	Aly Pennucci/Esther Handy LEG Budget Process RES D3a
1	WHEREAS the response to SLI LEG-322-A-001-2023 includes eight joint recommendations
2	from CS and CBO intended to increase transparency in City budgeting, reporting, and use
3	of City resources; and
4	WHEREAS, adopting a new resolution to guide the City's budget processes and policies related
5	to the planning reserves will memorialize those recommendations and the new budget
6	processes implemented in the 2023-2024 biennium; NOW, THEREFORE,
7	BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SEATTLE, THE
8	MAYOR CONCURRING, THAT:
9	Section 1. Citywide biennial budgeting. A biennium consists of an odd-numbered year
10	and the following even-numbered year (Year 1 and Year 2, respectively). Budget processes for
11	Year 1 and Year 2 occur in the fall preceding each of those years. In the fall preceding the
12	biennium, The City of Seattle will develop and deliberate on a biennial budget consisting of two
13	one-year budgets for all City departments. The City will pass an ordinance adopting balanced
14	appropriations for Year 1 consistent with chapter 35.32A RCW, and will adopt a resolution
15	endorsing appropriations for Year 2, with that is balanced over the two-year period. Starting with
16	the endorsed Year 2 budget, the City Council will consider and approve Year 2's budget.
17	Expenditure authority will be appropriated at the budget control level.
18	A. For Year 1:
19	1. The Mayor proposes a two-year balanced budget, and then the Council reviews,
20	modifies, and considers adjustments through the Chair of the Select Budget Committee's
21	balancing package and/or standalone amendments.

	LEG Budget Process RES D3a
1	2. The Council adopts a budget for the first year of the biennium by ordinance and
2	endorses a budget for the second year in the biennium by resolution. The adopted and endorsed
3	budgets will serve as the basis for departments' spending in the biennium.
4	B. For Year 2, the Mayor proposes adjustments to the endorsed budget, and then the
5	Council reviews the adjustments, considers additional adjustments, and adopts a budget for Year
6	2. The adjustments in Year 2 should result in minimal changes.
7	1. Year 2 budget adjustments will address current conditions and updated
8	assumptions that were not foreseen in Year 1. This includes, but is not limited to, adjustments
9	that respond to:
10	a. Changes to the revenue forecast necessary to balance the budget;
11	b. Changes to assumptions about the cost to deliver City programs and
12	services;
13	c. Proposals to carry forward appropriations from Year 1 as necessary to
14	carry out an essential project or program that will not be fully expended in Year 1;
15	d. Emergent community needs prioritized by the Mayor and the Council;
16	e. A proclaimed civil emergency pursuant to Seattle Municipal Code
17	Chapter 10.02; or
18	f. New opportunities to partner with external organizations or other
19	governmental agencies to leverage City investments.
20	2. After transmittal of the Year 2 proposed budget by the Mayor, the Council
21	may request a Select Budget Committee briefing from the Executive on the status of certain
22	initiatives funded in Year 1, such as progress reports on implementation of programs and
23	services newly funded in Year 1.

Section 2. Supplemental budget changes

A. Definitions

- 1. "Supplemental budget bill" means a bill that proposes to amend the adopted annual budget under the authority provided in chapter 35.32A RCW, such as annual carryforward legislation, mid-year and year-end supplemental budget bills, grant appropriation bills, and standalone budget bills.
- 2. "Standalone supplemental budget and grant bill" means a bill that proposes to amend the annual budget related to a single discrete City program or department, or to appropriate grant funds from a discrete source or a discrete program, or to appropriate multiple grants for a single department.
- 3. "Comprehensive supplemental budget bill" means a bill that proposes to amend the annual budget and that affects several City departments and funds in a single bill, and typically comes to the Council in the following forms:
- a. Annual carryforward: Requesting that a portion of select department's unspent prior year budget be reappropriated in the current year to continue or complete a discrete program or project for which the funding was originally provided, but which could not be fully completed in the year it was appropriated.
- b. Mid-year and year-end supplemental: Making changes across multiple departments to abrogate or decrease any unexpended allowance contained within the budget and reappropriate such unexpended allowances for other functions or programs, and appropriate funds generated through year-end fund reconciliation and revenue forecast updates.

c. First quarter, mid-year, and year-end grant acceptance: Authorize spending of those grant funds. Grant appropriations are included within the bill that authorizes the acceptance of grants across multiple departments.

B. Process

1. Standalone supplemental budget and grant bills. To the extent practicable, standalone supplemental budget and grant bills shall only be requested if necessary to address an emergency need or to comply with the terms of a grantor. The summary and fiscal note, as defined in Seattle Municipal Code Chapter 3.140 shall describe why this proposal necessitates a standalone bill and why the request cannot be considered as part of a mid-year or year-end supplemental bill.

2. Comprehensive supplemental budget bills

a. Annual carryforward: The Executive may submit carryforward legislation annually, if necessary, by April 1 of each year. City departments and offices shall only request to carry forward unspent funds from the previous year's budget if those appropriations are necessary to carry out an essential project or program approved in the previous year's budget. The Summary and Fiscal Note shall provide a detailed description of the carryforward request, including why the funds were not spent or encumbered in the year they were budgeted.

b. Mid-year and year-end supplemental budget bills: The Executive may transmit comprehensive supplemental budget bills up to two times each year: (1) a mid-year supplemental budget bill transmitted to the Council by June 20; and (2) a year-end supplemental budget bill transmitted to the Council by the last Tuesday in September. The Mayor and the Council shall consider requests for amendments to the current year's adopted budget in the

	Aly Pennucci/Esther Handy LEG Budget Process RES D3a
1	supplemental budget process if the requested amendment meets certain criteria. The summary
2	and fiscal note shall describe how:
3	i. The request is necessary to meet the actual expenditures of the
4	city for which insufficient or no appropriations were made in the annual budget due to causes
5	which could not reasonably have been foreseen at the time of the making of the budget and
6	cannot await the next year's budget; and
7	ii. The request is immediately implementable and will endeavor to
8	be fully expended in the year, as practicable as possible, in which the funds are requested; or
9	iii. The request is necessary to reduce or otherwise modify
10	appropriations to address updates to the City's revenue forecast for any City fund; or
11	iv. The request is of a technical nature that does not impact the
12	delivery of City programs or services.
13	c. Supplemental grant appropriation bills: The Executive may transmit
14	comprehensive supplemental grant bills up to three times each year: (1) a first quarter
15	supplemental grant bill; (2) a mid-year supplemental grant bill; and (3) a year-end supplemental
16	grant bill. Supplemental grant appropriation bills will authorize the acceptance and spending of
17	grants not identified at the time the annual budget was adopted.
18	Section 3. Planning reserves. To increase transparency and a shared ownership of reserve
19	decisions between the Council and Executive, the City Budget Office and Central Staff will
20	explore and analyze the following strategies and provide options to the Select Budget Committee
21	by June 30, 2024 for consideration in Year 1 of the 2025-2026 Biennial Budget process to
22	develop:

A. An approach to brief the Select Labor Committee on labor reserves as they relate to current negotiations, prior to budget transmittal.

B. An appropriated Risk Reserve for the operating budget as a combined reserve for items with confidentiality considerations like labor reserves and reserves for the Judgment & Claims Fund.

Section 4. Fees and rates. The City intends to adopt rates and fees only in Year 1. The rate or fee structures may include changes to take effect in Year 2 of a biennium or beyond the biennium. Other rate changes may be made if necessary in the case of emergencies or other unanticipated events.

Section 5. Position lists. The City will adopt department-wide position lists. At the time of adopting the Year 1 budget, the Mayor and Council will adopt the Year 1 position list and endorse the Year 2 position list that will be reviewed, adjusted as necessary, and adopted in Year 2. The endorsed Year 2 position list will anticipate additions, abrogations, and reclassifications resulting from reorganizations.

Section 6. Financial reporting. To increase monitoring of the City's financial position during the year and to develop an additional a tool that informs budget development, the City Budget Office in collaboration with the Office of City Finance will provide mid-year and year-end updates on the performance of all financials by department and budget control level, comparing budget versus actual and narrative descriptions on significant under/over spending within departments beginning third quarter 2025. The Fiscal Transparency Program financial monitoring pilot program will review spending variances greater than five percent or \$100,000. As these reporting thresholds are refined and by second quarter of 2025, the City Budget Office
