

**Amendment A Version #1 to CB 120824 – Downtown Activation Plan: Design Review Exemption**

**Sponsor:** Councilmember Kettle

Strike authority to waive loading and access requirements.

**Effect:** Council Bill (CB) 120824 would authorize the SDCI Director to waive or modify development standards identified in the bill. A decision to grant a waiver or modification to a development standard would be based solely on the criterion that “a waiver or modification of development standards would result in an increased number of dwelling units, lodging rooms, or increased floor area of a research and development laboratory use, being constructed.”

This amendment would strike the authority for the Director to waive or modify requirements for vehicle access to parking, loading, and utility spaces. The amendment is intended to ensure that new development contains minimum access requirements to parking, loading, and other service areas of a building developed under the proposed exemption.

Amend Sections 1 CB 120824 as follows:

Section 1. Section 23.41.004 of the Seattle Municipal Code, last amended by Ordinance 126862, is amended as follows:
