L. Fees for certification examinations are established in Schedule L. Each examination fee listed under Schedule L includes one test and one opportunity to retake the test under the following "re-test" conditions: the person taking the examination does not pass the examination the first time and the "re-test" occurs within 90 calendar days of the original test. Upon successfully passing a certification examination, and upon providing evidence of current State of Washington certification if required by State law for that certification type, the person who took the test will be certified by The City of Seattle for that certification type for one year. The certification may be renewed for two subsequent years at no cost to the licensee. The licensee will, however, need to demonstrate continued competence and continue to comply with State regulations where applicable as a condition of certification renewal. The renewal of the license will be denied if the Seattle Fire Department becomes informed and verifies that the licensee no longer meets the qualifications for the license. Testing is required once every three years.
