### **1. BILL SUMMARY**

**Legislation Title:** AN ORDINANCE relating to City employment; and establishing the Deferred Compensation Analyst classification title series and corresponding rates of pay in the Seattle City Employees' Retirement System.

**Summary and Background of the Legislation:** If passed, this legislation would:

- a. Establish two new titles (Deferred Compensation Analyst and Deferred Compensation Analyst, Senior) and corresponding rates of pay in the Seattle City Employees' Retirement System department.

The Seattle Department of Human Resources (SDHR) Compensation and Classification Unit provides centralized classification and compensation services for the City of Seattle, including classifying positions citywide and maintaining the City's compensation programs. City departments may request adjustments to compensation and classification programs, including the establishment of new titles, modification of salary ranges, or other programmatic changes. These changes must be approved by the City Council.

In 2024, SDHR submitted a request to the Compensation and Classification Unit for the creation of classification specifications and salaries for a "Deferred Compensation Analyst" (historically classified as a Personnel Analyst) and "Deferred Compensation Analyst, Senior" (historically classified as a Personnel Analyst, Senior). These requests were submitted in tandem with the reorganization and physical move of the Deferred Compensation Unit to the Seattle City Employees' Retirement System (SCERS) department, effective January 1, 2025.

The Deferred Compensation Analyst and Senior classifications perform ongoing citywide defined contribution pension services comparable to those performed prior to the organizational and physical relocation from SDHR to SCERS effective January 1, 2025. However, the deferred compensation analytical work in the Deferred Compensation Analyst classification series would be better defined and appropriately distinguished from other citywide human resources services that continue to remain within SDHR, as well as from individual contributor defined benefit classifications located within SCERS.

The rates of pay for the Deferred Compensation Analyst and Deferred Compensation Analyst, Senior classifications remain identical to/correspond with the rates of pay of the Personnel Analyst and Personnel Analyst, Senior classifications, respectively. Therefore, rates of pay remain unchanged for the two impacted incumbent employees, and there are no financial impacts or other costs associated with this legislation.

## 3. SUMMARY OF FINANCIAL IMPLICATIONS

**Does this legislation have financial impacts to the City?**  Yes  No

No.

**If the legislation has costs, but they can be absorbed within existing operations, please describe how those costs can be absorbed. The description should clearly describe if the absorbed costs are achievable because the department had excess resources within their existing budget or if by absorbing these costs the department is deprioritizing other work that would have used these resources.**

**Please describe any financial costs or other impacts of *not* implementing the legislation.**

If this legislation is not implemented, the Deferred Compensation Classification title series within SCERS would not be established.
