**CITY OF SEATTLE**  
**ORDINANCE** 127073  
**COUNCIL BILL** 120820

AN ORDINANCE relating to wastewater services of Seattle Public Utilities; adjusting wastewater rates; and amending Section 21.28.040 of the Seattle Municipal Code to reflect adjusted rates.

WHEREAS, Seattle Public Utilities has recently completed a rate study incorporating guidance of its adopted 2025-2030 Strategic Business Plan Update; and

WHEREAS, the 2025-2030 Strategic Business Plan Update included increases in the capital and operating requirements of the Drainage and Wastewater Fund in response to federal and state regulatory requirements, as well as environmental and infrastructure concerns, with a resulting increase in revenue requirements; and

WHEREAS, drainage and wastewater rates are calculated in accordance with the financial policies adopted by Resolution 30612 and Statement of Legislative Intent 13-1-A-1; and

WHEREAS, Seattle Public Utilities’ wastewater system rates are designed to pass through all expenses in maintaining and operating the wastewater system, and any related taxes or discounts incurred; NOW, THEREFORE,

**BE IT ORDAINED BY THE CITY OF SEATTLE AS FOLLOWS:**

Section 1. Subsection 21.28.040.B of the Seattle Municipal Code, which section was last amended by Ordinance 126688, is amended as follows:

**21.28.040 Wastewater volume charge**

\* \* \*

B. The wastewater volume rate shall be the sum of the treatment rate and the system rate, as follows:

1                   1. Treatment rate. The “treatment rate” shall be the rate required to pay the  
2 wastewater share of “treatment cost,” which is the cost of wastewater treatment, interception, and  
3 disposal services as paid to external treatment providers by the Department, any taxes incurred  
4 on treatment rate revenue, and any other associated costs required to meet Drainage and  
5 Wastewater Fund financial policies. The treatment rate shall be adjusted for utility discount  
6 program credits or any other revenue-reducing credits. The treatment rate may be adjusted at any  
7 time in response to changes in the rates charged by external treatment providers.

8                   If an external treatment provider implements new rates for wastewater treatment  
9 or related services, the updated treatment contract cost under the new rates for the subsequent 12-  
10 month period shall be compared with the Department’s cost assumption used in the adopted  
11 revenue requirement for the same time period. If the calculated difference for the rate year is  
12 \$500,000 greater than what was adopted, then it will be deemed material and passed through in  
13 rates. Treatment rates in all rate schedules will be adjusted upwards or downwards by a  
14 consistent amount such that the identified material cost difference, including taxes and Utility  
15 Discount Program expense, is collected from or credited to customers over the subsequent 12-  
16 month period from the onset of the rate adjustment.

17                   2. System rate. The “system rate” shall be the rate required to pay the cost of  
18 carrying and discharging all wastewater and any wastewater-funded share of stormwater into the  
19 City sewerage system, as presently maintained and operated and as may be added to, improved,  
20 and extended.

21                   3. The wastewater system volume rate per CCF shall be in accordance with the  
22 following schedule: \$7.67 effective through December 31, 2024; \$7.10 effective January 1,  
23 2025; \$7.34 effective January 1, 2026; and \$7.45 effective January 1, 2027.

	<b>((Effective Jan 1, 2021</b>	<b>Effective Jan 1, 2022</b>	<b>Effective Jan 1, 2023</b>	<b>Effective Jan 1, 2024</b>
<b>System Rate</b>	\$7.42	\$7.67	\$7.67	\$7.67))
