1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to the municipal water system of The City of Seattle; adopting a system or plan of additions and betterments to and extensions of the existing municipal water system; authorizing the issuance and sale of water system revenue bonds in one or more series for the purposes of paying or reimbursing part of the cost of carrying out that system or plan, providing for the reserve requirement, and paying the costs of issuance of the bonds; providing parameters for the bond sale terms including conditions, covenants, and other sale terms; describing the lien of the bonds; creating certain accounts of the City relating to the bonds; and ratifying and confirming certain prior acts.

Summary and Background of the Legislation: This legislation provides legal authorization for the Water System to issue up to \$106 million of bonds to fund a portion of capital expenditures outlined in the proposed 2025-2030 Capital Improvement Plan (CIP). Although the budget, capital plan, and rates make specific assumptions about the use of debt financing for a certain share of the capital program, separate authorization for the issuance of bonds is technically required.

The bond sale is anticipated to occur in mid-2025. The bond proceeds, combined with internally generated funds, will support the water system capital program for about 12 months. The bond sizing is based on the adopted budget, Strategic Business Plan, rates, planned cash flow, and cash contribution targets. The bond proceeds will also be used to make a deposit to the bond reserve fund and to pay issuance costs. Annual debt service is expected to be approximately \$6.9 million. Major projects supported by the bond issue include transmission and distribution system upgrades, water quality and treatment and transportation-related projects. For further information about Water CIP, please see the SPU Proposed 2025-2030 capital plan.
