WHEREAS, the Tribe’s Workforce Enhancement Initiative exists to develop skills for Tribal and community members, in order to ensure a skilled workforce for the community and to the benefit of the Boundary Project.

NOW, THEREFORE, based on the mutual promises and consideration set forth herein, the Parties agree as follows:

**AGREEMENT**

**Section 1. Project Description**

The Kalispel Career Training Center (“KCTC”), owned and operated by The Tribe, was developed to train members of the Tribe and community in the fields of metal fabrication, welding, carpentry, computer design, production and line assembly, shipping and receiving, marketing, job readiness, safety, and work ethics. The overarching goal of the KCTC is to develop programs which encourage Tribal and community members to consider careers in skilled trades while providing employers in the area with a viable, diverse, and stable workforce. Along with the above stated training, other areas of the trades are

currently in development. KCTC seeks to provide summer internships within the Tribe's enterprises and area businesses as a portion of the education program and as a student incentive. Additionally, KCTC has the potential to provide customized training to supplement employers' current workforce.

KCTC is responsible among other activities for developing, operating, managing, maintaining, and promoting a tribal and community workforce, career development and providing opportunity for investment in employment and career resources on the Kalispel Indian Reservation. The Kalispel Tribe supports education and training in a community-oriented effort to reduce the number of unemployed, low-income residents of the Kalispel Indian Community and its neighbors. Education and Workforce training provides equity access to employment opportunities for the local population. For adults, the goal is not simply job training, but job creation. Authorized by Tribal Resolution NO 2016-39, the Kalispel Tribe's Sustainable Workforce Enhancement Initiative represents the implementation phase of a community-oriented effort. KCTC provides industry standard training in construction, welding and fabrication as well as supported employment activities near the Boundary Project. In partnership with the Carpenters Employers Training Trust Fund a full curriculum of pre-apprenticeship standards have been created at KCTC. Kalispel Career Training Center staff work directly with the Workforce Development Committee of the Pend Oreille Economic Development Council ensuring that industry specific training is up to date and relevant to the community it serves. KCTC also oversees all Supported Employment programs for Tribal and community members. These programs are all paid positions in which apprentices can job shadow journeyman tradesmen, throughout their pre-apprenticeship. Many are hired after their training period to full time permanent positions in the community.

Partnering with the Associated General Contractors, KCTC provides "Head Start to the Construction Trades," to youth during out of school time. This eight-week program gives high school students an opportunity to learn about all the opportunities in the skilled trades including carpentry, plumbing, electrical, flagging, heavy equipment, as well as complete OSHA 10 certification.

KCTC also provides customized training to supplement an employer's current workforce.
