 CITY CLERK

CHARLES E. BECK, P.E., LEED AP

EDUCATION AND PROFESSIONAL AFFILIATIONS

- BS, Electrical Engineering, University of Notre Dame.
- MS, Electrical and Computer Engineering, Illinois Institute of Technology.
- Licensed Professional Engineer (WA, OR, CA, DE).
- LEED Accredited Professional.
- Licensed Electrical Administrator (01 – General, Washington State).
- Senior Member, Institute of Electrical and Electronic Engineers (IEEE).

EXPERIENCE SUMMARY

Over thirty years as a consultant, working both as a Senior Electrical Engineer and as a Project Manager. Performed electrical design and analysis for systems operating from 120 to 25,000 volts. Created design drawings and specifications; used AutoCAD to generate one-line diagrams and electrical floor plans; used SKM Power*Tools and other software packages to perform service load calculations, short circuit studies, arc flash evaluations, and other power systems analyses; provided support during bidding and construction; and performed field verifications of as-built conditions. Designed power and lighting systems for universities, hospitals, research laboratories, marine terminals, airports, military facilities, correctional institutions, and wastewater treatment facilities. Conducted Systems Engineering Evaluations and Value Engineering Studies.

Managed multiple, simultaneous projects involving all engineering disciplines, with project schedules ranging from under a week to over two years. Supervised large groups of technical personnel of diverse experience and backgrounds. Responsible for marketing; determining project scope, schedule, and budget; negotiating contracts; writing proposals; executing all contract requirements; and maintaining good client relations. Worked as an independent consultant under my own company for two years.

TECHNICAL PUBLICATIONS

Published twenty papers in IEEE journals and conference proceedings. Topics include motors, relays, battery systems, industrial co-generation, power conditioning, fault analysis, reliability analysis of transmission system relaying, maintenance processes, and Human Factors Engineering. Co-authored a research report on condition monitoring programs for the Electric Power Research Institute (EPRI).

Construction Codes Advisory Board

13 members: Per ordinance 121519, all subject to City Council confirmation, 03-year terms:

- 0 City Council-appointed
- 13 Mayor-appointed
- # Other Appointing Authority-appointed (specify):

*D	**G	Position No.	Position Title	Name	Term Start Date	Term End Date	Term #	Appointed By
