The City of Seattle encourages everyone to participate in its programs and activities. For disability accommodations, materials in alternate formats, accessibility information, or language interpretation or translation needs, please contact the Office of the City Clerk at 206-684-8888 (TTY Relay 7-1-1), CityClerk@Seattle.gov, or visit

https://seattle.gov/cityclerk/accommodations at your earliest opportunity. Providing at least 72-hour notice will help ensure availability; sign language interpreting requests may take longer.

SEATTLE CITY COUNCIL

Select Committee on the Comprehensive Plan Agenda

May 19, 2025 - 9:30 AM

Public Hearing - Session I at 9:30 a.m.; Session II at 4 p.m.

Meeting Location:

Council Chamber, City Hall, 600 4th Avenue, Seattle, WA 98104

Committee Website:

https://www.seattle.gov/council/issues/2025-comprehensive-plan

This meeting also constitutes a meeting of the City Council, provided that the meeting shall be conducted as a committee meeting under the Council Rules and Procedures, and Council action shall be limited to committee business.

> Members of the public may register to speak at the public hearing in one of two ways: online to provide remote comments or at the Council Chamber, to provide in-person comments.

Registration for remote speakers will begin at 8:30 a.m. and end at 10:00 a.m. Register here:

https://www.seattle.gov/council/committees/public-comment

Registration for in-person speakers at City Hall, Council Chamber, will begin at 3:30 p.m. and end at 5:30 p.m.

Each speaker will be provided with one minute each to comment at the public hearing.

Please see the end of this agenda for the full details on the hearing procedures and how to register.

Please Note: Times listed are estimated

Session I - 9:30 a.m.

- A. Call To Order
- B. Approval of the Agenda
- D. Item of Business
- 1. CB 120969

AN ORDINANCE relating to land use and zoning; implementing interim controls to comply with various state laws; establishing findings and adopting a workplan for permanent legislation; amending Sections 23.22.062, 23.24.045, 23.34.011, 23.44.006, 23.44.010, 23.44.011, 23.44.012, 23.44.014, 23.44.016, 23.44.017, 23.44.044, 23.45.512, 23.45.514, 23.45.518, 23.45.522, 23.45.527, 23.45.529, 23.53.006, 23.53.025, 23.54.015, 23.54.020, 23.54.030, 23.84A.010, 23.84A.025, 23.84A.036, and 25.09.240 of the Seattle Municipal Code.

Director's Report

Public Hearing Notice

Public Hearing*

Remote speaker comments will only be accepted during Session I of the meeting, starting at 9:30 a.m. Remote speakers may be called on during Session II if not called on during Session I.

Session II - 4:00 p.m.

The Public Hearing on Council Bill 120969 will continue at 4:00 p.m. with registered in-person speakers in the Council Chamber. Remote speakers may be called on during Session II if not called on during Session I.

D. Adjournment

*Public Hearing Registration and Meeting Process

Register to speak at the public hearing:

Members of the public may register to speak at the public hearing in one of two ways: online to provide remote comments or at City Hall, Council Chamber, to provide in-person comments.

Speakers must be registered within the timeline listed below:

Remote speaker comments will be accepted during Session I, beginning at 9:30 a.m. Registration for remote speakers will begin at 8:30 a.m. and end at 10:00 a.m. Register here:

https://www.seattle.gov/council/committees/public-comment

In-person speakers at Council Chambers will be accepted during Session II, beginning at 4:00 p.m., at City Hall, Council Chambers. Registration for in-person speakers will begin at 3:30 p.m. and end at 5:30 p.m.

Speakers must be registered in order to be recognized by the Chair, and will be called in the order registered. Registration for each public hearing session will end at the established time and members of the public will not be provided with an additional opportunity to register for this hearing.

February 5th Public Hearing Attendees:

Members of the public whose registered speaker's numbers were not called on at the February 5, 2025, Select Comprehensive Plan Committee public hearing, and would like to provide comments at this hearing will be required to re-register for the May 19 public hearing, in the following manner:

- a. Remote speakers must register between 8:30 a.m. and 10:00 a.m.; and
- b. In-person speakers will be requested to check-in at City Hall, Council Chamber, between 3:30 p.m. and 5:30 p.m.

Speakers will be identified by staff and recognized in the order re-registered.

Additional Public Comment Process:

Each speaker will be provided with one minute each to comment at the public hearing.

Members of the public may only register and speak once at this public hearing, either remotely or in-person at City Hall, Council Chambers.

The Select Committee may recess if there are no registered speakers present at any time. The Select Committee will recess for lunch between Session I and Session II.

Submit Written Comment:

Please submit written public comments to the Select Committee on the Comprehensive Plan to:

Councilmember Hollingsworth 600 Fourth Avenue, Floor 2 PO Box 34025 Seattle, WA 98124-4025 or by email to council@seattle.gov

Written comments should be received by Monday, May 19, 2025, at 5:00 p.m.

SEATTLE CITY COUNCIL

Legislation Text

File #: CB 120969, Version: 1

AN ORDINANCE relating to land use and zoning; implementing interim controls to comply with various state laws; establishing findings and adopting a workplan for permanent legislation; amending Sections 23.22.062, 23.24.045, 23.34.011, 23.44.006, 23.44.010, 23.44.011, 23.44.012, 23.44.014, 23.44.016, 23.44.017, 23.44.044, 23.45.512, 23.45.514, 23.45.518, 23.45.522, 23.45.527, 23.45.529, 23.53.006, 23.53.025, 23.54.015, 23.54.020, 23.54.030, 23.84A.010, 23.84A.025, 23.84A.036, and 25.09.240 of the Seattle Municipal Code.

The full text of the bill is attached to the legislative file.

1 WHEREAS, in April 2023, the Washington State Legislature passed Chapter 333, Laws of 2023 2 (also known as House Bill 1293), which imposes limits on design review and requires 3 that design standards be clear and objective; and 4 WHEREAS, in March 2024, the Washington State Legislature passed Chapter 152, Laws of 5 2024 (also known as House Bill 2321), which clarified standards implemented through 6 House Bill 1110; and 7 WHEREAS, in March 2024, the Washington State Legislature passed Chapter 274, Laws of 8 2024 (also known as Senate Bill 6015), which imposes restrictions on parking 9 requirements; and 10 WHEREAS, in March 2024, the Office of Planning and Community Development published a 11 Draft Environmental Impact Statement analyzing the potential effects of five different 12 growth alternatives in the city through 2044 and a "no action" alternative, conducted two public hearings, and received comments from the public on this document; and 13 14 WHEREAS, in March 2024, the Office of Planning and Community Development published a 15 Draft Comprehensive Plan rooted in a deliberate approach to creating more housing, 16 encouraging density near amenities and frequent transit, and preventing displacement; 17 and 18 WHEREAS, in Spring 2024, the Office of Planning and Community Development held open 19 houses across all seven council districts and received input from residents and community 20 groups over a two-month public comment period on the draft plan and an initial proposal 21 for updating Neighborhood Residential zones; and 22 WHEREAS, in Fall 2024, the Office of Planning and Community Development held open 23 houses across all seven council districts and received input from residents and community

groups over a two-month public comment period on a revised proposal for updating

Neighborhood Residential zones and draft legislation; and

WHEREAS, in January 2025, the Office of Planning and Community Development published a

Final Environmental Impact Statement that included analysis of a preferred growth strategy alternative that increased potential housing supply in the city by doubling residential development capacity and that promoted housing supply, variety, and affordability by adding new and expanded areas for growth in neighborhoods across the

city;

WHEREAS, in February 2025, the Final Environmental Impact Statement was appealed to the Hearing Examiner; NOW, THEREFORE,

BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:

Section 1. The City Council makes the following legislative findings of fact and declares as follows:

A. Chapter 322, Laws of 2023, Chapter 333, Laws of 2023, and Chapter 152, Laws of 2024, establish a deadline for local jurisdiction compliance of six months after its next periodic comprehensive plan update required under RCW 36.70A.130. The Washington State Department of Commerce has interpreted this deadline to be six months after the statutory deadline established in RCW 36.70A.130. Consistent with this guidance, a compliance deadline for The City of Seattle would be June 30, 2025. The requirements of Chapter 300, Laws of 2021, and Chapter 274, Laws of 2024, are currently in effect.

B. The Land Use Code does not fully comply with Chapter 300, Laws of 2021, Chapter 322, Laws of 2023, Chapter 333, Laws of 2023, Chapter 152, Laws of 2024, and Chapter 274, Laws of 2024, necessitating amendment of the code to ensure consistency with State law.

10 11

12

13

14 15

16

17

18 19

20

21

22 23

C. In October 2024, the Washington State Department of Commerce released an updated model ordinance for local implementation of Chapter 322, Laws of 2023.

D. Chapter 322, Laws of 2023, stipulates that if a jurisdiction fails to enact development regulations that comply with its requirements by the deadline, that the model ordinance supersedes any non-compliant local development regulations for the purpose of issuance of permits for middle housing development.

E. The Final Environmental Impact Statement (FEIS) released by the Office of Planning and Community Development in January 2025 includes analysis of a preferred alternative that implements Chapter 300, Laws of 2021, Chapter 322, Laws of 2023, Chapter 333, Laws of 2023, Chapter 152, Laws of 2024, and Chapter 274, Laws of 2024 through amendments to the City's Comprehensive Plan and zoning regulations.

F. Following a 14-day appeal period, six separate appeals of the adequacy of the FEIS were submitted and are currently being considered by the City's Hearing Examiner.

G. Consistent with subsection 23.76.062.D and Sections 25.05.055 and 25.05.070 of the Seattle Municipal Code, the City Council may not take action to approve legislation enacting a proposal that is subject to an appeal under the State Environmental Policy Act (SEPA). Resolution of all appeals of the Comprehensive Plan FEIS is not expected until after June 30, 2025, which would delay the ability of the City Council to amend the Comprehensive Plan and pass implementing development regulations.

H. If the City does not enact interim legislation to meet the requirements of Chapter 322, Laws of 2023, by June 30, 2025, any denial of a permit for development of middle housing that is inconsistent with current development regulations is subject to challenge on the basis that State model code would supersede the City's development regulations. The City would also be subject

to potential challenge to any permitting decision related to the requirements of other State legislation cited in subsection 1.B of this ordinance.

I. Adopting interim legislation at this time, as an alternative to allowing the State model code to apply automatically, is necessary to ensure that the requirements governing approval of permits for middle housing meet the minimum requirements of Chapter 322, Laws of 2023, and to ensure that regulations for middle housing development are sufficiently clear and complete for the issuance of permits by the City. Interim legislation will also ensure compliance with other new State requirements cited in subsection 1.B of this ordinance.

Section 2. The interim development regulations set forth in this ordinance shall be in effect for a period of one year from the effective date of this ordinance and shall automatically expire after the one-year period unless the same is extended as provided by statute, or unless terminated sooner by the City Council.

Section 3. Pursuant to RCW 36.70A.390, the Council will hold a public hearing prior to adoption or within 60 days of adoption of this interim zoning legislation to take public testimony and to consider adopting further findings.

Section 4. Under RCW 36.70A.390, the Council approves the following work plan for the development of permanent regulations to address the issues in this ordinance and directs the Office of Planning and Community Development to transmit proposed legislation to the Council for adoption after resolution of any appeals under SEPA.

Mayor Transmits Legislation to Council	Anticipated May 2025
Council Deliberations and Public Hearing on	Anticipated June through August 2025
Proposed Permanent Controls	
Permanent Controls Effective	Anticipated September 2025, subject to date of
	resolution of SEPA appeals

NR1, NR2, and NR3	Less than 5,000 square feet	1,000 square feet plus 15
		percent of lot area
	5,000 square feet or more	35 percent of lot area
RSL	All lots	50 percent of lot area

2. For purposes of computing maximum lot coverage, only those portions of a lot that measure at least 10 feet in all directions shall be included in lot coverage calculations, except

Template last revised December 9, 2024

for portions of a lot that are used for access or that are granted a waiver under subsections

23.22.100.D, 23.24.040.B, or 23.28.030.A.4 for the purpose of providing access.))

3 ***

Section 12. Section 23.44.011 of the Seattle Municipal Code, last amended by Ordinance 126685, is amended as follows:

23.44.011 Floor area in neighborhood residential zones

A. Gross floor area. In neighborhood residential zones, gross floor area includes exterior corridors, breezeways, and stairways that provide building circulation and access to dwelling units or sleeping rooms. Balconies, patios, and decks that are associated with a single dwelling unit or sleeping room and that are not used for common circulation, and ground-level walking paths, are not considered gross floor area.

B. Floor area ratio (FAR) limits.

((1. The FAR limit on lots developed with a single-family dwelling unit as the principal use in NR1, NR2, and NR3 zones, is 0.5, except that lots with less than 5,000 square feet of lot area can include up to 2,500 square feet of total chargeable floor area. The applicable FAR limit applies to the total chargeable floor area of all structures on the lot.

2. The FAR limit in RSL zones is 0.75. The applicable FAR limit applies to the total chargeable floor area of all structures on the lot.)) The FAR limit in neighborhood residential zones for lots with residential uses is as shown in Table A for 23.44.011. The applicable FAR limit applies to the total chargeable floor area of all structures on the lot.

Table A for 23.44.011	
Floor area ratio (FAR) in neighborhood residential	zones
Density (dwelling units per lot size)	FAR
Less dense than 1 unit / 4,000 square feet	0.6 in NR1, NR2, and NR3 zones
	0.75 in RSL zones
1 unit / 4,000 square feet to 1 unit / 2,201 square feet	0.8

Table A for 23.44.011 Floor area ratio (FAR) in neighborhood residential	zones
Density (dwelling units per lot size)	<u>FAR</u>
1 unit / 2,200 square feet to 1 unit / 1,601 square feet	1.0
1 unit / 1,600 square feet or denser	1.2

- C. The following floor area is exempt from FAR limits:
 - 1. All stories, or portions of stories, that are underground.
- 2. All portions of a story that extend no more than 4 feet above existing or finished grade, whichever is lower, excluding access.
 - ((3. In NR1, NR2, and NR3 zones:
 - a. Any floor area contained in an accessory dwelling unit;
- b. Either up to 500 additional square feet of floor area in any accessory structure that is not a detached accessory dwelling unit, or up to 250 square feet of floor area in an attached garage.))
 - 3. Common walls separating individual attached dwelling units.
- 4. In RSL zones, 50 percent of the chargeable floor area contained in structures built prior to January 1, 1982, as single-family dwelling units that will remain in residential use, regardless of the number of dwelling units within the existing structure, provided the exemption is limited to the gross square footage in the single-family dwelling unit as of January 1, 1982.
- ((D. In NR1, NR2, and NR3 zones, additions to a single-family dwelling unit existing on the effective date of the ordinance introduced as Council Bill 119544 may exceed the FAR limit in subsection 23.44.011.B.1 if the addition adds floor area equal to or less than 20 percent of the floor area that existed on the effective date of the ordinance introduced as Council Bill 119544.

 Only one addition to any single-family dwelling unit may be exempted under this subsection 23.44.011.D.))

Section 13. Section 23.44.012 of the Seattle Municipal Code, last amended by Ordinance 126600, is amended as follows:

23.44.012 Height limits

A. Maximum height established. The provisions of this Section 23.44.012 apply in neighborhood residential zones, except as provided elsewhere in the Land Use Code for specific types of structures or structures in particular locations.

 $((1. \ \, \text{Except as provided in subsections 23.44.012.A.2 and 23.44.012.A.3, the}))$ $\underline{\text{The maximum permitted height for any structure not located in a required yard is ((30)) 32 feet.}$

((2. In NR1, NR2, and NR3 zones, the maximum permitted height for any structure on a lot 30 feet or less in width is 25 feet.

3. In NR1, NR2, and NR3 zones, for a lot or unit lot of any width, if the area of the largest rectangle or other quadrilateral that can be drawn within the lot lines of the lot or unit lot is less than 3,200 square feet the maximum permitted height for any structure on that lot shall be 18 feet. Additional height shall be allowed, subject to the limit that would otherwise apply under subsections 23.44.012.A.1 and 23.44.012.A.2, provided that the elevation at the top of the exterior walls of the structure, exclusive of pitched roofs, does not exceed the average of the elevations at the tops of the walls of single family residences on abutting lots within the same zone. The limit of this subsection 23.44.012.A.3 shall not apply to additions to single-family residences existing as of February 1, 2013, that do not exceed the greater of 1,000 square feet of new gross floor area or the amount of gross floor area on any one floor of the existing house.))

Section 14. Section 23.44.014 of the Seattle Municipal Code, last amended by Ordinance 127099, is amended as follows:

23.44.014 Yards

A. General

- 1. Yards are required for every lot in a neighborhood residential zone.
- 2. In the case of a through lot, each yard abutting a street, except a side yard, shall be a front yard. Rear yard provisions shall not apply to the through lot, except pursuant to Section 23.40.030 or 23.40.035.
- 3. Setbacks from a street or alley may be required in order to meet the provisions of Section 23.53.015.
- 4. Setbacks from access easements may also be required for principal structures according to the standards in ((subsections 23.53.025.C.2 and 23.53.025.D.6)) subsection 23.53.025.C.6.
- B. Required yards for neighborhood residential zones are shown in Table A for 23.44.014.

((Table A for 23.44.014 Required yards in neighborhood residential zones		
Yard	NR1, NR2, and NR3	RSL
Front	20 feet or the average of the front yards of the single family structures on either side, whichever is less ¹	10 feet
Rear	25 feet or 20 percent of lot depth, whichever is less, except that it may never be less than 10 feet ²	10 feet except that, if the rear yard abuts an alley, there is no rear yard requirement
Side	5 feet ^{3, 4, 5}	5 feet ⁵

Footnotes to Table A for 23.44.014

⁴ If the natural gradient or slope (as measured from the front line of the lot for a distance of 60 feet or the full depth of the lot, whichever is less) is in excess of 35 percent, the required front yard depth shall be the lesser of: 20 feet less 1 foot for each one percent of gradient or

slope in excess of 35 percent; or the average of the front yards on either side.

- ² If the rear lot line abuts an alley, the centerline of the alley between the side lot lines extended shall be assumed to be the rear lot line for purposes of the provision of rear yard and the determination of lot depth; provided, that at no point shall the principal structure be closer than 5 feet to the alley.
- ³ In the case of a reversed corner lot, the key lot of which is in a neighborhood residential zone, the width of the side yard on the street side of the reversed corner lot shall not be less than 10 feet.
- ⁴ If any side street lot line is a continuation of the front lot line of an abutting neighborhood residential zoned lot, whether or not separated by an alley, the width of the street side yard shall not be less than 10 feet.
- ⁵ No side yard is required from a side lot line that abuts an alley.))

D. Parking and garages in required yards. Parking and garages are regulated as described in subsections 23.44.016.D.1 through 23.44.016.D.12. Unless otherwise specified, the terms

* * *

Template last revised December 9, 2024

¹ On a reversed corner lot in a neighborhood residential zone, the yard on the side street lot line shall be 10 feet and the rear yard is 5 feet.

- 6. On a reversed corner lot, no garage shall be located in that portion of the required rear yard that abuts the required front yard of the adjoining key lot unless the provisions of subsection 23.44.016.D.9 apply.
- 7. If access to required parking passes through a required yard, automobiles, motorcycles, and similar vehicles may be parked on the open access located in a required yard.
- 8. Trailers, boats, recreational vehicles, and similar equipment shall not be parked in required front and side yards or the first 10 feet of a rear yard measured from the rear lot line, or measured 10 feet from the centerline of an alley if there is an alley adjacent to the rear lot line, unless fully enclosed in a structure otherwise allowed in a required yard by this subsection 23.44.016.D.
- 9. Lots with uphill yards abutting streets. In NR1, NR2, and NR3 zones, parking for one two-axle or one up to four-wheeled vehicle may be established in a required yard

23.44.016.D.11 if, in consultation with the Seattle Department of Transportation, it is found that uninterrupted parking for 24 hours is prohibited on at least one side of the street within 200 feet of the lot line over which access is proposed. The Director may authorize a curb cut wider than would be permitted under Section 23.54.030 if necessary, for access.

* * *

Section 16. Section 23.44.017 of the Seattle Municipal Code, last amended by Ordinance 126685, is amended as follows:

23.44.017 Density limits

A. In NR1, NR2, and NR3 zones, only one single-family dwelling unit is allowed per lot, except that up to two accessory dwelling units may also be approved pursuant to Section 23.44.041((, and except as approved as part of an administrative conditional use permit under Section 25.09.260, a clustered housing planned development under Section 23.44.024, or a planned residential development under Section 23.44.034)).

- B. The following provisions apply in RSL zones:
 - 1. The minimum lot area per <u>principal</u> dwelling unit is 2,000 square feet.
- 2. ((Except as provided in subsection 23.44.017.B.3, when calculation of the number of dwelling units allowed according to subsection 23.44.017.B.1 results in a fraction of a unit, any fraction up to and including 0.85 constitutes zero additional units, and any fraction over 0.85 constitutes one additional unit.
- 3.)) For lots in existence on April 19, 2019, if the number of dwelling units allowed according to subsection 23.44.017.B.1 equals less than two, two units are allowed.
- C. Lot density exceptions for lots that do not contain any riparian corridors; wetlands and their buffers; submerged lands and areas within the shoreline setback; or designated non-

	v_2
1	1. In RSL zones that have a mandatory housing affordability suffix, the
2	dwelling units for which the regulatory agreement, covenant, or other legal instrument required
3	by subsection 23.44.017.C.3.e ensures affordability as required by that subsection shall be
4	counted towards any obligation to provide MHA-R units according to subsection 23.58C.050.A.
5	D. Lot density exceptions for lots that do contain any riparian corridors; wetlands and
6	their buffers; submerged lands and areas within the shoreline setback; or designated non-
7	disturbance area in steep slopes. For lots that contain any riparian corridors, wetlands and their
8	buffers, submerged lands and areas within the shoreline setback, or designated non-disturbance
9	area in steep slopes, applicants may choose to develop the lot with the number of dwelling units
10	provided in the density limits in subsections 23.44.017.A and 23.44.017.B or with the number of
11	principal and accessory dwelling units calculated as follows:
12	1. Determine the number of units that would be allowed under subsection
13	23.44.017.C if no environmentally critical areas were located on the lot;
14	2. Determine the percentage of the lot that is not covered by riparian corridors,
15	wetlands and their buffers, submerged lands and areas within the shoreline setback, or designated
16	non-disturbance area in steep slopes; and
17	3. Calculate the number of dwelling units by multiplying the number of units
18	determined in subsection 23.44.017.D.1 by the percentage of the lot calculated in subsection
19	<u>23.44.017.D.2.</u>
20	E. Measurement of minimum lot size and maximum density
21	1. When calculation of the number of dwelling units allowed results in a fraction
22	of a unit, any fraction shall be rounded down.

23.45.518 Setbacks ((and separations))

A. LR zones

1. Required setbacks for the LR zones are as shown in Table A for 23.45.518

and subsection 23.45.518.A.2.

¹ Except that the height limit is ((30)) <u>32</u> feet in zones without a mandatory housing affordability suffix.

² Except that the height limit is 40 feet in zones without a mandatory housing affordability suffix.

((Table A for 23.45.518 Required setbacks in LR zones measured in feet

All LR zones	Category of residential use				
Setback	Cottage housing developments and single-family dwelling units	Rowhouse developments	Townhouse developments	Apartments	
Front	7 average; 5 minimum	5 minimum	7 average; 5 minimum	5 minimum	
Rear	0 with alley; 7 if no alley	0 with alley; With no alley: 7 average; 5 minimum	7 average; 5 minimum	10 minimum with alley; 15 minimum if no alley	
Side setback for facades 40 feet or less in length ¹	5	O where abutting another rowhouse development ² , otherwise 3.5, except that on side lot lines that abut a neighborhood residential zone, the setback is 5	5	5	
Side setback for facades greater than 40 feet in length- ³	5 minimum	O where abutting another rowhouse development ² ; otherwise 3.5, except that on side lot lines that abut a neighborhood residential zone, the setback is 7 average; 5 minimum	7 average; 5 minimum	7 average; 5 minimum	

Footnotes to Table A for 23.45.518

⁺ Additions to existing nonconforming structures built prior to April 11, 2011, shall be set back a sufficient distance so that the addition complies with setback standards. For any portion of a structure built before April 11, 2011, the average setback applies only to a new addition

((Table A for 23.45.518

Required setbacks in LR zones measured in feet

All LR zones

Category of residential use

built after that date. If an addition is to a side wall extended vertically, the existing side wall line may be continued by the addition, provided that the average setback of 7 feet or the 5 foot minimum setback is met.

² If the side facades of rowhouse developments on abutting lots are not joined, then a 3.5-foot setback is required, except the side setback may be reduced to zero if the abutting lot contains a rowhouse development and an easement is provided along the shared lot line of the abutting lot sufficient to leave a 3.5-foot separation between the principal structures of the abutting rowhouse developments.

³ Portions of structures that qualify for the FAR exemption in subsection 23.45.510.D.5 are not considered part of the facade length for the purposes of determining the side setback requirement.))

1

Table A for 23.45.518 Required setbacks in LR zones

Front	7 feet average, 5 feet minimum
Rear	If rear lot line abuts an alley, 0 feet Otherwise, 7 feet average, 5 feet minimum
Side	<u>5 feet</u>

2

2. Upper-level setbacks in LR2 and LR3 zones

3

a. An upper-level setback of 12 feet from the front lot line is required for

4

all portions of a structure above the following height:

5

1) Forty-four feet for zones with a height limit of 40 feet; and

6

2) Fifty-four feet for zones with a height limit of 50 feet.

7

b. An upper-level setback of 12 feet from each side or rear lot line that

8

abuts a lot zoned ((single-family)) neighborhood residential is required for all portions of the

9

structure above 34 feet in height.

or parking aisle, projections that enclose floor area may extend a maximum of 3 feet into the required separation if they are at least 8 feet above finished grade.

((3. Cottage housing developments in LR and MR zones:

a. The minimum required separation between principal structures at any two points on different interior facades is 6 feet, unless there is a principal entrance on an interior facade, in which case the minimum separation required from that facade is 10 feet.

b. Facades of principal structures shall be separated from facades of accessory structures by a minimum of 3 feet.))

* * *

J. Exceptions for existing ((single-family)) structures

1. In all multifamily zones, certain additions to a ((single family dwelling unit)) residential structure may extend into a required side setback if the structure is already nonconforming with respect to that setback, and if the presently nonconforming section is at least 60 percent of the total width of the respective facade of the structure prior to the addition. The line formed by the nonconforming wall of the structure shall be the limit to which any additions may be built, which may extend up to the height limit and may include basement additions (Exhibit D for 23.45.518), provided that additions shall be at least 3 feet from the side lot line.

2. An existing single-family dwelling unit in a LR zone may be converted to a multifamily use without conforming to setback standards ((for apartments)) in subsection 23.45.518.A, provided that the building envelope is not changed. For the purposes of this subsection 23.45.518.J.2, "existing single-family dwelling unit" is one that was established

ground level shall be landscaped with grass, ground cover, bushes, bioretention facilities,

and/or trees.

LR2	No limit	90	90	
LR3 outside Urban Villages, Urban Centers or Station Area Overlay Districts	No limit	120	120	
LR3 inside Urban Villages, Urban Centers or Station Area Overlay Districts	No limit	150	150))	

B. Maximum façade length in Lowrise zones. ((1-)) The maximum combined length of all portions of façades within 15 feet of a lot line that is neither a rear lot line nor a street or alley lot line shall not exceed 65 percent of the length of that lot line((, except as specified in subsection 23.45.527.B.2.

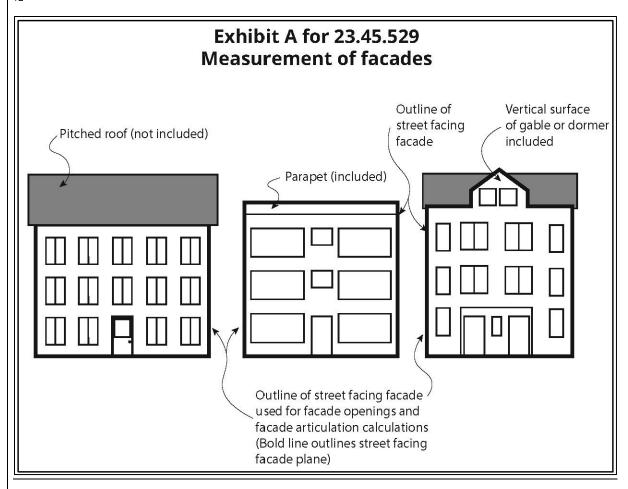

2. For a rowhouse development on a lot that abuts the side lot line of a lot in a neighborhood residential zone, the maximum combined length of all portions of façades within 15 feet of the abutting side lot line is 40 feet)).

Section 23. Section 23.45.529 of the Seattle Municipal Code, last amended by Ordinance 127099, is amended as follows:

23.45.529 Design standards

A. Intent. The intent of the design standards in this Section 23.45.529 is to:

- 1. Enhance street-facing and side facades to provide visual interest, promote new development that contributes to an attractive streetscape, and avoid the appearance of blank walls along a street or adjacent residential property;
- 2. Foster a sense of community by integrating new pedestrian-oriented multifamily development with the neighborhood street environment and promoting designs that allow easy surveillance of the street by area residents;
- 3. Promote livability in multifamily areas by providing a sense of openness and access to light and air; and
- 4. Encourage the compatibility of a variety of housing types with the scale and character of neighborhoods where new multifamily development occurs.
- B. Application of provisions. The provisions of this Section 23.45.529 apply to all residential uses that do not undergo any type of design review pursuant to Chapter 23.41((5 except single-family dwelling units)).
- C. Treatment of street-facing facades. For the purposes of this subsection 23.45.529.C, a street-facing facade includes all vertical surfaces enclosing interior space, including gables and dormers, as shown in Exhibit A for 23.45.529.
- 17 Exhibit A for 23.45.529
- **Measurement of facades**

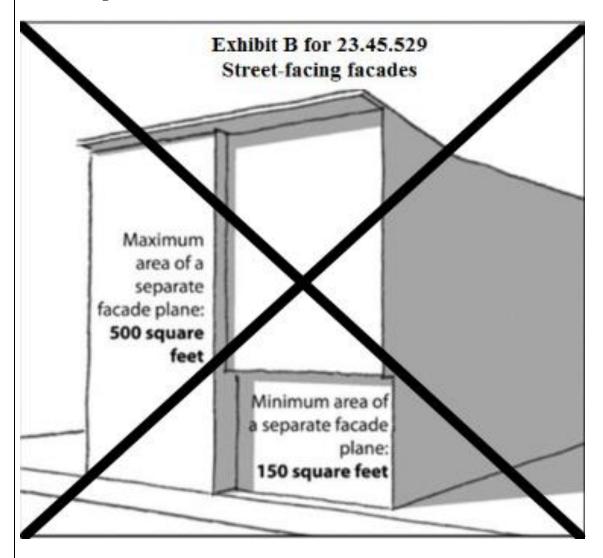

((1.)) D. Facade openings

((a.)) 1. At least 20 percent of the area of each street-facing facade shall consist of windows and/or doors, except as provided in subsection ((23.45.529.C.1.b)) 23.45.529.D.2. If a front and side facade are street-facing, the two facades may be combined for the purpose of this calculation.

((b.)) 2. For any rowhouse or townhouse dwelling unit that has both a front and a side facade that are street-facing, the percentage of the side street-facing facade required to consist of windows and/or doors is reduced to ten percent for the portion of the facade associated with that dwelling unit. This reduction to ten percent is not allowed if the facades

Exhibit B for 23.45.529

Street-facing facades

3. The Director may allow exceptions to the facade opening requirements in subsection 23.45.529.C.1 and the facade articulation requirements in subsection 23.45.529.C.2, if the Director determines that the street-facing facade will meet the intent of subsection 23.45.529.A.1 for all housing types, and, as applicable, the intent of subsections 23.45.529.E.2, 23.45.529.F.3, and 23.45.529.G.4 for cottage housing developments, rowhouse developments, and townhouse developments, respectively, through one or more of the following street facing facade treatments:

21

22

23

or by use of fencing, screening, landscaping, or translucent windows to create privacy between buildings.

E. Design standards for cottage housing developments

- 1. Pedestrian entry. Each cottage with a street-facing facade that is located within 10 feet of the street lot line shall have a visually prominent pedestrian entry through the use of covered stoops, porches, or other architectural entry features. For cottages on corner lots that have more than one street-facing facade within 10 feet of the street lot line, a visually prominent pedestrian entry is required on only one of the street-facing facades. Access to these entrances may be through a required private amenity area that abuts the street.
- 2. Architectural expression. Cottage housing developments shall include architectural details that reduce the visual scale of the units. Each cottage shall employ one or more of the following design techniques to reduce visual scale of the units:
 - a. Attached covered porch;
 - b. Roofline features such as dormers or clerestories;
 - c. Bay windows;
 - d. Variation in siding texture and materials; and
- e. Other appropriate architectural techniques demonstrated by the applicant to reduce the visual scale of cottages.
 - F. Design standards for rowhouse developments
- 1. Pedestrian entry. Each rowhouse unit shall have a pedestrian entry on the street facing facade that is designed to be visually prominent through the use of covered stoops, porches, or other architectural entry features. For rowhouse units on corner lots, a visually prominent pedestrian entry is required on only one of the street-facing facades.

47

Template last revised December 9, 2024

2. Front setback. Design elements to provide a transition between the street and the rowhouse units, such as landscaping, trees, fences, or other similar features, are required in the front setback.

3. Architectural expression. The street-facing facade of a rowhouse unit shall provide architectural detail or composition to visually identify each individual rowhouse unit as seen from the street. Design elements such as trim or molding, modulation, massing, color and material variation, or other similar features may be used to achieve visual identification of individual units. Rooftop features, such as dormers or clerestories, or roofline variation may be used to visually identify individual rowhouse units.

G. Design standards for townhouse developments

1. Building orientation. Townhouse developments shall maximize the orientation of individual units to the street by complying with one of the following conditions:

a. When multiple buildings are located on a lot, at least 50 percent of the townhouse units shall be located so that there is no intervening principal structure between the unit and the street, unless the intervening principal structure was established under permit as of October 31, 2001, or was granted a permit on October 31, 2001, and the permit has not expired; or

b. All townhouse units without a street-facing facade shall have direct access to a common amenity area meeting the requirements of Section 23.45.522 that either abuts the street or is visible and accessible from the street by a clear pedestrian pathway.

2. Pedestrian pathway. A clear pedestrian pathway from the street to the entrance of each townhouse unit shall be provided. The pedestrian pathway may be part of a driveway, provided that the pathway is differentiated from the driveway by pavement color,

1 t

texture, or similar technique. Signage identifying townhouse unit addresses and the directions to the unit entrance(s) from the street shall be provided.

3. Pedestrian entry. Each townhouse unit with a street-facing facade shall have a pedestrian entry on the street-facing facade that is designed to be a visually prominent feature through the use of covered stoops, porches, or other architectural entry features. For townhouse units on corner lots, a visually prominent pedestrian entry is required on only one of the street-facing facades.

4. Architectural expression. Architectural detail or composition shall be provided to visually identify each individual townhouse unit, as seen from the public street.

Design elements such as trim or molding, modulation, massing, color and material variation, or other similar features may be used to achieve visual identification of individual units. Rooftop features, such as dormers or clerestories, or roofline variation may be used to visually identify individual townhouse units.

H. Building entry orientation standards for apartments

1. For each apartment structure, a principal shared pedestrian entrance is required that faces either a street or a common amenity area, such as a landscaped courtyard, that abuts and has direct access to the street. Additional pedestrian entrances to individual units are permitted.

2. If more than one apartment structure is located on a lot, each apartment structure separated from the street by another principal structure shall have a principal entrance that is accessible from a common amenity area with access to the street.

3. The shared entrance of each apartment structure shall have a pedestrian entry
that is designed to be visually prominent, through the use of covered stoops, overhead weather
protection, a recessed entry, or other architectural entry features.))

- F. Pedestrian access. Each dwelling unit shall have pedestrian access at least 3 feet in width to the sidewalk or, if no sidewalk exists, the front lot line. This pedestrian access may be shared or private. This pedestrian access may cross any required setbacks or interior separation.

 The pedestrian access may be part of a driveway.
- G. Entrances. Each structure with a street-facing facade shall have a pedestrian entry on that street-facing facade meeting the following:
- 1. For apartments, at least one pedestrian entry shall be required for the structure as a whole.
- 2. For single-family dwelling units, cottage housing, rowhouses, and townhouses, each individual dwelling unit with a street-facing facade within 40 feet of the street lot line shall have at least one pedestrian entry on the street-facing facade.
- 3. For structures or dwelling units on corner lots, a pedestrian entry is required on only one of the street-facing facades.
- 4. Required pedestrian entry on street-facing facades shall have weather protection, such as a covered porch, canopy, recessed entry or similar feature, measuring at least 3 feet by 3 feet in width and depth for attached and detached dwelling units and at least 6 feet in width and 4 feet in depth for stacked dwelling units.
- 5. For attached and detached dwelling units, the pedestrian entry may be located on a wall perpendicular to the street-facing facade provided that the pedestrian entry abuts a covered porch or recessed entry that is a portion of the street-facing facade.

2) Construction of pedestrian access and circulation
improvements is not necessary because, for example, the existing right-of-way has suitable
width and surface treatment for pedestrian use; or the existing right-of-way has a limited
amount of existing and potential vehicular traffic; or the Director anticipates limited, if any,
additional development near the lot because the development near the lot is at or near zoned
capacity under current zoning designations;
f. Expansions of surface parking, outdoor storage, outdoor sales and
outdoor display of rental equipment of less than 20 percent of the parking, storage, sales or
display area, or number of parking spaces;
g. In the MML zone, the addition of:
1) Fewer than ten artist's studio dwellings;
2) Less than 750 square feet of gross floor area of major and
minor vehicle repair uses and multipurpose retail sales; ((and)) or
3) Less than 4,000 square feet of gross floor area of ((non-
residential)) nonresidential uses not listed in subsection 23.53.006.F.1.g.2; and
h. Construction of a new ((non-residential)) nonresidential structure of
up to 4,000 square feet of gross floor area if the structure is at least 50 feet from any lot line
abutting an existing street that does not have pedestrian access and circulation improvements.
2. Waiver or modification of pedestrian access and circulation requirements.
The Director, in consultation with the Director of Transportation, may waive or modify
pedestrian access and circulation requirements when one or more of the following conditions
are met. The waiver or modification shall provide the minimum relief necessary to
accommodate site conditions while maximizing pedestrian access and circulation.

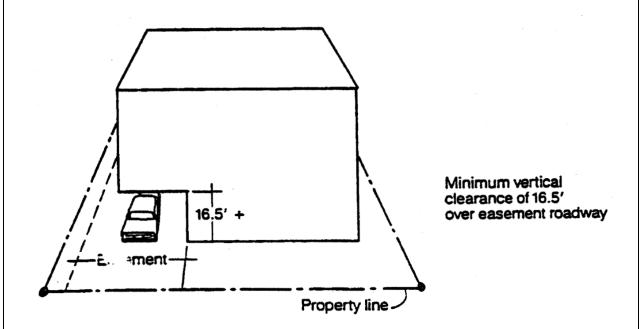

- ((2)) \underline{E} . For nonresidential or live-work uses providing ten (((10))) or more parking spaces, the easement shall meet the requirements of subsection ((\underline{D})) 23.53.025.C.
- F. Pedestrian ((Access Easements)) access easements. Where a lot proposed for a residential use abuts an alley but does not abut a street and the provisions of the zone require access by vehicles from the alley, or where the alley access is an exercised option, an easement providing pedestrian access to a street from the lot shall be provided meeting the following standards:
 - 1. Easement width shall be a minimum of $((\frac{\text{five }()}{2}))$ 5 $((\frac{1}{2}))$ feet;
- 2. Easements serving one (((1))) or two (((2))) dwelling units shall provide a paved pedestrian walkway at least ((three ()) 3 ((()))) feet wide;
- 3. Easements serving three $((\frac{3}{3}))$ or more dwelling units shall provide a paved pedestrian walkway at least $((\frac{5}{3}))$ feet wide;
- 4. Easements over ((one hundred ()) 100 (())) feet in length shall provide lighting at intervals not to exceed ((fifty ()) 50 (())) feet. Lighting placement shall not exceed ((fifteen ()) 15 (())) feet in height;
- 5. Pedestrian access easements shall not exceed ((two hundred ()) 200 (())) feet in length.
- G. Vertical ((Clearance Above Easements)) clearance above easements. When an easement serves fewer than ten (((10))) residential units and crosses a residentially zoned lot, portions of structures may be built over the easement provided that a minimum vertical clearance of ((sixteen and one half (16 1/2))) 16.5 feet is maintained above the surface of the easement roadway and a minimum turning path radius in accordance with ((Section 23.54.030 C)) subsection 23.54.030.D is maintained. Section 27. Section 23.54.020 of the Seattle Municipal Code, last amended by Ordinance

126509, is amended as follows:

23.54.020 Parking quantity exceptions

- The motor vehicle parking quantity exceptions set forth in this Section 23.54.020 apply in all
- 6 | zones except downtown zones, which are regulated by Section 23.49.019, and Major
- 7 Institution zones, which are regulated by Section 23.54.016.
 - A. Adding ((Units)) units to ((Existing Structures)) existing structures in Multifamily
- 9 and Commercial ((Zones.)) zones
- 1. For the purposes of this Section 23.54.020, "existing structures" means those
- structures that were established under permit, or for which a permit has been granted and has
- 12 not expired as of the applicable date, as follows:
- a. In multifamily zones, August 10, 1982;

⁵ In low-income housing, there is no minimum required long-term bicycle parking requirement for each unit subject to affordability limits no higher than 30 percent of median income and long-term bicycle parking requirements may be waived by the Director as a Type I decision for each unit subject to affordability limits greater than 30 percent of median income and no higher than 80 percent of median income if a reasonable alternative is provided (e.g., in-unit vertical bike storage).

- b. In commercial zones, June 9, 1986.
- 2. In locations in a multifamily or commercial zone where there is a minimum parking requirement, one dwelling unit may either be added to an existing structure or may be built on a lot that contains an existing structure without additional parking if both of the following requirements are met:
- a. Either the existing parking provided on the lot meets development standards, or the lot area is not increased and existing parking is screened and landscaped to the greatest extent practical; and
- b. Any additional parking shall meet all development standards for the zone.
- 3. In locations in a multifamily or commercial zone where there is a minimum parking requirement, the Director may authorize a reduction or waiver of the parking requirement as a Type I decision when dwelling units are proposed to be added either to an existing structure or on a lot that contains an existing structure, in addition to the exception permitted in subsection 23.54.020.A.2, if the conditions in subsections 23.54.020.A.3.a and b below are met, and either of the conditions in subsections 23.54.020.A.3.c or d below are met:
 - a. The only use of the structure will be residential; and
- b. The lot is not located in either the University District Parking Overlay Area (Map A for 23.54.015) or the Alki Area Parking Overlay (Map B for 23.54.015); and
- c. The topography of the lot or location of existing structures makes provision of an off-street parking space physically infeasible in a conforming location; or

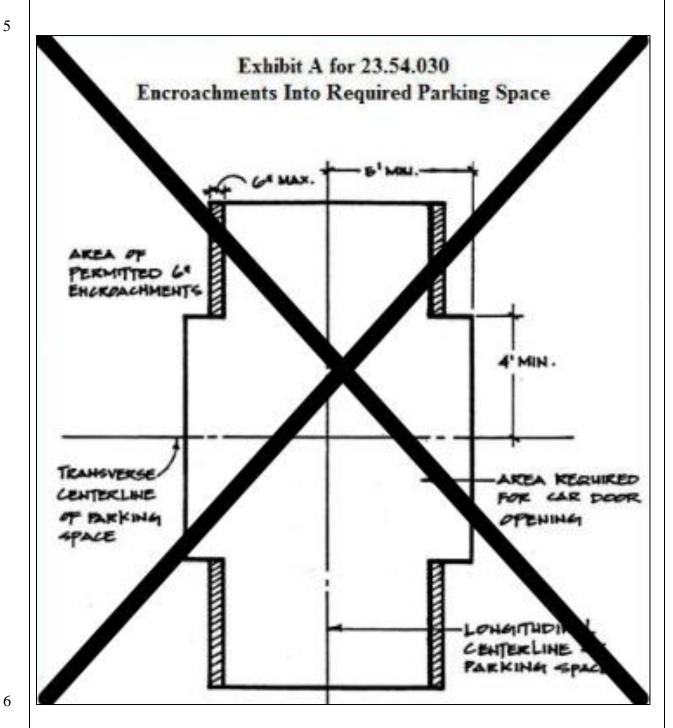

- 2. "Medium vehicle" means the minimum size of a medium vehicle parking space shall be 8 feet in width and 16 feet in length.
- 3. "Small vehicle" means the minimum size of a small vehicle parking space shall be 7.5 feet in width and 15 feet in length.
- 4. "Barrier-free parking" means a parking space meeting the following standards:
- a. Parking spaces shall not be less than 8 feet in width and shall have an adjacent access aisle not less than 5 feet in width. Van-accessible parking spaces shall have an adjacent access aisle not less than 8 feet in width. Where two adjacent spaces are provided, the access aisle may be shared between the two spaces. Boundaries of access aisles shall be marked so that aisles will not be used as parking space.
- b. A minimum length of 19 feet or when more than one barrier-free parking space is provided, at least one shall have a minimum length of 19 feet, and other spaces may be the lengths of small, medium, or large spaces in approximate proportion to the number of each size space provided on the lot.
- 5. "Tandem parking" means a parking space equal to the width and two times the length of the vehicle size standards in subsections 23.54.030.A.1, 23.54.030.A.2, and 23.54.030.A.3 for the size of the vehicle to be accommodated.
- 6. No wall, post, guardrail, or other obstruction, or lot line, is permitted within the area for car door opening. Columns or other structural elements may encroach into the parking space a maximum of 6 inches on a side, except in the area for car door opening 5 feet from the longitudinal centerline, or 4 feet from the transverse centerline of a parking space (see Exhibit A for 23.54.030).

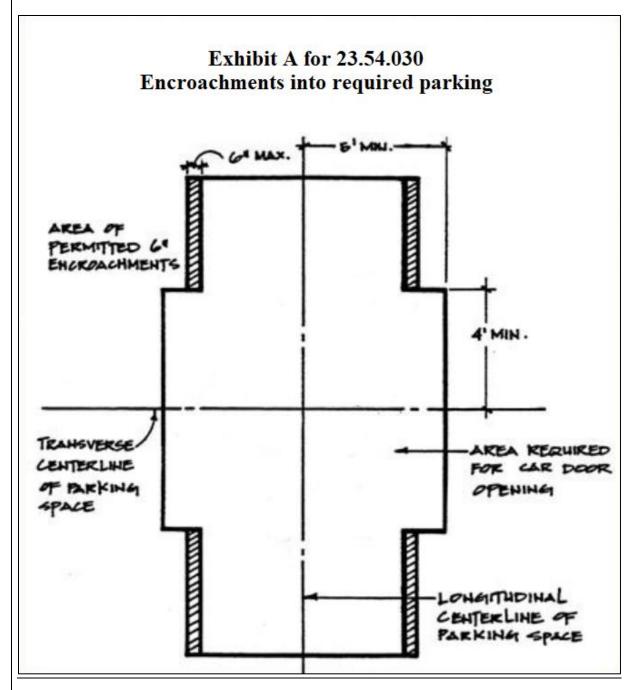

- 7. If the parking space is next to a lot line and the parking space is parallel to the
- 2 lot line, the minimum width of the space is 9 feet.

by whether the parking is for a residential, live-work, or ((non-residential)) nonresidential use. In structures containing residential uses and also containing either ((non-residential)) nonresidential uses or live-work units, parking that is clearly set aside and reserved for residential or live-work use shall meet the standards of subsection 23.54.030.B.1. Parking for

B. Parking space requirements. The required size of parking spaces shall be determined

Template last revised December 9, 2024

all other uses within the structure shall meet the standards of subsection 23.54.030.B.2. All uses shall provide barrier-free accessible parking if required by the Seattle Building Code or the Seattle Residential Code.

1. Residential uses

a. When five or fewer parking spaces are provided, the minimum required size of a parking space shall be for a medium vehicle, as described in subsection 23.54.030.A.2, except as provided in subsection 23.54.030.B.1.d.

b. When more than five parking spaces are provided, a minimum of 60 percent of the parking spaces shall be striped for medium vehicles. The minimum size for a medium parking space shall also be the maximum size. Forty percent of the parking spaces may be striped for any size category in subsection 23.54.030.A, provided that when parking spaces are striped for large vehicles, the minimum required aisle width shall be as shown for medium vehicles.

c. Assisted living facilities. Parking spaces shall be provided as in subsections 23.54.030.B.1.a and 23.54.030.B.1.b, except that a minimum of two spaces shall be striped for a large vehicle.

d. ((Townhouse units.)) For an individual garage serving ((a townhouse)) an individual dwelling unit, the minimum required size of a parking space shall be for a medium vehicle, as described in subsection 23.54.030.A.

2. ((Non-residential)) Nonresidential uses

a. When ten or fewer parking spaces are provided, a maximum of 25 percent of the parking spaces may be striped for small vehicles. A minimum of 75 percent of the spaces shall be striped for large vehicles.

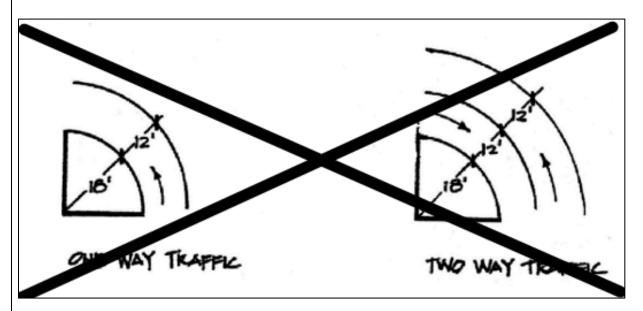

b. When between 11 and 19 parking spaces are provided, a minimum of 25 percent of the parking spaces shall be striped for small vehicles. The minimum required size for these small parking spaces shall also be the maximum size. A maximum of 65 percent of the parking spaces may be striped for small vehicles. A minimum of 35 percent of the spaces shall be striped for large vehicles.

c. When 20 or more parking spaces are provided, a minimum of 35 percent of the parking spaces shall be striped for small vehicles. The minimum required size for small parking spaces shall also be the maximum size. A maximum of 65 percent of the parking spaces may be striped for small vehicles. A minimum of 35 percent of the spaces shall be striped for large vehicles.

- d. The minimum vehicle clearance shall be at least 6 feet 9 inches on at least one floor, and there shall be at least one direct entrance that is at least 6 feet 9 inches in height for all parking garages accessory to ((non-residential)) nonresidential uses and livework units and for all flexible-use parking garages.
- 3. Live-work uses. The first required parking space shall meet the parking standards for residential use. Additional required parking for a live-work use shall meet the parking standards for ((non-residential)) nonresidential use.
- C. Backing ((Distances)) distances and ((Moving Other Vehicles.)) moving other vehicles
- 1. Adequate ingress to and egress from all parking spaces shall be provided without having to move another vehicle, except in the case of multiple spaces provided for ((a single-family)) one dwelling unit ((or an accessory dwelling unit associated with a single-

e. Driveways with a turning radius of more than 35 degrees shall

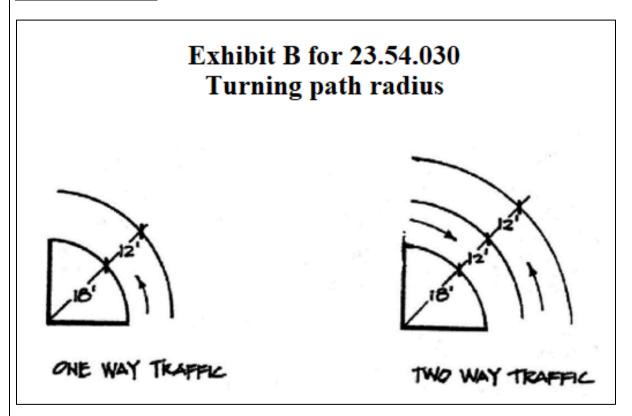

conform to the minimum turning path radius shown in Exhibit B for 23.54.030.

f. Vehicles may back onto a street from a parking area serving five or fewer vehicles, provided that either:

- 1) The street is not an arterial as defined in Section 11.18.010; or
- 2) For <u>a lot with</u> one ((single family)) dwelling unit <u>or one</u>
- <u>parking space</u>, the Director may permit backing onto an arterial based on a safety analysis that addresses visibility, traffic volume, and other relevant issues.
- g. Nonconforming driveways. The number of parking spaces served by an existing driveway that does not meet the standards of this subsection 23.54.030.D.1 shall not be increased. This prohibition may be waived by the Director after consulting with the Director of the Seattle Department of Transportation, based on a safety analysis.
 - 2. Nonresidential ((Uses.)) uses

- 3. Turning and maneuvering areas shall be located on private property, except that alleys may be credited as aisle space.
- 4. Aisle slope shall not exceed 17 percent provided that the Director may permit a greater slope if the criteria in subsections 23.54.030.D.3.a, 23.54.030.D.3.b, and 23.54.030.D.3.c are met.

* * *

1 L. Electric vehicle (EV) charging infrastructure. New parking spaces provided on a lot 2 when a new building is constructed shall be "EV-ready" as specified in this subsection 3 23.54.030.L. The required number of EV-ready parking spaces shall be determined by whether 4 the parking is for a residential or nonresidential use. Parking that is clearly set aside and 5 reserved for residential use shall meet the standards of subsection 23.54.030.L.1; parking for 6 all other uses within the structure shall meet the standards of subsection 23.54.030.L.2. 7 1. Residential uses 8 a. Private parking for individual residential units. When parking for any 9 individual dwelling unit is provided in a private garage, carport, or parking area, separate from 10 any parking facilities serving other units, at least one parking space for each unit in that garage, 11 carport, or surface parking area shall be EV-ready. 12 b. Surface parking for multiple ((residences)) dwelling units. When parking for ((multifamily residential uses)) multiple dwelling units is provided in a surface 13 14 parking area serving multiple ((residences)) dwelling units, the number of parking spaces that 15 shall be EV-ready shall be as follows: 16 ((1) When between one and six parking spaces are provided, each 17 of those parking spaces shall be EV-ready; 18 2) When between seven and 25 parking spaces are provided, a 19 minimum of six of those parking spaces shall be EV-ready; and 20 3) When more than 25 parking spaces are provided, a minimum 21 of 20 percent of those parking spaces shall be EV-ready.)) 22 1) When up to 25 parking spaces are provided, the first 12 23 parking spaces shall be EV-ready; and

	Brennon Staley OPCD Interim State Zoning Compliance ORD v2
1	c) Community farm;
2	<u>d) Library;</u>
3	e) Museum;
4	f) Private club;
5	g) Religious facility; and
6	h) School, elementary or secondary;
7	2) Entertainment uses;
8	3) Eating and drinking establishments;
9	4) Automotive sales and services;
10	5) Multipurpose retail sales;
11	6) Heavy sales and services, except heavy commercial services;
12	<u>and</u>
13	7) Marine sales and services.
14	3. Rounding. When calculating the number of required EV-ready parking
15	spaces, any fraction or portion of an EV-ready parking space required shall be rounded up to
16	the nearest whole number.
17	4. Reductions
18	a. The Director may, in consultation with the Director of Seattle City
19	Light, reduce the requirements of this subsection 23.54.030.L as a Type I decision ((where)) if
20	there is substantial evidence ((substantiating)) that the added electrical load that can be
21	attributed to meeting the requirements will:
22	1) Alter the local utility infrastructure design requirements on the
23	utility side of the legal point of service, so as to require on-property power transformation; or

- 2) Require an upgrade to an existing residential electrical service.
- b. In cases where the provisions of subsection 23.54.030.L.4.a have been met, the maximum quantity of EV charging infrastructure required to be installed shall be reduced to the maximum service size that would not require the changes to transformation or electrical service in subsection 23.54.030.L.4.a. The Director may first reduce the required level of EV infrastructure at EV-ready parking spaces from 40-amp to 20-amp circuits. If necessary, the Director may also then reduce the number of required EV-ready parking spaces or otherwise reduce the level of EV infrastructure at EV-ready parking spaces.
- c. The Director may establish by rule the procedures and documentation required for a reduction <u>request</u>.
- 5. All EV charging infrastructure shall be installed in accordance with the Seattle Electrical Code. Where EV-ready surface parking spaces are located more than 4 feet from a building, raceways shall be extended to a pull box or stub in the vicinity of the designated space and shall be protected from vehicles.
- 6. Accessible parking. Where new EV-ready parking spaces and new accessible parking are both provided, parking facilities shall be designed so that at least ((one)) 20 percent of the accessible parking spaces shall be EV-ready with no fewer than two EV-ready spaces.

 The accessible parking EV-ready infrastructure may also serve adjacent parking spaces not designated as accessible parking. The EV-ready accessible parking spaces, rounded up to the next whole number, are allowed to be included in the total number of electric vehicle parking spaces required under 23.54.030.L.1. and 23.54.030.L.2.
- 7. Nothing in this subsection 23.54.030.L shall be construed to modify the minimum number of off-street motor vehicle parking spaces required for specific uses or the

1. BILL SUMMARY

Legislation Title: AN ORDINANCE relating to land use and zoning; implementing interim controls to comply with various state laws; establishing findings and adopting a workplan for permanent legislation; amending Sections 23.22.062, 23.24.045, 23.34.011, 23.44.006, 23.44.010, 23.44.011, 23.44.012, 23.44.014, 23.44.016, 23.44.017, 23.44.044, 23.45.512, 23.45.514, 23.45.518, 23.45.522, 23.45.527, 23.45.529, 23.53.006, 23.53.025, 23.54.015, 23.54.020, 23.54.030, 23.84A.010, 23.84A.025, 23.84A.036, and 25.09.240 of the Seattle Municipal Code.

Summary and Background of the Legislation:

The primary purpose of this legislation is to implement interim changes to zoning regulations necessary to comply with Washington State House Bill 1110. House Bill 1110 (also known as the "Middle Housing bill") requires cities to allow a wider variety of housing types such as duplex, triplexes, and stacked flats in primarily single-family zones and places limits on the regulation of middle housing.

This legislation would also implement changes to comply with:

- House Bill 1293 which requires that design standards be "clear and objective"
- Senate Bill 6015 which places limits on requirements for off-street parking
- House Bill 1287 which establishes requirements for electric vehicle charging in new developments

Specifically, this legislation would make the following changes to the existing code:

Changes to Neighborhood Residential (NR) zoning

Below is a summary of the proposed updated development standards for NR zones and how they would compare to the permanent legislation and state's model code, which would become effective if interim legislation is not adopted.

	Interim legislation
Uses	Multifamily uses are allowed

Density	Four units are allowed per lot except that six units are allowed per lot if within 1/4-mile walking distance of a major transit stop or at least two units on the lot are affordable. ADUs count toward the density limits.
	Density on lots with Environmentally Critical Areas (ECAs) would be reduced in portion to percentage of lot that contains ECAs
FAR	1 unit on a lot: 0.6 2 units on a lot: 0.8 3 units on a lot: 1.0 4 or more units on a lot: 1.2
Height	32 feet plus pitched roofs
Front setback	10 feet
Rear setback	10 feet, except 0 feet if the rear setback abuts an alley
Side Setback	5 feet, except 0 feet if the side setback abuts an alley
Garage setback	20 feet
Lot coverage	50 percent

Changes to **Residential Small Lot (RSL)** zoning

- Update density limits in RSL zones to comply with the requirement to allow at least 4 units on all lots and 6 units within ½ mile of major transit stops or if two units are affordable; similar to NR zones, density on lots with Environmentally Critical Areas (ECAs) would be reduced in portion to the percentage of lot that contains ECAs
- Increase height in RSL zones from 30 feet to 32 feet similar to NR zones
- Increase the floor area ratio (FAR) so it would be equal to the proposed FAR in NR zones on lots with 2 or more units

Changes to Lowrise (LR) zoning

- Update density limits in LR1 zones to comply with the requirement to allow at least 4 units on all lots and 6 units within ½ mile of major transit stops or if two units are affordable; similar to NR zones, density on lots with Environmentally Critical Areas (ECAs) would be reduced in portion to the percentage of lot that contains ECAs
- Increase height in LR1 zones from 30 feet to 32 feet similar to NR zones
- Shift from setbacks that vary by different building types into a single set of setbacks that apply to all projects in order to comply with HB 1110 standards that development standards can't be more strict for middle housing than for single-family residences, as summarized below:
 - o Front setback: 7 feet average, 5 feet minimum
 - o Rear setback: 7 feet average, 5 feet minimum, except 0 feet if alley

- o Side setback: 5 feet
- Shift from maximum structure widths that vary by different building types into single maximum structure width of 90 feet for LR1 and LR2 zones and 150 feet for LR3 in order to comply with HB 1110 standards that development standards for middle housing can't be more strict than for single-family residences
- Remove certain design standards relating to façade articulation and location of windows to comply with the requirement of HB 1293 that design standards must be clear and objective
- Consolidate design standards that vary by housing type into a single set of standards relating to pedestrian pathways and entrances.

Additional changes affecting multiple zones

- Remove residential parking requirements for middle housing within ½ mile of major transit stops
- Modify parking space size and tandem parking requirements to comply with SB 6015 as follows:
 - Reduce minimum width of largest required parking space from 8.5 feet to 8 feet
 - Allow tandem parking to count as two spaces
- Modify standards for pedestrian access and circulation and access easements
 requirements so they are based on number of units rather than type of unit to
 comply with HB 1110 requirement that development standards for middle housing
 can't be more strict than for single-family residences
- Exempt middle housing from bike parking requirements to comply with HB 1110 standards that development standards for middle housing can't be more strict than for single-family residences
- Update EV charging requirements to meeting requirements in HB 1287

2. CAPITAL IMPROVEMENT PROGRAM	
Does this legislation create, fund, or amend a CIP Project?	☐ Yes ⊠ No
3. SUMMARY OF FINANCIAL IMPLICATIONS	
Does this legislation have financial impacts to the City?	⊠ Yes □ No
This legislation will not have any direct impacts to expenditures, revenues, or post However, it would have the following indirect impacts:	itions.

Tax Base

The legislation is likely to slightly increase the construction of housing in Neighborhood Residential zones. Increased housing construction would bring in additional tax revenue directly through increased construction sales tax and REET tax and indirectly through an increase in property taxes and the number of residents in Seattle.

Permit Review

This legislation is likely to increase the number of permits for housing that the City has to review but would also make changes to simplify the existing code. Increased permit review would be paid for by the permit fees on the additional volume of permits.

Information Technology, Education, & Outreach

Implementation of this legislation will require updating of zoning maps, GIS layers, websites, director's rules, and other public materials as well as minor changes to the software tracking tools such as Accela to account for new zone names. It is expected that this work will be accomplished using existing staff resources. Technology update costs would be paid by SDCI from existing permit fees through an existing MOU with IT. Material update costs outlined in the memo would be paid for by SDCI permit fees.

4. OTHER IMPLICATIONS

a. Please describe how this legislation may affect any departments besides the originating department.

Fiscal impacts, described herein, are primarily on permitting departments including the Seattle Department of Construction and Inspections (SDCI), Department of Transportation (DOT), Seattle Public Utilities, (SPU), Seattle City Light (SCL), Seattle Fire Department (SFD), and the Department of Neighborhoods (DON).

b. Does this legislation affect a piece of property? If yes, please attach a map and explain any impacts on the property. Please attach any Environmental Impact Statements, Determinations of Non-Significance, or other reports generated for this property.

The legislation will apply to Neighborhood Residential Zones throughout Seattle. Neighborhood Residential zones represent about 2/3rds of Seattle. It would also have minor impacts on development regulations in other residential zones.

- c. Please describe any perceived implication for the principles of the Race and Social Justice Initiative.
 - i. How does this legislation impact vulnerable or historically disadvantaged communities? How did you arrive at this conclusion? In your response please consider impacts within City government (employees, internal programs) as well as in the broader community.

This legislation would help address multiple equity issues by:

- reducing the cost of housing by increasing the supply of housing in order to address the competition for housing which is driving price increases
- allow for more home ownership opportunities in parts of Seattle where only detached homes and accessory dwelling units are currently allowed
- implement an affordable housing bonus in NR zones to support the development of this type of housing in areas where affordable housing is lacking.

- ii. Please attach any Racial Equity Toolkits or other racial equity analyses in the development and/or assessment of the legislation. No racial equity analyses were conducted for the interim legislation, but a racial equity toolkit was conducted for permanent legislation which is planned to replace this legislation.
- iii. What is the Language Access Plan for any communications to the public?
 None.
- d. Climate Change Implications
 - i. Emissions: How is this legislation likely to increase or decrease carbon emissions in a material way? Please attach any studies or other materials that were used to inform this response.

This legislation will tend to encourage housing within Seattle compared to areas outside of Seattle. Consequently, it will help to reduce carbon emissions from transportation by locating new households in areas of transit, employment, and amenities.

- ii. Resiliency: Will the action(s) proposed by this legislation increase or decrease Seattle's resiliency (or ability to adapt) to climate change in a material way? If so, explain. If it is likely to decrease resiliency in a material way, describe what will or could be done to mitigate the effects.
 - This legislation is not expected to substantially affect Seattle's resiliency.
- e. If this legislation includes a new initiative or a major programmatic expansion: What are the specific long-term and measurable goal(s) of the program? How will this legislation help achieve the program's desired goal(s)? What mechanisms will be used to measure progress towards meeting those goals?

This legislation would allow the City to temporarily comply with state legislation. Permanent legislation to implement the One Seattle Plan will follow later this year.

5. CHECKLIST

Please click the appropriate box if any of these questions apply to this legislation.

\boxtimes	Is a public hearing required?
\boxtimes	Is publication of notice with <i>The Daily Journal of Commerce</i> and/or <i>The Seattle Times</i> required?
	If this legislation changes spending and/or revenues for a fund, have you reviewed the relevant fund policies and determined that this legislation complies?
	Does this legislation create a non-utility CIP project that involves a shared financial commitment with a non-City partner agency or organization?

Director's Report One Seattle Plan Zoning Update Interim State Zoning Compliance Legislation Summary March 26, 2025

Overview

The primary purpose of this legislation is to implement interim changes to zoning regulations necessary to comply with Washington State House Bill 1110. House Bill 1110 (also known as the "Middle Housing bill") requires cities to allow a wider variety of housing types such as duplex, triplexes, and stacked flats in primarily single-family zones and places limits on the regulation of middle housing.

This legislation would also implement changes to comply with:

- House Bill 1293 which requires that design standards be "clear and objective"
- Senate Bill 6015 which places limits on requirements for off-street parking
- House Bill 1287 which establishes requirements for electric vehicle charging in new developments

Background

The Washington State Legislature has adopted numerous bills in recent sessions to support the production of housing and other objectives. Below is a brief summary of the bills that are relevant to this legislation.

HB 1110 (Middle Housing)

HB 1110 requires cities throughout Washington state to allow a wider variety of housing in predominantly single-family zones. Minor changes to the language in HB 1110 were passed the following year as HB 2321. Under these pieces of legislation, the following changes are required:

- Cities must allow in all residentially zoned areas six of nine types of housing (duplex, triplex, fourplex, fiveplex, sixplex, courtyard apartments, cottage housing, townhouses, stacked flats)
- Cities must allow in all residential areas four dwelling units per lot or six units per lot if within 1/4-mile walking distance of a major transit stop or at least two units on the lot are affordable; lots with ECAs may be partially exempted from this requirement
- Cities must allow unit lot subdivision, which facilitates fee-simple ownership of attached dwelling units
- Design review for middle housing may only be administrative
- Cities must not have any standards for middle housing that are more restrictive than those required for detached single-family residences
- Cities must apply to middle housing the same development permit and environmental review processes that apply to detached single-family residences

- V1
- Cities must not require off-street parking as a condition of middle housing within one-half mile walking distance of a major transit stop
- Cities must not require more than one off-street parking space per unit as a condition of middle housing on lots smaller than 6,000 square feet

Cities are required to adopt changes to development standards to meet these requirements by June 30, 2025. If they do not meet this timeline, a state-developed "model ordinance" will supersede non-compliant local regulations. The state requirements include both requirements that are clearly defined (like the number of units required to be allowed) and others that are open to interpretation (such as the requirement that standards for middle housing may not be more restrictive than those required for detached single-family residences). Consequently, the model ordinance contains specific standards for height, floor area, setbacks, and other standards as well as less well defined guidance that certain types of standards would be invalid. Without interim legislation, it would be very difficult to review projects against the model ordinance and it is likely that the City would have to defend against lawsuits over our interpretation of the model ordinance.

House Bill 1293 (Clear and objective design standards)

HB 1293 requires that cities may only have "clear and objective" design standards and places limits on design review processes. In Seattle, design standards occur in two places:

- 1. The City implements a design review program in which city staff or design review boards reviews larger projects against adopted <u>design guidelines</u>.
- 2. The Land Use code has <u>design standards</u> that apply to projects that don't go through design review.

The design review process, including the design guidelines, is proposed to be updated through a separate piece of legislation. This interim legislation would address changes to design standards in SMC 23.45.529. The deadline for compliance with these requirements is June 30,2025.

Senate Bill 6015 (off-street parking)

<u>SB 6015</u> requires cities to implement a variety of changes around off-street parking. Seattle's existing code is already compliant with most of these provisions; however, this law would require us to:

- 1. Reduce the minimum width of largest required parking space from 8.5 feet to 8 feet
- 2. Allow tandem parking to count as two spaces

This bill was adopted in March of 2024 and the provisions when into effect at that time.

House Bill 1287 (electric vehicle charging)

HB 1287 increases the portion of parking spaces in new development that must be "EV-ready." EV-ready means that an electric service that is terminated at a junction box or receptacle outlet is provided in close proximity to a parking space. This level of infrastructure would allow a charger to be installed without laying new electrical lines or reopening the wall. Changes to meet this requirement were already made to Seattle's Electrical Code, but changes to the Land Use Code are also required to implement this law. This bill became effective July 1, 2024.

Approach to Legislation

This legislation only modifies standards that are addressed in the state's Model Ordinance or that are required to be updated to comply with state law. Where the State's Model Ordinance and proposed permanent legislation are generally similar, the legislation would implement the specific standards proposed in the draft permanent legislation.

The legislation also includes sections that are necessary for interim legislation including findings, the length of time the interim legislation would be in effect, and a workplan for preparing permanent legislation.

Summary of Legislation

This legislation would make the following changes to the existing code:

Changes to Neighborhood Residential (NR) zoning

Below is a summary of the proposed updated development standards for NR zones and how they would compare to the permanent legislation and state's model code, which would become effective if interim legislation is not adopted.

	Interim legislation	Permanent legislation	State Model Ordinance
Uses	Multifamily uses are allowed	Same as interim	Same as interim
Density	Four units are allowed per lot except that six units are allowed per lot if within 1/4-mile walking distance of a major transit stop or at least two units on the lot are affordable. ADUs count toward the density limits. Density on lots with Environmentally Critical Areas (ECAs) would be reduced in portion to percentage of lot that contains ECAs	Implements a density limit of 1 unit per 1,250 square feet Otherwise, same as interim	Same as interim legislation except ADUs would not count toward density limit
FAR	1 unit on a lot: 0.6 2 units on a lot: 0.8 3 units on a lot: 1.0 4 or more units on a lot: 1.2	Same as interim	1 unit on a lot: 0.6 2 units on a lot: 0.8 3 units on a lot: 1.0 4 units on a lot: 1.2 5 units on a lot: 1.4 6 units on a lot: 1.6
Height	32 feet plus pitched roofs	Same as interim	35 feet plus pitched roofs.

Front setback	10 feet	Same as interim	15 feet, except 10 feet for lots with a unit density of three or more.
Rear setback	10 feet, except 0 feet if the rear setback abuts an alley	Same as interim	15 feet, except 10 feet for lots with a unit density of three or more and 0 feet if the rear setback abuts an alley
Side Setback	5 feet, except 0 feet if the side setback abuts an alley	Same as interim	5 feet
Garage setback	20 feet	Same as interim	Same as interim
Lot coverage	50 percent	Same as interim	55 percent for lots with 6 units 50 percent for lots with 4 or 5 units 45 percent for lots 3 or less units

Changes to Residential Small Lot (RSL) zoning

- Update density limits in RSL zones to comply with the requirement to allow at least 4 units on all lots and 6 units within ¼ mile of major transit stops or if two units are affordable; similar to NR zones, density on lots with Environmentally Critical Areas (ECAs) would be reduced in portion to the percentage of lot that contains ECAs
- Increase height in RSL zones from 30 feet to 32 feet similar to NR zones
- Increase the floor area ratio (FAR) so it would be equal to the proposed FAR in NR zones on lots with 2 or more units

Changes to Lowrise (LR) zoning

- Update density limits in LR1 zones to comply with the requirement to allow at least 4 units on all lots and 6 units within ¼ mile of major transit stops or if two units are affordable; similar to NR zones, density on lots with Environmentally Critical Areas (ECAs) would be reduced in portion to the percentage of lot that contains ECAs
- Increase height in LR1 zones from 30 feet to 32 feet similar to NR zones
- Shift from setbacks that vary by different building types into a single set of setbacks that apply to all projects in order to comply with HB 1110 standards that development standards can't be more strict for middle housing than for single-family residences, as summarized below:
 - o Front setback: 7 feet average, 5 feet minimum
 - o Rear setback: 7 feet average, 5 feet minimum, except 0 feet if alley

- o Side setback: 5 feet
- Shift from maximum structure widths that vary by different building types into single maximum structure width of 90 feet for LR1 and LR2 zones and 150 feet for LR3 in order to comply with HB 1110 standards that development standards for middle housing can't be more strict than for single-family residences
- Remove certain design standards relating to façade articulation and location of windows to comply with the requirements of HB 1293 that design standards must be clear and objective
- Consolidate design standards that vary by housing type into a single set of standards relating to pedestrian pathways and entrances

Additional changes affecting multiple zones

- Remove residential parking requirements for middle housing within ½ mile of major transit stops
- Modify parking space size and tandem parking requirements to comply with SB 6015 as follows:
 - o Reduce minimum width of largest required parking space from 8.5 feet to 8 feet
 - o Allow tandem parking to count as two spaces
- Modify standards for pedestrian access and circulation and access easements
 requirements so they are based on number of units rather than type of unit to comply with
 HB 1110 requirement that development standards for middle housing can't be more strict
 than for single-family residences
- Exempt middle housing from bike parking requirements to comply with HB 1110 standards that development standards for middle housing can't be more strict than for single-family residences
- Update EV charging requirements to meeting requirements in HB 1287

Topics Not Included in Interim Legislation

In addition to complying with state law, the permanent legislation would implement a broad range of changes to improve the clarify and predictability of the code, encourage better design outcomes, and address other city goals. Below is a list of topics that are proposed to be addressed by the permanent legislation but are not included in the interim legislation:

- Consolidation of NR zones
- Rezones from NR to RSL
- Bonuses for stacked flats and lowincome housing
- Corner store allowance
- Amenity Area
- Building separation requirements
- Accessory dwelling units
- Tree planting requirements and tree preservation incentives
- Allowances for stormwater features

- Parking location and screening
- Parking requirements outside of major transit areas
- Facade length
- New design standards
- Institutions
- Essential public facilities
- Adult family homes
- Numerous edits to improve clarity and accuracy

NOTICE OF A SEATTLE CITY COUNCIL PUBLIC HEARING ON INTERIM REGULATIONS FOR MIDDLE HOUSING

The Seattle City Council's Select Committee on the Comprehensive Plan will hold a public hearing on May 19, 2025, at 9:30 AM on Council Bill (CB) 120969. CB 120969 is the Mayor's proposed regulations to implement Washington State law, particularly Engrossed Second Substitute House Bill (HB) 1110, on an interim basis.

As required by Washington State law, CB 120969 would authorize development of middle housing, such as duplexes, triplexes, fourplexes, fiveplexes, sixplexes, townhouses, cottage housing, stacked flats, courtyard apartments, and cottage housing on most lots zoned for primarily residential use. CB 120969 would increase densities on most lots zoned for primarily residential use to:

- 1. At least four units on every lot;
- 2. At least six units on every lot within one-quarter mile of a major transit stop; and
- 3. At least six units on every lot with at least two affordable housing units.

CB 120969 would also modify physical development standards, such as height, setbacks, lot coverage, and floor area ratios (FAR), to accommodate the increased densities and make other changes to regulations to maintain consistency with requirements of Washington State law. Changed regulations would primarily apply in Neighborhood Residential (NR) zones.

Interim regulations would expire one year after they become effective, unless the City approves permanent regulations implementing HB 1110.

The Council may consider amendments to CB 120969. Those amendments could include, but are not limited to:

- Modifications to physical development standards, including changes to maximum lot coverage; front, rear, and side setbacks and yards; maximum heights of principal and accessory structures; required open space and amenity areas; and maximum allowed FAR to change the appearance of the height, bulk, and scale of development allowed under the interim regulations;
- Modifications to physical development standards and/or tree protection requirements to encourage or require preservation of trees;
- Modifications to FAR and density limits to encourage development of particular types of middle housing, such as stacked flats;

- Modifications to how portions of lots with environmentally critical areas, such as steep slope hazard areas, are treated for the purposes of determining allowable density;
- Modification to minimum parking requirements;
- Modifications to Design Review requirements, where applicable;
- Modifications to affordable housing incentives and requirements, including extending the City's Mandatory Housing Affordability program to zones subject to HB 1110; and
- Modifications to street improvement requirements, including changes to thresholds above which full street improvements, such as sidewalks, are required.

Amendments recommended by the Committee may be combined in a new bill or a retitled CB 120969.

This public hearing is on interim regulations in CB 120969, only. The Select Committee on the Comprehensive Plan will hold future public hearings regarding legislation amending the Comprehensive Plan and legislation making long-term changes to zone designations and land use regulations to implement the Comprehensive Plan.

PUBLIC HEARING

The City Council's Select Committee on the Comprehensive Plan will hold a public hearing to take comments on the plan on Monday, May 19, 2025, at 9:30 AM. The hearing will be held in the:

City Council Chambers 2nd Floor, Seattle City Hall 600 Fourth Avenue, Seattle, WA

Persons who wish to participate in or attend the hearing may be offered the opportunity to do so remotely. If this is the case, the City Council will provide instructions in the meeting agenda on how to participate remotely. Please check the City Council agenda a few days prior to the meeting at http://www.seattle.gov/council/committees.

Print and communications access is provided on prior request. Seattle City Council Chambers is accessible. Directions to the City Council Chambers, and information about transit access and parking are available at http://www.seattle.gov/council/meet-the-council/visiting-city-hall.

WRITTEN COMMENTS

For those unable to attend the public hearing, written comments may be sent to:

Councilmember Hollingsworth 600 Fourth Avenue, Floor 2 PO Box 34025 Seattle, WA 98124-4025 or by email to council@seattle.gov

Written comments should be received by Monday, May 19, 2025, at 5:00 PM.

INFORMATION AVAILABLE

The Mayor's proposed CB 120969 is available at https://www.seattle.gov/opcd/one-seattle-plan under "Interim Legislation to Comply with HB 1110" and from https://seattle.legistar.com/Legislation.aspx by searching for 120969.

Questions regarding CB 120969 may be directed to Brennon Staley, Office of Planning and Community Development at brennon.staley@seattle.gov or 206-684-4625 or to Lish Whitson, Council Central Staff at 206-615-1674 or lish.whitson@seattle.gov.
