**3. Franchise Term.** The term of this Agreement granted hereunder shall be for the period of fifteen (15) years counted from the last day of the calendar month in which this ordinance became effective.

**4. Consideration.** The City and SCL recognize that the City has the authority under state law to establish its own municipal electric utility, and the authority to acquire SCL electric distribution properties in the City for that purpose. The City and SCL also recognize that the City has the authority to impose a utility tax on a light and power business operating within the City pursuant to Chapter 3.18.030 of the Lake Forest Park Municipal Code.

- 4.1. In consideration for the City agreeing not to exercise such authority during the term of this franchise, the City and SCL agree to the following:
  - 4.1.1. Subject to the City's right to change the Rate Differential, SCL shall pay the City four percent (4%) of the total amount of Revenue derived from SCL service to customers in the City.
  - 4.1.2. SCL shall add a six percent (6%) Rate Differential to the Base Rates established for SCL customers within the City compared to the Base Rates charged to SCL customers within the City of Seattle. The Rate Differential applied to the Base Rate for customers within the City shall be subject to the rate review process by the Seattle City Council, and subject to approval by Council ordinance. However, the Rate Differential percentage shall not be affected by a change in the base rates.
  - 4.1.3. During the term of this Franchise, and upon one year advance written notice to SCL, the City may elect to change the Rate Differential established in 4.1.2. above from six percent (6%) to eight percent (8%). In that event, and beginning upon the effective date of the Rate Differential change, SCL shall increase its payments to

the City as defined in Section 4.1.1 above to six percent (6%) of the amount of revenue derived from SCL service to customers in the City.

- 4.1.4. Within a reasonable time of the City's written request, SCL shall provide the City with a good faith estimate and supporting information of the likely impact to SCL customer rates in the City, should the City consider changing the Rate Differential from the one currently in place, as provided by Section 4.1.3. above.
- 4.1.5. The Mayor of Seattle shall appoint a member nominated by the City and other suburban cities to the Seattle City Light Review Panel who will represent the interests of suburban cities served in whole or in part by SCL.
- 4.2. Should the City of Seattle be prevented by judicial or legislative action from collecting a utility tax on all or a part of the revenues derived by SCL from customers in the City, SCL shall reduce the payments to the City provided in Section 4.1.1 above by an equivalent amount.
- 4.3. Should a court of competent jurisdiction declare the consideration to be paid to the City in Section 4.1.1 above invalid, in whole or in part, or should a change in law make the consideration to be paid to the City in Section 4.1.1 above invalid, in whole or in part, this entire Agreement may be terminated by the City at any time thereafter upon 180 days written notice. During such notice period, however, SCL and the City shall attempt to agree upon acceptable, substitute provisions.
- 4.4. Payments by SCL to the City provided for under this Section 4.1 shall be paid monthly within 30 days following the end of each calendar month.
- 4.5. Should the City, following separate approval by the Lake Forest Park City Council, levy a utility tax on SCL that is permitted by and complies with state law, SCL may, in its sole discretion, add said utility tax to the monthly bills of its customers within the City as a separate line item. Any utility tax levied by the City on SCL shall not be part of the Rate Differential as defined in this Agreement. The utility tax shall not be imposed earlier than January 1, 2016.

## **5. City Ordinances and Regulations.**

- 5.1. Except as provided for in Section 7 of this Agreement, nothing herein shall be deemed to direct or restrict the City's ability to adopt and enforce all necessary and appropriate ordinances regulating the performance of the conditions of this franchise, including any reasonable ordinance made in the exercise of its police powers in the interest of public safety and for the welfare of the public. The City shall have the authority at all times to control, by appropriate regulations, the location, elevation, and manner of construction and maintenance of any facilities of SCL located within the City Right-of-way. SCL shall promptly conform with all such regulations, unless compliance would cause SCL to violate other requirements of local, state or federal law, or industry codes or standards for the safe installation, maintenance and operation of its Facilities, including but not limited to regulations specified by the American National Standards Institute (ANSI), the North American Electrical Reliability Corporation (NERC), the National Electrical Code (NEC), the National Electrical Safety Code (NESC), and written and duly executed SCL policies and procedures.

## 6. Right-of-Way Management.

### 6.1. Excavation, Permits and Notice of Entry.

- 6.1.1. During any period of relocation or maintenance, all surface structures, if any, shall be erected and used in such places and positions within the Right-of-way so as to interfere as little as possible with the safe and unobstructed passage of traffic and the unobstructed use of property adjoining the Right-of-way. SCL shall at all times post and maintain proper barricades and comply with all applicable safety regulations during such period of construction as required by the ordinances of the City or state law, including RCW 39.04.180, for the construction of trench safety systems.
- 6.1.2. Public Right of Way Permits. Prior to performing any work in the City's Right-of-way for the purpose of installation, construction, repair, testing, maintenance or relocation of its facilities, SCL shall first apply for and obtain from the City appropriate permit(s) in accordance with the City's ordinances and regulations requiring permits to perform work or operate in the Right-of-way. Upon reasonable request by the City, SCL shall provide the City with plans, maps, and information showing the proposed and final location(s) of any facilities in accordance with Section 6.8 of this Agreement. Notwithstanding Section 6.1.5, SCL shall not commence any such work within City's Right-of-way without a permit.
- The City shall endeavor to grant SCL all permits, rights of entry, and rights and permissions necessary to perform the work, in a timely, expeditious and consistent manner, but in no event more than 30 days from the date SCL submits a complete application for such permit or right-of-entry.
- 6.1.3. During the progress of the work, SCL shall not unnecessarily obstruct the passage or use of the Right-of-way.
- 6.1.4. In the event SCL fails to comply with any of the conditions set forth in this Subsection, the City is authorized to suspend SCL's authority to operate under this Subsection by providing SCL ten (10) days advance written notice of such suspension and the basis therefore. SCL shall then have fifteen (15) days to correct its non-compliance and submit written notification thereof to the City. The City shall then either: 1) reinstate SCL's authority to operate under this Subsection, or 2) notify SCL that its authority to operate under this Subsection has been suspended. If suspended, after thirty (30) days SCL shall have the right to request that the City reinstate its authority to operate under this Subsection, which shall not be unreasonably withheld.
- 6.1.5. Emergency Work, Permit Waiver. In the event of any emergency where any facilities located in the Right-of-way are broken or damaged, or if SCL's construction area for their facilities is in such a condition as to place the health or safety of any person or property in imminent danger, SCL shall immediately take any necessary emergency measures to repair or remove its facilities without first applying for and obtaining a permit as required by this Agreement. During normal work hours, SCL however, shall verbally notify the Director as soon as

possible after the event of the need to perform emergency repairs. This emergency provision shall not relieve SCL from later obtaining any necessary permits for the emergency work. SCL shall apply for the required permits the next business day following the emergency work or as soon as practical.

- 6.1.6 Private Property Rights of Entry. On behalf of SCL, the City shall be responsible for obtaining all rights of entry, including permits, construction easements or temporary construction easements for any work SCL is required to perform on private property in connection with any City-initiated Right-of-way, street improvement, or Public Project.
- 6.1.6.1 SCL shall make a good faith effort to comply with the property owner/resident's preferences, if any, regarding the location or placement of underground facilities consistent with sound engineering practices.
- 6.1.7 Notice of Entry. At least ten (10) days prior to its intended construction of facilities, SCL shall inform all residents in the immediately affected area, that a construction project will commence, the dates and nature of the project, and provide a toll-free or local number which the resident may call for further information. A pre-printed door hanger may be used for this purpose.
- 6.1.8 At least twenty-four (24) hours prior to entering Right-of-way adjacent to or on private property to perform the installation, maintenance, repair, reconstruction, or removal of facilities, a written notice describing the nature and location of the work to be performed shall be physically posted upon the affected private property by SCL.

## 6.2 Abandonment of SCL's Facilities.

- 6.2.1 SCL shall not have any Abandoned Facilities in the Right-of-way without the prior written consent of the Director. As needed, but no more than twice annually, SCL shall provide the City with written notice identifying Facilities that SCL will designate as abandoned or will likely become Abandoned Facilities due to non-use, prior to the Facilities being Abandoned, along with a reasonable plan for removal of such Facilities. The removal plan shall also include the removal of utility improvements, equipment, or lines attached to SCL's Facilities. All necessary permits must be obtained prior to such removal work, which will be granted in an expeditious manner by the City.
- 6.2.2. The City may request in writing that SCL provide a determination as to whether certain Facilities are Abandoned Facilities. Such determination shall be made in SCL's sole discretion, and SCL shall provide written notice to the City of its determination within thirty (30) Days of the City's request.

## 6.3 Restoration After Construction.

- 6.3.1. Except as may be provided for in a separate project relocation or undergrounding agreement between the City and SCL, SCL shall, after any installation, construction, relocation, maintenance, or repair of facilities within the franchise area, restore the Right-of-way to at least the same condition it was in immediately prior to any such abandonment, installation, construction, relocation, maintenance or repair. Restoration must meet city code LFPMC 12.04.220 All concrete

encased monuments which have been disturbed or displaced by such work shall be restored pursuant to all federal, state and local standards and specifications. SCL agrees to promptly complete all restoration work and to promptly repair any damage caused by such work at its sole cost and expense.

- 6.3.2. If it is determined that SCL has failed to restore the Right-of-way in accordance with this Section, the City shall provide SCL with written notice including a description of actions the City believes necessary to restore the Right-of-way. If the Right-of-way is not restored in accordance with the City's notice within thirty (30) days of that notice, the City, or its authorized agent, may restore the Right-of-way. SCL is responsible for all costs and expenses incurred by the City in restoring the Right-of-way in accordance with this Section.

6.4. Bonding Requirements. SCL, as a public agency, is not required to comply with the City's standard bonding requirement for working in the City's Right-of-way.

6.5. Safety.

- 6.5.1. SCL, in accordance with applicable federal, state, and local safety rules and regulations shall, at all times, employ ordinary care in the installation, maintenance, and repair utilizing methods and devices commonly accepted in its industry of operation to prevent failures and accidents that are likely to cause damage, injury, or nuisance to persons or property.
- 6.5.2. All of SCL's facilities in the Right-of-way shall be constructed and maintained in a safe and operational condition.

6.6. Dangerous Conditions. Authority for City to Abate.

- 6.6.1. Whenever Facilities or the operations of SCL cause or contribute to a condition that appears to endanger any person or substantially impair the lateral support of the adjoining Right-of-way, public or private property, the Director may direct SCL, at no charge or expense to the City, to take actions to resolve the condition or remove the endangerment, with all necessary permits and authority granted by the City in an expeditious manner. Such directive may include compliance within a prescribed time period.
- 6.6.2. In the event SCL fails or refuses to promptly take the directed action, or fails to fully comply with such direction, or if emergency conditions exist which require immediate action to prevent imminent injury or damages to persons or property, the City may take such actions as it believes are necessary to protect persons or property and the SCL shall be responsible to reimburse the City for its costs.

6.7. Above-Ground Relocation of System Facilities.

- 6.7.1. Except as may be provided for between the City and SCL in a separate project relocation agreement or an undergrounding agreement pursuant to Section 7 of this Franchise, SCL agrees and covenants to protect, support, temporarily disconnect, relocate or remove from any Right-of-way its Facilities without cost to the City to the extent permitted by State law and when so required by the City, provided that SCL shall in all such cases have the privilege to temporarily bypass, in the authorized portion of the same Right-of-way and upon approval by the City,

any facilities required to be temporarily disconnected or removed. It is understood that conditions including, but not limited to, scope and complexity of a project, and the ability to gain necessary easements and permits, will impact the schedule for commencement and completion of a relocation project and that such conditions will be taken into consideration by the City when establishing timeline and sequencing for the relocation project.

- 6.7.2. If the City determines that a Public Project necessitates the relocation of SCL's existing facilities, the City shall:
  - 6.7.2.1. As soon as possible prior to the commencement of a project, but in no event not less than 90 days for Minor Relocation Projects and one (1) year for Major Relocation Projects, provide SCL with written notice requiring such relocation; and
  - 6.7.2.2. Provide SCL with copies of any plans and specifications pertinent to the requested relocation and a proposed temporary or permanent relocation for SCL's facilities.
  - 6.7.2.3. The City shall endeavor to ensure that all necessary permits and easements are issued to SCL in an expeditious manner so SCL may maintain the timeline established under this or separate Agreement.
  - 6.7.2.4. After receipt of such notice and such plans and specifications, SCL shall complete overhead to overhead relocation of its facilities at least ten (10) days prior to commencement of the project.
- 6.7.3. SCL's ability to accommodate such requests shall take into consideration alternatives with the least amount of interference to SCL's customers and operations, provide a more cost-effective alternative, or provide a more efficient or appropriate design or method for such relocation. SCL may, after receipt of written notice requesting a relocation of its facilities, submit to the City written alternatives to such relocation. The City shall evaluate such alternatives and advise SCL in writing if any of the alternatives are suitable to accommodate the work that necessitates the relocation of the Facilities. If so requested by the City, SCL shall submit additional information to assist the City in making such evaluation. The City shall give each alternative proposed by SCL full and fair consideration. In the event the City ultimately determines that there is no other reasonable alternative, SCL shall relocate its facilities as provided in this Section.
- 6.7.4. The provisions of this Section shall in no manner preclude or restrict SCL from making any arrangements it may deem appropriate when responding to a request for relocation of its facilities by any person other than the City, where the improvements to be constructed by said person are not part of a Public Project, provided that such arrangements do not unduly delay or increase the cost of a related Public Project.
- 6.7.5. Whenever any person shall have obtained permission from the City to use any Right-of-way for the purpose of moving any building or other oversized structure, SCL, upon fourteen (14) days written notice from the City that the use of the Right-of-way is permitted, shall raise or remove, at the expense of the

person or entity desiring to move the building or structure, any of SCL's facilities that may obstruct the movement thereof; provided, that the moving of such building or structure shall be done in accordance with regulations and general ordinances of the City. Where more than one path is available for the moving of such building or structure, the path of least interference, as determined by the City in consultation with SCL, shall be utilized.

6.7.6. This section applies only to Public Projects as defined in this Agreement. Any project requested or required by the City which does not meet this definition will be addressed through separate agreement between the parties.

6.7.7. If the City requires the subsequent relocation of Facilities within five (5) years from the date of relocation of such Facilities pursuant to this Section, then the City shall bear the entire cost of such subsequent relocation, except as provided for in Subsection 6.6 Dangerous Conditions, Authority for City to Abate.

6.8. SCL and City Maps and Records. Upon request, SCL and City mutually agree to provide each other with as-built plans, maps, and records without charge. Due to federal requirements, when the City makes a request for SCL records, City's request must set forth a legitimate business or governmental justification. Upon approval, such records will be provided to City in a format maintained by SCL. SCL reserves the right to withhold records or require City to sign a Non-Disclosure Agreement for the release of records which are deemed Critical Energy Infrastructure Information (CEII). CEII is defined as information that relates to the production, generation, transportation, transmission, or distribution of energy in which the release may cause incapacity or destruction that would negatively affect security, economic security, public health or safety, or any combination thereto.

6.9 Poles and Pole Attachments. SCL, subject to the applicable permit issued by the City as outlined in Subsection 6.9.4 of this Agreement, has the right to install, maintain, and remove poles in the Right-of-way. SCL will ensure poles are removed and replaced safely and maintained properly in the City's Right-of-way to protect the welfare of the general public. The City acknowledges that SCL has existing agreements with third parties regarding the use and sharing of poles. Existing agreements with third parties for co-ownership of poles govern the use of such poles and attachments by pole co-owners. SCL may require, and the City shall allow, that SCL and SCL pole co-owners be jointly named on necessary City Right-of-way permits. The City also acknowledges that SCL has separate agreements that govern pole attachments to such poles by third party renters.

6.9.1. SCL and SCL pole co-owners through their existing agreements with SCL shall remove all utility attachments and shall remove all poles prior to the poles becoming Abandoned Facilities, unless otherwise agreed to in writing with the City as outlined in Section 6.2 of this Agreement. SCL will use its rights available under existing written facilities use and ownership agreements with third parties to obtain timely removal of Abandoned Facilities.

6.9.2. SCL and SCL pole co-owners through their existing agreements with SCL shall not stage new or replacement poles in the City's Right-of-way more than thirty (30) days in advance of the pole installation or replacement.

- 6.9.3. If the City wishes to attach to a SCL owned or co-owned pole, the City must complete a pole attachment application and have a valid agreement with SCL.
- 6.9.4. Removal and installation of poles for which SCL is the responsible party must comply with the permitting requirements of Subsection 6.1.2.
- 6.9.5. SCL will provide the City with a listing of all authorized SCL pole co-owners and third party renters who have attached to SCL poles or SCL co-owned poles within the City. The list of SCL pole co-owners and third party renters will be updated annually by SCL.

6.10 Vegetation Management (VM). In accordance with City ordinances, SCL recorded easements, SCL policies and guidelines and all applicable law, including NERC requirements, WAC 296-24-960, RCW 64.12.035 and ISA Utility Pruning Best Practices, SCL has the authority to perform VM activities, which will be coordinated by an ISA certified arborist under the direction of SCL's Powerline Clearance Coordinator. VM activities include the maintenance of critical infrastructure, trimming and removing trees and other plant life, including shrubs and vines, to prevent interference with SCL's Facilities.

- 6.10.1 Annual City Vegetation Management Plan. SCL shall provide the Director and the City's Designated Tree Manager an Annual City Vegetation Management Plan by December 1 each year that identifies the general location of SCL's VM regularly scheduled maintenance plans for the coming year based on SCL's 4 year transmission and feeder trimming plan. These plans will be conducted in alignment with SCL's standards and practices.
- 6.10.2 VM Activity Notice and Permits. For scheduled maintenance, SCL shall provide the City with at least fourteen (14) Days advance written notice to the Director and the City's Designated Tree Manager prior to commencing VM activities in the City. The VM Activity Notice should be consistent with VM activities identified in the Annual City Vegetation Management Plan. The notice shall provide: 1) the locations of the VM activities and type of property (private property, City Right-of-way, or SCL property); 2) description of the VM activities, including tree topping or removal, if any; 3) required traffic control measures consistent with the Manual on Uniform Traffic Control Devices (MUTCD), if needed, including measures to maintain pedestrian access on City Right-of-way; 4) name and contact information of the firm performing the VM activities; and 5) the general timeline and duration of VM activities.

Along with providing the City a VM Activity Notice for scheduled maintenance, for each VM activity conducted in the City's Right-of-way, SCL or its contractors shall apply for and obtain any necessary permit from the City as described in sections 6.1.2 of this Agreement. The Permit application will include the information provided in the VM Activity Notice and other pertinent information that either SCL or the City deems useful for the issuance of the Permit.

- 6.10.3 Property Owner Notification. SCL shall provide advance written notice to the owner of the private property where SCL desires to perform VM activities, or to the nearest adjacent property owner where SCL is performing VM activities in the

City Right-of-way or on SCL Property. Said notice shall be in the form of a doorknob hanger or other City-approved communications method and shall contain a contact name, address, and telephone number where the property owner can obtain information regarding the VM activities and express concerns. This notice may range from several months to no less than 7 days prior to commencement of work.

- 6.10.4 VM Clearance Distances. Clearance Distances for VM between SCL's electrical facilities and the surrounding vegetation shall align with SCL's Distribution and Transmission Tree Trimming Construction Guidelines (standard number D9-80) and shall be in accordance with clearance criteria found in WAC 296-24-960 and RCW 64.12.035. Clearance distances for distribution (lines rates 50kV or below) and transmission (lines rated 51kV or above) power lines shall conform with utility, ISA and SCL best practices.
- 6.10.5. VM on Private Property. SCL shall take into consideration property owners' requests regarding the trimming of trees or plant life on their property without jeopardizing the safety or the operational reliability of their Facilities. SCL reserves the right to remove trees that are an imminent hazard, a safety hazard or by following the notification requirements of R.C.W. 64.12.035 when the property owner does not respond if the trees are identified as dangerous or hazardous trees.
- 6.10.7. VM in City Right-of-Way. Only SCL approved small growing wire -friendly trees will be planted under and/or adjacent to SCL Facilities on the City Right-of-way. Should inappropriate species be planted by the City, City will be responsible for removing such plantings at their expense.
- 6.10.8. Replacement and Restoration Requirements. SCL shall be exempt from the Right-of-way tree pruning, removal and replacement requirements in City. SCL shall generally offer Urban Landscape Tree Certificates rather than re-planting services, unless another mutually acceptable arrangement is agreed upon by both SCL and the City. Replacement certificates will follow these guidelines:
- All Urban Landscape Tree Certificates declined by residents will be made available to the City annually on or before May 1 to replace canopy at other City-owned property or rights-of-ways.
- For any tree removed City Light will provide as replacement a minimum of two Urban Landscape Tree Certificates for each tree being removed.
- Tree replacement will take into consideration the replacement tree's future growth and impacts to City Light critical infrastructure and access to such infrastructure.
- 6.10.9. Notice for Tree Removal. For trees in the City Right-of-way and on SCL Property that are identified for removal, SCL shall place signage on the tree at least ten (10) days in advance of the removal. Said signage shall explain that the tree is being removed and shall also provide an explanation for why removal is occurring.
