 and \$10.3 million in 2026. These revenues will help re-establish reduced financial reserves and support the continuation of school safety infrastructure investments like sidewalks and crosswalks in and around schools, which would otherwise see further reductions without this program expansion.
- **Unified Care Team Expansion:** The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores public spaces. The proposed budget expands services provided by the UCT from 5 to 7 days per week, adding \$1.4 million to the SDOT budget in 2025 and 2026, and 3.0 FTE to support this expansion.
- **Street Use Fee Increase:** SDOT's use, occupancy, and citation fees have not been updated since 2019; therefore, the proposed budget includes legislation to update the fees to reflect a 25.8% inflationary increase. In addition, the proposed budget includes a 2.4% increase in permit issuance, renewal rates, and hourly service rates to adjust fees for inflation. These fees were last adjusted at the beginning of 2024. These changes will help advance the City's goal of achieving cost recovery for permitting activities and help

Seattle Department of Transportation

Seattle residents and businesses in the form of managing right-of-way, activating public space, and leveraging development and utility restoration efforts.

- **Seattle Transit Measure (STM)/Sound Transit 3 (ST3):** Sound Transit 3 is the largest infrastructure program in Seattle’s history. Its high-capacity transit investments, including the mega-projects of West Seattle Link Extension (WSLE) and Ballard Link Extension (BLE), will be transformational. City staffing is critical to ensuring on-time project delivery while ensuring compliance with relevant statutes and codes and upholding the 2018 Partnering Agreement. The proposed budget includes \$5.2 million in 2025 and \$6.8 million in 2026 to fund approximately 51 additional staff in various departments. These funds are appropriated in the “Finance General” department budget pending the development of a detailed staffing plan.

Description of Incremental Budget Changes

Baseline

Revenue Technical Changes

Revenues -

This change adds technical adjustments to the Seattle Department of Transportation's baseline revenue to align it with the 2024 Adopted Budget's revenue amounts.

Revenue Forecast Correction

Revenues \$(5,238,103)

This change adjusts total baseline revenue forecasts for Seattle Department of Transportation (SDOT)-driven projections for reimbursable revenues, transportation-specific revenues, and financial system corrections to match the 2024 Adopted Budget's starting point.

Reversal of One-Time Budget Items

Expenditures \$(18,469,567)

This change reverses one-time budget items that were included in the Adopted 2024 Budget and establishes a corrected baseline budget for the proposed budget.

Paid Parking Program Technical Corrections

Expenditures \$2,950,000

This technical change corrects errors in budget for the Seattle Department of Transportation's Paid Parking Program, establishing ongoing funding that was inadvertently identified as one-time support in the 2024 Adopted Budget.

Citywide Adjustments for Standard Cost Changes

Seattle Department of Transportation

Expenditures \$7,469,773

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$7,353,357

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Proposed Operating

Realigning Core Operating Services after Levy to Move Seattle

Expenditures \$(24,085,875)

This change captures numerous reductions to operating projects in the Proposed 2025-26 Budget to realign Seattle Department of Transportation's (SDOT's) operating budget to reflect the highest priority investments with the expiration of the Levy to Move Seattle on December 31st, 2024 and loss of associated tax revenues beginning in 2025. Because the Levy to Move Seattle largely supported capital projects, operating program realignment in this budget action largely represents a transfer of operating revenues to support critical capital functions that would be otherwise underfunded with the loss of the Levy to Move Seattle. These changes include the following 5 funds and impacts in 2025 and 2026:

- General Fund (-\$830,000 in 2025, -\$860,000 in 2026)
- Levy to Move Seattle Fund (-\$12.4 million in 2025, -\$12.8 million in 2026)
- Transportation Fund (-\$8.2 million in 2025 and -\$8.5 million in 2026)
- School Safety Traffic and Pedestrian Improvement Fund (-\$120,000 in 2025 and -\$130,000 in 2026)
- Transportation Benefit District Fund (-\$2.5 million in 2025 and -\$2.6 million in 2026)

This change captures numerous reductions to operating projects in the proposed budget, realigning SDOT's operating budget to reflect the highest priority investments with the expiration of the Levy to Move Seattle in 2024 and loss of associated property tax proceeds beginning in 2025. Because the Levy largely supported capital projects, operating program realignment in this budget action largely represents a transfer of operating revenues to support critical capital functions that would be otherwise underfunded with the loss of the Levy. These changes by fund include:

- General Fund (-\$830,000 in 2025, -\$860,000 in 2026)
- Move Seattle Levy Fund (-\$12.4 million in 2025, -\$12.8 million in 2026)
- Transportation Fund (-\$8.2 million in 2025 and -\$8.5 million in 2026)
- School Safety Traffic and Pedestrian Improvement Fund (-\$120,000 in 2025 and -\$130,000 in 2026)
- Transportation Benefit District Fund (-\$2.5 million in 2025 and -\$2.6 million in 2026)

Forty-five projects are impacted by the above reductions, including but not limited to: Administrative programs and management; Bridges and Structure operating maintenance programs; Citywide & Community Planning program; Urban Forestry program; and Pothole Repair Program. Overall impacts of reductions to these programs will result in reduced service levels. In some cases, however, budget reductions identified here are mitigated by restored funding in other areas to maintain total funding levels (such as for Pothole Repair, which will not see total reduced funding levels because of this change).

Seattle Department of Transportation

School Speed Zone Safety Camera Expansion

Revenues \$4,200,000

The School Zone Camera program is a joint program between the Seattle Department of Transportation (SDOT), Seattle Police Department (SPD), and the Seattle Municipal Court (SMC) that installs and operates automated enforcement cameras and processes citations for 30 cameras intended to enforce speed limits in school zones at 19 camera locations (18 schools).

This item expands the program, installing 37 new cameras at 18 additional locations, intending to be operational by fall 2025. This expansion will nearly double the total number of existing locations that have automated school zone camera enforcement. There are no installation costs identified in SDOT for 2025; SDOT installation costs were included in the 2024 Adopted Budget. The projected revenue from camera expansion to the School Safety, Traffic and Pedestrian Improvement (SSTPI) Fund is \$4.2 million in 2025 and \$10.3 million in 2026. Revenue will be used to offset operating and citation processing costs in SDOT, SPD, and SMC, and to support healthy fund balances in the SSTPI Fund that reduce the risk of future reductions to school safety and pedestrian improvement projects due to revenue variability. The budget changes for SPD and SMC operating and citation processing costs associated with this expansion are included in their respective Budget Book sections. Please see these sections for more information about these impacts.

Unified Care Team Expansion

Expenditures \$1,429,558

Position Allocation 3.00

The Unified Care Team (UCT) coordinates outreach and referrals to shelter for people experiencing homelessness, removes trash and debris from encampments, and restores access to public spaces. This item adds \$1.4 million of General Fund resources and 3.0 FTE in SDOT to expand SDOT's team to provide additional services under the UCT program. This funding will support a mix of labor costs in SDOT as well as contracted support to expand UCT-related services from 5 to 7 days a week.

Street Use Fee Legislation

Revenues \$6,679,000

The proposed budget includes legislation that increases street use fines and fees to keep pace with inflation. SDOT's fees for occupying the right-of-way for non-transportation purposes have not been adjusted since 2019. SDOT's hourly fees were last increased in 2024. This item brings fees in-line with changes in the Consumer Price Index. This revenue change is ongoing. For more information, please consult the associated Council Bill that adjusts SDOT's street use fees.

Downtown Activation Plan - Central Waterfront Grand Opening

Expenditures \$250,000

This one-time item provides funding to support the Central Waterfront Grand Opening as part of the Mayor's Downtown Activation Plan. The Downtown Activation Plan (DAP), announced in June 2023, outlines the Mayor's plan to revitalize and transform Downtown Seattle as the city continues to recover from the impacts of the COVID-19 pandemic. The Central Waterfront program will reach completion of all construction elements in 2025.

Seattle Transit Measure Alignment - Operating

Expenditures \$(8,061,813)

This one-time change decreases appropriations associated with the Seattle Transit Measure (STM) to reflect the

Seattle Department of Transportation

current spending plan for 2025 and 2026. The total reduction is \$8.06 million in 2025 and \$871,642 in 2026. This item includes a \$3,633,000 contribution to Finance General in 2025 for Sound Transit 3 staffing and another \$3,675,000 in 2026. A companion item increases the SDOT Capital Improvement Program for the STM to reflect the complete STM spending plan.

Seattle Transit Measure Support for Streetcar Operations

Expenditures

-

This one-time item exchanges \$10.2 million of funding for Streetcar Operations from Commercial Parking Tax revenues in the Transportation Fund for Seattle Transit Measure revenues in the Transportation Benefit District Fund. This transfer allows SDOT to maintain streetcar operations while preserving funding needed to support debt service payments in the Transportation Fund. Please see the "Debt Service Technical Adjustment" change and the "Reduce Transportation Network Company Tax for Debt Service" change for more detail on the total impact of these changes.

General Fund Program Reductions

Expenditures

\$(5,453,579)

The General Fund revenue forecast for the City's proposed budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. In the Seattle Department of Transportation (SDOT), this item reduces General Fund resources in the amount of \$5.5 million in 2025 and \$6.1 million in 2026, ongoing, across 30 SDOT programs that are funded in whole or in part with General Fund revenues. Highlighted program reductions from this change include but are not limited to Signal Maintenance (-\$1 million), Preventative Maintenance (-\$790,000), Bridge and Structures Maintenance (-\$690,000), Transportation Operations Center (-\$440,000), and Street Cleaning Services (-\$370,000). These reductions do not change funding levels from non-General Fund sources in these projects and represent less than 8% reduction for any one project's total budget.

Street Surface Maintenance Reductions

Expenditures

\$(1,143,048)

This change reduces the Street Cleaning Program by \$250,000 in the Transportation Fund and the Surface Maintenance Program by \$893,000 in the Transportation Benefit District Fund. With the expiration of the Levy to Move Seattle in 2024 and loss of associated property tax proceeds in 2025, this change comprises part of a transfer of resources from these programs to the 2025-2030 Proposed CIP to provide additional funding to support Transit Corridor Improvements and Protected Bike Lane investments.

Proposed Capital

Realigning Core CIP Services after Levy to Move Seattle

Expenditures

\$12,701,395

This item captures numerous transfers, increases, and reductions to capital projects in the 2025-2030 Proposed CIP to realign the Seattle Department of Transportation's (SDOT's) capital budget to reflect the highest priority investments with the expiration of the Levy to Move Seattle in 2024 and loss of associated property tax proceeds beginning in 2025. These changes by funds include:

- General Fund (\$1.0 million)
- Move Seattle Fund (-\$540,000)
- Transportation Fund (\$9.4 million)
- School Safety Traffic and Pedestrian Improvement Fund (\$400,000)
- Transportation Benefit District Fund (\$2.7 million)
- REET II Capital Fund (-\$340,000)

Seattle Department of Transportation

Within these funds, 60 CIP projects are impacted. Projects prioritized for replacement funding after the loss of the Levy to Move Seattle include but are not limited to: Sidewalk Safety Repair; SDOT ADA Curb Ramp Program; Pedestrian Master Plan - Crossing Improvements; Vision Zero Safety Program, and Arterial Major Maintenance. Highlighted projects that will see reductions over baseline 2024 CIP funding include but are not limited to: Accela Permitting System Program; Pedestrian Master Plan - New Sidewalk program; Pedestrian Master Plan - School Safety Program; Bike Master Plan - Greenways, and Transit Corridor Improvements. In some cases, reductions are a return to historical spending levels, and do not represent a long-term reduction to funding (like school safety improvements), following one-time increases in 2024.

Protected Bike Lanes and Transit Corridor Improvement Investments

Expenditures \$8,122,376

During the development of the proposed budget, the Seattle Department of Transportation (SDOT) identified a series of additional CIP investment priorities, including additional funding for Bike Master Plan - Protected Bike Lanes and Transit Corridor Improvements, funded through a combination of Transportation Fund, Transportation Benefit District Fund, and REET II Capital Fund resources. The funding made available for these investments is supported by a combination of reductions in these Funds to street maintenance activities, revenues generated by the automated "block-the-box" camera enforcement pilot program and increases to Street Use fees.

Bridge Seismic Program Funding

Expenditures \$4,000,000

This item adds \$4 million of Levy to Move Seattle funding to the Bridge Seismic Retrofit - Phase III program (CIP Project MC-TR-C090) in 2025 in the 2025-2030 Proposed CIP. This program contains a list of 16 seismic retrofit programs evaluated and planned through the life of the Levy to Move Seattle. Bridge seismic retrofits are typically high-cost projects that are susceptible to external cost inflation and increased costs discovered during project design. The program requires additional funding to complete the planned list of bridge seismic projects. This funding is made available by the Levy to Move Seattle Fund through levy project savings.

East Marginal Way North Segment Funding

Expenditures \$4,500,000

This item adds \$4.5 million of Levy to Move Seattle funding to the East Marginal Way North Segment component of the Heavy Haul Network Program (CIP Project MC-TR-C090) in 2025 in the 2025-2030 Proposed CIP to cover a funding shortfall preventing the completion of the project. The Seattle Department of Transportation (SDOT) is making improvements along the north segment of the corridor – between S. Atlantic St. and S. Spokane St. The improvements will reconstruct the roadway along this freight corridor to support truck loads with an expected lifetime of 50 years. The project will also construct a protected bike lane, including rebuilding the existing traffic signal at S. Hanford St. and adding a new signal at S. Horton St. to provide protected crossings for cyclists. This additional funding is necessary due to the need to relocate and modify existing rail yard track and is made available through project savings in the Levy to Move Seattle Fund.

Seattle Transit Measure Alignment - Capital

Expenditures \$4,620,915

This item aligns capital budget appropriations with the current Seattle Transit Measure spending plan. This item includes a \$144,085 adjustment to fund a Finance General appropriation in 2025 for Sound Transit 3 staffing as well as a \$1,529,752 adjustment in 2026. A companion item decreases STM operating appropriations to reflect the complete STM spending plan.

Seattle Department of Transportation

Proposed Technical

Reduce Transportation Network Company Tax for Debt Service

Expenditures -

This change reduces total debt service payment budget supported by Transportation Network Company Tax in the General Fund in the amount of \$6.2 million in 2025 and ongoing and replaces it with Commercial Parking Tax in the Transportation Fund for the same amount. Please see the "Debt Service Technical Adjustment" change and the "Seattle Transit Measure Support for Streetcar Operations " change for more detail on the total impact of these changes.

Debt Service Technical Adjustment

Expenditures \$1,867,871

This technical adjustment aligns the Seattle Department of Transportation's (SDOT's) anticipated debt service obligations with projected debt service schedules for the Proposed 2025-2026 Budget. This item adds \$1.9 million in 2025 and reduces \$9.5 million in 2026, supported by general tax revenues in the General Fund (adding \$210,000 in 2025 and reducing \$5.6 million in 2026), and Commercial Parking Tax revenues in the Transportation Fund (adding \$1.7 million in 2025 and reducing \$3.9 million in 2026).

These changes reflect both an updated debt service schedule with reduced debt service obligations beginning in 2026, as well as shift in debt service funding obligations from General Fund to the Transportation Fund for the repayment of debt obligations. This transfer facilitates General Fund reductions required due to reduced overall General Fund revenues without significantly impacting SDOT's program delivery. Please see the "Reduce Transportation Network Company Tax for Debt Service" change and the "Seattle Transit Measure Support for Streetcar Operations " change for more detail on the total impact of these changes.

Revenue Technical Adjustment - Central April Revenue Forecast

Revenues \$525,930

This change updates 2025 baseline revenues for adjustments made in the April Central Revenue Forecast.

Revenue Technical Adjustment - Central August Revenue Forecast

Revenues \$(2,477,625)

This change updates 2025 baseline revenues for adjustments made in the April Central Revenue Forecast.

Revenue Technical Adjustment - SDOT Revenue Projections

Revenues \$(110,415,987)

This change corrects SDOT-forecasted revenue projections for numerous transportation revenue sources, including reimbursable revenues, forecasted transportation-specific revenues, interest, and cost center revenues to align with baseline 2025 revenue projections. This is a companion change to centrally-forecasted revenue updates.

Paid Parking Incremental Revenue

Expenditures -

This change allocates \$600,000 of General Fund dedicated incremental parking revenue anticipated to be generated from historical changes to minimum and maximum parking rates established in the Adopted 2024 Budget. These funds are projected to be available in 2026 and will fund the Seattle Department of Transportation's (SDOT's) Paid Parking - Pay by Phone program.

Seattle Department of Transportation

First Hill Streetcar Operations Technical Adjustment

Expenditures	\$(325,831)
Revenues	\$146,215

This technical adjustment decreases appropriations for First Hill Streetcar operations. Adjustments are needed due to ORCA fare and contribution revenue offsets against King County Metro billings, inflationary increases, annual wage increases, and market adjustments.

SLU Streetcar Operations Technical Adjustment

Expenditures	\$(211,134)
Revenues	\$(146,215)

This technical adjustment decreases appropriations for South Lake Union Streetcar operations. Adjustments are needed due to ORCA fare and contribution revenue offsets against King County Metro billings, inflationary increases, annual wage increases, and market adjustments.

Street Use Technical Adjustment

Expenditures	\$2,718,015
Revenues	\$3,451,745

This technical adjustment aligns the budget with anticipated expenditures and revenues in SDOT's Street Use program, which is funded by permit issuance fees, hourly service fees, use and occupation fees, and modification fees. This item does not include revenue changes associated with SDOT's street use fee legislation.

Operations and Maintenance Technical Adjustments

Expenditures	\$20,942,981
--------------	--------------

This item adjusts centralized budget changes for the Seattle Department of Transportation (SDOT) to reflect true-up activities in 5 Funds:

- General Fund (\$1.7 million in 2025 and \$1.8 million in 2026)
- Levy to Move Seattle Fund (\$370,000 in 2025 and \$320,000 in 2026)
- Transportation Fund (\$16.5 million in 2025 and \$13.0 million in 2026)
- School Safety, Traffic and Pedestrian Improvement Fund (\$330,000 in 2025 and \$340,000 in 2026)
- Transportation Benefit District Fund (\$2.0 million in 2025 and \$4.1 million in 2026)

These changes combine alignment for non-labor contract inflation, changes in the indirect cost recovery rates associated with the expiration of the Levy to Move Seattle, non-labor central cost impacts not already factored into central cost changes elsewhere in this budget, and labor inflation not already factored into Annual Wage Increase changes elsewhere in this budget. All net increases to budget in this change are either offset by reductions elsewhere in this budget or supported by fund balance in their respective funds.

Reimbursable Technical Adjustments

Expenditures	\$2,019,198
Revenues	\$(794,855)

This technical change adds \$2.0 million in 2025 and \$4.1 million in 2026 of reimbursable funding in the Transportation Fund to support activities across 26 projects in the Seattle Department of Transportation (SDOT), and trues up revenue budgets, reflected by a \$790,000 reduction reimbursable revenues. These funds for reimbursable

Seattle Department of Transportation

activities are available from a number of sources, including revenues generated by SDOT cost centers, interdepartmental agreements, or partnerships with agencies external to the city.

Technical CIP Adjustments - 2025

Expenditures	\$(286,305,332)
Revenues	\$(21,651,829)

This technical change reduces unneeded budget authority and budget authority backed by unrealized revenues from 2024, corrects reimbursable budgets, and various small corrections in the 2025 budget year for the 2025-2030 Proposed CIP.

Technical CIP Adjustments - 2026-2027

Expenditures	-
--------------	---

This technical change reduces unneeded budget authority and budget authority backed by unrealized revenues from 2024, corrects reimbursable budgets, and various small corrections in the 2025 budget year for the 2025-2030 Proposed CIP.

Technical CIP Adjustments - 2030 Ongoing CIP

Expenditures	-
Revenues	-

This technical change adds \$27.5 million to capital project spending in the 2030 planning year for the 2025-2030 Proposed CIP. These programs are identified as "ongoing" capital projects, such as capital project maintenance, that spend annual appropriations and have no specified end date. This item is an annual change adding planned spending assumptions to the last year of the CIP. Please see the 2025-2030 Proposed CIP for more information regarding ongoing CIP programs and the 2025-2030 out-year spending plan.

Capital Out-Year Adjustments

Expenditures	\$5,124,911
Revenues	\$5,124,911

This technical adjustment recognizes changes to future planning amounts for capital projects adjusted during the 2024 year.

REET II Debt Service Capital Budget Alignment

Expenditures	\$(1,246,502)
--------------	---------------

This item realigns debt service payment budgets, supported by the Real Estate Excise Tax II funding source, with the correct Budget Summary Level and system coding guidelines in the Capital Improvement Plan, and adjusts budgets to match the annual updates provided by the City's debt service schedule.

Waterfront Bond Timing Adjustments

Expenditures	\$10,713,000
--------------	--------------

This change adjusts the timing of bond issuances and appropriations for the Office of the Waterfront and Civic Projects from 2024 to 2025. This technical adjustment will move a total of \$10,713,000 in bond appropriation authority from 2024 to 2025 in two capital projects: Alaskan Way Main Corridor (MC-TR-C072) will move \$7,713,000 and Overlook Walk/East West Connections (MC-TR-C073) will move \$3,000,000. This adjustment will help "right

Seattle Department of Transportation

size" the bond issuance to better align with projected spending, resulting in interest expense savings.

Final Adjustments for Standard Cost Changes

Expenditures -

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures \$3,074,288

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Fund Balancing Entries

Revenues \$(12,510,809)

This technical change captures estimates of the contribution or use of fund balance for Seattle Department of Transportation managed funds.

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Major Maintenance/Replacement Budget Summary Level:

Bridges & Structures

The purpose of Bridges and Structures Program is to provide for safe and efficient use of the city's bridges and structures to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

Seattle Department of Transportation

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Bridges & Structures	22,151,191	54,995,965	14,461,789	7,181,041
Full Time Equivalents Total	14.75	14.75	14.75	14.75

Landslide Mitigation

The purpose of the Landslide Mitigation Program is to proactively identify and address potential areas of landslide concerns that affect the right-of-way.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Landslide Mitigation	400,614	501,908	476,813	517,750
Full Time Equivalents Total	2.00	2.00	2.00	2.00

Roads

The purpose of the Roads program is to provide for the safe and efficient use of the city's roadways to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Roads	23,473,618	28,432,723	13,872,734	25,311,000
Full Time Equivalents Total	47.00	47.00	47.00	47.00

Sidewalk Maintenance

The purpose of Sidewalk Maintenance Program is to maintain and provide for safe and efficient use of the city's sidewalks to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Sidewalk Maintenance	5,105,427	4,994,671	5,036,761	5,096,000
Full Time Equivalents Total	6.00	6.00	6.00	6.00

Signs, Signals and Markings

The purpose of Signs, Signals and Markings Program is to design, plan and maintain the city's signs, signals, and street, sidewalk markings

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Signs, Signals and Markings	2,428,949	1,801,420	1,190,456	1,095,000
Full Time Equivalents Total	1.00	1.00	1.00	1.00

Streetcar Repair

Seattle Department of Transportation

The purpose of Streetcar Repair program is to repair and maintain the city's streetcar lines to ensure safe, efficient movement of people, goods and services throughout the city.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Streetcar Repair	29,562	-	-	-

Trails and Bike Paths

The purpose of Trails and Bike Paths Program is to maintain and provide for safe and efficient use of the city's trails and bike paths to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Trails and Bike Paths	1,793,734	1,911,119	4	-
Full Time Equivalents Total	27.75	27.75	27.75	27.75

Urban Forestry

The Tree and Landscape Maintenance program provides services to implement the citywide Urban Forestry Management Plan through education, stewardship, protection and maintenance of SDOT's green infrastructure assets including trees and landscapes. Arborists, Foresters, and the Landscape Architect provide design guidance, construction management support, citywide policy guidance and implementation including street tree permitting. Urban Forestry field operations provides critical maintenance of more than 40,000 SDOT street use tree assets and emergency response to over 350,000 right-of-way trees. Field operations is also responsible for the maintenance and operation of more than 200 formally landscaped right-of-way areas such as medians along Beacon Avenue South and Sand Point Way NE.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Urban Forestry	553,010	478,627	774,831	475,000
Full Time Equivalents Total	1.75	1.75	1.75	1.75

SDOT - BC-TR-19002 - Major Projects

The purpose of the Major Projects Budget Summary Level is to design, manage and construct improvements to the transportation infrastructure for the benefit of the traveling public including freight, transit, other public agencies, pedestrians, bicyclists and motorists.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Alaskan Way Viaduct	610,647	-	-	-
SR-520	1,590,634	1,971,000	1,640,985	125,000
Total	2,201,281	1,971,000	1,640,985	125,000
Full-time Equivalents Total*	24.50	24.50	24.50	24.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Department of Transportation

The following information summarizes the programs in Major Projects Budget Summary Level:

Alaskan Way Viaduct

The purpose of the Alaskan Way Viaduct and Seawall Replacement Program is to fund the City's involvement in the replacement of the seismically-vulnerable viaduct and seawall. The Alaskan Way Viaduct is part of State Route 99, which carries one-quarter of the north-south traffic through downtown Seattle and is a major truck route serving the city's industrial areas

Expenditures/FTE	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Alaskan Way Viaduct	610,647	-	-	-
Full Time Equivalents Total	23.00	23.00	23.00	23.00

SR-520

The purpose of the SR-520 Program is to provide policy, planning and technical analysis support and to act as the City's representative in a multi-agency group working on the replacement of the State Route 520 bridge.

Expenditures/FTE	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
SR-520	1,590,634	1,971,000	1,640,985	125,000
Full Time Equivalents Total	1.50	1.50	1.50	1.50

SDOT - BC-TR-19003 - Mobility-Capital

The purpose of the Mobility-Capital Budget Summary Level is to help maximize the movement of traffic throughout the city by enhancing all modes of transportation including corridor and intersection improvements, transit and HOV improvements, and sidewalk and pedestrian facilities.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Corridor & Intersection Imprv	41,096,908	54,862,066	45,230,560	45,587,663
Freight Mobility	6,059,165	43,769,140	6,090,000	828,000
Intelligent Transp System	2,940,111	1,323,095	1,070,057	479,000
Neighborhood Enhancements	5,991,773	6,374,504	1,956,289	1,975,382
New Trails and Bike Paths	16,308,192	20,928,952	5,622,542	5,622,376
Sidewalks & Ped Facilities	34,033,669	34,429,719	17,674,452	18,033,842
Transit & HOV	65,275,688	81,745,746	43,286,506	35,507,528
Total	171,705,507	243,433,222	120,930,406	108,033,791
Full-time Equivalents Total*	161.50	163.00	163.00	163.00

*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

The following information summarizes the programs in Mobility-Capital Budget Summary Level:

Corridor & Intersection Imprv

Seattle Department of Transportation

The purpose of the Corridor & Intersection Improvements Program is to analyze and make improvements to corridors and intersections to move traffic more efficiently. Examples of projects include signal timing, left turn signals and street improvements.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Corridor & Intersection Imprv	41,096,908	54,862,066	45,230,560	45,587,663
Full Time Equivalents Total	39.50	39.50	39.50	39.50

Freight Mobility

The purpose of the Freight Mobility Program is to help move freight throughout the city in a safe and efficient manner.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Freight Mobility	6,059,165	43,769,140	6,090,000	828,000
Full Time Equivalents Total	4.50	4.50	4.50	4.50

Intelligent Transp System

The purpose of the Intelligent Transportation System (ITS) Program is to fund projects identified in the City's ITS Strategic Plan and ITS Master Plan. Examples of projects include implementation of transit signal priority strategies; installation of closed-circuit television (CCTV) cameras to monitor traffic in key corridors; and development of parking guidance, traveler information and real-time traffic control systems.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Intelligent Transp System	2,940,111	1,323,095	1,070,057	479,000
Full Time Equivalents Total	9.25	9.25	9.25	9.25

Neighborhood Enhancements

The purpose of the Neighborhood Enhancements Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Neighborhood Enhancements	5,991,773	6,374,504	1,956,289	1,975,382
Full Time Equivalents Total	19.75	21.25	21.25	21.25

New Trails and Bike Paths

The purpose of the New Trails and Bike Paths Program is to construct new trails and bike paths that connect with existing facilities to let users transverse the city on a dedicated network of trails and paths.

Seattle Department of Transportation

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
New Trails and Bike Paths	16,308,192	20,928,952	5,622,542	5,622,376
Full Time Equivalents Total	2.00	2.00	2.00	2.00

Sidewalks & Ped Facilities

The purpose of the Sidewalks & Pedestrian Facilities Program is to install new facilities that help pedestrians move safely along the city's sidewalks by installing or replacing sidewalks, modifying existing sidewalks for elderly and handicapped accessibility, and increasing pedestrian lighting.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Sidewalks & Ped Facilities	34,033,669	34,429,719	17,674,452	18,033,842
Full Time Equivalents Total	60.50	60.50	60.50	60.50

Transit & HOV

The purpose of the Transit & HOV Program is to move more people in less time throughout the city.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Transit & HOV	65,275,688	81,745,746	43,286,506	35,507,528
Full Time Equivalents Total	26.00	26.00	26.00	26.00

SDOT - BC-TR-19004 - Capital General Expense

The purpose of the Debt and Special Funding Budget Summary Level is to meet debt service obligations on funds borrowed to meet the Seattle Department of Transportation's capital expenditure requirements.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Capital Debt Service	-	-	6,985,811	6,547,877
Total	-	-	6,985,811	6,547,877

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-12001 - South Lake Union Streetcar Operations

The purpose of the South Lake Union Streetcar Operations Budget Summary Level is to operate and maintain the South Lake Union Seattle Streetcar.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
S Lake Union Streetcar Ops	3,115,439	4,628,688	4,419,771	4,539,220
Total	3,115,439	4,628,688	4,419,771	4,539,220

Seattle Department of Transportation

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-12002 - First Hill Streetcar Operations

The purpose of the First Hill Streetcar Operations Budget Summary Level is to operate and maintain the First Hill Seattle Streetcar.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
First Hill Streetcar Ops	9,242,318	9,758,277	9,435,601	9,765,625
Total	9,242,318	9,758,277	9,435,601	9,765,625

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-16000 - Waterfront and Civic Projects

The purpose of the Waterfront and Civic Projects Summary Level is to pay for expenses related to reimbursable design and construction services provided by the Central Waterfront program for other City departments and external partners. Additionally, the BSL provides planning and leadership support for other Civic Projects.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Waterfront and Civic Projects	37,445,472	34,804,912	36,331,169	37,341,951
Total	37,445,472	34,804,912	36,331,169	37,341,951
Full-time Equivalents Total*	1.00	1.00	1.00	1.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-17001 - Bridges & Structures

The purpose of the Bridges and Structures Budget Summary Level is to maintain the City's bridges and structures which helps provide for the safe and efficient movement of people, goods, and services throughout the City. Additionally, the BSL provides general construction management, engineering support for street vacations, scoping of neighborhood projects, and other transportation activities requiring engineering oversight.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Bridge Operations	4,277,946	4,243,350	4,666,612	4,825,331
Engineering & Ops Support	893,319	886,345	1,278,413	1,317,938
Structures Engineering	1,643,051	1,772,606	1,842,382	1,899,475
Structures Maintenance	8,260,860	9,696,569	6,255,915	6,388,849
Total	15,075,177	16,598,871	14,043,322	14,431,593

Seattle Department of Transportation

Full-time Equivalents Total*	59.00	62.00	62.00	62.00
<i>*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here</i>				

The following information summarizes the programs in Bridges & Structures Budget Summary Level:

Bridge Operations

The purpose of Bridge Operations is to ensure the safe and efficient operations and preventive maintenance for over 180 bridges throughout the city.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Bridge Operations	4,277,946	4,243,350	4,666,612	4,825,331
Full Time Equivalents Total	17.50	17.50	17.50	17.50

Engineering & Ops Support

The purpose of the Engineering Ops & Support program is to provide engineering support services to other SDOT projects, perform engineering related to bridges and structures, and manage stormwater pollution control.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Engineering & Ops Support	893,319	886,345	1,278,413	1,317,938
Full Time Equivalents Total	3.00	3.00	3.00	3.00

Structures Engineering

The purpose of the Structures Engineering Program is to provide engineering services on all the bridges and structures within the city to ensure the safety of transportation users as they use or move in proximity to these transportation facilities.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Structures Engineering	1,643,051	1,772,606	1,842,382	1,899,475
Full Time Equivalents Total	3.50	6.50	6.50	6.50

Structures Maintenance

The purpose of the Structures Maintenance Program is to provide for the maintenance of the city's bridges, roadside structures and stairways.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Structures Maintenance	8,260,860	9,696,569	6,255,915	6,388,849
Full Time Equivalents Total	35.00	35.00	35.00	35.00

Seattle Department of Transportation

SDOT - BO-TR-17003 - Mobility Operations

The purpose of the Mobility-Operations Budget Summary Level is to promote the safe and efficient operation of all transportation modes in the city. This includes managing the parking, pedestrian, and bicycle infrastructure; implementing neighborhood plans; encouraging alternative modes of transportation; and maintaining and improving signals and the non-electrical transportation management infrastructure.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Commuter Mobility	17,556,864	20,132,623	18,464,975	19,027,435
Neighborhoods	1,691,036	701,313	605,717	626,401
Parking & Curbspace	14,106,772	17,020,950	18,253,247	19,382,348
Signs & Markings	4,937,441	5,020,278	4,886,670	5,025,520
Traffic Signals	10,469,155	11,906,180	10,571,173	10,861,222
Transit Operations	36,004,029	47,157,900	41,131,097	50,042,407
Urban Planning	4,616,160	4,463,811	3,028,711	3,094,727
Total	89,381,457	106,403,056	96,941,590	108,060,060
Full-time Equivalents Total*	153.75	173.75	173.75	173.75

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Mobility Operations Budget Summary Level:

Commuter Mobility

The purpose of the Commuter Mobility Program is to provide a variety of services, including enforcement of City commercial vehicle limits, transit coordination, and planning, to increase mobility and transportation options to the residents of Seattle.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Commuter Mobility	17,556,864	20,132,623	18,464,975	19,027,435
Full Time Equivalents Total	53.25	58.25	58.25	58.25

Neighborhoods

The purpose of the Neighborhoods Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Neighborhoods	1,691,036	701,313	605,717	626,401
Full Time Equivalents Total	2.50	2.50	2.50	2.50

Seattle Department of Transportation

Parking & Curbspace

The purpose of Parking and Curb Ramp Program is to manage the City's parking resources, maintain and operate pay stations and parking meters for on-street parking, manage curbspace, develop and manage the City's carpool program and Residential Parking Zones.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Parking & Curbspace	14,106,772	17,020,950	18,253,247	19,382,348
Full Time Equivalents Total	34.00	34.00	34.00	34.00

Signs & Markings

The purpose of the Signs & Markings Program is to design, fabricate and install signage, as well as provide pavement, curb and crosswalk markings to facilitate the safe movement of vehicles, pedestrians and bicyclists throughout the city.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Signs & Markings	4,937,441	5,020,278	4,886,670	5,025,520
Full Time Equivalents Total	22.50	22.50	22.50	22.50

Traffic Signals

The purpose of the Traffic Signals Program is to operate the Traffic Management Center that monitors traffic movement within the city and to maintain and improve signals and other electrical transportation management infrastructure.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Traffic Signals	10,469,155	11,906,180	10,571,173	10,861,222
Full Time Equivalents Total	25.25	33.25	33.25	33.25

Transit Operations

The Purpose of the Transit Operations Program is to purchase Metro Transit service hours on transit routes with at least 65% of the stops within the city of Seattle and transit service to address emerging transportation needs. The program also funds ORCA Opportunity which provides ORCA cards for Seattle Public School, High School and low-income Middle School Students, Seattle Promise scholars, and income-eligible adults and seniors. In addition, the program includes community engagement, training, resources and partnerships to increase transit access for low-income riders. The Transit Operations program revenues support the implementation of City-wide improvements to maximize transit operations.

Expenditures/FTE	2023	2024	2025	2026
-------------------------	-------------	-------------	-------------	-------------

Seattle Department of Transportation

	Actuals	Adopted	Proposed	Proposed
Transit Operations	36,004,029	47,157,900	41,131,097	50,042,407
Full Time Equivalents Total	4.75	5.75	5.75	5.75

Urban Planning

The Urban Planning Program is comprised of Adaptive Streets, Citywide & Community Planning, GIS, Urban Design, and the Center City Mobility Plan.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Urban Planning	4,616,160	4,463,811	3,028,711	3,094,727
Full Time Equivalents Total	11.50	17.50	17.50	17.50

SDOT - BO-TR-17004 - ROW Management

The purpose of the (Right-of-Way) ROW Management Budget Summary Level is to review projects throughout the city for code compliance for uses of the right-of-way and to provide plan review, utility permit and street use permit issuance, and utility inspection and mapping services.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
St Use Permit & Enforcement	40,051,984	49,690,857	52,917,466	54,703,402
Street Use Contingent Budget	-	1,000,000	1,000,000	1,035,000
Total	40,051,984	50,690,857	53,917,466	55,738,402
Full-time Equivalents Total*	140.25	140.25	140.25	140.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in ROW Management Budget Summary Level:

St Use Permit & Enforcement

The purpose of the Street Use Permitting and Enforcement is to review projects throughout the city for code compliance for uses of right-of-way and to provide plan review, utility permit and street use permit issuance, and utility inspection and mapping services.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
St Use Permit & Enforcement	40,051,984	49,690,857	52,917,466	54,703,402
Full Time Equivalents Total	140.25	140.25	140.25	140.25

Street Use Contingent Budget

The purpose of the Street Use Contingent Budget Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Right of Way Management BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Seattle Department of Transportation

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Street Use Contingent Budget	-	1,000,000	1,000,000	1,035,000

SDOT - BO-TR-17005 - Maintenance Operations

The purpose of the Maintenance Operations Budget Summary Level is to maintain the City’s roadways and sidewalks; maintain, protect and expand the City’s urban landscape in the street right-of-way through the maintenance and planting of new trees and landscaping to enhance the environment and aesthetics of the city; and manage and administer street parking rules and regulations in the right-of-way.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Emergency Response	7,463,495	10,079,610	8,839,489	9,129,170
Operations Support	11,562,018	10,067,744	12,001,767	12,293,176
Pavement Management/Repair	15,086,602	19,393,187	17,755,891	18,220,986
Street Cleaning	8,521,764	9,183,630	7,293,949	7,443,994
Tree & Landscape Maintenance	7,560,368	6,875,938	6,633,346	6,787,603
Total	50,194,246	55,600,109	52,524,442	53,874,929
Full-time Equivalents Total*	163.50	200.50	203.50	203.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Maintenance Operations Budget Summary Level:

Emergency Response

The purpose of the Emergency Response Program is to respond to safety and mobility issues such as pavement collapses, severe weather, landslides and other emergencies to make the right-of-way safe for moving people and goods. This program proactively addresses landslide hazards to keep the right-of-way open and safe.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Emergency Response	7,463,495	10,079,610	8,839,489	9,129,170
Full Time Equivalents Total	19.00	19.00	19.00	19.00

Operations Support

The purpose of the Operations Support Program is to provide essential operating support services necessary for the daily operation of SDOT’s equipment and field workers dispatched from three field locations in support of street maintenance activities. These functions include warehousing, bulk material supply and management, tool cleaning and repair, equipment maintenance and repair, project accounting and technical support, and crew supervision.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Operations Support	11,562,018	10,067,744	12,001,767	12,293,176

Seattle Department of Transportation

Full Time Equivalents Total	41.50	66.50	69.50	69.50
-----------------------------	-------	-------	-------	-------

Pavement Management/Repair

The purpose of the Pavement Management and Repair Program is to assess the condition of asphalt and concrete pavements and establish citywide paving priorities for annual resurfacing, preservation and maintenance of all streets and adjacent areas such as sidewalks and road shoulders by making spot repairs and conducting annual major maintenance paving and rehabilitation.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Pavement Management/Repair	15,086,602	19,393,187	17,755,891	18,220,986
Full Time Equivalents Total	57.25	68.25	68.25	68.25

Street Cleaning

The purpose of the Street Cleaning Program is to keep Seattle's streets, improved alleys, stairways and pathways clean, safe and environmentally friendly by conducting sweeping, hand-cleaning, flushing and mowing on a regular schedule.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Street Cleaning	8,521,764	9,183,630	7,293,949	7,443,994
Full Time Equivalents Total	22.50	22.50	22.50	22.50

Tree & Landscape Maintenance

The purpose of the Landscape & Tree Maintenance Program is to provide planning, design, construction and construction inspection services for landscape elements of transportation capital projects, as well as guidance to developers on the preservation of city street trees and landscaped sites during construction.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Tree & Landscape Maintenance	7,560,368	6,875,938	6,633,346	6,787,603
Full Time Equivalents Total	23.25	24.25	24.25	24.25

SDOT - BO-TR-17006 - Parking Enforcement

The purpose of the Parking Enforcement Budget Summary Level is to help manage the right-of-way by enforcing parking regulations, providing traffic control for events and incidents, and performing other related activities.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Parking Enforcement	-	-	-	-
Total	-	-	-	-
Full-time Equivalents Total*	(2.00)	(2.00)	(2.00)	(2.00)

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Department of Transportation

SDOT - BO-TR-18001 - Leadership and Administration

The purpose of the Leadership & Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the Seattle Department of Transportation.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	52,345,753	59,209,641	52,110,963	54,760,827
Departmental Indirect Costs	20,946,108	23,493,193	23,186,983	23,972,363
Divisional Indirect Costs	17,656,700	14,272,094	15,963,246	16,485,320
Indirect Cost Recovery Offset	(84,083,056)	(97,043,975)	(90,429,694)	(94,387,012)
Pooled Benefits and PTO	1,419,028	(454,402)	(831,498)	(831,498)
Total	8,284,533	(523,450)	-	-
Full-time Equivalents Total*	241.25	249.25	249.25	249.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The Purpose of Citywide Indirect Cost Program is to allocate the City's general service costs to SDOT in a way that benefits the delivery of transportation services to the public.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	52,345,753	59,209,641	52,110,963	54,760,827

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Program is to provide departmental leadership and operations support essential to accomplish the mission and goals of the department. The Office of the Director and the Finance & Administration Division are the two divisions included in this program. The Office of the Director oversees and provides strategic leadership and guidance for all the functions, staff, and services of the department, guiding and shaping SDOT's priorities and work plans to attain the vision, mission and goals of the department. In addition to guiding the overall work of the department, the Office of the Director houses the department's Human Resources, Communications, Office of Equity and Economic Inclusion, Emergency Management and Government and Council Relations functions. The Finance and Administration Division supports all SDOT programs, projects, and business activities by providing a wide variety of services, including: financial and accounting services; payroll services; consultant contract and procurement support; management of SDOT's facilities, fleet, radio communications network; assets condition review and management; performance management, data reporting and public dashboards; real property management, acquisition and surplus performance management; claims investigation and legal services; environmental hazardous waste management; safety and employee health support services; and IT project and service coordination.

Seattle Department of Transportation

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Departmental Indirect Costs	20,946,108	23,493,193	23,186,983	23,972,363
Full Time Equivalents Total	138.00	146.00	146.00	146.00

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide division leadership and unique transportation technical expertise to accomplish the division's goals and objectives in support of the department's mission.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Divisional Indirect Costs	17,656,700	14,272,094	15,963,246	16,485,320
Full Time Equivalents Total	103.25	103.25	103.25	103.25

Indirect Cost Recovery Offset

Indirect Cost Recovery Offset Program includes Department Management Indirect cost recovery and General Expense Indirect Cost Recovery. This program equitably recovers and allocates departmental and general expense indirect cost from all transportation activities and capital projects to fund departmental management and support services essential for delivery of transportation service to the public.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Indirect Cost Recovery Offset	(84,083,056)	(97,043,975)	(90,429,694)	(94,387,012)

Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Pooled Benefits and PTO	1,419,028	(454,402)	(831,498)	(831,498)

SDOT - BO-TR-18002 - General Expense

The purpose of the General Expense Budget Summary Level is to pay for general business expenses necessary to the overall delivery of transportation services, such as Judgment and Claims contributions and debt service payments.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Initiatives	5,526,192	10,218,977	10,200,000	10,557,000
Debt Service	38,024,935	41,665,167	33,353,028	21,241,558
Judgment & Claims	8,800,745	7,320,249	8,143,507	9,035,407
Total	52,351,871	59,204,393	51,696,535	40,833,965

Seattle Department of Transportation

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

Citywide Initiatives

The purpose of the Citywide Initiatives program is to support citywide or multi-departmental system or process improvement initiatives.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Initiatives	5,526,192	10,218,977	10,200,000	10,557,000

Debt Service

The purpose of Debt Service Program is to meet principal repayment and interest obligations on debt proceeds that are appropriated in SDOT's Budget

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Debt Service	38,024,935	41,665,167	33,353,028	21,241,558

Judgment & Claims

The purpose of the Judgement & Claims Program is to represent SDOT's annual contribution to the City's centralized self-insurance pool from which court judgements and claims against the city are paid.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Judgment & Claims	8,800,745	7,320,249	8,143,507	9,035,407

The Office of the Waterfront and Civic Projects

Angela Brady, PE, Acting Director

206-684-3115

waterfrontseattle.org

The Office of the Waterfront and Civic Projects (OWCP) is responsible for coordinating the City's waterfront improvement efforts, including project management, design, construction, and financial management. The Office of the Waterfront and Civic Projects is charged with administering the overall program and ensuring that it is managed efficiently and delivers on the adopted Capital Improvement Program for the Central Waterfront.

The projects that make up the Central Waterfront program are included in the budgets of three City departments (SDOT, Seattle Parks and Recreation, and Finance and Administrative Services). Although there are multiple funding sources and multiple projects within the waterfront improvement program, the program itself includes the projects listed below:

Seattle Department of Transportation

- Alaskan Way Main Corridor project (MC-TR-C072)
- Overlook Walk and East/West Connections (MC-TR-C073)
- Waterfront Transportation Infrastructure Maintenance (MC-TR-C109)

Seattle Parks and Recreation

- Parks Central Waterfront Piers Rehabilitation (MC-PR-21007)
- Aquarium Expansion (MC-PR-21006)

Department of Finance and Administrative Services

- Pike Place Market PC-1 North Waterfront Entrance project (complete)
- Waterfront Operations and Tribal Interpretive Center (MC-FA-OWMAINT) – (managed by FAS)
- Local Improvement District Administration – (managed by FAS)

In addition, there are funds budgeted in CIP projects for Seattle Public Utilities (SPU) and Seattle City Light (SCL) for utility relocations related to the Central Waterfront program. The Office of the Waterfront and Civic Projects is leading construction activities for these relocations, which in SDOT's budget are combined in a reimbursable project (MO-TR-R043). The Office of Arts and Culture also has funding from the Waterfront program's 1% for Arts contribution.

The Office of the Waterfront and Civic Projects manages two funds that support the administration of the funding related to the projects listed above: the Central Waterfront Improvement Fund, and the Waterfront LID #6751 fund. The Central Waterfront Improvement Fund is a single fund from which multiple departments draw funding resources. The fund tracks the interfund loan and philanthropic funds as well as other revenues. The fund supports certain costs associated with the design and construction of the waterfront improvement program and related costs for City administration, including the Office of the Waterfront and Civic Projects. Appropriations made by the Central Waterfront Improvement Fund are for these purposes. In 2019, the City Council legislated the Waterfront Local Improvement District (LID) Fund which holds LID assessment payments and LID bonds and pays for expenditures related to the Waterfront Local Improvement District (#6751). The pre-payment, and LID bond issuance occurred in 2021. For more information on LID and project status, visit the Waterfront Seattle website.

Budget Overview

In 2025, the City will open to the public all the projects included in the redevelopment Seattle's central waterfront. The projects include the opening of the Overlook Walk connecting Pike Place Market to the waterfront promenade, completing the Alaskan Way Main Corridor project which is a multimodal transportation project that includes pedestrian walkways, bicycle lanes, and roadway, and completion of Waterfront Park at Pier 58.

Changes in the 2025-2026 Proposed Biennial Budget and 2025-2030 Proposed Capital Improvement Program

The 2025-2026 Proposed Budget includes a transfer of \$10,713,000 in bond appropriation authority from 2024 to 2025 in two capital projects to better align with updated expenditure timelines: Alaskan Way Main Corridor (MC-TR-C072) and Overlook Walk/East West Connections (MC-TR-C073).

The 2025-2030 Proposed Capital Improvement Program includes the final bonding authority for the Alaskan Way Main Corridor Project (MC-TR-C072) and Overlook Walk and East-West Connection Project (MC-TR-C073). This amount is sized to ensure the completion of the project, and actual final bond issuances may be smaller as the project progresses based on need and potential addition of more State funding.

Office of Sustainability and Environment

Jessyn Farrell, Director

(206) 615-0817

<http://www.seattle.gov/environment>

Department Overview

The Office of Sustainability & Environment (OSE) develops and implements citywide environmental policies and programs that propel Seattle toward a sustainable, equitable, and climate pollution-free future. OSE collaborates with a wide range of stakeholders to develop policies and programs that advance healthy communities and facilitate a just transition from fossil fuels, while prioritizing people and communities most affected by economic, racial, and environmental injustices. OSE's work focuses on the following areas:

Climate and Environmental Justice: The City of Seattle aims to reduce total core greenhouse gas emissions 58% by 2030 and to become totally carbon neutral by 2050. OSE spearheads policies and programs for achieving these goals, including transitioning buildings to 100% clean energy, advancing zero carbon transportation, and investing in green jobs. In this role, OSE coordinates implementation of the Seattle Green New Deal, the One Seattle Climate Justice Agenda, and the Equity and Environment Initiative.

Healthy & Resilient Communities: OSE works with key stakeholders to support sustainable communities. The office administers the Fresh Bucks and Healthy Food in Schools programs to provide equitable access to healthy, affordable, culturally relevant food. OSE also fosters leadership and interdepartmental coordination within the City of Seattle to help maintain, preserve, and restore Seattle's urban forest.

Citywide Coordination: OSE coordinates interdepartmental efforts to advance a healthy, equitable, and sustainable environment. These efforts include the Duwamish Valley Program, as well as interdepartmental planning around the Green New Deal, urban forestry, and energy efficiency. OSE is responsible for coordinating four prominent Boards and Commissions: the Urban Forestry Commission, the Sweetened Beverage Tax Community Advisory Board, the Environmental Justice Committee, and the Green New Deal Oversight Board.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Office of Sustainability and Environment

Budget Overview

The Mayor's 2025-26 Proposed Budget continues OSE's core missions of advancing citywide climate and environment policy and programs and promoting healthy and resilient communities. This includes continued work coordinating the Seattle Green New Deal, continued work managing Citywide food policy, and extensive work funded by federal and state grants.

The proposed budget prioritizes investments across all program areas, meeting required regulatory functions, and adding external funding for local climate change initiatives as large opportunities become available at the state and federal level. Funding for most programming remains level for 2025 and 2026 with increases to address higher labor and internal services costs. Reductions relative to 2024 are focused on Payroll Expense Tax-funded activities, with the bulk of this change reflecting the expiration of \$4.0 million of one-time Payroll Expense Tax (payroll tax) adds.

General Fund and Sweetened Beverage Tax Programming

The Proposed Budget appropriates \$8.5 million in General Fund to OSE in 2025 and \$8.7 million in 2026. Sweetened Beverage Tax (SBT) appropriations are set at \$6.3 million in 2025 and \$6.4 million in 2026. General Fund appropriations at OSE will continue to support the bulk of OSE's staffing and administration, including core base support for Citywide environment policy and planning. For Sweetened Beverage Tax, over \$5 million annually will continue to support the Fresh Bucks voucher program for fresh fruits and vegetables. Remaining SBT programming includes Healthy Food in Schools – a healthy snack program supporting Seattle Public Schools – and food policy, including coordination of the Sweetened Beverage Tax Community Advisory Board or CAB.

Continued Green New Deal Programming

OSE will continue its role coordinating Citywide actions supporting the Seattle Green New Deal as well as facilitating the Green New Deal Oversight Board, whose recommendations inform budget decisions. The Proposed Budget allocates \$18.25 million in payroll tax-supported funding to the Green New Deal across several city departments. Of this amount, \$12.0 million in 2025 and \$12.2 million in 2026 is appropriated in OSE. Citywide climate initiatives are also supported by over \$35 million in state and federal grants awarded since 2023.

For OSE, this continued payroll tax-Green New Deal (GND) programming in 2025-26 includes:

- \$7.5 million for Clean Buildings and the Building Emissions Performance Standards (BEPS) program, including \$5 million for the Clean Buildings Accelerator, which provides technical assistance and funding to low-income building owners to help comply with revised City and State regulations.
- \$800,000 for Clean Heat Program rebates, which provide \$2,000 rebates to up to 400 households annually for converting homes from oil to electric heating sources.
- \$1,000,000 for Clean Energy Apprenticeships in coordination with Finance and Administrative Services (FAS) and the Office of Economic Development's priority hire initiatives.
- \$500,000 for Duwamish Valley Program Youth Leadership funding, providing awards to neighborhood organizations for job training, volunteer opportunities, and recreational programming.
- \$500,000 for urban forestry, including \$300,000 for greening industrial zones in the Duwamish Area, as well as staffing and policy coordination for tree planting efforts.
- \$1,050,000 for the Environmental Justice Fund.

Green New Deal funding for 2025 and 2026 also includes programming in other City departments. These items comprise:

- \$1,851,688 in 2025 and \$1,500,000 in 2026 for the Municipal Energy Efficiency Program (MEEP). In 2025, \$1,461,688 of this funding is allocated to Finance and Administrative Services (FAS), and \$195,000 each to

Office of Sustainability and Environment

Seattle Center and Seattle Parks and Recreation. OSE manages and coordinates MEEP, which supports energy retrofits in municipally owned buildings, many of them (such as those managed by Center, Parks, and Seattle Public Library) public-facing.

- \$1.8 million for the Office of Housing (OH) to fully fund oil-to-electric home heating conversions for low-income households under the Clean Heat Program and in coordination with OSE.
- \$841,250 in 2025 and \$1.8 million in 2026 in FAS for debt service costs of EV charging stations for facility build-outs.
- \$1.6 million in 2025 and \$1.8 million in 2026 to support the City's commitment to Seattle Transit 3 (ST3). This will fund ST3 staffing and planning efforts around West Seattle and Ballard Link Extensions. Of this, \$1.4 million in 2025 and \$1.6 million in 2026 will be set aside in Finance General. Another \$186,000 in 2025 and \$198,000 in 2026 will continue funding existing ST3 staffing at the Office of Planning and Community Development. These investments are in line with commitments made by the City of Seattle's 2019 Green New Deal Resolution (Res 31895), which committed the City to reducing transportation emissions and making transit widely accessible.

In addition, pilot funding appropriated in the 2023-24 budget for Indigenous Sustainability Projects is in the process of being encumbered by OSE with partner organizations. Once encumbered, these funds will support key climate sustainability investments with Tribes through 2026, addressing commitments made by Mayor Harrell during the 2023 Seattle Tribal Nations Summit.

For more on non-OSE actions, please see Budget Book sections for the departments named above. More information on OSE-specific changes is presented in the following pages.

Description of Incremental Budget Changes

Baseline

Removal of One-Time Items from Department Baseline

Expenditures \$(4,057,398)

This item removes items from the department's baseline budget that were funded as one-time items in the 2024 Adopted Budget. This includes one-time appropriations for Payroll Expense Tax funded investments in the Seattle Green New Deal, Building Emissions Performance Standards, and Urban Forestry, as well as a small General Fund appropriation that supported the Tree Canopy Report completed in 2024.

Office of Sustainability and Environment

Technical Change to BEPS Compliance and Language Access Baseline Budget

Expenditures \$135,000

This change increases Payroll Expense Tax appropriation authority for OSE. This action trues up funding for compliance and language access for the Building Emissions Performance Standards (BEPS) program. The amount restored here was incorrectly flagged as one-time appropriations during the 2023 budget process.

Citywide Adjustments for Standard Cost Changes

Expenditures \$795,576

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$847,344

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Technical Corrections to Assign Account Codes

Expenditures -

This item makes technical corrections in order to align account budgets within OSE.

Accounting Update for IT Costs

Expenditures -

This item makes a net-zero change to update the account code being charged for IT costs at OSE.

Proposed Operating

Cut City Funding, Transition Heavy Duty EV Incentives to Other Entities

Expenditures \$(900,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. Budget reductions were identified to mitigate this shortfall. These actions include reductions to Payroll Expense Tax-funded programming in order to provide resources for core City functions funded by the General Fund.

This item reduces Payroll Expense Tax appropriation authority in OSE by reducing city funding for Heavy Duty Electric Truck incentives. These efforts have comprised a pilot program launched in 2023 which focused on the Duwamish Valley. This pilot aimed to fund point of sale rebates for new electric trucks, buses, or vans. This has been intended to incentivize the deployment of more electric heavy-duty vehicles in the Duwamish Valley (e.g., drayage trucks, school buses, and other fleets) while addressing cost barriers, spurring rapid adoption, and reducing harmful diesel pollution in highly exposed communities.

Office of Sustainability and Environment

This innovative pilot program has led to new engagement and investment from other Port affiliated organizations. It is anticipated that this work will transition to another entity who can scale up the program with state and federal resources. Of the original \$1 million in ongoing allocation for this program, OSE will retain \$100,000 to ensure continued support for Seattle's Transportation Electrification Blueprint, Mayor Harrell's Transportation and Climate Justice Executive Order, and intragovernmental coordination.

Align BEPS IT Budget with Actuals

Expenditures \$(551,871)

This item makes reductions to Payroll Expense Tax-funded programming in OSE to help address the City's forecasted revenue shortfall for 2025 and 2026. This reduction will achieve savings by aligning OSE's budget for BEPS technology solutions with actual projected spending needs.

Reduce OSE Workforce and Small Business Investments in Duwamish Valley

Expenditures \$(400,000)

This item makes reductions to Payroll Expense Tax-funded programming in OSE to help address the City's forecasted revenue shortfall for 2025 and 2026. This action reduces funding currently used to support OSE's workforce development and small business assistance efforts in the Duwamish Valley. OSE's role in place-based support for small businesses in the South Park and Georgetown neighborhoods, including marketing and financial assistance, will shrink, as will OSE's funding for place-based workforce development strategies in the area.

Despite these reductions, small business support will continue to be available from the Office of Economic Development. In addition, OSE will continue clean energy workforce development efforts (including but not exclusive to South Park and Georgetown), such as Clean Energy Apprenticeship funding and workforce development related to Clean Buildings and BEPS work.

OSE will also continue to lead and manage a large portfolio of investments in the Duwamish Valley including:

- \$500,000 annually for Youth Leadership and Programming
- \$300,000 annually for greening and tree planting
- \$2.5 million in continued one-time Duwamish Valley Program spending (awarded by Ord 126675), an effort that includes support community supportive spaces such as the South Park Neighborhood Center and Georgetown Community Spaces

OSE's Duwamish Valley Program work will also continue to include work funded by external grants and continued collaboration with Seattle Public Utilities' on their Duwamish Valley Resiliency program which aims to address flood risk mitigation and other climate change vulnerabilities.

Restore Baseline Environmental Justice Fund Funding

Expenditures \$250,000

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item uses payroll tax funding to restore the Environmental Justice (EJ) Fund baseline to \$1,050,000. This change restores the EJ Fund baseline to \$1,050,000 (including the Duwamish River Opportunity Fund or DROF, proposed for consolidation, below), in line with 2022 funding levels. This will allow the fund to continue supporting a wide variety of climate and environmental justice organizations.

The EJ Fund awards grants to a wide variety of community-led projects that improve environmental conditions and advance environmental justice for communities most impacted by pollution, environmental degradation, and climate change. Since its launch in 2018, the EJ Fund has awarded over \$2.6 million to 43 community-based organizations over five grant cycles. These organizations are led by or are in partnership with communities of color

Office of Sustainability and Environment

impacted by environmental injustice.

Until 2021, the Environmental Justice Fund was funded at \$250,000, using General Fund dollars. Funding was increased to \$800,000 in 2022 based on recommendations by the Equitable Communities Initiative. The 2023 Adopted Budget continued that expansion using payroll tax, with Council further expanding funding (one-time) to \$2 million. The 2024 Adopted cut the program's \$250,000 continuing General Fund budget. With the removal of the one-time Council adds from 2023, the EJ Fund and DROF combined would drop to \$800,000, instead of the \$1,050,000 provided with this budget action.

Add Climate Data Impact Analysis and Reporting Capacity

Expenditures \$100,000

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item adds funding to OSE to increase departmental capacity for climate impact data analysis and reporting, including urban forestry. Funding will help OSE implement new tools to measure Seattle's progress on key climate indicators and inform citywide coordination around policies addressing climate change, energy transition, and urban forestry.

In 2025-2026, this funding will address urban forestry data and reporting priorities. These projects will integrate urban forestry data and information, which is currently dispersed across multiple reports, maps, and interfaces, into a single, publicly available technology resource. This tool will better track Seattle's urban forest over time in response to changing environmental conditions and ongoing management.

Ongoing funding will also support continual climate and urban forestry data surveillance. Funding would also help maintain and enhance other Citywide climate data tools managed by OSE, such as the One Seattle Climate Portal, and will support development of new policies like the updated Seattle Climate Action Plan.

Consolidate Duwamish River Opportunity Fund and Environmental Justice Fund

Expenditures -

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item is a budget neutral change for OSE's payroll tax-GND funding which will consolidate the Duwamish River Opportunity Fund (DROF) and the Environmental Justice (EJ) Fund. Together with a separate item adding \$250,000 to the EJ Fund budget, this will result in a streamlined \$1,050,000 grant program serving OSE's core mission around sustainability and environmental justice

The combined Environmental Justice Fund will continue to invest in community-led projects led by and for communities disproportionately impacted by environmental issues and climate change. This budget neutral efficiency measure will streamline grantmaking led by OSE and continue to allow for investment in place-based, community-led efforts in the Duwamish Valley through the EJ Fund. Consolidation will help reduce application burdens on potential awardees -- many of whom currently apply (and receive funding from) both programs -- and help OSE more efficiently maximize existing staff capacity supporting these award processes.

Although many DROF awards currently support groups active in the climate and environmental justice space, some current awardees may be made ineligible by narrowing award criteria to these areas. OSE and the City will seek to ensure these organizations are given ample time to re-focus their grant applications and direct them towards other potential City or external awards.

Office of Sustainability and Environment

Proposed Technical

Ongoing Changes from Current Year Legislation

Position Allocation 1.00

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

Final Adjustments for Standard Cost Changes

Expenditures \$(63,683)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Revenue Update (April Forecast)

Revenues \$43,877

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Revenue Update (August Forecast)

Revenues \$490,304

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Office of the City Auditor

David G. Jones, City Auditor

(206) 233-3801

<http://www.seattle.gov/audit/>

Department Overview

The Office of City Auditor was established by City Charter and serves as Seattle's independent performance audit function. The City Auditor is appointed by the City Council to a four-year term of office.

The Office of City Auditor seeks to promote honest, efficient management and full accountability throughout City government. It serves the public interest by providing the City Council, the Mayor and City employees with accurate information, unbiased analyses and objective recommendations on how best to use public resources.

The Office of City Auditor conducts audits of City departments, programs, grantees and contracts, as well as some non-audit projects. Most of the office's work is performed in response to specific concerns or requests from City Councilmembers, but the City Auditor also independently initiates work to fulfill the office's mission. If resources are available, the City Auditor responds to requests from the Mayor, City departments and the public.

Through its work, the Office of City Auditor answers the following types of questions:

- Are City of Seattle programs being carried out in compliance with applicable laws and regulations, and is accurate information furnished to the City Council and Mayor on these programs?
- Do opportunities exist to eliminate inefficient use of public funds and waste?
- Are programs achieving desired results?
- Are there better ways to achieve program objectives at lower costs?
- Are there ways to improve the quality of service without increasing costs?
- What emerging or key issues should the City Council and Mayor consider?

Budget Overview

The 2025-2026 Proposed Budget maintains all services for the Office of the City Auditor. This proposed budget increases the department's budget by about 10% from 2024 and includes technical adjustments to reflect changes to internal service costs and annual wage and market wage increases.

Office of the City Auditor

Incremental Budget Changes

Office of the City Auditor

	Dollars	FTE
2024 Adopted Budget	2,329,573	10.00
Baseline		
Bargained Annual Wage and Market Wage Increases to Base Budget	243,270	-
Citywide Adjustments for Standard Cost Changes	5,298	-
Proposed Technical		
Final Adjustments for Standard Cost Changes	(6,801)	-
Total Incremental Changes	\$241,767	-
Total 2025 Proposed Budget	\$2,571,340	10.00

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$243,270

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$5,298

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(6,801)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Department Overview

The City Budget Office (CBO) is responsible for developing and monitoring the City's annual budget, carrying out budget-related functions, overseeing fiscal policy and financial planning activities, policy analysis, and preparing legislation for City Council review. CBO provides strategic analysis relating to the use of revenues, debt, long-term issues, and special events. The office also provides technical assistance, training, and support to City departments in performing financial functions. The Innovation and Performance team is also in CBO, supporting and advancing initiatives by using data, evaluation, and design to solve problems.

Budget Overview

The 2025-2026 Proposed Budget maintains core services for the City Budget Office. The department will continue to invest in programs such as developing and monitoring the City's \$8 billion annual budget, forecasting special revenues and supporting innovative data and analysis across the City departments.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall by increasing the City Budget Office vacancy rate assumption. In addition to technical adjustments to reflect central changes, the proposed budget includes one-time funding for both an emergency management assessment and a payroll tax evaluation in 2025.

Total Incremental Changes	\$923,054	(1.00)
Total 2025 Proposed Budget	\$9,882,164	44.00

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$945,165

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$169,715

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

City Budget Office

Proposed Operating

Conduct Emergency Management Assessment

Expenditures \$30,000

As part of preparing the City for all types of emergencies, the 2025-2026 Proposed Budget includes \$30,000 in one-time funding in the City Budget Office to conduct a review of other emergency management offices. This review will evaluate the Office of Emergency Management's funding, multijurisdictional framework, and organizational structure in comparison to peer cities, specifically those on the West Coast, as well as to nationwide best practices.

Payroll Expense Tax Evaluation

Expenditures \$100,000

The proposed budget allocates \$10 million to support the administration of the Payroll Expense Tax and the evaluation of the programs it funds. Administrative expenses are budgeted in the General Fund and are supported by a transfer from the Payroll Tax Fund to Finance General. In lieu of a Payroll Tax Oversight Committee (Chapter 3.35), the City will hire a consultant to provide an evaluation of: 1) the services and programs supported by the Payroll Expense Tax (Chapter 5.38); 2) the Payroll Expense Tax impacts on the number of jobs and businesses in the City; and 3) other data that directly relates to measuring the impact of the tax on the City's economy. In addition to pulling administrative data to evaluate services and programs, the consultant will engage with existing oversight bodies that monitor programs and services supported by the tax such as the Small Business Advisory Council, KCRHA's Implementation or Governing Boards, Housing Levy Oversight Committee, Equitable Development Initiative Advisory Board, and the Green New Deal Oversight Board.

Transfer Position to ITD for Affordable Seattle Program

Expenditures \$(202,507)

Position Allocation (1.00)

This item transfers 1.0 FTE from the City Budget Office to the Department of Information Technology (ITD) in order to support the Affordable Seattle Program. The item transfers \$202,507 in 2025 and \$213,155 in 2026 from CBO to ITD to support an existing payroll tax-funded position and consolidate the program administration in ITD. Affordable Seattle is a city supported program that makes it easier for residents to sign up for benefits ranging from discounts on their utility payments to two years of free college through the Mayor's Seattle Promise College Tuition Program. The program was launched with federal COVID response funds to support economic revitalization and better connect residents to support services, and the program is now sustained with payroll tax resources.

Vacancy Rate Increase

Expenditures \$(59,247)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing change increases the City Budget Office's vacancy rate assumption by 1%, which reduces its General Fund budget by \$59,247 to fund other General Fund core services. This change may result in the department holding vacancies open longer before refilling positions but will not impact the department's capacity to deliver core services.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(60,073)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Civil Service Commissions

Andrea Scheele, Executive Director

(206) 233-7118

<http://www.seattle.gov/civil-service-commission>

<https://www.seattle.gov/public-safety-civil-service-commission>

Department Overview

The **Civil Service Commissions Department (CIV)** is the department that houses two City Charter-mandated commissions, the Seattle Civil Service Commission (CSC) and the Seattle Public Safety Civil Service Commission (PSCSC). The Seattle Municipal Code and Washington law require the commissions to provide fair and impartial appeal hearings on serious disciplinary decisions and other civil service issues. The CSC conducts appeal hearings of alleged violations of the City's personnel rules, disciplinary actions, and alleged violations of the Personnel Ordinance. The PSCSC directs the civil service system for sworn personnel of the Seattle Police Department (SPD) and uniformed personnel of the Seattle Fire Department (SFD). The PSCSC also conducts appeals related to serious disciplinary decisions, examination and testing, and other civil service issues.

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The City's 2025-2026 Proposed Budget returns the Fire and Police Exams unit from the Seattle Department of Human Resources back to CIV, as had been the historical organization prior to 2002. This action will simplify the City's organizational structure so that CIV will be the sole department developing and administering entry-level and promotional civil service exams. This aligns the roles and responsibilities of CIV and authority of the Public Safety Civil Service Commission. Otherwise, CIV will maintain its core services at its current levels, as required by City Charter, municipal code, and State law.

The 2025-2026 Proposed Budget makes technical adjustments to the CIV budget including an annual wage increase for staff and increased costs for internal central services.

Civil Service Commissions

Total 2025 Proposed Budget	\$2,505,942	9.00

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$89,524

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(22,608)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Civil Service Commissions

Proposed Operating

Transfer Fire & Police Exams Unit from SDHR to CIV

Expenditures	\$1,503,117
Position Allocation	6.00

This item transfers 6 full-time positions and the associated budget in SDHR's Fire and Police Exams Unit including one Manager 2, General Govt, three Personnel Analyst, Sr, and two Personnel Analysts to CIV. This transfer aligns the core duties of the department to develop and administer entry-level and promotional civil service exams with their direct management of the Fire and Police Exams Unit. CIV will have direct management of the staff in the unit and reduce the interdepartmental coordination needed with SDHR by transferring the unit. This change is designed to increase quality and efficiency in the police examination and application process while maintaining accountability.

Space Modifications

Expenditures	\$60,200
--------------	----------

This item appropriates one-time funding of \$60,200 for necessary modifications to CIV's office space to accommodate the addition of 6.0 FTE being transferred from SDHR to CIV.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures	\$(5,825)
--------------	-----------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Office of Economic and Revenue Forecasts

Jan Duras, Interim Director

(206) 390-1567

<http://www.seattle.gov/economic-and-revenue-forecasts>

Department Overview

In July 2021 via Council Bill 120124, the City Council created the Office of Economic and Revenue Forecasts. The office's responsibilities, as stated in the legislation, are to staff the Economic and Revenue Forecast Council, perform economic and revenue forecasts, conduct special studies at the request of the Forecast Council and provide ad hoc analytical support on economic and revenue estimation for legislative and executive staff consistent with the work program. Such analyses are to be nonpartisan and confidential to the extent allowed by law.

The legislation also established the Economic and Revenue Forecast Council which shall receive and review the general forecasts of local economic activity and the specific forecasts of the revenues that support the City's general government programs and services. The forecasts approved by the Forecast Council by the Director of the Office of Economic and Revenue Forecasts are the official city economic and revenue forecasts and shall serve as the basis for the estimates of revenues used for the Proposed and Adopted budgets as described in RCW 35.32A.030 and 35.32A.040, provided that the Mayor or Council shall have the authority to deviate from the official forecasts as provided in Section 3.44.010. The Forecast Council shall be composed of the Mayor or designee, the Director of Finance, the Council President or designee, and the Chair of the City Council Finance Committee or designee. If the Council President and the Chair of the Council Finance Committee are the same individual, the position held by the Chair of the Council Finance Committee shall be determined by the Council President. The Forecast Council shall select one member to serve as Chair of the Forecast Council annually.

Budget Overview

The 2025-2026 Proposed Budget for the Office of Economic and Revenue Forecasts (OERF) fluctuates year-to-year due to the renewal cycle of its forecast data subscriptions and grows with the associated inflationary effects on its services, wages, and central costs. Accordingly, the Proposed Budget decreases 10.3% in 2025 and increases 21.6% in 2026.

Total 2025 Proposed Budget	\$749,118	3.00

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$57,470

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Biennial Reduction in Forecast Data Subscription Renewal

Expenditures \$(125,100)

On a biannual cycle, the Office of Economic and Revenue Forecasts (ERF) maintains data subscriptions for use in forecasting the economy and City revenues. This item reduces appropriations \$125,000 in 2025 as the "off-year" in the renewal cycle. This amount is again included in ERF's 2026 Proposed budget.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(18,106)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of Economic and Revenue Forecasts

Proposed Operating

Final Adjustments for Standard Cost Changes

Expenditures \$(857)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Office of the Employee Ombud

Amarah Khan, Director

(206) 256-5982

<https://www.seattle.gov/ombud>

Department Overview

In 2018 Executive Order 2018-04 created the **Office of Employee Ombud (OEO)** following the recommendations issued by the Anti-Harassment Inter-departmental Team on improving the City's workplace culture. The OEO's mission is to support City employees in all branches of City government in assessing their concerns regarding workplace conduct that may be considered inappropriate; may constitute harassment, discrimination, or retaliation; and/or is in conflict with the City's Personnel Rules, Citywide workplace expectations, and other City policies.

The OEO provides assistance to City employees through a variety of means including conflict management and resolution; clarifying the City's processes and systems for reporting and investigations; facilitating discussions to break down miscommunication; providing the contact for represented employees' unions; and understanding what remedies are available through State or Federal agencies. The OEO also supports employees with referrals to the City's contracted Employees Assistance Program (EAP) for appropriate emotional assistance.

The OEO offers trainings and capacity building to City departments so that practices and behaviors that cause conflict among us can be addressed in a proactive manner. The OEO submits an annual report to the Mayor's Office and City Council that addresses issues extending beyond the experiences of individual employees. The report includes recommendations to clarify the City's Personnel Rules, complaint and investigations systems or trainings, and share information on patterns of inappropriate workplace conduct at the City.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Employee Ombud (OEO). The department will maintain full staffing levels and will continue the current levels of support to the City of Seattle employees, including conflict management.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. OEO will readjust expenditures in their lease space costs, to reflect current expenses for the office space.

Office of the Employee Ombud

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$121,534

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(38,984)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Align Lease Cost

Expenditures \$(41,000)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces appropriation authority by \$41,000 in the Office of Employee Ombud Budget Control Level (BO-EM-V10MB). This item reduces the budgeted amount for lease costs to align with the current expenditures for the office space for the Office of Employee Ombud.

Office of the Employee Ombud

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$38,795

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Employees' Retirement System

Jeff Davis, Executive Director

(206) 386-1293

<http://www.seattle.gov/retirement/>

Department Overview

The Seattle City Employees' Retirement System has two major functions: administration of retirement benefits and management of the assets of the Retirement Fund. Employee and employer contributions, as well as investment earnings, provide funding for the system. Approximately 9,800 active employee members, 3,600 terminated employee members and 7,700 retired employee members participate in the plan.

The provisions of the plan are set forth in [Chapter 4.36](#) of the Seattle Municipal Code. The plan is a "defined benefit plan" which means an employee's salary, years of service, and age at the time of retirement are used to determine the amount of retirement benefits. At retirement, members are given a choice of several payment options to collect their retirement benefit. The Retirement System is led by a seven-member Board of Administration and an Executive Director appointed by the Board.

Beginning in 2025, SCERS will also manage the City's Deferred Compensation Program, previously administered by the Seattle Department of Human Resources.

Please note that the appropriations detailed in the following tables reflect only the costs to administer the two benefit systems and do not reflect payment of benefits or investment management fees.

Budget Overview

The Seattle City Employees' Retirement System (SCERS) relies on the long-term health of its assets to sustain its long-term financial obligations to SCERS members. The long-term health of SCERS is measured by the annual January 1 funding status, a percentage that represents the value of the asset portfolio over the reserves needed to pay retirement benefits to employees.

Employees' Retirement System

As of January 1, 2024, SCERS net assets are valued at \$4.0 billion with a 75.8% funded status. This is an increase from 75.7% in 2023. SCERS funding status has generally increased steadily since 2010 due to changes SCERS has made to positively impact the funding status over the long-term.

Annual Contributions: The plan's actuaries determine an "annual required contribution" (ARC) into SCERS so its assets grow in tandem with pension costs, which rise as new employees join SCERS, wages increase, and retirees live longer. In 2023 SCERS and the City enhanced the plan by revising its ARC calculation so SCERS will be fully funded after a fixed 30-year period beginning January 1, 2013 and ending January 1, 2043. The annual required contribution is composed of two parts: employee contributions, which are established by the City's labor agreements, and employer contributions. Employer contribution amounts are reflected in departmental budgets throughout the 2025 Proposed Budget.

Investment Return Assumption: In January 2014, SCERS decreased its long-term investment return assumption from 7.75% to 7.50% in anticipation of slower asset growth over the next 30 years. In January 2020, SCERS decreased this assumption to 7.25% and in January 2023, SCERS decreased the assumption further to 6.75%. This assumption raised the ARC so the plan relies more on employee and employer contributions that are based on salaries, which are less volatile than the investment returns affected by portfolio experience and the economy.

Asset Smoothing: SCERS implemented an asset smoothing policy in 2011 to protect the funded status from volatile year-to-year swings by recognizing annual investment return gains and losses evenly over five years. This policy results in gradual changes in the ARC so the City's contribution is more stable.

Pension Plan for New Employees Hired On or After January 1, 2017: The City began evaluating plan changes in 2012 to reduce the cost of the plan for employees and the City, thereby enhancing SCERS' fiscal stability over the long run, while still maintaining an adequate retirement benefit for employees. In 2016, the City and labor unions agreed, and Council approved, a new defined benefit plan (SCERS II) for new employees hired on or after January 1, 2017. SCERS II has a similar structure to the existing plan (SCERS I).

Under SCERS II, there is an estimated 3.8% combined savings for annual employer and employee contributions. Members of the new plan will contribute 7% of their salary toward their retirement benefit, compared to 10.03% under SCERS I. Given the lower contributions into the plan, the new SCERS II plan will provide a retirement benefit lower than the SCERS I plan, but consistent with the design of the current SCERS I plan. The SCERS II benefit will still provide City retirees with an adequate retirement income when combined with Social Security.

The 2025 Proposed Budget for the management of SCERS includes total appropriation increases of \$5,190,147. This increase consists of adjustments to bring the budget in line with the SCERS Board's approved 2025-2026 budget; a transfer of the management of the City's deferred compensation program from the Seattle Department of Human Resources (SDHR); and annual adjustments for internal City service costs and wage increases. The Board approved budget also addresses the need to upgrade SCERS's Pension Administration System.

Employees' Retirement System

Total Incremental Changes	\$5,328,412	3.00
Total 2025 Proposed Budget	\$15,984,716	33.50

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$852,900

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$364,734

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Employees' Retirement System

Proposed Operating

Decrease SCERS Administrative Baseline Budget to SCERS Board Approved Budget

Expenditures	\$(514,463)
Revenues	\$4,587,147

This item brings the 2025 Baseline budget into agreement with the 2025 budget approved by the SCERS Board.

SCERS Pension Administration System Upgrade

Expenditures	\$4,000,000
--------------	-------------

This item increases appropriation by \$4,000,000 to support an upgrade to SCERS's Pension Administration System. The current system version is no longer supported and the vendor will no longer offer hosting services. This is a project placeholder as SCERS completes its options analysis. There is not a "do nothing" option, leaving SCERS to either upgrade to the vendor's cloud based system or take over hosting services. Both options will be a 12 to 24 month implementation project. SCERS's Board of Administration approved a \$8.0 million project placeholder, spread evenly over 2025 and 2026.

2025 Deferred Compensation Baseline Budget

Expenditures	\$698,016
Revenues	\$698,016
Position Allocation	3.00

This item transfers the City's Deferred Compensation (DC) Program from SDHR to SCERS. SCERS and SDHR agree that there is a strong business case for this change. Aligning SCERS and the DC program creates opportunities for future business efficiencies, including in member communications, knowledge, and retirement processes. SCERS and the DC program are similar City benefits that focus on financial security for city employees, and both are important components of employees' overall retirement planning process.

Proposed Technical

Fund Balancing Adjustment

Revenues	\$43,249
----------	----------

This is a technical item to record a fund balancing entry for the Employees' Retirement Fund.

SCERS GASB 87 Net-Zero Change

Expenditures	-
--------------	---

GASB 87 was implemented in 2022 by the City of Seattle and changed the expense account coding of SCERS's office space rental expense from account 542010 to account 560100. This item corrects the account number for this expense with a net-zero effect on total budget.

Final Adjustments for Standard Cost Changes

Expenditures	\$(72,775)
--------------	------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Ethics and Elections Commission

Wayne Barnett, Executive Director

(206) 684-8500

<http://www.seattle.gov/ethics/>

Department Overview

The Seattle Ethics and Elections Commission (SEEC) helps foster public confidence in the integrity of Seattle city government by providing education, training, and enforcement of the City's Ethics Code, Whistleblower Code, and lobbying regulations. It also promotes informed elections through education, training, and enforcement of the City's Elections Code. With the passage of [Initiative 122](#) in November 2015, the Commission now administers and funds the Democracy Voucher Program.

The Commission's work on behalf of the City of Seattle centers around five main lines of business:

Ethics Code: The Commission conducts ethics training for all City of Seattle employees upon request and through the City's New Employee and New Supervisor Orientation programs. It also provides ethics training information for City employees via the City's intranet site. The Commission issues advisory opinions regarding interpretations of the Code of Ethics and also investigates and rules upon alleged violations of the Code. More than thirty years of formal advisory opinions are available on the Commission's website.

Whistleblower Code: The Commission helps to protect an employee's right to report improper governmental action and to be free from retaliation as a result of such reporting. The Commission either investigates allegations of improper governmental actions itself or refers allegations to the appropriate agency.

Elections Code: The Commission fulfills the public's mandate of full campaign disclosure by:

- training organizations required to report campaign contributions and expenditures in proper reporting procedures;
- auditing campaign reports;
- working with organizations to correct errors; and
- making all campaign finance information available to the public.

Since 1993, the Commission has made summary reports of campaign financing information available to the public, and since 1995, the Commission has published campaign financing information on its website. The Commission also produces a video voters' guide with King County and the Seattle Channel.

Lobbying Regulations: The Commission is charged with administering the City's lobbying regulations. The Commission collects and posts information so that residents know who is lobbying and how much is being spent on lobbying activities. The Commission also enforces compliance with the lobbying regulations.

Democracy Voucher Program: The Commission administers the Democracy Voucher Program which was approved with the passage of I-122 in November 2015. The program provides \$100 in vouchers to eligible Seattle residents so that they can contribute to candidates for City office who qualify to participate in the program.

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$201,819

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(29,877)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Ethics and Elections Commission

Democracy Voucher Revenue Adjustment

Revenues -

The Democracy Voucher Program began receiving funding in 2016 and the ten-year initiative was funded through 2025. This technical adjustment removes funding for 2026.

Proposed Operating

Final Adjustments for Standard Cost Changes

Expenditures \$(15,478)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Proposed Technical

Align Labor Budget with Actuals

Expenditures \$70,000

This item annualizes the 2024 Supplemental Budget provision of \$70,000 for Ethics and Elections Commission labor costs. This adjustment addresses shortfalls that were previously absorbed with vacancy savings and therefore never incorporated into the base budget, leading to year-end budget exceptions in both 2022 and 2023. This item aligns the budget with actual labor costs which have increased over the past several years due to reclassifications, raises, and higher-than-anticipated part-time labor costs.

Bi-Annual Election Year Technical Adjustment

Expenditures \$7,200,000

This bi-annual increase funds the Democracy Voucher Program for the 2025 election cycle. It provides a total of \$7.2 million in additional funding for candidate voucher payments. In 2025, the citywide races for Mayor, City Attorney and two Council positions will be on the ballot. This is one-time funding for 2025 only and is funded by existing and planned levy revenues.

Technical Adjustment to Annual Contribution to/Use of Fund Balance

Revenues \$7,260,042

This is a technical item to balance revenues and expenditures for the funds managed by this department.

Department Overview

Department of Finance and Administrative Services (FAS) Overview

The Department of Finance and Administrative Services (FAS) is often the public's first interaction with the City of Seattle, operating as a customer-focused front door that assists with everything from starting a business or paying utilities, to reporting a pothole, requesting public information, or even adopting a new pet. The department's 500-plus employees span across 10 divisions and work behind-the-scenes providing critical functions, like managing 120 City facilities including police and fire stations, overseeing the City's neighborhood customer service centers and Customer Service Bureau and making sure minority-owned businesses can equitably compete for City contracts

Broadly, FAS' work can be split into three categories.

Customer Services

FAS oversees the City's Customer Service Bureau, the Downtown Customer Service Center and the six neighborhood customer service centers located throughout the city. Over the phone, online and in person, customers can get information, request services, pay bills, resolve problems, and voice opinions. The department also oversees the Find It, Fix It app, which operates similar to a 311 line for the City. In addition, FAS oversees the City's efforts to comply with Title II of the Americans with Disabilities Act. Finally, through the Seattle Animal Shelter, FAS advocates for animal welfare, reunites lost animals with their owners and finds suitable owners to adopt homeless animals.

Regulatory Services

FAS ensures that all businesses operating in Seattle are properly licensed and pay the required business and occupation taxes. FAS issues regulatory licenses for certain business types including taxis, transportation network companies and for-hire vehicles, adult entertainment venues, door-to-door salespeople, short-term rentals, recreational cannabis establishments and trade shows—and enforces requirements related to those licenses. FAS also monitors certain types of businesses to increase consumer safety and ensure proper charges for services. This includes setting rate caps for tows on private property, as well as ensuring that consumers are not overcharged due to an inaccurate device, such as a gas pump or a supermarket scanner or scale. FAS also enforces animal-related ordinances, including the investigation of animal cruelty, neglect, and abuse. As the central coordinator for City purchasing and contracting, FAS establishes policies and procedures to ensure fair competition for City-funded procurements and oversees programs to ensure everyone in the community has equitable access to compete for contracts and work on City-funded projects. These efforts include the Citywide women- and minority-owned business (WMBE) program, which works to support equitable access to city contracting opportunities for women- and BIPOC-owned businesses. FAS also administers the City's Priority Hire program to increase employment within the construction trades among women, people of color and those living in economically distressed ZIP codes.

Operational Services

FAS designs, builds and maintains many City-owned buildings, including Seattle City Hall, the Seattle Municipal Tower, the Justice Center, the Joint Training Facility, 33 neighborhood fire stations and five police stations. When departments need to acquire property or when the City no longer has a purpose for a property, FAS is responsible for managing the acquisition or disposition of the property. FAS also maintains the City's 4,000-vehicle fleet, which includes police patrol cars, fire engines and heavy equipment. FAS's budget is split into the following 10 divisions:

Public Facing Divisions

- **Consumer Protection** regulates 21 specific business types including short-term rentals, adult

Department of Finance and Administrative Services

entertainment, cannabis businesses, taxis, for-hire or TNC vehicles and others to protect consumers.

- **Customer Service** leads the City's 311 phone service and serves constituents through its Customer Service Bureau and neighborhood customer service centers.
- **Purchasing and Contracting** manages bids, public works and contracting needs. The division also supports the City's race and social justice initiative by expanding contracting equity for women- and minority-owned businesses and supporting labor equity on City construction projects.
- **Seattle Animal Shelter** promotes safety and animal welfare by enforcing animal laws, operating sheltering and adoption programs, managing a spay and neuter clinic and providing care and services for over 5,000 animals annually.

Internal Facing Divisions

- **Accounting and Budget Services** provides everything from budget oversight to financial planning for FAS, other small departments, and City executive offices to create transparent, understandable financial reports.
- **Capital Development** plans, designs, and builds City structures, facilities and workspaces in a manner that is fiscally responsible, environmentally sustainable and responsibly compliant with equal access for all.
- **Facility Operations** manages and maintains more than 120 public structures, including offices, parking garages, maintenance shops and police and fire stations.
- **Fleet Management** leads the procurement, maintenance and fueling for the City's 4,000-plus vehicle fleet, providing safe, cost-effective services and environmentally sustainable transportation for City employees.
- **Human Resources** partners with FAS' diverse group of divisions to support recruitment, hiring, compensation and classification, and performance management in a way that is equitable and fosters a respectful, collaborative, and safe work environment.
- **Real Estate and Planning Services** manages citywide real estate portfolio development. The team acquires, disposes of and leases real property for public purposes. The team also collaborates with City departments on real estate transactions and coordinates department emergency planning.

Across divisions, the **Directors Office** provides leadership and coordination and oversees policy and equity, the Americans with Disabilities Title II program and the public disclosure program.

Internal service operations in FAS are primarily supported through charges to other City departments and, in some cases such as when the city leases space, by private businesses or individuals. FAS also collects certain fees specifically to pay for its services, such as the Seattle Animal Shelter Spay and Neuter Clinic, pet licensing, the Weights and Measures program and for-hire driver licenses.

The Office of City Finance (OCF) Overview

The Office of City Finance (OCF) is an autonomous independent office within FAS. OCF is responsible for the financial operations of the City of Seattle. Working in partnership with the City's Budget Director, OCF oversees the City's financial control functions and enterprise reporting responsibilities. City Finance, which includes approximately 160 employees, manages enterprise-wide transaction programs and is comprised of the following divisions: Citywide Accounting and Payroll Services, Treasury Services, Risk Management and Claims Processing, License and Tax Administration, Business Systems, Debt Management and Policy and Partnerships. OCF also supports the City Council and its staff by providing financial information and technical expertise as they develop financial policies. The City Finance Director, a member of the Mayor's Cabinet, serves on the board of the City's retirement systems and is a voting member of the City's Economic and Revenue Forecast Council. Most of the work of OCF is funded by the FAS Operating Fund. The General Fund supports administration of the City's taxes and business licensing services.

The Office of City Finance divisions are as follows:

- **License and Tax Administration** manages the city's taxes, including Business & Occupation (B&O) and the Payroll Expense Tax, the city business licensing process and collects more than \$500 million in annual fees and taxes from 100,000 commercial enterprises doing business in the city.
- **Treasury Services** receives, processes, reconciles, and distributes the City's funds. Treasury also collects debts and monitors cash flow to ensure City operations, like utilities and payroll, are funded. They are the

Department of Finance and Administrative Services

legal stewards of the City's cash assets.

- **Business Systems** manages Citywide business processes and software to support financial activities across the organization, including PeopleSoft and Workday, as well as across multiple jurisdictions in Western Washington.
- **Citywide Accounting and Payroll** prepares the City's Annual Comprehensive Financial Report and other reports required by the State and Federal government to facilitate transparency in the City's 420,000 plus annual transactions. The division also implements standard accounting practices and manages all payroll.
- **Risk Management** reviews City contracts to specify appropriate insurance levels, advises City departments on how to reduce or avoid loss, adjusts claims for damages filed and administers all City insurance policies and the City's self-insurance program.

Organizational Structure

In addition to the central FAS services mentioned above there are several budgetary units across the City for which FAS is not directly responsible for staffing or service provision but are housed within the FAS budget. For these areas FAS works with the City Budget Office to facilitate resource requests and financial plans when required. Those units are:

- **Judgment and Claims**, which provides for the payment of legal claims and suits brought against the City government and is now part of the Office of City Finance.
- **Jail Services**, which provides for the booking, housing, transporting, and guarding of City inmates who are adults charged with or convicted of misdemeanor crimes alleged to have been committed within city limits.
- **Indigent Defense Services**, which secures legal defense services, as required by state law, for indigent people facing criminal charges in Seattle Municipal Court.
- **Transit Benefits**, which pays for the transit benefits offered to City employees and is part of the Office of City Finance

Department of Finance and Administrative Services

Budget Overview

As an internal services department, the Department of Finance and Administrative Services (FAS) supports all City departments through its fleets, facilities, customer service, finance, contracting and purchasing functions. FAS bills many of its functions to other City departments through central rates and allocations. FAS also performs general government functions, like business licensing and tax collection, consumer protection, parking meter collections, and operation of the Seattle Animal Shelter, which are funded directly in the General Fund. The Office of City Finance (OCF) is included in the FAS budget but acts as an independent office within FAS and reports up a separate chain of management.

The City's 2025-2026 Proposed Budget maintains core services for the Department of Finance and Administrative Services. The department will continue to invest in its core divisions including Fleet Maintenance and Capital Replacement, Facilities Operations and Maintenance, Purchasing and Contracting, Customer Service, Accounting and Budget Services, Consumer Protection Regulatory Programs, and the Seattle Animal Shelter. The proposed budget also adds two new positions and temporary program support for the licensing and enforcement of the Network Company labor standards for app-based workers (Ordinance 126953).

In capital investments, FAS's Proposed 2025-30 Capital Improvement Program (CIP) includes new funding for critical asset preservation projects within the City's downtown core and projects at facilities across the city. Funding will support capital needs at the Seattle Municipal Tower, City Hall Plaza, Seattle Animal Shelter, and various facilities supporting emergency response citywide. The proposed CIP also adds funding to the Waterfront Operations and Tribal Interpretive Center project at the Bakun Building, which was purchased in 2023 to be the waterfront operations office and provide a cultural space for the Muckleshoot Indian Tribe. For more information, see the Department of Finance and Administrative Services 2025-30 Proposed Capital Improvement Program (CIP).

The Office of City Finance will continue investments in License and Tax Administration, Risk Management, Treasury Services, and provide centralized Accounting and Payroll services. The investment of five additional positions and funding in OCF's Business Systems Division will support the City's transition to Workday, the new human resources management system and provide permanent system and user support post implementation.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified in some departments to mitigate this shortfall in revenues. To help alleviate pressure on the General Fund, the budget also makes reductions in department specific operating funds. To preserve critical City services due to the deficit, General Fund and FAS operating fund adjustments were made in the following areas of FAS's 2025-26 Proposed Budget:

Department of Finance and Administrative Services

The proposed budget includes operations reductions across several FAS divisions to align with available resources. These reductions include changes to Accounting and Budget Services, Facility Operations, Real Estate and Planning Services, Fleet Maintenance and Capital Replacement, and Purchasing and Contracting. Some labor reductions were taken by removing vacant positions to reflect current staffing levels and reclassing positions to reflect evolving business needs. Other labor reductions were made possible by redistributing workload and may reduce capacity for centralized services and support to other city departments. The budget includes reducing 5 positions in FAS.

FAS also made non-labor budget adjustments including reducing funding for professional services contracts, community organization contracts, staff training, paper and other supplies. The proposed budget includes a temporary pause on investments made into the City's electric vehicle capital replacement program and the sale of underutilized fleet equipment. Revenue adjustments in the proposed budget adjust fees at city-owned parking facilities and various fees at the Seattle Animal Shelter to support program cost recovery.

Office of City Finance:

The proposed budget includes operational reductions across several OCF divisions to align with available resources. Some labor reductions were taken by removing vacant positions to reflect current staffing levels. Other labor

Department of Finance and Administrative Services

reductions were made possible by redistributing workload and reevaluating business processes to create efficiencies. OCF also made budget adjustments based on efficiencies achieved in its non-labor expenses that will have minimal impact on operations including reducing systems licensing costs and refining contract commitments based on current needs. The budget includes reducing 22 positions in OCF.

Other Budgetary Issues

Addressing Extraordinary Civil Litigation Expenses

Costs to the City associated with civil claims and litigation have risen in response to a nationwide trend of increasingly expensive settlements and judgments. At the same time, a handful of extraordinary claims and lawsuits involving the City is expected to lead to high one-time expenses in 2025 and 2026. The 2025 Proposed Budget reflects the need to meet these higher expenses.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$(222,075)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Correcting baseline appropriations to Judgment and Claims

Expenditures \$(7,906,796)

Revenues \$(7,906,796)

This item corrects the baseline budget for Judgment and Claims by removing one-time appropriations of \$7,906,796.

2025 Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$3,403,748

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments revised, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2026 Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures -

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments revised, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Fleet Replacement Adjustments

Expenditures \$(6,971,618)

This item decreases appropriation authority in the Fleet Capital Fund to reflect the anticipated lower volume of vehicle replacements.

Department of Finance and Administrative Services

Reversal of One-Time Items

Expenditures	\$ (3,835,680)
Revenues	\$ (11,502,039)

This technical adjustment impacts various categories, accounts and programs across the Department of Finance & Administrative Services. This item reverses one-time 2024 appropriations from the 2025 Endorsed Budget for Accela system modifications needed due to regulatory program changes, Wheelchair Accessible Fund expenses for the new dispatch system, Social Housing PDA start-up costs, and other one-time expenditures.

Central Costs Alignment

Expenditures	\$1,077,006
--------------	-------------

This item makes adjustments to reflect increases in centrally allocated costs including workers compensation claims, healthcare premiums, and ITD and SDHR allocations.

Increased Utility Rates

Expenditures	\$225,490
--------------	-----------

This item increases appropriation to reflect increased utility costs across the Department of Finance & Administrative Services.

Baseline Revenue

Revenues	\$7,103,375
----------	-------------

This item reflects adjustments to the Department of Finance & Administrative Services (FAS)'s rate revenue and external revenues resulting from FAS' baseline cost adjustments.

Proposed Operating

Pause Premiums for Electric Vehicle Replacement

Revenues	\$ (2,090,433)
----------	----------------

This item decreases rate revenue by \$2.1 million in FAS's Fleet Capital Program. This item temporarily reduces rates paid by other city departments by removing the premium added to vehicle replacement rates that allows fossil fuel powered vehicles to be replaced with electric equivalents. FAS will continue to purchase electric vehicles according to the fleet replacement schedule using the Fleet Capital Fund balance already collected. FAS will resume collecting premiums in 2027 with an additional increase to over four years to account for the pause.

Consumer Protection Division Adjustments

Expenditures	\$ (221,473)
Position Allocation	(1.00)

This item removes the Deputy Division Director position from the Consumer Protection Division (CPD) and decreases the budget accordingly. This position has been unfilled since March of 2023 and CPD has adjusted its organizational structure to accommodate staffing needs.

Department of Finance and Administrative Services

Network Company Licensing Implementation

Expenditures	\$488,554
Position Allocation	2.00

This item creates two full-time positions and increases appropriation authority by \$488,553 in 2025 and \$304,397 in 2026 in the Consumer Protection Division. The positions include a new 1.0 FTE Licensing and Standards Inspector (LSI) position and a new 1.0 FTE Customer Service Representative (CSR) to execute additional licensing, customer service and enforcement resources required to implement the Network Company ordinance and meet the legislative and policy intent outlined in Ordinance 126953 (2023).

These positions will be funded by network company licensing fees in future years as part of the cost of maintaining the service. This request also includes continuation of the temporary consultant support for half of 2025 to assist with data mapping and bridging the gap between the IT developer and program needs.

Real Estate and Planning Services Reductions

Expenditures	\$(185,742)
--------------	-------------

This item decreases appropriation in the Department of Finance and Administrative Services Real Estate and Planning Services (REPS) Division to align budget with current staffing costs. This item also includes a reduction to the professional services budget.

Central Costs Inflation

Expenditures	\$744,430
--------------	-----------

This item increases appropriation in the Department of Finance & Administrative Services to reflect anticipated inflation of central services costs.

Purchasing and Contracting Division Adjustments

Expenditures	\$(122,333)
Revenues	\$300,000
Position Allocation	(1.00)

This item reduces staffing by one full-time administrative support position and decreases budget accordingly. This item aligns staffing levels with available resources and redistribute this body of work among remaining staff. In addition to the position change, this item recognizes \$300,000 in revenues from increased rebate revenues.

Realign Resources in Public Works Contracting

Expenditures	\$(167,311)
Position Allocation	(1.00)

This item reduces staffing by one full-time Assistant Capital Projects Coordinator position in the City Public Works contracting program and reduces the corresponding budget. This proposal would align staffing levels with available resources and redistribute this body of work among remaining staff.

Priority Hire Program Adjustments

Expenditures	\$(495,000)
--------------	-------------

Department of Finance and Administrative Services

This item aligns funding across several Priority Hire programs with available resources. The adjustments include reducing contract support for the Labor Equity Program by 34% and the Construction Training and Clean Energy Jobs program by 24%. This reduction impacts community organizations supporting underrepresented groups in construction that provide job training and placement services.

Systems Development Support and Various Non-Labor Adjustments

Expenditures \$(506,555)

This item aligns budget with available resources across FAS divisions and impacts staff training, supplies, certification, compliance, hardware, software and consultant dollars for periodic audits.

Adjustments in Various Centralized Operations

Expenditures \$(71,000)

Revenues \$600,000

This item decreases the budget for citywide paper costs and anticipates one-time revenues of \$600,000 from the sale of underutilized fleet equipment. This proposal limits the amount of paper FAS purchases and distributes to City departments to encourage use of digital platforms, reduce paper waste, and reduce costs related to storage and transport. This proposal includes selling two pieces of large fleet equipment no longer meeting operational needs.

Support Services Adjustments

Expenditures \$(439,717)

This item aligns budget with available resources across FAS support services and discontinues funding for one position and reduces support for FAS policy efforts, the ADA program and the Public Disclosure Request (PDR) program. There is minimal impact expected from this proposal as the body of work has been absorbed by other staff and the remaining support funding is adequate for meeting program needs.

Capital Development Operational Adjustments

Expenditures \$(117,819)

Position Allocation (1.00)

This item reduces Capital Development staffing by one full-time administrative support position, reclassifies one executive position to a Painter Crew Chief, and decreases budget to align with these changes. This item aligns staffing with operational needs and available resources across multiple divisions.

Operations Strategic Support Adjustments

Expenditures \$(216,143)

Position Allocation (1.00)

This item reduces staffing by one full-time position providing operations strategic support across multiple divisions in the Department of Finance and Administrative Services (FAS) and decreases the budget to align with this change. The position has been vacant since December 2023 and the workload has been redistributed amongst existing staff.

City Light Rebates for the Municipal Energy Efficiency Project

Expenditures \$413,973

This item increases General Fund appropriation to FAS for the Municipal Energy Efficiency Program (MEEP). These appropriations are backed by Seattle City Light rebates claimed by projects funded through MEEP. City Light rebates are deposited in the General Fund with the intention that these resources be used to support additional energy

Department of Finance and Administrative Services

retrofits in City facilities.

Treasury Services Staffing Alignment

Expenditures	\$(378,573)
Position Allocation	(2.00)

This item reduces staffing by two full-time positions in Treasury Services and decreases budget accordingly in alignment with available resources. The positions are vacant, and the body of work has been redistributed amongst remaining staff.

Remittance Processing Process Update

Expenditures	\$(479,943)
Position Allocation	(5.00)

This item eliminates manual remittance processing of incoming checks and payments to the city, reduces staffing by five full-time positions, and reduces budget accordingly in Treasury Services. Remittance processing will be contracted out to a financial services provider at a lower cost and greater efficiency.

Treasury Cashier Staffing Adjustments

Expenditures	\$(436,696)
Position Allocation	(3.00)

This item reduces staffing by three full-time Treasury Cashier positions and decreases the budget accordingly. Treasury Services conducted efficiency work in 2023 to streamline work processes, allowing the staffing adjustments.

Business Systems Staffing Alignment

Expenditures	\$(205,436)
Revenues	\$(179,549)
Position Allocation	(1.00)

This item reduces staffing by one full-time position in the Department of Finance and Administrative Services Business Systems Division supporting FileLocal. This position is vacant and it has been determined that this level of service is no longer required for the body of work.

Citywide Accounting and Payroll Staffing Alignment

Expenditures	\$(429,038)
Position Allocation	(3.00)

This item reduces staffing by three full-time positions in Citywide Accounting and Payroll and decreases budget accordingly in alignment with available resources. The positions are vacant, and the body of work has been redistributed amongst remaining staff.

Remove Sunsetting Coronavirus Local Relief Fund (CLFR) Support Position

Position Allocation	(1.00)
---------------------	--------

This item removes one full-time position in the Department of Finance and Administrative Services Citywide

Department of Finance and Administrative Services

Accounting supporting Coronavirus Local Relief Fund (CLFR) reporting. This is a CLFR-funded position scheduled to sunset 12/31/2024, so there is no budgetary impact.

License & Tax Administration Staffing Alignment

Expenditures	\$(360,432)
Position Allocation	(3.00)

This item reduces staffing by three full-time positions in the Department of Finance and Administrative Services License and Tax Administration Division and decreases the budget accordingly in alignment with available resources. The positions are vacant, and the body of work has been redistributed amongst remaining staff.

License & Tax Administration Staffing Adjustment

Expenditures	\$(177,424)
Position Allocation	(1.00)

This item reduces staffing by one full-time position in the Department of Finance and Administrative Services License & Tax Administration Division and decreases budget accordingly. The Education and Communications Advisor role was originally formed several years ago when the City implemented new taxes, including the Payroll Expense Tax. The peak workload from the implementation of these taxes is now completed and this level of service is no longer needed. Any remaining workload can be absorbed by existing staff.

Licensing Costs Reduction

Expenditures	\$(7,300)
--------------	-----------

This item decreases the budget for the claims management system licensing costs in alignment with reduced staffing in claims processing and limits on licenses to other departments.

Risk Management Staffing Adjustments

Expenditures	\$(404,957)
Position Allocation	(2.50)

This item reduces staffing by two full-time positions and one part-time position in the Department of Finance and Administrative Services Risk Management Division and decreases the budget accordingly in alignment with available resources. Risk Management currently has a staff of nine and the body of work will be redistributed amongst remaining staff.

Staffing for Ongoing Workday System Support

Expenditures	-
Position Allocation	5.00

This item makes five emergency positions approved in 2024 become permanent starting 2025 and increases appropriation authority by \$1,572,000 in 2026 in the Department of Finance and Administrative Services Business Systems Division. In 2025, the position costs will be covered by the CIP project. This item provides ongoing operations and maintenance support post-implementation for the City's new human resources management system, Workday.

Automatic Data Processing (ADP) Contract Costs Reduction

Expenditures	\$(300,000)
--------------	-------------

Department of Finance and Administrative Services

This item decreases appropriation authority by \$300,000 in 2025 and 2026 in the Department of Finance and Administrative Services to align to the reduced ADP contract commitment as certain functions are transitioned to the new human resources management system.

Tax System Improvements Budget Adjustment

Expenditures \$(200,000)

This item decreases appropriation authority by \$200,000 in 2025 in the Department of Finance and Administrative Services. This item is a one-time reduction of the non-labor budget intended for migrating tax data from a legacy system to a new system. This reduction will be offset by available CIP funding and there are no anticipated operational impacts.

Business Improvement Areas (BIA) Technology Support

Expenditures \$500,000

This one-time item adds \$500,000 in both 2025 and 2026 to support technology costs to transition BIA assessments from a legacy software system to the department's modern system. Additionally, this item supports BIA technology adjustments to better fit the needs of BIA customers.

Transit Benefit Fund Adjustments

Expenditures \$192,273

Revenues \$192,273

This item increases appropriation authority in the Finance & Administrative Services Department's Transit Benefit Fund to reflect new employee transit use trends given the city's hybrid work policy. It also defines funding needed to continue the Vanpool and Washington State Ferry 100% subsidy and allocates funding for transit pass administration integration necessitated by the citywide Workday transition.

Jail Services Contract Increase

Expenditures \$1,922,379

The City has a long-term inter-local agreement (ILA) with King County to provide jail services for the City's misdemeanants through 2030. The ILA provides that a new base rate is calculated every five years and given booking restrictions related to COVID-19, the reset for 2022 was delayed. During negotiations with King County, the reset parameters and lifting of booking restrictions with a bed floor average daily population (ADP) from 195 down to 135 was agreed upon for 2025 and 2026. An increase of \$1.9 million in 2025 and \$2.7 million in 2026 provide for this reset and the annual inflators to cover the City's contract obligation.

Public Defense Contract Increase

Expenditures \$504,107

The City has an inter-local agreement (ILA) with King County to provide for indigent defense services for the City's misdemeanants. The current ILA is through 2027 with an extension provision allowing for mutual agreement of an additional five years (through 2032). This item increases appropriation public defense services due to anticipated inflation as per the ILA.

SCORE Inter-local Agreement for Jail Services

Expenditures \$2,839,550

In 2024, the City Council approved the Executive to execute an inter-local agreement (ILA) with South Correctional

Department of Finance and Administrative Services

Entity (SCORE) for the provision of jail services. A pilot program is expected to begin in 2025 once clear policies and procedures are developed. Generally, SCORE will be used for misdemeanants arrested for offenses that fall outside of the current King County jail booking restrictions and are medically cleared. This appropriation amount assumes the use of 20 beds for an average daily population for 2025 and 2026.

Increasing appropriation to Judgment and Claims

Expenditures	\$4,288,410
Revenues	\$4,288,410

This item increases appropriation to Judgment and Claims by \$4,288,410 in 2025 and \$8,119,835 in 2026 to reflect expectations of the long run cost trend.

One-time appropriation to Judgment and Claims to cover excess risks

Expenditures	\$14,100,000
Revenues	\$14,100,000

Per Resolution 31847, budget appropriation for the Judgment and Claims Fund must be set at the 90% confidence level of meeting actual expenditures as estimated by the City's actuaries every year. This item adds a one-time appropriation of \$14,100,000 to Judgment and Claims to achieve the 90% confidence level for 2025. Recent actuarial estimates have been driven to a new high by the extraordinary and growing expenses the fund has incurred since 2021 but are expected to moderate in the next few years.

Animal Shelter Fee Adjustments

Revenues	\$150,000
----------	-----------

This item anticipates increased revenues of approximately \$150,000 by raising licensing and veterinary fees to help recover costs for Seattle Animal Shelter (SAS) services. SAS last increased license fees in 2019 and veterinary fees in 2018. These increases make the fees comparable to other local options for the services. SAS retains the ability to waive fees for community members in need.

Increase Parking Revenues

Revenues	\$600,000
----------	-----------

This item anticipates increased revenues of \$600,000 by raising parking rates at the Seattle Municipal Tower (SMT) and SeaPark garages. The rates would be adjusted in several ways to bring rates closer to area market and industry standards. The adjustments include the following:

- Increase hourly rates by 25% in all hourly rate schedules including the current evening parking rates.
- Implement a special event parking rate to attract stadium parkers for events hosted at T-Mobile Park and Century Link Fields.
- Implement a Friday 'Early Bird' Parking Special \$15.00 to attract drivers from other facilities.
- Increase monthly parking rates by 25% for reserved parking.

Regulatory Fee Increase for Recycling Licenses

Revenues	\$59,400
----------	----------

This item anticipates increased revenues of approximately \$59,000 by increasing the annual regulatory fee to license companies that collect and process recyclable materials from \$105 to \$500. This adjustment aligns the licensing fees with the cost of regulating recycling businesses and ensuring they are collecting, processing, disposing, or recycling solid waste as appropriate by law. The fee was established in 2006 and has not been raised since.

Department of Finance and Administrative Services

False Alarm Fee Revenue Changes

Revenues \$(1,000,000)

This item reduces false alarm fee revenues by \$1,000,000 due to a change in the types of false alarms the Seattle Police Department will respond to.

Proposed Capital

Funding Asset Preservation Projects in Downtown

Expenditures \$1,500,000

This item increases appropriation for the Department of Finance and Administrative Services fund and adds Real Estate Excise Tax (REET) funding to address two critical projects in city-owned facilities in the downtown core: \$1.5 million to replace the Seattle Municipal Tower (SMT) water pump and \$3.5 million to replace the SeaPark parking garage elevators.

The water pump allows water to be available above the 16th floor of SMT and is needed for both sprinkler and fire hose operations as well as basic access to water for tenants. The current pump has been in place for over 30 years and is at the end of life. A failure of the pump would leave the building unoccupiable. The SeaPark elevators are 10 years past their end of life, and the failure of the elevators would make the parking garage inaccessible and would lead to costly emergency repairs.

Funding Asset Preservation Projects Citywide

Expenditures \$2,200,000

This item adds Real Estate Excise Tax (REET) funding to address critical roof replacement needs at city-owned and operated facilities outside of the downtown core. This funding supports replacing critical city facility roofs. At more than 20 years old, each of these roofs have leaked in the recent past, causing damage to the buildings and the equipment within. These buildings support critical City services, including emergency response capabilities.

Installation of Waterproof Membrane at City Hall Plaza

Expenditures -

This item creates a new CIP Project: City Hall Plaza in the Department of Finance and Administrative Services. This project will be Limited Tax General Obligation (LTGO) bond financed for \$15 million to install a waterproof membrane below City Hall Plaza and permanently repair the ongoing leaking issue. The debt service will be paid with REET revenues.

The City Hall Plaza functions as a roof for the lower-level lobby and includes the Boards and Commissions conference room, archives, and utility areas. When it rains, there are significant water leaks causing damage to building systems and the building structure. These leaks disrupt the use of the lower-level lobby as a severe weather shelter and have caused the electrical gear providing power to several building systems to fail. In 2022 and 2023, FAS spent about \$200K in repairs due to these leaks. This repair is designed, permitted and ready for construction. Delay of this project potentially results in increased costs to implement and rising ongoing repair costs.

City Hall Plaza Debt Service

Expenditures -

Department of Finance and Administrative Services

This item creates a new CIP Project: City Hall Plaza Debt Service in the Department of Finance and Administrative Services. This project will fund \$3.7 million for debt service related to the City Hall Plaza project.

Waterfront Operations and Tribal Interpretive Center Adjustments

Expenditures \$4,454,521

This item amends CIP Project: Waterfront Operations and Tribal Interpretive Center in the Department of Finance and Administrative Services to increase appropriation by \$4.226 million, financed by Limited Tax General Obligation (LTGO) bonds. Total appropriation also supports the anticipated debt service payment.

The Bakun Building was purchased in 2023 to be the waterfront operations office and provide a cultural space for the Muckleshoot Indian Tribe. The funds remaining after purchase do not support a design that would serve both the Seattle Center, responsible for operations of the Waterfront, and the Muckleshoot Indian Tribe's respective needs. The additional funding will address substantial alterations that are necessary for building occupancy.

The project is intended to provide dedicated space to house the staff for on-going maintenance and operations for Waterfront Park. The project also fulfills the City's permitting commitments to the Muckleshoot Tribe for construction of the Elliot Bay Seawall to provide 10,000 square feet in a building along the Waterfront for a Tribal Interpretive Center rent free in perpetuity. The Tribe has indicated that this project could fulfill the conditions of the permit agreement.

Workday Human Capital Management System Adjustments

Expenditures \$(21,756,895)

This item decreases 2025 bonding costs for the Workday Human Capital Management System project in the Department of Finance and Administrative Services. Due to project timing, bonding costs have shifted from 2025 to 2024, and the overall amount of bonding needed has been reduced. The project is currently estimated to cost \$50.2 million, which is \$10.8 million under the previous total project cost estimate.

The City is transitioning to the new human resources management system, Workday. Implementation of the Workday project is being conducted in multiple phases. The first phase is the initial rollout of Workday in 2024, allowing for the City to move from the existing HRIS platform. The second phase of the implementation will begin after Workday is opened to users, and open enrollment and payroll fiscal year-end work is complete.

Seattle Animal Shelter Electrical System Improvements

Expenditures \$857,646

This item adds \$858,000 in Real Estate Excise Tax (REET) funding to support facility electrical improvements at the Seattle Animal Shelter. The funding will be used to address ongoing electrical problems at the facility that have disrupted shelter operations, including medical procedures and other veterinary services.

Municipal Energy Electrification Program (MEEP)

Expenditures \$1,461,688

The proposed budget allocates \$18 million in Payroll Expense Tax proceeds in 2025 to the Green New Deal. This item uses payroll tax funding to fund projects associated with the Municipal Energy Electrification Program.

For the Department of Finance and Administrative Services, this funding supports a variety of projects across the City's facilities. This funding includes \$1.5 million in spending for 2025 and 2026. For 2025, it also includes \$351,688 to reimburse the program for Seattle City Light rebates claimed by MEEP projects since 2018 and deposited to the General Fund. For more information, see Proposed 2025-2030 Capital Improvement Program.

Department of Finance and Administrative Services

Proposed Technical

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures \$576,758

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Bonds Cost of Issuance Update

Expenditures \$1,350,000

This item is a technical adjustment to update Cost of Issuance for Refunding the 2014 and 2015 UTGO Bonds.

Capital Improvement Program (CIP) Baseline Adjustments

Expenditures \$1,282,857

Revenues \$1,200,000

This item makes baseline and technical adjustments to several Budget Control Levels in the Department of Finance and Administrative Services' Capital Improvement Program (CIP).

1. Transfer 2025 and 2026 budget appropriation in completed project Fire Station 31 Improvements (MC-FA-FS31IMP) to the Seattle Animal Shelter Facilities project (MC-FA-SASFAC).
2. Add 2030 budget appropriation to the two ongoing Asset Preservation programs MC-FA-APSCH1FAC and MC-FA-APSCH2FAC.
3. Add reimbursable appropriation to the two ongoing FAS Project Delivery Services programs (\$1.2 million annually to MC-FA-CTYPDS for 2025 through 2030 and \$3.5 million annually to MC-FA-FASPDS for 2028 through 2030).
4. Align the Fire Station 31 Replacement (MC-FA-FS31) appropriation with the 2024 bond issuance in (\$19.509 million) by moving \$6.5 million of appropriation to 2025.
5. Move \$4.019 million of bond appropriation from 2024 to 2025 for the Human Capital Management (MC-FA-HCMSYS) project.
6. move \$12.0 million of 2025 bond appropriation to 2026 (\$7.0 million) and 2027 (\$5 million) for the Electrical Infrastructure Upgrades project (MC-FA-ELECTINFRA) to align with the spend plan.
7. In 2025, reinstate \$2 million of bond appropriation to the SMT Elevator project (MC-FA-SMTELVHRB) abandoned in error in 2022.
8. In 2025-2029, abandon \$1,416,680 of debt service appropriation (30010) within the Fire Station Improvement Debt Service (MC-FA-FSDEBTSV) project to align with the bond issuance and updated debt service estimates. In 2030, increase \$6,673,836 of debt service appropriation (30010) within the Fire Station Improvement Debt Service (MC-FA-FSDEBTSV) project to align with the bond issuance and updated debt service estimates.

Cost of Issuance and Bond Interest Adjustment

Expenditures \$(1,100,907)

Revenues \$16,543,451

The UTGO Debt Service updates are for bonds that are managed by the Office of Finance and those funds stem from UTGO issuances (like Utility from Utilities). The Cost of Issuance (COI) updates are an estimate for any costs associated with the issuance of LTGO Bonds.

Department of Finance and Administrative Services

Final Adjustments for Standard Cost Changes

Expenditures \$(833,357)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Rate Revenue Adjustments

Revenues \$(8,865,755)

This item makes various rate revenue adjustments to reflect changes to City-wide allocations resulting from the Department of Finance and Administrative Services FAS 2025-26 proposals.

Contract Inflation

Expenditures \$2,185,990

This item increases appropriation across the Department of Finance & Administrative Services to reflect inflation associated with various contracts.

Program Operations Cost Adjustment

Expenditures \$425,648

This item increases appropriation in the Department of Finance & Administrative Services to reflect anticipated increases for specific programs across the department including fuel and vehicle maintenance.

Debt Service Adjustments

Expenditures \$(3,624,280)

This item decreases appropriation in the Department of Finance & Administrative Services to reflect updates to debt service payments including new issuances, re-issuances, and adjustments due to fluctuation of the debt schedule.

August General Fund Revenue Adjustment

Revenues \$605,421

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

April General Fund Revenue Adjustment

Revenues \$(297,325)

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Labor Inflation in Central Rates Funded Programs

Expenditures \$4,124,783

Department of Finance and Administrative Services

This item increases appropriation across the Department of Finance & Administrative Services to reflect labor inflation commensurate with cost-of-living adjustments in labor contracts for FAS' rate-funded programs.

Labor Inflation in Direct Budget Programs

Expenditures \$861,199

This item increases appropriation across the Department of Finance & Administrative Services to reflect labor inflation commensurate with cost-of-living adjustments in labor contracts for FAS' non-rate-funded programs.

AWI Adjustment for 2023-24 in Non-rate Programs

Expenditures \$252,584

This item increases appropriation across the Department of Finance & Administrative Services (FAS) to reflect the cost-of-living adjustments in 2023 and 2024 that exceeded the assumed inflation at the time it was budgeted in FAS's non-rate-funded programs.

AWI Adjustment for 2023-24 in Rate-funded Programs

Expenditures \$1,108,388

This item increases appropriation across the Department of Finance & Administrative Services (FAS) to reflect the cost-of-living adjustments in 2023 and 2024 that exceeded the assumed inflation at the time it was budgeted in FAS's rate-funded programs.

Market Adjustments to 2026 Wages

Expenditures -

This item increases appropriation in the Department of Finance & Administrative Services to reflect the compounding market adjustments to 2026 wages in labor union contracts.

Fund Balancing Adjustments – Proposed

Revenues \$9,297,343

This is a technical item to record a fund balancing entry for the 50300 Finance and Administrative Services Fund, 50321 Fleet Capital Fund, 67600 FileLocal Agency Fund, 15260 Animal Shelter Donation Fund, and 12100 Wheelchair Accessible Fund, which are primarily managed by this department.

Department of Finance and Administrative Services

Appropriations by Budget Summary Level and Program

FAS - BC-FA-A1IT - Information Technology

The purpose of the Information Technology Budget Summary Level is to replace, upgrade or maintain FAS information technology systems to meet the evolving enterprise activities of the City.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Information Technology	11,084,329	4,905,823	4,043,169	-
Summit Re-Impl Dept Cap Needs	379,975	-	-	-
Total	11,464,304	4,905,823	4,043,169	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Information Technology Budget Summary Level:

Information Technology

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Information Technology	11,084,329	4,905,823	4,043,169	-

Summit Re-Impl Dept Cap Needs

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Summit Re-Impl Dept Cap Needs	379,975	-	-	-

FAS - BC-FA-ADAIMPR - ADA Improvements

The purpose of the ADA Improvements - FAS Budget Summary Level is to update or modify facilities for compliance with the standards contained in the American with Disabilities Act.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
ADA Improvements	749,853	600,000	1,367,000	2,423,000
Total	749,853	600,000	1,367,000	2,423,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Department of Finance and Administrative Services

FAS - BC-FA-APSCH1FAC - Asset Preservation - Schedule 1 Facilities

This purpose of the Asset Preservation - Schedule 1 Facilities Budget Summary Level is to provide for long term preservation and major maintenance to the Department of Finance and Administration's schedule 1 facilities. Schedule 1 facilities consist of existing and future office buildings located in downtown Seattle, including but not limited to City Hall, the Seattle Municipal Tower and the Justice Center. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Asset Preserv_Sch 1 Facilities	10,887,831	8,485,333	6,652,000	6,652,000
Total	10,887,831	8,485,333	6,652,000	6,652,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-APSCH2FAC - Asset Preservation - Schedule 2 Facilities

This purpose of the Asset Preservation - Schedule 2 Facilities Budget Summary Level is to provide for long term preservation and major maintenance to the Department of Finance and Administration's schedule 2 facilities. Schedule 2 facilities comprise existing and future structures, shops and yard located throughout Seattle, including but not limited to City vehicle maintenance facilities at Haller Lake and Charles Street, Finance and Administrative Services shops located at Airport Way S., fire stations, police precincts including the animal shelter, and other FAS managed facilities used for City Services. Typical improvements may include, but are not limited to, energy efficiency enhancements through equipment replacement, upgrades/repairs to heating/ventilation/air conditioning systems, upgrades/repairs to electrical systems, upgrades/repairs to fire suppression systems, roof repairs or replacement, and structural assessments and repairs. This work ensures the long-term preservation of the operational use of the facilities.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Asset Preserv_Sch 2 Facilities	3,601,168	1,954,000	5,912,000	5,487,000
Total	3,601,168	1,954,000	5,912,000	5,487,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-EXTPROJ - FAS Oversight-External Projects

The purpose of the FAS Oversight-External Projects Budget Summary Level is to provide a structure for debt financing projects, including information technology projects, for City departments that lack their own capital program.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
FAS Oversight - External Proj	600,836	1,500,000	1,875,661	1,256,473
Total	600,836	1,500,000	1,875,661	1,256,473

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Department of Finance and Administrative Services

FAS - BC-FA-FASPDPS - FAS Project Delivery Services

The purpose of the FAS Project Delivery Services Budget Summary Level is to execute capital projects in general government facilities.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
FAS Project Delivery Services	11,624,332	3,500,000	4,700,000	4,700,000
Total	11,624,332	3,500,000	4,700,000	4,700,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BC-FA-GARDENREM - Garden of Remembrance

The purpose of the Garden of Remembrance Budget Summary Level is to provide City support for replacing components of the memorial located at the Benaroya Concert Hall.

Program Expenditures	2023	2024	2025	2026

The purpose of the Debt Issuance Costs – UTGO Budget Summary Level is to pay debt issuance costs related to Multipurpose Unlimited Tax General Obligation (UTGO) Debt Issuance.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
UTGO Debt Issuance Cost	203,462	-	1,350,000	-
Total	203,462	-	1,350,000	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-DEBTUTGO - UTGO Debt Service

The purpose of the UTGO Debt Service Budget Summary Level is to create the legal appropriations to pay debt service on outstanding Unlimited Tax General Obligation (UTGO) Bonds.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
UTGO Debt Service	56,784,588	16,162,900	16,164,900	16,154,900
Total	56,784,588	16,162,900	16,164,900	16,154,900

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FAS - BO-FA-FACILITY - Facilities Services

The purpose of the Facilities Services Budget Summary Level is to manage most of the City's general government facilities, including the downtown civic campus, police precincts, fire stations, shops and yards, and several parking facilities. Functions include property management, environmental analysis, implementation of environmentally sustainable facility investments, facility maintenance and repair, janitorial services, security services, and event scheduling. The Facility Operations team is also responsible for warehouse, real estate, and mail services throughout the City. These functions promote well-managed, clean, safe, and highly efficient buildings and grounds that house City employees and serve the public.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Logistics and Emergency Management	8,333,022	-	-	-
Other Facilities Services	1,145,760	-	-	-
Real Estate Services	1,382,745	-	-	-
Space Rent	79,537,986	-	-	-
Total	90,399,512	-	-	-
Full-time Equivalents Total*	100.00	-	-	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Department of Finance and Administrative Services

The following information summarizes the programs in Facilities Services Budget Summary Level:

Finance General

Dan Eder, Interim Director

(206) 615-1962

<http://www.seattle.gov/city-budget-office/>

Department Overview

Finance General is controlled by the City Budget Office and provides a mechanism for allocating General Fund and other central resources to reserve and bond redemption funds, City departments, and certain programs where the City Council, Mayor, or City Budget Office need additional oversight.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Department Support				
General Fund Support	218,637,416	228,289,672	239,737,090	224,324,233
Other Funding - Operating	111,615,215	113,736,233	326,783,729	266,317,502
Total Operations	330,252,631	342,025,905	566,520,819	490,641,735
Total Appropriations	330,252,631	342,025,905	566,520,819	490,641,735

Budget Overview

Finance General serves as a central repository for ongoing City costs; including General Fund contributions to the operations of City departments, debt service payments made from centrally-managed funds and contributions to outside organizations. It also provides a mechanism to hold appropriations temporarily until the City determines the appropriate managing department; to execute complex transfers of funds; to act as a contingency reserve to respond to unpredictable situations; and, to cover costs that vary with economic conditions.

Finance General is the mechanism to transfer General Fund resources to the following departments:

- Seattle Public Library;
- Office of Labor Standards;
- Police Pension;
- Fire Pension;
- Finance and Administrative Services; and
- Information Technology.

Total Incremental Changes	\$224,494,914	-
Total 2025 Proposed Budget	\$566,520,819	-

Description of Incremental Budget Changes

Baseline

Removal of One-Time Items

Expenditures \$(10,493,980)

This technical modification removes one-time revenues, expenditures and fund balancing entries from the 2025-2026 baseline budget for Finance General.

Finance General Project and Org Budget Clean-up

Expenditures \$1,856

This item changes budgetary data in the City's Questica budget development system to align with how expenditures occur in the accounting system. Recurring reserves were rounded to the nearest thousand resulting in minor changes to the budget overall.

Align Baseline Contributions to Stabilization Funds to Financial Plans

Expenditures \$(2,976,596)

Revenues \$(2,976,596)

This adjustment aligns the 2025 and 2026 General Fund contribution to the Revenue Stabilization Fund and Emergency Fund to the financial plans for each fund during the baseline budget phase.

Align Payroll Expense Tax Transfers for Baseline Assumptions

Expenditures \$(85,253,126)

Revenues \$(85,253,126)

This item adjusts the Payroll Expense Tax (PET) transfer to General Fund and to the Sweetened Beverage Tax Fund to a baseline assumption in advance of proposed budget planning leaving only a baseline amount for ongoing administrative costs. The final PET transfer has been included in Operating changes for Finance General.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$7,325,159

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions,

Finance General

for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor. This increase supports cash transfers to the Seattle Public Library, Office of Labor Standards, Police and Fire Pension Funds to support their increased needs.

Baseline Alignment of Utility Reserves

Expenditures \$820,000

This item increases budget authority to pay General Fund costs related to increases in street lighting and fire hydrant costs in 2025 and 2026. This change reflects early estimates during the baseline budget process.

Reduce Fleet Vendor Maintenance Reserve

Expenditures \$(1,300,000)

This item reduces the General Fund reserve related to fleet vendor maintenance costs in 2025 and 2026. The amount held in Finance General reserve is for unanticipated costs to the General Fund as a result of higher expected costs. FAS has adjusted the expected forecast of these costs as well as the proportion that should be attributed to the General Fund. The remaining reserve for these costs is \$500,000 in both 2025 and 2026.

Citywide Adjustments for Standard Cost Changes

Expenditures \$594,707

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process. The amount in Finance General also includes appropriations in the General Fund to transfer resources to City departments that do not spend funds directly out of the General Fund.

Proposed Operating

Align General Fund Contribution for Seattle Public Library and Office of Labor Standards

Expenditures \$(2,019,233)

This item adjusts General Fund contributions to the Seattle Public Library Fund and Office of Labor Standards Fund to account for budgetary decisions made during the Proposed Budget process. It includes reductions for budgetary changes as well as adjustment to account for use of fund balance or other revenues to these funds. The total General Fund contribution to the Office of Labor Standards Fund is \$7.3 million in 2025 and \$8.2 million in 2026. The total General Fund contribution to the Seattle Public Library Fund is \$64.4 million in 2025 and \$71.5 million in 2026.

Align Payroll Expense Tax Contribution to General Fund for Administrative Costs

Expenditures \$2,543,317

Revenues \$2,543,317

This item increases the Payroll Expense Tax contribution to the General Fund for administrative costs related to the fund and for the evaluation of programs funded by Payroll Expense Tax proceeds. As part of this increase, approximately \$775,000 of the contribution will support an increase to the Tax Rebate Interest Reserve in Finance General. See related change Increase Reserve for Tax Rebate Interest. This increase also provides resources to the General Fund for an anticipated PET evaluation and overall administration of the tax across direct service and central service departments. The 2025-26 Proposed Budget increases the total amount of Payroll Tax for administration and evaluation from approximately \$7 million to \$9.6 million.

Finance General

Continue Community Roots Loan Payment Forgiveness

Expenditures \$333,333

This item continues the \$333,000 Payroll Expense Tax (PET) Fund transfer to General Fund to support the forgiveness of the General Fund loan provided to Community Roots Housing (CRH) for 2025 and 2026. In 2020, the City provided a \$1 million GF supported, three-year loan to CRH to help mitigate the financial impacts of the COVID-19 pandemic. In 2024, the City forgave the first year's repayment and used PET funding to backfill revenue to the General Fund. The proposed budget forgives the remaining loan payments in 2025 and 2026 and backfills the General Fund with PET revenue.

Create 2026 World Cup Planning and Operations Reserve

Expenditures \$2,000,000

In 2026, Seattle will host several World Cup matches. The City of Seattle is working with the local organizing committee on the reimbursement of costs incurred by the City to prepare for and provide support during the matches. This item creates a reserve using Payroll Expense Tax proceeds for economic development to cover any costs that are not fully reimbursed or deemed ineligible for reimbursement.

Create Enhanced Public Safety Streetlight Reserve

Expenditures \$1,000,000

This item provides \$1,000,000 annually to install new streetlights in areas experiencing high crime rates to enhance public safety.

Create Sound Transit 3 Staffing Reserve

Expenditures \$5,219,974

This adjustment creates Payroll Expense Tax-Green New Deal (PET-GND) and Seattle Transportation Benefit District (STBD) reserves in Finance General for projected staffing costs associated with Sound Transit 3 (ST3) implementation in 2025 and 2026, demonstrating the City's partnership and commitment to Sound Transit. This funding is being held in reserve pending finalization of a staffing plan. Total funding is \$5.2 million in 2025 and \$6.8 million in 2026. The STBD funding is \$3.78 million in 2025 and \$5.2 million in 2026 and one-time for the biennium. It will come from sales tax contributions from the Seattle Transit Measure. The PET-GND funding is \$1.4 million in 2025 and \$1.6 million in 2026 and is ongoing. Currently, 28 staff across multiple departments dedicate all or part of their time to the ST3 program. This reserve would fund approximately 51 additional staff in multiple departments to support on schedule delivery of ST3 projects while ensuring compliance with relevant statutes and codes and upholding the 2018 Partnering Agreement. Sound Transit 3 is the largest infrastructure program in Seattle's history. Its high-capacity transit investments, including the mega-projects of West Seattle Link Extension (WSLE) and Ballard Link Extension (BLE), will occur over the next four years as projects move from planning phases to final design, permitting, and construction.

Gambling Tax - Fully Exempt Non-Profit Raffles and Bingo Games

Revenues \$(100,000)

This item reduces gambling tax revenues by \$100,000 because of eliminating the 5% tax on 50/50 raffles and bingo games operated by non-profits.

Finance General

Final Alignment of Street Lighting Reserves

Expenditures \$300,000

Finance General holds a General Fund reserve to pay for general City streetlights. While this item was adjusted during the baseline phase, additional appropriation is required to align to final Seattle City Light rate and billing estimations. The 2025 and 2026 cost increases are mainly due to overall increases in the maintenance and capital replacement costs of streetlights. The total streetlight support is estimated to be \$15.5 million in 2025 and \$16.7 million in 2026.

Increase 2026 Elections Reserve for Implementation of Ranked Choice Voting

Expenditures -

In November 2022, Seattle voters approved a ballot measure to use Ranked Choice Voting (RCV) in Primary Elections for City of Seattle offices, including the Mayor, City Attorney, and City Council. The August 2027 Primary will be the first election using RCV. King County has notified the City of necessary implementation and ongoing election costs associated with this change. This adjustment creates a \$1.2 million reserve in 2026 for anticipated King County costs related to implementing ranked choice voting which are paid by Finance General. In 2027, this funding will be used to pay for increase election costs associated with RCV.

Increase Appropriation for Citywide Insurance Costs

Expenditures \$3,700,000

Finance General holds the reserve used to pay Citywide insurance premiums. Premiums have trended higher in recent years, driven by volatility in the excess liability insurance market. Accordingly, further growth is built into the budget for 2025 and 2026, which totals \$19 million and \$22 million, respectively.

Increase Election Reserve for Social Housing I-137 Election Cost

Expenditures \$1,500,000

This item increases the City's election costs reserve in anticipation of a special election in early 2025 related to Social Housing I-137. The estimated cost of this election is higher than August primary and November general election costs due to the limited number of government agencies who participate, reducing the spread of election costs among affected jurisdictions.

Increase Judgment and Claims General Fund Contribution

Expenditures \$14,100,000

Per Resolution 31847, budget appropriation for the Judgment and Claims Fund must be set at the 90% confidence level of meeting actual expenditures as estimated by the City's actuaries every year. This item adds a one-time appropriation of \$14,100,000 to Judgment and Claims to achieve the 90% confidence level for 2025. Recent actuarial estimates have been driven to a new high by the extraordinary and growing expenses the fund has incurred since 2021 but are expected to moderate in the next few years.

Increase Puget Sound Clean Air Agency Reserve

Expenditures \$56,000

This item increases the reserve for the City's Puget Sound Clean Air Agency annual assessment. The City is billed annually for a "supplemental income" assessment as per RCW 70A.15.1590 for air quality management in our region. The City's portion of the supplemental income is based on a formula using population and assessed valuation of taxable property, as defined by the Washington State Clean Air Act (RCW 70A.15.1600) and is paid by the General Fund. The estimated assessment is \$877,000 in 2025 and \$927,000 in 2026.

Finance General

Increase Reserve for Tax Rebate Interest

Expenditures	\$775,000
--------------	-----------

The City of Seattle as a tax collector has an obligation to provide interest on tax refunds due to overpayment and/ or audit findings. The use of this reserve has steadily increased as the City has implemented new taxes with complex payment requirements. A portion of this growth is directly attributable to the implementation of the Payroll Expense Tax. In 2025 and 2026, the reserve for these payments is being increased by \$775,000 per year backed by increased contributions from the Payroll Expense Tax (PET) to the General Fund. During this time, CBO will monitor actual refunds by tax type to determine the proportional share between the General Fund and PET.

Payroll Expense Tax Contribution to General Fund

Expenditures	\$287,000,000
Revenues	\$287,000,000

The City's 2025-2026 Proposed Budget appropriates approximately \$233 million in 2025 and \$239 million in 2026 in Payroll Expense Tax (PET) proceeds to departments. This item transfers PET revenue above department programmed expenses to the General Fund to support general operating expenses. In 2025, the total transfer is \$287 million which includes \$85 million in one-time 2023 fund balance and \$202 million for expected 2025 revenue collections above programming. The expected PET transfer is \$223 million in 2026.

Reduce High Barrier Working Group Reserve

Expenditures	\$(400,000)
--------------	-------------

In 2019, then Mayor Jenny Durkan convened the High Barrier Individuals Working Group, an interagency group including King County, in response to heightened community conversations around public safety and individuals repeatedly caught in a cycle of criminal justice, social services and community incidents. The group developed four new pilot programs to address these issues including the 'West Wing' proposal. The proposal appropriated \$2 million capital (REET unrestricted) and \$400K in on-going operating costs in 2020 in Finance General for a comprehensive place-based treatment center at the King County Jail. The project has been repeatedly delayed due to COVID and the current use of the West Wing space as a shelter run by DESC. The shelter was to move to SODO, but that large scale project was rejected by the CID. The King County Budget Office does not have any assumptions in the 2025 proposed budget related to this project. The City General Fund reserve is being reduced to redirect resources to other priorities. The \$2 million REET reserve was lapsed at the end of 2023 and returned to fund balance.

Reduce Reserve for City Hall Security

Expenditures	\$(490,000)
--------------	-------------

Finance General was holding an annual reserve for implementation and operational costs as a result of City Hall security upgrades. After an investigation of ongoing needs, evaluation of required capital improvements, and existing budget, the Department of Finance and Administration (FAS) determined that it could make required changes within existing budget authority. This appropriation was from the FAS Fund - 50300.

Shift Gambling Tax from Quarterly to Annual Filing

Revenues	\$(325,000)
----------	-------------

This item captures the reduction of tax revenue of \$325,000 in 2025 resulting from a shift from quarterly to annual filing for gambling taxes. This administrative change is under the authority of the City Finance Director and will result in reduced manual tax return processing. Payments for annually filed obligations are not due until April of the following year, meaning this process change will permanently shift revenue collections forward one year and no revenues will be collected in 2025.

Finance General

Transfer Funding from Trial Court Improvement Account Reserve to Seattle Municipal Court

Expenditures \$(104,222)

This change request reduces the Trial Court Improvement Account fund balance in Finance General and allocates one-time resources to the Seattle Municipal Court (SMC) in 2025 for a finance and budget consultant to advance their organization transformation in support of the new case management system. The court is recasting their organization and its internal administrative systems to support the new case management system. Finance General holds \$150,000 for SMC each year plus any prior year balance. This transfers \$104,222 of the 2025 balance. A change to appropriation authority is listed in the SMC budget section.

Proposed Technical

Align Arena Payment Reserve with August Revenue Forecast

Expenditures \$1,082,000

This adjustment aligns appropriations from the General Fund, Arts and Culture Fund, and Transportation Fund with the anticipated rental adjustment payments related to the Seattle Arena Company, LLC Agreement in 2025 and 2026. The total estimated payment amounts are based on the August Revenue Forecast, totaling \$15.1 million in 2025 and \$14.5 million in 2026.

Align General Fund Contribution for Fire and Police Pension Departments

Expenditures \$(1,585,518)

This item is the final alignment of General Fund need for these departments based on estimated operating costs and available fund balance in the department specific funds for 2025 and 2026. General Fund transfers to the pension funds occur monthly during the fiscal year. The total contribution to the Firefighters' Pension Fund in 2025 and 2026 is \$25.2 million and \$25.5 million, respectively. The total contribution to the Police Relief and Pension Fund in 2025 is \$16.1 million and in 2026 is \$15.8 million.

Align Debt Service Appropriations with 2025 and 2026 Assumptions

Expenditures \$(177,578)

Finance General debt service reserves for various funds have been updated to reflect anticipated needs in 2025 and 2026. These amounts are updated annually based on former and current project debt service requirements.

Final Alignment of Emergency Fund and Revenue Stabilization Fund Contributions

Expenditures \$407,443

Revenues \$407,443

This adjustment aligns the Emergency Fund and Revenue Stabilization Fund contributions from General Fund related to the August Revenue Forecast updates. The total contribution amounts to the Emergency Fund are \$12.7 million and \$2.4 million in 2025 and 2026, respectively. For the Revenue Stabilization Fund, the 2025 contribution is \$1.1 million and the 2026 contribution is \$2.4 million.

Final Adjustments for Standard Cost Changes

Expenditures \$536,378

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Finance General

Fund Balancing Entries

Revenues \$(19,822,650)

This is a technical item to record a fund balancing entry for the General Fund, Payroll Tax Fund, Sweetened Beverage Tax Fund, Short-Term Rental Tax Fund, Real Estate Excise Tax Funds, Emergency Fund, Revenue Stabilization Fund, and Bond Funds which are multi-departmental Funds without a primary custodian department.

Appropriations by Budget Summary Level and Program

FG - BO-FG-2QA00 - Appropriation to Special Funds

The purpose of the Appropriation to Special Funds Budget Summary Level is to appropriate General Fund and other centrally managed resources, several of which are based upon the performance of certain City revenues, to bond redemption or special purpose funds. These appropriations are implemented as operating transfers to the funds or accounts they support.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Appropriation to Special Funds	279,597,558	280,202,072	496,541,667	416,286,477
Total	279,597,558	280,202,072	496,541,667	416,286,477

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FG - BO-FG-2QD00 - General Purpose

The purpose of the General Purpose Budget Summary Level is to provide appropriation authority to those programs for which there is no single appropriate managing department, or for which there is Council and/or Mayor desire for additional budget oversight.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
General Purpose	50,655,074	61,823,833	69,979,152	74,355,258
Total	50,655,074	61,823,833	69,979,152	74,355,258

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Department of Human Resources

Kimberly Loving, Director

(206) 684-7999

<http://www.seattle.gov/personnel/>

Department Overview

The Seattle Department of Human Resources (SDHR) is responsible for centrally setting the strategic direction for human resources services: identifying, hiring, and retaining the City's dynamic, diverse workforce, as well as developing and administering a compensation and benefits program to create a quality employee experience. SDHR also provides core human resources (HR) support services to all City employees. SDHR operations:

- create greater HR accountability and collaboration citywide so that consistent, cost-effective services are provided to all employees;
- provide full-service HR to 20 supported departments;
- ensure a culture of respect and dignity for all employees;
- develop consistent policies, improved services, and programs that enhance the workforce;
- provide executive recruitment and succession planning services.

SDHR establishes Citywide personnel rules; offers strategic consultative assistance to departments, policymakers and employees; and ensures department staff and managers receive information and resources required to meet business needs and legal requirements such as leave administration.

The **Director's Office** establishes Citywide personnel rules; offers strategic consultative assistance to departments, policymakers, and employees; provides internal fiscal management and budget development; and spearheads Citywide Human Resources policies and programs in partnership with the multi-departmental Human Resources Leadership Team (HRLT).

Citywide Shared Administrative Services administers Citywide quality and cost-effective employee benefits, including health care and workers' compensation; provides Citywide safety, classification/compensation and Workforce Analytics & Reporting services; and handles absence management.

Citywide Labor Relations develops and implements labor relations strategies in collaboration with labor management teams across the City and develops training in coordination with HR systems administration and operations, while bargaining the impacts of management strategy and philosophy with labor partners.

Citywide Human Resources Investigations Unit and Learning & Development HRIU responds to and thoroughly investigates employee allegations of harassment, discrimination, retaliation, and harassment-related misconduct in a manner which reflects an acknowledgement of the historical limitations of the employment law; utilizes the organizational alignment of the L&D Team's training resources and Cornerstone platform to provide proactive response to building a positive workplace culture across the City; provides employee compliance training resources and support; and the career development opportunities offered by L&D aim to encourage a culture of innovation, positively impact retention rates, and develop future City leaders.

Human Resources Service Delivery provides HR support to executive offices and direct HR services to 20 departments; strategic alignment with department HR leaders and staff; and a consistent network for HR practitioners across the City; provides talent recruitment to executive offices and direct recruitment to 20 departments; manages the NEO Gov software platform for Talent Management strategic alignment with department HR leaders and staff; provides a City focused standard for talent engagement, selection, and staffing accountability for equitable outcomes through the Talent, Experience, Alignment branded model of equitable recruiting practices.

Personnel Compensation Trust Funds

Seattle Department of Human Resources

The Seattle Department of Human Resources (SDHR) administers five Personnel Compensation Trust Funds related to employee benefits. These funds are managed through Citywide contractual obligations on behalf of employees and City departments. The administering department collects funds from other City departments, which are then paid out to various insurance companies, service providers, and individuals.

Health Care Fund: contains the revenues and expenses related to the City's medical, dental and vision insurance programs; Flexible Spending Account program; Employee Assistance Program; COBRA continuation coverage; and other healthcare related items. The City is self-insured for both the Aetna and Kaiser medical plans, the vision plan, and one dental plan and carries insurance for the remaining dental plan.

Fire Fighters Health Care Fund: was created to track fire fighter employee contributions previously held within the larger Health Care Fund. Fire fighter premium collections are distributed directly to the trust that provides fire fighters' healthcare.

Industrial Insurance Fund: captures the revenues and expenditures associated with the City's Workers' Compensation and Safety programs. Since 1972, the City of Seattle has been a self-insured employer as authorized under state law. The Industrial Insurance Fund receives payments from City departments to pay for these costs and related administrative expenses. Overall costs include fees levied by the Washington State Department of Labor and Industries, reinsurance premiums, and administrative costs to manage the program.

Unemployment Insurance Fund: contains the revenues and expenditures associated with the City's unemployment benefit and administration costs. The City is a self-insured employer with respect to unemployment insurance.

Group Term Life Insurance Fund: contains the revenues and expenses related to the City's group term life insurance, long-term disability insurance, and accidental death and dismemberment insurance plans.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Seattle Department of Human Resources. SDHR will continue to:

- Continue to provide full HR services for the 20 supported departments;
- Administer employee benefits, leave, and workers' compensation Citywide;
- Administer centralized system for recruitment and selection of employees;

Seattle Department of Human Resources

- Manage HR compliance, policy, and legislation requirements;
- Develop and administer system for classification of positions, wages, and reporting and analytics of employee data;
- Maintain centralized employee functions including Human Resources and Investigations Unit (HRIU), employee grievances, collective bargaining, and labor relations;

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made to streamline services and focus on core HR services within the City.

In the 2025-2026 Proposed Budget, SDHR will eliminate three divisions or programs including the Learning and Development Division, the Workforce Development Unit, and the Equity Performance Management Program. The elimination of the Learning and Development Unit means that SDHR will convert the trainings and orientations to an online course instead of in person, SDHR will transition to an advisory role with departments as they identify their own training and development needs. The elimination of the Workforce Development Unit means that SDHR will transition to an advisory role in workforce development and will transfer mentorship and internship, and responsibilities to each department. The elimination of the Equity Performance Management Program means that SDHR will transition supported departments using the current Equity Performance Management system for employee performance reviews to a lower-cost alternative. SDHR will scale the Workforce Equity Unit and Benefits Unit. SDHR will also reduce temporary labor funding. SDHR has worked with departments to identify ways to streamline or create efficiencies and enhancements in services and will transfer the Fire and Police Exams Unit to the Civil Service Commission and transfer the Deferred Compensation Unit to the Retirement Department.

Other 2025-2026 Proposed Budget Adjustments:

Several additional baseline and operational adjustments are included in the proposed budget:

- adjust appropriation for changes to central costs including internal services, health care, retirement, and workers' compensation charges;
- align the personnel budget with actual costs;
- adjust the Annual Wage Increase (AWI);
- remove one-time budget authority; and
- include net-neutral budget changes for reorganization or consolidation of programs and projects.

Personnel Compensation Trust Funds

The following provides a summary of each of the five individual funds that comprise the Personnel Compensation Trust Funds and are administered by SDHR.

Health Care Fund: Total City health care costs including medical, dental and vision care, plus administration costs, are estimated to increase to \$360.4 million in 2025 and \$381.3 million in 2026. Growth in medical claims in 2025 and 2026 is projected at 9.3% and 5.8% respectively due to typical trends in medical costs plus current inflationary pressures, particularly facing inpatient services and specialty drugs. The 2025-2026 Proposed Budget assumes an estimate of approximately 11,950 regular and 220 benefits-eligible temporary employees enrolled in healthcare.

Fire Fighters Health Care Fund: Firefighter payments remain level at \$2.0 million in the 2025-2026 Proposed Budget.

Industrial Insurance Fund: The 2025 Proposed Budget reflects increased expenditures in the Industrial Insurance Fund of 25.9%, or \$11 million, relative to the 2024 Adopted Budget. For 2026, the increase is 5.2% or \$2.8 million. The year over year increase in expenditures is due principally to an adjusted outlook for pensionable claims (catastrophic injuries for which Labor & Industry collects a large sum to seed a pension fund for the claimant). In 2023, 13 such claims totaled \$10.3 million, more than three times recent yearly averages. This trend appears to be driven by presumption (that injury is due to the workplace) under State law, which has been expanded in favor of claimants by law makers in recent years. Meanwhile, the cost of medical care is also driving up expenses for typical medical claims, which are expected to increase by nearly 47%. Time loss claims are projected to decrease slightly, by

Seattle Department of Human Resources

5%, after peaking during the COVID pandemic. The increase in revenues (26.1% in 2025 and 5.4% in 2026) to the fund, which are collections from City departments, reflects these trends plus the need to recover reserves used to pay for excess pensionable claims in 2023.

Unemployment Insurance Fund: The 2025-2026 Proposed Budget for unemployment insurance expenses increases appropriations relative to the 2024 Adopted Budget in anticipation of increased claims activity and per claimant costs. As departments adjust program spending and positions down to align with available resources in the 2025-2026 Proposed Budget, and as wages from concluded bargaining work their way into the City's claims payments, total costs are expected to increase.

Group Term Life Insurance Fund: Total costs in the fund are expected to increase in the 2025-2026 Proposed Budget, based on growth in participants and premium costs.

Seattle Department of Human Resources

Description of Incremental Budget Changes

Baseline

Remove One-time Budget Authority

Expenditures	\$(1,255,864)
Revenues	\$14,723,914

This item reverses a Payroll Expense Tax-funded TLT position ending December 31, 2024 and funding for a two-year Citywide Classification and Compensation Review project.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$2,352,379
--------------	-------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$437,496
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Eliminate Citywide Learning & Development Division

Expenditures	\$(863,828)
Position Allocation	(4.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item eliminates the Learning & Development division of SDHR, including 2 Strategic Advisor 1 Exempt positions and 2 Sr. Training & Education Coordinator positions. All Citywide training and development currently provided by HR will be administered at the department level moving forward. SDHR will transition to an advisory role that will continue to assist departments with identifying training needs, recommending resources, and maintaining SharePoint site with tools, templates, and best practices.

Eliminate Workforce Development Unit

Expenditures	\$(485,573)
Position Allocation	(2.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item eliminates SDHR's Workforce Development unit, including the tuition reimbursement program and two positions (a Strategic Advisor and a Personnel Analyst). SDHR will transition to an advisory role, assisting departments with administering mentorship and internship programs.

Seattle Department of Human Resources

Eliminate Equity Performance Management Program

Expenditures	\$(468,181)
Position Allocation	(2.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item eliminates SDHR's Equity Performance Management Program, including two full-time positions in SDHR's Shared Admin Services and Service Delivery division. This item also reduces two positions (a Management Systems Analyst and a Strategic Advisor). SDHR will terminate the online E3 employee performance management program in favor of a lower-cost paper-based alternative. SDHR will no longer centrally oversee employee performance management for departments within its portfolio, however, it will continue to partner with them to ensure timely completion and adherence to records management and personnel rules.

Remove Workforce Equity Director & Workforce Equity Advisor Positions

Expenditures	\$(371,115)
Position Allocation	(1.50)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item removes 1.5 full-time positions in the Workforce Equity division of SDHR, including one Executive 2 position and one part-time Strategic Advisor 1 position and associated appropriation. SDHR will transition to an advisory Workforce Equity role, and the Workforce Equity Strategic Plan will be administered at the department level.

Remove Benefits Lead Personnel Analyst Supervisor Position

Expenditures	\$(195,492)
Position Allocation	(1.00)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item removes one full-time Benefits Lead (Personnel Analyst Supervisor) position and associated appropriation in the Shared Admin Services division of SDHR.

Reduce SDHR Temp Labor Funding

Expenditures	\$(106,142)
--------------	-------------

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This item reduces the temporary and contract labor to realign with available resources.

Transfer Deferred Comp Unit from SDHR to RET

Expenditures	\$(559,751)
Revenues	\$(698,016)
Position Allocation	(3.00)

This item transfers 3 full-time positions in SDHR's Deferred Compensation Unit; one Manager1 Exempt, one Personnel Analyst, Sr, and one Personnel Analyst; to RET. It also transfers appropriation authority in the amount \$560k from SDHR to the Employees' Retirement System, including \$52k of non-labor budget. This transfer will align employee retirement benefits within one department to create efficiencies and optimize the employee experience.

Seattle Department of Human Resources

Transfer Fire & Police Exams from SDHR to CIV/PSCSC

Expenditures	\$(1,503,117)
Position Allocation	(6.00)

This item transfers 6 full-time positions and the associated budget in SDHR's Fire and Police Exams Unit including one Manager 2, General Govt, three Personnel Analyst, Sr, and two Personnel Analysts to the Civil Service Commissions. This transfer aligns the core functions of CIV to develop and administer entry-level and promotional civil service exams. CIV will have direct management of the staff in the unit and reduce the interdepartmental coordination needed with SDHR by transferring the unit.

Proposed Technical

2025-2026 Health Care Fund Expenditure and Revenue Adjustments

Expenditures	\$30,590,669
Revenues	\$17,435,946

This item adjusts the budget for expenditures and expected revenues in the City's health care fund (10112). Total costs including medical, dental and vision claims, plus administrative costs, are estimated to be \$360.4 million in 2025, an increase of \$30.6 million (9.3%) from 2024 Adopted Budget levels. Meanwhile revenues to the fund, based on prior claims expectations, are expected to be \$367.1 million, representing a \$24.1 million increase (7.0%) in department contributions from the 2024 Adopted Budget and an overall excess of revenue over expenditures of \$6.7 million. This excess results in a technical balancing entry, which has the effect of reducing the \$24.1 million increase to the \$17.4 million displayed immediately above, with the remaining \$6.7 million being assumed as an addition to the Health Care fund's balance.

Group Term Life Fund Revenue and Expenditure Adjustments

Expenditures	\$392,119
Revenues	\$392,119

This item increases revenues and expenditures in the Group Term Life, Long-Term Disability, and Accidental Death and Dismemberment Insurance Fund in response to current and projected growth in employee enrollment and premium costs. Costs are expected to continue their steady rise over the last few years, increasing approximately \$392,000 to \$7.1 million in 2025 and to \$7.2 million in 2026 from approximately \$6.7 million in the 2024 Adopted Budget.

Industrial Insurance Fund Expenditure and Revenue Adjustments

Expenditures	\$10,978,092
Revenues	\$9,408,899

This item adjusts the budget for expenditures and expected revenues in the City's industrial insurance (workers compensation) fund (10110). Total costs including medical and time-loss claims, plus administrative costs, are estimated to be \$53.4 million in 2025, an increase of \$11 million (25.9%) from 2024 Adopted Budget levels. Meanwhile revenues to the fund, based on prior claims expectations, are expected to be \$55.4 million, representing a \$11.5 million increase (26.1%) in department contributions from the 2024 Adopted Budget but an overall excess of revenue over expenditures of \$2.0 million. This excess results in a technical balancing entry, which has the effect of reducing the \$11.5 million increase to the \$9.4 million displayed immediately above, with the remaining \$2.0 million being assumed as an addition to the Industrial Insurance fund's balance.

Seattle Department of Human Resources

Revenue and Expenditure Adjustments

Expenditures	\$1,465,121
Revenues	\$1,465,121

This item adjusts revenues and expenditures in the Unemployment Insurance Fund (10111) to meet expected costs. Projected increases of \$1.46 million in 2025 and \$1.13 million in 2026 anticipate increased claims as departments adjust programs and positions to meet 2025-26 budget requirements.

Final Adjustments for Standard Cost Changes

Expenditures	\$(151,289)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Budget-neutral alignment

Expenditures	-
--------------	---

This item eliminates unnecessary indirect cost balancing entries.

Technical change to reallocate baseline budget to reflect current trends and internal transfers

Expenditures	-
--------------	---

This technical adjustment reallocates SDHR's baseline budget to reflect more recent trends as well as internal movement. Total labor and total non-labor do not change, and the impact to the general fund is negligible.

Allocate Retirement Adjustment to Projects

Expenditures	-
--------------	---

This technical CR allocates the 2024 retirement adjustments down to the project level.

Ongoing Changes from Current Year Legislation

Expenditures	\$(400,985)
Position Allocation	(2.00)

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance.

This change transfers ongoing budget and position authority for 3.0 FTE Recruitment and Retention positions from the Seattle Department of Human Resources to the Seattle Police Department and adds 1.0 FTE to SDHR, for a net reduction of 2.0 FTE. The three positions being transferred to SPD were originally created as part of the Recruitment & Retention Initiative item in the 2022 budget (Ordinance 126654, Section 3) and assigned to SDHR. The positions were subsequently transferred to SPD in 2024 in a standalone SPD Recruitment and Retention Ordinance (CB 120766). The additional position added to SDHR is in the Fire and Police Exams Unit and is incorporated in the unit transfer to CIV.

SDHR - BO-HR-N6000 - HR Services

The purpose of the HR Services Budget Summary Level is to provide Citywide strategic and technical human resources support while incorporating workforce equity strategies. This BSL: administers employee benefits, including health care and workers' compensation as well as absence management; provides recruitment and staffing services; advises on employee training and development services; and negotiates and implements collective bargaining agreements. Other functions include safety, compensation/classification, supported employment programs, and Citywide human resources information management services.

Seattle Information Technology Department

Rob Lloyd, Chief Technology Officer

(206) 386-0026

<http://www.seattle.gov/seattleIT>

Department Overview

Seattle IT is a trusted partner that provides secure, reliable, and compliant technologies enabling the City to deliver equitable and responsive services to the public.

The Seattle Information Technology Department (Seattle IT) provides strategic direction for and management of the City's information technology resources. Our services include data, telephone, and radio networks; applications and application infrastructure; desktop, mobile, and printing device support; website and digital engagement tools; data centers, servers, storage, and backup; video production and coverage of public meetings; and community support for digital equity, civic technology, and public internet access initiatives. Seattle IT also manages the City's cable fund, designated projects on behalf of the City, other departments, and regional partners.

Seattle IT is organized into eight divisions: Applications; Collaboration and Workplace Technologies; Security and Infrastructure; Project Delivery; Client and Community Engagement; Data Privacy, Accountability, and Compliance; Chief of Staff; and Finance.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed

Budget Overview

As an internal service department, Seattle IT provides services to other City departments that in turn fund Seattle IT's budget. The City's 2025-2026 Proposed Budget maintains core services for Seattle IT. The department will continue current service levels in cybersecurity, applications, infrastructure, public records disclosure coordination, City IT governance and administration, client solutions, and the Affordable Seattle program.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated

Seattle Information Technology Department

Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the following areas.

Reductions of 25% to the IT project delivery program, device support and replacement program, and the service desk are the most significant changes in the proposed budget. The combined decreases the department budget by \$5.5 million, and reduces a total of 29 positions. Service desk call wait times will likely increase and may potentially double, and staff will be using older computers and experiencing slower response to IT support needs. The City's financial constraints are expected to lead to fewer IT projects generally; however the reduction to the project delivery program will require managing existing resources differently for remaining project portfolio.

ITD is also taking reductions less impactful to customer departments, leading to \$17.9 million in budget reductions. In order to achieve this the department will increase its personnel vacancy rate to 8%, assume retirements, reduce department project budget, reduce temporary staffing budget, and reduce the operations and maintenance contracts currently held. Impacts from these reductions will be felt by Seattle IT, and additional pressure will be applied to manage with fewer resources.

In addition to the City's shortfall, revenues from cable subscription fees continue to decline as fewer people use traditional cable television. In order to balance the Cable Television Franchise Fund, \$2 million and 6 positions are reduced from the Seattle Channel program. This will reduce programming down to basic City Council and Executive coverage, resulting in a noticeable change to service levels. The City will need to minimize overlapping coverage requests when scheduling programming.

As the City's coordinator and supplier of all technology needs, Seattle IT also manages the budget for external needs like Microsoft licensing, sever and storage, police technology like body worn cameras, Adobe, Oracle and many other services and software. These costs are increasing by \$8.4M in the proposed budget with the largest portion (\$2.1M) related to fees for the regional public safety radio network.

The proposed budget also includes many technical adjustments and Citywide changes, including \$17.2 million related to contract and wage increase agreements. Two capital IT projects were approved in the proposed budget: a \$5.6 million upgrade and transition to the cloud of two Oracle Enterprise Content Management systems; and a \$1.9 million project for SPD to use for a timekeeping, leave and scheduling system.

Description of Incremental Budget Changes

Baseline

Remove 2024 One-Time Items

Expenditures	\$(4,613,711)
Revenues	\$(1,941,094)

This item includes budget adjustments for one-time changes in the 2024 Adopted Budget, including removal of a Council add of \$1 million for the RecordPoint project, and a \$2.5 million transfer from the radio reserve to the General Fund.

Baseline Technical Adjustments

Expenditures	\$(7,426,058)
Revenues	\$1,115,703

This item fixes a budgeting error that inadvertently added labor increases before they were under agreement, and makes minor changes to the baseline budget, including \$55,000 for Video Voter's guide funding, and removing \$14,000 for SPD internal operating initiatives.

Seattle Information Technology Department

Inflation Adjustments

Expenditures	\$6,208,280
Revenues	\$6,208,271

This item updates ITD's base budget for inflation factors, to provide budget for increasing costs. The City Budget Office provides ITD inflation assumptions for items such as wage adjustments, health care and retirement.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$(117,907)
--------------	-------------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures	\$1,941,549
Revenues	\$1,934,064

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Labor and Maintenance Budget Realignment

Expenditures	\$2,326,828
Revenues	\$2,326,836

This item realigns budget for Seattle IT's staffing and labor costs where the costs are occurring, and also realigns Seattle IT's funding for annual software maintenance contracts with the projected IT service needs for the proposed budget.

Realign Post-Rate Revenue Changes

Expenditures	\$(297,522)
Revenues	\$(137,372)

This item updates budget and revenues to reflect changes made to Seattle IT's budget after customer rates were finalized during the 2024 budgeting process.

Updates to the Counts Used to Cost Department IT Budgets

Expenditures	\$(736,052)
Revenues	\$(736,050)

This baseline change updates the counts (of devices, licenses, employees, etc) used in Seattle IT's various cost recovery methodologies to better reflect current IT usage across the City.

Seattle Information Technology Department

Depreciation, Principal and Interest True-Up

Expenditures	\$725,929
Revenues	\$725,497

This item adjusts the amount and distribution of Seattle IT's depreciation, principal and interest budget based on the debt service schedule and planned spending in the proposed budget.

Adjust Capital Projects Outyears

Expenditures	-
Revenues	\$10,950,064

This item adds bond and department billing revenue to Seattle IT's fund for planned capital budget projects, and adjusts capital project outyear budgets to align with the six-year CIP plan by adding budget to year 2030.

Cable Fund Technical Adjustments

Expenditures	\$(1,574,080)
Revenues	\$(1,574,081)

This item adjusts the Cable Television Franchise Fee Fund budget, reducing the cable fund to match the reductions taken to the Seattle Channel needed to balance the fund in the proposed budget,

Proposed Operating

Reduction to the Project Delivery Program

Expenditures	\$(2,453,119)
Revenues	\$(2,454,444)
Position Allocation	(12.00)

Due to City financial constraints, the proposed budget includes a reduction to ITD's project delivery team by 25%, \$2.45 million and 12 FTEs (six Information Technology Professional - Bs; two Information Technology Professional - As; one Strategic Advisor 1, IT; one Strategic Advisor 2, one Strategic Advisor 3; and one Executive 2). This team serves as the staffing on IT projects in the City, providing project management and business analyst support among several other lines of support. This reduction anticipates a reduction in IT projects in the City due to overall budget reductions and may result in ITD managing available resources differently. The team maintains approximately a staff of 36 and nearly \$7.5 million.

Reduction to the Device Support Program

Expenditures	\$(2,004,420)
Revenues	\$(2,005,568)
Position Allocation	(11.00)

Due to City financial constraints, the proposed budget includes a reduction to ITD's device support program by 25%, \$2 million and 11 FTEs (nine Information Technology Professional - Cs and two Information Technology Professional - Bs). This program provides a number of services to the City, but primarily serves as the computer replacement staff and equipment. This reduction will require ITD to realign the services the program is able to provide, including less frequent replacement of aging technology and capacity to respond to service requests. This program maintains approximately a staff of 33 and \$6 million.

Seattle Information Technology Department

Reduction to the City IT Service Desk

Expenditures	\$(997,119)
Revenues	\$(997,764)
Position Allocation	(6.00)

Due to City financial constraints, the proposed budget includes a reduction to ITD's service desk by 25%, \$1 million and 6 FTEs (six Information Technology Systems Analysts). The service desk provides the City's staff center for staff having technology issues or needs, which can come through the online ticket system or direct calls into the service phone center. This reduction will impact the service desk's overall ability to respond to requests, including call wait times potentially growing from three to ten minutes, and slower issue resolution. This team maintains approximately a staff of 18 and \$3 million.

Reduction to Salaries Budget with Higher Vacancy Rate and Retirement Assumption

Expenditures	\$(4,374,222)
Revenues	\$(4,310,371)

Due to City financial constraints, the proposed budget includes a reduction to ITD's salary budget of \$4.3 million. The department's staffing vacancy rate assumption will increase to 8%, currently at 6%, and assumes 11 retirements over 2025 and 2026. This item reduces budget without directly impacting other departments, however the department will have to manage to this, likely reducing services in areas unknown until implemented.

Reduction to Discretionary Budgets Departmentwide

Expenditures	\$(8,075,833)
Revenues	\$(8,075,954)
Position Allocation	(2.00)

Due to City financial constraints, the proposed budget includes a reduction to ITD's discretionary budgets across the department by \$8 million and 2 FTEs (two Information Technology Professional - As). This reduction includes \$3.9 million of SDOT project budget unused in recent budgets, \$2.8 million of temporary employee budget, and \$1.2 million of other budget reductions. Reducing these items will restrict flexibility in ITD's budget, but will not likely impact other departments and customers.

Reduction to Operational Maintenance Agreements and Contracting Budgets

Expenditures	\$(3,203,145)
Revenues	\$(3,203,145)

Due to City financial constraints, the proposed budget includes a reduction to ITD's operational maintenance agreements and contracting budgets by \$3.2 million. ITD reviewed the contracts and agreements held and proposed a reduction to defund ones analyzed to be capable of existing staff to perform, or other ways to operate without them moving forward. This item will further reduce flexibility within the department, but should not impact other departments or customers.

Reduction to Applications to Support Inflation-Driven Maintenance Budget Increases

Expenditures	\$(2,236,801)
Revenues	\$(2,234,576)

ITD is the City's coordinator for technology services, including external software providers, many of which have grown in cost and continue to rise above inflation in cases. This item reduces the software maintenance expenditures by \$2.2 million in order to help the impact of some of these cost increases listed elsewhere in the ITD proposed budget. These software costs may require refunding this reduction in a future budget.

Seattle Information Technology Department

Reduction to Seattle Channel Cable Funded Programming

Expenditures	\$(1,601,206)
Revenues	\$(1,601,570)
Position Allocation	(6.00)

The City's revenues from cable television subscriptions continues to decline, leading to reductions needed to keep the Cable Television Franchise Fund in balance in the proposed budget. This item reduces Seattle Channel services by \$1.6 million and 6 FTEs (three Video Specialist IIs; one Information Technology Professional - B; one Strategic Advisor 2, Exempt; and one Strategic Advisor 2, CSPI&P). Programming will be reduced to Council and Executive meetings and events, along with reductions to capital expenses needing to be absorbed within underspend.

Additional Budget for Adobe and Enterprise Agreements

Expenditures	\$1,678,250
Revenues	\$1,678,250

This funds \$1.7 million in additional budget for increased annual renewals related to the city's Adobe and Microsoft Enterprise agreements. These contracts have seen higher than anticipated growth after the pandemic, after years of smaller increases.

Additional Budget for Department-Specific Technologies

Expenditures	\$1,892,595
Revenues	\$1,892,595

This item adds \$1.9M for increased maintenance budget for department-specific technologies, including software supporting body worn cameras, Oracle for the utilities, and timekeeping software for SFD.

Additional Budget for Permitting and Geospatial Platforms

Expenditures	\$801,000
Revenues	\$801,000

This item for \$800,000 funds increases in the O&M costs for the City's Accela permitting software, and for mapping GIS services.

Additional Budget for Records Renewals

Expenditures	\$700,000
Revenues	\$700,000

This item funds \$700,000 for the annual license renewals for City records systems, including the RecordPoint project underway, and systems used by the City's public records team.

Additional Budget for Cybersecurity Renewals

Expenditures	\$597,000
Revenues	\$597,000

This item funds \$600,000 in O&M for cybersecurity services software the City uses to defend itself from cyber attacks, for both items unintentionally left out of the previous budget, and new items to the City.

Seattle Information Technology Department

Additional Budget for Technical Infrastructure Renewals

Expenditures	\$475,000
Revenues	\$475,000

This item for \$475,000 funds annual license renewals related to technical infrastructure, including server backup services and virtual computer access.

Continue the Affordable Seattle Program

Expenditures	\$116,989
Revenues	\$(255,960)

This item increases Payroll Expense Tax funding of \$416,000 in 2025 and \$429,000 in 2026 to support the Affordable Seattle Program and CiviForm application to replace funding from CLFR funds that expire in 2024. This funding is offset by reductions from the ITD fund, resulting in an overall increase to the program of \$117,000 annually. This increase enables the Affordable Seattle Program to continue at its current staffing and program level, as well as additional technical and consulting services. The Affordable Seattle Program and CiviForm application are proven to decrease the cost to live in Seattle and increase economic revitalization of the most vulnerable communities.

Transferring Staff from CBO to ITD for Affordable Seattle Program

Expenditures	\$208,699
Revenues	\$(12,359)
Position Allocation	1.00

This item transfers one position and budget currently working on the Affordable Seattle Program within the City Budget Office to unite with the larger team housed within Seattle IT. The proposal would shift the allocated staffing budget for the 1.0 FTE (Strategic Advisor 2, Exempt) through Payroll Expense Tax to Seattle IT and align budget with actual staff cost.

PSERN Operator Increase

Expenditures	\$1,723,969
Revenues	\$575,906

This item increases funding by \$1.7M to pay the Public Safety Emergency Radio Network (PSERN) operator, which serves as the region's emergency radio service. PSERN began operations in 2024 and adopted a rate plan which grows annually, and the City will need to budget for the incremental amount each year.

Proposed Capital

Enterprise Content Management Oracle Cloud Migration

Expenditures	\$1,758,191
Revenues	\$1,758,191

This \$5.6M project over three years will move and upgrade two Oracle Enterprise Content Management (ECM) platforms to the cloud, which serves departments across the City for critical applications such as the permitting system, utility assistance program, electronic document management system, Seattle City Light's customer online application, and AP/procurement systems. The current ECM versions will no longer be supported after 2026, the upgrade will also bring the system technically up to date, and create efficiencies including reduced cost for future upgrades.

Seattle Information Technology Department

Time Tracking, Leave and Scheduling for the Seattle Police Department

Expenditures	\$1,905,363
Revenues	\$1,905,363

This item adds \$1.9M for the procurement, implementation, and maintenance of a scheduling and timekeeping system to provide for better management of staff resources in the department and help align with the City's new time keeping Workday system implemented in 2024.

Reduction to Replacements of Seattle Channel Capital Equipment

Expenditures	\$(372,484)
Revenues	\$(372,484)

This item is described in the Reduction to Seattle Channel Cable Funded Programming budget change, and serves as the capital portion of the reductions needed, reallocating \$372,000 in this equipment replacement program to other funding needs. The City's revenues from cable television subscriptions continues to decline, leading to reductions needed to keep the Cable Television Franchise Fund in balance in the proposed budget.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures	\$(333,383)
--------------	-------------

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Bargained Annual Wage and Market Wage Increases to Base Budget – Local 77

Expenditures	\$11,218,918
--------------	--------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and Local 77 bargaining units, for personnel costs included in this department's budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Indirect Cost Adjustment from Budget Changes

Expenditures	\$(131,869)
Revenues	\$(131,866)

This item represents the impacts of 2023-2024 budget items on Seattle IT's indirect cost model. As funding changes with budget decisions made, it affects the level of indirect cost charges made as levels increase or decrease in changing programs.

Seattle Information Technology Department

Reducing Accela Permitting Sunset Positions

Expenditures	\$(661,405)
Revenues	\$(662,053)
Position Allocation	(4.00)

In the 2023 Adopted and 2024 Endorsed Budget, four FTEs (three Information Technology Professional - Bs, and one Information Technology Professional - A) were added to Seattle IT's Accela permitting program. These positions will sunset in 2024, and this item reduces the positions and budget from the program.

Ongoing Changes from Current Year Legislation

Position Allocation	(23.00)
---------------------	---------

This change includes ongoing budget and/or position changes resulting from current year legislation in 2024, including the Year End Supplemental Ordinance. For ITD, this item removes 23 positions funded by Coronavirus Local Fiscal Recovery, which ends in 2024.

Operating Impacts of Capital Adjustments

Expenditures	\$(645,941)
Revenues	\$(645,941)

This item reflects the operating impacts of the bond changes being made in the 2025 budget. As a result of the Telecommunications CIP adjustment moving bond issuance budget from 2024 and into 2025, this change request adjusts principal and interest costs on the proposed bond issuances.

Telecom Redesign Project Shift in Bond Issuance

Expenditures	\$3,460,000
Revenues	\$3,460,000

This item moves \$3.5 million of bond funding to the telecom redesign project in 2025, that was previously planned for 2024. The project has been delayed because of staffing and technology changes, and these budget changes reflect the revised spending plan.

Maintenance Funding for SPU-Specific Items

Expenditures	\$454,644
Revenues	\$454,644

This item for \$455,000 funds maintenance costs for SPU-specific annual renewal costs.

Add Maintenance Budget for Oracle ECM Upgrade

Expenditures	-
Revenues	-

This item starts in 2026 for \$127,000 and will support increased maintenance costs related to the Oracle Enterprise Content Management project that is moving those systems to the cloud.

Seattle Information Technology Department

Add Maintenance Budget for SPD's Time Keeping, Leave and Scheduling Software

Expenditures	-
Revenues	-

This item will support O&M costs related to the SPD time keeping, leave and scheduling software for \$704,000 starting in 2026.

SPU Technology Budget Adjustment

Expenditures	\$(305,000)
Revenues	\$(305,000)

This item changes appropriation authority for the anticipated Seattle Public Utilities (SPU) budget for IT projects in 2025 and 2026. This change aligns budget with forecasted spending plan.

Seattle City Light Technology Budget Adjustment

Expenditures	\$(4,815,000)
Revenues	\$(4,815,000)

This item changes appropriation authority for the anticipated Seattle City Light's budget for IT projects in 2025 and 2026. This change will align budget with the forecasted spending plan.

Seattle Information Technology Department

Appropriations by Budget Summary Level and Program

ITD - BC-IT-C0700 - Capital Improvement Projects

The Capital Improvement Projects Budget Summary Level provides support for citywide or department-specific IT projects and initiatives within Seattle IT's Capital Improvement Program (CIP).

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Application Services CIP	17,471,232	4,829,660	1,905,363	-
Citywide IT Initiatives CIP	313,260	-	1,758,191	2,571,508
Communications CIP	11,456,964	8,702,477	6,110,000	3,235,000
Enterprise Compute Services CIP	4,349,331	5,135,000	6,360,000	6,845,000
Fiber Enterprise Initiatives CIP	2,779,247	4,701,534	4,842,581	4,987,858
Programmatic Initiatives CIP	45,352	-	-	-
Radio Communications CIP	2,118,257	760,891	-	-
Seattle Channel CIP	264,719	363,463	-	-
Total	38,798,361	24,493,025	20,976,134	17,639,366

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Capital Improvement Projects Budget Summary Level:

Application Services CIP

This budget program contains Capital Improvement Program (CIP) funding associated with developing, implementing and enhancing various software applications used by City departments.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Application Services CIP	17,471,232	4,829,660	1,905,363	-

Citywide IT Initiatives CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with a portfolio of capital IT initiatives. Projects in this program may support multiple departments.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide IT Initiatives CIP	313,260	-	1,758,191	2,571,508

Communications CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with ongoing design, acquisition, replacement and upgrading of software, infrastructure and major hardware for the City's data, communications and telephonic systems which may include switches, and or connectivity infrastructure.

Seattle Information Technology Department

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Communications CIP	11,456,964	8,702,477	6,110,000	3,235,000

Enterprise Compute Services CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement, and upgrading of server and storage systems.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Enterprise Compute Services CIP	4,349,331	5,135,000	6,360,000	6,845,000

Fiber Enterprise Initiatives CIP

This budget program (formerly Technology Engineering & Project Management CIP) contains the Capital Improvement Program (CIP) funding associated with major maintenance and installation of a high-speed fiber-optic communication network for the City and its external fiber partners.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Fiber Enterprise Initiatives CIP	2,779,247	4,701,534	4,842,581	4,987,858

Programmatic Initiatives CIP

This budget program contains the Capital Improvement Program (CIP) funding for one-time Seattle IT Programmatic Initiatives including the acquisition and development of a new data center, the remodeling of Seattle IT space in the Seattle Municipal Tower, and the acquisition of new technology management tools.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Programmatic Initiatives CIP	45,352	-	-	-

Radio Communications CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement and upgrading of software and hardware for the City of Seattle's portion of the King County Regional 800 MHz radio system.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Radio Communications CIP	2,118,257	760,891	-	-

Seattle Channel CIP

This budget program contains the Capital Improvement Program (CIP) funding associated with the ongoing acquisition, replacement and upgrading of the cablecasting and production systems for the Seattle Channel.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Seattle Channel CIP	264,719	363,463	-	-

Seattle Information Technology Department

ITD - BO-IT-D0100 - Leadership and Administration

The Leadership and Administration Budget Summary Level provides executive, community, financial, human resource, and business support to Seattle IT.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Chief of Staff	-	-	-	-
Chief Privacy Office	-	-	-	-
Citywide Indirect Costs	13,909,681	8,316,392	6,580,025	7,043,528

Pooled Benefits and PTO	(1,173,638)	(165,742)	(69,810)	(51,191)
Total	26,964,129	30,221,208	27,441,343	28,794,291
Full-time Equivalents Total*	80.50	81.50	80.50	80.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Chief of Staff

This budget program contains the funding associated with the leadership and accountability of core administrative support to ITD's divisions. These efforts include the oversight of ITD's talent, workforce planning and training, communications, finance, corporate performance, and organizational change management.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Chief of Staff	-	-	-	-

Chief Privacy Office

This budget program provides oversight and guidance required for City Departments to incorporate appropriate privacy and surveillance ordinance compliance practices into City operations with the objective of building public trust and confidence in how we collect and manage the public's personal information.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Chief Privacy Office	-	-	-	-

Citywide Indirect Costs

This budget program contains the funding associated with the various overhead costs charged to Seattle IT, including budget and expenses that have been allocated from other City departments.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Citywide Indirect Costs	13,909,681	8,316,392	6,580,025	7,043,528

Seattle Information Technology Department

CTO / Executive Team

This budget program contains the funding associated with the Chief Technology Officer (CTO) and the Seattle IT Executive Team. The CTO sets technology standards and strategies to ensure the City's technology investments are used efficiently and effectively.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
CTO / Executive Team	-	-	-	-

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department including executive, financial, communications, human resources, business support, and strategic planning and analysis services. It also includes the costs for the City's Privacy and Surveillance program.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Departmental Indirect Costs	21,132,226	22,070,559	20,931,128	21,801,953
Full Time Equivalents Total	80.50	81.50	80.50	80.50

Executive Advisor

This budget program contains funding for key administrative support functions including process improvement, governance, interdepartmental service delivery, support for ITD's Racial Social Justice Initiative and community focused technology strategies.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Executive Advisor	-	-	-	-

Indirect Cost Recovery Offset

This budget program is used for the indirect cost recovery of Citywide and Departmental indirect costs incurred by Seattle IT.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Indirect Cost Recovery Offset	(6,904,140)	-	-	-

Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs for Seattle IT staff.

Expenditures/FTE	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Pooled Benefits and PTO	(1,173,638)	(165,742)	(69,810)	(51,191)

Seattle Information Technology Department

ITD - BO-IT-D0200 - Cable Franchise

The purpose of the Cable Fee Support to Information Technology Fund Budget Control Level is to authorize the transfer of resources from the Cable Television Franchise Fund to the Seattle Information Technology Department's Information Technology Fund. These resources are used by the department for a variety of programs consistent with Resolution 30379.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Cable Franchise for Info Tech	6,399,192	7,203,147	5,629,067	5,825,238
Total	6,399,192	7,203,147	5,629,067	5,825,238

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

ITD - BO-IT-D0300 - Technology Infrastructure

The Technology Infrastructure Budget Summary Level develops, maintains, and manages core IT services including communications and data networks, data center and cloud computing infrastructure, and database systems.

Program Expenditures	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Business Advancement Team	-	-	-	-
Communications Infrastructure	4,341,189	4,190,560	4,191,830	4,746,384
Database Systems	2,890,395	2,765,355	2,883,842	2,909,432
Enterprise Computing	755,199	202,509	194,074	209,092

Total	57,576,714	65,950,075	65,128,251	70,320,311
Full-time Equivalents Total*	118.00	118.00	118.00	118.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Technology Infrastructure Budget Summary Level:

Business Advancement Team

This budget program contains funding to support project planning and delivery support for ITD operating projects. This program includes business analysts and project managers.

Seattle Information Technology Department

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Business Advancement Team	-	-	-	-

Communications Infrastructure

This budget program contains funding to provide data center services as well as costs for major moves, additions, or changes to communication network infrastructure.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Communications Infrastructure	4,341,189	4,190,560	4,191,830	4,746,384
Full Time Equivalents Total	3.00	3.00	3.00	3.00

Database Systems

This budget program contains funding associated with maintenance and direct labor costs for database administrators and data architecture. This includes installing and upgrading database structures, controlling and monitoring access to databases, and backing up and restoring databases.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Database Systems	2,890,395	2,765,355	2,883,842	2,909,432
Full Time Equivalents Total	10.25	10.25	10.25	10.25

Enterprise Computing

This budget program contains the funding associated with providing and managing public cloud services for Seattle IT customers.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Enterprise Computing	755,199	202,509	194,074	209,092

Enterprise Services

This budget program contains the funding associated with Seattle IT's messaging support and identity management services.

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Expenditures/FTE				
Enterprise Services	3,480,399	3,353,590	4,116,661	4,320,057
Full Time Equivalents Total	9.00	9.00	9.00	9.00

Infrastructure Tools

This budget program contains funding for major system controls, switches and components to support the technology infrastructure system operations.

Seattle Information Technology Department

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Infrastructure Tools	4,194,131	4,878,463	5,133,525	6,038,068
Full Time Equivalents Total	13.00	13.00	13.00	13.00

Middleware

This budget program contains funding to support translation layers that enable communication between an operating platform and applications running on that platform.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Middleware	2,375,830	2,813,198	3,554,849	3,699,430
Full Time Equivalents Total	12.00	12.00	12.00	12.00

Network Operations

This budget program contains funding for the design, operations, and maintenance of the City's fiber optic, wireless, and data networks, including City's internet access.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Network Operations	6,989,592	8,291,448	7,513,179	7,761,745
Full Time Equivalents Total	14.00	14.00	14.00	14.00

Radio Management

This budget program contains funding for maintenance of the City's emergency radio and dispatch systems including radios, pagers, and radio towers, base stations microwave and the fiber network for all the City's radio operations. The program also provides radio programming, installation and maintenance to City Departments and external partners.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Radio Management	5,666,985	6,220,355	5,569,046	5,904,818
Full Time Equivalents Total	10.00	10.00	10.00	10.00

Systems Engineering

This budget program contains funding associated with core computing services Seattle IT provides its customers, including the backup, recovery, and storage of customer data.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Systems Engineering	4,240,768	5,359,884	4,881,535	6,137,067
Full Time Equivalents Total	5.50	5.50	5.50	5.50

Seattle Information Technology Department

Telephone Engineering

This budget program contains funding for the design, maintenance and operations of the City's consolidated telephone systems.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Telephone Engineering	11,827,038	15,057,938	13,941,206	14,593,850
Full Time Equivalents Total	17.00	17.00	17.00	17.00

Windows Systems

This budget program contains funding associated with the centralized hosting, management and support of Windows applications.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Windows Systems	10,815,187	12,816,774	13,148,502	14,000,367
Full Time Equivalents Total	24.25	24.25	24.25	24.25

ITD - BO-IT-D0400 - Frontline Services and Workplace

The Frontline Services and Workplace Budget Summary Level develops, maintains, and manages all client support services, including incident resolution, end-user equipment and software deployment, device maintenance, operating system configuration and management, digital tools that enable everyday work, public-facing communications software development, and support. This Budget Summary Level also includes the Seattle Channel as the public-facing entity of the department and the Broadband and Community Technology programs.

Program Expenditures	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Community Technology and Broadband	1,558,636	1,651,292	1,479,098	1,522,882
Digital Workplace	13,562,381	13,722,899	15,073,908	15,702,432
Frontline Digital Services	40,120,445	34,426,113	31,977,687	32,431,851
Total	55,241,462	49,800,303	48,530,693	49,657,165
Full-time Equivalents Total*	152.75	152.75	129.75	129.75

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Frontline Services and Workplace Budget Summary Level:

Community Technology and Broadband

This budget program contains the funding associated with the Community Technology Services team and the Technology Matching Fund. The Technology Matching Fund provides grants to community-based organizations for projects centered on improving digital equity.

	2023	2024	2025	2026
Expenditures/FTE	Actuals	Adopted	Proposed	Proposed
Community Technology and Broadband	1,558,636	1,651,292	1,479,098	1,522,882
Full Time Equivalents Total	5.00	5.00	5.00	5.00

Seattle Information Technology Department

Digital Workplace

This budget program contains funding to enable digital tools and capabilities for the City’s workforce including SharePoint, Office 365 Collaboration, Windows Enterprise, Process Automation, eDiscovery, and Mobility.

Expenditures/FTE	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Digital Workplace	13,562,381	13,722,899	15,073,908	15,702,432
Full Time Equivalents Total	17.50	17.50	17.50	17.50

Frontline Digital Services

This budget program contains funding to develop, maintain, and manage client support services, including incident resolution, end-user equipment and software deployment, device maintenance, operating system configuration and management, digital tools that enable everyday work, and public-facing communications software development and support. Major services include Seattle Channel, Solutions Desk, Desktop Support, IT Asset Management, Computer Lifecycle and IT Service Management.

Expenditures/FTE	2023	2024	2025	2026
	Actuals	Adopted	Proposed	Proposed
Frontline Digital Services	40,120,445	34,426,113	31,977,687	32,431,851
Full Time Equivalents Total	130.25	130.25	107.25	107.25

ITD - BO-IT-D0500 - Digital Security & Risk

The Digital Security and Risk Budget Summary Level provides security and risk mitigation services for the City's computing environments, and develops, applies, and monitors compliance with technology policies and procedures. This Budget Summary Level also includes the department’s Emergency Management team.

Office of Intergovernmental Relations

Mina Hashemi, Director

(206) 684-0213

www.seattle.gov/oir

Department Overview

The Office of Intergovernmental Relations (OIR) provides advice and information to, and on behalf of, City elected officials, City departments, and external partners. The primary goal of these efforts is to ensure the City's interests are advanced with regional, state, federal, tribal, and international entities to enable the City to better serve the Seattle community. OIR is also responsible for engaging with other jurisdictions and governmental entities to collaborate and advocate for outcomes that are in the interest of the City and region. OIR implements and manages lobbying contracts and ensures the City's lobbying resources align with the City's strategic advocacy priorities.

Budget Overview

The City's 2025-2026 Proposed Budget maintains core services for the Office of Intergovernmental Relations. The department will continue to invest in all areas of services supporting regional, state, federal, tribal, and international affairs. The proposed budget makes baseline adjustments to align budget with membership dues increases, departmental staffing levels, internal service cost changes, and annual wage and market adjustment increases.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in scalable service areas that allow the department to continue delivering services at reduced funding levels. Specifically, the proposed budget eliminates one of the department's two International Affairs Directors.

Office of Intergovernmental Relations

Description of Incremental Budget Changes

Baseline

Align Labor and Memberships Budget with Anticipated Actuals

Expenditures \$137,944

This ongoing baseline item adds \$137,944 in 2025, and \$167,161 in 2026 to align labor and memberships budget with anticipated actuals. Historically, the Office of Intergovernmental Relations (OIR) budget has assumed no vacancy rate and salary savings have been used to support salaries above midpoint and increases in membership dues above budgeted expectations. Over the 2023-2024 biennium, OIR has reached full staffing and no longer accrues salary savings to support these costs. This item aligns baseline budget for labor based on current staffing level and for memberships based on anticipated dues increases in both years of the biennium.

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$214,799

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Office of Intergovernmental Relations

Citywide Adjustments for Standard Cost Changes

Expenditures \$7,367

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Reduce Funding for International Affairs Portfolio

Expenditures \$(190,389)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. This ongoing item eliminates funding for one position on the International Affairs team. In 2024, this body of work is managed by two staff members. Beginning in 2025, this work will be managed by one staff member.

Proposed Technical

Technical Adjustment to Align Budget with Anticipated Actuals

Expenditures -

This ongoing, budget-neutral item makes an account-level transfer to reflect that Tribal Affairs work is managed by a consultant contract. In the base budget, Tribal Affairs work is budgeted in labor accounts.

August General Fund Revenue Adjustment

Revenues \$41,598

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Final Adjustments for Standard Cost Changes

Expenditures \$(12,820)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Legislative Department

Sara Nelson, Council President

(206) 684-8809

<http://www.seattle.gov/council/>

Department Overview

The Legislative Department is comprised of the Seattle City Council, as well as two primary divisions: Central Staff and the Office of the City Clerk. Each division supports various aspects of the Council and works with members of the public and City departments to facilitate and develop effective and responsive public policy. The Council and Legislative Department are part of the legislative branch of government, which also includes the Office of City Auditor, the Office of Hearing Examiner, and the Office of Inspector General for Public Safety.

The Council is composed of two at-large and seven district-elected seats for a total of nine, nonpartisan, elected Councilmembers. In November 2023, seven district Councilmembers were elected to a four-year term beginning in 2024. Two at-large Councilmembers are elected to align with the election for a four-year term with the Mayor and City Attorney election in 2021. This approach staggers the district and at-large elections two years apart. In 2024, one at-large position was appointed to the Council as a resignation replacement. A special election in November 2024 will determine the Councilmember for the last year of this term in 2025.

The City Council establishes City laws; creates, evaluates and approves policies, legislation, and regulations; approves the City's annual operating and capital improvement budgets; and provides oversight to the City's executive departments. Each Councilmember has a staff of legislative assistants who assist in this work.

Central Staff provides policy and budget analysis for Councilmembers and their staffs, as well project management related to City Council consultant contracts. The Office of the City Clerk advances principles of open government and inclusive access through effective facilitation of the legislative process and transparent, accountable stewardship of public information and the official record, including City Council proceedings and legislation. The City Clerk serves as ex-officio elections administrator and filing officer. The office manages the City's Boards and Commissions Registry Program; coordinates public records disclosure requests; and provides information technology, administrative and operational support to the Legislative Department.

Communications and Human Resources/Finance teams are also a part of the Legislative Department. Communications staff assist Councilmembers and the Council as a whole in communicating values, goals and issues to the public by providing marketing and public relations services, including website and social media management, strategic media relations and public affairs work. Human Resources/Finance staff provide employee relations, talent acquisition, employee development, performance management, benefits administration services, finance, budget, accounting, and payroll for the Legislative Department and the Office of City Auditor.

Legislative Department

Budget Overview

The 2025-2026 Proposed Budget maintains core services for the Legislative Department. This proposed budget increases the department's budget by 8% from 2024, and it includes technical adjustments to bring the department's baseline budget into alignment with internal service cost changes and annual wage and market adjustment increases.

The General Fund revenue forecast for the budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the following areas: an increase in vacancy rate assumption by 1% resulting in a reduction of approximately \$165,500 in ongoing General Fund salary appropriation.

Incremental Budget Changes

Legislative Department

	Dollars	FTE
2024 Adopted Budget	21,022,811	101.50

Total 2025 Proposed Budget	\$22,764,475	101.50

Legislative Department

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$2,012,536

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$263,749

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Remove One-Time Council Staff Transition Funding

Expenditures \$(200,000)

This item removes one-time funding that was appropriated to assist with elected officials and staff transitions for 2024, due to the high number of transitions.

Proposed Operating

Increase Vacancy Rate by 1%

Expenditures \$(165,579)

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item increases the Legislative Department's vacancy rate assumption by 1%, which reduces its General Fund budget and could result in the department temporarily holding vacancies when and where they become available.

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(169,042)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Department Overview

The Office of the Mayor works to provide leadership to the residents, employees, and regional neighbors of the City of Seattle and to create an environment that encourages ideas, civic discourse, and inclusion for the City's entire diverse population.

In the municipality of Seattle, the Mayor governs the Executive Branch as its chief executive officer. The many legal roles and responsibilities of the Mayor, and those working directly for the Mayor, are prescribed in the City Charter, state statutes and municipal ordinances. Elections for this nonpartisan office are held every four years.

Budget Snapshot

	2023 Actuals	2024 Adopted	2025 Proposed	2026 Proposed
Department Support				
General Fund Support	9,885,343	11,865,768	15,131,822	15,976,485
Total Operations	9,885,343	11,865,768	15,131,822	15,976,485
Total Appropriations	9,885,343	11,865,768	15,131,822	15,976,485
Full-Time Equivalents Total*	40.50	40.50	40.50	40.50

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The 2025-2026 Proposed Budget maintains core services for the Office of the Mayor. The proposed budget includes technical adjustments to align the department's budget with internal service cost changes and annual wage and market adjustment increases.

The General Fund revenue forecast for the City's 2025-2026 Proposed Budget is insufficient to cover all anticipated Citywide costs. General Fund reductions were identified to mitigate this shortfall. To preserve critical City services due to the General Fund deficit, budget adjustments were made in the Office of the Mayor to increase the vacancy rate assumption by 1% resulting in an ongoing reduction of approximately \$70,000.

Office of the Mayor

Incremental Budget Changes

Office of the Mayor

	Dollars	FTE
2024 Adopted Budget	11,865,768	40.50
Baseline		
Bargained Annual Wage and Market Wage Increases to Base Budget	848,166	-
Citywide Adjustments for Standard Cost Changes	2,592,531	-
Proposed Operating		
Increase Vacancy Rate by 1%	(69,380)	-
Proposed Technical		
Final Adjustments for Standard Cost Changes	(105,263)	-
Total Incremental Changes	\$3,266,054	-
Total 2025 Proposed Budget	\$15,131,822	40.50

Description of Incremental Budget Changes

Baseline

Bargained Annual Wage and Market Wage Increases to Base Budget

Expenditures \$848,166

This centrally administered change adjusts appropriations to reflect the Annual Wage Increases and Market Adjustments, as outlined in the agreements between the City and the Coalition of Unions or other standalone Unions, for personnel costs included in this department’s baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Citywide Adjustments for Standard Cost Changes

Expenditures \$2,592,531

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Increase Vacancy Rate by 1%

Expenditures \$(69,380)

The General Fund revenue forecast for the City’s 2025-2026 Proposed Budget is insufficient to cover all expected Citywide costs. General Fund reductions were identified to mitigate this shortfall in revenues. This ongoing item increases the Office of the Mayor's vacancy rate assumption to 1%, which reduces General Fund budget and could result in the department temporarily holding vacancies when and where they become available.

Office of the Mayor

Proposed Technical

Final Adjustments for Standard Cost Changes

Expenditures \$(105,263)

Citywide technical adjustments made in the proposed phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare for the department. These adjustments reflect final decisions about these costs made during the Proposed Phase of the budget process.

Notes:

¹ Through CBA FG-903-A-001-2023, Council transferred \$1.2 million in JumpStart revenue into the Sweetened Beverage Tax Fund in both 2023 and 2024 to temporarily buffer a shortfall in Sweetened Beverage Tax (SBT) revenue. This action is in response to the November 2022 revenue forecast.

² 2024 Legislated and Revised expenditures include carryforwards.

¹The City is working with the Local Organizing Committee to identify CIP Projects that will be necessary as preparation for the 2026 World Cup, which is expected to bring a significant number of visitors to the region and have notable impacts on infrastructure. These one-time funds will be appropriated through the supplemental budget process in 2025.

² Street Vacation Fees are based on various economic factors related to site development. While the City does attempt to estimate Street Vacation Fee revenue based on preliminary site development, the fee can be delayed up to a few years. To account for the uncertainty, the City may hold planning reserves until more information is known on the underlying project.

¹The decreased Department Contributions in the 2024 Revised are due to the planned cancellation of certain department payments into the fund in October-December of 2024, totalling \$53.3 million. Such a cancellation of payments is often called a "health care holiday" and is the method by which fund surpluses, accumulated due to the over estimation of enrollments or general excess revenue above expenditures, are returned to departments. For more details on the 2024 health care holiday, see the budget overview.

---------------------	-----------------	-----------------	-----------------	------------------	------------------	-------------------	-------------------

Notes:

1. The Golf reserve reflects excess revenues earned by the Golf program to be appropriated in subsequent budget year via a supplemental budget change.
2. The SPU Reservoir reserve holds anticipated property use fee expenses related to the joint use of SPU and SPR properties.
3. The financial plan carries a modest cash flow reserve to maintain financial stability in the face of one time unforeseen and unbudgeted expense or revenue issues.
4. The financial plan carries a Capital Revenue Reserve for capital projects where reimbursements for grant-related expenses are not received until a future year.
5. These reserves covered anticipated expenditures in 2023 for both the Park and Recreation Fund and the Seattle Metropolitan Park District Fund (19710). In 2025 - 2028 these reserves cover anticipated expenditures in only the Park and Recreation Fund.
6. This reserve reflects temporary rental income on the landbanked site that will be used for future site development or remediation work.
7. This reserve was held to cover the the Aquatics subsidy resulting from the COVID-19 pandemic (2023-2025).
8. This reserve was was held to cover one time costs related to the operating agreement with the Zoo.

Notes:

¹ The Democracy Voucher Program is funded by a voter-approved, ten-year levy that expires December 31, 2025. In this scenario, the program is not renewed. However if another ballot measure is put forth and approved by voters, the program could continue in 2026 and beyond.

Notes:

1. The CDBG Restricted Revolving Loan Funds represent three distinct funds: Multifamily Revolving Loan Fund, the Homebuyer Revolving Loan Fund, and the Home Repair Revolving Loan Fund. The proposed budget eliminates the Multifamily and Homebuyer Revolving Loan Funds. The reserve amount in 2025 reflects the current total balance for all three funds. The reserve amount in 2026 reflects the current balance for the Home Repair Revolving Loan Fund only.
2. The Multifamily and Homeownership Capital Fund planning reserve is a balancing entry to reflect that any remaining unreserved fund balance in the Low-Income Housing Fund will be reallocated to multifamily or homeownership capital awards.

Notes:

1. The 2023 Levy Admin Reserve in the planning reserves will cover anticipated labor cost increases in the outyears of the Levy. The amount of revenue generated by the Levy is constant in each year. Actual labor costs are less than collected revenues in the beginning years of the Levy and are more than collected revenues in the final years of the Levy.

Notes:

1. Outyear property tax growth estimated at 1% based on CBO forecast.
2. Sources of Funding: Families and Education Levy (2011) Fund Balance is based on the adopted levy plan.
3. These provide resources to continue programming as outlined in the FEPP Levy Implementation & Evaluation Plan. Any annual underspend is reallocated each year through planning with the FEPP Levy
4. These resources were set aside from 2022 underspend for additional programmatic needs for the 2024-25 and 2025-26 school years.
5. These are resources from 2023 underspend for additional programmatic needs for the 2024-25 and 2025-26 school years.
6. Seattle Promise Reserve funds increasing enrollment and support services based on projected increases in demand.
7. Levy Renewal Contingency is available to reduce the future levy size and/or transition services no longer supported by the levy.

Notes:

¹ Historic beginning fund balances are the cash balance on January 1 of that year.

² Out year assumptions represent forecasted cash flows in the utility's Financial Planning Model which is used to evaluate City Light rate impacts, potential financial performance of the utility.

³ Revenues include bond sales.

¹ Beginning Fund Balance is cash balance at the beginning of the year.

² Technical Adjustments represent non-budgetary items, including accounting adjustments, that affect budgetary fund balances. These items can be non-budgetary expenditures (e.g. OPEB) or can represent technical revenue or spending adjustments (e.g. accomplishment rates).

³ The Water Fund targets an ending operating cash balance of \$110 million per year.

Ending Unreserved Budgetary Fund Balance	17,405	(1)	15,404	10,634	6,783	3,265	()

¹ Assumes 2% annual growth for both revenues and expenditures 2027-2028, excluding Capital Improvements, which remain static, and planned uses of fund balance.

² "Revenues from Other City Departments" for projected years (2027-28) is set to match the difference between total budgetary expenditures (less planned uses of fund balance) and the sum of all other revenue sources. This reflects FAS' rate setting process, which aims to recover 100% of budgetary expenditures.

³ Due to FAS' new project structure, expenditure categories have changed starting in 2024 to align with new Budget Summary Levels.

⁴ 2024 revised Capital Improvements revenue reflects anticipated billing of \$24.7 million for capital projects FAS executes on behalf of other departments.

⁵ An assumed \$1.5m use of fund balance is built into each of 2027 and 2028.

¹ Revenues from Other City Departments are set to minimize variance from year to year while still bringing in sufficient funds to replace vehicles as planned.

² Revenues from Other City Departments are based on the replacement model's projections of future collections. 2027-2028 revenues include a premium to recover for the proposed two-year rate holiday.

³ Projected expenditures are set to match planned vehicle replacements and are inconsistent from year to year.

⁴ \$24.9 million of the encumbered funds are for Fire apparatus that will not be delivered or paid for until 2027. This is reflected in the 2027 projected spend.

⁵ All fund balance reserved for future vehicle replacements.

⁶ Updating the financial plan to align with the vehicle replacement model, which includes anticipated salvage revenue.

⁷ This row tracks the cumulative salvage revenue in the reserves as it does not automatically carry forward in the financial plan.

Amounts in \$1,000s	2023 Actuals	2024 Adopted	2024 Revised	2025 Proposed	2026 Proposed	2027 Projected	2028 Projected
---------------------	-----------------	-----------------	-----------------	------------------	------------------	-------------------	-------------------

Assumptions:

- ¹Beginning Balance Sheet Fund Balance/Ending Balance Sheet Adjustment exclude account 143900 - Prepaid Expenses-Other per CWA's guidance.
- ²Billable Project Revenues: Double budget appropriation for IT Project Management resources that are not assigned to specific Projects.
- ³ITD's Cost of Technology Consumption: ITD's consumption of ITD projects and services. Represents intra-fund (50410) revenue.
- ⁴Non-City Agency Revenues: Revenue collected from Agencies outside of the City of Seattle (e.g., King County).
- ⁵Rates Direct Billed (2023 CIP Carryforward Items): Unspent CIP budget, carried forward from FY 2023 to FY 2024, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).
- ⁶Direct Billed (2023 Grants Carryforward): Unspent FCC Grant budget, carried forward from FY 2023 to FY 2024, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).
- ⁷Rates Direct Billed (2023 Operating Carryforward Items): Unspent operating budget, carried forward from FY 2023 to FY 2024, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).
- ⁸One-Time Projects: Reserves for various one-time ITD projects.
- ⁹Expenditures in the out years are reflecting the real debt service schedule in the out years instead of standard inflation per CBO.
- ¹⁰Current Year Grant/Svc Contract/Capital CFD Revenues: Includes the direct billed revenues to be collected in FY 2024 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), Encumbrances, Grants, and Special Carryforward budgets.
- ¹¹Current Year Grant/Svc Contract/Capital Expenditure CFD's: Includes the allocated revenues collected in FY 2023 for CIP (excluding PC-IT-C7050 'Radio Communications CIP'), and Special Carryforward budgets.
- ¹²Computer Replacement: PC replacements for the Law Department which replaces all of its PCs every five years, versus a portion each year.

¹ Assumes 2% annual growth for both revenues and expenditures 2027-2028.

² Revised includes increased billing estimate to account for labor inflation approved after 2024 budget adoption.

Central Service Departments and Commissions – 2025-2026 Cost Allocation Factors

Central Service Department	Cost Allocation Factor
City Auditor	Count of audit reports per department over prior two-year period.
City Budget Office	Percent of FTE time spent on cost allocation departments/funds.
Civil Service Commission	Five-year average number of cases by department.
Office of Civil Rights	Enforcement: 2-year average number of cases filed by department. RSJI: Budgeted FTE by department. Policy: 100% General Fund Administration: Applied proportionally to department programs.
Office of Employee Ombud	Budgeted FTE by department.
Office of Intergovernmental Relations	Staff time and assignments by department.
Office of Sustainability and Environment	Management assessment of FTE time on work programs.
Law Department	Two-year average of civil attorney and paralegal service hours by department (excludes hours that are covered by direct billing via MOAs), including proportionate amount of overhead.
Legislative Department	City Clerk’s Office based on number of Legislative items; Central Staff and Legislative Assistants on assignments; City Council 100% General Fund or by MOA.
State Examiner (State Auditor)	75% by PeopleSoft data points; 25% by budgeted FTEs.
Emergency Management	Actual operating expenditure dollar spread.

Adjustments from 2025-2026 Budget Factors:

- Civil Service Commission – Updated table to show that we use a rolling five year average due to the low number of cases per year. CBO has been using a five-year average for several cycles but the table was not updated.
- Office for Civil Rights RSJI Budget – For 2025-26, the RSJI budget will be split using 2024 Adopted Budget FTEs. The RSJI team has experienced historic vacancy rates over the last two years and saw a large reduction in the number of trainings being held in 2022-23 because of COVID and priority shifts. This training measure is not an accurate depiction of how the budget was being used. The department is shifting the RSJI focus away from a training-based approach to business to supporting RSJI needs of the City with project management, technical assistance, leadership trainings (cohorts), train the trainer programs, the RSJI Summit and IDT support for new RSJI charter. Currently, there are no historical measures for this type of work in OCR. Since their work affects all employees to some extent, Budgeted FTEs will be used until factors can be collected and applied.

Glossary

Annual Comprehensive Financial Report of the City (ACFR): The City's audited annual financial statements prepared by the Department of Finance & Administrative Services.

Appropriation: A legal spending authorization granted by the City Council, the City's legislative authority, to make expenditures and/or incur obligations for specific purposes.

Biennial Budget: A budget covering a two-year period. Under state law, a biennium begins with an odd-numbered year.

Budget - Adopted and Proposed: The Mayor submits to the City Council a recommended revenue and expenditure level for all City operations for the coming fiscal year as the Proposed Budget. When the City Council agrees upon the revenue and expenditure levels, the Proposed Budget becomes the Adopted Budget, funds are appropriated, and legal expenditure limits are established.

Budget - Endorsed: The City of Seattle implements biennial budgeting through the sequential adoption of two one-year budgets. When adopting the budget for the first year of the biennium, the Council endorses a budget for the second year. The Endorsed Budget is the basis for a Proposed Budget for the second year of the biennium, and is reviewed and adopted in the fall of the first year of the biennium.

Budget Control Level: The level at which expenditure appropriations are controlled to meet State and City budget law provisions.

Capital Assets: Assets of significant value and having a useful life of at least 10 years or more. Capital assets may also be referred to as "fixed assets."

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City's budget for certain capital purposes such as street improvements, building construction, and some kinds of facility maintenance. These appropriations are supported by a six-year allocation plan detailing all projects, fund sources, and expenditure amounts, including many multi-year projects that require funding beyond the one-year period of the annual budget. The allocation plan covers a six-year period and is produced as a separate document from the budget document.

Chart of Accounts: A list of expenditure, revenue, and other accounts describing and categorizing financial transactions.

Community Development Block Grant (CDBG): A U.S. Department of Housing and Urban Development (HUD) annual grant to Seattle and other local governments to support economic development projects, human services, low-income housing, and services in low-income neighborhoods.

Cost Allocation: Distribution of costs based on some proxy for costs incurred or benefits received.

Cumulative Reserve Subfund (CRS): A significant source of ongoing local funding to support capital projects in general government departments. The CRS consists of two accounts: the Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has six subaccounts: REET I, REET II, Unrestricted, South Lake Union Property Proceeds, Asset Preservation Subaccount - Fleets and Facilities, and the Street Vacation Subaccount. The Real Estate Excise Tax (REET) is levied on all sales of real estate, with the first .25% of the locally imposed tax going to REET I and the second .25% to REET II. State law specifies how each REET can be spent.

Debt Service: Annual principal and interest payments the City owes on money it has borrowed.

Errata: Adjustments, corrections, and new information sent by departments through the City Budget Office to the City Council during the Council's budget review as an adjunct to the Mayor's Proposed Budget. The purpose is to adjust the Proposed Budget to reflect information not available upon submittal and to correct inadvertent errors.

Glossary

Full-Time Equivalent (FTE): A term expressing the amount of time for which a position has been budgeted in relation to the amount of time a regular, full-time employee normally works in a year. Most full-time employees (1.00 FTE) are paid for 2,088 hours in a year (or 2,096 in a leap year). A position budgeted to work half-time for a full year, or full-time for only six months, is 0.50 FTE.

Fund: An accounting entity with a set of self-balancing revenue and expenditure accounts used to record the financial affairs of a governmental organization.

Fund Balance: The difference between the assets and liabilities of a particular fund. This incorporates the accumulated difference between the revenues and expenditures each year.

General Fund: A central fund into which most of the City's general tax revenues and discretionary resources are pooled, and which is allocated to support many of the operations of City government. Beginning with the 1997 Adopted Budget, the General Fund was restructured to encompass a number of subfunds, including the General Fund Subfund (comparable to the "General Fund" in prior years) and other subfunds designated for a variety of specific purposes. These subfunds are listed and explained in more detail in department chapters, as well as in the Funds, Subfunds, and Other section of the budget document.

Grant-Funded Position: A position funded 50% or more by a categorical grant to carry out a specific project or goal. Seattle Municipal Code 4.04.030 specifies that "categorical grant" does not include Community Development Block Grant funds, nor any funds provided under a statutory entitlement or distribution on the basis of a fixed formula including, but not limited to, relative population.

Neighborhood Matching Subfund (NMF): A fund supporting partnerships between the City and neighborhood groups to produce neighborhood-initiated planning, organizing, and improvement projects. The City provides a cash match to the community's contribution of volunteer labor, materials, professional services, or cash. The NMF is administered by the Department of Neighborhoods.

Operating Budget: That portion of a budget dealing with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

PeopleSoft 9.2: The City's central accounting system managed by the Department of Finance & Administrative Services.

Position/Pocket Number: A term referring to the title and unique position identification number assigned to each position authorized by the City Council through the budget or other ordinances. Positions may have a common title name, but each position has its own unique identification number assigned by the Records Information Management Unit of the Seattle Department of Human Resources at the time position authority is approved by the City Council. Only one person at a time can fill a regularly budgeted position. An exception is in the case of job-sharing, where two people work part-time in one full-time position.

Program: A group of services within a department, aligned by common purpose.

Reclassification Request: A request to change the job title or classification for an existing position. Reclassifications are subject to review and approval by the Classification/Compensation Unit of the Seattle Department of Human Resources and are implemented upon the signature of the Director of Human Resources, as long as position authority has been established by ordinance.

Reorganization: Reorganization refers to changes in the budget and reporting structure within departments.

SUMMIT: The City's former central accounting system managed by the Department of Finance & Administrative Services.

Sunsetting Position: A position funded for only a specified length of time by the budget or enabling ordinance.

TES (Temporary Employment Service): A program managed by the Seattle Department of Human Resources. TES places temporary workers in departments for purposes of filling unanticipated, short-term staffing needs, such as vacation coverage, positions vacant until a regularly-appointed hire is made, and special projects.

Glossary

Type of Position: There are two types of budgeted positions. They are identified by one of the following characters: **F** for **Full-Time** or **P** for **Part-Time**.

- **Regular Full-Time** is defined as a position budgeted for 2,088 compensated hours per year, 40 hours per week, 80 hours per pay period, and is also known as one full-time equivalent (FTE).
- **Regular Part-Time** is defined as a position designated as part time, and requiring an average of 20 hours or more, but less than 40 hours of work per week during the year. This equates to an FTE value of at least 0.50 and no more than 0.99.
