Sponsor: CM Morales

Co-Sponsors: CM Moore and CM Saka

Limit use of JumpStart for the General Fund and increase funding for JumpStart priorities

Effect: This amendment would establish the following spending priorities for JumpStart proceeds in 2027 and beyond:

- 20% for General Fund
- Required contributions to the Revenue Stabilization Account
- Remaining proceeds allocated to the current JumpStart priorities, including Student Mental Health and Youth Violence Prevention

The General Fund financial plan currently projects a General Fund deficit of approximately \$100 million, after a transfer of \$233 million from the JumpStart Fund. This amendment would limit that transfer to ~\$97 million, increasing funding available for JumpStart priorities by as much as \$136 million, to a total of ~\$386 million. By implication, this amendment would also increase the projected General Fund deficit by \$136 million.

Amendment: Section 1 of CB 120912 would be amended as follows:
