Budget Action description:

This green sheet would add \$175,000 GSF in the Human Services Department (HSD) for the Seattle Youth Employment Program (SYEP) to provide a lunch program for participants during summer internships.

Background

SYEP makes investments that allow youth and young adults to engage in employment internships. These internships are a critical strategy on the pathway to post-secondary education and adult employment. 600 SYEP youth are expected to be served in the summer of 2016.

These youth are selected for the program based on a number of factors, including: having low income, struggling in school, being system involved, having an incarcerated parent, living in subsidized housing or current involvement in the Seattle Youth Violence Prevention Initiative. Providing each of these youth with a cash card for lunches (estimated at a value of \$10.20 per lunch for 28 days) would cost approximately \$175,000.

These students, many of whom would qualify for free and reduced lunch at school during the school year, are left during the summer without this benefit. Creating a program where youth would get a cash card for a grocery store or nearby food service location would ensure that the youth are properly nourished during their workday, and are more poised for success in learning and growing in the program.

In 2015, SYEP had total funding of approximately \$4.2 million, and the 2016 Proposed budget contains approximately \$4.0 million.

It is the Council's hope that with the continuation and expansion of the program, potential partnerships and or sponsorships will be sought to help with this lunch program in the future.
